Meeting of Presbyterian Ministers Who Oppose Church Union as Now Planned

(Canadian Press)

Toronto, Feb. 24—The Presbyterian Association of the Federal Union of the Churches of the Protestant denomination was organized at a large gathering yesterday afternoon in St. Andrew's church.

APPOINTMENT PROTESTED

Halifax, N. S., Feb. 24—(Canadian Press) The Atlantic Collieries Company at Port Morien nominated C. Oshroff Macdonald as its representative on the conciliation board but since his appointment the solicitor for the miners filed a protest against his appointment, as he was a director of the company and otherwise financially interested. The protest will delay the meeting of the board indefinitely.

BURIED TODAY

The funeral of Mrs. William Brown was held from her late home, 9 Marsh street, this afternoon at 2:30 to the cathedral, where the burial service was read by Rev. Father Dicks. Interment was in the new Catholic cemetery.

LOITERING IN STREET

Under the Dominion Act this morning, Felix Holland and Jeremiah Barrett were before Judge Ritchie charged with loitering in Clarendon and blocking the passage way. They were each fined \$5 or one month in jail, but the fines were allowed to stand. A report had been made against John Fox as well but Sgt. Finley brought the matter to court said that he had taken to the woods. The men both pleaded not guilty to the charge, but Finley told of having had to move them from the head of Rodney street, where, with three other men, they had been standing.

DEATH OF MRS. MARGARET VAIL

Mrs. Margaret Vail, widow of Aaron Vail, died suddenly this morning at the residence of her son-in-law, John Durbin, 29 Carleton street. Mrs. Vail, who was in her sixtieth year, was a native of Springfield, Kings county, but had been residing in the city for a number of years. She has scores of friends and acquaintances who will hear of her death with deep sorrow. Mrs. Vail leaves one daughter, Mrs. Durbin, and her aged mother and one sister, Mrs. Geo. Scribner of Springfield. Funeral services will be conducted by Rev. W. Camp this evening at 8 o'clock. The body will be interred at Hatfield's Point on Sunday.

LOCAL HOCKEY

Arrangements have been made for a game here on Wednesday night between the Thistles of St. Stephen and the St. John league teams. The home team says lette are about the fastest they have had since the days when the black and red were members of the New Brunswick League. They played a string of games this season without a defeat, their victims including Margville. They also played a tie with the U. N. B. in Fred. erston. The blue and white will have their strongest lineup and one of the best games of the season should result.

THE TIMES' NEW REPORTER

THE MISSING

Mayor Prink has received a large number of letters from persons who undertake with a mineral roll to locate the 225 mine shafts of stone. One man writes that he has located hundreds of wells, and says that he is ready to begin at once, as neither ice nor snow affects the working of the mineral roll in his hands. The members of the board of works do not look with favor on this proposition. They may decide to have a mineral roll made. This would give employment to move men, and thus benefit the community.

A GOOD PLACE TO BUY GOOD CLOTHES

THE FINISH OF Gilmour's Sale

This month positively ends our sale of suits and overcoats. While our line has, of course, been greatly reduced the opportunities now here are proportionately increased in value to the man who is looking for unusual bargains.

Suits have now been discounted still further to close them out immediately.

The remaining Overcoats have suffered similar reductions.

To those who are looking for an opportunity to get genuinely good clothing at about half the usual price, we say, "Don't hesitate another instant. Call at Gilmour's today or tomorrow at the very latest, and get your share of the few remaining bargains."

Opportunities for Profitable Investment

The ideal way to save money is to invest it where it will be safe, and yield a liberal income.

If for a period of years the net earnings of a company issuing bonds are sufficient to pay the interest, charge several times over, your returns are thoroughly secured.

It therefore involves no departure from the principles of conservatism to make your money earn from 5 to 6 per cent—it simply means you place your money in a profitable business where it will earn legitimate business profits.

Write us today, in a general way, what your investment needs are—the amount you have to invest—and we will at once mail you a special list of high grade securities, and will be pleased to give you full information concerning any issue on which your interest centers.

Washington, Feb. 24.—The Canadian reciprocity agreement was ordered reported to the senate without recommendation. Take in Reciprocity—Representatives of certain organizations of farmers took objection of the hearing yesterday, before the senate committee on reciprocity, to the fact that the industries of the country regard the tariff administration as under contract to do nothing that would tend to injure them.

Former State Senator Elton R. Brown, of Waterbury, N. Y., spoke for certain paper manufacturers as well as for agricultural interests. He declared that under the reciprocity principles of the country, the paper industry had been nursed along until it was able to stand upon its own feet. Now, he said, the president proposed to knock it down at the behest of newspaper and newspaper men, whom he characterized as "a common and ordinary lot, if their influence upon the legislature of the country may be taken as an example."

RAILROADS TO FIGHT; BUT HOW?

(Canadian Press)

Washington, Feb. 24.—That the railroads of the country will continue their fight against increased freight rates is the general belief here today. Through the present contest is ended so far as the Interstate Commerce Commission is concerned, the railroads may find some way to combat the decisions just handed down.

As recent decisions of the supreme court have indicated that decisions of the commerce commission on questions of fact will be held final and not subject to review, just how the railroads can wage their battle remains to be seen.

New York, Feb. 24.—The sweeping directions of the Interstate Commerce Commission forbidding rate increases in the official classification territory and all the roads in the great middle west, were attacked by newspaper and newspaper men, who declared that the directions will undoubtedly result in curtailing present plans for improvement.

On the other hand manufacturers and merchants are jubilant over their victory before the federal board and agree with Louis D. Brandeis, who reported the ship-owners before the commission, that the directions mark a new business life era in United States railroad affairs. The railroad chiefs declare that the weight of the decisions will ultimately fall upon the wage earners causing a decrease in the earnings of hundreds of thousands of employees. But Attorney Brandeis asserts that the direction is of particular benefit to wage earners, "upon whom the burden of advance in the rates would have ultimately rested."

Near Mangrove in South Canada there is a tribe of people, the Kudjias, who have become tree dwellers by necessity. They live in huge built amid palm and other tall trees in order to protect themselves against attacks of elephants and other wild beasts of the jungle. Their clothing consists of the bark of certain kinds of jungle trees, and they subsist on yams and nuts. One of their chief occupations is honey-gathering, a very dangerous employment since the bees of Canada build their honey-combs on the high tree tops, often as much as 120 feet high.

The Street Railway Extension

To the Editor:
Sir—The account of the action of the special committee of the municipal council and highway board taken in reference to the St. John street railway's request for permission to operate its services in the county of St. John, as reported in the Daily Telegraph, this date, if correct, is simply in "oblique" to some of the members of the common council. These gentlemen are certainly men of business and are using good business methods in dealing with this matter. It would appear that the street railway has been having its own way too long, until now it has become like a spoiled child; if it cannot get just what it wants, it won't take that which is offered, and which would appear far better for its own interest.

AS ONE MAN.

It was a stormy night, and the audience of Professor Chestnut, mind-reader and prestidigitator, was composed exclusively of men and boys. The lecture had begun at half past seven, and it was nearly an hour later when Professor Chestnut began his exhibition of mind-reading.

"There is a man in this hall," he said, gazing at the ceiling for inspiration, "whose mind I can read like a book. He means well, is a good father and a kind husband; active in the church and in town affairs. He has only one fault that I can see—he is forgetful."

"This very forgetful man," said the patient, hardworking wife asked him—

"There was such a sound of snuffing and trumping in the hall that the mind-reader paused, and lowered his gaze. The men were fidgeting, and the boys were moving up toward the front.

"It's yeast-cake night," cried the small boy, "and the store'll be closed in ten minutes! Say, mister, read our minds before they get back."—"Youth's Company" will meet with hearty approval of men.

IN 1898

The London Lancet, after a careful examination of

Scott's Emulsion

reported that "the preparation fulfills ALL the requirements and presents ALL the conditions of a very satisfactory emulsion. In appearance and consistency it is not unlike cream and under the microscope the fat globules are seen to be of perfectly regular size and uniformly distributed. So well has the oil been emulsified that even when shaken with water it does not separate. The taste is decidedly unobnoxious and the Emulsion should prove an excellent food as well as a tonic."

We believe no other preparation of cod Liver Oil has received such weighty commendation. The same is true of other emulsions, but we believe no other is so fine, more digestible, more palatable, and more satisfactory in every way; in fact, SCOTT'S EMULSION is so long as the one satisfactory and perfect Emulsion that it is accepted as the standard by medical practitioners all over the world, by the public and by hundreds of imitators, for it is the one and only Emulsion limited.

The imitations are in name only for other preparation of cod Liver Oil is so pure, so perfect and so beneficial.

SCOTT'S EMULSION

has become the world's Standard Body-Builder because of the perfect purity of its ingredients, its absolute freedom from ALCOHOL, or any other harmful substance and because the results from it are uniform and far greater than from any other preparation.

ALL DRUGGISTS

The Evening Chit-Chat

By BUTH CAMERON

I HAVEN'T forgotten that this column is to be occasionally dedicated to telling something about unique occupations for women. It is simply waiting for some of you people to tell me of unusual occupations of which you know.

In the meantime I have a suggestion along that line to make. It isn't anything that anyone I know of ever did.

Why couldn't some woman with an eye for clothes and fashions and some artistic sense start a "sartorial bureau"?

I don't believe one woman in ten gets anywhere near the possible value out of the money she puts into her clothes. By "possible value" I mean the full value in attractiveness, suitability, style and wearing qualities that could be gotten out of that money by someone who really understood the art of clothes.

The business of this "sartorial bureau" would be to supply each woman advice, and when desired, actual oversight in clothes buying.

Perhaps an illustration will make my meaning plainer. Miss H. is a stenographer who has a very good salary and who spends about \$300 a year upon her clothes. That ought to purchase her a pretty wardrobe but she is a woman without that sort of sixth sense which some women have—the clothes sense—and she does not have time to study up styles and lines and colors and materials, and consequently she never seems to get just the "right" things, and is seldom as well dressed as Miss L. who has about half as much money to spend but much more time and taste.

So Miss H. goes to the sartorial bureau. She goes at the beginning of the season and announces that she has \$100 to spend on her winter wardrobe. Now the sartorial bureau, according to my idea of it in its completeness, consists of a good executive head with a staff of women, some of whom have artistic ability, some of whom are particularly well versed in styles, and two or three who thoroughly understand materials and the art of shopping.

Miss H. is received by the executive head who plans the spending of the money in a general way. She is then handed over to the artistic woman who tells her what colors and lines she should use, and finally consults with the authority in styles who goes over fashion books with her and suggests becoming styles.

For all this advice she pays a proportion of the amount to be spent, say about four per cent.

If after this she desires the services of a sewer these are supplied at so much an hour.

Perhaps her whole bill from the bureau is seven dollars and at this expense she makes sure of a winter's wardrobe infinitely more stylish, more becoming, and more thoroughly "right," than she has ever had before.

Of course, I realize that such a staff could not be maintained, until a large business had been built up, but I think the business could be started by a woman who had taste and a good amount of that sixth sense, and who combined to a certain extent all the necessary capabilities.

Of course the larger part of her customers would be women who had a good deal more money to spend than Miss H., but I cited her case more to show the value of such a bureau to women of even moderate means.

Is it such an impossible scheme? I wonder.

HAYMARKET FAIR

Mich Cows Scarce—Much Hay in and Tending Downward—Fine Young Pigs Shown

There was a scarcity of new milch cows at the Haymarket Fair yesterday. An abundance of hay, some of it of a superior quality, some indifferent, was for sale. The excellent winter hauling has induced many farmers within 20 miles of the city to send their surplus hay to the market and the result is that prices have a downward tendency for some hay just now.

The scarcity of new milch cows has forced the price up, and for a real good milch cow the price is at \$70 and \$80.

Because of the scarcity of milk there was not an actual fair for young pigs. P. S. Carter, of Fair Vale and Messrs. Barrett and Gordon of St. John county, showed some fine ones. The price of young stock is not any higher than last spring, ranging from \$4 for pigs; four and five weeks old, to \$5 and \$6 for those two months old.

POWER BOAT CLUB SMOKER.

The last smoker for the season of the St. John Power Boat Club, which was held last night was a great success. S. P. Goror, the commodore, was in the chair and spoke of the plans for the coming summer, which he hoped would be very successful. There was an orchestra present, and L. J. Gallagher, as on former occasions, acted as accompanist to the soloists. Following was the programme: Orchestra, soon sang with banjo accompaniment; F. Whelan, accordion solo; W. L. Brown, reading; George Titus, comic solo; J. Myers, piccolo solo; selection by the orchestra; Hugh Campbell, solo with orchestra accompaniment; A. G. Hannis, short travel talk; Blake McInerney, reading; Wm. Harley, dancing; Mr. Ingraham, reading; Roscoe Bond, comic solo; Mr. Totten, dancing; H. Howe, comic solo.

IN PARLIAMENT.

Ottawa, Feb. 23.—The debate on reciprocity was resumed in the house of commons today by Dr. Clarke, a western Liberal and an advocate of free trade. He declared reciprocity meant prosperity for Canada. Richard Blain, of Pees, followed in opposition to the agreement and Mr. Mulloy, a western Liberal declared the manufacturers were financing the newspaper campaign.

Major Beattie, of London, has given notice of a new flagging resolution. He asks the house to adopt regulations that whenever a foreign flag is raised in Canada, a Union Jack of equal size must be hoisted with it and given the more prominent position.

Ottawa, Feb. 23.—The government has renewed for a year the contract for a fortnightly steamship service by Pickford & Black from St. John and Halifax to the West Indies.

GREAT CONGRESS OF ALL RACES

Representatives of Fifty Countries to Meet in London in July

London, Feb. 24.—A unique congress, to be known as the Universal Races Congress, is to open in London on July 26. This congress, which will last for three days will be a romance of realism. All mankind will then assemble in council in the very heart of the British Empire.

The originator of this congress is Dr. Felix Adler, of Columbia University, in New York. In the summer of 1906 a conference was convened at Esplanade, when it was declared that, though the modern conscience had advanced in general sentiment and strength, it is, nevertheless, internationally weak. The modern conscience is indeed at last becoming alive to what are known as social problems in the interior life of the community, yet it has not learned to apply itself with adequate power to the problems presented by racial divisions.

In order to remedy this growing evil, the Universal Races Congress will be convened in London, and its prime object will be to cultivate mutual knowledge and respect between Occidental and Oriental peoples.

The British Government has given this congress its moral and material support, and the invitations to the foreign states have been despatched through the agency of the great number of races that will be represented may be gathered from the fact that, some fifty countries have promised to send delegates. There will be present more than twenty-five presidents of parliaments, the majority of the members of the permanent court of arbitration and of the delegates to the second Hague conference, twelve British governors, eight British premiers, over forty colonial bishops, about 100 professors of international law, the leading anthropologists and sociologists, the officers and majority of the council of the Inter-Parliamentary Union, and other distinguished persons.

those who will read papers will be several prominent Hebrews.

FORTY-FIVE FEET DEPTH OF WATER IN GASPE BASIN

Building of Railroad to Talked of Winter Harbor is Expected in Spring—A Summer Resort

Quebec, Feb. 24.—Survey work, which has been going on throughout the winter on the Canada & Gulf Terminal Railway, from the steel end at Matane to Gaspe, has progressed sufficiently to assure a sixteenth line throughout the peninsula, and construction of the road is expected to start early in the spring.

Sounding tidal observations, etc., by government and railway engineers at Gaspe Basin this winter are said to have revealed all doubts as to the feasibility of the basin as a winter port, a depth of more than forty-five feet of open water the year round being found where it is proposed to construct a wharf to cost \$400,000. The portion of the Canadian & Gulf Terminal now being operated from St. Flavie to Matane, which was opened in December last, has developed an enormous amount of traffic, both in freight and passengers.

Summer visitors to Matane have always been impressed with the possibilities

ART CLUB BRIDGE The bridge party given by the Art Club in Keith's assembly room last evening proved to be a brilliant social affair. Over eighty couples were present and the entertainment, which was conducted for the purpose of providing a fund for the purchase of pictures, with the view of starting an art gallery, proved to be most successful. The rooms were prettily decorated with yellow and white as the predominating colors. Daffodils and other spring flowers were used to good effect. The first part of the evening was taken up with what playing, after which supper was served. Following the supper an informal dance was held and it was at an early hour in the morning before the assembly broke up. The following were the successful prize winners and the names of the donors: Ladies first prize, Mrs. M. G. Teed, a hand-painted plaque, by Miss McGovern; second prize, Mrs. J. Fraser Gregory, a set glass set, by W. H. Hayward; third prize, Miss Ada Taylor, a hand-painted vase, by Miss McGovern; fourth prize, Mrs. Ralph Robertson, a bottle of perfume, by M. V. Paddock. Gentlemen, first prize, M. G. Teed, a thermos bottle, by W. S. Fisher; second prize, R. G. Schofield, bridge set, by J. E. Secord; third prize, A. D. Sibley, a hand-painted stein, by Miss McGovern; fourth prize, Mrs. Merrill, first aid to the injured, by A. D. Thorne.

The Acorn Sunday Mission band of St. John Presbyterian church last night held a very successful Japanese tea and fancy sale. After tea had been served from 4 to 5 to the members of the band gave an entertaining programme. Miss M. H. Anderson sang "A Japanese Love Song."

MRS. MAHONEY'S CASE
Something Should Be Done To Improve Poor Woman's Situation

About three weeks ago there was brought to the attention of the readers of this paper, the sad condition of Mrs. Patrick Mahoney, who is living in impoverished circumstances in a damp, old basement of a house in Brussels street, and who is beginning to despair her destination, as apparently from day to day, her lot grows worse.

Today a Times' reporter again visited the squalid quarters, which are practically nothing more than a cellar, and found that there was little reason for her unfortunate condition, and that she had suffered considerably in the last few days.

She said this morning that her husband had threatened to kill her instead of trying to improve her lot, had cruelly treated her, and absolutely refused to aid her, except that he purchased a small quantity of coal, which did not last long. She said in spite of the fact that he was earning fairly good wages had left her in dire poverty, and today she was without food, clothing or proper care.

It is felt that something should be done for poor women who, besides being destitute, is ill and finds it difficult to arise from her miserable bed, even to walk upon herself. Those who are acquainted with the matter say that the husband is made to do so properly, either bettering her deplorable condition in the Brussels street home, or else placing her in a better situation where she will be attended to with the care and attention which are absolutely essential that she may live.

PROSPECT GOOD FOR PULP MILL SALE
That the Miramichi Pulp Mill matter will work out all right is the opinion expressed today by R. A. Lawlor, K. C. of Chatham, solicitor for the liquidators, who arrived in the city yesterday and is at the Royal Hotel. Judge Barry has empowered the liquidators to sell the property for \$345,000 with a three months' option, a deposit of \$15,000 to be made one month after the option is taken, the amount to be forfeited at the expiration of the three months' period on failure to complete purchase. There is, Mr. Lawlor says, \$25,000 worth of material on hand unaccounted for, which is included in the price fixed. There is now 3,000,000 of lumber on hand so that everything is in shape to start operations.

Both English and Canadian capital are looking favorably on the property and it is felt that a sale can be made with little difficulty.

PREPARE TO RESUME THE DREDGE WORK

Repairs to Government Dredgers Here, on the North Shore and at P. E. Island—A New One Being Built

With the advent of spring the dredges owned by the federal department of public works, which have been working in New Brunswick and P. E. Island during the last year, will be ready to resume their digging. At the present time the big machines—six in number—besides tugs and scows, are being thoroughly overhauled, repaired, cleaned and painted so as to be in first class shape when the season opens. A new dredge is also under construction in Nova Scotia and when completed will be utilized for work in Prince Edward Island.

The big bucket dredge, W. S. Fielding, which has been digging out the channel into the harbor, was laid up on December 21, as a number of the buckets had to be renewed and others repaired. He is now lying at Lower Cove and her crew of thirty odd men are giving her a complete overhauling, painting her inside and out and cleaning up generally. The St. John Iron Works Co., in making a lot of new buckets and about twenty-five are now ready to be installed, while the James Fleming Co., is making repairs to the machinery and buckets. The work is being done under tender.

The dipper dredge, New Brunswick, is undergoing repairs on the west side. In addition to members of the crew there are four men from Fleming's foundry overhauling the machinery and putting everything in first class shape. The New Brunswick section dredge, is at Bathurst, where the captain, two engineers and six other men are giving her a thorough overhauling in preparation for spring work. Repairs to the machinery are being looked after by the Phoenix foundry and North Shore Machine Shop.

At Dalhousie, the bucket dredge, St. Lawrence, is being repaired by McLean & Co., of Campbellton, under contract. Nine men are employed and the digger will be put in first class shape. The Montague and the Prince Edward both dredges of the dipper type, are being overhauled at Charlottetown, P. E. I., by the captains, engineers and a number of spare men. It is said they will probably continue the work on which they were engaged last season at the island, as soon as spring opens.

A new suction dredge for work at P. E. Island is now being built in Nova Scotia. The hull is about completed, and the machinery will be placed as soon as possible. This machine is intended for shallow water.

The three tugs which were in attendance on the dredge Fielding, are also being overhauled and repairs made. The Helena and Canoe are on Gregory's blocks both being cleaned and painted through and through. Repairs to the machinery are being looked after by Messrs. Fleming. The Hercules is at Indian-town receiving a general overhauling. The headstall is looking after repairs to the boiler and the Union Foundry is installing a new smokestack.

A number of scows are also being repaired, in fact it is necessary to keep men almost constantly at work on these craft. With all this work under way, it will be seen that employment is being given to a very large number of men, and the dredging equipment of the government is being put in first class shape for continuing necessary work in this province during the coming summer.

LOOK UNDER HASSAM PAVEMENT, HE SUGGESTS
Citizen Writes to Times in Reference to That Missing Stone

A citizen who is much interested in the mystery of the loss of the 250 tons of stone asks the Times if any attempt has been made to trace any of it to the under side of the Hassam pavement. He says that he may be wrong, but he would like to see a few slabs taken up in the course of the search for the missing property. If it were found that some of the stone there, the public would at least be assured that it is in a safe place. How it got there, might be another story, and this citizen says he is fond of good stories.

"And you," he said, "merely make this suggestion, as an addition to the many theories advanced. The stone is somewhere—where is it?"

MR. FLEMING TO RESIGN
Hartland Report That Provincial Secretary is to Retire from Politics After Session

Hartland Observer—According to the statement of a bosom friend, Mr. Fleming has practically decided to resign his office and retire from politics in order that he may give his entire attention to the lumber business. His retirement, so his friend says, is to take place immediately after the session closes.

Y. M. C. A. AT HOME
A pleasant time was spent last evening in the Y. M. C. A. building when a reception was held in honor of C. K. Cadogan, field secretary, of Montreal. He delivered an interesting address on the progress of the association in the last few years. During the ten years just passed the growth, he said, had been remarkable. New buildings had been erected in most of the important cities throughout Canada, and those places where were none creditable structures. He referred to the development in the Y. M. C. A. through out the west, and also spoke of the buildings which the C. P. R. had erected for the benefit of the Y. M. C. A. through out the west, and also spoke of the buildings which the C. P. R. had erected for the benefit of the Y. M. C. A. through out the west.

ADrift OFF ISLAND
Drifting about in a disabled gasoline boat, Pilot Rogers and another man were picked up some distance off Partridge Island this morning and brought in here by a power boat from Lunenburg. The men put out early this morning and were just off of Monaghy Island when some thing went wrong with the machinery of the boat. She commenced to drift out in the bay and was pretty well out when sighted by the Lunenburg boat.
