PURPOSE AND SCOPE OF THE EXTERNAL AFFAIRS MANAGEMENT IMPROVEMENT PROGRAM (EAMIP)

1. The intent of EAMIP is to identify areas where effort is needed to improve the way the Department works or, to make significant achievements in a discrete period of time and to coordinate the tasks or projects to be undertaken on those initiatives. The recent reorganization has addressed the structural issues related to the expanded mandate of DEA, and it is necessary now to adapt the management systems of the Department to support the changes. Quite apart from structural considerations, there are a number of significant issues which need to be addressed if the Department is to fully serve Canada's interests abroad. As well, the Department must respond to the observations made by the McDougall Commission, the Auditor General, Comptroller General and Treasury Board about the state of management practices in DEA. The EAMIP will provide an additional impetus to this work - it will create visibility, represent senior management commitment, and ensure continuity for the many tasks that must be done.

2. The management improvement program has a broad scope. It covers management activities such as planning, organizing, resourcing, directing, implementing, reporting, and audit and evaluation, as well as functions such as finance, personnel and physical resources. Plans for individual projects which respond to specific issues and opportunities form the core of EAMIP. Some projects are departmental in breadth, for example, the establishment of a planning and resource allocation system. Others are particular to a single bureau, e.g. further development of priority market plans. Each project plan identifies the goal to be achieved and the work to be done, by whom, when, and at what cost.

3. EAMIP is a multi-year program of three or more years duration, and it will be updated, at a minimum, annually. Most projects which begin in the first 6-12 months are spelled out in relatively more detail; work scheduled to start later can be elaborated as the date for implementation approaches. Flexibility in the structure of the program will make it possible to shape successive projects in light of experience, both good and bad, with earlier ones.

BACKGROUND

4. The starting point for the development of the management improvement program was the Office of the Comptroller General's (OCG) Improvement in Management Practices and Control (IMPAC) survey of DEA in 1979-80. The Department's initial response to the OCG's findings was drafted prior to the reorganization of 1982. However, recognizing the difficulty of producing an adequate management improvement program in the wake of reorganization, the Comptroller General agreed to the designation of a number of reorganization related tasks as Phase One of the External Affairs Management Plan.* It was agreed that a full management improvement program, with broad coverage of the Department would constitute Phase Two. A good number of the Phase One projects are complete, while the major outstanding items are reflected in the present document. 2.

5. Work on the full program began in the spring of 1983, when the EAMIP Coordinator was appointed. Executive Committee then approved the terms of reference for the Coordinator, the Coordinating Committee and the Steering Committee. The Coordinating Committee is comprised of representatives at the working level from all Branches. The Steering Committee is chaired by the ADM of the Policy Coordination Branch. Other ADM representatives include MCB, ACB, GGB and TFB. Outside representatives are from Treasury Board, the Office of the Comptroller General, the Privy Council Office and the Office of the Auditor General.

6. Beginning in March/April 1983 interviews were held with over 50 people in the Department. This served as the basis for a discussion paper on the scope of the management improvement program and the range of issues and opportuntities that should be pursued. The discussion paper was circulated in the Department and approved by Executive Committee in June. Shortly thereafter a significant restructuring of the Department was announced. While work continued, as feasible, through the summer to identify specific projects for the program, the energy of the Department was largely devoted to making refinements to the new organization structure to enable the Department to operate with that structure beginning September 6, 1983.

7. Recognizing the urgency of many of the management issues facing the Department, the USSEA requested that a concerted effort be made through the autumn to develop a program by December 1983 or early January 1984. In order to meet this target, a small temporary team was assembled headed by the EAMIP Coordinator (CCBM). The team consisted of two DEA officers, one full-time and one part-time, external consultants, and personnel from the OCG equivalent to one person full-time. The working level EAMIP Coordinating Committee has been reconstituted to reflect the new structure of the Department, and once again has a member from each branch. The EAMIP Steering Committee has been expanded to include a representative from both the geographic and functional branches.

* The External Affairs Management Plan Phase II was renamed External Affairs Management Improvement Program on November 16, 1983 by the Executive Committee.

3.

8. The process followed to produce the program included a project identification and a project planning stage. During the month of October, work was concentrated on discussions with ADMs, DGs and Directors to identify and briefly describe tasks that could be suitably represented as projects in the management improvement program. The total list was reviewed by the Steering Committee, and approved in principle by Executive Committee in November. After that detailed plans were prepared for the majority of the projects that are now underway or will commence in 1984-85. The project plans were compiled, and an analysis undertaken of implementation considerations and costs related to the program. The program was reviewed in January by the Steering Committee and Executive Committee and was approved in principle.

CURRENT SITUATION AND NEXT STEPS

9. During January and February further consultation was undertaken in the Department to complete some project descriptions and make adjustments as necessary. Negotiation with the Office of the Comptroller General was also carried out and the program has been accepted for endorsement. The program is now ready for final approval by the Executive Committee, after Steering Committee review, and the endorsement meeting between the USSEA and the Comptroller General will follow.

.

ĥ

B. ISSUES AND PRIORITIES

4.

3

4

5

6

8

GENERAL APPROACH

1. The primary objective of EAMIP is to put into place management processes and systems and administrative procedures that are adapted to the nature of the Department in all of its roles. Efforts in this direction will be guided by several basic principles.

- . Give first priority to departmental requirements, and within those, ensure response to central agency observations;
- . Respond to the unique features of a foreign service;
- . Emphasize the benefits for managers at all levels in the Department; i.e. what's in it for me;
- . Involve those with responsibility for management in the design and implementation of improvements;
- . Build on existing systems, start with what is known;
- . Identify what can be done with existing resources and what requires new resources, do not create unrealistic expectations;

HENEFITS OF EAMIP

2. The benefits which can be expected to derive from the management plan (as opposed to those that would result from improvements to departmental management systems themselves) are as follows:

- . Incremental improvements in DEA management and administration;
- . A comprehensive and coordinated approach to management improvement, i.e. reduced gaps, overlaps, duplication and confusion;
- . Clear assignment of responsibility and accountability for results of management initiatives;
- . Continuity of effort despite rotationality:
- Opportunity for senior management to establish the operating principles of the new organization;
- . Opportunity for all managers to contribute to decisions on the way in which the Department will be run;
- . Shared information and integration of effort across the branches.

3. These benefits are difficult to quantify, but are very real nonetheless. The benefits which will result from the introduction of a specific management improvement are described in the individual project plans. Where possible they have been quantified as "reportables".

PROJECT SELECTION CRITERIA

4. The criteria used to select projects for EAMIP were derived from the issues and opportunities identified in the discussion paper approved by Executive Committee in June, and are as follows:

- . Support to new organizational structures;
- . Strengthen corporate management processes;
- . Representational coverage of departmental programs and operations;
- . Feasibility;
- . Contribution to institutional continuity, memory;
- . Significance, risk factor of doing or not doing a potential project;
- . Information sharing and educational benefit of doing some projects;
- . Response to OAG, OCG, TB, Public Accounts.

5. The selection process has not been a formal one, as such, but rather has involved successive rounds of consultation in which the above considerations were part of the discussion. Over and above these criteria, if a manager has felt strongly enough that something needs to be done about a problem, then a project has been included to cover that concern.

SUMMARY OF MAJOR THEMES

6. The improvements that will be undertaken can be grouped readily within a number of major themes — aspects of corporate processes, geographic branches, programs and operations, human resource management, management information systems and administrative support services. The issues and opportunities faced in each of these areas, and of the responses to them contained in EAMIP, are summarized in the following paragraphs.

Aspects of Corporate Processes

7. The focus of the projects in this area is directed at planning, resource allocation, program evaluation and the corporate decisionmaking process. Various components of the planning system are now in place, (e.g. foreign policy framework and post planning), though refinements may be needed and it is necessary to develop these more fully and to integrate them, so that there is a clear link between policy formulation and direction, planning, resource allocation, reporting against plans and evaluation. EAMIP contains a major project on the planning system, which covers the foreign policy framework, strategic planning, operational planning and work planning, leading to the production of the strategic overview and multi-year operational plan. An important lead project deals with the development of the DEA operational plan framework followed by Part III of the Estimates. The program evaluation component profiles and multi-year evaluation plan are also the topic of a project. Separate projects have been structured to address management of the ongoing resource allocation process and reporting against plans, as well as to address specific program evaluation projects. ۵.

3

4

5

6

8

8. The committee structure at the corporate level is now in place, and the management improvement program is concentrating on information to support the executive decision-making process. Among the management information projects, a number are specifically intended to improve the quality of information available to senior management. An initial survey of management information needs will lead to the formulation of an MIS strategy for DEA. The production of a corporate management calendar and a policy document checklist will help to order the business of Executive and related committees.

Support for Geographic Branches

9. A major part of the September 6, 1983 reorganization at DEA was the creation, for the first time, of five geographic Branches responsible for their respective regions, the posts in those regions and for policy and program design and delivery, country planning and resource allocation and control. The Branch and Post Management Procedures Project focuses on providing branch managers with the systems and resources necessary to carry out their management responsibilities. Completion of the 1983 initiative on delegation to Heads of Post is a separate project here, though consideration of any further delegation to HOPs would take place in the context of the branch and post management project.

10. Establishing a model of the way in which policy and resource reviews can be conducted of regions or parts of regions is the topic of another project, to be detailed in the new year. A prime focus is also on determining the information needs of managers in the geographic branches, and this is initiated through a pilot project in the United States Branch. Other projects in the MIS section of the EAMIP also focus on the requirements of headquarters managers and posts. Using communications satellites to provide immediate access to Canadian television programming to demonstrate the cost-effectiveness of Canadian high-technology and as an alternate method of transmitting public information for public affairs is the topic of another project. Again, this is structured as a pilot at two U.S. posts with the possibility of extending to other posts in that region or possibly other regions, after assessment.

Programs and Operations

11. The projects in this section reflect aspects of the International Trade Development Branch, Economic and Trade Policy Branch, Political and International Security Branch and the Social Affairs and Programs Branch.

- 12. The major themes in the section are as follows:
 - clarification of mandates, priorities and organizational linkages (e.g. Management of Relations with the OECD, Multilateralism and the UN System, Domestic Information and Communications Strategy, Refining Science Counsellor Roles)
 - developing better planning, monitoring and effectiveness measurement methods and improving management information systems (e.g. PEMD System Inprovements, Trade Programs: Methods of Monitoring and Measuring Effectiveness, Redesign of the Import Permits Issue System, Consular Operations MIS, Performance Measurement Tools for Public Diplomacy)
 - development and implementation of specific program work, in some instances in order to explore means of applying program management techniques, (e.g. International Generic Fish Promotion, Priorization of Manufacturing Sectors, New Thrust for Entrepreneurial Immigration, Review of International Cultural Policy).

Human Resource Management

13. There are five major themes represented by the projects from the Personnel Branch. They are as follows:

- a) emphasis on planning and management of personnel activities to better support the objectives and priorities of the department;
- b) increased managerial capacity and specialist skills to meet the requirements of the department;
- c) an improved information base and information system;
- d) improved service to managers coupled with a clearer understanding of the role of personnel and line managers as well as shared agreement on the equity of treatment of employees;
- e) focus on service to both employees and their families.

The following are examples of projects that are related to each of the themes:

a) Design and implementation of a Human Resource Management System;

- b) Design and implementation of an Integrated Policy and Management Framework for Training and Development;
- c) Development and implementation of PMIS;
- d) Delegation of Authority for Personnel Management, Management of Non-Rotational Personnel, Review of the Stream Concept, Retirement Program;
- e) Improved Support Services for Employees and their Families, Employee Couples, Implement Executive Committee Decision in McDougall Recommendation.

Management Information Systems

14. There are five major themes reflected in the Management Information Systems section of EAMIP: improving the information available to support decision-making at all levels; focusing particularly on rapid improvements to the financial and personnel information systems to provide more useful and timely information to managers; emphasis on the information needs of posts and an adequate degree of automation for posts; upgrading of existing systems to make them more useful and cost effective in a variety of program areas; and coordination of the purchase, introduction and use of new technology and of appropriate training in this area.

15. The section therefore contains a mixture of new initiatives (e.g. Defining the Information Needs of Management, Defining the Information Needs of Posts, Computer Assisted Immigration Processing) major improvements to existing systems (e.g. Financial Management System Enhancements, Improvement and Development of the Personnel Information System, System Improvements in PEMD, Redesign of the Import Permits System) and continuing systems and EDP application improvements (e.g. Systems Support for Headquarters, EDP Support for Posts, Library Services).

16. An overall issue is the need to create an MIS strategy for the Department, to determine how to migrate from the existing status to achieve the aim of the strategy and to achieve means of policy and management direction for the converging technologies of Electronic Data Processing, Office Communications Systems and Telecommuncations. It is of note that the Department has recently created a Steering Committee for EDP/MIS to provide policy and senior management direction. 8.

Administrative Support Services

17. The major areas in this section of EAMIP focus on the four Bureaux - Finance and Management Services, Physical Resources, Communication General Services, and Management Review and Audit. While the projects are specific to these Bureaux, they are pertinent to management in the Department as a whole. In the sense this group of projects represent further aspects of corporate processes.

Finance

18. The projects in this area are focused on (a) improving and strengthening the Bureau's operations and its ability to perform its manadate and provide service to the Department in an efficient and economical fashion and (b) specific information and EDP systems and applications improvements which are also reflected in the Management Information Systems section of EAMIP.

19. Examples of projects that fall in categories (a) and (b) are as follows:

- (a) Bureau Organization Review, Review of Financing of Operations Abroad, Post Accounts Management, Regionalization of Financial Services, Review of Departmental Authorities, Departmental Manuals, Financial Management Training and Development (with Personnel) and Financial Manual.
- (b) Finance and Management Systems Enhancement, General Purpose Computer for Headquarters, Systems Support for Headquarters.

Physical Resources

20. There are two major themes to the EAMIP work being undertaken in the Physical Resources Bureau and both are aimed at providing effective, efficient, professional service to headquarters managers and posts. The first incorporates operational management improvement projects, the majority of which were already underway or identified, in response to specific needs, when EAMIP was started. These include such initiatives as follows: Physical Resources Roles and Responsibilities, Facilities Master Planning and Delivery System, Property Management Manual, Materiel Management Procurement and Shipping Control and Works of Art Inventory and Management.

21. The second of these themes consists of two comprehensive studies covering the property and materiel management responsibilities of the Department. These studies have been initiated not only because of observations from the central agencies, but also as a result of internal departmental studies and concerns which prompted the request for in-depth reviews in each of these areas. Both studies will be completed by appropriately qualified consultants from the private sector.

Communication and General Services

22. Again the major aim of the projects in this Bureau is at making policy, organization, operational and systems improvements in order to provide improved service to the Department in an economical manner. Illustrative projects are in Library Services, Telecommunications Policy, Records Management and Telephone Services.

Management Review and Audit

23. Two Projects to Develop the Audit Plan and Activities to be Audited and the Management Review Policy will continue initiatives already underway to strengthen the internal audit capacity and to clarify the role of management review.

PRIORITY SETTING

24. Insofar as possible, the projects in EAMIP have been planned so that they do not compete with one another for time or resources. However, all projects cannot be initiated at the same time without systems overload, or without an infusion of additional resources. Therfore projects that do not compete for time or resources, because they are small, self-contained or have adequate existing resources will be identified. Then those projects which are essential to the success of the program or are an inherent part of Branch responsibilities will be grouped. Some of these can proceed with existing resources, and for the balance, their success will be determined by whether or not resources are applied to them. After Executive Committee's budget decisions for 84/85, projects will be reviewed to determine whether there are any remaining funding or timing problems that must be addressed.

•

.

C. SUMMARY OF PROJECTS

No	T141-	Respons I-	
No.	Title 1. Aspects of Corporate Processes	bility CCB	Description
CC01	• Development of the OPF.	CML	- structuring the operational plan framework;
			includes objectives, linkages and results statements.
x02	• Departmental Planning System.	CML CMA	 develop and implement strategic, operational and work planning; includes training.
х03	 Managing Resource Allocation. 	CMA	- process for adjusting workplans and shifting resources during the year, includes py's.
CO4	• Reporting Against Plans.	CMA	- developing procedures for interim 1984-85 system and then for 1985-86
205	• Part III of the Estimates.	CML	- development of new aspect of main estimates.
x06	• Evaluation Plan and Profiles.	CME	- describing grouping of activities for evaluation and setting multi-year plan.
×07	 Trade Programs-Methods of Monitoring and Measuring Effectiveness 	CME/ TED	- developing ways to measure impact of trade ini- tlatives; to be done with support and coordination assistance from TED.
803	• Revision of Correspondence Manual.	C M R	- updating procedures manual and mechanism to ensure regular update.
09	• Corporate Management Schedules•	CMR	 develop, assess and refine a Management Calenda of the timing of regular, annual management events; and similarly a Policy Document Check- list for tracking the progress of major policy documents, e.g. Cabinet Documents in the Dept.
C10	• Evaluation of Program Delivery Abroad: Immigration and Tourism Program.	С М Е (S I D/ Т Е D)	 analyse a variety of resource allocation and program issues to provide coherent view of DEAs program delivery responsibilities and to make recommendations which enhance the overall effectiveness of program delivery.
C11	• Project Management Guide and Training.	ССВМ	 development of generic project management system(s) for DEA; production of a guide book on this and a training package.
F03	• Review of PEMD Program Design.	TEP/ Cme	- See Programs and Operations Section - Trade Development.
C12	• inventory of Existing EDP Systems	ССВІ	- see MIS section.
514	• The information Needs of of Headquarters Management	ССВІ	- see MIS section.
C15	• The information Needs of Posts	ССВІ	- see MIS section.

No.	Title	bility	Description
CC17	• DEA's Domestic Clientele.	C C B M C C B R	 to identify the members of the Department's constituency and design a strategy for interaction with that clientele; initially focusing on business, industry and labour.
CC18	• Official Department Visits	ХDХ	 to develop a plan for official departmental visits and design a financial program facilitating budgeting; review existing standards; initial consultation with CMR.
. CC19	• MIS EDP Training in DEA	ССВІ	- See MIS section
GB01	 Branch and Post Management Procedures 	ССВМ	- see support for Geographic Branches Section.
GB02	 Completion of 1983 initiative on Delegation to HOP's 	ССВМ	- see support for Geographic Branches.
	11. Support for Geographic Branches	UGB LGB PGB RGB GGB	
GB01	• Branch & Post Management Procedures	ССВМ	- working with all geographic branches and func- tional areas as appropriate to establish initi- al management principles, determine authorities, carry out HOP letter pilot and determine staff requirements and re-examine HOP delegation.
G802 .	 Complete 1983 Initiative on Delegation Effort to HOP. 	C M D/ C M L	- work required to complete training, communication and documentation of HOP delegation begun in early 1983.
G803	• Policy & Resource Review Prototype	GAD (CME/CML CPD)	- an initial policy and resource review is being conducted of one area of one region and will be analyzed to provide a model for further efforts in this direction. In relation to this work a statistical input model for geographic reviews is being developed by CME and CML and criteria for interregional comparison is being developed by CPD.
GB04	 Pilot Project on Substantive Information Management (UGB). 	C C B 1/ C M L/ U R R	- see MIS section
GB05	• Satellites for U.S. Posts - New York and Washington	U G P/ S C S	 pliot to examine value, in a public diplomacy sense, of using satellite dishes to provide real time Canadian news and information programming, House of Commons coverage, etc.
GB06	• Canada - USA Sector Free Trade Studies		 to asses the pros and cons of sectoral free trade between Canada and the USA for individual sectors

	Title	Responsi- bility	Description
	11. DEPARTMENTAL PROGRAMS & OPERATIONS		
	A. International Trade Development		
TF01	• Int'l Generic Fish Promotion•	TAF	- process for planning and implementing 5-year promotion program of \$28M aimed primarily at the USA.
TF02	• PEMD System Improvements•	TED/ TEP	- see MIS section.
TF03	• Evaluation of the PEMD Program Design•	СМЕ/	- see Corporate Process (Evaluation).
TF04	• Defence Import Contract System.	TDD	- see MIS section for description.
TF05	 Priorization of Manufacturing Sectors. 	TID	 process to determine strategic priorities with geographics in order to best serve them and make best use of resources.
TF06	• Export Market Development Plans	TED	 to identify effective ways of advising Canadian exporters of viable sectoral opportunities as priority export markets and to meet the concerns of the Auditor General's Report.
TF07	 Cost Recovery Technical Assistance Program. 	TED	- implementation and assessment of recommendations for improving the operation and visibility of this program.
CC07	 Trade Programs, Methods of Monitoring and Measuring Effectiveness. 	CME/ TED	- see Corporate Processes (Evaluation).
	B. Economic and Trade Policy	EFB	
EF01	• Economic Summitry - Critical Path	EER	- description and checklists to order process of preparing for summit meetings.
EF02	• Improvement of Technology Inflow Mechanisms and Science Counsellor System	ETS	- review, make recommendations for purpose and improvements in role of Counsellors and quality of scientific and technical information.

3.

.

No.	Title	Responsi- billty	Description
EF06	• STRB Pilot project for Ad Hoc Reports•	ESC	- see MIS section.
EF07	 Redesign of the Import Permits Processing System 	ESC	- see MIS section.
EF08	 Improvement of the Import Quota Allocation System. 	ESD	- review, identify improvements, document and communicate clearly to businessmen how allocation decisions are made - the process and the criteria: a main purpose is to increase transparency of the process.
EF 09	 Preparations for Re-negotiation of GATT Agreement on Gov't Procurement. 	EPG	- structuring a plan for this work in the Department to assist in the meeting of tight deadlines and as a possible model for the future.
EF10	. GATT Work Programme.	EPG.	- the process of preparing for tariff harmonization is complex and takes place over a two-year period; a project with timing and linkage factors will assist in the management of the work, the application of resources, and may serve as a model of this type of project management.
EF11	• Canadian Participation in the Harmonized System		- to prepare the Canadian position for the up- coming GATT negotiations with a view to the incorporation of the Canadian tariff and the tariffs of our major trading partners into the harmonized system of tariff classification.
EF12	 Government Participation in International Commodity Agreements 	EPA	 a process and workplan for negotiation of sugar and cocoa agreements to facilitate meeting tight deadlines and to assess usefulness for future negotiations.
EF14	• International Negotiations on Trade in Services•	ЕРТ	- through international negotiations to promote a more liberal international trading environment for Canadian service industries to facilitate their ability to plan, invest and export which will result in more employment in Canada.
EF15	• Management of Relations with OECD•	EER	- review and clarify priorities in OECD relationship for Canada and clarify roles and responsibilities of departmental players.

		Responsi-	
No.	Title	bility	Description
	C. Political and International Security Affairs	IFB	
IF01	• Study of Multilateralism : Canada and the UN System•	IMD	 review of scope and rationale of UN activities, rationalization of resource application, interfaces and coordination requirements.
1F02	 Crisis Management and Emergency Planning. 	Z S'E	 develop a crisis management capability includin planning support, and definition and description of procedures.
IF03	• Personal Safety Program Implementation•	Z S P/ Z S E	 to provide adequate personnel safety for employees and their dependents; includes developing personal safety threat assessments for each post, revising personal safety manual, and mandatory personal safety briefings.
	D. Social Affairs and Programs.	SFB	
SF01	• New Thrust for Entrepreneurial Immigration.	SIM/ SIMA	- to develop procedures, communicate them and implement the program for one full cycle, then assess success and refine as ongoing program, or no.
SF02	 International Exchange of Information. 	S 1 M/ S 1 M A	- to develop a list of priority subjects with CEIC, agree on product, produce product and assess viability of continuing this program.
SF03	 Upgrading of immigration Program Productivity via introduction of Modern Office Equipment. 	SIM/ SIMR	- modernize Immigration sections at Posts to enable them to meet escalating demands for resources.
SF03-B	 Inventory of Existing Office Equipment in Immigration Program Abroad. 	SIM/SIMR	- provide inventory information to be used to support decision-making on the upgrading of equipment and non-technical procedural, managerial and processing innovations.
SF04	 Computer Assisted Immigration Processing. 	SIM	- see MIS for description.
SF05	• Consular Services Training.	SIC	- development, implementation and assessment of improved training program.
SF06	• Consular Operations MIS•	SIC	- see MIS section.
SF07	• Extension of Cost Recovery in Consular Program•	SIC	 explore feasibility of extending cost recovery in Consular; project to be determined in the fall of 1984.
SFOB	• Domestic Information & Communications Strategy+	SCI	 review of mandate, objectives, interfaces and seeking Executive Committee approval of a strategy for these activities.

15.

,	•		
		Responsi-	Description
No. SF10	Title • Performance Measurement Tools for Public Diplomacy Activities•	bility S C D	 establishing adequate performance measurement indicators and system for monitoring and evaluating processes, activities and outputs.
SF11	 A Project Management System for Cultural, Public and Information Programs. 	SCD	 structuring a system to ensure common management approach to all projects.
SF12	 Rationalization of Publications in DEA. 	SCD	- review of all departmental publications and those of other departments (closely related) to determine overlaps, audience, targeting and possible elimination of some publications.
SF15	• Communications		- to implement the recommendations of the Communications Task Force report; the project would be the follow-up to some or all of these depending on which ones are approved by senior management. The project, when fully developed, may be lodged in another Branch.
SF16	 Review of International Cultural Relations Policy- 	SCC	- to develop and promulgate an International Cultural Policy for Canada which will provide a guide to all those who are engaged in International Cultural Activities.
SF17	 Process Model for Formal Bilateral Cultural Agreements and Informal Arrangements. 	scc	- to establish a process model to increase the efficiency and effectiveness of cultural mixed commissions, and possibly to be used as a model for other mixed commissions.
SF18	 International Population Conference Mexico, August 1984 	SIS	- project to develop a Canadian position for the conference, consultation, preparation of a cabinet document, delegation selection and preparation.
SF19	 Indigenous Peoples' Organizations Int'l Liaison. 	SIS	- project to be developed later in 1983-84; deals with definition of DEA's role in this area.
	IV. Human Resource Management.		
AC01	• Ex Conversion - Phase II	ACB/ ACBZ ADA	- the creation of a fully qualified, appropriately sized and classified senior headquarters complement to provide effective managerial leadership to the department.
AC02	• PMIS Workload Priorities	ADA	- See MIS section.
AC03	 Affirmative Action Workplan 	ACB/ ADA	- completion of a comprehensive and practical work plan which will guide the conduct of the work force audit phase of the affirmative action program.

		Respons I-	
No.	Title	bility	Description
AC04	• Design and Implementation of a Human Resource Management Framework in DEA•	ADA	- Improved capacity to implement an effectively integrated human resource management framework for the Personnel Branch which is fully linked to the departmental planning system.
AC05	 Integrated Policy and Management Framework for Training and Development in DEA. 	A D D/ A D T	- articulation of a clear and comprehensive policy statement for training and development coupled with a more systematic method of determining training and development needs and the means to effectively meet those needs.
AC06	• Review of Secondments Program.	ACB/ APZ	 completion of a systematic examination of the overall progress which has been made in achiev- ing the priorities of the secondment policy which was circulated by the USSEA in July of 1983.
AC07	 Implementation of Executive Committee Decisions on McDougall Recommendations. 	A C B/ A D A	 ensure effective monitoring of those limited number of outstanding projects which will not have been fully implemented by December, 1983.
AC08	• Management of Non-rotational Personnel in DEA•	A P D∕ A P∘N	- systematic examination of how specialized non- rotational professional and administrative groups are managed from the Personnel perspective and of what the relationship should be to the personnel practices for rotational professional and administrative groups.
AC09	• Review of Stream Concept.	ADA	- to provide, by mid January 1984, an outline summary or agenda paper of the critical issues to be dealt with in the formal review of the stream management concept; thereafter to conduct the review.
AC10	 Human Factors in the Introduction of New Office Technology. 	n A D A	- development of an improved capacity to anticipate and effectively respond to the human resource implications of new office technology.
AC11	 Foreign Service Career Models by stream. 	ADA	- formulation of career models for each of the major officer groups to assist in career planning and training and development.
AC12	 Human Resource Plan for Responding to Financial Management Needs. 	ADA	- implementation of a human resource plan which effectively responds to the organizational staffing, classification and training and development needs necessary to establishing a strengthened financial management process.
AC13	 Development of a strengthened and more responsive Classifica- tion Process in External Affairs 	A B D/ A B C	- completion of a detailed examination which will result in a strengthened basis for managing the classification process. To come in March.

AC14	Delegation of Authority for	bility	Description
	Personnel Management.	ADA	 to define general principles and special responsibilities of line and personnel managers. To seek senior management approval and communicat clear direction on delegation of authority for personnel management.
AC15	• Consolidation of Development Aid Stream	APA	 complete consolidation of the aid stream including determining size and configuration o stream with CIDA as well as the development of explicit operational guidelines for ongoing administration of the stream.
AC16	 Rotational AS/AT Program Implementation. 	APA	 increasing the Department's managerial and administrative capacity by extending the AS/AT program to all levels on both a short and long term basis.
AC17	 Improvement of Foreign Language Training Program. 	ADD/ ADTB	- design and implementation of an expanded and more effective foreign language training program with particular focus on the specific communicative skills required in the various fields of foreign operation.
AC18	• Improvement of Support Services Program to Employees and Families.	ADD/ ADTB	- Implementation or an effective and well integrated support services program which responds to the needs of both employees and their families at the preparation level, during the posting and upon return from posting.
AC1 9	• Retirement Programme.	A B D/ A B S	 provide improved retirement related advice and support to employees, thereby creating an improved employee understanding and attitude towards retirement.
AC20	 Improved Capacity to Deliver Secretarial Services 	A B L/ A B D	- to improve the circumstances in which secretarial services are provided at head- quarters so that they may be delivered as efficiently and effectively as possible.
AC21	• Establishment Analysis	A D A/ C M D	 to review the managerial effectiveness of the departmental establishment; the existing occupational group structure and distribution will be tested against four factors: 1) departmental priorities; 2) mix of rotational non-rotational and LES positions; 3) number of rotational positions abroad and at headquarters and 4) allocation of positions to occupational category and group. To come March/April.

		Responsi-	
No.	Title	billty	Description
AC22	• Career Review and Counselling	A D A	- to review the effectiveness of the existing career review and counselling function in supporting the selection, development and deployment of the right mix of employee skills to achieve the department's priorities and mandate. Included will be an assessment of the administrative costs of meeting the current systems requirements in the areas of assignment promotion, training and development and human resource planning. To come March/April.
AC23	 Assignment Policy for Employee Couples. 	A D A	 creation of an effective well understood approach to managing employee couples within the assignment process.
AC24	 Review of Diplomatic Designations. 	A P D	- develop criteria that will establish the diplomatic rank of senior officers on the basis of the program requirements of the positions.
	 Management Information Systems and Electronic Data Processing A. New initiatives or Major 	(6 Branches Involved)	
MF08.1	Improvements. • Finance and Management Systems Enhancements - Financial Information Needs Definition.	M F D M F R	 enhancement to the system to record all HQ commitments, provide reports to Executive Committee and to users of FMS outside the Bureau of Finance & Management, incorporate
MF08.2	• Financial Planning Enhancement	MFS	changes arising from OPF and associated developments.
AC02	• PMIS Workload Priorities.	A C B A D A	- to make the information coming from the system useful and accurate, first phase to be completed by March 31, 1984.
MR13	 Property Management Information System Enhancement. 	MRCS	- redefinition of management and operational information requirements.
CC12	• Inventory of Existing EDP Systems•	ССВІ	- profiles of current EDP systems and a mechani to keep this inventory up to date. Work completed, report provided.
GB04	 Pilot Project on Substantive Information Management - UGB. 	C C B I C M L	- to identify what the information needs are, determine what is available in the market place and in the Department and transform the identified information into useful systems, initially in UGB.

19.

No.	T A I	Respons i-	
CC14	Title Information Needs of	bility	Description
0014		CCB/	- to assess the information needs of the
	Headquarters Management.	ССВІ	Department prior to developing an MIS strategy
CC15	 Information needs of Posts. 	ССВІ	
		CCBI	- to assess the information needs of posts as part of developing an MIS strategy.
MF10	• General Purpose Computer for HQ.	MFD	- acquire a general purpose computer to serve HQ data processing requirements.
SF04	 Computer Assisted Immigration Processing System. 	SIM	 a pilot project in Hong Kong to establish feas bility of replacing a labour intensive immigra- tion processing system with an automated one.
MF09	• Office Automation in DEA.	MFSX	- develop an office automation strategy for DEA, both headquarters and posts; a pilot project
EF06	STDR Dilet Drotant		approach.
	 STRB Pilot Project for Ad Hoc Reports. 	ESC	 updating an out-of-date system; initially a pilot project on textiles and clothing focusses on 17 countries.
EF07	 Redesign of the import Permits Processing System. 	ESC	 reviewing current system to establish cost effective means of revamping the system.
TF04	• Defence Import Contract System.	тор	
			 to update out-of-date system to be more efficient, less costly and compatible with Export System.
SF06	• Consular Operations MiS•	SIC	 pilot project on improved information on workload/services from posts, analysis of this and exploration of automation benefits.
CC19	• MIS EDP Training	ССВІ	- formulating, in conjunction with ADD, a relevan
			and effective set of training and development
			activities for MIS/EDP; to be developed in May/June
	B. Operational improvements	1	
TF02	• System improvements in PEMD.	TED	- to Improve DEND data to the second
			 to improve PEMD data base and ensure linkage with the financial system at DRIE.
MF12	 Systems Support for Headquarters. 	MFD/ MFS	 to improve method of planning and resourcing support requirements in EDP for headquarters managers.
ME11	EDP Support of Dest		· · · · · · · · · · · · · · · · · · ·
****	• EDP Support at Posts.	MFS	 design and implement appropriate automated systems for support of posts (London, Paris, Hong Kong pilot projects).
MG01	• Word Processing Services.	MGDW	- rationalization of word processing at headquarters.

X

	Title	Responsi- bility	Description
No. MG02	• Library Services.	MGL	- improvements in library services, e.g. on-line acquisition and cataloguing; expand research service after policy is approved.
	Administrative Support Services	мсв	
MR14	• Accommodation Plan.	CCBA	- to plan and execute the accommodation of all DEA staff in the L.B. Pearson Bidg. post reorganization, targeted end date - August 1984.
	Finance		
MF01	• Bureau Organization Review.	MFD	 taking into account the reorganization of the Department, the review will clarify the Bureau¹: mandate, responsibilities and authorities, and determine staff levels and classification levels.
MF02	• Post Accounts Management.	MFF	 design and implement an appropriate organizatio for the management of post financial returns.
MF03	 Regionalization of Financial Services. 	MFD/ MFR	 review current practices in UK and France, expand to other multi-post countries as appropriate.
MF04	 Review of Financing of Operations Abroad. 	M F F/ M F R	 determine whether curent, post financing processes are the most appropriate, i.e. letters of credit, working capital advances, etc.
MF05	• Departmental Manuals•	MFS/ MFSX	 scheduling and publication of a full complement of departmental manuals.
₩706	 Financial Management Training & Development. 	MFD	- ensure that appropriate financial management training and development is designed and delivered effectively; will need assistance from Personnel.
MF07	• Review of Departmental Financial Authorities•	MFD	- review, revise and document departmental financial authorities, with particular reference to delegation to managers and adequacy of the level of authorities for the department from T-B-
MF08.1	 Finance and Management Systems Enhancements - Needs definitions 	MFR/ MFS	- see MIS section.
MF08.2	• Financial Planning Enhancements.	MFR/MFRE	- see MIS section.

2/

No.	Title	Responsi- bility	Description
MF08-3	• Enhance Financial Management	MFRAMERS	- to establish a financial policy and systems development capacity to meet statuatory and regulatory requirements of Parliament and Central Agencies while at the same time meeting the essential needs of departmental managers.
MF09	• Office Automation in DEA.	MFS/ MFSX	- see MIS section.
MF10	 General purpose computer for Headquarters. 	M F S/ M F S C	- see MIS section.
MF11	• EDP Support at Posts.	M F S/ M F S C	- see MIS section.
MF12	• Systems Support for HQ.	MFD/	- see MIS section.
MF13	• Financial Management Manual•	M F D/ MFF/MFR	 develop and document new financial management manual for DEA.
	Physical Resources		
MR01	 Physical Resources roles and responsibilities. 	MRD/ MRMS	- definition of the role of the bureau, delegation of authority, service role of bureau.
MR02	 Master planning and delivery system. 	M R P/ M R P C	 create a project planning and delivery system for acquisition and development of facilities abroad.
MR03	 Guidelines for the evaluation of accommodation and establishment of criteria. 	MRP/ MRPR	 improvement to planning, staffing, procedures and standards for acquisition and development of property abroad. Project completed.
MR04	• Project Completion Report.	MRP/ MRPC	 in response to OAG, development of forms and procedures for formal and standardized close-out of projects. Project completed.
MR05	• LRCP, T.B. Submission.	MRD/ MRP	- update and evaluation of LRCP for submission in 1984 and to resolve issues re priorities, standards, etc. raised by T.B.
MR06 '	• Works of Art Computer Inventory.	MRP/ MRPF	 establishment of system for documentation and handling of 3,000 works in fine arts collection (exclusive of Cultural Affairs).
MR07	 Procurement Control Systems and Automation. 	MRD/ MFS	 the inventory suspense account, shipping commitment system and automation related to the material management function.
MR08	 Central Services Study (Management of L.B. Pearson Bidg.). 	MRD/ MGD	- review recommendations on the management of the L.B. Pearson Building and Implement approved recommendations; administrative committee to review.

		Respons I-	
No.	Title	bility	Description
MR09	 Delegation to HOPs for vehicles purchasing and supplementary furnishings. 	MRC/ MRCP	- determine feasibility of further delegation in these areas and implement where so decided.
MR10	• Property Management Manual•	MRMS	- develop a comprehensive Property Management Manual to provide operating guidance to HQ and Posts.
MR11	• Review of Real Property Management in the Department•	МСВ	- an objective review of the property management function to ensure that the Department has identified all of the required improvements in the context of the already initiated improvement projects in this plan; to ensure credibility of these efforts in the eyes of Central Agencies and to determine the capacity of the Bureau to
			deliver its function with existing resources.
MR12	 Materiel Management System Feasibility Study. 	мсв	 an objective review of the present system with a view to identifying improvements to the materiel management system.
MR13	 Property Management Information Systems (BMIS) Enhancement. 	MRCS	- see MIS section.
	Communications and General Services		
MG01	• Word Processing Review.	MGDW	- see MIS section.
MG02	• Library Services•	MGL	- see MIS section.
MG03	 Departmental Telecommunications Policy. 	мст	- to develop, have approved and disseminate a telecommunications policy for the Department.
MG04	 Improving Radio Communications 	мст	- to set up a radioteletype unit, to plan for and implement this aspect of communications equipment at posts with priority requirements; to come in Jan/Feb.
∙MG05	• Enhancement of the Communicator's Position•	MGT (APS)	- to enhance the career prospects of communicators by creating some communication officer positions; deciding which posts would receive a communication officer position and determining how best to manage the competitions for these positions.
MG06	• Records Management Work Plan	MGI	- develop overall work plan, set priorities, seek approval, structure further projects. Record Management Improvement Plan now available.

D. IMPLEMENTATION CONSIDERATIONS

D. IMPLEMENTATION CONSIDERATIONS

25.

5

6

8

1. The scope of EAMIP is comprehensive with respect to the management and administrative functions of DEA, and it responds to the management issues that were identified during the course of its development. It will however, remain a dynamic program that can be modified as circumstances warrant. New projects can be added as they emerge and the entire program will be updated annully.

2. The appended bar charts show the sequence of implementation for individual projects in EAMIP. The steps and timing were premised on the availability of resources according to the cost summaries contained in each of the project plans. A final implementation schedule can be developed only when it is known if the required resources have been approved by Executive Committee, and/or by Treasury Board. The pace of implementation, particularly beyond 1984-85, will also be affected by the outcome of various "Phase 1" type projects, (e.g. MR 11 Review of Real Property Management), which will determine the nature and scope of activity that should follow in subsequent phases.

3. Clearly, it is necessary to ensure that EAMIP does not create an overload for DEA management. If the problem does arise, it can be controlled through the rate of disbursement of new funds, or by adjustment to the speed of implementations of major systems, e.g. the departmental planning system. It should be noted that of the 125 projects, 42 are either to be completed by the end of 1983-84, do not require extra resources or are of such a nature that they involve a limited number of people in discrete areas of the Department. These projects can be regarded as not competing for time or resources in the same manner as other projects in the overall program.

4. Some of the considerations that will be kept in mind during the implementation of EAMIP are the following:

- Corporate processes: ensure that the pace of development of planning and reporting systems does not place an undue burden on the Department
- Branch and Post Management: Co-ordinate the design and implementation of the many pieces that make up a viable branch management system
- Programs and Operations: ensure that the goals set in the projects are attainable within resources available or to be sought through normal routes
- Human Resource Management: again, to ensure that all projects can be undertaken by the resources identified, and that the impact of changes can be absorbed by the department in the timeframes forecast
- Management Information Systems: to ensure that the volume of work can be handled, that the pilot and systems development projects do not absorb an inordinate amount of managers' time, and to provide adequate co-ordination between the different units in DEA involved in MIS.

- Financial Services: Develop greater precision in the projects as priorities for financial systems development and financial management are further clarified 24

- <u>Physcial Resources</u>: Adjust projects, if necessary, to reflect the cutcome of the front-end studies of property and materiel management

5. The momentum for implementation of EAMIP over its three or more year lifespan will be provided by key projects in each area, as illustrated in the appended bar charts. These projects include, amongst others, development of the departmental planning system, the operational planning framework, the evaluation plan, branch and post management procedures, the human resource management framework, training and development policy, headquarters and posts management information needs, financial systems improvements, and property and materiel management system improvements.

6. Some of the projects are now underway, and more are scheduled to begin shortly. All managers involved will be contacted concerning the initiation of projects and the status of resource requests that may have been associated with a project plan. At the same time, project managers will be asked to update steps and timing, if this is necessary to ensure an accurate base for monitoring the program.

E. RESOURCES

E. EAMIP RESOURCES

38.

6

8

1. As shown in the following schedules, the total cost of the EAMIP is estimated to be 380.8 PY and \$27.7 million to the end of 1985-86. The total peak year cost, i.e. 1984-85 (which is more significant for assessing resource requirements at a point in time) is estimated to be 168.6 PY and \$12.7 million. Of the latter amount, 61.4 PY and \$6.1 million are new resources, a large percentage of which are in the MIS area.

2. The demand for new resources can be controlled by regulating the development of automated information systems. However, as shown in the summary of new resource requirements, many of the key projects in EAMIP require new, albeit moderate resources. As a consequence, the pace of implementation of EAMIP will depend on the extent to which resources are made available.

3. The schedule of new costs indicates the potential source of funding for each project which requires additional resources. After it is known what new costs can be accommodated in the DEA 1984-85 budget, a resource plan will be drawn up for the balance. The possibilities are the MYOP, the OCG Implementation Assistance Program fund, or a separate submission(s) to Treasury Board for EAMIP.

4.• Projects costs are as accurate as it is now possible to make them. For a number of projects, total costs can be known only after the first phase is completed. Project managers will be asked to revise the resource summary prior to commencement of the project, if there has been a significant change from the current estimate. As well, costs in total will be examined during the annual update of the EAMIP.

Reportables

5. At this early stage of the Program it is difficult to be definitive about the exact amount of reportables that will be achieved. In several projects, savings or benefits to the economy are identified but often feasibility studies or initial exploratory work is required at the front end of the project before firm estimates can be made. The following paragraphs highlight projects which are expected to result in reportables.

The Computer Assisted Immigration Processing System (CA1PS), initially being set up as a pilot project in Hong Kong, is expected to result in an <u>annual</u> net saving of $\frac{5293,000}{5293,000}$ beginning in 1985-86, for the Hong Kong post alone. This includes the predicted reduction of 2 FS positions and a reduction of 5 in the LES requirement. Implementation will proceed at other high volume posts, and <u>annual</u> savings are expected to be approximately <u>\$1 million</u> by 1989.

The Redesign of the Import Permits Issue System, by eliminating costly service bureau charges, is expected to save <u>\$250,000 annually beginning</u> <u>in July/Aug. 1985/86</u>. Improvements in the design of the Defence Imports Contract System will also result in savings in the range of <u>\$5-\$10,000 annually</u> beginning in 1985-86, or earlier, which is now expended on the correction of malfunctions or is attributable to the loss of the system for periods up to six months. The Review of Post Accounts Management is expected to result in savings, but a firm estimate is not available as yet. The project on Regionalization of Financial Services is also expected to result in savings, which are likely to be required for redeployment to higher priority activities. Review of Financing of Operations abroad may well result in important benefits in terms of total government involvement in the financing of government operations by the Department of Finance and cash management administration by the Receiver General. Rationalization of Publications should also effect savings through the elimination and or consolidation of publications. Rationalization of the Enquiry Service could result in some savings as well. Savings are expected from the Materiel Management System Feasibility Study and from the Improvement to the Import Quota Allocation System. In all of these projects estimates of savings cannot be made until preliminary work is underway. 31

There are other projects in the program which are representative of initiatives in the Department which are expected to be of direct benefit to the economy. International Generic Fish Promotion, through the investment of 28M over a five year period, is expected to result in a \$225 million annual increase to \$1.1 billion in exports by year five of the program. The New Thrust for Entrepreunial Immigration, at a conservative and very preliminary estimate, is expected to result in the creation of <u>6000 new jobs</u> with the attendant effects on the economy.

Exploration of increasing cost recovery in Consular Operations, to be looked at beginning in the fall of 1984, may well produce reportables. The Policy and Resource Review Model, being conducted on a portion of one region may effect savings in that region. If applied to other regions, further savings in DEA's operations abroad may be possible. Efforts will continue towards increasing the scope of svings and benefits to be derived from the implementation of EAMIP.

## F. RESPONSE TO CENTRAL AGENCIES

## F. RESPONSE TO OBSERVATIONS ON DEA BY CENTRAL AGENCIES AND PUBLIC ACCOUNTS

In the context of several of the projects in EAMIP, the Department will be undertaking work that will result in management improvements that respond to observations made by the central agencies and the Public Accounts Committee. The specific items dealt with in the following pages of this section are: The IMPAC Survey by the Office of the Comptroller General, The 1982 Report of the Auditor General, The OCG Validation of the EAMP Phase I and the Twenty-First Report of the Public Accounts Committee. The final pages detail how EAMIP projects are carrying forward the recommendations of the Report by the Task Force on Financial Management.

> 7 8

## EXTERNAL AFFAIRS MANAGEMENT IMPROVEMENT PROGRAM

## RESPONSE TO OBSERVATIONS BY CENTRAL AGENCIES

.

JRVEY REF.	OBSERVATIONS	EAMIP PROJ. NO.	DEPARTMENTAL RESPONSE	RESPONSIBILITY
1.1 to 4.5 Incl.	IMPAC SURVEY - AREA I PLANNING The first focus of the Impac Survey was on planning. Recommendations were made for major Improvements in all four aspects of planning.			• • •
1.1 to 1.5	Strategic Objectives and Plans: setting, priorizing, reviewing objectives; identifying alternatives plans, costs, and benefits; developing, reviewing, approving and and communicating objectives and plans; management of the function.	CCOI CCO2	Development of the OPF/Departmental Planning System - includes strategic operational and workplans; both post planning and planning in headquarters and the production of the Strategic Overview and MYOP documents.	CML CML/CMA
2.1 to 2.5	Long Term Operational Plans: same as above.	CC02	As above	CML/CMA
3.1 to 3.4	Current Year Operational Plans: as above and need for clarification of roles and responsibilities.	CC02 CC04	As above Reporting against plans - emphasis on operational information but close contact with Finance and Personnel to ensure overall improved reporting systems.	CML/CMA CMA
4.1 to 4.5	<u>Current Year Operational Budget:</u> establishment of responsibilities,	CC02/CC04	As above	CML/CMA
	documentation and communication, managerial commitment, establishing current year operating budget based on plans, review and approval.	CC03	Managing Resource Allocation - process and procedures for managing resources during the fiscal year in order to capture adjustment and reallocations.	CMA

C-3	Program Delivery and Operational Support <ul> <li>ensure that two components of the departmental mandate that have been traditionally under-emphasized relative to the policy role are given due attention.</li> </ul>		There are more than 70 projects that deai with a wide range of management and program deilvery issues in EAMIP. It should also be noted that the Sept., 1983 reorganization addressed many of these issues - geographic branches with program divisions, a Corporate Management Bureau with Corporate Planning, Operational and Resource Planning, Evaluation and the Senior Management Secretariat Divisions. The Administration Branch, as previously noted no longer contains immigration, Consular or Public Affairs.

## G. MANAGEMENT OF EAMIP

## EAMIP SECRETARIAT AND COMMITTEES

1. The EAMIP Secretariat is headed by the Coordinator of the Management Improvement Program (CCBM), who reports to the ADM, Policy Coordination (CCB). The Secretariat is responsible for preparation and revisions to the management improvement program, for coordination and monitoring project implementation, provision of assistance to project managers, as and when necessary, and conduct of selected projects. To carry out this work the Secretariat will have a staff of six.

2. The Coordinating Committee, chaired by CCBM, is a working level committee consisting of branch representatives whose responsibility it is to coordinate the EAMIP activities in their respective branches. The continuing requirement for this committee will be reviewed as work progresses on the program. On occasion, work groups or steering committees may be established to assist with projects which cross branch lines.

3. The Steering Committee, which has as its chairperson the ADM, Policy Coordination, includes in its membership one ADM each to represent the functional and geographic branches, the ADMs of Administration and Personnel, and representatives of the OCG, OAG, TBS and PCO. The Steering Committee provides guidance for the development and implementation of EAMIP. It reviews and recommends to Executive Committee approval of the initial program and subsequent amendments. The Steering Committee reviews quarterly progress reports on EAMIP, and forwards these to Executive Committee, as "B-Items", except where the specific attention of the latter is required. The Steering Committee will monitor the progress of selected key projects in detail, and will review the success of projects on completion.

#### REPORTING REQUIREMENTS

4. Reporting requirements will be kept to the minimum necessary to ensure adequate monitoring of the program. The emphasis will be on direct contact between EAMIP staff and project managers, rather than extensive documentation. Accordingly, reporting against individual project plans will be restricted to a quarterly basis, and the information requirement will be limited to achievement of milestones, estimated PY and dollar resource utilization, and a narrative analysis of variance and corrective action as necessary (see attached format). Where OCG funds have been applied to a project, more exact accounting of resource utilization will be necessary. A monitoring plan will be developed early in the 1984-85 fiscal year.

If there has been a significant change in circumstances since development of the project plan, project managers may need to update the steps and timing at the start of a project in order to provide an accurate base for reporting. On some projects, the steps and timing can themselves be expected to change during the course of implementation.

Quarterly summaries of progress will be provided to the Steering Committee and Executive Committee. These Committees may require additional information, on an exception basis, for projects that they are monitoring individually because of their complexity, sensitivity, or importance and project managers may be asked to make presentations to one or other of the Committees.

## AMENDMENTS, UPDATE, AND COMPLETION

**TAXA** 

5. New projects may be proposed, at any time, for approval by the Steering Committee. In addition, there will be an annual review and update of the program in total. This includes an anniversary meeting between the USSEA and the Comptroller General. A project completion report (see attached format) will be submitted to the Steering Committee on completion of each project. The process of producing that final report is based on full consultation among project officers and managers responsible for the project and the EAMIP staff. In some instances, where a project is of key interest to them, the OCG will review the outcome of the project from their perspective.

## G. MANAGEMENT OF EAMIP

## H. COMMUNICATION PLAN

## EAMIP PROJECT COMPLETION REPORT

## TITLE:

Inventory of Existing Systems CC12

#### **OBJECTIVE:**

To profile computer systems currently operational within DEA in order to create an inventory of all systems in the department.

## GUAL:

To make available a publication for distribution within the Department that describes the key features of these systems.

PLANNED DATE OF COMPLETION:		ACTUAL DATE OF COMPLETION:		
End	February 1984.	End February 1984.		
PLA	NNEL COSTS:	ACTUAL CUSTS:		
	1,000 0.1	Less than \$1,000 PY 0.1		

## DESCRIPTION OF THE WORK:

The contacts for the various systems were first identified. These people were interviewed and the profiles of systems were a result of the information obtained at these interviews. These individuals also reviewed the system descriptions. This project does not address a specific Central Agency comment but it does fill a specific information need in the department.

## PRODUCT RESULT(S) OF THE PROJECT:

A publication entitled "Current MIS/EDP systems within External Affairs" February 19, 1984.

WHERE AVAILABLE: MFSA

## ASSESSMENT OF SUCCESS:

Publication provides accurate basic information and the source for further information is identified. Both the objective and goal have been met.

## RECOMMENDATIONS/FOLLOW UP:

This publication be given to MFSC who should also have the responsibility for updating it as necessary.

#### H. COMMUNICATION PLAN

The activities outlined here form an initial EAMIP communications plan focused predominately on the period from January to March 31, 1984. The overall purpose of the communication plan is to build understanding and acceptance of the EAMIP and to clarify cross Branch or inter-departmental linkages and involvements.

Each of the following aspects of the communication plan is briefly described following the same pattern: participants, purpose, topics, medium, time-frame, responsibility. In all cases routine consultation will take place, as appropriate, throughout the year.

1.	Participants:	Assistant Deputy Ministers, selected Directors General.
	Purpose:	Initial discussions with senior contact person from the Office of the Comptroller General.
	Topics:	Draft EAMIP, issues or concerns; departmental expectations; OCG expectations; role of the OCG with the department.
	Medium:	Informal, small meetings.
	Time:	January/February
	Responsibility:	CCB, CCBM, OCG.

2. Participants: Geographic and Functional Branches - AMA's, Coordinating Committee representatives, Steering Committee representatives, geographic reference group members, individual project managers/officers as appropriate. Purpose: General information, if required; consultation on individual projects; follow-up on questions raised by Steering Committee, Executive Committee, OCG.

Message: Overall content of the EAMIP; linkages; additional information/explanation.

Medium: Briefings; individual meetings.

Time: January - March Responsibility: CCEM

3. Participants: Corporate managers (e.g. CMD, MFD, MRD, MMD, MGD, CPD, ABD, APO, ADD, etc), as appropriate. Purpose: Shared information; interdependence of projects; implications of project implementation. Message: Project linkages; coordination requirements; individual responsibilities and input to other projects. Medium: Individual or small group meetings. Time: January - March Responsibility: CCEM

97.

4.	Participants: Purpose: Message:	Representatives of the OCG. Initial review and consultation on Draft EAMIP. Content and rationale of program; strengths, weaknesses; next steps; areas for concentration, key projects; time-frames; resources.
	Medium:	Individual and group briefings and discussions.
	Timing:	January - February CCB, CCEM; other corporate managers as necessary;
	Responsibility:	OCG representatives.
5.	Participants:	Treasury Board, Auditor General, Privy Council Office; as required. Other items as in 4 above.
6.	Participants:	Other Government Departments e.g. CIDA, DRIE, IMPAC groups.
	Purpose:	Initiate contact on FAMIP; identify project linkages.
	Message:	Overview of EAMIP; review of specific projects as appropriate.
	Medium:	Letters; meetings.
•	Timing:	March - June
	Responsibility:	CCBM to initiate; other DEA managers as appropriate; CCG representatives, as appropriate.
7.	Participants:	Posts
	Purpose:	General Information on EAMIP; projects that impact on posts; projects that posts have suggested/proposed and are not yet included or fully explored.
	Message:	Overall content of EAMIP; projects for posts; Branch and Post Management etc.
	Medium:	Circular telex; Summary in Diplomatic Bag; HOP meetings as feasible; selected posts as deemed useful in discussion with geographic Branches.
	Timing:	January to March; during 84-85.
	Responsibility:	CCB, CCBM; geographic ADM's and managers.

98.

Following final approval of EAMIP and early in the new fiscal year the communications plan will be reexamined for additions, deletions or more definite commitments.
