FIREMAN KILLED

Collapse of Washademoak Bridge on the Central Railway Causes Death of Fireman S. F. Brand

Engine and Three Cars Crash Into Thirty Feet of Water - Narrow Escape of Driver Purdy Who Went Down With His Engine - Passengers and the Train Hands Saved by a Hair's Breadth.

Another bridge disaster on the Central railway—the third within two years—occurred Wednesday morning at Washademoak, and resulted in the death of Fireman S. F. Brand of Norton.

The accident occurred on the regular train, which left Chipman on time yesterday morning. It was made up of engine, tender, two heavy cars of lumber from the King Lumber Company, a box car and the passenger and baggage coach.

The train had crossed the trestle-work approach safely and was well out on the long center span when an ominous creaking and cracking of the timbers, under the strain of the unusual load, was followed almost instantaneously and before an occupant of the train had time to think of escape.

When the engine took the plunge both the driver and the fireman were carried with it to the bottom. The jamming forward of the tender under the weight of the cars above it crushed the lives of the stout passengers and the train crew therein.

Driver Purdy had a miraculous escape. He also was jammed by the mass of debris, but was able to extricate himself before his breath was spent.

hands had recovered from the shock, aid was summoned and efforts made to recover the body, which was not brought to the surface until about one o'clock. A team left Norton about five o'clock to bring back the remains and was expected to return early this morning.

The remains were viewed yesterday afternoon by a jury empaneled by Coroner Solomon Perry, who will hold an inquest into the accident at Cody's this morning.

Among the passengers who so narrowly escaped were Trackmaster Jackson of Hampton, Daniel Duffy and his wife of Chipman, John Flynn of St. John, and Mrs. Colwell of Young's Cove.

The Central railway has had more than its share of accidents during the last two years, two of them being similar to yesterday's disaster.

The family of the deceased consists of his mother, with whom he resided, five sisters and three brothers. Two sisters reside with their mother in Norton, one is Mrs. Folkens of North End, and the other two are Mrs. H. A. Ryan and Mrs. David McFarlane of Chipman.

As soon as passengers and train clearing the wreck and making repairs. A Norton despatch says: The Central railway has one spare engine on the road. It is on the Norton end of the road. It will probably run an engine from Norton to the wreck in a few days. The wrecked train in the bridge was thoroughly repaired last year and was thought to be in good condition.

SOUTH AFRICA.

Balfour's Announcement in British Commons Taken to Mean That Peace Agreement Will Be Signed in a Few Days

MOVEMENTS OF THE BOER DELEGATES. LONDON, May 29.—The Daily Chronicle this morning declares that the negotiations which will be practically concluded in the course of the present week, will witness the formal cessation of the war in South Africa.

The paper says it understands that the government has declined to grant the rebels unqualified amnesty, or to fix a date for the establishment of self-government for the Transvaal.

Against this idea of a speedy announcement of peace is the decision reached in parliament yesterday to debate the education bill next Monday morning. It was completely worn out by the budget, which seems to show that affairs in South Africa may require a greater period of time for settlement.

It is now regarded as certain that the Chamberlain party will be victorious and that the government will endeavor to retain the tax on grain. Mr. Chamberlain, the colonial secretary, is again indisposed, and some people believe his indisposition to be diplomatic.

MIDDELSBURG, Transvaal, May 29.—Major Collett, with a detachment of the mounted troops of the district, encountered a force of Boers on the Repon road May 27. The engagement which followed lasted for a long time. The enemy finally drew off, however, leaving behind them on the field Comdr. Mason, who was mortally wounded.

An armored train engaged the same party of Boers the evening of May 27, but no details of the latter engagement are at hand.

LONDON, May 29.—The British cabinet was specially summoned last night and set about an hour. It is decided to retain the tax on grain. The session sufficed to put the final touches on the agreement which will terminate the war.

The government leader, A. J. Balfour, announced in the house of commons today that he hoped to be able on Monday next, to announce the result of the peace negotiations in South Africa.

MONT PELEE.

A Tremendous Explosion Recorded Yesterday Morning.

Phenomena of Volcanic Outbreaks New to Scientists and Many of Them Not Yet Explained.

FORT DE FRANCE, Island of Martinique, May 28, 5 p. m.—A tremendous explosion of very black smoke from Mont Pelee, at a quarter before nine o'clock this morning, accentuated the fears entertained for the safety of George Kennan, the American author, who, with a land party, has been examining the northern part of the island, and the governor of Martinique, M. L. Huette, was at once seen in the matter of arranging for a rescue party to proceed by land, in connection with the voyage along the coast of the island of the United States.

At about 11 o'clock this morning Fernand Clero, a wealthy land proprietor of Martinique, arrived here and announced that Mr. Kennan and his party were safe on a plantation at the north end of the island.

Professor Robert T. Hill, U. S. government geologist, and head of the expedition sent to Martinique by the National Geological Society, who left Fort de France Monday on horseback for the volcano, returned here this morning.

Whether there are still other minor points of difference between Britain and Boer cannot be said, but it is quite certain that all are agreed upon the broad principles of settlement.

Dr. Jameson has expressed himself as confident that peace is assured and that the Boers will not again take the field.

LATHROP, Mo., May 29.—The British mule camp, which has been maintained here since May 1901, during which 80,000 horses and mules for sale in South Africa have been handled, is to be moved to Toronto, Canada, immediately. Nearly all the British officers stationed here have already left and 2,000 horses still here will be shipped to Toronto within a few days.

Between the hamlets of Deux Cheux and Fonds St. Denis the party entered upon the outer slope of the zone of ashes. Except for occasional patches, all the country to this point was green and smiling. Upon reaching the Ralabaud plantation, one mile southwest of St. Pierre, the explorers met the clear line of demarcation of the zone of flames and destruction, although not of annihilation. Monday night was spent in a deserted house at Fonds St. Denis, from which Prof. Hill witnessed and studied the volcanic eruption of that night.

CITIZENS MEET

And Discuss Celebration of Coronation Day Here.

At a meeting of citizens in the mayor's office on Thursday afternoon the coronation day celebration were left in the hands of a committee.

FREDERICTON.

Extradition Proceedings in Kelly's Case Will Proceed Against Sillick of Moncton for Manslaughter.

FREDERICTON, N. B., May 29.—The Kelly extradition case will be argued here tomorrow morning.

The government members are here tonight and will hold a session tomorrow. Much interest is taken here in the Ontario elections. The Gleason bulletines the returns as they came in. Premier Tweedie and members of the government received the returns at the premier's room at the Queen hotel.

MONCTON NEWS. MONCTON, N. B., May 29.—Fred Lockhart, son of I. C. R. trackmaster Wm. J. Lockhart, and Wm. Glendon, son of Thomas Glendon, were left last night for Mexico, where they have secured good positions. Both have been in the I. C. R. employ here, though young Lockhart spent some time in Mexico a few years ago. The departure of young Lockhart was presented by his fellow employes in the office of superintendent of cars and telegraphs with a handsome leather dress suit case, while young Glendon, who was assistant ticket agent, was given a set of military brushes.

The Messrs. Winter and others of Moncton have just closed with a New York syndicate for the disposal of a half interest in their mine, to the Caribou district of British Columbia for the handsome sum of \$100,000. The Messrs. Winter and those associated with them have spent a considerable sum in developing the property, showing the richness of the mine, but owing to the lack of communication little could be done with it. This difficulty has been overcome by the running by steamer on the Columbia river to the property and active development will be commenced in their mine.

The products of this mine were exhibited at both the Chicago and Paris exhibitions and were awarded first diplomas.

A GOLD CASKET. Presented by City of London to Mrs. Chamberlain for Her Husband. LONDON, May 27.—At the Manse House today Mrs. Chamberlain, wife of the colonial secretary, was presented with the gold casket containing the address presented by the corporation of the city of London to her husband last February in recognition of his services to the empire.

But I was not the only person so frightened; two newspaper correspondents who were close to Morne Rouge some how before me became scared, ran three miles down the mountain and hastened into Fort de France.

"The people on the north end of the island are terrified and are fleeing with their cattle. I spent Tuesday night in a house at Deux Cheux with a crowd of 200 frightened refugees. "Nearly all the phenomena of these volcanic out breaks are new to science, and many of them have not yet been explained. The volcano is still intense."

WITH CHEERS THAT SHAKE A CHURCH

The U. S. Presbyterian Assembly Adopts As Its Creed

The Revised Westminster Confession - Only Two Votes Raised Against the Report - Aged Minister's Pathetic Protest.

(New York Herald, 23rd.)

IMPORTANT CHANGES.

"No man is condemned except on the ground of his sin."

"We believe that all dying in infancy are included in the election of grace, and are regenerated and saved by Christ through the Spirit, who works when and where and how He pleases."

"Work done by unregenerate men, although for the matter of them they may be things which God commands, and in themselves praiseworthy and useful . . . they come short of what God requires, and do not make any man meet to receive the grace of God."

"The Lord Jesus Christ is the only head of the church, and the claim of any man to be the vicar of Christ and the head of the church is unscriptural, without warrant in fact, and is a usurpation dishonoring to the Lord Jesus Christ."

THIS CLAUSE IS STRICKEN OUT.

"Yet it is a sin to refuse an oath touching anything that is good and just, being imposed by lawful authority."

With only two dissenting votes the Presbyterian General Assembly, in the Fifth Avenue church, yesterday, adopted the report of its committee on the proposed revision of certain portions of the Westminster Confession. The report was adopted in its entirety and without a single amendment or alteration.

This action was accompanied with cheers that fairly shook the church. All the commissioners realized that they were making history as they cast the decisive vote which will eliminate from the Presbyterian creed the reference to the Pope and the statement that it is sinful to refuse an oath imposed by lawful authority. It also embodies denials of the doctrine of infant damnation and the statement that works done by unregenerate men are in themselves sinful.

Aside from an address made by the Rev. Dr. Henry C. Minton, in which he reviewed the report, adopted, was practically no discussion, and not a single speech in opposition.

It was a viva voce vote, and the overwhelming majority made it a practically unanimous endorsement of the revision committee's work. There were many "noes" and "noises."

Excisions made on Wednesday by the Rev. Dr. James D. Moffat, that the report would be adopted on the first day of its consideration, were more than fulfilled, for it was before the closing of the forenoon session that the assembly had made its decision.

"A good speech!" "A fine one!" were the exclamations when Dr. Minton concluded his address. The spirit of liberality was in the air, and the commissioners turned to one another, saying:

"We'll move to adopt without discussion."

MERRIMENT AT THE TWO "NOES."

On the first motion to adopt the eleven o'clock session which was to be submitted to the presbyteries of the country for their action, when the votes were called, a chorus of stentorian "ayes" responded. The commissioners shouted in loud tones and with an evident desire to emphasize their votes. Two "noes" were heard from the right side of the church, but they came in vague and tremulous tones.

On the second motion to adopt the brief statement of the reformed faith the vote was just as emphatic, but again the two dissenting votes were heard. They caused an outburst of merriment.

Great was the uproar when the entire report advocating revision of the creed was adopted. Everybody was smiling. The commissioners clapped hands and cheered, and their applause was heightened by cheers from the gallery, which was thronged with men and women who took an intense interest in the proceedings.

There was a touch of drama and pathos added to the scene when the two ministers who clung to the old Presbyterian creed in its unaltered form addressed their fellow churchmen, explaining why they voted against the majority.

It was when the moderator, Dr. Van Dyke, asked, "Is there any one who wishes to speak on the other side?" that the Rev. Francis L. Goff of Hopkinsville, Ky., arose and uttered a few words in a broken voice.

When the moderator invited him to mount the platform Dr. Goff modestly and reluctantly did so.

ers were touched by the attitude of the old orthodox minister as he left the platform with bowed head.

"There's a man!" cried one commissioner. "I honor him for it, I respect him, but I wish other cries that arose in the assembly."

IMPATIENT WITH OTHER DISSENTIENT.

Toward the other dissentent commissioner the assembly did not maintain this sympathetic attitude. The commissioner arose, saying: "I want to explain my position."

"I regard this," said Dr. Railey, "as the most serious moment in all the history of this grand old church. I can't express the solicitude I experienced in the last few days and hours, as I heard the reports on all the grand works accomplished by our churches and missions, all done under the banner of our church, the Confession of Faith."

"With me," continued Dr. Railey, "as his voice broke with sobs and tears filled his eyes, there was never any difficulty with these delightful old standards. But brothers, God forbid that the entering wedge is being put in. What the outcome will be God only knows. Future years can only tell the coming results."

At this point Dr. Railey broke down and wept. He started to speak again, but so soon that several commissioners cried "Louder!"

"God give me a better voice," said the minister in a low tone. "Then he straightened up and continued speaking. He compared the Presbyterian Confession of Faith to the statue of liberty enlightening the world. This comparison was received with considerable levity and hand clapping by impatient commissioners."

Dr. Railey's words made a strong impression on many persons in the gallery, who were impressed and frightened by his earnestness.

"Brethren," concluded Dr. Railey, years to come will tell the story. This is the beginning of the end." His voice faltered again, as he repeated: "This is the beginning of the end."

In the assembly, however, there were laughter and rather ironical applause as the commissioner from the synod of South Florida returned to his seat.

"Well, fathers and brethren, are you ready for the end?" asked the moderator, with a smile.

"Yes, yes," cried the commissioners, and the business before the assembly was continued.

PLEA FOR GOOD FELLOWSHIP.

Devotional services, as usual, marked the opening of the morning session. The Rev. Dr. Van Dyke, the moderator, spoke briefly to the assembly, saying in part:

"I do not believe that my task as moderator is to be a difficult one, but it is a delicate one. In this chair, where you have put me, I want to say that I am not a member of any organization or any committee. I am a plain Presbyterian and your moderator—your servant. I want to plead that this discussion be carried on in the spirit of good fellowship. Let us have either rushed through or delayed."

"The matter before us is a simple proposition. The assembly of 1901 appointed a committee to do a particular thing. What you have to pass on is not whether that certain thing should be done, but whether the committee has done it to your satisfaction."

The Rev. Dr. James D. Moffat then moved the adoption of the eleven o'clock session to be sent to the presbyteries. This motion was seconded by the Rev. Dr. R. Kerr and the discussion of the revision of the creed was begun by the Rev. Dr. Minton, chairman of the revision committee.

"The committee," said Dr. Minton, "may well congratulate itself that it was able to present a unanimous report. Every member of the committee devoutly believes that all were guided by the spirit of God. We tried to do our best. We worked in good faith. No man of the committee had his own way."

Dr. Minton then reviewed the various points on which the committee had been asked to pass. He said these points could be broadly divided into "unguarded statements" in the confession or "unwarranted inferences" drawn from parts of the statement not intended to be understood. "Predestination," "elect infants," "good works of unregenerate men" and the "Pope" were the points which the committee had been instructed to consider.

"Regarding the Pope of Rome," Dr. Minton said, "the confession distinctly says the Pope is an Antichrist and the son of perdition. Now, if that be true and if we want to say it, let it stand. If not true or if true and we do not wish to say it, let it out, but do not modify or explain, because it is a statement which cannot be explained or modified."

NO INFANT DAMNATION.

"The statement is purely and primarily an exegetical one. I may believe it, but I may deem it not a proper one in the declaration of my faith."

"We unqualifiedly and indignantly declare as false and unwarranted the statement that the Presbyterian church believes in infant damnation. It is purely childish in my judgment to say that the statement 'elect infants' is not misleading. It is an unguarded statement. In the report we deny the belief that any dying in infancy are lost, and add that all dying in infancy are regenerated and saved by Christ through the Spirit."

"Another fact we worked on was the 'good works of unregenerate men.' These, the Confession says, are sinful and displeasing to God. This was the most difficult problem for us to consider. We believed it was the truth, but stated unguardedly. We are taught, though it is sinful, that it is more sinful not to do them. All this is true, but it takes sharp seeing to go through it."

"Now I want to speak of the whole report. The members of the committee subordinated their personal opinions. There was no stubborn obstructionist on the committee, no reckless radical. There was an impression that the committee represented a dark conspiracy against the Confession of Faith. It was to be the assassination of Calvinism. That is not true. We desired, above all things, to carry out the explicit directions of the assembly."

"Some members of the assembly were afraid of whereunto this thing might grow. Fathers and brethren, I believe more loyal to the Presbyterian standards than I am, but the only strong position is the fair position. The fairer it is the stronger it is. It is because I love the church, the old Presbyterianism, the old Calvinism, ex animo, oon amoro."

"BOW THE POPE OUT."

"I don't believe our grand system of faith will suffer in the least because we bow the Pope out of it. I want to tell the world that I believe in a sovereign God, in the salvation of this thing infants. I believe there is going to be a grand swing backwards toward the fundamental doctrines of the Calvinistic faith."

"This is an opportunity for Presbyterians to disclaim the damning inferences with which the church has been burdened. We know that there is not a missionary in the field but feels it. It must end."

"The cosmos of science is the foreordination of the Almighty God. Let the blue banners of our beloved Presbyterianism be unfurled to the world, that they may stand for all that is good and true and pure in our Christian history and our Christian citizenship."

When Dr. Minton concluded, the applause which followed gave the first indication of what the action of the assembly would be. Dr. Moffat, who had moved for the adoption of the report, then spoke in its favor.

"There is only one party whose action on this question I fear," said Dr. Moffat, "and that is the party I myself belong to—I mean those who think that they themselves could have made it more satisfactory if they had a chance. I am sure that I should be better satisfied if I could get my own amendments adopted, but I am willing to forego that for fear that if I did, some of your amendments might get through, too. Let us bring this at once, then, to a speedy and unanimous issue. I have introduced it for twelve years. Personally, I am always ready for a theological debate with any one who agrees with me to begin with. But the poor people are getting tired of it. They do not understand it, and neither do we."

DER BOOTH WON OVER.

The Rev. Dr. D. R. Kerr of Omaha, seconded Dr. Moffat's motion. The next to mount the platform was Rev. Dr. Robert R. Booth. A murmur at once passed through the assembly, for it had been rumored that Dr. Booth was prepared to fight against the revision. On the contrary, he asked for the adoption of the report, "speedily and with unanimity."

Dr. Booth said he had dissented from the report of the committee of 1892 because he was dissatisfied with its conclusions, and felt that its report was intended to introduce new cloth in an old garment.

Calls were then made for an address by the moderator, but Dr. Van Dyke said he felt he had nothing to say on the question. He said he had spent more time on the report than on any other "job" he had, and that he had derived more good from it than from anything else in his human experience.

There were now cries for a vote. Everybody seemed to stand in fear of an impending discussion. The moderator, on the contrary, he asked for the adoption of the report, "speedily and with unanimity."

In a great shout the affirmative vote came back, and when it was followed by the two dissenting "noes" there was a great applause. Then the vote was called for the "brief statement of the reformed faith." Dr. Minton made the motion for its adoption, which was seconded by Rev. Dr. Howard Duffield. This was another surprise, for Dr. Duffield's name was not known, and it was thought he would oppose revision.

The Rev. Dr. Richard S. Holmes and the Rev. Dr. Wilson Phraner, who are eighty years old, and who has attended thirty-five general assemblies, also spoke in favor of the adoption of the "brief statement." It was then that the two dissenting commissioners followed each other to the platform to explain their attitudes. Then the vote on the "brief statement" was taken.

Impressive devotional services closed the session.

LIKE COALS TO NEWCASTLE.

OTTAWA, May 27.—In his annual report to the minister of trade and commerce, Canadian Government Agent Murray, at Glasgow, says: "The importing of pig iron from the Dominion to the Clyde has created quite a sensation. Fifty-three thousand tons were discharged during the year and three or four cargoes are now on the way. The iron serves the same purpose as Scotch or English foundry iron and is principally used by foundries."

Cramps Are Like Burglars

They come unexpected and when least welcome. Be armed with a one-minute cure in a bottle of Nervine, which relieves cramps in five minutes. In Colic, Summer Complaint, Diarrhoea, Indigestion and Nausea, Nervine is a remedy of remarkable potency, and acts promptly and satisfactorily at all times. The composition of Poison's Nervine expresses the highest accounts for its superior merit. Price 25c. Hamilton's Pills are Good Pills.

Church—She is a Russian countess. Gotham—Indeed! Has she much in her own name? Has she? She's got nearly the entire alphabet—Yonkers Statesman.

NEW KIND OF SHAD FOUND.

It Frequents the Mississippi Basin and Is Named After the Ohio.

WASHINGTON, May 24.—The fish commission announces the discovery of a new kind of shad, the third known in this country. It was taken from the Ohio River at Louisville.

It was long supposed that there was only one kind of shad in America, the common Atlantic shad, found all along the coast from the St. John's River of Florida from the Miramichi or even to the Bay of Chaleurs. The range of the Atlantic shad, whose scientific name is Alosa sapidissima, does not seem to extend into the Gulf of Mexico or its tributary streams.

Shad has been reported occasionally from the Alabama River, and they were thought to be identical with the common Atlantic shad. But in 1890, when the fish commission received some specimens taken from the Black Warrior River at Tuscaloosa, Ala., Dr. Evermann, the ichthyologist of the commission, found that they belonged to an entirely different and undescribed species, which he named Alosa alabama.

The Alabama shad does not seem to be at all abundant. It is thus far known only in the Alabama and Black Warrior rivers and at Pensacola.

Not long ago the fish commission began to receive reports of the capture of shad in the Ohio River at Louisville, and Dr. Evermann was directed to make investigations. He found the shad to be of a new variety, which he named Alosa ohioensis, or Ohio shad.

A careful examination was made of thirty-nine examples of this new shad. They were found to be quite uniform in size, the usual length being about sixteen inches and the weight about two pounds. It will thus be seen that the Ohio shad is much smaller than the Atlantic shad. Structurally, it is taken of high esteem by the fishermen, much more slender and in having fewer gillrakers on the first gillraker.

The average number in the Ohio shad is 72. The average number possessed by examples of Alabama shad is 67. The average for the Atlantic shad is more than 100, even the minimum is more than 90.

While studying the Atlantic shad a few years ago, Prof. Evermann discovered the curious fact that the number of gillrakers increases with increasing latitude. Shad taken on the North Carolina coast have 88 gillrakers; those from the Potomac, 100; those from the Susquehanna, 102; Delaware, 104; Hudson, 106; Connecticut, 107.

Some years ago, while studying the founders of the world, Dr. Jordan made a similar discovery regarding the number of vertebrae in the vertebrae of founder whose home is nearest the equator, the greatest number is found in that species which ranges farthest north, and the species in between show a gradual increase as they go northward.

It has not yet been shown that the Ohio shad is anadromous, like the Atlantic species, but there can be little doubt that it spends most of its life in salt water and runs up the Mississippi from the Gulf of Mexico and into the Ohio for the purpose of spawning.

There is evidence that it runs as far north as the St. Lawrence, specimens having been reported as having been taken from that river at Montgomery, N. Y. Shad have been reported from several places in the Ohio, among them Aurora, Bladensburg, Troy, Paducah and Evansville. They have also been reported from the lower Washington, the Ouachita and White Rivers in Arkansas, St. Louis and a few other points along the Mississippi.

The shad are taken at Louisville in seines lightly loaded, so that they will fish the upper part of the water rather than the bottom. During the fish shad swims near the surface. Fishermen at Louisville say that they have got a few shad every year for the last twenty-five years, but it was not until 1897 that any considerable catch was made. Previous to that year the shad had been heavily landed to the westward, and the shad probably passed over.

Whether important fisheries for Ohio can be established remains to be determined. The species does not seem to be abundant, but this may be more apparent than real.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

PASTOR TOLLED THE BELL.

During the progress of the funeral procession of the late Hon. A. F. Randolph from Frogmore to Forest Hill cemetery, says the Frederick Herald, the bell of St. Dunstan's Roman Catholic church was tolled, not by the organ, but by the congregation, but by the pastor himself, Rev. Father Carney, whose kind consideration is much appreciated by the friends of the deceased gentleman.

WASHINGTON.

Distinguished Honors Paid to Lord Paunceforte's Memory.

His Funeral an Imposant Pageant—Other Ambassadors the Pall-Bearers—Roosevelt Attends.

WASHINGTON, May 28.—The remains of the late Lord Paunceforte, British ambassador to Washington, today were accorded a national funeral in token of high esteem by the American people of the personal worth of the deceased, and an acknowledgement of the friendly feeling which is cherished towards Great Britain. Every department of the national government was represented, and the numerous diplomatic body of which for so many years the late Lord Paunceforte was a member, was present in the person of the ambassadors, ministers and charges. Besides these, the resident society of the capital was fully represented. The presence of a thousand men in arms was the visible sign of military participation in the funeral. The church of which the deceased was a member, did honor to his memory by bringing to Washington to conduct the services the coadjutor bishop of Philadelphia, the Rev. MacKay Smith, under whom he had sat.

Since Lord Paunceforte's death last Saturday morning, his remains had been lying in state in the large saloon of the embassy building. The British ensign flew at half mast over the main doorway, and a sweeping bow of black crepe told of the presence of death within the house. Soon after 10 o'clock this morning the sound of marching feet and slow notes of funeral music gave notice of the approach of the funeral escort. This was composed of the second squadron of the Second Cavalry, and the cavalry band, the latter mounted on white horses; the fourth field battery, the third battalion of the U. S. engineers, with band, and a battalion of U. S. marines and band. Maj. Wm. Black commanded the engineers, Capt. V. F. Fotte the battery, and Capt. L. M. Brett, the cavalrymen. The soldiers were aligned on either side of Connecticut avenue and the adjacent streets and stood at rest while the clergymen and pall bearers entered the embassy building.

The pallbearers were Herr Von Hollehn, the German ambassador; M. Jules Cambon, the French ambassador; Comte Cassel, the Russian ambassador; Senor Don Manuel de Asproux, the Mexican ambassador; and Signor Edmondo Mayor des Planches, the Italian ambassador; Secretary Hay, Speaker Henderson, and Senator Orville M. Platt, the acting president pro tempore of the senate.

With little delay the casket was lifted upon the shoulders of four brawny sailors and as many soldiers, and borne through the marching porte opened to the hearse, where it was deposited.

Bishop MacKay Smith and Father Carney, who were to officiate at the church, were seated in their carriage, the mourners and the honorary pall bearers and the members of the British embassy took their places in the line of carriages, the signal was given, and at a slow pace the procession started down Connecticut avenue towards St. John church, the soldiers and marines following in the line of march as the column moved along.

When the head of the procession arrived at the church it halted and the body, again raised on the shoulders of the enlisted men, was tenderly carried into the small church.

President Roosevelt had the place of honor at the right of the central pew. With him sat Mr. Baikes, the British charge, and for this special occasion the personal representative of King Edward VII. On his left was Capt. Bell, representing the Dominion of Canada by special designation. To the left of the presidential pew and in line with it were Lady Paunceforte and her three daughters, the Honorable Sybil, Audrey and Maud. The ambassadors were placed in the pew to the left of these ladies. The corresponding pews on the right of the president were occupied by Maj. Gen. Young and staff, in charge of the military portion of the funeral service. The staff of the British embassy sat directly in the rear of the Paunceforte ladies, and in the rear the diplomatic corps filed a consider-

able portion of the body of the church. The cabinet was accommodated in two pews, directly behind the president's pew, and the supreme court was given a similar accommodation in pews in alignment with these.

The senate committee on foreign relations, headed by Senator Cullom, and the house committee on foreign affairs, under the lead of Representative Hitt, were behind the right middle pews, and adjoining them sat Lt. Gen. Miles and Admiral Dewey with their staffs, the assistant secretaries of department, and the commissioners of the district of Columbia. The space in the rear of these officials was occupied by officers of the army and navy. In the galleries sat a number of personal friends of the Paunceforte family. A notable feature of the attendance here was sixteen servants from the embassy, for whom Lady Paunceforte had made special provision.

The services at St. John church in their general contour were very similar to those which marked the memorial service held at that church in honor of the late Queen Victoria. The large choir of forty men and boys took part in the service at Lady Paunceforte's request, and the three hymns sung in the body of the service also were of her personal selection.

With this solemn ceremony over, the choir sang "I heard a Voice from Heaven" and after the hymn, "Now the Laborer's task is o'er," the closing prayers were said. After the benediction was pronounced the choir took the strains of "Jesus, lover of my Soul" and marched in slow cadence down the chancel steps and out the door to the left. Meanwhile the body bearers had lifted the casket again and carried it slowly out of the door to the right, followed by the two bishops. As it was being placed in the hearse the mingled strains of organ and harp resounded through the church, this time in the grand solemn measure of the "Dead March from Saul."

At the sound of a bugle the head of the funeral escort swung up the street leading the march to Rock Creek cemetery. At the express wish of the family, the escort to the church to the cemetery was limited to a single squadron of U. S. cavalry, which passed at first slowly and then more rapidly between the lines of troops at "present arms." Not even the honorary pall bearers were called on to accompany the remains further than the church, for it was held that there the religious services had terminated.

So with the mourners in their carriages and the officiating clergymen and a few of the embassy staff, the remains were taken directly to Rock Creek cemetery, where they were placed in the receiving vault there to remain until such time as they shall be conveyed on a United States warship across the Atlantic to the ancestral home of the late Lord Paunceforte of Preston.

ORGANIZATION.

GRAND FALLS, May 26.—On Saturday, Alfred Tardy and Baptiste Groundy, while drifting down the St. John river on a steamer from Edgemoor, discovered the body of a man near Smith's place, at Green river, 12 miles above Grand Falls. They examined the body, and were horrified to see that the man had been shot, a bullet having entered the back of the skull, which it penetrated and passed out at the forehead. The unknown man was attired like a steam driver, and his boots were missing. They removed the body up the bank, and notified Mr. Smith of their gruesome find.

From the appearance of the body, which was still bleeding from wounds in the back of the head, they state life was extinct not more than five or six hours.

WANTED—A case of Headache that KUMFORD Powere will not cure in from ten to twenty minutes.

ADVERTISING RATES. \$1.00 per inch for ordinary transient advertising.

For Sale, Wanted, etc., 50 cents each insertion.

Special contracts made for time advertisements.

Sample copies cheerfully sent to any address on application.

The subscription rate is \$1.00 a year, but if 15 cents is sent IN ADVANCE the paper will be sent to any address in Canada or United States for one year.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., MAY 31, 1902.

WEST INDIA VOLCANOES.

The volcanic phenomena attending the eruptions on the islands of Martinique and St. Vincent are being studied with intense interest by leading seismology experts.

It is evident that the tornado of suffocating gas which wrecked the buildings in St. Pierre asphyxiated the people, fire then completing the ruin.

Mad was formed in two ways by the mixture in the atmosphere of dust and condensed steam, and by cloudbursts on the upper dust covered slopes of the cone washing down vast quantities of fine, light dust.

No flow of lava has apparently attended the eruption as yet, the purely explosive eruptions thus far apparently bringing no molten material to the surface.

Mr. Hovey also visited St. Vincent and collected all available data covering the eruptions of La Soufriere.

At least one resident of Kingstown, F. W. Griffiths, several months ago predicted that La Soufriere would soon break out.

On account of the strength of the trade winds it was not supposed that the eastward side of the mountain would suffer very much.

There was no wind on the morning of the great outbreak, a fact which facilitated the devastation of the country.

F. M. McDonald, who remained at his estate near Chateau Belair, until 2 o'clock in the afternoon of May 7, when the big eruption caused him to flee, and Dr. A. Mathes, a German chemist, detected sulphuretted hydrogen and carbon monoxide among the gases thrown out by the volcano.

There seems to be a strong sympathy between the eruptions on this island and those in Martinique; at least there is a near correspondence in the dates.

The New York Herald of Wednesday published a thrilling description of the destruction of St. Pierre and the be-

struction of St. Vincent, written by survivors of the disaster.

From the depths of the earth came rumblings, an awful music which cannot be described.

Just now my mind seems to return to its normal condition, and I look back upon that Thursday morning and the hours that immediately followed as upon some fearful nightmare.

St. Pierre today is a vast charnel house. Skirting for nearly a league the blue waters of the Caribbean sea, its smoking ruins are the funeral pyre of thirty thousand, not one of whom lived long enough to tell adequately a story that will stand grim, awful, unforgettable as that of Herculaneum, when the world is older by a thousand years.

St. Pierre is as dead as Pompeii. If men be found with hearts stout enough to build again beneath the steaming maw of old Pelee, a new city can rise only on the ruins of the old.

Mad was formed in two ways by the mixture in the atmosphere of dust and condensed steam, and by cloudbursts on the upper dust covered slopes of the cone washing down vast quantities of fine, light dust.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to Tone up the System, Restore the Functions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School of Ypsilanti, Mich., writes from 337 N. Clark Street, Chicago, Ill., as follows:

"As several of my friends have spoken to me of the favorable results obtained through the use of Peruna, especially in cases of catarrh, I examined it most thoroughly to learn its contents.

"I found it composed of extracts of herbs and barks of most valuable medicinal qualities combined with other ingredients, delicately balanced, calculated to tone up the system, restore the functions and procure health.

"I consider Peruna one of the most skillfully and scientifically prepared medicines, which the public can use with safety and success."—PROF. L. J. MILLER.

WOODSTOCK. A Resolution Complimentary to Dr. Morris of St. John.

WOODSTOCK, May 28.—The board of health, at a meeting yesterday, passed the following resolution:

"Whereas, the board of health of the town of Woodstock, has employed Dr. Morris of St. John to attend the patients suffering from smallpox; and whereas he has faithfully attended to his duty, it is resolved that we hereby express our appreciation of his professional ability and appreciate his genial and kindly manner in the discharge of all the cases that came under his care."

W. H. Hand (chairman), J. A. Lindsay, A. Henderson, H. Paxton Baird, W. B. Belyea, J. C. Hartley, secretary.

A copy of the resolution was presented to Dr. Morris.

This evening a number of citizens who appreciate the doctor's valuable services in keeping the smallpox epidemic in hand, tendered him a supper in Troy's dining rooms.

The chair was taken by His Worship Mayor Belyea. Others present were: Dr. Hand, chairman of the board of health; A. O. Holyoke, president of the board of trade; Couns. J. T. A. Dibblee, George Balman and J. A. Lindsay, ex-Mayor W. W. Day, School Inspector Meagher, G. H. Harrison, principal of the Grammar school; Drs. Appleby, editor of the Dispatch; Jas. W. Gallagher, Dr. G. E. Manser, H. P. Baird, chairman of the board of school trustees; Helen Stephenson, Dr. Robt. Thompson, T. C. L. Keelchum, J. W. Winslow, I. E. Shearman, T. V. Monohan, J. H. Wilbur, Wm. Bolger, E. R. Teed, John Maloney, J. M. Aiken.

Word has been received here of a suicide in Houlton, the unfortunate party being a young man aged 26, named Bryanton. He shot himself with a revolver at his boarding house, kept by James Ralleau. Disappointed affection is said to have been the cause of the act.

Wm. Charters, who has been living here for a number of years as a farm tenant, is moving his effects and family to Fredericton.

Mrs. R. D. Wilnot, with her grandchildren, Masters Charlie and Gerald Parks, got home on Saturday from Quebec.

Miss Ida Dykeman and Hugh Patrick of St. John spent Sunday with friends here.

FOR THE CORONATION. Yesterday afternoon Sergt. R. T. Patchell, Gunner S. J. Withers, Sergt. Chas. Robertson and Bombadier F. N. Nice of the 4th R. C. A. and Troopers W. H. McIntosh and W. Anderson of the 8th Hussars, left for Lewis, Quebec, to join the Canadian coronation contingent.

Hon. Joseph H. Ridgway, Secretary of the American Anti-Trunk Society, writes the following letter from the Grand Central Hotel, St. Paul, Minn.:

"It is with great pleasure that I endorse Peruna as an honest medicine, competent to do all it claims. I have used it several times and know of nothing that cures so completely, and at the same time builds up the system."

"I have recommended it to a number of my friends and always feel that I do them a service for I know how satisfactory the results invariably are. I only wish every family had a bottle—it would save much sickness and doctor bills."—Joseph H. Ridgway.

"Feel Better Than for Five Years." Mr. James B. Taylor, Roberts, Ind., writes:

"I am at the present time entirely well. I can eat anything I ever could. I took five bottles of Peruna, and feel better now than I have for five years. I have doctor with other doctors off and on for fifteen years, so I can recommend your medicine very highly for stomach troubles. I take great pleasure in thanking you for your free advice and Peruna."—James B. Taylor.

"I Enjoy my Meals as I Used to." Mr. J. W. Pritchard, Wolf Lake, Ind., writes:

"I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that I agreed with me. Before I would get half through my meal my stomach would fill with gas causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to, and it is all due to Dr. Hartman and his wonderful medicine, Peruna."

"It has been one year since I was cured, and I am all O. K. yet, so I know I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of summer catarrh. A remedy that will cure catarrh of one location will cure it anywhere. Peruna cures catarrh wherever located. That it is a prompt and permanent cure for catarrh of the stomach the above letters testify.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Woodsstock, May 28.—The board of health, at a meeting yesterday, passed the following resolution:

"Whereas, the board of health of the town of Woodstock, has employed Dr. Morris of St. John to attend the patients suffering from smallpox; and whereas he has faithfully attended to his duty, it is resolved that we hereby express our appreciation of his professional ability and appreciate his genial and kindly manner in the discharge of all the cases that came under his care."

W. H. Hand (chairman), J. A. Lindsay, A. Henderson, H. Paxton Baird, W. B. Belyea, J. C. Hartley, secretary.

CITY NEWS.

Recent Events in and Around St. John.

Together With Country Items from Correspondents and Exchanges.

The beef market in St. John is a little easier, but prices have not yet dropped.

North end firemen were called out at noon yesterday by an alarm from box 14. The fire was in a heap of rubbish near the Maritime Nall Works, and was soon extinguished.

Thos. Gilliland has just completed the repair of the draw bridge at Musquash. On Monday Mr. Gilliland will begin the erection of the new Osborne bridge in Simonds.

J. W. McCready, the well known Fredericton barrister, received word on Tuesday afternoon of the death of his father, John McCready, a respected resident of Wickham, Queens county.

Edward Monahan of Milford, has gone to Fort Arthur (Ont.) to accept a position. Mr. Monahan was for 18 years lumber surveyor at Barnhill's mill.

On Tuesday at the Victoria street Free Baptist parsonage the Rev. David Long united in marriage Ross E. Ryder and Miss Olive B. Campbell. Both bride and groom belong to Johnston, Queens county.

Thomas Bogue, who died in Lynn on Monday last, was a native of Fredericton. He was well known in sporting circles, having been manager for John L. Sullivan. The big fellow attended the funeral on Wednesday.

The whole issue of \$12,500 3 1/2 per cent bonds has been taken up at 1.2 per cent premium and the demands were for considerably more than this sum. Most of the issue was disposed of Tuesday afternoon.

A St. Johns, N.B., cable of the 26th says: The Strait of Belle Isle is now free of ice, but heavy Arctic floes are drifting south some miles east of the coast, effectually preventing the approach of ocean steamers. Steamers which have arrived here report that large bergs are lying in the track of vessels using the Cape Race route.

The case of Capt. A. Olsen of the Norwegian bark Victoria against the tug Oak Bay, in consequence of collision at Campbellton last summer, comes up here today. The evidence of the parties concerned was taken at Campbellton, and the argument occurred here. An omission was made in that the plaintiff did not put in the claim for damages sustained. Judge McLeod decided that the plaintiff should be allowed to prove the same. This will be done today. Capt. Olsen having come here from Philadelphia for the purpose. McAllister and Mott, with H. H. McLean, as counsel, appear for the Victoria, and C. F. McLaughlin, with A. A. Stockton as counsel, for the Oak Bay.

It is proposed to hold the classes in Clad Tidings hall all summer and if successful, another hall will be secured for the winter's work.

GOOD NEWS FOR ST. JOHN. The directors of the Newfoundland and Halifax steamship company on Friday decided to take the steamer Havelock off her present route and place her on the route between St. John and Halifax, calling at Yarmouth and other intermediate points. This is good news for the merchants of St. John, as it will give them direct communication with a number of ports on the Nova Scotia coast. The undertaking carries with it a Dominion subsidy of \$7,000 for each round trip. The Havelock is an iron boat of 267 tons net, and 451 gross. She is 165 feet in length, 24.5 feet breadth, and 11.8 feet depth of hold. She was built in 1881. The Havelock has good passenger accommodations, besides which she is fitted with water ballast tanks, which will be found very useful in trading to the different ports where the water is shallow. The D. A. R. is also talking of putting on the Prince Edward to run on the route above mentioned. This is not yet decided whether she will make St. John a port of call.

Many Women Are Not Attractive Because of repulsive-looking warts on the hands. They can be removed quite painlessly by Putnam's Painless Corn and Wart Extractor; it never marks and always cures. Try it.

BURGLARS AT HAMPTON. Thieves Wednesday broke into William Thompson's store at Hampton and carried away a considerable amount of goods. A door in the rear was broken in with an axe and entrance was obtained that way. Later on an attempt was made, probably by the same persons, to gain entrance into the store of Gilbert Bros., but the tenant living in the upper flat heard the noise and came down. Appearance scared the thieves away.

DEATH OF MRS. F. E. JOSSELYN. The death occurred on Wednesday of Isabella, wife of Frank E. Josselyn of 101 Moore street. Mrs. Josselyn was operated on for appendicitis on Tuesday and seemed to be doing very well but she had succumbed to the disease from nervous prostration, and had not strength to rally. Besides her husband three children survive her.

WHAT IS LIFE TO YOU? If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may well wonder if life is really worth living. Certain relief and a permanent cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures the wretched disease.

RECENT CHARTERS. Seannell Bros. of New York report the following charters: Bark Mary A. Law, Turks Island to Philadelphia, salt, p. l.; out in ballast; brig L. G. Crosby, New York to Point-a-Pitre, gen. cargo, \$1700; sch. Charlevoix, Barbados to Halifax, molasses, \$375; sch. Exception, New York to Rio-Grande do Sul, gen. cargo, 90 cents per ton; sch. Preference, Porto Rico to Halifax, molasses, \$225; sch. Alexandria, New York to Charlottetown, coal, 48, and back, Mata to New York, coconuts, p. l.; bark Oberon, New York to Santos, case oil, 18 cents; Highland, New York to East London, gen. cargo, p. l.; prompt; brig. Quaker, St. John to St. Lucia, lumber, \$950; bark. Peerless, Crandall to San Fernando, lumber, \$825.

DR. J. T. GALLIVAN. A Clever Young St. John Man Died Yesterday. Dr. John T. Gallivan, son of the late John Gallivan, formerly sexton in the Cathedral, died yesterday at his mother's residence on the corner of Duke and Carmarthen streets. Dr. Gallivan was thirty-five years of age. He was born in St. John and after passing through one of the public schools here he went to McGill, where he obtained his degree in medicine. After leaving McGill, Dr. Gallivan went to New York and there opened an office. In that city he has been very successful, but recently his failing health compelled him to give up his practice. About a week ago, in the hope that a change of air would be a benefit, Dr. Gallivan came to St. John, but failed to regain any strength. Death was due to consumption. Dr. Gallivan leaves besides his mother, a brother and sister. The former, Thomas Gallivan, is local agent here for the F. F. Collier Co., and the sister, Miss Minnie, a teacher in St. Malachi's school.

THE JUNE BRIDE IS DUE. Every time a bride's sisters visit her, during the first six weeks after marriage, they scream at something she has taken from home, which belonged to them.—Atchison Globe.

SERIOUS CHARGE.

Man Arrested on Charge of Fraudulently Taking Possession of Drifting Logs.

GRAND FALLS, N. B., May 24.—Charles F. Wilson was arrested on Friday and brought here Tuesday. James A. Patterson, of New Denmark, charged with fraudulently taking and having in his possession saw logs adrift in Salmon River, the property of James A. Patterson, without the consent of the owner thereof, J. J. Gallagher, barrister, of Grand Falls, appeared as counsel for the prosecutor. James A. Patterson, and the prisoner were undefended. Watson was remanded until next Thursday and he entered into a recognizance to appear at that time. Meanwhile the justices will forward the depositions to the attorney general in order to obtain his opinion regarding the sufficiency of the evidence to commit. Watson's trial. Patterson has already suffered severe financial losses this season from persons stealing and rafting his logs and defacing his marks, and he is determined to put an end to the practice.

WAS AT ST. PIERRE BEFORE THE DISASTER.

Capt. D. D. Meissner, of the schooner Canard, which arrived here yesterday from the West Indies with cargo of molasses, reports that he was at St. Pierre, Martinique, on April 23rd. At that time everything pointed to a disaster, but the people did not seem to have any fear as to the result. The water pipes and the boiler of the schooner were the first to be damaged. The Canadian was at Barbados when the big eruption occurred and his vessel was covered with dust from the far off eruption. Capt. Meissner has a lot of this dust, which was collected from the deck of his vessel, in a jar.

DOMESTIC SCIENCE SCHOOL.

The Glad Tidings hall is undergoing some changes and is being refitted to meet the requirements of the school of domestic science recently opened there. Water pipes and heating pipes, stoves, dishes, in the hall, carpets, tables and chairs provided, and in a few days all will be ready for the work. The classes in sewing are held every Tuesday evening and are largely attended, about thirty-five young women being present at last Tuesday's meeting. Effectively preventing the approach of ocean steamers.

Miss Roberts-Christie, who has been engaged by the ladies of the W. C. T. U. to take charge of the school came to the city a few days ago and is now arranging for classes in cooking. On Friday evening next the first lesson will be given.

It is proposed to hold the classes in Clad Tidings hall all summer and if successful, another hall will be secured for the winter's work.

GOOD NEWS FOR ST. JOHN.

The directors of the Newfoundland and Halifax steamship company on Friday decided to take the steamer Havelock off her present route and place her on the route between St. John and Halifax, calling at Yarmouth and other intermediate points. This is good news for the merchants of St. John, as it will give them direct communication with a number of ports on the Nova Scotia coast. The undertaking carries with it a Dominion subsidy of \$7,000 for each round trip. The Havelock is an iron boat of 267 tons net, and 451 gross. She is 165 feet in length, 24.5 feet breadth, and 11.8 feet depth of hold. She was built in 1881. The Havelock has good passenger accommodations, besides which she is fitted with water ballast tanks, which will be found very useful in trading to the different ports where the water is shallow. The D. A. R. is also talking of putting on the Prince Edward to run on the route above mentioned. This is not yet decided whether she will make St. John a port of call.

LANDSOWNE IS NAMED. Present Foreign Secretary Mentioned as Lord Lansdowne's Successor. LONDON, May 24.—The death of Lord Lansdowne of Preston, the British ambassador at Washington, will probably be more deeply regretted by the British public than would the loss of any other diplomatist.

The question of a successor has been discussed for a long time, as his retirement was expected. Mr. Sayers, the foreign secretary for the foreign office, has been prominently mentioned for the place, out from present indications the selection will be one of the most prominent men in the service.

The Marquis of Lansdowne, the foreign secretary, favors the selection of an expert on international law. The latest gossip is that the Marquis of Lansdowne himself may go to Washington.

DR. J. T. GALLIVAN. A Clever Young St. John Man Died Yesterday. Dr. John T. Gallivan, son of the late John Gallivan, formerly sexton in the Cathedral, died yesterday at his mother's residence on the corner of Duke and Carmarthen streets. Dr. Gallivan was thirty-five years of age. He was born in St. John and after passing through one of the public schools here he went to McGill, where he obtained his degree in medicine. After leaving McGill, Dr. Gallivan went to New York and there opened an office. In that city he has been very successful, but recently his failing health compelled him to give up his practice. About a week ago, in the hope that a change of air would be a benefit, Dr. Gallivan came to St. John, but failed to regain any strength. Death was due to consumption. Dr. Gallivan leaves besides his mother, a brother and sister. The former, Thomas Gallivan, is local agent here for the F. F. Collier Co., and the sister, Miss Minnie, a teacher in St. Malachi's school.

THE JUNE BRIDE IS DUE. Every time a bride's sisters visit her, during the first six weeks after marriage, they scream at something she has taken from home, which belonged to them.—Atchison Globe.

How to Get Rich.

Take a quantity of office costing one-fourth the price of oil, mix it with oil, and sell the compound to the public at the price of pure oil, offer "prizes" with the compound to make it sell. It is such a compound the public get when they buy common soaps. In Sunlight Soap—Octagon Bar, the public buy a pure and well-made soap. Sunlight Soap reduces expense by prolonging the life of the articles washed with it, which is much more profitable to the public than common soaps with "prizes." 204

THE DEATH ROLL.

Senator Clemow, the Earl of Chichester and Prof. Kussmaul.

OTTAWA, Ont., May 28.—Hon. Senator Clemow died at 10:30 o'clock this morning.

Hon. Francis (Rideau) Clemow, son of Capt. John Clemow, of H. M. 41st Regiment, was born in May 1821, educated at U. C. College, Toronto, and in 1846 settled in Ottawa. Married, 1847, Margaret, daughter of late Col. Powell, of H. M. 101st Regiment. Was a director of the Ottawa Electric Co., and Ottawa Gas Co. Was a member of the Ottawa City Council two years.

For 25 years he was chairman of Ottawa College. Institute. Was grand master of the Orangemen of Carleton Co. eight years, and in 1882 was chairman of committee of the whole in the senate on the bill to codify the criminal laws of Canada, which passed the senate Feb. 3, 1885. A conservative.

LONDON, May 28.—The Earl of Chichester, Walter John Pelham, formerly a member of parliament (liberal) for Lewes, is dead. He was born in 1828.

HEIDELBERG, Germany, May 28.—Professor Adolf Kussmaul, who introduced the stomach pump into medical practice, is dead. He was born in 1822. Prof. Kussmaul was one of the physicians called to San Remo, Italy, in October, 1888, to attend the German Emperor Frederick III., and the professor was one of those who promoted his self-skill, and he died after a long illness. Captain Stead followed a boatman's life on the Hudson River for half a century. He had represented Greene County in the Assembly and was sheriff of the county in 1889, 1890 and 1891.

ST. ANDREWS. ST. ANDREWS, N. B., May 28.—Sir William Van Horne with Lady Van Horne, Miss Adie and Miss Mary Van Horne, arrived yesterday in Sir William's private car. They detained at Bar road station, and were driven across the bar to Minister's Island, where they remained a couple of hours. They were taken by a special train to the Bar road station to Mr. Adam, to connect there with the train from St. John to Montreal. Lady Van Horne and family will return early next month to their summer residence on Minister's Island.

Sir William Van Horne and party left Monday en route for Dorchester, having in his charge Joseph Doherty, sentenced at the late sitting of the supreme court here, to two years imprisonment in Dorchester penitentiary.

Mr. Daniel Byrne left by C. P. R. yesterday for St. John, having charge of Maggie Doherty, who by consent of His Lordship Bishop Casey is to be admitted to the Home of the Good Shepherd.

Sir William Van Horne and party left yesterday for St. John, having charge of Maggie Doherty, who by consent of His Lordship Bishop Casey is to be admitted to the Home of the Good Shepherd.

EDMUNDSTON NEWS. EDMUNDSTON, N. B., May 27.—A party in honor of Miss Theriault, St. Leonard's who has been spending a few days in Edmundston, was given on Monday evening last at the house of Mrs. Thaddeus Hebert. The greater part of the evening was spent in dancing, music being furnished by the Edmundston orchestra. Just as the hands of the clock, which had been creeping round only too quickly, began to warn the youthful dancers that it was growing late, the sound of rattling dishes was heard and in a few minutes the copious refreshments were brought in. After spending a short time in singing "the good old songs," the company broke up, with many thanks to the hostess for her kindness in giving such a delightful reception.

Master Jack Plant, who has been sick for a few days with neuralgia, is recovering.

Miss Lizzie Hebert, who has been visiting friends in Fredericton and St. John, has returned home.

Among those to take advantage of the C. P. R. holiday excursion tickets were Mrs. Porter and Mrs. Ritchie, who spent Sunday at Grand Falls, and J. Lyonn and A. McMartin, who took trip to Vaux Buren.

Sydney Ross, train despatcher at Woodstock, has been in town for a few days looking after the C. P. R. agents' examinations.

The engagement is announced of J. E. Worrell, principal Edmundston, to the daughter of Mr. and Miss Ethel Ritchie, one of Edmundston's most popular young ladies.

A subscription is being raised by the people of Edmundston to be added to the general fund of the province, which is being collected for the purpose of placing monuments over the graves of the Canadians who lost their lives in South Africa. Contributions may be left with T. M. Richards or A. Lawson.

HONOR FROM CAMBRIDGE. A Number of Honorary Degrees to be Conferred.

LONDON, May 27.—On June 10 the University of Cambridge will confer honorary degrees on Tadashu Hayashi, the Japanese minister to Great Britain; the Duke of Argyll, H. W. P. Battell, of York University, N. S., and five of the Canadian geological survey, and nine others.

NOVA SCOTIA NEWS.

CORNWALLIS, N. S., May 28.—On Wednesday at the Methodist parsonage, Canning, the marriage took place of Miss Mary Thompson of Arlington, and Frederic Blenkhorn of the same place.

Hon. Dr. Borden has purchased for \$350 a piece of land near his residence in Canning, from Charles Northrup of that place. The land is to be used as a driveway to his residence. He has also bought the Henry Mitchell place, adjoining.

The death by drowning took place at Boston last week of Nathan Messon of Canning. The remains are expected to arrive at the home of his father, Simon Messon, Canning on Thursday, and will be interred in the Methodist cemetery at Ellioton. Deceased was about twenty-five years of age and was unmarried.

Guy Goodacre has sold his poultry farm at Grand Pre and has left for New Jersey, U. S., where he has secured a lucrative position on a large poultry farm.

Hay is very scarce in Cornwallis and is selling at ten and twelve dollars per ton. The hay crop bids fair to be a large one this year. Heavy rains have fallen recently.

Albert Harris, who recently sold his farm to the Rev. Mr. H. H. Havelock, has purchased the residence of Mrs. Annie Wickwire at Canning. Mrs. Wickwire, we understand, intends building a nice residence at Kentville.

Fred Miller of Dartmouth, and Fred Hubbard of DeL'Isle, members of the H. C. U., left on Tuesday for England to attend the Coronation. The latter is a returned soldier from the African war and has seen active service.

PARSBORO, N. S., May 26.—The Newville Lumber Co. have sold their saw mill and other property at Newville and all their timber lands to Percy L. Spencer of Spencer's Island and James W. Kirkpatrick of Diligent River. The price is in the neighborhood of \$60,000, but the property is not to be transferred until next October.

The coronation of Victoria, Day brought a large concourse of visitors to Parsboro, and, but for the threatening aspect of the weather, the number would have been largely increased. As it was, a special train brought quite a concourse of visitors, and the whole countryside was represented. A procession comprising the Parsboro Citizens' band, the mayor and council, the fire brigade, the children of the public schools and a lot of cyclists started from the town hall at 10 o'clock and was marshalled by Major Kelly and Dr. Clay. The fire wagons were tastefully decorated, and the whole town was gay with flags and bunting. A large number of visitors and townspeople were present, and the whole ceremony was a grand success. The Salvation Army did a good business in the same line. The rain in the afternoon prevented the programme of sports at the driving park from being carried out, and indeed somewhat with the financial returns. The band concert in the rink in the evening was very largely attended, and the net receipts of the band amounted to \$150.

Capt. John Spry, and the whole company, will launch a schooner of about sixty tons, registered at Spencer's Island on or about the 20th of next month. The large tern schooner they are building will not be ready for launching till fall.

Mr. and Mrs. Arthur Gilmour of St. John are visiting relatives here.

WOLFVILLE, N. S., May 28.—Thornleigh, the beautiful residence of the late J. W. Barrs, is offered for sale.

The bicycle race between Windsor and Kentville on Monday afternoon, May 27, was won by G. H. Shaw, the distance being 25 miles, in 1 hour and 25 minutes, beating all previous records.

Prof. Cecil Jones, assistant professor of mathematics at Acadia, has gone to England to be present at the closing of the University of N. B., his alma mater. He will return in time to be present at the closing at Acadia next week.

Prof. Haycock, accompanied by Mrs. B. W. Haycock, left for Westport, en route for Victoria, B. C., where he will engage in geological work. Mrs. Haycock and child will spend the summer at Briar Island.

Captain Taylor has rented his beautiful residence on Main street to Dr. Lawrence and will go for the summer to Cape Breton, where he will enjoy yachting and fishing.

Phillip W. Bill, a graduate of Acadia and LL. D. of Dalhousie law school, has entered the firm of Hon. F. A. Lawrence, Truro.

Mrs. Mellick, wife of the Rev. Mr. Mellick of Emerson, Man., has arrived from Utica, New York, where she has been visiting her brother, Rev. Wm. Wallace, and is the guest of her father, Rev. Isiah Wallace.

Mrs. Aubrey Brown of Digby is visiting her sister, Mrs. L. Moore. Mr. and Mrs. Frederick Wickwire are visiting Boston and New York. Mrs. Seely of St. John is at the Chestnut sanatorium, Kentville.

Death of a Rexton Lady at Truro—Picked up a Dory With Two Fishermen.

RICHIBUCTO. RICHIBUCTO, N. B., May 29.—The death of Mrs. Hutchinson, widow of the late Nathaniel Hutchinson of Rexton, occurred at Truro yesterday. The deceased lady had been visiting her daughter, Mrs. Fallon, and a few days ago was taken ill with pneumonia. She was aged 77 years. The remains will arrive tomorrow for interment.

The storied boat, which arrived on Monday, brought a dory and two fishermen, picked up off the banks of Newfoundland. They had been separated from their vessel for seven hours when rescued.

DEATHS. BARRE—At Wolfville, May 23, John W. Barre, in the 90th year of his age.

WOLFVILLE—At Truro, May 26, Edith Laidlaw Baylis, aged 83 years.

PARKER—At Wyman Road, Yarmouth, B. E. Parker, in the 72nd year of his age.

CHAWFORD—At the residence of his brother, Dr. Crawford, 25 Coburg street, May 28, Mrs. M. A. Chawford, in the 72nd year of her age.

DEVILIN—Suddenly, at Halifax, Sunday morning, May 26, Mrs. Annie Devilin, wife of John Devilin, aged 70 years, and four children to mourn her loss.

DULLAND—At Port Hurdland, Yarmouth, May 29, Mrs. George H. Dulland, aged 84 years.

Will You Spend a Penny For a Sick Friend?

Here is my proposition. I have written the six books shown below. I want no money. I simply desire the privilege of sending the book needed to some one who is not well; I will do more: To prove my faith in my newly found principles of curing the sick, I'll send you an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will let you or your friend take it for a month; and if it succeeds he will charge you \$5.00 for it. If it fails, your druggist will send the bill to me. I will tell him to trust to your honesty, leaving the decision to you. You will know then what my Restorative can do. My Restorative will gain your good will and endorsement under such a trial.

No physician ever has nor ever will, I believe, made an offer like this—my remedy is the only prescription yet found to stand a test like this.

And I do exactly as here stated. No catch. No deceit. You deal with your own druggist, who may be your neighbor, and a stranger to me. The plan protects you absolutely.

You will see this offer published in every high class magazine and widely circulated paper in America and here lies the proof of my success. My records show that 49 out of each 40 who accepted the six bottles, paid for them. They paid because they were cured—there are 39 chances in 40 that I can cure you. Is not this a remarkable offer? Is not the record of cures even more remarkable? I fail sometimes, but not often. A few of these diseases arise from causes like cancer, for which, as yet, no man knows a cure.

And how do I accomplish this? I will tell you. I have found a way to strengthen the inside nerves—the only way yet known. These nerves alone operate each vital organ. The Heart, Stomach, Kidneys, etc., each have their nerve branch. The power that makes each organ do its duty is the inside nerve power—nothing else. I know how to restore that power. No matter which organ is weak, this nerve system operates them all. Nerve strength or weakness extends to all.

My Restorative goes directly to this cause—these nerves. That is the secret of my success. Don't let prejudice keep you from learning what my books will tell you. They are practical books written for intelligent people. I am not appealing to ignorance, and I wish to discourage prejudice. No matter what your doubts. Remember I have spent a lifetime on my method, and it is unknown to you. I cannot call personally upon seventy-six million of people. Then I must tell you of my offer through the papers you read.

The telephone, the telegraph, the wonders of electricity have been solved by man. May I not have found a way to do as much for humans who are sick will read this—who are discouraged because of others' failures to cure them. That is no reason why they should not get my book. You cannot know too much about ways to get well, when such ways can be tried at my risk. This offer is too fair to need argument. Won't you spend a penny for a sick friend? Write a postal today for the book he needs. Your reward will come in knowing you opened the way, to a cure.

Simply state which book you want, and address Dr. Shoop, Box 12, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

Book No. 1 on Dyspepsia. Book No. 2 on the Heart. Book No. 3 on the Kidneys. Book No. 4 for Women. Book No. 5 for Men (sealed). Book No. 6 on Rheumatism.

Book No. 1 on Dyspepsia. Book No. 2 on the Heart. Book No. 3 on the Kidneys. Book No. 4 for Women. Book No. 5 for Men (sealed). Book No. 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

BIRTHS. BURTON—At Springhill, N. S., May 21, to Mr. and Mrs. Charles Burton, a son.

BARNES—At 50 White street, on May 23rd, to Mr. and Mrs. Arthur Barnes, a son.

CAMERON—At Canoe, N. B., May 25, to the wife of J. G. Cameron (nee Hogan), a daughter.

CAMPBELL—At 128 Prince William street, on May 27th, to the wife of Percy W. Campbell, a daughter.

DEAMOND—At North Brookfield Mines, on May 27th, to Mr. and Mrs. Stephen Deamond, a daughter.

HANNAN—At Springhill, N. S., May 22, to Mr. and Mrs. J. G. Hannan, a son.

HARLOW—At North Brookfield Mines, on May 22, to Mr. and Mrs. J. G. Harlow, a son.

HARRINGTON—Francis Frederick, son of James and Gertrude Harrington, Guilford street, West End.

JONES—At Moncton, on May 26th, to the wife of A. H. Jones, a daughter.

KEELY—William Charles, son of James and Mary Kelly, Winslow street, West End.

KANE—Edwin Stansfield, son of Michael Kane and Ann Kane, Leduc street.

LYNCH—At Port Dufferin, on the 14th inst., to Mr. and Mrs. David Lynch, a daughter.

MCINTYRE—At Truro, May 22, to Mr. and Mrs. J. G. McIntyre, a son.

MCMAUR—At St. John West, on May 22nd, to the wife of Hugh L. McMaure, a daughter.

MCNULTY—James Thomas, son of James and Mary McNulty, Queen street, West End.

PEPPER—At Garland's Place, Great West, on May 23rd, to Mr. and Mrs. Laurence Pepper, a son.

PARLOR—On May 17th, at 176 Main street, to the wife of Nelson Parlor, a son.

PORTER—At St. John on May 24th, to the wife of J. G. Porter, a daughter.

TERRIS—At Springhill, N. S., May 21, to Mr. and Mrs. William Terris, a son.

VERE—At Halifax, N. S., May 26, to Mr. and Mrs. Wm. Vere, a son.

VERNON—At North Sydney, May 23, to the wife of Wm. Vernon, a daughter.

WINTER—At 97 Duke street, on the 25th inst., to the wife of Frank B. Winter, a son.

WHEBLEY—At Woburn (Mass.) on May 27th, to the wife of A. E. Whebley, a daughter.

MARRIAGES. ARMOUR-McINNIS—At Truro, May 21, by Rev. Archdeacon Knabach, Melvin Armour, of Moncton, and Mary Jane, youngest daughter of Peter Melvin.

COLE—At Sydney, C. B., May 20, by Rev. A. D. Richards, Jonathan J. Cole to Matilda Hawkins, both of Sydney.

GLYER-PARKER—Sydney, C. B., May 20, George Glyer to Elizabeth Parker, both of Sydney.

DALRYMPLE-HORNE—At Elmadaie, Hants, N. S., May 21, by Rev. A. V. Morash, Fred W. Dalrymple to Louisa B. Horne.

MADDER-HILLY—At Madon, N. B., May 18, by Rev. W. A. Cunningham, B. A., Clifford Maddar to Mary R. Hilly.

MCANVERSON—At Glace Bay, May 22nd, by the Rev. J. A. Forbes, Wilbertore McAnver to Mary Anderson, both of Glace Bay.

MOHELER-BROWN—At South Brooklyn, N. S., May 18, by Rev. Father Hickey, John Mohele to Margaret Brown, both of Halifax.

GODDARD—At Newville, May 19, by Rev. P. M. Holden, Thomas O'Grady, of the D. A. R., and Mrs. Alice DeWitt.

RITCHIE-CAMPBELL—At the Free Baptist parsonage, Victoria street, on May 27th, by Rev. David Long, Ross E. Ryder to Olive Ritchie, both of Johnston, Queens Co.

PIDPOY-McINTOSH—At Port Hawkesbury, May 20, by Rev. L. M. MacLean, William Pidpoy to Annie Matilda Macintosh.

DEATHS. BARRE—At Wolfville, May 23, John W. Barre, in the 90th year of his age.

WOLFVILLE—At Truro, May 26, Edith Laidlaw Baylis, aged

PROVINCIAL NEWS.

SALISBURY, N. B., May 28.—The 24th passed off quietly here. There was quite an influx of visitors. Rain seriously interfered with fishing and other outdoor recreations.

Vegetation, which has been at a standstill for several weeks, has taken a start with the recent warm rains. Considerable progress has been made in the clearing of the woods. J. Wallace Taylor shipped another carload out of his lot, last week.

L. A. Wright of Coverdale Mills, who has been spending a few days on F. E. Island, brought a very handsome driving mare home with him last week.

H. Allan Scribner, station agent on the Bangor and Acadia railway at Kathadin Iron Works, is spending a few weeks' vacation with his brother, station agent R. W. Scribner, and other relatives here. Mr. Scribner is accompanied by Mrs. Scribner and their two children.

In the absence of a minister, a religious service in the Baptist church at this place on Sunday was conducted by John E. Dean, one of the deacons of Leinster street church, St. John. Misses Blanche O'Brien and Edith McKie of the Monoton Baptist church choir ably assisted with the music.

HOPEWELL HILL, May 28.—The funeral of James G. Stuart, whose death occurred on Thursday night, took place from his late residence this afternoon, and was attended by a very large concourse of people. The services were conducted by the Rev. J. K. King, pastor of the Methodist church, assisted by Rev. F. D. Davidson of the Baptist church. The choir sang Asleep in Jesus, Thee We Adore, Eternal Name, and The Christian's Good-night. Several beautiful floral offerings were on the casket.

The pall bearers were Alex. Rogers, Watson E. Reid, James C. Wright, Hueston Stewart, Jehiel E. Peck and Sheriff Lynds. A government engineer was at Riverside yesterday, making a preliminary survey of a proposed canal across a point of marsh on the Shepody river, designed to straighten and shorten the route out the river.

Fred Burton, who recently came back from the states, is setting up a paint shop at Riverside. Mrs. Edward Chute of Albert Mines, received a telegram last week announcing that her husband had been drowned in the states, where he had been working for some time. Mrs. Chute left on Wednesday for Digby, N. S., where she and her husband belonged.

Miss Ada Russell of Moncton spent a few days this week at her home here. WOODSTOCK, N. B., May 27.—The election for the county council in the parish of Woodstock was held this afternoon, and resulted in F. Byron Bull being elected over his opponent, Ansel Franklin, by a majority of 62.

SOFT SWALE PRESCOTT, Capt. Daly, is in port loading deals for St. John. HOPEWELL HILL, May 28.—The schooner Blue Wave is at Grindstone Island loading freestone for St. John, for Alex. Rogers of this place.

The holiday was not very generally observed in this section. A number of parties enjoyed a day's fishing on the lakes, but the weather was not at all favorable for an outing. J. Law Bishop of Lower Cape has gone to Fredericton to conduct a tailoring business.

Lawrence M. Colpitts, who has completed his third year at Mt. Allison University, came to his home here today. Lorenzo Milton is sick with an attack of inflammation of the lungs. Dr. Carmvath is in attendance.

SALMON CREEK, May 28.—A meeting was held in the public hall to organize a temperance lodge. Dr. Nugent of Briggs' Corner in the chair. It was decided to organize and to call the new lodge Silver Cord. The following officers were chosen and installed by Deputy Stillwell of Sunshine Lodge: R. T. Baird, P. C. T.; G. G. Baird, G. T.; Mabel Harper, V. C. E.; Carrie Darrah, F. S.; Maud Harper, treas.; Mary Fowler, sec.; R. J. Baird, asst. sec.; Mr. Coffin, chaplain; Thomas Williams, marshal; Sadie Duffey, deputy marshal; James McNeill, sentinel; S. S. Baird, guard.

It was decided to meet every Monday evening at 8 o'clock. Much credit is due to the members of Sunshine Lodge of Briggs' Corner, who have been untiring in their efforts to help on the organization. Communion will be held in the Presbyterian church at Chipman on the 22nd of June.

Mrs. Tom Baird, formerly Miss Fowler, is expected home from Montana this week. YERBIBUCTO, N. B., May 28.—The death of Mrs. Maudie, widow of the late John Maudie, occurred at St. Nicholas River on Sunday, aged 76 years. The funeral took place yesterday afternoon.

A base ball match between a Chatham team and the Rexton team came off on Victoria day at Rexton. The game was won by the Chatham team. The Norwegian bark Adela was towed in on Monday, consigned to J. & T. Jardine. This makes the fourth arrival from sea. The bark Sagona sailed this week for Liverpool.

R. O'Leary shipped a carload of canned lobsters yesterday. Andrew Bonar Law, a member of the British house of commons, mentioned in yesterday's Sun, is a native of Rexton, three miles south of here. He is a son of the late Rev. Jas. Law, for many years the pastor of St. Andrew's Presbyterian congregation, and in his day one of the leading divines of the province.

GRAND FALLS, May 27.—On Saturday Alfred Tardy and Baptiste Groudy, while drifting down the St. John river on a catamaran from Edmundston, discovered the body of a man near Smith's place, at Green River, 12 miles above Grand Falls. They examined the body, and were horrified to find that the man had been shot, a bullet having entered the back of the skull, and it penetrated and passed out at the forehead. The unknown man was attired like a stream driver and his boots were missing. They removed the body up the bank, and notified Mr. Smith of their gruesome find.

From the appearance of the body, which was still bleeding from wounds in the back of the head, they state life was extinct not more than five or six hours. The body will probably be identified at the coroner's inquest, and an effort then made to clear up the mystery. Robbery was no doubt the motive of the crime, since a stream driver would have on his person a large sum of money, the result of his spring's labors. Some surmise that the shooting occurred during a drunken quarrel. Late Friday night, several Injane portaged canoes from the upper to the lower basin, and pro-

ceeded down river. Some think that they could solve the mystery. MILLSTREAR, N. B., May 26.—Miss Gertrude Byron and Agnes E. Reynolds spent the holidays at their homes here. Miss Rose Graham, who has been visiting her aunt, leaves for her home this week. The recent heavy rains, it is feared, will do serious damage besides retarding the putting in of the crops. Miss Gertrude Fenton and Miss Nora Duffey spent the latter part of the week here with their parents.

Doctors Order It.

Doctors see at once the advantage of taking a medicine right to the part that is sick. You see the doctor orders his own medicines for the disease, and has his patient use Vapo-Cresoleol at the same time. It destroys all germs of diphtheria, scarlet fever, measles, and other contagious diseases; and there is no remedy its equal for croup, sore throat and hard colds. You now see why it often cures whooping-cough in a few days.

Vaping here is sold by druggists everywhere. A Vapo-Cresoleol outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresoleol, complete, \$1.00; extra supplies of Cresoleol, 50c. and 25c. Illustrated booklet containing full instructions free upon request. Vapo-Cresoleol Co., 25 Fulton St., New York, U.S.A.

The school house here was recently trimmed on Empire day with bunting, maple leaves and mottoes, while the blackboards were decorated with flags, drawn by the children and appropriate quotations. The exercises consisted of patriotic recitations and songs, and good essays (which were originally read on Canada and the Empire, The Expansion of the British Empire, Life of Queen Victoria and the present war in South Africa. A number of the latest of the papers were presented and read to the close of the children's treat.

28th.—The Central Hampshire street factory commenced operations for the season yesterday. Everett Vanwart of this place is the maker this season. Le Baron Jones and wife of Fredericton attended at the funeral of his sister, with Mr. J.'s mother. Edward Wasson spent Sunday with his parents, Mr. and Mrs. Jos. Wasson. The recent warm weather and rains have started up the grass and other crops. The grass is coming up and commencing to rise here again.

HOPEWELL HILL, May 27.—Brayley the comedian sent chalk artist here for the last night in the hall here, to a good sized audience. The commanders of the big steamers that load deals on this side, don't always appear to be sound in their judgment. The Capt. in the river was Shepody Bay pilot, while cruising down the bay below Grindstone Island, hailed and boarded a large English steamer bound up. Supposing the vessel was going either to the island or to Cape, the pilot was called what astounded on being told by the captain that he was bound for West Bay, N. B. Being informed by the pilot that West Bay was in Nova Scotia, and that he was up the wrong bay, the captain was not long in turning back.

Mr. and Mrs. Reverdy Steeves of St. John visited Mr. Steeves's sister, Mrs. R. McGorman, this week. GASPAREAUX, May 27.—James Patterson, representative of Rufus Hamm of Bangor, has purchased during the last week a large amount of knees. The market for knees continues still high in every respect and many people in this vicinity anticipate doing a rushing business in that line. The weather continues very wet and many farmers are not very far advanced in their work.

Rev. A. C. Bell preached in the Methodist church, and Rev. Mr. Horace of Buffalo, N. Y., preached at the Station on Sunday. Children Cry for CASTORIA. VISITING HIS OLD HOME. Peter White of San Francisco is in the city stopping at the Dufferin. About fifty years ago he was employed here in J. Harrison's iron and wood-working factory. Aid. Lewis worked in the same place at that time. As a young man Mr. White had quite a local reputation as an oarsman. He went out to California and there associated with his friends, but was eventually and exceedingly lucrative business. He is here now visiting friends and relatives.

SARANAK LAKE, N. Y., May 28.—A heavy snow storm has been raging here today. The thermometer registered 34 degrees.

ANDOVER.

Farewell Address to the Rev. Mr. Hillock.

Death of an Old Resident—A Milkmaid's Convention—Observance of Empire and Victoria Days—News Notes.

ANDOVER, May 26.—On Sunday, the 18th inst., the Rev. Bacon Hillock preached his farewell sermon to the congregation of Trinity church. At the close of his sermon he referred in feeling terms to his departure from the parish. During the four years and a half that he had been their pastor he had received many acts of kindness and made many warm friends, from whom it was sad to part, but the stern call of duty must be obeyed. He sincerely hoped they would soon have another pastor, and he advised them to give him loving and loyal support, and to keep the good work moving on, for there was much to do in the future. The church should feel flattered that it had done so well in the past, and should be encouraged to continue in the good work.

On Tuesday evening, the 20th inst., Senator and Mrs. Baird, at their residence, gave a farewell to the Rev. Mr. Hillock by inviting a few friends who spent a few hours in social enjoyment. On this occasion the following address was presented to Mr. Hillock: To the Rev. B. Bacon Hillock, D.D., Sir—The members of the Church of England, in the parish of Andover, and others of your immediate friends here assembled, have met tonight to convey to you their sorrow and deep regret on learning that you have decided to sever your connection from among them. During your stay at Andover you have by your strong Christian efforts made many true friends, who will always be glad to learn of your success in whatsoever field you may labor.

The church here has lost in you a pulpit worker, a preacher of rare ability, and among the young people especially will your loss be keenly felt, who have been drawn towards you through your able, thoughtful and convincing discourses in the Christian life and character. On behalf of the church, we tender you our warmest and most affectionate best and loving wishes, and we pray and hope that the decision you have made may rebound to the glory of God and your future welfare. GEO. T. BAIRD, Sr. Warden. J. H. TEAT, Jr. Warden. Andover, May 20th, 1902.

Mr. Hillock made a feeling and appropriate reply to this address. Addresses were also made by Judge Stephens and Rev. Mr. Demings. On the 18th inst. the death of Miss Patterson occurred at the residence of Alfred Stephens. She was born in the 15th year of her age and was an old resident of the place and a member of the Methodist church. Of late years she has made her home at Mr. Stephens'. Among the last official acts of the Rev. Mr. Hillock was conducting the funeral services of Miss Patterson in the place of the Rev. Mr. Gigg, who was absent from the place attending the funeral of Mrs. Baylock of Limestone, daughter of Charles Evert of this place, who was married a year ago and removed to Limestone. John Patterson of Kings Co. was also present at the funeral of his sister. Empire Day was joyfully observed by the school of the village. Several visitors were in attendance at the afternoon exercises of the school.

The 24th of May was observed as a holiday. The Athletic Association was in the evening the ladies of the Presbyterian church under the management of Mrs. S. P. Waite, gave an entertainment in Bevelidge's hall in aid of the Presbyterian burying ground. The programme consisted of a session of the Milkmaid's Convention, which opened with a drill. Some 15 milkmaids, dressed in costume, carrying their stools, went through a very pretty drill, and then sitting down on their stools, sang an appropriate song, after which the work of the convention commenced. Amusing reports from delegates were read, and all kinds of informal conversation followed. The two kinds of cows most in evidence were the scrub cow, which saved the girls the trouble of scrubbing the floor, and the cow that gave pure ice cream in hot weather. Samples of the products of the latter cow were for sale. Every dairy farmer, at our suggestion, made an effort along this line. The results were most satisfactory. In our possession are many farmers' letters emphasizing the importance and value of such records, both as a guide in selecting cows and as an effective means of directly improving the actual herd. The extra outlay required is very small. We would supply you with record forms for a time at least. The keeping of such records takes about one-half minute per cow per day. The outlay for a balance would be from fifty cents to five dollars.

The increased flow of milk due to keeping such a record where ten cows are kept would pay for the balance in a week. Keeping milking records induces a spirit of interest and competition among milkers, and, in the mind of the milkers, among the cows milked by the same milker. Rapid, clean and careful milking will raise the average return from a cow by from two to ten per cent., according to the cow—the better the cow the greater the increase. If you ever sell cows, the ability to give an accurate milk record will generally speaking, raise a cow's value and facilitate the sale. Especially is this true if she is a pure bred. Further, knowing the returns from each cow in any herd, you are in a position to easily select for breeding, besides, in almost every herd are found

boarders—cows that pay a very low price for their food, leave no profit, and frequently are kept at a loss. They should be detected and fed off for beef. Keeping a milk record is a sure way to discover them. To the breeder of pure bred stock of any of the milking breeds, Jersey, Guernsey, Ayrshire, Canadian, or milking Shorthorn strains, the daily milk record should be quite as important as the breeding record. We venture the assumption that in a very few years every breed putting forward any claims as a dairy breed will be making a specialty of milk records. The reasons are obvious. Beauty of style, color and conformation are very important, and where the breeder makes his money in some other line than farming, he may be able to keep animals for their looks alone. We, who are farming for money, must look to the profit side of everything. With us, "handsome is as handsome does."

The Holstein men have made a movement in the right direction with their advanced registry; the Guernsey breeders are working along similar lines. It would thus seem to be a good thing for some breeds, and we are sure it would be the most important step for improvement that you ever made, do you decide to introduce it. Let us urge upon you, therefore, the advisability of keeping such a record. We would be most happy to send you forms for keeping the daily record, as well as forms whereon to make a summary to be kept for reference. When you write for the forms, please state the number of cows kept and address all letters to "J. H. Grisdale, agriculturist, Experimental Farm, Ottawa, Ont." Letters so addressed come post free.

DAIRY HERD MILK RECORDS. As a means of converting the raw products of the farm into more saleable forms, the good dairy cow is without a peer. The good breeding animal will pay very little more than market prices for food fed from birth to shambles. The sheep, with her fleece and her lambs, gives only a very modest profit on food consumed. The pig and the hen, if wisely fed, do much better than either of the above, but it is very seldom that the return from either of them go beyond one dollar and fifty cents for one dollar's worth of food consumed. The dairy cow, however, frequently goes as high as two dollars' worth of product for one dollar's worth of food, and many a cow has been known to give two dollars and fifty cents' worth of products for one dollar's worth of food consumed.

Coal Schooner for Quebec a Total Wreck—Norwegian Bark Johanne Will be Sold as She Lies on Cape Breton Rocks. HALIFAX, May 28.—The schooner Thistle, Cape Belanger, which sailed yesterday from Sydney, with a cargo of 150 tons of coal for Quebec, struck off St. Paul's Island last night during a heavy storm and is a total wreck. The captain and crew were saved. The Thistle is owned by Price Bros. & Co., Quebec, and the cargo is reported lost. The Norwegian bark Johanne, from Bahia, South America, to Sydney, for orders, that went ashore on Monday night at Ingoulish, C. B., was condemned today, and what is left of the hull and rigging will be sold at auction. The Johanne was insured in Norway.

NERVOUS TROUBLE

There is no torture more acute and intolerant than nervousness. A nervous person is in a state of constant irritation by day and sleeplessness by night. The sufferer starts at every noise, is worried by a feeling that something awful is going to happen; is shaky, depressed, and, although in a constantly exhausted state, is unable to sit or lie still. If you are nervous or worried or suffer from a combination of languor and constant irritation, you need a nerve food and nerve tonic, and

Dr. Williams' Pink Pills for Pale People

are absolutely the best thing in the world for you. You will find after taking them that your feelings of distress and worry are being rapidly replaced by strength, confidence, and a feeling that you are on the road to full and complete health and strength. Get rid of your nervousness in the only possible way—by building up strong, steady nerves.

Miss Ida Doucet, Bathurst, N. B., says:—"Words fail me to adequately express what I owe to Dr. Williams' Pink Pills. I was attacked with a gripe, the after-effects of which took the form of nervous exhaustion. The least noise would startle me and I would tremble for some time. I used several medicines but they did not help me, and as time went on I was growing worse and was so nervous that I was afraid to remain alone in a room. I slept badly at night and would frequently awake with a start that would compel me to scream. The trouble told on me to such an extent that my friends feared for my recovery. At this time an aunt urged me to try Dr. Williams' Pink Pills and after using eight boxes I was completely restored to health, and I feel that Dr. Williams' Pink Pills saved my life. I sincerely hope my experience will benefit some other sufferer."

Always look at the box when you ask for Dr. Williams' Pink Pills for Pale People. If the full name is not on the box, you are not getting what you ask for. Refuse all so-called "just-as-good-as" and if you have any trouble getting the pills, they will be sent you by mail post paid at 50 cents a box or six boxes for \$2.50, by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

EXHIBITION NOTES.
The exhibition buildings are now in pretty good shape, and William Taylor is prepared to show space to incoming exhibitors. At present it looks as if the cattle stand would be one of the chief features of the fair. The management has been in communication with many of the large stock raisers of the provinces and Maine, and most of them have expressed themselves as intending to exhibit their flocks and herds.

THE ROSS RIFLE

Great Advantage of the New Canadian Arm.
The Ross rifle, which has been adopted by the Canadian government, uses the same cartridge as the present British army rifle, but has several advantages over it. One of these is that the wood of the stock comes down flush with the magazine, so that it is possible to "slope arms" after the old and comfortable fashion. The method of carrying the Lee-Enfield sideways at the slope, which is necessitated by the obtrusion of the magazine at the place which would naturally rest on the shoulder, proves excessively tiring to the wrist and hand during a long march, and tends to cause a marked unsteadiness in any firing that has to be done subsequently.

STRAIGHT-PULL BOLT.

The bolt of the rifle is of the front-lock straight-pull variety, a single-reciprocating movement backwards and forwards serving to lock and unlock, the breech action, and cock the firing-pin. This simplicity of operation, which is very marked in firing the rifle as compared with the usual turning-bolt, is attained by making the bolt-head separate from the main portion of the bolt, the two engaging by a series of volute curves in such a manner that the pushing home of the bolt rotates the head, so that two lugs upon it enter into corresponding recesses in the front end of the breech-shoe as in the turning-bolt system, and vice versa; the withdrawal of the bolts rotates the head so as to free the lugs. Connected with the bolt is an improved cartridge-shell extractor.

CARTRIDGE CLIPS USED.

The magazine is of a compact form, kept flush with the woodwork of the rifle. It consists of a metal box, into which the cartridges, five in number, can be dropped haphazard on to a platform depressed for that purpose by hand, the arrangement of the cartridges in proper zig-zag fashion ready for use being accomplished automatically, or, at worst, assisted by a slight shaking of the platform. In addition, it permits of the use of a clip or charger such as is adopted in the Mauser and Mauser rifles. An indicator shows the number of cartridges in the magazine at any time.

The cartridges are put up in batches of five, in tin or cardboard cases, so made that by a single motion the cover is stripped off, and the cartridges poured into the magazine, and prevents loss of ammunition.
The rifle was subjected to very severe tests by the Canadian government, and these were entirely successful. One of the tests was the firing of five hundred rounds as quickly as possible; this was done in nineteen minutes and four seconds, or at the rate of about 38 shots a minute, one lot of 60 rounds being fired in 92 seconds. At the close of the test, the woodwork was charred and smouldering from the heat of the barrel, but the rifle was in perfect working order. It is claimed that the Lee-Enfield rifle cannot be fired half as quickly as the Ross.
The length of the rifle with its bay-

LORD ROBERTS' ORDERS TEST.

Lord Roberts has ordered that tests be made of the Ross rifle with a view to bringing its merits before the small arms committee appointed by the war office, and it is possible that it may be adopted as the British army rifle.

PRESENTATION TO MRS. SELLAR.
Eleven young ladies of the Carmarthen street Methodist Sunday school visited the personage Tuesday evening, giving Mr. and Mrs. Sellar an agreeable surprise. They presented Mrs. Sellar, their Sunday school teacher, with a half-dozen silver fruit knives and a beautiful bouquet of carnations. Refreshments were served by the young ladies, and the evening was spent in a very pleasant way. Mrs. Sellar greatly appreciates this expression of kind regard from her beloved class.

ROSEAU, Island of Dominica, May 28.—The British str. *Savan* (from London for Barbados and West Indian ports) has arrived here. She passed Montserrat Island of Martinique, at 9 o'clock this morning, when a thick black smoke was arising from the funnel, and the officers of the *Savan* believed from the great quantity of dust which fell on the steamer that another eruption had occurred.

I Will Cure You of RHEUMATISM

No Pay until you know it.
After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.
I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles of Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it does what I claim pay your druggist \$5.00 for it. If it doesn't I will pay him myself.
I have no samples. Any medicine that can effect Rheumatism with but a few doses must be drugged to the verge of danger. I use no such drugs. It is folly to take them. You must get the disease out of the blood.
My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured tens of thousands of cases in this way, and my records show that 88 out of 40 who get these six bottles pay, and pay gladly. I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.
Simply write me a postal card or letter. Let me send you an order for the medicine. Take it for a month, for it won't harm you anyway. If it cures, pay \$5.00. I leave that entirely to you. I will mail you a book that tells how I do it.
Simply state name of your dealer, and address Dr. Shoop, Box 13, Racine, Wis.

THE DAIRY.

A Lesson in Butter Making to Secure Profitable Home and English Markets.

(From the Department of Agriculture, Ottawa.)
Canada enjoys the unique position of being unable to suffer from over-production so long as the top in quality, as she can do all competitors, without more than the use of ordinary diligence, care and prudence. To get trade a country must supply a want, and to make that trade permanent that want must be supplied at a standard of quality superior to its competitors, or at a price lower than theirs. Canada produces what Great Britain and the rest of the world cannot do without; but, while she sells it at a market rate favorable to herself and acceptable to her customers, she is not making the most of her latent wealth. Her farmers and commercial men are not yet adequately acquainted with the proper department of the country to lead them toward a greater prosperity than has been enjoyed heretofore.

Frequently one hears complaints about the quality of butter appearing in the market. This is sometimes due to errors in the salting and working of the butter. If the salt is added to the butter while the latter is still in the granular condition, and not in too large quantities at a time, so that it may be dissolved in the butter, it is not so likely to cause the "stratification" throughout the mass of butter to some extent before working begins, there will not be so much trouble from streakiness. If, however, working is begun before any salt has been added, as is sometimes the practice, the salt is then thrown on the smooth surface from which the water has been removed, and the butter remains for some time in a partially dissolved layer between the granules. This is the cause of the "stratification" of the butter. The chemical action of the salt in such a situation, the salt remaining in a shape of white streaks when the unsalvaged salt finally disappears.

It is a different thing altogether, although it is also the result of not having the salt evenly distributed throughout the mass of butter, either through careless addition of the salt, insufficient working, or working at unusual temperatures. The salt, when added in the most salt have the deepest color; this is the natural effect of the addition of salt to butter in proper quantities. It is when the salt and the butter come together in layers, and remain so until the butter is worked, that the "stratification" is caused. As J. A. Riddick, chief of the dairying division, has pointed out time after time, the commercial value of Canadian butter can in no way be more easily advanced than by paying the utmost attention to the cleanliness in putting up butter for exportation; use black and not red stencilling, because in the British markets red stencilling is the outward and visible sign of inward "milked," "lady stop," or very inferior grades of butter.
By this we do not advise black stencilling on quantities which really should be marked "red," for if the factories would follow the practice of putting a distinguishing mark on all packages of dairy produce which is inferior in quality it would be greatly to their advantage. Many a shipment of cheese or butter, of passable quality except for a few "culls," is condemned wholesale because the butter happens to drop on the inferior samples. These "culls" are sometimes included among the good, and the hope that they may escape detection. But this has become well nigh impossible, and the best advice to all is "Don't try it on."
The possibilities of the export butter trade are limited only by the available supply. The possibilities of the export butter trade are limited only by the available supply. The possibilities of the export butter trade are limited only by the available supply.

THE LITTLE MINUTES are all the time Perry Davis' Painkiller need to stop a stomach-ache, even when it is sharp enough to make a strong man groan. Don't be fooled by imitations, 25c. and 50c.
PITTSBURG, Pa., May 28.—The 44th general assembly of the United Presbyterian church was formally opened tonight.

ST. JOHN BONDS

In Great Demand at a Figure Above Par.

The city treasury board met at 11.30 o'clock Tuesday morning and opened tenders for the issue of \$122,500 3-1-2 per cent. forty year bonds, which are to be sold in lots of \$500 each, and are to pay off \$175,000 of bonds that fall due on June 1. Tenders were received from Montreal, Toronto and New York, as well as from a number of local people. Not a single outside tender was at par; in fact, the best was for \$115,700, but most of the local bidders offered one-half per cent. premium. There were tenders at this rate for \$61,500 of the issue and requests for \$27,000 more without any price being named. It was agreed to allot the \$61,500 to the tenderers and to authorize the chairman, Ald. Robinson, and the chamberlain to sell the remainder at the same rate. Those who will get the bonds are:

- W. B. Staver, \$10,000
- John McGoldrick, \$10,000
- G. D. Ostry, for the E. G. Taylor estate, \$11,000
- Peter Chisholm, \$5,000
- Andrew Jack, \$7,500
- Mrs. John Montgomery, Jr., \$4,000

The other St. John tenderers, who did not name a figure, were: Hon. Charles Francis Tufts, \$18,000; G. G. Boyne, \$1,500; Uriah Drake, \$1,000; Mrs. S. L. Collins, \$500.

In addition to these, Dr. Melvin offered \$980 for \$1,000, and Mrs. C. F. Woodman \$97.40 per hundred for \$25,000, or for \$24,000. At the meeting Ald. McGoldrick said he thought a friend of his would take \$500, and Ald. Millidge put himself down for \$1,500.

The outside tenders, which were for the whole issue of \$122,500 were: E. H. Gray & Co., Montreal, \$112,700.00; Dominion Securities Co., Toronto, \$10,000.00; A. E. Ames & Co., New York, \$10,500.00; Canada Life Co., Toronto, \$10,500.00.

Besides these tenders, which included interest up to the time of delivery, there was a bid from G. A. Stinson & Co., Toronto, which asked the city to put a price on the bonds and notify them, and one from W. D. Dana & Co., New York, asking to be notified of the names of the purchasers of the bonds, the price, etc.
As soon as the decision of the board was known, offers came in which absorbed the whole issue with the exception of \$7,500.
Dr. Melvin takes \$1,000; Mrs. C. F. Woodman, \$4,000; J. B. M. Baxter for several parties, \$15,000; Barnhill & Sanford, \$10,000, and one \$500 has been disposed of.
If the \$7,500 remaining is not taken up it will be put into a sinking fund, but the probability is that it will be subscribed several times over before Monday next, the date of issue of the bonds.

One of the outside offers was \$0.2 and another \$2.5. Both were from Toronto, and it will surprise the brokers in that city to find how high St. John securities are rated.

Inflamed Nose and Throat

And such diseases of the respiratory organs as Bronchitis, Weak Lungs, Cold in the Head and Nasal Catarrh are treated with marvelous success on strictly scientific principles by Catarrhazone. The medicated vapor of Catarrhazone quickly traverses every air passage possible to be reached by any treatment. All soreness, pain, congestion and inflammation are at once dispelled, and by means of the healing powers of Catarrhazone the vitiated tissues are quickly restored. Where Catarrhazone is used colds last only ten minutes, coughs half an hour, and Catarrh, Consumption, Asthma and Bronchitis flee as from fire. A trial will convince anyone of the startling merit of Catarrhazone. Costs \$1.00, small size 50c. At J. D. Druggists, or Pollock & Co., Kingston, Ont.
Dr. Hamilton's Pills cure Constipation.

OFFICIAL SYMPATHY.

The U. S. President and Secretary Hay Call at the British Embassy.

WASHINGTON, May 24.—President Roosevelt paid a visit of sympathy to Lady Pauncefote this afternoon. Just as soon as he got to the White House after the military parade that concluded the Rochambeau status unveiling ceremonies, the president summoned his carriage and with Secretary Cortelyou was driven to the British embassy. At the embassy the president saw Lady Pauncefote, to whom he expressed his great sympathy over her loss. Then he went back to the White House.

This was a gala day at Washington on account of the Rochambeau celebration, but the presence of flags at half staff on many buildings, out of respect to Lord Pauncefote's memory, served as a reminder of the passing away of the distinguished British diplomatist. A radical departure from custom was made by President Roosevelt in ordering that flags should be displayed at half mast over the White House and all the public buildings at Washington.

This unusual honor was, it is said, only accorded once before in the memory of a deceased foreigner, and that was when Queen Victoria died. By direction of President McKinley all flags on public buildings in Washington were half-masted on the day the Queen passed away and on the day of her funeral. It had never been done for a deceased member of the diplomatic corps.
Secretary Hay, besides sending a message of condolence to the Marquis of Lansdowne, also called at the British embassy and personally expressed his sorrow occasioned by Lord Pauncefote's death.

Secretary Hay called this message to the Marquis of Lansdowne at London: "Permit me to express our deep sympathy and sorrow at the death of Lord Pauncefote. His Majesty's government have lost a most able and faithful servant; and this country a valued friend."

CHICAGO, May 28.—If the four great packing concerns at the Union stock yards do not yield to the demands of the striking customers within a short time it may result in a general stoppage of 40,000 employees at the yards. Already several hundred persons have quit. The situation is becoming so involved that it apparently will be impossible for the union men to remain at work much longer without violating the rules of the Chicago Federation of Labor, under which they hold charters.

MONEY TO LOAN.

MONEY TO LOAN on city, town, village or country property, in amounts to suit at low rate of interest. H. H. PICKETT, Solicitor, 50 Princess street, St. John, N. B.

FOR SALE.

Good large barn; also Guernsey Bull, 4 years old, "am register" and several Guernsey Grade Heifers, one and two years old. For further particulars address HENRY D. MOTT, King street East, St. John, N. B.

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ILLUSTRATED LONDON NEWS, of Sept. 26, 1886, says:—"If I were asked which single medicine I should prefer to take abroad with me, as likely to be most generally useful, I should exclude of all others, I should say CHLORODYNE. I never travel without it, and its general applicability to the relief of a large number of simple ailments forms its best recommendation."

DR. J. COLLIS BROWNE'S CHLORODYNE

IS THE GREAT SPECIFIC FOR Diarrhoea, Dysentery, Cholera.

CAUTION.—Genuine Chlorodyne. Every bottle of this well known remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, DIARRHOEA, etc., bears on the Government Stamp the name of the inventor—

DR. J. COLLIS BROWNE

Sold by all Chemists at 1s. 1/6d., 2s. 6d., and 4s. 6d. Sole manufacturer—

J. T. DAVENPORT

32 Great Russell St., London, W. C.

55 Per Cent

Represents the increase in the attendance at the FREDERICTON BUSINESS COLLEGE, for the fiscal year ending February 28th over that of the previous year. Good work, splendid results, elegant and well equipped school rooms, and low living expenses are largely accountable for this.

Send for free catalogue. Address, W. J. OSBORNE, Principal, Fredericton, N. B.

Only vegetable oils—and no coarse animal fats—are used in making

"Baby's Own Soap"

Pure, Fragrant, Cleansing. Doctors recommend it for Nursery and Toilet use. Beware of imitations. Albert Toilet Soap, Montreal.

DR. McAGNEY'S Nerve Cure

For Debilitated Nerves, Chronic Cough, and all chronic affections of the throat and lungs. The only medicine in the world that will cure the above in a few days, making the animal feel as if it were a new creature. Good. DR. McAGNEY, Fredericton, N. B.

DR. W. MANCHESTER, Veterinary Surgeon

Graduate of McGill University, has opened an office in ST. JOHN AND BURESBY. Leaves for St. John in Sussex express, returning by C. P. R. Anyone wishing information can see me at any station along the line.

St. John Office—39 Leinster street; telephone 1123. Office hours, 9 to 12.30 a. m. Sussex Office—Main street. Office hours 2 to 5 p. m.

Surgery and dentistry specialties. Inquiry by mail promptly attended to.

Lumber Wanted

PINE BOARDS—Shippers and Second Quality, suitable for West Indies. Write or wire. L. G. CROSBY, St. John, N. B.

The Whole Story in a letter: Pain-Killer

(FRANK PATENT)
From Capt. F. Lyle, Police Station No. 5, Montreal:—"We frequently use PERRY DAVIS' PAIN-KILLER for pains in the stomach, rheumatism, stiffness, frost bites, chilblains, cramps, and all afflictions which beset men in our position. I have many testimonials in favor of this PAIN-KILLER as the best remedy to have near at hand."
Used Internally and Externally. Two Lines, 5c. and 50c. bottles.

SERMON.

In This Sermon the Rev. Frank De Witt Talmage Presents in a Picturesque and Forceful Way the Duty of Christian Fellowship

CHICAGO, May 25.—In this sermon the Rev. Frank De Witt Talmage presents in a picturesque and forceful way the duty of Christian fellowship.

A keen, shrewd lawyer was one day listening to John Wesley preaching. The founder of Methodism had three different headings for his sermon: First, "Get all you can without hurting your soul, your body, or your neighbors."

Second heading, "Save all you can, cutting off any needless expense." "Right again," muttered the listener. "It is not so much what a man eats that makes him wealthy as what he saves."

Third heading, "Give all you can." "There," exclaimed the hard-headed lawyer, "the minister has foolishly come and spoiled everything he has said. He ought to have had for his third heading, 'Give as little as you can.'"

You cannot save unless you keep what you have earned. So some preaching the most foolish of doctrines when he used the illustration of the twain mile. They were ready to obey the Mosaic law of justice. They would assent to an eye for an eye, a tooth for a tooth, a hand for a hand. They would travel the first mile willingly and pay every penny that they legitimately owed, but they were not ready to turn the left cheek to a foe after that enemy had deliberately struck them a stinging blow upon the right cheek. They protested against a communistic gospel, which allowed a thief to run away with their whole wardrobe, with their cloak as well as their coat. They would not enslave their selves to any merciless taskmaster.

For every day's labor they must have a full day's pay. Yet Christ's statement is strikingly true. It is right in reference to the temporal life as well as the spiritual. The willingness to travel the twain mile is the forerunner of all success. The unwillingness to travel the twain mile is the cause of almost certain failure.

The twain mile is the place of testing. It is where the powers that choose the men who are to be honored in life's service. There the human race is sifted. There the faithful are separated from the irresponsible, the energetic from the slothful, the true man from the false, the self-sacrificing from the selfish, the one purpose man from the indolent, lazy, selfish individual who lives without a definite aim. The twain mile is the threshing floor of human life, where the wheat is separated from the chaff, the rich grain from the useless tares.

THE CROWDED FIRST MILE. Most of the human race are huddled together and jostling each other during the first mile, where they only do what they have to do. But in the second or the twain mile of life's journey, where a man does more than he is asked to do, he always has plenty of elbow room. As the great statesman once said, "There is plenty of room at the top of the ladder of success, although thousands of hands may be reaching for the lowest rung."

Every merchant knows of the separating or testing influence of the twain mile. When a position in the store became vacant, whom, in all probability, did you promote to the vacancy—the clerk who had been in the store for ten or fifteen years, the young man who has never been willing to do any more than he was compelled to do? Did you select the employee, who was generally ten minutes late in the morning, the clerk who has his hat in his hand ready to run for home, as soon as the hour hand points to the numeral? Did you promote one who seemed to be indifferent to his work and had to be watched day by day to be kept busy, as a mother has to watch a little child? No. The young man who receives the promotion was the poor country boy who entered your store with no recommendation except the willingness to do more than he was told or paid to do. For years, the twain mile young man was the first employe at work in the morning. For years he was the last person to leave the store at night. When the work piled upon his shoulders, he always stayed many hours overtime until the work was done. He was the young man who threw himself into his allotted tasks with such intensity that he made his employer's interests his interests.

Who is the leading member today of the New York bar—the lawyer who when he graduated and could not find clients spent most of his time in the neighboring billiard hall? The young man who became an expert in card playing or in judging the races? No. He was the young lawyer who studied night and day and kept on studying. He was the young man who put his whole heart and soul into the smallest cases which came to him. He did not fritter away his energies, waiting for the big cases to command his services. He is the twain mile lawyer. He does more than he is compelled to do.

HOW DANIEL WEBSTER WORKED. A noted case was to be decided in New York city. The chief counsel for the defense was suddenly taken sick. Within 24 hours the plea had to be made before the jury. Daniel Webster at that time happened to be stopping at one of the hotels. He was sent for to come to the rescue. The next day he came into the courtroom and made one of the clearest interpretations of the most abstruse facts of the law ever delivered before a judge. He won his case, and was paid a fee amounting to thousands of dollars. When the friends crowded around to congratulate, declaring that he had performed a legal miracle, Mr. Webster answered: "My effort was no miracle. I did not prepare that address in

a few hours. It took me months and months to master these facts of the law. The history of my plea is this: Many years ago, when a young man, I was engaged to defend a poor farmer. His case financially represented only a few dollars. I think a fifty dollar bill was my fee. It was a small case, but the points of the law involved were exactly the same as the legal points which I presented today. I went to Boston and bought many books. They cost me hundreds of dollars. I spent four exhaustive months in work upon that case. I am receiving today the reward of the mental labor which I expended for my country friend." Mr. Webster was a twain mile lawyer. He was willing to do more than he was asked or paid to do. The same fact which have been stated in reference to the clerk and the lawyer are true when applied to the successful physician, the minister or inventor. They can be applied to the true temporal success of all men in every department of life.

Now, God in the same way is testing the spiritual availability and the future usefulness of his servants. He tests them by their willingness to travel the twain mile, to do more than they are asked to do. He tests them by the way they go and hunt up the poor invalids in the back alleys. He tests them by the way they are willing to assist in some mission work. He tests them by the way they are ready to teach in the Sunday school and by the way they take part in the Christian Endeavor prayer meetings. He tests them by the way the mistresses try to uplift the spiritual welfare of the kitchen and by the conversations of the merchant has with the young clerk in reference to the salvation of the boy's soul.

My friend, you think your spiritual position in life is very humble, but you have a twain mile to travel. That twain mile, whether it starts from the nursery, the factory, the mechanic's bench, the laborer's ditch or the farmer's plow, heads straight up to the throne of grace. God is spiritually judging you today by what you are spiritually willing of your own accord to do for him.

THE ANGEL OF THE TWAIN MILE. The twain mile has for a guide the angel of insight, hope and faith. He lives without ambition or without the hope of making something better out of his life is practically dead. He is like the branch of a tree in mid-winter. All its latent buds are frozen. Then the sap of life is unable to flow, but when the spring comes then the snowflakes melt away. Then the air is filled with incense. Then the tree takes on a new life. Later on if the tree is an apple tree, its branches are laden with the golden fruits.

The pathway of the twain mile is always warmed by the life developing sunshine of hope. The young man says to himself: "I am ready to work hard and do more than I am asked to do because I know that at the last my employer will reward me with a higher position." The young college student says, "I am ready to bury myself in my books and work hard because I know that at the last my employer will give me a new way to conquer our enemies. We must disarm hate with love; we must submerge slander with forgiveness; we must answer a curse with a prayer; we must offer to the clenched fist an open palm; we must extend to every enemy a helping hand. Surely this idea is the greatest of all. Upon the right cheek turn to him the other also." "Whoosever shall compel thee to go with him one mile, go with him two."

At certain times, so goes the story, a Roman commander at the head of his legion went forth to capture a great city. With rattle of chariot wheel and flashing of spear and defiant standards and signaling bugle-blast the invading army approached the city wall. Much to their surprise they found every gate wide open. The merchants were working in their stores, the women were working in the kitchen, the farmers were working in the fields. The Roman commander asked in surprise of the inhabitants who came forth to greet him: "Where are your soldiers? We have come to fight." "We have no soldiers," was the answer of the inhabitants. "We are all peace. We welcome you to our homes. We will care for you as long as you wish to stay." "Well," answered the Roman commander, "if there are no soldiers to fight we shall march on." The Roman army came to battle with sword and spear. They were conquered by love. So our enemies have been for years attacking the walled and fortified citadels of our hearts. If we could open the barred gates of love to those enemies and lower the drawbridge of affection, we would capture nearly all of our foes by the power of love. The twain mile may have its thistles and thorns and stony highways, but most of those thorns can be blanketed with the roses of Sharon. Most of those pebbled pathways can be covered over with a soft quilt of grass which once grew at the foot of the trees out of which was cut the beam of the cross.

WHAT TRUE LOVE MEANS. The twain mile is a place where Jesus becomes to every Christian a treasured, loving personality. It is substantiated in the fact that "love grows as much upon what we do for others as what others do for us, upon what we are ready to give as upon what we are ready to receive. In order to have true love, we must be ready to lose our lives before we can have those lives come to their true development. We must be ready to die if we want to truly live as we ought to live.

Why is a mother's love the purest of all earthly love? Because the baby directly does so much for the mother? Oh, no. There never was a bigger tyrant who ever wielded a scepter than a little baby in the average home.

From the time the child is born until grown it practically does nothing for the mother. The mother is always doing something for the child. From the advent of some one to keep feeding the child. The mother feeds it, dresses it, cares for it. For the first year, at least, the mother has a tugging silver cord of affection, with one end attached to her own heart. She practically lives by the side of that child for weeks and months. Then, when the baby is able to nurse it—the graduates from the school for trained nurses? Oh, no. The trained nurse may come in and help. The person who for weeks never takes off her clothes, the person who is always by the side of the crib and sees that the medicines are given regularly, the person who is anxiously touching the fevered cheek, is the mother, the sacrificing mother.

Why is love generally purer and deeper and wider in the poor man's home than in the rich man's palace? Some people may declare that this statement is untrue, but if you have been around as a pastor as much as some ministers you will find that such a statement is true. The reason that love is generally sweeter and purer in the poor man's home is not because the poor man naturally has a bigger heart than the rich man, but the poor man has a daily sacrifice for his wife and children. When Christmas comes around, in order to have a Christmas tree, perhaps the father himself has to go without an overcoat. When his sons are to be sent to college, in all probability the poor man will have to run into debt. He has to work overtime upon a side street. His love feeds upon his sacrifices. So, my brother, if you and I want to love and truly love Christ, we must be willing to do something for Christ. We must give ourselves body, mind and soul to his service. We must be ready to travel for him the twain mile. It is because some of us are not ready to travel this twain mile that Christ's teachings seem harsh and narrow and perhaps unsympathetic.

COMPANION OF TWAIN MILE. Some years ago, in the mountains of North Carolina, a rich lady was riding along in her carriage. Being overtaken by a thunderstorm, she found shelter in a farmer's home. The place was very humble. As in many poor homes, there seemed to be healthy children everywhere, but there was also one crippled child. The rich lady said to the mother, "Can nothing be done for that child?" "No," answered the mother, "nothing can be done. The village doctor said the great surgeons in New York might help him. Of course we have no money to send him there." The rich lady pitied the child. She took him to New York. While there the surgeons straightened out the crippled limbs. But, though the little child was at that time a cripple, yet on account of what the rich lady was doing for him he had strength enough to crawl into the rich lady's heart. Then the rich lady went back and said to the mother: "Since I have been caring for your boy I have learned to love him. Will you let me adopt him?" "I want to bring him up as my own child and make him my heir." In after years the boy used to crawl into the rich lady's lap and say: "Mamma, I am glad I was once a poor little cripple. If I had not been a poor little cripple, you would not have pitied and worked for me and learned to love me when you were saving my life." So, when we work for Christ, when we travel for him the twain mile, the Saviour creeps into our hearts as well as we creep into his.

And my friend, I want you to further remember that as you travel along the twain mile for Christ he is also travelling along the twain mile with you. Upon the one side of you will be, as I said before, the great angel of inspiring hope, but upon the other side, the left side, the nearest to the heart, you will have for companion the One who sticketh closer than a brother, the One who will be by your side, ever if your father and your mother should forsake you. If you will only trust him, he will not let you carry a burden greater than you can bear. Let me tell you have a sorrow which he cannot and will not cure. He will not let you shed a tear unless he is ready to wipe it away. He is used to travelling the twain mile. He once travelled that twain mile of his own accord. He left heaven and travelled it to the foot of the cross to glory in our sins and to die for us. Christ gladly did all this for you. Are you ready to travel the twain mile for Christ?

NOTICE TO MARINERS. WASHINGTON, DC, May 27.—Notice is given by the Lighthouse Board that on or about June 15 light vessel No 73 will be returned to her station, about 3 miles off the southeast of Massachusetts, about 15 miles from Pollock Rip. She is an entrance buoy, No 2A, and to the northward of the Pollock Rip. She is to be replaced by a light vessel No 55, temporarily marking the station, will then be withdrawn. No change has been made in light vessel No 73 as to characteristics of lights, fog signal or general appearance. BOST
