

40TH YEAR. NO. 17120

THE ADVERTISER, LONDON, ONTARIO, THURSDAY, FEBRUARY 4, 1904.

PRICE TWO CENTS.

GAMEY SPRINGS SOME NEW ONES

Calls Premier Literary Pirate and Sneers at Church.

IS CALLED DOWN BY SPEAKER

During the Speech Was Repeatedly Warned for Indecent Remarks—Other Speakers.

[Special to The Advertiser.] Toronto, Feb. 3.—The major portion of this afternoon's session of the Legislature was taken up by Mr. R. R. Gamey's address. It was a characteristic one, replete with personalities and vulgarities, and it was the duty of the Speaker to be compelled to interfere four or five times. On finding that the speaker did not desire his case at length, and having no other material with which to take up the time of the House, the member from Manitowish sub-sided, after informing the House that he would move an amendment under which he could regale them with the story of the malodorous case of which he was the central figure.

The other speakers of the afternoon were W. J. McCart, of Stormont, who replied ably to some of Dr. Nesbitt's statements, and J. S. Duff, of South Simcoe, whose address was extended into the evening session.

THE MANITOULISH MAN.

Mr. Gamey began his speech immediately after the reading of the prayers. He said that there were some things which he would like to see included in the address regarding New Ontario. Continuing, he said when he appeared at his constituents' meeting on the 10th, then where he thought the policy of the Government was wrong. The answer of the people was that three quarters of the Conservative leader were sent out of the heart of New Ontario. The people of New Ontario wanted a change in the mining laws of the Province; they wanted more customs duties; they did not want government by order in council. The Commissioner of Crown Lands was weak-kneed and destitute of backbone, he said.

SQUADRON LEAVES PORT ARTHUR

Czar's Fleet Slips Out to Sea for Unknown Destination.

RUMOR THAT WAR IS DECLARED

Marquis to Has Hurred Interview With Elder Statesman and the Emperor.

London, Feb. 4.—All the Russian going repairs, are reported to have left Port Arthur yesterday. Their destination is unknown. The Emperor will be present.

GAMEY'S LATEST ABUSE.

Mr. Gamey then turned his attention to the Globe, reading some of the terms applied to him by the "reverend editor." "It is the kind of language you stuff a minister with, and you go out to convert the world with, I am not disappointed that I do not belong to the Presbyterian Church."

The member for North Grey had spoken of a number of prominent people taking someone down to the station and telling the conductor to "Put me off at Buffalo." "When I get on a train," said Mr. Gamey, "I am always sober enough to get off wherever I want to."

Mr. Gamey said the Premier ought to know what a pirate is. He was actually stole the poem that appears in the old school books under his name. Was not that the most miserable and contemptible act of a pirate?

HALL CAINE MUST REST

The Novelist Suffers From Insomnia Due to Overwork.

London, Feb. 4.—One of this morning's papers gives an alarming report about a serious breakdown in the health of Hall Caine, necessitating his giving up work and going to the continent to recuperate. It is not so alarming as it seems, however, for Caine has been suffering from insomnia for some time in consequence of overwork. He is giving up his seat in the House of Commons, but when leaving London yesterday was able to assure his friends that nothing more than a good rest was the matter. To some extent a period of enforced rest will delay his new novel and the drama founded upon it, which has been arranged to appear early in the autumn.

A PATHETIC SUICIDE

Philadelphia, Feb. 4.—William Anderson, a young married man of this city, has committed suicide under pathetic circumstances. He was informed by a physician that his wife, who had given birth to a daughter, was dying. He immediately picked up a revolver, and, saying, "If she goes, I'm going, too," shot himself through the head. His wife died a few minutes after the shooting, and he passed away late last night. Besides the baby they leave a four-year-old daughter.

REIGN OF TERROR IN HAITI ISLE

Leader of Revolution Shot to Death in His Bed.

FOUR OF HOUSEHOLD KILLED

Foreign Legations Filled With Refugees—Germany Threatens to Land Marines.

Washington, Feb. 4.—Mail advices from thoroughly authentic sources which reached several papers in Washington, indicate that a terrifying state of affairs has existed recently in Haiti. One letter from Port-au-Prince gives the following account of happenings at that place.

"Affairs here are in a state of wild and dreadful disorder. While the president, General Gourgas, and a number of his officers, are in the city, a conspiracy was discovered to inaugurate a revolution, not to agree to certain measures respecting the liberation and pardoning of a number of Haitians implicated in the bank scandal. When the time arrived to carry the plot into execution, many withdrew therefrom. One of the number, Gen. Maximilien Nolplaiser, was, however, determined to carry it through.

"Learning of the conspiracy the military governor of the city, with a number of soldiers, broke into the house where Nolplaiser and a few of his friends were gathered. Orders were given to shoot all those within on the spot. Those who were killed were Nolplaiser, his son, one or two other persons, and a servant. Among those who escaped was the writer. The owner of the house escaped by jumping out of a second story window, and in so doing broke his leg, but managed to crawl to the house of a German, who gave him shelter. Nolplaiser's wife, however, had made his escape, arrested and imprisoned his wife. Hearing this, the man informed the authorities that he would release his wife if he would return to his home. He kept his word, returning to the house where the authorities found him. Without any ceremony they killed him as he lay there, by firing thirteen bullets into his body.

"The foreign residents then became alarmed and the German admiral informed the authorities that he would take possession of the city. This stopped further proceedings. Gen. Nolplaiser reached Port-au-Prince and the excitement is somewhat allayed, but it is still intense and may break out at any moment.

PHONETIC ARCHIVES

Harvard University to Preserve Voices of the Great.

Berlin, Feb. 4.—A phonographic record of Emperor William's voice on metal matrices will be the first deposits made in the phonetic archives that are to be kept at Harvard University, and in the congressional library at Washington. The Emperor, upon the application of Dr. Edward W. Scripture, the psychologist of Yale University, through the United States ambassador here, has given two examples of his voice for permanent preservation.

Dr. Scripture, describing the meaning of his request, said: "The phonetic archives are to include records from such persons as will presumably have permanent historical interest for America. The importance of the undertaking can be estimated by considering what would have been the present value of voice records of Demosthenes, Shakespeare or Emperor William the Great."

A NEW REPUBLIC

French Captain Claims the Presidency of Connant.

Paris, Feb. 4.—Adolph Brezet, formerly a captain in the French army, and now claiming to be president of what he terms "the Republic of Connant," in South America, has arrived here and is seeking to obtain the recognition of his Government by France. Brezet says that "Connant" comprises the territory which was in dispute between France and Brazil, and which was finally awarded to Brazil by a president of Switzerland, when the money was submitted for arbitration. Brezet declares further that the people of "Connant" refused to accept the decision of the arbitrator and organized a new republic, recognition of which is now sought of all the powers. According to the president of this new republic "Connant" is two or three times as large as France with a population of about 200,000 colonists and a million Indians who support the new Government.

A BOUNTY ON WHEAT

Government and Mr. Chamberlain Considering a New Plan.

London, Feb. 4.—The Standard this morning says its understands that the Government and Joseph Chamberlain are considering a suggestion which has been made that instead of duty on foreign wheat a bounty should be given on wheat grown in Great Britain and Ireland. The suggestion is not objectionable than a protective tax.

ARGYLL ON PREFERENCE

Duke Takes Earl Spencer to Task for His Utterances.

London, Feb. 4.—The Duke of Argyll, writing to the Times, declares that Earl Spencer was unjust to the colonial preference from the motherland, Canada, New Zealand and Australia are pressing forward on the lines of the conference of the premiers. Instead of minimizing the colonial efforts for preferential trade within the empire he ought to acknowledge the hearty desires to work with us. The duke thinks that the proposal of a per cent preference against foreign manufacturers is quite enough to show our goodwill and its withdrawal would not be resented if it should prove harmful to home interests.

WOMEN IN CHOIRS.

New York, Feb. 4.—Archbishop Farley, of New York, sailed today on the steamer "Prinz Adalbert" for Naples on his way to Rome. He may visit Paris. He will return in time to hold the Easter service in the cathedral. Archbishop Farley was asked whether it was true that he intended to represent to the Pope that the banishment of women from church choirs, in accordance with a recent edict of the Vatican, would work great hardship in this country. The archbishop said that he did not propose to say anything to his "boss" about the matter.

AN INDIAN MASSACRE

Yaqui Indians Hold Up Stage and Kill All Aboard.

Denver, Col., Feb. 4.—News of the massacre of six persons by Yaqui Indians at Ortiz, Mexico, has been received. The stage which runs between Ortiz and Las Cruces was held up by fifteen savages, and all on board, numbering six, were killed. Among them were Salvador Flores and his nephew Francisco Flores. Both were prominent in Sonora. Flores lived until he was picked up by a party of regulars, and detachment of mounted troops has gone in pursuit of the Indians.

MORGAN ON SNOWSHOES

Celebrated Financier Tries Canadian Winter Sports.

Montreal, Feb. 4.—J. Pierpont Morgan, who came to Montreal to have a few days' rest, and enjoy Canadian winter sports, spent a busy day yesterday. During the day Mr. Morgan and party visited the toboggan slide, the skating rink, and were much interested in the sport. Last evening the party were the guests of a dinner at the Hotel de Ville, where they were the guests of Mr. Allan at dinner. Mr. Morgan said Mr. Redmond's object and was in high spirits. It is likely that the party will visit Quebec before returning to New York.

A NEW REPUBLIC

French Captain Claims the Presidency of Connant.

Paris, Feb. 4.—Adolph Brezet, formerly a captain in the French army, and now claiming to be president of what he terms "the Republic of Connant," in South America, has arrived here and is seeking to obtain the recognition of his Government by France. Brezet says that "Connant" comprises the territory which was in dispute between France and Brazil, and which was finally awarded to Brazil by a president of Switzerland, when the money was submitted for arbitration. According to the president of this new republic "Connant" is two or three times as large as France with a population of about 200,000 colonists and a million Indians who support the new Government.

ACTION AGAINST PRELATES

Combes Promises It for Criticism of a Proposed Law.

Paris, Feb. 4.—Premier Combes announced at the meeting of the council of ministers his intention of taking drastic measures against the prelates for their criticism of a proposed law. Referring to the law question, Mr. Redmond said the failure of last year's act proved that the Parliament had neither time nor capacity to legislate satisfactorily for Ireland. The act must be amended forthwith, alike in the interests of tenants and landlords. Mr. Redmond concluded with a few scathing remarks concerning "that ignorant and stupid body of prelates, the Cardinal Archbishop of Lyons, and Cardinal Archbishop of Rheims, and Cardinal Archbishop of Lyons, as they received the letters of the Minister of Justice had been charged with the preparation of a law making the prelates liable to prosecution for any public protest against or criticism of the Government.

ONE DOLLAR WHEAT

Cash Grain Touched That Point on the Chicago Exchange.

Chicago, Feb. 4.—Cash No. 2 red wheat sold on the board of trade yesterday at \$1 a bushel, and price. The wheat was bought by millers. Wheat has not sold so high in this market, since June, 1898, in which month the Letter deal culminated. The high prices being paid at Chicago are the result of the big rise in May wheat being engineered by Armour. May wheat sold yesterday at the top price for the season, and the market is expected to be very close. The advance was accompanied by active covering of shorts and much speculating excitement.

DRIVEN OUT OF ZION

Two of Dowie's Musicians Expelled by the Acting Overseer.

Chicago, Feb. 4.—Following the expulsion from Zion City last week of a deacon and a man detected reading a Sunday newspaper, two more expulsions were made today. Because it is alleged he made eyes at the organist, Miss Mason, Mr. Rice, the head director of Zion, was ordered to leave as quickly as possible, and the organist was also notified that her presence was no longer desired in the town. Accordingly both musicians are now preparing to move.

SAYS HOME RULE WASN'T PROMISED

Mr. Wyndham Replies to John Redmond's Attack.

THE LAND ACT TO BE AMENDED

Thinks Half a Century Will Elope Before Ireland Is Fit to Rule Herself.

London, Feb. 3.—Mr. Wyndham, Chief Secretary for Ireland, in reply to Mr. Redmond's attack in the Commons yesterday, announced the Government's intention to introduce an act amending the Irish land act and clearing all the doubtful points. In regard to the Government, Mr. Wyndham said the Government had no intention of explaining at present. The question ought to be settled, but it was useless to attempt anything unless a more substantial agreement had been arrived at between all the parties in Ireland. With reference to Mr. Redmond's demand for home rule, Mr. Wyndham said Mr. Redmond's object seemed to be to prove that he was the real head of a third party in the House of Commons, and that it demanded a separate Parliament for Ireland. The Chief Secretary denied that he ever had proposed Irish legislation of Switzerland, which is the demand of the Irish party for Ireland, or as a concession for the purpose of changing the views of Nationalists. He also denied that he had any understanding with the Irish party for any purpose. He had been careful not to delude the Irish by any ambiguous promises, but he would insist that Ireland derive a fair share of the financial resources of the Empire. Mr. Wyndham did not believe that Ireland would be settled for at least fifty years. Even if Ireland had her own Parliament she could not in the present state of the money market find \$750,000 for the purpose of carrying out the provisions of the land act.

THE EVACUATION OF MANCHURIA

British Commons Inquires as to Government's Action.

RUSSIA CALLED TO ACCOUNT

For Removal of English Customs Employees at New Chang—The Tibet Expedition.

London, Feb. 4.—In the House of Commons today several questions were put with the object of obtaining information regarding the far eastern situation, the steps taken to avert war, and whether the Government alone, or in conjunction with the United States Government, had pressed Russia to evacuate Manchuria, etc., but the questions practically were without result.

Earl Percy, Under Secretary of the Foreign Office, declared that in view of the present state of the negotiations between Russia and Japan, it would be manifestly improper to make any observations on the situation. The British Government, he added, had made frequent representations to Russia in regard to the delay in the evacuation of Manchuria.

Earl Percy confirmed the reports that the Russians had removed several of the employees of Sir Robert Hart (the Inspector-General of Customs and Excise) from the native customs office at New Chang, and had replaced them by Russian nominees. Representations of Canadian business men were made on the subject at St. Petersburg.

Replying to another question, Earl Percy said the new dignitary most prominent in the negotiations between the British and Russian Governments before the British expedition had been dispatched to Tibet would shortly be published.

WILL RIVAL KLONDIKE

The Yukon Territory is Very Rich in Gold Deposits.

Dawson, Y. T., Feb. 4.—Rev. Joan Pringle, counselor for the Yukon Territory, has just completed a "mush" over the territory, having covered 1,056 miles on snowshoes, and returned to his team. He visited nearly every camp in the Territory, including Alek district, 175 miles from White Horse. He reports the new diggings as most promising, and that it is his confirmed belief that the district will rival the Klondike. This view is held by many others.

The mining outlook for the territory is bright, and miners are much more contented than at any time since the discovery of gold in 1896. Eight to ten thousand men are expected to go into the new diggings this season.

MR. MORLEY'S AMENDMENT

Will Start Fiscal Fight Whether Balfour is Present or Not.

London, Feb. 4.—John Morley, an announced today in the House of Commons his definite intention to introduce Feb. 8 his fiscal amendment to the address in reply to the speech from the throne, even if Premier Balfour is absent.

Previous to this announcement Home Secretary Aker-Douglas, in behalf of the Government, said he was willing to give facilities for an adequate discussion of the fiscal question, if the amendment was withdrawn. But a storm of protests which issued from the Opposition benches decided Mr. Morley to carry out his original plan.

RECTOR INDUCTED.

Windsor, Ont., Feb. 4.—The formal induction of Rev. A. F. P. Chadwick as rector of All Saints' Church took place last evening in the church. Dean Davis, of London, performed the ceremony in the presence of a large number of the adherents of the church.

WANTS TRIAL BY JURY

Two More in Court in Connection With Ballot Frauds.

Toronto, Feb. 4.—The charges against Abraham Cahoon, D. R. O., and Thomas Kern, poll clerk at ward 5, poll 2, in connection with the municipal election frauds, were taken up in the police court this morning. Mr. Robbette, for the accused, pleaded not guilty, and asked for trial by jury. Mr. Curry, for the prosecution, produced the ballots and stubs and showed that in several cases the ballots seemed to have been torn off in bundles. Cahoon and Kern were committed for trial and allowed out on bail \$500 each, \$300 personal and \$200 in two securities. Ald. Frank Woods went to jail for Kern. The cases against the two Laktons, two Grants and two Gianellis will be taken up this afternoon.

FRIENDS GAVE CUTICLE

4,500 Pieces of Skin Grafted on the Body of Scalded Man.

New York, Feb. 4.—Wilson Frederick, of Dunellen, N. J., whose friend probably saved his life by contributing 4,500 pieces of cuticle to be grafted on his scalded body after he had been burnt in a wreck nearly a year ago at Westfield when many persons were killed, is stated to have received \$45,000 from the railroad company as compensation for his injuries. Although he was the holder of a pass which stipulated that the company was to be exempt from damages in the event of his receiving injuries, it was contended that the contract would not be considered valid in the courts. The case did not reach the courts, however. Frederick was chief clerk in the New York office of an express company and was traveling on an employee's pass. The skin-grafting operations were successful, but he has only recently been able to leave the hospital and is still confined to his home.

MYSTERY CLEARED UP

Mrs. Maybrick in a Convalescent Home—To Be Released.

London, Feb. 4.—Replying to a question in the House of Commons today, Home Secretary Aker-Douglas confirmed the reports that Mrs. Florence Maybrick had been removed from Aylesbury prison to a convalescent home, and that she would be allowed her freedom, and said that she had been granted a license under the penal servitude acts.

"In accordance with the wishes of the authorities of the home and with Mrs. Maybrick's own earnest desire, which is, I think, entitled to consideration," added Mr. Aker-Douglas, "I do not propose to make public any further details as to the time or place of her release."

THE FEARLESS LILY

Mrs. Langry, Facing Death Gives a Toasts and Faints.

Salt Lake, Feb. 4.—While her private car was off the track and bumping along at a frightful rate, Mrs. Lily Langry held on the tea table and pledged this toast to the frightened members of her company, who were being knocked down like tennis balls by the swaying car:

"Here's to the one who keeps the coolest head."

After running down a steep grade for a quarter of a mile the train was stopped. Mrs. Langry, who had been thrown against the side of the car, fainted when the danger was over. The car left the track near Terrace, Utah.

ST. JOHN DRY DOCK.

St. John, N. B., Feb. 4.—Tenders for building the St. John drydock closed yesterday afternoon. Seven have been received, two from the United States and five from Canada. They have not yet been considered, and the awarding of the contract will have to await approval of dock plans by the city council. The plans are now before that body.

HALIFAX EXPRESS GOES DOWN BANK

Two Persons Dead and Over Twenty Injured.

CONDUCTOR OF TRAIN KILLED

Accident Thought to Have Been Caused by Rail Breaking—List of the Injured.

Halifax, N. S., Feb. 4.—The fast C. P. R. express, which left Halifax for Boston and Montreal at 8:20 yesterday morning, was wrecked near Milford, 40 miles from Halifax. Every person, except one, was injured. Twenty persons were dead—Mrs. John Glassey, wife of a wealthy wine merchant of Halifax, and Conductor Robt. Duncan, Halifax.

All the six cars of a heavy vestibuled train were derailed, went over the bank, and are piled in heaps of debris. One of the passenger cars rolled down the embankment, and is half submerged in the river alongside. Twenty persons were injured, and some of them badly, it is believed.

Inspector Hudd, of the C. P. R.; Frank Demille, of the Canadian Bank of Commerce, and H. W. Wickwire, both of Halifax, who were booked for Winnipeg, are severely injured. A bridal couple aboard were also seriously injured.

Most of the passengers injured were in the second and first-class coaches, although the sleeper was also badly wrecked.

Relief trains with wrecking crews and corps of doctors have been sent from Halifax and Truro, and the injured and dead will be brought to the hospitals in this city.

The cause of the wreck was unknown, but it is believed to be due to the spreading of the rails, a result of last night's severe storm. The engine passed safely over, and did not leave the rails. The telegraphic wires along the track were cut down as the cars plunged over the bank and details of the accident are, therefore, difficult to obtain.

Great confusion prevailed after the wreck, and before the injured were extricated from the mass of debris it was feared that the death list was much larger.

The injured—William Hiclie, Halifax; James S. MacDonald, Halifax; W. H. Haldimand, Montreal; James E. Blair, brakeman; Mr. Ridout, Dartmouth; E. J. Hadd, Halifax; C. P. R. car inspector; W. H. Wickwire, Halifax; F. W. Dewillis, Halifax, of the Canadian Commerce steam; N. K. Keith, Peddigree, John Bedford; Frank Hely, Halifax, brakeman; Mrs. Pysch, Halifax; Mrs. Morrison, Halifax; Miss Morrison, the daughter of the above; Miss Ethel Bentley, Halifax; Mr. Williams and wife, George F. Bissett, St. John; Mr. Trotter, J. P. Antigonish; F. W. Mars, Toronto; Frank Nurbak, St. John, express messenger; Napier Karlin, an immigrant en route to Detroit, Minn.; Mrs. C. G. Kelly, an immigrant, en route to Chicago; Mrs. A. B. Vance, Halifax; Mrs. A. H. Hadd, Halifax; Mrs. J. H. Therford, Halifax; Peter Kelly, Halifax, brakeman; James Simmons (colored), porter. Five Italians, names unknown, cut and bruised by the wreck, and one of the Canadian express men, who was mangled by an intercoliar, were also injured, and would not have come under contract of the Canadian Pacific until it reached St. John.

WOMEN DRINKS A QUART OF MEDICINE AND GOES INSANE

New York, Feb. 4.—A dispatch to the Press from Derby, Conn., says: As the result of drinking a quart of patent catarrh medicine, Mrs. Mary Healy, of this place, has been violently insane for four days. To get quick results she drank the medicine all at once. In two hours she was raving, screaming and tearing out handfuls of hair. When locked in her room by her boarding mistress she kicked out the windows and smashed the furniture. Doctors have worked three days without improving her condition.

Doctors say her reason has been permanently destroyed.

DRIVEN OUT OF ZION

Two of Dowie's Musicians Expelled by the Acting Overseer.

Chicago, Feb. 4.—Following the expulsion from Zion City last week of a deacon and a man detected reading a Sunday newspaper, two more expulsions were made today. Because it is alleged he made eyes at the organist, Miss Mason, Mr. Rice, the head director of Zion, was ordered to leave as quickly as possible, and the organist was also notified that her presence was no longer desired in the town. Accordingly both musicians are now preparing to move.

This action by the acting overseer is declared by Zionites generally, will not meet with favor from Dowie, because of his personal interest in the two musicians. Miss Mason was one of Dowie's proteges, and he thought of her as a daughter. With Miss Ware, the soloist of the big white-robed choir, she sent her to England a few years ago, and paid all the expenses for her musical education. Mr. Rice has been with Dowie many years, and it was he who made the white-robed choir of 500 famous. Rice has a wife and eight children.

TRANSPORTATION COMMISSION.

Montreal, Feb. 4.—The board of trade desires that Montreal commerce present a petition before the Government transportation commission, when the commission assembles in this city for the purpose of securing views and has appointed a committee to confer with the Chambre de Commerce and the shipping federation, with the object of securing a joint memorandum.

CHINAMEN NEEDED

Lord Milner on the South African Labor Situation. London, Feb. 4. — A blue book on South Africa, issued yesterday, contains a pessimistic dispatch from Lord Milner, British High Commissioner in South Africa, in which, referring to the Transvaal, he expresses his approval of the introduction of Chinese labor. Lord Milner says he realizes the gravity of the situation, but there is not the shadow of a doubt in his mind that the depression in business is increasing daily, the revenues are falling off, many people are out of work, and unless the situation changes, a great exodus of whites is inevitable.

IT BORDERS ON THE MIRACULOUS

WHAT DODD'S KIDNEY PILLS DID FOR JOSEPH BROWN. He Was Paralyzed in Every Limb—Doctors Gave Him Up—Dodd's Kidney Pills Cured Him Completely and Permanently. Oshawa, Ont., Feb. 3. — The story of Joseph Brown, of this place, borders so close on the miraculous that people would scarce believe it were it not substantiated in every particular. Mr. Brown tells the story himself as follows: "I was taken ill with what some of the doctors called Paralysis and others Nervous Prostration. The trouble commenced by a stiffness and soreness in the calves of my legs and gradually increased till I could not move my arms or legs, having lost all power in them. I couldn't have raised my arms to my head to save my life. For over four months I couldn't walk alone a single step. "I doctored with many doctors, and was for four months in Toronto General Hospital. All was in vain, I only got worse. Twelve doctors there told me I couldn't recover. "In this extremity and as I was turning man grasping at a straw I bought Dodd's Kidney Pills. The first box took the numbness out of my fingers. Continuing their use in two months I could walk a little. I used twelve boxes when I was cured. That is five years ago and I have not had the slightest symptom of trouble since."

JAPAN'S PRINCE PRIDE OF NATION

Future Mikado an Alert Young Man of Democratic Tastes. HE NEVER ACCEPTS A GIFT

Chafes Under the Restraint of Etiquette and Objects to Official Attendants. Tokyo, Feb. 4. — The crown prince is a slim, nervous, alert young man of 24 years, and at Nikko, where he spends his summers, one may meet him any day in temple, avenues, and village streets, walking briskly away from his followers. When at the seashore palace of Numadzu or at Hayama he goes about as freely and democratically, the restless, active young figure in white flannel or gray tweed always far in advance of the suite which constantly attends him.

A civil officer and a military officer walk with or nearest to him; attendants with wraps, umbrellas, camp chairs, picnic baskets, cameras, sketching materials, and what not of outdoor country life follow as best they can. There is always a doctor in close attendance upon the crown prince, and this watchful care in every detail of life and the country living have brought the nervous, restless young prince the health he now enjoys. The crown prince kept certain noble households at Nikko in constant trepidation for some seasons by his unexpected visits at all hours; for, with the rigid etiquette hedging round an imperial visit, there were many desperate quarters hours on hot, sleepy summer afternoons when host or hostess, napping in negligence, had been told that the crown prince had entered the gate, was at the door, with fifteen of the suite coming in sight. A trace was made finally that he should give a half hour's warning before a visit. The prince never accepts anything to eat or drink in any house that he may thus honor the rate of his service. The suite may accept, and they generally need restoratives when the strenuous young man has been out almost a day for a few minutes in any of his daily country walks. He chafes under the restraints of etiquette and protests vainly at this or that, but he never seeks fresh air on winged foot. No asthmatic could live a week in his service. The Emperor has four daughters, all younger than the crown prince, and they, too, live away from the parental palace in the charge of their own guardians. The eldest daughter, now 15 years of age, was credited in a foreign newspaper with having been married in marriage for the crown prince of Siam, but nothing of that is talked of or admitted by any of the court circles.

ENGINEER WAS INSIDE

Imprisoned in His Engine While Fireman Starts Fire. Peru, Ind., Feb. 4. — Fred Smith, of Peru, for many years an engineer on the eastern division of the Wabash, was yesterday imprisoned in his engine while a fireman started a fire.

Peru, Ind., Feb. 4. — Fred Smith, of Peru, for many years an engineer on the eastern division of the Wabash, was yesterday imprisoned in his engine while a fireman started a fire. The boiler maker who had been working on the engine had been out almost a day for a few minutes in any of his daily country walks. He chafes under the restraints of etiquette and protests vainly at this or that, but he never seeks fresh air on winged foot. No asthmatic could live a week in his service.

The village decorates in honor of the crown prince's arrival and departure, and the little blue and white streets cleared for them and the sacred trail of fresh yellow sand spread for their passage also. They went away at 6 o'clock one morning, and the flags were out, the villagers there in lines, bowing low as the little figures in palanquins came by the whirled by, and the long line of attendants rattled after them down the stony road to the river bank. Court etiquette in its blase habitus is oriental to the European way has not had to deal with the problems of young princesses, their marriages, but soon the eldest, Princess Tsune, will have to be considered.

The Emperor's Haru, while a dainty little woman, of delicate constitution, leads a life of great activity in good works and from the routine ceremonies that falls to her. While the Emperor and Empress give audiences separately to distinguished visitors in the country, all who are presented to the one meet the other, and in the absence of illness of the Emperor, the Empress does the honors of the court.

She is actively interested in the peepers and other schools in the Cross Society, its Tokio Hospital, and in other hospitals for relieving the sufferings of her people. She attends school commencement, bestows diplomas on accomplished peepers and on graduating nurses, goes to concerts in aid of charity, and buys largely at charity bazaars, and always attends exhibitions of the arts, the sciences, the wood and lacquer artists of the capital, and the artists of dress and personal ornaments are always below the estimate, those for charities, for the encouragement and approval of artists, those for the state, and in this way the accounts balance.

CLAIMS AGAINST ELGIN LOAN CO.

Decision of Unusual Interest Given at Osgoode Hall by Justice Meredith. Toronto, Feb. 4. — A decision which will be of interest to persons having claims against companies in liquidation was given yesterday morning by Mr. Justice Meredith in the action for redemption brought by Mrs. Duncombe, wife of Mr. Tyrrell H. Duncombe, druggist, of St. Thomas, against the liquidators of the Elgin Loan and Savings Company. His lordship held that the mortgage given by Mrs. Duncombe for \$5,000 to the Elgin Loan Company, and brought an action to redeem on payment of the amount still due, which she alleged to be \$3,000. She claims that shortly before the failure of the company, she had paid off \$2,000, and had not yet received from Mr. George Rowley, then manager of the company. An order was made by Judge Hughes staying Mrs. Duncombe's action on the ground that it should have been first referred to the official referee. This order was set aside by Chief Justice Meredith on application of Mrs. Duncombe's counsel, and permission given to continue her action in the high court for redemption.

Lingering Coughs Severe Chest Colds

BRONCHITIS, WHOOPING COUGH, CROUP AND ASTHMA YIELD PROMPTLY TO DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE. The sales of Dr. Chase's Syrup of Linseed and Turpentine during 1903 were over 40 per cent larger than in 1902. This means that nearly half as much again was used. Can there be better proof of the merit of this great family medicine? It is undoubtedly the far-reaching effect of this preparation that makes it so popular. People soon find out that it is far more than a mere temporary relief and that it can be absolutely depended on in serious and severe cases of throat and lung trouble. Mrs. J. Provost, Renfrew Ont., states: "My 14-year-old boy had a very severe cold in the chest last winter and I really thought he was going to die. He coughed nearly all the time and sometimes would spit up blood. We had about given up all hopes of his recovery when I heard of Dr. Chase's Syrup of Linseed and Turpentine. After using one bottle there was a great change in his condition, and I can positively say that he was completely cured by two bottles and has not been troubled since. I never saw medicine take such quick effect and can sincerely recommend it." Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, family size (three times as much) 60 cents, at all dealers, or Edmondson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.

OPPOSE TARIFF REVISION

Dominion Grange Pass Several Important Resolutions. Toronto, Feb. 4. — The Dominion Grange, in session here, has pronounced against any revision of the tariff in the interests of the manufacturers. It endorsed the Pettipiece assessment bill, with slight variations; expressed its opposition to the railway rate, and dealt with other business reported. The election of officers resulted as follows: Henry Grose, Lefroy, master; Thos. McMurchy, Dorset, overseer; Wm. F. W. Fisher, Burlington, secretary; Jas. Fallis, Newbridge, treasurer; John Cowan, Vine, lecturer; William Oke, White, chaplain; Walter Ralston, Lefroy steward; Eben Todd, Lefroy, assistant steward; W. Martin, Innisfil, gatekeeper; A. Primrose, George, E. Fisher, executive committee. A vote of thanks to Jabel Robinson, M. P., the retiring master, for his services in aid of the farmers of the country, was passed. Mr. Robinson was elected an honorary life member of the Grange.

A GREAT TIDAL WAVE

Does Much Damage Along English and French Coasts. London, Feb. 4. — The English Channel has been visited by extraordinary tidal waves for the past two days, and the damage done is considerable. In the Thames Valley, similar reports have been received from the coast of Portugal, where the sea invaded villages, coast towns, wrecking sea walls and doing much damage, while continuous rains have flooded miles of the Thames Valley. Makes "Old Men" Boys Again

Free recipe that restores youthful vitality to men of advanced age. Has had the discoverer without cost. Restores debility, prostatic trouble, emissions, etc., and restores normal nerve-power almost instantly.

FULL DIRECTIONS FOR HOME CURE. Now that they have found a new ingredient that makes it more powerful than formerly, and practically gives the desired effect over night, the

Dr. Knapp Medical Company, of Detroit, the world's greatest authorities on the subject of vitality, have discovered a new man to write them for the free recipe that does this wonderful good, and full directions for home cure, privately at home. There is no man so old that this recipe will not make him feel like a youngster again; and middle-aged men who think their best days are gone will be very much surprised to find for them. It is a blessing indeed to any man who is not as good as he used to be, and whether you are in your twenties or in the sixties the effect will be equally satisfactory and quick.

From those who have used it say, a man can expect the change in less than 24 hours, and a permanent cure in a short time. It cures nervous debility, premature discharge, undeveloped organs, emissions, varicocele, stricture, loss of vision, and restores vitality and cures it permanently to stay cured. It acts directly on the muscular tissue, mucous membranes, nerves and glands, and the effect is a comforting one indeed.

If you can make use of a recipe that brings about such happy results, send your name and address to the Knapp Medical Company, 933 Hill building, Detroit, Mich., and it will be sent you by return mail, together with directions for a private home cure and a descriptive booklet on this subject, all in plain, simple English.

Let there be no delay.

FRAUDS ON MOLSON'S BANK IN SPITE OF BAD WEATHER

Action arising out of the fraud and forgeries of an insurance agent came up at Osgoode Hall, Toronto, by way of appeal by the London Life Assurance Company, of London, Ont., against the judgment of Chief Justice Meredith in favor of the Molsons Bank in the case of the former against the bank. The case involves nearly \$6,000.

The story of the case is that J. F. Niblock, called an assistant superintendent of the insurance company, and its agent in Ottawa, who was afterwards sentenced to Kingston Penitentiary, perpetrated many frauds on the bank. The case involves nearly \$6,000. These checks for the amount of about \$6,000 were cashed by the bank, which, upon the discovery of their forgery, charged the account of the London Assurance Company. These amounts the insurance company failed to reimburse. The judgment of Chief Justice Meredith, which is being appealed against.

More Indecency.

In his North Oxford speeches Gamey promised to make further revelations in the Legislature this week. Yesterday he threw his bomb, but it failed to explode. The speaker was obliged to rebuke him several times for violations of the rules of the House forbidding the repetition of charges against members of the Legislature which the latter have denied and upon which the Legislature has pronounced judgment. It will be permissible for Gamey to bring forward new material bearing on the case if he proceeds in a parliamentary way; and if he cannot discuss the question without violating the decencies of debate he can mount any platform in the country and vilify members of the Government to his heart's content with the assurance of reaching the public ear through the medium of the press. Indeed, his complaint and the complaint of his newspaper organ is that his speeches are too fully reported. Mr. Armstrong reproaches Liberal newspapers for publishing his blackguardly references to an innocent and defenseless woman. If it was possible for him to sink to a lower depth than this he achieved it yesterday by his attack on the editor of the Globe and the Presbyterian Church. Neither religion nor womanhood is sacred to this man.

Gamey's tale of bribery was the concoction of an evil and notoriety-crazed mind, and any further charges he may make will be discredited as soon as uttered. If he knows anything which could add to the force of his story it is likely he would have held it in reserve until now? There is something he might tell but will not tell. He might tell why he stole the leaves of the Crossin cash book and why he falsified the bank deposit slip. If Mr. Gamey would do this he would perform a great public service and do more to clear up the mystery of the money than any other person can do.

A Customs Ruling.

American shipping lines doing a carrying trade between New England ports and the Maritime Provinces have been hit by a ruling of the collector of customs at St. John, N. B., in connection with a shipment of McClary stoves from this city to St. John via Boston in bond. The stoves were carried from Boston to St. John in an American vessel, but the customs ruling is that all goods shipped from any point in Canada to another Canadian point shall be transported in British registered vessels. Evidently some Ontario firms have found it cheaper at times to send goods to the Maritime Provinces via the rail and water route by way of New England than by the Canadian all-rail route. The American railroads and steamship companies which have been getting this traffic will be shut off from it if the ruling of the St. John collector is established. An Associated Press dispatch says that Secretary of the United States Treasury Shaw has been asked to make some agreement with Canada whereby the non-enforcement of the regulation will be brought about. This would be a very opportune occasion for the Canadian Government to call Mr. Shaw's attention to the vexatious ruling of his third assistant in the matter of Canadian exports to the United States. This ruling, as has been pointed out before, requires every consignee of Canadian goods in the United States to make an affidavit before a United States customs collector or customs notary before he can receive his property. There are few customs collectors except on the seaboard and lake front and only a few dozen customs notaries in the United States, so that very great obstacles have been put in the way of the Canadian export trade. It has been injuriously affected since the ruling went into force. Perhaps the United States treasury may be induced to drop some of its irritating customs restrictions when it finds that two can play at the same game.

The campaign in East Lambton is being conducted with vigor. The Liberal candidate, Mr. Charles Jenkins, is a singularly able man and has shown to great advantage on the platform. His record as a public-spirited citizen of Petrolia and a staunch friend of the oil industry, in which he has a large stake, strengthens his candidature in the riding where the oil question is naturally the foremost issue. His opponent, Mr. Armstrong, has had a checkered political career, which cannot have endeared him to intelligent Conservatives. In 1896 he split the Conservative vote by running on the P. A. ticket, and it is somewhat surprising that he should have received the regular nomination of the party after deserting its colors to serve his personal ambition, and bringing about its defeat. There is a conflict of opinion in the oil region over the proposition to reduce the duty on crude oil, which now stands at five cents per gallon. The attempt to make it appear that there is a broad dividing line between the refining and producing interests is unscrupulous. Many of the producers believe a reduction is necessary to the salvation of the refining industry, as the local output of crude oil is decreasing; and there can be no doubt that the producing interests would suffer in sympathy with the refining interests. Other producers claim that a lower duty on crude oil is not so exigent as represented and would inevitably mean a lower price. The present prices, however, are the highest in years, though the duty was reduced by the Liberal Government. This question has been always a vexed one. As Mr. Jenkins has pointed out in his speeches, the oil men had found it difficult to keep the Conservative Government from tinkering with the tariff on oil and putting the industry out of business. Some time ago a committee of the producers agreed that a reduction of 2 1/2 cents per gallon should be made, but this was not acceptable to the refiners. The producers, on the motion of the present Conservative candidate, Mr. Armstrong, then appointed a committee, of which Mr. Jenkins was chairman, to deal with the question. The committee recommended a reduction to two cents, but its report was negated by a vote of 4 to 2 at a meeting of the producers, although they had vested full powers in the committee. Mr. Jenkins has a right to complain of the conduct of his opponent in this matter. Mr. Armstrong after moving to empower the committee to deal with the question, has tried to make political capital out of its report. Rumors have been circulated hinting at underhand work by the refining interests, the object being to prejudice Mr. Jenkins' candidature among a section of the producers. Mr. Jenkins is independent of private influence and in a position to do justice to the best interests of his constituency. East Lambton will do well to send so powerful and able a champion to present its case before Parliament. It can have no quarrel with the Laurier Government, which has treated the oil industry with the most careful consideration.

Gamey's remark that he is glad he doesn't belong to the Presbyterian Church is no doubt reciprocated by that denomination. It is said Mr. J. Pierpont Morgan will take up his residence in England. The Yankee millions he would spend there would go to swell British imports and add to the "unfavorable" balance of trade. Poor old England!

General Woodford, of New York, is the latest washbuckler who predicts that the stars and stripes will float from the Gulf of Mexico to the Arctic Ocean. Gently, general, gently, Canada is a different proposition from Colombia.

Gamey attacks the Government for not giving Ontario a Normal School. His leader three or four years ago attacked the Government for giving London a Normal School, on the ground that no more "teacher factories" were needed.

It is understood the new railway commission will appoint an expert railway man, whose duty it will be to investigate all railway accidents involving loss of life, and report on the causes with a view to remedial legislation. The idea is to be commended. A coroner's jury has no means of probing into the facts, and its verdict is seldom followed up.

The United States consular service has an excellent representative in Colonel Culver, of this city. Mr. Culver is a keen observer. His reports cover a wide range of information; they are excellently written, they are just to this country, and are very instructive to the American people. They are quoted extensively in the American press, and the other day were commented upon by one of the great London dailies. Colonel Culver has won the good will of this community in an unusual degree and citizens will be sorry to see him go if the fortunes of war should turn against his party.

It has been injuriously affected since the ruling went into force. THE PIRATES. (Woodstock Sentinel-Review.) North Oxford was flooded with these professional campaigners, under the direction of a man with the blackest record, the father of the whole school of Canadian corruptionists, members of which have unfortunately from time to time made their appearance in the Liberal as well as in the Conservative ranks. The leaders who employed these men, it should also be remembered, were those who devoted practically all their addresses to the electors in this and other ridings to denouncing their opponents as steeped in electoral infamy.

HOW TO SPANK A BOY. (Chicago Record-Herald.) How to "spank" a boy is a pedagogical problem which, like the "split infinitive," has never been satisfactorily settled. Discussions of the problem in teachers' conventions reveals an amazing diversity of opinion. No two teachers, apparently, hold the same theory. They are not even agreed that a boy should be spanked at all. But, showing that there are times when a boy needs a spanking, it is well to know how it may be done physiologically and effectively. In making a plan to the school board for the re-

PAIN IN LOST LEG

Port Jervis, Feb. 2. - Irving Cox had a leg cut off by a train just before the holidays, and the leg was placed in the receiving vault of the cemetery. A few days ago Cox complained to his wife that there was something hurting his severed leg. He became so nervous that members of his family went to the receiving vault, opened the box containing the severed leg and removed a bit of frozen sand. Although Cox did not know that this had been done it is said that the instant the sand was removed the pain in the leg disappeared and he returned to his home happy and free from the annoyance.

Mad Carver Was Brief, but in It He Derailed Two Cars. Middleton, N. Y., Feb. 4. - Edward Mad Carver, a plumber, ran into the roundhouse of the New York, Susquehanna and Western Railroad at midnight, jumped upon an engine and started it down the track. Engineer Charles Spitzer and Hostler Alexander Flower were on either side of it. Mad Carver, wearing a pair of shoes and the other thawing, got the engine with a steam hose, when the locomotive started. It moved across the yard and over the West Sixth street, where they were thrown from the track. The engineer and hostler gave chase and overtook the engine at the occupied. Shaw cannot explain his mad deed. He was held for examination on Saturday.

Foreigners Throughout Korea in a State of Great Panic. St. Petersburg, Feb. 4. - Advice received from Korea says that the feeling of panic is general there, and that depression prevails at all the seaports, where eventual massacres of foreigners are expected. The Europeans are preparing to send their families to Shanghai. Evacuation from Japan, it is added, conveys to Korea many Japanese officers and soldiers in disguise, and their presence in such numbers is regarded with horror by the Russians as being a secret occupation of Korea. Sixty doctors have left St. Petersburg during the last few days for Harbin, Manchuria.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. As mercury will surely destroy the sense of smell and completely derange the whole system when entering through mucous surfaces. Such articles should be avoided. It is better to use a reliable Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is perfectly safe, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally, and made in the United States. F. J. Cheney & Co., Testimonials free. Sold by druggists. Price, 75c per bottle. Beware of cheap imitations.

RAILWAYS AND STORMS. Newspapers and people who are kicking up such a row about railway trains not running on schedule time during the past few weeks seem to forget the fact that this is not, perhaps the coldest and stormiest winter ever experienced since railways began to run in Canada. There have been many heavy snowfalls and a sign of thaw to remove the accumulation, with the result that there is a greater depth of snow on the ground than has been seen for many years. In some parts of Western Ontario, a depth of from five to nine feet of snow is reported. The wonder is that under such circumstances trains are able to get through at all. The Grand Trunk service has come in for, what seems to us, uncalled-for criticism. The officials of the line are always anxious to give the best and most regular service possible, and as far as the east-end division between Toronto and Montreal is concerned, have done very well, considering the unprecedented difficulties in the way of the service. They have had to contend with people who have become so accustomed during recent years to luxuriously equipped trains running sharp on schedule time, that when under adverse conditions, such as have prevailed this winter, there is sometimes a little wait at the point of embarkation or delay in reaching their destination, they become unreasonable critics, and the officials of the railway, who are doing the best they can, are often most unjustly blamed. The railway companies have nothing to gain by not running sharp on time, but from the way some people talk one would think they were keeping the trains late on purpose. If for nothing else, it is worth while to investigate the matter, and to find out if they are doing as well as they are being said to be. Their neighbors across the line on the other side of the water, being into New York, Boston and other places. There for some time trains have been running from one to ten hours late, and the passenger service is practically tied up. And the American railways have not half the snow nor nearly the extreme degree of cold to contend with that the lines in Canada have.—Brookville Recorder, Jan. 23.

DO NOT DELAY.—When through debilitated digestive organs, poison finds its way into the blood, the prime consideration is to get the poison out as rapidly and as thoroughly as possible. Delay may mean disaster. Parmelee's Vegetable Pills will not only remove the poison, but also cleanse the system, and assist the organs to get back to normal. They never fail. They go at once to the seat of the trouble and work a permanent cure.

AMHERSTBURG'S COUNCIL. Electors May Be Called Upon to Choose Brand New Outfit. Amherstburg, Ont., Feb. 4. - From the present outlook the electors of Amherstburg may be called upon soon to choose a new outfit of municipal legislators from mayor to aldermen. An action will be brought before the Judge before to unseat every member plus one for an infringement of the municipal statutes for having, contrary to the provision of the municipal act, voted in favor of borrowing more than 20 per cent of the amount levied in the previous year for current expenses.

RADIUM CURES PHTHISIS. Doctors Experimenting With Radio Salts at Sanitarium. Middletown, N. Y., Feb. 4. - Radium is being used at the Liberty Sanitarium for the cure of tuberculosis. Drs. J. Edward Stubbart and Howard E. Deady went to New York on Monday and got a large quantity of the substance known as radio-salts. They have employed it on tuberculosis patients. It is expected to kill the bacilli of the disease. It has been used with success in cases of cancer, and there is good reason to believe that it will have the same effect on tuberculosis.

HORRORS HAUNT BOY. Youthful Mind Sees Again the Terrors of Kishineff. Cincinnati, Feb. 4.—To one, at least, the Kishineff massacre last May will never be a "closed incident." He is 9-year-old Isaac Cohen, at present the ward of the Jewish Foster Home on West Sixth street.

CURSE OF DRINK. CURED BY COLONIAL REMEDY. No taste. No odor. Can be given in glasses of water, tea or coffee, without patient's knowledge. Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, a "tippler," social drinker or drunkard, impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

OLIVER TYPEWRITER. The Standard Visible Writer.

With his mother and a younger brother he came to this country a refugee from Kishineff some months ago. During the massacre of last May the family of young Cohen lived in the district most harassed by the Russian rioters, and while they managed to survive the two days of horror to remain under cover they witnessed the most horrifying scenes enacted by their enemies.

Upon the impressionable mind of the child what he saw and heard during the forty-eight hours of the most awful suspense has been indelibly fixed. Haunted by these sights, to him they are still a living reality, and even in his waking hours he will stop in his play to point, with every evidence of fear, to objects and persons existing in his imagination alone. Since he was placed in the Foster Home some days ago the attendants there have been attempting to free the child of his gruesome fears, but have had him in the hallucination that a figure clad in white follows him, writing his early doom upon the walls. He is suspicious of strangers, and will flee at the approach of any one who is unknown to him.

Vera's Love Affair

"I shouldn't wonder if I looked like a skeleton," says Griseida, blinking her eyes to keep back the tears, "after all I have gone through. I have fretted myself to fiddle-strings. Oh, you ought to be so sorry and I am never to speak to you again, never to see you—that is part of my orders—so you must go away at once. If you were caught here, I should think of what would happen. Oh— with a sudden, frightened glance towards the house, "go, and don't come back. I hope you will not come back upon the way."

RAILWAY BLOCKADE PREVENTED LISTOWEL REACHING LONDON

Junior Hockey Game Accordingly Had To Be Postponed.

Klondike Wins Class "A" Event for Fourth Time at Matinee.

Galt Carriers Win Ontario Tankard—London Bankers Hockey Team Takes a Game at Ingersoll.

The blockade of the Grand Trunk line between Starford and Listowel made it impossible for the Listowel junior hockey team to reach the city last night for the championship game scheduled with the Horions, of this city. The Listowels had chartered a special train for the occasion, and expected to be accompanied by 200 or more of their supporters from the town to the north. However, when the train reached Starford, however, it is doubtful if they would have succeeded in getting as far as London, as the Starford branch and the main line were blocked by the snow. The game will be played tomorrow night, when the city league games scheduled for that time will be postponed until Wednesday.

Western curlers will be glad to hear of the success achieved by the Ontario tankard matches by the two trunks from the Galt Granites. Galt met the Collingwood Club in the semi-finals on Wednesday and had a walkover, the score standing 20 in favor of the westerners, leaving Galt to play off for the championship trophy with the Caledonians. The finals were played yesterday at Toronto, when Galt defeated the Toronto Club by six shots, thus getting possession of the prize for another year. The score was as follows:

The stormy weather of yesterday afternoon was not conducive to a large attendance at the weekly matinee races of the London Driving Club, held at Queen's Park. The horsemen and their fast horses were out, just the same, and some good sport was enjoyed.

Yesterday saw Klondike win the class A event for the fourth time, and the horse will now take a rest until the final race for the silver cup. Horsemen who are attending the races look upon Klondike as the champion of the season, despite the appearance of a new horse called Sheik Indrum, brought from the States, and who some appear to think will beat the London horse. The new comer will start at the races on Wednesday next in class B, and the outcome will be watched with interest. Yesterday's winners were:

he is inclined to do with a smooth shoe. Otherwise there is nothing peculiar about the shoeing of the former record holder, unless it is the general leveling up, which is necessary when shoes are being shined up for his feet.

Lou Dillon, the trotting queen, wore six-ounce plain shoes in front and three-ounce wedge shoes behind when she traveled the first mile ever trotted in two minutes. The wedge shoes have helped the mare materially. They have a sharp corrugation encircling the outside, which cuts into the turf and prevents the animal from slipping when going at top speed.

Dan Patch wears seven-ounce plain shoes in front and five-ounce shoes behind. John A. McKerron has as heavy shoes in front as any of the champions, the plain forefeet weighing eight ounces. The stallion wears four-ounce wedge shoes behind. Joe Patchen at his best wore eight-ounce bars in front and three-ounce wedge shoes behind. Alix was the only trotter who wore plain shoes in front and behind. The former weighed eight ounces and the latter four.

END OF GAME IN DETROIT. Detroit, Mich., Feb. 3.—As the result of a conference held by Police Commissioner Fowle and Mayor Maybury today, it is likely an announcement will be made that all prize fights or boxing contests of any kind will hereafter be prohibited in Detroit. Two recent knockouts are responsible for the action.

Tonight Mayor Maybury sent a notice to Police Commissioner Fowle, requesting him to suspend all permits for boxing exhibitions until further notice. Last night's fight between Joe Gans and Mike Ward, and the two other fights, O'Grady, of Buffalo, by Noah Brusso, together with the heavy betting last night, occasioned the order.

WOODS' FAIR

That quiet wedding have come in vogue again was attested on Wednesday afternoon when Dr. W. A. Gill, the popular veterinary surgeon of the village, was united in marriage to Miss Bertha Shaw, one of the most prominent young ladies of the community. The ceremony was performed by Rev. J. Veale at the Methodist parsonage in the presence of a few intimate friends of the principals. The bride was neatly habited in a traveling costume of hussar blue cloth, trimmed with white satin, and presented a picture of loveliness and grace. After the ceremony the happy couple departed on the 5 o'clock train for Hamilton and Buffalo amid many congratulations and much rice, which a large number of friends showered upon them at the depot. An appropriate reception will be held in honor of the young couple on Saturday evening at the home of the bride's parents.

Could Not Lie On Her Left Side.

WAS TROUBLED WITH PAIN IN HER HEART FOR SIX YEARS.

Expected Her Friends Would Find Her Dead.

Mrs. C. Bondreau, Campbellton, N.B., was completely cured by MILBURN'S Heart and Nerve Pills.

She tells of her experience in the following letter: "I was troubled with a pain in my heart and weakness for six years. Most of the time I could not lie on my left side. I consulted a doctor but got no relief and was completely discouraged. I did not think I would live long and expected my friends to find me dead. I bought a box of Milburn's Heart and Nerve Pills and I took them as directed, not thinking they would do me any good. I had not used half the box when I commenced to feel myself getting better. By the time I had taken two boxes I was completely cured and can recommend them to all sufferers from heart trouble."

STORY OF A STRANGE CAREER
TOLD AT LAST NIGHT'S INQUEST

Interesting Testimony of Mrs. Taylor Regarding Her Mother's History.

A story of a strange career was told by Mrs. Taylor, of Grand Rapids, who the inquiry into the death of her mother, Mrs. Mary A. Ball, was resumed last night at the police station. The late Mrs. Ball, it will be remembered, was found frozen to death at her home on Elizabeth street on Sunday, Jan. 24. Dr. MacLaren is the coroner who is conducting the inquest, and it took until 11 o'clock to examine three witnesses, and an adjournment being made until next Tuesday night.

Mrs. Ida Taylor, of Grand Rapids, daughter of Mrs. Ball, testified that her last visit to her mother was in October, 1903. The deceased had supported herself at one time by writing, and last spring had told witness of receiving \$25 for one play. During the past year deceased had told fortunes. She had no private income, but always said she had plenty of money. Of her own accord, the deceased, witness having paid off the second mortgage. The last seven or eight years deceased had kept adding to her savings, and she had been of a very independent nature, but witness had noticed no reference in her mental condition, one of her delusions had been that the neighbors were moving in the posts around her property. She asked her mother to leave the place and go to Grand Rapids to live with her, or just stay until the cold weather set in. The deceased, witness had no impression on her. Deceased had told witness she had plenty of money. To a juror, witness admitted that she had seen her mother with a very large amount of money, but she had not enough mind to take care of her property. Force was not used to make her leave. Deceased had been concealed in her clothing when witness was here last spring. Witness had sent her mother money and was sure she had fuel and cash. On her last visit witness had not only refused this, but offered witness money. Witness had found \$1 25 in old and dirty 45 cent pieces in the house since her mother's death.

The letters witness received every two weeks were affectionate, and she was a native of Ireland and 57 years of age, or 16 years older than her daughter. The deceased had married into a rich family, and witness' father's people did not recognize her. Deceased had been sensitive to this and it preyed on her mind to unbalance her mind. Witness' father died about 23 years ago, and after that her mother moved to Detroit, and witness was placed in the Orphan's Home. Her mother then traveled for a year or two. It was before she left London that the deceased had been in the property on Elizabeth Street. Deceased had then tried to get a settlement with her husband's people, but they refused. Witness, who was a Presbyterian, but her mother was a Roman Catholic. Witness, who had been deserted by her mother, was sent from the property on Elizabeth Street in London. Witness, though but 11 years of age, did not live with her mother, but went out to work, at least about her property for some years. The only change witness had noticed in her mother was that within the last few years she had become very careless about her person. Deceased had nursed in wealthy families in Detroit, Saginaw and other cities in years gone by.

The daughter's testimony was given with much sequence and took an hour and a half. Then Mr. Joseph Rogers was taken care of by the police last night. This morning he told the court he had been living with a brother, who was arrested at 135 James Street north, Hamilton. He was remanded for a week.

WHEAT DELIVERIES SHORT
Local Mills Feel Effect of Blockade On Railways.

Hunt Bros. May Find It Necessary to Close Down. — The Railways.

If the snow blockade on the railways continues much longer it may be necessary for Hunt's flour mills to close down for a few days. The firm have about 10,000 bushels of wheat bought at Goderich, but owing to the blockade on the Buffalo and Goderich line, their supplies have been materially reduced since the heavy storms and cold weather set in. Last night the firm thought closing down was certain, as three carloads of wheat which they had secured from the Guelph Milling Company of Guelph, had not been delivered them by the Grand Trunk, and there was practically no wheat at the mills to get through. These three carloads had been stalled here for some days, owing to the blockade, and had been handed over to the Hunt mills by the Guelph people.

The Grand Trunk were doing everything possible to deliver the grain, but the weather blocked all their efforts. However, early this morning one car was got down to Hunt Bros. siding and the others will follow shortly, so that the mills will be kept running for a few days at least, even should the snow blockade continue. But if the present weather conditions hold out much longer the mills will be sure to close down, as they need about 1,000 bushels of wheat daily to keep them going.

This morning Mr. J. L. A. Hunt stated that he had no fault to find with the railway company. The weather conditions were wholly to blame and the local officials were doing their best to deliver all shipments to consignees.

FRANCIS CHANTLER'S TRIAL
On the Charge of Receiving Stolen Cattle.

The trial of Francis Chantler, charged with receiving stolen cattle, was opened at the court house before Squire Smyth yesterday afternoon. The witnesses arrived contrary to expectation, hence the change in the plans by which it was intended to have the hearing some days later. The trial began at 2 o'clock, lasting until 6 o'clock today. Crown Attorney Magee appeared for the crown, the witnesses being defended by Messrs. E. D. Meredith and R. M. C. Toohie.

Henry S. Brown, lot 7, concession 17, Carleton, testified to having had three steers, valued at \$50 each stolen from his pasture in October, 1900.

Frederick Parsons, who has been sentenced to three years for stealing the cattle, and who has not yet been taken to the penitentiary, gave evidence against Chantler. His story was that a short time before the theft he was driving past Brown's farm with Chantler, when the latter had said to him that he would pay witness well for the cattle they saw. It was agreed that Parsons should get the assistance of a man named Butler, and that Chantler should take them home. Chantler did not meet the witness, and witness drove the cattle to Chantler's place, arriving at 5:30 o'clock in the morning, where he swore that Chantler paid him \$75 for the three head.

James A. Ballantyne, of Strathroy, gave evidence that, while employed by a liveryman, he drove Parsons to Chantler's place shortly before Parsons went to Carleton Place, and that time told Parsons there was a warrant out for his arrest, and Parsons asked what he had better do about it. Chantler advised him to get out and promised to do his share if there was any settlement.

AN ANNIVERSARY TEA.
The anniversary tea at the Richmond Street Mission the other night was a complete success. After a fine supper the chair was taken by Mr. J. C. Snell. The choir sang well, with solos by Miss Lewis and Mr. Barber, and interesting addresses were given by Rev. Bishop, Going and D. S. Hamilton.

SCHOOL BOARD UNANIMOUS IN ITS SELECTION OF A CHAIRMAN

Mr. E. J. MacRobert Chosen at the Inaugural Meeting.

Messrs. Yates, Hamilton and Fitzgerald Committee Chairmen.

Dr. Ziegler, Who Had Been Mentioned as Candidate for Board Chairmanship Not Nominated.

The greatest surprise which the majority of the school trustees received at the inaugural meeting of the board of education for 1904, held last night, was the failure of Dr. C. H. Ziegler to be placed in nomination for the chairmanship.

Dr. Ziegler had been frequently mentioned as a possible candidate during the past two weeks. In fact, his candidature is said to have been approved of by the Conservative Club executive in preference to that of Mr. E. J. MacRobert, an old and tried member of the board, and an ex-chairman, yet when nominations were called for, the name of Dr. Ziegler was not even mentioned. A minute or more elapsed from the time Mr. MacRobert was nominated, and when no further names were submitted the election was declared unanimous. As late as 4 o'clock in the afternoon it was understood that Dr. Ziegler would remain in the field, hence the surprise of the school trustees when he was not nominated. It is said that had he consented to stand, the vote would have stood 11 to 4 in favor of Mr. MacRobert.

The new chairman referred to the irregular manner in which some of the schools are being dismissed, and said the principals should be given to understand that the rules of the board in this, as in all other matters, must be strictly carried out. The board was urged to fully provide in the estimates for all contingencies.

The board was urged to fully provide in the estimates for all contingencies.

OFFICERS AND CHAIRMEN.
The officers of the board for 1903 were re-elected, as follows:
Secretary—R. M. McElihan.
Treasurer—John Pope.
Solicitor—T. G. Meredith.
Sergeant-at-arms—Harry Merritt.
The striking committee to name the standing committees for the year, comprised Messrs. McCormick, Blackwell, Birtwistle, McLean, and Dr. English, senior members of the board, and they recommended the following committees, which were appointed.
Number one—Messrs. Yates, Teasdale, Hamilton, Gammage, Tillmann, Ziegler and Burdon.
Number two—Messrs. Fitzgerald, McCormick, Blackwell, English, Cousins, McLean and Birtwistle.

NEW MEMBERS OF BOARD OF EDUCATION FOR 1904.

There were none, and Mr. MacRobert was declared elected. Mr. W. T. Hamilton, chairman for 1903, following the custom demanded by statute by casting a ballot for the nominee.

Mr. MacRobert, who was escorted to the chair by his nominator, thanked the board for the honor conferred. He spoke of the importance of the educational system of a live and progressive city like London, the main questions brought before the board of 1903, and some which would probably be considered this year. One of these affected the salaries of teachers, in regard to which Mr. MacRobert said: "Some fourteen years ago the present schedule was adopted in connection with the public schools, and it will be for the board to carefully consider the matter should it present itself. If done at all, it should include the whole staff, as in my opinion no portion of the staff is more important than the other. While every member of the board is desirous of keeping the expenditure in connection with the schools as low as possible, there is no desire to do so at the expense of the teacher. If we have good teachers and good school buildings we must pay for them. A cheap employe of any kind generally turns out to be a dear one in the long run."

Referring to the Collegiate, Mr. MacRobert said, if touched at all, the salaries of the whole staff should be readjusted. In the past, he said, the board had lost some excellent teachers because they were offered more money than London was paying. He did not think it wise policy to permit a tried and satisfactory teacher to leave the employ of the board for the sake of a few dollars.

The report of Principal Radcliffe for January showed 535 pupils on the roll in the Collegiate Institute general course, with an average attendance of 478. The number on the roll in the commercial course was 97, with an average attendance of 86. The total on the roll for the entire school was 642, and the average 564. The enrollment was 23 in advance of January, 1903. Mr. Radcliffe recommended the usual allowance for books, pictures and scientific apparatus.

SALARY QUESTION.
The question of salaries promises to engage the attention of the board for some time this year. The reference made by Dr. Ziegler in the matter, the man will bring it before the finance committee, and in connection with it there will be considered applications from a number of teachers for advances. Guy A. Andrus, C. W. Horton, J. A. Dickinson and W. C. Ferguson, who are asking for a reconsideration of their salaries and Miss Alice C. Kelso, also of the Collegiate staff, is asking that her salary be placed on the same basis as that of the other teachers doing the same grade of work in the institute.

The first assistants to the principals in nine of the schools are also in request of an advance in salary. In their application they called the attention of the trustees to the marked disparity between the salaries of the principals and the first assistants, despite the fact that the courses are nearly identical. It was pointed out that some of the teachers of the grade were not even receiving the maximum salary, \$500.

It takes a big man to eat crow gracefully.

CONSUMPTION CURED
MRS. G. P. McCLUSKY, writing from Salt Lake City, says: "About a year ago I felt very poorly, and was completely worn out with a cough that racked me all to pieces. I had a slight temperature too. I consulted my doctor, who discovered I had tuberculosis of the lungs. He ordered me out to Colorado, where I first heard of Catarrhozone. So many were using it that I bought a large package, and inhaled it probably twenty times a day. It would be impossible for me to tell how much Catarrhozone did for me. In one week it stopped my cough completely, and it was not very long taking every bit of nervousness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed the germs of consumption in my lungs, for I came home in seven months. I am now well, and I feel that Catarrhozone is a marvel, and of the greatest assistance in lung trouble."

MR. E. W. LAMBERT sends the following letter from Rockland, which he hopes will point the way to recovery for many other sufferers: "I was afflicted with tuberculosis of the lungs. My doctor said Catarrhozone is a marvel, and of the greatest assistance in lung trouble."
