ALEXANDER MILLERAND ELECTED PRESIDENT OF FRANCE

FLYNN DECLARES ACCIDENT THEORY IS "PLAIN BUNK"

Chief of Detectives Is Firmly Convinced Wall Street Tragedy Prearranged.

WILL GET PERPETRATORS

Confident That Those Responsible Will Ultimately Be Brought To Justice.

New York, Sept. 23.—While investigators were still seeking to solve the mystery of the Wall street explosion of a week ago, police headquarters announced a package containing dynamite had been found today on the platform of the Reed Avenue Elevated Station in Brooklyn.

The bureau of combustibles at police headquarters announced that the dynamite package was a bomb with fuse attached and burning when a patrolman found it and "put it out."

Investigation into "planting" of the bomb was started immediately.

New York, Sept. 23.—After one week of investigation of the explosion that spread death and terror in Wall street last Thursday, officials today still groped for light that might lead them to a solution of the mystery. Literally scores of clues, stories and conjectures have been sifted by operatives of the department of justice and local authorities without result. Despite the varied stories, however, William J. Flynn, chief of the department of justice agents, was as positive as ever today that the tragedy was the result of a pre-arranged plot of anarchists. He characterized as "plain bunk" renewed stories that it was accidental, and predicted that those responsible for the disaster would ultimately be brought to justice. "It was a criminal outrage," he declared. "We are positive of that, and we are going ahead on that theory."

CHICAGO POLICE FIND DYNAMITE WAS TAKEN

Chicago, Sept. 23.—Department of justice agents and police seeking clues here in connection with the New York bomb explosion speeded up their inquiry today, following discovery that 150 pounds of dynamite had been stolen on September 5 from the Aetna Explosive Company at Lambert, Ill.

SEES BIG CHANCE FOR TRADE IN BRITISH INDIA

Bombay Resident At Chamber of Commerce Luncheon Discusses Situation.

N. R. Chavre of Bombay, a young and well-educated high-caste Indian, a graduate of the Michigan University, who has a vision of a wonderful future for his native land, addressed the members' council of the local Chamber of Commerce at luncheon held in the Tecumseh House at noon today. Although he touched on the history and development of the people of India, and explained many of the native customs, he spoke chiefly on Canada's commercial opportunities in India. His talk was illustrated by many lantern slides.

Although he received much of his education in the United States, and has intentions of taking an M. E. degree in that country, on his return from India, where he is going in a month's time, Mr. Chavre gave evidence of an intense loyalty to the British Empire.

A Rich Field.

To illustrate how far Canada was behind in her commercial endeavors in that wealthy country, he quoted figures showing that in 1918 and 1919 Canada's exports to India amounted only to $166,000, compared to $52,400,000 from the United States in the same period. In the two years named India exported to Canada raw material amounting to $7,840,000, and to the United States $107,280,000.

The United States, he said, is making the most of its chances and endeavoring to establish a permanent trade with India. Some years ago practically all the goods used in that country were of British manufacture. Immediately prior to the war Germany had captured the Indian market wholly, and during the progress of the war Japan made a determined attempt to get in on the ground floor. The Japs showed beautiful samples, but when the goods arrived they proved to be of inferior quality. By their duplicity, he said, the Japs defeated their own ends. At the present time Japan is not considered a serious factor in India's trade.

Now Is the Time.

Speaking of the opportunities open to Canada to establish a trade, Mr. Chavre said that the present was the logical time for this country to establish itself firmly in the Indian market. At the present time all the European countries are struggling to rehabiliate themselves

Gave His Life In Attempt To Save Others

Brooklyn Night Watchman Is Victim of Smoke Suffocation.

New York, Sept. 23.—Overcome by smoke while attempting to rescue a woman and her little child from a fire that destroyed a four-story building in Brooklyn early today, the night watchman, Georgeus Paschatsky, was suffocated to death. Before he succumbed, however, he shouted directions that enabled the woman to carry her child to safety. Three firemen were overcome by smoke.

TELEPHONE COMPANY CONCLUDES ITS CASE FOR HIGHER RATES

Hearing Will Be Resumed Early in November in Toronto.

MAY GO TO HAMILTON

Representatives of Municipalities To Investigate N. Y. "Measured" System.

Ottawa, Sept. 23.—(Canadian Press).—The case of the Bell Telephone Company in support of its application for increased rates was concluded this morning. In concluding the case, Glyn Osler, counsel for the company, stated that he might have to call one or two more witnesses when the next hearing took place, but that, generally speaking, the company had finished. Only one witness was called this morning, H. G. Atwater, rate engineer for the American Telegraph and Telephone Company, with offices in New York, who testified to the method adopted at arriving at the proposed new rates. Before adjournment today, it was agreed that interests opposing the application would be permitted to send a representative down to New York to inspect Mr. Atwater's records and verify them.

Although there was no definite decision regarding the date when the hearing of the application will be resumed, it is practically certain that the next sitting will take place in Toronto on November 4. Chief Commissioner Carvell said that he was anxious to go ahead with the case immediately upon his return from the west, and that he thought November 4 would be the best date to continue. The first hearing would be in Toronto, after which the board would go to Hamilton, if there was any great demand for a hearing in that city. Early the next week a sitting would be held in Montreal, and the final sitting would take place in Ottawa.

"Measured" System.

Mr. Osler suggested that it might be possible to do without a hearing in Hamilton. The company was anxious to avoid expense and delay, and Hamilton was near Toronto. To this the chief commissioner did not agree. He thought that a sitting should be held in Hamilton if there was a demand for

METAL WORKERS ARE AGAINST AGREEMENT

Members of the Commission Claim They Acted On Instructions.

London, Sept. 24.—A referendum of the strikers in Turin has resulted in the rejection of the agreement arrived at in Rome between the employers' representatives and the workers in the metal trades, says a Rome dispatch to the Exchange Telegraph today.

Occupation of the Fiat, Lancia and Dubost automobile works, the Anzaldo aviation works and other factories, chiefly textile, will be continued the dispatch says.

Tuesday night royal guards were fired on, one being killed and several wounded. Three armed "red guards" were arrested.

At Milan a bomb was exploded on the threshold of the residences of a manufacturer, who was a leader of the opposition to the workers' claims.

In Savona the metal workers have decided to reject the agreement and maintain their occupation of the plants seized.

Milan, Italy, Sept. 23.—Opposition to the agreement reached at Rome between the representatives of employers and workmen in the metal trades has become quite bitter at meetings where the agreement has been discussed. Members of the workers' commission who signed the agreement explained they simply carried out the decision of the plenary session of workmen, at which the tendency of the Socialist party to give the present movement a political character with a view to overthrowing the present regime was defeated by a large majority. They insist that the logical consequence of this decision was the return of industrial plants to their owners, since occupation was a means to that end, and not the end itself.

AMERICAN SOLDIERS SAVE MAN FROM MOB BENT ON LYNCHING

Made Statements That Approved of Wall Street Bomb Outrage.

Williamsport, Pa., Sept. 23.—With a rope around his neck, and surrounded by a large crowd, who threatened him with violence, Peter McCann, 34 years old, was brought here last week from Muncy by members of the American Legion and locked up in the county jail for his own safety.

McCann, who gave his residence as Pittsburg had been in Muncy obut three weeks, and in arguments in a hotel is alleged to have attacked the American Legion, and to have declared that not enough persons had been killed in the recent Wall street explosion.

NOVA SCOTIA VETERANS WANT HOUSING SCHEME

Digby, N. S., Sept. 23.—The Nova Scotia G. W. V. A., in convention here yesterday decided to memorialize the Dominion Government asking that a housing scheme on the same basis as the settlement board be established. It was also decided to carry out a rigorous campaign to inform the people generally as to the main facts in housing conditions.

GERMANS DELIVER VIRTUALLY ALL OF SHIPS DEMANDED

Paris, Sept. 23.—Germany had surrendered 1,944,565 gross tonnage of steamers and sailing vessels by September 16, according to the reparations commission. She has thus delivered virtually all the tonnage unquestionably due under the treaty, except some vessels under construction or repair, and the vessels in the Schleswig district held pending the plebiscite decision.

The commission is proceeding to the execution of the other shipping clauses of the treaty.

Will Ask Share In Canteen Funds

Meeting of the 33rd Comrades Called To Discuss the Matter.

Three hundred notices have been sent out by the secretary of the 33rd Comrades Club, asking members to attend a meeting Friday evening in the armories to protest against the wording of the deed controlling their canteen funds. At present the deed calls for only those who went to England or the relatives receiving any benefit of the funds.

The majority of the members consider this an injustice to the men and the relatives of those who were unfortunate enough, through no fault their own, to be left behind in Quebec. If the deed is altered it will include all bona fide members of the 33rd Battalion. General Panet and Lieut.-Col. Rance from Clinton will speak at the meeting.

NORMAL OPERATIONS PREVAIL IN MANY ANTHRACITE MINES

Miners' "Vacation" Ends and Work Is Resumed.

Hazleton, Pa., Sept. 23.—Preparations were made today for a full resumption of operations in the anthracite coal fields, where, for nearly a month, the industry virtually has been at a standstill because of a "vacation" strike of the mine workers. Practically all of the mines in the Wyoming-Lackawanna district, with the exception of the Pennsylvania Coal Company's collieries at Pittston, resumed work several days ago. These men and those in the Shamokin district were expected by union officials to return to their places within a few days.

MINERS DISCUSS REPORT.

Springhill, N. S., Sept. 23.—At a meeting of the Springhill local held last evening the report of the royal commission on miners' wages and the recommendations of the union executive at Sydney were exhaustively discussed. The attendance at the meeting was the biggest in the history of the town. Two motions passed, calling for ballots on Saturday, first to accept or reject the original report, and secondly to accept or reject the recommendations of the executive. J. B. Lachlan, secretary of the United Mine Workers, announced yesterday that the Nova Scotia miners were willing to accept the award of the royal commission if a clause regarding a sliding scale for its workers were cut out.

Lower Prices In Men's Clothing

Head of the Manufacturers' Association Makes Prediction.

Chicago, Sept. 23.—Recent price reductions of from 20 to 25 per cent, announced by textile manufacturers, will be reflected in the prices of men's clothing next spring, Eli Strouse, president of the National Clothing Manufacturers' Association, declared today at the association's convention.

Price reductions of from 10 to 20 per cent in several lines of merchandise were announced here today by Sears-Roebuck & Co., and Montgomery, Ward & Co., two large mail order houses.

WELSH GIRL IS SUING VICTIM OF LAST NIGHT'S SHOOTING FOR $2,500 AND INTEREST

Dr. Roy Farmer Is in Hospital in Critical Condition With Two Bullet Wounds Near the Heart — Was To Have Appeared in Police Court Today To Answer O. T. A. Charges.

Dr. Roy J. Farmer, of 319 Princess avenue, who shot himself shortly before midnight last night, is still in a very critical condition in St. Joseph's Hospital, and it is impossible at the present time to say whether he will recover or not.

Dr. Farmer has two bullet wounds in being sued for the sum of $2,500, and $661.96 interest with costs, which is the amount of a promissory note said to have been made out in favor of Dorothy Doorley of Cardiff, South Wales. A writ has been filed in the supreme court by Ivey, Elliott & Ivey, solicitors for Miss Doorley.

The plaintiff claims that Dr. Farmer drew up a note in her favor over five years ago for $2,500, with interest at 4 per cent. The note, which was to have run for a period of five years, is now overdue. As the money seemingly was not forthcoming action was entered in the Canadian supreme court. It is understood that the writ was served on the defendant on Wednesday.

Dr. Farmer has two bullet wounds in the vicinity of the heart. An X-ray picture was made during the night with a view of locating the bullets, but it was unsatisfactory, and another will be made shortly.

Dr. Farmer is said to have told Dr. Tew that he was cleaning a gun when the weapon accidentally discharged. He was to have appeared in police court this morning to answer to three charges of violating section 59 of the Ontario temperance act, which provides that a physician must not provide a patient with a greater quantity of liquor than the law allows.

He is a veteran of the war, having served in the capacity of surgeon on a torpedoboat destroyer of the royal navy.

At press time this afternoon Dr. Tew stated to The Advertiser that Dr. Farmer was conscious, and that he is apparently maintaining his strength.

WAS WHISKEY SOLD OR GIVEN TO HIS FRIENDS?

Magistrate Graydon Has To Make Decision in Peculiar Case.

Whether Jacob Ginsberg with his relatives and friends could dispose of 47 bottles of whiskey between September 7 and September 18, or whether some of it was sold, is something on which Magistrate Graydon will ponder for a few days before giving a decision. The case was one of several of a similar nature which kept police court in session well into the afternoon.

License Inspector J. E. Keenleyside testified that with Constable Thomas Noonan he went to Ginsberg's home, 98 Clarence street, Saturday, with a search warrant. Ginsberg admitted to them that he got five cases of whiskey about Sept. 7. A search revealed only 9 full bottles, 2 partially-filled bottles, and a gallon jar, which he said was filled from other bottles. Ginsberg said that was all there was in the house, and that the rest had been consumed.

Was Celebrating.

Constable Noonan testified that Ginsberg was the only man in the house, and that he said he was celebrating because his wife was recovering from a serious illness at the hospital.

P. H. Bartlett, conducting the defence, called Ginsberg as the first witness. He told the court that Monday and Tuesday of last week marked the Jewish New Year. To celebrate this event and also his wife's recovery, he had thrown the house wide open to his friends. The friends came in large numbers, 40 or 50 of them, and most of them partook of the whiskey which was offered. Three sons and a son-in-law also helped to reduce the stock. One moved ten bottles into his own room, as he thought the guests were getting too much, but Mr. Ginsberg did not know this at the time.

Had Some, Too.

"I suppose you drink some yourself?" asked J. B. McKillop, cross-examining for the crown.

"You betcha," was the prompt reply, followed by the statement that he had to, because he was a sick man, and that he took it with all his meals.

This caused considerable amusement in the courtroom and Chief Birrell had to remark "Order, order."

Ginsberg averred further that he could do this and still be sober. He admitted drinking on New Year's Day and the following one.

"Isn't the time for drinking after those days?" asked Mr. McKillop.

"No," replied Mr. Ginsberg, "the season for drinking whiskey is all the time."

Again there was a hum of amusement in the court and the chief again called for order.

Tells His Capacity.

Held down to an accurate estimate of his drinking abilities, Mr. Ginsberg said he could get away with three bottles in two days.

"Then, suppose I am crazy and want to pour it down the sink, is it anybody's business?" he inquired.

"Do you swear that you did pour some down the sink?" Mr. McKillop demanded.

"No, but supposing I did."

The court ruled that suppositions were not in order. Mr. Ginsberg denied that anyone had taken a gallon jug of liquor from his home.

Hidden Under Bed.

Maurice Ginsberg, a son, was next called. He testified to drinking some whiskey and to seeing a number of others do so. He said he had hidden the ten bottles beneath his bed without the knowledge of his father. The whiskey was "Imperial" brand.

At the request of Mr. McKillop he went to the house with Constable Noonan and brought back one of the bottles. The liquor seized by the license inspector was O'Brien's Irish.

Other witnesses were called to prove that they were given liquor.

JAPAN WILL ASK U. S. TO NAME COMMISSION TO STUDY PROBLEMS

Tokio, Sept. 23.—The Washington Government will be asked to appoint a commission to effect a solution of Japanese-United States problems, and in the event of the passage of the California anti-Japanese legislation the Japanese Government will arrange for a lawsuit against the California Legislature on the ground that the bill is unconstitutional and a violation of the treaty rights of the Japanese, according to the leading newspapers today.

The newspapers say the above program was defined at meetings of the cabinet and the diplomatic advisory council.

CABINET WILL HEAR RATES APPEAL SOON

Government Body Not Expected To Alter Board's Finding.

[Special to The Advertiser.]

Ottawa, Sept. 23.—The appeal from the decision from the board of railway commissioners on the railway rates increase will be heard by the Government on Wednesday, the 29th. There are in all ten separate appeals, but it is probable that they will be consolidated in order to save time. There is very little probability of the cabinet making any alteration in the finding of the board, particularly in view of the fact that one minister, Hon. J. D. Reid, has already publicly expressed his approval of the increases granted.

Shortage of Water Balked Volunteers

Fire Fighters By Fast Work Saved Everything While House Burned.

[Special to The Advertiser.]

Ayton, Sept. 23.—When word came last evening by telephone that the home of Mrs. William Scoles, 3½ miles out in the country was on fire; twenty autos full of volunteers hurried to her help. Owing to shortage of water it was impossible for the men and boys to stop the flames which had made rapid headway. The volunteers by working their hardest succeeded, however, in getting everything out of the house. The loss is only partially covered by insurance.

HELD FOR THEFT OF DIAMOND RING

Frank Cahill, of no permanent address, was remanded for trial on a charge of theft by Magistrate Graydon today. The prisoner is accused of stealing a diamond ring and $200 from a citizen. He was arrested early this morning by Constable Thomas Noonan two hours after a complaint had been laid. Although he has no permanent dwelling known to the police, Constable Noonan succeeded in locating him in remarkably short time.

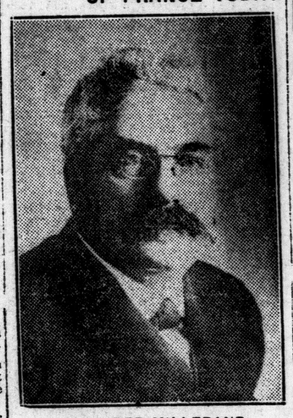

He pleaded not guilty this morning and asked to be tried by a judge.

One man from St. Thomas, charged with being drunk, was allowed to go with a warning, as the constable who arrested him was not present to give evidence.

RECORD ENTRIES AT PETROLEA FAIR

Petrolea, Sept. 23.—The 44th annual exhibition of the Petrolea and Enniskillen Agricultural Society opened here today, and never in the history of the fair has there been finer displays of fruits, grains and vegetables. The entry lists this year break all records, and everything points to the fair being a splendid success. Friday will be the big day, and the races are a special attraction, which are expected to draw a big crowd.

ELECTED PRESIDENT OF FRANCE TODAY

ALEXANDER MILLERAND.

Fair Principal Missing in Ice-Box Love Tangle

Chicago, Sept. 22.—Bailiffs who are endeavoring to locate Mrs. Sylvia C. Palmer, wife of Professor Cyrus E. Palmer, of the University of Illinois, and serve her with papers in her husband's cross bill for divorce, have been unable to get trace of her. She was the central figure in a sensational affair that has caused great excitement at the university. She filed suit here for divorce, charging her husband with cruelty, but he countered with a cross bill, alleging that she had permitted Carl A. Carlson, a butcher in the university town, to make love to her in the big ice box in his shop. Other allegations in the cross bill tell of gay parties in Champaign and Chicago, at which the professor's wife was a prominent figure.

BRITISH CONSULATE IN N. Y. IS PICKETED BY AMERICAN WOMEN

Banners Bearing Various Legends Carried by Members of Band.

New York, Sept. 23.—(By the Canadian Press).—The offices of the British consul were picketed today by American women—apparently of Irish descent—in the interest of Lord Mayor MacSwiney of Cork. Three were on duty, dressed in black, and carried immense signs bearing the legends "Great Britain forbids S. S. Panhandle State (United States Mail Steamship Company) entering Irish ports. Americans! Are we asleep?"

"British officials closely guarded as MacSwiney sinks. Special bodyguard watches over Lloyd George.

"George Bernard Shaw says: 'I would not be in Lloyd George's shoes for a good deal.' MacSwiney is near death. Lloyd George's shoes may soon be empty.

"American ships flying the American flag barred from entering Queenstown harbor. Well, American?"

There are about 20 women altogether, acknowledging no special leadership or headquarters, they say.

VILLARD SELECTS COMMITTEE.

New York, Sept. 23.—In a lengthy statement, which he sent out to all newspapers and press associations in New York, Oswald Garrison Villard today announced that he had completed the selection of the "committee of 100 on Ireland with especial reference to atrocities." There has been much adverse comment on Villard's project, and in reply to this paper the Nation expresses belief that anything which jeopardizes the relations of the United States with foreign powers or which tend to breed international ill-feeling is a proper subject of inquiry by any group of American citizens.

The group of American citizens selected by Villard includes a number whose attitude in the past has been distinctly anti-British.

WINNIPEG CITIZENS TO GET CHEAP APPLES UNDER MAYOR'S SCHEME

Winnipeg, Man., Sept. 23.—Citizens of Winnipeg will be able to purchase cheap apples next week with the inauguration of Mayor Charles F. Gray's scheme for cheap distribution. They will be distributed from depots in forty-pound jute sacks and twenty-pound paper sacks. The price will probably be $2.20 for the 40-pound sacks, with a ten-cent rebate on the sack and $1.10 for the 20-pound sacks with a 2c charge for the sack.

APPEARANCE OF CORN BORER IN ELGIN CO. ALARMING U. S. GOVT.

The American Department of Agriculture Sends Experts To Michigan.

FEAR INFESTATION THERE

Drastic Measures May Be Taken To Prevent Spread Across Line.

Washington, Sept. 23.—Discovery of the European corn borer in the vicinity of St. Thomas, Ont., has caused the department of agriculture to send a staff of entomologists to Michigan to confer with local agricultural interests to forestall possible infestation of the corn crop in that state.

Experts of the bureau of entomology, the department announced today are concerned over the appearance of the corn pest in Canada as certain sections of New York, Massachusetts, New Hampshire and Pennsylvania already have been quarantined to keep the insect from making its way to the corn belt.

The corn borer in Canada is farther west than heretofore reported on this continent, the department's announcement said, and the corn affected is of the flint variety which in New England and New York has appeared to be especially susceptible of injury by the borer.

SAYS HE GAVE BABY SOME OF HIS LIQUOR

Blacksmith Tells Court He Drank Two Bottles a Day Himself.

Judgment was reserved by Magistrate Graydon today in the case of Samuel Silverstein, 603 Bathurst street, charged with selling liquor without a license. Similar action was taken in regard to Jacob Ginsberg, charged with the same offence. Charges to the same effect against Archie and Mrs. Hughes are being tried this afternoon.

License Inspector J. E. Keenleyside testified that Silverstein had obtained five cases of whiskey on September 7. When he and Constable Thomas Bolton visited the house with a search warrant last Saturday, only five bottles were left. Mr. Silverstein told them he had drunk two bottles a day and had fed some to the baby.

In the witness box Mr. Silverstein asserted that seven of the bottles were broken and had not a drop of liquor in them when he received them. He made no complaint regarding this to the express company. He saw nothing peculiar in the disappearance of so much liquor, and expressed the opinion that his 3-year-old child would have no difficulty in drinking half a bottle of whiskey a day. He would not say that the child had drunk that much, but he would drink it if you gave it to him. Mr. Silverstein gave him only a few spoonsful, however. He drank two bottles a day himself and carried on his daily labors as a blacksmith.

OPPOSITION LEADER IN NEW BRUNSWICK HOUSE QUITS OFFICE

The resignation of Mr. Murray as a preliminary to the reorganization of the Conservative party in New Brunswick for the provincial election fight now on has been hinted at for some weeks. Mr. Murray was premier of the province from February 1 to April 4, 1917, and became leader of the Opposition when his Government was defeated in the general elections held in that year.

CANADIAN ENGINEERS AND DOCTORS WANTED IN BRITISH COLONY

[Special to The Advertiser.]

Ottawa, Sept. 23.—The department of trade and commerce has received a request from the Government of British Honduras for a number of young Canadian engineers and medical men to settle in that colony, and already several have taken advantage of the situation. British Honduras, it will be recalled, was one of the parties to the recent trade conference at Ottawa, when a preferential agreement was arrived at, including that colony.

TURKISH SULTAN IS FAILING BECAUSE OF OFFICIAL TROUBLES

Constantinople, Sept. 23. — Damad Ferid Pasha remains grand vizier, but locally the Turks are excited over the political situation and those attempting to oust Damad Ferid are predicting a revival of the civil war in Constantinople. The sultan's position is so difficult, it is asserted, he is failing physically and mentally.

Damad Ferid's organs, the Peyam and Sabah, have abandoned him and are supporting Mustapha Sabri Effendi, who told the sultan that the total dissolution of Turkey would come by winter unless he was put at the head of the Government.

INVESTIGATE FIRE.—Investigation of the fire which destroyed the Everybody Overall Company's premises, Talbot street, Sunday, was completed today by E. D. Jordan, deputy fire marshal. He expressed the opinion that the blaze was due to spontaneous combustion amongst rubbish and cuttings on the floor. He would not announce any further details until he had made an official report to the fire marshal.

MILLERAND IS ELECTED BY A BIG MAJORITY

Premier Succeeds Deschanel As President of France.

POPULAR OFFICIAL

Receives 695 Votes Out of a Total of 892.

Versailles, Sept. 23. — Alexander Millerand was today elected president of France by the National assembly in session here. He succeeds Paul Deschanel, who resigned because of ill health.

M. Millerand received 695 votes out of a total of 892.

The complete vote was as follows:

Andre Millerand 695; Gustave Delory (Socialist Deputy from Lille, Department D'Nord) 69; scattering 20; blank 100.

At 4:57 o'clock M. Millerand was proclaimed by Leon Bourgeois, presiding officer of the senate and chairman of the assembly, as the eleventh president of France.

The fact that M. Millerand's election was considered a foregone conclusion caused the national assembly to lose its usual social interest, and there was perhaps less than half the popular attendance today as compared with the Deschanel ceremony in January.

M. Millerand remained in Versailles over night at his villa in the Rue Mansart. He received numerous visitors, political friends, who congratulated him most of them offering advice.

PRINCE IS POPULAR IN BRITISH COLONIES

Heir To Throne Is Given a Warm Reception by Natives.

Port of Spain, Trinidad, Sept. 23.—The Prince of Wales, who has been visiting Georgetown, British Guiana, is expected to return here this morning, and will spend the day and evening ashore. He will leave on Friday morning for St. George, the seat of the Government of the Windward Islands' colony, and the principal city on the Island of Grenada.

Since his arrival here the prince has been in every activity. He has visited the principal industrial centres and has played golf and tennis as relaxation from his exacting duties.

Last Sunday he attended divine service and later visited soldiers stationed here, chatting freely with the men. His democratic attitude has been very pleasing to the people, with whom he has conversed on many occasions. Dinners are being given members of the crew of the cruiser Renown, which is returning with the prince from Australia and New Zealand.

JOHN NORTH, PIONEER OF OXFORD COUNTY, DIES IN 83RD YEAR

INGERSOLL, Sept. 22.—The death of John Worth, a pioneer resident of this district, occurred today at his home, Wonham street. Although he was ailing for some time, his death was unexpected. He was in his 83rd year. For many years Mr. Worth was engaged in the meat business here, and subsequently engaged in farming in West Oxford, where he was very successful. He returned here nine years ago, and had since been living retired. He was a member of St. James' Anglican Church. He is survived by three sons and two daughters, as follows: Harry of West Oxford, John and William at home, Mrs. F. Glendenning and Mrs. L. P. Cook of North Oxford, and Mrs. William Wilson of West Oxford.

MUSHROOMS AND PUFF BALLS ARE PLENTIFUL CROP

CLANDEBOYE, Sept. 22.—The Bruce express going south Monday evening was delayed for several hours by a broken rod in the tender.

Several farmers here have motored to Thedford and other peach orchards for their supply of fruit.

Fall wheat seeding is not yet finished here, but some of the earlier sown fields look thriving. Mushrooms are still being shipped to friends, and puffballs are plentiful.

MacSWINEY STILL LIVES.

LONDON, Sept. 22.—The league bulletin issued tonight says that the condition of Lord Mayor MacSwiney remains about the same. He is described as "very prostrate and suffering from pains in the head, but still conscious."

Will Likely Vote on Street Railway Issue Next Month

Electors May Express Opinions of Five Different Solutions of Problem, Voting Yes in Order of Preference — Only Property Owners Will Be Allowed To Vote.

Five plans for settling London's street railway problem will be submitted to the ratepayers before the end of October if the decision made by the special street railway committee last night is approved by the city council. The plan which receives the strongest support may then be submitted as a money by-law at the municipal elections in January. Only property owners will vote on both occasions.

The five suggested plans are:

Are you in favor of the cancellation of the London street railway franchise and the purchase of the London street railway and its operation by the city?

Are you in favor of the purchase of the London street railway and its operation by the Hydro Radial Commission with the bonds guaranteed by the city?

Are you in favor of the continued operation of the street railway until the end of the franchise period by the Ontario Railway and Municipal Board on a service-at-cost plan?

Are you in favor of the operation of the street railway under the London Street Railway Company until the expiration of the franchise on a service-at-cost plan?

Are you in favor of the cancellation of the franchise of the London Street Railway and the immediate provision of some new transportation system under municipal ownership?

In Order of Preference.

Ratepayers will place the figure (1) opposite the plan they favor; the figure (2) opposite the plan they favor next; (3) opposite the plan they think the third best, and so forth. The plan receiving the most general assent could then, at the discretion of the city council, be prepared as a bylaw and submitted in January. The first vote would not be binding in any way, but would be merely for the purpose of learning public opinion.

The meeting last night was not largely attended. The members of the committee were Ald. Cameron Wilson, chairman; Ald. W. A. Wilson, Ald. G. B. Drake, Ald. John Bridge and Mayor Little. Ald. Ashton was present as a representative of the Trades and Labor Council. Other representatives of this body and the labor representation committee were also there, as well as Leonard Tait, secretary of the street railway, and Dr. H. A. Stevenson, M.L.A. for London. All of them expressed approval of the plan of taking an early vote to determine public opinion and later submitting the most popular plan as a bylaw.

Opening the meeting Mayor Little said there was no one in the council who did not wish to see the street railway employees get adequate wages, but that the question was a much larger one than that. He believed the opinion of the citizens should be obtained before the council took steps to purchase the road.

Will It Affect Taxes?

Erastus Hessel inquired whether the purchase of the road would affect the tax rate or if the venture would be self-supporting. According to the chairman of the railway board there is hardly a municipal road for which the taxpayers do not have to foot the bill, he said.

Ald. Cameron Wilson was not entirely in favor of submitting the five plans to the people. "It is almost a confession of failure on the part of the council," he said. "We ought to put one definite proposal to the voters in January. I doubt if there will be any interest in a vote taken at the present time."

Mayor Little replied that the question was a more important one than the electrification of the London and Port Stanley Railway, and that there had been a keen interest in the vote on that proposition, although it was taken in the middle of the year. The matter must be settled by January and must not drag on for another year.

Favored Hydro Control.

Ald. Cameron Wilson thought that operation by the hydro-electric power commission would be better than operation by the city, as he claimed there would then be no possibility of it affecting the tax rate. Mayor Little said there was no difference from that standpoint. Whether the city or the hydro operated it would have to be determined whether it was to be run on a service at cost basis or whether deficits were to be made up by the tax rate.

Ald. Wilson objected that the city had no control over the fare under any of the first four plans, and that service at cost might mean anything. He favored the fifth proposal, the cancellation of the franchise and the building of another transportation system, possibly motor buses.

"On a taxation basis or service at cost?" asked Mayor Little, thereby indicating that it contained the same difficulty as the other proposals.

Ald. John Bridge said he would favor operation at cost under the management of the Ontario Railway Board, together with legal action against the company for non-fulfillment of contract. There was no object in cancelling the franchise at the present time, he thought. Motor buses would entail higher fares than street cars, he also stated.

120 Buses Needed.

Ald. Ashton declared that at least 120 buses would be needed in comparison with thirty-five or forty street cars.

Raymond Smith inquired what would be done regarding wages while negotiations were under way. Mayor Little replied that if the citizens expressed themselves in favor of operation under one of the first four plans he saw no reason why higher fares could not be approved until the negotiations had been completed, so that the men could get increased wages. He believed that it would be June at least before any of the plans could be placed in operation.

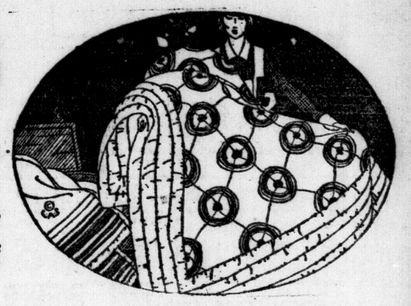

Dr. H. A. Sevenson said the only question was whether the people wanted the street railway franchise cancelled or not. The company was willing to cancel it, and if the people gave their approval the Legislature would soon change the expiration date from 1925 to 1921. Mayor Little said that it was correct that the company had said it was willing to surrender its franchise, but that the city had nothing to that effect in writing. Personally he believed the road should not be purchased at the present time, but if the majority of the people favored it he would not object.

Commission Criticized.

Ald. Ashton, who was a delegate to the Dominion Trades Council, expressed the opinion that few people would favor operation by the Hydro-Electric Power Commission, judging by the manner it had been criticized at the convention.

Mayor Little stated that whether the city or the hydro commission operated the road there was no doubt that it would be linked up with the London and Port Stanley Railway and a freight business developed within the city.

SPORTS AT ONTARIO HOSPITAL DRAW BIG CROWD WEDNESDAY

Success Due To Planning of Special Committee—Patients Participate.

ONE IS WONDER

Robert Trenaman Does Marvelous Slackwire Stunts —Band Attends.

Ideal weather conditions combined with a capable board of directors made the 33rd annual picnic of the Ontario Hospital held on asylum grounds yesterday afternoon a wonderful success in every respect. About 3,500 were on the grounds, and when the large list of sports was over, inmates as well as the guests went away content that it was one of the best afternoon's sports they have had the pleasure of witnessing for some time.

The grounds set aside for the running-off of the races was an ideal spot, the north end being the part selected by the capable secretary, E. Webb. Mr. Webb has been working for the past three weeks making plans. Dr. Robinson, the supervisor of the hospital, also took an active part in the drawing up of the program in such a way that all who attended were impressed that the patients are getting the best of care and enjoy a day like yesterday once a year. Fire Chief John Aitken was also on hand and gave valuable information as to the carrying out of the sports. J. W. Freeborn, M.P.P., was expected to be present and give a speech, but other business kept him from attending.

Clever Performer.

Nearly all the inmates were allowed to go to the grounds, and many of them amused the audience by standing on their heads and doing other "stunts."

Robert Trenaman, one of the male inmates, performed one that never before has been seen by London people. He is known throughout Ontario as the slack wire performer. Mr. Trenaman did stunts on the wire that kept the audience wide-mouthed, wondering how any person could attain such a balance of the body. He passed the wire hoop around his body when standing on one foot on the wire. Walking along the hoop of a bicycle wheel on the wire was another of the tricks Mr. Trenaman has accomplished. The last act of Mr. Trenaman's was swinging the wire while lying on his back. This received great applause from the spectators.

The main event of the day was the nurses trimming strawhats and having the judges wear them. Each nurse was given a straw hat and some red and white trimmings. Five minutes were allotted to them to trim the hats, and then they were to be placed on the heads of the judges and then to walk around the ring. Miss Jackson's hat with James Gray on, the wearer won this prize. R. D. McDonald was the judge. Fire Chief Aitkin said that he chose all the Scotch the winners and wouldn't look at the Irish.

G. W. V. A. Band.

The G. W. V. A. Band was on the grounds in full force and played throughout the entire afternoon.

BREAK INTO GARAGE, BUT POLICE ARRIVE

Police See Men Crawl Out of Window—Capture Auto.

Police encountered two men climbing out of a window of the Consumers' Gasoline Supply Company, 423 Wellington street, a few nights ago, and incidentally captured a car bearing a Windsor license number. The car is thought to have been stolen.

P. C. Harry Dye was on his beat, when he saw one of the men crawl out of the window of the building, his face covered by his cap. He immediately gave chase, but the man ran through a number of dark alleys and vaulted a wire fence. Another man, who accompanied the fugitive also got away. P. C. Dye secured the assistance of P. C. Frayne, but after a half-hour's search they abandoned the attempt to find the men.

However, out in front of the building a car was standing, and as no one had come to take it away the constables brought it to the police station. As yet no one has claimed it.

A drawer in the desk of the office of the company had been opened, and a change box holding a considerable amount of silver had been exposed to view. In the safe was $800 in cash. As far as can be learned nothing was taken from the place, the constable arriving too soon for the men to complete their work.

KITCHENS OF CAFES ALL FAIRLY CLEAN

Chairman J. H. Saunders Inspected City Restaurants Wednesday Afternoon.

Chairman J. H. Saunders of the local board of health inspected all cafes and restauranns here Wednesday afternoon and reports that there are no serious complaints are a result. "They were all fairly clean, as under ordinary conditions," he informed The Advertiser. "They had a hard time last week because of the fair, and are just getting things into shape. The majority were like the average kitchen, with clean refrigerators, although one was not. Some of them have not the facilities to keep up to the others, who have cupboards in which to store things."

"However," he continued, "I would like to see them cleaner, and the only thing we can do is keep after them, as this is the only way to keep the kitchens in a satisfactory condition. We found that the condition in each case depended upon the cook."

PLAN TO REPLACE ALL 4-INCH MAINS WITH LARGE ONES

Utilities Commissioners Will Secure Estimates of Cost At Once.

Replacing four-inch mains with others eight or ten inches in diameter will be considered by the public utilities commission at an early date, according to Commissioner F. G. Mitchell. While the high price of pipe makes it unlikely that the work will be commenced immediately, there was no reason why plans and specifications for it could not be drawn up.

Mr. Mitchell also advocated connecting any "stub ends" which may exist and making complete circuits of them.

Both of these are necessary steps if the city is to have adequate fire protection, he asserted. Referring to the recent Collegiate fire, he said that the public utilities commission was quite prepared for an investigation, as the official gauges would show that an adequate water pressure had been maintained. He admitted, however, that the pressure in the mains near the Collegiate might have been less than in the downtown mains, as they are much smaller.

"It is for that reason I think they should be replaced by larger ones," he said. "The four-inch mains were laid when the city was much smaller than it is now. The demand which they must supply has increased steadily, and they are wholly inadequate. When it comes to fighting a fire with them it is found to be almost impossible."

According to Mr. Mitchell there are several schools in the city which are protected by only one hydrant. If the supply of water to this failed, there would be no means of fighting a fire, he claimed.

TELEPHONE COMPANY

such a siting. The board would notify all parties at least a fortnight in arvance of the Toronto sitting.

In answer to questions by F. B. Proctor, counsel for the city of Otawa, Mr. Atwater said that he could not tell definitely whether the adoption of the "measured" system for business telephones would restrict users of telephones very greatly. He did not think it would in any way cripple business. It was suggested by counsel opposing the application that an expert should be brought from the United States, where the "measured' system is used, to explain its operation to the board. It was important to know how it worked. D'Arcy Scott, counsel ofr the Ottawa board of trade, remarked that it might result in deterioration of the service, which should be taken into consideration when fixing rates. Mr. Atwater explained that in counting messages, no charge was made if the line asked for was busy. It was only through messages that counted.

According to an estimate made by Henry G. Atwater of New York, rate specialist of the American Telegraph and Telephone Company, 42 per cent of the Bell Telephone Company subscribers will use less than the allowance of 1,200 messages per annum made by the company under the proposed "measured" rate. He quoted figures which, he said, indicated that a very small group of business subscribers of the Bell Telephone Company would have a large increase in charges under the proposed rates, and he thought they also indicated the necessity of charging for messages on a per message basis. Under the flat rate, all subscribers, including those using only the allowance of 1,200, would be charged the same price for their service, without regard to variation in the amount of use.

Mr. Atwater was called by the Bell Telephone Company when the hearing of its rate application was resumed before the railway commission this morning. He explained that his office in New York maintained elaborate statistics with regard to rates on the Bell Telephone system, and that it had assisted the Bell Telephone Company in preparing the proposed new scale of rates.

In Toronto, said Mr. Atwater, it was estimated that about 35 per cent would use 1,200 messages or less. About 47 per cent would use from 1,200 to 2,400, and 5 per cent over 3,600. This referred to individual business lines. As the present rate was $55 and the new minimum was $60, all business subscribers would have some increase. In Ottawa, the present rate of $49.50 was increased to $54. It was estimated that 35 per cent would pay $54, forty-two per cent would pay between $54 and $80, and 11½ per cent would pay from $80 to $100. Similar increases were proposed for Hamilton and Quebec, where business service was all to be on the message rate basis.

SAYS BAD ROAD WAS CAUSED BY TOO HEAVY OIL

Minister of Public Works Answers Chamber of Commerce Complaint.

In a communication received by the local Chamber of Commerce, Hon. F. R. Biggs, minister of public works, claims that the poor condition of the Government road between London and Crumlin is due to a too heavy grade of oil used on the road less than one month ago. An investigation has been conducted into the condition of the road which is filled with ruts and holes, as the result of agitations started by the local Chamber of Commerce, the Provincial Highway Association, and the local automobile owners.

The road, which is the continuation of Dundas street east of this city, was constructed during the past summer, and although it was completed only one month ago, it is already filled with ruts and holes. It has become so impassable that autoist made a wide detour, traveling entirely by the Hamilton road.

Caused Trouble.

The failure of the road to bear up under the traffic for so short a time was immediately seized upon by advocates of the permanent country roadways as an argument against the Provincial Government's policy of building water-bound gravel roadways with oiled surfaces. They pointed out that as this was one of the most carefully constructed roads, it was proven beyond a doubt that the concrete road is the only one which could be expected to give satisfaction.

The matter was given considerable publicity, and it was therefore taken up by different associations throughout the country, who asked the Government to investigate the road, and, if possible, to effect a remedy. Acting on their solicitations the minister of public works ordered an investigation.

Made Heavy Ruts.

In his report the minister said that the condition of the road was due to a heavy grade of oil, which could not sink below the surface of the sand. The oil caused the dirt to peel and roll, filling the highway with ruts so deep that the road became impassable. He said that it was impossible, owing to the scarcity of oils, to secure a uniform quality, and undoubtedly the engineer who was in charge of the work misjudged the weight of the oil he used.

Mr. Biggs promised that the road would be remedied as soon as possible.

The report of the minister was borne out by Engineer James Bell of St. Thomas, who is an expert in road-building. Mr. Bell said that the cause of this trouble was due entirely to the oil used. He said that satisfaction can be secured from a lighter oil.

A peculiar feature of the case is that the road which lies to the east of that in question is in excellent condition. It is made entirely of dirt, but no oil of any description was used.

Cunliffe and the address read by A. E. Foster.

Another interesting presentation was the giving of the medals to the members of the successful football team by Col. Coles. The following players were awarded medals: Players Ireland, Wilson, Perkins Sen., Perkins Jun., Croot, Marshall, Noble, Holland, Richardson, Milliken, Snellgrove, McFarlane and Feriss.

An enjoyable evening was spent in the playing of euchre and at the close the members of the Women's Auxiliary served refreshments.

TRANS-CANADA, LIMITED CARS ARE DERAILED

Ottawa, Sept. 23. — Trans-Canada Limited No. 1 on the Canadian Pacific Railway suffered derailment of two cars this morning shortly after midnight, near Alfred, Ont.

The train was composed of 11 cars, but only the baggage and express cars left the rails.

No one was injured, according to reports reaching the offices of the railway here, as the train was proceeding slowly owing to the considerable ballasting work being done to the tracks in that section.

The passengers arrived in Ottawa about 5 o'clock this morning when a new train was made up.

ANARCHISTS ATTACK ARMORY.

Turin, Sept. 23.—During the funeral of two workmen today an anarchist group attacked the armory here. The police were called and shots were exchanged, resulting in the death of two persons and the wounding of eight others.

TWENTY-FIVE GIRLS WILL TAKE COURSE

Instruction Will Qualify Them As Public Health Nurses.

On October 15 a class for all nurses wishing to graduate as first-class public health nurses will be started in this city. Many cities throughout the Dominion have started these courses, and all have shown good results. Halifax was the first, and the nurses who took the course graduated last Tuesday. About 25 girls in the city are expected to fill out application forms for the course here. Their graduation will be about the middle of May of next year.

Dr. D. A. Craig, formerly head of the Byron Sanatorium here, addressed the nurses at their graduation in Halifax. Dr. Craig is now in charge of the division of tuberculosis at the Halifax, hospital. Miss Unis Dyke, directress of the division of public health nursing of Toronto, also attended and addressed the nurses, who took their course in the Dalhousie University at Halifax.

SEES BIG

industrially. It will be useless for these countries to attempt to re-establish themselves in the markets of India until they have first reached normal conditions at home.

According to Mr. Chavre, India offers as great a possibility for trade as the whole of Europe. It is as large as the whole of Europe, except Russia, and has a population of 315,000,000 people. It is extremely rich and can pay for everything without loans being advanced as is the case with the European countries. India has great natural resources awaiting development. There are now he said three direct Canadian steamship lines between Canada and India, and no reason why a great trade cannot be readily established.

Mr. Chavre could not see the use of Canadians attempting to establish a great trade with the European countries. Their ecort might meet with a measure of success at the present time, when conditions were unsettled there, but he believed that practically all the results of their work would be wiped away when the countries on that continent became normal again. The efforts of Canada should be to build up a trade in a new field.

He warned against sending poor goods to India. He said that the natives in that country wanted the best in all things. While he did not specify what lines might find sales there, he said that the Indian was becoming modern in his ideas and wanted modern clothing as well as machinery.

Favors Commission.

At the close of his address he strongly urged that a commission be appointed to open an office at some point in India, where the members could learn of the needs of the people. Following their recommendations Canadian manufacturers should endeavor to manufacture the lines needed.

The recommendation met with consideration enthusiasm on the part of the members of the council, and so on the suggestion of the chairman, G. Wenige, a resolution was drawn up whereby the council will recommend to the executive of the chamber of commerce to take such steps to strongly back any move to send a commission to India. The commission would be instructed to educate the people of India that Canada is not a part of the United States, as Mr. Chavre said the people generally believed.

The slides shown by Mr. Chavre dealt much with the architecture of India, especially of that of the temples. He believed that the wonderful buildings in that country illustrate more clearly than anything else the great culture that has existed there for many generations.

Gives Some History.

He touched lightly on the history of the country, telling of the influences which the various conquests have had on the customs and the art of the country. He dealt with the philosophies of the Indians, which he said were much more advanced than that of the Christa.

Mohammedanism, he claimed, did not appeal to the majority of the people, and that Buddhism was also a failure. He explained that his compatriots were always ready to grasp the best in any ethical philosophy.

The speaker explaind the custom of early marriage in his country. He blamed it on the Mohammedans, who, after their conquest of the land, exerted much cruelty on unmarried women. It was a means of protection, and the habit gradually became quite common.

DEATHS AND FUNERALS

DIED IN SASKATCHEWAN.

Dutton, Sept. 23.—Word has been received by relatives here of the death at Robsart, Saskatchewan, of Angus D. McIntyre, aged 60. Death followed paralysis. He leaves his wife and one son and two daughters—Archie D. in the west, and Mrs. H. L. Robertson and Miss Mary E., both of Toronto. He is also survived by one brother, Duncan McIntyre, and one sister, Miss Euphemia McIntyre of Dunwich.

STRICKEN UNEXPECTEDLY.

Word has been received of the death of Francis James Caine of Wallaceburg, the 12-year-old son of Mr. and Mrs. W. J. Caine, who are well known in this city. The lad was on his way to have office of a Wallaceburg doctor to have his tonsils removed, and died before the operation was performed. His parents and four sisters survive him—Agnes, Catherine, Geraldine and Phyllis, all of Wallaceburg.

DEATH OF MRS. THOMPSON.

The death occurred last night of Mrs. Maria Graham Thompson of 79 Dundas street, in her 87th year. Mrs. Graham Thompson is survived by two sons and one daughter—Mrs. W. A. Finch of this city, James Thompson of St. Catharines and John of this city.

MacSWINEY'S CONDITION UNCHANGED.

London, Sept. 23.—Lord Mayor MacSwiney of Cork had a few hours of restful sleep last night, but was suffering severely from pains in his head and was very weak this morning, according to a bulletin issued by the Irish Self-Determination League at Brixton Prison.

Reports to the home office by the prison physician stated there was no apparent change in the condition of MacSwiney.

This is the 42nd day of the lord mayor's hunger strike.

SCORES BOARD FOR CHARGING FIFTY CENTS

Citizen Offers Criticism of Conduct of Western Fair.

To the Editor of The Advertiser:

Now that the Western Fair is over, in fact, it has ben over for some time, and to date there has been no attendance figures made public, and especially a comparative attendance figure, so that I think the fair board is due for a little criticism.

First of all, it is ridiculous to put a 50 cent admission fee in operation, when Toronto Exhibition only charges 25 cents, and they certainly have a much larger exhibition than our fair will ever be under the present management.

To say that the present fair board is not popular with the citizens in general would be saying the least. This was shown at the last municipal election, when the ground extension proposition was voted down. The fair board ignored the results of the vote, went ahead and bought more ground—in other words, defying the will of the people. The proposition having been voted down, there was no way the board could raise the money to pay for the property except by taking it out of the revenue. Now, to get the revenue, it was necessary, they thought, to increase the admission fee; short-sightedness on their part prevented them from taking into consideration that the attendance would be much lower at a 50 cent rate than it was at a 25 cent rate, and in that way again offsetting the extra income.

The fair under present conditions certainly is not worth 50 cents, and if any member of the fair board can show 50 cents worth of value as compared with Toronto's 25 cents worth of value, they deserve a better position than being a member of the Western Fair Board. This board, in the opinion of the writer, has outlived its' usefulness, and it is time there was a change. As matters stand now the board has been re-electing itself from year to year, and has made it a "closed-in corporation," has not invited new blood on the board the same as any other live organization would do; consequently it has gotten into such a deep rut that it has almost buried itself.

To say the least, a great many of the transactions were very unbusinesslike on the fair board, and as far as being a democratic body, that is furthest from their thought.

They have been hollering for more space and more grounds. If the grounds at present occupied would be rearranged, and all the space rearranged to conform with modern methods, there would be space galore for many years to come. There is more space wasted than actually used. No private individual or private corporation would be as wasteful in space around their plants as is the case with the Western Fair.

The sanitary conditions are rotten, and if any citizen in London would permit a lavatory around his premises the same as exists at the Western Fair, he would have been hauled over the coals long before this. The drinking fountains, if you may call them such, are a disgrace to a village fair, let alone to a fair of this kind. The water in front of these fountains is a foot deep, and it is a common thing to see crowds around these fountains holding one another up so that they would not drown in the puddles.

The board is now contemplating erecting more buildings. Why more buildings, when they are unable or incapable of getting sufficient revenue from the present buildings? One has only to go to the Pure Food Building, from which the fair board cleared $200 and the sub-lettors $1,500. Does this sound like good business?

At 10 o'clock at night the large gate on Dundas street is open for a few minutes and a little crowd let out. After that they close the big gates and the crowd has to get out the best way they possibly can through the turnstiles. It is a common thing to see women with baby buggies trudging around to get out of the King street entrance, as they could not get out of the turnstile with the buggies, and when this fact was mentioned to one of the ticket and gates committee of the board, he stated to the writer that 10 o'clock at night was no time for women to be out with babies. That kind of talk sounds as though he ought to still be wheeled around in a perambulator.

At the last election of the board a prominent member made a motion that the old board be re-elected in a body. Now, in these days of democracy, could there be anything more ridiculous, or more narrow, than a proposal of this kind. The motion, however, was defeated, but it didn't have any effect on the result, as a slate had been passed around previous to this for a re-election of the old board. After the election, Mr. Smith, who was the speaker of the day, and is the inspector of fairs in Canada, stated that it was a mistake in not annually bringing in new blood on the board. New suggestions were brought up at that time for new members, but the old-timers only laughed it down, and it is high time new blood was brought into the board.

The time is past for a "one-man show"; London has outgrown the "one-man-band stage" long ago, and since the "one-man reign" has disappeared in London, this city has gone ahead by leaps and bounds, and the only reason for this is because a new element, new blood and new ideas, have been brought forward. The same thing is due for the Western Fair. It wants a general cleaning out, new men with modern business methods, new principles, new views for a larger London, and getting away from that narrow-gauge idea. Then, and not until then, will the Western Fair hold a position that it really is to hold.

In conclusion, Mr. Editor, I feel safe in saying that there are a great many citizens that view the present fair conditions the same as does the writer. The citizens of London have not got the confidence in the fair board, and for that reason, and that reason only, are the citizens poor boosters for the fair. The fair board has not sold the proposition to the citizens, simply on account of lack of confidence, and no proposition can be sold without confidence on the part of the buyer, and it is time a change took place.

This letter is not written by a knocker; on the contrary, it is written by one of London's best boosters, and one that has always had the interest of London at heart. Yours truly,

G. A. WENIGE.

SEPTEMBER WEDDINGS

CAUGHELL—VANSTONE.

A quiet wedding took place at the Askin Street Methodist Church at 2:30 this afternoon, when Edith Beatrice, daughter of Mr. and Mrs. Joseph H. Vanstone, Byron avenue, was united in marriage to Robert Potter Caughell of Orchard Park, N. Y., Rev. Cosby Morris officiating. Mr. and Mrs. Caughell will journey to western cities, returning to Orchard Park, N. Y., where they will take up their residence.

ASKEY—SOUTHWORTH.

The parsonage of Rev. George W. Dewey, Empress avenue, was the scene of an interesting wedding Wednesday afternoon, when Miss Gertrude H. Southworth was united in marriage to George William Askey, both of Westminster Township. They will spend their honeymoon visiting eastern cities, and on their return will reside on the groom's farm, Westminster.

McDONALD—McKINLEY.

Owen Sound, Sept. 23.—The wedding of Miss Beatrice McKinley, daughter of Wm. McKinley of Holland Centre, and Peter McDonald of Chatsworth, was solemnized at the bride's home at high noon on Wednesday, by Rev. W. Richardson of Markdale. Seventy-five guests were present.

The bride, who wore a white taffeta dress, with pearl trimmings, and a white tulle veil, and carried a white prayer book, came from the house on the arm of her father, and was attended by her sister, Miss Bessie McKinley.

Little Miss Kathleen Hamilton acted as ringbearer, carrying the gold band on a heart-shaped silver tray. Miss Lina Murdock was flower girl, and both she and the little ring-bearer were dressed in white taffeta, with veils. The wedding music was played by Miss Helen Hair, of Oewn Sound, cousin of the bride, and after the ceremony Mrs. (Dr.) Brown of Markdale sang "All Joy Be Thine."

A sumptuous wedding dinner was served on tables spread in the orchard. At the conclusion the happy couple left on the afternoon train for the Thousand Islands. The bride travelled in a suit of navy blue serge. On their return they will reside near Chatsworth.

BOOKS OF BELL TELEPHONE CO'Y TO BE EXAMINED

N. M. Lash Says Greatest Items of Cost Long Distance Calls.

TALK 3,000 MILES

First Part of Inquiry Expected To Be Finished Today.

OTTAWA, Sept. 22.—(Canadian Press)—Hearing of the Bell Telephone Company's application for an increase in rates was not concluded by the board of railway commissioners today. When adjournment was taken, shortly after 5 o'clock, the company still had one witness to produce in order to complete the establishment of its case. It is probable that the taking of evidence will be concluded by noon tomorrow. The next sitting will not take place until early in November, because Chief Commissioner Carvell leaves on Saturday for the West, and he will not conclude western sittings for the board before the end of October. Meanwhile, accountants are to examine books of the company and produce all the statistical statements that have been demanded by opposing counsel.

Long-Distance Calls.

The chief witness called today by the company was N. M. Lash, chief engineer, who was called to demonstrate the greater items of costs in conducting a large telephone system other than increased cost of wages and materials. He dwelt particularly upon the increased complexity of the business and the ever-growing intricacies of long-distance telephony. He said that in the past the public had been satisfied to talk 300 or 400 miles. Now 2,000 or 3,000 miles was not unusual, and plants had to be able to take care of almost any distance. The cost of such telephoning was very great.

$10,000,000 a Minimum.

Replying to questions by the chief commissioner, Mr. Lash said he was reasonably certain that $10,000,000 are required annually by the company for the next two or three years, to meet the demands of the public.

This figure he put as an absolute minimum. He stated that it would take two years to install automatic telephones in any new exchange, and that it would be utterly impossible to think of substituting a complete system of automatics in Toronto or Montreal excepting at great cost.

(The Modern Beauty.)

There is no need for any woman to countenance superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them. This treatment will rid the skin of hair without leaving a blemish, but care should be taken to see that you get real delatone. Mix fresh as wanted.—Advt.

Cured His Rupture

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 1046g Marcellus avenue, Manasquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

BRITISH SUPREMACY ON SEAS NOT GOOD AS IT MIGHT BE

E. P. Fredericks Advocates Building of More Ships by Dominions.

TORONTO, Sept. 22.—In an effort to complete the business of the ninth congress of chambers of commerce of the British Empire today, sixteen resolutions were discussed and carried, but it was found impossible to wind up the business before tomorrow. The resolutions dealt with today were varied in subject and embraced matters of importance to the nations, matters relating to the organization of the congress and matters of a sectional nature.

Controversial Subject.

The most controversial subject that has yet come before the congress was a proposal by A. J. Hodgson of Sheffield, England, that all business arising out of the proposed federation of the chambers of commerce of the various parts of the Empire should be controlled by the imperial council of commerce. There was strong opposition to this, and finally a modification of the resolution was carried.

A number of the delegates took the ground that the effect of such a resolution as that moved by Mr. Hobson would be to create a bureaucracy in London, and in the modification of the original resolution this feature was removed.

The congress approved of all the chambers of commerce and boards of trade throughout the Empire becoming affiliated with the British imperial council of commerce.

TORONTO, Sept. 22.—Steps were taken this morning to found a federal chamber of commerce in Canada, when a resolution, introduced by Charles Marriott of Toronto was adopted by the congress of Imperial Chambers of Commerce at today's session favoring the project. A committee was appointed to act in the matter, consisting of Lloyd Harris, Lieut.-Col. Ponton, Col. Cockshutt, H. Evans, W. T. Christie and Mr. Marriott, Ontario, and Hon. Frank Carroll, Quebec. Sir James Wood seconded.

International C. of C.

The congress also indorsed a resolution advocating admittance of colonial boards of trade and chambers of commerce to the international chamber of commerce. Dr. A. T. Hobson, the mover, thought that the League of Nations would agree to the formation of such an international chamber of commerce, as some such organization was provided for in the league's constitution. However, he advocated that the proposed chamber be divorced from the league in its organization and operation.

Mark Sheldon, Sydney, N. S. W., introduced a resolution for stricter observance of the mail routes in the empire. The resolution was indorsed as affecting correspondence.

W. F. Burdet, St. John, N. B., introduced a resolution, which favored the development of British and Dominion natural ports. Commerce, he said, still tended to flow through the United States to the Canadian interior.

Maintain Merchant Marine.

Ernest P. Fredericks, Belleville, Ont., moved that the British merchant marine be maintained at its commanding position, and that every colony possessing the facilities be encouraged to maintain shipyards and contribute all the ships possible, thus retaining for the empire the skilled mechanics who are being sought by other countries. He said that he was not an alarmist, but he thought British supremacy on the seas was not as secure as it might be. Two years ago 7,500 British ships cleared from Canadian ports; last year only 6,000 cleared. Records of clearances through the Panama Canal also showed that thousands of British shipbuilders had been going to the United States. The resolution carried.

Wants Free Port.

Hon. Frank Carroll, Quebec City, moved that at least one free port should be established at a terminal port of each important system of navigation, so as to reach the interior by the shortest railway route. He said Quebec was anxious to further the project. He favored the location of a free zone in Quebec Province, in which such ports may be located to retain for Canada and the empire the rights which are inherently belonging to them. The resolution carried.

Two other resolutions dealing with technical questions of mercantile marine carried.

EMPIRE C. OF C. DELEGATES TO TOUR ONTARIO AND QUEBEC

Will Travel 2,500 Miles in Seventeen Days On Canadian Railway.

MONTREAL, Sept. 22.—The delegates to the ninth congress of Chambers of Commerce of the British Empire will start on their tour of the provinces of Ontario and Quebec on Friday, traveling over the lines of the Canadian National, Grand Trunk, Canadian Pacific and Temiskaming and Northern Ontario Railways. Their trip will occupy seventeen days, and they will be given an opportunity of inspecting the agricultural, industrial and mining regions of the two provinces.

For the information of the delegates the four railways interested in the movement prepared an exceptionally handsome book, descriptive of the route traversed on the tour. On the cover, in black and gold, are coats of arms of the various commonwealths and dependencies of the British Empire represented at the congress. The book is profusely illustrated, the scenic beauties and industrial enterprises of the provinces being features. The foreword of the book gives a resume of the resources of the two provinces and each centre of importance on the 2,500 miles of railway over which the delegates will pass is described. Accompanying the book is a large map showing the natural resources, transportation and trade routes of the whole of the Dominion of Canada.

The delegates will be able to take away with them in this brochure a very complete and accurate synopsis of what the provinces of Ontario and Quebec offer to the investor, manufacturer and the settler.

WOMEN AS BRAVE AS THE MEN

THEIR STRUGGLE SHOWS A REMARKABLE SPIRIT.

Talk of the bravery of men, but where can you find a finer spirit than among the half-sick women who are fighting and struggling to do their duty against the terrible odds of ill-health, and who will not give up.

One woman in every three is struggling against weakness. Most of them are not exactly sick, but, oh, how miserable!

The burden and misery of it all has its foundation in the blood which is thin and watery. The red cells are too few. The very stream of life is reduced in vitality. Weakness and inevitable ill-health are the certain result.

Every ailing or weak woman can quickly regain her health in this very simple way. By filling the system with the nutrition that comes from rich red blood, a quick change for the better will result. To accomplish this, take two chocolate-coated Ferrozone Tablets after each meal. You'll feel better immediately for the simple reason that Ferrozone renews the blood. It gives you vim, vigor, endurance, restores a tired, worn-out system very quickly.

You'll feel like new all over once you get Ferrozone working through your blood. It puts color into faded cheeks, brightens the eye, quickens the step, brings back that wonderful feeling of youth.

One of the finest things Ferrozone does is to make you eat lots and digest it as well. With keen appetite, sound sleep, strong nerves and lots of nourishing blood you're bound to regain robust health. Any sickly girl or ailing woman that Ferrozone won't make well must be incurable. There is a secret power in Ferrozone and it is worth a trial at all events. Fifty cents per box, six for $2.50. At all dealers in medicine, or by mail from The Catarrhozone Company, Kingston, Ont.

OUTLOOK FOR SETTLEMENT OF MINERS' DISPUTE MORE HOPEFUL

Another Meeting of Triple Alliance To Be Held Today To Receive Reply of Lloyd George To Proposals Made At Yesterday's Conference—Robert Smillie Says Increased Output Depends On Securing Goodwill of the Miners—Railwaymen and Transport Workers Consider Miners Have Made Good Case For Increase.

[Associated Press.]

London, Sept. 22.—No progress was made today towards a settlement of the coal miners' dispute, although among the more optimistic hope has been revived that a meeting of the "Triple Alliance" has been called for Thursday to hear the reply of Premier Lloyd George to the committee of the alliance, which visited him late today.

Premier Reiterates Proposal.

The reply of the premier was a reiteration of the proposal made to the miners' executive committee the previous day, that, there being a difference of opinion between the miners and the Government as to facts and figures, the question of an increase in wages should be referred to an impartial tribunal, or, alternately, the miners should consent to work out with the colliery proprietors and the Government some scheme whereby in return for increased production the miners could get increased wages.

The premier considered that by the alternative proposal the miners would get a greater increase than they demanded, while the country also would benefit.

Must Have the Goodwill.

To this Robert Smillie, the miner's leader, replied:

"We are as anxious as you to increase the output, but you can only get that if you have the goodwill and desire to increase it."

In opening the conference with the premier, Mr. Smillie pressed the necessity of the increase being conceded if the miners were to maintain the standard of life which all desired they should. James Henry Thomas, for the railwaymen, and Harry Goslin, for the transport workers, announced that their unions were in full sympathy with the miners, who they considered had made out their case for an increase.

Advance Should Be Granted.

In a further reply to the premier Mr. Smillie said that the colliery owners had expressed the view that the advance should be granted, and that the committee's good will would set up every promise of an increased output which they would work for. It was not in their power, however, to give a definite pledge for an increased output as obstacles might be placed in their way.

Frank Hodges, another of the miners' delegates, said that the proposition as it now stood was one which could not take the place of application for an advance. After the conference the "Triple Alliance" committee met and decided to call a full meeting of the three organizations for Thursday.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS.

THEY CAN HANG ON.

The elections in St. John and Colchester enable the Government to stick in power a little longer. These rock-bound Conservative constituencies have gone bail for the culprit with fine old Tory clan spirit. But the event recalls how Falstaff offered Bardolph as his security, and the tailor refused, saying that he "liked not the security." Such testimony as these constituencies may give in behalf of their beloved at Ottawa raises a laugh as though in court one nut-shell man should testify and perjure himself for another.

Very naturally the Government labored with the energy of despair among the voters of St. John and Truro. Trembling all over from many shocks of public anger, they could hardly trust even these good old pals. Besides, they were anxious that the majorities of 1917 should not be greatly reduced. Their fears on this point have been fulfilled, but after all they breathe freely again that the seats are at any rate won. The Government ministers and members can go on a bit longer drawing increased salaries as their contribution to the reduction of cost of living. It doesn't matter materially about East Elgin. Write it off and let it go hang, they will say.

BLACKENING LABOR FOR GAIN.

Organized labor is justified in its criticism of the operations of private detective agencies in connection with labor troubles. At the closing session of the Trades and Labor Congress at Windsor, a resolution, coming from Hamilton, was approved, urging that steps be taken to have the federal and provincial authorities cease issuing licenses to detective agencies which supply strikebreakers.

There is something incongruous in the idea of a money-making concern rivalling or supplanting the legally constituted machinery of the law. In Canada we maintain a federal police, a provincial police and police of some kind or another in every municipality. Were these agencies insufficient to keep down crime there might be some justification for additional forces being called in, but in general the private detective agencies are not primarily concerned with the maintenance of order, because a law-abiding community provides them with no business and consequently with no money returns upon which to live.

In the United States the operations of these private concerns have come to be a menace not only to labor but through blackmailing to the community at large, and already there is a distinct movement under way looking to their more strict regulation. As was stated at Windsor, it has been shown time and again that outrages occurring during labor troubles and blamed on strikers have really been the work of these agencies through their thug employees. In the Lawrence, Mass., strike of 1912, for instance, an attempt was made to discredit the striking mill employees by the "planting" of dynamite about the city. In three places a total of twenty-eight sticks were found. Later it was proven that the sticks had been placed by a man who had no connection whatever with the strikers. He was arrested and fined $500, but, of course, that did not serve to clear the strikers in the minds of the public generally. The recent labor troubles in the West Virginia mines were cited at Windsor as an example of labor being blamed for the acts of imported thugs. Many other instances of the same abuse could be cited if necessary.

THE SCARLET PERIL.

It seems pretty well indicated that the bombing of Wall Street was an anarchistic atrocity. Other outrages may well follow upon this, especially if the perpetrators are not caught.

Madmen, desperadoes, who think they have nothing to lose, who have lost their way in life's labyrinth and feeling themselves down and out are determined not to bear all in patience, but vindictively and blindly to hit anything and destroy at random, such men have to be reckoned with. No doubt police measures will accomplish something, but better is to search out the causes of disorder and cut them away at the root if possible. Deficiencies and unfairnesses in the economic and social system need to be remedied. Such insanity as that of Sept. 16 may be prevented or cured by proper means.

Who knows where the next insane blow will be struck? Some fanatical devil may decide to blow up a railway station with trains and crowds. The particular objects of his hatred, bankers, industrial magnates and politicians may be the only ones not directly injured, the sufferers being children, porters, nursemaids, stenographers and clerks, but the red madman is past caring. He just wants to kill, kill, kill, and pull down other men's work. But there is no gain in denouncing the madman. The question is how to prevent or cure his insanity.

What is necessary is to make life livable for all and somehow manage that as few as possible shall feel that they have nothing to lose. The best way to root out envy and revenge is to remove the objective causes for these passions. It is not a mere accident that New York should be the scene of so shocking a tragedy. There frantic wealth and the submerged tenth confront each other most nakedly. The defeated strikes impotently, blindly, unreasoningly, but his maniacal strokes deal death to those happening in the way, and property painfully constructed is demolished. Wealth must bethink itself.

One simple cause of trouble may be the rigidity of American police lately in suppressing the meetings and speeches of wind-bag radicalism. In Great Britain Hyde Park is the safety valve for ragged oratory. Socialists duly elected to the New York Legislature were denied their seats. And then the plutocrats turn on the radicals and solemnly rebuke them for "not relying on constitutional means!" Not tyrannical repression but redress of grievances is the way to cure anarchic violence and make sins of scarlet be as wool.

EDITORIAL NOTES.

Day by day the cables bring us clearer understanding of why they put the fast in Belfast.

One thing that will be missing from the political pots from now on will be a lot of "stews."

The peculiar part of it is that people who scold the rich are struggling hard to get in the same class.

Irish patriots live on and without food, and now we understand how so many school teachers get along on their salaries.

These days when a poor laboring man feels an urge to raise merry hob on a Saturday night he goes out and buys another silk shirt.

If Great Britain set about pacifying Ireland as the Germans quieted Belgium the Sinn Fein lovers of Berlin would rejoice. But perhaps they only fein to prefer Prussia to England.

An Ottawa dispatch says that no one more than the premier regrets the present "isolation" of Quebec. We venture the statement that the premier regrets it far more than does Quebec itself.

Lord Desborough says that there is to be an imperial cabinet in the near future, in fact, that a meeting is to be held soon to arrange the details. We are not aware that Canada has given a mandate for handing over any measure of its present self-government to an outside body.

Mr. Chesterton says that the thing is not well defined by the name Bolshevism. A shorter word, bosh, is the better term. Perhaps as G. K. was discussing Bolshevism over a cheerful cup with Hilaire Belloc, his tongue could get no farther than "Bosh," and he decided that "in vino veritas."

Agents of the I. W. W. appear to have received a rather unpleasant reception from the delegates to the Trades and Labor Congress at Windsor. Attempts of the "Wobblies" to distribute their "red" literature resulted in their prompt explusion from the Border City and the destruction of their stock of leaflets. Organized labor has never had much use for the American syndicalists.

COUNTING OUR BLESSINGS.

[Hamilton Times.]

When we read of what is happening in other places we cannot be too thankful on Thanksgiving Day.

A CALL TO SERVICE.

[Edmonton Bulletin.]

Still the call is for more school teachers. It is estimated that when the university students have returned to their studies there will be from two to three hundred schools in the province without teachers. That means that most of these schools will have to be closed for a time, and in each such case twenty or more children will lose a term out of their school life.

When in any part of the country the residents show themselves backward about organizing a school district or about hiring a teacher or sending their children to school, public opinion promptly becomes aroused to the misfortune that is thus thrust upon the children. In the present instance the trouble lies in precisely the opposite direction, but the results are the same. The schools will be closed, not because the local residents want them closed, but because teachers cannot be secured. There is still a chance for men and women who are qualified to teach, but who have gone into other occupations, to render real and high service to the community by going back for a time to the school room.

LIFE AS IT IS LIVED.

[Detroit News.]

The comic strip to which we turn for a daily grin is not merely idle distortion. Mutt and Jeff, for example, are legion, even though the caricatured absurdity finds no ready parallel in personal experience.

The secret of the comic strip's perennial vitality is solely its basis of reality; and the exaggerated black eye with which folly or misfortune is rewarded is merely the art figure for the inevitable reward of folly or misfortune.

If any man could keep a phonograph record of his daily utterances, his casual remarks, together with a motion picture film of his every action, he might be surprised at the number of futilities in which he involves himself; runnings to and fro; aimless questions and careless answers; absent-minded follies and the like.

And these things, after all, are the heart of the comic strip. It is painful, perhaps, to carry the analogy too far. Retribution, in the form of a black eye, never teaches the comedians anything. Do we learn any better?

THE MERRY-GO-ROUND.

[Goderich Circle.]

We can all recall the mad gallop of the merry-go-round when as youngsters we had climbed on the zebra's back and chased the rest of the jungle tribe round and round the circle.

In a little different way we grown-ups during the last few years have been doing a merry-go-round marathon of our own. We have been chasing the high cost of living round and round in a circle. And the faster we have galloped the more speed it has seemed to acquire.

Many have believed that high wages would solve the problem but as most of us have begun to realize, they won't. The reason is that every time you raise wages you increase the cost of production, and by increasing the cost of production you increase the price of goods. It doesn't do any of us a bit of good to get more money for our work if we have to turn around and spend more money for our living expenses. Millions of people in the United States are convinced of this fact now.

What is the remedy, then? How shall we reduce the cost of living without seriously interfering with the present scale of wages?

The United States and the whole world needs more goods—furniture, clothing, food and fuel. And if we can get them without further increase in the cost of producing them, we will have found at last the remedy for high prices.

Increased production, without increase in production costs, means lower prices without lowered wages. And the only way to achieve this kind of increased production is by increasing personal earning power. Not necessarily by harder work, but wherever possible by better work; by fewer days off; by more dead-in-earnest co-operation and a more thorough understanding that we have a big problem to solve, and that we have got to solve it together.

That's the real solution to the high cost of living.

Let's remember this, that all the efforts of prosecutors and public officials to reduce the cost of living—no matter how sincere or otherwise—can have at best only a temporary effect unless and until more goods are produced without a proportionate increase in the cost of producing them.

From Here and There

SUCCESSFUL FAIRS.

[Hamilton Spectator.]

Toronto, Ottawa and London have all had successful fall fairs. It is a pity that Hamilton, seemingly through its location, is debarred from winding up summer activities in a like pleasant manner.

WHAT'S THE USE.

[Hamilton Times.]

Premier Meighen is going to make a campaign tour in the Province of Quebec. Well, Quebec may forgive, but it will not forget.

CLEAR AT LAST.

[Kingston Whig.]

Irish patriots live on and on without food, and now we understand how school teachers get along on their salaries.

WHEN SQUIRRELS BATHE.

I saw a squirrel take a bath the other day. It was raining, and this seemed to be an assistance to him. I was at a loss at first to understand what he could be up to. He was in a crotch of a tree, to which is attached the shelf that holds the drinking dish that the squirrels and the birds used in common.

Chippy would first lie on his back and pull himself along; then he would roll on one side and do the same, and then on the other. Suddenly he sprang to his haunches, drew his paws along his wet sides, and then rubbed them over and over each other, as you may have a chance to see a farmer do when he has been washing himself at the kitchen sink.

His last performance was the most amusing of all. After he had got his body and his hands cleaned to his satisfaction, he began on his face. This process also reminded me of a man when he rubs the water over his face with his hands. The comical part was to see the squirrel use both hands at once, just as the man at the sink does, except that the squirrel rubbed from his ears to his nose, after the fashion of a cat.

The impression that this grey squirrel was taking a bath dawned upon me when I realized that his fur must be wet through from the rain which was steadily falling. After every part of the body had been thoroughly gone over, Chippy scurried to the top of the tree and stretched himself full length upon a limb, waiting for the sun to come out and dry him.

CANADA'S SACRIFICE.

[Brantford Expositor.]

Belgium, which was generally regarded as being, along with Northern France, the cockpit of the late war, lost 65,000 men in a population of 7,500,000. Canada's loss was about the same, both actually and proportionately, a fact which demonstrates the immensity of her sacrifice in a fight which was so far away from her soil.

THOSE WHO CANNOT PLAY.

[Kingston Whig.]

Edward Bok, for years associated with women's magazines, has recently retired from the editorship of the Ladies' Home Journal in order, after a life of work, to lead a less restricted, and, to him, more pleasant existence. He was not too old to work. He was not sick or tired. He had simply decided that he had served at his routine job long enough, and he quit it in order to "play."

In the Atlantic Monthly Mr. Bok tells how his action was viewed by his friends. They could not believe that nothing was the matter with him. He would come back to work, they prophesied, or in a year he would "degenerate." Themselves, they preferred to "die in the harness."

Why? There were younger men eager to take their places, capable of doing their work as well or better. There were the usual wives and children who had missed the fathers because business had absorbed them. There were public service, travel, books. Play, says Mr. Bok, is not golf, polo or horse riding. "God forbid that I should spend the rest of my days on the golf course or in the saddle." It is a broadening of mind and spirit, a greater freedom of activity, earned by years of discipline.

Mr. Bok is entirely right in his conclusion as to why his acquaintances could not understand his retirement. They could not conceive of a life of play because they could not play themselves. Few businessmen can. In the drive at work, which has brought them some material satisfaction, they have lost the habit of play.

COLLEGE YELLS.

[The Wrangler.]

One of Great Britain's learned societies devoted a whole session to a discussion of college yells, their derivation and development. To help the societies reach a conclusion, students from Cardiff University were called into the conference and repeatedly asked to give their cheer. Then the delibrations started. Professor McIvor said the yell was full of ethnographic elements, and had not been fully developed. He thought that its origin could be found among the Hurons of North America and the tribes of South Africa. Professor Haddon thought the yell suggested a division into two elements—one the flight of a rocket, the other the sound produced by opening a bottle of fizz. (Laughter.) The president of the association Professor Karl Pearson, suggested that the origin might be found in the matrimonial call of the primitive anthropoids. When the learned scientists had expressed their opinion the leader of the students asked permission to tell the speakers that they were all wrong. The yell was the prize-winner in an undergraduate competition held in 1910.

CIVIC PLAYGROUNDS.

[Fort William Times-Journal.]

The need for teaching the young child to play as well as to work is one of the discoveries of modern days, or one of the rediscoveries of modern days, and the organized playground holds a place as important, at least, as our night schools in the education of the race. The spirit of sportsmanship is developed, and the spirit of rivalry is fostered but restrained by the curb of honor and chivalry, and if these two virtues are implanted in the young Canadians by means of the playgrounds, they will have paid for themselves in dividends of national virtue.

A GLADSTONE PRECEDENT.

[New York Times.]

A memorable incident in the political career of Mr. Gladstone may here be recalled for the benefit and admonition of the Democratic candidate. In his Midlothian campaign in 1880, Mr. Gladstone, blazing with indignation against the behavior of Austria, asked: "Where can any man put his finger on the map and say, 'There Austria did good'?" Mr. Gladstone's party enjoyed a notable triumph in that election. When, on the reassembling of parliament, he had taken his place at the head of the government, Austria ventured to inquire what she had to expect. It became Mr. Gladstone's duty to explain. He began his explanation with these words: "When I was in a position of greater freedom and less responsibility," and so forth. Governor Cox is very much in Mr. Gladstone's position, but some share of his prospective responsibility in the office to which he aspires attaches to him in the present moment. It will be better to leave delicate, in this case very delicate, matters of foreign relations to be determined after his election in consultation with his cabinet advisers. In campaign speaking, the spontaneous impulses of the mind cannot always be trusted. The enemy is watchful, and it is better not to give friends cause for regret.

EDUCATION AND CHARACTER.

[Winnipeg Free Press.]

It is to education the world must look for the building of character. The word character has in the course of time changed its meaning. The root idea was a mark made by some instrument. Now it refers rather to the instrument itself; from the mark or impression to the thing which makes the impression. Character, then, is to be measured by the impression it makes, and by the depth or quality of that impression.

Education, therefore, must not only answer for utilitarian ends, but it must answer for character ends as well, as Ruskin so emphatically pointed out. Education should seek to set up right relations between men. It should inspire pupils with ideals of life, and supervise the acts and habits of right doing. The habit of right doing will then become "character."

This view of education shows the necessity of relating theory and practice, thought and action. The processes of education need to be related to actual life. In other words, it is the application of the fundamental pedagogical principle that we learn by doing.

One of the factors in character-making is to hold high ideals before the mind and provide contact with the best models and examples. Here is where the purely cultural influences must be balanced against the commercial or utilitarian. History, literature, music and art have a place which cannot be overlooked.

Poetry and Jest

THE LITTLE ROADS.

[Alfred Noyes in "The New Morning."]

The great roads are all grown over,
That seemed so firm and white.
The deep, black forests have covered them.
How should I walk aright?
How should I thread these tangled mazes,
Or grope to that far-off light?
I stumble round the thickets, and they turn me
Back to the thickets and the night.

Yet, sometimes, at a word, an elfin password,
(O, thin, deep, sweet with beaded rain!)
There shines, through a mist of ragged-robins,
The old lost April-colored lane,
That leads me from myself; for, at a whisper,
At a breath, if my heart help another heart,
The path shines out for me again.

A thin thread, a rambling lane for lovers
To the light of the world's one May,
Where the white dropping flakes may wet our faces
As we lift them to the bloom-bowed spray;
O Master, shall we ask Thee, then, for high-roads,
Or down upon our knees and pray
That Thou wilt ever lose us in Thy little lanes
And lead us by a wandering way.

HER CHOICE.

[Broadview Express.]

The burglar's wife was in the witness box and prosecuting counsel was conducting a vigorous cross-examination.

"Madam, you are the wife of this man?"

"Yes."

"You knew he was a burglar when you married him?"

"Yes."

"How did you come to contract a matrimonial alliance with such a man?"

"Well," said the witness sarcastically, "I was getting old and had to choose between a lawyer and a burglar."

AUTUMN.

[Witter Bynner.]

Last year, and other years,
When autumn was a vision of old friendships,
Of friends gone many ways,
Yet never gone,
I stood alone upon this bank of copper-pered fern,
I breathed my height of isolation,
Encircled by a remembering country-side.
I touched dead fingers in a larch;
I sailed on long blue waves of land
Transfixed the whole horizon round;
I wore the old imperial shades
Of aster, sumac, goldenrod;
I flaunted my banners of maple;
And, when the sun went down,
I lay full length
Upon a scarlet death-bed.

So happy a thing was autumn
Other years,
But here you stand beside me on this hill,
And shake your head and smile your smile
And twist these things lightly between your fingers,
As a pinch of dust,
And bare your throat
And show me only spring,
Spring, spring,
Fluttering like your slender side,
Cascading like your hair.

PUFFICKLY INNOCENT.

[The American Legion Weekly.]

Judge—Now tell me what you were doing in Colonel Pilkin's chicken roost at 2 o'clock in the morning.

Uncle Mose—Jedge, 'scuse me, sah. Ah was jes' takin' de census.

THE EXILE.

[Theodosia Garrison.]

Above him in the city street,
The flame of neon increased;
With tumult as when armies meet,
Life urged her great and least;
'Mid din and turmoil, dust and heat,
Went driven man and beast.
He felt the salt wind on his face,
The wet sand at his feet;
He saw the white sails lift again,
He heard the singing sailor men
Above the comers' beat;
And half the way across hte world
the song came clear and sweet.

Above the dismal lodging hung
The heavy heat of day;
The swarming insects buzzed and clung;
Within the gas-light's ray
Men wrangled in an alien tongue,
Or slept as cattle may.
He felt the cool of dew-damp fields,
He heard the fiddles play
The old remembered dancing tune,
He saw the white midsummer moon,
And mocking—luring—gay,
The sound of one girl's laughter came
from half a world away.

A TIME FOR CAUTION.

[Washington Star.]

"I suppose your motto is, 'Make hay while the sun shines,'" remarked the summer boarder, who tries to be genial.

"It used to be," answered Farmer Corntossel. "But lately I have been a little bit careful not to mention sunshine for fear the hired man would insist on havin' extra help to hold an umbrella over him while he worked."

SYMBOLS.

[David Morton.]

Beautiful words, like butterflies, blow by,
With what swift colors on their fragile wings!—
Some that are less articulate than a sigh,
Some that were names of ancient lovely things,
What delicate careerings of escape,
When they would pass beyond the baffled reach,
To leave a haunting shadow and a shape,
Eluding still the careful traps of speech.
And I who watch and listen lie in wait,
Seeing the cloudy cavalcades blow past,
Happy if some bright vagrant, soon or late,
May venture near the snares of sound, at last—
Most fortunate captor if from time to time,
One may be taken, trembling, in a rhyme.

SCIENCE PROVES THE DANGER OF BLEEDING GUMS

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhea germs.

Guard your health and your teeth. Keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time, and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

A nuptial event of unusual interest was solemnized at St. George's Church, Sarnia, on Tuesday morning, when Miss Roberta MacAdams, daughter of Mr. Robert MacAdams, M.P.P., 233 N. Brock street, was united in marriage to Major Harvey Price of Edmonton, the ceremony being performed by the Rev. Canon Davis. The matron of honor wore a handsome gown of navy blue georgette, embroidered with beads, and and wore a seal and ermine wrap. Gladioli and palms constituted the church decoration, while asters were used effectively at the house. Mr. and Mrs. Price left for a wedding trip to Saguenay, Quebec, and after spending three months in Toronto will make their home in Edmonton, Alta. Among the guests present were Mrs. W. J. HARRIS—FAULDER.

Saturday, September 11, was the occasion of a pretty wedding which took place at the home of Mr. and Mrs. George Faulder Ailsa Craig, when their only daughter, Lillian, became the bride of Mr. Earnest H. Harris, the Rev. R. A. Brock of Crediton officiating.

The bridal party stood beneath an arch of white clematis, erected in the drawing-room, where the ceremony took place. Pink and white asters completed the decorations of the room. The bride, who was given away by her father, wore a beautiful nuptial robe of ivory satin with tulle veil beaded in pearls, falling from a cap of orange blossoms. She carried a shower bouquet of Ophelia roses and satin ribbons.

Little Miss Nadine Amos was a pretty flower girl, wearing pink crepe de chine and carrying a basket of pink and white asters in which the ring was concealed. Master Harry Craven was another quaint attendant. Miss Mary Amos, cousin of the bride, played the wedding music and Mrs. Alvin Amos sang "O Promise Me" during the signing of the register.

In the dining-room a dainty buffet luncheon was served immediately following the ceremony, pink and white asters and clematis being again used here effectively. The groom's gift to the bride was a case of silver and to the pianist and soloist handsome pieces of silver. Mr. and Mrs. Harris left by motor for a trip to eastern points, the bide traveling in a tailored suit with taupe velour hat. Peever officiating.

The impressive ceremony was performed in front of the large bay window, completely banked with autumn flowers and approached by a canopy of trailing vines, extending from the chandelier in the centre of the room. The bride, who was given away by her uncle, Mr. H. S. Walker, was charming in her nuptial robe of, white organdie over white satin, trimmed with real lace. The bridal veil was crowned with orange blossoms and pearls, and the shower bouquet of Ophelia roses. Attending her as bridesmaid was Miss Verna L. Dance in pale green organdie over white silk and carrying Sunset roses. Another pretty attendant was little Miss Gladys Finch of Aylmer in an attractive frock of yellow organdie and carrying a basket of mauve Climax asters. Mr. Russel Walker, cousin of the bride, was best man, and during the signing of the register Mr. H. S. Walker sang "Crowns" and "O, Promise Me." The wedding music was played by Mr. Milton Walker.

About thirty-five guests sat down to the wedding breakfast, the dining-room being prettily decorated with autumn flowers. A unique feature were the place cards, which were hand painted, each one bearing an excellent snapshot of the bride and groom. The aunt of the bride was wearing a handsome gown of black taffeta and corsage of red roses.

About 4 o'clock the bride and groom left for Niagara Falls and Buffalo, the bride travelling in a pretty tailored suit of brown French velour with hat to match, stone marten furs and corsage of pink roses. On their return Mr. and Mrs. Brown will reside at 17 Chester street. THE MARRIAGE OF ANNE

BY MAY CHRISTIE

(Copyright, 1920, by the McClure Newspaper Syndicate.)

XIII—A "DARK YOUNG MAN"

My heart beat suffocatingly in my throat. For a moment, I—Anne Travis—the usually glib, well-balanced Anne—could find no adequate word to say.

"Mighty easy . . . for any man . . . to fall in love with . . . you!" Those were the words young Saunders had just uttered. They had been spoken, too, with an air of simple conviction that made them genuine.

I sat in my chair, looking into those blue, magnetic eyes as though I were a being hypnotized. Tart comments, criticisms, light rejoinders—I was powerless to utter anything of the sort.

The atmosphere was charged with electricity. Great currents of it seemed to flow through me, and about me. As I looked into young Saunders' eyes I seemed to drown—to be irresistibly dragged down—in tropical pools of light.

Oh, would he not speak again? More than anything I had ever wanted in the world, I wanted him to tell me more—and more.

Strength. That was what he had! Tremendous strength! A man!

I had enever known this type before. I had never felt so——

Suddenly the spell was broken. Suddenly I felt the curious tension relax its grip. I don't know yet what brought about the quick reaction, but I heard myself saying, with an artificial little laugh:

"Flattery isn't in keeping with your character, Mr. Saunders. And anyhow, flattery doesn't weigh with me at all. So let's forget what you've been saying."

He straightened up at that. For an instant, he looked like a man who has received a blow. And then he gave a short laugh, something after the pattern of my own, and remarked:

"Men are all liable to be touched with madness at times. You must excuse our sex."

Thereafter, he became immensely preoccupied with the fastenings of the window, which he wished to open. And, before conversation was normally resumed, we had reached New York, and the train was gliding into the big terminus.

"Goodbye," I said, holding out my hand in friendly fashion. I was conscious of a definite attraction about this big, blunt young man. Hitherto I'd hated to admit it. But now things seemed somehow different.

For some reason or other, he chose not to see my proffered hand.

That hurt me. A realization had come to me that perhaps I might truly need a friend. I had had so many foolish love affairs. And real, worthwhile friends were scarce.

Of course, Fred ought to fill my whole thoughts. I was in love with Fred. Not for a moment did I doubt that fact.

But a curious wish came over me to be friends with Saunders. I somehow felt that I could lean on him. Never had I felt the need to lean on Fred.

"I—I'd rather like—to apologize—I mean I'm sorry for what I said," I stammered lamely. "You must have thought me rude——"

Neil Saunders smiled. It was a breezy, kindly smile, but somehow it chilled my heart. It was so utterly detached, so independent.

"I have no thoughts about it." His tones were level and remote.

Foolishly, I couldn't leave the thing alone, but went on:

"That luncheon invitation—it was awfully kind of you——"

"But quite impossible that you should accept it, under the circumstances," he cut in, quietly. "Miss Travis, I quite understand. You don't need to specify your fiance's objections to me a second time. I already know them. And I've accepted your decision in the matter."

Giving a quick little nod, I turned away from him to hide the hot tears that had sprung unbidden to my eyes. Oh, what a blundering little fool I was.

Luckily we were walking along the platform close to an exit, and an empty taxi passed. I hailed it.

Two minutes later I was bowling swiftly up Fifth avenue.

Well, I'd definitely repulsed this strange young man. No longer did he desire my friendship. My blundering attempt at putting matters right had proved a fiasco, and a most humiliation. The thing to do now was to forget the whole thing. I ought to borrow a little of Julie's philosophy and savoir faire. They were excellent armor for the battle of life.

All of these things I told myself as the taxi darted through the traffic.

What a big, crowded city New York was! The pavements swarmed with human beings.

They all had doubts and troubles, these people swarming in the great metropolis. I—Anne Travis—was only one of many!

But of course I hadn't any definite troubles. I told myself, determinedly. I was making mountains out of molehills. Fred and Julie—oh, there was nothing in that miserable suspicion.

We were in West Fifthy-eighth street My spirits rose. Soon I would reach the establishment of the smart dressmaker whose address Julie had given to me. I would buy the sort of frock that Julie wore. And wear it with as great effects—perhaps greater.

The taxi drew up at the pavement's edge. I descended, paid the driver, and went into the French modiste's. Madame bustled forward, smiling.

I explained my mission, mentioning the name of Julie. Madame's smile expanded.

"Ah, yes, I know her well. She comes here often with a dark young man, so handsome and elegant."

My heart gave a painful thud. A "dark young man——"

"Ah, yes," I responded, with cunning. "I know him, but I forget his name——"

"And I remember it—it ees Delaunay," was the answer that gave me a second bigger twinge of jealous pain.

Tomorrow—Fine Feathers.

Cynthia Grey's Mail-Box

The wizard has woven his ancient spell,
A day and a starlit night,
And the world is a shadowy, pencilled dream,
Of color and haze and light.—
Archibald Lampman.

Wants Little Boy.

Dear Miss Grey,—How slowly but surely the days are growing shorter, and September is bringing us those wonderful days when we long to wander in the woods and get near to nature in all her moods. I have been wondering if any of the Mail-Box readers might know of a little girl or boy who needs a good home (from 4 to 8 years, or older). I would send them to school and see they got a good education in whatever line they were best suited for. If their parents were living they could keep in touch with them; if not, I would take full responsibility. They would be brought up in a country Christian home. It is only as we grow older we realize what it has meant to us, our early training in a good home. I will inclose a mite for the S. C. H. and a stamped envelope with Miss Grey should someone be able to help.

SCOTCH JEAN.

Ans.—Your offer is referred to readers, Scotch Jean, and it certainly sounds good for some little boy. Hope you find just the little chap you would like. Thank you for the generous gift for the hospital.

Attention of Lightcliffe.

Dear Cynthia Grey,—Will you kindly put a note of thanks in your column to Lightcliffe for some very welcome Yorkshire papers she was thoughtful enough to send me. E. G. Bayne, Melville, Sask.

Requests.

Dear Miss Grey,—Here is another interested reader of your Page, who has come for help. Have you any more of those contests for parties, for which so many ask? If so, I would be most pleased if you would send them to me. Inclosed find S. C. H. dime. I. O. U.

Ans.—Thank you for hospital dime. Contests mailed to you.

Dear Miss Grey,—This is my first letter to the Mail-Box, but the reading of the letters of Sisters I enjoy very much I have tried several of the recipes and found them very good. I have seen so many asking for the Stocking-foot pattern, and thought if it was not asking too much I would like to have it also. I am sending addressed envelope.

Please find mite for children's hospital.

A LOVER OF FLOWERS.

Ans.—Thank you, Lover of Flowers, for the hospital gift and kind words. Pattern mailed.

Dear Miss Grey,—I come again for help. Can anyone of the Boxites send me the song that the first lines go like this: "Green grows the laurel and so does the Lue, and sorry am I for the parting of you." My grandmother used to sing it years ago. KITTY CLOVER.

Ans.—Referred to readers.

Dear Miss Grey,—This is my second letter to your Mail-Box. I read in today's paper where Thistle has so kindly offered seeds to sell for S. C. H. I would like very much to have some of the mixed cosmos. So if she sends them in, if it is not too much trouble would you kindly forward them on to me. Inclosed find self-addressed envelope and money for cosmos.

ROBIN RED BREAST.

Ans.—Thistle said she would send in the seeds if there were requests, so as soon as I receive them shall be pleased to forward to you. The money you send is for the hospital. Thank you very much for same.

Dear Miss Grey,—This is my second attempt to your Mail-Box, and sincerely hope I don't get cast aside. Will some of the readers send me a receipt for dill pickles, also a song, I forget the title, but it goes

In a little rosewood casket, that is sitting on the stand,
Theres a package of old letters written by a cherished hand.

Would someone about 16 write to me? RED WING.

Inclose addressed envelope, and mite for hospital.

Ans.—You failed to put in inclosures, Red Wing. Please send address repeating requests, as I am able to fill them from the Mail-Box.

Dear Miss Grey,—Kindly insert in your column directions for knitting a child's mit, and oblige, SALLY.

Ans.—Can some good knitter supply directions for Sally?

FINE PROGRAM BEING ARRANGED BY MUSIC CLUB FOR THIS YEAR

Artists' Concerts To Be a Feature of Season's Work.

The program now being arranged by the Women's Music Club for the coming year promises to be an exceptionally fine one. At a meeting of the executive held recently, with Mrs. Victor Blackwell, the new president, in the chair, several interesting plans were made. This year the regular fortnightly recitals will be held in the Normal School, as they were two years ago. There will, however, be several artists' recitals during the year, the first to be held early in November, when Ferdinand Fillion and Madame Fillion of Toronto will be the visiting artists.

Glee Club.

The St. Thomas Glee Club, under the direction of George C. Carrie, will furnish another program, which is being looked forward to. Still other prominent artists who may visit London under the Music Club auspices during the coming year are Eva Claire, the distinguished pianist, and Campbell McGinnis, who won the hearts of London music lovers last year.

Guy Zinn May Be New Manager of Brantford Team

Are Already Building An M.-O. Team For Next Year.

BRANTFORD, Sept. 22.—It looks as if the admonition of Director Fred Westbrook of the Brantford Club would be acted upon this year in preparation for the M.-O. season for Brantford in 1921. Mr. Westbrook has been an advocate of getting a manager and a team for next year right away and not leaving it to the last minute. Guy Zinn had a heart-to-heart talk with headquarters here this week. If a deal can be arranged with Hamilton for Zinn, he may be the new manager. In the meantime, Wick Winslow and Harry Stup are doing some valuable scouting work down south, and have already corralled some good prospects for next year.

Not Even Exhibition.

President Robbins of the O. B. A. A. today notified Secretary Harry Fleming that the Brantford Industrial Boys' Club, junior O. B. A. A. champions, could not play exhibition games with Toronto teams, and the game with Bellfair scheduled here for Saturday was called off.

MOTOR BOAT, STILL MASH, ETC., SEIZED; OWNER FINED $200

GRAVENHURST, Sept. 22.—Preventive Officer Floody of the inland revenue department and J. Walsh of the Mounted Police, seized a large motor-boat containing a large still, three barrels of mash, a quantity of black-strap and corn, and arrested the owner and five other occupants.

It is said a large trade has been done with the product on the Severn River this season. H. Dexter, the owner of the boat, appeared before the police magistrate this afternoon and was fined $200 and costs, or nine months in jail, while the other cases were adjourned until September 30. The seizure was made near Severn.

HERZOG SAID TO HAVE OFFERED BENTON $800 TO "THROW" BIG GAME

Sensational Evidence Expected At Grand Jury Investigation Today.

Chicago, Sept. 23.—Direct evidence of an alleged attempt to fix a game between the Chicago National League team and the New York Giants was expected today, when Jacob (Rube) Benton, pitcher for the Giants, appears before the Cook County grand jury investigating alleged major league baseball gambling. He is said to have been offered $800 by a former Cub player to "throw" a game.

Charles (Buck) Herzog, second baseman of the Chicago Cubs, admitted in a statement today that eh had been accused of offering an $800 bribe to Benton to "throw" a game, and declared that President John Heydler of the National League and President William Veeck of the Cubs knew that he was accused before he knew it himself. He said that they did not want to give him a hearing, "fearing publicity."

Herzog denied that he had ever been involved in an attempt to "throw" a game.

Subpoenaes were issued last night for the appearance of John J. McGraw, manager of the New York Nationals; Barrie McCormick, an umpire in the Chicago-Philadelphia game August 31; John Seyse, secretary to the Chicago National League Club; Ray Schalk, catcher for the Chicago Americans, and William Birch, a former newspaperman, to come before the Cook County grand jury next Tuesday in connection with the investigation.

One of the participants in the act of the "Fearless Greggs," the feature vaudeville attraction in front of the grandstand, sustained a slight concussion, when a tire burst on the incline auto in which he was traveling. The auto did not land properly when it hit the ground and fell on its side, stunning the occupant, Orrie Gregg. The performer was able to take part in the evening performanc.

We Invite You
To see how really clean teeth shine

All statements approved by authorities

Men who smoke
will see a quick, conspicuous change

Tobacco stains the film-coat on the teeth. So men who smoke will see a great change quickly. But millions of teeth have that same film-coat with a lesser stain.

Children's teeth are most affected by the film. Young teeth seem most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. Otherwise, decay is almost certain.

Pepsodent brings to women whiter, prettier teeth. But that means cleaner teeth and safer. The luster comes from constant film removal and the high polish given to the teeth.

Your teeth are coated with a film. When fresh the film is viscous—you can feel it with your tongue. Later it forms a cloudy coat. It enters crevices and stays. It dims the teeth, and now we know that it causes most tooth troubles.

There is now a way to end it. This week your druggist, if you ask, will give you a 10-Day Tube. Get it and see what it does for your teeth. Learn what film removal means.

Old ways don't end it

Old ways of brushing do not end film. Millions of people know that. Teeth discolor and decay despite the daily care.

The reason lies in film. It clings and hides, and very few escape its damage.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing — some have grown alarming. And all because we knew no way to daily fight the film.

A new dental era

Dental science has for years studied to combat film. Ways have now been found to do it. Able authorities have proved those methods by many careful tests. Now leading dentists everywhere are urging their daily use.

These methods have been combined in a dentifrice called Pepsodent. Millions of people have come to employ it. You can see the results wherever you look — in glistening teeth, in teeth you envy, maybe.

A new dental era has begun, due to these discoveries. And these are benefits everyone should share. So you are urged to let this 10-Day Tube show what Pepsodent can do.

Brings five effects

Pepsodent brings five distinct effects. All are apparent, some are quick. A few days' use will leave no doubt about them. And a little book will tell you what each one means to you.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling.

The alkalinity of the saliva is multiplied at once. This is to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Every application brings the Pepsodent effects. Together they mean tooth protection like you never had before.

Watch these effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

Compare your teeth now with your teeth in ten days. Then judge this new-day method by what you see and feel and know.

LONDONER LAYS CORNER STONE

[Ne]w Knox Church Is Being Erected At Dutton.

[Special to The Advertiser.]

Dutton, Sept. 22.—Duncan McArthur of London, a grandson of one of the first elders of the congregation, laid the cornerstone of the handsome new Presbyterian Church here this afternoon. The ceremony was witnessed by a large crowd from all parts of the district.

Mr. McArthur, in a brief address, expressed his apprecation of the honor conferred upon him. He spoke of the work of the founders of the old church, their vision and their faith in the Master, and expressed the hope that their characteristics would be emulated by tose privileged to worship in the new church.

Addresses were also given by Rev. J. McKay of London; P. G. Cameron, M.P.P.; Rev. N. A. Campbell of Ilderton, Rev. J. Robertson of Tiverton, Rev. J. Pollock and Rev. Mr. Godfrey of Dutton.

On the platform, in addition to the above, were Rev. Jas. Anthony, Fingal; Rev. J. Elder, Melbourne; Rev. Mr. Malcolm and Rev. J. McIlroy.

Previous to the ceremony, a short devotional exercise was held, conducted by the pastor, Rev. R. Stewart, who presided, followed by the reading of a history of the congregation by D. Campbell, while W. Hollingshead for the building committee detailed the work that has been accomplished in connection with the new structure.

With a silver trowel, presented by the congregation, Mr. McArthur then proceeded to lay the stone.

The Citizens' Band, as well as the choir, assisted in the musical service. A fitting conclusion to the ceremony was an excellent banquet, provided by the ladies in the Methodist Church.

PRISONERS GIVEN BENEFIT OF DOUBT

Magistrate Decides To Dismiss Charge in Gambling Case.

Although Magistrate Graydon expressed doubts as to the veracity of evidence offered he dismissed charges of gambling on Sunday, which were laid against Ruben Abramson, Isaac Hershorn, Benjamin Silverman and Alex. Hershorn in police court today.

Sergt. William McCullough said that with Constable Malcolm McRae he had gone to Mr. Abramson's house at 330 Horton street Sunday at 1:15 a.m. Through an open window he had seen four men playing cards for money. The four men all denied that they had been playing cards.

"I have strong suspicions, but I will leave it to the conscience of each man. They are committing a more serious charge than playing cards on Sunday if the are not telling the truth," said the magistrate. "Either the men or the constables are not telling the truth, and I must give the accused the benefit of the doubt. I can't conceive that four men would commit perjury to save a three or four dollar fine."

MORE POLICEMEN IS WINDSOR NEED, SAYS TRADE BOARD

Border Chamber of Commerce Urges Appointment of 15 Additional Bluecoats.

STEALS SOCKS; BUYS DOPE

Fred McGorlick Gets Six Months in Ontario Reformatory For Offense.

WINDSOR, Sept. 22.—Claiming that the Windsor police force is seriously undermanned, and that because of shortage of officers to efficiently police the city, business places and private citizens are being placed in great danger from thugs and "bad characters" who are inclined to drift into border towns, the Border Chamber of Commerce today appealed to the police commission to increase the number of men wearing uniform, under the jurisdiction of the department, by 15.

Since the lifting of the ban on the importation of liquor, outlawry along the border has been markedly on the increase, lawbreakers being attracted here by the facility with which liquor has been obtainable. The request of the chamber of commerce was made, following a survey of conditions in Chatham, St. Thomas, London, Sarnia, Brantford, Hamilton and Toronto, and a comparison of the relative strengths of the various police departments.

One of the most important reasons given for the securing of additional officers was the menace to pedestrians of speeding and reckless driving of automobiles which the authorities have found difficult to curb, owing to lack of policemen.

Have Floating Hotel.

Negotiations conducted for some time past through the directors of the Border Chamber of Commerce with the Great Lakes Transportation Company for the mooring of a large passenger vessel on the Windsor riverfront for use as a hotel during winter months, reached a satisfactory conclusion today with the statement of President Bourke of his willingness to comply with the request.

Arrangements are being made to have the vessel harbored at the government dock here. Its staterooms and other conveniences would be available for transients refused admittance at local hotels because of inadequate accommodation. The floating hostelry would be conducted along lines similar to the converting of the S.S. Noronic to a hotel for several months in the early part of this year at Detroit.

Biggs To Visit Windsor.

Hon. F. C. Biggs, minister of public works and highways in the Drury Government, is to visit Windsor and Essex County on Saturday of this week to personally inspect the terminal of the provincial highway and go over the road system of the county. In the evening, following his tour of the district in the afternoon, he will address members of the Essex Auto Club at a dinner to be given in his honor, when he will outline the Government's improvement program, with particular reference to Essex County highways.

Admitting he had stolen men's socks from the C. R. Smith Company's store here to obtain money for "dope," Fred McGorlick in Windsor police court today was sentenced to six months in the Ontario reformatory.

Although given notice to move on several occasions, John Evans, Windsor glazier, unable to find shelter for his family, has refused to comply with the orders until today, when, on complaint of Shee Lee, local Chinaman, proprietor of the residence, he was ordered evicted by Judge Coughlin in the Essex County court at Sandwich.

Evans, with a family of six children and his wife, had scoured the border from end to end for a vacant house, he told the court in a plea for leniency in the form of an extension of the order, which was refused on the ground that the defendant had already been given ample opportunity to find other quarters.

With no reply from Attorney-General Raney to the request forwarded him some weeks ago by the Windsor City Council asking for the appointment of a magistrate to devote his whole time to hearing cases from Windsor, action will probably be taken at Monday night's meeting of the council whereby the formal request will be followed by a pointed demand, Mayor Winter intimated today.

Complaints Continuing.

Complaints against conditions at the city hall where the police department is quartered are continuing at frequent intervals, and agitation for an improvement is more acute than ever. Members of the council are now strongly opposed, as a body, against the further hearing of outside county cases in the local police court while Windsor cases are neglected.

In addition to this aspect of the case, scores of prisoners, particularly offenders under the Ontario temperance act, are brought in from all parts of the border and lodged in the Windsor cells, while the city has acquired a bad reputation for lawlessness as a result.

At Monday night's meeting it is probable that the council will authorize advertising in outside papers for a chief of police to fill the vacancy left by the recent shake-up in the department by which Chief Wills was removed and given the office of police court clerk and instructor in a school for patrolmen that is to be instituted. In the meantime, he is acting in his old capacity. Two of the three members of the police commission favor the appointent of an outsider to the post.

Canadian Fords Cheaper.

Following the lead of Henry Ford yesterday in Detroit in announcing a general reduction on price of all Ford products by a reversion to a scale of prices in existence before the war, Gordon M. McGregor, vice-president and general manager of the Ford Motor Company of Canada, Limited, stated today that the Canadian and British Empire schedule would be cut accordingly. Runabouts and touring cars are to sell at $100 cheaper than recently, while a reduction of $60 in the price of tractors is to go into effect immediately. The new scale will be applicable to all products of the Canadian factory at Ford City, which includes cars made for export trade in all parts of the British Empire, as well as for domestic sale in Canada.

Automobile manufacturers in Detroit and in the border cities continue silent on the steep reduction. Makers of higher-priced cars, it is understood, will completely ignore the action of the Ford companies at Highland Park, Detroit, and Ford City Ont.

MAYOR FOUND COAL PRICES $5.50 PER TON OVER AVERAGE

GUELPH, Sept. 22.—Guelph coal dealers are up in arms because Ald. C. H. Burgess has accused them of profiteering. At a recent council meeting Ald. Burgess brought an instance to the attention of the council where a local dealer had charged $24,50 for a ton of anthracite coal. Acting on the aldermen's tip, Mayor Westoby got in touch with coal dealers in several outside places, and as the average price in other cities was around $19, his worship has opened a thorough investigation into the matter. The dealers had a conference today and planned to meet the council to present their case, but owing to the absence from the city of Mayor Westoby, a special meeting of the council has been called for tomorrow, when the coal dealers will attend.

THOROLD RIOT WITNESSES ARE NOT TALKATIVE

Authorities Suspect a Conspiracy of Silence—More Witnesses To Be Called.

ST. CATHARINES, Ont., Sept. 22.—Eighteen witnesses were examined before Fire Marshal Heaton at Thorold today in the inquest on the firing of the Thorold Town Hall by a mob on the night of August 16, when an attempt was made to lynch David McNeal, the alleged murderer of little four-year-old Margaret Boucock.

There are several witnesses still to be heard, and the inquiry will be resumed tomorrow morning. It is still being conducted in camera. Fire Marshal Heaton did not make an official statement this evening, but he said that practically nothing new had been elicited.

Conspiracy of Silence.

It is stated that some of the Thorold people who were called as witnesses today were far from communicative on matters connected with the riot. The fire marshal and Crown Attorney Jeffreys attributed this to a conspiracy of silence, it is said, and subjected the witnesses in question to searching questions.

Beat Hasty Retreat.

One official is reported to have testified that when the town hall was besieged by the mob he was not asked to give aid to the authorities and when he heard revolver shots he thought things began to look serious and he beat a hasty retreat.

Four witnesses, it is reported, stated that in their opinion the crowd which gathered at the town hall on the night of August 16 was a peaceful crowd and simply were curious to get a look at McNeal and did not mean to do him harm. The majority of the eye-witnesses, however, expressed different opinions from this.

FINANCIAL AND COMMERCIAL

TORONTO STOCK EXCHANGE.

Toronto, Sept. 23.—A general tendency to mark time was noticeable in trading on the local stock exchange this morning and transactions fell away below the level established during the past week. While stocks were generally about steady, a weak undertone developed. C. P. R. sagged further to 134½, and Steel Corporation lost ½ point at 54½. Atlantic Sugar sold at 141 and Spanish River at 122½. Other price changes were of little importance.

GRAIN.

Winnipeg, Sept. 23.—October wheat opened ¼c to ½c higher; November ¼c lower and December 1⅛c lower.

October oats ⅛c down; December ¼c down, and May ⅜c lower.

October flax unchanged.

Chicago, Sept. 23.—Opening: Wheat—Dec., $2 35¼; March, $2 27⅜.

Corn—Dec., $1 04¼; May, $1 05.

Oats—Dec., 60c; May, 64⅛c.

Chicago, Sept. 23.—Heavy selling of wheat took place today and carried prices lower. Much of the selling appeared to be based on opinions that a lull in export business was foreshadowed. On the contrary, however, foreigners were said to be making new purchases. Opening quotations, which ranged from ⅜c to 3c lower, with December at $2 34½@2 34¾, and March at $2 27@2 28½, were followed by a slight further setback and then something of a rally.

Lowest prices yet for the new crop were reached in the corn market. Fine weather was the chief bearish influence. After opening ⅜c to 4c off, including December at $1 04@1 04¾, the market underwent a further sag.

Oats reflected corn weakness, starting unchanged to ⅛c higher; December, 59¾@60c, and then reacting to well below yesterday's finish.

NEW YORK STOCK EXCHANGE.

New York, Sept. 23—Wall Street, 10:30 a.m.—Recent conflicting movements in the stock market were resumed at the opening of today's session. Rails of the speculative variety advanced most, while some of the industrial issues were moderately reactionary. Chicago and Alton, Texas and Pacific, Missouri Pacific, Wabash preferred, and New Haven gained fractionally. Tobaccos and some of the oils were materially higher, but motors, coppers and leathers denoted further selling pressure. A feature of the foreign exchange market was the acute weakness of rates to Scandinavian centres.

1:30 p.m.—Food shares were under persistent pressure at midday. American Sugar, Beet Sugar and Corn Products declined 1 to 2½ points. Steels, equipments and oils canceled their partial recoveries, but junior rails remained strong, with buying of New Haven as the chief feature.

ECZEMA IN RASH CUTICURA HEALS

On Face and Head. Itched and Burned. Disfigured.

"Last year I became affected with eczema. It started on the cheeks in a rash, and the water spread and made my face sore all around the ear and partly on my head. The skin was very sore and red, and the breaking out itched and burned so that I could hardly help scratching. My face was very disfigured.

"Then I used a free sample of Cuticura. It helped so I bought three cakes of Soap and one box of Ointment, and my face was healed." (Signed) Miss Martha Berger, Spanaway, Wash., Feb. 11, 1919.

Give Cuticura Soap, Ointment and Talcum the care of your skin.

Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal. Cuticura Soap shaves without mug.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestents. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia, which is especially prepared for the above purposes.—Advt.

DEMANDED $500 IN LETTER TO EXPRESS AGENT; IS ARRESTED

WINDSOR, Sept. 22.—Writing threatening letters to Crawford Keith, Walkerville express agent, demanding that $500 in cash be paid over to him at a lonely spot on Walker road, brought William Powell, aged 20, into Windsor police court on the charge of attempted blackmail. He was arrested by Provincial Officer Smith, who went to the rendezvous in place of the intended victim. Powell claimed lack of employment and need of money had driven him to an effort to secure funds by extortion. Owing to his overseas record of three and a half years he was to have been allowed off on suspended sentence, when it developed he had acted merely as a catspaw for a man named Jack Carr, a warrant for whose arrest was sworn out tonight.

Careless Shampooing Spoils the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Recently, in the city of Chicago, a prominent man, burdened with excessive fat, went upon the operating table and had over sixty pounds of flesh carved from his huge, cumbersome body. Years ago the formula for fat reduction was "diet"—"exercise." Today it is "Take Marmola Prescription Tablets." Friends tell friends—doctors tell their patients, until thousands know and use this convenient, harmless method. They eat what they like, live as they like, and still lose their two, three or four pounds of fat a week. Simple, effective, harmless Marmola Prescription Tablets are sold by all druggists—a good size box for one dollar. Or if you prefer you may write direct to the Marmola Company, 98 Garfield Building, Detroit, Mich.

At The Theaters

AT THE GRAND TONIGHT, "MY SOLDIER GIRL," A BRILLIANT MUSICAL PLAY.

A tuneful musical comedy presented in all its dazzling splendor is "My Soldier Girl," with new book, lyrics, music and production, coming to Grand tonight for three days. This new play is brim full of comedy, contains some twenty tuneful numbers, brilliant in its gorgeous scenic effects and novel costumes, offers a splendid cast and bewitching "pony" ballet, who present this sparkling and gay musical novelty in all its merry-making. The story centres about Dixie Harris, a ward of a wealthy Floridan, who was a producer of theatrical attractions long before the war. Dixie, likewise the colonel, served their country during the late struggle, and while in France a love affair crept into the hearts of Miss Harris and a Lieutenant Carter. The colonel made many friends during his European trip, inviting them to visit his home once the armistice was signed and conditions were such that the majority of the boys and girls would be back in America. It is at the colonel's home that the first act opens and a brilliant lawn fete is in progress, presenting a beautiful picture of flowers and lights. The guests participate in the evening's merriment and a night of gayety reigns in all its merry-making. So many exceptionally clever entertainers are found among the visiting guests that the colonel during an impromptu speech makes known that he is to produce a big Follies production in New York City and extends an offer to all who desire to become members of it. The suggestion is received with wildest enthusiasm and the long-to-be-remembered night of festivities draws to a close with the new Follies show looked forward to, with much anticipation.

The second act finds many of the guests who participated in the festivities at the lawn fete, playing leading roles in the rehearsal of the Follies production on a roof of a New York Theatre. True to his word, the colonel has given the new show a wonderful mounting and it actually outclasses all that have gone before it. Dixie is cast as the "Soldier Girl," and nothing prettier has been done in the picturesque of the stage than this novel play offers in its clever little story. There are more than a score of tuneful song hits of which "My Soldier Girl" leads in popularity with "Just For You, Dear," "That Dixie Wedding Tune," "Bundle of Love," "Jasper's Ragtime Band," "I Want a Regular Man," "New York," and "When You Dance With the Girl You Love" follow closely in this popular score.

THE FAMOUS "DUMBELLS" AT THE GRAND MONDAY.

The "Dumbells" are coming. Hooray, hooray, should be a holiday. Capt. Plunkett and his all-star aggregation of soldier-actors are now on their second coast-to-coast tour of Canada, and will present their second and altogether new edition of the joyous musical revue, "Biff, Bing, Bang," at the Grand Opera House for one week, commencing Monday, September 27.

Judging by the reception accorded this wonderful bunch of talent on their visit here last year, there will be a grand rush for the box office when the seat sale opens today.

The "Dumbells" new show has been staged along similar lines to the entertainment offered the boys in France and later to the theatre-goers of Canada.

A big feature of the new show is a forty-five-minute version of Gilbert and Sullivan's tuneful opera, "Pinafore," which Capt. Plunkett staged in Mons immediately after the close of the war. Seats for all performances now on sale.

THE FAMOUS "DUMBELLS" RETURN TO THE GRAND.

The "Dumbells" will offer their second edition of "Biff, Bing, Bang," at the Grand for one week, commencing Monday, September 27.

The "Dumbells" are too well-known in this city to need any introduction, suffice it to say that the organization remains the same as on their first Canadian tour, and that the new show is just as snappy and full of pep, as was the first edition of "Biff, Bing, Bang." With last season's series of record business as his guarantee of the loyal support of the Canadian public, Capt. Plunkett has felt himself safely in a position to make the second season's offering a much more elaborate affair, both in gowns, settings and numbers, a special feature of the new show being a forty-five minute version of the greatest of Gilbert and Sullivan operas, "Pinafore," gorgeously gowned and brilliantly staged. Seats now on sale.

BIG FASHION PICTURE SHOWING FOR LAST TIME AT ALLEN TODAY.

Today is your last chance to see that gorgeous display of fashions, styles and beauty, "Why Change Your Wife," at the Allen Theatre.

Cecil B. DeMille has never yet made a picture in which there was such a profusion of feminine beauty, personified by alluring Gloria Swanson and Bebe Daniels; he has never put such wonderful settings into a production as form the background for this humorous tale of married life; nor has he ever picked a wardrobe like that worn by the two leading stars in "Why Change Your Wife." Thomas Meighan is at his best, and the new screen star the famous Russian dancer, Theodore Kosloff, makes a place in film art by his work in this photoplay.

Haven't you often wondered where the sweethearts of yesterday disappear to after the honeymoon. Well you will find the answer to this query in "Why Change Your Wife." For Gloria Swanson in the character of Beth Gordon, once the toast of the young bloods of New York City, becomes a much too wifely wife, giving too much thought for the spiritual welfare of her husband, until she divorces him, and must win him back with all the beauty and allure at her disposal. Then you will also appreciate Bebe Daniels as the fascinating little vampire, of the gorgeous raiment who after her marriage becomes even more domesticated than Gordon's former wife.

Taken altogether "Why Change Your Wife" is a master production of beauty and art, a picture which will delight every sense, from the ultra artistic, to the very dramatic.

The music also deserves special mention, the offering as an overture of "Mary" and "The Love Nest," with the encore "The Music Box," together with the extra features, complete an excellent program.

NATURAL SCENES

In "The Girl In the Rain" Include Realistic Rainstorm.

It's the elemental emotions that must be appealed to in the successful play or story; it's the fundamental situations that must be depended on for the big punch in the drama, and the newest plot is but a clever variation of the tried and true dramatic rules that must obtain in every successful stage or screen production.

Early in the history of motion picture production directors discovered that one of the most potent effects for sustaining interest and excitement is a chase. At first these scenes were crude and inartistic—simply one person chasing another down a street or road,

ANNE CORNWALL IN THE UNIVERSAL SPECIAL ATTRACTION "THE GIRL IN THE RAIN"

with others joining in until it took on the appearance of a flying caravan.

The chase is still a great factor in providing a tense situation in a film drama, although directors have learned to refine it, give it variety and bring it up to the minute.

In "The Girl in the Rain," in which Anne Cornwall is starring and which will be shown at the Patricia Theatre today, Friday and Saturday, there is a pursuit that is both novel and exciting. Two detectives are following a trio suspected of being thieves, and nearly every method of travel known to man is utilized in the pursuit. The fugitives are very clever in eluding capture, and the detectives are compelled to devise ingenious methods to outwit their quarry.

Of course, the chase is but an incident of this drama of romance and adventure produced for Universal by Rollin Sturgeon, but the interest it arouses is an illustration of the fact that certain elements of the drama are unfailing in their effect.
