

REFUGEES' CRIES FOR FOOD MET BY TURKISH LASH

American Woman Relief Worker Tells of Conditions in Smyrna

Real Story Not Told—Fate of Several Hundred Thousand Christians in Interior is in Hands of Providence.

Constantinople, Oct. 5.—The cries of the Christian refugees of Smyrna for water and food are met by a Turkish lash, said Dr. Esther Lovjoy, of New York, president of the American Women's Hospital, who has just returned here after a week's survey in the stricken city.

"There are still several hundred thousand Christians in Smyrna and the interior, whose lives are in peril, for the three limits of their evacuation have expired," she said.

"There are more than 100 mothers who gave birth to babies. Some of the infants died within a few hours from exposure, but the women clung pitifully to the dead bodies of the little things," she added.

Dr. Lovjoy said that Turkish soldiers, mistaking her for a Greek woman, struck her heavily with the butt end of a rifle and left a mark. This soldier was about to strike her again when a United States officer intervened.

Refugees, who were evacuated must pass through a series of gates, Dr. Lovjoy said. She described how a few boxes of the refugees were stripped of all money and clothing. In some cases the women were turned out with nothing but the clothes on their backs.

Dr. Lovjoy described the sanitary conditions in Smyrna as unspeakable. The whole city, she said, was being looted. She thought that the Turkish officers were doubtless unaware of the misbehavior of their soldiers.

TROUBLE IN YORK TOWNSHIP, ONT.

Shortage Reported in Treasury and Matter Placed in Hands of Crown Attorney—Records of Tax Payments Missing.

Toronto, Oct. 5.—Shortages in York Township Treasury amounting to \$4,457.88 were reported to township council by the auditors, Clarkson, Gordon and Dilworth. That amount extended over a period of from November, 1921, to April, 1922, and included sixty taxpayers, who produced receipts for taxes paid, two owners of houses purchased from the township housing commission, and one receipt for water rates.

Up on advice of Township Solicitor J. H. Spence, it was decided to place all the facts up to the present before the county crown-attorney. Evidence on the books of the municipality will be submitted. Meanwhile the auditors' investigation will be continued.

The report states there were 10,500 assessments which showed taxes to be in arrears. Notices were mailed to the taxpayers. Approximately 2,500 confirmed accuracy of arrears. There were 4,000 cases from which no replies were received, and it is assumed that these taxes are in arrears.

It may be, the report states, that shortages accounted for from Dec. 1919, to May, 1922, totalled \$296.95, which amount has been deposited in the township's bank account.

FOUND GUILTY OF HOLDING UP PAYMASTER AND ROBBERING HIM OF \$27,000 Montreal, Oct. 5.—John Valcourt, charged with holding up the paymaster of the Dominion Textile Company on June 7 and stealing from him \$27,000, was found guilty yesterday morning by Judge Cusson, who will pronounce sentence October 10.

MAYORALTY ELECTION SET FOR MONDAY, NOVEMBER 13

Recall Certificate Presented to Council By Common Clerk and Date Fixed By Resolution— Arbitration Proposal Not Discussed, Postponement Being Made Until Next Tuesday.

On Monday, Nov. 13, the electors of St. John will have a chance to cast their ballots in favor of a new mayor—a mayor pledged to give prompt effect to the wishes of the citizens with respect to the Musquash power. This date was set by the common council in adjourned session yesterday afternoon, on a motion by Commissioner Bullock, seconded by Commissioner Frink, following the reading by the common clerk of his certificate that the recall lists handed in to him, for checking purposes, contained a sufficient number of names of qualified voters to operate as a recall.

The first resolution on the matter was pointed out by Mayor McLellan overlooking the fact that Nov. 6, the after council had adjourned. Amendment set, was Thanksgiving day. This meant was quickly made, however, when

the council re-convened, following this objection.

There was no discussion on the arbitration offer from the New Brunswick Power Co., Ltd., owing to Commissioner Thornton's absence from the city. It was decided to resume discussion of this proposal on Tuesday morning next, at 11 o'clock.

Recall Election Set.

Immediately following the reading of the certificate by the common clerk, relative to the recall lists handed to him for checking purposes on Sept. 23 last, Commissioner Bullock made the following motion, which was seconded by Commissioner Frink and carried without discussion:

"Whereas, a petition was filed in the office of the common clerk on the twenty-third day of September last, praying for the removal from office of Harry R. McLellan, Es-

quire, mayor of the city of St. John, on the grounds set forth in said petition, and also demanding an election of a successor to the said Harry R. McLellan, Esquire; and

"Whereas, the common clerk as required by law has certified to this council that he has examined the said petition and that he finds the same to be sufficient, being signed by duly qualified voters, entitled to vote and equal in number to more than fifteen per cent. of the total number of persons who voted at the last final election; therefore

"Resolved, that a special election be held as demanded by the said petitioners on Monday, the sixth day of November next, as provided by the Act of Assembly 2 George 5, Chapter 42, and that the common clerk make the necessary arrangements for holding such election."

Date Changed.

When motion for adjournment carried soon after this matter had been disposed of, the mayor returned and announced that the election could not be held on the date mentioned in the resolution. He explained that Nov. 6

was a holiday, being Thanksgiving Day. After a brief discussion, the motion to adjourn was rescinded and the council reconvened. The date for the election then was set for Monday, Nov. 13, Arbitration Discussion Postponed.

Nashua Pulp and Paper Co., Ltd., was adopted. The finance report for the month of September was adopted. It set out disbursements, as follows: Public works, \$4,626.54; public safety, \$3,876.93; treasury, \$225.56; water and sewerage, \$6,834.98; harbors, \$2,506.50.

FIRE PREVENTION WEEK PROGRAMME

Before taking up the matter of discussing the offer from the New Brunswick Power Company to arbitrate regarding its property, Mayor McLellan pointed out that Commissioner Thornton was absent.

The third day of Fire Prevention Week in the city was marked by short addresses in a few of the local theatres last evening and those theatres that were not visited last night will hear short talks this evening. It is felt by those in charge that the lesson can be told plainly and impressively to theatre audiences of the far-reaching importance of this campaign.

Commissioner Wigmore asked the mayor if Tuesday would suit his convenience and on the commissioner's motion, the discussion of the matter will be taken up on Tuesday morning, beginning at 11 o'clock.

The commissioner points out that the fire menace is an ever-present possibility and that it may occur anywhere and at any time. "If a man carries a dollar's worth of insurance, it is a direct admission that he is not willing to take a chance. It is an unsolved mystery why so many people blindly and instinctively regard insurance as complete protection against fire. Insurance money never covers the real loss. We cannot insure the inconveniences, the destroyed records, the time spent in rebuilding, the customers never regained, the payroll that has to be disbursed, and the complete demoralization of organized effort. We may collect indemnity for loss to buildings, furniture, machinery and equipment, but we cannot recover the wasted time, energy and brains that constitute the heart of a successful business."

The tender from the Phoenix Foundry and Locomotive Works, Ltd., for 50 manhole sewers and for fifty frames was accepted, as was the tender from the Courtenay Iron and Brass Works for fifty vault covers and ten tank basin gratings.

A brief communication from the Board of Railway Commissioners concerning the overhead bridge in the Strait Shore road was referred to Commissioner Frink.

LOCH LOMOND FAIR WAS VERY SUCCESSFUL

Ideal weather conditions greeted a large attendance from the city and different parts of the county at the annual Simonds and Loch Lomond fair held yesterday in the Agricultural Hall. This year's fair in many respects surpassed the high standard set by former offerings of the officials in charge, who are to be congratulated on the success attained.

TWO ST. JOHN BOYS WIN RIFLE MEDALS

There were 1,837 boys and girls under the age of eighteen who won medals in the Winchester Junior Rifle Corps competitions during the month of August, of which number 618 won pro marksman's medals, 529 marksman's medals, 107 sharpshooters' medals, 148 won bars, nine won experts' medals and instructors' medals went to eighteen.

There was a time when a rifle was taboo in practically every boys' and girls' camp, now no camp is complete without a rifle range, in fact rifle shooting is one of the most popular sports in the camp. Put a rifle range within a reasonable distance of a number of boys and you will have just as many rifle shooters as baseball players.

CANADA SEEKS BOYS AND GIRLS FROM OLD LAND

Ottawa Official Enthusiastic After Campaigning in England—Demand Exceeds Supply.

(By C. Prescott McLennan) (Toronto Globe) Liverpool, Eng., Sept. 16—A real live campaign on behalf of a larger influx of English boys and girls for adoption in Canadian homes, has been inaugurated in England as a result of the visit of Mr. G. Bogue Smart, Supervisor of Juvenile Immigration, Ottawa. Mr. Smart recently spent two months in this country.

"How many children per annum can Canada find good homes for?" I inquired. "More, I fear, than we are likely to get," said Mr. Smart. "For the fiscal year ending March 31 we had applications at our departments for 15,000. These requests came from every province in the Dominion, Ontario and the western provinces being the largest applicants."

"But, although 15,000 English boys and girls could be found comfortable homes in Canada, we had, as a matter of fact, only 1,500 available. That tells the whole story very briefly, and carries with it a lesson which I hope the English people will take to heart. While your English cities and towns have more children than they know what to do with, we in Canada have to go short. That is a condition of affairs which requires the closest attention."

"How do you propose to remedy it?" "Well, there being no dearth of children in England, it is up to the English themselves to find the remedy, for it is as much to their interests as to ours to have this problem solved. The various English institutions that have the rearing of children could enlarge their operations, but as that is impossible without funds it seems to be for the philanthropists to furnish the 'sineus of war'."

Third Generation is Using Syrup Pepsin

No other Laxative can replace Dr. Caldwell's Laxative Syrup Pepsin in the confidence of those who use it.

THERE are thousands of healthy, robust young men and women who have never in all their lives taken any other laxative for constipation than Dr. Caldwell's Laxative Syrup Pepsin. Their parents were given it by their parents; the grandparents are using it today. It is the one laxative ideally suited to all the family, safe for the little ones, effective in grownups, so compounded that elderly people, who are constantly forced to take a laxative because the intestinal muscles are weakening, find increased dosage unnecessary. This wonderful constipation remedy has been used continuously for 30 years, and over 10 million bottles are now sold annually, the largest selling family laxative in the world. The cost averages but a cent a dose. Every druggist sells it, and under a guarantee to do as claimed or your money will be refunded.

Millions of carefully conducted homes are never without a bottle of Dr. Caldwell's Laxative Syrup Pepsin. Mr. Henry Ricker, Chippewa, Ont., says it is the best medicine they have ever used, and Mrs. M. Martin of Massey, Ont., uses it herself and recommends it to her friends. There is scarcely a day that someone in a family does not need it for constipation, flatulency, auto-intoxication, biliousness, intestinal poisoning, headaches, colic and to break up fevers and colds.

Dr. Caldwell's Laxative Syrup Pepsin is a scientifically-balanced compound of Egyptianenna with pepsin and pleasant-tasting aromatics. The formula is on the package. As the popularity of this natural vegetable laxative increases, the public discards the harsher purgatives like calomel, castor oil, candy form, salt waters and powders. Dr. Caldwell's Laxative Syrup Pepsin empties the bowels more cleanly and without any danger.

TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy

lars had sprung up slowly by dozens, later they appeared by the hundreds, and became eventually so common that they ceased to cause the faintest ripple when criminal affairs were being discussed.

They were succeeded by a "gentleman" burglar who caused as profound a sensation as the first dinner burglar. Victims who had caught a glimpse of him described his way tall, handsome, athletic and exquisitely groomed. He appeared at times in different dress. He had been seen in evening clothes, silk hat and opera cloak, a cane in one hand and a pair of white gloves in the other. He was as bold as he was well dressed and handsome. Retiring and bashful ladies had encountered him in their boudoirs unexpectedly. At such times he would grab a handful of rings and trinkets from a dresser and with panther-like agility disappear through window or door.

He had been seen sealing the sides of a building like a monkey or jumping like a squirrel from one roof to another. He was always too quick for his pursuers. On more than one occasion when the police believed they had him trapped he managed to elude them. They finally caught him after a long pursuit. He turned out to be the black sheep of an old family. When they searched his abode they found that his wardrobe had not been exaggerated. He had half a dozen tennis rackets with the most approved creases of the tailor's art.

None Equaled the Original. Although his career was cut short, he had enjoyed considerable notoriety, and it was not strange that, like his predecessor, the dinner burglar, he should be followed by a veritable epidemic of gentleman burglars. None of his successors, however, equaled him in good looks or elegance. There were plenty of them, but somehow none of them ever achieved his distinction. Many of them had no just claim to the title of gentlemen, and it was a mystery how some of them ever came by it.

How thousands are regaining the splendid vigor of health

When a man "slows up"—begins to feel his strength and vigor slipping away—gets run down, nervous, irritable—

One of two things is wrong. His body is either failing to nourish properly the living cells which compose it, or it is failing to throw off the poisonous waste that gathers in the system.

Check either of these processes, even temporarily, and health is threatened. And yet the bodies of millions are either half-starved or clogged up!

The fresh, living cells of Fleischmann's Yeast contain a natural food—with the very elements which help the body perform these two vital functions.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"—not dried or "killed." Fleischmann's Yeast is the highest grade living yeast—always fresh. It is not a medicine, it is a natural food. Results cannot be expected unless it is eaten regularly.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

"Assured perfect regularity and added 25 lbs. of weight"

A recent letter tells of an unusually bad case of a common ailment—a New Yorker who suffered from chronic constipation. Since he was eleven years old, he had used "everything that could be suggested"—without a cure. Three operations had been necessary. And then three cakes of Fleischmann's Yeast a day for a period of one month not only assured perfect regularity, but by adding 25 lbs. restored him to his normal weight.

Eat two or three cakes a day regularly—plain, or spread on crackers, or mixed with water or milk. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means! Be sure you get Fleischmann's Yeast. All grocers have it.

Beautiful, richly colored rugs at small cost—

There's nothing like a beautiful, richly colored rug for making a room attractive. The popular Gold Seal Congoleum Art-Rugs do this at amazingly small cost. In Congoleum patterns you'll find colors and designs suitable for every room in the house. What a difference they make in your housework, too. Once and for all the drudgery of sweeping is ended. NEW METHODS OF CRIMINALS

Modern Burglar's Strange Evolution—Change Harks Back to Days of the First Operator.

(New York Times) Methods of criminals, like those of other craftsmen, change with the times. If the criminal of twenty-five years ago returned today to his former occupation he would be quick to realize that he was working under new and strange conditions. The old-time burglar would find it hard to stomp and startle him. He would discover that houses were built on a different plan than that there traps of all kinds to anticipate his visits.

Like the business or professional man, the modern man, if he expects to elude capture, must keep abreast of the times. He has had painful experiences with burglar alarms and other burglar-catching devices. These experiences have made him canny, and when he starts to work with his tools in his pocket, he makes a fervent prayer that the "cops" will not get him. Ordinarily, he has no desire to emulate those bold, bad burglars of the past, who delight in breaking into a flat where its occupants were peacefully asleep, make off successfully with the family jewels and heirlooms, and then join their cronies in a friendly saloon where over their glasses, they would discuss the big adventure.

Just when the burglars began to change all of this is not definitely known. Unfortunately, police historians have neglected to chronicle the time when these well-intentioned housebreakers threw form and etiquette and the clock to the four winds, and, upsetting a cherished tradition, went to work when and where they pleased. Took Goo From Dinner Burglars.

The change, nevertheless, radical and revolutionary, took place. It began with the published chronicles and adventures of certain "dinner burglars," so-called because they "burglarized" while their unsuspecting victims were gathered about the dinner table at the evening meal. The first accounts of this new and heretofore unknown type of burglar caused every where a profound sensation. Everybody was hoping and praying that the police would apprehend the bold fellow, and everybody, including the police, were speculating on what manner of criminal he could be. The regular members, however, of the housebreaking fraternity paid scant attention to the excitement of the new type had provoked, but quietly pursued their old method of robbing places in the wee, small hours.

EMINENT ENGLISH RAILWAY MAN HEAD OF C. N. R. BOARD

Sir Henry Thornton, President of Great Eastern. Coming to Canada—J. H. Sinclair, K. C., to Represent Maritimes.

Ottawa, Oct. 4.—Canada's greatest task seems assured of triumphant performance. A new Canadian National Railway board, bringing into vigorous existence the united national system of the Dominion, representative in its Canadian membership of the widest and best interests of the country, and headed by the ablest and most eminent railway head of Great Britain, was announced tonight by the Right Hon. W. L. Mackenzie King, the prime minister.

A Representative Board. Both from the standpoint of their present occupations and of the regions

from which they hail, the Canadian members of the board make the latter a most representative as well as a most compact one. John H. Sinclair, K. C., of New Glasgow (N. S.), is a well known lawyer and ably represents the maritime provinces; Ernest R. Decarie, former head of the Montreal Civic Commission, comes to the board with a full knowledge of the needs of Quebec province and of Montreal and Quebec city in particular.

and who has done a vast amount of hard work in the last two or three stressful years, constitutes the best possible representative of the government department. To Get Down to Business. Then it is widely conceded that it would be difficult to make a better choice for the board's counsel than Grand Rue, who for some years has had charge of the legal work for the old Canadian Northern and latterly for the Canadian National Railways.

On a casual glance at the president of the new Canadian National Railways Board is sufficient to satisfy the most skeptical that he is a winner. He stands a full six feet and is splendidly proportioned with a slight rotundity. His face is ruddy. There is the set jaw of determination, along with the keen eye beaming in his forehead.

BUNCH OF HITS MAKES FIRST GAME FOR THE GIANTS

Four Singles and Sacrifice in Eighth Drive Bush from Box—Giants Change 2-0 Lead to 3-2 Victory.

New York, Oct. 4.—The unconquerable spirit to keep on trying when success does not come at first, carried the New York Nationals to a victory this afternoon in their first clash with the New York Americans for the 1922 title of world baseball champions.

To overcome a 2-0 lead that the Yankees had acquired, the Giants, up to that time turned back in their assaults upon the American League's defense, crashed out four singles, one right after another, in the eighth inning, and then crowned their furious attack with a sacrifice fly. The four hits crushed Joe Bush, the Yankee speed ball pitcher and tied the score.

The winning machine climbed up the hill in low speed. Early in the game, when Bush and Art Nehf, the Giants' spitballer, were fighting a scoreless duel, the Nationals could not score with two successive singles. In the seventh inning they banged out three one-bagers in a row and could not score. The Giants simply went back in the eighth inning and kept on pounding out one-bagers until it was impossible for the stubborn Yankee defense to prevent them from crossing the plate.

Babe Ruth, the celebrated home run swatter, swung violently at the ball all afternoon. Nothing that even left an impression that he could hit a home run came from his heavy bat, but he did bang out a single that broke through the monkey of a defense of scoreless innings, which Nehf and Bush imposed upon the batters.

Ruth's timely clout came in the sixth inning. Whitley Witt, the Yankees' center fielder, had slammed a triple into left field and had run down when he tried for their first meeting in the short run of the Joe Dugan. As Witt lost out in his chase to the plate, Dugan galloped on a slow slide to home from there he was sent in with the first run of the series when Ruth punched a short single into right field.

Ward Scores Meusel. The next inning the Yankees got their second run. Bob Meusel singled past Helme Groh, the Giants' third baseman. Wallie Schang laid down a bunt to push Meusel over to second base, but before the Giants got through playing with the bunt he had reached third. Nehf, in picking up the center field Schang, let in from the plate, decided to try to catch Meusel at second instead of being satisfied with the out at first.

Rich Cream That Will Keep Sweet

Keepsweet Milk Good For Children

Keepsweet Milk, like Keepsweet Cream, is the pure, whole, unadulterated product. It keeps sweet, because of its 100% purity and absolute freedom from germ life.

It is a wonderful food for babies, growing children, invalids or the sick. In fact, it is the safest milk that can be recommended.

Keepsweet Milk is delicious in flavor, having none of that smoky unpleasant taste so often experienced in canned milks.

Do not add water or sweetening. Simply punch two holes in the top of the container, empty all the milk into a jug and use. Keepsweet Cream, mixed with Keepsweet Milk produces a delicious light table cream of about 11 per cent butter fat—the "top-of-the-bottle" grade—and cheaper than you can buy raw cream.

All grocers sell Keepsweet Milk.

YOU'LL be simply amazed when you try Keepsweet. It's cream! Rich, pure, sweet, natural cow's cream! Not milk, mind you, but the finest cow's cream and it's put up in sanitary cans. In fact, it is the first and only product in a sanitary can that the Dominion Government permits to be labelled "Cream." It is the sensation of the year.

**It is not Condensed
It is not Evaporated
It is not Medicated**

Keepsweet is whole, natural, liquid cream, just as it comes from the cow, only it's purified to the last degree. The remarkable thing about it is that it will keep sweet all summer long. Without ice, without special care, it will keep sweet and pure and wholesome in its sanitary can for an indefinite period.

No preservatives of any kind are put into Keepsweet Cream. Absolutely nothing is put into it and absolutely nothing is taken from it.

Pour from the Can and Use

You simply punch two holes in the top of the can and empty the cream into a cream jug. Then use it as you would raw cream—on porridge or cereals, in coffee, cocoa or tea,

on puddings or fruit—in fact, any place where you would use ordinary raw cream. Don't add water. It's all ready to use.

Of course, once you've opened the can, Keepsweet requires the same care as ordinary cream.

The Flavor is Delicious

You will be captivated by the delightfully rich flavor of Keepsweet Cream. It has the tang of Devon! It contains a larger percentage of butterfat than the average table cream and it is safer to use, because it contains no germs. They were all killed when the cream was sterilized.

Inexpensive, Too

Compare the price of Keepsweet with ordinary cream and in most localities you will find the prices almost identical.

But the great thing about this really marvelous product is that it will Keep Sweet for months on end. Violent thunderstorms can't affect it—nor can terrific summer heat.

A Godsend in an Emergency

There comes a time almost every day in every home when all the cream is used up, when the ice man fails to call, when the ice melts away and the cream sours—when a jug of cream is badly needed.

That's the time when Keepsweet comes into its own! Rich, pure, delicious in flavor, it is all ready for the table.

Thrifty, efficient housewives from now on will keep half a dozen cans of Keepsweet always handy. Many have already adopted Keepsweet Cream for permanent table use. They enjoy its delightful flavor and richness, and they like to have pure, sweet cream always handy.

How it is Done

At our creameries away out in the quiet country we receive the milk from rigidly inspected dairies. We at once separate the cream from the milk. We first pasteurize the cream, then homogenize it and after canning, sterilize it, container and all. It is thus made literally pure, as all disease germs are killed.

Pasteurizing temporarily prevents fermentation and souring, homogenizing makes the cream more readily digestible, and the final sterilization destroys all germ life. Thus the cream will keep all summer long in all its original freshness and rich flavor.

Order from your grocer. He will supply you. Don't be afraid to order half a dozen tins, because after you've had one sip you'll be glad you ordered a supply.

Grocers—The Dominion Government has ruled that as Keepsweet Cream is "true to its name" and in nowise an evaporated product, being just pure, natural cream, it has always been exempt from the Sales Tax. Your wholesaler will supply you.
