### CHILDREN'S AID SOCIETY, ANNA. CO.

First Meeting of Executive Held Thursday Afternoon. Work and Aims of Organization Set Forth.

The Annapolis County Children's Aid Society has been duly organized and has already begun to function. The first meeting of the Executive was held in the Board of Trade rooms last Thursday afternoon.

The need of such an organization is very obvious to any one conversant with the facts of the situation we face. There are at least a score of children under sixteen years of age in and about our town calling for immediate attention and oversight. Domestic irregularity with the illegitimacy accompanying it is far too common and striking, as it does, the very foundation of our civilization cannot be ignored if we expect to prosper and make progress. Cases of alleged bigamy are reported right at our doors. Homes are established and maintained by unmarried parents. Children reared amid such baneful surroundings cannot receive the training and treatment due them.

If the parents or guardians of our children fail to care for them the State should assume the obligation. Helpless and innocent children must not be permitted to suffer any avoidable handicap. The Children's Aid Society is the friend of the neglected child. It will offer any reasonable assistance to any parents or guardians who make an honest effort to provide for the children under their care. The Society is composed of interested Christian men and women and their ideals of home life, and not those of careless and incompetent parents, will be adhered to in dealing with domestic problems. The public is asked to give this very commendable undertaking their hearty moral and financial support. It is a very difficult work to carry on, but it is a very necessary one.

Among our immediate needs is a shelter to which the children committed to our care can be taken until homes are provided for them. There will be half a score of neglected children to care for at once. Most of these will need foster homes. Some will be sent to institutions but in every case the best interests of the child will be the matter of first consideration.

The responsibility delegated to the officers of this organization is great and everyone at all interested is asked to do everything possible to make the work succeed and thus prove the blessing it is intended to be to all our delinquent and neglected children.

### MET DISTRESSING ACCIDENT WHEN HIS HORSE RAN AWAY

Middleton—A distressing accident occurred early Wednesday afternoon on Bridge Street which resulted in Winslow Banks, of Torbrook, losing a limb. Mr. Banks' horse became frightened and threw him from his carriage violently, the fall breaking both his legs. One was so badly shattered that on examination at Memorial Hospital, to which he was rushed, amputation was necessary. Mr. Banks had just recovered from a succession of illnesses and Thursday planned to leave for Timmins, Ont.

### CLARENCE

Miss Pearl Chute, of the Public Health Class of Dalhousie University, Halifax, spent the week-end with her parents, Mr. and Mrs. A. C. Chute. Mr. Milford Banks had the misfortune to lose one of his horses Saturday. Mr. Owen Beals also met with the same loss last week. Mr. Chester Bartheau and Mr. Victor Chute have each purchased a fine big horse. Miss Lena Sanford has returned from the Sanatorium. She was accompanied home by her mother.

### PORT WADE

A. S. Williams, of Bridgetown, bought three fine pairs of cattle in Lower Granville last week. E. Shaffner and Roy Sahean, of Lower Granville, are doing a meat business through to Victoria Beach. Arthur Jefferson, of Clementsport, bought a fine ox at Port Wade last week. Miss Delta White is spending a short vacation with her grandmother, Mrs. Jane Litch.

The Pulp Co. have their men here awaiting stock for building and repairing saws in which to carry timber from the Bay shore. Archie Morrison is in charge of a fine span of horses tooting to and from the pulp camps.

The Port Wade Lumber Co. are producing lumber and lath at quite a rapid rate. Their output this season is expected to be about 1/2 million feet.

Planting is nearly done in the vicinity and ground is becoming very dry on account of continued dry weather. Stanley Reid has been home here from Lynn the past week and returned Friday, Walter Westhaver accompanying him.

Our people here seem to be slow to patronize a "submarine" as a ferry boat, although conversant from her recent "dip" she seems to be unable to go more than three trips. From St. John to Westfield on the river is a distance of fourteen miles. The fare on the river boat is 25c. Here we have to cough up 50c. for 3 1/2 miles.

Give us a Ferry Boat.

### TUXIS SPORTS ON SATURDAY

Our Boys Contend Here in Athletic Contests With the Middleton Boys.

The Taxis Squares and the Trail Rangers had their elimination sports on the school grounds and made an excellent showing in the various athletic events. The winners on Saturday will next Saturday afternoon meet the Middleton winners on the High School grounds here in the annual contest. We regret that owing to holiday and extra pressure on space we cannot go farther into details this issue but will promise a full account. Come on Saturday afternoon and see a splendid contest between Taxis boys of Bridgetown and those of Middleton in High and Broad Jump, Shot Put, Hundred Yard Dash, Throwing Baseball and various other events. The contest is here this year and these annual events always bring out a good crowd who see events closely and most excitingly contested.

Mr. Harry Carter, formerly foreman with The Monitor but now with the Liverpool Advance, was united in marriage at Bridgewater on Saturday afternoon to Miss Lena Barnes of Bridgetown. We hope to give a more extended account in our next issue.

### BRIEF GENERAL ITEMS OF INTEREST

A. J. Campbell has been appointed Secretary and Publicity Manager of the Nova Scotia Tourist Commission, of which John F. O'Connell is chairman.

The Provincial Election will be held in Ontario on June 25th. It will be a hard fight between Farmers, Liberals and Conservatives.

The new pavilion to be erected at the Camp Meeting grounds at Berwick has been designed by L. R. Fairn, architect. It will be octagon in shape and will seat about seven hundred people. This will be completed before the Camp Meeting opens in August next.

### WANT MINISTRY OF PUBLIC HEALTH

Valley Medical Society Ask This to Aid in Combating Provincial High Death Rate.

The sixteenth annual meeting of the Valley Medical Society was held in the Court House on Tuesday. There was a large attendance, in fact it was the largest meeting of the society, which has yet been held. The members were officially welcomed to the town by the Mayor, Dr. DuVernot. The election of officers for the year resulted as follows:

President—Dr. A. S. Burns, Kentville.  
Vice-President for Annapolis—Dr. L. B. W. Braine, Annapolis.  
Vice-President for Digby—Dr. W. R. Dickie, Barton.  
Vice-President for Kings—Dr. M. R. Elliott, Wolfville.  
Secy.—Treas.—Dr. C. E. DeWitt, of Wolfville.

An important item of the business was the passing of the following resolution:—  
Whereas, the general death rate and infant mortality of Nova Scotia compares very unfavorably with the most modern countries where advanced public health measures are being carried out;

And whereas, most countries in which public health activities are being fully prosecuted have in their governments a department in charge of a Ministry of Public Health;

Therefore resolved, that the Valley Medical Society places itself on record as in favor of the creation of a Ministry of Public Health in this Province;

Further resolved, that a copy of this resolution be passed to the Premier of Nova Scotia, Hon. E. H. Armstrong, and that copies be forwarded to the Nova Scotia Medical Society, and all branches of that Society, for their early consideration and endorsement.

The President's address was followed by an address by Dr. S. L. Walker, Associate-Secretary of the Medical Society of Nova Scotia, on "Some Factors of Organization". This was followed by a paper by Dr. H. A. Chisholm, Provincial Health Inspector, of the Profession in Procedure. The discussion on this paper was opened by Drs. M. E. Armstrong and W. B. Moore.

This closed the afternoon session after which the delegates repaired to the Columbia House where they were guests at a banquet.

After the banquet the Society re-assembled in the parlors of the Columbia where a paper on "Interest Obstruction", by Dr. L. M. Curran, of St. John, was read and discussed, the discussion being opened by Drs. L. R. Morse and A. S. Burns.

The second paper was that by Dr. Glen Donovan, of Halifax, whose subject was "Fractures". The discussion was opened by Drs. M. R. Elliott and J. G. McNally.

Dr. Harry L. Roberts, of Digby, was the author of the third paper, his subject being "Tuberculosis and Pregnancy." Drs. F. S. Messenger and E. O. Hallett opened this discussion.

The fourth and last paper was on "Tuberculosis" and was read by Dr. C. M. Bayne, of the Provincial Sanatorium, Kentville. Drs. C. A. E. DeWitt and L. B. W. Braine opened the discussion.

It was decided that the semi-annual meeting should be held at Wolfville in October.—Courier.

### AUTO FATALITY AT CLEMENTSPORT

Mrs. Harry Warren Killed and Mrs. B. A. Roney Seriously Injured.

Mrs. Harry Warren was killed and Mrs. B. A. Roney was seriously injured at Clementsport on Sunday evening, when the Ford car in which they were travelling to their homes in Digby was struck by a McLaughlin travelling behind them up the hill just west of the Clementsport bridge. In the McLaughlin were W. G. Clark of Bear River, ex-Chairman of the Highway Board; Mr. McIntyre, his son-in-law, and two ladies, with Chas. Wilson driving. They sounded the horn several times to pass and the Ford drew off to the right side of the road next to the steep bank. In passing the McLaughlin struck a wheel of the Ford throwing it over the bank and pinning the six occupants beneath it.

They were soon extricated and Mrs. Warren found to be critically injured. Two doctors were summoned and everything possible done, but she passed away in a very short time. Mrs. Roney was seriously injured about the face and back, but her recovery is hoped for.

**Verdict of Jury**  
The jury empanelled brought in a verdict of careless driving.

Many relatives and friends mourn the passing away of this worthy Christian lady.

Mr. Pearson, Dr. Pearson and Mrs. V. Shaffer also went on the fishing party of Mrs. Kinney and her son.

Mrs. Elvin Shaffner and Master John left for a visit to Boston and other cities in Massachusetts.

A very interesting paper to 'hand has come in. It is called "The Frontier College". It sends out students to great lumber camps in Northern N. B. Classes are held for the men in many useful branches of education, also on Sundays church services will be held, and lectures will be given by some of the best known business men of Canada. The patrons, officers, directors are all of the best. Alfred Fitzpatrick, M. A. is principal. This college gives employment to students who can thus earn good money and be of great use in this way. More information will be given later.

MOTHER AND THREE CHILDREN WERE DROWNED

Mrs. Edward Hatfield And Her Three Children Were Drowned By The Capsizing of a Row Boat at Quinlan, Near Yarmouth.

Yarmouth, N. S.—Mrs. Edward Hatfield, of Quinlan, and her three small children were drowned early Wednesday afternoon by the upsetting of a row boat in the little stream which flows alongside the door of their home. A neighbor, Mrs. Duncanson, frightened and crazed by the terrible accident, of which she was a helpless witness, fled to the forest, accompanied by her little grand-daughter. It was thought at first that they, too, had perished in the stream, but they were traced wandering in the woods toward Kempt late in the evening. The body of Mrs. Hatfield was found about a mile from the scene of the accident where the stream had swept it, and the bodies of two of her children have since been found.

The children were two girls and one boy, the eldest of which was seven years of age, the other five and the other four. While men of the country side are dragging the river for the other body, crowds of the demented and frightened woman who with her little grandchild is fleeing, possessed with the terror which overcame her when she saw the Hatfield family swept to their deaths within arms length of her, and she could not aid. Just before dusk assurance that she, too, had not met the same fate was given when a searching party found the woman's footsteps and just behind them the toddling steps of the wearied child in the soft sand of the shore of Cranberry Lake, several miles in from Quinlan.

**ADVERTISING RATES LOW**

One of the best daily newspaper men of the State, who is experienced in his line and has good judgment about business matters, says that the advertising rates of most of the Maine weeklies are too low, and that Maine weekly papers are known all over the country to the advertising agencies as having such very low rates. He says: "I doubt if any weekly paper can sell advertising space at a profit for less than 40 cents an inch, less agent's discount." The agent's discount that he refers to is 15 per cent, which would make the net price that this gentleman thinks most weekly newspapers ought to have for advertising 24 cents, instead of somewhere between 15 and 25, as most of them are getting. And even at this rate of 24 cents, there is no doubt that advertising in the local newspapers would for most of our local business men be far and away the cheapest and best way they could advertise their goods and service.

### "MY ANNAPOLIS VALLEY HOME"

F. H. Saunders Wins \$25.00 Prize. And Mabel Jones Margeson Receives "Honorable Mention"

In the poem contest recently carried through the "Acadia Athenaeum", F. H. Saunders, of Kingsport, N. S., won the \$25.00 prize offered by Mr. Cox, of the Annapolis Valley Real Estate Agency for the best poem entitled "My Annapolis Valley Home". Twelve poems were handed in to the judges who were unanimous in awarding first place to the poem of F. H. Saunders, but they gave honorable mention to that of Mabel Jones Margeson of Berwick.

We publish these two poems below: "My Annapolis Valley Home"

(Sung to air of "On the Road to Mandalay")

By the river of Annapolis,  
 Winding westward to the sea,  
 There's a dear old valley homestead  
 That is ever calling me;  
 For the wind is in the pine tops  
 And the spreading oak-trees fan—  
 "Come you back, you Nova Scotian,  
 Come you back to old Fort Anne."

Refrain—(to air of "Apple-blossom time in Normandy")

When it's apple-blossom time in Acadia,  
 There I would be in Acadia;  
 By the fair green willowed marsh  
 Of old Grand Pre;  
 For no matter where my steps may carry me,  
 As far away I roam  
 There is always something calling me  
 To Acadia, my home.

Digby nestling in the Gap-side;  
 Sisseton of Red Man tells:  
 Round Port Royal's ruined bastions  
 Fancy weaves it's magic spells,  
 For the cherry petals' falling,  
 And the tinkling cowbells peal—  
 "Come you back to sweet meadows:  
 Come you back to old Lequille."

From the eyrie of the Look-off,  
 Haunting on the mountain's crest,  
 See the little streams flow eastward,  
 As the longer streams flow west—  
 Percan, Habitant, Cornwallis,  
 Loss in Minas' willing breast,  
 Where the ceaseless tides of Fundy  
 Never pause and never rest.

See from saddle of the Ridgeland  
 Plains of tented Aldershot,  
 Whence have gone our loyal manhood,  
 And our liberty rebought:  
 Gaspereau—steep hillside hiding  
 Mayflowers' 'neath belated snows;  
 Under Blomidon's blue masses  
 Kingsport's copper shoreline glows.

Gray-brown limbs make bay shadows  
 Blue on Winter's dazzling white,  
 Shedding glory pink and fragrant  
 Thru June's tender, misty light,  
 All these lovely things of living  
 Reach a glad and beckoning arm  
 Everywhere, from happy valley  
 Of my old Annapolis farm.

F. H. SAUNDERS,  
 Kingsport, N. S.

"My Annapolis Valley Home"  
 (Sung to air of "My Old Kentucky Home")

Honorable mention.  
 The Spring time dawns on my Annapolis Valley home—  
 The woods and the meadows are green;  
 The shy Mayflowers and the violets  
 are in bloom,  
 And myriad dandelions are seen.  
 The lambs in the pasture gambol all the day—  
 The frogs croak their age old song;  
 And the robins chant a drowsy roundelay,  
 When the evening shadows grow long.

Chorus:  
 O lovely, lovely valley, from thee I'll never roam,  
 I will sing thy praise my Annapolis Valley home—  
 My Annapolis Valley home that I love.

The apple blossoms wait their fragrance on the breeze—  
 The daisies and buttercups blow;  
 And in the clover field I can hear the hum of bees,  
 And the rhythm of the river's flow,  
 The children happy in their holiday from school,  
 Make the woods and the meadows ring,  
 As they splash around in their little swimming pool,  
 Or rush for the orchard swing.

### DEAFNESS

NOISES IN THE HEAD absolutely cured by "LARMALENE" the new Continental remedy which instantly operated upon the affected parts with complete and permanent success. Astonishing cures are recorded. Mrs. K. Wilkinson, of Stroud, writes:—"I feel a new woman, for I can go to bed and get a good night's rest now which I had not been able to do for many months. It is a wonderful remedy, and I am delighted to recommend it." Nothing equals this new preparation, and every sufferer should give it a trial. Price \$1.00 per box post free from "LARMALENE" Co., 10 South View, Watling Street, Dartford, Kent, England. 8-6m.

### PAIN IN THE JOINTS

Is An Indication That the Blood is Thin and Watery.

The first sign of rheumatism is frequently a pain and swelling of one of the joints. If this is not treated through the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues—sometimes rheumatism attacks the heart and is fatal.

A remedy that has corrected many cases of rheumatism is Dr. Williams' Pink Pills. These pills enrich and purify the blood so that the poisonous rheumatic matter is driven out of the system as nature intended. Miss Gertrude Denne, Washago, Ont., was attacked with rheumatism and found relief through Dr. Williams' Pink Pills. She says:—"About a year ago I was attacked by rheumatism and for two weeks was confined to my bed. The trouble was so painful, affecting the joints of my limbs so that I could not stand alone. Mother had a box of Dr. Williams' Pink Pills in the house and thought they might help me. I began taking them, and when I had taken these pills got a further supply, with the result that the rheumatism vanished and I was a well girl. I may add that my mother and two of my sisters have also used the pills for various ailments with equal success, and now we are never without them in the house."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills thru any dealer in medicine, or by mail, at 50 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

### CANADA PAID MILLIONS FOR CARRYING THE MAILED

Ottawa.—The Canadian Pacific Railway was paid \$3,749,288 for mail service during the calendar year 1922, according to information given in the House by Hon. George P. Graham, Minister of Railways and Canals, to M. N. Campbell, Progressive, Nelson. Government lines in the same period received \$2,256,594.

For the last fiscal year the expenditure on railways for mail carriage was approximately \$7,453,000, it was stated, of which \$3,671,000 went to the Canadian Pacific and \$3,187,000 to the lines included in the Canadian National system. The policy of the Government, it was stated, is to grant mail contracts to the Canadian National Railways whenever possible.

When Autumn comes with her crown of red and gold,  
 And mountains thru gray mists are seen—  
 A thousand splendors before our eyes unfold,  
 In the Valley that lies between.  
 The fields are white with the harvest's ripened grain—  
 The orchards gleam red in the sun;  
 And the songs of the birds have a somewhat minor strain,  
 As they leave our valley home one by one.

When the Frost King comes and spreads his mantle white,  
 O'er mountain and meadow and stream—  
 Merry sleigh bells chime and the moon's soft mellow light  
 Floods the river where the swift skates gleam.  
 Then with spirits bright and gay they tramp thru the snow,  
 While the village lights like stars twinkle bright,  
 And they rest for a while in our home fire's ruddy glow,  
 Ere they bid us all a gay good night.

### ABOLITION OF LANDLORD SYSTEM

Bill To Aid Peasants Introduced In The Dail Eireann.

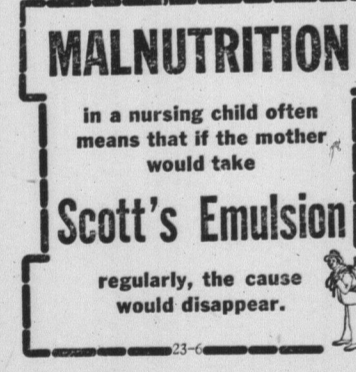

Dublin.—The government bill providing for abolition of the landlord system and substitution of a peasant proprietorship was introduced in the Dail Eireann. The operation will require 25,000,000 pounds to complete and will affect 70,000 tenants now paying annual rentals of nearly 1,000,000 pounds.

The measure provides that after a fixed date, all land shall be vested in land commissions. The present landlords will be paid in four and three-fourths per cent. stock on a flat rate for fifteen years in purchase of their property. The tenants will pay 65 per cent. of their present rent in the form of purchase annuities, the government to bridge the difference with a ten per cent bonus.

All arrears in rent prior to 1920 are wiped out, and arrears since then are payable at a reduction of 25 per cent. The farmers' deputies are understood to favor the bill.

### DELINQUENT SUBSCRIBERS WILL MISS IT ALL

A subscriber who comes in these days and pays the printer, is blessed and in the kingdom to come he will be given a place a little higher than the angels. His name will be written at the top of the column next to the reading matter and nothing in the house will be too good for him. He will get comps to all the harp recitals and have a reserved seat beside the editor, while all the delinquent subscribers will have to carry water for the performers and sit up in the gallery.

### THE ADVANTAGE OF OUR PORTS TO U. S. FISHERMEN

A Sydney, C. B., despatch of Friday says:

"The Gloucester banker Henry Ford, Capt. C. Morrissey, arrived this afternoon at three o'clock from sea with 100,000 pounds of salt fish. The Ford will take a supply of bait and return to the banks."

The foregoing is a good example of the privileges which the United States fishing vessels now enjoy by the use of the Canadian ports, while our fleet has to contend against all the inconveniences of the duties imposed on fish into the United States, by the Fordney-McCumber tariff. Had the abrogating of the modus vivendi been automatically brought about when that tariff went into force the privileges which Capt. Morrissey was allowed on Friday would not have been at his disposal, consequently instead of going into Sydney for a supply of bait he would have been compelled to leave the fishing grounds for many days, or until he could reach a United States port. By halting these the Henry Ford was only a day or so off the grounds and is by this time probably fishing again, being allowed thereby to complete the trip without returning to the vessel's home port.

With the abrogating of the modus vivendi in July conditions will take a decided turn and those United States vessels, with only a partial fare of fish, wishing to replenish their bait supply will, instead of making a Canadian port, be compelled to pull up anchors and return to their home port. Just how greatly that will add to the cost of fish production for the United States can be readily seen when a vessel with only 100,000 pounds of fish in its hold will have to return to a United States port to refit, while under the present condition they can come into a Canadian port, quickly refit, sail again to the grounds and not return home until the hold is filled with 300,000 or more pounds of salt fish.

The cause of the repealing of the modus vivendi is due solely to the results brought about by the Fordney-McCumber tariff and to protect the interests of the Canadian fishermen the Government at Ottawa has decided to take that action. Such action is already creating some consternation among the fish buyers of Boston and Gloucester and a fish man from the latter place who was in Yarmouth over the week-end remarked that merchants of those places felt that something has got to be done.—Yarmouth Herald.

### BEAUTIFUL STATUE FOR GRAND PRE

Marble Monument, Weighing Two Tons, is Being Made in Italy For the Purpose.

Montreal.—Through a Montreal firm, the statue of Our Lady which is to be erected at Grand Pre, has been arranged for in Italy under the direction of an Italian sculptor. This statue will be placed at Grand Pre as a memorial of the deportation of the Acadians and the unveiling will form a feature of the ceremonies which are to take place in the "Land of Evangeline" August 7th, 8th and 9th next.

The statue, which is to be of Carrara marble, will be seven and one half feet in height and is to rest on a base six feet high, of another form of marble. It is stated that the statue will be one of the most beautiful memorials of its kind, erected on the North American continent.

The complete monument will weigh two tons.

It is anticipated that delegations from national societies in Montreal and other parts of Quebec will attend the convention, arranged by the National Acadian Society. Some of the details were arranged recently at a meeting of the committee held at Moncton, the indications being that a very large gathering of Acadians and others sympathetic to the movement would go to Grand Pre in August.

The committee learned that financial conditions are not of the best at present, and this factor has rather retarded the completion of the interior of the Memorial Church, so that work has been left for the future. In the meantime a special committee has been appointed for the purpose of obtaining works of art for the church itself, and Acadian relics, and souvenirs for the Grand Pre Museum.

This committee is composed of Rev. A. D. Cormier, Shediac, N. B.; F. Rebideaux, K. C., Shediac; A. T.

R.R. No. 1, Everett, Ont.

"I had been troubled for years with Rheumatism, Liver and Kidney Trouble, and could not get relief until I started taking 'Fruit-a-lives'. Thanks to their beneficial action, I am in normal health again."

Mrs. THOMAS EVANS

"Fruit-a-lives" alone can give such happy and successful results because "Fruit-a-lives" is the famous medicine made from fruit juices and tonics. "Fruit-a-lives" is pleasant to take and will always restore the health when taken regularly as directed. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa, Ont.

Legar, K. C., Moncton; C. D. Herbert, Dupuis Corners, N. B., and F. G. J. Comeau, Halifax.

Eventually it is hoped to have a handsome memorial church at Grand Pre, with a well filled museum placed within spacious grounds. It is further planned to have an artist design an appropriate memorial to Longfellow, who immortalized the Acadians in verse, and to have it placed in a prominent adjacent to the church and the museum.

### PROMOTING TOURIST TRAVEL

George R. Hoskins, a widely-known publicity expert of Boston, with many years of experience in that business, who came to Yarmouth by the Prince George from Boston a week ago and has since visited St. John and Halifax, returned to Yarmouth. Mr. Hoskins is traveling the Provinces principally to enthrone the Provincialists to greater activities in catering to the large tourist travel, which for the coming Summer is being urged by all interested in transportation or other matters for the benefit of this Province.

By Mr. Hoskins' wide experience he has already seen marked advantages in Nova Scotia, which as yet only a very few of the real United States tourists know about, while by what he has learned of Nova Scotia during his short visit to the Province he has become a most enthusiastic advocate for greater advertising, particularly to feature our many advantages.

Mr. Hoskins met a number of the tourist committee of the Board of Trade at the Grand Hotel and to them he explained the object of his visit and his advertising schemes for tourist travel. He is representing the Boston Post, Herald, Globe, and Transcript, the Sunday publications of which are looked upon as the leading mediums of the New England States. This noon Mr. Hoskins was the speaker at the weekly Rotary luncheon.

The Canadian Club of Boston, of which he is an honorary member, has authorized him to extend through The Herald a personal invitation to every Nova Scotian visiting Boston to visit the Club rooms in the Bellevue Hotel, 21 Beacon Street, and register as a guest. All the facilities of the Club, including the securing of hotel accommodation, having mail sent in care of the Club, and the use of the reading room where Canadian papers are on file, are extended to visitors. A special feature which should appeal to Nova Scotians is the Canadian Club luncheon, which is held daily, except Sunday, in the private dining room of the hotel, and in which all visitors are invited to share. It is known as the Blue Plate luncheon.

Mr. Hoskins while in St. John, assisted the New Brunswick Tourist Association to complete the details for a public meeting which is to be held in Ford Hall, Boston, on June 7th. A delegation of about seventy-five, composed of New Brunswick officials, newspaper men and others, have been invited to take part in that meeting as guests of the Eastern Steamship Co. Among the suggestions Mr. Hoskins offers is one that a similar public gathering be arranged for at Boston in June, to set forth the advantages

### YES, BRITAIN IS GREAT

Great Britain's astonishing financial recovery is the admiration and the wonder of the business world. Great Britain ended the war with a colossal debt, her world commerce was apparently ruined and her industries were without markets. There was domestic unrest, which even threatened revolution; there was civil war in Ireland and threats of mutiny in India. Taxation was terrific and the outlook black indeed. There were pessimists who predicted that the old land had lost her influence as a world power. Today, after five years of peace, Great Britain has reduced her lost commerce and regained her old prestige as the financial centre of the world. An even greater and more rapid recovery has been made than followed the Napoleonic wars.

The greatest of the New York banks in a circular issued to its clients has the following interesting comment: "Great Britain is just now giving this country an object lesson—how to accomplish certain things through team-work. It is no secret. It is merely a demonstration how, through concentrated methods, lack of bustle and friction, certain benefits can be derived despite enormous handicaps. It is merely putting to use a certain amount of grey matter—brains."

"Four years ago Great Britain was on the verge of bankruptcy. She was near revolution, loaded with debt, no employment, taxation practically confiscation, and a sullen despairing population resenting any kind of Government suggestion. Moreover, the financial centre of the world was lost to her.

"This country, on the other hand, was the land of milk and honey. Most of the world's gold was here. Our shipping industry and foreign trade were looking up. Our domestic trade was stable, our future glowing. Four years pass. London is again the financial centre. Great Britain's war debt has been funded. She has three-quarters of a billion on hand for reduction of this debt, and is, moreover, crisply arranging for a big reduction in general taxation.

"The reader can judge for himself what has been done over here—nothing. No reconstruction is in order; our rural population is complaining; our business men are fearful of some overhanging evil, and the bogey-man and goblins are stalking about and making faces. We bluff at settling Mexican and Chinese problems, but never get results. We cannot settle even our own affairs. We cannot settle a joke, and on us, but it is a tragic one. There has been a matching of wits in which our so-called big men come out second best.

"Yes, Britain is Great."

### SUGGESTS POLICY OF BONUS FOR TRIPPLETS

Ottawa.—A policy of bonuses for triplets was suggested to the government in the House of Commons by J. L. Brown, Progressive member for Lisgar. He read a letter from a constituent asking whether there was a bonus in cash or land, and passed the query on to the Minister of the Interior, with a remark that if there were not such a policy he would suggest its propriety.

"Who says the West is not progressive," put in Hon. G. P. Graham, amid much laughter.

The Premier remarked that the question was properly the business of the Minister of the Interior, and that minister, Hon. Chas. Stewart, responded that he would call the matter to the attention of the government.

## CONSISTENCY IS STILL A JEWEL

A certain section of the Press has recently published quite an amount of matter covering an alleged combine among steamship companies for the purpose of keeping up ocean rates. How much there may be in allegations of this kind is perhaps not very easy to determine but the fact remains that water carriage costs have come down very largely during the past few years as apple shippers as well as others know. These results were of course not accomplished without a very considerable amount of effort. However, it is not noticeable that the portion of the press which has taken up the question of ocean rates has become very active over the matter of the tremendous freight and express rates on all the railways of the both Canada and the United States.

That is quite a different problem to tackle a considerable portion of the canines is apparent but the fields of redress are not inviting to the practical politician and they are beset with extraordinary difficulties as well. The line of least resistance to follow is to allow the shoulders of the unorganized general public to carry the burden so long as they will.

## STIFF FINE FOR BOOZE SELLER

## BUNGALOW CAMPS FOR TOURISTS

The Canadian Pacific Railway in their construction programme for the year mention for it is believed the first time the building of bungalow camps in Central and Western Ontario. A number of these were last year operated in the Canadian Rockies and have proved very satisfactory. The camps consist of a central community house where meals are served in a large room serving also as a recreation hall and surrounded by small rustic bungalows suitable for two or four persons. The privacy simplicity and rusticity of these bungalows appeal particularly to those who like the outdoor life. The camps proposed to be opened in Ontario are to be ready for occupation by the first of July.

It is admitted freely in this Province that if we are to attract tourists there must be improvements in transportation, highways and the furnishing of suitable quarters with good bill of fare at prices corresponding to service given. Practically all of the really good hotels in the Province are pretty well filled at all seasons and often cannot cater satisfactorily for lack of room to accommodate a large influx of visitors. Our highways are being improved, transportation facilities can and should be materially improved. There will never be an great influx of travel if the transportation companies lay on their oars and wait for it to arrive. If they want travel to increase they must be content to spend money in improved services. Otherwise the people desired will continue to stay away.

Reference has been previously made in these columns to the success which has attended the efforts of A. D. Thomas at Milford in catering to

## OBITUARIES

### Mrs. Henry Beals.

On Monday evening, May 28th, Mrs. Beals, the beloved wife of Henry Beals, passed peacefully away to her reward, at the age of seventy years. Mrs. Beals had been in failing health for some time, and was confined to her bed for the past few weeks, so the end was not unexpected.

She professed faith in Christ many years ago, and was a devoted member of the Baptist Church and as long as health permitted her seat was seldom vacant. She was a good neighbor, a friend of the needy, very hospitable in her home, and a bountiful giver to any object she thought worthy. The large number of relatives and friends, which gathered at her late home on Wednesday afternoon to pay their last tributes of respect, testify to the esteem in which she was held.

The funeral service was conducted by her pastor, Rev. A. H. Whitman, assisted by Rev. W. H. Rackham, Mr. Whitman spoke comforting words from the text: "For to Me to Live is Christ, and to Die is Gain". The hymns sung were "Rock of Ages", "Asleep in Jesus", "The Christian's Good Night" and "Does Jesus Care", as the casket was tenderly borne from the home. Interment was at the Whitman cemetery. Her passing leaves a vacancy hard to fill.

She leaves to mourn their loss, a husband, two sons, Archie and Dudley, at home, who so tenderly cared for her; one daughter, Mrs. Frank Stevens, of East Chester, who we regret, was unable to be present on account of ill health, and one brother, Rupert Calahan, of this place. These all have the heart-felt sympathy of a large circle of friends.

The floral tributes were beautiful, and were a silent evidence of the love held for the departed.

### PLEASANT BIRTHDAY PARTY

Quite a number of the many friends of Mr. J. P. Orlando called upon him on Thursday evening last, the occasion of his fifty-seventh birthday. The evening was spent very pleasantly in a social way and the guests left wishing their genial host many more returns of his natal day.

tourists. If the Canadian Pacific Railway would take a leaf or two out of his book they would introduce camp bungalows in this Province. There are many beautiful and suitable locations which could be utilized and there is not the slightest reason to doubt that the move would be appreciated and attended with a splendid degree of success.

### Martha B. Long.

The funeral of Martha B. Long, age eight years, daughter of Mr. and Mrs. Harry S. Long, of Clementsport, was held Saturday afternoon, May 26th, at the home of her aunt, Mrs. Fred N. Marsters, where she was suddenly taken sick and remained through her brief illness of three weeks. She was lovingly and tenderly cared for by her aunt and grandmother, with Dr. A. B. Campbell, of Bear River, in attendance, who used his utmost efforts to save the dear little girl for those who loved her so dearly, but she passed quietly and peacefully away Wednesday night. Rev. R. S. Gregg of Bear River, very kindly and sympathetically officiated and conducted the service, assisted by Rev. A. W. L. Smith, of Clementsport.

The choir of the Baptist Church, of which she was a Sabbath school member, graciously rendered the hymns: "Around the Throne of God Where Little Children Stand", "Safe in the Arms of Jesus" and "Does Jesus Care", at the home, while some of the choir, with the relatives and friends, followed her to the cemetery at Clementsville, where she was gently laid to rest for a long and peaceful sleep, amid the singing of "Shall We Gather at the River".

The dainty floral tributes showed the love and admiration of her many friends.

The parents and relatives of the dear little girl wish to express their gratitude and esteem to all those who bestowed their respect and sympathy on them, through the loss of their darling, who had a large number of friends here, as well as in Boston, Mass., from where tokens of love and sympathy came to her daily during her illness, and those who will mourn deeply, when the sad news of her death reaches them.

A Texas man who inherited a million dollars, quit work and bought an automobile—so he may soon be back.

## Apple Delecto

A Sound, Wholesome Fruit Product

(Government Report)

YOUR cakes and pastries are now greatly improved by using "Delecto", the new fruit product made from apples grown in your own orchards.

You not only improve the flavor by combining "Delecto" with other fruits but the enhanced food value is of such vital importance that you cannot afford not to have it always on hand.

Just try it in your rich fruit cake by substituting "Delecto" for half the other fruit and note the difference. No need to add a lot of spices and flavoring essences, the concentrated apple juice has a flavor of its own.

### MUSIC LURES TO DEATH

Two years ago, Chatham, Ontario, had a plague of mosquitoes so bad that fires were burned in front of many houses to drive the beasts away with the smoke. A marvellous invention announced from San Francisco promises relief to many sufferers from this Canadian pest. Nathaniel Morgan of that town claims to have invented a mosquito machine which is an automatic vampire. The device consists of a motor which slides a bow back and forth across a violin string so keyed as to produce the female mosquito's mating note. A suction fan pulls in the investigating insect and deposits him on a piece of flypaper.

## Electric Service

Owing to erroneous reports going about regarding the twenty-four hour service and the special rates offered for motors and for household appliances, we offer the following explanation:—

The lighting rate remains as it has been since the installation of meters, and any person desiring to use small household appliances such as flat-irons, toasters, vacuum-cleaners, washing machines, etc., etc., on their electric light wiring may do so without doing any extra wiring by paying the lighting rate.

A special rate of 4 cents (net) per k. w. h. for household appliances, and especially for electric ranges or water-heaters, is available to any person who will install separate wiring or a time-switch. Either separate wiring or a time-switch is necessary in order that this company may install a separate meter to measure the current used on the low rate.

A special rate of 8 cents (net) per k. w. h. is offered for motor services of one half horse power to five horse power.

**LAUNCH DRIVE FOR PILGRIMAGE BACK TO NOVA SCOTIA**

Boston.—A monster gathering was held here to launch the drive in the New England States for the pilgrimage back to Nova Scotia in July, during the Pictou "Hector" celebration. An invitation was extended Governor Cox to attend with state representation.

The meeting was presided over by Daniel H. Rose, and was addressed by A. E. MacKinnon, of New York; J. E. Kerr, of the Boston Canadian Club; R. U. Parker, New England representative of the Dominion Atlantic Railway; John D. MacDonald, of Pictou, and Dr. Robert Watson, pastor of the First Presbyterian Church, of Boston. Several vocal solos were rendered by Mary O'Leary, Scotch soprano; Mrs. R. U. Parker, acting as accompanist.

An illustrated lecture on Nova Scotia, was given by Austin T. Kempton.

**NEW SCHOONER FOR FISHERMEN'S RACE**

**LEGISLATING PEOPLE INTO HEAVEN**

(Dr. J. G. Shearer)

The man on the street and occasionally in Parliament sneeringly asserts, "You cannot legislate people into heaven." Recently a clergyman has raised the question whether it is wise to attempt to establish the Kingdom of God by legislation? That is a better way of putting the question, and when so put by such an individual deserves a serious answer.

And our first word in answer must be that we know of no person nor group in Canada that proposes to "establish the Kingdom of God by legislation." Our second must be that in our opinion without question, "it is not possible to establish the Kingdom of God by legislation," and hence that no wise man will try that impossible thing.

**FORTUNE CONTINUES TO SMILE ON BRIDGETOWN**

The management of Primrose theatre has been fortunate in securing the College players of Mount Allison in their 1923 production: "Daddy Long-Legs", which will be staged in Bridgetown, Wednesday, June 6th.

The Mount Allison players have toured the Maritimes for several seasons when they have always been greeted by capacity houses and have always prospered. This year's production: "Daddy Long-Legs", written by Jean Webster, (an authoress whose name stands for excellence), is considered to be one of the best in which this versatile company of actors have ever appeared. Love, pathos and a happy ending all combine to hold the audience from start to finish, and send them away satisfied. Action is the keynote of this excellent play which has not a dull moment from start to finish.

In addition to this banner production, graduate artists from the Mount Allison Conservatory of Music will appear between the acts in musical specialties. In previous years this feature of the programme has always pleased exceedingly those who have been privileged to hear it.

The coming of the College Players offers a rare treat to the people of Bridgetown. Get your seats early. Tickets on sale at prices within reach of all.—50c. and 75c.

**JUMP IN ST. JOHN PORT BUSINESS**

St. John.—The business of the port of St. John took a jump of nearly \$5,000,000 for the year ended March 31st, 1923, over the previous year, according to figures received from Ottawa by the Board of Trade. The exports showed a gain of \$5,378,295 for last year, offsetting the loss of \$681,586 in the import business. The totals for the two years were as follows:—1923 exports \$55,127,568; 1922 exports \$20,687,809; 1922 imports \$49,749,273; 1922 imports \$21,869,186.

**Mrs. Connor Declares Stomach Trouble Was So Bad She Could Hardly Eat At All.**

"If I hadn't gotten Tanlac when I did I believe I would have had to go to a hospital," declared Mrs. Wm. Connor, 226 Hess St., Hamilton, Ont., recently.

"My stomach was so disordered that everything I ate made me lethargic, sick, and caused pains in the pit of my stomach that nearly drove me distracted. Often the agony was so great I couldn't help crying, and for two or three days at a time I wouldn't eat a morsel of food. I was as nervous as a witch, miserable for the want of sleep, and often wonder now how I lasted through it all.

"The splendid results my husband got from Tanlac about a year ago caused me to try it, and the treatment ended my suffering in a few weeks' time, and gave me a new lease on health. I don't believe there's a healthier woman in Hamilton than I am now, and I can't praise Tanlac enough."

Tanlac is for sale by all good druggists. Accept no substitute. Over 27 million bottles sold.

**TORONTO RADICAL, WANTED IN CAPE BRETON, SURRENDER-ED QUIETLY**

Is Released On Bail

Sydney—Malcolm Bruce, Toronto radical, wanted here on charges of seditious utterances, surrendered at Glace Bay to Magistrate A. B. Mc Gillivray, by whom the warrant for his arrest was issued some time ago.

After a brief session of the court, Bruce was released on \$1,500 bail, and the preliminary hearing was set for Thursday morning at 10 o'clock.

Meanwhile, Bruce is remaining in Glace Bay and Sydney the guest of friends.

The charge against Bruce dates from Sunday, May 6th, when he addressed a mass meeting of miners at the Savoy Theatre, Glace Bay.

At that meeting it is alleged he said he hoped to see the day when the Union Jack would be trampled in the mud, and the Red flag flying in Canada as the standard of freedom for the workers.

Acting on instructions from Attorney General O'Hearn, Crown Prosecutor Malcolm Patterson caused a warrant to be issued for Bruce, but although he was diligently sought throughout the Island, he succeeded in making his way to Toronto where he was recently placed in nomination for one of the city seats at the approaching Provincial elections.

**OLDEST VETERAN HAS PASSED AWAY, AGED EIGHTY-THREE**

Charlottetown.—Capt. Garnet Hubley, aged 83, who died on Saturday at Southport, was probably the oldest Canadian, if not the oldest veteran, in the British Empire who saw service in the great war. He enlisted in 1917 in the Royal Canadian Navy at the age of 77, and succeeded in passing the medical examination. It is claimed by his relatives that from the time of his discharge in 1918 he received only \$100 in the form of a gratuity. No pension being paid although he had an infirmity apparently due to service. He leaves a family of six, including Capt. J. H. Hubley, of the Canadian Runner, now on her way to Montreal.

**AMENDMENT TO EDUCATION ACT**

Central Rural High School—Payment For Academy Pupils Outside of Academy Section.

At the recent session of the local legislator an Act was passed to amend the Education Act. Two of the amendments are as follows:—

2. Section 12 of said Chapter 9 is amended by adding thereto the following clause:

(d) To organize a rural high school department for several rural or village school sections in one central school section of the group, federating for high school instruction each school section which at its annual meeting or a special meeting called for the purpose, has passed a resolution in favor of such federation provided there are at least five school sections which desire thus to federate. Should the school sections be situated within different Commissioners' Districts, the different district boards may co-operate in organizing such federation.

The said rural high school department shall be generally directed in its policy by a Board of Directors consisting of three trustees of the school section in which the high school department is situated and a representative of each of the other federating sections appointed by its trustees, the regular annual meeting of which directors shall be on the Friday before the last Monday in June.

The federated school sections other than in the central one, shall thus be relieved from providing instruction in their respective schools beyond Grade VIII, and shall contribute in consideration thereof from their respective school funds for the support of the said high school department in common, a sum not exceeding a fifth of the minimum salary fixed for each rural school in the federation, to be paid in quarterly instalments, the last quarterly instalment for the school year being payable on the Friday before the last Monday in June.

The balance necessary to sustain the high school department shall be provided by the Central School Section in which the department is situated.

3. Section 69 of said Chapter 9 is amended by adding thereto the following sub-section:

(4) The trustees of County Academies, High Schools with an Academic teacher on the staff, and federated rural high schools with an Academic teacher or a teacher of Class "A" regularly in course of passing the University Graduates Testing Examination, shall further participate in the Municipal School Fund to the extent of ten cents for each day's attendance of pupils entitled to free tuition from outside the section in which any of the above mentioned Academic School Departments exist up to 8,000 days attendance; and five cents for each day's attendance in excess of 8,000.

**CUP FROM LIPTON FOR FISHERMEN'S RACE**

Sir Thomas Lipton has forwarded to Gloucester a magnificent silver trophy to be sailed for in the fishermen's race of the forthcoming 300th anniversary of the settlement of the city. If the wishes of the late Mr. Tibbets and associates, who conceived the idea of interesting Sir Thomas, are followed, it will be a genuine fishermen's race, on the same lines as the historic and Homeric contest of 1892.

There will be no restrictions as to sail, ballast or anything particular, and all genuine fishermen from any port this side the Atlantic are eligible.

**CRIME AND METHOD OF DEALING WITH CRIMINALS**

Warden Meighen, of Dorchester Penitentiary, in addressing a meeting in St. John, said he was happy to accept the invitation to do so as he felt that there was an indebtedness to the Salvation Army for the many frequent visits to the penitentiary and the wonderful work these officers perform. Mr. Meighen told of the method of dealing with prisoners at Dorchester and said 123 are attending the schools and upwards of 50 are learning trades.

In Saskatoon there is a fine jail and when a man is sent to jail they have work for him to do and he is not left in idleness as in the jails in the Maritime Provinces. In Alberta the jail is practically self-supporting and every man who goes to jail must work. At the present time men in the Maritime Provinces are sent to the Penitentiary who would not be sent there if there was work for them to do in a jail. What is wanted is one good jail in the Maritime Provinces with a good farm.

Recently a boy of fifteen years of age was landed in Dorchester for stealing \$15. It was his first offense and instead of Dorchester the boy should have been given about three months in jail with something to do while there. Men can be won with kindness. The man in a jail wants work, education and exercise.

There were in Dorchester last year 124 under the age of 20, and 190 over the age of 20 and under 30, while three men were over 70 years of age, 123 men were married and had wives and 296 were single. In the six penitentiaries in the Dominion for the year ending March 1st, 1921, there was a total of 2,150 prisoners, while for the same period to March, 1922, the total was 2,640.

There is an improved library in Dorchester with over 1,500 good books. About a dozen magazines are taken monthly. The men get a chance of reading three times a week, and each man is supplied with a Bible and hymn book. There are religious services, Catholic and Protestant, every Sunday.

The Warden took occasion to thank the St. John film agencies for the free use of films for picture shows, and to Lawrence H. Cullinan, St. John, who, at his own expense, has traveled to the Penitentiary and presented picture shows that have been greatly appreciated by all.

In closing Warden Meighen spoke in the highest terms of the Superintendent of penitentiaries, Gen. W. S. Shute, who has the very best system in North America. The whole idea is to provide for men what they did not get before entering the penitentiary, boys leave with a good education and trade.

**BABY'S OWN TABLETS AN EXCELLENT REMEDY**

When the baby is ill—when he is constipated, has indigestion, colic, or simple fever or any of the other many minor ills of little ones—the mother will find Baby's Own Tablets an excellent remedy. They regulate the stomach and bowels, thus banishing the cause of most of the ills of childhood. Concerning them Mrs. E. D. Duguay, Thunder River, Que., says: "My baby was a great sufferer from colic and cried continually. I began giving him Baby's Own Tablets and the relief was wonderful. I now always keep a supply of the tablets in the house." The tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

**THE EDUCATIONAL HEAD**

It is generally believed that Nova Scotia is shortly to have a new Superintendent of Education. Dr. A. H. McKay is not so young as he used to be. Provision has been made to grant him a retiring allowance. He is probably willing to leave office whenever the Government has decided upon who his successor should be. Knowledge of these facts has led to some discussion as to the election of that successor, and in this discussion The Eastern Chronicle, a New Glasgow paper, makes the suggestion that "a trained business man be made Superintendent of Education." That is a suggestion which calls for a very unusual course of action—perhaps an unprecedented course of action—and it is a suggestion which will cause some people to laugh derisively at The Eastern Chronicle.

But the idea that is back of the suggestion is sound enough. That idea, no doubt, is that the educational system does not touch closely enough the every-day affairs of life. The Record knows some educationalists in this Province who hold to that idea themselves, though office may compel them to be discreet in their public discussion of school policy, and, certainly, there are numbers of other citizens who hold to that idea—clergy men, for instance, who have spoken in this city on this very subject. The Eastern Chronicle argues that "there is no necessity that such a man" that is, a business man—office as Superintendent of Education—"be well up in the technical theories of education as generally understood; but," the paper continues, "he could give the common schools a practical turn in order to help the pupils to make the best of the country that pays for their education." Most people will probably decline to accept an opinion that the head of an educational system need not be "well up in the technical theories of education," he needs all that knowledge, but he needs more than that and it is here that most people will agree with The Eastern Chronicle's view. The Superintendent of Education should be a man who is not a slave to theory but knows the every-day problems and needs of every-day life in the Province and is capable of applying sound theory in a practical way to the work of making the educational system serve those needs and help to solve those problems. He must be a progressive, not a "stand-patter" receptive to new ideas, ready to adapt theory and practice to new and changing conditions, and with courage to break new ground or to resist the faddist as the need may be. Men who fill that specification are not to be found everywhere one looks for them. Not by a good deal. And none of them will work for anything less than a reasonably large salary. But they can be found.

The job of the Provincial Government is to choose one of them and pay him well. It is wise policy to spend money generously on such undertakings as improving the highways; but it would be wiser policy to cut a few thousands off the highway expenditure and use the money in paying the right kind of a man as Superintendent of Education than to let the direction of the educational work of the Province rest in the hands of a cheap and unprogressive man. Wise investment of money in education is the most profitable investment any country can make. And here is reason to believe that the Provincial Government is alert to this fact, and is looking for the right kind of a man to follow Dr. McKay.

**WHAT SALT WILL DO**

A little rubbed on cups will take off tea stain.

Put into whitewash, it will make it stick better.

Salt is one of the best gargles for sore throat, and a preventive of diphtheria, if taken in time.

Salt and water clean willow furniture; apply with a brush, and rub dry.

Salt and water held in the mouth after having a tooth pulled will stop the bleeding.

Two tablespoons of salt in half a pint of tepid water is an emetic always on hand and is an antidote for poisoning from nitrate of silver.

Neuralgia of the feet and limbs can be cured by bathing night and morning with salt and water as hot as can be borne. When taken out rub the feet briskly with a coarse towel.

Salt and water is one of the best remedies for sore eyes, and if applied in time will scatter the inflammation.

Silk handkerchiefs and ribbons should be washed in salt and water, and ironed wet, to obtain the best results.

As a fertilizer, salt is very valuable. Without salt, food would be insipid and tasteless.

Hemorrhages of the lungs or stomach are promptly checked by small doses of salt.

**FEAR MAGNETIC CURRENTS IN ARCTIC**

Copenhagen.—Fear that Raald Amundsen, who is to attempt a flight across the North Pole this month, may encounter unknown magnetic currents in the inner Arctic zone which will upset his compass and cause him to fly in circles, is expressed by experts writing in the Berlingske Tidende.

They hope the explorer will choose a clear day for his feat, thus enabling him to dispose of his compass and take his position by astronomical observations.

**BUCKET BRIGADE SAVED WAREHOUSE**

Robert Taylor, a Kentville Fireman, Had Narrow Escape.

Kentville.—The large warehouse of J. Howe Cox, Cambridge, was saved from fire when the citizens of that village formed a bucket brigade and held the fire in check until the arrival of the chemical engine and a special train from Kentville.

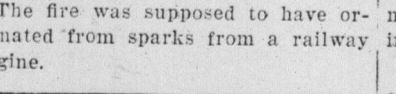

The fire which had broken out in a great number of places on the roof was extinguished.

Fireman Robert Taylor, of Kentville, had a narrow escape when a fire on which he was working on a roof gave way and he fell over fifty feet to the ground narrowly missing the railway tracks.

The fire was supposed to have originated from sparks from a railway engine.

**AMHERST ATHLETES ARE REINSTATED**

The re-instatement of Amherst athletes was the main item of business transacted by the Maritime Branch of the Amateur Athletic Union of Canada, in their meeting in Amherst last week.

A notice of motion, approving a six months' residential clause, was given by Loring Andrews of Middleton. This motion resulted after Mr. Covey had gone on record against the practice of importing athletes to take part in sports. He made this declaration when reviewing the applications of Kolosky and Finson of Kentville and Casey of Middleton for amateur cards. These three men played baseball with the Arlans last Summer. Since then they secured employment in the Valley towns. The exception in regard to school teachers, undergraduates and all legitimate business transfers.

**SOME OUTSPOKEN STATEMENTS BY DR. GEO. B. CUTTEN**

Former Head of Acadia Tells Some Tales Out of School—Clergymen, Apparently, Quite Human.

Atlantic City, N. J.—Delegates to the Northern Baptist convention are cogitating over some of the outspoken statements made in an address by Dr. George B. Cutten, of Colgate University.

Here are some of the statements which the educator made, with a twinkle in his eye:—

"Pastors are the poorest trained men, professional men, and Baptist pastors are perhaps the poorest trained of the lot."

"A minister needs moral training more than he does technical training."

"The reports ministers make of conditions in their churches are not always the exact truth, especially if conditions are bad. I know ministers who wouldn't think of stealing a fellow pastor's purse, but who would steal his church members. You can't steal men and women from another fellow's church for the glory of God."

"I don't know of any other job better than the ministry where a man can be lazy without anybody knowing it. A minister ought to know how to work hard."

"Seminaries don't make four ministers. They do much harm to some. I suppose the real training a minister gets is the training he gets from his wife."

**BUILD UP THE SMALL TOWN**

It is high time that all of us paid more attention to the building up of the little town and less to making the overgrown city larger. The little town is home, or should be. It needs our support and we are the people who must give it life and power if it is to have either. The big city cares nothing for us. It will if it can pull our dollars away and lure our boys and girls into its whirlpool, but that is the only use it has for us. The little town needs us and we need it. Hall's Corners may not make a large dent on the map as New York, but it really means more to us; we ought to help make it something to be proud of. Why not give over the idea that the bright future of America lies in the cities, its showrooms, smoked, dirty and unclean. The true future lies in the country and in the towns. Back them up and make them grow.—Rural New Yorker.
