

# TELEGRAPH NEWS.

**LIVERPOOL, May 29.**  
No political news of importance.  
Haythornthwaite's 25th state that Sal-  
vador's adherents have reoccupied the fortress near  
Port Au Prince from the rebels and the in-  
habitants of the country are fleeing in all di-  
rections. Salvador is preparing to desperately  
resist the expected attack of the rebels.  
The British war steamer "Phebe" arrived at  
Port au Prince on the 18th, and was hailed  
by the Frenchmen with great rejoicings, but  
she sailed for Jamaica on the 20th.  
The Foreign Consuls still refuse to surren-  
der the refugees in the consulates.

**London, May 29.**  
At the Epson to-day Oaks stakes were  
won by "Formosa," time 2.40.

**Montreal, May 29.**  
It is understood that a number of officers of  
the volunteers have sent in their resignations  
in consequence of dissatisfaction at the pro-  
visions of the new Militia Bill.

The Adjutant General declined to submit  
them to the Governor General at a moment  
when the country was threatened with dan-  
ger.

Trade is dull and the country orders are  
lighter than usual, in consequence of the Fe-  
rian rumors.

**Ottawa, May 29.**  
Gunboats have been dispatched to patrol  
the river in the neighborhood of Prescott and  
Kingston.

**Clinton, Ontario, May 29.**  
A fire here yesterday destroyed several  
buildings. Loss \$25,000.

**New York, May 30.**  
Gold 139 3/4.

A Montreal special says that the utmost  
alarm was caused by the commanding General  
receiving telegrams of Fenians gathering at  
Buffalo and St. Albans.

A battery of Artillery has been ordered  
to the frontier and Volunteers on the frontier  
were under arms all day Friday.

Two Companies have left for St. John's.  
It is understood that the five hundred Fe-  
nians at St. Albans will receive arms and uni-  
forms from Boston.

A case of blasting fuse was seized at one  
of the wharves on Thursday night. The man  
in charge escaping after attempting to stab a  
policeman.

It is rumored that many of the Volunteers  
are Fenians who will fire on their officers on  
getting into battle.

Desertions are taking place at Prescott and  
the Garrison there is reported disaffected.

**New York, May 30.**  
Gold steady and unchanged.

Telegrams of the 26th from Ottawa con-  
tain the following:—

Adjutant General McDougall was yester-  
day at St. Armand, in the County of Missis-  
quoi, on the Vermont frontier, and reviewed  
about 300 volunteers.

The rumor is again revived here that there  
is to be a settlement of the Intercolonial Rail-  
way route shortly.

It is reported here to-day that Buckley is  
to be admitted to bail by direction of St. John  
A. Macdonald. The orange party here are  
bent on their denunciations of him. They ac-  
cuse him of cowardice. The "artful dodger"  
is evidently in a fix in trying to preserve har-  
mony between the Orange and the Green.

A private of the Rifle Brigade on guard at  
the goal to-day, was seen making signals to  
Whelan, and was in consequence put under  
arrest.

The turnkey of goal has been dismissed by  
the Sheriff, although an Orangeman, in con-  
sequence of his not exhibiting proper vigilance.  
Lacroix, the witness for the Crown against  
Whelan, was taken ill to-day at the goal,  
where he is detained for safety. He is not  
dangerously ill.

The witness Turner, who gave evidence  
against Whelan, while attending a ball last  
night, was inveigled outside and brutally beat-  
en by three men, two of whom were subse-  
quently arrested. Graham, another witness,  
yesterday received a threatening letter, with  
drawings of a coffin and pistol, and remarks to  
the effect that he was not forgotten, and that  
the Fenians never did things by halves.

**VOLCANIC ERUPTION AT HAWAII, SAND-  
WICH ISLANDS.**—A letter from Honolulu,  
Hawaii, dated April 13, and published in the  
Pacific Commercial Advertiser of the 15th ult.,  
gives a very interesting account of the  
fearful volcanic eruptions which occurred on  
the 7th and subsequent days at the above-  
named place. The valley just west of and  
opposite the Mamala Pail of Kalaka, was  
thoroughly covered with a pavement of fresh lava,  
from ten to twenty feet deep, thrown from a  
crater about ten miles up the mountain, which  
burst out on the morning of the 7th. This  
crater and stream had ceased flowing and was  
rapidly cooling. But at 5 o'clock in the after-  
noon of the same day, a new crater, several  
miles lower down, burst out with a heavy roar  
and a terrific crash. The inmates of several  
houses near by had barely time to escape with  
what clothes they had on before the houses  
were surrounded with streams of fiery lava  
varying from five to fifty feet deep.

Fortunately all the inmates escaped, but  
the path by which they did so was covered  
with lava within ten minutes after they had  
left it. The river of fire flowing from this  
crater varied from five hundred to fifteen hun-  
dred feet in width, with a descent of two thou-  
sand feet in five miles, and flowed at the rate  
of ten or twelve miles an hour. The scene is  
described as most brilliant, while it was a  
melancholy one to witness. Several herds of  
cattle grazing around the farm houses in  
the vicinity were swept away by the fiery ele-  
ment. The sufferings and alarm experienced  
by the residents of Kau, during the two weeks  
that the earthquakes and eruption continued,

appear to have been great. Night after night  
they were compelled to sleep on the mountain  
ridge back of the village, exposed to the cold,  
damp winds and rain from the sea, subsisting  
on taro and fishes when they could get these,  
or fasting when they could not. The whole  
district is in ruins, a field of desolation, and  
probably five hundred thousand dollars would  
not restore it to what it was a month ago.  
The number of deaths will be between eighty  
and one hundred. The exact number may  
not be known for some time, as some persons  
are missing whose absence may yet be account-  
ed for.

The Goderich (Ontario) Salt Wells are  
great institutions. There are eight of them in  
all, capable of furnishing salt enough to supply  
the Dominion for many years to come. The  
necessary buildings and furnaces are being con-  
structed; operations on a large scale will be  
commenced within three months. Quite re-  
cently a stratum of 15 to 20 feet thick, was  
pierced at a depth of 1,000 feet. An immense  
amount of drilling, digging, etc., has been done  
in this locality by interested parties, and all  
since January 1st.—[Telegraph.]

The American fishermen evade the law of  
their country by purchasing fish from Provin-  
cial fishermen and entering them in U.S.  
ports as caught by themselves. Mr. Brega-  
in the report laid before Congress, directs at-  
tention to this interesting feature, alleging that  
the U.S. law as it stands "gives all the advan-  
tages of the two dollar duty to the smugglers,  
and holds out a direct incentive to fraud."  
The people of the U.S. ought to know that  
the practice is still in full blast.—This spring  
American fishing vessels have made extensive  
purchases of the Nova Scotia fishermen, in-  
cluding large quantities at Digby and other Bay  
of Fundy ports.—[Herald.]

A large number of young men have left the  
State of Maine this spring for California and  
West for the purpose of settlement. We so  
frequently hear statements of parties who have  
left towns on the Kennebec river for the West  
and others from the Aroostook of their various  
progress, that we believe it will be found from  
the experience of these men that the greater  
or success has attended those in Aroostook  
than in the West, even in the point of prop-  
erty, and vastly more so when social and reli-  
gious life, health and civilization and the prospect  
of their offspring are concerned. We would  
not discourage any young man from the enter-  
prise of seeking the best opportunities for suc-  
cess, in any fitting locality, but but we would  
commend to the sons of Maine, a careful ex-  
amination and scrutiny of the chances of suc-  
cess, as offered by their own State and among  
their own people and with institutions which  
are familiar.—[Ken. Journal.]

[From letters received, the same arguments  
will apply here; many young men natives of  
this Province would like to come home again  
if they could.]

**The Standard.**  
SAINT-ANDREWS, JUNE 3, 1868.

A circular was received by the several  
Deputy Transurers through the Province, in-  
structing them that in the collection of ad val-  
orem duty on Molasses and a Sugar, they must  
recon the cost of the hogsheads or packages  
containing these articles and also include all  
shipping charges. This will give our direct  
importers an advantage, as the charges at the  
ports of shipment in the West Indies are much  
over than in the United States, besides they  
will secure a carrying trade to our own vessels,  
and it can be shown that the duties are a tri-  
fle under what they were in 1868.

The Hon. Mr. Tilley, C. B., and Mrs. Til-  
ley, came passengers, by the Boston, steamer  
Tuesday. Mr. Tilley looks well, and was re-  
ceived here with demonstrations of good feel-  
ing, as no doubt he will be by his constituents  
in St. John when he arrives there. There is  
no doubt that he will dispel the foggy calcula-  
tions of his opponents, and render such an  
account of his acts as a Minister of the Crown  
and legislator, as will be satisfactory to unpre-  
judiced minds. Mr. and Mrs. Tilley proceeded  
to St. Stephen, where he will sojourn for a  
few days, before visiting St. John. We may  
state from reliable sources, that he was offer-  
ing the Lieut. Governorship of New Brunswick,  
but magnanimously declined the lucrative of-  
fer. This is proof, that the statements set forth  
by the opposition that he was working for the  
situation, is without a shadow of truth. We  
believe, that up to the present, the office has  
not been filled up permanently, and that no one  
will be "very soon" gazetted as Governor of  
New Brunswick. Col HARDING is adminis-  
tering the government very well for the pres-  
ent.

The Steamer, New York, Capt. CHISHOLM,  
is again upon the line between Boston and St.  
John. This splendid vessel has recently been  
refitted and painted, in the best style, and has  
all the modern improvements. The "New  
York" has always been known as a fast steam-  
er, and her commander, H. W. Chisholm, is  
one of the most genial and careful Captains.—  
Her days of leaving Boston are Mondays, and  
St. John Thursdays.

His Honor Judge WILMOT, at the close of  
the St. John Circuit Court, took leave of the

Bouch and Bar in appropriate terms. His  
Honor has retired after seventeen years of ser-  
vice.

The Steamer "Bella Brown" is again upon  
the route from Eastport to Calais, and has  
been newly painted, and fitted up in such style  
as to command success; this, with the fact,  
that she is commanded by Capt. PRINCE, and  
her clerk Mr. LITTLEFIELD, is so obliging and  
attentive to passengers will render this steam-  
er deservedly popular.

The Parish School we are pleased to learn,  
will be opened in a few days, after having been  
closed for the last few months. The Trustees  
we understand, have secured the services of  
a successful and competent teacher.

The FENIANS are again threatening the  
Canadian frontier; from the reports, they ap-  
pear to be better organized and more deter-  
mined (in their own words)—"to wound the  
British Empire in a more tender point" than  
on previous occasions. It is said also that the  
attacking force will be composed of "Veterans"  
who have been under fire, and will give a  
good account of themselves. The Canadians  
however are prepared for them, and will give  
them a warm reception.

What has been done in New Brunswick  
towards preparing for such an emergency?  
Nothing, positively nothing; and it behoves  
our local Government to make some provision  
for placing the frontier in a state of defence.  
The selection of a competent officer who has  
seen service, has had experience, and possesses  
administrative ability, who would not unnece-  
sarily expend a large amount for mere display  
—in a word—an officer who could improvise  
an army of defence, is required. A military  
friend has suggested, that the appointment of  
Colonel ALEXANDER, who so ably discharged  
the duties of Commander at the Front, in 1866,  
would be most judicious and popular, if he  
would accept the office. We endorse the sug-  
gestion, feeling confident the Colonel has tact  
and ability, and his popularity is such, that  
men would enroll themselves under him, as-  
sured that he knows his duty and would per-  
form it.

We are no alarmists, but there is an old  
adage—"in time of peace prepare for war,"  
and prompt action may save trouble and ex-  
pense.

**THE NEW ENGLAND ANTI-SLAVERY SO-  
CIETY.**—The thirty-eighth annual convention  
of this body was held in Boston Thursday.  
Wendell Phillips presented a series of resolu-  
tions one of which we give, as a specimen  
of the style and animus of the Anti-Slavery  
party:—

Resolved,—That in the drunken man, the  
dishonored magistrate, the vagabond brawler,  
the treacherous chief, the stirrer up of sedition,  
the mobocrat, the patron of counterfeiters,  
the pardoner of murders, the usurper of dan-  
gerous powers, the conspirator against the  
peace of the nation and the execution of the  
laws, the libeler of Congress, consorting with  
rebels, in all these the nation find a President  
guilty of "high crimes and misdemeanors," and  
recognizes in those who vote him innocent  
only his comrades and tools.

**HERRINGS FOR SCOTLAND.**—A letter from  
the Magdalen Islands, dated May 1, says:—  
"Among the fishing vessels arrived in one from  
P. E. Island, and the Master of which is go-  
ing to put up herring for the Scotch market  
(Glasgow). He requires 600 barrels for this  
year, and he has his own men to pack the fish.  
He will take fish to Prince Edward Island,  
and from there will ship them by some large  
vessels bound home."

**A WISE RICH MAN.**—Mr. Richardson, the  
former owner of the now famous Richardson  
mine considered his rocky farm worth about  
\$400, but he received \$73,000 for it, and in-  
stead of spending his easy got cash in riotous  
living went to farming the next year as if  
nothing extraordinary had occurred. He has  
purchased some fine farms in the township of  
Bruce and there he and his four sons labor.

Whelan's friends remain true to their "reca-  
tion." On the 26th ult., the following occur-  
red:—

The witness Turner, who gave evidence  
against Whelan, while attending a ball on the  
25th ult., was inveigled outside and beaten  
by three men, two of whom were subsequent-  
ly arrested. Graham, another witness, yester-  
day received a threatening letter, with draw-  
ings of a coffin and pistol, and remarks to the  
effect that he was not forgotten, and the Fe-  
nians never did things by halves.

Mr. Buck's surveying party from the To-  
bique upward is making good progress. They  
met Mr. McLennan's party which is working  
downward the rear of the Green River Moun-  
tains.

The U.S. House of Representatives, last  
week, took another step forward in the work of  
Reconstruction.—Mr. Stevens reporting a bill  
to admit the State of North and South Caro-  
lina, Louisiana, Georgia and Alabama, to re-  
presentation in Congress when the Legislatures  
of said States, respectively, shall have duly  
ratified the amendment to the Constitution of

the Thirty-ninth, Congress, and known as ar-  
ticle fourteen.

**ITEMS.**

Mr. and Mrs. Bolton returned home from  
Ottawa on Friday's boat which did not reach  
the wharf until Saturday morning.—[Saint  
Croix Courier.]

Lieutenant-General Airey is gazetted to  
the Colony of the 7th Foot, and Major-  
General Gratton to the Colony of the 17th  
Foot.

The New York Tribune says: The man  
that did more than all others—unless in a pe-  
cuniary way—to secure the acquittal of Presi-  
dent Johnson was Chief Justice Chase.

The corner stone of the new Catholic  
Cathedral, in Brooklyn will be laid on the  
third Sunday in June. The building, it is es-  
timated, will cost \$1,200,000.

A young machinist in Detroit has made a  
locomotive engine and tender complete about  
four feet in length and weighing only 300  
pounds.

A dispatch from Lake City, Fla., says a  
few days ago nearly two acres of a farm in  
Hamilton County suddenly sunk to the depth  
of fifteen feet below the surface of the sur-  
rounding land. It immediately filled with  
water and submerged the tops of the tallest  
trees. The ground is still sinking, and now  
covers four acres. The streams and creeks  
lose themselves in the surrounding country.—  
They forced an outlet in this way. Sinks oc-  
cur occasionally, but this is the largest and  
deepest.

A family of five persons residing in  
Springville, N. Y., were all poisoned last  
week by eating a pudding made from the  
milk of a diseased cow, which died soon  
after being milked. One of the family, a  
daughter, 20 years of age died, but the rest  
will recover.

A heavy storm prevailed at Havana Fri-  
day doing heavy damage to buildings and  
fields. Pieces of wreck and pipes of wine  
have been picked up along shore and floating  
in the Gulf.

The numerous friends of Capt. Hall, R. N.,  
formerly commander of H. M. S. Fawn, will  
be much pleased to learn that he has recently  
been appointed Captain of H. M. S. "Octavia,"  
Flag-ship, East Indies.

In Penfield, Conn., there is a child seven  
months old who can talk so as to be distinctly  
understood.

The grading of the E. & N. A. Railroad  
has been commenced at Lincoln, Enfield and  
Passumpsung, and the force is being daily in-  
creased.

A boy while fishing on the railroad bridge  
at Patterson, N. J., Friday, had his head cut  
off by a railroad train. His body fell into the  
river and was lost, the head only being saved.

The income of Wm. B. Astor is five dol-  
lars a minute! \$7,200 per day. He ought to  
have very comfortable on this income, but we  
doubt if he enjoys life better than most of  
men.

An oyster which measured 23.32 inches  
was recently caught with a hook by one of the  
crew of a Gloucester fishing schooner and  
weighs 23.4 pounds. This a fish story and may  
be taken with a grain of allowance.

A stamp has just been issued by the  
Canadian authorities which will prove an ac-  
quisition to stamp collectors. It consists of a  
beautiful executed portrait of the Queen in  
wedding's attire, and wearing the familiar Mary  
Stuart cap.

A church for the deaf and dumb is to be  
erected in London.

The Lawrence Mills, at Lowell, have 163  
knitting machines in constant operation, and  
turn out 12,000 pairs of hose per day.

Gen. Lee is a delegate to the Virginia  
Episcopal Convention.

A little child, about five months old, was  
found unharmed in the wreck of the cars at  
the Erie Railroad disaster, and as no one  
has appeared since to claim the child it has  
been adopted by a family at Port Jervis.

The tickets for the Rev. Mr. Funsion's  
lecture at Detroit, were in great demand at \$5  
each.

A lady has just been expelled from one of  
the New York church choirs, for repeatedly  
reading novels during service.

A young lady in New York secured the  
first cholera of the season by eating six pickles  
before going to bed.

It is stated that the retail sales of intex-  
icating liquors in the United States amount to  
nearly as much as the total value of all the  
railroads in the country, with their equip-  
ments, which are estimated at \$1,634,050,  
799.

**THE WAGES OF WORKINGMEN.**—What-  
ever may be the injustice of the wages paid  
the workingmen of our country, there can be  
no denial of the fact that 25 cents paid for a  
box of Graco's Celebrated Salve is one of the  
best investments a family can make. This  
remedy, for all cutaneous diseases, and eruptions  
generally, has no equal.

**MARRIED.**  
On Thursday, 28th ult., by Rev. Ronald E.  
Smith, Rector St. George & Penfield, at the  
residence of the bride's father, Margaret, daugh-  
ter of Mr. William Crickett, Penfield, to Mr.
