

THE SHOPMEN ALONE ON STRIKE

Maintenance of Way Men on U. S. Railroads Keep Out for Present.

Chicago, July 5.—Railway shopmen who walked off their jobs last Saturday played a lone hand in the rail strike today. Fears that other unions would join the striking shopmen were virtually dispelled.

The first wide rift in railroad strike clouds showed yesterday, when maintenance of way employees, who include track workers and other common laborers, definitely abandoned the idea of a walk-out at this time.

The maintenance of way men will stay on the job under protest against the sixty million dollar cut in their wages pending negotiations for a readjustment of wage scales upon an appeal by the employees.

With their common labor problem out of the way, railroad officials throughout the U. S. were waiting today for the first definite disclosure of the effect of the shopmen's strike.

Officials of the shopmen's union said their strike was virtually 100 per cent effective. They predicted that other classes of railway labor would become increasingly militant by the shopmen's strike and that the effect of the walkout would begin to show on transportation soon.

The railroads also waited today for the effect of a message from Timothy Healy, president of the stationary firemen and others, who told the 5,000 members of his organization that they had a perfect right to strike if they wished in view of the railroad situation.

Signalmen still were "on the fence," but their president, D. W. Helt, has usually followed the lead of the maintenance unions, whose withdrawal from the strike was believed in railroad circles to indicate that the signalmen would remain at work.

JULY CLEARANCE SALES TOMORROW

The Greatest Value-giving Time of the Season Starts Then with Plentiful Varieties and Dynamic Savings.

Twice a year we clear house here. Twice a year we relentlessly cut price in accordance with our policy of immediate disposal regardless of original prices. This season's clearance calls for more drastic, decisive action because of larger stocks, due to a backward season, which compels us to make greater price reductions than we have anticipated. Therefore, aside from the irresistibly large mark-downs, the surplus are so great that favorite items are assured. Briefly, it is a clearance event offering super-advantages—one that overtops any other ever held under this roof. Its effect depend upon the amount of your purchases. Remember, sale begins Thursday, 6th, London House, F. W. Daniel, Head of King street.

FAILS IN CENSURE ON GOVERNMENT'S WORK IN PALESTINE

London, July 5.—A concession in Palestine granted by the British, Rutenberg, who formerly resided in Russia, was subjected to strong criticism in the House of Commons last night, when Sir William Joynson-Hicks, Unionist, moved for a resolution in the salary of the secretary of the colonies as a protest against the government's policy in Palestine. One of the principal complaints was that applications for concessions from Englishmen and Indians had been refused and that under the present concession to provision had been made for orders to go to British manufacturers. Mr. Churchill replied, defending the British concession as a strictly following colonial office procedure and contending that without electrical irrigation developments such as were intended to be made in the valley of the Jordan one before the government when the concession was made, it would be impossible to deal with Palestine, since the Arabs, if left to their own devices, require a thousand years to provide effective irrigation. The Joynson-Hicks motion was rejected, 262 to 85.

INTELLIGENCE AND HUMANITY OF THE HORSE SCORE ONE AGAINST MODERN INVENTIONS

James Funston, a farmer near Galena, Illinois, and contemplated the purchase of a tractor for farm use, but because one of his faithful plow horses saved his life he will continue to use horses to till his land. Funston was driving a corn plow on a hillside when the plow tipped over, pinning him underneath. The horses became tangled in the harness, but did not run away. After being under the plow for an hour, Funston saw one of the horses back. Then this same horse walked to the side of the plow, gave it several pushes, rolling the implement off its master, who had suffered a broken leg and other injuries.

IN WALL STREET.

New York, July 5.—(10:40)—Heaviness of Mexican Petroleum, which soon declined 3/4 points, was the only feature of the higher trend of prices at the opening of today's stock market. Developments over the holiday weekend were favorably construed, judging from the firmer tone of the general list. Studebaker, Coca Cola and Dupont were among the stronger features at average gains of one point, with E. & O., General Asphalt, Pullman, Virginia Carolina and several of the secondary rails. Pan-Americans were only slightly depressed. Early exchange rates were irregular.

These included Coca Cola, Mullinson and Druggists, the latter capturing its gain to six points. Crucible led the independent steels, gaining 2-5 and motors were featured by Studebaker and Mack Trucks at two points gains. Rails were not influenced by strike conditions, showing further strength on buying of Louisville and Nashville, Union Pacific, Illinois Central, St. Paul and St. Louis and San Francisco, Pfd. The market wavered before noon, however, on renewed selling of Mexican Petroleum at extreme decline of 3 to 4-1/2 points. Call money opened at 4-3/4 per cent.

Burned Forests Pay No Wages. Living forests provide us with wood material of all kinds for our homes and industries, but burned forests provide no lumber, no work for the workman, no business for the merchant and no freight for the railway or steamship. Most of the land on which our Canadian forests now stand is not fit for agriculture, but it is fit to grow fine crops of trees to keep our saw-mills, our paper mills running at full force for ever. Let us all take part in protecting our valuable forests.

BOMBARDING BUILDINGS IN SACKVILLE ST.

(Continued from Page 1.) there, it is emphasized that vital strategic points also are held by the Republicans. The Republican communication alleges that the British are handing over huge quantities of armored transports, arms and equipment to the Free Staters, adding: "It is reported that a large party of English soldiers, with about ten armored cars and other war material, arrived at Kingstown on Saturday. It is supposed they are forming a protection party for 200 cars to be given to the Free Staters."

As regards the provisional government's statement that national forces had attacked and captured the Republican barracks at Callan, Mullingar and Thomastown, the statement says these had all been previously voluntarily evacuated as being of insufficient military importance to justify the maintenance of garrisons in them. It adds that the Republicans captured the national barracks at Abbey-Lets, Queens county, yesterday and remain in occupation.

The Value of Time By Kronos. Painting by HAROLD DELAY. CROSS THE ALPS rode Hannibal, thirsting for the blood of Rome. History holds no more breathless adventure. Hatred of Rome was this African warrior's earliest heritage. A century after Alexander flashed across the page of Time, young Hannibal—not yet in his teens—swore undying vengeance against the foe of Carthage. At twenty-eight he was acclaimed commander of the Carthaginian army in Spain. Like a thunderbolt he struck, instead of following the seaward route to the south, with its inevitable delays on the African shore, he plunged daringly overland—across the frozen mysteries of the Alps. Without maps, without guides, he flung himself boldly into the impassable unknown. His superb cavalry, his great herd of war elephants, struck terror into the swarming mountain borders. Nothing could stop him. He knew the power of preparedness, the strength of surprise. He knew the Value of Time. "Beyond the Alps lies Italy!" he thundered—and the world's proudest empire staggered under his sledge hammer blows. The blood-soaked pages of Hannibal's bitter vendetta are covered with dust. Rome is but a memory. Yet the Value of Time so vividly seen by Confucius, Plato, Alexander, Hannibal—by all makers of history—is impressed more sharply on the race with every passing century. "Time is the stuff life is made of." "Who wastes Time, wastes life!" These hard-learned lessons of ages past are reflected in the earnestness with which the history makers of our own day guard life's most costly commodity—Time! Below: one of the new Elgin Presentation Watches—material construction, adjustments and service fully covered by Elgin Guarantee.

May we have a word, please? Clothing sales have been so numerous as to almost completely bewilder the would-be purchaser. We'd like a moment of your time, please, to have our little say—to explain why THIS is a good place and NOW a good time to purchase clothes. We've taken many suits from regular stock and sharply reduced them to prices which in most cases are considerably below wholesale cost. We consider it good business practice to clean up our stock at the end of every season. The clothing involved is 20th Century Brand and other good makes. This bespeaks workmanship of a high order. There are not only strictly Summer suits but also those fine for all the year round. We unhesitatingly recommend this sale as a good clothes buying opportunity. Men's and Young Men's Regular and Sport Suits now, \$20 and \$25. Other prices \$17.50, \$30 to \$40. Spring and Fall Overcoats. A number bunched at \$20; other prices \$10, \$15, \$17.50. STAHLSCHEIDT A HERO.
Medal "For Valor" Awarded to Mother of Guardsman Killed Memorial Day

Albany, N. Y., July 5—Sergeant Julian N. Stahlschmidt, Bronx National Guardsman of the 27th Tank Company, who was killed during the Memorial Day parade in New York, when he was thrown beneath a battle-scarred tank, was proclaimed a hero by the Board of Inquiry appointed by Adjutant General J. Leslie Kinkaid to investigate the circumstances of his death.

Sergeant Stahlschmidt met his death, the board found, when he tried to stop a tank which had run amuck, threatening the lives of throngs who lined the sidewalks watching the parade. His action, although unsuccessful, attracted the attention of other men who reached the driving compartment and brought the tank to a stop before further damage was done.

Because of his extreme bravery and thoughtfulness for others, General Kinkaid has ordered that Sergeant Stahlschmidt's mother be given a medal "for valor" in commemoration of her son's brave act.

THE CONWAY-RICHARD WEDDING IN MONCTON

Yesterday reference was made to the marriage of Wm. Thos. Conway and Miss E. V. Richard, in Moncton. The Moncton Transcript says—

A pretty wedding was solemnized this morning in L'Assomption church at seven o'clock when Miss Eva Virginia Richard, daughter of Mr. and Mrs. Edward T. Richard, 77 Church street, became the bride of William Thomas Conway, son of Mr. and Mrs. Thomas Conway, Hampton, N. B. Rev. E. J. Conway of North Devon, N. B., brother of the groom, celebrated nuptial mass at which many friends of the contracting parties were in attendance. The bride was given away by her father, J. Henman supported the groom, and Miss Mary Richard assisted the bride. Two little brothers of the bride assisted in serving the mass. Miss Beatrice Melanson played the wedding march and Rufin Arseneault, organist of L'Assomption church, played several selections during mass.

The bride was becomingly attired in a sand colored tricotine suit with picture hat to match. She carried a bouquet of American beauty roses and lilies of the valley. The bridesmaid was gowned in brown broadcloth and carried a bouquet of roses and carnations. The groom's gift to the bride was a check, to the bridesmaid a gold rosary; to the organist, Miss Beatrice Melanson, a gold brooch, and to the groomsmen, a gold knife and chain.

Mr. and Mrs. Conway together with invited guests and relatives, repaired to the bride's home where a wedding breakfast was served. The house decorations were profuse, the table decorations being very beautiful and in the living room and parlor, potted plants and ferns were much in evidence. Guests included Mr. and Mrs. Thomas Conway, Hampton, the groom's parents; Rev. E. J. Conway, North Devon, brother of the groom; Dr. P. McL. Atkinson and Mrs. Atkinson, Moncton; Dr. H. C. LeBlanc and Mrs. LeBlanc, Moncton; Dr. Arthur LeBlanc, Moncton; Lionel LeBlanc, Moncton, and Mrs. Melanson and daughter, Miss Beatrice, Moncton.

The principals in the happy event received many useful presents, including cut glass, silver, china and checks. Johnson & Ward brokerage firm, of which the groom is an employe, presented a handsome chest of silver. After the wedding breakfast the bride and groom motored to Hampton, the groom's home, from which place they will proceed to Old Orchard beach to spend their honeymoon. The bride's traveling suit was of navy blue tricotine with black turban hat and white ermine neck piece. Both bride and groom are well known in Moncton and throughout the province. The bride is an accomplished musician. She is a niece of Rev. A. Robichaud of St. Anselme, now in Los Angeles. Mr. and Mrs. Conway will make their home in Moncton.

PARIS TRIAL POSTPONED UNTIL JULY 18

Counsel for the Prisoner Intimates New Evidence in View—Paris is Without Funds.

John Paris, the mulatto, charged with the murder of little Sarah Jane McAuley in August, 1921, is without funds to undertake a proper defence for his fourth trial on this charge, according to his sworn affidavit filed at yesterday afternoon's court session by G. H. Vernon, K. C. of Truro, representing the prisoner. The document requested postponement of the trial until the early part of September next in order to raise funds for his defence and also to investigate allegations made to his counsel last Friday that another person had committed the murder.

After extended argument, during which Hon. J. P. Byrne, who is conducting the prosecution assisted by Dr. W. B. Wallace, K. C., strenuously opposed a two-month adjournment, Mr. Justice Chandler, presiding judge, ordered that the trial be postponed until the forenoon of Tuesday, July 18, when Mr. Vernon may have leave to renew his application for further postponement on any grounds desired. If the application is refused, the fourth trial will be undertaken immediately.

The Affidavit. When court resumed at 8 o'clock, Mr. Vernon requested permission to have the accused swear to an affidavit. This was granted and the document, as read by Mr. Vernon to the court, was as follows:

I, John Paris, at present of the city of St. John, laborer, make oath and say as follows: 1. That I am the defendant above named and I stand indicted of the murder of one Sarah Jane McAuley. 2. That I have already stood three trials for the said offence. On the first of said trials the jury disagreed, on the second, I was found guilty but on appeal the conviction against me was set aside, on the third trial the jury again disagreed, the last trial ending about May 5 last. 3. That today it was brought to my attention by my counsel, G. H. Vernon, K. C., that he had on Friday last been given some information and evidence which, in his opinion, might, upon proper investigation being made, be of material assistance to me in my trial in establishing my innocence of the offence so charged against me, which innocence I have always asserted. The information obtained being along the lines of showing that the offence was committed by another party. That I am not permitted

matter with the scanty means at my disposal it will take some weeks. 5. That I have been put to great expense on my previous three trials and one appeal and at present time I am without money to enable me to properly carry on my defence at present time. 6. That of my trial is not brought on again until the early part of September next, I feel that I can then obtain sufficient means and information to enable me to carry on my defence, but if I am forced to go to trial at the present time I cannot obtain all the information I require or procure the attendance of all necessary witnesses and a great injustice will be done me. 7. That I request that my trial may not be brought on until early part of September, 1922.

BOTTLE BROKEN, EVIDENCE GONE. Smith's Falls, Ont., July 5.—The accidental breaking of a bottle in the government laboratory at Toronto has perhaps meant a loss of several hundred dollars to the province. A bottle had been sent up from here for analysis of the contents. It had been taken from a man suspected of bootlegging and was supposed to contain gin. The department asked that another bottle be forwarded, but there was no other to send. Consequently, when action against the supposed bootlegger began in Police Court here, it had to be dismissed because the evidence was lacking. And out of court walked the defendant, wearing an expansive smile. He had been fined \$700 for a violation of the Ontario Temperance Act a few months ago, and a conviction this time would have meant a heavier fine, which levy would have gone to the province, because a provincial officer was prosecuting.

HE TORE UP CHECK AND IS ARRESTED. Police Charge Forgery—Bank Teller Was Alert.

Ottawa, July 5.—William J. Brown, St. John street, Quebec, was arrested here on a charge of forging a check. Brown appeared at the branch of the Royal Bank of Canada and presented a check for \$735 on Father Fay, of St. Brigid's Church. The teller, becoming suspicious of the handwriting, called a priest of the parish, who said that the writing on the check was not Father Fay's. Brown immediately tore up the check and was arrested. The police have several pieces of the check.

PARENTS NEGLECTED BY THEIR CHILDREN. City of Hamilton Made to Pay for Keep of These Aged People. Hamilton, July 5.—That the city was being made pay for the keep of aged parents by children who lost all respect after their mothers and fathers were unable to earn their own living owing to old age was shown at a meeting of the Hospital Board. The officials decided to take legal proceedings against those responsible, and discontinue immediately the present plan.

"PUSSYFOOT" IN ENGLAND AGAIN. Predicts That Country Dry in Ten Years and World in Fifteen.

Liverpool, July 5.—"Pussyfoot" Johnson is here again and has begun to organize what he termed a world convention against alcoholism, which is to be held at Toronto in the week beginning November 19. He told the British newspapers that he expected England to go dry in ten years and the world in fifteen. He declared the economic burdens of the European nations were so overwhelming that they had to unload something, and alcohol was the easiest. "I refused to sail on an American ship," he indignantly informed interviewers, "because of the hypocrisy of

my government in countenancing the sale of liquors on American vessels. I prefer the honesty of a British ship, where I could see my countrymen patronizing the smoking room and drinking what they liked without deceit."

DRUNK FROM MEDICINE, CAR HITS GIRL; 60 DAYS. Defense of Glass Merchant Draws Wrath of Court and Sentence to the Work House.

New York, July 5.—Justice Salmon Healy and Herrman decided in Special Sessions that if a man acquires a jag from medicine containing twenty per cent of alcohol he shouldn't operate a motor vehicle in the public streets. Rudolph Floegel, forty-nine years old, a glass merchant of Brooklyn, was convicted and sentenced to sixty days in the workhouse for operating his car while intoxicated. James J. Wingate, Jr. and his wife told the court that on Feb. 4, Floegel's car knocked down a little girl at the corner of Manhattan avenue and 119th street and that at first Floegel refused to take the child to a hospital.

Cuticura Soap Imparts The Velvet Touch

Floegel set up the defense that his condition was due to medicine that had been prescribed by his family physician. The physician corroborated his explanation with the statement that he had prescribed a draught containing twenty per cent of alcohol for the defendant. "This is one of the most aggravated cases that has come into this court," declared Justice Salmon in imposing sentence. The brutality with which you treated the people who tried to aid the injured child is inconceivable. An example has to be made of intoxicated automobilists who make the streets unsafe. Going hunting or fishing? Then you are interested in keeping the forests green. Put out your camp-fire.

100 CARS TAKE PART IN HUNT

Hired Man Suspected of Having Killed Employer Captured After Entire Country-side Had Assisted in Chase.

Belleville, Ont., July 5.—The body of John Wesley Moutt, a farmer on the seventh concession of Tyndinaga Township, was found hidden in a corner of his barn with a bullet wound in his forehead. The condition and position of the body were such as to indicate that a murder had been committed.

Maurice Pearson, the hired man, was arrested this morning about four miles from the Moutt farm, after an all-night chase by the provincial police and a posse of constables, assisted by the farmers of the entire countryside. About 100 cars took part in the chase, and it was only when the fugitive realized that he was surrounded that he gave himself up to two men working on the road. He was brought to Belleville and lodged in the city police station. Mr. Moutt was last seen alive when he went into the barn after having his dinner. Pearson was in the barn at the time. As he did not put in appearance at supper, Mrs. Moutt became greatly concerned about his absence, and questioned Pearson, who told her not to be uneasy, as Mr. Moutt would return. Pearson assisted Mrs. Moutt in milking the cows in the evening. At eleven o'clock neighbors were communicated with and began a search. The body was discovered by D. E. Barber and J. Goodfellow, after a thorough search of all the buildings had been made.

Pearson is a youth of about nineteen years of age, but says he is only seventeen. He resides at Sherbrooke, Quebec. He had been employed at Mr. Moutt's for some time. The victim was about forty-five years of age and deservedly popular in the neighborhood where he lived. His wife and five children survive.

Youth

The women who stay young in spirit and young in appearance are not the ones who wear themselves out over oven drudgery, and not the ones who rub their complexions over a hot fire.

Butter-Nut Bread

Is so appetizing in appearance, so enticing to the taste, so satisfying in its food values, so beautifully baked that there is no need of slaving over the kitchen stove.

REVIVE PAPER MILL PROJECT

London and British Government Interest in Newfoundland Enterprise.

St. John's, Nfld., July 5.—A plan for establishing a large paper making industry on the Humber River on the west coast of Newfoundland, abandoned last winter when the government of the colony refused to guarantee the bonds of the enterprise in principal and interest, has been revived, so government officials announced yesterday. The scheme was promoted by the Armstrong, Whitworth Company of London, England, and the Reid Newfoundland Company.

The present proposal is that the British and Newfoundland governments each guarantee \$10,000,000 bonds and it is understood here that the British authorities have agreed to assume their quota. It is further announced that the Armstrong Whitworth Company proposes to buy out the Reid Company's interests in the project and carry on operations alone. Negotiations are proceeding with the two governments, and it is intended that the Reid Company will leave the project, made the trip chiefly in connection with the paper project.

PICTOU HIGHLANDERS AT NEW GLASGOW BANQUET

New Glasgow, N. E., July 5.—Both emphasizing the benefits of militia training to Canadian citizenship, E. M. MacDonald, M. P. for Pictou County and Col. Thomas Cantley, New Glasgow, addressed a banquet of the 78th Pictou Highlanders, here last evening. Major General Sir Alexander Bertram, Montreal and Major General Thacker, Halifax, were present.

HE FALLS FIVE STOREYS BUT IS NOT FATALLY HURT

Vancouver, July 5.—Falling from the sixth story of the Rogers building here, where he was employed as a janitor, Bert Sangster dropped into a wire netting over a skylight on the ground floor and sustained a fractured shoulder and broken arm. He will recover.

THE G. P. R. BRIDGE CASE

Fredericton, N. B.—A communication from J. Willard Smith, of St. John, was read at the city council meeting last night notifying the council that the matter of the new G. P. R. bridge at St. John over the Bay of Fundy, which is claimed to interfere with the free passage of vessels up the St. John river, would come before the courts during the week commencing July 11, and suggested that it would be advisable to have Fredericton representatives look into the matter. This communication was left in the hands of the legislation committee.

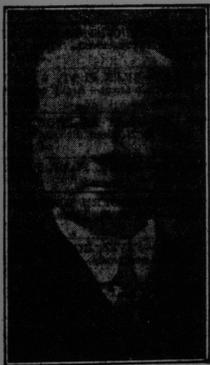

A DEER GETS BUSY

A Truro letter says:—About seven o'clock on Saturday morning a deer, who had been strolling through town, became suddenly startled and dashed through a window in the house of Norman Groves. The animal, finding himself in close quarters, leaped through another window and escaped out of town via Walker street. The deer was seen to be badly cut by broken glass in making his exit.

ONTARIO POLITICS

Back to Party Lines, Says Ferguson, in Next Election—A Prohibition Matter.

Vancouver, B. C., July 5.—Ontario is tired of group government and when we have our next election, either this fall or next, the issue will be which of the old parties will be returned to power," declared G. Howard Ferguson, K. C. of Toronto, leader of the Ontario Conservative party yesterday. Mr. and Mrs. Ferguson have just returned here from Alaska and Adlin.

Mr. Ferguson said that while Ontario undoubtedly was confirmed in its prohibition views for many years to come, the administration by the present government has been a scandal, which was doing much to weaken respect for the law.

"Going west, he said, I traveled with medical men bound for their convention and was surprised to hear them say that the prohibition law was weakening the moral fibre of the younger generation rather than strengthening it. They spoke of the appearance of the flask at dances and secret drinking, undermining respect of the law."

WORRIED OVER COAL SUPPLY

Matter Up Again at the City Council—Damage to Ferry—Weekly Meeting.

At the regular weekly session of the common council yesterday Commissioner Thornton said unless he could get the assurance of J. S. Gibbon and Company that they would be able to make deliveries of coal as required he would advocate the acceptance of the next lowest tender. The mayor agreed with Commissioner Wigmore that it would be advisable to have companies make a deposit in such cases in order to insure the delivery.

Mr. Wigmore said that his department had a lot of old iron pipe on hand which was fit only for scrap and he wished to depart from the old practice of selling to any particular individuals and call for tenders for the amount which was now on hand.

Mr. Bullock reported that the damage suffered by the Governor Carleton when she ran into the piling on July 1, due to the heavy freight, would be about \$400. Mayor McLellan said that report of such a matter should contain the details of the damage done and the cause and, if possible, who was responsible.

Mr. Bullock reported that the receipts of the ferry had fallen down considerably during the last six months. The actual figures, which he read to the council, showed that the receipts for the last six months were \$3,789.84 less than the receipts of the corresponding period last year. The passenger traffic had fallen off by 218,708 and the number of teams by 1,709. In 1921 there was an increase in the number of passengers by 62,000.

NEW FORD FACTORY?

Windsor and Detroit Gossip Talks of Largest in World.

Windsor, Ont., July 5.—Notwithstanding denial by W. R. Campbell, vice-president of Ford Motor Co., of Canada, that his concern plans to make extensive additions to the plant at Ford, gossip in automobile circles both here and in Detroit say that Henry Ford will build the largest automobile factory in the world at Ford.

Ford real estate men, who are getting options on large blocks of property have told friends that a large industrial concern will spend in the neighborhood of \$5,000,000 this summer in building a plant. Another rumor is that the Ford Company plans to build new factories to cost more than \$1,000,000.

VICIOUS FISH, BARRACUDA, IN LACHINE RAPIDS

Montreal, July 5.—Barracuda, one of which species of fish recently caused the death of Miss M. Clatchie, of Montreal West, who was fatally bitten while swimming off the Florida coast, have been found in Montreal waters. Fishing in Lachine Rapids on Monday, J. Danard and Frank Dutton caught a baby barracuda, 39 inches long, which snapped at its captors and which they eventually stabbed to death.

THREE KILLED UNLOADING PAPERS FROM A TRAIN

Ashbury Park, N. J., July 4.—Seven men were mowed down here yesterday by an engine of the Pennsylvania Railway drawing only its tender and going thirty to forty miles an hour. Three of them, including George Siebert of the staff of the circulation department of the New York Tribune, were killed, while the other four were severely injured. They were unloading newspapers from a train of the Central Railroad of New Jersey.

GERMAN BARON GETS LIFE PRISON SENTENCE

Berlin, July 5.—Baron Leo Frechtling on Monday was found guilty of high treason and sentenced to life imprisonment in Munich on a charge that he had been in constant communication with French Minister Dard in Munich and was striving for separation of South Germany from North Germany by French occupation of troops. The proposed dividing line, according to the charge, was to follow the river Main.

ASK ARREST OF
BROKER AT SEA

Indictment Charges Isador
Nathan With Theft of \$60,-
000 in Cash.

New York, July 5.—The police of this city have sent broadcast a general alarm to captains of every European-bound vessel which sailed from this port within nine days to arrest Isador Nathan on a charge of grand larceny. The grand jury indicted the fugitive earlier in the day on charge of defrauding a dozen men and women stock investors and had a dozen jewelers on the lower east side out of about \$60,000 within the last two months.

Nathan, who is sixty-eight years old, lived with his wife in a \$15 a month apartment, according to District Attorney Banton, but at the beginning of the summer took a luxuriously furnished house at Far Rockaway, in which he and his wife were living when he fled.

District Attorney Banton said in addition to sending a complete description of the man to the commanders of all eastbound vessels, the police department had sent wireless instructions to Detective Sergeant Bernard Flood on the White Star liner Olympic, to question two men, one of whom might prove to the fugitive, and the other a former employe of the brokerage house in the financial district with whom, it was thought possible, Nathan was traveling to Germany.

Mr. Banton said that two weeks ago complaint was made to him by five women that they had entrusted money to Nathan for investment in certain stocks. They said that Nathan told them that

GIRLS! LEMONS
BLEACH FRECKLES
AND WHITEN SKIN

Squeeze the Juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan bleach, and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.

he had the "inside" of a forthcoming rise in the particular stocks. A few days later several employes of the Long Island Railroad called on Assistant District Attorney William Ryan and told him that they and other employes of the railroad had been victimized by Nathan.

The district attorney's investigators discovered that Nathan had invested more than \$60,000 in stock transactions through the firm of Hirsch, Lillenthal & Co., Broadway, but that about fifteen days ago he closed his account with the firm. It developed further that five days before he closed his account at the brokerage firm, he made a tour of wholesale jewelry establishments on the lower East Side and obtained \$7,500 worth of gems on memorandum.

Assistant District Attorney Weller said that Detective Sergeant Cuniff learned that Nathan was known to some of the wholesale jewelers in the district as "Rudy the Watchmaker," and that he once was employed as a chronometer repairer in the Brooklyn Navy Yard.

Will of Ex-political Boss of North Dakota a Surprise.

St. Paul, Minn., July 5.—Filing for probate here of the will of Alexander McKenzie, one time "political boss" of North Dakota, disclosed for the first time even to many of his intimate friends that he had married a second time and had a family of two sons and a daughter in Yonkers, N. Y.

It developed that his second wife, Mrs. Elva McKenzie, died in Yonkers last May 22.

Specific bequests totalling \$265,000 are made in the will, and the residue is left to two daughters by his first wife, Mrs. Anna McKenzie-McDonald of Regard, Quebec, and Mary B. McKenzie Foster, Westmount, Quebec, who filed the petition.

Requests of \$60,000 are made to Mrs. Elva McKenzie, now deceased, his second wife, and like amounts to Jeannette Alpha McKenzie, an unmarried daughter; Alexander J. McKenzie and Thomas Oakes McKenzie, sons, all of Yonkers.

SENTENCED TO
EIGHTEEN MONTHS

"King of Bootleggers" Also
is Fined \$5,000 in Brook-
lyn Court.

New York, July 5.—John T. Vannata, regarded in Brooklyn as the "king of bootleggers," was convicted in the Federal Court in Brooklyn on an indictment charging conspiracy to violate the Volstead act. Judge Chatfield sentenced the defendant to eighteen months in the Federal Prison in Atlanta and to pay a fine of \$5,000. This is one of the heaviest penalties imposed in this section for a violation of the Prohibition law. Vannata's counsel gave notice of an appeal. The jury was out about four hours before arriving at a verdict.

Vannata is alleged to have made large sums of money in bootleg operations. At the trial a sister of the defendant testified that she had deposited large sums of money in a bank and at one time had \$140,000 to her credit, given to her by her brother. Vannata was formerly in the drug business at Bath Beach. The indictment alleged that he sold 290 cases of liquor to Alfred E. Farrell, a former bank paying teller, now serving a sentence to nine years and six months in Atlanta Prison for embezzling funds of the bank.

Farrell was brought to Brooklyn and was one of the principal witnesses against the defendant.

"Saved My Little Girl!"

Mother tells how her little Ethel's life was saved.

That is what one woman wrote us recently, and then she goes on to say:—"Ethel, who is just past eight, caught a bad cold last August. The child is of a highly strung, nervous temperament and could not be kept quiet in bed. We tried everything we could think of to cure her cough. But, the cough became worse and from a rosy, healthy, sturdy girl she became pale and thin. Nothing we did seemed to stop the cough and by this time regular spasms of coughing had developed. These coughing spells left the child weak and completely tired. I believe that in a short time the child would have reached the child's lungs. After trying everything I could think of, I saw an advertisement for Carnol, saying that this preparation would build one up. I got a bottle from the druggist and before it was half finished my little girl had almost completely shaken off her cough. Her cheeks began to get back their old colour. She started to put on flesh again and would run and play all day without being tired. Today, after having taken two bottles of Carnol, she is looking and feeling better than she has ever felt in her life."

Carnol is sold by your druggist and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle and he will refund your money. +18

PAYS HIGH TRIBUTE TO
MISS CARMICHAEL

(Halifax Echo)

The election of Miss Caroline Carmichael of New Glasgow to the presidency of the National Council of Women is not only a well-earned personal tribute to a talented woman, it is a distinct compliment to Nova Scotia. For the first time, we believe, in the history of this organization, covering the whole dominion and embracing practically all the women's organizations in the several provinces, the honor of election to the chief executive office in the council has fallen to this province. The tribute to Miss Carmichael is all the more notable in that she was not present at the convention which elected her, as she was in Europe attending a meeting of the executive of the International Council of Women.

FIXES BLAME FOR COLLISION AT THE CHATHAM BRIDGE

Court Judgment Frees Canadian Squatter in Matter—Puts Onus on Caretaker.

The report of the court of inquiry into the collision of the Canadian Squatter with the Murray bridge at Chatham, on June 4 last, has just been received. The court was composed of Captain L. A. Demers, Dominion wreck commissioner; Captain A. MacLean and Captain C. Mitchell. The court is unanimous in placing the main blame for the accident upon the bridge tender or the provincial government. Captain Demers finds that the bridge operator was in fault for neglect or indifference, and that the damage to the bridge and the resulting inconvenience was due to his negligence. He further finds that the bridge tender, Mr. Coughlan, was considered to be the chief factor in the accident. Captain Demers, further finds that the pilot followed a dangerous custom in taking the ship too near to the bridge, but the majority finding of the court, represented by the opinion of Captain MacLean and Captain Mitchell, relieves the ship, master and pilot of any blame whatever and places the sole responsibility for the accident upon the bridge tender or provincial government, under whose instructions he was acting. The certificates of both Master Boulton and Pilot Sutton have been returned. Captain Demers in his judgment makes several suggestions regarding the hoisting of signals, and further recommends that the instructions to the bridge operator be more clearly defined, and that regulations be framed by the harbor master governing the pilotage of vessels.

Briefly, the majority of the court places the entire blame upon the bridge tender. Two of the court completely exonerate the ship, master and pilot. Captain Demers, while holding Mr. Coughlan as chiefly at fault, censures the pilot for following a dangerous custom, and also censures the master of the ship, but both the master's and pilot's certificates have been returned. The effect of the decision places the blame on the bridge and not on the ship or anyone connected with it. Captain MacLean, in his judgment, places the blame on the provincial government, on the ground that he appeared at the hearing that very loose instructions were given to the man in charge of the bridge. At the hearing before the court at Chatham, A. Holden, K. C. of Montreal, represented the Canadian Squatter, George McDade represented Pilot George Sutton, and Robert Murray the provincial government.
