

# HARTLAND ADVERTISER

VOL. II.

HARTLAND, N. B., SATURDAY AUGUST 20, 1898.

No. 28

**T**HE fondness some advertisers have of throwing bouquets at themselves is remarkable.

Instead of getting down to business, and telling people what they want to know, they waste their valuable space by pointing the finger of pride at themselves.

"Look at us," they say, "We are the people," "We are honest," "We are so busy, we can't find time to eat." "We lie awake nights studying up nice things for the dear people." "We sold 15 cars goods in 13 days, 5 hours and 17 minutes by the clock; what do you think of that?" "Just stick to us; we are a good thing." "We never deceive anybody!" "We are the truly good." "Our store is a palace; a veritable fairy-land, a paradise of enchantment, and we can prove it. Whoop!"

All of which strongly moves all sensible people to exclaim, "Rats!"

**The undersigned simply says:  
Call and examine Goods and get  
prices. If you are doing as well  
elsewhere, then you are getting a  
good trade. If not, then buy from us.**

**J. T. G. CARR,**

Agent for Connell Bros., and Liverpool & London & Globe Insurance Co.

## TAYLOR'S ANNOUNCEMENT.

**H**AVING overstocked with Shirt Waists, I find it necessary to slaughter prices. Call and examine.

**Berries Wanted.** 10 tons of Raspberries and Blueberries. High market prices paid. Raspberries must be delivered not later than 9 o'clock next morning after being picked.

Bring your **WOOL** and exchange it for **Moncton Cloth** at once, as the price may drop. I guarantee the cloth.

High prices paid for Chickens; also for good package Butter and all farm produce.

**C. HUMPHREY TAYLOR.**

## THE NEW GAOL.

### The Work to Go On at Once.

A meeting of the committee on the erection of the new gaol in Woodstock was held on Tuesday, Hon. G. W. White presiding. It was decided to proceed with the work as soon as possible. Councillors White, Henderson, Saunders and Moores were appointed a sub-committee to visit Houlton gaol and get all possible information available from that source, and if necessary to call for plans and specifications for the new building. Henderson, Saunders and Purrington were appointed a sub-finance committee. The gaol is to be built in the rear of the Record office.

It is wonderful the popular protestations against this new gaol question. The council is supposed to represent the people, but if the people voted, the motion for a new gaol at Woodstock would not have been carried.

## S. S. CONVENTION.

### Annual Meeting at DeBee.

The annual meeting of the Carleton Co. S. S. Convention was held at DeBee on Monday and Tuesday. The first session was held Monday evening. The program consisted of devotional exercises, address of welcome by Rev. Thos. Miller, responded to by Pres. A. H. Hayward; addresses by Rev. W. J. Rutledge, Miss Lucas, and the Provincial S. S. Assoc. Pres., Rev. F. W. Murray of Miltown.

The second session was opened by devotional exercises, and verbal minutes by S. J. Parsons. Appointment of committees; conference on Parish work by Field Sec'y Lucas. Executive and Treasurer's report evoked a lively discussion and the result will likely be seen in better statistical reports being received from Parish officers.

Third session:—Bible reading, adoption of minutes. W. L. Tracey, Normal Supt., gave a very clear and hopeful report. L. A. Young gave an excellent normal lesson on the Temple. The Primary hour was led by Miss Lucas. After a few suitable remarks she introduced Mrs. C. C. Clark who very impressively answered the question "Why should we train very young children." An excellent supplemental lesson was given by Miss Lucas.

Officers elected: Rev. D. Fiske, pres.; C. N. Scott, cor. sec.; Miss Scott, asst.; Jas. Watts, rec. sec. The president elect having been conducted to the platform by Bro. James Forest was cordially welcomed by retiring Pres. Hayward, and duly responded and assumed his duties.

The next meeting will be at Benton, on the third Tuesday in August.

Evening session:—Singing; prayer; minutes. The meeting became largely a temperance one. The audience was much too large for the seating capacity of the house. Mrs. Dickinson and Mrs. Clark ably represented the W. C. T. U.

Their addresses were heartfelt, logical and impressive. A solo "And I shall see Him face to face" by Fred Moore. Geo. Calkin gave a stirring address on the behalf of the W. C. T. U. Rev. H. D. Marr responded. C. L. Smith, M. P. P. also spoke.

Rev. D. Fiske, the returned delegate to the World's S. S. Convention, gave a most interesting description of his trip.

## THAT FLAG RAISING.

### An Enjoyable Time at Peel.

The day was favorable and therefore there was a good gathering at the Peel flag raising of last Saturday. Mr. Hale who presented the flag, was unable to be present on account of illness, and Mr. Dibblee, who was looked for, found it impossible to attend.

The first on the program was the flag drill by sixteen charming young ladies. This was well carried out to the music of the 67th Band. Immediately at the close of this performance the flag was hoisted to the inspiring strains of "Ru'e Britannia."

J. K. Flemming was the first speaker and his native eloquence was manifest. "The Greatness of the British Empire" being ably handled, and in such a way as to inspire the listening crowd.

The ADVERTISER regrets the impossibility of giving an epitome of the different speeches, which were all good. There were Revds. A. H. Hayward, J. J. Barnes; C. L. Smith, M. P. P.; S. Watts, Capt. J. R. Tompkins, Hon. G. W. White, D. W. Hamilton and A. A. Rideout. The latter's "dog story" and the allusion to the Hartland bridge was well received.

On the programme was a recitation, excellently rendered, by Miss Bessie Ebbitt.

Dainty picnic tables were spread, and the biggest and largest appetite was abundantly satisfied.

The Flag Drill was repeated at the winding up, and was equally well received as at first. Too much praise cannot be spoken for the manner in which this little parade was carried out. J. K. Flemming and E. W. Harmon were the instructors. A recitation by Miss Boyd was well rendered.

With the playing of "God Save the Queen" the crowd dispersed.

The parish meeting of the Prohibition workers held in the Baptist church was fairly well attended. C. J. Connelly, Vice President for Brighton, occupied the chair. Rev. J. B. Daggett was chosen as permanent secretary for the parish. Agents were appointed to represent them to be in attendance at the polling booths on election day. A committee on literature was struck with instructions to make a general distribution of prohibition literature. The secretary was instructed to arrange for a series of public meetings in the parish. Meeting adjourned to meet next Friday night in the Baptist church at 8 o'clock.

### Could Not Dress Alone

A Nova Scotia Farmer Tells of His Intense Suffering From Rheumatism and How He found Relief.

From the Bridgewater, N. S., Enterprise.

Such suffering as rheumatism causes the victim upon whom it fastens itself is almost unendurable. Only those who writhe under its pangs can imagine the joy of one who has been freed from its terrors. Mr. J. W. Folkenham, of New Elm, N. S., is one of those who have been released from pain, and who believes it his duty to let others know how a cure can be found. Mr. Folkenham is a farmer, and like all who follow this arduous but honorable calling, is subject to much exposure. It was this exposure that brought on his trouble and caused him so much suffering before he was rid of it. He says:—"In the spring of 1897 I contracted rheumatism. Throughout the whole summer I suffered from it, and about the first of October it became so bad that I could not get out of the house. The pains were located in my hip and back, and what I suffered can hardly be expressed. I became so helpless I could not dress myself without aid. Eventually the trouble spread to my hands and arms, and at times these would lose all feeling and become useless. In November I began using Dr. Williams' Pink Pills, and after taking four boxes began to improve. After using six boxes the pains and soreness had all gone and I was able to do a hard day's work. I intend using a few more boxes more as a precautionary measure, and I would earnestly advise those suffering from this painful trouble to give Dr. Williams' Pink Pills a fair trial and be made well.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.

#### The Cause of Laughter.

Bain suggests the explanation that laughter is provoked by what he calls a degradation, meaning that we laugh when we all at once perceive something degrading, a trickery, a weakness or a pettiness in some person or object which we respect, as when the infirmities of human nature disclose themselves in a person of importance or when some trivial affair occurs in a solemn ceremony to drag us down or when the wrong side of some great thing or some great man is exposed.

"The occasion of the laughter is the degradation of a dignified person or interest under circumstances that do not excite a stronger emotion. In all theories of laughter the more or less important fact is marked \* \* \* that the feeling of the ludicrous arises when something which we respected before is presented in a mean light, for we have no disposition to laugh when something that we already regarded as such is depicted as tricky and vile."—Popular Science.

#### Wheel Whirls.

The law in Germany is that in the event of an accident on a tandem the front rider is to blame.

The Japanese are, as a race, so small that it is necessary to build specially low bicycles for them.

Stevens, the first cyclist to journey round the world, states that the best part of his lengthy and adventurous journey—always excepting the heat—was down the Grand Trunk road of India. The worst was in Utah.

Cyclists in Roumania are compelled by the authorities to have their name and address not only upon some part of the machine, but also upon the lamp glass in order that the riders may be identified at night.

#### All Sorts

Takes the cake—the oven.

A woman's age is hers to keep.

A man is generally willing to tell his wife all about a thing that he thinks he is likely to find out anyhow.

We must not expect everybody to be dignified. We would lack for sweet things if there were not some people who raised cane.

To the man in the barber shop.

"And I want it cut just like papa's.

A tumbler full—the intoxicated acrobat.

The woodcutter is a chipper sort of a man.

Women find horseback riding a sort of one sided pleasure.

#### A Wonderful Liver Cure.

The manager of the electrical exposition in Philadelphia asked Mr. Edison to visit the show and give a short talk on some electrical subject, or if he found it inconvenient to do so to send on a phonographic cylinder setting forth some of his latest ideas of electric interest. Mr. Edison complied in his own way with the latter request, and in doing so while omitting any reference to electricity, produced an electrical effect upon the management and the auditors by his contribution. It was as follows:

MY DEAR MARKS—You asked me to send you a phonographic cylinder for your lecture and to say a few words to the audience. I do not think the audience would take any interest in dry scientific subjects, but perhaps they might be interested in a little story that a man sent me on a phonographic cylinder the other day from San Francisco.

In the year 1873 a man from Massachusetts came to California with a liver complaint. He searched all over the coast for a mineral spring to cure the disease and finally he found down in the San Joaquin valley a spring the waters of which almost instantly cured him. He thereupon started a sanitarium, and the people from all over the world came and were quickly cured.

Last year this man died, and so powerful and been the action of the water that they had to take him out and kill it with a club.

Yours truly,

EDISON.

#### Kidney-Bladder Trouble.

There is no more serious menace to good health in the present age than Kidney disorders, and it's an appalling fact, but a true one, that four-fifths of the country's people have the taint of this insidious disease with them. Dr. Chase's Kidney-Liver Pills cure all Kidney disease.

## Well, That's Cool

Is what everyone says when they get a glass of Soda from Thistle & Co's new fountain. "How refreshing" are other expressions. The new fountain, which is a picture to look at, produces many different flavored Sodas, including Cream Soda and Orange Phosphate. Call and get a drink. A no more refreshing nectar flows in Carleton Co. This warm weather is fatiguing, don't suffer with the heat, cool yourself at Thistle's fountain.

**A Thriving Business.**

Stepping into the Woodstock Steam Laundry one is surprised with the hustle and bustle seen. If "cleanliness is next to Godliness" Mr. Snow must certainly be engaged in a high calling. Each week hundreds of bundles of clothes in various degrees of soiling enters this establishment and as many come forth again in a state of cleanliness and gloss that makes the home laundries turn green with envy. The high class of work done by Mr. Snow has won for him a reputation that smaller laundrymen might well sigh for.

Mr. Snow has been in the business ten years. He began in a small way, and on the merits of his good work has built up a tremendous custom and now possesses an establishment the equipment of which is not surpassed by any other laundry in the province. He fears no competitors. He began business on King street where he remained until September 1895, when a devastating fire very nearly ruined his plant. Nothing daunted he rustled around and in a remarkably short space of time was in a building especially constructed for him on Emerald street, only a step from the Carlisle and Aberdeen Hotels. In the establishment there are the following machines and appliances, all the latest improved and best of their class: a fifteen horsepower engine and boiler of the famous Leonard make, supply power, then there are two washing machines, each capable of washing 100 shirts at one time; a centrifugal wringer capable of expressing the water etc., from 35 shirts at a time without the slightest danger of tearing off buttons ripping or wearing the garments; from this machine the shirts, etc., go to the starching table, and the collars and cuffs to a novel starching machine. The starch is made in a copper receptacle, and there is not the slightest danger of iron rust in washing, ironing or starching. From the starching machines the clothes go to the steam dry room, where, free from the danger of soot or smoke, they are dried. From this to the ironing and polishing machines. For shirts, collars and cuffs there is remarkably fine machinery. It would delight the heart of woman to see the work done. The collar shaper obviates all possibility of breaking the linen and gives a perfect form.

Mr. Snow is always very glad to show women and others through his establishment, and extends a cordial invitation to the women of Hartland and other villages to call in and see how the work is done. He believes their good sense will tell them it is folly for them to toil and sweat over their linen when for such nominal prices the work can be so nicely done at the Woodstock Steam Laundry.

These are agents: W. D. Keith, Hartland; J. A. Kirkpatrick, Florenceville; C. M. Sherwood, Centreville; E. H. Hoyt, Andover; William Lister, McAdam; A. J. Martin, Grand Falls; Murchie and Burpee, Edmundston. These are the only authorized agents in each place. Deliver your clothes at their place of business on Wednesday and call for them on Saturday.

R. P. & Co. have Red Rose Tea for sale. Ask your neighbor about it.

**Away to the West.**

The first C. P. R. Harvest Excursion left on Tuesday. From Hartland there left: W. P. McMullin, Cromwell Trafton, Ed. Gillin, Frank Jackson. Mr. McMullin intends returning the last of September, while the others may not return for sometime. Also from Knowlesville: Leonard Doucette and son, and Messrs. McEwan and Gardner.

**Grand Trunk Engineer Swears by Dr. Chase's Kidney-Liver Pills**

Mr. Geo. Cummings, for over 20 years engineer on Grand Trunk running between Toronto and Allendale says:—"The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommended by my fireman, Mr. Dave Couley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me and I feel to-day a better man than ever. I recommend them to all my friends."

**The Toronto Exhibition.**

The Toronto Exhibition will be held this year from August 29 to September 10. Tickets will be on sale from Hartland to Toronto and return, good going Aug. 30, 31, Sept. 1, 3 and 9 at \$21.45 each, and on Sept. 2 and 5 only at \$16.00 each. All will be good for return passage until Sept. 15 and will be good to travel via Ottawa. In purchasing tickets be sure and ask for them via the C. P. R., thus spending only one night on the road.—3 wks.

**An Ontario Farmer Rescued by Paine's Celery Compound.**

WELLS & RICHARDSON Co.,

GENTLEMEN: It is with very great pleasure that I testify to the value of your great medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion and kidney and liver troubles. After trying several medicines that did not affect a cure, I decided to try your compound. Before using it I was so low in health that I could not eat or sleep I could not lie in bed owing to pain in my back, and it was only by resting on my elbows and knees that I was unable to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine I began to improve. I have now taken in all fourteen bottles with grand results. I am a farmer and am now working every day. I am a living witness to the worth of Paine's Celery Compound.

Yours sincerely,  
G. J. SMYE,  
Sheffield, Ont.

FRED H. STEVENS, - Editor & Publisher.  
HARTLAND, Carleton Co., N. B.

HARTLAND, N. B., AUGUST 20, 1898.

The Plebiscite Campaign is receiving much attention throughout the Dominion. In New Brunswick, in Carleton Co. particularly, the favorable majority will be great, no doubt. But there are other parts of the Dominion where the vote will be reversed. The "victory" won't be as great all over Canada as it looks at our local meetings. The ADVERTISER will vote with the temperance people—and its columns are open to any correspondence calculated for the promulgation of the Prohibition question.

**New School House Wanted**

The village schools re-opened on Monday. The staff is limited to two teachers, A. A. Rideout being principal and Miss Susie Pass teaching the primary department. There are over 120 scholars in attendance, and they are packed together in the little old house like sheep in a stock car. In the higher department there are twenty-five per cent more scholars than the law allows, while in the primary there is an excess of fifty per cent. An effort is being made to get another teacher and start again another school in the squalid apartment improvised last year.

Inspector Meagher expressed great surprise at the manner in which the present house is crowded.

Personally the ADVERTISER has nothing to say in regard to the matter, but from a humanitarian's standpoint must declare that a new building is a pressing need. The reason why is manifold.

**Bristol Notes.**

**An Interesting Budget from our Sister Village**

Julius Meyers has moved his family from Hartland and now resides in the lower part of the village.

Miss Lily Churchill left a few days ago for New Hampshire to spend a few months, and her sister Miss Wallie Churchill intends going also in a few days.

Dr. Somerville has bought the building formerly owned by J. E. Kelly and is having it fitted up. He will use the ground floor for an office and drug store and will reside in the upper part.

I. B. Rogers has the foundation and wall laid for a residence near the school. Charles Meed is doing the work.

M. Welsh is making some very noticeable improvements to his residence here, and is now having a well bored near the house. He also intends building another large barn.

School re-opened on Monday, the teachers being Scott Merritt and Miss Mattie Bell.

Miss Annie McLean, who was successful in passing a first class examination has taken the Gordonsville school. Mr. Walton continues another term at West Glassville.

Miss Emack, Andover, has been visiting her friend, Miss Mattie Bell, and also friends at Glassville.

We are pleased to state that Mrs. G. F. DeLong who has been quite ill for some time, is now improving in health. Mrs. James Boyer has been seriously ill for some days, but under the skilful treatment of Dr. Atkinson is now recovering.

A basket social was held in the Egypt school last Saturday evening for the benefit of Rev. E. A. Giberson, who has been laboring there for some time, and a considerable sum was realized.

At the social held in aid of the Catholic mission at Williamstown the sum of \$52 was raised. A very enjoyable time was spent.

A slight, but distinct earth quake shock was heard at several points along the lower St. John River on Sunday morning.

The train-hands say that B. Kilburn of Kilburn, is feeling particularly joyful over the arrival of a son and heir at his home.

The Fraser Richardson mill at Nackawick was destroyed by fire on the night of the 9th inst. A crew had been at work sawing shingles during the day.

There will be a meeting of the Liberal-Conservatives of this section in Hartland next Monday evening for the purpose of effecting organization in a popular manner.

Fewer Bros. of Woodstock have been in the village this week, doing work in connection with the water works. Several more people have had the village water introduced into their houses.

George Nadeau, of St. Francis, who shot a Deputy United States Marshal six years ago and has succeeded ever since in eluding the officers was captured Monday by Marshal Norton and taken to Portland.—Houlton paper.

At nine o'clock on the morning of Aug 10th about seventy-five friends and relatives of Mr and Mrs H. W. Britton met at their residence to witness the marriage of their daughter Inez to Alexander Thompson. The ceremony was performed by Rev. Joseph Cahill.

U. S Consul Dennison, is in receipt from a friend of an interesting souvenir of the naval engagement at Santiago de Cubo. It is a brass button from the coat of an officer of the Cristobol Colon, one of the Spanish vessels sunk in the engagement.—Dispatch.

A quiet wedding took place on Wednesday evening last at the residence of Mrs. James Waugh, Gordonsville, when her daughter Miss Amanda Wagh was married to Mr. W. Harris of Sunbury. Only a few of the relatives of the bride were present. Rev. D. E. Brooks performed the ceremony.

H. D. Keswick is going to remove his business to St. Leonards, and is offering a wonderful cheap sale of all his stock. Everything going at or near cost during all next week. Come and see the bargains offered—for cash only. Plain and fancy crockery at prices never so low. These goods cannot be packed and moved easily, so must be sold. Our low prices will move them.

Keith & Plummer have purchased John Barnett's stock of books, stationery, fancy goods, etc., which, together with their already full stock, makes the most complete line in the village. School books and supplies a specialty. Order anything you want in this line of K. & P. They have also another lot of dress and waist lengths in silk and wool.

A. F. Lockhart of Hartford, has placed Keystone Brush Scourers for cleaning wheat in the grist mills of G. A. Brittain of Bristol and C. E. Giberson of Bath. This little machine makes a wonderful improvement in local wheat grinding, taking out every vestige of barley, oats, buckwheat, cockle and small wheat, leaving the good grain. Last season he put one in his own mill at Hartford and the result was most satisfactory.

The rumours of a revival of the lumber business are not borne out by the latest advices from the markets. Many mills on the Penobscot, says a Bangor paper, are idle, the New York and Long Island markets being exceedingly dull. The European ports alone affords a market, and the prospect there is dull. So much of our local interests are dependant upon the price of lumber that a renewal of activity in this line should be welcomed by all.

New oats came to market on Monday, having been brought in by William C. Rideout of Simonds. The price paid is 25 cents for new oats, while old oats bring 3s cts. But the prices are apt to go down. Butter is bringing 15 cents here, and in St. John is bringing but 12 to 14 cents. Eggs, 8 cents. Old buckwheat is all sold, and new is not yet offering. Hay is too low to quote. Provisions: flour is on the raise; sugar is also advancing.

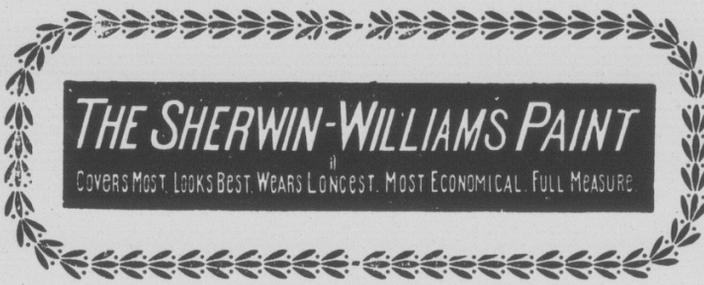

**Picnic at Upper Brighton.**

The annual picnic of the Free Baptist Sabbath school at Upper Brighton was held on Charles Chase's grounds on Thursday afternoon. There was a good attendance; an excellent programme was carried out by the Sabbath school scholars under the direction of Handy Nevers; afterwards tables presided over by the workers of the school, and all were welcomed to an excellent tea. At 7.30 o'clock the company went to the Free Baptist church, and a public meeting was held in the interests of the prohibition campaign. The choir rendered excellent music throughout the service. J. T. G. Carr occupied the chair, and addresses were delivered by Revs J. B. Daggett and Daniel Bayley; and J. K. Flemming and Allen Rideout. There was a good interest manifested, and all the speakers were listened to attentively.

Points of the Protocol,

Basis Upon Which the Spanish-American Treaty of Peace Will Be Founded.

These are among the points covered by the protocol:

The cession of Porto Rico to the United States, together with other Spanish West Indian islands, not including Cuba.

The relinquishment of sovereignty over Cuba.

The cession of an island in the Ladronez.

Recognition that the United States shall temporarily occupy the city and harbor of Manila, until the final decision as to the disposition of the Philippines is reached.

The appointment of a commission to determine the final disposition of the Philippines.

The constitution of a peace commission to arrange the future of the Philippines, with the place and time of meeting.

The suspension of hostilities to follow the formal signing of the protocol.

The evacuation of Cuba, to be arranged by a commission of capitulation.

The disposition of the Spanish warships now in blockaded Cuban ports to be settled by the commission of capitulation.

Raising of the blockade against Cuba.

Certain fortified points, such as Morro Castle and Fort Cabanas, to be occupied by United States troops at the discretion of the President.

Spanish soldiers remaining in Cuba until the end of the rainy season to perform police duty and preserve order.

A special commissioner to be appointed to co-operate with Capt. Gen. Blanco in direction of the affairs.

The Spanish municipal governments to be continued, as was done at Santiago, until such time as the evacuation shall have been completed.

Spanish officials to be permitted to collect revenues with the exception of those imposed upon the importation of food products.

Arrangements to be made for feeding, if not compensating, such Spanish soldiers as shall be employed in police duty.

Mines in the harbor of Havana to be removed by the Spanish authorities.

All minor details regarding the evacuation of Cuba and Porto Rico will be left to the commission of capitulation. This is done in order that there may be no confusion in the protocol.

Manitoba Crop Prospects.

Winnipeg, Aug. 15.—It is estimated that thirty-five hundred extra men will be required to assist in harvesting Manitoba's big crop. Some grain crop experts estimate that Manitoba will produce this year between fifty and sixty million bushels of grain. Others place the figures at forty-five million bushels. The yield of wheat is placed at twenty-five million bushels, but this is said to be a conservative calculation. All grain men seem to agree that the wheat will average eighteen to twenty bushels an acre all round.

Freight coming over the I. C. R. and C. P. R., will be delivered on the St. John Exhibition grounds. Exhibitors sending goods and stock by steamers, will arrange to have them delivered on arrival of boat. Exhibits will be returned to starting point free by all the transportation companies.

Dominion Educational Association.

(Crowded out last week)

The third session of the Dominion Educational Association was held at Halifax on Aug. 2nd to 5th. British Columbia, North West Territories, Manitoba, and indeed all the provinces were well represented, the delegates numbering 1000.

This convention proved to be the most successful, and promised best results of any held heretofore. There were in all forty-two papers given by the very best, and foremost of Canadian Educationists. Those in attendance certainly enjoyed a treat, and a rare opportunity to come in closer touch with the grand ideas and living principles of the educational system of today.

Although Halifax was not a central place of meeting yet a better location for a large gathering in the warm August weather could not easily be found. Indeed all the delegates were charmed with the "Garrisoned City by the Sea."

The representatives from Carleton County were: William L. Tracey of this village and Misses Anna Ross, B. A., Mina Fisher and Louise McCormac of Woodstock.

SUNDRY NOTES.

Mount Vesuvius is now in a state of active eruption.

Mrs. W. Bowman of Kingston, Ont., gave birth to four children on Monday.

An unusual sight was seen at Beaver River last week: Mrs. Russels Richards, a lady of 93, on a bicycle.

The late "Yanko-Spanko" war cost the Americans over \$150,000,000, amounting to over \$1,000,000 a day.

Shelburne, N. S. has 29 residents (14 males and 15 females) whose ages average a little more than 70 years each.

Hay is selling low in Annapolis valley at \$4 to \$5 per ton. The crop this year is large, but is being harvested in very poor quality, owing to the wet weather.

About 40,000 shad were taken in the weirs at Scott's Bay last Friday. It is many years since so many were taken in one day.

Farmers say that considerable rust is noticeable in the wheat fields, owing to the frequent rains of late. Unless fine dry weather sets in soon, this crop will be greatly damaged.—Summerside Agriculturist.

The prisoners concerned in the murder of William Proud of Loyalist Road North Wiltshire, P. E. I. Island, during a street fight in this city on the evening of Aug. 1st, have been sent up for trial in the supreme court on the charge of murder.

A large flour and feed mill will soon be in operation in Shediac, owned by Senator Poirier. Farmers in Shediac and surrounding country have sown more wheat this year than for many years previous, with the hope of having flour equal to the best Manitoba flour.—Moncton Transcript.

Fosdick—Tenspot thinks that he is one of the big guns. Keedick—He is one of the smooth bores.

For feeding purposes, expected next week, one ear cracked corn meal at Carr's.

'What is an encore?' It is the song the singer feels the worst about if she is asked to sing it.

Have you seen the Daisy Fly Catcher? Ten cents. Will last the whole season—Estey & Curtis.

She—If I were to die, dear, who would take care of the children? He—How can I tell now?

Taylor has the largest assortment of neck ties, dress shirts, cuffs and collars in town. Prices way down.

Kind Old Party (to sobbing urchin)—My little lad, you shouldn't cry that way. Urchin—What other way kin I cry?

The Daisy Fly Catchers last a whole season, kills millions of flies and only costs 10 cts. Sold by Estey & Curtis.

Ned—Have you heard that infernal Snobleigh talk about his family tree?

Grace—Yes; it's grown to be quite a chestnut.

**Fraud Unmasked and Exposed.**

For some years the ladies of Canada have suffered much loss and inconvenience from use of deceptive home dyes put up to look like the popular Diamond Dyes. These imitation package dyes were sold at very low prices to the retail merchants, who in turn made immense profits on them when sold to women who were unfortunately influenced to buy them.

The imitations of Diamond Dyes were never sold more than once to any woman. They possessed no foundation qualities or good points to make them valuable or popular. They were made of the cheapest ingredients, the colors were dead, muddy and unsightly, and they ruined all materials they came in contact with. These common dyes are now so despised and shunned that storekeepers are glad to sell them at half price to be rid of them.

The Diamond Dyes are still marching on to new victories, and have always maintained their position by true merit alone. Beware of the imitation and cheap dyes that are still pushed on the unsuspecting by some dealers. If a storekeeper values your trade he will recommend you to use the Diamond Dyes.

**SMILES AND TEARS.**

You bid me sing a gay refrain,  
Win from my lyre a note more glad,  
And when I close a brighter strain,  
Still—still you told me it was sad.

I did not mean it should be so,  
Nor was my wish to make you sigh;  
But you are young and do not know  
How joy and grief together lie.

There ever is a minor chord  
Struck somewhere in our earthly lays,  
Ever a shadow on the sward  
Of brightest scenes whereon we gaze.

And while we may not heed the one  
Nor hear the other, each is there,  
Yet lurking in the blithest tone,  
Yet darkening the landscape fair.

Thus, often scarcely knowing why,  
We cannot look without a tear.  
And so it is we sometimes sigh,  
Though joyous by the song we hear.

—Argosy

**Buried in a Well Where He Died**

Speaking of strange and sad occurrences, none could be more remarkable than the death and burial of Charles Carter, a well known farmer residing near Russell. He was cleaning out an old well when the quick sand suddenly caved in on him, leaving only his head and chest exposed. When the alarm was given, hundreds of people assembled and went heroically to work to save their neighbor. It was found that nothing could be done toward removing the sand about Carter's body, so a parallel well was dug and a tunnel run from it into the old well, but even then the body could not be removed so closely was it grasped by the sands. It was found that a rope attached below Carter's arms would pull the body into parts without withdrawing its covered portion, and that method had to be abandoned. Carter was conscious and talked with his rescuers, but at the end of 58 hours he died. By this time an enormous crowd had gathered, and all sorts of plans were suggested for recovering the body, but finally it was determined to make the well the dead man's tomb, and it was filled up after religious services had been held upon its brink. The well was 48 feet deep, and perhaps no other Kansan ever found quite so strange a burial place.—Kansas City Journal.

**A Fortune in a Dream.**

It has been said that Elias Howe almost beggared himself before he discovered where the eye of the sewing machine needle should be located. His original idea was to follow the model of the ordinary needle, and have the eye at the heel. It never occurred to him that it should be placed at the point, and he might have failed altogether had he not dreamed that he was building a sewing machine for a savage country. He thought that the King gave him twenty-four hours to complete the machine and make it sew—if not finished in that time death was to be the punishment. Howe worked and puzzled and finally gave it up. He dreamed he was taken out to be executed. He noticed the warriors carried spears that were pierced through the head, and instantly came the solution of the difficulty. He suddenly awoke and running to his workshop, modelled a needle with an eye at the point. This is the true story of the invention of the sewing machine needle.

**An Effective Pill Box.**

Here is a good story of the author of "The Deserted Village." Hearing of Dr. Goldsmith's great humanity, a poor woman, who believed him to be a physician, once wrote to him begging him to prescribe for her husband, who had lost his appetite and was altogether in a very sad state. The kind hearted poet immediately went to see her, and after some talk with the man found him almost overwhelmed with sickness and poverty.

"You shall hear from me in an hour," said the doctor on leaving, "and I shall send you some pills which I am sure will do you good."

Before the time was up Goldsmith's servant brought the poor woman a small box, which, on being opened, was found to contain 10 guineas, with the following directions: "To be used as necessities require. Be patient and of good heart."—Christian Work.

The Star Laundry of Woodstock is getting a popular reputation. S. J. Brown has now got the Hartland agency, and respectfully solicits the patronage of new customers, as well as a continuance of the custom formerly given to S. D. Durkee during the time he had the agency. Laundry goes every Wednesday on the afternoon express, and returns on Saturday.

**MR. MONTAGUE, DUNVILLE, ONT.,**

Has an interesting Chat About Dr. Chase's Ointment.  
**HIS SUFFERING FROM ULCERATING PILES CURED.**

He says:—I was troubled with itching piles for five years, and was badly ulcerated. They were very painful, so much so that I could not sleep. I tried almost every remedy heard of, and was recommended to use Dr. Chase's Ointment. I purchased a box, and from the first application got such relief that I was satisfied a cure would be made. I used in all two boxes, and am now completely cured.

Every remedy given by Dr. Chase cost years of study and research, and with an eye single to its adaptation for the ailments for which it was intended. Dr. Chase detested cure-alls, and it has been proven ten thousand times that not one of his formulas leave a bad after-effect. Dr. Chase's Ointment is based on lanoline, and the best physicians prescribe it.

**Mr. M. T. Wigle, of Kingsville, Essex Co.**

Cured of Itching Piles of 23 Years' Standing.  
Physicians Fail to Make a Cure When Dr. Chase's Ointment Gave Immediate Relief.

M. T. Wigle, better known to every one in the vicinity as "Uncle Mike," was troubled for over 23 years with itching piles. At times he was so bad he would have to quit work. The irritation became so intense with constant rubbing that they became ulcerated and would bleed. He had been treated by many physicians, but found nothing that gave him relief. Reading in the paper the cure of a friend who had suffered in a like manner, and being cured by Dr. Chase's Ointment, he procured a box. After the third application he got such relief that he had the first comfortable night's sleep he enjoyed in years. The one box made a complete cure, and he says he would not be without it for \$50 a box if it could not be replaced. Mr. Wigle is a wealthy farmer, well known in the community in which he resides. It is over two years since he was afflicted, and he has never been troubled since.
