FIRST DAY'S CURLING
IN THE BIG BONSPIEL

Club Chaplain Opens the Spiel by Throwing the First
Stone—Large Number of Games Played in the
Grand Challenge and Saskatchewan Cup—Some
Fine Play Witnessed—Drewry Competition Draw

Play in the big bonspiel started
yesterday morning and, intense spectators
throughout the day, continuing up
to 1:30 o'clock this morning. Some
delay occurred at the start, owing to
difficulty in getting the ice in the
rink, but at 10 o'clock the
was in readiness and a large crowd
of curlers and intense spectators
gathered in the curling rink to watch
the chaplain of the Branch, Rev. E.
A. Henry, throw the first stone.
Three curlers, Mr. Henry, who
appeared to have "been there before,"
and with the ice lined on either side
with enthusiastic curlers to the
number of over a hundred, threw
down his stone, which was assisted
on its way by the vigorous sweeping
of the part of those present on the
ice that did not at that stage of the
proceedings need sweeping. Well
down the centre of the sheet
speed, the stone and curling
safely over the fatal fog-
line, landed amid loud cheering al-
most in the centre of the house.
Three hearty cheers were accorded
the chaplain for his auspicious open-
ing of the spiel, and immediately
play began. The ice in the
sheets of ice in the skating and curl-
ing rinks.
Play in the morning and also in
the afternoon was confined solely
to the Challenge Cup competition,
the Saskatchewan Cup play commencing
with the 1 o'clock draw.
Throughout the entire day play was
confined to these two competitions,
which by midnight were very satisfac-
torily advanced. The ice in the
curling rink was in splendid condi-
tion, that in the skating rink was
being quite so good. Though it
was expected that by this afternoon that
too will have been made altogether
satisfactory. Play on the whole was
interesting, one or two games especial-
ly attracting the attention of the on-
lookers.
About the closest game of the day
was that between the rink of For-
quapelle and H. O. Partridge of
Sintaluta in the Grand Challenge,
who led at the seventh end, but
points each an extra end going to
the doctor 2 points and the game.
Another game in which much inter-
est was shown was that between
Hicks, Napina and Williams of Re-
gina, in the Grand Challenge also. At
one stage of the game, when Hicks
led by 10 points, he looked like being
an easy win for Williams, but the
eleventh and twelfth ends were
played in such a way that the two
rinks were in a dead heat at the
end of the twelfth by one point. Yet
another close and interesting game
in the Grand Challenge was that
between McCarthy, Regina and Mac-
Caul, of Indian Head, in which, with
MacCaul leading at the end of the
eleventh and 13 to 12, McCarthy fin-
ally drew out winner with one to
spare, by scoring 2 in the last end.
Hicks' Napina rink, which, with
the exception of one player, is the
same as did so well at last year's bon-
spiel, has not up to the present been
very successful, having been defeated
in the Grand Challenge by William-
son, 11-10, and in the Saskatchewan
Cup by Rodgers, 10-8. Mr. Hicks,
however, is considerably handicapped
by the fact that his stones have just
been sharpened and are far from
being suitable for the very hard ice
which has now the curling rink. To-
day, thanks to the present cold snap,
One of the best games played in
the 1 o'clock draw was that in the
Grand Challenge between McCarthy,
Regina, and Partridge, Sintaluta. At
the end of the eleventh end McCarthy
was three up and the game lock-
ed as good as won, but in the twelfth
end Partridge scored four, thus win-
ning a splendid game by 9-10.
The following is a complete list of
yesterday's game and the scores made
as good as won, but in the twelfth
end Partridge scored four, thus win-
ning a splendid game by 9-10.
REGINA.
McCarthy, 10; Partridge, 11.
SINTALUTA.
McCarthy, 10; Partridge, 11.

Well attended meeting of
interested in rifle shooting held
yesterday evening. It was
decided to form a Provincial Rifle
Association with headquarters at Re-
gina. A large number of well known
names were present and the meeting
was in every way
representative. The chair was taken
by W. M. Williamson, who has
been himself to be deeply in-
terested in all matters connected
with rifle shooting.
A resolution deciding upon the
formation of the association, having
been passed the following executive
was elected:
President—Hon. Walter Scott,
Hon. F. W. G. Haultain, Col. Perry,
R. W. M. P. J. G. Turris,
Vice-Patrons—Hon. Walter Scott,
Hon. F. W. G. Haultain, Col. Perry,
R. W. M. P. J. G. Turris,
Secretary—Frank Haultain,
Executive Committee—Insp.
Knight, R.N.W.M.P.; Staff Sergt.
Ayres, R.N.W.M.P.; St. W. And-
erson, J. G. Coffey, A. D. Miller and the
captains of all affiliated clubs.
While no definite date was fixed
upon the general opinion was in
favor of holding a provincial rifle
meeting at the second or third
week in July, and although no final
decision was arrived at, it is prob-
able that the meeting will be held
at the R.N.W.M.P. rifle range at the
barracks.

EASY WIN FOR QU'APPELLE

Defeats Grenfell 10 to 4 in a Clean
Game.
(Special Despatch to The Leader.)
QU'APPELLE, Sask., Jan. 15.—The
Hockey League game between
Grenfell and Qu'Appelle here tonight
was an easy win for the home team.
Grenfell failed to wake up in the first
half, and did little checking in the
second half. The shots going wide in
the second half the visitors got down
to play, and, though winning four
goals, could not recover lost ground.
The score when the game was over
was ten to four in favor of Qu'Appelle.
From the spectators' standpoint it
was a poor exhibition of hockey,
though clean.

FIRE AT EDMONTON

Chisholm Hook Was Gilted—Total
Loss Will Be \$50,000.
(Special Despatch to The Leader.)
EDMONTON, Jan. 15.—A serious
fire raged last night in the Chisholm
Block, a three story structure, on
Jasper avenue. The building was
gutted, but the firemen worked like
heroes despite the cold weather. T.
Oscar Brown Co., wholesale fruit,
and Williams Bros., grocery, were
heavy losers. The occupants of the
upper floors lost everything. The
total loss will be \$50,000.

RHODES SCHOLARSHIP
FOR SASKATCHEWAN

Dr. Parkin, Organizing Representa-
tive, Is Endeavoring to Arrange
Scholarship for This Province.

ST. JOHN, N. B., Jan. 15.—Dr.
George R. Parkin, organizing repre-
sentative of the Rhodes Scholar-
ship Trust, is in Regina in a very
connected with the Rhodes scholar-
ships to be awarded in the present
year. Dr. Parkin is endeavoring to
arrange a new scholarship for the
province of Saskatchewan. In this move
he is backed by the other trustees
in a few years there will be 27 Cana-
dians at Oxford under the Rhodes
scholarship. At present there are 24
from Canada, 18 from Australia, 17
from South Africa, 14 from New
Zealand, 13 from the United States
and 11 from Germany.
Speaking of the reports that the
United States students were not mak-
ing as much progress as the colonial
students, Dr. Parkin pointed out that
previous education was more at vari-
ance with the Oxford system than
the colonial system. America has
him that in many cases the abest
men had not been sent to the old
country, as the benefits to be derived
from an Oxford education were not
fully appreciated, especially in the
western states. The students who
have made the best records so far are
from Australia, New Zealand and
Canada.
Dr. Parkin is preparing a register
in which the names of all the
Rhodes scholars will be kept. The
men will be asked to supply informa-
tion about their work before entering
Oxford, and from that time until
their death a complete record of each
man's career will be kept, so that the
benefits of these scholarships may be
ascertained.
Another scheme on foot is to have
the Rhodes scholars established fellow-
ships for graduates whom they think
deserving, which will allow the suc-
cessful men a year of study and travel
in the best educational centres.
Dr. Parkin has talked this matter
over with the students, and says they
have enthusiastically taken up the
idea.

OPEN SWITCH CAUSED
A DISASTROUS WRECK

Passenger Train, Running at Full
Speed, Crashes Into Freight.
Three Trainsmen Killed.

(Associated Press Dispatch.)
KANSAS CITY, Jan. 15.—Two
trainmen are known to be dead, an-
other is believed to be dead, and a fourth is probably fa-
tally injured, and several passengers
were slightly injured in a wreck at
Waldron, Mo., last night, caused by
a head-on collision between a Rock
Island passenger train and a freight
train. The freight train was con-
tinued on their journey. The freight
train had orders to wait for the pas-
senger at Waldron, but the switch-
man there had left the switch open,
and the passenger, running at full
speed, rushed into the freight train.
Both engines were demolished, and
two of the passenger coaches were
derailed and ditched.

SHOEMAKER SUICIDES

Alexander Gordon, of Winnipeg,
Found Dead by His Son.

(Special Despatch to The Leader.)
WINNIPEG, Jan. 15.—Alexander
Gordon, shoemaker, of 233 McNeil
street, committed suicide shortly
after 1 o'clock today. He was
found by his son lying in the back
of the shop, his shorts flying across his
face. The full discharge from the
gun had entered his heart. The body
was removed to Gardner & Co.'s un-
der-taking rooms. Deceased was well
known in the city, being an old-
timer. He had been drinking heavily.

20,000 BUSHELS OF
WHEAT WERE BURNED

R. J. Hart's Elevator Was Destroyed
at Boissevain—C. P. R. Car
Also Destroyed.
(Special Despatch to The Leader.)
BOISSEVAIN, Jan. 15.—Fire
which broke out this morning de-
stroyed the elevator of R. J. Hart's
elevator, containing a loss of nearly
\$25,000. About 20,000 bushels of
wheat were stored in the elevator. A
car belonging to the C. P. R. was to-
tally destroyed and another was bad-
ly damaged. The elevator was located
on the C. P. R. tracks opposite the
Ryan street.

CHINA'S INTENSE DESIRE

In China, where ten years ago the
ruling classes were bitterly anti-
foreign and anti-Christian, they are
thriving with such an intense de-
sire for the Gospel that they are ap-
plying for Christian teachers and in
the city of Peking 120 students have
been accepted for the Christian Uni-
versity going to the streets and
preaching to their neighbors the Gos-
pel of Christ. One of the best in-
formed men on the missionary problem
has reported that if he can win one
million literati to Christianity, the
Gospel will be heard of "young
India" and old religions are steadily
waning before the tide of Chris-
tianity.

GOVERNMENT PROVIDES
FOR ITS EMPLOYEES

Will Contribute \$100,000 Yearly to
Pension Fund for Men Employed
on Government Railroads.
OTTAWA, Jan. 15.—Sir Wilfrid
Laurier informed Mr. Borden in the
House today that he has received the
resignation of Mr. Hyman for his seat
in London in the House of Common.
The resignation was introduced by Sir
Wilfrid Laurier and Mr. Lemieux.
Hon. H. R. Emmerson, in moving
the House into committee to provide
the necessary money to certain employ-
ees of the I.C.R. and Prince Ed-
ward Island Railway and to author-
ize a contribution from the Govern-
ment to the fund out of the gross
earnings of the railways, an amount
not exceeding \$100,000, said that
the subject was one which had been
under the consideration of the Govern-
ment in one shape or another for
many years.
It had the support of the men and
the railways. The men will lay aside
one and one half per cent. of their
monthly wages to the fund. All the
employees of the I.C.R. and the Gov-
ernment railways will have to con-
tribute this amount. There were at
present in the employment of the
Government railways men who had
exceeded the four score year limit.
They were employed on the Nova
Scotia and European and North Amer-
ican Railways in New Brunswick.
It had been said that the I. C. R.
had too many employees. It had less
than the Canadian Pacific Railway.
There was on the Canadian Pacific
Railway an average of 4.2
employees per mile, on the G.T.R.
1.5 per mile, and on Government rail-
ways, 4.65 per mile, a little higher
than the C.P.R., and a good deal less
than the G.T.R.
Hon. John Haggart said there was
a good deal to be said against re-
moving old employees. The fund
would benefit the men who were per-
mitted to work. What the propo-
sition of the minister meant was
that the pay of the railway em-
ployees be increased 1 1/2 per cent.
Mr. R. L. Borden criticized the action
of the Government in now supporting
pension schemes when they were
formerly against them.

COUNCIL AGREE TO GRANT
GAS PLANT FRANCHISE

Solicitor to Draw Up Necessary By-law—Hon. F. W.
G. Haultain Appointed City Solicitor—Ald. Wil-
kinson's Warehouse Track Under Discussion—
Contract Let for Exhibition Grounds Amphitheatre

AMPHITHEATRE CONTRACT LET

A report of the Markets Com-
mittee, which was brought in by Ald.
Kramer, was presented to the council
last night. The building as it was
present was quite worthless to him.
Ald. Wright suggested that that
part of the report dealing with Ald.
Wilkinson's proposed siding should
be referred back to the committee
for further consideration, and this
Ald. Gillespie said he was prepared
to agree to. Eventually this was
agreed to, the portion of the report
dealing with the appropriation being
close passed.

CITY SOLICITOR

Upon Ald. L. T. McDonald moving
the third reading of the by-law ap-
pointing the firm of Haultain &
Crosby as city solicitors, Ald. Gillespie
moved an amendment that the firm
name of Haultain & Crosby be struck
out and the name of F. W. G. Haultain
be put in its place. Ald. Gillespie
maintained that under the city
charter the council had no choice but
to appoint a solicitor. Ald. Wright
He had been given to believe that
Mr. Haultain would accept the ap-
pointment and would be prepared to
attend the council and look after
the city's interests where required.

WAREHOUSE TRACK

Ald. Gillespie, chairman of the
Board of Works, introduced a report
recommending that Ald. Wilkinson
and the Mayor vote together in
connection with his warehouse on
block 200 and further that an in-
terest-free loan of \$5,000 be
made for the purpose of purchasing
ground in preparation for the work
of the coming spring.

EXECUTIONER WAS MASKED

Identity of Man Who Hanged Macri at Winnipeg
Yesterday Remains a Secret—Feet of Murderer
Touched Ground After Drop, But Fall Broke Neck

PROTECTED HIS INNOCENCE

He confessed his past misdeeds to
his spiritual advisers. Nothing was
said to Macri this morning about the
crime, and as he stolidly denied all
knowledge of the death of Romanoff,
he really died protesting his inno-
cence. He said from the first that
he was drunk, and if he killed his friend
he had no knowledge of the act.
Macri had been very despondent
since his sentence, but yesterday and
this morning his attitude changed,
and he calmly and patiently awaited
his doom.
The fall was nine feet. The rope
was a trifle long, and the feet touch-
ed the ground as the body fell, caused
by the knot slipping to the back of
the neck, but the neck was broken
within a few minutes. The last words
of Macri on the scaffold were in his
native tongue, "Santa Maria, Madre
Dio, pregate per me peccatore, adere-
ne for a notra morte. Coi Ris-
petti in English means, "Holy Mary,
Mother of God, pray for me, as I
am now and at the hour of our death,
Amen."

CITY AND COUNTRY

(From Thursday's Morning Leader.)

—Miss Bertha Young and Miss Duncan left on Tuesday evening to resume their studies at college in Toronto.

—Kenneth Perry, son of Commissioner and Mrs. Perry, returned to Montreal, after spending Christmas holidays with his parents here. Mr. Perry is attending McGill University.

—The management of the Park Sanatorium, recently located on Angus street (north) by Drs. Johnstone and Cullum, have prepared a scheme whereby for the sum of \$12 per year they will guarantee to every holder of one of the Sanatorium's guarantees the full benefits which hospitals provide, viz., nursing, board and hospital accommodations, every patient, however, being responsible for his own medical doctor's attendances and medicines. The Sanatorium management is also prepared to make special arrangements with the employees of large local concerns whereby they can obtain the benefits of the Sanatorium by the payment of \$1 per month.

From Friday Morning's Leader, —Geo. W. Brown left last night for Holstein, Ont., on a brief visit to his father.

—Frederic Scott is making good progress towards recovery. He is gaining in strength daily and is now considered out of danger, though it will be several weeks yet before he will be able to leave his room.

—Owing to undue exuberance in the Lamadowne Hotel last evening after the hockey match on the part of a Moose Jaw rooster, who showed a disposition to tear up the hotel register and trifle with the host, the mysteries of self-defence, Constable Sample found it necessary to conduct a too boisterous rooster and his companion to the lock-up, being assisted in the task by Messrs. Dutt and Sam. Paul.

From Saturday Morning's Leader, —J. W. Cram, Assistant Government Printer, has returned from the East.

—W. M. Martin returned yesterday morning from Calgary, where he had been in connection with the appeal to the High Court for a new trial in the Gilbert murder case.

—Invitations will shortly be issued for the annual R.N.W.M.P. ball, which will be held at the Barracks on the evening of Thursday, the 24th inst.

(From Monday's Morning Leader.) —The injured man Campbell, who fell from the new Northern Bank building on Friday and is now confined to the hospital, was stated last evening to be doing as well as could be expected.

—A message was received here from Ottawa Saturday stating that Gilbert, who is in the jail here under sentence of death, has been reprieved until February 22. The court en banc at Calgary gave judgment, refusing to grant the defence a reserved case.

—Included in the list of recent large subscriptions to the Y.M.C.A. published in the magazine of the association for January are three of \$5,000 each contributed by Regina citizens to the proposed new institution in this city, viz., P. McAra, Jr., \$5,000; Jas. Balfour, \$5,000, and McCullum, Hill & Co., \$5,000.

—The partnership hitherto existing between J. H. Boyle and S. E. Dutt, trading as J. H. Boyle & Co., has been dissolved. Mr. Boyle has taken office in the new Black Block, on Hamilton street, where he will continue to conduct his real estate business.

DISEASE MADE BONES SNAP LIKE GLASS

Frank L. Wellington has died at his home in Trinity Avenue, New York, the victim of a disease which caused his bones to snap like glass. One day while holding a strap in a street car his arm snapped off. A short time later a leg bone snapped. According to his physician this terrible condition was brought about by taking medicine which contained a certain mineral poison.

Again and again has it been demonstrated that mineral medicines are harmful. It is a disease which while so effective for all liver and digestive disorders, yet contain no trace of any mineral, but are, on the contrary, purely herbal, that they have won the praise of medical men, trained nurses, and scientists all the world over. Bileams differ from pretty nearly every other liver medicine in containing no mercury, and from pretty nearly every other stomach medicine in being free from the stomach. They are also free from alcohol. They are compounded from the most known medicinal herbs and roots, and are thus the best family medicine that can be obtained. They operate gently on the bowels, curing constipation and piles. They correct acidity of the stomach, stimulate the digestion, tone up the liver, and correct the secretion of bile. Their general action is at the same time corrective and tonic—correcting faulty secretion, toning up weak and debilitated organs. They thus cure anemia, green sickness, female ailments and irregularities, blood impurities, rheumatism, etc. For influenza, headache, gas, pain in the chest and between the shoulders they are also very effective. In curing constipation they do not cause after-castigation, nor do they ever cause griping. Mothers will find them beneficial in the many ills which afflict their children. All druggists sell Bileams at 25c each a box, or they may be obtained post free from the Bileam Co., Toronto, on receipt of price. For \$3.50 a parcel of six boxes will be mailed. This is the most economical form by far.

From Wednesday Morning's Leader

—V. Perry, who for some time past has been working with the Western Manufacturing Co., has left for England on a long visit.

—A presentation was made on Monday by the members of the staff of the Bank of Montreal to David Stewart, who has been a member of the staff of the Regina branch for some little time, but who has now been transferred to another branch.

ITALIAN RAN AMUCK (Associated Press Dispatch.)

NEW YORK, Jan. 15.—An Italian made a circuit of several blocks in the vicinity of Btoker, Sullivan, MacDougall and Third streets late last night, shooting at everybody that he encountered as he ran. "Chick" Tucker, a featherweight pugilist, was shot in the mouth and seriously wounded. The man fired at two policemen several times, but the shots went wild. He was finally subdued and locked up in a police station. The police believe the man is insane.

NOTICE

The Annual meeting of the Regina Grain Growers' Association will be held in the Oddell's Hall, Smith & Ferguson Block, on FRIDAY, JAN. 18th at 2 p.m. WALTER SIMPSON, 8-9-d, President.

GOODS OF QUALITY

You can always make a good meal with Clark's Canned Meats. Ready to eat when the tin is opened.

FOR SALE—Six good milk cows and nine head of young stock. Apply Box 588, Regina. 47-500

Our Deposit Account System

Regina Jan. 14th, 1907

Dear Sir, or Madam,—

Have you heard of our Deposit Account System? This system of doing business has grown to such an extent that one of our staff gives their whole attention to it.

It is better than depositing money in a bank. We allow you more interest.

We send you an itemized account of goods purchased so that you can keep perfect check on the account.

We sell you goods cheaper than a credit house can afford to do.

It is altogether the best and most modern system of trading. Scores of others have adopted it, why not you?

If you are interested in saving money on your trading kindly call at our office and we will be pleased to discuss full particulars of the system with you.

Yours respectfully, The Regina Trading Co., Ltd.

GENERAL PAYLOFF SHOT BY ASSASSIN

Murderer, Who Was Disguised as Military Clerk, Captured, After Exciting Chase.

ST. PETERSBURG, Jan. 9.—Lieut. General Vladimir Pavloff, military procurator or advocate general, generally known since the late parliament as "Hangman" Pavloff, from the epithet constantly applied to him by the Radical deputies, was shot and killed at 10 o'clock this morning, while walking in the garden of the chief military court building, near the Molka canal.

The assassin, who apparently was disguised as a workman, was captured after a long chase through the city streets, during which he shot about 40 shots from two revolvers and accidentally wounded a number of bystanders.

General Pavloff was prominent in the sitting of the last parliament in answering interpellations. He especially exercised the revolutionists. The allegation has been made that he delayed the reprieve of a number of the Baltic mutineers who had been convicted by drumhead court martial, until the men were executed.

From the nature of the wounds it appeared that the steel jacketed bullets were flattened in order that they might inflict more serious wounds. Hastily slipping another city cartridge into his revolver and drawing a second weapon, the assassin ran across the garden to the carriage entrance, threatened the porter with his pistols, and dashed down Glinka street past the Imperial Opera House, with a crowd of thirty porters and other attendants in close pursuit.

In a Class by Itself

It is quite true FERROL is an emulsion of Cod Liver Oil and a particularly good one at that. But it combines iron and Phosphorus with the Oil, and these are just what are needed to make the emulsion perfect and they are just what all other emulsions lack.

FERROL

Unique because it contains Iron and Phosphorus with Cod Liver Oil. Pleasant to take and easy to digest. It is the record for increasing the weight of infants from the use of 25¢ (50¢ lbs. from the use of 25¢).

BRI DGE BUILDING UNDER DIFFICULTIES

Cold Weather and Scarcity of Stone Has Impeded Progress of Saskatoon Structure.

SASKATOON, Jan. 9.—Saskatoon's bridge is to be completed in a few days, and it has been built under difficulties. The scarcity of stone and the coldness of the weather have greatly impeded progress.

The section of concrete piers during such cold weather as has been experienced in Saskatoon recently is not pleasant occupation for the men engaged, while for the contractor it is not only costly but the work requires much more careful supervision all its details to assure a perfect job.

ACROSS CANADA IN THREE YEARS

A Remarkable Trip Made Mostly on Foot by an English Lecturer.

VANCOUVER, Jan. 9.—A walking geography of Canada arrived recently in Vancouver in the person of Mr. Haywood, a fellow traveler of the Geographical Society of London, and lecturer with Canada as his subject.

To master his subject Mr. Haywood has traveled from Halifax to the terminal city by daylight, the tour having taken him three years. He has traveled thousands of miles by rail, steamer and stage, also many hundreds of miles on foot, visiting large and small centers, new and old settlements, farm and mining districts, lumber camps, industrial centers, places that would afford him an opportunity of obtaining particulars respecting the resources of the country.

Mr. Haywood's aim has been to thoroughly know the country, from Atlantic to Pacific, its resources, its population, its products, and general resources; its cities and towns, and what they are noted for, so that he may make use of such knowledge during his lecture tours round the world. The views, with which his lectures are to be illustrated, will show the beauty spots that are of note and interest, besides streets, views, cities, parks, rivers, waterfalls, public institutions, and such scenes as would be an inducement to travelers and tourists generally to visit.

He also desires to induce travelers from Bombay, Madras, Ceylon, Calcutta, Australia and New Zealand to the Canadian continent in visiting England, so that they may become acquainted with Canada, its people, and the many picturesque spots that are to be seen from Vancouver to Halifax. His lectures will also be given in the United States.

A FORGERY CHARGE

Two Fashionably Dressed and Pretty Women Arrested in Toronto.

TORONTO, Jan. 9.—After obtaining evidence a week, two pretty and fashionably dressed young women were arrested through the cleverness of a grocery clerk and will have to answer charges of attempting to obtain money by means of forged checks. They give their names as Grace Cameron, nineteen years of age, no address, and Ruth Wilson, twenty-three years of age, of the Lafayette Hotel, Buffalo.

The former girl admitted several forgeries in Toronto, the sums ranging as high as \$40, but Ruth Wilson would tell little concerning herself. The arrest came about in a most peculiar manner. Shortly after eight o'clock a phone message came to H. Cowell's grocery store, 17 Howard Street, the speaking representing herself to be Mrs. (Dr.) Winnet, 525 Sherbourne Street, and asking that he would transact the business, and it was agreed that a maid should get the money. Shortly after nine o'clock the girl came to the store and Grace Cameron entered with a cheque. The grocer called up Dr. Winnet, who stated that no such check had been signed, and he asked that the girl be detained, as several forgeries had been committed with her name. However, the girl was suspicious, and quickly she ran back to the cab. It was rapidly driven along the street, but was followed by the grocer's clerk. Upon coming to the corner of St. Andrew's and Spadina P. C. Jeffers ordered the driver to stop upon information being given by the clerk. The police department had been notified and Detectives Tipton and Kennedy made the arrest.

Part of the girls' story was learned when the prisoners were confronted with a long list of charges at the detective department. The Cameron girl admitted having forged the names of many prominent city people. Her narrative of her life during the last few months when she lived at the best hotels was startling, and she used in telling it the names of many well known citizens. She said she had been a domestic in this city before taking to forging cheques. Her aunt, Mrs. Elizabeth Shaw, lives at 45 Emery Street, Attlebury, Mass. In the possession of the pair was a bedroom key of the Hotel Royal, Toronto. They stated that they had just come from there yesterday.

ELEVATOR FALLS IN COUNTY JAIL

Two Deputy Sheriffs and Eight Prisoners Have Narrow Escape—Slayer Injured.

MINNEAPOLIS, Jan. 10.—Eight prisoners and two deputy sheriffs narrowly escaped death this morning when a jail elevator fell to the basement, carrying with it a load of prisoners who were in the court room, where their cases were to be set for trial.

John A. Quirk, slayer of William A. Dowell, was the passenger who was seriously hurt. He was taken to the jail hospital, while the certain extent of his injuries. A result of the accident, Quirk's case, which was to be set for trial by Judge Fred V. Brown, was postponed.

The elevator fell at 10:15 a.m. Jailor Nels Clausen, accompanied by Deputy Sheriff Mattson, had taken one elevator carload of prisoners from the jail to the second floor, and had returned for a second load. They took on John Quirk, James Ryan, Jerry Mace, Mike Bjorklund, George Conrad, Charles Smith and William D. Compton, all prisoners awaiting trial.

CORDIAL INVITATION

Addressed to Working Girls. Mile. Robitaille Tells How Mrs. Pinkham's Advice Helped Working Girls.

Girls who work are particularly susceptible to such ailments as colds, influenza, and other ailments, especially those who are obliged to stand on their feet for long hours in stores or factories.

Overwork and long hours at the office, the long hours of the night, and very serious female trouble until finally it was unable to go to work. Then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was and straightway sent out for a bottle. I finished that and took two more before I really began to improve, but after that recovery was very rapid and I was soon well and able to go back to work as usual. I think your medicine for sick women worthy of praise and am indeed glad to endorse it.

MADE INFANT DRUNK TO KEEP IT QUIET

Father "Doped" His Two-Year-Old Girl With Wine Before Starting on Journey.

VANCOUVER, Jan. 9.—"Here, you bring that child back. That's my child. D'you hear?" "Order in court!" "Silence there!" "Take the child out."

"Proceed with the case." The case was but a part of the spectacular scene in the Cordova Street court when a father was confronted by his infant child, a girl not two years of age, whom he was accused of having made drunk "just to keep it quiet" on his journey.

SCENE IN CHURCH

Noted Woman Whist Player Renounces Card Games.

DES MOINES, Ia., Jan. 10.—Before a congregation of nearly 1,000 persons, and while the preacher was in the midst of his sermon, Mrs. A. B. Sims, a society woman holding the National Woman's whist championship, arose yesterday morning at the exception of Quirk's case, and denounced card playing as a sin.

NO INVASION IS POSSIBLE BY TUNNEL

Tunnel Under English Channel Would Not Be Dangerous to Great Britain.

LONDON, Jan. 10.—Discussing the proposed tunnel under the English Channel from the military standpoint, Maj.-Gen. Sir Alfred Turner says: "Since 1840 there have been several scares of invasion on the part of France. Of late attention in that respect has been diverted to Germany, and now, in consequence of the revival of the scheme for constructing the Channel tunnel, the pessimists, whom we, as well as the Kaiser, always have with us, are giving vent to the stale old forebodings of an invasion of the rooster through a narrow underground and undersea passage about twenty-two miles long, bored in the bowels of the earth and terminating in an orifice but a few feet in diameter in the vicinity of Dover."

There was very little interest taken in the young man until the Herald published the story of his disappearance, accompanied by his picture, a few days ago. Immediately people all over the West were interested, and this morning's mail brought the following letter from Vancouver, which throws important light on the subject: Vancouver, B.C., Jan. 7, '07. The Daily Herald, Calgary, Alta. Gentlemen—Re enclosing clipping (the article from the Herald), while I cannot be positive about the likeness, yet I would suggest that those interested to the King Edward Hotel, Victoria, B.C., about a young man whom I noticed hanging around that hotelery when a guest last Nov. 1.

At that time I was informed that he was a stranger there, and as he was acting rather strangely he attracted the attention of the writer as well as other guests. Yours, etc. G. A. GALT.

AMENDMENTS MADE TO DUMPING CLAUSE

Binnet Twine to Be Exempt from and Cream Separators Subject to Clause.

OTTAWA, Jan. 10.—The tariff resolutions were taken up today in committee of the whole. The Finance Minister said that there were one or two changes he desired to make to the resolutions, and he was not now making any reference to the terms of the tariff. These changes were not serious. In regard to section 5, page 5, he added: "Such special duty or dumping duty shall not be levied, collected and paid on such articles, although not otherwise dutiable. This was added to the dumping clause."

WANT LOWER-DUTY ON THRESHING OUTFITS

A Deputation of Western Members Waited on Minister of Customs Yesterday.

(Special Dispatch to The Leader.) OTTAWA, Jan. 10.—A large deputation of Western members waited on the Minister of Customs today and asked for a lower duty on threshing outfits, which have been increased rather than decreased, they claim, in the new schedules as they are at present. For instance, the duty on a threshing outfit is 20 per cent., that is, the engine and separator together, but if the separator is brought in by itself the duty will be 25 per cent., and if the engine is brought in separately, the duty will be 27 1/2 per cent.

Indispensable in Winter.

There's a use in every home for GRAY'S SYRUP OF RED SPRUCE GUM

A few doses, at the first sign of a cold, will allay all throat irritations—take away all fever, relieve the inflammation—strengthen the lungs—ward off the cough. All the healing, soothing, curative properties of Canadian Spruce Gum—combined with menthol. Pleasant to take. 25 cts. bottle.

RANCHER RICE CUT SHORT HIS LIFE

His Friends Fear that He Carried Out Threat and Committed Suicide.

CALGARY, Jan. 10.—From latest information received by the Herald and the R.N.W.M.P. officials there is scarcely a doubt that the unfortunate young Englishman, R. H. Rice, who disappeared from Calgary last fall, is dead.

There was very little interest taken in the young man until the Herald published the story of his disappearance, accompanied by his picture, a few days ago. Immediately people all over the West were interested, and this morning's mail brought the following letter from Vancouver, which throws important light on the subject: Vancouver, B.C., Jan. 7, '07. The Daily Herald, Calgary, Alta. Gentlemen—Re enclosing clipping (the article from the Herald), while I cannot be positive about the likeness, yet I would suggest that those interested to the King Edward Hotel, Victoria, B.C., about a young man whom I noticed hanging around that hotelery when a guest last Nov. 1.

At that time I was informed that he was a stranger there, and as he was acting rather strangely he attracted the attention of the writer as well as other guests. Yours, etc. G. A. GALT.

The next information is word from Seattle that a man had been found dead there some time ago whose clothes were marked "Rice." At the time of the recovery of the body there had been no information sent out to the authorities from Calgary and naturally the unfortunate young man was looked upon by the coast officials as one of the numerous unfortunate who constantly drift out there and, from various reasons, are driven to take their own lives. From remarks passed by young Rice shortly before his disappearance from Calgary, he evidently went out to the coast with the intention of ending his life. He is reported to have told James Quigley, of Cochrane, that he feared that he was going insane and that at times he found himself quite out of his mind and that he was going over to the coast and intended to make away with himself. He had a revolver and said that he would use it when he wanted it. Quigley tried to get the weapon away from the unfortunate young man, but he would not give up possession of the firearm.

DR. PRICE'S CREAM Baking Powder

Made from pure, grape cream of tartar

Makes home baking easy. Nothing can be substituted for it in making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry. Insures the food against alum.

PURE, HEALTHFUL, RELIABLE. PRICE BAKING POWDER CO. CHICAGO. NOTE—If mixture called baking powder are offered you at lower price, remember they are mostly made from alum, a metallic and deleterious to health.

MONARCH MALLEABLE RANGES

The World's News

As contained in Special Telegraphic Despatches to THE LEADER

SASKATCHEWAN

DAVIDSON, Sask., Jan. 9.—Gus is a sturdy son of Sweden, homesteading about twelve miles from town. This winter, looking after the farm of an Ontario man who is away from home, he has the use of a fine pony and more than a few dollars in his pocket. Now he proudly displays among his more than a few dollars a beautiful wolf skin measuring over six feet from tip to tip, and a little cut on the lower side shows where the animal received the death blow.

The wolf was strong and swift, and the chase was the most exciting of the season. The two dogs found more than a match in their wild brother, and he beat them off again and again. At last he came to bay in a high dump of bushes and debris.

Gus rode up and took in the situation at a glance. He was watching the fight, and he didn't intend to take a hand in the game.

The wolf was watching every move of the dogs and gave no sign of the dog creeping behind him. One of the hounds leaped for the shaggy throat and the wolf jumped to meet him. Just the chance the dog was watching for, and quick as a flash he drove the sharp blade home to the very heart of the wolf. The dogs gave every expression of delight and even the pony showed that he was interested, as Gus threw the heavy body on his back and started for home.

He is having the skin made into a rug for a friend of his in Regina but the story may not go with the rug as Gus is not likely to tell it.

PRINCE ALBERT, Jan. 9.—Alphonse Turgeon was unanimously chosen Liberal candidate for the riding of the same name. Mr. Turgeon said it was a great personal sacrifice to run for office, but that he must make a sacrifice. Thomas McCloy, who was elected president of the Liberal Association, addressed the convention and Hon. J. H. Lamont, Attorney General, who was cordially received, spoke of the necessity of the re-election of the Liberal Government.

He justified the Liberal land policy, and said that D. W. Bole, M. P., Winnipeg, recently announced in Regina that the Dominion Government intended to throw open all as well as even numbered sections. Mr. Calder also delivered a well-received speech.

Mr. Turgeon is a partner of Mr. Lamont, and is crown prosecutor.

LONDON, Jan. 8.—The Daily Mail correspondent at Teheran, in a telegram sent last night, says the Shah of Persia is dead, though no public announcement will be made until tomorrow.

ROSTER, Jan. 9.—Thursday evening's murder continues to be the main topic discussed in the town streets. Inspector Pemfater, of the R.N.W.M.P., Prince Albert, is conducting an investigation. The police are not making very rapid progress.

The girl, Marie Waurky, now admits being with Michael Kaminsky when she was murdered. She said they were walking together when someone struck Kaminsky from behind. Only one blow was struck, she says, when she ran away. She saw but one man and didn't know him. The police are unable to get much information from her.

Thos. Malone, who was walking through the alley, met two men in a hurry. A short distance from them he met the girl, whom he recognized as Marie Waurky. He couldn't recognize the men again. It is expected that more arrests will follow in the next day or two.

INDIAN HEAD, Jan. 10.—The Royal Grain Commission was in session here yesterday, and some rather sensational evidence was brought out. Several important witnesses were heard. Dr. J. Godfrey stated, under oath, that in October last an offer had been made to him by an elevator operator to the effect that if he being in charge of the public scales, would make a uniform deduction of 5 per cent from the weight of the grain of farmers standing over the scales, a sum of \$100 per month would be guaranteed the witness during the winter. The witness stated that he has since left the neighborhood. Witness believed that the offer had been made without the knowledge of the company which he represented.

NORTH BATTLEFORD, Jan. 11.—

The body of Alex. Crawford, a homesteader, had been found on the prairie. The unfortunate man had frozen to death.

ELLVILLE, Ont., Jan. 11.—Ephraim Rodgers, an old hunter and fisherman who lived by himself near Barber Lake, was burned to death Sunday night. His charred remains were found on Monday morning among the ruins of his home.

CARLYLE, Jan. 11.—The third annual bonspiel of the Carleton Curling Club commenced Jan. 15th, continuing over until the 18th. Four events are down for competition, not including the Grand Aggregate and Points. The cups to be competed for are the Grand Challenge, La Fama, McDonagh and Shea and Consolation. A large number of entries are expected and a highly successful bonspiel is looked for.

PRINCE ALBERT, Jan. 11.—Jan. 11th, the day of the Queen's Hotel, he had been in the city on business, and was in a chair in the sitting-room, when he suddenly fell forward and expired. Apoplexy was the cause of death. Mr. Morton leaves a widow and large family.

ALBERTA

EDMONTON, Jan. 8.—Col. T. D. B. Evans, of Winnipeg, today concluded the purchase of some 140 acres of land here to be used for a rifle range and barracks site. The building to be erected as a barracks will cost somewhere in the neighborhood of \$100,000, and the maintenance of grounds, etc., will cost about \$50,000 annually. It is proposed to establish a permanent quarters here in the near future.

MEDICINE HAT, Jan. 11.—The worst storm of the year has been raging all day at Medicine Hat, and that the blizzard extends as far east as Saskatchewan is evidenced by the fact that no trains for the past six hours. The west end of the Crow's Nest line is in bad shape. Superintendent Jamieson was in Frank yesterday, and announced that the company had not enough coal on hand to do them twenty-four hours. Several trains in the vicinity of Frank are stalled, and the trains sent to their assistance have also become blocked.

The situation in regard to coal is shown by the fact that a number of cars billed to the Canadian American Coal Company at Frank, where the people are short of fuel, were confiscated by the railroad company simply because it was impossible for them to carry fuel to the sufferers until they had enough to keep their engines going.

RED DEER, Jan. 11.—The Municipal Convention passed the following resolution: "The Railway Commission should immediately investigate transportation charges for coal and also coal shortages. The Government of Alberta should immediately investigate the whole system of production of coal, and supply of same, and that the Federal Government should look in future to allocate coal lands to private persons and corporations within the Province of Alberta."

The convention reaffirmed the telephone resolution of last year: That the present rates are exorbitant, and that the Government should own long distance lines and municipalities local systems. It was pointed out that the Government had made a start in building long distance lines. Mayor Gates, of Red Deer, wanted the Hill Co. to be compelled to connect their long distance lines with local systems, and the C. P. R. compelled to give local systems preference to their stations. Other resolutions of the 1906 convention were also read and passed.

BRITISH COLUMBIA

VANCOUVER, B. C., Jan. 9.—William Dallas, a boxer artist, who claims Seattle as his home, tried to do the bad-man act with his gun at Ashcroft a day or two ago, with the result that he will spend a few days in jail. He made his way from Vancouver up the C.P.R. to the Caribou gateway town, and then he pulled the weapon. For a time he was the entire fireworks at Ashcroft, but when he measured his strength with Constable Burr it was seen that there must be stronger men remaining in Seattle. Dallas was quickly and easily convicted. He found Canadian justice so speedy that within a few minutes of his arrest he was on his way to the prison at Kamloops. Dallas was added to the collection in the little blackhouse at Ashcroft. It will be thirty days before Dallas can see Seattle again.

GALT, Ont., Jan. 10.—The first installment of ice on the dam came down yesterday morning. The block and a small flood is now in progress. The breaking up of ice is the earliest in forty-nine years. The mild weather and snow-falls of the last few days are responsible. The cellars of merchants and residents on the South and a few but beyond this street damage was done.

OTTAWA, Jan. 11.—E. H. Moore, lumberman; William Anderson, merchant; Frederick C. Baker, merchant; A. H. Woodman, agent; Prince Albert, Sask., and John H. Lamont, Regina, have been named for the name of "The Prince Rupert Timber and Lumber Company," with a capital of \$1,500,000 and the head office in Ottawa.

PORT ARTHUR, Jan. 11.—Mr. Kennedy, Liberal, who lost seat, has practically decided not to appeal to the case.

Ground for the appeal would be in regard to aliens whose names appeared on the voters' lists, and who had voted for Mr. Preston. It is cited that in a similar case in Perth the judges decided that aliens who had voted were not challenged would have to count. The appeal judges are very similar in the local case, there is little chance of the decision rendered here by the judges being reversed. Mr. Preston left for his home in Port Francis yesterday, but Mr. Kennedy is still here in consultation with his solicitor.

MANITOBA

WINNIPEG, Jan. 9.—This morning, steamers, machinists, boiler-makers and boiler-walkers went on a strike. The men went to work this morning as usual, between 7 and 8 o'clock, but they commenced their respective duties, but about thirty minutes afterwards they decided it was too cold to work in the shops, and the men left in a body, declaring that when the shops were heated they would return to work. There was no disturbance of any kind, the strikers leaving quietly after plainly stating their grievances to the officials.

C. P. R. workmen at the place was not fit to work in, owing to the intense cold. They all claim they cannot be blamed, and it is hoped that matters will be speedily remedied. C. P. R. officials, interviewed with reference to the report that a considerable number of employees had left the workshops this morning owing to the extreme cold, said the difficulty had been made to them.

Morden, Jan. 10.—Judge Locke yesterday sentenced Ernest Clibbey, a young Englishman, to three years in the penitentiary for uttering a cheque which he knew to be a forgery.

A youth named Thomas Dickens was found guilty of stealing forty-seven dollars and appropriating the same to himself, and was sentenced to three months in the penitentiary.

All the roads leading to the town are blocked by the snow, and the farmers are having great difficulty in coming in for supplies. The C.P.R. train on this branch was snowed up near here, and was compelled to put back to town.

WINNIPEG, Jan. 10.—The Winnipeg defeated the Shamrocks yesterday in the Amateur League, with the score of 11 to 7, after his longest game of the season.

KENORA, Jan. 11.—John Stannard, a Free-Englishman, got into an altercation this afternoon in the Ottawa House, and, according to the Ottawa Herald, the latter was called in, but found the deceased had been shot in the chest by Chief Dalgleish and his men, locking the prisoner in a short time and locking him up in the penitentiary.

Since the construction work has been going on, the town has been comparatively free from these extreme acts of violence, thanks to the excellent police service.

WINNIPEG, Jan. 11.—Italians of the city are making another desperate attempt to save Maeri, the murderer, who is doomed to hang on Jan. 11th. E. L. Howell, a lawyer of Ottawa, is going to night to interview the Department of Justice, and endeavor to secure a postponement of the execution. Several pieces of evidence can be secured to prove that the execution of the man is a miscarriage of justice.

WINNIPEG, Jan. 11.—Very deep snow has been aroused among railway men in the city by the evidence reported to have been given before the Royal Grain Commission, to the effect that farmers and other shippers of grain are of the opinion that the position taken by the officials of the railway companies is that evidence so given before the Royal Commission reflects on the integrity and honor of the entire body of their servants and employees. General Superintendent of the Canadian Pacific, expressed great indignation in reference to the kind of evidence which had been given, and reports, been received by the commission, and stated that it was most unfair to the great body of honest employees of the company to permit allegations of so grave a nature to be given to the public, unless the allegations were in every instance specific and proven.

WINNIPEG, Jan. 11.—In an interview here yesterday, Clifford Sitton said, when asked if there was any truth in the report that he would resign the Cabinet, "I never say anything until I have had a chance to see the other side of the question."

ONTARIO

St. Thomas, Jan. 10.—An electrical storm broke over this city this morning. A bolt of lightning struck a flag pole on the Young Women's Christian Association building, causing the roof to fall.

UNITED STATES

Toronto, Jan. 10.—Rev. Jas. H. McCullough, over thirty years rector of St. Thomas church in this city, dropped dead in his study at his home, Albany avenue, yesterday afternoon. Deceased, who was over eighty years of age, was a graduate of Trinity College, Dublin. A widow, two sons and three daughters survive.

PHILADELPHIA, Jan. 9.—Dr. Ernest Laplace, of the staff of the Medico Chirurgical hospital, today performed a remarkable operation upon Richard Wiggins, who was crushed between a wagon and a gate. His back was broken in two places, causing paralysis. The operation consisted in removing fibrous particles of splintered bone which pressed against the spinal cord. It is proposed to insert in the vertebral structure a number of silver plates to take the place of the fractured and splintered vertebrae.

CITY OF MEXICO, Jan. 8.—Detailed reports from Auzama, State of Veracruz, where rioting has attended a strike of textile workers, indicate that there are now in full control to gain the upper hand it was necessary for the troops to fire on the rioters. Thirty persons are reported to be dead and eighty injured.

BOONE, Ia., Jan. 9.—After running wild for several miles at a high speed with the engine out of control, by the blowing out of a "stud" in its boiler, the Chicago & Northwestern fast mail No. 10, was barely saved from destruction near here last night by the heroism of Engineer Louis Shull. Shull was driven from his cab by the scalding vapor and boiling water, and realizing that he couldn't reach the throttle, he climbed over the tender to the express car, and hammered on the door. The express messenger, fearing robbers, refused to open the door, but when he finally opened the door, he aimed two revolvers at Shull's head. The engineer, bleeding and exhausted, dragged his way into the car, and with his remaining strength pulled the rope connecting the air brake and stopped the train.

NEW YORK, Jan. 9.—Although she fell five stories and struck on the stone sidewalk, Lena Kopp, five years old, escaped with a few slight contusions. The child lives on the top floor of a five-story tenement house, when her mother missed her, and looking out of the window, saw her daughter lying on the sidewalk. Her injuries were trivial.

NEW YORK, Jan. 9.—Dr. Julius A. Gottlieb, with an office in 100th St., was arrested on the charge of having sent an infernal machine to his father-in-law, Morris Gluckman, a retired broker. The machine, which inspector Wolf of the Bureau of Combustibles, says was made by an expert, failed to explode when opened by one of Gluckman's daughters, because the battery was weak. The machine was sent by express on New Year's Day. Gottlieb is said to have acknowledged to the police that he sent the machine, but only as a joke. Gluckman says Gottlieb has threatened him and his family for years past.

DES MOINES, Ia., Jan. 10.—Judge John Murray Dowle, of Essex, Iowa, has been confirmed in his post as chief justice of the Iowa Supreme Court by an acknowledgment of his prophet's wife, who has invited him to come to live in the rest of his life in his health home across Lake Michigan from Zion City. This is the home awarded her by the court and the father of the prophet accepted the invitation.

After he was divorced from his wife four years ago, he married a little girl named Rosa. He engaged Mrs. Rosa McCull, a widow, to keep house for him with the understanding that his wife would have his home at his death.

When he was about to leave for Chicago she attached her \$500 in addition to the \$200 he had already paid her. She retains possession of the home and all of the furniture. He is selling his valuable library.

CHICAGO, Jan. 10.—Declaring that her present husband is insane, she has secured a writ of habeas corpus for her husband, who is kept in an asylum; that she interfered with her in the management of her business and that she has lost \$3,000 were missed, Mrs. Elsie Grammer, a wealthy South Side matron, is settled for a husband, retaining Fred W. Grammer from further molesting her.

Mrs. Grammer, who is the owner of a drug business, says that her husband was always around the store "butting in" with the customers and hounding her.

"I could hardly dust the urn containing the ashes of my former husband," said Mrs. Grammer, "without causing a violent discussion with Fred. Several times he wanted to take it and throw it into the street, and it was with difficulty that I restrained him."

CHARLES CITY, Iowa, Jan. 11.—James Cullen, a carpenter, 60 years of age, shot and killed his wife, aged 55, and then his stepson, who heard the cries of the woman, and was trying to save her. So great was the severity of the murder that it made his bloody work the more sure, he plunged the knife into the bodies of both of his victims while they were stretched before him.

Mrs. Cullen was shot but once, but her wound was fatal and there was no chance for her even before the murderer drew his knife. The stepson was shot twice in the chest and in the abdomen, and died.

When the officers were about to arrive Cullen drew his revolver and in a last despairing effort to defeat the officers, fired a bullet at his own head. Only an insignificant wound was made. He was arrested and taken up.

Cullen and his wife were married last evening and kept 800 part of the night after they had gone to bed. It is known that before he arose this morning he had determined to kill his wife and had planned it all out. He says he had no thought of the fact that his wife would interfere, prompted him to shoot his wife down.

MINNEAPOLIS, Jan. 11.—W. B. Chandler, agent for the Soo, says to railroad men that the rush to Canada now on for spring, will more than make up for the present inertia. We know of hundreds who have arranged to go from North Dakota, and thousands will invade the Canadian wheat fields when the snow has disappeared. This movement will start about the last of February, as a majority have already purchased land across the line and are anxious to get on the ground in ample time to prepare for spring sowing.

We have already arranged to take a dozen big parties to Canada Int. They will travel with their household goods and some will even take farm machinery. The Northern Pacific, Soo and the Great Northern are laying in rolling stock and other property in readiness for the spring rush northward, beginning early in March. Many of the trains will be run in two sections in order to take care of the business. Land agents here have secured a harvest this winter by the sale of Canadian land, and are now arranging to transport their customers to the land of promise.

PARIS, Jan. 11.—Count Leo Tolstol has written letters to Paul Sabatier on the Disestablishment of the Church in France, in which the famous Russian author predicts the possible reduction of all the Christian countries of the west to a state of vassalage to the Japanese and other Oriental peoples. He bases his prediction upon the ground that it is only in the Orient that religion and patriotism are synonymous. Count Tolstol says in part: "Religion is truth and goodness, the Church falsehood and evil. I tell you frankly that I cannot agree with those who believe the Church is an organization indispensable to religion."

TOKIO, Jan. 9.—The Official Gazette states that copies of the Japanese Societies Act, Kakumei (Revolution), issued at Berkeley, Cal., have been confiscated, and its circulation in Japan is prohibited. The paper urged the assassination of the Japanese Emperor and President Roosevelt.

FOREIGN

MURDERER'S LAST DAYS.—Maeri Is on the Verge of Utter Exhaustion.

WINNIPEG, Jan. 11.—With absolutely no hope of a commutation of the death sentence, Salvatore Maeri, the Italian now confined in the provincial jail, awaits the fatal morning of Tuesday, Jan. 15, when he will know how it feels to drop from a gibbet.

The official notification that the law must take its course in the case of the condemned man, was received this week from Ottawa by Sheriff Inkster. Preparations have been commenced in the erection of the gallows for the execution of the two Galician murderers, Wasyl Gunzack and Simon Crulky on the morning of Saturday, May 27, 1899.

J. H. Radcliffe, who has practically been the official hangman in Canada for over twenty years, has refused to pull the fatal lever and Governor Lindsay will choose another man to do the gruesome task. The scaffold will be located in the angle formed by the two wings of the jail, and all of the through cells toward the jail door will be opened on three sides, the fourth being open quite close to the door. It is enclosed in a room of the same size as the one that was used for the execution of the two Galician murderers, Wasyl Gunzack and Simon Crulky on the morning of Saturday, May 27, 1899.

Rev. Father Kunkle, assistant to Rev. Father Cordes, of St. Joseph's parish, visited the prisoner yesterday afternoon when the latter stated that he had resigned himself to his fate. He was not directly informed that his chance for life was hopeless, but when the priest begged of him to make his peace with God, he intuitively understood the fate that was awaiting him. In a half reclining posture on his prison couch he repeatedly offered up brief prayers in murmured Italian.

Once in speaking to the priest he murmured in his native tongue: "I cannot understand that I killed one of my friends; I can't remember anything about it."

Unable to read or write the condemned man seemed devoid of anything to distract his attention and the nervous furtive look in his eyes and the frightened expression of his countenance showed with what avowed significance his position forced itself upon him. Just before darkness crept down upon the cell his brother said him a brief visit and in the presence of the guard was allowed to speak a few words in English. The interview lasted only two or three minutes. Once Maeri made reference to his wife and children, a boy and a girl, the latter of whom has been born since his arrest in Canada, and all of whom are now residing in Calakria, in Southern Italy.

The condemned man is said to have arrived in Canada some eight months ago, and during that time has been employed as a laborer. He is said to be the first Italian ever sentenced to death in America on wholly Italian evidence.

Better Underwear

Keep your body warm, yet let your skin breathe. It fits, it fits, it fits. Guaranteed to give you the best underwear.

Trade-marked in red. In a variety of styles, fabrics and prices, for women, men and children, and guaranteed.

AGITATION HURTS RAILROAD BUILDING

Unreasonable Opposition Makes Capital Timid, Says J. J. Hill, in a Newspaper Article.

Unreasonable and unintelligent agitation against all corporate property, especially against railroad corporations, is a reason assigned by James J. Hill in the Brookline Eagle as a reason why railroad building has been reduced to a 2 per cent increase over the previous year.

"Capital is timid," says Mr. Hill. "Men do not want to put their money or more money than they have already in the enterprises that are condemned or opposed."

After Mr. Hill had repeated the substance of what he said on the subject at the St. Paul meeting, he said that the interstate commerce commission in its investigation of the car shortage, he said that six years ago railway extension was at the rate of 4 to 6 per cent a year. Now it is 2 per cent. At the same time, commerce has increased at the rate of 15 per cent.

The result is that the productive capacity of the country is being restricted since the whole measure of the products of agriculture and other industries is being held back by the restriction upon the ground that it is only in the Orient that religion and patriotism are synonymous. Count Tolstol says in part: "Religion is truth and goodness, the Church falsehood and evil. I tell you frankly that I cannot agree with those who believe the Church is an organization indispensable to religion."

"The people have been educated to believe that they are not getting all that is due them in the growth of the country; that something is being taken away from them. Their antagonism to the corporations has been aroused. Their hands are all raised against the interstate commerce commission. It would seem that the wilder the theories advanced the greater the favor with which they are received."

"I make no reference to the interstate commerce commission. As a matter of fact, it is in many respects a positive advantage to the railroad interest of the country. When that commission deals with any phase of the transportation question, the railroads have their day in court. The courts are all right. So the railroads are not to be afraid of the exercises of the powers of the commission. No, that body exercises a wholesome restriction. But it is the mischievous agitation of the uncles created, that makes capital-limits timid about venturing more money in enterprises which may become objects of the hatred of a people. Hence, railroad extension is limited at a time, when, for natural development of the commerce of the country, it is needed."

"So long as the enterprise of transportation is committed to private endeavor it must be worked out through the combination of capital, because individuals will not undertake the burden. Hence the corporate form. These corporations are under a governmental supervision. If the present scheme is not sufficient it can be made so by law. But one that can be bettered by a destruction of real property, and that is what the end of the present agitation must be if it is to be governed or controlled by intelligence."

"Now see how this unreasonable agitation—this persecuting of people takes its toll of the country. In the increase of commerce there is increase in the prosperity of the people. The benefits are clear, even if indirect. By it are made markets for all sorts of commodities, whether those of the products of the forest, the field, the loom or the anvil. It is an unreasoning opposition and antagonism capital is frightened from its natural investment in railroad extension, the check in which operates as a check in growth of commerce and a restriction of production. And in a restriction of production is placed a restriction on the earnings of the people. For, if you cannot get your products to market, of what use is production?"

"But it all comes back to the question of remedies for existing conditions. And that, as I have said, is too large a question, too deep a one and too serious to be exhaustively discussed in the narrow limits of an interview. It is a question for serious thought."

ST. Andrew's College

GEO. MICKLEBOROUGH

ASK FOR SUSPENSION OF ALIEN LABOR ACT

Railroad Contractors Requesting This in Order to Secure Sufficient Number of Men.

MONTREAL, Jan. 10.—Fifty thousand more men will be wanted in Canada this season than last to build the 1,000 miles of railway that will be ordered constructed, and large contractors are now engaged in making representations to the government, asking that the operation of the Alien Labor Act be temporarily suspended or otherwise the men cannot be got and work will suffer. During 1906, from forty to fifty thousand men were engaged; but as the operations this year will be on a much larger scale, it is estimated that fully fifty thousand more men will be required. It is understood here that Sir Wilfrid Laurier and his Ministers have given an attentive hearing to the case as unless the government does something good part of the projected railway construction will be held in abeyance. The G.T.P. alone will want 15,000 men to conduct their summer operations and it is pointed out by a prominent railway conductor that, if the same number of men can be had this year as last, there would be only some fifteen men available for each mile of new track. One suggestion is for the Government to bring in the men and farm them out to contractors to meet emergencies.

BEAR CARRIES GIRL OFF INTO THE WOODS

Brain Dropped the Child, Unharmd, After Carrying Her About 300 Yards.

OLYMPIA, Wash., Jan. 10.—Little Red Riding Hood, Babes in the Woods and similar exciting episodes from child lore will in the future carry a thrill to the eight-year-old daughter of T. W. Egan such as not even the most imaginative children can experience.

In the embrace of a huge bear the little one was carried off into the woods, but the real ghoulish spirit appears to have been hovering night, as the girl is again home and unharmed.

The family lives on a farm five miles southwest of Tumwater. The parents were away at the time, and the girl was with her ten-year-old brother. She went to an open shed near the house for the purpose of getting some potatoes for supper. It was about dusk, and she did not observe the animal, which was at the time prowling about the premises. She was suddenly pounced upon by Bruin, and her scream of fright saw the bear disappear into the woods with his sister in its grasp.

It was not until the parents returned and the boy's story was told that the warning was sounded to the neighbors.

When the news was brought to Tumwater, arrangements were immediately made to organize a posse, and with a pack of dogs scour the country in the vicinity of the Egan home. But before this movement was well under way word was brought that the child had returned, and, most strange of all, was unharmed. According to the child, the bear did not act a bit vicious, but simply carried her about three hundred yards into the woods, where he dropped her and then proceeded on his way.

The girl, though greatly frightened, went to a neighboring rancher's and remained there for a while, after which she was taken home.

PROSECUTION PREPARED FOR THE THAW TRIAL

Will Take But Few Hours to Present Its Case—Queen to Thaw's Sister.

NEW YORK, Jan. 10.—According to an announcement, it is practically settled in the district attorney's office just what would be done by the prosecution in presenting its case against Harry K. Thaw for the murder of Stanford White.

From the prosecution's standpoint, the trial will be a short one. About five witnesses will be examined in presenting the direct case. These witnesses will tell of the shooting and the events that happened on the Madison Square roof garden. It should not take more than a few hours, it is said, for the prosecution to put in its entire direct case. It will be a simple story of the killing, showing that White was shot at the table while watching the performance without any chance of defending himself.

The idea is to have the defence explain the killing.

Unless there is a change in the present plans the crucial part of the trial will come in the rebuttal. For that preparations have been made by the district attorney's office. District Attorney Jerome will have charge of the trial, assisted by Mr. Garvin.

Queen's Sympathy.

NEW YORK, Jan. 10.—A cable dispatch to the World from London says, "Lady Yarnmouth, who was Alice Corbally Thaw, a sister of Henry K. Thaw, has confided herself in almost non-likable seclusion since her brother killed Stanford White.

Suffering her anguish alone, cutting herself off from the society of her friends and the brilliant life to which her position as a peeress entitles her, she has grown thin and lost the pliancy of expression that her friends remember in her. Since the tragedy last June she has not been seen in London, and while at first she politely availed of friends, now she has shut herself up in the Yarnmouth County estate at Park Hill, Salford Priory, with no pretence of meeting them. Queen's Alleviation of her grief was so detached by the evident anguish of the young peeress that she sent a personal message of sympathy to her through Lady Harford, mother of the Earl of Yarnmouth.

It is remarked that she has not been outside the gates of the Priory since the news of the murder was conveyed to her, with the single exception of her trip to Harrogate, where she went in the early fall for her health.

MAN IN SHEET AND MASK SHOTS GIRL

Four Bullets Fired at the Defenseless Occupant of a Lone Farm House.

FERGUS FALLS, Minn., Jan. 10.—Deputy Sheriff Olson was called to the vicinity of Erhard, twelve miles north of here, to investigate the shooting of Millie Thorson, a young woman, who was living alone with her father.

Miss Thorson tells an extraordinary story. Shortly after her father left for town a man, covered with a white sheet and wearing a mask, walked into the house. He asked if she was alone, and she replied in the negative. He then asked where her father was and she said upstairs.

"You lie," replied the stranger and taking a small rifle from under the folds of the sheet he began shooting at her. Four shots were fired, one bullet passing through her arm near her shoulder and another cutting her dress slightly, the other two going wide of the mark. The man then turned and left.

The girl says she got a rifle and fired after him, but failed to hit him. She says the man, wearing a mask, came to the house of a neighbor, fainting from loss of blood just as she reached the doorway.

WHEAT GROWERS WANT SPECIAL TRAINS

Mr. A. L. Porter, of Warman, is Assisting in Starting an Important Movement.

MINNEAPOLIS, Jan. 10.—Movement is being started in Minneapolis to compel the Canadian Pacific to allow the farmers of the British North-West to have a special train service to move wheat in preference to anything else, thus saving forever the trouble experienced the past few months in getting this commodity to market.

Mr. Porter has arrived from Warman, Sask., as one of an advance guard to confer with railroad officials of this country in regard to a movement which will speed through the whole northwest. The plans of the farmers and their representatives are to call upon officials of the Canadian Pacific first as this road is closest to the district which is taking up the movement, and ask them to have a special wheat train run from Warman district Sept. 1 to Feb. 1 each year. Mr. Porter asserts the farmers of North and South Dakota and other wheat-raising districts will probably follow suit and the Great Northern and Northern Pacific will be asked to place special trains at the disposal of the wheat-growers.

HOT METAL POURED OVER STEEL WORKERS

Three Men Dead, Seven Severely Burned and 24 Missing—Only One Escaped.

PITTSBURGH, Jan. 10.—As the result of an explosion of furnaces at the Eliza Furnaces of the Jones & Laughlin steel works last night, three men are known to be dead, seven are in the hospital with serious burns and 24 are missing. The explosion was caused by accumulation of gas about the base of the furnaces, where 35 men were working. Of all these but one man escaped without injury. Without warning, tons of molten metal were poured out over the workmen, covering a space of thirty feet in diameter. The fire department and ambulances were at once called, and the men who escaped with their lives were removed to the hospital. It is feared that the bodies of the others have been consumed under the mass of metal.

KAUTH DID NOT KILL MRS. KUNDY

St. Paul Police Convinced That a Settler Near Regina Is Innocent of Crime.

St. Paul, Minn., Jan. 10.—Nicholas Kauth was not in St. Paul at the time of the murder of Mrs. Kundy. This conclusion the police have now reached. It is based on the positive information from Regina, that Kauth has not left the claim he took up near Regina since he first went out there some months ago. Kauth lived with his sister across the street from the home of Mrs. Kundy. Neighbors' report of having seen Kauth, or a man resembling him, in the vicinity several days before the murder. It is believed the crime was committed by some one familiar with the woman's house. Kauth, at one time, did some paper hanging and painting at the Kundy home, this being accepted as a plausible way in which he could have learned about the interior of the house.

MOONEY'S PERFECTION

Winter makes no change in Mooney's Perfection Cream Soda.

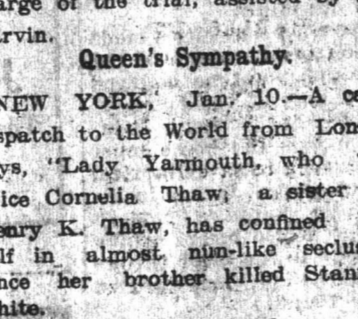

Mooney's private cans bring these dainty beverages to all points throughout the Northwest in order to make sure that you get them fresh and crisp from the cans.

The only firm in Canada operating Private Freight Cars.

THEY DIDN'T MAKE UP.

Lawyers Still Working on the Marlborough Deed of Separation.

LONDON, Jan. 10.—The report that the Marlboroughs had been reconciled is unfounded, as the lawyers for both sides are still working on the deed of separation. It is believed that this arrangement will involve the custody of the children and financial arrangements. As soon as all the arrangements have been completed the Duchess will start for a cruise in the Mediterranean.

Lumberman's Friend

All travellers, and those engaged in outdoor work, should always have a bottle of

Hirst's Pain Exterminator

at hand. It is the most powerful liniment manufactured and gives instant relief in cases of Wrenches, Bruises and Sprains. It also cures Strains, Rheumatism, Neuralgia and all kindred troubles. 25c. at all dealers.

Try Hirst's Little Liver Pills for indigestion and dyspepsia. Ask your dealer or send us 25c. direct. A handsome souvenir card free.

THE F. W. DALRYMPLE CO., Limited
Hamilton, Ont.

Its High Standard of Excellence is the strongest feature of

The New Scale Williams Piano

This great instrument is an entirely new piano—the result of years of evolution in piano-building. It is declared by artists and music-lovers all over Canada to meet every artistic musical requirement.

The Harmonic Tone-Prolonging Bridge

is a distinctive New Scale Williams feature. A brilliant yet mellow and sympathetic tone of wonderful carrying power is procured through the use of this bridge, which is cast in the plate in one solid piece. Results that have been despaired of for years by piano-makers are attained at last through this exclusive New Scale Williams patent.

It Didn't Happen

The enviable position attained by the New Scale Williams in the esteem of particular musical people is not the result of chance. The best brains, highest scientific knowledge and experience and skill of an exceptionally high order have been employed for years in experimenting, testing and discarding until a piano could be produced that would be really great and compare to advantage with other great pianos either in Europe or America.

You will be interested in looking over the many manifest advantages of the New Scale Williams. Call at the nearest dealer or else write direct for booklet and descriptive literature.

THE WILLIAMS PIANO CO. Limited, Oshawa, Ont.

Write Williams Piano Co., Ltd., Oshawa, for copies of illustrated booklet on the history and construction of a Piano, or call at the local warerooms.

THUGS TIE FARMER TO RAILROAD TRACK
Wrenched Himself Free Just as Cleveland-Pittsburg Flyer Thundered Past.

PITTSBURG, Pa., Jan. 14.—After being brutally beaten by highwaymen who also assaulted his son, rendering unconscious, Frank Mason, a Beaver county farmer, was tied to the tracks of the Pennsylvania railroad near Beaver. He escaped being crushed to death by wrenching himself free of his bonds just as the Cleveland-Pittsburg flyer was thundering down upon him.

Mason was driving along a lonely country road preceded a short distance by his son with another team. Two men attacked Mason after his son had passed and demanded his money. Mason was fighting the robbers when his son, mistaking his father, turned back and was almost instantly knocked senseless. The older man, instigated by the treatment of his son, fought harder and was beaten into insensibility with stones. His body was then dragged to the railroad tracks and tied to the rails.

Regaining consciousness, Mason began to struggle to release himself and had almost abandoned himself when he heard the rumbling of the approaching flyer. With the last effort he managed to free himself, crawling from the track just as the headlights of the engine sent a shower of sparks along the rails where he had been lying.

After resting and recovering from a state of collapse, Mason reached a farm house and told his story. The son was found unconscious in the road and was revived with difficulty. Both will recover, although their injuries are serious. Mason says he recognized his assailants and warrants were sworn out for their arrest.

CAPE BRETON HAS RICH GOLD DEPOSITS
B阿德克 District Said to Be Second Klondike—Nearly 1,000 Claims Filed.

BADDECK, Cape Breton, Jan. 14.—The discovery of a gold district said to be as rich as that of the Klondike is causing people here to anticipate a rush to this section of the country. Already upwards of 1,000 claims have been filed. Ore, which gives a heavy welcome to the government is supplied to the state department by Edward T. Williams, Chinese secretary to the American legation at Peking.

Mr. Williams says that for over a month past commissions have been holding daily sessions wherein two strong parties have been struggling for leadership, one bent on securing a liberal government on modern lines and the other determined that there shall be no departure from the traditions of the fathers.

The chief feature in the edict is the manifest endeavor to approach the ideal of "one man, one office." Equally important is the abolition of the useless multiplication of offices and with the exception of a few of foreign relations, whose composition cannot be changed without the permission of the powers, there will henceforth be only one head to each of the governing boards.

REFORM IN CHINA.
Remarkable Change Taking Place as Result of Recent Edict.

WASHINGTON, Jan. 14.—A comprehensive review of the remarkable change that is taking place in China as a result of the promulgation of the recent decree against the Chinese government is supplied to the state department by Edward T. Williams, Chinese secretary to the American legation at Peking.

Mr. Williams says that for over a month past commissions have been holding daily sessions wherein two strong parties have been struggling for leadership, one bent on securing a liberal government on modern lines and the other determined that there shall be no departure from the traditions of the fathers.

The chief feature in the edict is the manifest endeavor to approach the ideal of "one man, one office." Equally important is the abolition of the useless multiplication of offices and with the exception of a few of foreign relations, whose composition cannot be changed without the permission of the powers, there will henceforth be only one head to each of the governing boards.

REGINA WINS A GREAT GAME BY SCORE OF 4-2

Immense Crowd Witness One of Fastest Games of Hockey Ever Seen in City—Capitals Show Themselves Considerably the Faster Team—Splendid Individual Play and Good Combination Work

The hockey match between Regina and Moose Jaw ended in the former carrying off the honors by 4 goals to 2, over 1,500 people witnessing probably the fastest game ever put up in Regina, quite a number of Moose Jaw enthusiasts taking advantage of the special train to witness the game and support their team. As the train was somewhat delayed, the game, which should have started at 8:30 o'clock sharp, was not commenced until about 9. The Regina boys, in their brilliant red and white colors, took the ice for a warm-up at about 8:30. After a full ten minutes of good practice the trainer, Griffith called them off, much to the regret of the crowd, who were already getting excited.

At 8:40 Moose Jaw took the ice, looking very spirited in their green and white colors, and after a good practise the bell rang and both teams surrounded the referee to hear the injunction to "be good."

Lining up, Regina faced the north goal, and when the puck was dropped (about 9 o'clock) Smith got a head away with it and set a pace which the rest of the team followed and kept up throughout the game. First it was Shorty Carmichael, then Windy Stubbings, then Graham Reid, checking and rushing in grand style, the crowd not knowing whom to praise the most. When Shorty got a hot one in and scored "first blood," the cheering was deafening, and starting shooting was continuous. Davis, the Moose Jaw goal keeper saved in a very pretty way almost impossible shots. He kept very cool, worked hard and steady, and undoubtedly saved his team from a heavy defeat. Moose Jaw was completely outclassed in every other position.

Just before half-time Moose Jaw scored their first goal by a long lift shot by Clarke. The sweeping brigade then took the ice to clear the track to the strains of sweet music composed by a band of megaphones and trumpets. It was nearly 10 o'clock before the bell rang again for the players to line up, and when the puck was dropped the pace was again

fast. Smith and Windy rushed again in good style. In four minutes Art Smith, outplaying the whole defense, scored the third for Regina. Moose Jaw then came very near scoring, Chesty Kain and Graham Reid saving a very dangerous attack. Soon afterwards, however, the Moose Jaw team scored again, and this time also by a long lift shot, making them 2. Here again Regina played so fast it was almost impossible to follow the game. Shot after shot went in, and at last, after a fine run by Art Smith, who passed it to Carmichael, the fourth and last goal was scored, soon afterwards the bell ringing for the close of the game.

It is gratifying to know that the Regina boys, with two exceptions, were "home made," the two exceptions being Chesty, our "Gibraltar" goal-keeper, and MacGregor, right wing, the former, however being here over five years, and the latter about a year.

The game was most enjoyable, on account, no doubt, of the really clean play, one thing only being regrettable, and that was the thoughtlessness of the smokers, causing a difficulty to see the game and breathe with ease. The line-up was as follows:

Regina. Moose Jaw.
Kain Goal Davis
Reid Point Brown
Macchialis Cover Cossey
Stubbings L. Wing Ireton
McInnes R. Wing Peterson
Carmichael Center Clarke
Smith Rover Edmunds
Referee, "Dad" Wheelodon, of Brandon; judge of play, McMillan, of Moose Jaw.
(Scott, of Indian Head, was to have been judge of play, but was objected to by Moose Jaw.)

The following was the order of the goals scored:
Regina, 15 min., Carmichael; Moose Jaw, 5 min., Carmichael; Regina, 25 min., Clarke.
Half time, Regina 2, Moose Jaw 1.
Second Half—Regina, 4 min., Art Smith; Moose Jaw, 15 min., Cossey; Regina, 2 min., Carmichael.
Final Score—Regina, 4; Moose Jaw, 2.

What is a Box Car?

A Kansas miller, referring to the car shortage, inquired pertinently: "What is a box car?" The inference being that he had not recently seen one. The office repeated the inquiry and received the following contributed inquiry:

"The box car belongs to the fowl family. During the spring and summer it can be found in nearly every part of the country. Its favorite haunt being near railroad tracks, and it is easy to capture. In autumn, however, like certain other fowls, it goes into hibernation or flies away to other climes. Scattered incidents are known where specimens are captured during the autumn months. A lasso, or well greased switch crew is sometimes used in snaring a box car, but main strength is the best weapon. In any case the hunter must be very wary, as any noise like the fluttering of a way bill will make the quarry disappear. Some railroads own large flocks of domesticated box cars, but they are carefully guarded during the closed season. The wild box car when caught and fairly loaded up becomes perfectly stationary."
—Northwestern Miller.

STEEL CITY TO BE BUILT IN CANADA
The United States Steel Corporation Will Establish Big Plant Below Windsor.

TORONTO, Jan. 14.—A New York special says: "It may now be announced definitely that the United States Steel Corporation will build a big Canadian plant upon the property being bought below Windsor on the Canadian side of the Detroit river. It has become known here that plans have actually been drawn for a new 'Steel City' and that all that has been holding back the United States Steel Corporation in the development of its plans has been the delay in coming to an understanding with the Dominion Government with regard to the bounties on steel rails made from American and Canadian ores and the continuance upon the free list of iron ore, coke and limestone, raw materials used in the manufacture of steel and iron.

SECRETARY ROOT'S VISIT.
Preparations Being Made to Entertain Distinguished Visitors.

OTTAWA, Jan. 14.—Preparations are going on at Government House to give a hearty welcome to Secretary of State Root, who will be accompanied by Mrs. Root and Miss Root. The party will arrive on Saturday, the 19th inst. That afternoon there will be a skating party. On Monday there will be a banquet at Government House in honor of Mr. and Mrs. Root. All the Ministers of the Crown, leading parliamentarians and prominent citizens will be present.

The visit is purely of a social character, but Mr. Root will no doubt do his best to ascertain the correct attitude of Canada on a variety of subjects of an international character. If Mr. Root wants to settle with all, Canada will be quite willing, but the last thing that Canadians desire to be drawn into is a ready-made tribunal for the purpose of being humiliated. The Alaska boundary business has not yet been forgotten.

LARGE REDUCTION BY C.N.R. IN NORTH LINE EXPRESS RATES

New Schedule of Express Charges Went into Operation on Prince Albert Line Yesterday--With Exception of Three Stations, Amended Rates Show Sweeping All Round Reduction--Impetus to Trade

Beginning Tuesday a new schedule of express charges goes into operation on the Prince Albert line. With the exception of Lumsden and Craven which remain at the same old figure of 50c per cwt., and Condie, which is increased from 40c to 50c per cwt., the prices practically show an all round cut of 50c per hundred. It is expected that the large Regina stores will materially benefit by the reduction, which will very considerably increase the already large mail order business done with the north line. The machinery houses and farmers will also benefit not a little by the lowering of prices, large quantities of repairs being shipped north in the summer months.	Bladworth 1.25	1.75
The following is the amended schedules compared with the one now superseded:	Chamberlain 90	1.00
	Clark's Crossing 1.75	2.25
	Condie 50	40
	Crak 1.00	1.50
	Craven 50	50
	Davidson 1.25	1.75
	Disley 60	75
	Duck Lake 2.25	2.75
	Dundurn 1.50	2.00
	Findlater 90	1.00
	Girven 1.25	1.75
	Hague 2.00	2.50
	Hanley 1.50	2.00
	Haultain 1.75	2.25
	Kinaston 1.50	2.00
	Lumsden 50	50
