WEDDING.

The marriage took Monday of Louis, son of Charles K. and Miss Sadie K. The ceremony was held at the Church of the East Boston. The bride was the daughter of Mr. and Mrs. E. J. Hall.

ANDOVER.

Annual Meeting of the Victoria Co. Teachers' Institute. Andover, Sept. 25.—The annual meeting of the Victoria County Teachers' Institute was held in the fine new Grammar school at Andover on Thursday and Friday, the 23rd and 24th respectively.

JAPAN'S COPPER MINES.

Japan is today one of the large copper producing countries of the world. It now occupies the third or fourth place, being exceeded only by the United States, Spain, and possibly Chile.

CATARRH OF THE YANKEE.

Under the title of "The Yankee Catarrh of Ten Years' Standing Cured" by Dr. Chase. I suffered from catarrh for ten years and was treated by some of the best physicians in Montreal.

AN EXPENSIVE APPETITE.

"Men are very stupid about some things," she remarked, "and have no idea of the value of some of the commonest things. I never knew one who could tell the difference between high priced and a low priced piece of goods."

FAST TRAINS THE SAFER.

From the Indianapolis Journal. "There seems to be an impression," said a railway superintendent, speaking of the fast service of the railroads now giving, "that the fast trains are the most dangerous for people to ride on, and that more persons are killed in crashing trucks, etc., than by the trains which are slower.

WENT TO SEA ON A BOX.

Maine Inventor and His Son Trundle Themselves into Norway. (New York Sun, 29th.) The steamer Pentagone, which arrived from Liverpool, had aboard her crew a Swedish inventor of the name of Erik Pentagone.

REASONS WHY THEY KILL FEWER PERSONS THAN THE SLOWER TRAINS.

From the Indianapolis Journal. "There seems to be an impression," said a railway superintendent, speaking of the fast service of the railroads now giving, "that the fast trains are the most dangerous for people to ride on, and that more persons are killed in crashing trucks, etc., than by the trains which are slower.

MUST SEE HIS WIFE FIRST.

"We have come," said the chairman of the committee, "to ask you to take this nomination. The city needs a man like you—strong, self-reliant, owning no master, fearing no man."

THE EDITOR'S ABSENCE.

Somebody should cable Editor Wilson of the Globe to come home quick. While he has been in Europe the sheet has degenerated from a good newspaper into a toadying parasite of the two great governments—Chatham Planet.

CHARLTON'S NEXT CARE.

Having arranged the lumber deal to suit himself and his Yankee friends, John Charlton will now see that the Canadian lumberman in the backwoods observes the Sabbath properly while he hews wood for his alien boss.

REASONS WHY THEY KILL FEWER PERSONS THAN THE SLOWER TRAINS.

THE DILIGENT MAN.

A TALMAGH ENCOURAGEMENT TO PEOPLE WHO ARE HIRED.

The Mighty Host of Tollers in Stores and Factories Have a Sermon Preached to Them by the Noisy Divine—He Gives Advice That is Good For Two Worlds.

Rev. Dr. Talmage preached on Sunday from a double text: Acts xv, 14, "And a certain woman named Lydia, a seller of purple, of the city of Thyatira, which worshipped God, heard us, whose heart the Lord opened."

Lydia, a Christian merchant, her business is to deal in purple cloths or silks. She is not a giggling nonentity, but a practical woman who is ashamed to work for her living.

Great encouragement in these two passages for men and women who will be busy, but no one who is waiting for good luck to show them at the foot of the rainbow a basket of buried gold.

There are certain styles of behavior which lead to usefulness and permanent success, and there are certain styles of behavior which lead to dust, dishonor and moral default.

There are certain styles of behavior which lead to usefulness and permanent success, and there are certain styles of behavior which lead to dust, dishonor and moral default.

In the first place, I counsel clerks to remember that for the most part their clerkship is a trade, not a profession.

Now, you have done well by you. We are going to do well by you. We are going to do well by you.

Be therefore patient and diligent in this transient position. You are now where you can learn things you can never learn in any other place.

Then a great trial comes to clerks in the fact that they see the parsimonious side of human nature.

They have a great trial comes to clerks in the fact that they see the parsimonious side of human nature.

NEWS FROM HAWAII.

United States Politicians Working Up the Annexation Scheme.

A Generous Intimation from Uncle Sam that No Objection Will be Offered to England Getting Neckar Island.

San Francisco, Sept. 29.—The steamship Australia arrived today from Honolulu with the following Hawaiian arrivals:

Honolulu, Sept. 23, via San Francisco, Sept. 21, representative J. G. Cannon of Illinois, H. C. Loudenslager of New Jersey, A. S. Berry of Kentucky and J. A. Tawney of Minnesota and their families, leave for San Francisco today, after a short stay in this country.

During the party's stay they have been conducted to the different points of interest and have had everything pertaining to Hawaii explained to them.

Senator Morgan and the congressmen visited Pearl Harbor yesterday. It has been claimed that Representative Cannon is opposed to annexation.

SHORE LINE WILL BE BUILT.

Officials of the Road Say Work Will Be Commenced This Week at Both Ends—People are Appearing Hopeful.

Calais, Sept. 28.—After many years of impatient waiting on the part of the people of Washington county, the Shore Line railroad seems like an assured fact, though there are many cynics who readily express their distrust in the late reports concerning the immediate building of the road.

President George A. Curran states officially that everything is now in readiness, and that work on the road will begin as early as the present week. Engineers are now on their way east, and a crew of 2,000 men will be set at work constructing the road between Calais and Franklin stations.

In building the road the engineers will follow the old Buckland survey to Mooshas, Cherryfield, and connecting with the Bar Harbor branch at the new station near Franklin.

A New York syndicate is behind the project, and the necessary amount of capital will be furnished to carry out the work. James Mitchell of Portland, it is said, is no longer in the deal.

McDonald, who represents the New York syndicate, states that a large crew will be set to work at once, and that the road will be completed by the first of next August, and even before that time if the crews are able to work during the winter months.

Mr. McDonald is confident that the work will be pushed his work all winter and complete the road by the first of next June. Col. Green has applied to the county for a contract to build a part of the road, but is not likely that his offer will be accepted.

The construction of the Washington county railroad will mean much to the people of the county in the way of opening up new territory, and the establishment of new industries and the development of the county. Several electric roads will be built connecting towns of the line with the new railroad.

The St. Croix & Penobscot railroad is bothering the railroad people not a little inasmuch as the Washington county railroad would cross it, and it is not known at present what arrangements will be made with the St. Croix & Penobscot people.

The Yarmouth Light has devoted considerable space in its extensive enterprise and docks of Messrs. Alfred Dickie and T. McGrath of Lower-Beulah, who are in the lumber business in this county, and have lately developed a winter port at the Wedge.

THE WEEKLY SUN.

ST. JOHN, N. B., OCTOBER 6, 1897.

MR. TARTE'S VINDICATION.

The quarrel between Mr. Tarte and Mr. Grenier was a personal one, in which the public has taken little interest except in so far as the public desired light on one or two matters of Mr. Tarte's history.

These relations do not concern the public. The people wanted to know whether the McGreevy firm were bootleggers and are equally anxious to know whether Mr. Grenier was correct in giving that name to Mr. Tarte, who is at the head of the chief spending department in the administration.

This one matter, however, was sufficiently in evidence to show the manner of man Mr. Tarte is. Mr. Whelan was a contractor, who had a large claim against the province of Quebec in connection with a public building.

At this point Mr. Paouad came down on him for \$10,000 more. This he was told would be final, and he paid it. In connection with the last demand it was represented to Mr. Whelan that the opposition of that day, led by Mr. Tallon, was disposed to resist the item in the estimates and that the money was needed to keep them quiet.

It throws a remarkable light on Mr. Tarte's character that he declares he did nothing wrong in the matter. The money was not public money, he observed, in answer to a question, "and I should not have thought myself dishonored if I had kept it."

At a distance given represents twenty-four hours sailing, with no allowance for difference in sun time, the average speed for the day would be 23.1-2 knots. If no such allowance is made, account would have to be taken of the fact that at a distance of 570 knots west a certain hour of the day would come 23 minutes later than the same hour at the initial point.

ored by taking it. If Mr. Tarte correctly states his view of this class of cases, it is most unfortunate that he is at the head of the department of Public works. "As a man thinketh in his heart so is he."

THE STOCK IMPORTATION.

Some advanced farmers approve of the public purchase of improved farm stock from abroad for distribution. Others are of the opinion that private enterprise in raising such stock in the province for sale to agricultural societies and other buyers should be encouraged.

At least then it must be said that if the government purchases "improved" stock it ought to be good stock. The animals ought to be better than those which are available from the home supply at reasonable prices.

We believe that only a portion of the recent importation meets the requirements. Good judges say that breeders in this province could furnish much better stock than a part of the last importation would have been had the animals all been in perfect health.

At this stage we do not say much about the awful blunder of bringing diseased stock into the province. There is no longer any doubt that this has been done, but as yet it is not known how many animals are affected, or what number of previously healthy ones have been exposed to the contagion.

EGYPT AND TUNIS.

The African state of Tunis is now a colony of France. Most of our readers probably thought that this was the state of affairs long ago, but the nominal position of Tunis was rather that of a protectorate than a colony. France "occupied" Tunis a number of years ago, on much the same terms as Great Britain occupies Egypt.

FASTEST AND LARGEST.

The discovery has been made that the North German Lloyds company in placing on the route between New York and Southampton the largest ships on the ocean, placed there also the fastest ships afloat. The Kaiser Wilhelm der Gross on her first voyage did not equal by three-quarters of a knot the average speed of the Lucania on her record trip, but this was the first and last trip of the Lloyd boat and she was not tested to her full powers.

THE N. P. IN AMHERST.

Both the car works and the shoe factory are working over time. The Robb Engine Co. has been working overtime the week. These concerns seem to be able to get along without the N. P.—Amherst News.

CANNOT QUITE APPROVE.

The New York Sun gives this brief summary of the Hogansville, Georgia, murder: Letitia, the postmaster, is an influential colored woman who is a delegate to the St. Louis convention which nominated McKinley.

We do not think we are putting it too strongly to say that the white people in the northern part of the United States regard the attitude of the Hogansville citizen with disapproval.

A few years ago the United States government claimed exclusive jurisdiction over Behring Sea and over all the seals that swarm there.

The very liberal Moncton Transcript kindly refers in reference to a St. John evening paper: There are filthy rapers in the economy of returns which get into decent company by accidental contact.

THE LUMBER BUSINESS.

The Westmorland finished loading at Cape Tormentine yesterday for McKean, St. John. She has what is said to be the largest cargo ever taken from that port.

UNIVERSITY EXAMINATIONS.

Partial results of the junior matriculation examinations at the university conducted last week are announced as follows: Class I, Mary E. Crawford, St. John.

WEDDING BELLS.

An event of much interest to the people of Albert Co. took place at the residence of Capt. John P. Lunn, Adelaide street, St. John, Wednesday evening, Sept. 22nd, in which the principals were Miss Mary M. Lunn, Bellisle, Kings Co., and Isaac C. Pearson of Riverview, Albert Co., a young man who is well known and highly esteemed in this section.

# Dr. Williams' Pink Pills for Pale People

## HAVE CURED THOUSANDS OF PEOPLE AFTER DOCTORS AND OTHER MEDICINES HAD FAILED.

### What this Marvellous Medicine has Done for Others it Will Do for You.

#### HONEST ADVICE FREE OF CHARGE.

In evidence of our absolute good faith, we invite persons interested to write to us concerning their own ailments when we will candidly reply to their questions and tell them whether Dr. Williams' Pink Pills, have cured similar cases. It must be understood that we do not examine or prescribe for people; we simply tell you what Dr. Williams' Pink Pills have done in the past, in particular disorders; but we promise to be perfectly frank on the matter, and if they are not suitable we will not only tell you so, but we also back up our opinion by refusing, even if asked, to supply the pills. We do not sell pills in cases that we do not think they will cure. This is not the way of a quack. Our reputation is to build up on the fact that we are perfectly candid and straightforward, and that is the reason so many well educated persons and clergymen of all denominations so constantly befriended us.

#### Dr. Williams' Pink Pills Cure

Poor and Watery Blood, Anæmia, Palpitation of the Heart, Nervous Headache, Loss of Appetite, Indigestion and Dyspepsia, After Effects of LaGrippe, Eruptions and Pimples, Sick Headache, Pale or Sallow Complexion, General Debility, Insomnia or Loss of Sleep, General Muscular Weakness, Shortness of Breath on Slight Exertion.

Spinal Troubles, Paralysis, Locomotor Ataxia, Chronic or Acute Rheumatism, Sciatica, Chronic Liver Complaint, Neuralgia, Chronic Erysipelas, Kidney Troubles, Catarrh of the Stomach, St. Vitus' Dance, Consumption of Bowels and Lungs, All Female Weakness, Hysteria, etc.

#### Dr. Williams' Pink Pills Cure,

Not by Purging and Weakening the System, But by Enriching and Purifying the Blood, Restoring the Nerves, and Strengthening the Spine and Muscles.

They Cure When Other Medicines Fail. Read the Evidence.

#### CRIPPLED WITH RHEUMATISM.

From the Millbrook Reporter

Rheumatism has claimed many victims and has probably caused more pain than any other ill affecting mankind. Among those who have been its victims few have suffered more than Mr. G. W. Coon, now proprietor of a flourishing bakery in Hampton, but for a number of years a resident of Pontypool, where his severe illness occurred. To a reporter who interviewed him Mr. Coon gave the following particulars of his great suffering and ultimate cure: "Some seven or eight years ago," said Mr. Coon, "I felt a touch of rheumatism. At first I did not pay much attention to it, but as it was steadily growing worse I began to doctor for it, but to no effect. The trouble went from bad to worse, until three years after the first symptoms had manifested themselves I became utterly helpless, and could do no more for myself than a young child. I could not lift my hands from my side, and my wife was obliged to cut my food and feed me when I felt like eating, which was not often, considering the torture I was undergoing. My hands were swollen out of shape and for weeks were tightly bandaged. My legs and feet were also swollen, and I could not lift my foot two inches from the floor. I could not change my clothes and my wife had to dress and wash me. I grew so thin that I looked more like a skeleton than anything else. The pain I suffered was almost past endurance and I got no rest either day or night. I doctored with many doctors, but they did me no good and some of them told me it was not possible to get better. I believe I took besides almost everything that was recommended for rheumatism, but instead of getting better I was constantly getting worse, and I wished many a time for death, would end my sufferings. One day Mr. Perrin, storekeeper at Pontypool gave me a box of Dr. Williams' Pink Pills and urged me to try them. I did so some what reluctantly, as I did not think any medicine could help me. However I used the pills, then I got another box and before they were gone I felt a trifling relief. Before a third box was finished there was no longer any doubt of the improvement they were making in my condition, and by the time I had used three boxes more I began to feel, in view of my for-

mer condition, that I was growing quite strong, and the pain was rapidly subsiding. From that time there was a steady improvement, and for the first time in long, weary years I was free from pain, and once more able to take my place among the world's workers. I have not now the slightest pain, and I feel better than I felt for seven years previous to taking the pills. I thank God that Dr. Williams' Pink Pills came in my way, as I believe they saved my life, and there is no doubt whatever that they rescued me from years of torture.

#### INCIPENT CONSUMPTION—CURED.

Mr. James Weir, a well known blacksmith of Bolesavin, Man., says: "When I came to Manitoba some years ago, I entered into partnership with a friend in a threshing outfit. Aside from the work being hard it was attended with constant expense, and many a night we were called to the sick bed of a friend in a drug store there told the draught of my condition, and I was urged to take the warm side of a straw stack for our night's lodging. The result was contracted lungs, very heavy cold, and was obliged to quit work, and coughed all through the winter. In the spring I attempted to work again, but could not stand it, so I sold out my share of the outfit and settled down as my trade as a blacksmith. I did not improve, however, although I was steadily taking medicine. I thought I was in consumption. I fell off in flesh from 158 to 123 pounds, and looked like a walking skeleton, and suffered from nervousness and a constant hacking cough. My wife made a trip to Winnipeg, and while in a drug store there told the draught of my condition, and he advised her to take home some of Dr. Williams' Pink Pills. She brought back a half dozen boxes and I began taking them. After I had taken four boxes there was a considerable improvement in my condition and I continued taking them until I had used ten boxes, when my health was fully restored. My case is one of those which substantiates the claim that Dr. Williams' Pink Pills cure when other medicines fail."

Dr. Williams' Pink Pills cure Nervous Debility.

#### PALE, TIRED AND LISTLESS.

Miss Eva Hodgson, daughter of Mr. Wm. Hodgson, a well known farmer living near Proton Station, Ont., is another of the many young girls who owe health and strength to the use of Dr. Williams' Pink Pills. She says:—"My illness came on very gradually, shortness of breath after the smallest exertion, being the first symptom I noticed. Then I became very pale, and a hacking cough. At first only home remedies were used, but as they did me no good a doctor was consulted and I was taking his medicine for nearly a year. I did not derive any benefit from it, however, but seemed to be getting weaker all the time. The pain in my side grew more severe, and I wasted away almost to a skeleton. At this stage a friend advised me to try Dr. Williams' Pink Pills. By the time I had used three boxes I could feel an improvement, and then I began to gain steadily in health and strength. I took the Pink Pills for a couple of months longer and at the end of that time was completely cured. I consider Dr. Williams' Pink Pills a blessing to suffering humanity and will always strongly recommend them.

#### THE RESULT OF A COLD.

Miss Lizzie Sewell, Newbury, Ont., says:—"I contracted a severe cold through getting my feet wet, and this in turn brought on ailments peculiar to my sex; my health failed so rapidly that I was subject to fainting spells, my appetite failed, and my friends all thought that I was in decline. Doctors were consulted, but their treatment did not help me, and finally my mother decided that I had better give Dr. Williams' Pink Pills a trial, and the result is that they have transformed me from a sick and despairing girl to one full of health and energy, and I shall ever speak in this great medicine in terms of the highest praise."

Dr. Williams' Pink Pills—an all year around remedy for men, women and children.

#### HEADACHE AND DYSPEPSIA.

Mrs. Charles Mills, Kingsville, Ont., says:—"For some years I was in a condition bordering on invalidism. I suffered from severe headaches, nervousness and pains in the stomach, and at times would scarcely eat enough to enable me to go about. My work about the house was irksome in the extreme, and at times I would hardly perform it. Now, fortunately, that condition has passed away, and I am glad to let the public know how the change came about. I had taken many remedies with little or no benefit. When one day I came across one of the pamphlets relating the cures through the use of Dr. Williams' Pink Pills. I read of a case like mine and this decided me to try them. I sent for two boxes and when I had used them felt much better. Then I got two more boxes and to my great joy I found myself cured when I had used these. I have not an ache or a pain since I used the last two boxes, and I sincerely believe Dr. Williams' Pink Pills rescued me from a life of suffering."

#### SCIATICA CAN BE CURED.

Mrs. A. Campbell, Crowlin, Ont., writes:—"After five years of intense suffering and doctoring with good doctors, with no benefit, I can testify that sciatica can be cured by the use of Dr. Williams' Pink Pills. For five years I was almost a helpless cripple with sciatica. For weeks at a time I was unable to move about, unable to get any sleep whatever. I could not lift my foot three inches from the ground. I was blistered by doctors until I was raw, but no good resulted. The affected limbs were rubbed with strong liniment, and I took medicines internally, but got no relief. The agony I endured during

these five years cannot be conceived. I never thought I would get better, nor did my friends think so. Finally the pain extended to the optic nerve, adding to the misery, the pain being so great at times that I thought the eye would burst. One day my husband brought home several boxes of Dr. Williams' Pink Pills and persuaded me to take them. It was a happy day for me that he did, for nine boxes accomplished what years of medical treatment failed to do. They completely restored me and I am now as well as before the attack, and I cannot too strongly recommend Pink Pills to similar sufferers."

T. Jenkins, Aylmer, Ont., says:—"About fifteen months ago I was suffering from an attack of biliousness, sick headache and general debility. I began taking Dr. Williams' Pink Pills, and the use of a few boxes fully restored my health, which has ever since been good."

#### A WORD OF CAUTION.

Needs to be added. A few unscrupulous tradesmen—their cupidity excited by the great reputation of Dr. Williams' Pink Pills—make up or buy in the wholesale market ready made, some cheap pills, colored pink, which will sell as "Pink Pills" and offer as a substitute for Dr. Williams' Pink Pills. Such pills are a fraud. They are frequently offered at a price which makes the fact self-evident. The receipt of Dr. Williams' Pink Pills is known only to the Dr. Williams' Medicine Co. All substitutes are therefore useless. To be sure of having none but the genuine pills, purchasers should not ask for Pink Pills, but for Dr. Williams' Pink Pills for Pale People, and see that they are put up in a package, the wrapper around which is printed with red ink on white paper and bears the full trademark "Dr. Williams' Pink Pills for Pale People." Inside the wrapper are Dr. Williams' directions for use. Pay no attention to any dealer who claims to have "the same thing under another name," or something else "just as good." In case of doubt it is better to write (enclosing price, 50 cents for one box or \$2.50 for six boxes) to the Dr. Williams' Medicine Company, Brockville, Ont. We have also agencies at Schenectady, N.Y.; London, Eng.; Paris, France; Sydney, N.S.W.; Melbourne, Victoria; Brisbane, Queensland; Wellington, New Zealand; Rio Janeiro, Brazil; Cairo, Egypt; Calcutta and Bombay, India; Colombo, Ceylon; Cape Town, South Africa; Buenos Ayres, Argentine; Honolulu, Hawaiian Islands, and other places.

#### CHRISTIAN ENDEAVORERS.

##### Annual Convention of the Carleton County Union.

The Officers Chosen—Report of Supt. Fiske—The Prayer Meeting and How It Should be Conducted.

The second annual convention of the Carleton County C. E. U. convened in the Presbyterian church at McKenzies Corner, Sept. 28th and 29th. The meetings throughout were exceedingly interesting and well attended.

The first session was held on the evening of the 28th, beginning at 7 o'clock. The first half hour was taken up with devotional exercises led by Rev. Thomas Corbett, president.

Rev. Mr. Miller extended an address of welcome on behalf of the churches, and Mrs. Hoyt on behalf of the society; replied to by Geo. L. Holyoke and T. A. Lindsay.

The superintendent, Mr. Fiske, next presented his report, which showed progress in the work during the nine months the union has been in existence. Rev. K. McKay, who was to have spoken on, What C. E. Stands For, being unavoidably absent, Rev. Mr. Corbett took his place and spoke briefly on the subject. Rev. C. H. Phillips gave an interesting and inspiring address on, Why the Church Should Welcome the C. E. Movement.

Wednesday morning the sunrise prayer meeting from 6.30 to 7.30 was led by T. A. Lindsay. At 9 o'clock the meeting was again opened with a

praise service, which continued half an hour. There came five-minute reports from societies.

The nominating committee brought in the following names of officers and they were duly installed: President, Rev. Thos. Corbett; 1st vice, Andrew Myles; 2nd vice, Geo. Sellars; 3rd vice, Thomas Graham; treasurer, T. A. Lindsay; sec. secretary, Geo. L. Holyoke; cor. secretary, Miss Emma Henderson; additional members of the executive, Rev. Mr. Slackford and Miss D. Vanwart.

The following interesting papers were read: Consecration, (a) What It Is, by Miss J. Kinney, read by Mrs. Fiske; (b) What It Does, by Miss E. Kinney, read by E. Henderson.

Next came a practical address by Rev. Mr. Slackford: How to Develop C. E. Work in Our Church, followed by a discussion on the subject.

Wednesday afternoon the devotional exercises were conducted by Rev. Mr. Ross, Hartland.

A conference was next in order on The Prayer Meeting, (a) What not to put into it; (b) What to put into it; (c) What to get out of it. Quite a number took part in the discussion, which was very interesting.

The following are some of the suggestions dropped: Keep all out that is not in the spirit of prayer. Put yourself into it; be always there; get a man into the prayer meeting; get out of it as much as we put into it; give the leader full control of the meeting; special home preparation advised; put our influence into it, and bring others in with us; come to the meeting expecting more; expecting to meet God.

Mr. Slackford gave an address on, How We May Reach and Help Associate Members.

Mr. Fiske read a paper on, The study of the Bible, written by the provincial secretary.

An interesting paper, prepared by Miss K. McKay, on the Lookout Committee, was read by Mrs. Hoyt.

Mr. Corbett read a paper on Junior Endeavor Work, written by Miss Estey of St. John.

Wednesday evening the praise service was led by W. E. Clark.

First item on the programme was a five-minute talk on Some of the Benefits of the C. E. (a) to the young in our Church, A. Myles; (b) to the pastor, Rev. T. Miller. (c) To the people near his people; he hears their heart-felt talk, and understands them better, and is brought into closer contact with them.

Mr. Fiske spoke on, The C. E. Pledge, the backbone of the society. The pledge keeps all parts of the organization together. The society is strong as its members are strong; firm Christians needed; there are twenty who lean, where there is one who stands on his feet.

Next in order was a paper by Rev. Mr. Whiteside on, How to Study the Bible. The Bible is like any other book and should be studied as any other book is. It should also be studied differently from any other book. It gives us more than any other books, so should be studied differently from other books. What is the ruling principle of it? It is to reveal God to man. We should not trouble ourselves with the side issues in the Bible, but study diligently what is for the upbuilding of our higher natures. The study of the Bible is to bring us nearer God. Sincerity in drawing near to God. We will get what we look for in the Bible. Study it in a connected way. If reading another book we will

read it through carefully, and often go back over chapters or passages that we think particularly fine.

The Bible, we read a chapter here one day, skip to some other part another time, and then expect to know it well. Take up the life of any of the Bible characters and study it out well from beginning to end; study the Bible with the heart. The eye may look on the lines, but unless the heart is in it it is unfruitful.

Mrs. Dickinson then sang a solo in a very pleasing manner.

The convention was invited to hold its next meeting in St. Paul's church, Woodstock.

After the customary votes were passed, the meeting closed with singing, God be with you till we meet again. The singing throughout all the sessions was hearty and inspiring.

#### NEAL DOW DEAD.

##### The Veteran Temperance Advocate Passed Away Saturday Afternoon.

Burlington, Me., Oct. 2.—General Neal Dow, Maine's grand old man, the apostle of temperance and father of the Maine prohibitory law, died at 3.30 o'clock this afternoon, in his ninety-fourth year. He was conscious most of the time till within an hour of his death.

Neal Dow was born in Portland, Me., on March 29th, 1804, of Quaker parents. He is of course most widely known as a great advocate of total abstinence and prohibition. He has been heard from a St. John platform, and was a warm friend of the late Sir Leonard Tilley and others prominent in the temperance cause in the province years ago. While mayor of Portland in 1861 Neal Dow drafted a bill to prohibit the liquor traffic. It was known the world over as the "Maine Law," and on his personal application to the state legislature of that year was passed through all its stages in one day, without change of a word. In 1884 prohibition was put into the state constitution. The late Mr. Dow was twice mayor of Portland, and twice a member of the state legislature. He served in the civil war as brigadier general in the department of the Gulf, was twice wounded and once taken prisoner, being then confined for eight months before being exchanged. Neal Dow visited England, by special invitation of the United Kingdom alliance, and he spent nearly four years there and on the continent, laboring for the cause of prohibition. The value of his labors in the cause of temperance and prohibition is immeasurable. He retained his interest in the great cause up to the end of a wonderfully long and vigorous life.

of the Minnesota department at \$15 per month. It is something over this amount. The despatch says: The announcement of the appointment of R. S. Mentrum by the Anacosta city council to the position of chief of the fire department of that city has caused many expressions of satisfaction here in Minnesota. Mr. Mentrum is well known as a fireman, and by the majority appreciated. There is much admiration here that Mr. Mentrum has secured a position where he will have an opportunity to show his worth as an organizer and a fire fighter, and where he will be able to do the city of Anacosta so much good service.

In the opinion of those who have followed the work of Mr. Mentrum for the past eight years there is no better fireman in the Northwest than he. This is not a partisan opinion, for even those who have taken a stand against him in this city have not criticized his ability as a fireman. Among the special and local insurance men, Mr. Mentrum is held in the highest esteem.

Among the visitors in Minnesota today is W. H. Gibbons, special agent of the American and Svea companies. Mr. Gibbons has been visiting Montana for several years and is competent to express an opinion in this matter. In speaking of the Anacosta department, and the recent action of Mr. Gibbons said this afternoon:

"Mr. Mentrum is the best fireman in the state of Montana, and there are few anywhere who are his superiors. He studies his business carefully and improves his department as but few chiefs can do. The appointment of the Anacosta city council is a commendable one and I do not think that the city will ever have any cause to regret it."

#### YELLOW FEVER CASES.

New Orleans, La., Oct. 3.—At eight o'clock tonight there had been twenty-seven cases of yellow fever reported and but two deaths. In the past week the foot of infection have not been largely increased. Dr. Metz reports that by Tuesday all the houses in the St. Claude district, where the infection was first introduced, will be released from quarantine.

The Trade Bulletin says the C. P. R.'s estimate of the Manitoba wheat crop was too great, and that the crop will be much smaller than was predicted.

BOSTON LETTER.

Geo. B. Cutten of Amherst, N. S., to Play on Yale's Football Team.

Rev. Andrew Grey Resigns—Exports of Flour, etc.—The Lumber and Fish Market Reports.

Boston, Oct. 2.—The football season has begun and base ball is slowly giving way to the rougher sport.

The Yale University eleven has made a "find" in "Parson" George Barton Cutten of Amherst.

Rev. Andrew Grey resigns as pastor of the Union church in New Haven.

The fish trade is generally quiet. Mackerel are scarce and command high prices.

The eastern terminus of the Canada Atlantic railroad has been changed from Rouses Point, N. Y., to Swanton, N. Y.

Antonio Apache, a young Indian, has arrived here from New Brunswick and is presently being kept in the Indian hospital.

The first annual dinner of the Prince Edward Island club will be given at the United States hotel here Oct. 7.

TO SAW CANADIAN LOGS. Bay City, Mich., Sept. 23. The mills of Hargraves & Co., the Hitchcock Lumber Co., and Walsh & Flood have closed contracts to saw eleven million feet of timber, to be brought from Canada.

THE BOOM IN APPLES.

Exports Nearly Half a Million Short of Last Year's to This Date.

The Ontario Crop Short and Much of It Inferior—High Prices Being Paid.

(Montreal Trade Bulletin.) The shipments of apples from Atlantic ports for the week ending Sept. 25th, 1897, were 20,671 bbls. against 139,244 bbls for the corresponding week last year.

The Ontario crop is short and much of it inferior. High prices are being paid for the fruit.

Prices quoted here by lumber dealers are not satisfactory to mill men and shippers.

Prices are higher than they were several weeks ago.

Prices are higher than they were several weeks ago.

THE CARELESS AND INDIFFERENT.

Suffer Intense Agonies This Month.

Many Men and Women in Great Danger.

To Such Martials Paine's Celery Compound Guarantees a New Life.

The Great Medicine a Sure Cure for Rheumatism and Sciatica.

Thousands of people die annually of rheumatism, yet every case could have been cured if Paine's Celery Compound had been used in time.

Too many men and women show a marked indifference when in pain.

As the days pass the careless and indifferent find themselves deeper in the mire of suffering.

Now is the time of extreme danger. Now the sufferers realize that they are paying the penalty of their carelessness.

Some will ask the question, "Is there truly a cure for such helpless rheumatism?"

Let us assure you, poor rheumatic sufferer, that the use of one bottle of Paine's Celery Compound will quickly dispel any doubts that you may have.

A GREAT DISCOVERY.

A Kingston Physician Has an Invention for Observing Bones with the Naked Eye.

Kingston, Ont., Sept. 30.—Dr. James Thirl, superintendent of the General hospital has, after six months' research, made a great discovery, the perfecting of the fluoroscope, by which surgeons will be greatly aided in their work.

With a sheet of heavy academy board chemically prepared with Dr. Thirl's discovery and placed on the fluoroscope over the end furthest from the eyes, it is possible to look through opaque bodies and substances, with the aid of the X rays, the object being focused between the rays and the fluoroscope.

By the use of Dr. Thirl's discovery it is possible to look through a human body and note every portion thereof. The photographing is now no longer necessary. Dr. Thirl does not claim credit for discovering the fluoroscope, but he does claim to have discovered a combination of chemicals which makes the use of the fluoroscope practical and possible in aiding surgical work.

He does not, for obvious reasons, care to make known the nature of the chemicals he uses, beyond the fact that they are a combination of crystalline salts. Everything else has been tried in connection with fluoroscopes, but without any degree of success.

Dr. Thirl's discovery is a great boon to the medical profession, and it is hoped that it will be widely adopted.
