### THE FUNERAL

Col. Ingersoil's Remains to be Cramat ed-Mrs. Ingersoll Taken Ill.

New York, July 25.—Mrs. Ingersoll, who was taken iil yesterday, may not be able to go with the body of her husband, Col. Ingersoil, to the Fresh Pond Cemetery this afternoon. Her condition, however, was improved to-day. The funeral exercises will be begun at 4 o'clock at "Walston," Dobb's Ferry. The body of Col. In-gersoll having been placed in a plain black cloth covered casket, was removed from the chamber in which he died to the reception hall down stairs today. The coffin was placed in a bower of floral offerings from

Early Wednesday morning the family will accompany the remains to Fresh Pond, Long Island, where the body will be cremated. They will bring the ashes back to Dobb's Ferry, and they will be deposited in an urn which will be surmounted with the bust of Col. Ingersoll, to be made from the death-mask made today by John Gray Bernard, the New York sculptor. The only music will be "Siegfried's Funeral March."

### DON'T CHEW GRASS

Peculiar Accident to a Toronto Girl-Flood Poisoning the Result.

Toronto, July 25.-Miss Edith Cody, the young daughter of the city treesurer, is suffering as the result of a most peculiar accident. Last Friday stuck a blade of grass in her mouth in a nonchalant way, and in a temporary excitement swallowed it. It lodged in her throat, where the saw-like edges lacerated the mucus membrane. Her parents and friends, however, entertained no misgivings until some time after, when a pronounced swelling in her face revealed symptoms of blood poisening. Miss Cody has always been a strong, robust young lady, however, so her many anxious friends look forward to an early recovery.

### An Invertebrate Council.

The City Council, during the progress of the strike, has hardly earned the right to have its august brow wreathed with laurels by the public. If the mayor and aldermen at the beginning had shown a little back-bonehad come down flat-footed, and said to both the Company and the men: "This is a matter that concerns the public, and as the representatives of the public, we demand that you come together and settle your differences, by consultation or arbitration"-if the Council had laid down such an ultimatum, neither side could have ignored it, and the city would have been spared these two months of inconvenience and bitterness, and the ridicule and expense incurred through the silly bringing in of outside militia. Instead of this, the Council has been executing a kind of sword dance-trying to hop all around the question without touching it. This shilly-shallying performance would be diverting if the situation had not its serious side. The very aldermen who used to blow out their cheeks in denunciation of the Company, at the ward meetings, are now as meek as lambs, and when the subject of the strike happens to be thrust upon them, look for a hole into which to crawl away from it. Only two or three have had the moral cour-

age to speak their minds-the remainder are glad of any subterfuge to escape a plain, honest expression of

opinion or evade decisive action. The Company must be laughing in their collective sleeve at the way in which their game is being played for them by the City Council. The Company have been running cars just as they please. The resolution of the City Council, ordering a complete service dating from July 19, had not the slightest effect because the Company knew by experience that the Council had not the slightest intention of enforcing it. The aldermen have been exceedingly careful not to inconvenience the Company in this respect, lest the latter should be put in danger of forfeiting their charter. The Company appreciate the kindness, but the public do not. The majority of the aldermen have continued to shuffle along like

Joseph Chamberlain on the Newfoundland Trouble. The Hague, July 25.-The final act embodying the results of the interna-

tional peace conference, after enumerating the names and qualifications of all the delegates, says: "In a series of meetings in which the above delegates participated, inspired throughout by the desire to realize in the highest possible measure the gen-

erous views of its august initiator, the conference has drawn up for the approval of the respective governments the series of conventions and deciarations appended: "Convention for the pacific settle ment of international disputes. Concerning the laws and customs of war on land. Convention for the adoption of laws against the use of asphyxiating

or deleterious gases from balloon projectiles, and for the prohibition of the use of bullets that easily expand in the human body." The final act contains five expressions

of opinion, as follows: "The conference considers that limitations of the military charges, which at present oppress the world, are greatly to be desired for the increase of the material and moral welfare of mankind. The conference expresses the opinion that the question of the rights and duties of neutrals should be inscribed on the programme of a conference to be held at an early date. The conference expresses the opinion that questions relative to the type and caliber of rifles and naval artillery, as examined by it, should be the subject of study by the different governments, with a view to arriving at a uniform solution by a future conference. The conference expresses the wish that an early convention be called to revise the Geneva convention. The conference has resolved that questions relating to the inviolability of private property in war on land and the bombardment of towns and villages in naval war, be reserved

for future conferences." The convention is signed by all the plenary delegates. "DUTY" OR "OBLIGATION."

The delegates met in the afternoon and examined the text of the final act in order to decide how reservations are to be made. It was decided that not only the three conventions, but the declarations, must be separately signed. The American delegates asked that the word "duty" in article 27 be fully defined, so that the word may in no case imply any obligation on the part invitations to attend the theaters and of the United States to interfere in other entertainments have been ex-European affairs, or vice versa. The discussion lasted several hours. Arrangements have been made to find a suitable word to substitute for the word "duty," which will meet the wishes of the American delegates without altering the spirit of the article.

THE DUMDUM BULLET. A Washington telegram says: The United States will not be bound by the reported decision of The Hague conference to prohibit the use of the dumdum bullet in warfare. So far the United States have not been obliged to resort to the use of this bullet, but the ord-nance officers have been making experiments to secure an increased "stop-ping" effect for the small caliber ball used in the Krag-Jorgensen, and these experiments have proceeded somewhat on the lines of the dumdum bullet. Adhesion to the protocols is voluntary. Great Britain, it is under-stood, also refused to prohibit the use of the dumdum bullet. KRUGER RESIGNS.

London, July 25.—The Johannesburg correspondent of the Standard says:

President Kruger sent a letter to the Volksraad resigning the presidency of consequence of the refusal to give him a free hand as to the dynamite monopoly. He attended the meetings of the Raad this afternoon, during the consideration of his letter. It is not yet known whether his resignation was conditional. The news was kept a se-

The Times publishes a like state-ment from its Johannesburg correspondent identical to that telegraphed by the representative of the Standard, and says the information came from an apparently trustworthy source. The Daily Telegraph's Pretoria cor-

port that President Kruger, of the South African republic, has resigned. NEWFOUNDLAND AFFAIRS. Mr. Joseph Chamberlain, the secretary of state for the colonies, replying to a question in the House of Commons, said he did not expect to be able to make a statement before the close of the session on the subject of the question dividing Great Britain and France with regard to Newfoundland. As to the modus viendi expiring the present year, Mr. Chamberlain said there would be time

to obtain the necessary colonial legis-lation before the next fishing season. The House of Lords passed the second reading of the Tithe Rent Charges Bill by a vote of 113 to 23. The house passed the third reading of the bill creating an agricultural technical instruction department for Ireland.

IS HE IN OR OUT?

London, July 25 .-- Reports regarding 'the resignation of President Paul Kruger of the South African Republic are conflicting, but according to the best information he actually resigned his office conditionally. The volksraad, while maintaining its opposition to President Kruger's views on the dynamite concession, has given its assurance that it still has the utmost confidence in President Kruger, and it is believed that he has withdrawn his resignation. As to the difference of opinion on the question of the dynamite concession, Gen. P. J. Joubert, vice-president of the republic, and the majority of the volksraad, favor cancellation of the monopoly, while President Kruger sup-ports it. The minority of the volks. raad desires to buy out the company.

### TWO MEN MISSING

Eddie Day and Harry Pettit Believed to Have Been Drowned in the Toronto Bay.

Toronto, July 25 .- An extremely mysterious affair occurred last night at the R. C. Y. C. club house, by which it is feared that one or two young men have Post their lives by drowning. At 10:15 p.m., Eddie Day, the steward of the club, returned from the island club house, where he had been catering for the weekly dance. A friend of his, named Harry Pettit, who is one of the crew of the yacht Vreda, met him, and the two went over to Noverre's boat house and took a canoe out for a paddle. They went out westward, and soon after a couple of fishermen on the breakwater south of the freight sheds heard calls for help. The next thing that was known of the men was when their canoe was found empty in the water, with the carpet and one paddle missing. The men themselves had not been seen since they took out the canoe.

Another Unsuccessful Attempt to Get the Sewage Disposal Plant Adopted.

Council Decides to Go On With the Construction of Section "A."

Col. Holmes Peremptorily Demands \$3,400 From the City.

Legal Action Threatened if Payment Is Not Made by Noon Today-Mr. W. H. Bartram's Grievances-City Engineer Said to Have Been "High-Handed"-Other Matters,

The city council met last night. The chief item of interest was a two-hour debate on a proposal to spend \$30,000 in a sewage disposal plant. Ald. McPhillips and the mayor, who fought hard for the McDougall system last year, were again turned down. The council was not yet ready to decide upon a plan for the disposal of the sewage, but concluded that section A of the original scheme should be built first.

Col. Holmes peremptorily demanded \$3,400 on account of the pay and maintenance of the militia, threatening legal action if payment were not made by noon today. The wheels of the militia department will be set in motion.

Of the members, Ald. Greenlees and Ald. Graham were absent.

MORE MONEY FOR THE MILITIA. The following letter from Lieut.-Col. ter over. Holmes, D. O. C., was dated July 24, and addressed to the mayor:

Sir,-I have the honor to request that you will cause to be paid to me on or before 12 o'clock noon on the 25th day of July, at Wolseley Barracks, London, the sum of three thousand four hundred dollars, on account of the pay and maintenance of the active militia called out in aid of the civil power in the city of London on the 8th day of July, and retained on duty in said city till the 22nd day of July, in compliance with requisition dated the 8th and 21st days of July.

'In the event of such payment not being made, I shall be compelled to take legal proceedings, as provided by gets \$25 per annum the militia act, 49, Victoria, chap. 41,

letter from the city solicitor was read by Ald. Rumball. Mr. Meredith wrote, stating that he had perused the two letters from Col. MANAGER CARR HEARD FROM.

Two letters from Manager Carr, of the London Street Railway Company, were read and filed. One dated July 18 stated that the street railway company had refrained from engaging employes during negotiations, but would at once take steps to fill all vacancies, and comply with the council's resolution, provided the company was afforded the necessary police protection. The other letter dated July 20, advised the council that while the company was operating 21 cars, the police commissioners had not been able as yet to furnish the necessary police protection to operate more than 5 of the 21 cars, after 9 p.m. Mr. Carr understood, however, that the police commissioners were making efforts to get the required protection, and stated that as soon as the protection was furnished the 21 cars would be regularly operated during the whole 17 hours.

The city engineer had dictated to the committee, he said, and told the members he would not allow anyone out of the office to do the work. length in support of the recommenda-Ald. O'Meara was opposed to rushing this matter through. The system would not be complete until Christmas, he said. There was no necessity for it at present, and nothing to gain. On the contrary he thought there would be something to lose in future information. Much had been gained by delaying the matter so far. Last year the council was urged to adopt the McDougall system for \$60,000. Later they were offered a system for \$34,000 and now they had got down to one for \$28,000. That showed the wisdom of waiting. The work could be done for less. The speaker was confident that he could build a system for \$5,000, which would be just as good as Ald. McPhillips'. Ald. McPhillips was given great credit by Ald. O'Meara and the other speakers, who took part in the discussion for the mass of information he had ta-

ken pains to collect. The discussion was lengthy Ald. Parnell, in a half-hour's address, pointed out that the sewer system so far as it had been completed, had demonstrated that the criticisms fired at its promoters some time ago were groundless. He advised the council to delay action. Last year Ald. Mc-Phillips and the mayor had all but succeeded in foisting the McDougall system upon the city. Was it safe to adopt the recommendation of gentlemen who changed their opinions so? he

asked. The mayor vigorously opposed Ald. Engineer Horetsky, he said. Parnell. had admitted at the last meeting of the provincial board of health that he had made a mistake and that filtration beds were not the best thing. It was time to adopt some system. No Other Remedy Can So Effectually Meet the Needs of Debilitated, Weak and Nervous People.

One of the grandest and noblest of medical triumphs ever given to suffer-ing women is Paine's Celery Compound, a medicine that has saved thousands of daughters, wives and mothers of our Dominion.

In cases of debility, weakness, nervousness, irregularities, lack of nerve force, impoverished or impure blood, constipation and stomach troubles, Paine's Celery Compound is the only reliable, true and certain agent for the banishment of disease and the establishment of permanent health.

Mrs. Hopper, of Thornhill, Ont., one of the many thousands of women who sing the praises of Paine's Celery Compound as a blessing to women, says: "With very great pleasure and satisfaction I wish to add my testimony to what has already been said in favor of Paine's Celery Compound. For a very long time I suffered from general debility, nervousness and rundown system. Having heard of Paine's Celery Compound I determined to give it a trial, and I am happy to say it has done for me more good than I can express. For ten years I doctored with other medicines without any good results; but after using Paine's Celery Compound I am perfectly restored to health, can eat well, digestion is good, and my sleep is sweet and sound. Altogether, I am a new woman. I always recommend Paine's Celery Compound to my friends."

Boy Shot Dead by a Non-Union

Who Narrowly Escaped Being Lynched by the Crowd - The Conductor Charged With Murder-1,000 Troops

Cleveland, July 24. - A 15-year-old boy named Cornzwich was shot and instantly killed by a non-union conductor on Orange street this afternoon. Cornzwich was a passenger on a Broadway car, and made a remark to the conductor, Ralph Q. Hawley, of 103 Bollvar street. Cornzwich then alighted from the car, and the conductor got off and followed him. Near Perry street the lad looked around at Hawley, and the latter pulled a revolver and shot him through the head. The weapon was fired at short range and the boy died almost instantly. The boy's body was carried into a nearby

Patrolman Heliman was riding upon the Broadway car upon which Hawley was the conductor, and at once placed the latter under arrest. The car was run down town and Hawley was taken to the central police station.

An immense mob of people, enraged at the shooting quickly gathered at the scene. The police charged upon the crowd, which was partially dispersed, but soon another congregated. Another Broadway car came down Orange street and was stoned at Perry street. The police again charged the mob and dispersed it.

ANOTHER STORY. In the death of Henry Cornzwich, slain by a bullet fired by Ralph P. Hawley, a conductor on the Broadway line, is recorded the first fatality of the strike. Shortly after noon Hawley's car approached Orange street, and was beset by a crowd of men and boys. Cornzwich, the 19-year-old son of a butcher, was astride a horse and rode to the side of the car, keeping pace

with it for some distance. Various stories are told as to what passed between the conductor and the boy, but the mob was suddenly called to its senses by the sight of Hawley, who jumped to the street and started in pursuit of Cornzwich. The latter, closely followed by his pursuer, turned up Perry street. At Woodland avenue the latter pulled his revolver and fired. His victim fell, fatally wounded, with a ghastly wound in the left temple, and died soon after being removed to

the hospital. The crowd, which before the incident had been so violent, was awed by the seriousness of the affair, and permitted the conductor to walk back to his car. He was arrested and taken to the station, where a charge of murder was entered against him. When der was entered against him. When the car returned in charge of another man and laden with police, thousands of people were crowded around the fatal spot. The track was blockaded and the stalled cars bombarded with stones, pieces of brick and sticks of wood. The police managed by dint of using their clubs to clear the way using their clubs to clear the way after a delay of about half an hour.

1.000 TROOPS AT THE SCENE. Cleveland, Ohio, July 25 .- After a night marked by disorder and rioting, the city this morning again presents a peaceful aspect. On all the lines of the Consolidated cars were started on schedule time. Beyond the usual obstruction of stones, bricks and rubbish placed on the tracks in the outlying districts during the latter part of the night there was no interruption to traffic during the early hours of the day. Mayor Farley has been notified by Adjutant-General Axline that troops to the number of nearly 1,600 men will arrive in Cleveland this afternoon to assist the local authorities in

maintaining order. "NOTHING TO ARBITRATE."

The state board of arbitration has decided that it cannot bring about & settlement of the strike by bringing the officials of the Big Consolidated and the strikers together to talk over their grievances, and will either abandon all efforts toward a settlement or order a public investigation of the strike. President Everett emphasized the written statement given to the state board of arbitration Saturday, saying that the company had nothing to arbitrate, by declaring emphatically that the company would refuse to receive a committee of its former em-

WHEEL. WORLD'S MEET AT MONTREAL. The board of control of the world's championship bicycle races gave out a statement last night that no matter what comes or goes now, the wheel week at Queen's Park, Montreal, Aug. 7 to 12, is bound to be a success. Every arrangement has been completed, and there is only impatience for the date to arrive now worrying anybody. One of the features of the meeting will be the gathering of newspaper men from all over the country. A special excur-sion has been arranged for Tuesday, Aug. 8, the day before the races open. This is for the exclusive benefit of the men who write for newspapers, and who are supposed to know a good thing when they see it. The point selected for their entertainment is a picturesque spot, Bout de l'Ile, where the beautiful blue of the St. Lawrence rushing onward to the sea is somewhat checked in its course by the waters of the Ottawa, and the two conflicting aquatic giants are separated by a little river much in the same way as a referee walks between two gladiators in a clinch. The district is appro-priately styled "the meeting of the waters." It is not the Vale of Avoca, for it is much more majestic, and there is an excellent hotel there, wherein a banquet will be given to visiting pressmen. Application for badges have already been received from points as far apart as Augusta, Me., and Los Angeles. They have all ben honor-ed. The excursion will be a meek thing, but the dinner will be Lucuillian.

TRIGGER. Blair, of the Canadian team, won the Wingrove Cup for the best long range aggregate score at Bisley.

### Canada Stands Firm.

Charles Tupper has made amende honorable, and declares he will back the Canadian Government to the utmost in its present position on the Alaska boundary duestion.

Sir Charles' vehement speech in Toronto, assailing the Government just after the adjournment of the Washington conference, was used by the American press against Canada, the inference being that Sir Wilfrid Laurier's attitude toward the United States was dictated by party exigencies, because Sir Charles Tupper and his party were hanging on the Dominion Government's flank.

Sir Charles now realizes the unfortunate effect of his speech, and makes a manly apology, admitting that he spoke before he fully understood the facts of the case. He asserts that the Alaskan boundary question is not a party issue, and that the United States will be confronted by a united Canada. This is as it should be.

When the Joint High Commission adjourned, the boundary question was referred to the British and the American Governments in the hope that the diplomacy of London and Washington would succeed where the commission had failed. Sir Wilfrid Laurier was obliged to announce in the House of Commons on Baturday last that a settlement was now no nearer than in January. As a compromise was impossible, Sir Wilfrid declared two courses only were open-war and arbitration. War, he dismissed as a crime; arbitration, he could only hope for. Canada stands for Yull, free, and fair arbitration; the United States will only consent to ar bitration on the condition that whatever the finding of the tribunal may be, the settlements on tidewater at present under American jurisdiction shall continue to be American. As this would forever shut Canada out from access to the Yukon through the natural seaports of the Yukon-which Canadians believe to be rightly their own-such a restriction would make arbitration a dreary farce. It would insult the very doctrine which our neighbors so loudly championed in the Venezuelan case, and which they imposed on Great Bri-

tain under threat of war. Canada's great mistake was in not urging the settlement of the boundary question before the Klondike gold discoveries made both countries anxious to control the gateways to the Yukon. Bir Charles Tupper, in the House, on Saturday, made this statement:

"When the Right Hon. Joseph Chamberlain and Lord Sackville and myself were commissioned to negotiate certain questions with the United States of America, the Alaskan boundary was one of them, and we at once brought that subject before the then secretary of state, Mr. Bayard, who was the leader of the commission on the part of the United States; and he said: 'There is no difficulty about this question, but it is not ready for settlement. Russia made a treaty with Great Britain, and the United States has purchased the rights that Russia enjoyed under the treaty. But we have not the knowledge on either side that is absolutely necessary to a settlement.' And he proposed that the United States and Canada, as representing Great Britain, should appoint gentlemen to get information, to study the treaty, to study the character of the coast lines, to get all the facts that could be ascertained, and the report made; then, he said, the question could be settled without difficulty. That is the reason that question went over.' Instead of following this advice

Buring all the years that followed the late Government of Canada made no effort to secure a delimitation of the Alaskan boundary, but allowed our neighbors to remain in nominal and actual possession of territory, to which Canada has a claim which she thinks she can establish before an impartial tribunal. But for Canadian apathy on this question in the past, Canadians might now be controlling the commerce of the Yukon, which is now largely held by the American cities in the Pacific coast. The trade of our new Eldorado a positive advantage, which our American cousins do not care to forego for the sake of such trifling and abstract things as justice and international

### Street Railway Troubles in Ottawa.

The Ottawa City Council on Thursday night laid itself open to sterr censure. The council had previously given two readings to a bylaw giving the local street railway company a franchise for Sunday cars for three years, under certain terms and conditions. A special meeting of the council was called for Thursday evening to pass the third reading. This was presumed to be a mere matter of form, and several aldermen did not take the trouble to attend. Without previous warning, Ald. Raphael, seconded by Ald. Lang, moved that the Sunday fronchise be extended to 22 years-the full term of the company's week-day charter. Ald. Black asked that the matter be left over for consideration at a full meeting of the council, but he was not listened to. Seeing that the aldermen in the ring were determined to rush the deal through on a snap vote, the other aldermen walked out in a body, with the intention of breaking the quorum. The thirteen who remained then put the 22-year franchise through and it is now law. Ald. Black, who returned, gave notice of reconsideration, but the mayor refused to accept it. Angry recriminations followed. Charges of crookedness were made against individual aldermen, and several disputants nearly came to blows. The absent aldermen have been tele-

graphed for and an effort will be made to frustrate the seizure of the franchise. The Ottawa Journal calls it a discreditable deal, and strongly censures the thirteen aldermen who supported it. The Ottawa Citizen, in a stinging

editorial, headed, "A High-Handed

Outrage," says: "On former occasions valuable rights and franchises of the corporation have been given away under various thin disguises, but Thursday evening it was case of deliberately wresting a franchise from the city by an action as unscrupulous and brazen as was ever perpetrated upon a community under the semblance of legality. The city has had some unfortunate experiences at the hands of the 'electric interests,' but this latest caps the climax. It simply means that what those interests cannot get in the shape of concessions they will find means to take."

The Citizen also calls the thirteen aldermen "henchmen of the company," and adds: "Of all the deals that have been railroaded through the council, this is without exception the worst, and t now remains to be seen whether the citizens of Ottawa or the electrical interests own the city."

The Trade of Africa is the subject of a Blue-Book just issued by the Board in the climate and the nature of the of Trade. From it we learn that the United Kingdom possesses by far the largest share of the African trade, and even when excessive import duties are levied, British products generally find a market. The most marked developments in the continent are found in the exports from Cape Colony, the total value of which amounted to £16,952,000 in 1896, £19,436,000 in 1897, and £24,423,000 in 1898. As regards the trade between the United Kingdom and Africa, as a whole, it will be found that, taking the period 1893-1897, the total value of the merchandise imported into Great britain amounted to between 181/2 and 19 millions sterling annually, the figures varying very little from year to year. The total exports of merchandise from the United Kingdom to Africa have risen in value from £17,319,000 in 1893 to £24,967,000 in 1897. Of the latter figure, £5,366,000 represents in value the metal and metal manufactures exported, £4,995,000 the value of cottons, and £2,406,000 the value of apparel and haberdashery.

There is some talk in Woodstock of a 50-year street railway franchise being conferred on a private corporation. Surely the Woodstock authorities will not be idiotic enough to sell the town out that way. Remember London!

In the Suez Canal Great Britain not only maintains her overwhelming preponderance of shipping traffic, but has actually increased her percentage of the total. Out of 2,623 merchant vessels which passed through last year, no fewer than 2,007 were British, being fully 76.5 per cent of the total number, and more than 79.4 per cent of the tonnage. To be added to these are 221 mail steamers, as compared with 128 owned by France and 102 by Germany. German merchant shipping in the canal is only 9.3 per cent of the whole, while France, Holland and Norway combined, send only 6.1 per cent.

Industries and Iron, London, England, observes that "Canada as a factor in the world's iron supply, is a new notion to many people, and beside last year's production of 11,773,934 tons of pig iron in the United States the exports of the Dominion may appear like an item from a balance sheet of ciel results, both to the editors and Liliput. But they do exist, and along their present diminutive course are

expanding at a good percentage, if not yet of a large amount. Since 1995 the exports of pig iron from Canada have steadily grown from 260 tons, valued at \$6,200, to 2,403 tons, valued at \$61,000, practically three-fourths going to the United States, most of the remainder to Great Britain, and a small quantity to Newfoundland."

### What Others Say.

### A Conservative Opinion.

[Galt Reporter, Conservative.] If \$5,000 is a fair salary to pay the city clerk of Toronto the premier of the Dominion should at least receive \$15,000. And even a base Tory cannot conscientiously declare that Laurier is not worth that much to the country.

### Obligatory Voting.

[Seaforth Expositor.] We are pleased to notice that the London Advertiser, Forest Free Press, Picton Times, and other papers indorse the Expositor's position in favor of a compulsory attendance of electors at the polls. This is a reform which is reasonable and in the public interests, and will come sooner or later.

Mr. Kipling, while on a visit to Mr. went to see a house which the author of Life's Little Ironies thought would suit him. When Mr. Kipling moved out of earshot, Mr. Hardy observed to the occupant: may mention to you that this gentleman is none other than Mr. Rudyard Kipling." "Is that so?" she replied; 'I never heard the name before.' Presently Mr. Kipling, in turn, found himself alone with the lady and re-marked: "Possibly you may not be aware that the gentleman who brought me here today is Mr. Hardy, the eminent author." "Oh, indeed," was her reply; "I don't know his name,"

### Trade Unionism and Prosperity. [Toronto Globe.]

So far as unionism results in higher wages, which means a more even distribution of the products of labor, it acts to the general advantage of the community. Not only does the general diffusion of comforts tend to develop a higher type of citizenship, but it tends to prevent the periodical recurrence of industrial depression. The productive worker is a generous consumer, and while he obtains a large share of the products of labor, or high wages, there is a proportionately strong market for all kinds of goods. Could each obtain and enjoy the full product of his labor the phenomena of depression could

### England's Way and America's Way. [New York Tribune.]

Our own operations in the Philippines offer a painful contrast to England's condition of splendid readiness at the Cape. In respect to numbers, equipment and morale the army Aguinaldo is very much inferior to the army of President Kruger. It is only country that we encounter in Luzon obstacles more serious than which English troops would have to overcome in the Transvaal. Yet we have been fighting these Tagalos sind February and we have not crushed them yet. The rainy season has comus to stop fighting and it is pelled perfectly well known that Aguinaldo is prepared to give us a great deal trouble when we are ready to go at him again.

Solid Sore from Knee to Instep. Thought have to be Amputated. Walked with Crutch. Almost Wild with Pain.

Physician Said "Never could be Cured." Tries CUTICURA. Sleep after First Application. Cured in Eight Weeks.

I was afflicted with a terrible sore leg, caused by a cut. It became so inflamed that it was thought it would have to be amputated. My physician said that "it could never be cured, that it would remain a running sore on account of the poisonous state of my blood." When I got out of bed I could hardly stand the pain, and had to get along with a crutch. I tried all kinds of blood and other medicines without success, my leg getting worse until it became a solid sore from my knee to instep. Utterly discouraged and almost wild with pain, I gave up in despair, making up my mind that death would be a sweet relief. Casually picking up an old paper, I noticed the description of a man who had been cured by Cuticura remedies, afficted like myself. I immediately procured the Cuticura Resolvent, Cartoura Boar, and Cuticura (ointment). The first application of Cuticura (ointment), after carefully washing my leg with warm water and plenty of the Cuticura Boar, gave me so much relief that I was able to steep over half of the night, and after the third day I rested well every night. I went on improving, and in cractly eight weeks from the time I began the use of Cuticura remedies I was able to return to my trade (carpentering), well and sound. that it would remain a running sore on account of the poisonous state of my blood." Project Indorsed by Trades Unions of New York.

Convention Has Been Formally Called for August 7.

New York, July 25.-Hundreds of delegates, representing the trades unions in Greater New York were present at the regular meeting of the Central Federated Union, at which the organization of the new labor party

came up for discussion. project was enthusiastically indorsed by the delegates, a number of speeches being made in its advocacy. convention was formally called for Aug. 7, the place of meeting to be announced later. Every union and reform body in the city of New York will be asked to send delegates and an

organization will be effected.

At a meeting held on Sunday, Manuel Prince, president of the Central Federated Union, presided. Master Workman John M. Parsons and District Master Workman Pines were among the speakers, and the former spoke strongly in favor of the new political movement. He said the time for action had arrived, and that the unions of the city must either show their power as American people or go down to destruction.

He asked that a treasurer be appointed to act as treasurer of the fund to be raised to aid the strikers. This was done, and delegates of various unions then pledged sums ranging from \$100 to \$500 each, and gave assurances of more money, if needed. It was decided also to institute a boycott against the Second avenue line, the line affected in the present strike in New York.

There was further talk on the strike, and one of the delegates denounced the board of aldermen, saying: "They had \$150,000 to give to entertain Admiral Dewey, but not a penny for the poor strikers. For them there were policemen's night sticks and prison cells."

### AN OPEN LAMP WAS THE CAUSE

Of Monday's Explosion in the Grindstone Mine-Other Casualties.

Brownsville, Pa., July 25.-An open lamp caused the explosion of gas and fire damp in the mine of the Reda stone Coal, Oil and Gas Company, at Grindstone, yesterday. Four men have been taken from the mine, two dead and two injured. All but two of the 73 men in the pit when the explosion occurred, were able to make their es cape, and the total list of dead and injured numbers six. Two men still in the mine are supposed to be dead. It was several hours before the extent of the disaster was known, as the miners who escaped by the two exits had to walk several miles to return to the pit mouth. The explosion was caused by fall in Entry Ten, which drove an accumulation of gas into another entry, where it was ignited by a digger's open

lamp. A BABY MANGLED. Quebec, July 25 .- A fatal accident occurred near the Lake St. John railway crossing at Charlesbourg West, on Friday, by which the 2-year-old baby boy of Joseph Legare, a farmer of that district had one foot cut off, as well as as a portion of the heel of the other foot. It is supposed the child strayed from home and scrambled up on the track when the train rolled past. The little one may recover, but the mother is dangerously ill from the shock.

LANDS ON A STEEPLE.

Pittsburg, Pa., July 25 .- Jack Cassell, a New York aeronaut, after ascending to a height of 2,000 feet, came down with uncontrollable speed, landing with his parachute on the steeple of Calvary Church-200 feet above the ground Several thousand people saw him, and it was over an hour before he was rescued. Strange to say, he was not WORST IN TWENTY YEARS.

London, July 25 .- The accident to the British torpedo boat destroyer Bullfinch on Friday was the worst naval accident of this nature that has occurred in the British navy in twenty years. The victims were terribly injured, steam and boiling water filling the engine-room. The Bullanch is one of the latest designed 30-knot torpedo boat destroyers. ### FLEW 1,513 MILES

Pigeon Came Back From Mexico to Detroit.

Detroit, July 25 .- Fred J. Rouff, 665 Gratiot avenue, is the owner of the carrier pigeon which arrived in Detroit yesterday after having covered 1,513 miles in four weeks. Some time ago Ruoff sent his bird by express to Monterey, Mexico, to some friends, and four weeks ago yesterday, with considerable ceremony, the pigeon was liberated from the roof of the city hall in the presence of the mayor and officials of that city. It was predicted at that time that the owner would never see the bird again, but at 10 o'clock yesterday morning the pigeon arrived in good condition at the barn of its owner. The bird is known as Cock 19, and last summer it covered all the way from 50 to 1,000 miles.

## FARMERS' DAY

Agricultural Estimates in the House of Commons.

▲ Tobacco Experimental attion-Another Preferential Trade Resolution.

Ottawa, July 25.-The house spent the three sittings yesterday in supply, the items under discussion being those under the heading of agriculture. There was some opposition to several items, especially that for illustration stations, the utility of which was questioned, but Mr. Fisher vigorously defended the educational features of the work carried on in connection with agriculture, of which the illustration stations were, he said, among the most useful agencies. Mr. McMillan (South Huron) was opposed to the stations, and Mr. Fisher agreed to allow the item to stand for further consideration, with a view to a possible reduction of the amount and the application of a portion of the grant to experimental

work with tobacco.

At the opening of the house, Dr. Rinfret secured the first reading of the bill respecting usury, which Mr. Dandurand has already championed

through the senate.

Mr. Clancy and Mr. McMillan complained that the live stock on the Experimental Farm at Ottawa was of inferior grade. Mr. McMillan eulo-gized the minister of agriculture and said it was a matter for congratu-lation that a practical farmer was at the head of the department.

NEW YORK, July 24.—Beeves—Receipts. 4,523; 46 cars on sale; active and the manner in which he had dealt with celpts. 4,523; 46 cars on sale; active and firm for steers; top grades a shade higher; bulls, steady to 10c lower; cows firm; all sold; steers, \$4.70 to \$5.70; oxen and stags, \$3.40 to \$5; bulls, \$2.80 to \$3.90; cows, \$2 to \$4. Calves—Receipts, 3,971; market opened firm for veals; closed easy; buttermilks all sold; veals, \$4 75 to \$7; tops, \$7 15 to \$7 25; culls, \$4; grassers and buttermilks, \$2 50 to \$3 50. Sheep discovery that, unfortunately, tubercuand lambs—Receipts, 12 455 50. discovery that, unfortunately, tuberculogis existed in the herd at the Experi-mental Farm, owing to which the herd had been largely reduced in numbers. He wanted to make up for this loss as rapidly as possible, and, therefore, he was asking for an increased vote this year.

THE TOBACCO CROP.

In the course of the debate on the item for illustration stations, Mr.Cowan spoke of the need of illustration stations for tobacco-raising in Kent county. Owing to ignorance of the methods of curing, \$70,000 was lost to the growers there this year.
Sir Henri Joly called attention to the

great increase in the production of to-bacco in Canada since the new law came into force. In Essex between 8,000,000 and 10,000,000 pounds were grown last year, and probably as much grown last year, and probably as much was raised in Quebec. Two years ago only 600 pounds of Canadian tobacco went into our factories; last year 19,000 pounds were so used, and this year 2,500,000 pounds were consumed. There was no limit to the amount of ground that could be used for growing tobacco if the growers only knew how to cure it.

THE WEATHER TODAY-Mostly fair; local thunderstorms.

Mr. Casey urged that the same ef-forts and similar expenditure should be made to instruct the farmers in the cultivation, and especially in the cur-ing of tobacco as for other branches of agriculture. There should be not an illustration but an experiment station to find out what had best be done in the curing of the leaf. Seed should also be introduced from Virginia and

state. FOR BRITISH MARKETS. Mr. McNeill (North Bruce) intimated that he would, with the concurrence of the prime minister, bring in a resolution declaring it to be the duty of the government to use all possible means to gain a share in British markets for Canadian products. This will, it is thought, suit both sides of the house, and will be dealt with today. In connection with the vote for the publication of the Canadian year book, the minister of agriculture announced that he had been able to cut down the appropriation for this work from \$4,-000 to \$3,000, while retaining the pres-

"THEY ARE ALL RIGHT." John L. Geddes Opinion of the Famous Dodd's Kidney Pill

Belgrave, July 24 .- Mr. J. L. Geddes, a well-known blacksmith of this place, has received many inquiries concerning Dodd's Kidney Pills. He used Dodd's Kidney Pills two years ago for lame back. The last inquirer is a Toronto gentleman, who is anxious to find if cures by Dodd's Kidney Pills of the commonest diseases, such as Bright's Disease, Diabetes, Rheumatism, Heart Failure, Lumbago, Urinary and Bladder Diseases, etc., are lasting. To this end he has sent out letters to various

parts of the province.

Mr. Geddes answered him as follows: "Belgrave, May 29, 1899.
"Dear Sir,—Dodd's Kidney Pills are
ALL RIGHT. They did me a lot of good. My back hasn't bothered me for two years, Yours truly, "JOHN L. GEDDES."

POLICE COURT'S

Street railway cases continue to clog the police court, and the end is not yet in sight. Several more persons charged with stone-throwing and rioting on July 8 were this morning committed for trial. There was an unusually large crowd of spectators this morning, a number of women being among them.

The street railway cases were of a monotonous character. Fred Goodacre was up on three charges—rioting, turning a switch and refusing to disperse when ordered to do so by Chief of Police Williams. The hearing was on the former two. P. C. Downs testified to having seen Good-acre pick up a stone and throw it, striking a car near the door. Later he had seen Goodacre get on a car

P. C. Egelton testified that he had seen Goodacre turn the point on a switch at Dundas and Lyle streets, causing the car to overrun the switch and giving the crowd a better chance to stone it while it was backing up. This was before the car upon which Rigney was injured came along. Goodacre was standing only a few feet from the witness and turned the switch with his foot. Witness had not tried to prevent him from turning the switch. He did not know why. Later he had seen defendant on one of the cars going into the barn. Witness had made a memorandum of the day's occurre res the next day.

Goodacre was committed for trial and released on bail. The post-proclama-tion case was enlarged for a week. The most serious case was that against John Sherlock, charged with rioting and throwing stones. Upon a former examination on another charge

Sherlock swore positively that he had thrown no stones during the day. Superintendent Potter, of the street railway company, testified that he had seen Sherlock pick up something, and throw it at car No. 60. Witness was looking out of Dr. McDonald's office window at the time, which was about

William T. Lobb, foreman at the Canada Chemical Company's works, was charged with assaulting and inflicting induce Great Britain to support the bodily harm upon Mrs. Jane Stinson,

who keeps a grocery store on Rectory street. Mrs. Stinson testified that while she was standing in front of her place of business talking to a Mr. Davidson, Lobb came by on his wheel, and, overhearing a remark she made to Davidson, about a matter that did not in any way refer to Lobb, had got off his wheel, and, coming over, said: "Mrs. Stinson, I don't want you to insult me." Then he said she had called him a "scab," which she had denied, upon which he had struck her twice with his clinched fist-once on the temple and again on the nose. She would have fallen but for the support of the veranda post. Her temple was medical attendance, and her nose had bled freely from the force of the blow. Mr. Flock, who appeared for Lobb, waived cross-examination, and the magistrate adjourned the case for a week, advising the defendant to make some settlement.

"If this lady's story is true," said the magistrate, "this man has committed a frightful outrage."

Dark Picture of the Prospects in the Philippines-A War Correspondent's Letter.

London, July 25 .- A private letter received here today from a war correspondent at Manila, and dated, June 17, says: "There seems to be no end of the war in sight. The censorship is constantly becoming more troublesome. Gen. Otis recently established a rule that any matter relating to the navy must be taken to the commander of the fleet for his approval, and afterwards submitted to the military censor, thus

adding to our difficulties. "For some reason which the censor would not explain, Gen. Otis refused to allow us to send the death of Monadnock's captain (Nicholas), for two days

after its occurrence. The general also refused to let us send news of the disappearance of Capt. Rockefeller (April 28), on the ground that it would worry nis family, or the killing of Capt. Tilley, of the signal corps, until the next day.

The correspondents are all very tired of this arrangement, which simply means that they must go out and run large chances of getting shot, several times a week, with no chance of making reputations, because their stories must

always reflect Otis' views. "It is impossible to write the truth about the situation. The resources and fighting qualities of the natives are quite misunderstood by the American papers, and we cannot write the facts without being accused of treason; nor can we tell of the practically unani-Ottawa, Ont., July 25.—In the House war among the American troops. Jessie poured out the draught, without jest or smile; then stook back with a gesture that bade him help himself if he would. She would not be a party to the sport, Orrin perceived.

"A spiteful show of disdain!" he thought contemptuously. "She is hardly worth a scene!'

To show that he was not repelled or overawed, he advanced a step; took up the goblet with a profound obeisance: stared in her eyes, and swallowed a mouthful. Roy's shout of exultation and the uncontrollable grimace of the dupe, moved Jessie to a smile, but she did not speak.

You used to call her 'Jessie,' " interrupted Roy. "I said 'Cousin Hester' yesterday to your bride. Shall I imitate your formal address?"

"No. But my little wife is august in nobody's eyes. Whereas, Mrs. Fordham—Cousin Jessie—I beg your par-don! Which shall it be?"

His back was to Roy; his meaning gaze upon herself was, to her preception, audacious insolence. Not daring to resent it in Roy's hearing, she yet obeyed the wifely impulse to seek his protection.

"That is for your cousin to decide. My name belongs to him!" She said it proudly, flashing her wide eyes from one to the other, and moving involun-

tarily nearer to Roy.
Wyllys caught up the last words. "His relations should be yours, if the partnership be in good faith, and on equal terms."

That is for him to decide!" answered she, precisely as before.
"Thank you! I do not shirk the re-

sponsibility," said Roy, putting himself in the breach, as usual, when he saw her nonplussed or disturbed. "Another sip of nectar, Orrin, before you breast the storm?"

A wry face was the response, and the most fascinating man in Hamilton bow-ed himself out. As he drew the door to after him he glanced across the hall. The room Roy had showed him as his was opposite, and the door open. There was fire in that grate also; a lady's

The devil got hold of him in that hour, sifted him as wheat, bringing all that we's base in his nature uppermost. Heretofore he had shunned everything that could secure for him the reputa-tion of a "cicisbeo." When a woman was once married, she became an object of indifference to him. He accounted the pursuit of such, a hazardous and flavorless exhibition of Lotharoism which the refined age should frown down. He was not a gourmand or libertine, he had often proudly asserted to himself. Pleasures of that stamp he left to men of grosser tastes and coarser grain. It reminds me of the poor lady roots hold firm. I wish you could see who, in her rage to be ultra-fashionable, had her hair dressed very a la Chinoise-dragged up so high and twisted so tightly on the back of her head, that she could not get her heels to the floor. I do enjoy a grand oldfashioned snow-storm! cowardice

But intemperance is only a form of disease, and there may come a time in the progress of any disease when it can't be stopped. That's what we mean when we talk of "galloping consumption." It's like a horse running away with us. We can't

stop it. Strength will stop the wildest horse. Strength is the great necessity in the stopping of disease. Dr. Pierce's Golden Medical Discovery has cured thousands who had obstinate cough, bronchitis, weak lungs, spitting of blood, emaciation, and similar ailments which if neglected or unskilfully treated lead to consumption. It cures by strengthening the lungs and giving them power to throw

off disease.

"I had been troubled with bronchitis and catarrh of the head for eight years; had severe cough and at times great difficulty in breathing," writes J. W. Howerton, Esq., of Bigfall, Hangock Co., Tenn. "A portion of the time my appetite was poor and part of the time I was unable to do anything. I had been treated by our best country physicians for several years but with little benefit. I had been reading about your medicine for several years but hadn't much faith in it. Last spring I concluded that I would try it and before I had taken one-third of a bottle of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' I began to mend. I continued taking it until I had taken seven bottles. Now I feel like a new man and can do as hard a day's work as any man. I advise all of my friends who are diseased to take Doctor Pierce's Golden Medical Discovery."

### TONS OF MONEY

Shipped From San Francisco to the Philippines

Byrne With 70 Men Broke Up a Big Band of Robbers-150 of Them Killed.

San Francisco, July 25 .- The largest shipment by the government of coin to Manila, as far as bulk is concerned, since the outbreak of the war, was loaded on the transport Tartar, which sails for the Philippines today.

FIVE TONS OF COIN. It weighed about five tons and was brought under a strong guard from the mint to the transport dock in two heavy drays and a wagon. The total sum is \$1,300,000, besides nickels and pennies, \$100,000 being silver, weighing over three tons. The money is contained in 53 iron-bound chests. The Newport and Ohio sail Wednesday with part of the Nineteenth Infantry and a large number of recruits. The Indiana, which returned with invalided soldiers, will sail again with recruits

150 ROBBERS KILLED.

Washington, July 15. - The war department has made public a cablegram received on Sunday from Gen. Otis, giving fuller details of the fight with the robber band on the Island of Negros. Its text fellows:

"Campaign against mountain robber bands, Negros, more successful than reported. Byrne, with his 70 men, killed one-third of the 450 assembled, including their leader, a Spaniard or Spanish mestizo. Pursuit then made by Lieut. Evans, and detachment, Sixth Infantry, who killed three and captured one of the robbers; captured 100 dead stock, many spears and bolos, large quantity of provisions and destroyed a hundred huts. The two casualties in Byrne's fight are Ptes. David S. Anderson, killed; Albert B. Jerkes, slightly wounded, both of Company K."

### LAWLESSNESS IN **OLD KENTUCKY**

Deadly Antagonism Between the Philpot and the Grifin-Morris Factions.

London, Ky., July 24. - The gravity of the situation at Manchester, Ky., and generally throughout Clay county, owing to faction fights, cannot be overestimated. Many non-combatants have left their homes, abandoning Manitoba. their crops, and as many more as can will leave soon. Even here in London the insecurity is felt to such an extent that some families are leaving. An outbreak is expected at the trial of the Philpots, charged with killing Aaron Morris and others. Both parties mustered armed forces for marching into Manchester. The Philpots have 52 armed horsemen and no one knows How many footmen. The Morris and Griffin faction also have a large force. The Philpots say the latter includes the White-Howard faction. On the other hand the Morris faction say that the Bakers have made common cause with the Philpots. Both sides are fully White-Howard faction, has openly espoused the cause of the Griffins.

THE TRIAL IS ON. The trial of the Philpots for killing the Griffins on Little Goose Creek last Monday is set for today at Manchester. The factions are on hand, the Philpots outnumbering the Griffins and Chadwells by one-third, and all are armed. Robert Philpot, the only wounded man on the Philpot side. save Ed Fisher, son-in-law of Granville. Philpot and his friends insist on remaining armed during their trial, and say they will not be shot down while prisoners, as was Tom Baker. The trial is being held 26 miles from railway, telegraph or telephone communication.

FIVE NEGROES PUT TO DEATH. Bainbridge, Ga., July 25. - Decatur and Early counties are still greatly excited over the recent lynching of negroes. One negro has been lynched and his body mutilated; two have been found dead, and their scalps are reported to be on exhibition at Saffold, while the bodies of two others were found lying near a railroad track in the disturbed district. The cause of their death is in doubt. Crowds are still hunting for five other negroes who were implicated by Louis Sammons, one of the men lynched, in the assault on the Ogeltree family.

### FIFTY-SEVEN **GOLD-SEEKERS**

Rescued on the Edmonton Trail After Many Months of Privation.

Wrangel, Alaska, June 20, via Seattle, July 25.—The Stickeen River steamers Strathcona and Casca have arrived here with 57 survivors on the Edmonton trail. These unfortunates

had been on the trail nearly two years. They related tales of hardship, and demonstrated the non-feasibility of both land and water routes inland. Under orders of the Canadian Government the Hudson Bay and other trading companies have sent out relief parties to bring in the several hundred sick and starving miners who are still struggling along the Laird and Pelley Rivers. During the past winter it is estimated that 50 died of

scurvy, and many more were drowned, while others returned. A majority of the survivors are without funds. The majority are American citizens, and the local authorities are notifying the Washington authorities of their destitute condition. The following are some of the returning survivors: S. McQuinn, Nova Scotia; A. Coswell, New Brunswick;

T. M. Simpson, Yarmouth, N. S.; H. E. Barthline, Nova Scotia; F. W. Ferguson, Yarmouth, N. S.; J. Imeson, Ontario; N. McLeod, Nova Scotia; J. Nesbit, W. Gillis, Canada; D. Fisher, Ontario; S. Filiger, N. C. Scotia; Ontario; S. Ellison, Nova Scotia; T. J. Johnston, Halifax, N. S.; G. A. Sheppard, England; P. Fleming, Yarmouth, N. S., and W. S. Reynolds. Ottawa.

VICTORY FOR SERUM.

New York, July 25 .- Oscar F. Lackey. who came here from Cuba some days ago, and who was found to have yellow fever on his arrival at the quarantine station, was discharged from the quarantine hospital today. He has entirely recovered. He was treated with the newly-discovered yellow fever serum.

DOAN'S KIDNEY PILLS THE CURE

Here Is the Proof:

Mrs. S. Horning, Glasgow street, Guelph, Ont., says: "Doan's Kidney Pills are grand. I have not been ill since taking them, which was over a year ago last winter, and can give them my warmest praise; for they restored me to health after 25 years of suffering. Twenty-five years ago I sprained my back severely, and ever since my kidneys have been in a very bad state. The doctors told me that my left kidney especially was in a very bad condition. A terrible burning pain was always present, and I suffered terribly from lumbago and pain in the small of my back, together with other painful and distressing symptoms, common to kidney com-I could not sleep, and suffered much from salt rheum.
"When I first commenced taking

Doan's Kidney Pills I had little or no faith in them, but I thought I would try them; and it proved the best experiment I ever made. I had only taken two boxes when the pain left my back entirely. Three boxes more, or five in all, made a complete cure. DEMOCRATIC REPRESENTATION. The special committee on districts of the Canadian Order of Chosen Friends, which met at Hamilton last week, evolved a plan of district representation, whereby the Dominion will be divided into six districts, and the district council meetings will be formed by representatives from each coun-cil in the district, such district councils to send a certain number of rep-resentatives to the grand council in due course. The grand council will be composed of a body of about 70 in all, and the grand officers will be en-titled to a voice, but no vote, thus making it a most democratic representation, as the business of the or-der and the legislation passed will be very properly dealt with through the very properly dealt with through the representatives direct from the councils interested. It also provides that only eight grand officers shall be elective and returned to the grand council by virtue of their office, the minor officers being appointed, and their terms of office expiring the day before the next session of the grand council. It furthermore provides that only three grand officers shall be exonly three grand officers shall be exofficio members of the executive committee, and four grand representatives shall be elected on said committee, thus giving a fair representation from the floor of the house on said committee. At present there are 478 representatives to the grand council.

## TALKING OF

Michigan Lumbermen Stir Up the U.S. Secretary of the Treasury.

An Ex-Parte Statement of the Lumber

[Special to the Detroit Free Press.] Washington, D. C., July 24.-Since it became apparent that the joint high commission would not meet in August, and, indeed, might never reassemble, the Michigan lumbermen interested in Canadian stumpage purchased by them prior to the recent act prohibiting the exportation of logs have begun to flood the treasury department with demands that the administration shall now carry out the project announced several weeks ago of retaliating upon Canada by the imposition of a prohibitory duty on all items of the lumber schedule coming from Canadian territory. It is pointed out in these communications, which are addressed to the secretary of the treasury, that the lumber in-terests affected have refrained from any agitation of the subject so long as it seemed possible that the joint high commissioners might reconvene. There was no disposition, it was asserted, to permit private interests to embarrass the administrations in its negotiations and the lumbermen owning Canadian stumpage have patiently permitted their mills to lie idle, and their capital

to remain unproductive through semadiplomatic negotiations.

It is now maintained, however, that there is no longer any prospect of an agreement by the joint high commission concerning either the lumber question, the Alaskan boundary, or any other of the numerous disputes relegated to the commission for consideration. It now seems apparent, therefore, that if the lumber interests is to secure relief it must be through the adoption of a policy of retaliation that shall touch Canada in her most sensitive pointher pocket. The secretary has therefore been urged to lose no time in imposing the proposed prohibitory duties. which it is held only need to be promulgated by the president to become a law of the land.

The position of the administration is rendered not a little embarrassing by the receipt of these demands at this time. These letters were written before

Every Fit-Reform Suit has the maker's brand and price sewn in the left breast pocket.

If that brand and price should happen to get CUT, LOST, STRAYED or STOLEN, then the garment ceases to be Fit-Reform, and may be sold at any old price.

We have about two dozen suits which lost their identity last night, and some of them appear in our window today looking for an owner. Most of these unhappy suits are made of Scotch tweed from Scotland and a few are of the best Canadian stock.

Some of this nameless lot are in slender and stout shapes in medium sizes, and some are in normal shapes, large and small sizes.

A few are in pronounced Scotch effects, which win favor every time with Londoners.

There is not a suit in the lot worth less than \$22 made to order, nor less than \$15 judged by Fit-Reform standards.

ROBERT M. BURNS, 180 Dundas Street.

the recent significant speeches in the journment of the high joint commission House of Commons at Ottawa were delivered, but their effect taken in connection with the declarations of Sir Charles Tupper and Premier Laurier has been to convince administration officials that the situation in which the United States, Great Britain and Canada are rapidly becoming involved is one of much gravity. Retaliation on the part of the United States by the imposition of a prohibitory duty Canadian lumber could hardly fail to be followed promptly by the passage of the measures presented by Sir Charles Tupper providing for an all-Canadian railroad to the Klondike, and the restriction of miners' licenses in the Klondike region to British subjects. These picturesque examples of Canada's resources in the way of retaliatory legislation have impressed the administration deeply. They would probably be met by the repeal of the so-called bonding privileges covering the transit of Canadian merchandise through the United States to and from the Atlantic seaboard. Such acts by the two governments would simply mean the waging of war which could not fail to do incalculable harm to both, and would very probably result in actual physical hostilities. What the ultimate outcome will be no one here ventures to

The question as to whether legal authority exists in the provisions of the lumber schedule of the Dingley act for the retaliation which the Michigan ium-bermen urge is still before the attor-ney-general. Neither Mr. Griggs nor any member of the administration will discuss the prospect of action, but there is high authority for the statement that until the present somewhat excited condition of affairs is composed the papers in the case will remain in the pigeon-holes of the department of

The Detroit Free Press goes on to say: It transpires that the sudden ed-

in February was the result of the in-ability of the American and Canadian commissioners to agree upon the manner of disposing of this one subject [the Alaskan boundary line]. The British side proposed arbitration; Americans agreed to the general proposition, but suggested certain modifi-These were not acceptable to the British commissioners, who stop-ped the negotiations and referred the matter to the home government, having refused to go on with the other sub-jects until the Alaska question was disposed of. Thus, the commission adjourned under somewhat strained relations.

Under the modus vivendi which was proposed in June with every prospect of acceptance, but which is still awaiting the signatures of the two nations, the provisional boundary line was fixed between Alaska and Canada at three points near the head of the Lynn Canal. These would be sufficient to prevent any further conflicts. These points are as follows: On the White Pass, at the old Canadian custom house in the pass; on the Chilcoot Pass, likewise at the Canadian custom house, which has existed for the past eighteen months; on the Dalton trail, just above the Indian village of Kluckwan.

The first two points are easily fixed; the hitch of the moment has been over the location of the divisional point on Dalton trail. The point named is at the head of canoe navigation, and fifteen miles above tidewater, which the Canadians sought so strenuously to
