A Word About Educator Boots and Real Foot Comfort for Men

The Educator Way is Nature's Way

Many of the ills and discomforts of mankind are due to the violation or ignorance of nature's law, and this is particularly true in regard to the feet—those much-used and much-abused extremities. If you would avoid or allay foot troubles, wear Educator Shoes. Educator Shoes are so made that the foot rests naturally, without cramping of the toes or bones of the foot. In walking or standing, the foot is in a natural position, and so foot comfort is assured.

Take a Tracing of Your Sole

Spread a piece of paper on the floor and run a pencil around your unshod foot pressed upon it. Then place over the tracing one of the boots you are wearing. This little test will show you whether or not you are giving your feet a fair opportunity to perform their supremely important functions in comfort and health.

A FIRST-AID FOR ABUSED FEET IS TO BE FOUND IN THE FAMOUS RICE and HUTCHINS' EDUCATOR SHOE.

A contrast in bone positions, which means everything to the working efficiency of the foot, is shown in the accompanying cut of a foot in the average boot, and of another that enjoys the natural freedom and comfort of an Educator.

We carry a full line of Educator shoes in stock. Come in and find out what real comfort means.

SOCIAL SERVICE AS IT SHOULD BE. Miss Cartwright Addresses Downtown Church Workers on Reforms. The quarterly meeting of the Downtown Church Workers' Association of the Church of England was held yesterday afternoon in St. Luke's Hall, corner St. Joseph and St. Vincent streets. Miss Amy Wright, first vice-president, in the chair. An address on "Social Service" was given by Miss Cartwright, in which she dealt with the many phases of the educational system, which, tho it may have many things to be proud of, allows girls and boys of fifteen and sixteen to grow up without being able to read or write. While experts are required for various lines of service, the speaker advised that people avoid evading ser-

of reconstruction is to see that every boy and girl gets the very best chance. Ignorance. "Thru ignorance, dirt, sensuality and other causes there is a great waste of boy and girl life," said Miss Cartwright. Speaking more particularly of girls, the speaker told her audience that other girls were very much as theirs; the girls in the factory and office had very much the same likings and the same temptations. The desire inherent in all young people for recreation was one that ought to be met by seeing that recreation is had under desirable conditions. In conclusion, the speaker reminded her audience that anything that ministers to the life of the people should be the work of the churches. An appeal for various articles of furniture needed for "Moorelands," the summer home of the association, was made by Mrs. T. H. Yeoman, convener, who also suggested the appointment of an instructor in physical culture to live with Miss H. D. McCollom, directress of the association, and to receive a salary of about \$300 a year. Mrs. Yeoman asked the assistance of the members in raising the salary if the plan were carried out. Miss McCollom told of the relief work done during the epidemic of influenza. The making of 88 garments was reported. Over 1,000 calls had been made during the quarter, and the appointment of a paid worker at each of the five downtown churches. The treasurer, Miss H. Sheppard, re-

ported three months' receipts, \$1,431.95; disbursements, \$856.47. CITY TREASURER FOR EDUCATION BOARD. Dr. John Hunter has placed a notice of motion on the board of education order paper that the terms chief inspector and inspectors be abolished and the terms superintendent and assistant superintendents be substituted. Dr. Hunter has also given notice that he will move at the first meeting of the committee in March for application for legislation to appoint the city treasurer to a seat on the finance committee of the board of education, with all the rights and privileges of advising and voting on all financial problems. VETERAN CONDUCTOR DIES. George Mitchell Lawrence, age 87, one of the oldest railroad men in Canada, died at his home, 14 Euclid avenue, on Monday, from old age. He had been in the employ of the Canadian Railways for 59 years. Mr. Lawrence came to Toronto when he was 18 years old, and has lived here ever since. He was a member of the A. O. F., and is survived by two sons, George of Allandale, and Alfred of Toronto; and one daughter, Mrs. W. Searlett of Malton.

NINE COUNCILS ACCEPT GRANT. Provincial Housing Scheme Still Under Consideration by Most Municipalities. Several municipalities of the province have signified their intention of taking advantage of the provincial government's housing scheme and there is but little doubt that they will avail themselves of government aid in a fairly large way in providing cheap houses for workmen. They are the following: Windsor, Sudbury, Ottawa, New Toronto, Kitchener, Sault Ste. Marie, St. Catharines, Collingwood, Fort Credit and Leaside. In addition a large number of other places have given the matter careful consideration, but have not gone so far as to declare their intention. They include Oshawa, Orillia, Galt, Ford City, Paris, Westboro', Weston, Scarboro Township, Niagara Falls, Listowel, Strathroy, Sarnia, Etobicoke, London, Fort Erie, Welland, York Township, Dundas, Lindsay, Waikerville, Sandwich, Barton Township, Charlton and Neelburg Township. According to the housing plan, the

government will advance loans to be used in the erection of a type of construction which shall not exceed \$2,500, or a total value of land and building of \$3,000, thereby limiting the maximum value of the land to \$500. "The desire of the government," said Sir William Hearst, yesterday, "is to make the scheme elastic enough to meet all cases as far as possible. Of course, we cannot allow the construction of such expensive properties as to destroy the scheme we have in view, of providing cheap homes for workmen." It was pointed out that if the plan were strictly adhered to and the maximum value of land placed at \$500, the workman would be forced to the outskirts of the city, where he could produce land within the value set by the government. Sir William replied that this matter had received consideration, and a simple and effective method would be provided for the expropriation of land where necessary. TEACHER FOR SANITARIUM. Hon. Dr. Cody has given authority to the board of education to appoint a school teacher for the Queen Mary Hospital at Weston, for tubercular children. As the school is not in the Toronto city limits special legislation will be required to legalize it, but this has been promised by the Ontario Department of Education. Dr. J. L. Hughes has conducted the negotiations on behalf of the hospital board.

BELL RATES HIT BOARD OF TRADE. The board of trade yesterday considered the question of opposing the application of the Bell Telephone Company for an increase of rates, and heard the views of the city representative, which seemed to show that even at present cost of operating there was a great deal to be said in opposition to the increase. The increase seems to hit the citizens of Toronto and members of the board of trade, who are all large users of telephones, so hard that the board decided to send its legal adviser (A. C. McMaster) and its traffic manager (Thomas Marshall) to Ottawa to represent the board on the investigation. BUILDING PERMITS. Taylor Brothers have received permission from the city architect's department for the erection of a garage on the east side of Yonge street, near Pleasant boulevard, at a cost of \$9,000. E. Mackenzie will alter No. 122 Jameson avenue into a two-family apartment house. The cost is estimated at \$2,500. L. White and Sons have received a permit for alterations and additions to their factory at 185 St. Patrick street, at a cost of \$8,000. A permit has been issued for alterations and additions to the Colonial Theatre, Queen street, near Bay, at a cost of \$8,000.

RESOLVED TO EMPLOY ONLY BRITISH BLOOD. "That this board of control hereby requests all manufacturers and other employers of labor in Toronto to dispense with the services of aliens and to employ in their places returned soldiers or persons of British birth." Such was the resolution that the board of control unanimously adopted yesterday on the motion of Controller McBride. It was passed practically without any comment. Controller McBride said that he heard that some factories had turned away returned soldiers and within five minutes had taken on foreigners. "This sort of thing must be stopped," he said. ENTERTAINED THE CHILDREN. Loyal Northern Lodge, No. 9252, Manchester Unity, held their first children's Christmas tree at Orange Hall on Wednesday evening. Almost 100 children were present with their mothers. An excellent tea was provided during the afternoon, and during the evening Santa Claus himself presented the little ones with the most delightful gifts. Games finished the day's festivities. Pearson Hall has been enriched by the presentation of the instruments for a full orchestra, Canadian Ensign Chapter, I.O.D.E., being the donor.

### SIR ADAM REFTES HOLT STATEMENTS

#### Montreal Rates for Commercial Lighting Nearly Treble Toronto Prices.

Sir Adam Beck, chairman of the Hydro-Electric Power Commission, issued a statement yesterday denying the charge recently made by Sir Herbert Holt that the Montreal Light, Heat and Power Co., of which he was the head, was supplying power cheaper than the Hydro-Electric Companies operating as functions of the government.

"Sir Herbert Holt compares the product of a wholesale company to that of a retail company," said Sir Adam. "The Montreal rates for domestic consumption are 92 per cent. higher than those of Toronto, and for commercial service, store-lighting for example, the rates are 157 per cent. higher in Montreal than in Toronto."

"Taking a number of actual bills over the year for a large number of consumers using between 200 and 500 horsepower under contract, the rates are over 53 per cent. higher in Montreal than in Toronto."

"Sir Herbert Holt refers to street lighting. The method of comparison is misleading. It is not a fair method of comparison because the Montreal candle powers of different types of lamps bear no relation to one another. He compares Montreal's more or less obsolete arc system with Toronto's more up to date tungsten system of lamps. Toronto has 10 times more light on the street than Montreal, and twice the volume of light is better distributed and Montreal's rates are 40 per cent. higher for this lighting than Toronto's."

"In reference to the supply of power to the waterworks system in Montreal the waterworks power Montreal's total cost 150 per cent. more in Montreal than it would cost for the same services in Toronto."

"Sir Herbert Holt, in a speech in Montreal, said that although the Montreal Light, Heat and Power Company 'have not got the best of the governments, and have to pay enormous taxes to five provincial and federal governments, amounting to upwards of \$600,000, they have nevertheless been able to sell power considerably cheaper than the Hydro-Electric companies operating as functions of the government.'"

### GREEK MEETS GREEK IN POWER ACTION

Involving an amount of more than \$125,000 an action was commenced yesterday in Osgoode Hall, by the Toronto Power Co., and the Ontario Power Co., (a subsidiary of the Hydro-Electric) before Justice Macdougall, for the recovery of the money which is now being taken care of by the court. The action is a result of an order by the power controller in directing the Toronto Power Co. to supply energy to the Ontario Power Co. to be used principally for the street lighting at the end of each month of the agreement, the Toronto Power Co. submitted for payment. The Ontario Power Co. refused to pay the bills claiming that they were exorbitant. Thereupon the Toronto Power Co. threatened to cut off the supply, and the Ontario Power Co. secured an injunction preventing them from doing this, and the supply of electricity was paid in full. However, the amount in dispute was, however, paid into court for the decision of the court in the case.

The counsel for the litigants are L. F. Hellmuth, K.C., and Geo. H. Kilmer, K.C., assisted by F. A. Gaby, chief engineer of the Hydro for the defendants, and Robert McKay, K.C., appeared for the plaintiffs, assisted by R. J. Fleming, and Chief Engineer F. G. Clarke.

### Sold Horse After Twenty-One Years of Faithful Service

Street Commissioner Wilson is very much annoyed at the action of the property department in selling a horse which, after it has served 21 years in his department, had been turned over to the property commissioner for light work on the jail farm. It seems that Major Morrison of the jail farm disposed of the animal after its arrival at the farm and sent it Toronto to be sold.

Commissioner Wilson when he heard that the horse was to be sold tried to get the selling agency to stop the sale, but he was too late. "I would rather have taken the animal to Harris' and knocked him on the head than have him treated that way after the animal had been so long in my service to the department."

### LIGHTS ON ALL VEHICLES.

A large deputation of motor car owners waited on the board of control yesterday with the request that a by-law be passed to the effect that all vehicles using the streets at night should be compelled to carry a light which could be seen from behind and in front.

T. N. Phelan, representing the Motor League, stated that such a by-law would be quite legal. The Retail Merchants' Association is now supporting the Motor League in their attempt to get this law through. E. C. Symington represented the Carters' Association. He claimed that no test had been made of lights on heavy wagons, and claimed that the lights above the ground line on board decided to lay the matter over for two weeks, pending a test of lights on wagons.

### ALD. COWAN'S NEPHEW DEAD.

Mrs. William Cowan, 51 Foxley street, was notified from Ottawa yesterday that her son, Pte. J. A. A. Cowan, No. 164645, died of pneumonia in the general hospital, Kinross Park, England, on the 27th. Pte. Cowan went over with the 54th Regiment, and was transferred later to the Railway Construction Corps, and expected to return to Toronto early in February. Pte. Cowan was a nephew of Ald. J. A. Cowan.

### BOARD OF CONTROL OPPOSE TERMINALS PLAN

The city will probably appeal the decision of the Dominion Railway Commission granting the application of the Toronto Terminals Railway Commission for the right to lease 300,000 sq. ft. of land on the east side of Scott street, to the new union station. I. S. Fairly stated yesterday that a board of control, composed of members opposing the application of the company.

### SCHOOL ESTIMATES AGGREGATE HIGHER

Public school estimates for supplies, which will be dealt with at the meeting of the board of education next Thursday, aggregate \$310,616 for the present year. Last year they totaled \$300,722. The big item for supplies relates to fuel, for which \$150,000 is asked, an increase of \$5,000. The high school estimates for supplies call for \$45,500, an increase of \$1,800.

### MORE BRITISH GOODS PLACED ON FREE LIST

#### Wide Range of Manufactured Articles Require No Export License.

The British trade commissioners in Canada, G. T. Milne at Montreal and F. W. Field at Toronto, have received cable advices from the department of overseas trade, development and intelligence, that the following wide range of British manufactures have been placed on the free list and now require no export license:

Artists' materials, athletic goods, bicycles, but not tires; bicycle accessories (various), buttons, except military, horn and vegetable ivory; cigar cases (unwaxed); musical instruments, ware, china clay, clocks, cutlery, drugs (various), fancy goods of paper, ivory, leather, etc., films subject to censorship, flower seeds, fountain pens, furs (dress, dyed or manufactured), glassware, hardware (iron and steel), building, hats, household effects of wood, iron or steel, jewelry (imitation or pearl), laces, laundry machinery, ledgers, marble, mineral water, musical instruments, pictures, paintings, phonographs, photographic materials (not chemical), razors (safety and blades), ribbons (silk), spectacles, sewing machines, wall paper.

Lists of goods for which export licenses are still required for shipment from the United Kingdom will shortly be in the hands of the British trade commissioners noted above. They will also be advised weekly by cable by their department in London of the goods removed from such list and the alterations thereto.

The British trade commissioners will be glad to take up these matters with local importers and others interested. The following are some of the principal commodities for which licenses are still required: Abrasives, agricultural machinery, cement, chemicals (various), coal and coke, oils, pipes (cast iron), packing (various), paper, resins, coal tar products, copper (wrought and cast), wrought, including wire, alloys, dyes, foodstuffs, food for live stock, glue, iron and steel, iron pipes, iron structural material, machinery, textile yarns, fibers and waste, tin plates, wire material, wire rope, wood and timber.

The prohibition of the exportation of raw materials does not extend to goods manufactured from such materials.

### DEWSON SCHOOL IS UNFIT FOR CATTLE

#### Dr. Noble Says Compulsory Attendance Involves Compulsory Sanitation.

Public school estimates for the coming year totaling \$197,200 for repairs and equipment supplies, an increase of \$600. Furniture and repairs, \$2,500, no increase.

A report was ordered from the inspectors upon the need for artificial light in any class rooms in school buildings in their respective districts. This was in consequence of a request from Brock School for artificial light in some of the class rooms in that building.

Dr. John Noble, chairman, protested against a basement in Earl Grey School being fitted up for a primary class. If we compel children to go to school, we should provide sanitary rooms, said Dr. Noble.

One of the trustees declared that Dewson School was worse. It wasn't fit for cattle.

Reached a Pass. Dr. Noble: "The overcrowding of little children into basements has reached such a pass that a straight half-day session should be adopted or the children be left at home until the parents have taken to the city hall and secured the necessary money for sanitary buildings from the city council."

Trustee Douglas: "A modern basement is an unhealthy place, impossible in which to place children." Superintendent Bishop explained that the Earl Grey basement was two-thirds above the ground line and undertook to take special precautions to render it as sanitary as possible. Its equipment was authorized. Trustees Noble and Laxton voting against it.

### ALLEN THEATRE AWARDS ANNOUNCED

#### Prizes Given for Answers to "What is Greatest Thing in Life?"

#### THOUSAND ENTRIES

#### First Prize of Ten Dollars Goes to W. McIlroy for Poem.

Announcement was made this week of the results of the competition held by the Allen Theatre, when the question, "What is the Greatest Thing in Life?" was asked of the Toronto public.

Considerable interest was aroused in this unique contest; more than one thousand manuscripts were received and it was with great difficulty that the judges were able to select the three best answers. The question, "What is the Greatest Thing in Life?" was asked of the Toronto public.

After much deliberation the poem submitted by W. McIlroy, 122 Pacific avenue, was awarded the first prize of \$10 in gold. Mr. McIlroy's poem is as follows:

What is the greatest thing in life in this great world of ours? Is it gold or jewels, greed or gain, Envy or lust of power?

The clash of arms, the boom of guns, The world of power may be won, The cowardly act, dishonorable things, Committed by the Hun?

Is it charity, that splendid gift, Spread thruout the world To help the suffering, needy men, Where the allied flags unfurled?

Or is it hope that in future days The world may be at rest? No more pain and no more wars, Each nation doing its best?

To preserve a perfect freedom For all on land and sea, So we say with one accord 'Tis a world of liberty?

But the greatest thing of all of these Bestowed from God above Is scattered wide from pole to pole, And the name of it is love.

The love of little children, The love of man for wife, The love of God and country Is "The Greatest Thing in Life."

The second prize is awarded to Mr. M. Pope for his essay on the Great-est Thing in Life—Love, and Richard Spiers receives the third prize.

E. Kinsmill Morgan, George W. Meind, R. M. Jackson, J. M. King and J. W. Winfield Smith submitted excellent articles, which received honorable mention from the judges.

### MEDICINE AND LAW ATTEND FUNERAL

#### Dr. R. A. Reeve, Late Dean of Faculty, is Laid to Rest.

The funeral of the late Dr. R. A. Reeve, late dean of the faculty of medicine, who expired suddenly on Monday night, was held yesterday afternoon. A large crowd of sorrowing friends and relatives attended the special service in Convocation Hall to pay the last tribute of respect to one who had endeared himself to the hearts of all with whom he came in contact. The service was conducted by Chancellor Bowles, Rev. E. B. Laney, and Hon. Dr. H. J. Cody, after which interment was made in Mount Pleasant cemetery. The legal and medical professions were well represented and among those present were: Hon. Dr. H. J. Cody, minister of education, representing the government; Col. ### WILLS AND BEQUESTS.

John Valdemar Faber, consul-general to Great Britain for Denmark, who died in London on Dec. 15, 1917, left an estate valued at \$420,510. In the will, which was filed for ancillary probate yesterday, he requested in part:

"I desire that my remains be cremated and that my ashes may be scattered to the winds and this without any religious service said over them. I desire that the oil painting representing myself as Danish consul at Newcastle-on-Tyne shall be destroyed as soon as possible after my death."

The entire estate of Miss Zelma Bogart, a teacher in Carlton School, valued at \$6,914, will be inherited by a sister, Grace Bogart.

Mrs. Isabel Tucker, a sister, will inherit the entire estate of Edward C. Bishop, an engine driver, who died Jan. 8, leaving an estate valued at \$1,088. She is requested to adopt his daughter, Doris.

### SOLD STOLEN MEAT.

Fred Rooney, who was arrested Wednesday afternoon on a charge of theft by Painsclothesmen Forbes and Dunn, was sentenced to fifteen days imprisonment at the jail farm by Magistrate Denison in yesterday's police court for selling meat which he had stolen from the Armour Packing Company.

Having in their possession revolvers and a flashlight, Harold Stator, Frank Castle and George Harrison, three young men, were arrested on Wednesday evening by Painsclothesmen Waterhouse and McMahon on a charge of vagrancy. The officers found them in the rear of Score's clothing store, 77 West King street. In the chase which followed Stator and Castle were arrested and Harrison was afterwards apprehended. They were remanded in yesterday's police court until Feb. 6.

Arrested by P.C. Copeland with two cases of wine in his possession which were alleged to have been stolen from a cellar at 61 Admiral road, J. L. Thomas was sentenced to five months imprisonment by Col. Denison.

# Hockey League Scores

## OTTAWA IS AGAIN OVERTIME VICTOR

### This Time Canadians Are on the Short End of Count.

Ottawa, Jan. 30.—One of the most sensational hockey struggles that have ever taken place in the capital was played at the Arena tonight in the presence of a crowd that packed the Laurier avenue rink to the rafters. Ottawa and Canadians, bitter rivals in the race for the championship of the National Hockey League, again were the contestants, and the result was a victory for the Ottawas by a score of 3 goals to 2. For the second time within three nights the Ottawas were forced to play overtime. The big struggle did not end until sixteen and one-half minutes of overtime had been played, until the spectators were standing on their toes pleading that their favorites would score, and until the majority of the players were on the point of exhaustion. And the honor of netting the winning goal went to Ottawa, who had already made himself famous by scoring the deciding point in the Ottawa-Toronto grid at the Queen City Arena just two nights before.

At the end of the game, as in the previous contest at Toronto, with starting suddenness. The time clock showed that fifteen minutes had been played, and it looked as if the match would be called off. This would have been necessary had the teams played out the second ten minutes of the overtime. With fifteen minutes of the overtime gone, Joe Hall made a rush and plunged in on Goalkeeper Benedict, striking the Ottawa net squarely across the head. It was a glaring foul, but it might have won the game, and Hall was immediately banished for a major foul, leaving the Canadians one man short. Ottawa immediately assumed the aggressive and just as some of the spectators were preparing to leave, believing that the match had ended in a draw, Frank Nighbor, who had been recuperating in the dressing room, and who appeared from behind the goal, scored a loose puck about three-quarters of the way down the room and began the pivot attack, with Cameron on his right and Cleghorn on his left.

Nighbor worked perfectly, dodging Lalonde and flipping the puck, when he reached Corbeil, across to Cameron, after taking a pass to Cleghorn. Cameron took it perfectly, swerved slightly to his left and then kicked the puck, which landed in the twine behind Vezina, while Lalonde, who had been rushing the big amphitheatre, broke loose within a few minutes of the start of the overtime. He was in the net, while the thrilling, it lacked the terrific speed that was shown earlier in the match. The Ottawas were without Hal and Coutu, the latter being ill at Montreal.

It was in the first period that the Ottawas were victorious. In the second it was 1-0 when the Ottawas scored the second in favor of Canadians.

Ottawa's attack was led by Cleghorn in this session and scored two beautiful goals, both of which fell to Jack McKeown.

Ottawa essayed a defensive game in the third, but Canadian batsmen made a terrific bombardment, and after three minutes play, Odie Cleghorn snapped in one that hit the inside of the bar. It was allowed, tying the score. The teams then struggled without change. Full time was called with the score 2-2, and it looked anybody's game. The teams were separated by a whistle, and immediately changed over and resumed play. Cleghorn and Sprague Cleghorn all had chances, and in the latter part of the match for Ottawa when he skated in and checked Odie Cleghorn as the latter was about to shoot. Vezina saved the shot and saved it several times.

In the first overtime game, Joe Hall drew a penalty for slugging Sprague Cleghorn, who defended himself with a couple of beautiful shots, and the Ottawa batsman retreated, Hall was banished. The first ten minutes ended without any scoring, but the Ottawas changed over again. Both teams had chances, and Eddie Gerard was forced to drop off, following which Cy Denneny tripped, but failed, and Nighbor, who had limped off with an injured side, consented to go back.

Hall then attacked Benedict, and was given a match foul, leaving Canadians one man short.

It was thrilling hockey, and when Nighbor finally broke away on a beautiful three-man rush and transferred the disc to Cameron, who scored, the crowd became hysterical. Vezina just missed the shot by an inch. The line-up and summary:

## LAMBTON LOOKS FOR ACTIVE GOLF SEASON

### Officers Elected and Arrangements Started for Matches, Including Championships.

The directors of the Lambton Golf and Country Club have elected the following officers, and committees for the ensuing season, and arrangements for matches, including championships.

President, C. H. Willson; vice-president, C. L. Wisner; captain, Geo. S. Lyon; vice-captain, L. Robinson; executive committee, R. J. Dilworth, chairman; H. H. Williams, T. A. Brown; house committee, T. A. Brown, chairman; W. Gale, J. A. Fraser; greens committee, C. W. Wisner; chairman, H. M. Wetherald, H. H. Williams.

It is anticipated that the coming season will be a very active one. Arrangements are being made to play a number of inter-club matches, and preparations are under way to put the course into the best possible shape. The amateur Canadian championship will also be played off at Lambton, in the latter part of June, and in September the tournament of the Senior Golfers' Association will be held there.

## VANCOUVER COMES BACK

Seattle, Jan. 30.—Frank Patrick's Vancouver puck chasers shot the hoodoo and returned to the top of the Metropolitan standings last night after four unsuccessful attempts to humble the league leaders. After three games the team was just as close as the score indicated. After the opening of Prince Hal and from behind and tied the count in the final period. Barney Stanley hooked a pass from Mickey Mackay shot over the winning tally, just twenty seconds before time was called.

The finish was of the sensational order and Seattle's great come back after being outplayed for two frames, had the fans howling with joy. The locals seemed to be in a fair way to register the winning point, when the visiting wing man banged one past Goalie Holmes.

## OLD TROTTER IS SUCCESSFULLY DESTROYED

Chicago, Jan. 30.—Hal Excell, 15-year-old trotter, which won purses and fame in his racing days, was destroyed by the police today and killed by his owner, "Old Black Joe" Murphy, himself widely known in racing circles years ago. The horse was the offspring of Prince Hal and Eva N., and had been raised by Murphy, who said the horse had become so weak that he considered its destruction merciful. Murphy, a negro, started as a jockey more than 45 years ago, and when he grew too heavy to ride thoroughbreds, turned the trotting turf as an owner and trainer.

## Light Practice for Parkdale Juniors

Parkdale took on Brampton in a junior game at the Arena last night, and it was just a light workout for Parkdale in preparation for their game with Aura Lee. The final score was 23 to 2, and Brampton failed to bulge the net until the final period. The first period score was 11 to 0, and Parkdale added seven in the second session.

Parkdale practiced their passing all thru the fixture. McCurry and Green teamed up in nice style, and big Sprung took a hand in the practice. Brampton were slow and showed that they knew nothing about combination. Green gathered ten goals and McCurry six.

## TRYING A PLAYER FOR THROWING BALL GAME

### Evidence All in For and Against Hal Chase—Decision in Two Weeks.

New York, Jan. 30.—No decision will be given for probably two weeks in the case of Hal Chase, Cincinnati first-baseman, charged by officials of that club with attempting to influence the results of a game by throwing a ball into the crowd during the close of a five-hour trial at National League headquarters.

Declaring that voluminous notes of evidence would not be in proper form before Monday, Mr. Heydler said: "I have taken the case under advisement, and intend to give it the most careful and thorough consideration possible. I will announce my findings as soon as possible."

The charges made against Chase are brought under Section 40 of the constitution of the National League, which reads as follows:

## U.T.S. TEAM LOSSES GAMES: SULLIVAN IS OVER AGE

J. O. Carlisle, hon. coach of the University Schools hockey team, has notified the O.H.A. that they have discovered that Frank Sullivan of their team is over the legal age for Junior O.H.A. hockey, and that, therefore, all games in which he participated are voided.

The mistake arose, Mr. Carlisle says, thru confusion between his baptismal certificate, which showed his age as 19, and his certificate of high school graduation, which showed him to be a year older. He was registered with the School, and the army on his baptismal certificate.

Mr. Carlisle says the U.T.S. faculty and he himself were entirely ignorant of the fact that Sullivan was over age, and regrets exceedingly that such a thing should occur. He asks the O.H.A. executive to take the matter up with the clubs concerned and make a ruling on the question.

## TRYING A PLAYER FOR THROWING BALL GAME

### Evidence All in For and Against Hal Chase—Decision in Two Weeks.

New York, Jan. 30.—No decision will be given for probably two weeks in the case of Hal Chase, Cincinnati first-baseman, charged by officials of that club with attempting to influence the results of a game by throwing a ball into the crowd during the close of a five-hour trial at National League headquarters.

Declaring that voluminous notes of evidence would not be in proper form before Monday, Mr. Heydler said: "I have taken the case under advisement, and intend to give it the most careful and thorough consideration possible. I will announce my findings as soon as possible."

The charges made against Chase are brought under Section 40 of the constitution of the National League, which reads as follows:

## WATER POLO

In the West End Y.M.C.A. Water Polo League, two very exciting games took place last night when the High Parks and the Ironsides were victorious. Both teams showing good team-work and excellent combination.

The High Parks defeated the Dolphins by a score of 8-0, the Dolphins were greatly handicapped by not having their regular goalkeeper.

## U.T.S. TEAM LOSSES GAMES: SULLIVAN IS OVER AGE

J. O. Carlisle, hon. coach of the University Schools hockey team, has notified the O.H.A. that they have discovered that Frank Sullivan of their team is over the legal age for Junior O.H.A. hockey, and that, therefore, all games in which he participated are voided.

The mistake arose, Mr. Carlisle says, thru confusion between his baptismal certificate, which showed his age as 19, and his certificate of high school graduation, which showed him to be a year older. He was registered with the School, and the army on his baptismal certificate.

## PHYSICAL DIRECTORS' MEETING

An exceedingly good paper was delivered by Mr. Hodgson of the East Riverdale Recreation Centre before the Toronto Physical Education Society, at their weekly meeting at Broadview Y.M.C.A. on Tuesday morning, the title being, "As a Leader, What I Expect From My Physical Directors, and as a Physical Director, What I Expect From a Leader."

The Story of the World's Greatest Gold Mine

"Talk is cheap." This is a trite but true remark. We often hear it said that this or that thing is the best in the world, but the world is a rather roomy place when we pass beyond our own limited horizon.

Now what are the bottom facts as to the Hollinger Consolidated when compared with other great gold mines? Fortunately in this connection there is the analysis of T. A. Rickard, E.M., editor of The Mining and Scientific Press, San Francisco, and a very competent authority.

The N. M., as we will call it, began development in 1886, production in 1892, and dividends in 1906. In 1915 its total output was \$39,745,076, and dividends \$12,247,250.

Among the criteria of the value of any mine is the ratio of profit to production. The \$9,178,000 of the H. C. is a higher percentage of the output than the \$12,247,250 of the N. M.

At 25 cents per share for the Sovereign Porcupine Gold Mines you are really getting into the cellar by the front door. Before the reports of the Bureau of Mines were published, and therefore before the merits of the coarse-grained lava were fully known, the owners of the three parcels now held by the "Sovereign" sold them for 300,000 shares out of the total of 1,000,000.

That is what the Old-Fashioned Executor often had to do. To appoint a friend as executor used to be risky. Many estates suffered from unavoidable neglect by their executors. Nowadays to appoint an individual is also unfair. Telegraphs, telephones, railways and postal facilities have served only to increase the scope of a man's own business and its pressure upon his time. Advertisement for The Associated Goldfields Mining Co. 'The Story of the World's Greatest Gold Mine'. 'Talk is cheap." This is a trite but true remark. We often hear it said that this or that thing is the best in the world, but the world is a rather roomy place when we pass beyond our own limited horizon. Fortunately in the case of the relative merits of different gold mines all the facts and figures as to production and distribution of profits have been fully ascertained and tabulated. We have available the records of all the gold mines working in any part of the world. Now what are the bottom facts as to the Hollinger Consolidated when compared with other great gold mines? Fortunately in this connection there is the analysis of T. A. Rickard, E.M., editor of The Mining and Scientific Press, San Francisco, and a very competent authority. In 1915 Mr. Rickard reviewed the performance of all the big gold mines of the world, outside of Canada, and, having regard to large ore reserves and potential future profits and production, he placed the new Modderfontein in the Rank at the head of the list. The Hollinger Consolidated had not then attracted any attention. The N. M., as we will call it, began development in 1886, production in 1892, and dividends in 1906. In 1915 its total output was \$39,745,076, and dividends \$12,247,250. This came from 4,816,680 tons of ore, having a gold content of \$8.25 per ton. Thus it will be seen that development required six years at the N. M., but no dividends were paid for 14 years thereafter, and the figures we have given for 1915 refer to a period of 29 years after development began. On the 30th of June, 1916, there were in sight in the N. M. 8,013,370 tons of ore, having a value of \$66,111,402. On the 1st of January, 1918, the H. C. had blocked out 440,231,435 in gold. This was 8 years after development began, whereas the \$66,111,402 of the N. M. required a period of 30 years, and surely the total production of \$25,978,383 and dividends of \$9,178,000 in nine years by the H. C. are better than the corresponding items representing the record of the new Modderfontein in 29 years. And, besides, the war seriously handicapped the H. C. for nearly half of the total period of production, whereas its effect was slight prior to the 30th of June, 1916, when the last estimate of ore reserves in the N. M. was made. Among the criteria of the value of any mine is the ratio of profit to production. The \$9,178,000 of the H. C. is a higher percentage of the output than the \$12,247,250 of the N. M. Indeed it seems that if the war had not intervened the dividends of the H. C. in nine years would have been fully equal to those of the N. M. in twenty-nine years. And in indicated ore there is really no comparison between the erstwhile world-leader of the dark continent and the present Canadian challenger. Mr. Rickard himself would be the first to admit the accuracy of this deduction. "In the Rand there is only a single reef," with a number of leaders or feeders all beginning nearly 5000 feet below the surface. The H. C. has 78 veins, 40 of which are entirely undeveloped. Canadians may well be proud of the wonderful progress of the golden north. But as yet we have seen only the beginning. At 25 cents per share for the Sovereign Porcupine Gold Mines you are really getting into the cellar by the front door. Before the reports of the Bureau of Mines were published, and therefore before the merits of the coarse-grained lava were fully known, the owners of the three parcels now held by the "Sovereign" sold them for 300,000 shares out of the total of 1,000,000. The ordinary deal in such cases is a 50-50 one. This is 30-70, and you have the big end. But we are not shedding tears for the former owners. The fact that the properties are now worth three times more than they considered them at the time, will not prevent a rise in their shares as this great gold-bearing volcanic flow is opened up. A similar lava flow is of great importance to the shareholders of the Hollinger, as stated in their 5th report, and the former owners of the "Sovereign" will receive for their shares more than they ever dreamed. A great discovery of mineral is one of those turns in the wheel of fortune which confer benefit on all concerned, without injury to any one anywhere. Think over our proposition. It will be available only for a very short time. For Maps and Other Particulars Write F. C. SUTHERLAND & CO. Members Standard Stock Exchange. Phone Main 6204—Dinnick Building, Toronto.
