THE ACADIAN.

WOLFVILLE, N. S., Aug. 29, 1919.

Publication Under Difficulties.

The plant of THE ACADIAN is being moved this week to the Graham building which has been recently purchased by the proprietor. For this reason the paper appears this week under unusual difficulties and in an abridged form which our readers will please excuse. Next week we shall have something more to say about our new office and some changes which will we trust, make our paper more efficient and useful.

Dinner for Returned Boys.

During the past week arrangements have been made for a reception and dinner to be given the returned boys this evening in Sherwood's apple house. Invitations have been issued to all returned men in this vicinity. The dinner will take place at 9 o'clock, and at about 10.30 citizens generally will be admitted to hear a program of speeches, music, etc. It is expected that Col. Ralston, of the 85th Batt., will be one of the speakers of the evening. Mr. Provandie has kindly consented to sing. It is hoped the affair may be a very pleasant and successful one, and that citizens generally will turn out to honor the boys who have been fighting our battles in the great war.

Wolfville Buys Electric Light.

The public meeting on Monday evening decided, we think wisely, to purchase the plant and goodwill of the Acadia Electric Light Co. There was a good attendance of citizens and very little discussion, those present evidently having come prepared to vote on this most important proposition. The vote on the resolution, which was moved by Dr. H. T. DeWolfe and seconded by Mr. B. O. Davidson, stood sixty for and nineteen against. The town has therefore again affirmed the principle of municipal ownership and will control its electric lighting as it does its water and other utilities. The resolution provides for an expenditure of \$25,000 to provide for the necessary improvements of the plant.

Editorial Jottings.

H. R. H., the Prince of Wales, opened the Canadian National Exhibition at Toronto on Monday.

The University of Toronto on Tuesday presented H. R. H., the Prince of Wales with the degree of Doctor of Laws.

The Liberal platform of the Opposition party formed at Ottawa lacks a most important plank. No reference is made in the platform to the subject of prohibition. Are the purse strings of the rum party loosed?

The Bill to repeal the Daylight Saving law in the United States, twice vetoed by President Wilson, has been passed over his veto, by more than the necessary two-thirds majority of each of the two houses of Congress.

The machinery for the Handley Page airship Atlantic arrived in Halifax the past week, and will be sent to Parrsboro. The repairs necessary will be quickly made, and by the beginning of October the airship will be ready for the aerial flight.

Five hundred cases of German-made toys, purchased before the war, were landed at Boston on Tuesday. They had been held in storage at Rotterdam since 1914, the owners having been unable to get them across before the British blockade became effective.

Upholstering, carriage trimming, harness repairing, trunks, suitcases, auto tops and seats repaired. Shop directly behind Herbin's Jewelry Store. A. K. PIERCE

Water Supply.

To the Editor of THE ACADIAN:
DEAR SIR,—Inquiries were made at the meeting held at the Town Hall on last Monday evening regarding the sanitary conditions of the town reservoir and its environment. Lest there be some misapprehension and statements made not in accord with facts, I shall, for the satisfaction of the citizens, and misconceived ideas of some people, briefly refer to the conditions there. On Tuesday I, with the chairman of the water supply, and superintendent of streets, visited the area in question.

The pipe which supplies the town with water at the present time carries water directly from the dam at the source of supply. Neither the new reservoir or the original has any connection with the flow of water through the pipe which at present supplies the town.

The new excavation made for the additional or new reservoir is not connected with the old reservoir, the gate being completely closed. Any seepage or water coming from the higher land at the south is carried away by a suitable drainage. Before the new reservoir is filled or used, an efficient drainage will be constructed on the north side of the public road to carry off any drainage which might come from the road. The citizens may rest assured that the water supply is as sanitary and pure as nature at its source provides it. GEO. E. DEWIT.

Examinations in English.

Judging by the poor marks made in the subject of English, at the provincial examination for Grade B, the man who prepared the paper is not likely to step out in the open and champion his work. From all over the province we are told, the result has been disastrous to very many of the applicants and in almost every case pulled the general average away down. Just what the real difficulty was we have not learned, but the questions propounded must have been largely foreign to the course of study outlined. Students who made a possible hundred in other subjects, fell below thirty in English, where under ordinary circumstances, and based on their class showing during the year, they should have passed equally well as in other subjects. If this be correct, as given to us, it is a serious matter and should be enquired into.—Eastern Chronicle.

30 Years Ago.

The following items were taken from the files of THE ACADIAN of 30 years ago:

On the farm of Mr. J. Oscar Harris, of Lower Wolfville, there is a willow tree which measures four feet from the ground, 21 feet around. The tree is an old one, probably one of those planted by the old French settlers.

Mr. W. C. Archibald, of this place, recently sent several baskets of fine peaches to Mr. Mitchell, fruit merchant, of Halifax, who pronounced them a pleasant surprise, both in flavor and color. Mr. Archibald is proving that peaches can be grown in Nova Scotia.

A Halifax paper gives a list of eleven mines in the Nova Scotia gold district, the produce of which for the past month has been over 712 ounces of gold.

Cutting Ready for Peace Loan of \$300,000,000.

The new domestic loan will probably be floated towards the end of October and conferences are being held from time to time by the finance department to make arrangements. The terms and conditions are yet to be announced, but the interest will likely be 5 1/2 per cent., and the total 300 millions.

The loan is one way of balancing public expenditures and deficient revenues. An idea of the situation may be gathered from the fact that while the aggregate outlays of the current fiscal year will be \$20 million, the estimated revenue, from ordinary sources is but 250 millions.

Four trans-atlantic liners, the Baltic, Saxonia, Royal George and Carmania, arrived in Halifax over the week end and landed approximately 6,400 passengers, the majority of them Canadian soldiers. Among them were the following for Kings county:

Pte. R. B. Butler, Wolfville
Dvr. H. Bowly, Aylesford
Sgt. E. E. Spicer, Berwick
Pte. J. J. Steele, Gaspareau
Pte. H. L. Porter, Wolfville
Lt. Col. W. A. Findlay, Fort Williams
N. Sister M. B. McNeill, Aylesford.
