Things that Women Wear

It is important these days for women who buy things to wear to get as much value as possible for as little cost as possible. We are at a stage of economy now; where every dollar counts.

You will find at this store everything for women to wear, and you will not find anything that hasn't distinctive merit in quality and style. We do not sell any merchandise we cannot recommend, and we guarantee your satisfaction with it.

Many very stylish new things in suits and coats, in dresses and

waists, in skirts and shoes. Our customers come from all parts of the county, we provide for all tastes. The prices are low, but they are not lower than good quality demands.

We are always pleased to show you our goods and to assist you to the best of our knowledge in making your selection. May we see you soon.

A. D. Farrah & Co.

Newcastle.

SUDDEN DEATH OF J. W. VANDERBECK

John W. Vanderbeck, M. L. A., passed away suddenly at his home in Millerton, N. B., Sunday afternoon, after an illness of three days, although having been in poor health for the past two years. On account of his health it was very much against the wishes of his physician that he contested the county in the last election. He was one of the most popular and well known residents in Northumberland county. He represented the Parish of Derby in the county council for 20 years and was warden of the county.

Mr. Vanderbeck was offered and declined the Liberal nomination for the local house in 1917, but his opposition to local members caused him to lead the independent ticket in 1920, being elected at the head of the poll. He was president of the Northumberland Liberal Association and prominent in musical circles.

He organized a company in 1918 to develop hydro-electric power on the Gray Rapids, but this plan was blocked by the New Brunswick Legislature. For a number of years he published the Miramichi News at Millerton. He was born at Millerton 57 years ago, of Dutch extraction, his forefather being among the early settlers of the province. The building in which the first parliament of New Brunswick was held was built by his grandfather. He leaves a widow, three sons, Perley employed by the C. P. R. at St. John; Abraham and Ray at home; three daughters, Lillian, at home; Edna, in Boston; Gladys (Mrs. Millar Esson), Millerton, and two brothers, George and Burton, of Millerton.

Only two years ago, the deceased's mother passed away, a venerable lady of 96 years, remarkable to the last for her excellent faculties and descriptions of early New Brunswick and Miramichi life. The news of Mr. Vanderbeck's death came as a great shock to the people of the province and of this county in particular, as he was just entering upon a career of great usefulness to his country.

The funeral will be held today, at 2.30 p. m. from the house to the Presbyterian cemetery at Derby, where interment will take place.

MASONIC GRAND LODGE OFFICERS

The following officers of the Grand Lodge of New Brunswick, A. F. and A. M., were installed Wednesday afternoon the final meeting of the two day convention held by the Grand Lodge in the Masonic hall St. John: Grand master, Col. J. D. B. F. MacKenzie, Chatham; deputy grand master, LeBaron Wilson, St. John; senior grand warden, Archibald Britton, Hampton; junior grand warden, A. E. Pearson, Sussex; grand secretary, J. Twining Hartt, St. John; grand treasurer, G. D. Ellis, St. John; grand chaplain, Rev. C. Gordon Laurence, Hampton; district deputy grand masters, L. P. Stratton, Moncton; district No. 2; J. Gattain, Bathurst; district No. 3; A. W. McCain, Fairville, district No. 4, and H. H. Priestman, McAdam Junction, district No. 5; senior grand deacon, R. B. Wallace, Fredericton; junior grand deacon, J. R. McIntyre, St. George; grand director of ceremonies, G. P. Burchill, Nelson; assistant grand director of ceremonies, Dr. J. S. Bentley, St. John; grand sword bearer, Charles A. Perry, Sussex; grand standard bearer, Dr. A. S. King, Petitcodiac; grand pursuivant, A. H. Stanton, St. John; grand stewards, C. D. Strong, St. John; C. Dickson, St. John; C. G. Coudsi, Newcastle; C. S. E. Robertson, Moncton; C. Homer Matthews, Campbellton; Charles Steeves, Hillsboro; A. W. Coombs, North Devon; W. A. McIntyre, St. Martins; Dr. J. G. Leonard, St. John, and Murray MacKav, Dalhousie. The meeting of the Grand Lodge was largely attended by delegates from all over the province. Most of the delegates who did not leave for their homes last night will return some time today.

C. J. MORRISSY M.P.P. TO RE-RESENT GOV'T

The following was received yesterday by Mr. Chas. J. Morrissy, M.P.P., from Hon. C. W. Robinson, acting Premier, of the Province, Moncton, N. B., May 2nd, 1921.

Chas. J. Morrissy, M. P. P. Newcastle, N. B.

Dear Sir:— Kindly represent the Government at the funeral of Mr. Vanderbeck, and convey to the family the sincere sympathy of all members of the Executive.

C. W. ROBINSON

BASEBALL LEAGUE FOR NORTH SHORE

As a result of a meeting of joint interest in Bathurst last week there is every probability of a North Shore Baseball League being established for the coming season. The towns likely to comprise the League are Campbellton, Chatham, Newcastle, Nelson and Bathurst.

Representatives of Newcastle and Bathurst went on record at the meeting as favoring the scheme, and reports were submitted from Campbellton and Chatham also endorsing the suggestion. In order to bring things to a head, and create a definite League organization it has been decided to call a meeting in Newcastle this week to which representatives of the five towns interested will be invited.

MEETING TONIGHT

A Public Meeting is being held in the Town Hall tonight at 8 o'clock, in connection with the annual Utility Poultry Association. Mr. G. R. Wilson will give a talk on Feeding and Brooding of Chicks.

FUNERAL OF LATE MRS. ELIZA ARMSTRONG

The funeral of the late Mrs. Eliza Armstrong was held from deceased's home, on Wednesday afternoon to the C. N. R. depot. The service began at one o'clock and was conducted by Rev. L. H. MacLean, pastor of St. James' Presbyterian Church, of which the deceased lady was a devout member. The hymns, "Lead, Kindly Light," and "Safe in the Arms of Jesus" were rendered at the service.

The pall-bearers were—Messrs. A. A. Davidson, W. A. McMaster, G. C. Stohart, John Russell, D. W. Stohart, and R. Nicholson, M. D.

The floral tributes were many and beautiful and testified to the high esteem in which the late Mrs. Armstrong was held by all classes.

Pillow—Helen Armstrong. Wreath—Nancy and Samuel Russell. Wreath—Jack and Dick Corbett.

Spray—Mr. and Mrs. John McCormack and family. Spray—Clarence Jones.

Cut Flowers—Mr. and Mrs. Robidoux, Shediac. Wreath—Women's Foreign Missionary Society.

Spray—Mr. and Mrs. D. W. Stohart. Cut Flowers—Miss Mona Lindon. Spray—Mrs. Poole, St. John.

Wreath—Misses Gallagher, Belleville, Ont. Cut Flowers—Mrs. and Miss Annie Bell.

Spray—Mr. and Mrs. Wm. A. McMaster and family. Cut Flowers—Miss Davis, Belleville, Ont.

Out of town people attending the funeral were: Mr. and Mrs. James Armstrong, Youghall; Mr. and Mrs. F. Robidoux, Shediac; Mrs. W. A. Russell, Shediac; Clarence Jones, Bathurst; Bert McCormack, Moncton and Mr. Samuel Russell, Belleville, Ont.

The remains were taken to Bathurst for burial and interment took place in the Presbyterian Cemetery in Bathurst Village. The Rev. A. D. Archibald conducting the service.

The pall-bearers were: Messrs. George Gilbert, Arthur Ferguson, A. N. DesBrisay, Robert Willis, W. J. Kent and J. Henderson.

HAPPY HOUR ON WEDNESDAY

Several hundred otherwise sane men and women reversed the natural order of things at the gates of Metro's Hollywood studios not so long ago and struggled to work as extras regardless of pay: no pay at all, or by paying for the opportunity to work.

The occasion for this unheard of phenomena was the announcement that Nazimova was about to begin filming her new production, "Madame Peacock", a picture version of Rita Weiman's short story of the same title. This picture may be seen Wednesday at the Happy Hour.

The opening scenes of the story take place in a theatre with the star occupying the center of the stage. For the audience something like five hundred men and women were required. So a call for that number of extras went out through the casting director's office.

When it was discovered that the long coveted opportunity to see the gifted Russian actress at work before the camera might be realized in this way, both men and women who never had dreamed of working as extras began pulling wires to get into the picture. Casting Director Singer soon found that instead of seeking extras, his greatest difficulty consisted of keeping their number down to the capacity of the theatre auditorium that had been erected on one of the enclosed stages.

When the progress of elimination finally was completed, lights were flashed, a whistle sounded and the camera began grinding with the most exclusive aggregation of extras ever gotten together playing the part of the audience.

Madame Nazimova herself wrote the picture version of the Weiman story, designed the sets that will serve as backgrounds for its action, and selected the members of her company. The completed picture will be a Nazimova production in every sense of the word, since the star not only worked in close co-operation with Ray Smallwood, her director, in every phrase of her production work, but cut and titled her picture and superintended the making of the prints.

George Probert, who attracted attention in New York when he appeared with Nazimova at the Plymouth Theatre in a series of Ibsen plays, has the leading male role in the new picture. Probert's twenty years of stage experience have consisted largely of work in legitimate productions. He is known to picture theatrogoers however, through his appearance in "The Spenders", "Nedra" and "The King's Game."

Extract from a letter of a Canadian soldier in France.

To Mrs. R. D. BAMBURGH:

The Rectory, Yarmouth, N.S.

Dear Mother:—

I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

Your affectionate son,

Rob.

She Could Hardly Walk Across Room

St. John Woman Says Her Life Was a Burden—Restored To Health By Tanlac.

"Before I took Tanlac I was so weak I could hardly walk across the room, but now I can do all my household work with ease," said Mrs. Robert Clayton, of 25 Hanover St. St. John, N. B.

"For three or four years I suffered terribly from indigestion, which finally got so bad I had to live on a special light diet. My appetite was so poor I could scarcely eat anything and every morning I got up with a sickening sensation that I couldn't hardly endure. Just as soon as I ate anything gas would form on my stomach and cause such terrible pains around my heart it seemed that I couldn't retain my food and would just have to give up and lie down. At times I had such severe headaches I had to go to bed and I was troubled a lot with pains in my shoulders, neck and back. All the time I felt so tired and drowsy I could hardly stay up, and just to walk a few steps would tire me out completely.

"Finally I got to the point where life was a burden to me, but I happened to learn about Tanlac, and before I finished my first bottle I could see a wonderful change in my condition. I have taken three bottles now and my appetite is splendid, and although I am eating just anything I want, nothing hurts me the least bit. I never feel tired and drowsy and my housework is a pleasure. Tanlac is the grandest medicine I ever heard of, for it certainly has made life worth living for me."

Oil-Bearing Seeds

The number of plants which bear oily seed is very large. Some of the most important of these such as the Oil Palm, Brazil Nut, Peanut, etc., cannot be cultivated in Canada. Among those which have been tried in this country or which are worthy of trial are, Flax, Hemp, Soy Bean, Sunflower, Castor Bean, Opium Poppy, and Rape.

It is unnecessary to say anything about Flax which furnishes the valuable Linseed Oil so extensively used in the manufacture of paints, varnishes, linoleum, etc.

Hemp has ripened seeds each year for several years past at the Central Experimental Farm at Ottawa. Hemp seed oil, though not equal in this respect to Linseed Oil, has good drying properties and is used for paints and varnishes, soft soaps, and for edible purposes.

Four varieties of Soy Bean obtained from different parts of the world have ripened seeds satisfactorily at Ottawa for several successive years. The oil contents averaged a little over 20 per cent. The oil is extensively used in China and Japan for edible purposes and the cake forms a valuable cattle food. In this country the oil is used mainly for soap-making. It has considerable drying properties and is also used to some extent for making paints.

Russian Sunflower have been cultivated with success at Ottawa. They are valuable honey plants and the dried stems can be used for fuel. Some specimens reached a height of 10 feet with heads 15 inches in diameter. The kernels may contain as much as 50 per cent of oil. The oil has a pleasant taste and is used to some extent for edible purposes, for making soap, and to some extent for varnishes.

But ripe seeds have been obtained mainly in warm or tropical countries each year from a number of varieties grown at Ottawa. The worst feature about this plant is that each seed capsule bursts when ripe and scatters the seed to some distance around, thus necessitating frequent collection of the seeds by hand. A variety was grown last year which does not appear to have this objectionable feature and will be further experimented with. An analysis of the whole seed, made by the Dominion Chemist, showed from 39 to 47 per cent of oil present. Castor Oil has very extensive uses, being employed for medicinal purposes, dressing leather, lubrication of machinery, soap-making, ointments, dyeing, and insulating material for electric cables.

Opium Poppy has grown satisfactorily at the Experimental Farm. The oil is edible and is also used for fine artist's paints.

Rape would probably grow in Canada but I have not experimented with it. It yields Colza Oil which, owing to its viscosity, ranks high as a lubricant. It is also used as an edible oil, for burning and other purposes.

Political Letter From Ottawa

Ottawa, April 23rd, 1921—The Government's ultimatum to the Grand Trunk, embodying a demand for surrender of control of the railway on or before May 16, was the feature of the parliamentary week. The ultimatum was put into the form of a bill, the Government desiring the fortification of its position by a statute, and there is no question but that the measure will be passed. In introducing the bill, the Prime Minister briefly reviewed the difficulty with the Grand Trunk, the assistance which the Government had granted that road beyond contract obligations and the facts leading up to the steps he proposed. Certain interests in London have been representing that the Government actions in regard to the railway were influenced by a traditional prejudice against the Grand Trunk, but no one, be he British investor or Canadian partizan, who reads the array of facts presented by Mr. Meighen can ever again successfully make such a charge. For the Premier showed that for years past, the Government of Canada has been almost lavish in its assistance to both the Grand Trunk and the Grand Trunk Pacific. The Transcontinental railway proved an utter failure; the Grand Trunk obligation to operate the Government section could not be fulfilled, and the Grand Trunk Pacific almost from its completion was a losing venture. In this circumstance the Grand Trunk had thrown upon it liabilities much beyond its ability to bear, and it is only by ignoring its moral and legal responsibilities to the Grand Trunk Pacific that the shareholders can make the shadow of a case for sympathy and consideration.

Nor can the Government be blamed for what may look like undue haste in desiring to get control of the Grand Trunk. The Grand Trunk Pacific is debtor to Canada to the amount of 62 millions on loan account, and a further sum of several millions of deficit in operating revenue, while the Grand Trunk is debtor to the amount of 77 millions, of which no less than 47 millions represents advances to the Company since the policy of acquisition was determined on. It is clearly evident that the Grand Trunk shareholders could not have kept the road out of bankruptcy had Government aid been withheld, and under the circumstances, the Government cannot be blamed if it revolts at the idea of being compelled to pour millions and millions into an enterprise which others control. Then, again, the Grand Trunk is essential to rounding out the National Railway system. That system has to be got under way as soon as possible; there has to be co-ordination of the two systems—Grand Trunk and Canadian National and drastic economies, so vitally necessary waits upon the acquisition of the former. In a word, the Government is striving desperately to remedy a situation that menaces the entire country, and the Grand Trunk, under its present control stands in the way.

Thus, what the Government proposes is that the shareholders of the Grand Trunk shall at once turn over their property. If possession and control is given, the Government will resume arbitration proceedings to determine what, if any, amount, up to a previously fixed figure, is to be paid for the preference and common stock of the railway. If possession and control be refused, then it is up to the Grand Trunk to do its own financing. The former choice holds out the prospect of a reasonable price for the property; the latter an almost certain ending in bankruptcy and complete loss. Under the circumstances, therefore, it is as

OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

Mlle ANTOINETTE BOUCHER 917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health. I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good. I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

"I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

Mlle ANTOINETTE BOUCHER. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

good as certain that the Governments latest step will be crowned with success.

Next to the Grand Trunk, the most important subject to come before Parliament this week was the question of the appointment of a Minister Plenipotentiary to Washington. This post, provision for which was made as far back as two years ago, the money being voted to each successive session since, involves a new constitutional departure, one of those steps in the evolutionary growth of the Dominion which have become quite common since the war. It was taken after the fullest consultation and most complete loss. Under the circumstances, as well as with the practically unanimous consent of the Canadian Parliament. For the reason, however, that it is not easy to select a man qualified for the post also for reason that an election was held in the United States, involving a change of Governments at Washington, there has been delay in making an appointment, and this delay, unfortunately, has been misunderstood. It has been represented that the British Government was holding the matter up, that Sir Auckland Geddes visited Ottawa to quash the proposal, and that the Prime Minister himself was hostile to such a step. All this was set at rest this week. Mr. Meighen declared without qualification that he favored the idea, that it had become necessary, and he added that it was the intention of his Government to fill the post as soon as a suitable man could be found. The debate was notable for two things; the splendid, scholarly discourse of Sir Robert Borden on the constitutional development of the Dominion, and the We are still a Colony" speech of Mr. Fielding. The latter much to the disgust of the Autonomists in his own party, is still living back in Crown Colony days and views the growth of Canada into a status of equality within the British Commonwealth of nations as a menace.

The Prime Minister sails for London early in June. So far as is known the agenda of the proposed Conference has not yet been completed when it is complete, it is quite probable that it will be submitted to Parliament for discussion.

THE RELIABLE REMEDY

FOR CAKED UDDERS

EGYPTIAN LINIMENT

"I have now used Douglas' Egyptian Liniment for 3 years, and find it gives the best satisfaction for man and beast. I tried the liniment on 4 cows during the winter for lump in bag, and a sample bottle cured each case in 24 hours. I also found it good for muscular rheumatism and lumbago." (Signed) Allen Schiedel, New Hamburg, Ont.

This Liniment will also stop bleeding at once and prevent blood poisoning

SOLD BY ALL DEALERS DOUGLAS & CO., Manufacturers, NAPANEE

ACCEPT OFFER OF EMPLOYMENT

Chatham, N. B., April 20—The employees of the Fraser Company's pulp mill here, members of Local 102 of the International Brotherhood of Sulphite Pulp and Paper Union, last night, by a secret ballot, voted by a majority of two to one to return to work on the schedule as given to them by the company on February 26. On that date the men turned down the proposal. They have been out of work since December 13, last. It is doubtful whether the mill will start up at present but there will probably be many men taken on for repair work as extensive alterations are being planned.

WEDDINGS

ASTLE-CLARK
On Tuesday, April 19th, Miss Ambrozine Susie Clark, daughter of Mrs. John Clark, Quarryville, and Mr. James W. Astle, also of Quarryville, were united in marriage at St. Andrew's Church, Newcastle, the ceremony being performed by Rev. W. J. Bate.

MURDOCK-TAYLOR
A wedding of much interest took place in Halifax on Saturday last when the marriage was solemnized by Rev. Donald Summers, of Miss Phyllis Taylor, eldest daughter of Mr. and Mrs. James J. Taylor, 278 Princess street, St. John, to Mr. Robert Lewis Murdock, son of Mr. and Mrs. Robert A. Murdock, of Chatham (N. B.) Mr. and Mrs. Murdock will reside in Shediac where Mr. Murdock is a member of the staff of the Bank of Montreal. Both the officiating clergyman and the bridegroom served overseas.

ALLISON-FORSYTHE
At the Presbyterian Manse, Red Bank on Wednesday April 20th Miss Bella Forsythe daughter of Mr. Thos. Forsythe, was married to Mr. Tillman Allison, of Allison Settlement. The bride was dressed in blue silk with hat to match. The ceremony was performed by Rev. Mr. Girdwood in the presence of relatives of bride and groom. In the evening a reception was held at the home of the groom which was attended by a large number of invited guests, a number going up from Newcastle by the Max Aitken Mr. and Mrs. Allison will reside at Boom Road.

McLEAN-FORSYTHE
A pretty wedding took place at the home of Mr. and Mrs. John Forsythe on Tuesday morning, April 19th, at 7 a. m., when their daughter Agatha Forsythe was united in marriage to Mr. Wm. McLean, formerly of Whitneyville, but now of Alaska. The bride was charmingly attired in white satin with trimmings of cream satin and pearl beading, her going away gown was of brown serge trimmings of saxe blue with hat to match. The ceremony was performed by Rev. Stanley Weaver. About twenty invited guests sat down to the dainty wedding breakfast. Mr. and Mrs. McLean will return to Whitneyville after a wedding trip. There were many beautiful and useful wedding gifts including, cut glass and silver.

Time Changes May 1st On Canadian National Railways

Changes on Canadian National Railways effective May 1st affect the time of No. 4 Maritime Express, which will affect the time of No. 291 train on the branch, which will after May 1st leave Loggieville at 5.20 a. m. and arrive at Newcastle at 6.10 a. m. No. 202 will leave Newcastle at 7.35 a. m. instead of at 6.30 a. m. and arrive in Loggieville at 8.25 a. m. Other trains are not affected.

No. 3 Maritime will now make connections at Montreal with the 'Continental Limited' for Vancouver. 17-3

THERE IS ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all.

Insist on genuine "Bayer Tablets of Aspirin" plainly stamped with the safety "Bayer Cross"—Aspirin prescribed by physicians for nineteen years and proved safe by millions for Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets—also larger "Bayer" packages. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monocetate of Salicylic acid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

Drop In Prices

Wholesalers report a drop in price of several household commodities during the past few days, the most noticeable being that of laundry soaps, which dropped \$2 a box, making the wholesale price of Surprise and Gold Soap \$7 per box.

Oatmeal has dropped 60 cents a

case of 10 packages, which brings the wholesale price down to \$5 per box. Matches have also gone down, a drop of 15 cents a box being reported, making the wholesale price \$16.65 a case. Monday morning sugar took a drop of 40 cents a hundred pounds, making the wholesale price 10.90. Lard and Crisco are reported easier.

Persuasion Failed, They Took to Force!

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Selgel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

THE UNION ADVOCATE
A WEEKLY NEWSPAPER
Established 1867

TUESDAY, MAY, 3rd 1921

JOHN W. VANDERBECK, M. P. P.
News of the sudden death of Mr. John W. Vanderbeck, M. P. P., for Northumberland, will be received with great regret by his many friends throughout the country.

Few men were more widely known in his county than he, for he had been prominently identified with all phases of its public life for many years. Stiff in opinion, he was never-the-less able to count most men as his personal friends, and the fact that he differed in thought with any man, never in any way affected the cordiality of his relations with him. Mr. Vanderbeck in October last ran on an Independent Ticket for Northumberland County and was returned at the head of the poll. At the recent session of the Legislature he was in regular attendance, and at all times was zealous in looking after the interests of his constituency, and gave promise of a useful career as a legislator. Among his large circle of acquaintances he will be missed, and genuine regret will be felt at his passing.

WHY A FLAG STAFF?

What is the Flag Staff in the Public Square for? This was the question that many of our citizens have been asking during yesterday and today. About ten days ago a man was employed to place new halyards on the staff but what good they are is a matter which many citizens would like to have explained to them. On Sunday, Mr. J. W. Vanderbeck, M. P. P. one of Northumberland County's representatives in the Provincial Legislature died at his home in Millerton, but the flagstaff in our Public Square bore no flag at half-mast in his honor. The flag on the Post Office building was flying in respect to our departed representative, but not so in the Public Square. Why did it not? nobody seems to know. Is it because there is no flag or is it because the person or persons, whose duty it is to attend to these matters, is too busy or too indolent to perform their work?

Whatever the reason, the public are entitled to know, and should be told at once by those responsible.

BILL SHAREN WILL HAVE BIG BACKING

The ages of the horses entered in the \$12,000 North Randal free-for-all race furnish an interesting study for those interested in the subject of biology. Two of them are four, six are five, nine are six, four are seven, one is eight, one is eleven, one is twelve and three are thirteen. Their records range from 2.02% to 2.12%, three of them being slower than 2.10, but one of these, Bill Sharen, 2.11%, will have pretty strong backing on account of the racing form he has shown and the fact that Thomas W. Murphy considered him highly enough to pay \$25,000 to get him. Trumpeter has a record of 2.12%, and First National one of the same stamp, as a two-year-old and many horsemen will wonder what they are doing in company like Sister Bertha, 2.02%, Ante Guy, Early Dreams, McGregor the Great, and Nedda, all with marks of 2.03%. We shall know if they start. It will be the first and only race of the season for Nedda, from present appearances and the gallant mare from Hillandale Farm will have a long, strong following.

MAIN TRUNK ROADS IN N. B. OPEN MAY 3rd.

Fredericton, N. B., April 28—All the main trunk roads in New Brunswick will be opened for motor vehicle traffic on Tuesday, May 3rd and all secondary trunk roads a week later on Tuesday, May 10th, according to an announcement made this morning by Berton M. Hill, Chief highways engineer of the department of public works. The dates set for opening all the trunk roads are earlier than usual due to the especially advanced season this year.

CASTORIA For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

Speaks Highly Of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she is always pleased to speak highly of them to other mothers. She knows the good they have done her children and realizes that her experience should be of benefit to others. Concerning the Tablets Mrs. Fred Murphy, Charlottetown, P. E. I., writes: "I have used Baby's Own Tablets for the past eight months for my baby. I cannot speak too highly of them for they have been of great assistance to me in my first experience of motherhood." Baby's Own Tablets are a mild but thorough laxative which are absolutely harmless and may be given to even the newborn babe with perfect safety. They are sold by medicine dealers or direct at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GRAY-DORT

The New Model

Seldom has a car won such immediate and widespread popularity as the Gray-Dort with its new and wonderfully beautiful bodies.

Everyone who has viewed this body design has spoken of the Gray-Dort as the unquestioned style leader of its field. It has been instantly lifted into the class of cars costing at least \$700 more.

From a value standpoint, the new Gray-Dort has not a rival. It is the motor car sensation of 1921.

The new model is now on view. You are urged to see it at once.

PLACED AT DISPOSAL
 The Str. Max Aitken was placed this afternoon at the disposal of those who wished to attend the funeral of the late John W. Vanderbeck M. P. P. of Millerton, N. B.

NEWCASTLE YOUNG LADY'S GRADUATING RECITAL
 Sackville, April 28—There was a large body of college students as well as citizens in attendance at the graduating recital of Miss Helen Gladys MacMichael, pianist, of Newcastle, N. B. which took place in Beethoven Hall, Mt. Allison Conservatory of Music, Tuesday evening. The audience was delighted with the artistic rendition of the different numbers from the great master of music. Miss MacMichael's playing showed brilliancy as well as careful training. She was assisted by Mr. Deane Miner, violinist, who is always popular with a local audience. Miss Thelma Hay made an admirable accompanist.

WEDDINGS

FERGUSON—PETERS
 The marriage of Mrs. Annie Peters, of this city, to Hugh M. Ferguson, of Rexton, took place Thursday morning at St. George's church, Moncton, in the presence of friends, the Rev. Canon Sism officiating. The bride wore her travelling suit of navy blue with hat to correspond. After the ceremony Mr. and Mrs. Ferguson left for their home in Rexton.
 Mr. Ferguson was at one time a resident of Moncton and Mrs. Ferguson has been a resident there for several years, and has many friends in Moncton who will wish her every happiness.

OBITUARY

WALTER WALSH
 The death occurred at Nelson Thursday morning of Walter Walsh, the well known carpenter of that place, after an illness of 3 days, of pneumonia. He was about fifty years of age, and leaves a widow formerly Miss Annie Reynolds, of Nelson, and several small children. Councillor, Michael Walsh, of Nelson, is a brother.
MRS. DUNCAN WILLISTON
 After an illness of four days of pneumonia, Mrs. Duncan Williston died at the Miramichi Hospital Wednesday evening, aged 57 years. The deceased was formerly Miss Janet Anderson, daughter of Mrs. and the late R. G. Anderson, of this town. Besides her aged mother, she leaves her husband, two brothers, Keith and Norman, both of Newcastle.
 The funeral was held on Saturday at 2:30 o'clock p. m. The Rev. L. H. MacLean, pastor of St. James' Presbyterian Church officiated at the home and grave. The floral tributes were many and beautiful.
 The pall-bearers were Messrs. Chas. Dickson, H. Taylor, H. Ingram, B. F. Maltby, Chas. McBride and Thos. Maltby. Interment in St. James' cemetery.

CHATHAM LADY FOUND DEAD IN BED ON SUNDAY
 Chatham, May 1—Miss Jennie Robertson, sister of Mrs. (Rev.) J. N. McLean, Grand Forks, B. C., was found dead in her bed this morning. She retired last evening, in good health and good spirits. Heart trouble is given as the cause of death.

New Hostel At Moncton

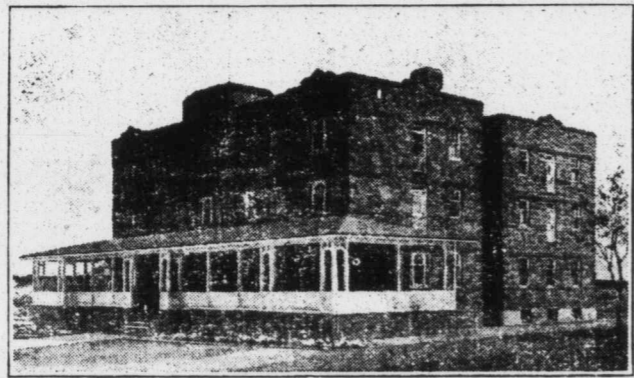

Modern Residence Completed for Girl Employes of Atlantic Underwear Limited

One of the most modern girl's hostels in Canada has recently been completed by Atlantic Underwear Limited, for the accommodation of their girl employes at Moncton, N. B. The hostel for employes is an innovation in the Maritime Provinces, and the Atlantic Underwear Company is to be congratulated upon its progressive-

and lodging are provided at cost and will not be in excess of five dollars a week.

Recreation facilities have not been overlooked, for the Company realizes that good food and good rooms are not sufficient for the welfare of the employes. The girls will be permitted to entertain their friends, and in addition to a good dance floor and musical instruments, games etc., are provided for this purpose. For outdoor amusements tennis courts and croquet lawns will be completed by early summer.

The Atlantic Hostel is a commens-

New Hostel at Moncton

ness in thus providing congenial and wholesome quarters for their girls. The building occupies a commanding view of the surrounding country, is of brick fire-proof construction, and the lighting and sanitation are modern to the last degree.

The residence was planned by J. W. Fraser, A. E. I. B. A., of Moncton. It contains a library, living and rest rooms, a first aid and hospital ward, well-lighted and aired bedrooms, ample bathrooms and a well equipped laundry for the use of the girls. The hostel is in charge of a matron, and a chief supervises the kitchen. Food

able effort to elevate the living conditions of the girl workers and to provide them with all the comforts and facilities of a home. Its influence will undoubtedly be reflected not only among the employes themselves but throughout the community.

It has always been the policy of the Company to attract the best class of help attainable to their employ, and the present large investment is a practical working out of theory, that only when employes are well provided for physically and mentally, that the highest quality of workmanship can be obtained.

THE SALES TAX

Taxation of Sales in Canada and Other Countries Considered With Reference to the Revenue Requirements of the Dominion.

Adjustment of the present sales tax so as to provide a larger part of the revenue required by the Dominion Government is being urged widely.

The Business Profits War Tax has proved inequitable in operation and unduly restrictive of business initiative. It has discouraged investment of much-needed capital, including money from abroad, and indirectly has added considerably to the price of many commodities. It has penalized efficiency and economy and has been evaded in some cases by various methods within the law. Similar taxation has been discredited as unwise and opposed to public interest in Great Britain, the United States and elsewhere. But it is not alone that the Business Profits War Tax is unsound and harmful in its operation; under changed business conditions it could not be relied upon to produce any large amount of revenue. For the fiscal year ended March 31, 1920, the Business Profits War Tax produced a revenue of approximately \$44,000,000. The estimated yield for the year ended March 31, 1921, under the tax was \$40,000,000, and actual collections for the twelve months period have been reported as \$37,601,511. Business depression, with declining values, which set in during the latter part of last Summer or early Fall, has completely wiped out the profits of many industrial concerns and the amount which could under this tax in the fiscal year 1921-1922 would be very small. An example of the way in which business has been affected by changed conditions is found in the recent report of a company which claims to be the largest footwear manufacturing concern in Canada and, indeed, in the British Empire, for the year 1920: as a result of the year's operation a surplus of nearly \$1,000,000 was turned into a deficit of \$470,250. Under such conditions the Business Profits War Tax cannot be counted on as a revenue source of considerable importance and, because of the other serious objections to it, it ought to be re-enacted.

The Corporation Income Tax has been considered as a supplementary levy upon these companies, the income of which was not taxable under the Business Profits War Tax Act. The total assessment upon 2,639 corporations in 1919, on income derived in 1918, was \$4,385,598. Objections to the Business Profits War Tax apply in some measure at least to the Corporation Income Tax as well. Industrial profits are taxable when distributed to the shareholders, and taxation of the earnings when so divided is most equitable and does not involve undue hardship on industry at a time when industry is facing serious difficulties and problems. Under present conditions the corporation income tax is objectionable and uncertain as a revenue source and ought to be abolished. It is necessary to consider, however, the Government's financial needs at a time when the revenue from existing taxation is likely to show heavy declines. Last year a number of new taxes were inaugurated, including luxury taxes, certain taxes payable by manufacturers, and the sales tax. The so-called luxury taxes" were abolished by Order-in-Council of December 15, 1920, as were also some of the levies under what was known as the manufacturers' tax. The most productive of the manufacturers' taxes were, however, continued. The levy still applies on confectionery and has been a most serious handicap to the Canadian confectionery industry under conditions of difficulty involved in price readjustment and slackened buying demand. It is grossly unfair to include confectionery with certain alcoholic beverages and with playing cards as subject to the manufacturers' levy. The tax on confectionery is discriminatory and unjust and ought to be abolished.

But if these taxes are not to be continued, because they are equitable and harmful to the industries directly concerned and opposed to the best interests of the people of Canada generally, and if the remaining revenue sources are likely to be less productive under changed business conditions than they have been during the last couple of years, there arises the necessity of considering some substitute means of raising revenue. The interest on our national debt for the last fiscal year alone involved an expenditure of \$140,000,000. Penalties constitute another item of large importance, and the general expenses of administration of the Government are

high. Then, too, there is the very heavy deficit on account of the Canadian National Railways which has to be carried by the people and met out of current taxation.

The Sales Tax is regarded fairly generally in Canadian as the most promising and least objectionable means of raising such additional revenue. The Sales Tax, which became effective on May 19, 1920, provided for a levy on all sales by manufacturers, wholesalers or jobbers, and on the duty-paid value of importations. When a manufacturer sells his own products directly to a retailer or consumer, the sales tax is 2 per cent. In all other cases the levy is 1 per cent. The principle of such tax has been fairly generally accepted in Canada. The preparation of returns has involved much work and expense for many companies, but details of administration have been improved and it is believed that any remaining legitimate objections to the method of application can be overcome. Total collections on sales tax account to the end of January, 1921, amounted to \$31,311,456. It should be noted, however, that the tax was not applied until May 19, 1920, and that such collections do not include any considerable amount of the tax due on account of sales in the month of January. There has been considerable slowing up of business since last Fall, but the sales tax in its present form will yield about \$45,000,000 up to March 31, 1921. With the improved machinery now in operation and despite the curtailment of business, the tax would probably provide between \$50,000,000 and \$60,000,000 revenue during the year ending March 31, 1922.

Until the Budget Speech is delivered it will be difficult to obtain any dependable estimate as to the amount of money which the Government will require for the current year. The Business Profits War Tax last year was estimated to yield about \$40,000,000 and total collections will be somewhat in excess of that amount. If the Government decides not to re-enact the Business Profits War Tax, to abolish the income tax on corporations, to withdraw the tax on confectionery, and to depend upon an adjusted sales tax to provide the revenue required, it will probably be necessary to raise not less than \$100,000,000 by such taxation.

"feeling fine!"
—A few days ago though, I felt pretty miserable—kind-o' tired and drowsy. I must have been very much run-down, until someone recommended—

Quickest For Healing

A cut sustained in the workshop, a sore which is untreated, results say in inflammation or blood-poisoning. You have to lay off for a day or two and it counts when pay-day comes round. Zam-Buk insures you against such loss! A little antiseptic Zam-Buk promptly applied to any flesh wound or injury prevents disease infection and risk of festering and ulceration, and takes away smarting pain and promotes quick healing. At home a box of Zam-Buk is ever so useful. The baby's nasty rashes, the older children's cuts and bruises, the inevitable burn, or scald—for all these, as well as for more serious skin troubles, such as eczema, ulcers, ringworm, etc., Zam-Buk is the unvalued remedy. Mr. J. W. Bonnard, 589, Craig St. E., Montreal, writes:—"Two of my fingers were so severely crushed that the doctor said they would have to be amputated. I decided to try Zam-Buk first, and applied the balm daily. Within a few weeks the injury was completely healed. My fingers were saved." 50c. box, all dealers.

Zam-Buk

Seized \$11,200 Worth of Liquor

FREDERICTON, April 21—Liquor valued at \$11,200, which will probably form the nucleus of the stock for New Brunswick's board of liquor vendors, was seized last night at Campbellton, according to a report received by Sheriff Hawthorne, chief inspector under the New Brunswick prohibition act, this morning.

Chief Hawthorne left Campbellton yesterday morning, after having appointed Norman Pettigrew as a sub-inspector in that district, and he started off in search of liquor.

The success of his search was shown in a telegram received by Chief Hawthorne this morning, which said he had seized 223 cases of liquor and 31 gallons of rum.

Two barrels of liquor valued at \$195 were seized at Campbellton on Monday afternoon, having been received there marked to fictitious addresses.

WANT TO REDUCE RATES

A mild sensation was caused at Wednesday morning's session of the New Brunswick Public Utilities Commission at St. John, when an application was presented by the Bathurst Electric Light and Power Company for permission to reduce rates and asking the board to approve a schedule submitted. An order was made, returnable May 25, when the application will be considered. H. C. Ramsey appeared for the company. This is the first application for reduced rates that has been presented to the commission for some time.

Cleaning Up Adjustments

Adjustments on faulty tires rarely satisfy—they are annoying too, and take time. Except in the case of Ames Holden "Auto-Shoes"

Should the necessity for an adjustment arise on any Ames Holden "Auto-Shoe", an obviously honest effort will be made to meet you—frankly and fairly, without quibble of red tape.

New Hostel At Moncton

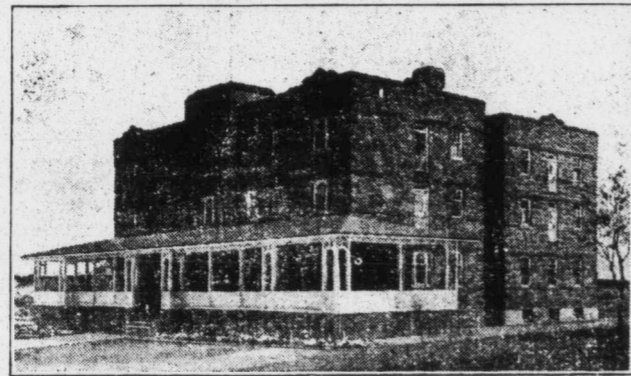

Modern Residence Completed for Girl Employes of Atlantic Underwear Limited

One of the most modern girl's hostels in Canada has recently been completed by Atlantic Underwear Limited, for the accommodation of their girl employes at Moncton, N. B. The hostel for employes is an innovation in the Maritime Provinces, and the Atlantic Underwear Company is to be congratulated upon its progressive-

and lodging are provided at cost and will not be in excess of five dollars a week.

Recreation facilities have not been overlooked, for the Company realizes that good food and good rooms are not sufficient for the welfare of the employes. The girls will be permitted to entertain their friends, and in addition to a good dance floor and musical instruments, games etc., are provided for this purpose. For outdoor amusements tennis courts and croquet lawns will be completed by early summer.

The Atlantic Hostel is a commen-

New Hostel at Moncton

ness in thus providing congenial and wholesome quarters for their girls. The building occupies a commanding view of the surrounding country, is of brick fire-proof construction, and the lighting and sanitation are modern to the last degree.

The residence was planned by J. W. Fraser, A. R. I. B. A., of Moncton. It contains a library, living and recreation rooms, a first aid and hospital ward, well-lighted and aired bedrooms, ample bathrooms and a well equipped laundry for the use of the girls. The hostel is in charge of a matron, and a chief supervises the kitchen. Food

dable effort to elevate the living conditions of the girl workers and to provide them with all the comforts and facilities of a home. Its influence will undoubtedly be reflected not only among the employes themselves but throughout the community.

It has always been the policy of the Company to attract the best class of help attainable to their employ, and the present large investment is a practical working out of theory, that only when employes are well provided for physically and mentally, that the highest quality of workmanship can be obtained.

Quickest For Healing

A cut sustained in the workshop, a sore which is untreated, results say in inflammation or blood-poisoning. You have to lay off for a day or two and it counts when pay-day comes round. Zam-Buk insures you against such loss!

A little antiseptic Zam-Buk promptly applied to any flesh wound or injury prevents disease infection and risk of festering and ulceration, and takes away smarting pain and promotes quick healing.

At home a box of Zam-Buk is ever so useful. The baby's nasty rashes, the older children's cuts and bruises, the inevitable burn, or scald—for all these, as well as for more serious skin troubles, such as eczema, ulcers, ringworm, etc., Zam-Buk is the unrivalled remedy.

Mr. J. W. Benard, 599, Craig St. E., Montreal, writes:—"Two of my fingers were so severely crushed that the doctor said they would have to be amputated. I decided to try Zam-Buk first, and applied the balm daily. Within a few weeks the injury was completely healed. My fingers were saved." 50c box, all druggists.

Seized \$11,200 Worth of Liquor

FREDERICTON, April 21—Liquor valued at \$11,200, which will probably form the nucleus of the stock for New Brunswick's board of liquor vendors, was seized last night at Campbellton, according to a report received by Sheriff Hawthorne, chief inspector under the New Brunswick prohibition act, this morning.

Chief Hawthorne left Campbellton yesterday morning, after having appointed Norman Pettigrew as a sub-inspector in that district, and he started off in search of liquor.

The success of his search was shown in a telegram received by Chief Hawthorne this morning, which said he had seized 225 cases of liquor and 31 gallons of rum.

Two barrels of liquor valued at \$195 were seized at Campbellton on Monday afternoon, having been received there marked to fictitious addresses.

WANT TO REDUCE RATES

A mild sensation was caused at Wednesday morning's session of the New Brunswick Public Utilities Commission at St. John, when an application was presented by the Bathurst Electric Light and Power Company for permission to reduce rates and asking the board to approve a schedule submitted. An order was made, returnable May 25, when the application will be considered. H. C. Ramsey appeared for the company. This is the first application for reduced rates that has been presented to the commission for some time.

THE SALES TAX

Taxation of Sales in Canada and Other Countries Considered With Reference to the Revenue Requirements of the Dominion.

Adjustment of the present sales tax so as to provide a larger part of the revenue required by the Dominion Government is being urged widely.

The Business Profits War Tax has proved inequitable in operation and unduly restrictive of business initiative. It has discouraged investment of much-needed capital, including money from abroad, and indirectly has added considerably to the price which consumers have had to pay for many commodities. It has penalized efficiency and economy and has been evaded in some cases by various methods within the law. Similar taxation has been discredited as unwise and opposed to public interest in Great Britain, the United States and elsewhere. But it is not alone that the Business Profits War Tax is unwise and harmful in its operation; under changed business conditions it could not be relied upon to produce any large amount of revenue. For the fiscal year ended March 31, 1920, the Business Profits War Tax produced a revenue of approximately \$44,000,000. The estimated yield for the year ended March 31, 1921, under the tax was \$40,000,000, and actual collections for the twelve months period have been reported as \$37,601,511. Business depression, with declining values, which set in during the latter part of last Summer or early Fall, has completely wiped out the profits of many industrial concerns and the amount which could under this tax in the fiscal year 1921-1922 would be very small. An example of the way in which business has been affected by changed conditions is found in the recent report of a company which claims to be the largest footwear manufacturing concern in Canada and, indeed, in the British Empire, for the year 1920: as a result of the year's operation a surplus of nearly \$1,000,000 was turned into a deficit of \$470,250. Under such conditions the Business Profits War Tax cannot be counted on as a revenue source of considerable importance and, because of the other serious objections to it, it ought to be re-enacted.

The Corporation Income Tax has been considered as a supplementary levy upon those companies, the income of which was not taxable under the Business Profits War Tax Act. The total assessment upon 2,039 corporations in 1919, on income derived in 1918, was \$4,385,598. Objections to the Business Profits War Tax apply in some measure at least to the Corporation Income Tax as well. Industrial profits are taxable when distributed to the shareholders, and taxation of the earnings when so divided is most equitable and does not involve undue hardship on industry at a time when industry is facing serious difficulties and problems. Under present conditions the corporation income tax is objectionable and uncertain as a revenue source and ought to be abolished. It is necessary to consider, however, the Government's financial needs at a time when the revenue from existing taxation is likely to show heavy declines. Last year a number of new taxes were inaugurated, including luxury taxes, certain taxes payable by manufacturers, and the sales tax. The so-called luxury taxes were abolished by Order-in-Council of December 15, 1920, as were also some of the levies under what was known as the manufacturers' tax. The most productive of the manufacturers' taxes were, however, continued. The levy still applies on confectionery and has been a most serious handicap to the Canadian confectionery industry under conditions of difficulty involved in price readjustment and slackened buying demand. It is grossly unfair to include confectionery with certain alcoholic beverages and with playing cards as subject to the manufacturers' levy. The tax on confectionery is discriminatory and unjust and ought to be abolished.

But if these taxes are not to be continued, because they are equitable and harmful to the industries directly concerned and opposed to the best interests of the people of Canada generally, and if the remaining revenue sources are likely to be less productive under changed business conditions than they have been during the last couple of years, there arises the necessity of considering some substitute means of raising revenue. The interest on our national debt for the last fiscal year alone involved an expenditure of \$140,000,000. Penalties constitute another item of large importance, and the general expenses of administration of the Government are

high. Then, too, there is the very heavy deficit on account of the Canadian National Railways which has to be carried by the people and met out of current taxation.

The Sales Tax is regarded fairly generally in Canadian as the most promising and least objectionable means of raising such additional revenue. The Sales Tax, which became effective on May 19, 1920, provided for a levy on all sales by manufacturers, wholesalers or jobbers, and on the duty-paid value of importations. When a manufacturer sells his own products directly to a retailer or consumer, the sales tax is 2 per cent, in all other cases the levy is 1 per cent. The principle of such tax has been fairly generally accepted in Canada. The preparation of returns has involved much work and expense for many companies, but details of administration have been improved and it is believed that any remaining legitimate objections to the method of application can be overcome. Total collections on sales tax account to the end of January, 1921, amounted to \$31,311,456. It should be noted, however, that the tax was not applied until May 19, 1920, and that such collections do not include any considerable amount of the tax due on account of sales in the month of January. There has been considerable slowing up of business since last Fall, but the sales tax in its present form will yield about \$45,000,000 up to March 31, 1921. With the improved machinery now in operation and despite the curtailment of business, the tax would probably provide between \$50,000,000 and \$60,000,000 revenue during the year ending March 31, 1922.

Until the Budget Speech is delivered it will be difficult to obtain any dependable estimate as to the amount of money which the Government will require for the current year. The Business Profits War Tax last year was estimated to yield about \$40,000,000 and total collections will be somewhat in excess of that amount. If the Government decides not to re-enact the Business Profits War Tax, to abolish the income tax on corporations, to withdraw the tax on confectionery, and to depend upon an adjusted sales tax to provide the revenue required, it will probably be necessary to raise not less than \$100,000,000 by such taxation.

"feeling fine!"

—A few days ago though, I felt pretty miserable—kind-o' tired and drowsy. I must have been very much run down, until someone recommended—

Dr. Wilson's HERBINE BITTERS

An old fashioned, natural preparation made from Dandelion, Mandrake, Burdock, and other purifying herbs, which tend to relieve Dyspepsia, Jaundice, Liver Complaints and Constipation. It purifies, enriches the Blood and builds up the whole system.

Try a bottle and get back that peppy feeling you used to have.

50c a bottle. Family size, four times as large, \$1. At most dealers.

Looks Better
Rides Better
Lasts Better
and is Better

10 REASONS 10 why the above is true

- 1—Extremely attractive appearance.
- 2—Solid aluminum frame, ensuring unusual rigidity and strength.
- 3—Lighter in weight than the average square rubber pedal.
- 4—Ball races fitting tightly in solid frame means that the bearings are in true alignment with each other.
- 5—Alignment of bearings ensures an exceedingly easy running pedal.
- 6—Aluminum does not rust.
- 7—A little metal polish will restore its original finish at any time.
- 8—Rubbers of superior quality.
- 9—Special construction allowing the rubbers to be securely fitted and firmly held without bolts or screws.
- 10—Exceptional value at a popular price.

These are far superior to Moth Balls, Cedar Chests, etc., in preventing moths from destroying Furs, Clothing, Carpets, Bedding, Woolens, Etc. **25c per package or two for 26c**

Think Bogus Check Swindler Has Been Caught

St. John, April 24—A man answering to the description of Theodore Amberg, for whom the St. John police have been looking for more than a year on the charge of passing numerous worthless cheques in this vicinity was arrested in Woodstock, on Saturday night. He was registered at a Woodstock hotel under the name of Black, but a cheque which he cashed at a meat store there aroused the suspicions of the store proprietor and upon investigation he was arrested to be held for the St. John police, as he tallied with the description of Amberg. Amberg passed numerous cheques here about a year ago for amounts ranging around \$40 but made his getaway to Toronto where the police lost the trail and he was not heard of again until he returned to St. John about a month ago when several cheques of a similar nature forged in the same handwriting led the police to the conclusion that he was working his fraud game again. Black will be brought to St. John tomorrow to answer to the charge against him.

Railway Problem Most Important Says Mr. Carvell

Brandon, Man. April 24—"I'm probably occupying the nastiest position of any man in Canada," said Hon. Frank B. Carvell, chairman of the railway board, in addressing the Canadian Club here Saturday. It's a case of damned if you do an damned if you don't; your damned whatever you do. I have been charged by people in the west with being ignorant of western conditions," he said. "Its true I never raised cattle in the west, nor have I grown wheat in the west, but I have in New Brunswick, and there must be some resemblance. "The railway problem today is of such importance that it should receive the attention of every thinking individual. It is more important than the tariff—more important than any other one problem that I know of. "It cost \$35,000,000 or \$40,000,000 more to run the Canadian National Railways last year than they brought in, and that is no reflection on the people at the head of the railroads or on the government. The Canadian National is a conglomeration of a lot of railroads that couldn't run themselves and therefore had to be taken over by the government, and if any one thinks the government or any man can take over these roads and turn them into a dividend paying proposition in a year or so, they are much mistaken. "I feel that the people are entitled

to the facts regarding the railroad condition and I am afraid that a great many people in the west are arguing without having the real facts of the case before them.

The C. P. R. "When we come to the Canadian Pacific Railway we have a system that I have no hesitation in saying, is the finest on the American continent. There never has been any criticism of that railroad reflecting on the honesty or efficiency of its management. The railroads came to the commission last summer and said if they were to accept conditions imposed upon them they would go behind \$21,000,000 or \$22,000,000. They asked a general increase in both passenger and freight rates at forty per cent.

"We didn't come west to consider the matter. It was not necessary. It was purely a question of dollars and cents. I have always felt that the true criterion of a public utility that has not the power to increase its own rates was: 'What does it cost to run the road?' However, I find here that the criterion is: 'What do cattle sell for?' 'What does wheat realize per bushel?' Down east I suppose it would be the price realized for pulpwood. "I suppose I am right in assuming the rates of the Brandon Street Railway have been raised. In fact I think the only place in the world where the street railway rates have not been raised is Toronto and—gentlemen, you ought to see that street railway." Mr. Carvell said he would not like to give an opinion as to the outlook for the present year, but intimated the Canadian Pacific would be lucky to break even.

Rod and Gun

Among the other interesting stories and articles of outdoor life in Canada that appear in Rod and Gun in Canada for May, is one entitled "A Wonderful Salmon Expedition." This describes an expedition after the "big fellows" in Newfoundland. For the fisherman there are two other stories: "Falling From Grace" and "The Heart Cure" in this issue of Canada's outdoor magazine. "Hunting the Black Duck" and "The Parson Goes Hunting" as the title indicate, are hunting stories that will appeal to the devotee of rifle and shot gun. Great interest is being shown in the big game hunting articles written by A. Bryan Williams; one installment of his splendid series of articles appears in this issue. Fishing Notes and Guns and Ammunition Department, as well as the other departments are up to their usual high standards. Rod and Gun in Canada is published monthly by W. J. Taylor Limited, Woodstock, Ont.

BOOM ROAD NOTES

As the majority of the young men have gone to Campbellton, or the drive, it leaves the place very monotonous. The community extend their heartiest congratulations to Mr. and Mrs. Stillman Allison, and wish them a long wedded life of health, happiness and prosperity. Miss Annie L. Matchett arrived home last week, after spending the past nine months in Boiestown. The Misses Annie and Maggie Allison spent Thursday evening with Miss Jessie M. Jardine. Miss Reta McLean is spending a few weeks with Mrs. Benjamin Sherard. Miss Lottie Stewart of Sunny Corner spent Thursday with relatives here. Mrs. Alfred Bell of Newcastle attended the wedding of her brother Mr. Stillman Allison last Wednesday. Mrs. Edward Forsythe spent Thursday evening with her mother Mrs. Sam Sherard of Whitneyville.

Results Of The Referendum In Toronto

Toronto, April 24—Compliments of the referendum vote by the Dominion Alliance up to noon Saturday indicated a majority now for a "bone dry" Ontario of 171,000 votes. Rev. B. Spence secretary of the Ontario branch of the Alliance, declares that the total vote last Monday was eight percent of the vote at the plebiscite of 1919, and the dry majority, he says, is proportionately bigger than that given against the government control at that time. The local referendum committee reports this afternoon that the "wet" majority in Toronto city has dwindled to 296 and Dr. A. S. Grant, secretary of the Ontario referendum committee within a few days that Toronto voted "dry" after all. Against Prohibition.

Winnipeg, April 23—Action to overthrow the referendum on prohibition in Manitoba was instituted yesterday by the filing of a statement of claims by counsel for the petitioner, F. A. Johns. The main contentions against the operation of the act are that the polling hours and other conditions of the plebiscite were irregular.

"The Strawberry Plantation"

Whatever else is neglected, one should not fail to start a strawberry plantation during the spring. Any fairly dry earth will grow strawberries. The ground should be one on which water will not stand during the winter to form ice. Manure at the rate of ten to fifteen tons per acre may be applied and plowed under, or even more may be used to advantage if no other fertilizers are to be used. It is usually considered wise to apply five hundred pounds of a 4-8-4 fertilizer per acre. That is one containing 4% of nitrogen, 8% of phosphoric acid and 4% of potash. However, if the soil is in good fertility this is not necessary and manure alone may be all that is necessary. All fertilizers should be scattered broadcast and harrowed in. Thorough preparation of the soil by plowing and working deeply is advisable. The land is finally levelled with a smoothing harrow and the plants set in rows three and a half feet apart and fourteen inches apart in the row. Closer planting is unnecessary and does not permit of easy cultivation between the rows and opportunity of picking without tramping on the vines. The planting is done by pushing a spade into the soil, pressing it to one side and dropping a plant with roots spread fan shape into the opening, holding the crown of the plant to the top of the level soil and pressing the earth firmly around the plant with the heel or some other way, and finally levelling with loose earth around the crown of the plant. This is quickly done. The importance of pressing the soil firmly around the plant is very great and the plant should be sufficiently firm, so that if the plant is pulled by a leaf the leaf will break before the plant will pull out. Only young plants should be set; that is, plants of the previous season's growth. The planting should be done early, in fact, the earlier the better. Much of the failure with strawberries is due to late planting. This is a job that can be done in the early spring, the sooner the plant becomes established the earlier the formation of runner plants, and the earlier these runner plants form, the larger and better developed are the crowns, without which strong stalks of well formed fruit are impossible. The summer cultivation should be to kill weeds and form a loose surface in which the plant can root without difficulty. As the runners develop the cultivator should be narrowed, so that the runners are not disturbed after they commence to form plants and great care is necessary to avoid disturbing the plants at this time. Some of the runners may be shifted to give a more even distribution of plants along the row, and some hand hoeing will be necessary to prevent weeds from growing later. It is wise to plan for a new plantation every year, as it is difficult to keep weeds under control the second year without much hand hoeing. It will be found that the Separator Dunlap is one of the best varieties to plant. Blossoms are likely to develop on the spring set plants and these should be removed to throw all energy into the development of runners as early as possible.

ECZEMA

You are not exempt from it when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. See a box; all dealers or Edmondson, Bates & Co., Limited, Toronto.

To Those Who Bake
EXPERIENCE has taught good cooks that there is no flour quite as good as Beaver Flour.
BEAVER FLOUR
is the ideal flour for all baking purposes. It is a blended flour, combining the richness and delicate qualities of the world-famed Ontario Winter Wheat with the strength and body of Western Hard Wheat.
Beaver Flour imparts to bakings the qualities which make your bread, pies, cakes and pastries real food treats.
Try it! Sold by your grocer.

Every Can of B-H Adds Value to Your Home!

Save the surface and you save all.
A Tempting Offer to Sell the Old Home
If well preserved, an old family residence always possesses an extra valuation over and above its property value. It has something which a new house can never claim, and the man who is fortunate enough to inherit the home of his forefathers, knows that proper surface protection means, ultimately, a much larger selling price. A comparatively small outlay for paint is repaid many times over in the added value of your home as an investment.
B-H "ENGLISH" PAINT
The outstanding record of B-H "English" Paint's enviable reputation as a surface saver is its guaranteed formula right on the face of every can we manufacture.
These important basic ingredients (70% Brandram's Genuine E.B. White Lead and 30% Pure White Zinc) give to B-H "English" Paint its remarkable covering capacity and durability—it ensures that your house will be covered with a smaller quantity of paint than you would have to use if you bought a paint of lower quality.
Do not be extravagant, therefore buy B-H "English" Paint, for then you will be sure of real economy and real surface protection.

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—"I have suffered since I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was so had at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodman, 11 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodman was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

\$10,000 FIRE IN TOWN OF MILTON, N. S.

Liverpool, N. S. April 24—The town of Milton, two and a half miles from Liverpool was threatened with destruction by fire this morning. The blaze broke out at four o'clock in Alister Kempton's grocery and feed store and fanned by a high wind spread rapidly. There is no fire fighting apparatus in the town and the building was soon reduced to ashes. The flames spread to a large residential building occupied by the Kempton sisters and it also was destroyed. The roof of the Masonic Hall and several other buildings were scorched. The total loss is about \$10,000 with \$2,000 insurance.

The Liverpool firemen and about 300 Milton men fought the flames with buckets of water.

**LORD BEAVERBROOK PRE-
DICTS A BIG DROP IN NEWSPRINT**
LONDON, April 23.—A big drop in the price of newsprint in the British market was predicted by Lord Beaverbrook, publisher of the Daily Express, in an address before a gathering of newspaper proprietors last evening.

At present, he said many British newspaper proprietors were paying eight pence per pound for newsprint, though it was now obtainable in the open market for two and three quarter pence. This indicated abnormal conditions in the trade which could not continue.

After referring to the results of his investigations into the productive possibilities of various countries, Lord Beaverbrook said that he felt no hesitation whatever in declaring that "the fall in the price of newsprint would go very far."

Preparation Of Ground For Roots

In preparing ground for roots there are three general principles which are applicable to all conditions. (1) The land must be well plowed at the proper time (2) A good application of top dressing must be made (3) the ground must be thoroughly cultivated to incorporate the top-dressing with the soil and also make a good seed bed. However, to be successful the producer must, in addition, consider the crop he wishes to raise and study the conditions of the soil or which he intends growing, so that he may prepare the latter to suit condition; and give a maximum crop.

All roots contain a large amount of nitrogen and ash constituents; among the latter, potash is one of the most essential. The average crop of turnips will contain per acre, approximately seventy-six pounds of nitrogen forty-eight pounds of phosphoric acid and two hundred pounds of potash and fifteen pounds of sulphur. Mangels contain approximately per acre ninety-eight pounds of nitrogen; thirty-six pounds of phosphoric acid; two hundred and twenty-two pounds of potash and 4.9 pounds of sulphur; (Note: Turnips contain more sulphur than any other farm crop). Turnips, if the land is well tilled before sowing the seed and properly cultivated after, are capable of getting the required amount of nitrogen and potash from the soil, if the soil is fertile. But, apparently, they have not the power of appropriating the combined phosphoric acid from the soil. Therefore, on a poor, exhausted soil it is practically impossible to get a profitable crop unless phosphatic fertilizers are applied. Superphosphate or basic slag is recommended for turnips.

Mangels, on the other hand, feed deeper than turnips and so have a greater capacity for obtaining nitrogen, potash and phosphoric acid from the soil. This being the case, the application of phosphatic fertilizers is not so important for mangels as an application of nitrate of sodium.

Where commercial fertilizers are used alone, the following quantities are recommended per acre, from four to five hundred pounds of nitrate of soda or three hundred and fifty to four hundred pounds of sulphate of ammonia; four hundred pounds of superphosphate or five hundred pounds of basic slag; four hundred pounds of nitrate or sulphate of potash.

Both turnips and mangels require a large amount of plant food; consequently, a liberal supply of barnyard manure is necessary for their production. Bearing this fact in mind and also that the principal manurial requirements for turnips are phosphatic fertilizers and mangels nitrogenous, we next consider the ground.

The land for roots should be plowed shortly after the clover hay has been cut. If available, apply barnyard manure on the sod; then plow to a depth of six inches, roll, follow with a double cutaway harrow and cross-plow in early spring, as soon as the land is fit. Harrow to conserve the moisture; this is necessary for a successful crop of roots. Follow with two cuts of double cutaway harrow and once with the smoothing harrow and a good seed bed should be the result. A good seed bed is absolutely essential; therefore, if it requires the third or fourth harrowing to insure a good seed bed, the time is well spent.

The reasons for applying barnyard manure on the sod and plowing it down are: (1) to prevent waste by washing; (2) by cross-plowing, the manure is worked up toward the surface soil where the roots, which are shallow feeders, will obtain the full benefit from the plant food supplied by the manure. Drill the rows about thirty inches apart. Where roots are grown with barnyard manure, alone, an application of about one hundred pounds of nitrate of soda will give the seeds a quick start.

"I Am So Tired, Dearie"

IN the recent Advertising Contest the question was asked, "For what is Dr. Chase's Nerve Food most frequently used?" And the answer in the great majority of cases was: "I have found on inquiry among my friends that Dr. Chase's Nerve Food is most used by women who have their own housework to do and small children to look after." "When tired and worn out by the continuous monotony of household duties and the care of small children the nerves in time play out and then it is that Dr. Chase's Nerve Food proves the good friend in time of need." Mrs. W. German, 213 Park street, Brockville, Ont.,

writes: "After the birth of my boy I became so weak and gradually lost weight. I was unable to do my work and was in misery because I could not sleep. My nerves would twitch and jump and I would get up in the mornings with tired, aching limbs and aching head. My heart was so weak that it would palpitate at times, and I became greatly discouraged." "Following personal advice from friends, I began the use of Dr. Chase's Nerve Food and took altogether 12 boxes. I wish you could see how well I am now and how I am enjoying life."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Dr. Chase, Pates & Co., Ltd., Toronto.

HON. T. A. CRERAR FOR YORK-SUNBURY

Fredericton, N. B. April 22—Hon. T. A. Crerar, leader of the Farmer's party, is coming here next week and to spend April 29th and 30th in connection with the York-Sunbury by-election campaign. He is expected to speak in Fredericton, Nashwaak and Marysville as well as at McAdam, Marysville and McAdam are industrial centres, while Fredericton has more than one fourth of the total vote of the constituency.

Orchard Cultivation

It is a well known fact that growth in the orchard a tree is made during the months of June and July after which the growth fill out and ripens. It is also known that early cultivation stimulates growth. The loosening up of the earth aids in the warming of the soil and makes it possible for soil organisms which liberate plant food to become active earlier; air will penetrate better and these organisms will become active to a greater depth than if cultivation furnish suitable soil conditions for the tree and the organisms upon which the tree is dependent for the liberation of plant food.

Uncultivated areas may be made suitable for the tree by supplying nitrogen in an available form early through the use of Nitrate of Soda and by using a mulch to conserve but on the whole the practice most suitable for general orchard areas is early cultivation followed by frequent cultivation at intervals of a week or ten days to the middle of June or July 1st after which orchard cultivation should cease.

The first cultivation may be shallow plowing, four to five inches deep, after which surface cultivation with the disc and smoothing harrow to maintain a surface mulch of fine earth is all that is required. Deep cultivation is not desirable, as the feeding roots naturally grow in the surface soil and deep cultivation may injure them. Shallow cultivation prevents the formation of a surface crust; thus checking excessive evaporation of moisture and retaining it for continuous growth of fruit, and insuring a proper moisture supply for the tree later in the season. As soon as the ground is dry enough after rain it is wise to start the harrow, producing thereby a dust mulch.

After the middle of June a cover crop should be seeded to occupy the ground during the fall; take up excess plant food, and develop humus for the following spring. The common vetch seeded at the rate of 1 1/4 bushels per acre is the best cover crop. This plant can extract nitrogen from the air and increase the store of nitrogen as a result. This crop makes vigorous growth on most soils but will do better if the soil is limed. It is a crop fairly easily turned under and it is satisfactory, at picking time, as it flattens down after making con-

Local and General News.

AWARDED MEDAL
Thomas Dunn, who was for years C. N. R. station agent at Blackville has been awarded the Imperial Service Medal by His Majesty the King.

SUCCESSFUL PARTY
The Cobweb Party given by the Taxic Boys in St. James' Hall was well attended and thoroughly enjoyed. The evening was a success both socially and financially.

TO MARRY THIS WEEK
The marriage of Miss Jean Wilkyn Brankley, daughter of Mr. J. W. Brankley, of Chatham, to Fred R. Whittall, son of A. R. Whittall, Roslyn avenue, is taking place in Chatham on Tuesday, May 3rd.

FIRE ALARM
The Fire Department was called out last Saturday morning for a small fire on the roof of Mr. W. F. Comeau's house on the New Highway. The fire was extinguished before the arrival of the department.

THE LUMBER DRIVES
Chatham World: The J. B. Snowball Co. drive on the Tabusintac, is out. The company's cut this year is all on that stream and is about one-sixth of the usual season's output.

The Miramichi Lumber Co's drive is coming along nicely with plenty of water, but, as in the case of the Snowball Co., very little lumber is being driven.

BACK FROM WEST INDIES
J. L. Stewart of the Chatham World Mr. and Mrs. J. Willard Smith and daughter, Mr. and Mrs. J. W. Davidson, Mr. and Mrs. E. S. Stephenson, Mrs. Ledingham and daughters, and Miss Magee, of the board of trade staff were passengers on the steamer Chaudiere, which arrived Monday from the West Indies. Commodore Stewart as brown and hearty looking as a sailor should be, said that they had a most delightful trip, greatly enjoyed by every traveller.

Laurier Monument Fund
To date there has been subscribed towards the Laurier Monument Fund the sum of \$34,913.87. This represents the voluntary subscriptions of tens of thousands of people, for the largest amount accepted from any one person is \$5.00, and in hundreds of cases sums of \$1.00 and less have been sent in without names or addresses. The work is now well under way and anybody desiring to subscribe may do so by forwarding an amount to the Honorary Treasurer Mr. P. C. Larkin, Toronto.

MILLERTON INSTITUTE
The Millerton Women's Institute met at the home of Mrs. J. D. Lyon, April 21st, with the President in the chair. The roll call was answered by eleven members. The report of the analysis of the school water made at the Dominion Experimental Farm, Ottawa, was read. This report was very gratifying to all. Misses Daisy Peterson and Pauline Crocker were appointed delegates to attend the special health meeting in Newcastle on Wednesday, April 27th. The subject was Making a Home on the Farm. Papers were read by Mrs. Matthews, Mrs. Scott, Mrs. Annie Clouston, Mrs. Lyon, Mrs. Newman and Miss Pauline Crocker. Next meeting to be held at Mrs. Burton Vanderbeck's May 19. Luncheon was served by the hostess.

SOCIAL DANCE
The Social Dance given by the Bachelor Girls in the Town Hall on Thursday night was well patronized. The music provided was excellent and enjoyed by all present.

MEETING WELL ATTENDED
The Public Meeting held in connection with the New Brunswick Health Week was well attended and the addresses delivered were attentively listened to.

MILK PRICES
Commencing on Sunday, May 1st, the general price of milk in St. John city is 13 cents per quart, a decrease of 2 cents. The price of milk in Newcastle is 16 cents per quart.

LOBSTER SEASON
The lobster season opened Tuesday throughout Prince Edward Island with the exception of from Victoria to West Point, which has the summer season from August 16th to October 15th.

CORRECTION
In the game of Basket Ball in the Temperance Hall, on Friday evening April 22nd, between St. Luke's Basket Ball Team of Chatham and the C. G. I. T. of St. James' Church, Newcastle the score was 13 to 31, in favor of the C. G. I. T. instead of 28 to 31.

CALLED TO CHATHAM
Rev. F. H. Littlejohns of York, P. E. I., has accepted the invitation of St. Luke's church to be the subject to the stationing committee, to become their pastor at the beginning of the conference year in July.

PACKED HOUSES
The H. Wilmot Young Adams Company will be received cordially on Wednesday and Thursday evenings. The plays presented were exceptionally good and this ever popular company will be received cordially on their return visit.

PICKING FLOWERS
Although Sunday was somewhat cooler than the days of the preceding week, a great number were of the opinion that the bright sunlight was quite sufficient to offset the breeze that blew and went a-maying. Many of the strollers who rambled out to the country returned with large bunches of sweetly-scented Mayflowers.

28 YEARS AGO
(From the World of April 27th 1893)
Another schoolhouse has been burned in Newcastle. The Harkins Academy was discovered to be on fire at 2 o'clock, Saturday morning, and the firemen could do nothing except prevent the fire from spreading to other buildings. A few desks were saved, but the building burned to the ground. It is believed that the fire was of incendiary origin.

TRANSFERRED TO ST. JOHN
G. E. Martin, of the department of public works, Chatham, arrived in St. John on Wednesday. Mr. Martin and all the members of the departmental staff now stationed at Chatham will be transferred to St. John by May 1, as a result of the decision to amalgamate the two branches. The office at Chatham will be closed and the work previously carried on from that branch will be conducted from the St. John office.

TWO BURNED TO DEATH
Chatham World: Word was received from Green Point, Gloucester Co., Tuesday, of the burning of a cook house in connection with the lobster factory of Mr. Peter Noel of that place. The fire, the origin of which has not been explained, took place early in the morning of that day and before the occupants of the place could get out four persons were burned, two of them fatally. The dead are a man named Casey and a brother of Mr. Noel. Mr. Noel was himself badly burned and the cook, a woman, is in the hospital in a critical condition.

A Splendid Tonic For Weak People

Dr. Williams' Pink Pills Act On the Blood and Nerves.

Food is as important to the sick person as medicine, more so in many cases. A badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow; in sickness the appetite is often feeble and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills are a fine tonic medicine, harmless and certain in their action, which is to build up the blood and restore vitality to the run-down system. For growing girls who are thin and pale, for pale, tired women, and for old people who fall in strength, Dr. Williams' Pink Pills are an ideal tonic. Thousands have testified to the benefit derived from the use of this medicine, among them is Mrs. William Gallie, Hantsport, N. S., who says: "Before I began the use of Dr. Williams' Pink Pills I was so weak and run down that I could hardly do my own work. I often suffered from headaches and was very nervous. I then began the use of Dr. Williams' Pink Pills and I can truthfully say I have found them the best medicine I have ever taken. You may depend upon it I will advise other sufferers to take these pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

14 YEARS IN THE PENITENTIARY
WOODSTOCK, N. B., April 30—At the opening of the Circuit Court, this morning, Mr. Justice Barry sentenced James McDonald, convicted of breaking, entering and stealing, to seven years in the penitentiary, and Rev. Charles Steeves, for an offence against Etta Brooker, a girl under 14 years of age, was sentenced to fourteen years in the same institution, the judge remarking that he could have given him a life sentence and a whipping and laid down to sleep to-night with a clear conscience.

APPOINTMENTS
The following appointments are gazetted.
Stanley Crawford, of Blackville, Northumberland County, and Adam Dickson, of Chatham, Northumberland County, to be Provincial Constables.
William Appleby, Barry M. C. Underhill, of Blackville, Michael W. McCarthy of Blackville, Fred F. Powrie, of Little Branch, and Michael Walsh, of Nelson, to be Justices of the Peace.

DEFAULTERS
According to the Town's Blue Book, there are a good many thousands of dollars due the town in taxes which should be collected. The defaulters list is so large that the 1920 Default list actually takes up fourteen pages of the Blue Book. It contains the names of many people who have difficulty in making ends meet, and it also contains quite a number of names which should not be there—the names of people who are recipients of good incomes and are well able to pay. The Finance Department of the Town Council are now advertising that all arrears must be paid on or before May 20th. If not paid the civic authorities will employ more drastic measures. This is a step in the right direction and should produce results.
