DEMANDS PRESENTED For the nine man arbitration committee to be composed of three members of the University council, three members of the professors' associa-tion, and three AGEL members;

That the students be allowed to stay in school until the committee has met;

That the University recognize the right of the AGEL and the status of its various committees. Le Carabin is a committee of the AGEL.

#### STAFF DISMISSED

stentions asked:

The association, believing that the article was inappropriate for a cam-pus newspaper, dismissed the staff. It pointed out that any censuring should be done by the AGEL and not by the University.

Deposed editor Pierre Magnault, stated that the disputed article was not considered obscene when it was printed, rather it was thought that some moral conclusion could be drawn from

"I recognized that I misinterpreted the objective of this article because of the letters of protest sent to me by students," he said. Magnault added that he now sees that the article offers a large area of interpretation, and since it does, it should not have been published.

Before the association met Thurs-

day night, a spokesman for Le Carabin said, "It seems that the articles have been the occasion for a trial of the general outlook of the newspaper and the trial of the in-dividuals that head the paper."

### SHELL INTERVIEWS ENGINEERING AND SCIENCE GRADS NOV. 15—18

Shell of Canada has openings for 1961 graduates in engineering and the sciences. These positions, in the company's manufacturing, marketing and exploration and production departments, offer scope and opportunity for the graduate interested in a challenging and rewarding career. Some summer employment for 1962 graduates is also available. Your university placement office can supply further details, arrange an interview, and provide copies of "Opportunities With Shell", a booklet which contains full details on many Shell career jobs.

SHELL OIL COMPANY OF CANADA, LIMITED

### International Issues

What concern is it of the students on this campus, if Hungarian students are murdered, that France is fighting a "civil" war in Algeria, or that South Africa has an apartheid policy? An even better question—what do U of A students intend doing about it, if they are con-

That they are going to be represented on issues like these and others is one sure thing. At the recent National Federation of Canadian University Students Congress in Halifax a motion was passed giving the national NFCUS executive authority to make such representa-

Whether NFCUS should or should not have the blanket right to represent 78,000 Canadian University students on international issues has made for hot debates, both at Halifax and in the Students' Council at this University.

Many persons contend that NFCUS has no right to present the Canadian students' view without first contacting each member University. But, there is almost no single student or student group in Canada that has enough information to form an accurate opinion on any international controversy. If NFCUS is to contact every University in the country for their opinion, the result will only be uninformed garble and garble that bogged down by red tape, will lose any initiative gained by timely presentation.

The national NFCUS office in Ottawa has access to information from which a reasonable view on something of international scope can be formed and for this reason, if for no other, they are the only representative student group physically capable of presenting an informed view.

International representation by the Canadian student body then resolves itself, not around who should represent the student body, but whether they should be represented at all

There is an apparent trend today toward internationalism—democratic and communistic both competing for the whole scene. Internationalism presumes an interest in what other people in other countries are doing and what is being done to them. Canadian students, if they have any belief in the freedoms inherent in their background, should be interested in what is happening beyond the seas, and should express their interest.

Communist students are interested in expressing themselves. Whether they express the communist line or not is irrelevant to the fact that they are being a vocal group internationally, and are getting a response. can and should be doing the same.

An opinion from NFCUS, while it may not correspond exactly to what an individual campus or student might think he thinks, is at least an informed opinion, thought out by students who are conscienciously and sincerely trying to produce the consensus of thought of most of the Canadian student body. Canadian student opinion, more objective than political opinion, would be listened to on an international level.

Let the world know we are here.

a straight seven and one-half month grind, the problem is more acute. The administration may have to send many a student home in a basket after the 1960-61 term is over. Unofficially, the administration has advanc-

his job as during college. Now, with the term

ed five reasons for shifting the Christmas examinations to January. First, the administration is worried over the high Christmas examination failure rate among first-year students. It is felt the new schedule will give freshmen an extra week of time to digest the University scheme of study, and will result in better success on the finals. This is hard to understand. The main reason freshmen do poorly on Christmas examinations is that they haven't awakened to the fact University requires more work than high school and they must get down to it. We say wake them up at Christmas so they will work the rest of the term, rather than waste the time they always have wasted plus another three weeks.

Secondly, the University feels the new schedule will help to balance the length of the two terms, as the pre-Christmas term has been too short. Is this balance absolutely necessary? The University of Alberta is not planning to introduce a semester system, so why are equal terms needed? Some patterns such as engineering have half-year courses, but there is no reason to modify the entire schedule merely to accommodate these courses.

A desire to give more weight to Christmas examinations is advanced as a third reason. Why? We feel the final examinations should count most heavily. The student should be passed or failed on his grasp of the course as a whole-and too much stress should not be placed upon the pre-Christmas portion.

Fourthly, the complicated and cumbersome Christmas examination setup of past years would be simplified. One fails to see much difference here. Certainly, the number of examinations will not be cut down

Perhaps the heart of the matter lies in the administration's final reason: under the new system the staff will not have to mark examinations during the Christmas holidays. But won't the marking drag on after January 9, thus hampering the faculty from making any progress in its lectures? No says the administration. Examinations for large classes will be held at the first of examination week, so the markers will be able to have the papers out of the way by the end of the week. The papers from small classes will also be finished by the end of the week.

If this is true, then why can't all this speedy marking be done during an examination week which would precede Christmas? Then the faculty would not have to mark papers during the Christmas holiday. Then both students and faculty would get a holiday.

As the situation now stands, the faculty will get a Christmas holiday AND a partial holiday during the January 3-9 test week, as they sit back and supervise examinations. The students will get no holiday at all.

Does this mean the faculty is being catered to at the expense of the University of Alberta's 6.500 students?

It is quite satisfying to learn that the University of Manitob Students' Union has finally solved the dilemma created by th inconsiderate flunking out of president-elect G. Lindley Ab dullah. This was accomplished by the simple expedient of de claring Roy Mackenzie's election by acclamation constitutional

Council also chose a replacement for secretary Dave Hum phreys, who resigned during the election held three weeks ag because of what he called "election manipulation"

-CUP Press Releas

Prime Minister John Diefenbaker's promises do not appear to carry too much weight at the University of Saskatchewan. He stated in an interview that he is in favor of the National Federation of Canadian University Students proposal for 10,000 \$600 scholarships to be provided by the federal government. He cited as a reason the fact that only 15% of our University students are subsidized, whereas other democratic countries subsidize up to 75%.

This, observed the Sheaf, is comparable to the proverbial carrot. In 1957, he and his accomplices made varied and spectacular promises concerning the subsidization of higher education, but as yet none of these have been fulfilled. Good politics, but .

However, he redeemed himse somewhat when he stated that a much emphasis should be placed the Humanities as on the Sciences

### Give Us A Holiday

Make ready to join the ulcer brigade fellow students. You have been robbed of your Christmas holidays.

The administration has seen fit to relegate the Christmas break to the ashcan by scheduling the Christmas examinations for Jan. 3 to 9 this term. Gone are the days of respite, when one could collapse and catch up on lost sleep after the frantic study and examination weeks of December. Gone are the gay Christmastime tension-easing parties. The student will have two choices: stay home and plug away at a t'me when everyone else has a holiday-or go out and try to have a good time attempting to forget your guilty conscience.

Any graduate will tell you he has never had as much continuous strain placed upon him at

Tradition in dress is causing quite bit of controversy at Memorial niversity of Newfoundland. The rux of the matter seems to be which ype of gown to wear. Medieval European University or Early North merican Indian?

At the beginning of the fall term, everal students decided to wear the raditional University gown, which intended to lend "a certain digity to the wearer"

Immediately another faction laid plans to disrupt the smooth oper-tion of this scheme. They plan to wear the traditional Indian blanket. They had considered wearing a fur tobe of some type, but discarded his as impractical.

They claim that the European tra-lition carries with it the stigma of eggary, whereas the North Amerian tradition represents self-suf-iciency. Even though the Indian did starve; he starved with dignity.

The Muse, Memorial University of Newfoundland

Going from the sublime to the ridillous, students at the University of lichigan have organized a plan to Provide students in large lectures th mimeographed lecture notes at from 15 to 20 cents per lecture. The Ourpose is to give the students a letter idea of what the lecturer will scuss in a particular lecture.

Students will still be requested to ttend lectures. However, I have sisions of the professor standing be-fore his class saying, "Today's sem-flar will consider . . ." and having is voice reverbrating through the mpty seats.

A similar plan is being advocated

### Lanning Kenton Instigators Jateway Letterbox . .

#### Interesting, Interesting

To The Editor:

During the recent Student's Council debate on the Kenton fiasco Mr. Campbell made some interesting re-

Mr. Campbell expressed the view that the students were at least partly at fault because of their failure to support the venture. Now Stan Kenton was brought to the campus in the belief that the students were interested. This was an error of judgment on the part of the Council. Most of the blame must be assumed by them, since most of the initiative came from them.

To say that the students were at fault implies that they should support the Council in their endeavors. No doubt; but support of a government is, in a democrarcy, limited to those projects of which the governed body approves. Until the next election, disapproval can be ex-pressed only by objecting to the proposal, and if necessary ignoring the proposal if and when it is realized.

If therefore an elected representative says that the governed body is to blame for the failure of a project that depended on their cooperation, that representative suffers from a misconception. The governed body is not obligated to support its government if it does not wish to. Even if the non-support results in a \$7,500

The notion that a governed body is obligated to support its government no matter what is a totalitarian notion. Even if the idea was expressed during a debate whose main object was to rid the governmental conscience of the guilt it felt on the loss of several thousand dollars of trust money.

Trying to place the blame on other shoulders may drive a man to extreme actions, especially if the blame is heavy. But the expression of a totalitarian attitude is hardly excused on these grounds.
Wolfe Kirchmeir

No Fan Here To The Editor:

I address my first gripe to the \$1.40 of my money to bring Stan Kenton here. I'm not a jazz fan. Was I supposed to put up another a profit? Certain people have workstudent wants done. It seems to me also took the test. that the real reason people put time into things like athletics, Students' Council, and The Gateway, is that objective test is 100 per cent. For an essay it is approximately 93 per in some way they get satisfaction out of it. Normally I don't mind, it pleases them and it doesn't hurt me. of nectar and ambrosia, do have some the balding Homeoming Weekand. But holding Homecoming Weekend reverberations among us lower was their idea, not mine, and the echelons. Scrabbler seems to blame me becoming Weekend, I let it die, and I will neither mourn nor exult. In plain English: mind your own busi

A somewhat less rancorous word deigns to listen to hoi hippoi and to Kenneth Landry: If Med is an easy course, I shudder to think what sort Jean Du Marais of doctors we're turning out. Having tried both, I don't think writing essays is much harder than solving

science problems. Neither is easy. Finally, to those who think the Plumbers are getting special treatment: What would be a good motif for a mosaic on the Chem Building -a stained, tattered lab coat, maybe? Sourpuss

#### No Fan Here Either

To The Editor:

Many reasons have been given for the failure of Stan Kenton's appearance at U of A, but in our opinion there was only one major reason for the "flopperooee". The students of U of A and the people of Edmonton as a whole are not ardent jazz fans, big name band or not.
We feel quite certain that a repre-

sentative pool of students taken away back when the "Stan Kenton to U of was first born would have shown this quite clearly. We think that the reaction of many people (including us) would have been, "Who is Stan

In the future, no Students' Union funds should be risked on any big name entertainment. Granted, the prospect of a big profit is appealing; but the chance of a bigger loss is too great compared to the financial backing of the Students' Union.

Why not leave professional promotions to the professional pro-moters? Any students wishing to attend these high class, high price shows can still do so without jeopardizing all the students' money.

#### R. J. Liddle, Eng. 4 J. B. Branson, Eng. 4

To The Editor:

Notwithstanding the ululations of Kenenth Landry, I very much agree with your editorial on marks and naivtte!) that a student's devotion of him to remark: will counterblance the difficulties.

Howl

In Arts and Science alone there is Scrabbler. It seems Council put up plenty of inconsistency. The various mouth shut, and pointed that big \$1.40 of my money to bring Stan courses offer two sorts of subject grimy finger of his right twixt his matter. The more difficult kind re-Was I supposed to put up another quires mainly understanding, the \$3.00 to hear a concert I wouldn't go other mainly memorization. Secondto for free, so Mr. Kenton's feelings ly, some courses have mainly essaywon't be hurt and Council can claim type exams, some mainly objective tests. A mark for an essay expresses ed like hell to do something for the an expert opinion, a man student, and the student doesn't like objective test is simply the persuadent, and the student doesn't like objective test is simply the persuadent, and the student doesn't like objective test is simply the persuadent, and the student doesn't like objective test is simply the persuadent, and the student doesn't like objective test is simply the persuadent doesn't like objective test is simply to be persuadent doesn't like objective test is simply to be persuadent doesn't like objective test is simply to be persuadent doesn't like objective test is simply to be persuadent doesn't like objective test is simply to be persuadent doesn't like objective tes Maybe they'll get disgusted and psychology department, convinced quit their jobs, and who cares? Half that a mark has no value except as a the students on this campus won't comparison, often scales its tests, so even know the difference. If they want to do something for the student they should first ask what the performance of other students who

#### \$7,500 Shoulders

To The Editor:

With all due respect to the learne commerce rep, the culpability resulting from the Kenton deback must rest squarely on the shoulder of council and NOT on the students The empty seats in the rink are the results of a patently unwarrante assumption on the part of counc viz. that the students are obligate council with regard to what enter tainment they must partake of. I is indeed a mystery as to what basi was used for the reasoning that 4 per cent of the student body would put aside conflicting interests an attend to an entertainer known as JAZZ artist. We have no quarre with the merits of jazz itself, but w do query the analysis that almost prime prerequisite of any successfu government venture is that the undertaking pursue lines of common agreement and interest.

The Kenton capers lacked the criterion. Council in an entertain ment venture does not smack sufficiently of a "patriotic cause" stir the student body to abide blindly by its decisions-correct or ill-found

Vociferous Veale is passionate lamenting the fact that "big namentertainment" may never brought in by Council again. In deed this is a sorry state of affair . it would mean only 47 instead of 48 big names in Edmonton next year All the students ask is that counc concern itself with matters pertain ing to the governing, not entertain-

ing, of the student body.

Re: Campbell's statement: ... "we should get it out of these students this year by cutting back the budgets of all clubs. It's the students fault . ." I'm sure most of the students feel like the Phillistines they have been hit by the jawbone

**Expulsion Supported** 

## University Has Right To Resiliate Contract

MONTREAL (CUP) - Universities have a right to expel students who go against the basic norms of the institution, a Montreal law professor said here Saturday.

Associate professor Paul Crepeau told the McGill Daily he believed that when a student signs an application form to a University, and it is accepted, there is consent, and thus certain evidence of contract".

He was commenting upon the recent expulsion of three student editors at Laval University following the publication of a controversial article in the campus paper. He is an associate professor of private international law, and civil law and a specialist in the field of contracts and civil responsibility.

Under the contract, he pointed out, both the student and the University have obligations, but the student has an additional one. It is an obligation, "to act in accordance with the basic norms of the institution, and speci-fically, in the case of a Catholic or Christian University, in a manner not incompatible with the fundamental principles underlying the concept of education in that particular institu-

**EXPULSION SUPPORTED** 

"If the student fails to fulfill this obligation I am of the opinion the University has a right to unilaterally resiliate (cancel) the contract,"

The exuplsion of the three

editors has provoked considerable discussion concerning the rights of students in the pro-vince. Members of the Association Générale des Etudiants de Laval are up in arms because the University authorities expelled the editors without consulting student representatives. In fact the AGEL has gone so far as to threaten a general strike of stu-

Another complaint voiced held that the personal rights of the editors have been violated and that the University has taken unjust action.

LEGAL POSITION CLEAR On the question of students' right to education in the province of Quebec Prof. Crepeau said, "Up to SPECIAL OBLIGATION the present time at the University level, no student has a civil right to education and more particularly, there is no civil right to an education at a specific institution. But, I would like to point out there is a right to education in Quebec at the

condary level."

He said that quite apart from any question of status that could or should be governed by University regulations, "it seems to me that in the light of the pre-sent day laws, the legal position in this situtation is purely one of contract."

Such a contract is one between the University and the students in-dividually. "The only questions are whether such a contract exists, and if it does exist, what its nature is. I don't think there is any doubt that a contract exists because when a student goes to University, he signs an application form, and this applica-

tion is either accepted or rejected. If accepted, there is consent, and thus certain evidence of a contract

'In light of civil law of Quebec, and the law of obligations, and because the contract of education is not regulated by special provisions (as in the case of sale or mandate) this contract must be examined with regard to the general provision of the law of obligations and particularly Article 1024 of the Civil Code," he

Article 1024 states: The obligation of a contract extends not only to what is expressed in it, but also to all the consequences which, by equity usage or law are incident to the contract, according to its nature

Prof. Crepeau then stated he had no doubt that the contract of education is characterized as one of the intuitu personae, a contract in which the person of the student comes within consideration of the contract. Such contracts are based on confidence, as in mandate, he said.
"Because of the nature of this education contract",—as in a mandate there is an obligation on both parties; on the student to pay his fees, and on the University to provide a college education through the services of competent professors."

"But, there is, in my view,

(because of the nature of the contract) a further obligation on the part of the student to act in accordance with the basic norms of the institution . .

He stated that on the basis of having read the article—"although I am uninformed as to other aspects' he was inclined to think there is definitely matter for a reconsideration of the legal relationships involved.

#### "Moral" From Page One

There was also strong pressure on the AGEL exerted prior to the meeting by both students and faculty members. A vote to strike was taken by the students of many facularbitration committee.

AGEL vice-president Gilles Blais vas threatened with expulsion by the Dean of the Law faculty, in which Blais is enrolled, if he did not which Blais is enrolled, if he did not stop distribution of this week's newspaper, a special edition which brought out the background of this They are on exhibit in the basement of the Engineering Parillets. and other clashes.

# United Church Sponsors Varsity Night Sunday

Ministers and guest speakers from the University at Central, Garneau,

Knox, McDougall, Metropolitan,

Pleasantview, St. Andrew's, St. Paul's, Strathearn, Westminster, Kirk, Robertson, Norwood, Avonmore, and Wesley United Churches

will direct their messages in the evening service primarily to Uni-versity students.

This second annual Varsity Night

arose from the concern of the Young People in the city churches that University students, and, in partic-ular those from out of town find a

church home during their Univer-sity career. Last year 100 Young People contacted 1500 United Church

Varsity students. This year, about 125 Young People will be personally

visiting about 1750 students in an ef-

fort to interest them in attending Church and Young Peoples'.

Special Varsity Night services and Young People's programs will be held in United Churches throughout the city on Sunday evening, Oct. 23, as an expression of the churches concern for University stu-

Churches participating plan a variety of evening services and Young People's programs. Knox United Church is having as guest preacher Dr. L. H. Cragg, vice-president of the University. A panel of foreign students will be the feature of Strathearn's YP meeting. The Nurses' Choir from the University Hospital will

### **Opinions Differ** At Confab

The nature of Christianity, as seen from Christian and non-Christian viewpoints, was the theme of the agnostics conference, held Saturday in the West

The conclave was sponsored by the Student Christian Movement, and was attended by about 75 persons representing several Protestant de-nominations, Catholicism, agnosti-cism, and other religions and philo-

Speakers were Prof T. M. Penelhum of the department of philo-sophy, who took the agnostic's viewpoint, observing Christianity from the outside, and Theologian Dr. Piet-er de Yong from the University of Saskatchewan, representing the Christian's inside view of Christian-

In debating Christian doctrine, Prof. Penelhum said that a secular view of the world was quite adequate; Dr. de Yong said faith was necessary for living. Both agreed that the fact that God's existence cannot be proven is fundamental to Christian doctrine.

As a result of the conference, an agnostic study group is being formed under the guidance of Prof-Penelhum. Interested students should contact him at the depart-ment of philosophy.

## **Professor Compares Universities**

modern languages department spoke on European Universities, comparing them to their American counterparts.
Ignoring the United Kingdom

and Ireland, which he did not consider part of the continent, traditions have reappeared. Dr. Szoverffy split his topic into two parts; first discussing the Universities of Western Europe and the those behind the Iron Curtain.

Concentrating on German Universities, he commented that the students were divided by class distinctions, political ideals and religious differences. Few students took part in the Nazi movement, in fact during the war many were executed for under-ground activities against the Nazis.

In an address to the Newman Club Dr. Szoverffy of the characterized by confusion and economic difficulties. But after the characterized by confusion and economic difficulties. But after the German economic miracle a strong spirit of consolidation appeared and the student organization regained its intellectual status with a new inter-national orientation. There was a strong reaction to pre-war abuses, although drinking and other German

> On the academic side the students have a great freedom in picking their courses and professors. Specialization is not so general; in fact one day a week is set aside for universal classes. Many students in courses such as medicine and law attend courses in the liberal arts in order to broaden their education.

In France the economic condition is poor and students find themselves working at oustide jobs up to 36 hours a week besides their University work. Again there is a strong interest in the social sciences, philosophy

and theology.

European students have an advantage in the proximity of other countries, in the presence of the historical sites, theatres, operas, and well established traditions.

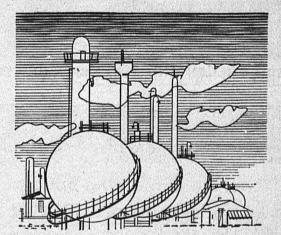

Behind the Iron Curtain students are considered the cream of society but have no freedom in the choice of their courses, and must keep up a igid standard so as not to fall in the bad graces of the party. Despite these censors, Dr. Szoverffy pointed to the Hungarian Revolution as evidence that the students could not be forced to accept communist dogma, and from their favored posi-

tion were in a good position to revolt.
"Europe is not a model," Dr.
Szoverffy concluded, "but we should study their way of life and adopt the best of it. North American students must mature, must play a more decisive role in the cultural and social movements—and not let these movements be controlled by rock and roll propaganda."

WITH

### CANADIAN CHEMICAL COMPANY, LIMITED

This advertisement will be of most interest to graduates in chemistry, chemical, mechanical and electrical engineering and engineering physics.

What interests you most about a career? Opportunity should. Opportunity not only for advancement, but opportunity for professional growth through varied and interesting experience. We firmly believe in diversified experience and, luckily, we can offer it in our fully integrated operation. We find it's best for you (makes life more interesting and provides greater opportunity) and best for us (we end up with senior people who are fully experienced in our business). Now, let's have a crack at answering some of your questions.

What do we do? Canadian Chemical Company produces basic organic chemicals, cellulose acetate flake and acetate yarns, fibres and staple.

Where do we do it? At Edmonton. We have three plants on a 430 acre site. The first produces chemicalsalcohol, ester and ketone solvents, acetic acid, glycols, pentaerythritol, formaldehyde and other organics. The second produces cellulose acetate flake. The third, acetate and Arnel yarns and fibres.

Sales offices are located in Montreal, Toronto and

What is our future? Very bright. (It just happens to be true.) We think of ourselves as a young, progressive, fast-growing Canadian firm with world-wide affiliations. The record bears this out. So does the operation of our Edmonton plant. And the fact that our engineering department is one of the largest and most diversified in Canada.

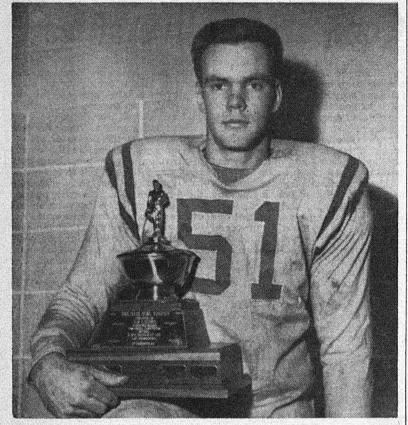

Our raw materials are basic Canadian natural resources: petroleum by-products from Alberta and cellulose from the forests of British Columbia. Our markets are worldwide, and through our affiliates we have a strong alliance with companies in the textile, chemical and plastics industries:

What would you do? As a qualified chemist or engineer you could be working on product development, research, process engineering, plant design, construction or some aspect of production. This is exciting work in many completely new fields. As a chemist or chemical engineer you could choose also a career in sales or technical service.

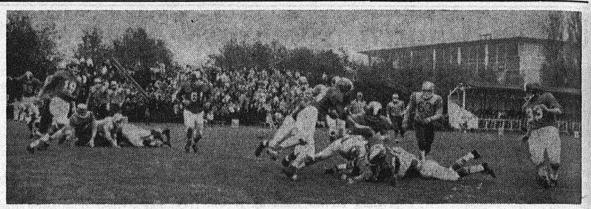

What else should you know about us? Lots more. You can get more information and literature by writing to Department "A" at 1600 Dorchester Blvd. West, Montreal 25, Quebec. Or to the Personnel Department, Canadian Chemical Company, Limited, P.O. Box 99, Edmonton, Alberta.

## Bear Win Saturday Against Huskies Will **Assure Inter-Collegiate Football Title**

Alberta Golden Bears will be Intercollegiate Football title for Bombers of the WIFU. Last Saturplaying their most crucial game of play of play of the season against the Saskatchewan Huskies, this Saturday, Oct. 22 at 2 p.m., at Varsity Grid. A win Saturday will wrap up the Western Canada

of play.

At present the Bears are in sole possession of first place in the western loop after having beaten the British Columbia Thunderbirds 20-6 last Satur-

In last year's two encounters U of S was soundly defeated by the U of A each time. Playing their last game of the 1959 season the Bears completely outclassed their prairie rivals in the

"We'll have our hands full" stated head coach Murray Smith, "since Saskatchewan is a vastly improved team." The British Columbia Thun-derbirds were hard pressed to win three weeks ago. 8-0

Since then the Huskies have beaten St. James Rams from the Manitoba Intermediate Football League, they sport such names on their line-up as Bud Korchak, ex-scoring champion of the Winnipeg Blue pions, 28-0.

The Golden Bears fortunes are handicapped furthermore by the loss of some of their top players. Jack Dixon, offensive tackle and inside linebacker received a back injury which was first thought to be a kidney injury. Clayton Ellis, a defensive start with the Bears, has been injury to be a considered with a know injury. sidelined with a knee injury. Last Saturday's big scorer and kicking ace, Maury Van Vliet, will probably be out due to a knee injury.

The Bears will be using their regular double wingback formation fea-turing a hard hitting attack which opens the game up for passing. The effectiveness of the formation was seen last Saturday when the Bears completed 13 out of 18 passes for an impressive 117 yards.

WHO YOU SCARED OF?

This weekend finds the Golden Bear footballers in the happy osition of being able to nail down the western title right in their own backyard. After annihilating last year's champions from BC, the Gilded ones are entering battle with Saskatchewan in an excellent frame of mind. They know the title is only one win away and are very anxious to end it all tomorrow.

The chumlies who may not go along with this fine theory are he Huskies from the wheat province. They are reported much stronger than last year's woeful pack and are showing signs of baring their fangs to all comers. In the last couple of weeks they have solidly whomped the St. James Rams, an intermediate club who boast Bud Korchak, former WIFU scoring champ with Winnipeg, and other such ruffians and just last Saturday Huskies walloped the Northern Dakota Mystics 26-0.

This clash must rate the "must" abel for both clubs as Saskatchewan s the only club which can nose out he Albertans. The best the broken Birds from BC can hope for is a ie; and even that is now wishful hinking. This is the most important ootball game to be played in the Dil Capital this year; it should be a

And now down to the important spects of college life, mainly little

Ice is reported going in at the new ink and should be ready for Clare est chance in years of cracking the terrible.

Seems Gary Francis is a jack of all orts with the football club. He plays efensive half most of the time but lso finds time to run back punts on ne suicide squad and occasionally e takes over the controls at quarter. Thank you Gary, you can drop the ayola in the office.

Al LaPlante is back around campus after a brief fling with the Edmonton Flyers. Rumor has it the starry winger turned down a pro contract to return to school. Clare Drake was seen

## Mural Sports Corner With Dieter Buse

Saturday, Oct. 22, at 1 p.m. the intramural cross-country will be started just east of the football field. This is just before the Alberta-Saskatchewan football game.

Course length is 2.5 miles. For the first time the race will cover an area not all on campus. The course will include grass, pavement, dirt and gravel stretches. Dr. Alexander, who is in charge of the cross country, feels that a time of under fourteen minutes is possible if the weather conditions are reasonable. This race will serve as a trial for the intervarsity

Entries will be accepted 'til post time and forms may be obtained from the intramural office, room 150 PEB. All competition must sign entries. Locker and shower facilities are available. Spectators are urged to familiarize themselves with the route in order to cheer their faculty or frat representative. Footb

#### Coach Clare Drake faces a will have a nucleus of only More than sixty hopefuls major rebuilding job as the seven or eight of last year's have signified an intention of Bears attempt to retain the regulars on which to draw. trying for a spot on this year's coveted Hardy Cup for the sec-

Hardest man to replace will be Vern Pachal, league scoring champion last time around. Also missing will be Bob "Trigger" McGhee and Les Zimmel. Defensive stalwarts Ray Sawka and Ted Mitenko will be other members of the 1959-60 aggregation who won't be around when the team begins skating early next week. Regular practices will begin next month for WCIAU wars which

was was commence January 20.

Word out of Saskatoon has it that although the Huskies lost half a dozen of last year's squad through graduation, they have picked up several hot prospects from the Saskatchewan Junior League and should be stronger than last semester. Manitoba is an unknown quantity at present. UBC who have scheduled games with both Alberta and Saskatchewan this year, appear to have a strong team, including Dale Janowsky, late of the Golden Bears, and Johnny Utendale, one-time Oil King star.

FLYERS COMING? Negotiations are being carried out in hopes of initiating the new ring with a game between the Bears and the Edmonton Flyers in mid-November, and further exhibitions will be scheduled with top Alberta amateur teams later in the season.

### Calgarian Kyle **Wins Cross-Country**

Doug Kyle of Calgary won the cross-country race held at Victoria Park, Edmonton, on Saturday, Oct. 17. His time for the four mile race was 20 minutes and 38 seconds.

He represented Canada at the Olympic games held in Rome last summer, running in the preliminary of the 5000-metre race. He did not qualify for the finals.

Moris Aarba, a lab technician at th University Hospital, came in second with a time of 20 minutes and 59 seconds. Tom McCarthy, of the Calgary Track Club, placed third with a time of 21 minutes and 6 seconds. seconds.

The competition was between the Calgary Track Club and the University of Alberta Track Team. The team having the lowest scores won. The University has 18 points to Calgary's 20.

### GOLDEN BEARS HOCKEY

All registered players are to attend another general meeting in PEB 124 on Monday, Oct. 24 at 4:30 p.m. at which time a definite timetable of pre-season training periods will be announced. Players still wishing to register may obtain forms in the general office of PEB.

#### **Women's Intramural Golf**

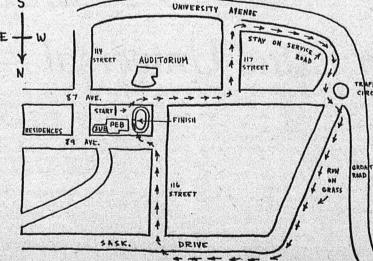

A Women's Intramural Golf Tourtwo weekends, at the Pitch and Putt and Municipal golf courses.
Golf at the Pitch and Putt course

will be played Oct. 21, 22, and 23. Girls are to play at their own convenience, nine holes only. The cost is 35 cents for the nine holes, which includes the Club's cost. Players must buy golf balls, or bring their omska (ed) own. Scorecards are to be handed in to the office.

## Trouble-Shooter To Analyze **Communist Global Strategy**

former Communist, will analyze Communist global strategy, at a lecture in the Jubilee Auditorium at 8:30 p.m. Monday. Mr. Hyde is the author of "I

Believed", a world best seller, which sold over one million copies. He is a former news editor of the Communist "London Daily Worker".

Latin America.

A lecturer at the NATO Defense College in Paris, Mr. Hyde is also the chairman of SETO's Committee for Combatting Psychological Sub-

Mr. Hyde has just returned from six months of living with captured communist leaders in southeast

Douglas Hyde, "fighter against world Communism", a jails are mainly from the Philippines and Malaya. Mr. Hyde was occupied with bringing many of these prisoners back to Christianity by pointing out the fallacies and lies of Communism.

> One of the main points in lectures Mr. Hyde has been giving throughout the country concerns the succes of Communism in attracting the idealism of youth, in addition to the Communists' playing upon the cyni-cism and hatreds of the frustrate

The ex-Communist, Mr. Hyde, travels 65,000 miles a year while "trouble-shooting" in the free world's fight against the growing menace of global Communism.

Mr. Hyde's lecture Monday will pertain to Communist strategy in Europe, Asia, the United States and Latin America.

For the last 12 years, Mr. Hyde has brought the benefit of his ex-periences as a Communist to as many persons as possible, through pen and voice. At present he is of a transcontinental tour through Canada and the United States. Earlie this fall, Mr. Hyde spoke at Mont real, where critics found he had an 'amazing grasp of the subject".

Mr. Hyde left the Communist party in November of 1948; he joined when he was 18. (At 17, he was a non-conformist theological student and boy preacher in England).

During the depression, Mr. Hyde was active in unemployment agita tion.

At the time of the Spanish Civi War, he organized campaigns to raise money to buy machine guns and ambulances in the fight against Franco. Later, Mr. Hyde became a Crypto-Communist within the Brit-ish Labor Party.

Mr. Hyde joined the "Daily Work er" in 1939, after having worked for other, smaller Communist newspap-ers. Several years before his split from the party, Hyde was sued for libel when he published an alleged expose of the "Weekly Review" as a Fascist publication.

Mr. Hyde has said that religious thought gaining entry through his love for medieval literature and art slowly destroyed his beliefs.

Mr. Hyde's lecture is being sponsored by the Catholic Women's League and the Catholic Information

Tickets for the lecture, at one dollar each, are available at the box office, at Mike's Newstand, and at the Heintzman Music Store, as well at the Catholic Information

## Russians To Tour Canadian Universities

their month long tour of 18 committee. Canadian Universities.

Upon arrival they will travel to Ottawa before leaving for Halifax to visit Kings College and Dalhousie, From here they journey westward until they reach Vancouver Nov. 28.

The delagation is composed of Boris Ponomarev (Po-no-mar-e-ov), vice-secretary of the Youth Organ-ization Committee; Vladimir Beloussov (Bee-low-oo-sou) a post-grad student at Moscow Architectural In-

### Communists Get Freedom of Speech

DETROIT (UPS)-Rescind ist speakers at Wayne State recently when aroused Michiganites began a petition protesting the ban's removal by th Board of Governors.

However, a student organization, in order to sponsor a communist speaker, would still need a "responsible" person such as a dean or department head, to chaperone the event.

The petition was drafted by adults in the area, but received little student support. The petitioners hope to get 25,000 signatures. Nelson A. Rockefeller, Governor of New York, has already signed.

The movement to have the ban re-
