"OUT WITH THE U-BOATS" CRIES GERMAN DEPUTY

Vigorous Prosecution of Submarine Warfare Is Urged Against England

GERMANY Must Fight Next War on the Rhine, Not in France

SOCIALISTS Oppose Extension of Submarine Warfare; Want Wilson Supported

By Courier Leased Wire. London, Jan. 10.—Dr. Gustav Stresemann, German National Liberal deputy, in a speech at Hanover on Sunday declared that Germany must emerge from the war in possession of the Flemish coast, according to an Amsterdam despatch to the Times. Dr. Stresemann said that Germany although the second strongest economical power in the world and possessing the second strongest merchant fleet, had not a single naval supporting point to serve for defense in war time.

"This war has annihilated our world trade," he is quoted as saying, "we have forfeited our colonies and our cruiser squadron is lost. It therefore for the war ended without something of our former situation altered the consequence would be the collapse of our national economy because the German coast is not again risk seeing all that he had created collapse the day after a declaration of war by England if peace is concluded without Germany possessing the Flemish coast. England is the winning and we the losing side. A neutral Belgium is an historical impossibility after the war."

Dr. Stresemann added that without the future possibility of marching through Belgium, the Germans must fight the next war on the Rhine and not in France. He said they looked for a German peace, not one under the protection of a world peace alliance. Such an alliance he maintained meant a few Algeiras congress at which Germany would have against her not only her present enemies, but a world of neutrals.

In the concluding part of his speech Dr. Stresemann laid emphasis on the increasing importance of submarines. He said that their full employment would raise the monthly toll of tonnage from half a million to a million tons. This, he said, would not only strike England in her economic nerves, but would mean famine for the English population. The speaker drew enthusiastic applause when he exclaimed: "Out with the U-boats."

Socialists For Peace. Amsterdam, via London, Jan. 10.—The German Socialists' Vorwaerts Association, has declared emphatically against unrestricted submarine warfare, according to a Berlin despatch to The Rhenish Westphalische Zeitung of Essen. The despatch quotes Herr Ebert, a Socialist member of the Reichstag, as saying at a meeting of the organization on Jan. 8th: "We expect the German Government to leave no stone unturned in support of President Wilson's efforts for peace. On no condition must our relations with neutrals risk being prejudiced by unrestricted warfare. The Social-Democracy is firmly adhering to the policy outlined in August, 1914."

Herr Ebert is also quoted as saying that the condition within the Socialist party is extremely serious. The Vorwaerts organization is not connected with the Socialist newspaper of the same name.

Weather Bulletin. Toronto, Jan. 10.—A trough of low pressure accompanied by local snow falls, extends from the Great Lakes to the Maritime Provinces, and decidedly colder weather is setting in over Ontario and Quebec from the northward. The temperature continues very low in Manitoba, but is moderate farther west.

Forecast. Strong north and northwest winds; local snow falls and colder. Thursday—Fair and decidedly cold.

Prince Golitzine is New Premier of Russia

Alexander Treppoff Resigns After Two Months of Dissension and Strife in Duma

London, Jan. 10.—The Russian premier, Alexander Treppoff, has resigned. According to the Reuter correspondent at Petrograd, both Premier Treppoff and Count Ignatieff, minister of public instruction, have resigned. Senator Kulebitsky has been appointed minister of public instruction. M. Neratoff, deputy for eign minister, has been appointed a member of the council of the Empire. Alexander Feodorovitch Treppoff succeeded Boris V. Sturmer to the premiership in November, 1916, his appointment being regarded as a victory for public opinion against so-called "unjust influences." Soon after taking office, Premier Treppoff made his famous speech in the Duma, in which he declared that the Entente Allies had agreed to the Russian claim to Constantinople and the straits. The existence of this agreement had been for a long time alleged, but never before had it been thus publicly and formally admitted. During Premier Treppoff's incumbency there has been much dissension among the members of the Duma, and the obstructionist movement of some of the members was marked by somewhat serious demonstrations.

RAIDER MAY BE SUNK

New York Hears That British Cruiser Met German Battleship

By Courier Leased Wire. New York, Jan. 10.—Persistent reports that a German raider was met in the Atlantic and sunk by a British cruiser yesterday afternoon were current to-day in well informed steamship circles. Details are lacking as to the identity of the vessels engaged and the location of the encounter. Continued on page five

Spanish Cabinet is Retained in Office by King

Assurance Given of Full Confidence in Premier, and Cabinet Accordingly Resumes Duties

Madrid, via Paris, Jan. 9.—King Alfonso today had a long conference with Count De Romanones, the premier, whose cabinet had resigned previously. Full confidence in the premier was expressed by the king, who requested that Count De Romanones continue in power. The government therefore will resume its duties with the same ministers holding portfolios. Paris, Jan. 9.—A despatch to the Havas Agency from Madrid says the government has issued a statement which explains that the cabinet crisis was due to parliamentary difficulties, which led to the prorogation of the Cortez, but that the crisis was not officially announced owing to recent events, alluding to President Wilson's recent peace suggestion note. The statement adds, the correspondent continues, that matters in connection with the note having now been settled, the cabinet hastened to offer its resignation. The Dato ministry resigned in December, 1915, owing to opposition to its proposals for military reform, and Count De Romanones formed a cabinet from the two sections of the Liberal party. He announced that he contemplated no new departures in regard to the attitude of Spain on questions of international policy.

VON HINDENBURG IS NOW PLANNING DRIVE IN ITALY

Such an Offensive is Looked For by London Military Critic Before Spring

SWITZERLAND

Can Place no Confidence in Germany's Observance of Her Neutrality

RUSSIA

Is However, Said to be Main Objective of Hindenburg

By Courier Leased Wire. London, Jan. 10.—The military expert of the Times, discussing the question of Germany's probable war plans in the near future, expresses the opinion that Field Marshal Von Hindenburg may attempt a blow against Italy before the spring finds him with their full strength. The writer dismisses the possibility of an attack on the western front as remote, but says that the German chief of staff may use his "floating balance of reserves" against General Cadorna because "twenty more divisions, added to the thirty-three Austrian divisions facing Italy would give him a good chance of doing something."

After saying that the situation in Switzerland must not be disregarded since "neutrality counts less than nothing to the Germans," the writer finally concludes that Russia will be Von Hindenburg's main objective.

"With 135 divisions on the Russian front," he says, "Von Hindenburg has the power necessary to conduct a fresh campaign with vigor, and the current operations in Roumania tend to throw back the Russian left and place the Austro-Germans in a better position for continuing the attack on Russia than they could boast last autumn. The Germans declare that they are impressed by what they term the internal disorganization of Russia, and affirm that the Russian armies are exhausted and short of war material. The Austro-German railway system is far superior to the Russian, and the German auxiliary service act will supply the drafts needed for an offensive campaign. Russia must certainly be prepared to find herself in 1917 the avnil for the German hammer."

"Meanwhile the present German design is obviously to secure the line of the Sereth, perhaps of the Pruth, and in any event the mouths of the Danube. Thereby the German line, so intolerably extended when Roumania came in, will be shortened to the least possible length. Many divisions can be restored to the general reserve and Von Hindenburg will be more free to use them where he will."

"The seizure of the lower Danube and the use of the river as a means of entrance into the Black Sea for German submarines would be an attractive program, affecting adversely not only the Russian campaign in Armenia, but also the other campaigns of the Allies in the eastern Mediterranean. We can hardly expect a winter campaign by Germany on the whole Russian front, but in May all the armies will be in movement, and Russia is not likely to exclude from her calculations the transfer of German weight to the left by rail and an advance on Petrograd in co-operation with the German navy."

The writer anticipates a sea attack by the navies of both the Central powers. "If economic conditions," he concludes, "are as galling in Austria and Hungary as they seem to be, we must naturally expect before long a violent effort by their navies to break the blockade which is stranding them. If it comes it will be delivered with all their forces united, and with the last degree of energy. Nothing must turn our minds from the constant expectation of this act of despair."

THAW AGAIN IN THE LIMELIGHT

Harry K. Charged With Assaulting High School Boy With Whip

By Courier Leased Wire. Pittsburgh, Pa., Jan. 10.—Harry K. Thaw, indicted in New York yesterday for kidnapping and assault of Frederick Grump, Jr., of Kansas City, was believed early to-day to be at the Thaw home in Beechwood boulevard, this city. Members of the Thaw family would not say whether he arrived last night or early to-day and refused to answer all questions as to the probable length of his stay.

At an early hour to-day Captain Archibald Mackell of the Detective division of the Pittsburgh police had received no request from New York or Philadelphia police to arrest Thaw. All telephone inquiries at the home were investigated and no visitors were admitted which tended to confirm the belief that Thaw had arrived here from Washington some time during the night.

New York, Jan. 9.—Harry K. Thaw was today indicted by the grand jury on three charges of assaulting Fred Grump, Jun., a high school boy of Kansas City, Mo. A bench warrant was issued for Thaw's arrest.

Thaw is accused in the indictment found today of enticing Grump, 16 years old, from Long Beach, California, to this city, and having assaulted him with a buggy whip on three different occasions at an hotel here.

The assault upon which the indictment is based is alleged to have taken place on Christmas night. The boy fled and went to Kansas City, where he told his relatives of his experience. Frank P. Walsh, one of the leading lawyers of Kansas City, took to this city and laid the allegations of the boy before District Attorney Swann.

May be in Philadelphia. The testimony of the boy and of attacks of the hotel and others was taken, and the indictment followed. As soon as the bench warrant was issued a detective started with it for Philadelphia, where Thaw is said to be now staying at a hotel. The district attorney soon after the bench warrant for Thaw's arrest was issued received a telephone message from Philadelphia saying that George F. O'Byrnes, described as Thaw's body-guard, had been arrested in that city charged with aiding and abetting his employer.

Harry K. Thaw, twice tried for the murder of Stanford White, and incarcerated at Matteawan Asylum for the Insane, obtained his release from the institution after long litigation about a year ago. Kansas City, Jan. 9.—Principals of the six high schools here and in Kansas City, Tex., said last afternoon that records of their schools failed to reveal the name of Fred Grump, named in indictments in New York against Harry K. Thaw. City directories do not reveal the name Grump. Frank P. Walsh, who was Grump's attorney, is out of the city today. MANAGER RESIGNS. Winnipeg, Jan. 10.—It is understood that at the annual meeting here this afternoon of the Union Bank of Canada the resignation of George H. Balfour, general manager, and his succession by H. J. Shaw, the present assistant general manager, will be announced. Mr. Balfour has been general manager of the bank for thirteen years.

ALLIES PREPARE FOR GREATEST UNITED EFFORT IN THE WAR

Although Germany Wants Peace, Entente Powers Prepare For Further Fighting—A Firm Stand Taken in Greece

By Courier Leased Wire. New York, Jan. 10.—The London correspondent of the Tribune cabled last night as follows: "The Allies mean business in Macedonia—that is the reason for the ultimatum to Greece. At the same time they are prepared for a co-ordination of effort on other fronts on a scale unequalled since the war opened. This is on the presumption that Germany does not want peace badly enough to meet the Allies more than half way. There is an indefinable something in the air, a belief not supported by any tangible proofs, that neither Germany nor the Allies are yet ready to put their cards on the table. It seems certain that both sides have stiffened in the last week—that both are willing to gamble a little longer. All over Europe there is a strong atmosphere of coming peace, which is bound to grow; but just now there is, also, and more noticeably, a reaction from the first big German peace push. There is no doubt that the German people want peace and that they want it more than any possible territorial gains. But the question is whether they can find some way to enforce their demands against the leaders of Prussian militarism, the junkerdom; whether they can make the army let go and the statesmen really try to find a way out. There is also a feeling that the war has attained a momentum too great to be stopped yet—that it cannot terminate without at least one more big push—probable one more from each side. No one now expects the war to last out the year, but most prophets have extended the date of their forecast whether it was expressed in weeks or months. The action toward Greece is the best evidence of their intention to strike hard and soon. It is far more completely than the recent smash at

SUDDEN DEATH

Of the Wife of Sergeant Wingard

The sudden death took place last evening at 29 James street, of Mrs. Elizabeth Wingard. The deceased who was 34 years old, was taken with convulsions. A doctor was summoned and arrangements were made to take her to the hospital, but she passed away before the ambulance arrived. Her husband is a Sergeant of the 125th, now in England. A sad feature is that five children are left motherless.

Greece Must Reply To-day

Entente Ultimatum Demands Apology From Government and Other Things

By Courier Leased Wire. London, Jan. 10.—The Greek council of ministers favors the acceptance of the terms of the Allies ultimatum, according to an Athens despatch to the Exchange Telegraph Company. Athens, Jan. 10.—The government of Greece has until tomorrow at noon to comply with the demands of the entente powers, presented in the note drawn up by France, Great Britain and Russia on December 31. An ultimatum giving Greece 48 hours to meet these demands was presented yesterday at noon.

Western Front is Now Quiet

Rainstorm There Causes Cessation of all, Save Artillery Activities

Paris, Jan. 10.—(Noon)—There were no important developments on the French front last night, the war office announces. Berlin, via Saville.—Rain has interfered with activities on the Franco-Belgian front, army headquarters announced in to-day's statement, which reads: "Western Front: 'During the rain storm that has prevailed there has been little fighting activity. Only on the Ancre were there lively artillery duels.'"

LOCAL CASES

One Heard by Mr. Justice Britton

These local cases came up at Os-geode Hall yesterday before Mr. Justice Britton: Stone and Co. v. The National Coal Company.—J. J. Harley, K.C., for plaintiffs, W. S. Brewster, K.C., for defendants. Action on promissory notes to recover \$1,400 and interest from 25th March, 1915. From Louis Stander, one of the members of the defendant firm. Judgment: The liability of Stander to plaintiffs as creditors of the firm arose when Stander was one of the firm, and in fact a signer of the note. Judgment for plaintiffs against Louis Stander for \$1,400 and interest at 5 per cent, from March 25, 1915, and costs. Twenty days stay. Stone and Co. v. Louis Stander and Mary Stander.—J. Harley, K.C., for plaintiff, W. S. Brewster, K. C., for defendants. Action to set aside certain conveyances from Louis Stander to Mary Stander of February 1, 1915, as fraudulent and void

SOLDIERS AGAINST PROHIBITION

Vancouver, Jan. 10.—Declaring that the feeling among British Columbia soldiers overseas is strongly against prohibition and that a large vote was cast against the proposed measure in the referendum, A. E. Tulk, advisory counsel for the official and anti-prohibition organization, expressed the opinion to-day that the bill would be rejected by a small majority. He has just returned from England. Kingston will be represented at the Home Entente gatherings at Toronto by Mayor Hughes and Geo. Y. Chown of Queen's University. as against plaintiff and other creditors of Louis Stander. Judgment: This case seems to me free from fraud. Judgment for defendants, dismissing action with costs, and discharging his pendens registered against any of the lands in statement of claim mentioned. Fifteen days' stay.

Gregory Rasputin Was a Necromancer

Wierder Stories Than Ever Are in Circulation Concerning the "Sacred Devil of Russia"

New York, Jan. 3.—Ilodor, the "Mad Monk" of Russia, who is finding great difficulty in getting his revelations of the Russian court published in this country, on account, as he says, of the interference of the Russian government, gave today an explanation of the murder of Rasputin, Russia's Sacred Devil, that illuminates and gives a sensational turn to the London reports of the crime.

According to Ilodor, the "Sacred Devil" was murdered for reasons having to do not only with his prophetic love affair in Russian noble circles.

The London despatches indicate that suspicions have been turned on Prince Yusupoff, and in mentioning that three attempts have been made on Rasputin's life, they refer to the death of Rasputin as finally accomplished by official intervention. The actions of Prince Yusupoff are said now to be under examination. Ilodor says that to-day that Felix killed Rasputin, and that Rasputin died "a pro-German and an arch-fiend, trying to bring evil into the Felix family."

Why He Left Russia

"I believe," said Ilodor, through an interpreter, "that Rasputin is dead. I left Russia because Rasputin was victorious in getting the upper hand with the Czar. Otherwise I would have been put to death. The first attempt to assassinate Rasputin was on July 1, 1914. The girl, Chria Huzzena, made the attempt. She was a good friend of mine. The cause for her action was Rasputin's attempt to use violence upon her. Her effort to use violence failed because her stiletto was too long. Rasputin saw to it that she was not tried, so the facts could not come out.

"Rasputin had her committed to an asylum in Siberia, where she is to this day. She was just a woman in the city of Tzarizan. Rasputin accused me of instigating the attempt, saying that I sent the woman to murder him.

A Second Attempt

"The second attempt to assassinate Rasputin occurred at the end of January or beginning of February, 1916. The Minister of the Interior sent a Russian official to me who offered me the sum of \$200,000 on condition that I hire five men for the purpose of inducing Rasputin to reveal to the public the Russian Press. The third attempt has been a success. Rasputin is dead, for political reasons as well as for romantic reasons.

Could Not Deny Connection in Facts

"In September, 1916, while in New York, I made known to the Russian Embassy that Rasputin was striving for separate peace between Russia and Germany. I was informed that Rasputin had been taken to put him out of the way. I cannot deny the connection between the two facts, namely by revelations to the English Embassy in Washington and the present assassination.

"But since Prince Yusupoff is mixed up in this affair I am of the opinion that the assassination was not merely political but that there was an air of romance in it. The family of Prince Felix Yusupoff are richer than the Czar himself. They are the rich family in Russia. In this romance the following persons are concerned:

"Rasputin, myself, Prince Felix, his wife, Erina Alexandrovna, daughter of the Grand Duke Alexander Mikheevitch, the Count Lady, Lachina, and Maria Holovina, a niece of the wife of the Grand Duke Paulo Alexandrovitch, who is an uncle of the Czar.

"In June, 1913, Prince Felix, who was concerned in this matter, married the Princess Erina. Maria Holovitch was for a long time in love with Prince Felix. She is a good friend of mine. In conversation with me, I am a priest, she often spoke to me not as in confession but as in conversation with a friend. She disclosed these things to which I refer. I told her that if Prince Felix chooses to marry another she ought not to interfere.

Could Not Reconcile Himself

"She could not reconcile herself to this. This Holovina, after the marriage ceremony had taken place, wrote letters to Lachina, saying: 'I have been deprived of my treasure but I hope that with the aid of Rasputin, he will help to alleviate my sufferings.' Lachina submitted the letter to me, asking my advice.

"I asked Holovitch to forget the past and to try to get on with her husband. By manipulating his psychological powers, Rasputin had power to induce certain men who love to forget their love, and cool down. Rasputin went to the castle of Prince Elston (Felix). By the use of psychological powers, he tried to weaken Erina's love for Felix. He did it in order to bring Felix and Holovina together. This affair lasted three years. At last Felix could stand it no longer, and put an end to it by killing Rasputin. Rasputin perished as a political fiend trying to induce Russia to conclude a separate peace, a bad man, an arch fiend, who tried to bring misfortune into the family of Prince Felix."

Ilodor made it clear to-day that he does not pretend ever to have been a confessor to the Czar or the Czarina.

"I was their friend," he said. "I come to America to tell the truth about the horrors of the Russian court and this I am now going to do through the press, though my earlier efforts have been suppressed by various forms of intervention."

Ilodor "The Mad Monk" as he was known, came to this country last autumn and announced that he was ready to expose on the lecture platform and in the magazines conditions at the Russian court. He was Rasputin's predecessor in favor of the Romanoff's and the Metropolitan bought the manuscript of his story.

Then came the first hitch. The heralded story of Rasputin did not appear as advertised. Ilodor rushed into print with a charge that the Metropolitan had been prevented from the publication of the story by a visit to the offices of the magazine which in reply declared that the story had to be held up because of Ilodor's lack of documentary evidence of some of his most serious charges.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat If You Feel Backache or Have Bladder Trouble—Salts Fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them of uric acid by means of bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush of the body's uric acid waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and is used by two generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

H. A. Carter Elected Reeve Over Chas. E. Misner, Other Simcoe Items

Simcoe, Jan. 10.—In the re-shipment elections held here yesterday, H. A. Carter defeated Chas. E. Misner by 110 votes.

The result by wards was:

Carter	66	74	52	70	66	328
Misner	51	45	27	47	18	218

How doubtful matters were up to the last moment may be gathered from the fact that Mr. Carter, who left at five o'clock for St. Catharines, told us as he boarded the car that he feared defeat.

Another broken soldier has reached his home unannounced and without a word. Yesterday morning there arrived and joined his family, Joseph Del Salvo, an Italian who worked with the Dominion Cannery here and enlisted on Feb. 8th, 1915. He went overseas with the 1st Canadian Trench Battalion and was wounded in his head and a gash in his shoulder. Mrs. C. E. Innes who rode in the same train became aware of the presence of the unfortunates and passenger on arrival at the depot, offered him a ride to his home in her car which was in waiting but the modest fellow courteously declined and hurried to the shortest route to greet his wife and babe in their humble home on Queen St. North.

Del Salvo has a bad wound in his head and a gash in his shoulder but to protect the infant and himself at home, his loyalty will be recognized no doubt one of these days.

The sheep of Wallace Green of Tooleville have been ravaged by dogs this week. The sheep industry is being abandoned in the north of the county. Up to the present we have not learned of any farmers putting a small bell on each of every fourth or fifth sheep in the flock as a deterrent, though some think that this device will effectually ward off dogs which do their work in silence.

Charles Hunter of Wycombe, while driving a load of logs to Delhi, got into trouble with a horse on the "Dicks Hill." The horse slipped on the icy road and upset. Mr. Hunter was caught and rendered unconscious. He was when found taken to the hospital at Delhi and is reported to be suffering from severe injury to the base of the skull.

Mrs. W. B. Tomlinson has received her son, L. Corp. Gordon Tomlinson, of the Middlesex Batt., now overseas.

Knowledge of a splendid gift of cigars for the signallers of the regiment sent by Jack Sutton, formerly of London, in the Chicago office of the Traveller's Ins. Co. To present was sent through Mr. W. B. Tomlinson and along with it a similar gift from a survivor of the King's Light Horse, the latter inscribed "From an Old Soldier, who knows a soldier's need." The smokes arrived in time for Christmas distribution.

Word has been received that the \$100 in cash forwarded to the Canadian Field Comforts Commission for "Santas" for the men of the 133rd was used for the purpose intended and reached the men with surprising regularity.

Charles Hunter, Wycombe, with L. D. D. E. here are much encouraged by the interest and receipt of letters showing that everything forwarded reaches the mark.

During December 244 pairs of socks, 2 dozen hospital shirts, 2 1-2 dozen pairs of handkerchiefs, of total value \$346.00, were forwarded. Sox for distribution to men of the 133rd now in France were received as follows: Ptes. Hammond, Wakefield, McCarr, and Bridgwater, 15 pairs each; Ptes. Dewar, Messacar and Clayton McColl, 30 pairs each. Yesterday 60 pairs were shipped to H. Leamon, Lorne Bowyer, H. R. Conner and Geo. Mialle, each 23. This month \$50 was sent to the British Sailor's Relief Fund and the usual \$50 to field comforts.

The Grand F. Stuart-Whyte's production of "Aladdin" which comes to the Grand Opera House, is making a great hit on its Canadian tour, as the following clipping from an exchange paper will show:

"Aladdin and His Wonderful Lamp" yesterday awakened Canadians to what they have missed in not having oftener with them the pantomime that at certain seasons of the year brings such an amount of pleasure into the lives of old and young in the Old Country; and the audience that filled every seat of the theatre at afternoon and evening productions showed the wizardry of a name, notwithstanding learned disquisitions to the contrary. Past experience led many to attend; they did and were conquered by the fascination of the old story in a new dressing. And what a brilliant and fascinating dressing it is. Beautiful scenery, beautiful costumes and tuneful music satisfy the eye with a variety of coloring as charming as in good taste, and provide a spectacle delightfully pleasing. But excellent as the setting it would not make the pantomime. Even the most resplendent scenic effects without that play of wit and humor, if holding the mirror up to nature, if not as the Bard of Avon meant it, that makes 'the play the thing,' would be 'stale and unprofitable' to those who came to be amused and entertained. One goes to the pantomime to laugh, laugh at the follies of the other fellow, perchance at himself, unconsciously, in seeing the other fellow made a but of. All the same, all laugh, that is the business of the pantomime, if the word can be used in this sense, and that is what "Aladdin" has come to do."

The Supreme Rules

To successfully sell goods there are two outstanding rules to follow:

- 1st. ESTABLISH THE QUALITY OF YOUR PRODUCT. The best advertising on earth will never sell an inferior article.
- 2nd. ADVERTISE. And do it continuously. People have short memories these days. Don't think for a moment that because you or your business are well known you do not need to advertise.

Preparation For Peace in the Prison Camp

Interned Aliens on Isle of Man Study Trades of all Kinds For After the War

Douglas, Isle of Man, Dec. 15.—(Correspondent of the Associated Press)—They are busily engaged in preparing for peace in the prison camps on the Isle of Man.

Here are nearly 25,000 German and Austrian civilian prisoners. Many of them have been residents of the British Isles for ten or fifteen years and expect to go back to their civilian employment as soon as peace comes. Others have been in England for much shorter periods and plan to seek fresh fields.

Two years of imprisonment has a sobering effect on the most frivolous and the frame of mind of the interned camp prisoner is almost uniformly serious. Some are learning new trades, others mastering new languages, others studying the course of the war in map and law book with a view to being on the spot for post-war developments of business and commerce.

Most of this preparation for peace is being done by the prisoners themselves. Their teachers are all from their own number, and much of the equipment for the schools and workshops have been purchased through their own means.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, watering, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant anesthetic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

GRANT OF \$1000 TO THE 215TH

Is Made by the Government For Recruiting Purposes; Other 215th News

An enthusiastic meeting of the Haldimand County Recruiting League was held in Cayuga yesterday, at which Lt. Col. G. H. Williams, the chief recruiting officer for military division number two, was present, as well as a large number of the representative residents of the county. The 215th battalion was represented by Lt. Col. H. E. Snider and Lieut. Corrie. The meeting was held in the evening and was held in the evening and was held in the evening.

Two committees were organized on recruiting in the two divisions of the county, and these committees undertook to arrange meetings throughout the district to stimulate enlistment. The League will aim to secure enough men to supply a company for the battalion, and appoint a committee to approach the county council for the purpose of obtaining a grant of \$50 to assist in the undertaking. A registration of the entire county has been made, and with this aid, it is expected that the work will be greatly lessened, as much of the unnecessary details will be eliminated.

While in attendance at the meeting yesterday, Lt. Col. H. E. Snider was given the assurance by Lt. Col. Williams, that a grant of \$1,000 had been authorized by the Dominion government to the 215th battalion for recruiting purposes. The O. C. immediately making application for the sum. Lt. Col. Williams will also be present at the meeting of the Brant county recruiting league at 7.30 to-night in the Y. M. C. A.

Notes.

Captain S. E. McKegney has been recalled from the P.S.I., to resume his duties as chaplain of the unit, and also to assist in recruiting, in which active steps are anticipated for the near future.

Captain Mattesso and Lt. Bevan from headquarters are to leave on February 6th for the purpose of lecturing to the officers and N.C.O.'s of the battalion on trench warfare.

The regular semi-weekly route march of the battalion took place yesterday afternoon, extending to about six miles, the usual distance covered in marches of this nature. The route chosen was around the outskirts of the city, the men returning by way of the Cocksbutt road shortly before 4 o'clock.

Four N. C. O.'s and 36 men have been detailed to leave on Sunday for a course in bombing at St. Catharines, commencing on Monday. For the past few weeks, almost without exception, similar detail has been dispatched to St. Kitts to attend classes there, leaving the local strength of the unit somewhat depleted.

In the orders issued this morning attention was drawn to the fact that the National Service cards are to be signed by all members of the C. E. F. permanent force, and permanent staff, and all officers, attached to headquarters.

One recruit was taken on the strength of the battalion yesterday, the latest acquisition being H. Poyless, a married man, aged twenty-one years, who resides in Brantford.

The following is an extract from camp orders, issued January 8th: It has again come to notice that sergeant-cooks and other staff sergeants are wearing unauthorized badges. Officers commanding units are requested to hold periodical start parades and to note and correct any such improper practices."

Music and Drama

THE GRAND

A musical comedy which is possessed of more genuine plot and comedy than the average farce comedy, was witnessed at the Grand Opera House last evening by a large sized audience in "The Only Girl," one of the hits of the dramatic season. The plot of this story has to do with the matrimonial ventures of three chums, and the complications which ensue when their three wives meet for the first time.

Interest is added by a fourth friend of the husbands, who openly proclaims himself not a woman hater, but a woman avoider, and who takes as his collaborator in writing an opera, a girl of exceptional musical talents as well as personal beauty, with whom he decides to associate professionally only, but he also finally succumbs.

The honors of the evening fell to Mr. Torrence, an elongated Scotchman. In addition to an odd physical appearance, he is also the possessor of exceptional abilities as a comedian. Miss Carson, as Patsy, a subterfuge, was delightful and the work of Alfred Fisher as a valet was excellent. The rest of the cast

Hair Coming Out?

Dandruff causes a feverish irritation of the scalp, and the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

Paris, Jan. 10.—The water power of the Alps, the Pyrenees and the central mountainous region is playing a big role in the military effort of France, and will have an even greater share in the after-war economic struggle.

Many new hydraulic power plants born of the war needs, are turning out shells, chemicals and other necessities for the army. Many others born of the coal famine and its lessons will replace steam power after the war.

France utilized thirteen per cent. of its total estimated natural water power in 1914. She was utilizing more than twenty per cent. in July of this year, and the proportion is every day increasing. Competent engineers fix at 4,600,000 horse power the energy France could secure from its water falls at low water, while 9,200,000 horse power is the estimate for average seasons. Ray Keating Was Easy For Tris Speaker

Mighty Indian Succeeded, Where all Others Failed in Dethroning Ty Cobb

Tris Speaker achieved in 1916, what many had considered as almost impossible—the dethroning of Ty Cobb as the batting king of baseball. For 10 years, Ty reigned supreme. Wonderful batsmen rose up over that sweep of years and tried to wrest from him his crown. But none succeeded. LaJoie, Jackson, Collins, Baker, McInnis and a host of others tried to rule in the batting world—but their efforts were vain. "Ty" is unbeatable," the experts confidently declared, when the 1915 season began. "No matter what the other fellows bat, he'll always hit just enough beyond their mark to retain his laurels."

But when the October flag dropped—when the terrific race was run—Tris Speaker led the attack on the mighty Indian outfielder and succeeded where all the others had failed during a decade—and more. "How did Tris accomplish this trick?" is the question that is being asked on all sides. "Who was the easy mat for Tris among the pitchers? From whom did he gather most of his hits?"
Answers that the Records Tell
Here below is the answer—one that was found after weeks of search and checking through the newspaper files. It's the story of the new batting king—and how he rose to the throne.
The first table, showing how Tris battled against each club during 1916, demonstrates that he found the Yankee pitchers the easiest of all to solve, despite the fact that

the New York staff was supposed to be an excellent one. In 22 games against the Yankees Tris accumulated 38 hits for an average of .469. The Athletics' moundsmen also were "marks" for him, and yielded 419 in 19 contests.
The poorest batting Tris did was against Washington. He hit that staff only for .324 in 20 games. You'll probably think that his falling there was due to the fact that he had to bat against Walter Johnson in seven of those 20 games. But you're wrong. Speaker had little trouble with Johnson. He went to bat against the "Speed King" 20 times in those seven tussles and clubbed the Johnson offerings for 8 hits, giving him a flat average of .400—some hitting against such a wonder as Johnson.

Keating His Softest Mark
Ray Keating of the Yankees was the "softest" of them all for Tris. He faced Keating three times—for an average of 1.000. But he met Keating in only one game. Of the men who pitched against him regularly, Bob Shawkey of the Yankees, helped most to fatten his average. In five games against Shawkey, the Cleveland slug got nine hits in 17 times at bat—average .571.
Harry Coveleske was the toughest nut for Tris to crack. The Indian met the Tiger star 11 times in three games and got but one single, giving him an average of only .091. The odd feature of this is that Tris hit the very same pitcher for a .379 in eight games in 1915.

THE SITUATION

Greece still continues to be in the limelight with the Allies doing some more ultimatum. This time it is declared that all previous demands must be met within forty-eight hours or else Constantine and his advisers will have to stand the consequences.

The new offensive of the Russian forces on the Riga front promises well, and it is recorded that the Hunns are hastily reinforcing their lines in this region. By clever strategy, it is related that the Czar's forces succeeded in capturing enemy trenches on a thousand yard front near the Riga bridgehead.

Fighting in Roumania is still of the fiercest description. Berlin reports further advances, but the Russo-Roumanians continue to wage a stubborn retreating fight. The enemy has reached the Putna river, but Russian forces still hold one of the banks.

The London Times military correspondent, commenting on the German plans, says that Germany's forces now total 6,516,000, and that 2,700,000 men are opposed to the Czar's forces. He alleges that it is Hindenburg's plan to make a big offensive against Russia in the spring.

GERARD'S SPEECH

One of the big puzzles in connection with President Wilson's always dubious course with regard to Germany, has been the motive back of his recent peace conference proposal, on the amazing basis that the belligerents should define what they were fighting for. Surely the veriest school boy knows that the struggle, precipitated by the Hunns, is that of military dominance versus world liberty, and for the occupant of the White House to pretend ignorance would be a joke, if the struggle involved were not so ghastly.

That Wilson is actually in earnest with regard to this olive branch attitude towards the Hunns would seem to be verified by a speech recently made by James W. Gerard. This gentleman is U. S. ambassador in Berlin, and during a recent visit home he had many conferences with the President. On his return to the Kaiserite capital, he was tendered a dinner by the American Association of Commerce in that city and he said during the course of an address:—

"Never since the beginning of the war have the relations between Germany and the United States been so cordial as now. I have brought back an olive branch from the President. So long as Germany's fate is controlled by men like Bethmann-Hollweg, Hindenburg, Foreign Secretary Zimmermann and the other civil, military and naval chiefs, the relations between the two countries are running no risk."

Pretty language that, to come from the representative of a country whose citizens, including women and children, have been ruthlessly murdered on the high seas without reparation, and a country moreover, in which Hun agencies have been actively at work to the menace of the State. The fact that Gerard is in close personal touch with Wilson adds still further to the appalling and almost inconceivable spectacle. To the ordinary outsider, Wilson would seem in this thing to be a man who has been bereft of his senses.

CANADA'S NATIONAL FINANCING

Mr. F. W. Field, writing in the Monetary Times points out that Canada's natural financing during the war has been carried out in a most satisfactory way. During the first half (to September 30th) of the current fiscal year which will end March 31, next the national revenues increased approximately \$30,000,000 as compared with the corresponding period of the previous year. The largest proportion of the increase was due to customs revenue. The net debt between September, 1915 and 1916 increased \$200,000,000. Our share of the war cost \$60,000,000 more than it did for the first six months of the previous fiscal year. The national revenue at the end of the current fiscal year will be well over \$200,000,000 and that will allow the application of \$50,000,000 against the principal outlay on war account after all interest charges have been settled. Through the profits of a much larger production and export trade, of national and individual economy and the guidance of a capable finance minister and the Canadian Bankers the nation's finances in these strenuous days have been handled in such a way as to enhance considerably our already high credit abroad.

From April 1st, 1916, to March 31st, 1917, the Dominion government will raise by way of loans, from \$200,000,000 to \$225,000,000. The loan negotiated in New York in March accounted for \$75,000,000. Taking the maximum possible requirements of \$225,000,000, there was still to be raised during the present fiscal year \$150,000,000. Assurances were given by the federal government in connection with the \$75,000,000 New York loan that no further offering would be made in the United States during the calendar year 1916.

While Sir Thomas White has made an arrangement by which he can draw upon an authorized credit of \$150,000,000 established by the Imperial government, the Dominion government will endeavor to utilize this credit as little as possible. The issue of the September war loan of \$100,000,000 left a sum of \$50,000,000 still to be raised in order to make up the total loan requirements for the current fiscal year. This loan will probably be raised in New York early this year.

The Dominion government has declared its financial policy in war time. With a country such as ours, rich in potential resources, certain of future development, and great expansion of production and population but without at present large accumulations of wealth, the government assumes that the nation is justified in placing upon posterity the greater portion of the financial burden of this war, waged as it is in the interest of human freedom, and for their benefit in equal if not in greater degree than for our own. "Canada in future years of peace," the finance minister has said, "with the prosperity which will be her heritage from the development of unbounded resources, will be well able to meet the interest and sinking fund charges upon such debt as we shall be obliged to incur in defence of our country and its liberties."

Should our indebtedness on account of this war reach even \$1,000,000,000, with annual interest charges of \$50,000,000, these charges with a substantial amount added yearly for a sinking fund, could be met provided strict economy be practised by governments, from the future revenues of the Dominion.

RE-UNION OF OLD MOUNTED POLICE Former Members of the R. N.W.P. Meet on Active Service in London

(By J. W. Pegler, United Press Staff Correspondent.) London.—(By mail to New York).—A little group of former Canadian Northwest Mounted Police came together to-day in a brief reunion on the long trail of the war.

Together they fought the merciless Arctic struggle, the northernmost outpost of law and order. Before a hearth fire in Reggie Moreton's drawingroom they traveled the old snow trails again.

Moreton, known as "Dick" in the northwest, has now retired to private life and less strenuous work for his country. In his home at Kingston, a suburb, he holds open house for his old pals, drawn from odd corners of the globe by the magic of the war.

"Lizzie" Jacques came to London from a training camp to meet the others, but Sergt. Major "Peggy" Hope spent his leave and returned to France before Jacques arrived. "Lizzie" is only his "service" name; he is really E. M. Jacques, a lieutenant in the Canadian-American fourteenth United States Infantry. Sergeant Harry Walker, 84th Canadian battalion, is the other voice in the accidental round-up.

"Hope was magistrate, mayor and midwife among the old-timers here in Fullerton, Hudson Bay," said Moreton. "He was the farthest north tribunal, a week's ride from the nearest white settlement. "Walker left the force several years ago and started to make his fortune with a farm of silver foxes. He caught a pair and caged them up in a fox run with wire running deep into the ground. With the little fox juniors in good health, he had a good business."

"One day he went into Dawson and learned that war had been declared. He never saw the foxes again—just turned them over to a friend—fortune, future and all, to join up. "We were in the riding escort that conducted the present King and Queen of England 7700 miles overland during their tour of Canada. That was a parade job. But I rode further than that in the Fournier and Leblanc murder case, which wasn't any parade."

During the coronation tents were pitched in Moreton's garden in London, and in the procession were kept busy with a social program of two weeks. They carried back reports of "Dick" and the men of the force that rattle up if he hears about them. The present meeting is short. Hope has been eighteen months in France before coming here and Walker is considerably over army age. "Hope will never be hit," Moreton said. "Not Peggy. He's the luckiest devil on earth."

Engineers Get More Men

The work of securing recruits locally for the Canadian Engineers, is progressing as favorably as can be expected under the circumstances with so much competition from other sources. Four men, Cecil Rutherford and R. M. Saunders of Burford, Glenn Hyde of Paris and Charles Pattullo of this city were sent down to Toronto yesterday morning, this being the second draft of four to be sent to Toronto since the opening of the local depot.

A large number of posters, explaining the work of the engineers have arrived from headquarters and will be displayed in prominent places throughout the city. A large sized list of eligible men for service in their branch of the service has been received by Sergt. Brooks, who is in charge of the local depot, and it is his intention to write to those men, and then get into touch with them personally. Several prospects are in view, and results are confidently expected within the next few days.

A celebration was held in Ramachandrapuram, India, recently, in honor of Miss S. I. Hatch, who has spent thirty years in the Canadian Baptist Missionary service.

Immanuel Baptist Revival

Dr. Spencer had an attentive and good audience last night when dealing with the subject, "Will a man live again?" The Scriptures was the standard of appeal, not human opinion. Job, David, Isaiah and Daniel explicitly affirmed that man would live after death. Paul, Peter, John and Jesus declared this. The beliefs of ancient peoples, such as Egyptians, Babylonians, indicated the trend of the human mind to immortality. The ordinances of the Christian church proclaimed it. The Christian at death entered into Christ's presence. There was no hope for men who died in their sin. The doctrine of a second chance was not in scripture.

The subject was well illustrated and calculated to instruct and build up people in the faith. The singing was bright, and the atmosphere of the meetings is now promising. Lieut. Lancelot Empson, of the Canadian infantry, killed on New Year's Day, left England five years ago to take an important position in a Montreal manufacturing company. The definite announcement that E. H. Southern never again will appear on the stage, was made in New York by the actor's physician, Dr. Joseph B. Bissell.

Laid at Rest

McKellar-Wiley. Large crowds of subdued and reverent spectators witnessed the double funeral of the late Mrs. McKellar and her daughter, the late Mrs. Dr. Wiley, which took place yesterday afternoon under the most solemn circumstances. The last sad rites at the house, 164 Park avenue, were conducted by the Rev. T. McCintock, pastor of Alexander Presbyterian church, assisted by the Rev. W. E. Bowyer, who read the lesson and the Rev. W. E. Baker, who conducted the prayer, while the Rev. W. E. Bowyer, who read the lesson, "Safe in the Arms of Jesus" was beautifully rendered by Mrs. Barton and Miss Miriam Heath. The officiating clergyman at the grave were the Rev. D. T. McCintock and the Rev. W. E. Bowyer. The attendance at the funeral was of the largest and most impressive nature, the members of the city council attending in a body and other prominent bearers. Mayor Bowley, who was unavoidably absent, was represented by Ald. Symons. A wealth of beautiful floral tributes bore eloquent testimony to the sympathy extended by countless friends to the bereaved relatives in their hour of sorrow. The pall-bearers for the remains of Mrs. McKellar were Messrs. D. Adams, H. Bond, E. Cooper, J. L. Dixon, T. R. Logan, T. J. Rogers, and for Mrs. Wiley Messrs. J. G. Liddell, A. H. Revival Services at First Baptist

The service at the First Baptist was one of the very best in this present series. Rev. Mr. Baker preached with more than usual earnestness and power. His subject was "How old are you?" a question strikingly wide the various phases of a man's life were dealt with in turn and the peculiar dangers and opportunities before him in each stage of his pilgrimage. There is a natural birth and a spiritual birth said of the sinner and the vital question of life has not to do with the physical birth but with the spiritual. All were earnestly urged to come to Christ at once. Mr. Stewart Sanderson sang in ringing voice, "Send the Old Time Pentecost," and "Dare to Do Right." This evening Rev. Mr. Baker will preach again and Miss Anguish will sing. The public is most cordially invited.

GOOD BALANCE ON HAND

At End of the Calendar Year Satisfactory Showing of Affairs of Brantford Hospital

The Hospital Governors met yesterday afternoon. Present, Messrs. C. H. Waterous (chairman), Geo. Watt, G. Kippax, Dr. Secord, J. Sanderson, R. Sanderson, A. K. Bunnell, Ald. Symons, F. D. Reville.

A large amount of routine business was transacted. Mr. Bunnell, secretary-treasurer, reported that Brantford Township Council and the County Council had increased their grants to \$400 and \$1200 respectively. They had each received a deputation in the matter in a most kindly way, and had shown a cordial interest in the institution. Mr. Bunnell also reported that for the calendar year, ending Dec. 31st, the revenue of the hospital had been sufficient to meet all expenses with a satisfactory balance on hand at the end of year. This is the first time that such a satisfactory showing has been made to the extent named, and there were mutual congratulations.

Extracts from Superintendent's Report, Month of December Admissions 145; discharges 152; births 9; deaths 9; isolation 5; operations 78; patients in residence, 82.

As usual with hospitals, we were quiet during the holiday season; every patient who could possibly be discharged being allowed to go. The ones remaining had a generous Christmas dinner. A list is appended of the friends of the hospital who so kindly contributed toward it: Mr. Frank Cockshutt, a turkey; Mr. T. Minter, a turkey; Harmony Lodge L. O. O. F., material for plum pudding and \$3 in place of the usual turkey; Mr. Morris, Vice-Pres., Penman's Limited, check for \$10; Mr. Kippax, 3 doz. grape fruit; Hygienic Dairy, 2 quarts whipped cream; Mrs. Geo. DRINK HOT WATER BEFORE BREAKFAST Says you really feel clean, sweet and fresh inside, and are seldom ill.

TO-morrow morning, immediately up on rising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning-stomach-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health necessity for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do. The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

DRINK HOT WATER BEFORE BREAKFAST Says you really feel clean, sweet and fresh inside, and are seldom ill.

TO-morrow morning, immediately up on rising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning-stomach-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health necessity for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do. The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

Further Plans Laid out by Government

Further plans were explained at the semi-centennial reports from the various progress is being made, entertainment committee, dell.

In relating what had been done, Mr. Liddell stated that prominent citizens, and after careful consideration, reached a decision to be staged during the first day of the celebration.

He submitted copies of the programme which he had explained the details of and other members of the committee and finally authorized Mr. Liddell to go ahead and to carry out the plans as laid out. The following is a copy of the programme, and while some changes will doubtless be made later, it is not expected that the main idea of the programme as by the entertainment committee be eliminated.

Mr. Liddell explained that the occasion of the signing of the declaration of independence, and later entries into the Dominion of the remaining provinces. The actor of the celebration will be a pageant throughout, and is expected to cover between two hours and twenty minutes, and two hours a half.

A suggestion was offered by A. T. Whitaker whereby the celebration might be extended to include the remaining provinces, and from which benefit might accrue to Brantford by means of applying to the government to issue a special stamp on the occasion, as had been done in the case of the Quebec Tercentenary, and while there would be financial returns locally, it is thought that the mere fact of a plan being first advocated by

Programme For Semi-Centennial Pageant

Further Plans Laid for Celebration of Anniversary—Government Support May be Asked

Further plans were laid at last night's meeting of the executive of the Semi-Centennial committee, held in the Public Library. Reports from the various committees were submitted, showing that progress is being made in all departments, especially so by the entertainment committee, under the chairmanship of Mr. Jas. Liddell.

In relating what had been done by the entertainment committee, Mr. Liddell stated that he had, after conferring with several prominent citizens, and ascertained their opinions on the subject, and after careful consideration of the entire question by his own committee, reached a decision as to the prospective form of the pageant to be staged during the afternoon and evening of Monday, the first day of the celebration at least.

He submitted copies of the programme which he had in mind, and explained the details of same to the other members of the executive, with the result that they were unanimous in their approval of the programme, and finally authorized Mr. Liddell to go ahead as he might see fit, to carry out the plans as laid down by him. The following is a copy of the programme, and while some slight changes will doubtless be made later, it is not expected that the main idea of the pageant as outlined by the entertainment committee will be eliminated.

Mr. Liddell explained that the pageant had been planned to depict the occasion of the signing of the later entries into the Dominion of the remaining provinces. The character of the celebration will be patriotic throughout, and is expected to cover between two hours and twenty minutes, and two hours and a half.

A suggestion was offered by Mr. A. T. Whittaker whereby the celebration might to some extent be nationalized, and from which some benefit might accrue to Brantford by means of applying to the government to issue a special stamp for the occasion, as had been done at the time of the Quebec Centenary, and while there would be no financial returns locally, it was thought that the mere fact of such a plan being first advocated by this

SERIOUS BLAZE IN QUEBEC CITY

Conflagration Threatens Block There; Over \$45,000 Damage

By Courier Leased Wire.
Quebec, Jan. 10.—Fire that broke out shortly before 7 this morning in the crockery store of Renard and Company, St. Paul street, quickly spread through the entire block and is at present gutting the premises of A. J. Turcotte, wine dealers, also threatening the warehouses and offices of the Frost and Wood farm implements. So far, no one has been hurt, but the damage will run to over \$45,000.

The flames are getting beyond the control of the firemen, and at 8:30 the fire had broken out in the warehouse and offices of the Frost and Wood Company, farm implements and are now threatening the large block of the Mechanics Supply Company, where nearly a quarter of a million dollars worth of goods are stored.

GUARDIAN OVER PRINCESS LOUISE

Belgian Princess of Note Again in the Public Eye

By Courier Leased Wire.
Amsterdam, via London, Jan. 10.—According to The Rhenish Westphalische Zeitung of Essen, Princess Louise of Belgium has been put under a guardian at the instigation of Archduke Ernst Gunther of Schleswig-Holstein, a brother-in-law of the German emperor. Archduke Ernst is assistant to the governor-general of Belgium.

Princess Louise of Belgium is the oldest daughter of the late King Leopold and the divorced wife of Prince Philip of Sax-Coburg and Gotha. She has been constantly before the public for several years on account of her love affairs, her quarrels with her family and her sensational extravagances.

LIQUOR NOT TO BE SOLD IN COLUMBIA

Sale Prohibited by Passage of the Sheppard Bill in U. S. Senate

Washington, Jan. 10.—The Sheppard prohibition bill, forbidding the sale of intoxicating liquor in the district of Columbia, but allowing small importations for personal use, passed the senate yesterday.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongues, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

EQUAL SUFFRAGE AND PRES. WILSON

Democrats Have Done More For It, He Says, Than Republicans

Washington, Jan. 7.—Renewed pleas to President Wilson to support the constitutional amendment for woman suffrage were made at the White House today by a delegation of three hundred members of the Congressional Union for Women Suffrage.

The president told the women he could not understand why more suffragists did not realize that the Democratic party was doing more for them than the Republican party. He said he had always done his best for the movement, and would continue to do his best.

A REFUGEE FROM SOUMAGNE

A True Story of the Frightfulness Practised by Germany in Belgium

The dark clouds, where, to the north, they met the horizon, were stained a deep red, as though, touching the earth, they had become soaked with blood.

The fugitive, a girl of eighteen, her black dress torn to rags, stopped for a moment under cover of a hedge. Her quick sobs of breath witnessed to the wildness of her flight. Between her and that one luminous spot that marked the burning village of Soumagne, and dove crimson the fast-falling night, lay two miles of flat, sombre country. Over rough, stubble, over dense willow hedges, across fields ploughed into hardened ridges, she fled without stop till now.

When the soldiers—those terrible men with the long grey coats and the death-stare and cross bones blazoned on their caps—had first ridden into the village, she had hid behind an outhouse, nearby the old home farm. And later, when the marching soldiers, the infantry, followed the riders, she had not dared to show herself. They were so many—and terrible stories had come from Limburg that very morning.

She had not moved even when the soldiers with loud, sharp voices, had summoned all the villagers to leave their houses, and stand in one long line down the centre of the village street. Even when her mother and her three brothers, with little Frans clinging to her mother's skirt had been beaten and pushed and thrown into the road with the rest of the village people, she had remained mute and spellbound. And when the soldiers had fired a volley into the very midst of the helpless villagers, and when her mother and one of her brothers fell backwards, blood flowing, she had not moved.

But when the soldiers rushed in upon them, and when she saw their red bayonets stabbing in and out, and little Frans impaled and thrown right over the shoulder of one huge butcher, like a sheaf of wheat from a pitchfork, she had fled she knew not whither, but away and away from those long, red tongues of stabbing steel, dripping blood.

Desolate, homeless, kinless, heart-broken, a figure typical of the faithless misery of her country, she stood there looking back towards her home in the burning village of Soumagne, by the light of which a Prussian officer wrote in a diary that passed later into the hands of the Allies: "The inhabitants without exception were brought out and shot." Die Binwohner wurden samt und sonders herausgeholt und erschossen.

Tens and tens of thousands of fugitives, such as this poor girl, victims of deliberate and cold-blooded "rightfulness" are to-day face to face with death by starvation, the last act of the tragedy through which they have lived for two years.

TO REBUILD THE RHEIMS CATHEDRAL

This Will be Undertaken as Soon as Possible

Paris, Jan. 9.—Albert Dalmeier, under-secretary for fine arts, made a brief statement today regarding the Rheims cathedral, which, it has been reported, the pope is anxious to have restored, and has asked permission to this end from the German authorities.

"Orders were given by the French government for provisional repairs to the roofs of the cathedral in Autumn, 1914," said M. Dalmeier, but we were unable to begin work without an agreement with the military authorities, and they begged us to do nothing. They pointed out that the cathedral was still under German fire, that from Nogent le Bassee, where the batteries firing on the town were installed, everything that passed could be distinguished—and that workmen on the cathedral would therefore be sure to be observed and fired upon. When the situation permits, the work will be undertaken."

John "Red" Murray, the former New York Giant player, who last year held down one of the outfield positions for the Leafs, has been given his outright release by the Toronto club, and will act as manager of the Elmira, New York State club, the coming season. Murray was a free agent when secured by the Leafs last summer.

The new Elmira manager, accompanied by several of the directors of that club, arrived here yesterday and met President McCaffery in a conference. The latter had no inkling that "Red" was contemplating being a manager, but immediately gave him his release when confronted with the fact.

Charged with causing the death of Elizabeth Ratchiff, his sweetheart, by injecting air bubbles into an artery, Roy Hindlitter is on trial at Olney, Illinois.

Scaled to death in a bathtub was the fate of a baby in New York, the mother having neglected to test the heat of the water before placing the child in it.

SOME FOULS ARE ACCIDENTAL

And Should Not be Counted Against the Batter, Says Connie Mack

"There is one rule which should be changed," says Connie Mack. "That is the one covering the case where a pitched ball accidentally strikes the hitter's bat. It usually works an injustice no matter whether it results in a fair or foul hit."

"Frequently a batter is forced to dodge a wild pitch. It often happens that his bat comes in contact with the ball, which may roll fair or foul. If it is fair the batter seldom can recover his balance in time to have a remote chance of beating the ball to first base. Should it happen to be the first or second foul it is a strike."

"I believe the umpire should be allowed to use his judgment and if he decides the batter had no intention of striking at the ball it should go as a ball and be scored as a wild pitch. In other respects, the foul strike is entirely satisfactory."

"The suggestion that but three balls be allowed is ridiculous. Few pitchers to-day try to 'work' the batter in that way. They all try to slip the ball over the center. If not it would be a fine walking match for the spectators to witness, as the batters would naturally wait the twirlers out."

"To do away with bunting would spoil the science of the game. Many a hard contest is decided on a skillful bunt."

"I am opposed to any radical changes in the rules. The public is well versed in baseball and would not intelligently follow the game if many changes were made."

NO LAWYER NEEDED

During and after the American Civil War a horde of pension lawyers arose who filled the halls of Congress with clamorings for larger and larger pensions to their clients.

In Canada so far there has been no such development. The Canadian Patriotic Fund has acted for the woman bereft of her soldier husband and has set in operation all machinery necessary to secure her the pension a grateful nation is proud to give to her.

It has constituted itself the poor woman's lawyer, her pension agent, her guide and friend—and all in the name of Patriotism, without money and without price.

A fireman's hose attached to a chimney afforded a convenient and safe escape for Mrs. C. B. Jones of Madisonville, N.J., who escaped from a burning house by sliding down the hose.

John Erdley, of Manhattan, Kansas, is paying his way through the State Agricultural College by the milk from his three cows, which pays for his board and lodging and gives him spending money.

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, does not eat heartily, full of cold, or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first

Beware of counterfeit fig syrups. Ask your druggist for a fifty cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

PARIS COUNCIL'S FIRST MEETING

Address of Mayor-Elect C. B. Robinson Deals With Many Matters

Paris, Jan. 9.—(From our own correspondent.)—The inaugural meeting of the Council was held at 11 o'clock yesterday morning, with Mayor C. B. Robinson in the chair. The following members subscribed to declaration of office:—Reeve, Edward Pitts; Deputy Reeve, Isaac Stewart; Aldermen, John A. Blake, W. D. Daniel, James McKay, and C. E. Walker. The Mayor, in suitable terms, extended congratulations to the members elect, after which he made the following inaugural address:—

"At this, the inauguration of our 1917 Town Council, I wish to express my deep appreciation of the opportunity and privilege of serving our people. In this, as Councillors, I am sure you will join me, and that in the administration of the affairs of the Town, which has been placed in our hands, we may be actuated with the one desire only—that of promoting the welfare, comfort and happiness of our fellow citizens and the beautifying of our Town.

While other Municipalities have suffered from disastrous fires and epidemics of disease, we have been free from both, the abundance of pure drinking water being responsible to a large degree for the good health that prevails generally.

With regard to the finances of the Town, as you are aware, our tax rate last year was 34 mills in the dollar. This should yield us about \$56,800. Our Fixed Payments covering debentures, sinking fund and interest, schools, county, and public library grant, consumed funds to the extent of some \$41,400. Against this the Hydro Electric and Water Commission reimbursed us for their share of the amount due by them on sinking fund and interest, amounting to \$6,665. This payment, therefore, reduced the amount of our fixed payments to about \$34,735.

It will readily be seen, however, that even with a rate of 34 mills, the amount of available funds for administration, police, fire, roads, etc., after fixed payments have been met, is in the neighborhood of \$22,000. There was spent last year on roads and bridges alone \$12,000. As the situation will not be materially changed in so far as our fixed payments are concerned during the current year, you will realize how incumbent it is that great care and prudence be exercised in our expenditure of the public funds if the tax rate is to be reduced in the future.

While there exists no special anxiety regarding matters of administration, I should like to see measures adopted by the Council whereby we can put into effect, next year, the collecting of taxes in two instalments, say 50 per cent each, 1st April and 1st October. In my opinion this will not only be a great convenience to our ratepayers, but will be the means of providing, during the year without recourse to borrowing to the same extent as heretofore, thus reducing interest charges.

I wish also to direct your attention to the splendid work of the Paris Horticultural Society in planting shrubs and plants throughout the Town. I trust that the Council will co-operate with them more closely in their efforts to promote and encourage the garden idea.

CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

"Pape's Diapepsin" Is the Only Real Stomach Regulator Known.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acids; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvellous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world.

among our citizens and thereby make our town more beautiful and attractive.

With the ushering in of 1917 we find ourselves still engaged in the most terrific wars of all times. The progress of our arms, upon which our very existence depends, is well known, and it is a pleasing thought that a ray of sunshine has at last appeared throughout the darkened clouds. The efforts of our enemies are becoming weaker and exhaustion more obvious, but we shall still be compelled to put forth all our efforts and all the efforts of the Empire behind us. Given this, the end is as certain as tomorrow's sunrise. Right must prevail.

I wish also to pay tribute to those of our brave sons who have made the supreme sacrifice in this great struggle for civilization. We can only bow our heads in submission, knowing that the sacrifice thus made will not be in vain. To those sons who have distinguished themselves on the field and who are still fighting our battles, our congratulations go out to them.

Two familiar faces will be missed on the Council Board this year, ex-Mayor Patterson and ex-Reeve Evans. I cannot refrain from testifying to the many years of unselfish service both these gentlemen have given to the town. I hope they may be spared many more years in the service of our Municipality.

Those of us who are selected for a limited time to manage the Town's affairs, must consider this a supreme and sacred trust, and in the discharge of our duties let us abstain from all prejudice and distrust, determined to work out harmoniously the problems that will naturally present themselves during our term of office.

year will not be struck until the entire council have been elected. On motion of Walker and Stewart Messrs J. R. Inksater, Jas. Smiley, and Henry Rehder were reappointed to the Board of Health for the ensuing year. Ald. Walker brought up the question of something being done to provide motive power for the booster pump, as after April 30th, in all probability all the present water power, now available to drive same, will be required by the Wincey Mill.

A committee was appointed to look into the matter, comprising the Mayor, Reeve Pitts, Deputy Reeve Stewart, and Ald. Walker.

A special meeting of the council will be held on Jan. 22nd. Yesterday afternoon Mr. Hugh Oliver, engaged at the Canadian Express office, fell on the icy road and cut a nasty gash on his head that required several stitches to close.

The opening hockey match of the season was played off here last night between Brantford and Paris. At the first period the local team led by 2 to 0. During the second period the Brantford team pulled themselves together and shot four goals into the net, while Paris notched one more. In the final period the visitors netted another goal, winning out by 5 to 3, after a very warmly contested game.

Mr. Charles Luck, a well known farmer of Brantford Township, near Paris, who broke his right arm some four months ago, did the misfortune to fall again on Saturday and fractured the same arm.

FOOD SWINDLE IN GERMANY

Three Confidence Men Sold Imaginary Carloads of Food

By Courier Leased Wire. Berlin, Jan. 9, via London, Jan. 10.—Neukoelln, a suburb of Greater Berlin, has been the victim of a clever food swindle and is mourning the loss of 210,000 marks which it paid three crooks for non-existing carloads of sausages and bacon. The swindlers informed the suburban officials that the food, supposedly military property, was at Aix-la-Chapelle, but could be procured quietly for the mentioned sum. The officials agreed on the purchase, and to pay the money through the Essen bank on presentation of duplicate bills of lading.

Through a forged manifest, the crooks collected the money and disappeared, after leaving with a Neukoelln official the supposed keys to the freight cars. This official waited a week before cautiously inquiring as to the whereabouts of the food, only to discover that it did not exist.

CHINA TOO IS FOR PEACE

Reply to Wilson's Peace Note Favors the Latter Strongly

Pekin, Jan. 9.—Wu Ting Fang, minister of foreign affairs, has sent to Dr. Paul Reinsch, the American minister, a reply to President Wilson's peace note.

This declares that China is probably the greatest neutral sufferer from the war because her economic and industrial reforms require the assistance of other powers. It adds that China is sympathetic with President Wilson's desire for the restoration of peace and with an arrangement which would uphold the equality of all nations, weak or strong, so that further acts of injustice and violence would be impossible.

MARRIED Ottawa, Jan. 9.—The marriage took place at Sacred Heart Church here this morning of Senator Pascal Patrier of Shediac, N.B., to Miss Mathilde Casgrain, daughter of P. B. Casgrain, K.C., ex-M.P., Quebec, and sister of Senator J. P. B. Casgrain.

Fifty Negroes Were Lynched Last Year

The Number is Falling Off From Other Years—Four Whites Also Suffered

In view of the widespread discussion of the causes back of the migration of negroes to the North it is timely to consider the lynchings for the year just closed. According to records kept by Monroe N. Work, head of the division of records and research of the Tuskegee Institute, in 1916 there have been 54 lynchings. Of those lynched 50 were negroes and four were whites. This is 4 less negroes and 9 less whites than were put to death in 1915, when the record was 54 negroes and 13 whites. Included in the record are 3 women.

Fourteen, or more than one-fourth of the total lynchings, occurred in the State of Georgia. Of those put to death 42, or 77 per cent, of the total, were charged with offences other than rape. The charges for which whites were lynched were: Murder, 1 (this a Mexican); Rape, 3; insult, 2. For each of the following offences one person was put to death. Slapping, robbing store, brushing against girl on street, assisting his son, accused of rape, to escape; entering a house for robbery or some other purpose; defending her son, who in defence of mother killed a man; fatally wounding a man with whom he had quarrelled; speaking against a mob in act of putting a man to death, attacking a man and wife with club.

Lynchings occurred in the following States: Alabama, 1; Arkansas, 4; Florida, 3; Georgia, 14; Kansas, 1; Kentucky, 2; Louisiana, 2; Mississippi, 1; Missouri, 1; North Carolina, 2; Oklahoma, 4; South Carolina, 2; Tennessee, 3; Texas, 9.

"Oh, Henry and I can't afford quarrel now!" said a Recently Lady, when I marvelled at her tempered way in which she snored over a situation that had reached the difficult.

"Has the price of quarrels up on account of the war?" asked the cynic. "Have they got corner on all the quarrelling there?"

"Silly," said the Recently Lady, "I think War jokes are wretched taste. You see, it's way," turning to the rest of us, haven't quarrelled for four months. She paused to turn toward the bed and give three mystic raps. "We are crazy to make a record at least six months. So we are so careful not to let our quarrel."

"Don't Quarrels Just Happen?" "Can you be careful not to quarrel?" asked the cynic. "I thought was in the nature of quarrels they just happened."

"Well, they do happen," said Recently Wed Lady, "but so-bumping your elbow, or things over, and if you are careful you can minimize accidents like that, can't you?"

"You mean you haven't had a little tiff for four months?" asked Mollie a bit incredulously.

Said the owl to the spider, "I hear you had a magnificent spider ball last night, with fire-fly lanterns and cobweb gowns and all sorts of wonderful spider things."

Jack Spider nodded. "Um-hum!" said he. And a fine old fright we had, too! My cousin from South America came—a dreadful fellow. He covers a foot of ground when his legs are spread out, and he eats birds."

"Oh, my, my, my!" said the owl. "What a dreadful spider!" "I thought," said Jack spider, looking rather pale, "that he was going to eat up the whole ball. I declare, I did! I don't know why or how he managed to travel so far, but there he was, staring over the cobweb fence and grumbling because he hadn't been invited."

"What did you do?" asked the owl. "A fairy put him to sleep," said Jack Spider, "and after a great deal of trouble we managed to get him on board the back of a bat, who's flying home with him now."

"Not so!" cried the owl, blowing by at this minute. "He was much too big for the bat's back and he fell off and broke the cobweb ropes. He's on his way here now!"

"Well, that was news and no mistake!" Jack Spider turned as pale as a spider can. The owl blinked. "He's a ferocious, blood-thirsty wretch!" cried Jack Spider in terror. "He'll eat me up! He'll eat me up!"

Now the owl was very wise. He always had been. He always will be. "Put some obstacle in his path!" he cried. "Then he'll never get here."

"He can climb anything!" cried Jack Spider in despair. "Nay!" said the owl. "Get the magician who lives on the border of the fairy forest to fling up a mountain of glass in his path. Then he'll slide back. He can't climb glass. Nobody can!"

"Ah, me, they didn't know! Jack Spider and the magician threw up a hollow mountain of glass on the edge of the forest. Barely in time! For he'd no more than finished that the dreadful bird-eating spider who'd traveled all night, appeared and stopped at the foot of the mountain."

Then the spider smiled. And what do you think happened? He walked right up that mountain of glass as if it were nothing more than a rocky path. And the reason was that he had furry feet, and the owl and the magician and even Jack Spider hadn't known it."

Now, while they stood staring in horror at the giant climbing up the path of glass, there flew into sight the little fairy who had put the giant spider to sleep the night before at the spider ball. She waved her wand and with a snore like a rumble of thunder the bird-eating spider fell asleep and tumbled off the mountain."

"Now," said the little fairy, "make a door in yonder hollow mountain of glass, oh, wise magician, and let the forest elves carry in this quarrelsome spider who eats birds. He shall be his prison, and teach him better manners!" And they did!

When I was young I viewed the snow with dancing eyes and heart aglow. It meant that I could slide and coast, with all the happy school-boy host, and mould the snow into a sphere and soak some old gent in the ear. The falling of the sparkling snow meant joy and laughter long ago. I, being young, was not aware of sorrow in the world, or care, and all I wished beneath the sun, was just to have all kinds of fun. But now I'm old I view the snow, and think of suffering and woe. I sit in comfort by the fire,

and punch the sawdust from my lyre; but others, by an empty grate, are shivering and cussing fate; and little kids, too thinly clad, are trudging through the snowy grad; and poor old men feel rheumatiz through all their joints and tendons whiz. And there are widows needing duds. There's so much grief, there's so much death, whenever snow enshrouds the earth! But there's a little one, can do, to make the wintry day less blue. I'll send some plunder to the poor, to those who suffer and endure!

LADY'S SHIRT WAIST. By Anabel Worthington.

It is not surprising that the separate blouse has such vogue this winter, for its beauty and usefulness have been well demonstrated in the past. As is true of other garments, the salient feature of the blouses receiving the strongest endorsement is the simplicity of design.

The practical mind will take in at a glance all the details of this becoming blouse, which shows one of fashion's newest whims by its square cut neck. At the shoulder seams the fulness is gracefully caught in with gathers from neck edge to shoulder edge, giving a somewhat fitted effect. Sleeves may be short with a roll cuff or full length with a fitted cuff—and the fitted cuff has much to do in stamping a blouse up to the minute in style. The collar is of contrasting goods and braid has trimming honors, but the left front closing is adorned with many buttons also. Together these details make up the total of satisfaction in a waist for general utility wear.

One will choose the practical weaves if for wear in the house, linen being excellent, or silk, crepe, satin or wool batiste for a little better wear with a walking skirt. Carrying out the design will take about one hour and give you value plus style and fit. Try it.

Canada must 'Carry On' If Belgium's Children Are To Be Saved

To punish the violation of Belgium and free its land from the Huns has been one of the strongest rallying cries of British and Canadians throughout this war. For it our men have fought hard and long, and stronger and more determined now than ever, they are "Carrying on" to the finish.

When the soldiers first went out to fight the despoilers of Belgium, we who could not go undertook to help feed the starving women and children who were victims of German savagery. Are WE carrying on as the soldiers are doing? Or has our enthusiasm cooled—our sympathy died out—our help lessened or ceased?

Certainly the Belgians' need of help has not lessened, but rather increased! Three million women, children and old men are depending for food—for life itself—on the Belgian Relief Commission. The Commission in turn depends on us Canadians for a substantial share of the necessary food, or the money with which to buy it. If we fall short in our contributions, thousands of Belgian kiddies must go, painfully, if not fatally, short in their food supply. Already an alarming number of them, weakened by scanty rations, are falling victims to tuberculosis.

There would be little merit in restoring Belgium to a nation whose motherhood and youth we had allowed to be decimated and weakened by hunger and resulting disease. Let us at home carry on the relief work as unselfishly, as steadfastly and as successfully as our soldier boys are carrying on the fighting! If YOU have not been helping, now is the time to give a hand and do your bit.

LABOR MARKET BETTER AFTER WAR

Says Lt.-Col. H. Cockshutt, Writing in Canadian Monetary Times

Two prominent Brantfordites are contributors to the annual edition of The Monetary Times, a trade review and insurance chronicle of all Canada.

Lt.-Col. H. Cockshutt, president of the business directors of the Cockshutt Plow Company Limited, draws attention to the shortage of labor and material. "We are handicapped in many other ways," he said. "We have had much business offered to us that we have been unable to handle on account of these difficulties."

"The progress of life insurance," writes Mr. F. J. Reid, district manager of the North American Life Assurance Co., "is reflected in the fact that it is now quite a common thing for the heads of large concerns to be insured for the benefit of the business. In some instances, insurance of \$1,000,000 is carried for the protection of the business. Should the head of such a firm die the million dollars is immediately paid over. In this way the company is enabled to save its credit (if not improve it), until such times as a suitable man can be found to fill the vacancy. This simply means insuring the brains of the institution for the benefit of those financially interested."

NEWS NOTES

Bills have been introduced at Albany to legalize Sunday motion picture shows.

One million dollars has just been added to the endowment fund of the Toledo Museum of Art.

The cost limit set by the United States Government for cruisers resulted in only one bid being received.

Poisoned candy sent to Mrs. Viola Coulson, a young divorcee, of Dallas, Oregon, was tried on a pet dog. The dog died.

Ninety aged inmates of a county infirmary were vaccinated and quarantined, following the discovery of a case of smallpox.

Miss Jessie L. Simpson, of Illinois, has been appointed clerk of the Senate Committee on Foreign Relations the first woman to hold that position.

A passenger train crashed into a motor hearse near Columbus, Ohio, and killed the undertaker and the minister. The hearse contained a body.
