Hon. T. B. Pardee represented Lambton county from 1867 to 1875, and Lambton west from 1875 to 1889. From then up to the present time the riding has been represented as follows: 1890-94 Charles Macdonald, Liberal; 1894-98, Alfred McKenzie, Liberal; 1898-1902, F. F. Pardee, Liberal; 1902 to 1919, Hon. W. J. Hanna, Conservative; 1919-23, Jonah M. Webster, U.F.O.

The garden party season is right at hand, and the early prospects are that these popular entertainments will be as numerous this season as ever. Nothing yet has been devised to attract people and entertain them in a manner equal to the garden party. They usually combine a pleasant drive, a good program and an opportunity to meet friends, at a season of the year when nature excels.

Sunday next the sacrament of the Lord's Supper will be observed in the Watford Presbyterian church at the morning service. Preparatory services on Thursday evening, conducted by Rev. J. A. Shaver of Strathroy. At the evening service on Sunday an illustrated missionary address will be given by Rev. Charles Donald, B.D., returned missionary from central India.

For Friday and Saturday flowered sateen undershirts, full sizes, special 89c.—A. Brown & Co.

Awning stripe at Brown's. Marie Gladke and her players put on entertainments in the Lyceum Monday and Tuesday evenings but were not extensively patronized. The plays presented were well put on the boards and the vaudeville was above the average, and deserved better houses.

New Crompton Corsets, new brassiers, new blouses.—Swift's.

Following is the report presented by the stationing committee of the Methodist conference on Tuesday for the Strathroy district—Petrolia W. K. Hager, from Watford; Kerwood, W. G. H. McAllister, from Exeter; Watford, E. Medd, from Ridgeway; Arkona, W. W. Shoup, from Theford; Brooke, James L. Foster, from Varna; Melbourne, J. R. Peters, from Belgrave; Alvinston, A. L. Spracklin, from Malden; Oil City, C. R. Gower.

A thrilling spectacular picturization of one of the greatest stories of our day "The Pride of Palomar" by the most popular author Peter B. Kyne, will be the special attraction at the Lyceum Wednesday, June 6.

Victoria Day is noted as one of the most dependable of our holidays in the matter of weather, but rarely has a more pleasant atmosphere and brighter sunshine been accorded than Thursday last.

The spring chill was driven away by noontime and a genial warmth prevailed. It was a day which invited holiday making and in which Nature invited all to her great outdoors. Excursions to outside points invited those owning autos and picnics in the nearby woods were indulged in by others. It was a most enjoyable day for an outing. The sports provided in surrounding places also drew a number from town.

The young people of St. Paul's church, Kerwood, presented the four-act drama "The Dust of the Earth" at the Lyceum on Friday evening before a fair-sized audience. All the characters of the cast were well taken and the play was warmly received by the audience. The entertainment was presented under the auspices of the Watford Women's Institute and the proceeds go towards making up the amount promised by the Institute towards the Soldiers Memorial Fund. The players were accompanied by an orchestra which rendered some very acceptable music between the acts.

The cast of the play comprised the following amateur actors: Walter Eastabrook, Mrs. Gimblets, Mrs. Cliff Freer, Evan Denning, Cliff Freer, Irene Eastabrook, Clarence Matthews, Geo. Wilson, Jas. Lucas, Nona Wilson.

The two new courts for the Tennis Club are nearing completion and this week should see the posts in position and the back stops erected. This means that instead of just the one at present being played on members will very shortly have three courts to use, and as the committee wish now to be in a position to gauge the number likely to be playing it is hoped that those contemplating joining the club this season will hand in their names as soon as possible to the sub-committee of two appointed to receive them, viz, Mr. H. B. Trenouth and Mr. J. Kinnell. Lawn tennis is becoming increasingly popular as it is a game which ladies and men can play together and on level terms and in which average proficiency can be acquired fairly easily.

So the fact of Watford providing no less than three courts for play gives beginners a wonderful opportunity to pick up the game quickly. The club membership cards are ready and can be obtained from the sub-committee mentioned.

## To the Electors of Lambton East: THE DRURY GOVERNMENT AND HYDRO

The Province of Ontario is now committed to well over one hundred million dollars guaranteed for the development of Hydro Electric energy. Sir Adam Beck, who has spent the greater portion of the past fifteen years of his life perfecting this gigantic scheme, which has now come to be recognized as one of the best systems in the world, and whom I believe to be one of the cleanest public men in Ontario today, has so far managed the enterprise on a clear cut business basis, so much so, that almost without an exception, municipalities which have joined in the scheme are paying dividends to themselves and to the whole people of the province of Ontario, yet we have seen the Government at Toronto during the past two years, trying its utmost to discredit this public man by employing expensive commissions to do the work which they are paid by the people of Ontario to do, and which they have not had the courage to do themselves.

The people of Ontario, to whom the system rightfully belongs, are demanding and will continue to demand that the scheme be carried to a larger and more successful conclusion, and the employment of commissions such as we have seen during the past year will only tend to add expense to the development, which the war period tended to increase beyond the estimates.

I hold no brief for Sir Adam Beck, none is required as he is quite able to take care of himself. I did not agree with his Radical policy, and I give Mr. Drury credit for his stand on this matter, but I will remember the early days of the Hydro Electric fight, when he fought in the Legislature and throughout the province the battle of the people. I remember how he stuck to his task in the face of almost insurmountable obstacles and if the spirit of this public man is broken in this critical time, the government who have sought to discredit him by unfair and cowardly means will be directly responsible to the people of Ontario for their actions.

I have been a strong supporter of Hydro since its inception, the only political speech I ever made was in defence of it years ago. I still believe it will prove to be the greatest boon to Ontario of any public enterprise so far engaged in, and I will continue to fight for it throughout. I have advocated in the past and still advocate that the present rate quoted to small towns and villages and to farmers situated quite a distance away from the source of supply, such as we are in Lambton, might be modified, and I might say that the Hon. Mr. Ferguson concurs with me in this view, and should I be elected as your representative, that will still be my attitude. Let us stick together in this important matter. We have a heritage in Hydro which will ultimately prove of inestimable value to the whole people of this province, it is our right, let us enjoy it to the full and if at any time the government then in office feels that matters are not going properly, let them face the matter courageously, and instead of employing commissions to shield them from blame, let them take the full responsibility and discharge the whole Hydro Commission.

Yours truly,  
W. R. DAWSON.

The lake summer resorts which opened on Victoria Day were well patronized.

## WATFORD HIGH SCHOOL

### Watford High School Term Examination

The following is the standing obtained by the pupils at the recent examinations on which along with the three preceding examinations promotions and recommendations are based. This year owing to the change in Lower School regulations a number of pupils have been granted Lower School standing by the staff. To obtain this however an average of at least 50% of the term examination marks are required. Those who were unsuccessful in obtaining this have the opportunity of writing the Departmental examinations. The complete list of promotions will not be available until after that examination.

NOTE AND COMMENT

A Philadelphia man spanked his wife when she threw a soft boiled egg in his eye. The judge acquitted him on the ground that the lady had egged him on.

New Zealand has followed England's lead in reducing her debt during the past year. Is it not time Canada was following suit. No country is in a better condition to do so.

The 24th of May has always an advantage over other holidays. As a rule it comes just after the furnace has been let out and before householders begin to worry over next winter's supply of fuel.

Sidney Murrell, Melbourne bank bandit, was captured at Susanville, California, last week and is at present on remand in the county jail of Lassen on the charge of robbing a house. Finger prints were taken and sent to Ottawa. Comparison show the prints to be the same.

An observant philosopher suggests that if our young ladies and young men would work in the garden evenings for half of the time they now spend at baseball and tennis, the high cost of living would be reduced in many homes, the home surroundings would be more beautiful, and the boy or girl would be physically benefitted just as much.

New York sugar gamblers are squealing like stuck pigs over the attacks of the government in their business. Profiteers are always the first to raise the cry of voted rights—which in the sugar case was the right to fleece the public.—Wheatley Journal.

Toronto Mail and Empire.—Elevator companies in the West are constructing 200 or more country elevators at a cost of several millions, and at the head of the lakes \$6,000,000 will be spent in new terminal elevators and in enlargement of old ones. The West has had plenty of knocking from political Jeremiahs within, but the facilities for business are growing.

They do not complain, but they accept the heavy burden of taxation as a patriotic duty. Their sacrifice and determination have made a profound impression on an admiring world.

A recent amalgamation of from 35 to 40 independent canning factories of Ontario with the Dominion Canners, Ltd., of Canada, according to Consul J. B. The French have imposed stiff sentences on Germans guilty of disturbances in the Ruhr. Herr Krupp von Bohlen, husband of Bertha Krupp, of the famous Krupp works, has been sentenced to 15 years' imprisonment and a fine of 100,000,000 marks. Other participants have been given from 10 to 20 years. Schlogeter, a former Prussian officer, who was convicted of wrecking a train, has been sentenced to death.

How much is it worth to keep \$12,000,000 of Ontario money in Canada instead of spending it in the United States for coal? That is one way of looking at the question of fixing a rate on Alberta coal which would permit it to reach a market in this province. Coal producers in Alberta and dealers in this province are convinced that the \$9 a ton rate proposed by Sir Henry Thornton is too high. But Sir Henry says that cutting the rate below his figure would result in a loss to the railroad system it is his job to protect. No one wants the National lines to lose money. But wouldn't the profit to Canada, in keeping the coal money at home, overcome any possible loss the National lines might sustain in hauling coal at a \$6 rate.—Border Cities Star.

Couldn't Even Turn Over in Bed

Pitiful plight of London woman—completely crippled for month—Dreco puts her on high-road to recovery.

Picture the misery of Mrs. Minnie E. Hetherington of 322 Eleanor st., London, smitten by the demon rheumatism just two weeks before the happy Yuletide season and spending it on a bed of pain, so badly crippled that she couldn't turn over, much less walk. Here is her own story of her sufferings until her fortunate discovery of Dreco.

"Just before Christmas I caught a terrible cold that settled in my kidneys. My hands, feet and limbs became very sore and began to swell with rheumatism until, suffering agonies of pain, I took to my bed. The pain and stiffness was so severe that I couldn't even turn over. I was very nervous and couldn't sleep and had no appetite. Constipation also added to my sufferings and medicines gave me no relief. My daughter, however, heard of the wonderful relief other people were getting from Dreco and brought a bottle home to me. That was only a week and a half ago. Now I am able to walk, a thing I haven't done for two months. I am feeling like a new woman; my bowels are regular. I sleep soundly and have a good appetite. The pains in my limbs have almost gone as has the swelling. I unhesitatingly recommend Dreco to anyone suffering as I did."

Dreco, the great blood purifier and regulator, goes to the very root of internal disorders and by making such important organs as Kidneys, stomach, liver and bowels function properly, brings health and freedom from pain to the whole body.

Dreco is being special introduced in Watford by Siddall's Drug Co., and is sold by a good druggist everywhere.

THE FARMER AS A BUSINESS MAN

Keeping a set of books on the farm is no longer the idea of a professor or faddist. It is part of the day's work on hundreds of farms in Ontario. Prof. Archibald Leitch, of the farm management department of the O.A.C., has done more by persistent effort and careful co-operation with the farmers themselves to popularize this work than could possibly have been accomplished in any other way. The fact that he has a number of agriculturists all over the country working with him in this matter attests to the success that has attended his efforts.

Of perhaps greater importance than anything Prof. Leitch can say is the testimony of the men who are furnishing him with the material from which he gets his cost figures. In the county of Oxford, for instance he has 17 selected farms where accurate accounts are kept every day. These entries are all sent to the farm accounting department at the O.A.C. at the end of the year, and each item put in its proper place. Of course this system is too extensive and too great in its demands to be of practical value on the average farm. But it is from these 17 places that the actual cost figures are secured, and these are so carefully compiled that they can be accepted as working basis for any other agriculturist in the district.

The fact that it cost 94 cents per hour for a man to operate a team of horses on a plow has taken a great deal of detailed work to establish; likewise that it cost in Oxford county in the last year for which figures are available 48 1/2 cents per bushel to grow oats, \$12.83 per ton for hay, 49 cents per bushel for mixed grain, or \$1.34 to produce fall wheat. These figures were all obtained under carefully noted, positive conditions, and they will stand up under investigation as being the average costs.

The man in the city is often heard to make the statement that the farmer gets his living for nothing. Not for one minute. Prof. Leitch allows him a salary, based on what his services would be worth if went to work for another farmer with equal responsibilities to his own. He charges him for his house, for all the supplies furnished to the house from the farm, for the use of horses for other than farm work, etc. There is no chance for the farmer to be fooled or to fool himself under the system.

Men who use farm accounting, and there are many in Oxford, say that it enables them to know rather than to guess what they are doing. They can tell whether it is better for them to alter their style of farming. Apart from all this there is the necessity for the thing, because the average investment in 17 farms from which figures are taken to represent the county is \$17,342, and no man is going to have that much capital at stake and be loose or careless about keeping records; is one of the best positive forces that has been introduced and extended in recent years.

Pains in the Joints

Is An Indication That the Blood is Thin and Watery.

The first sign of rheumatism is frequently a pain and swelling of one of the joints. If this is not treated through the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues—sometimes rheumatism attacks the heart and is fatal.

A remedy that has corrected many cases of rheumatism is Dr. Williams' Pink Pills. These pills enrich and purify the blood so that the poisonous rheumatic matter is driven out of the system as nature intended. Miss Gertrude Denne, Washago, Ont., was attacked with rheumatism and found relief through Dr. Williams' Pink Pills. She says:—"About a year ago I was attacked by rheumatism and for two weeks was confined to my bed. The trouble was so painful, affecting the joints of my limbs so that I could not stand alone. Mother had a box of Dr. Williams' Pink Pills in the house and thought they might help me. I began taking them, and when I had taken these pills got a further supply, with the result that the rheumatism vanished and I was a well girl. I may add that my mother and two of my sisters have also used the pills for various ailments with equal success, and now we are never without them in the house."

Three Questions You Should Ask When Buying a Storage Battery
1. Is it a GOOD BATTERY?
2. Is it made by a RELIABLE FIRM?
3. Can I get SERVICE EVERYWHERE?
Pres-O-Lite Storage Batteries are standard equipment on the majority of Canadian-built Motor Cars, and, from the beginning, proved themselves superior in power and life.
Pres-O-Lite Storage Batteries are made in the largest and most modern battery plant in the British Empire.
Pres-O-Lite has more than 800 Service Stations in Canada. Wherever you go, you can get expert advice and repairs.

There will be no further grant by the federal government to the provinces for road construction, after the \$20,000,000 granted under the Canada Highways act is expended.

An American trade journal issues a word of warning against the tendency to exaggerate the duration of a wave of prosperity. It says: "The butter of prosperity is spread a little more thinly there will be buttered bread for a good deal longer than if everyone digs into the butter jar with a trowel."

For the first time in the history of the world, so far as known, the aeroplane is to be brought into use as a conveyance to bring voters to the polls at the coming Ontario elections on June 25th. The far-distant polling station of Moose Factory is to usher in this new world record.

Proceedings are shortly to be taken against income tax delinquents owing amounts ranging from \$75 upwards, through the exchequer court and a list containing 100 such persons in the London district is being prepared in the office of the federal inspector of taxation at London. Action against tax payers owing lesser amounts and who refuse to settle will be taken through police court channels.

A well-known business man has a little daughter who has the making of a great financier in her. One day her father called her to him. "My dear," said he, "a man this morning offered me this room full of gold if I would sell little brother. Now, that means gold enough to fill this room wall to wall and from floor to ceiling. If I sell little brother for that sum I shall be able to buy everything in the world you want. Shall I sell him?" "No, papa," answered the little girl promptly; and then, before her delighted father could embrace her for expressing so much unselfish affection she went on, "Keep him till he's bigger. He'll be worth more then."

James Miller lighted a match Sunday evening in the basement of his home in Grosse Ile. Almost instantaneously there was an explosion which shattered the four walls of the residence, and a flash of flame, spreading fan-wise, which left Miller so severely scorched that he may die. Gas from a faulty generating machine in the basement had permeated the place. Miller was found by neighbors where he had been thrown against a stone wall. His wife and two small children, who were on the second floor, escaped injury, principally because the concussion forced the walls outward, and the second-storey flooring, upon which rained fragments of shattered timbers, remained virtually intact.

**ONE BRAVE LETTER**

A letter written to the Listowel Banner and signed "Presbyterian" rakes over the coals some of the members who regularly are late in arriving at a certain named church in that town. Moreover, the letter writer lodges the plain charge that these people come in late with only one object in view, that of being observed.

This particular letter writer not only points out the defect but writes the cure: "If the object in coming late is only for the purpose of making a little display and attracting the public notice, would the end not be better accomplished by such people arriving early at church and setting themselves up in some conspicuous place, where all their beauty and ornaments would be seen to better advantage?"

That letter writer wins the prize for candor and fearlessness. He is not going to allow his kirk to be made a show window for feathers and frills.

Every church has its share of the chronic late-comers and it might work wonders were the theory well circulated that they follow this plan to attract attention.—Exchange.

**LOOKS LIKE LOBSTER SALAD AND MOONSHINE**

The editor of the Listowel Banner had a bad night recently and next day wrote the following paragraph: "Man drinks strong, black coffee, and that clogs the valves; he drinks moonshine liquor and that strips the gears; he gulps down lemonade, ginger ale, pop, iced tea and what not and then wonders why the boilers do not generate heat. If you should take a donkey and put him through that performance he would be dead in a month. The simplest and plainest laws of health are outraged every day by the average man. Did Adam smoke? Did Eve wear a corset? Did Solomon chew tobacco? Did Ruth celow gum? Did the children of Israel make for a cafeteria and a mess of pastry after crossing the Red Sea? Did Rebecca eat chocolate bonbons and ice cream and call for soda water? Adam was the first man and he was made perfect from head to heel. How long would he have remained so after eating a mince pie before going to bed? Suppose he had slept in a bedroom five by seven with the windows closed down and the radiator sizzling. Suppose Eve had been laced up in a modern corset, worn tight shoes with high heels, a double fig leaf skirt and sat up all hours of the night eating chicken salad and Welsh rarebits and trying to keep on four pounds of dead people's hair."

**WYOMING**

Mr. Frank C. Donald, a son of Mr. John F. Donald, 2nd line, passed away Friday of last week, in Philadelphia, Pa., at one of the large hospitals. Mr. Donald went to Philadelphia about three weeks ago and was operated upon for a spinal disorder. He was doing well when he suddenly succumbed to heart failure. Deceased was but 32 years of age. Early in 1916 deceased, who was a graduate of the O.A.C., Guelph, enlisted with the 55th Battery, C.F.A., at Guelph, and, after a short training in Canada, went with that unit to England. On the re-organization of the Canadian artillery in January, 1917, he was transferred to the 55th Battery and served in France from August of that year until the armistice was signed in 1918, coming through a number of battles with this unit without mishap. He was also one of those who marched to the Rhine, his battery having been one of the first to enter German territory. On his return to Canada in June 1919 he took a position with the Soldiers' Settlement Board at Toronto and was on this work until a couple of years ago, when he bought his father's homestead. Besides his wife and young son, he is survived by his father and two brothers, Mr. Stuart Donald, of Pt. Edward and Mr. William Donald, of New York City, who was with him at the time of his death. The funeral which was held on Monday afternoon under the auspices of Burns' Lodge, A.F. & A.M., Wyoming, was the largest in this section for some time. The services at the house and grave were conducted by Rev. E. J. Haines formerly of Wyoming, but now of Freeport, an uncle of deceased, assisted by Revs. McKay, of Sarnia, and Stones of Wyoming.

When the Legislature dissolved last week, the standing was: Conservatives 25; Liberals 25; Farmers 43; Labor 11; Independent 5; and vacant one.

The lake summer resorts which opened on Victoria Day were well patronized.

Adam Armstrong of Alvinston has little hope of the recovery of his sight, specialists having made no improvement in his condition.

An observation tower has been erected on Point Pelee to help Game Warden Finlayson in the detection of grass fires and poachers.

A fine new ferry, the Sarnia, with a capacity of 40 autos and 1,000 passengers, is shortly to be added to the ferry service maintained between Sarnia and Port Huron.

C. C. McNaughton, clerk of Mossa township, has bought the general store and stock of the late J. D. McBride at Ferguson's Crossing midway between Alvinston and Glencoe, on the Glencoe-Kingscourt line of the C.N.R.

The White & May Co., have not yet definitely decided what course of action to take, in regard to their branch business at Ailsa Craig, recently destroyed by fire. It is a matter requiring consideration, which will perhaps not be definitely settled for some months.

The home of William Weaver of the 4th concession of Chatham township was destroyed by fire Wednesday morning. Not until the roof of the main part of the house fell in did the women of the family, who were working about in the kitchen, know that the building was on fire.

Arthur A. James, son of D. and Mrs. J. F. James, of Sarnia, is among students of the faculty of medicine, Western University, London, recommended for the degree of doctor of medicine in the results announced Friday. C.M. Lloyd Beatty is another Lambton student similarly recommended.

A Sarnia immigration official commented the other day on the number of Canadians who were coming back from Detroit and other U.S. cities after an experience there of living long distances from work and paying top prices for everything they purchased. There's a lesson in this for others to whom distant fields always look green.

Charles Kelly, one of the oldest and most highly respected residents of Ekfrid township, passed away on May 16th. He was born in Ekfrid and had lived there all his life, winning a prize of \$5 a year ago as the oldest man born and living in the township. He was 85 years of age. He leaves three sons and five daughters.

Chesley has been trying out a milk diet on schools in that town. In order to see what would happen, 20 children were weighed, 10 given milk in school hours and 10 were not. At the end of five weeks they were weighed again. The milk-fed boys had gained two pounds and the non-milk trained girls gained 1 2-5 pounds. In the girls the gain in weight averaged the same, 1 1-5 pounds all round. The average age of the pupils is eight years.

The residence of Fred Seed, near Adelaide Village, a short way from the main road, was destroyed by fire at noon on Saturday. Mr. and Mrs. Seed, who were recently married, were at their dinner when they noticed smoke outside the window, and on investigation found the upper portion of the house in flames. Before assistance could be procured the fire was so far advanced that none of the contents was saved. The loss will exceed \$5,000. The building was partially insured and was owned by Fred Brant. The contents were not insured.

The fine modern barn on the farm of Councillor Russell Parker, situated on the 4th line of Adelaide township, was completely destroyed by fire about 3.30 Monday morning of last week, along with a frame silo adjoining. There was no storm in progress at the time and it is not known how the fire started. The barn, 35x40, was practically a new one, being erected only a few years ago. A fine team of horses, 6 pigs, 2 calves and some harness and implements, etc., including a Ford car, were destroyed. These belonged to Wm. Robotham, tenant, who has the farm rented. Mr. Robotham's loss is fully covered by insurance. Mr. Parker's loss on the barn was partially covered by \$2,000 insurance.

Mrs. Chas. McClung of Zone township, sustained injuries to the head besides being somewhat stunned, Miss Olive McClung had her arm broken at the wrist and Miss Kneebone, sister of Mrs. McClung, had several ribs cracked when they were thrown out of a buggy at the corner of London and Victoria streets on Saturday afternoon. The horse which they were driving became frightened at a train at the local C.N.R. depot, and ran away, dashing up London street at a mad rate. At the intersection the animal turned to the right and the buggy hit the auto of Mr. Geo. Boothroyd which was standing near the corner, the impact breaking the harness and releasing the horse. The ladies were thrown out and received the injuries as above stated.

**Abraham Martin Honored**

**Monument to First Scottish Settler, First King's Pilot On the St. Lawrence, and First Farmer On the Plains of Abraham Unveiled.**

**ABRAHAM MARTIN.**  
 Auld Scotland many a hero boasts  
 From John o' Groats to Wigton's  
 coasts,  
 Both Lowland lads and Highland  
 hosts  
 That wear the tartan;  
 But now another seeks your toasts,  
 Old Abrah'm Martin.  
 But what pretence has he to fame,  
 That we should celebrate his name,  
 And thus in stone and bronze pro-  
 claim  
 His style and story?  
 A threefold plea can Martin claim  
 To all this glory.  
 The first of Scotia's sons was he  
 To cross Atlantic's stormy sea—  
 True pioneers of liberty,  
 Giving their best  
 That this Dominion fair might be  
 Blessing and blest.  
 See in his wake the glorious band,  
 MacKenzies, Frasers, foremost stand,  
 MacDonalds, too, in high command,  
 And James McGill,  
 Mountstephen and Strathcona grand—  
 'Twould pages fill.  
 The first was he to till this plain,  
 Now sacred to that fierce campaign  
 When heroes fell, but not in vain  
 In glorious strife.  
 O Canada, thine was the gain,  
 Renewed thy life!  
 He was the first to mark the tides,  
 The rocks, the shoals St. Lawrence  
 hides.  
 The mariner in him confides  
 And bans his fears;  
 "The ship," he cries, "in safety rides  
 When Martin steers."  
 Though fate 'mong strangers cast his  
 lot  
 He ne'er forgot he was a Scot,  
 Thrifty and shrewd he was, I wot,  
 Canny and gaucy,  
 Proud of the nickname that he got,  
 "Abrah'm l'Ecossais."  
 Let us whate'er our race or creed,  
 This ancient Scot's example heed,  
 And give the best that's in our breed.  
 That ours may be  
 A Canada in word and deed  
 High-souled and free.  
 —A. Patterson.

They are warmly commended for the promptness in which they have met their obligation.

WORKING THE MOWER

Practical Instructions on Running This Useful Machine.

Give the Cutting Bar and Steel Plate Attention—Keep the Knife Sharp—Go Over the Machine Daily—Returns From Bees.

(Contributed by Ontario Department of Agriculture, Toronto.)

This machine has given splendid service to the farmers of the past and present generations. Fifty years ago the mower was a perfected machine, and the improvements since that date have not been of a revolutionary nature.

Watch the Cutting Bar.

This machine is subjected to a number of abuses, traceable to the carelessness of the average farm hand, lack of attention in oiling, dull ledger plates and knife operated over rough or stony ground. With the knife running close to the soil surface, injury from contact with gravel, sand and small stones is frequent. The watchfulness of the operator to avoid subjecting the cutter bar to injury is the best protection when the mower is in use on rough ground. The cutter bar with its numerous guards can be elevated or tilted quickly by an experienced operator and obstructions avoided. The guards should be kept tight and in perfect alignment.

Give the Steel Plate Attention.

The small steel plate that is riveted to the guard at the point where the knife edge performs the scissor movement should be kept sharp or at least not permitted to wear round. These plates, commonly known as ledger plates, become dull with use, a condition that greatly reduces the efficiency of the mower and increases the draft. A mower with dull or rounded ledger plates will stick in heavy cutting or damp grass. A sharp knife and sharp edged ledger plates means light draft for the team and clean, free cutting of the crop.

The Knife Must Be Kept Sharp.

Too much attention cannot be given to the cutter bar with its attached guards and quick moving knife. If the mower sticks at every mouse-nest or tuft of grass, the place to look for the trouble is in the dull knife, the ledger plates, the worn guards, or the keepers that hold the knife down in place. With the new mower it will be noted that the cutting edges are sharp, that there is but little play for the knife other than as intended. In the past too little attention has been given to keeping the ledger plates sharp. With these dull, no matter how good the knife is, tough material will be drawn beneath the knife instead of being cut, forcing the blade up against the guard causing wear that

gives a round leading edge, poor work and greatly increased draft.

Why the New Mower Cuts Best.

The experience of all is that the mower cuts better the first season than ever after. This experience is largely due to the fact that too little attention is paid to the parts that are responsible for the cutting. The wear on the section points of the mower knife is greatest near the point. This wear, together with the grinding necessary to keep the knife sharp, changes the shape of the section considerably, and in such a way as to reduce its efficiency as a cutting implement. The man doing the grinding should endeavor to keep the original shape of the section in so far as possible. Many of the emery grinders used in sharpening mower knives grind away the points of the section to a serious extent without doing very much sharpening. A specially shaped emery or carborundum stone or file should be used and the work done in the farm shop. A spare knife should always be at hand in the field.

Go Over the Machine Daily.

The mower should be gone over carefully twice each day and all bolts tightened. The main bearings should be oiled at least once each hour, and the pitman bearings at least every half hour. When the mower is not in use the knife should be removed. The cutter bar should be elevated to the vertical position when the machine is not in use. A little heavy mineral oil should be brushed over all parts that are likely to rust. Don't use paint oils. The mower, like the binder, to give its best service, should be given good care.—L. Stevenson, Sec., Dept. of Agriculture.

Montreal Honors First Skipper in Port

1. C.P.S.S. Mentrose bringing first passengers to Montreal, 1923 Season. 2. Captain Edmund Aikman, Commander of the Bolingbroke.

TWENTY years ago Montreal was but a "mere calling place for ships." It had practically no modern cargo-handling devices or equipment, its wharf sheds were just wooden shacks which were actually taken down in winter to prevent them being blown away, and much of the merchandise was stored in the open air at the mercy of the wind and weather. Now Montreal is the greatest port of Canada and it is the best located. From a mere riverside stopping place for ships, it has stepped into the front rank of ocean ports, and has become equipped with facilities for the accommodation of ships and for the handling and storing of freight that are unrivalled on the continent. Despite the fact that Canada has less than 10,000,000 population and that the United States has more than 110,000,000, Montreal now handles a greater volume of business than any port on the American continent with the solitary exception of New York.

This year the cane was presented to Captain Edmund Aikman, of the Canadian Pacific S.S. Bolingbroke who had just completed his first voyage in command. The Bolingbroke left London for Montreal on April 9th, calling at Antwerp en-route, arriving three hours ahead of her nearest competitor on May 3rd. The liner "Montrose" of the same line, the first passenger vessel to reach the port in 1923, arrived two days after.

**LAMBTON CORN GROWERS' ASSOCIATION MEETING**

The regular Spring meeting of the officers and directors of the Lambton County Corn Growers' Association was held in the Agricultural office, Petrolia, on Saturday afternoon, May 26th.

The place of the Association in the production and supply of choice seed for the county and for sale was a discussion upon which every director expressed himself. The Association is making a determined effort to promote the production of choice seed of standard varieties and to serve as many producers in the county as is possible. The work accomplished in the past was keenly discussed. Suggestions and recommendations for future work were adopted and will be put into practice. Large quantities of choice tested seed of proven varieties are always in demand and are the greatest source of national wealth.

Two new amendments to the rule governing the Fall Wheat and Corn Field Crop Competitions were adopted. First—The amount of seed, either of wheat or corn, that the first prize winner in each competition will have to prepare has been increased from 50 to 100 bushels of seed for sale. The Association to have first option to purchase the seed. In the event of the winner not having same in readiness he shall not be paid his prize money. Second amendment—That any exhibitor or member of the Association who purports to sell grain from a prize winning field, which proves to be a misrepresentation, shall be debarred from membership in the Association and from exhibiting at the Annual Corn Show for a period of two years. He shall also be liable to prosecution through the Civil Courts by the Association.

The Committee appointed at the Annual Meeting in February re the possibility and the practicability of moving the Annual Exhibition from point to point within the county presented their report to date. The Committee was authorized to bring in a further report at the officers and directors' meeting in October.

It has been the opinion of many supporters of the Corn, Grain and Seed Show that greater individual work could be accomplished by holding the annual exhibition at different points within the county each year. The work done by the Association in the promotion of good seed to date is evident by the improvement in the quality and the standardization of varieties as exhibited at the Annual Corn Show. It is not the object of the Association to create professional exhibitors, which a large stationary show has a tendency to do. There are many growers and producers who have not yet come in touch with the work of the Association. These same parties cannot be reached by the practices now in vogue, of a permanent home for the Corn Show. It is thought that it would be better to bring the Annual Exhibition closer to these parties. All the towns and villages of the county are anxious that the Annual Exhibition be held in their vicinity. This cannot be accomplished in one year. Petrolia has always stood loyally by the Corn, Grain and Seed Exhibition. Other municipalities are offering the same support. The object of the officers and directors of the Association will be to serve the best interests of the Association in the production of quantities of choice seed of standard varieties and national wealth.

When a mother detects from the writhing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used. m

**LAMBTON COUNTY PURE BRED LIVE STOCK BREEDERS' ASSOCIATION**

Lambton County Pure Bred Live Stock Breeders' Association held their annual meeting in the Agricultural Office, Petrolia, on Wednesday afternoon, May 23rd.

The work of the past year was carefully gone over and the reports of the Treasurer and Secretary adopted. The organization is in good flourishing condition. The stock breeders are looking optimistically to the future, there being a good demand for registered cattle of good breeding and conformation.

The Annual Consignment Sale of last February was, on the whole successful. The prices obtained in some instances were disappointing to the breeder, considering records of previous sales. However, the choice animals were purchased to be retained in the county which will add very materially to the quality of the live stock of the county. The average selling price per head compared very favorably with the record of prices received at sales throughout the Province.

The officers elected for the coming year are as follows:  
 President—G. T. Fuller, Watford  
 Vice-pres.—P. W. McPhedran, Wyoming.  
 Treasurer—Geo. Hay, Petrolia  
 Secretary—W. P. Macdonald, Petrolia.

The breeders unanimously agreed to support a Consignment Sale for the spring of 1924. The date and place of sale to be decided at the fall meeting of the Association.

**BABY'S OWN TABLETS AN EXCELLENT REMEDY**

When the baby is ill—when he is constipated, has indigestion; colds; colic or simple fever or any of the other many minor ills of little ones—the mother will find Baby's Own Tablets an excellent remedy. Duguay, Thunder River, Que., says:—"My baby was a great sufferer from colic and cried continually. I began giving him Baby's Own Tablets and the relief was wonderful. I now always keep a supply of the Tablets in the house." The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The town council granted the town band \$300 towards their expenses. At a meeting of the Greenwood Driving Club the following officers were elected: Pres., W. W. McRae; vice-pres., Jas. Flett; chairman sports com., John Canton; printing com., A. Hessey; Treas., D. Morris; Sec., Thos. Eady. It was decided to hold Horse Races, baseball tournament and sports on Wednesday 27th June. The following is the program race. 3.00 trot \$325.00; 2.30 trot or pace, \$325.00; 2.16 trot or pace \$350.00.

The funeral of the late Mrs. William R. Richards who died on May 11th was held from her late residence East end on Monday afternoon, May 14. Burial was made in Hillside cemetery, the pallbearers being Messrs. L. Shaw, W. W. Fletcher, W. Willoughby, H. Gillespie, Thos. Truman and J. Volway. Mrs. Richards, whose maiden name was Ann Hart was born near Toronto on August 30, 1852, and lived in Plympton for several years before coming to Petrolia 40 years ago. Besides her husband she is survived by one son, Robert of British Columbia, one daughter, Mrs. W. Henderson, Petrolia, and a brother, Robert Hart, of the London Road.

At the scout's rally held on Victoria Day scouts from Sarnia, Theford, Forest, Strathroy, Camlachie and Watford competed in scout craft. **FOREST**

A baseball league has been formed composed of Bosanquet, Plympton, Warwick and Forest teams. Les Waddell of Forest left on Tuesday for Perth, where he will pitch for a ball team in the Lanark county league. He gets \$500 and a free vulcanizing shop for the season.

Mr. A. S. Code, civil engineer of Alvinston, was in town on Monday and Tuesday of last week preparing plans and estimates for the Albert street drain and also for the Main street drain.

Mr. E. B. Eddy of Brantford, a student of the Congregational College, Montreal, commenced his pastorate for the summer months of the Forest and Plympton Congregational churches on Sunday.

Mr. W. A. Anderson, formerly a Forest boy, now of Winnipeg, Man., and a son of Mr. and Mrs. W. W. Anderson of Bosanquet, received his degree B. Sc. at the University of Winnipeg, making the highest standing of anyone in the history of the University. He was also presented with the University gold medal given the graduating student in science who makes the highest standing in his class.

Thos. Powrie, a well-known resident of Forest died at his home here Thursday on his 82nd birthday anniversary. Mr. Powrie resided on a farm on the town limits until about six years ago, when he moved to his present home. Mrs. Powrie predeceased her husband about two years ago.

**BOSANQUET COUNCIL**

Council met on Monday the 21st inst. All the members present. Minutes of last meeting read and confirmed.

George Williamson complained that water had been taken out of its course on the 9-10 con. road and is flooding his land; Mr. Donald was appointed to examine and report. The Reeve and Mr. Shepherd were appointed to meet the Plympton council re ditch on townline. Fred Clark entered action for 176 loads of gravel at 35c per load. An order was given for 25c per load and the clerk instructed to enter a defence for the balance. Arthur Elliott applied to have the Stubbs drain extended. Application received. Mr. Dunning applied to have Mud Creek deepened and widened and to have culverts put in on the L. road and council will examine.

A resolution was passed to have Mr. Pike assist Mr. Cowan in the Theford appeal on Nesbit drain. The by-laws for the repair of Shawana and Coultis drains were finally passed.

Council adjourned to meet on Monday, June 4th at 10 a.m. Geo. Sutherland, Clerk.

**Mellotone**  
 For That Bedroom Of Yours

If ever there was a wall finish that just suited a bedroom, it is Mellotone. We can't exactly tell you why. But when you see its charming velvety-like finish, and the exceptionally pleasing array of colors it comes in, you'll know better than if we took all this page to tell you about it.

That's why we are suggesting that you drop into our store and see for yourself. After which, make up your mind what's best for that bedroom of yours.

### UPS AND DOWNS

Jack sailed out one fine evening To call on a fair young miss, And when he reached her residence,

He ran up the stairs like this:

Her father met him at the door—

He'll never go there any more,

For he went down like this:

"Woman, you make me see red," said the Watford youth, as he gazed at her rouged cheeks and painted lips.

### LET US SMILE

The thing that goes the farthest towards making life worth while, That costs the least and does the most is just a pleasant smile. The smile that bubbles from a heart that loves its fellowmen

Will drive away the cloud of gloom and coax the sun again; It's full of worth and goodness, too, with manly kindness bent— It's worth a million dollars, and it doesn't cost a cent.

I shot an arrow into the air; it fell in the distance, I know not where, till a neighbor said it killed his calf, and I had to pay him six and a half. I bought some poison to slay some rats, and a neighbor swore it killed his cat; and rather than argue across the fence, I paid him four dollars and fifty cents. One night I sat sailing a toy balloon, and hoped it would soar till it reached the moon; but the candle fell on the farmer's straw, and he said I must settle or go to law. And that is the way with the random shot; it never hits the proper spot; and the joke you spring that you think so smart; may leave a wound in some fellow's heart.

Is Your ad. in this paper this week?

Double-ender and Driver.

In the passing of Charles Clarke at his Toronto home, the Canadian Pacific lost one of its oldest locomotive engineers. In the pioneer days of Canadian railroads, the late Mr. Clarke used to drive an old wood-burning engine known as a double-ender, and the engine on which he made his first run as engineer on the Canadian Pacific is shown above. He was born in England 76 years ago and started railroading at the age of eighteen with the old Midland line, joining the company from whose service he was retired about twelve years after.

### More Hebridee Canada Bound

The Hebridee well to loved ones on the Me-agama.

THE Hebrideeans are a home loving race of people not much given to wandering from their native hearths, but the arrival at St. John aboard the Canadian Pacific steamship, Marloch and Metagama of over six hundred sturdy men and women of the western isles, favored by seven men, the jealousy of the white tauders. When the settlement was wiped out on one occasion and many of them wiped out, the remainder were forced to leave. However, they returned in time to harvest the first western wheat crop and funny attribute to this fact that Winnipeg stands where it does to-day.

Life will not be a bed of roses for those who have newly arrived and they will have to work, and hard; but this they can do. They are the descendants of the "Lords of the Isles" who by strength of arms repulsed the invasions of the Scandinavians and Sengs. Social and industrial development was retarded to a great extent by the clan system, but those who have adopted Canada are well educated and a simple life of toil in adversity through generations has given them a splendid physique and simple dignity. Although forced by hard times to leave their homes to make new ones, most of them are in sufficient funds and not a few families aboard the Montegama were possessed of over \$1,000. Some have stopped in Ontario but the larger proportion of them have gone to Red Deer, Alberta, where they will form a small colony.

Vanished After Using Lydia E. Pinkham's Vegetable Compound

"Branchton, Ont.—"When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound Tablets and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and, in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctored for several years without getting permanent relief, when I started to take your medicines."—Mrs. GOLDWIN MISENER, Branchton, Ont.
