### TWO MEN EXECUTED FOUR HUNDRED AT PETERBORO TODAY GO TO THEIR DEATHS IN FEARLESS MANNER

"Good-bye, Canon" Were the Last Words of the Condemned Men.

CEREMONY WAS BRIEF

Trap Was Sprung Three Min. utes After Men Left

Peterboro, Jan. 14. — "Good-bye, Canon." simultaneously Thomas Konek and Michael Bahri uttered their last message to Rev. Canon J. C. Davidson and Michael Bahri uttered their last message to Rev. Canon J. C. Davidson as the black caps slid over, their heads and hid their faces from view in the grey hour of dawn this morning. At 8:30 o'clock, three minutes after they left their cells, the trap was sprung and both men paid the extreme penalty for the murder of Phillip Yannoff in June last. They walked to the scaffold with scarcely a tremor, and made their last remark unwaveringly. Late last evening G. N. Gordon of this city and B. W. Essery of Toronto, legal advisers of the condemned men, were informed that the law must take its course. Konek in a statement to Mr. Essery said that he had not seen Yanoff as he lay in his bunk, and had not intended shooting him. He blamed the hair trigger action of his automatic pistol and his nervousness when he and his companion were robbing the men in the bunkhouse.

and the electric heater which the car carries. It is just as simple as using an electric iron or toaster.

For Everyone's Use.

Mr. Buchanan thinks that a feasible scheme for placing such heaters at the disposal of motorists could be found. The stations would be established on every pole in the downtown district in locked boxes. The motorists who wished to use them could be charged \$5 or some other sum for a key which would unlock the boxes.

License tags would be issued to be displayed on the cars and these would serve as a check on the illegal use of the heaters.

While the scheme is ready to be put into effect, it is not likely that much will be done this winter, because of the power shortage. As soon as sufficient power is available, however, it is likely that steps will be taken to put the scheme into effect.

After balloting until it was necessary to toss a coin, John Rawlings was elected president of the Army and Navy Veterans in Canada, London Unit 23, at the annual meeting held in the when war broke out in 1914. It made a splendid record in the war, along with the other Canadian units. Col. Reason said that Canadians made a wonderful showing at the second battle of Ypres. ### PROGRAM AT GRAND IS EVEN MORE THAN **USUALLY EXCELLENT**

Includes Marguerite Clarke in "Widow by Proxy," Chaplin and Vaudeville.

Marguerite Clark in "A Widow by Proxy," Charlie Chaplin in "A Day's Pleasure" and a vaudeville act such has not visited a London theatre in a long time completes a high-class bill in every detaff at the Grand Theatre this week.

Marguerite Clark, starring in a new Paramount Arteraft picture, is a "scream" from start to finish. She plays the role of a wideawake young bachelor girl masquerading as a widow in order to coliect a legacy for a girl chum, whose husband is reported missing in France, and who herself is too proud to secure the money from her snobbisn relatives.

When her deception threatens to shatter her own budding romance with the supposedly dead husband's brother, the alleged widow is sorely tried, but a edligntful surprise straightens matters out. Nigel Barrie is Miss Clark's leading man and a notable cast assists in making "The Widow by Proxy" a creen comedy of the rollicking type for which Marguerite Clark is a famous.

Charlie Chaplin, as usual, throws the audience into screams of laughter in "A Day's Pleasure." Charlie's troubles begin when he attempts to crank the family car, a remnant of the dark ages. Charlie gets into all sorts of trouble at a busy street crossing, and his antics with the "traffic cop" provide 30 minutes of laughter.

An excellent review in colors is also a feature of this bill.

The vaudeville act is provided by the Navassar Girls, exponents of instrumental music conducted.

a feature of this bill.

The vaudeville act is provided by the Navassar Girls, exponents of instrumental music, conducted by Miss Augusta Dial, and featuring; Miss Hall, flautist; Miss Powers, violin virtuoso, and Miss Van Atta, cornet soloist. These clever and talented young ladies offer a delightful 20 minutes of popular and classical selections. It is an act that will unquestionably prove a rare treat to all lovers of good music. This act will be presented at the Grand today for the last time.

### REQUESTS FOR PARKING SPACE AT HOSPITALS ARE FILED, OWING TO EXPENSE

Would Cost Over \$5,000, Engineer Estimates in Report.

Requests to provide paved parking spaces in front of the city hospitals were filed by the board of works last night. Dr. II. A. Stevenson, M. P. P., was one of a delegation last year which urged that this work be done. He suggested eliminating the boulevard on the north side of Ottaway avenue opposite Victoria Hospital, paving this space, and using it to park cats, as is done in front of the city hall. This would keep the cars off the hospital driveway, and would not annow the patients. He suggested a somewhat similar plan at St. Joseph's Hospital. He estimated that the cost would be comparatively small. City Engineer Brazier reported last night that the cost of the work at Victoria Hospital would be \$4,775, and at St. Joseph's, \$580.

Whether Viscount Haldane's plea will be indorsed by H. H. Asquith, former premier, of whom the Viscount is a supporter, remains to be seen. It has been rumored recently that Mr. Asquith would become a candidate in the impending Parliamentary contest in the Paisley constituency, in which case, his utterance would be awaited with intense interest. In the meantime, the Northeliffe press charges that Premier Lloyd George is seeking the general support of other newspapers. The premier has not taken notice of this charge, which is equally ignored by his political associates and press champions. The Daily Mail says today, it is believed that if Col. London, Jan. 14.—Although the Coalition Government is losing seats in Parliament and the "handwriting on the wall is against it," nevertheless it cannot be turned out because "there is nobody to take its place," declared Viscount Haldane, fromer lord high chancellor, yesterday. Viscount Haldane, who is an acute Liberal politician, asserted he did not believe either the Laborites, Liberals ar any other party, was likely to come into power in the near future and that a change in the Government could not be brought about until a strong, united opposition to the Coalition regime could be formed.

Such an opposition, he argued, could be established only by the formation of a great progressive party composed of Laborites and Liberals. He said: "Labor has captured the heights and we Liberals are down in the plains. We Liberals, framing ideals which are as high as those of Labor, must agreed with Labor upon methods which, allowing for the freedom of opinion, and of program, will make it possible for us to work together at the same problems."

How to Keep Age-Lines and Wrinkles Away

Don't forget that the woman who smiles will have a skin more free from wrinkles than the woman who frowns. When wrinkles begin to appear it is a good plan to bathe the face once a day for awhile in a harmless solution made by dissolving an ounce of powdered saxolite in a half pint of witch hazel.

This is remarkably effective in erasing the hateful lines, not only because of its astringent action which tightens the skin and thus irons out the lines, but also because of a helpful tonic effect which improves capillary circulation and nerve tone. There is nothing better for flabby cheeks or chin. Be sure to ask the druggist for the powdered saxolite.—Advt.

Hopes To Have Ottawa-Pres cott Road Constructed Before Snow Flies.

(Canadian Press.) OTTAWA, Jan. 13 .- "The Ottawarescott road will be constructed before the snow flles next fall." When Hon. F. C. Biggs, minister of highways, announced this tonight before several hundred representative

citizens in the city council chamber, the audience broke out into cheers and apaudience broke out into cheers and applause.

A later announcement by the minister as to the general road policy of Ontario made it apparent that the road in question would be a macadam one in part, possibly a gravel one in part, and of a "more permanent structure where conditions required such." This, however, was not announced directly as regards the Ottawa-Prescott road, but as part of the policy of the Ontario Government for all trunk lines in the province.

reception, at one time the audience rish growince.

The meeting was warmly favorable to thon. Mr. Biggs, and he received many congratulations on his promise. He also added that it was the policy of the Government to build more permanent roads as soon as the traffic or other conditions rendered the upkeep of macadam or gravel roads more costly than the interest upon a new and more durable road.

Mr. Biggs also announced a very comprehensive road policy for the province. Mr. Biggs also announced a very comprehensive road policy for the province. For one thing, roads in future must be not only built, but kept unsectionmen will be put on roads with vehicles and piles of stone, crushed stone and gravel will be placed at intervals. As soon as the slightes hoe develops, the sectionmen will fill the hole up and thus roads that at present last three years or so will last, it is hoped, for a generation.

The Government hopes to get the Dominion road grant of forty per cent of the cost applied to the 1600 tiles of provincial county roads, and Mr. Biggs will interview the Dominion god oads commission tomorrow on this and other matters. The minister wants statute labor on the roads done away with, H intimated that this form of was learned the system will be taken was usually the excuse for a good holiday. In future the Government will pay townships 40 per cent of the cost of building township roads. The present rate is 25 per cent. Moreover, while at present the Government pays 25 per cent of the salary of a township road engineer, up to a salary of \$600, in future the Government will pay 40 per cent of such engineer's salary up to any sum the township cares to go. "The higher the salary the better the man," stated Hon. Mr. Biggs.

All county road engineers in Ontario are ordered to report in Toronto about March 1. and when there it will be instilled into them that it is absolutely necessary for them to keep their roads in good repair. Mr. Biggs stated that there were snormous losses in Ontario through roads being built and then practically abandoned, so far as any upkeep work being performed.

The Government would take over as many country roads and turn them into provincial county roads as was decided upon, and this would leave the counties more money to develop other county roads.

Nobody can be sure what Bryan's real object is in proposing compromise. He remains the craftfest of all American politicians, never putting all his cards on the table at one time. Whether he is out to displace Wilson as leader of the party, or seeks a fourth nomination to the White House, is not clear, but there is no doubt the Democratic party. Whatever his plans, it i begins to look as if Bryan was correct in his is most improbable that the Republican majority can be forced to accept the treaty without reservations and to continue the deadlock is futile and dangerous. ### RELIGIOUS AND SOCIAL REFORM.

pressing the great reform movement of the churches speaks of "the gay, mad, whirling masses who break away from wholesome restraint to follow wildly their appetites and passions," and then charges that the "unconsecrated editors, professors and teachers will not save us. Listen to the patter agony of humanity."

What is the meaning here of "the agony of humanity," if masses are gay and whirling, then dealers say that more goods are sold the workingmen more prosperous than ever? If this agony means the general unrest and ill-will between the classes whose lines have been drawn sharper by accumulating wealth, it is surely unfair to accuse editors of indifference on this subject. It is a matter of constant and anxious discussion in the press.

"Law-makers cannot save us, the law is impotent unless it leads to Christ," the manifesto goes on. Let us not go to the other extreme of utter despair of law and forms of Government. Liberalism traditionally pins its faith to law, improved government and social reform. Religion itself must in these days be social in character and bearing if it is to survive and succeed. Truth is, for human purposes, not so much academic or intellectual and dogmatic, but resides wherever there is good work to be done for fellow-men, and the only way of accomplishing much is not by individual righteousness alone, but by concerted action for justice in the mass through legal reforms. There were unprogressive people in the United States seventy years ago who saw no use in the abolition of slavery, they thought that the moral and religious improvement of individual slaveowners and slaves was the one thing needful. But we know that legal action on the point was imperative. Similarly, if there are in our present social and economic system persons unfairly treated, unfairly taxed, unfairly neglected, inadequately rewarded, it is for the people of Canada to elect a Government that will legally remedy these evils, bring about a new era of justice and good will. That will take the teeth out of incipient Bolshevism. Are editors who advocate these important aims to be charged with indifference to the "agony of humanity?"

### PERSHING'S ARMY IN EUROPE. General Pershing's official report on the

operations of the American army in the war has been laid before Congress, and is a frank, business-like document. It contains no boasting, gives proper credit to the aid received from the Allies in transportation and supplies, while at the same time claiming for the United States army due credit for its part in the finishing up of the war. One of the most interesting features of the report is the comment of General Pershing upon the character of the training which the troops under his command received after their arrival in Europe. The training received on this side of the Atlantic was chiefly aimed at building up physique, but once arrived in France there was a definite idea in the minds of the generals commanding, namely, that the Americans should be trained for offensive fighting. For four years the Allies had been hard put to hold back the enemy. Year after year

the battering ram had come against them. Drafts sent over were on the defensive from the time they arrived in France, and to some extent the idea had gained ground that the object was to hold back the Germans until some new help arrived.

Pershing says that he was pressed to have his troops trained in defensive fighting and steadfastly refused. Apparently he had to stand very firmly for his idea against the majority of the others before they finally agreed. It will probably long be a matter for controversy whether Pershing was right or wrong; in any case, soon after the American troops were in the field the fighting became offensive. There are good reasons for believing that the British troops, with their Canadian and Australian allies, had grasped/the idea of coming offensive fighting quite as soon as Pershing, despite their long and trying ordeal of fighting of the opposite type. The splendid preparation given the Canadians for some of their later exploits has been described for us by returned men who participated in training for weeks before a big blow was to be struck. The Americans, according to impartial observers, were really pushed into offensive fighting before they were ready for it, and their victories were won by sheer impetuosity, rather than by military skill. Their losses were out of proportion to the fighting. Advances were made so rapidly that the enemy was not properly cleaned up, and in some cases later attacked ous interferences in the affairs of Europe. In | in the rear. It was probably natural that the American troops, new to the job and desirous of making a name for themselves in a field where others had been fighting for years, should do foolhardy things. The pitiable part formal arraignment and chastisement. The of it is that such losses of life should have

A report just issued by the French Government shows to what an extent the American inclined to launch another adventure after the army was supplied with fighting material by the French Government. The items of the report show that there was handed over to Pershing 57,000 machine guns, 22,500 rifles, William Jennings Bryan has made a breach 807,000 protection equipments, 2,800 revolvers, in the Democratic party by taking issue with 3,800 aeroplanes, 3,834 cannon of all calibres, 240 tanks, 206,450,000 cartridges, 10,000,000 contends that only by concessions on the part high explosive shells, 948,000 gas shells, 150 tons of gas, 136,881 horses, 1,500 officers in ceptable to the Senate. Mr. Wilson continues France and 500 in America, 17 camps, 6 artillery camps, 43 barracks, over 2,000 square without amendments, and failing this hints at miles of cantonments, 30,000 hospital beds, pigeon-holing the document in order to make it | 100.000 rooms for sick soldiers, and 300 trains per day. Counting in all these supplies along with enormous amounts of food, wood and gasoline, supplied from French stocks, the report computes that French aid to the United States represented a saving of 3,381,507 maritime tons. French computations of the percentage of French material used by the American Expeditionary Force in comparison with totals was that he has created a serious disturbance in 100 per cent for light and heavy artillery and tanks, 98 per cent for aeroplanes, 57 per cent for naval guns, while of the 65,000,000 shots summing up of the situation in the Senate. It fired by American gunners from the 75's and 155's, every shell came out of French factories.

### LINCOLN'S INN. [Hamilton Spectator.]

The admission of Mrs. G. M. Thompson as a student at Lincoln's Inn is an epoch-making event. The emancipation of women in Britain would seem o be complete, with its woman M. P., and its women magistrates, and its woman barrister; but what would the old benchers have thought of such a happening? So essentially was this famous inn of man's place that in the time of Queen Elizabeth the manner of wearing their beards was regulated, it being laid down that "no fellow the house should wear a beard of above a fortnight's under penalty of loss of commons, and, in case of obstinacy, of final expulsion." In 1562, however, such was the love for long beards that this law, we read, had to be abrogated. Then there was the restriction as to the length of the sword, which

was, under no circumstances, to exceed three feet, Lincoln's Inn derives its name from Hendy de Lacy, Earl of Lincoln, who flourished in the reign of Edward I. The earl's arms are still to be seen over the gateway leading to the inclosure. It was constituted an inn of court shortly after the nobleman's death in 1312. Existing buildings, however are not later than Tudor times. In ancient days there was a church on this site belonging to the "preaching friars," who came to England in 1221, and later migrated from the site of Lincoln's In to the "Blackfriars," which locality still bears that name. Lincoln's Inn merely means Lord Lincoln's lodging or house. His lordship is said to have in-

troduced law students into his "inn" in 1310. The inns of court have been styled "the noblest homes of humanity and liberty in the kingdom." They are four in number-the Inner Temple, the Temple, Lincoln's Inn and Gray's Inn. They are called "inns of court" because they were former! held in the court of the king's palace. ### WHO WON THE WAR?

[Ottawa Journal.] In the British House of Commons a few days ago an official statement was given in response to a question as to the naval expenditure of Britain during the war. The figures were these: 1915......\$1,025,000,000 1917.....\$1,135,000,000

1916...... 1,045,000,000 1918...... 1,625,000,000 Even these enormous figures, however, do not indicate fully the steep curve at the height of which Britain stood in November, 1918. The weekly rate of expenditure on the navy at the time of the armistice was actually about £6.750,000, or at the rate of more than \$1,750,000,000 a year.

In short, the longer the war lasted, the stronger Britain was going-and not merely on the sea, but everywhere and in everything else.

### AMONG THE BRAVEST.

[Montreal Star.] Lady Astor's ability to enter the British Parliament has won wide admiration. She is the mother of six children, and some observers have made reference to this fact as an evidence that women may enter into public life regardless of their traditional domestic duties.

Nothing can be gained by misinterpreting actual conditions. The truth is that Lady Astor, a woman of great wealth, possesses distinct advantages over other mothers. She can say "Come," and a servant cometh; "Go." and a nurse goeth, The average mother has no such advantages. Of those who do not wear the Victoria Cross, but should, the mothers of big families in ordinary cir-

cumstances far outstrip any others. They are the

### bravest of the race. THE WORD "SELAH."

[Stratford Beacon.] The word Selah, which occurs so frequently in the Psalms, is usually believed to be a direction to the musicians who chanted the Psalms in the temple. Mattheson, the great musical critic, wrote on the subject, in which, after rejecting a number of theories, he came to the conclusion that it is equivalent to the modern "da capo," and is a direction that the air or song is to be repeated from the commencement to the part where the word is

Nor feel the heart-break in the heart of things? PUBLIC SAFETY AND CIVIC EMPLOYEES.

[Montreal Star.] Modern city life is absolutely dependent upon adequate police and fire protection and efficient health supervision. Even the temporary failure of the police exposes a modern city to the depredations of the underworld. Even the brief stopping of the water supply means not only individual hardship, day but an intimate and vital danger from fire and

It is obvious that the men to whom the citizens of a community entrust their lives in these connections should feel keenly a sense of their responsibility. They hold positions of trust. They stand on Friday preciation like sentries on the battle front. Betrayal or desertion on their part is unpardonable.

There has been too much drift in the development of civic officialdom. In reorganizing the service, recklessly abandoned in Montreal by a few men who deliberately placed half a million people in peril to better the condition of a couple of hundred indi-viduals, there should be a definite policy and plan. It should be determined that men engaged in vital ervice to the community should on the one hand oledge themselves absolutely never to violate their trust or to leave the people dependent upon them in a position of danger; and, on the other hand, that the city shall accept the obligation that these employees should be given no wage grievance as compared with men doing similar work in private employment, but should have a distinct feeling of well-being and gratification in their connection with the public

The humble brother, a hired man serving under a foreign flag, could never command even the rank of a second lieutenant, a position held by thousands of British lads during the war; the other brother, the German adventurer, the "tiger's heart wrapped in a Prussian skin," stayed at home, and, by means which still mystify us, rose to a military standing such as no other human being has ever held.

### HOME OF MRS. MARR IS ART GALLERY OF **BEAUTIFUL PAINTINGS**

Mate To \$10,000 MacWhirter Oil Painting Hangs in Her Library.

There are some really wonderful collections of original paintings in London, and yet very few people realize that they are here. They think they have to cross the water to see such pictures as "June in the Austrian Tyrol," the work of J. MacWhirter, R.A., which hangs in the Tate Gallery, London, tingiand, and is valued at \$10,000, and yet the mate of that picture "The Mountain Meadow," thought by some critics to be a better work of art than the "Austrian Tyrol," hangs in the house of Mrs. John Marr, Dufferin avenue, London, Ontario. This is a delightful piece of color in oils about seven feet by five feet, and when the right light is cast upon it shows forth the exquisite misty blues and greens of mountain meadow scenery. There are some really wonderful colof mountain meadow scenery. Great Marine Picture.

Great Marine Picture.

Here, too, may be found "Close to the Wind," a fascifiating plece of ocean with fisher craft springing before the waves. This water-color was displayed in the Hoyal Academy in 1912, and is by C. Napier Hemy, R.A., the great British marine painter, who died but last winter.

The most popular picture, however, in the whole collection, although not the most valuable, is "The Forest of Fontainebleau," by Flavelle, in water-colors. Here a long vista of trees in beautiful autumn colors is almost spiritualized by the magic light which creeps in through the empty spaces.

"Cattle" by N. Graham of Toronto is another favorite of art conneisseurs as well as laymen. Lite and beauty as well as laymen. Life and beauty of scenery are here depicted in a most remarkable manner with bold splashes of color. "Sunset Off the Orkneys" by St. Thomas Smith is another delightful addition to this collection, the wolden lights which consists the golden lights which come into this

A Brock Water-Color.

"Fishing in the Rain," by Brock, son of the great sculptor who was knighted by the King, is also a remarkable study in water-colors, and "Moorland" by J. H. Cole, a rare oil painting, which is prominently displayed. "Old Fishermen" by F. M. Evans and "Motherhood" by de Hooge, a pupil oil israel's, are two others which are filled with interest and show excellent technique. There is also a portrait of a girl by Miss Bradshaw, which is a delightfully pensive study.

Carl Haig, who won the medal at the time of the King's Jubilee for being the best British artist, adds his "Italian Fate" to the rest. Then there is a "Scene in Venice," a beautiful piece of transparent water-color by an Italian artist, "A Street in Dieppe" by Charles E. Frere, "The Goose Girl" by Sydney Moore, "The Old Tannery" by Miss Bishop, "Westminster Abbey" by Bell Smith, a delightful waterfall by Chapman, several West Indian scenes by Brownell of Ottawa, and "Still Life," a bit of meadow with sheep, also by him, and a host of others all filled with interest.

She loves to have people come in and see them, but even the number who are priviled but even the number who are privileged to view them is very small. Several persons in the city have expressed the desire that there might be some public art gallery in London where the people of London might have the opportunity of viewing such collections perhaps once

Tuberculosis.

I have heard that the serum treatment used for tuberculosis is dangerous. Kindly tell me in what way is it dangerous? Can tuberculosis of the kidney be cured, and is it contagious. Can it be determined by a blood test whether one has tuberculosis? Is a blood test and blood pressure the same thing? (J. B.)

ANSWER—You fail to specify which serum you refer to. Some things which have been advanced as treatment are dangerous. Tuberculosis of the kidney may be cured by prolonged sumbath treatment under the supervision of physicians who understand the method. It is not contagious. No blood test has been found for tuberculosis. Measurement of the blood pressure is not the same as a blood test. Various chemical and biological tests of the blood are made to determine various conditions.

Chocolate Fudge.

Dear Miss Grey,—I have long been a reader of your column in The Advertiser and have often threatened to become one of your correspondents, and at last have carried out my threat. I have been making chocolate fudge, and am sending along the recipe. It is as follows.

Take 2 cups brown sugar, 1 tablespoon butter, ½ cup of milk. Place these ingredients in a saucepan and boil till it hairs. Add ½ teaspoon vanilla, 1½ teaspoons cocoa. Beat it till it threatens to harden in pan and then pour into a buttered dish.

Miss Grey, have you any nice crochet patterns for pillowslips? If so, would you please send me one in stamped addressed envelope? GEORGINA.

## Western U. Beat Classic City Five in O. B. A., 39-9

Local Varsity Had No Trouble in Beating Visitors and Incidentally Getting a Good Workout.

The opening game in the intermediate O. B. A. was staged last night at the Western U. gym., when the local Varsity men put a crimp in Stratford Y.'s championship aspirations to the tune of 39 to 9. It was simply a case of a good workout for the Kingswood men, and although the Stratford team SARNIA WINS CLOSE were simply outclassed. Then, too, Referee Colin Duffield let the players go a little more than the visitors were accustomed to and being a much lighter team they suffered in consequence.

accustomed to and being a much lighter team they suffered in consequence.

The local combination play was excellent in spots, but when Walnwright and Peever get some more conditioning the team will be a hard one to beat. The defence system of the Western team was perfect, the Stratford forwards not getting one shot from inside the foul radius. Both teams took advantage of the new rule whereby the teams could change their players and put them back into the game. This benefitted Western more than Stratford, as the locals tried out their whole squad in addition to relieving the two centremen when they got tired.

Notwithstanding the uneven score the same was interesting to watch, as both teams used a short, snappy pass, although the visitors were unable to penetrate close enough to the basket to make their shots tell. McGeoch and Clina starred for the locals while Cop-

### CANADA IS MAKING PREPARATIONS FOR BISLEY SHOOT

Usual Conditions Cover Preliminary Shoot At Rockliffe Ranges.

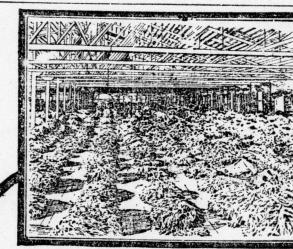

OTTAWA, Jan. 13 .- The Dominion of Canada Rifle Association will send a epresentative rifle team to the National Rifle Association competitions at Bisley this year, arrangements being pow under way for its selection. Each provincial rifle association will be lasked to select one or more men, according to plan decided upon, but the final decision as to the composition of the team will be left to a committee of the Dominion Association. All members of the team must conform to the age limit of the C. E. F., which in the case of N. C. O.'s and men is 45 years.

The annual business meeting of the D. C. R. A. will be held in Ottawa on Friday, February 27, at 11 o'clock in the morning, when the officers for the coming year will be selected.

The Dominion of Canada Rifie Association will resume its annual prize competition at Rockliffe range this summer when a full week's shooting will commence on August 16. The only ritie permitted in the regular competitions will be the short M. Lee-Enfield with sights as issued. This is the service rifle, and is the same as is to be used at the Bisley matches in England in July. The matches will be open to all members of the militia or ex-members of the Canadian expeditionary force, he team must conform to the age limit

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared, and really there is nothing better for coughs. Into a 16-oz. bottle, put 2½ ounces of Pinex (70 cents worth); then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified of Pinex (70 cents worth); then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear. A day's use will usually break up an ordinary threat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for threat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions and don't accent anything else. Guaranteed to give absolute satisfaction or money refunded.

nounced that all the evidence in support of the company's claim had been submitted.

The case for the Dominion Government will be opened on Wednesday morning with the production of a number of experts to combat the claims of the Toronto Power Company as to the amount of power supplied under the orders of Sir Henry Drayton, the Dominion power controller, and its value. It is expected that the evidence on the other side of the case will all be in by the end of the week, but argument by counsel is liable to occupy several days. Sir Walter Cassels, the presiding judge, told the lawyers in the case this afternoon that they could each have three or four days for argument if they desire.

Mr. McKay, in explaining the position of the Toronto Power Company this afternoon, made it clear that the company is seeking to collect more than the Ontario Power Company can really be held responsible for under the orders of the power controller. This is asked to pay includes the cost of maintaining an additional plant and other items.

FATE OF GOVT. HOUSE

WITH LEGISLATURI TORONTO, Jan. 13.—That the future of Government House will probably be decided by the Legislature was the answer of Premie Drury today to a question as to what the Government thought of the statement of Governot Clarke that to abolish it "would be a calamity." The premier said the objections to it were not as an institution but the enormous expense it entailed. but the enormous expense it entailed Hon. Walter Rollo, minister of labor, said no part of the labor program called for the abolition of Government House.

The report showed that the total shipped during the year, 1919, was 60.276 dozen, and the total price obtained \$29,455, and average price per dozen for the year of 49 cents.

Last year's officers were re-elected, and it was decided to leave the entrance fee at \$1, including a marking stamp to all new members. Interesting addresses were given by Mr. Mc-Crostie of the livestock department, and Mr. Baker of Ottawa. T. N. Underhill, manager of the Woodstock Egg. Circle, was also present.

The notable feature of the meeting, and one which met the approval of the producers, was the resolution to instruct the manager to pay cash when eggs were brought in. One of the speakers forcibly observed: "The time is past when this important article of farm produces." nounced. The report showed that the
