

## He Sneezes!

The Czar Said to be Suffering From Influenza.

Sir Charles Tupper Taken Ill On a Train.

Parisian Workmen Vote to Share Their Time With the Unemployed.

Twenty-Six Tons of Silver Around a Church Altar—Some of Samoa's Residents Ask for Annexation to Germany—A British Trade Dollar Suggested.

### The Czar Sneezes.

ST. PETERSBURG, Aug. 22.—The Czar is suffering from a slight attack of influenza.

### A New Silver Dollar.

LONDON, Aug. 22.—Reports are current that the Indian mints are probably going to coin a British trade dollar to take the place of a Mexican dollar.

### Brotherly!

PARIS, Aug. 22.—Fifty trades unions of this city have voted that their members shall work on short time in order that employment be furnished to workmen who are idle. The number of these unemployed workmen is very large.

### Shut Out by Cholera.

ST. PETERSBURG, Aug. 22.—The Czar has countermanded the orders for holding the army maneuvers at Smolensk, owing to the prevalence of cholera.

BERLIN, Aug. 22.—The imperial health commission has been notified of the occurrence in Danzig of five new cases of cholera. The disease has made its appearance at Kattowitz, in Prussian Silesia.

### Samoa and Germany.

BERLIN, Aug. 22.—A petition to the Emperor, signed by the German residents of Apia-Samoa favoring the annexation of the Samoan Islands by Germany, declares that the establishment of the joint Anglo-German protectorate in the event of the United States withdrawing from the tripartite agreement would lead to the extinction of German interest in the south seas.

### Taffy for Tars.

COWES, Aug. 22.—The Prince of Wales mustered the crew of the Britannia this afternoon shortly before his departure for Hamburg. He commended all for their excellent performance of their duties, and presented to Capt. Carter a pocket encrip compass inscribed: "A present from the Prince of Wales to Capt. Carter in recognition of the Britannia's winning six successive races from the Vigilant."

### Sir Charles Tupper Ill.

LONDON, Aug. 22.—Sir Charles Tupper, the Canadian High Commissioner, while returning from a visit to Scotland, was taken ill on the train. His attendants advised that he should be taken from the railway carriage and placed under medical treatment, which was done as soon as the train drew up at the ancient Episcopal city of Chester, some sixteen miles from Liverpool. Sir Charles caught a chill while journeying on the train, but his physicians express no fear of his ultimate recovery.

### Pitcairn Islanders in Hard Luck.

SAMOA, Aug. 22.—The Pitcairn Islands are having bad times nowadays. Eighteen months ago a party of American Seventh Day Adventists exploited the Society and Paumotu groups, and in their schooner, the Pitcairn, visited the lonely little island and converted the people from "hardened Christianity" into Seventh Day Adventism. The mission schooner brought dysentery, diphtheria, measles and influenza; and now comes the news that many of the miserable survivors (about 70) have been attacked with malignant typhoid, to which twelve persons have already succumbed.

### Conflicting Stories of Conflicts.

LONDON, Aug. 22.—The Central News is authority for the statement that the officials of the Japanese deny that there has been any engagement recently either on land or at sea between the forces of Japan and China. The officials declare also that the dispatches to the Standard from Berlin referring to Count Ito's remarks concerning the interest of Japan and Russia in the completion of the Siberian Railway was an invention of the Chinese embassy at the German capital.

A dispatch from Shanghai states that some unfortunate skirmishes have taken place on the great road north of Pong San between Chinese and Japanese forces. The positions of the Japanese troops are unchanged and all the passes are strongly held by Japanese soldiers.

A dispatch from China says the Chinese papers contain reports of a battle near Ping Yang in which 25,000 men on each side were engaged. The Chinese, the dispatch adds, claim to have defeated the Japanese forces.

Li Hung Chang has ordered the mobilization of the northern, southern and central Chinese fleets in the Gulf of Pa Chi Li. A Chinese fleet is conveying a number of troop ships and coal ships from Taku to Port Arthur.

The Japanese nobles have subscribed \$80,000,000 as a fund to be used in the prosecution of the war. This bears no interest.

GLASGOW, Aug. 22.—A protest has been entered by the Japanese consul in this city against the order issued on Aug. 20 by the Earl of Kimberley directing the customs authorities to seize and detain the steamer Islam, which was recently purchased by his Government, is not intended for use as a cruiser.

A dispatch to a London news agency states that the King of Corea has declared himself independent of the Chinese Government and has applied to Japan for assistance to expel the Chinese from the country.

The acting Korean minister to the United States, Ye Sung Soo, and Jang Hong Whan, second secretary of the legation, are on their way to San Francisco, whence they will sail for their native country.

Concerning the war between China and Japan, Jang Hong Whan said, "I do not think the war will last long. Japan has better drilled soldiers than China, but the latter country has greater resources and more men. That is why Japan is getting all the victories it can now." He refused to say anything regarding the position of Corea in the war.

Neither the Foreign Office in London nor the Chinese legation has received any news of the battles mentioned by the Times correspondent this morning. The Chinese officials say that Gen. Yeh, who formerly commanded the Asen, has joined his force of 2,000 men to the Chinese northern army at Pung Yank. The success of this movement, the Chinese say, proves the Japanese troops in Corea are either weak or negligent.

BERLIN, Aug. 22.—The officials of the Japanese legation here understand that Admiral Fremantle, the British naval commander in East Asiatic waters, has advised his Government not to claim indemnity for the sinking of the Kow Shing.

## TELEGRAPHIC DOTS.

Jabez Spencer Balfour's appeal against extradition has been rejected by the higher court at Buenos Ayres.

There is now only one distillery in operation in Chicago, the whisky trust having closed the others.

Lakouche's Truth says that the wedding of the Czar and Princess Alix of Hesse has been postponed until January or February.

The Daily Chronicle's Vienna correspondent says that King Alexander of Serbia is about to abdicate the throne in favor of his father, Milan.

Ground has been broken at the New York end for the construction of a bridge to Blackwell's Island. The total length of the bridge will be 2,835 feet.

The whisky tax paid at revenue office in Louisville, Ky., on Tuesday, amounted to \$411,403. At Cincinnati nearly \$1,000,000 was paid in for whisky.

The Monmouth (N. J.) battle monument, which cost \$40,000, was struck and seriously damaged by lightning in the recent storm. The statue is broken and the capstone split.

Vivian Burnett, the original of Frances Hodgson Burnett's book, "Little Lord Fauntleroy," is lying critically ill with typhoid, at the residence of his father, Dr. Burnett, in Washington. He is tall, handsome and 17 years old.

## FOOD FOR FLAMES.

Two Blocks Burned at Bowling Green, Ky., Entailing a Loss of \$10,000.—Other Fires.

BOWLING GREEN, Ky., Aug. 22.—Two entire blocks were burned here this morning. Incendiaries are suspected. Loss, \$150,000; insurance, one-half.

NEW CASTLE, Ont., Aug. 22.—A disastrous fire occurred about one mile west of this place today. The barn, stable, out-building and large brick mansion of the late Col. Allan Wilmut, now occupied by his son, Mr. A. S. Wilmut, fishery manager here, were burned to the ground.

PLATTSVILLE, Ont., Aug. 22.—At about 2 o'clock this morning the large flour mill of Lewis Marshall, half a mile south of here, was burned to the ground and all the contents destroyed. Loss about \$15,000. Insurance \$6,000.

## PERTH AND HURON M.D.'S.

Dr. Wm. Graham, of Brussels, Honored by Their Suffrages.

CLINTON, Aug. 22.—A meeting of the medical men residing in the counties of Perth and Huron was held here today to select a candidate to represent this division at the coming election of members of the Ontario Medical Council. In January last Dr. Bruce Smith, of Seaford, was selected as the candidates, and his election was a foregone conclusion until a few days ago, when, by accepting the position of resident physician at Orchard House in connection with the Hamilton Asylum, his removal from the district made the selection of another candidate necessary. The meeting was largely attended, and after some discussion Dr. Wm. Graham, of Brussels, received the unanimous nomination, and his election will likely be without opposition. A resolution was presented to the retiring candidate expressing the regret of the association at the termination of relations which have hitherto so pleasantly existed between Dr. Smith and his fellow-practitioners in the Huron district. The members present expressed themselves as heartily in favor of maintaining the medical council but strong opposed to the scheme of bounting a medical journal to support that body.

## LAURIER AT BRAMPTON.

Liberals in Line—The Chief's Progress Warmly Welcomed.

BRAMPTON, Ont., Aug. 22.—Brampton is en fête today. At an early hour the crowd began to arrive and at this time of writing upwards of 3,000 visitors are present, which will be materially augmented by 2 o'clock. The merchants, both Liberals and Conservatives, are decorating their places of business with flags, bunting, etc., reserved for ladies, and the speakers' platform faces it, while the space between will be occupied with men. At 1 o'clock the procession formed, headed by the Brampton band, and proceeded to the depot to meet the distinguished gentlemen. Promptly on time the train drew into the depot amid the cheering of the thousands of enthusiastic Liberals present. A short address was presented to Mr. Laurier, introductions to a few of the leading Liberals made, when the procession formed and marched through the town. There must be 2,000 Liberal voters in line. They are now at the grounds, where speaking is to be held.

## Lost His Fingers.

BLENNHEIM, Ont., Aug. 22.—Hamilton Nicholls, late of Chatham, had all the fingers of his right hand cut off while working at a shaping machine in Smith's saw factory here this morning.

## The Deadly Crossing—Five Killed.

PARIS, Tenn., Aug. 22.—As a Paducah, Tennessee and Alabama Railroad north-bound train was nearing Hazel, Ky., about fifteen miles north of Paris, this evening, a passing crossing it struck a wagon loaded with people, and five of the occupants met their death, as follows: Miss Jennie and Lillie Ray, aged 18 and 20, daughters of J. T. Ray, his son Tobe Ray and two young ladies, the Misses Hanson.

## DEBS' PLAN

Does Not Suit Some of the Labor Organizations.

The Chicago Strike Cost Unle Sam \$300,000.

WASHINGTON, Aug. 22.—United States Marshal Arnold, of Illinois, has come to Washington to settle his strike accounts with the Department of Justice. The accounts, which aggregate about \$300,000, will be liquidated as soon as the formalities have been complied with. Mr. Debs and his followers, Mr. Arnold thinks, will now join hands with the Populists. The American Railway Union was wrecked, said Mr. Arnold.

CLEVELAND, Aug. 22.—F. S. Ingraham, first grand engineer of the Brotherhood, when asked what he thought of the scheme to consolidate all railway unions, laughed at it as too ridiculous even for consideration.

COLUMBUS, Aug. 22.—Secretary McBryde, of the United Mine Workers, said: "Debs' idea is correct, but I doubt that it would be adopted at the time."

KANSAS CITY, Aug. 22.—Miles W. Barrett, formerly grand master of the Switchmen's Mutual Aid Association, does not approve of the proposed disbanding of all the old labor organizations for the purpose of forming a general organization of all crafts. As labor is now constituted all crafts will not fuse.

FALL RIVER, Mass., Aug. 22.—The splinters at the Sanford Spinning Company's works struck today, refusing to work under a further reduction. About 3,260 spinners and 4,500 weavers are out of work.

CHICAGO, Ill., Aug. 22.—Gov. Altgeld and Mayor Hopkins this morning decided on a plan of relief for the starving Pullman strikers. The scheme is to secure the aid of the railroads by their furnishing free transportation to all those who desire to seek work in other parts of the country.

CHICAGO, Aug. 22.—Arel Langgruen, Pullman employe, testified today before the labor commission. He thought he had been fairly treated by the Pullman Company. Employees, he said, were not afforded an opportunity to tell their grievances; that was the main difficulty. He returned to work at Pullman after the strike, and was obliged to sign an agreement to have nothing further to do with the American Railway Union in order to get back his position.

John Fitzgerald, assistant firemarshal of Chicago, had a list of cars, towers and other railroad property burned, showing great loss to the railroads. The oldest person he ever saw setting fire to cars was 19 years old, all the rest were mere boys. He had seen no railroad employes doing incendiary work.

Dr. John McLean, of Pullman, told the attitude of the company towards the men injured while at work. His duty was to care for all such men until they recovered. He said the company paid the expenses at a hospital down town of all men hurt while in its employ. Dr. McLean asserted that the trouble at Pullman was in a measure due to the use of liquor by the employes. In 4,000 cases of injury the witness had never seen the company refuse to pay all expenses connected therewith, besides drug store bills amounting to \$1,700 annually.

An evening paper says that Pullman has recognized the Brickmakers' Union at Pullman and Roseland, and the strike in that branch of the concern will soon be over.

## NOTES.

The Trades and Labor Congress of Canada will assemble in Ottawa early in September. It is not improbable that an amalgamation will be suggested with the Patrons of Industry for political purposes.

## LAKE ERIE SHIP CANAL.

Engineer Roberts Estimates It Would Cost \$25,000,000.

PITTSBURG, Pa., Aug. 22.—The provisional committee appointed to devise ways and means for the construction of the Lake Erie ship canal between the Ohio River and the lake met here yesterday. Col. T. P. Roberts, engineer of the Monongahela River Navigation Company, asserted that water supply tributary to the canal is four times greater than needed, and can be reached at a cost of \$600,000. The cost of the canal would not exceed \$25,000,000. It would have a capacity of 15,000,000 tons per annum, double the present tonnage of the railroads covering the same territory.

John E. Shaw estimated that the commercial interests and population of the territory through which the canal is to pass would double and the railroads would really be beneficiaries of the improvement. An executive committee has appointed to prepare a statement for the public. The provisional committee will meet again Sept. 4.

## Fire at Paris, Ont.

PARIS, Ont., Aug. 22.—Last evening a fire was discovered in the boiler house of Gillies Bros' lumber yards at Paris station. The fire spread very rapidly and consumed nearly all the lumber, shingles and laths on hand, besides partly destroying a large quantity of coal. The office and engine house also suffered. The large buildings adjoining were saved by the prompt action of the fire company. Loss estimated at \$5,000.

## ALL MEN

Young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headaches, pimples on the face and body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, speaks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weakness and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes, surrounded with leaden circles, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity unless cured. The spring of vital force having lost its tension every function wanes in consequence. Those who through base committed in ignorance, are permanently cured. Send your address and 10c in stamps for book on diseases peculiar to men, sent sealed. Address M. V. LUBON, 24 Macdonnell avenue, Toronto, Ont., Canada. Please mention this paper.

## THE COMING CONFERENCE.

Preaching Appointments in This City During the Meeting of the General Conference of the Methodist Church.

JOSEPH R. GUNDY, Chairman Ministerial Association.  
E. B. LANCELEY, Secretary, pro tem.

## A TREMENDOUS BRIDGE.

Work Begun on a New Structure at New York.

NEW YORK, Aug. 22.—Ground has been broken at the New York end of the new Blackwell's Island bridge, which is to furnish the Long Island Railroad an entrance into New York city. There was no ceremony about it. The first act was performed by an engineer and gang of men who were set to work marking out the location for the pier on the New York side, at the foot of Sixty-fourth street. The bridge will have a capacity of four railroad tracks, if need be, besides a roadway and footwalks on either side. The spans over both channels of the river will each be 853 feet. The span on the island will be 635 feet between the centers of the piers. The distance between the centers of the two extreme piers will be 2,853 feet.

It will reach squarely across the river, touching the Long Island shore at Ravenswood and forming a junction with the Long Island Railroad at Sunnyside, midway between Long Island City and Woodside.

The approach on the Long Island side will be by a steel viaduct. In order to furnish a more direct route to Manhattan and Brighton beaches a "cut-off" will probably be built connecting with the Manhattan beach division of the Long Island road.

It is calculated that passengers from Union station at Third Avenue and Sixty-fourth street, New York City, can reach Manhattan beach in 40 minutes without changing cars. This is a reduction in time of more than 50 per cent. The most of the present routes there are disagreeable changes.

When the New York and New Jersey bridge is completed, the Long Island road will be able to tap directly all the great roads entering in New York.

## Steamship Arrivals.

AUG. 22. At From.

McKEE RANKIN STRANDED.

Shortage in the Treasury Leaves His Company in British Columbia.

VICTORIA, B. C., Aug. 22.—McKee Rankin, original owner of "The Danites" and creator of the French-Canadian character of John Baptiste Cadieux in "The Canuck," is at present experiencing one of the downs in the series of ups and downs supposed to make up an actor's life. He has been in Vancouver for some time with the members of his company, who are unable to continue their tour because of a collapse of the treasury. They are to present "The Canuck" at the Imperial Opera House in hope of realizing enough to continue the journey homeward.

### CURED TO STAY.

Dr. E. A. Rose Disappoints the Doubters—He Once Had Diabetes, But Has It No More—Attending to His Big Practice.

PORTLAND, Ont., Aug. 20.—The account which appeared in many Canadian papers a few months ago of Dr. E. A. Rose having been cured of diabetes by Dodd's Kidney Pills, attracted widespread attention at the time. Many doubters, though, protested that the cure was not permanent. The best proof of this fact that these doubters were wrong is the fact that for a year back, Dr. Rose has been attending to his practice, which was always a large one, in this village and the surrounding country, and has never had any return of the disease. His health is first-class, and the doctor is not compelled to take any of the precautions as to diet or otherwise, that are always ordered for people threatened or troubled with diabetes.

### Puts Out Both His Eyes.

CRAWFORDVILLE, Ind., Aug. 22.—A young man named Israel Blair, of this city, was slacking some time when it exploded and put out both his eyes and burned him terribly. He is 18 years of age and of a prominent family.

### The Terrible Thresher.

ROCKFORD, Ill., Aug. 22.—A threshing machine on Hiram Berkemith's farm, three miles south of Byron, Ill., exploded yesterday. Hiram Berkemith was blown to pieces and Ross, a boy named Elman. Three farm hands were fatally injured. Three others were badly wounded.

### Apply the Same Standard.

I know not when the day of election will come. I am not in the secret of the false gods whose heaven is at Ottawa. But if when it does come the people of Ontario will insist on the same measures and the same rule being applied to the Dominion that they apply to the Province, the fate of those false gods at Ottawa is sealed, and sealed for ever. (Loud cheers.)—(Hon. Mr. Laurier at Brantford.)

The people quickly recognize merit, and this is the reason the sales of Hood's Sarsaparilla are continually increasing. Hood's is "on top."

A wrecked hope is often simply a rebuke. Sarsaparilla rarely takes all its stings with it.

The great lung healer is found in the excellent medicine sold as Fickie's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

Take your prescriptions and send your receipt to Wynand's news drug store, 464 Dundas Avenue, corner Mainland street.

## WESTERN ONTARIO.

### A Child's Narrow Escape from Strangulation.

Redoubt Attack a Young Man on the Port Stanley Road—Pork and Fruit Plentiful in Essex.

Mr. Emley, for many years inspector of the B. N. A., has been appointed manager of the Brantford branch in succession to Mr. Robertson.

A very pleasant family reunion occurred at the home of Mr. George Vogan, Garrick township, Bruce county, on Monday, Aug. 13. Mr. Vogan was born in county Cavan, parish of Drumgoolan, Ireland, in 1815. After receiving an education he taught for about three years, after which he emigrated to America. Arriving in New York he was employed for some time in Rondout, from whence he removed to Durham county, Canada, where he again obtained a school. While there he met Miss Sarah Braden, whom he afterwards married, and who was able to enjoy with him the family gathering. As a result of this union thirteen children were born, all of whom are living, except one, who died in infancy. As stated above the family met and enjoyed a quiet day with their parents on the beautiful estate. During the day the group was photographed. Among those living at a distance are: Mrs. J. Ramsay, London; Mrs. S. Wherry, Atwood; Mrs. J. Brooks, Belgrave; Harry, of Woodstock; Samuel, of Havelock; George, of Georgetown; Millbank. It is hoped they may all live to meet again.

The long distance metallic circuit which the Bell Telephone Company has been constructing from Windsor to Amherstburg has been completed, and on being tested worked satisfactorily.

Tisbury West fall fair will be held in Comber on Friday and Saturday, Oct. 12 and 13.

In future Windsor police court litigants must make a deposit on laying an information.

Fred Neal, of Sandwich, has been elected deputy grand chancellor by the past grand chancellor of Essex county, at a meeting of the Knights of Pythias. He succeeds H. E. Young, who declined being appointed for another term.

An Essex correspondent writes: While it is true that there has suffered from drought, still there will be sufficient to prevent much outside buying on the part of the farmers. Essex this year, as usual, produce an abundance of pork and fruit.

Quite a sensation has been taken near Lexington. One Thomas Rumbert is accused of alienating the affections of Jefferson Foster's wife.

The Messrs. Selkirk, sawmill men, of Blythwood, have purchased largely of timbered land in Missouri, and have shortly to look after their interests.

A bustling young merchant is J. C. Barrows, of Blythwood. He has shipped over 15,000 dozen of eggs in sixteen months. City Engineer DeGurse, of Windsor, is seriously ill.

The only son of A. Nestman, of the Essex House, Windsor, died on Tuesday of typhoid fever.

Joseph Evans, of Woodville, fell down stairs Tuesday and received injuries from which he cannot recover.

Charles Stammers, of Morpeth, has been appointed wharfinger at that place, in the room of Thomas McCallum, removed.

Elvin Per, charged at St. Thomas with stealing \$300 from Mr. W. H. Milligan, his employer, was acquitted of the robbery by Squire Condon and H. W. McKay.

Port Tyconnell—The Methodists of this parish will hold an open air meeting on the "Heights" next Sunday, Aug. 26, at 10 a.m. and 2 p.m. Rev. J. E. Moore, of Dutton, and others will preach. A big crowd is expected.—Prof. McDonald and wife have been engaged to give a concert here Sept. 4. They are famous singers.—Rev. J. E. Moore and family camped here last week.—The floral service in the Methodist Church last Sunday morning was very attractive. The large congregation listened to a discourse by the pastor on "The rose of the valley," the lily of the valley.—Miss Annie Freeman, of Bismarck, has been visiting Miss Dora Green, of this port.

The Tisbury East ratepayers, assessed to the union school section, Chatham, are asking Tisbury East Council to assist them in paying their school rates.

The semi-annual convention of the Young People's Christian Endeavor Society of Essex and Kent will be held in the Presbyterian Church, Tisbury, on Sept. 18.

The assessor's roll gives Tisbury East a population this year of 2,813, against 2,758 last year.

Rev. Roger S. W. Howard, B.A., of Watford, late curate of All Saints' Church, Watford, has been appointed rector of the parish of Moorstown, Court-right and Cornuana.

Tuesday evening, when Albert Latham, who is working for G. Elliot, Pond Mills, was coming home from London on the Port Stanley Railway, he passed two young men. When Latham was about 20 or 30 feet past them he was struck on the back of the head with a stone or some other hard article. He was knocked senseless, and when he recovered the pair were standing beside him. It was not taken. One of the men is known, but the case will be dropped, as he intends starting for a trip to England this week.

Surveyors are quite common in the United States. Commissioner Graves yesterday, the charge against the members being reduced from piracy to that of robbing a vessel on the high seas. The result was that Gray, Willis and McLaughlin were discharged; Capt. Cooper, of the *Florida*, was held on \$500 bail; Johnson was held on \$1,000; Murphy was held on \$200 bail. The attorneys for the defense claimed that there is no law by which to hold any of the men except perhaps Johnson, who took Gilman's purse and a hatchet from his boat.

NEW YORK, Aug. 22.—Brigham Young, of Salt Lake City, who is supposed to be descendant of the Mormon Apostle, has been locked up in Jersey City for making overtures to young women. His is 73 years old, but is tall and stalwart.

The "Piracy" Case. DETROIT, Aug. 22.—The six men of the crew of the schooner Emma, charged with assaulting and robbing the boatman, Gillman, of Moorstown, out of some money and a hatchet, while both vessels were alongside of the Canadian shore, at Port Stanley, were examined before United States Commissioner Graves yesterday, the charge against the members being reduced from piracy to that of robbing a vessel on the high seas. The result was that Gray, Willis and McLaughlin were discharged; Capt. Cooper, of the *Florida*, was held on \$500 bail; Johnson was held on \$1,000; Murphy was held on \$200 bail. The attorneys for the defense claimed that there is no law by which to hold any of the men except perhaps Johnson, who took Gilman's purse and a hatchet from his boat.

WELLINGTON, N.Z., Aug. 22.—Sons of Scotland, Guelph, will hold their first Calceonian games and sports at the showing in Mount Forest on Thursday, Aug. 30. The pipe band of the Forty-eighth Highlanders, under the leadership of Pipe Major Ireland, has been secured, and will be present in full costume. A programme of 30 events has been arranged for and the prizes are large.

Detective Greer, of Toronto, is looking for the parties who placed two sticks of firewood, heavily charged with powder, in the shed of Miss Prandfoot, Guelph, in April last. Several persons in the neighborhood are suspected.

John Radwood, of Guelph, has been fined \$600 and sentenced to one month in jail for assaulting Frank Heffernan. Fifty dollars of the fine goes to the complainant, Heffernan.

W. R. Hill, Guelph, was coming out of the free library on Monday when he took suddenly ill and fell on the pavement. He turned black in the face and the blood gushed from his mouth and nose. He was taken to the hospital.

The little daughter of W. J. Bell, Guelph, had a painful and somewhat serious experience Monday evening. While at dinner a fish bone stuck in the little one's throat. She turned black in the face and but for the prompt measures devised and the timely arrival of a doctor, she might have choked to death.

## THE PYTHIANS.

### Suggestions for the Good of the Order—Presentation to the Grand Record Keeper.

WINDSOR, Ont., Aug. 22.—The Grand Lodge Knights of Pythias of Ontario opened its second day's session with a large delegation present. A general discussion of various methods of reviving defunct lodges, strengthening weak ones and extending the order took place in the morning. The result was the appointment of a special committee of five to report a draft scheme.

At the afternoon session the committee on law and supervision reported upon the decisions of the grand chancellor, which were generally approved without amendment. A recommendation of the committee to grant the option to a subordinate lodge to require a medical examination before advancement was approved by the Grand Lodge.

The committee on the good of the order reported the satisfactory results of dividing the funds of subordinate lodge into benefit fund and general fund.

After adjournment of the Grand Lodge, and before the delegates left the room, Mr. King, on behalf of the testimonial committee, read a presentation address to George H. Mitchell, grand keeper of records and seal, and the latter was handed a purse of gold by D. J. Peace, P.G.C., and an elegantly prepared address by W. E. Rispin, grand chancellor, in recognition of 21 years of satisfactory service.

### RICH FRAUDS.

Millionaires Escape Paying Their Share of Taxes.

GREENBERG, N. Y., Aug. 22.—The board of assessors has just completed its assessment roll for the year. Edwin Gould is assessed on \$50,000 personal property, Anna Gould on \$5,000, Howard Gould on \$50,000, Helen Gould on \$50,000 and the heirs of Jay Gould on \$100,000.

### SHORT TALKS ON ADVERTISING.

(By Charles Austin Bates.)

I talked the other day with a man who had failed in the drug business. He said he didn't believe that advertising a drug store paid, that it was so different from other businesses that advertising could not possibly help it.

He said that his store had been an exceptionally good one, that the location was very fair, and that the stock was large and cheap. But there were two other drug stores near by, which had been there for some time before he came. The people around about were acquainted with them, and to some, they were just a little bit more conveniently situated than the new store.

My friend, the druggist, didn't try advertising. That is the way he knew that it does not pay. He said: "People do not realize that there is a difference in drugs—that the paragon they get in one drug store is better than that which they get in another."

Advertising would have saved that man's business. By advertising he would have introduced himself to the people, and they would have become acquainted with him and his store in that way. By advertising he could tell them that there were different grades of paragon, and that he kept the best grade; but he didn't try it, and so he knows positively that advertising doesn't pay.

Maybe he would have had to advertise three or six months or possibly for a year before he would find that he was gaining actual profit on his advertising expenditure.

Advertising a new business is, to a certain extent, like advertising in dull season. It is the after effect that must be looked at, and not the immediate returns. Even if a new man were to meet his prospective customers personally, it would be some time before he would make actual buyers of them. It is this way with traveling salesmen. The first few trips in a new territory do not consume very many pages of his order book. In the meantime he is getting acquainted—advertising. He is letting people know who he is and what he is doing and what he wants. If he is courteous and pleasant and persistent, he will win trade, but it will take time. Do not expect an ad to do more than a man.

Nailed to a Tree. LONDON, Ky., Aug. 22.—Near the mouth of Sexton Creek a young woman named Anderson, who had borne a bad reputation, has been found nailed by her hands and feet to a tree with lime nearly extinct.

Three Children Adrift. NORTH SYDNEY, N. S., Aug. 22.—The three children of Dr. Meeks, of Rose-blanche, N.B., reported some days ago missing in an open boat, were picked up by a bark and brought into North Sydney today. All are well.

"Brigham Young" Locked Up. NEW YORK, Aug. 22.—Brigham Young, of Salt Lake City, who is supposed to be descendant of the Mormon Apostle, has been locked up in Jersey City for making overtures to young women. His is 73 years old, but is tall and stalwart.

The "Piracy" Case. DETROIT, Aug. 22.—The six men of the crew of the schooner Emma, charged with assaulting and robbing the boatman, Gillman, of Moorstown, out of some money and a hatchet, while both vessels were alongside of the Canadian shore, at Port Stanley, were examined before United States Commissioner Graves yesterday, the charge against the members being reduced from piracy to that of robbing a vessel on the high seas. # READY RELIEF

## A PAIN REMEDY.

For nearly 50 years this wonderful remedy has proved itself the best, quickest, safest and surest antidote for pain in the world.

## THE TRUE RELIEF

RADWAY'S READY RELIEF is safe, reliable and effective because of the stimulating action which it exerts over the nerves and vital powers of the body, adding tone to the system and inducing renewed and increased vigor the shivering vitality of the physical structure, and through this healthful stimulation and increased action the cause of the PAIN is driven away and a natural condition restored. It is thus that the READY RELIEF is an antidote for the cause of PAIN and without the risk of injury which is sure to result from the use of many of the so-called pain killers of the day.

In using medicines to stop pain we should avoid such as opium, morphine, chloroform, ether, chloral, and other drugs, which stop pain by destroying the power of feeling. This is the most destructive practice; it makes the system, and instead of curing the trouble, breaks down the stomach, liver and bowels, and, if continued for a length of time, kills the nerves and produces local or general paralysis.

There is no necessity for using these uncertain agents, when the reliable remedy like RADWAY'S READY RELIEF will stop the most excruciating pain quicker, without entailing the least difficulty in either infant or adult.

## SUMMER COMPLAINTS.

DYSENTERY, DIARRHEA, CHOLERA MORBUS.

A half to a teaspoonful of Ready Relief in a half tumbler of water, repeated as often as the discharges continue, and a diarrhoea satisfied with Ready Relief placed over the stomach and bowels will afford immediate relief and stop pain by destroying the cause of the trouble.

A half to a teaspoonful in a half tumbler of water will in a few minutes cure Cramps, Spasms, Stomach, Heartburn, Nervousness, Sleeplessness, Diarrhoea, Dysentery, Cholera, Flatulency and all internal pains.

MALARIA. CHILLS AND FEVER, FEVER AND AGUE CONQUERED.

Radway's Ready Relief

Not only cures the patient seized with this terrible foe to settlers in newly settled territories, where the Malaria or Ague exists, but if people exposed to it will, every morning on getting out of bed, take 20 or 30 drops of the Ready Relief in a glass of water and eat, say a cracker, they will escape attack. This must be done before going out.

There is not a remedial agent in the world that will cure Fever and Ague and all other Malarial, Bilious or other fevers, aided by RADWAY'S PILLS, so quickly as RADWAY'S READY RELIEF.

Price 25c per box. Sold by all druggists.

## DYSPEPSIA

Dr. Radway's Pills are a cure for this common ailment. They restore strength to the stomach and enable it to perform its functions, the symptoms of Dyspepsia disappear, and with them the liability of the system to contract cholera, and the medicine according to directions and observe what we say in "False and True" repeating diet.

RADWAY & CO., Montreal, Canada

## INDAPRO

MADE A WELL MAN OF ME

INDAPRO HINDOO REMEDY

PRODUCES THE ABOVE

RESULTS IN 30 DAYS. Cures all Nervous Disorders, Headache, Migraine, Stomach, Indigestion, Bloating, Constipation, Biliousness, Fever, Intoxication of the Bowels, Piles and all derangements of the Internal Viscera. Purely vegetable, containing no mercury, minerals or deleterious drugs.

Price 25c per box. Sold by all druggists.

Made known on application at office. Address  
 all communications to

ADVERTISER PRINTING CO.,  
 LONDON, - CANADA.

Gods in his heaven,  
 All's right with the world.  
 —(BROWNING.)

—Only those communications to which the  
 writers are willing to have their names ap-  
 pended in print will be published in these  
 columns. Neither the writing nor the pub-  
 lication of anonymous letters can be justified.

London, Thursday, August 23.

—Hon. Wilfrid Laurier has pledged  
 himself to Hon. James Young to visit  
 Galt and address a mass meeting of Water-  
 loo electors when next he visits Ontario.  
 In advance he is promised a very warm  
 welcome.

—The war news from Korea is neither  
 very decided nor very reliable. But one  
 thing is certain, both China and Japan  
 express determination to fight it to the  
 bitter end. This resolution once more ex-  
 amplifies the fact that Christian and  
 barbarian nations are alike in their innate  
 doggedness of disposition when once they  
 get into a fight.

—The Hamilton Spectator now finds  
 fault with the existence of the London  
 Young Liberal Fleet because, it asserts,  
 there is no water here. Bless its innocent  
 heart, we have a navy that makes a record  
 on dry land as well as on wet. In London  
 we have the men, we have the ships, we  
 have plenty of water, too.

—A correspondent writes to inform us  
 that "it is the general opinion of the  
 citizens of London that the starting of the  
 schools on Monday next is perfect foolish-  
 ness. Why not commence school with a  
 good will on Monday, Sept. 3?" We are  
 unable to decide on what data our cor-  
 respondent bases this view. No hard-working  
 mother will indorse it. Then Monday, Sept.  
 3, is Labor Day—a statutory holiday.

—Sir John Gorst, who was in the city  
 today, is a leading Conservative member  
 of the British House of Commons. He  
 recently said: "I have no faith in Imperial  
 Federation. I don't think that it will ever  
 lead to any practical result. I was one of  
 the original promoters of the movement,  
 but left the association as soon as I found  
 myself convinced that no practical result  
 could be obtained." Sir John is a hard-  
 headed, matter-of-fact Englishman, and he  
 declines to run after a phantom when so  
 much work that is immediately practicable  
 can be undertaken for the advancement of  
 British interests.

—Warton, Bruce county, council has  
 unanimously passed the following resolu-  
 tion:

"That the council be asked to pass a  
 bylaw to better regulate the head-  
 dresses of ladies at public meetings; that,  
 owing to the present fashion, the  
 feathers, flowers and ribbons project high  
 above the ladies' heads, thereby  
 preventing those sitting behind from seeing  
 the speakers on the platform and provid-  
 ing that the ladies shall either go bare-  
 headed, with hair cut short, or with opera  
 caps fitting the head closely, so as not to  
 obstruct the view of those sitting behind."

It is all very well to pass the resolution,  
 but who among the Warton wisacres will  
 undertake to enforce it?

—The agricultural conference at Truro,  
 N. S., at which Lord Aberdeen, ex-Governor  
 of the Board of Wines, and Professor  
 Robertson were speakers, was a great  
 success. The Governor-General pointed  
 out that nowadays the production of butter,  
 cheese and bacon is more profitable than  
 cereal growing in Canada, and Hon. Mr.  
 Hoard backed up the statement. In Wis-  
 consin, he said, before dairy farming was  
 followed intelligently, in Jefferson county  
 60 per cent of the assessed value of farms  
 was under mortgage. Not 7 per cent were  
 under mortgage now. The average yield  
 of wheat had risen under dairying from  
 seven bushels per acre to nineteen bushels  
 per acre, and the average valuation of farm  
 lands had increased from \$16 per acre to  
 \$80 per acre. Co-operative dairying should  
 render equally good results in Nova Scotia.

## WORK AT THE FAIR.

We understand that the Western Fair  
 Board have now before them far more ap-  
 plications for employment during the holding  
 of the exhibition than has been the case  
 since the inauguration of the fair. It is  
 impossible for the directors to employ one-  
 twentieth of the men who have applied for  
 temporary situations at their disposal.  
 The directors intend as far as possible to  
 give work to men who are reliable, who  
 have families to sustain, and who are the  
 most in need of employment. This is a  
 very proper course, and will meet with  
 public approbation.

It has been argued, in recent discussions  
 on the question of opportunities for mak-  
 ing a living, that the professions alone are  
 over-crowded, and that the educationists  
 are remiss in their duty when they do not  
 warn the young against entering them.  
 "Let them," is the advice, "become

mechanics, laborers, or anything but  
 poorly-paid lawyers, doctors," and so forth.  
 The experience in this city and elsewhere,  
 however, is that the mechanical worker and  
 the unskilled laborer has a market for his  
 energies fully as crowded as that which  
 meets the professional man. The Govern-  
 ment at Ottawa may not know this, but it  
 ought to know it, and it should be com-  
 pelled to stop the policy of subsidizing old  
 world emigration agents and professional  
 philanthropists to send out workmen to  
 still further crowd the labor market. If  
 the taxes are lowered, and those collected  
 are honestly spent and not squandered,  
 farm life will become so attractive as to  
 procure the voluntary immigration of that  
 class of farmers who can alone make life a  
 success in our new districts. Such a policy,  
 too, would have the effect of encouraging  
 our young Ontario farmers and our unem-  
 ployed workers in the cities to seek a liv-  
 ing on the plains, instead of adding to the  
 ranks of those looking for work in commu-  
 nities already unable to find work for their  
 ordinary population.

## HEAT, RAINFALL AND SUN SPOTS.

There was plenty of rain in the early  
 months of the year, and in the southern  
 belt of Ontario the earlier crops were fully  
 up to the average. But for many weeks  
 past phenomenally dry weather has pre-  
 vailed, causing serious loss to farmers and  
 fruit growers. The fruit yield would have  
 been very large but for the drought, so would  
 the apple, potato, corn and root crops, but all  
 have been enormously curtailed through  
 lack of rain. The grass has literally been  
 burned off a wide stretch of country, and  
 that which was not so destroyed has been  
 eaten up by grasshoppers. Live stock, too,  
 in many localities have suffered from lack  
 of water, and there has been a great falling  
 off in the yield of milk, and consequent  
 appreciation in the value of butter.

This undesirable state of affairs has re-  
 quired the discussion of the question  
 whether or not, through one cause or  
 another, our summer seasons are becoming  
 drier. Dr. Edward Bruckner, of Berne,  
 Switzerland, recently published a very  
 elaborate work, fortified with meteorologi-  
 cal statistics from all the accessible parts  
 of the northern hemisphere, on "Variations  
 of Climate Since A. D. 1700." In this  
 he undertook to show, and did produce  
 an a priori presumption, that there are  
 cycles of about 35 years in which the  
 climate of countries changes from a maxi-  
 mum of coolness and rainfall to a maxi-  
 mum of heat and drought—the inter-  
 val between the two being ap-  
 proximately 17½ years. He further  
 declared that in 1893-5 we should reach  
 a maximum of summer temperature  
 and a minimum of rainfall; and this seems  
 to have been verified in Europe last year  
 and in North America this season. The  
 heat and drought in western Europe do  
 not seem to have been so excessive this  
 year as last; but after a cold spring they  
 have been quite marked. Yet England, to  
 judge from an item in the Rochdale Ob-  
 server of July 21, is getting back to her  
 ordinary moisture; for it is there stated as  
 follows: "Within the seven days ended at  
 9 a.m. yesterday, no less than 2.127 inches  
 of rain fell in Rochdale; and the local  
 rainfall of July represented 2.757 inches.  
 So far there have been but six dry days in  
 the month; previously recorded totals for  
 July vary from 1.893 inches in 1895 to  
 7.125 in 1878."

There was a great rainfall in 1878, and if  
 Dr. Bruckner's deductions are correct the  
 maximum of drought will be reached in  
 1895; but the indications are that it was  
 really reached in 1893 in England, and has  
 now been reached in North America, where  
 we have passed through the hottest summer  
 known for at least 35 years. Dr. Bruckner  
 argues that the variation in rainfall from  
 month to month is unimportant, since one  
 month often brings up the low average of  
 several others in the same year. In 1885,  
 when the Rochdale rainfall of July was so  
 low, that of the whole year was normal.  
 That there should be but six dry days out  
 of twenty in England is not surprising—for  
 in 1890, out of the first 21 days of July in  
 London, nineteen gave more or less rain.  
 But in 1893, there were hardly six wet days  
 in the English July, and not more than  
 three or four in each of the months May  
 and June.

While the Swiss savant has been oc-  
 cupied in this compiling data regarding dry  
 and wet spells, Dr. Veeder has been writ-  
 ing to the Rochester Academy of Science a  
 series of articles on his theory as to the  
 effect of sun spots in causing storms on the  
 earth. Dr. Veeder, after receiving records  
 from the steppes of Siberia, from Alaska,  
 Greenland and Iceland, Hudson Bay, Tas-  
 mania, New Zealand, and from every land  
 where the aurora is known, finds that  
 auroral displays and thunder storms have  
 an important relation to the spots on the  
 sun. The auroral displays occur at inter-  
 vals of about 27½ days. This corresponds  
 to the time of the rotation of the sun upon  
 its axis as viewed from the earth, which is,  
 of course, advanced in its orbit in the same  
 direction as that in which the sun turns  
 upon its axis. If the surface of the sun be  
 imagined as divided into 27 parts, like  
 the sections of an orange, it is possible, says  
 Dr. Veeder, to learn from records long and  
 carefully kept just where each of these  
 sections was situated with relation to the  
 earth on any given date. The number and  
 size of the spots in each of these sections at  
 given dates are also to be learned from the  
 records. In this way it has been found  
 that such sections of the sun as are marked  
 with many and persistent spots are in-  
 variably just coming into view by rotation  
 whenever there is an aurora. The aurora,  
 however, is not invariably seen when a  
 spotted section of the sun bears such re-  
 lation to the earth, but sometimes, in-  
 stead, thunder storms seem to take its  
 place, and when thunder storms do not re-  
 place the expected aurora, electrical earth  
 currents disturb the telegraph lines and  
 agitate the compass. These facts, argues  
 Dr. Veeder, show that the influence of the  
 sun spots is magnetic. He hopes by means  
 of observations taken all over the world to  
 show that in the case of the aurora there is  
 a concentration of effect in a particular

direction from the sun and upon particular  
 parts of the earth. Already evidence  
 has been obtained of the geographical dis-  
 tribution of the aurora in the case of notable  
 outbreaks, well seen over wide areas. The  
 most practical outcome hoped from all this  
 study and observation is the development  
 of a relation between the sun spots and that  
 very commonplace, everyday matter, the  
 weather. The establishment of this rela-  
 tion, Dr. Veeder hopes, may place meteor-  
 ology among the exact sciences. He  
 declares that there are rearrangements of  
 the distribution of the atmosphere in cer-  
 tain years in such fashion as to affect the  
 weather of whole seasons. These rearrange-  
 ments are related to auroral conditions, and  
 this he takes as proof that the disturbances  
 upon the surface of the sun may control the  
 conditions of our atmosphere in a way not  
 hitherto suspected. In other words, he  
 hopes to prove that the popular belief of a  
 relation between the weather and the  
 spots on the sun has scientific foundation.  
 If all is proved that Dr. Veeder hopes to  
 prove, perhaps the meteorological bulletins  
 will not be for the next 24 hours, but for the  
 next 27 days or the next three months.  
 Beyond that possibility lies the more  
 fanciful possibility of an almanac that shall  
 foretell the weather as almanacs of to-day  
 foretell eclipses, occultations, and transits,  
 although Dr. Veeder does not lend his  
 countenance to any such conjecture. He  
 does, however, venture the conjecture that  
 the magnetic influences proceeding from  
 the sun may not only cause magnetic  
 phenomena in the earth's atmosphere, but  
 influence the whole solar system, and per-  
 haps keep the planets in motion.

## HOW THE MONEY GOES.

Mr. Mackenzie, that true Scotchman and  
 thorough Canadian, as true and brave a  
 man as ever breathed God's air—(cheers)—  
 had a yearly departmental expenditure of  
 \$400,000. Now the departmental expendi-  
 ture has gone up to \$800,000—has grown  
 100 per cent—while the population has in-  
 creased but 9 per cent. Do you imagine  
 that there is any justification for this? The  
 Conservative tell us that there is a justifi-  
 cation. The population has increased, they  
 say. Oh, yes, it has increased 9 per  
 cent, but the expenditure has increased 100  
 per cent. There can be no justification for  
 such an expenditure, when, as has been  
 stated, the great bulk is a corrupt expendi-  
 ture.—(Hon. Wilfrid Laurier at Brantford.)

## A SPECIMEN FARGE.

(Canada Presbyterian.)  
 The report of the Ottawa Government's  
 Liquor Commission was promised a good  
 while ago to be forthcoming at an early  
 day, but Parliament has prorogued and  
 there is no word yet of this report. The  
 mountain has labored long and it has not  
 yet brought forth even so much as a mouse.  
 When it does bring forth, nobody expects  
 to see more than a mouse. A more masterly  
 illustration of how not to do a thing could  
 hardly be found. It is some time since Sir  
 John Thompson stated that the expenses of  
 the commission were upwards of \$100,000.  
 It will cost a great deal more than this be-  
 fore all is over. That is, the people of this  
 country are asked to pay this amount and  
 whatever more will yet be needed, to hear  
 what this precious commission thinks,  
 some other people think of the character  
 and effects of the liquor traffic, and of its  
 suppression by law, after a majority of the  
 provinces have said by a direct vote what  
 they think of it and want done with it. A  
 more huge, outrageous, screaming farce  
 than this has not been perpetrated amongst  
 us. As a specimen farge it is a magnificent  
 proof of the skill of its inventors in this  
 line.

## The Great Bridge Steal.

You have heard, also, of the famous  
 Curran bridge work, which was to have  
 cost \$150,000, but which has now cost  
 \$400,000. This was another case in which  
 the same principle was disregarded, no  
 tender being asked for. The work was  
 not let by contract, but was done by day  
 labor by Government. Was there any  
 other reason why this work was not let by  
 contract? Oh, yes, there was a reason.  
 There was no time. The work had to be  
 done in a short time—in two months be-  
 cause the bridge went over the canal, and  
 the water had to be drawn from the  
 canal. Mr. St. Louis is a well-known  
 supporter of the Government, he is a Blue  
 Heeler of the Province of Quebec, and when examined before the  
 commission at Montreal in the month of  
 May last—the Government papers never  
 referred to this—he said to the commis-  
 sioners: "What do you find fault with?  
 I want to know; is it not a fact that every  
 Government work has cost three or four  
 times the appropriation? There is no rea-  
 son, therefore, why you should complain  
 that the bridge has cost more than was ex-  
 pected." But Mr. St. Louis had a fat con-  
 tract. He was paid for every laboring man  
 \$1.87 per day, to whom he paid \$1.25,  
 pocketing the difference.—(Hon. Wilfrid  
 Laurier at Brantford.)

## THEY NEVER CAME BACK.

Mrs. Lint and Evangelist Belleville  
 HAMILTON, Aug. 23.—Mrs. L. Lint, the  
 old German woman who disappeared from  
 her home in Kohler, Ont., on May 7, and  
 whose supposed to have come to Hamilton,  
 has not yet been heard of, and although a  
 reward was offered and her disappearance  
 advertised in the newspapers throughout  
 the country, her whereabouts, dead or  
 alive, is still a mystery. Efforts are still  
 being made by her friends to discover her.  
 Not less strange is the prolonged disap-  
 pearance of Evangelist Belleville, who has  
 been lost twice. Belleville some time early  
 in May disappeared, and about a week  
 afterward was arrested at Brantford for  
 attempting suicide. He was subsequently  
 brought to the city and placed in the city  
 hospital for medical treatment. His escape  
 from that institution followed, and since  
 then no word of any kind has been heard of  
 him. As he was in a bad mental state  
 when he disappeared, the chances are that  
 he again attempted suicide in some lonely  
 spot and was successful in his attempt, his  
 body having never been discovered.

## Evelyn's Liver Lozenges.

This new and valuable remedy, which is  
 fast becoming so popular, does not purge  
 and gripe like pills, but is powerful to  
 promote a healthy, natural action of the  
 bowels by simply assisting nature to do its  
 own work in the most healthful and bene-  
 ficial way. They are sold by all druggists  
 at 25 cents a box, or five boxes for a dollar.

Silverware! The latest patterns and  
 newest styles at lowest prices at ADKIN'S,  
 on the corner, East London. ywt

Nothing impure or injurious contam-  
 inates the popular antidote to pain, throat  
 and lung remedy and general corrective,  
 Dr. Thomas' Eclectic Oil. It may be used  
 without the slightest apprehension of any  
 other than salutary consequences. Coughs,  
 rheumatism, earache, bruises, cuts and  
 sores succumb to its action.

## When?

Your husband will notice a great  
 improvement in your cooking,  
 when

You use **OTTOLENE**

Your house will not be filled with  
 the odor of hot lard, when

You use **OTTOLENE**

Your doctor will lose some of his  
 Dyspepsia cases, when

You use **OTTOLENE**

Your children can safely eat the  
 same food as yourself, when

You use **OTTOLENE**

Your money will be saved, and  
 your cooking praised, when

You use **OTTOLENE**

Famous cooks, prominent phy-  
 sicians and thousands of every-  
 day housekeepers endorse it.  
 Will you give it a trial?

Sold in vast 5 pound pails, by all grocers

Made only by

The N. K. Fairbank  
 Company,  
 Wellington and Anna Sts.,  
 MONTREAL.

## RECIPE

For Making a Delicious Health  
 Drink at Small Cost.

Adams' Root Beer Extract.....One bottle  
 Fleischmann's yeast.....Half a cake  
 Sugar.....Two pounds  
 Lukewarm water.....Two gallons

Dissolve the sugar and yeast in the water;  
 add the extract and bottle; place in a warm  
 place for 24 hours until it ferments; then place  
 on ice, when it will open sparkling and de-  
 licious.

The Root Beer can be obtained in all drug  
 and grocery stores in 10 and 25 cent bottles,  
 to make two and five gallons.

## HUMPHREYS'

This PRECIOUS OINTMENT is the  
 triumph of Scientific Medicine.

Nothing has ever been produced to  
 equal or compare with it as a CURATIVE  
 and HEALING APPLICATION. It has been  
 used over 40 years, and always affords  
 relief and always gives satisfaction.

For Piles—External or Internal, Blind  
 or Bleeding; Fissura in Ano; Itching or  
 Bleeding of the Rectum. The relief is  
 immediate and the cure certain.

## WITCH HAZEL OIL

For Burns, Scalds and Ulceration and  
 Contractions from Burns. The relief is in-  
 stant—the healing wonderful and unequalled.

For Boils, Hot Tumors, Ulcers, Fistulas,  
 Old Sores, Itching Eruptions, Chafing or  
 Scald Head. It is Infallible.

For Inflamed or Caked Breasts and Sore  
 Nipples. It is Invaluable.

Price, 50 Cents. Trial size, 25 Cents.

Sold by Druggists, or sent post-paid on receipt of price.  
 HUMPHREYS' MED. CO., 111 & 113 William St., NEW YORK.

- 39th—3 pieces Cretonne, reversible, suitable for drapery, worth 20c yard, to-day only 12½c.
- 40th—5 ends of Colored Muslins, worth 8½c, to-day 5½c.
- 41st—10 pieces Heavy Twill Sheet, 36 inches wide, worth 12

## Like a New Man

"For five or six years I had Dyspepsia in its worst form, sometimes completely prostrated; so much that it was impossible for me to work more than half an hour at a time. I had tried various remedies but did not receive any benefit, when I was recommended by a druggist to try Hood's Sarsaparilla. I have taken two bottles and feel like a new man. I can eat and drink anything and enjoy my food. I never felt better. I cannot praise Hood's Sarsaparilla too much for not only has it cured me of dyspepsia but also of rheumatism." JAMES FRASER, St. John, New Brunswick.

## THE RIGGER.

The annual matches of the Ontario Rifle Association commenced at the Long Branch rifle ranges Tuesday. About 400 marksmen from every part of the Dominion are entered in the various competitions.

The annual general meeting of the members of the Ontario Rifle Association was held Wednesday afternoon at Toronto. The financial statement showed receipts of \$9,888.30.

## ATELECTICS.

\$40,000 TO FIGHT FOR.  
New York, Aug. 22.—A purse of \$40,000 has been offered for Jas. J. Corbett and Peter Jackson to fight for in Golden-ale, Wash.

## GOLF.

A golfing link is laid out in the northern portion of the city, and a number of athletic citizens, whose sporting tastes are of a decided Scotch flavor, spend many afternoon there in playing this scientific game.

## AQUATIC.

DINNEN WINS THE WARD CUP.  
Norman Dinnen, city traveler for the Hobbs Hardware Company, is the champion single scull oarsman of the River Thames, and is the proud possessor of the

handsome silver cup offered for competition by Mr. M. Ward, of Springbank. The race for the cup was rowed on the Thames, mile course, with turns, yesterday afternoon, and drew a big crowd of spectators. It was rowed in three heats. The first was between Joseph Irwin and Dinnen, and, as expected, was captured by the latter without any great effort. George Belling and Edward Morris fought for the second heat, and, to the surprise of many who looked upon the former as the best oarsman on the river, Morris won by about four lengths. The third, and final, was therefore between Dinnen and Morris. Both were in the best of condition, and the spectators were given what they fully expected—a good, close race. An even start was made, and both were pretty well down the course when the boats collided, and Dinnen claimed a foul. The claim was allowed, and an agreement was made to row the race over again. The result was uncertain for a time, but as the finish was reached Dinnen pulled up and led by about a length when the flag was passed. The winner was congratulated by his friends on the result.

## THE TURF.

## TWO FLYERS MATCHED.

CHICAGO, Aug. 22.—A match race for \$5,000 a side, best three in five heats, has been arranged between Robert J. 2,044, the favorite pacer of C. J. Hamlin, owner of the Village Farm, Buffalo, and Joe Patchen, 2:06. It will take place at Washington Park.

## NORTHERN LEGER STAKES.

LONDON, Aug. 22.—At the Stockton meeting today the race for the Great Northern Leger was won by Vynier's Stonehenge, Lord Sharborough's Scenery second, Bibby's Chin-Chin third.

## A PLUNGER IN TROUBLE.

SARATOGA, N. Y., Aug. 22.—Riley Granman, the young plunger, who was asked by President Walburn two weeks ago to stop booking, was a heavy loser yesterday. Two weeks ago he was \$75,000 winner. On Monday he lost \$21,000 on one bet, and yesterday he went deeper into the mire and dropped \$30,000.

## THE WHEEL.

LONDON CLUB RUN.  
The London Bicycle Club had a good turnout last night, the occasion being a club run to Pond Mills, under the captaincy of Mr. James McCormick. The boys found the roads very dusty, and on their arrival at the club house it was pretty hard to recognize some of the members of the regular club runs next week, the Londons will turn out Monday night to help the Meteors make a success of their lantern parade that evening. The racing board and house committee will meet at the club house on Friday evening, the 24th inst., at 9 o'clock. All members of the racing committee are requested to attend. The Londons will be well represented at the Meteors' meet on the 29th inst.

## THREE NEW RECORDS.

SPRINGFIELD, Mass., Aug. 22.—Three new records were made on Hampden Park this afternoon by members of the Rambler team. J. P. Bliss made a half-mile flying start in 54.3 seconds, and later a half-mile standing start in 58.15. The old records were 55 and 59.25 seconds respectively. Lumsden and Githens, who paced Bliss the first half mile on the tandem, made a new mark for that machine of 54.4 seconds.

## SPOKES.

Just before his election the President of the French Republic was learning to ride the bicycle. He has had no time to give to it of late, but Mme. Cassini-Perier and her children are good riders.

All city wheelmen are cordially invited to take part in the Meteor's lantern parade on bicycles next Monday night. Headed by the First Hussars Band, the procession will take in the principal streets and Victoria Park.

A beautiful and costly display of prizes for the Meteor races will be seen in the window of Williams' music store.

Quebec, has resigned his portfolio, and his resignation has been accepted by the Premier. The resignation is the final outcome of strained relations that have existed between Mr. Hall and the Premier for a long time.

## CO-OPERATIVE EXPERIMENTS.

Valuable Reports on Winter Wheat in Ontario.

Thirteen hundred and forty farmers throughout Ontario are at present conducting important and systematic experiments in agriculture. No less than 8,000 packages of grain, seeds, tubers, and fertilizers were sent out from the Agricultural College to these experimenters within the past year. It is, however, not so much the great extent of the work that gives the results their true value, and causes them to be appreciated, but rather the careful selection of the experiments, the regular system underlying the work, and the hearty co-operation of the experimenters. The results of ten properly conducted experiments are of much more value than those of one hundred experiments, which lack care and system. Many of the best farmers of Ontario are now carrying on these tests, the material for the experiments being distributed annually through the medium of the Agricultural Experimental Union, which is practically an association of the ex-students of the Agricultural College. Not only is this material sent to the members of the union, but also to many other interested and progressive farmers throughout Ontario, who have desired to join in the work and have written for the necessary outfit.

In the autumn of 1893 nine varieties of winter wheat were selected from 70 kinds tested at the Experiment Station. These were divided into two sets with five varieties in each set, the Dawson's Golden Chaff being used in every instance for the sake of comparison. Each applicant chose the set he desired, and the five varieties were then sent to his address. Each plot was a 160th part of an acre in size, and the seed was sown at the rate of 1½ bushels per acre. One hundred and fifty-seven experimenters with winter wheat have already been heard from this season. Of this number, 81 favored us with satisfactory reports of carefully conducted experiments, 61 furnished partial reports, and 15 wrote of failure or unreliable results. The 81 satisfactory reports came from 26 counties, 13 of which were situated east and 13 west of the city of Guelph. The names of the different experimenters and the detailed results of the tests will be printed in the annual report of the Experimental Union for 1894, which is published as an appendix to the Agricultural College report. The nine varieties were grown upon the experimental plots at the station in exact accord with the instructions sent out over Ontario. As the Dawson's Golden Chaff was sent to every experimenter, it is possible to obtain a very reliable comparison of all the kinds distributed. The following table gives the average amount of straw and grain per acre of the varieties grown on 81 Ontario farms:

Name of Variety.	Straw per Acre, tons.	Grain per Acre, bush 60 lbs.
Dawson's Golden Chaff	1.84	35.7
James Winter Wife	2.02	32.5
Early Red Clawson	1.88	31.7
Early Red Clawson	1.88	31.7
Surprise	1.73	31.4
American Bronze	1.83	31.2
Golden Drop	1.90	31.1
Early White Leader	1.80	29.2
Bulgarian	1.93	28.8

As the reports of the partial and the unreliable experiments have been discarded and only the satisfactory ones used for the above table, this summary should be of great value and one well worthy the careful attention of the farmers of Ontario. The conclusions drawn and the remarks made by many of the experimenters indicate much thought, accuracy and good judgment.

The following facts have been obtained from the 81 reports under consideration:

1. The Dawson's Golden Chaff gave the largest yield of grain per acre among the nine varieties tested over Ontario in 1894, as well as among the eleven varieties tested in 1893.

2. The Dawson's Golden Chaff was decidedly the most popular variety with the experimenters in both 1894 and 1893.

3. The American Bronze, Dawson's Golden Chaff and Early Genesee Giant possessed the strongest, and the Bulgarian the weakest straw.

4. The Dawson's Golden Chaff and Surprise were the least, and the Early Genesee Giant and American Bronze were the most affected by rust.

5. The Dawson's Golden Chaff and Early Red Clawson were the first to mature.

6. The Dawson's Golden Chaff and Early Red Clawson produced the largest quantity of grain per 100 pounds of straw.

7. The counties of Norfolk, Middlesex, Huron, Lambton, Bruce, Simcoe and Kent furnished 50 out of the 81 best reports received.

8. The average yield of the nine varieties of winter wheat tested over Ontario was 31.5 bushels per acre, and the average of the same varieties grown on similar sized plots at the Experiment Station was 39.5 bushels per acre.

9. The general behavior of the varieties tested over Ontario was quite similar to that of the same varieties grown at the Experiment Station.

10. Among the 156 experimenters who reported the results of their tests with winter wheat, only five speak of wishing to discontinue the co-operative experimental work, and much interest is manifested throughout.

For more detailed particulars regarding these nine varieties, as well as those of 71 others, which have been tested at the Experiment Station, the reader is referred to the bulletin on Winter Wheat, which is now being printed by the Department of Agriculture, Toronto.

## DISTRIBUTION OF SEEDS.

The Experimental Union has furnished sufficient money for the distribution of 2,500 packages of winter wheat over Ontario this year. These will supply 500 experimenters with five varieties each. The following varieties have been chosen and are divided into two sets as indicated below:

Set 1. Dawson's Golden Chaff, Early Red Clawson, James Winter Wife, Surprise, American Bronze.

Set 2. Dawson's Golden Chaff, Early Genesee Giant, Early White Leader, Early Ripe, Pride of Genesee.

The seed will be sent out by mail free to all applicants, and the property of the plot will, of course, be the property of the experimenter, and in return we will have to receive full reports of carefully conducted tests. The grains will be forwarded in the order in which the applications are received until the limited supply of some of the varieties is exhausted. The "instruction sheets" and "blank forms" necessary for

the work will be sent at the time the grains are forwarded. Those who wish to join in the work the coming year may choose either of the sets mentioned above. To make the results of the most value to both experimenters and the Union the five varieties should be sown in every instance.

C. A. ZAVITZ, Director Ontario Agricultural College.

Guelph, Aug. 20, 1894.

## STUCK IN THE MUD.

THE PLEASURE TRIP OF 300 EXCURSIONISTS Spoiled.

PICTON, Ont., Aug. 22.—The steamer Carmona, chartered to take an excursion from Picton and Bay of Quinte to Guelph, has been aground since 9 o'clock this morning in the mouth of the harbor. She had about 300 excursionists on board.

At last accounts the Carmona was still hard aground, and all attempts to get her off are abandoned. The passengers were transferred to the steamer Merritt, to be taken back to Picton. The Carmona is on a mud bottom, and it is not likely any damage will be done to the hull.

## Prohibition Candidate for Governor.

NEW HAVEN, Conn., Aug. 22.—The prohibition State convention today nominated for Governor Dewitt C. Pond, Hartford.

## Money in "Wagners."

ALBANY, N. Y., Aug. 22.—The report of the Wagner Palace Car Company for the year ended June 30 last shows: Gross earnings, \$4,263,259; operating expenses, including betterments and new cars, \$2,823,702; net earnings, \$1,439,557.

## United States Revenue Returns.

WASHINGTON, Aug. 22.—Returns from internal revenue continue to be abnormal, aggregating this month so far \$17,000,000, and for the fiscal year to date \$44,781,202, as against \$23,575,635 for the corresponding period in 1893. The gold reserve passed the \$55,000,000 mark today.

## Ruffianism at Cripple Creek.

CRIPPLE CREEK, Col., Aug. 22.—F. W. Wink, president of the Bar Har Mining Company, was shot through both arms last night near Victoria, and J. M. Rossberry, secretary of the same company, was shot in the neck by a gang of six men. It appears to be the opinion generally that the affair was an attempt to assassinate Sheriff Bowers, of this county, who has been active in making arrests of miners implicated in the Cripple Creek war, and that the two men were mistaken for the sheriff and his deputy.

It is as much the duty of a Christian to give as to pray.

## S. &amp; J.

THE WEATHER TO-DAY—Fine and warm

## WHOLE COATS AT HALF PRICE.

Some may wonder how we can afford to do it. One thing is certain, we don't make much on them, but we would sooner get rid of them without a cent of profit than allow them to grow old on our shelves. That would not be good business, as it would be a dead loss. People are not buying goods six or seven years out of style. All we offer are last spring's fashions and are very suitable for late fall wear. Here is the list at exactly half price. Since our last announcement we have sold considerably over a hundred of them, and to those who know what is fashionable and good value.

## JACKETS, IN COLORS AND BLACK.

WERE	NOW
\$2 50	\$1 25
3 00	1 50
4 00	2 00
4 50	2 25
5 00	2 50
6 00	3 00
6 50	3 25
7 50	3 75
8 50	4 25
10 00	5 00

Our \$3 Capes are going at \$1 50—a big reduction. Now the prices range from \$1 50 to \$12 50. You can buy a \$25 Cape from us for \$12 50 now, and a beauty at that.

## SISTERS' SHOES.

May be nearly worn out. If so persuade her to see our Ladies' Eulalia Congress, with large buttons, now selling at \$2, worth \$2 75; our Ladies' Vici Kid Button, tip, Goodyear welts, at \$2 39, worth \$3, or our Ladies' Vici Kid Balmorals, tip, Goodyear welt, at \$2 89, worth \$3. If she see she will buy. These bargains are irresistible.

## SMALLMAN &amp; INGRAM, 147, 149 and 151 DUNDAS STREET.

the work will be sent at the time the grains are forwarded. Those who wish to join in the work the coming year may choose either of the sets mentioned above. To make the results of the most value to both experimenters and the Union the five varieties should be sown in every instance.

## THE PASSENGERS ESCAPE.

Steamer Sinks in Fifty Feet of Water in Rainy River.

RAT PORTAGE, Ont., Aug. 22.—The steamer Monarch, 180 tons burden, struck a rock and went to the bottom, Aug. 19, at Long Sault, Rainy River, and 50 excursionists escaped by a rope. None were lost. The steamer lies in 55 feet of water. News of the wreck was brought in by an excursionist, who returned last night.

## A Yankee Schooner Seized.

ARICHA, N. S., Aug. 22.—The American schooner Quartette, of Coosacoct, was seized here today by Collector Bourinot, of Hawksboro, for fishing within the three-mile limit.

## Dead in His Cart!

MONTREAL, Que., Aug. 22.—The foul murder of a farmer named Myre, of St. Barle, Huntingdon county, has caused great excitement in that district, about 50 miles from this city. Myre started last night for Dundee, near the New York border, to pay for some land, but he did not reach his destination. This morning at 5 o'clock his family found him in the barn yard in his cart, dead. His head was crushed and bruised, and there were two knife cuts in his neck, one of which cut clear into the mouth. There was every evidence of a deadly struggle, and it is believed his dead body was placed in the cart and the horse started on the road home. None of his money was taken.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhea, Dysentery, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35 cents.

THERE IS JUST ONE THING THAT the citizens of London and vicinity would do well to make a note of, that is, the Dundas street, books and magazines of all kinds and styles are bound neatly, cheaply and tastefully.

## The Last Rose of Summer

Wilts before an autumnal blast and all its fragrance is scattered to the breeze.

The summer months have all but departed, and ere they shed their last golden rays we have concluded to part with all our summer goods, and in order to do so we will, for the balance of the month, give Phenomenal Values in every department of our large establishment. We cannot enumerate, but will call special attention to a few lines.

We are selling a Beautiful Persian Silk, imported direct from Japan, in all colors, at 45c per yard, worth 80c. They challenge competition.

A charming Peau de Sion Silk, just what every lady wants at this season. Matchless in quality and at the marvelous price of \$1 per yard, worth \$1 75. Call early and secure a dress length.

A large assortment of China Silks, all shades, Cheap.

DRESS GOODS—In this department we have an over abundance of the choicest Fabrics from the looms of the best manufacturers in the world, and we are moving them rapidly at one half their value. This is no superfluous talk. When you call ask to see them. We will use you courteous. The goods will sell themselves.

HABERDASHERY DEPARTMENT—We have everything that goes to make this department complete. All summer lines of Hosiery and

## History of an Evening

"And she is to go." The voice was Adelaide's, but so changed was it from the jovial pleasantry of its tone on her first appearance that it sounded in her mother's ears perfectly appalling. In an instant Mrs. Boscewen took the alarm. She had done the wrong thing, and there was now no escape for her instead of having the pleasure of recounting the details of the "little event"—instead of being able to dwell upon her difficulties in the matter of the note, on Lady Turner's civility, and the groom's impatience, with the union of one who had not offered the chance of being a narrator,—she was to be brought to the bar, and called on sharply for her defense.

In her confusion and astonishment the poor lady shuffled. "I did not like to refuse," she murmured uneasily. "I—I really did not know what to say."

"Did you accept the invitation for her, mamma?" It was Julia whose accents now expressed, Answer me that, without further circumlocution the date of the "little event."

"Well I allowed her to write for herself."

"And to say she would go?"

"She said she would go. Yes."

A solemn silence ensued, during which the parent's heart quaked in its own bosom. She could not stand it. "If I had had a minute to think," her nervous exclamation ran, "I had not been hurried so, I might have managed to hit upon some excuse."

"Mamma, why did you not think of that before?" cried Julia, and there was a passing aside—"What is to be done?"

"If I had only had time," reiterated the culprit questioningly. "People have no right to rush at one in that impetuous way, demanding answers on the spot. It makes one shake all over; I have been uncomfortable ever since,—at least I was just quieting down when you came in to stir it all up over again."

"My head has been so bad since, once, and it is no pleasure to me, I can tell you," she added, with some spirit, "to have only a lonely evening before me. I do not send Mattie away for my own good."

"Mamma, why did you not think of that before?" cried Julia, and there was a passing aside—"What is to be done?"

"If I had only had time," reiterated the culprit questioningly. "People have no right to rush at one in that impetuous way, demanding answers on the spot. It makes one shake all over; I have been uncomfortable ever since,—at least I was just quieting down when you came in to stir it all up over again."

was to be such a tonight to such a morning."

A tap at the door.

Mattie started. Was it the wind? Was it the rattling of the old cornices which age had loosened, or was it a quick, imperative voice without, demanding admittance? The latter.

Blushing, she turned from the mirror, ashamed to be detected in such a contemplation, and went quickly forward as the door opened. "It was not bolted, Adelaide; you need not have waited. The handle is stiff, that is all."

"Mattie—oh, it is a pity that you are dressed."

Mattie's eyes were raised in gentle wonder. A pity? She had let them fall on the ground, modestly awaiting the approving glance which perhaps even her older sister might vouchsafe to such a toilet, and she could not understand that her cares and pains should produce only "a pity."

"Mamma will tell you. I think she wishes to see you at once. I am in a hurry," said Adelaide, with a haste that was curious, all things considered, "I cannot stop to talk. Is Harriet gone to her room?"

"Adelaide, what is it?" But Adelaide was gone.

The gloves and handkerchiefs just gathered into her sister's hand fell beneath the table; something of evil Mattie boded, and even that something was enough; it was an effort to collect herself and go downstairs.

"You are dressed? That is a pity. I was afraid you would be," said Mrs. Boscewen, using almost the same words as her daughter had done, but in a tone of more regret. "I am really sorry you should have had the trouble, my dear; for, on second thoughts, I think it right to cancel my permission for you to go this evening."

It had been agreed on during the council that no reason was to be given—that nothing about Frederick, at least, was to be said.

had not fully considered the question," continued the speaker kindly, and yet with a definite purpose and strength in her present resolution that had not been apparent in the former.—"I was taken by surprise, seized upon all at once, taken advantage of."

(To be Continued.)

That Tired Feeling.

Is a dangerous condition directly due to depleted or impure blood. It should not be allowed to continue, as in its debility the system is especially liable to serious attacks of illness. Hood's Sarsaparilla is the remedy for such a condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients. Zinc, or Consistence is a strong citadel, but man is on the outside of it.

The largest police office in the world is the new one at Scotland Yard, London, in which 3,000 officers can be accommodated.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Electric Oil is carache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject.

Personal interest is usually willing to assist political ambition.

On the Canary Islands grows a fountain tree which distills enough water to supply every creature in the neighborhood with drink.

Why will you allow a cough to lacerate your throat or lungs and run the risk of filling a consumptive's grave, when by the timely use of Bickel's Anti-Consumptive syrup the pain can be allayed and the danger avoided? This Syrup is pleasant to the taste, and unsurpassed for relieving, healing and curing all affections of the throat and lungs, coughs, colds, bronchitis, etc.

It isn't a man's character that makes a woman love him.

The Eiffel Tower is the property of the builder for ten years, beginning with 1889, after which it reverts to the city of Paris.

Piles! Piles! Itching Piles.

SYMPTOMS: Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration and in most cases removes the tumors. At drug stores, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia, Lyman, Sons & Co., Montreal, wholesale agents.

Some men's ideas are like their snorers—only make them hated.

Love is often used simply as a flag of truce.

A Wonderful Cure.—Mr. David Smith, Coe Hill, Ont., writes: "For the benefit of others I wish to say a few words about Northrop & Lyman's VEGETABLE DISCOVERY. About a year ago I took a very severe cough, had a virulent sore on my lips, was bad with dyspepsia, constipation and general debility. I tried almost every conceivable remedy, outwardly and inwardly, to cure the sore but to no purpose. I had often thought of trying Northrop & Lyman's VEGETABLE DISCOVERY, so I got a bottle and when I had used about one half the sore showed evident signs of healing. By the time that bottle was done it had almost disappeared and my general health was improving fast. I was always of a very bilious habit and had used quinine and lemon juice with very little effect. But since using three bottles of the VEGETABLE DISCOVERY the biliousness is entirely gone and my general health is excellent. I am 60 years old. Parties using it should continue it for some time after they think they are cured. It is by far the best health restorer I know."

The hardest things for a man to believe are sometimes those he knows to be true.

When it comes to estimating himself, most every man fears his own judgment.

Ladies' elegant bicycle given away at Westlake's studio, 201 Dundas street, with every purchase of \$5 worth of photos.

Don't forget, 219 Dundas street is the place to get an easy chair and a fashionable haircut. JOHN L. FORTNER.

Attention! We have a few red painted veranda rockers left, which we will sell at cost to clear them out, at Wm. TRAFFORD'S furniture warehouses, 95 and 97 King street.

You can't go wrong when you buy from us, because we have just one way of doing business, and that is to give a dollar in good quality for a dollar of everybody's money. Try us. KREWE Bros., 127 King street, opposite Market House.

## CHASE'S CHAPTER

1. Dr. Chase's Kidney-Liver Pills are a combination of valuable medicines in concentrated form as prepared by the eminent Physician and Author, Dr. A. W. Chase, with a view to not only be an unailing remedy for Kidney and Liver troubles, but also tone the Stomach and purify the Blood, at a cost that is within the reach of all. The superior merit of these pills is established beyond question by the praise of thousands who use them—one pill a dose, one box 25 cents.

2. When there is a Pain or Ache in the Back the Kidneys are speaking of trouble that will ever increase unless relieved. We have the reliable statement of L. B. Johnson, Holland Landing, who says: "I had a constant cold-ache, my back felt cold all the time, appetite poor, stomach sour and belching, urine scalding, had to get up 3 or 4 times during night to urinate, commenced taking one Kidney-Liver Pill a day; Back-ache stopped in 48 hours, appetite returned, and able to enjoy a good meal and a good night's sleep; they cured me."

3. Constipation often exists with Kidney Trouble, in such a case there is no medicine that will effect a permanent cure except Chase's combined Kidney-Liver Pills, one 25 cent box will do more than dollars and dollars worth of any other preparation, this is endorsed by D. Thompson, Holland Landing, Ont.

BUILT A TOWN IN A WEEK.

Sequoia, I. T. Grows Into a City With 2,000 Population and Accessories.

SEQUOIA, I. T., Aug. 22.—The Cherokee payment begun at this place Wednesday. The amount to be paid out here is about \$700,000, and will continue all the week. Last week this place consisted only of a court house in the woods, eight miles from Maudlow. Today it is a thriving city of 2,000 population, with nearly every branch of the mercantile business represented.

The town is laid off in blocks, with streets 25 feet, and everybody does business and lives in tents. Jew, Gentile and Turk are represented in the mercantile business, while the negro washerwoman has the laundry field to the exclusion of John Chinaman. Refreshment stands and eating houses are numerous and the city boasts of nearly all the metropolitan attractions, including dance halls, gambling houses, theaters, barber shops, news stands, etc., and surpasses the other payments in having two black-smith shops and a bathhouse. Vice and immorality are unchecked. Four large gambling-houses are doing big business, while the camp swarms with the very lowest classes of fallen women. No disturbance of any kind has occurred, and very little drunkenness is seen, as the officers are watching closely for whisky peddlers.

HAS WALKED 9,000 MILES.

Henry Thompson, the Champion Long-Distance Walker, Reaches Atlanta.

ATLANTA, Ga., Aug. 22.—Henry Thompson, the champion long-distance walker of the world, sublimed and travel-stained, walked into the union depot at 9:30 Monday morning. This great foot traveler is making a trip around the world, with San Francisco as his starting point.

He has been on the road 331 days and has traveled 9,000 miles. He is in splendid condition, hale and hearty, and is not suffering in any way from the effects of his long and lonesome tramp.

His wanderings will lead him to New York, through England, France, Germany, and all the principal countries of Europe and Asia.

He carries nothing with him but the peculiar costume which he wears and a whip which he has carried for 4,000 miles. Thompson is 40 years of age, and his trip has been very much discussed by the sporting fraternity. If he follows the route selected and lands safely in San Francisco he will have accomplished a wonderful feat. He started on his trip without a cent and agreed to return in the same fix.

He has worn out fourteen pairs of shoes on his trip, but his feet have never been sore or in bad condition. Thompson makes his living by selling photographs of himself on the trip.

The Moon's Influence

Upon the weather is accepted by some as real, by others it is disputed. The moon never attracts corns from the tender, aching spot. Putnam's Painless Corn Extractor removes the most painful corn in three days. This great remedy makes no sore spots, doesn't go fooling around a man's foot, but gets to business at once, and effects a cure. Don't be imposed upon by substitutes and imitations. Get "Putnam's," and no other.

God's telephone in the soul is conscience. The next door neighbor of selfishness is sin.

## WOMAN'S NEED

Women suffer unspeakable tortures from muscular weakness, caused by impaired nerves and poor blood. Uric Kidney acid poison, unsuspected, weakens the nerves and poisons the blood. By and by, if the Kidneys do not properly purify the blood, then comes prostration, retroversion, etc. Blood 75 per cent. pure is not a nourisher—it is a death breeder.

Delicate women need not be told how much they would give to get and STAY well. If their blood is free from the poisonous ferments of the Kidneys and Liver, they will never know what "weakness" is. The blood is the source and sustainer of health. It cannot be kept pure except the Kidneys and Liver do their work naturally. Something is needed to insure free and natural action of these organs.

One 25 cent box of Kidney-Liver Pills will prove to any sufferer they are a boon to women, can be used with perfect confidence by those of delicate constitution.

One Kidney-Liver Pill taken weekly will effectually neutralize the formation of Uric Acid in the blood and prevent any tendency to Bright's Disease or Diabetes.

For purifying the Blood and renovating the system, especially in the Spring, one 25 cent box is equal to \$10 worth of any Sarsaparilla or Bitters known. Sold by all dealers, or by mail on receipt of price, EDMANSON, BATES & CO., 45 Lombard Street, Toronto.

**Mr. Madill's Little Story.**

Rev. J. C. Madill, in the course of his address at the P. P. A. picnic, told the following story: "A truly good man who was very much perturbed as to the future of the P. P. A., dreamt a dream, and in his dreaming moments he caught a glimpse of heaven. There he saw people of every political and religious stripe. Among them were a few Grits and a few Tories, some Methodists and some Presbyterians, a few Baptists, an odd Congregationalist and a whole lot of Episcopalians, but not a single P. P. A. He was alarmed and asked the guiding angel what it meant. 'Do you not see that great throng away in the distance?' said the angel. He looked and beheld Mayor Essery, of London, and a doctor from Stratford. 'Why,' he said, 'that's the P. P. A.' 'Yes,' said the angel, 'they are the only people in heaven whom the Almighty can trust out of sight.' Those who heard Mrs. Commandant Booth tell the same story at the Salvation Army barracks a few nights previously could at once recognize that lady's superiority to Mr. Madill as a teller of stories.

## LONDON AND ENVIRONS

Li Hung Chang  
Is the "grand old man"  
Of the "yellow jacket"  
In the China Japo racket.  
So now he ambles round decollete.

—The Board of Education will meet on Friday night.

—Mr. John Footit, book-keeper at Carling's, has purchased the nice property at 820 Talbot street.

—A man named John Campbell was fined \$1 and costs by Squire Lacey for being drunk and disorderly in London West.

—The day operators of the depots on the M. C. R., who were laid off owing to business being lukewarm, have been reinstated.

—Mrs. Mulholland's cottage and lot on Sydenham street was offered at auction yesterday by Mr. Neil Cooper, but withdrawn at a bid of \$1,475.

—The street railway company will lay a switch around the southwest corner of Dundas and Richmond streets to connect with the extension west to the bridge.

—The assault case of Charles Spore and wife against Archie Brown, a North Dorchester farmer, fixed for hearing before Squire Lacey yesterday, was settled out of court.

—Col. Shanly, master-in-chancery, has confirmed the interim appointment of Mr. Andrew Ellis as liquidator of the defunct Canadian Masonic Mutual Benefit Association.

—Plan for reserved seats at the Meteor races next Wednesday is now open at Thos. Gillean's jewelry store. A small charge of 10 cents is made for all the stands.

—At last night's meeting of London Council, No. 73, Order of Chosen Friends, Mr. Dan Donaldson was elected recorder to succeed Mr. Bert McDonald, who retires from office.

—A very successful moonlight excursion was held Tuesday night at Port Stanley under the auspices of Christ Church choir, St. Thomas, on the steamer Lakeside, about 300 being on board.

—When a man gets drunk in Argentine the inevitable sentence is "to sweep the streets for eight days." It is reported to be a wonderfully effective law. How would it catch London toppers?

—Miss Quits Moore, of this city, daughter of Mrs. F. J. Moore (nee J. L. Hutton), the celebrated composer and pianist, has been secured by the Hamilton College of Music as one of its staff.

—A special car will be at the disposal of the London civic party which will leave for Cleveland tonight via the L. E. and D. R. R. and the steamer Lakeside. Many of the aldermen will take their wives along.

—Mr. G. A. Richardson, Toronto, Canadian passenger agent of the Wabash, passed through the city last night to attend the funeral of the Wabash late general passenger agent, Mr. F. Chandler, St. Louis.

—Principal Merchant of the Collegiate Institute, is especially proud of the achievement of one of the pupils of the institution, Charles Carson, son of Inspector Carson, who carried off six scholarships, the total value of which will be about \$400.

—Young Herrington, the chap who escaped from Strathroy's chief of police while coming to the city on an express, but was recaptured, is only 21 years old. He is suspected of having set fire to Lyon's planing mill in Strathroy, which was destroyed on Aug. 15.

—Auctioneer Jones sold the drygoods stock of James Robertson & Co., Simcoe, to Mr. Mitchell, Arthur, at 63½ cents. The stock was inventoried at \$12,683.77. The stock of S. B. Lawson, general merchant, St. George, was withdrawn at 55 cents. It was valued at \$7,850.

—Wm. Brunst, who was arrested here some days ago, accused of the larceny of a watch from George Howell, of Toronto, asked for a week's delay at the Police Court on Tuesday, as he wanted to pay back some money which he got on the watch. He was remanded.

—Adin Fellows, of London West, has ended his Strathroy's chief of police while coming to the city on an express, but was recaptured, is only 21 years old. He is suspected of having set fire to Lyon's planing mill in Strathroy, which was destroyed on Aug. 15.

—The firemen are attending a variety of first aid courses. They have been ordered to put out several bush fires along the river bank, and yesterday afternoon they had a four-acre prairie fire to douse on River avenue, near the Cove. Their arrival probably saved several homes, as the fire was raging in the dry grass.

—Judge Edward Elliott refused the defendants Leys and Rorison a new trial in the H. A. Williams vs. Col. P. B. Leys and B. D. Rorison dog squabble. Messrs. Leys and Rorison still think their dog, although Clegghorn, Graydon, Short and Nichol and other dog fanciers swore that it was Williams' Meadow Lassie.

—Owing to a delay in the London train Grand Sire Dr. Cl. T. Campbell, Grand Sire M. D. Dawson and Grand Treasurer S. E. Welsh were unable to be present in time for the funeral of the late city clerk of Brantford, James Woodruff, which took place yesterday. At the grave the services were conducted by N. G. Bro. L. Moss and Chaplain William Finlayson, the officers of Harmony Lodge, and the Grand Lodge members being present around the grave.

—Edward Morrison, who was accused by Drayman Williamson and his wife, of the Pipe Line road, of assaulting them with a pitchfork, was tried before Squire Lacey yesterday afternoon. Morrison had no lawyer or witnesses in his behalf, and on the statements of the two plaintiffs was committed for trial. It appears that the trouble started over the prisoner striking a little son of Williamson's. Morrison lost his left arm some years ago in an accident.

—"You must get tired keeping all these trifles in stock," said a chance customer to a druggist as he glanced over a showcase containing at least a score of small patented articles. "We do," replied the druggist, "yet customers come in every day asking for things that we have never kept, and we

## BIG BOTTLE! BIG BOTTLE!

**BARK-WELL'S**  
Beef, Iron and Wine,  
Manufactured originally by late G. W. Harkness from Liebig's Extract of Beef, Glucose of Iron and Pure Sherry Wine.

The impaired system and impoverished blood, whether caused by nervous debility or any other disease whatever, needs something in the shape of a nutritive tonic to help nature to recuperate. Such a preparation is BARK-WELL'S BEEF, IRON AND WINE. Gently stimulating, nutritive and tonic, it specially overcomes exhaustion, fatigues and general weariness and debility. All the ingredients are simple and good, and in combination form a valuable restorative for convalescents, especially for the hot season. Prepared specially by W. S. BRYER & BARKWELL, Manufacturing Chemist, 288 Dundas street.

have hundreds of dollars' worth of unsalable articles on our shelves. The life of these patented trifles is ordinarily only a few years. They are widely advertised until they obtain a large sale. Then the advertising ceases, and soon the sales languish until the thing is no longer called for.

—The Western Fair Board cannot find employment for a twentieth of the men who are seeking work at the present time. The board will, as far as possible, select such men as are ready, have to maintain families, and can be relied on.

—A deputation of school trustees from Kincardine may be expected here shortly to examine the workings of the kindergarten system in this city with a view to establishing a similar system in connection with the Kincardine public schools.

—About 4 o'clock Wednesday morning two youths who were left alone in a large house in the northern part of the city were awakened by the supposed presence of a burglar. Hastily donning a small portion of their attire, they skipped out the front door and, slamming it, locked themselves out. Some neighbors were aroused and a search of the premises instituted, with the assistance of the policeman from the Richmond street beat, entrance being made by means of a ladder through an upper window. The searchers failed to discover any evidence of a marauder, and the half-perished boys, who were thoroughly frightened, again took possession of the residence they had so hastily evacuated.

George Coutts, a 20-year-old G. T. R. telegraph operator from Parkhill, is being anxiously sought after by the county constabulary. Since last winter Coutts kept company with Miss Fanny, the respected daughter of Mr. Alfred Brewer, a well-to-do miller in Parkhill. Their relations are alleged to have been too intimate, with the result that Fanny will shortly become a mother. Mr. Brewer wrote out a warrant for Coutts' arrest, but the latter went to Detroit, where he was arrested a few days since. He was in the city on Tuesday night and together with the solicitors for himself and Miss Brewer endeavored to make a settlement. It was of no avail, and Coutts left on a late train. The young man is also charged with administering drugs for the purpose of procuring an abortion. Mrs. Coutts, who is a widow, is one of Parkhill's leading residents, and is quite wealthy.

## Music in the Park.

—On Friday evening the citizens will be afforded a musical treat of no ordinary merit, in Victoria Park, by the Seventh Band. The occasion will be a special concert, arranged for the purpose of clearing off a heavy debt that hangs over the band for music provided in connection with the weekly concerts, which have been the delight of the citizens for so many years back. A novel and special programme is in course of preparation, one that is worthy of the occasion, and it is confidently hoped that the public will turn out in large numbers and contribute generously to the object in view.

## PROGRAMME.

March—Washington Post.....Sousa (by special request).....Baqut (by request)

Valso—The Aberdeen.....F. J. Moore

Song.....By Sir H. H. Poole

Polka—The Jolly Blacksmith.....Tuckley (with anvil)

Fong.....By Mr. Sim Fax

Cotillon—The Bugle Call.....Liberati

Mr. St. George

Selection—Lucy's Borgia.....Donizetti

Valso—Germany.....Keler Bela

Nyphone solo.....H. McKenna

God Save the Queen.

## School Children to be Vaccinated.

No. 1 committee of the Board of Education met yesterday afternoon and transacted a good deal of general business. The pupils of the public schools may have to be vaccinated, as carrying out the instructions of the Board of Health. The secretary will notify all principals that until the children have been vaccinated they will not be allowed to attend school. Inspector Carson presented a report in which were recommended some changes in the teachers' staff. Miss Edith Vining will be promoted from the junior second in Lorne avenue to the senior third in place of Miss McLeod, resigned. Miss Vining, by this advance, passes two teachers, but this was, the inspector said, on account of her superior ability. Miss Bertha Graham, Kate Sutherland, Maude McConnell, B. Thompson and Lillias McKewen were recommended as transition teachers, and Miss Cannon, of Rectory street school, and Miss Cooper, of Aberdeen, as kindergarten instructors. Miss Shepland will be recommended for the first vacancy on the kindergarten staff. Inspector Carson had no person whom he could recommend with confidence to fill the vacancy in Talbot street school, caused by the absence of Miss Miller. Miss Grieve was appointed to the position, but on reconsideration Mr. Orme, a young man on the substitute staff, was chosen. Trustee Powell fought hard for Mr. Orme, although the inspector favored Miss Grieve. The latter was appointed to fill the place of Miss Minnie Mulvaney, who has been granted two months extra holidays on account of ill-health. Percy A. Gahan, of Essex, sent a big batch of recommendations to back up his application for a position on the substitute staff. It was granted. Trustee Jeffrey (acting chairman), Powell, Morphy, Griffin, Sanders, Craig, Wilkins and Dr. Campbell were present.

Adolphus paused outside the door  
To interview the scrapper:  
Within those walls his father sat  
Intent on Sunday's paper.

Six times before he'd sought that door  
On this same mission bent;  
His courage failed—but now tonight  
He'll ask papa's consent.

"Respected sir, I've come to tell—  
To seek my fate—oh, seek,  
Oh, since the early spring time came  
I've felt—I mean—I feel—"

Adolphus paused, with pallid cheek,  
"Why, boy—don't look morose!  
It's billiousness! I've had it here—  
"Percy's Pellets," take a dose!"

The "Pellets" cure constipation, biliousness, indigestion, piles, and all derangements of stomach, liver and bowels.
