THIS COMPANY, which has been established 20 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium —the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.

Very low Rates of Premiums on Young Lives.

The security of a large realised and invested Capital.

Large Bonuses on Policies effected on the high Scale.

Prompt settlement of Losses.

The full value given for Policies when discontinued.

On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, at 6 per Cent. Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.

Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium.

Age admitted on the Policy when issued, if desired, on proof of date of birth.

Permission for the Lives assured to reside in any part of Europe, without extra premium or special license, and to, at and from California, at a small extra premium.

Insurances, if required immediately, may be effected any day between the hours of 10 and 4.

The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, *gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, Princes Street, Bank, London.

CAPITAL—ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other American Company transacting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom.

The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

Legislative Council.
(From the Toronto Colonist.)
MONDAY, July 28.

Among several petitions which were presented to the House were resolutions from the Bishop and Clergy of Montreal, and the other from the Bishop and Clergy of Quebec; praying that the Clergy Reserves might not be alienated from the purposes to which they were originally devoted.

Several bills were read a first time, relative to whom they were referred, and ordered to be printed; among others, to amend the Act relative to Attorneys; to amend the Act relative to Grand Jurors; to amend the Act relative to Petit Jurors; and to amend the Act relative to Sheriffs.

The Bill to amend the Act for the better protection of the Queen's Timber was read a second time, and referred to a Committee of the whole.

Legislative Assembly.
MONDAY, July 28.

Mr. Christie introduced a bill for the Consolidation of Property in Crown Fief Seigniories in cases of valuation by mutual consent.

Hon. Mr. Chabot moved an instruction to the Committee appointed to assist Mr. Speaker in the Library to consider the expediency of sending a competent person to Europe for the purpose of purchasing different classes of works necessary for the reconstruction of the Library of the Upper Branches of the Legislature, under such limitations as the Speaker and the said Committee shall deem advisable.—Carried.

Mr. Hincks stated, in answer to Mr. Boulton of Toronto, that it is the intention of the Ministry to institute an enquiry into the management of the Provincial Asylum.

On motion of the Hon. Mr. Hincks, it was ordered that the portions of the Journals of the House of Assembly of the late Province of Upper Canada, of the 8th February, 1838, relating to the subject of the Endowment of certain Rectories, be read, and they were read accordingly.

Mr. Hincks moved the following resolutions, making a few remarks to the same effect, and expressing the hope that there would be no opposition. He stated that the suit being for the settling of a public question the expenses should be borne by the public generally. He diluted upon the desirability of settling the question by this means. The following are the resolutions:—

That an humble address be presented to His Excellency the Governor General, to acquaint his Excellency that doubts have for many years existed in the public mind as to the legality of the proceedings by which certain Rectories or Parsonages were from time to time erected and endowed within the late Province of Upper Canada.

That in consequence of representations made to Her Majesty's Imperial Government on the subject, the opinion of the Attorney and Solicitor General was taken by Lord Glenelg, then Principal Secretary of State for the Colonies, in the year 1837, which opinion was given on 6th June of the same year, to the effect that the erection and endowment of the said Rectories were not "valid and lawful acts."

That on the 6th July, 1837, a Despatch was addressed by Lord Glenelg to Lieut. Governor Sir F. B. Head, in which his Lordship states that his opinion, that some remedy should be found for bringing the question to an adjudication with the least possible inconvenience, and expense; and in which he instructs the Lieut. Governor to consult with the Bishop and Arch-Deacon of the Church of England, as to the best means of testing the legality of the Endowments in an amicable manner.

That owing to subsequent representations from the present Bishop of Toronto, the Law Advisers of the Crown were induced to change their opinion, and to declare that the said Rectories were legally constituted and erected.

That this conflict of opinion has had the effect of quieting the public mind in Upper Canada, and that in order to set the question finally at rest, this House humbly prays that his Excellency will take immediate steps to bring the question of law fully to adjudication, in such a manner as will enable either party to bring the cause of appeal under the view of the Judicial Committee of the Privy Council, and this House pledges itself to make good all necessary expenses attendant on such proceedings.

Mr. Hincks observed on the resolutions that the provisions of both acts were to be borne by the Province conjointly.

Mr. Lafontaine made a few remarks nearly inaudibly, but he was understood to assent to the proposition of Mr. Sherwood.

Mr. MacKenzie commenced by ridiculing the unanimity that had suddenly sprung up and seized upon some hon. members. It was ridiculous to send Mr. Blake, chancellor, to decide the question if Mr. Blake, rector, was legally possessed of his rectory. He did not think the Inspector General should have brought the matter before Council, but for reasons from the Attorney General East.

Mr. Hincks thought it due to the House and the country, to state that he was prepared to stand by his resolutions, and that he perfectly agreed with the Attorney General East, on this point.

Mr. MacKenzie here interrupted and read from a report signed R. W. Baldwin and Francis Hincks. This document urged the people of Upper Canada not to support any candidate who should not give a pledge in writing that he would oppose, by every constitutional means in his power, (loud cries of hear.) Gentlemen should not shout before they get out of the wash. He must go on to read—and the abolition of the existing rectories.

Mr. Hincks asserted that there was nothing in that language inconsistent with his present resolutions.

Mr. LaFontaine was understood to taunt Mr. MacKenzie with not desiring to get this question settled, that he might have it for purposes of agitation.

Mr. Notman said, if the expenses of defending the side of the Rectories, whichever side might gain, were to be borne by the people of the Province, he should vote against the resolutions. He went on to contend that where endowments known as ancient, a religious body having precedence above another.

Mr. Price spoke in answer to Mr. Notman, expressing a hope that he had not expressed his deliberate opinion, but had spoken merely from a temporary abolition of any. He considered the resolutions before the House were the fairest mode of testing the question.

Mr. J. H. Cameron followed, speaking in answer to Mr. Notman, taunting him with a desire of promoting anarchy and confusion; and contending that here was the only competent authorities to try the question. The hon. member shrunk from the test, which he knew was just means of finding out whether these rectories were the fruits they were commonly said to be. He wished to avoid such a test, and to have recourse to agitation and agitation to secure ends his wished. He prayed God to deliver this country from an administration composed of men to many of the hon. members for Middlesex and the East.

Mr. Baldwin said a few words in explanation of the document cited by Mr. MacKenzie. He harassed the proposition, of which Mr. Notman had given notice, as an act of spoliation, which he did not think the House would entertain. He asked why the hon. member did not include the property of all religious bodies, that the scheme might appear in all its naked deformity?

The motion was put and carried (yeas, 50; nays, 2. Messrs. Merrick-ville, Hawkins and Notman only voting in the negative.

Mr. Price moved that the Committee upon the question of admitting the re-distribution of the seats of the House relating to the previous question, which had been agreed upon by the special Committee appointed to report upon the subject of that rule.

Mr. Baldwin opposed the reception of the report.

Mr. Cameron stated that he was not disposed to oppose the reception of the report. At the same time he could not help lamenting that the rule which had previously prevailed was much more useful to the country, in the House, than that which was now proposed. He had always supposed that the rule was that which prevailed in the Imperial Parliament, and he conceived it to have failed in its object, perhaps, to a great respect (unanimity); but he thought the last rule, which enabled long discussions and consequent expenditure to be cut short was a most valuable one; and if I. F. Cameron, before late years, had been established in the United States the rule which had long ago previously prevailed in Canada, he thought that the duty was in the former country was the best period of its utility. The motion was put and carried.

Mr. Robinson moved for a return of the Executive relative to the Niagara District Grammar School, which was agreed to.

Mr. Hincks said that he would remind the members of the House that they had to choose seven more members to complete the number of the Executive Council. If the terms of the said Council were to be altered, as many rumours as there are in the south side. He mentioned that instead of the large blocks of many miles square, which were sold on the British side, parcels of forty acres could be bought on the American side. He therefore moved an address praying that the Indian portions might be disposed of in the same manner as they were on the American side.

Mr. Price, the motion was carried.

After a few remarks from Messrs. Cameron and Price, the motion was carried.

The House went into Committee on Address for the Return of the Statement of William Ramsay, late Bursar in the Lunatic Asylum. Mr. Boulton stated that in the late discussion on the management of the Lunatic Asylum some severe remarks had been made relative to the character of this Mr. Ramsay. Since that, a person who took a great interest in the management of that institution had informed him that the charge made against Ramsay were most absurd.

The motion was carried.

A message was received from His Excellency containing correspondence from Her Majesty's Imperial Government relative to the disallowance of the currency act of last session; and relative to the banking act of last session.

Mr. Merritt moved an address to His Excellency for the issue of debentures for the completion of the Grand River navigation. He stated that the Canal had been made by a private company, which was not at present profitable, owing to not having sufficient length and depth. £7,000 were required to complete this navigation, and other sums would finish it. Mr. Hincks stated that the authority under which this money was sought, was an Act of the Parliament of Upper Canada, passed long before the Union, which had never been acted on. These debentures would of course become a charge on the consolidated fund, and therefore the House could take no step towards obtaining this loan, without the previous consent of the Government.

Mr. Merritt said that there was nothing new in this. The money was guaranteed by Act of Parliament; but he would allow it to stand as a matter of course. Mr. Merritt spoke to express a sense of Reciprocity, relative to a Provincial convention of the North American Colonies. We shall give the result of this debate in our next.

Hon. Mr. Boulton moved in order to a Select Committee the return to an address of 26th May last, relating to the sale of certain lands in the County of York. He went over the circumstances of this case but did not bring out anything new. He could prove the company was a mere sham, if a committee were granted him.

After a long discussion, the motion was lost.—Ayes 10; Nays 31.

The House then adjourned.

THE COURIER.

FRIDAY, AUGUST 1, 1851.

We yesterday shortly noticed the representations of the *Globe* respecting the public conduct of the Upper and Lower Canada Members of the Council and Assembly. We cannot for a moment, as we said, doubt the truth of the *Globe's* statements, because he was behind the curtain during the whole time that *he play was a playing*; neither [illegible] of those who received the money of the *Globe* in participating with the French party in the abuses which they and their slaves of Upper Canada have perpetrated upon the country; nor do we even desire to scan the motives, or guess the causes, which, at the twelfth hour, have led him to turn upon his late friends and tear the cloak off their backs; or, in other words, to expose them to the just indignation of an offended country.

It seems that the Rebellion Losses Bill on the one side, and the Clergy Reserves on the other, were the two questions on which the respective parties were to reciprocally aid each other. The former was to come upon the stage first; and with the help of the Upper Canada Reformers—pretty Reformers!—was to be carried at all hazards. For this the Clergy Reserves were to be swamped, and Blake was to get a Chancellorship. When the Rebellion Losses Bill had passed, which the *Globe* says the U. C. section of the Ministry nearly stranded themselves by carrying, the latter naturally sought the assistance of their French brethren in iniquity to destroy the Clergy Reserves. And, lo! what was the reply? *A blank refusal* says the *Globe*. Blake indeed got his wages. But the Clergy Reserves! no, no; behind them stood, in prominent perspective, the revenues of the Roman Catholic Church; and once remove the key stone of the arch which supported English Episcopacy, and St. Sulpice, with all its numerous and rich dependencies, would be exposed to the storm. What was a promise or a pledge in French parlance or in French Canadian ideas, when placed in juxtaposition to putting one's hand in one's pockets for the support of religion. It has always been said that there is honour among thieves; but here there is not even that. We do not, however, in this instance, blame the French party for breaking their pledges—the distinction does not attach to us, while the sacred property of the Church has been thereby preserved intact.

Some people, the *Globe* says, thought the English section of the Ministry should have resigned; he does not think so; neither do we; but not entirely on his grounds. One of his reasons is, that they would not have been justified in resigning until they had obtained a fair adjustment of the representation of Upper Canada.

The remainder of this remarkable article in the *Globe* is chiefly occupied in denunciations against both French and English Churchmen for their criminal endeavours to support the endowments, such as they are, of their several [illegible]. If we look to motives, we are not greatly indebted to the French members for their advocacy, because, if we may be allowed to judge of their conduct towards the British section of the Province when their own interests did not clash with ours, they have been ever and undeviatingly hostile. There can be no doubt therefore, we think, that to get quit of so degrading a vassalage, a Federal Union, sooner or later, will be tried; and should that also fail upon trial, then we must look to our brethren across the lakes for a refuge from this galling Gallic yoke—for emancipated we must and will be. We, whatever may be our religious and political differences, cannot so far forget ourselves as a people, that we should allow our social system to be swamped by a party of petty back-stairs tricksters, who have neither bone, sinew, brain, nor spirit, to support them.

We perceive that the New York papers in general are very angry with us, and the N. Y. *Herald* in particular is unappeasable, because, in the remarks we made some time ago on the case of that felonious deserter Walsh, we happened to call Mr. Commissioner Bridgham a "Yankee Daniel." We are sorry that our *pacific* neighbors should have wasted so much ink and saliva on so small a matter; and, lest mischief should come of it to some of them personally, we humbly retract the expression, and beg to declare it as our decided opinion that the aforesaid Commissioner is no "Daniel" either on the Bench or off it, nor Solomon neither, for that matter. Surely this will satisfy these pestilent fellows at last, and induce them to dip their pens in honey instead of gall, as they have been doing of late.

On Wednesday afternoon last, a number of ladies and gentlemen met in the Rechabite Hall, Great St. James Street, for the purpose of gracing the presentation of a service of plate to John Leeming, Esq., as an acknowledgment of his valuable services in the office of Secretary to the Industrial Exhibition held in this city in October last. The service, consisting of a tea and coffee pot, sugar basin, cream jug, and an oval tray, was manufactured by Messrs. Savage & Lyman, gold and silversmiths, Notre Dame Street, and has been much admired, both for the tastefulness of the design, and the superiority of the workmanship, proving that Montreal is making rapid advance in artistic skill. "We trust," says a cotemporary, "that on [illegible] specimens of this description will not be sent out of the country, which, when done, generally arises from a want of reflection, or from a belief that the work cannot be executed in Canada. This idea is now fully exploded; and we trust that all the advantages likely to result from the execution of such orders, will in future be confined to our own artizans."

On this occasion the Hon. George Moffatt was called to the Chair, and Mr. Wilson was appointed Secretary. Mr. Moffatt addressed Mr. Leeming in a few appropriate remarks, to which Mr. L. replied at some length, in a speech characterized by great modesty and good sense.

On the motion of Mr. Bristow, seconded by Mr. Arthur, the thanks of the subscribers were tendered to the Committee, on whose behalf Mr. Lovey replied. After some further proceedings, the meeting was dismissed.

In the evening a number of gentlemen, having agreed to give Mr. Leeming a dinner, sat down at Dolly's, where the good things, we understand, were served up in the usual profusion, and with the well known skill of the eminent *artiste* who presides over the *cuisine* of that well known establishment.

PANORAMA OF CANADA.—We are glad to hear that these two eminent artists, Messrs. Duncan and Kreighoff, have entered into an agreement to paint a Panorama of the St. Lawrence Valley, beginning at Niagara. This painting will include the finest views on the banks of the River, as well as on the Ottawa, towards Montreal. It will then follow the course of the River, including several inland scenes, such as Chambly, and other interesting points of Canadian scenery. The Falls of Montmorency, the Chaudiere, and the magnificent scenery of the Saguenay, will also form a part of this grand series of river views. We recommend this undertaking to the notice and patronage of the public; the talents of both the artists are well known, and the scenery to be depicted is well worthy of the canvas. We hope they will not literally paint or pourtray the River margin from Niagara downwards, but will rather give us a series of views on both banks, crossing and recrossing wherever the landscape may be seen to most advantage, and where the scenery may be best adapted for pictorial effect.

Dates from Mexico to the 7th July, announce that the British Minister had advised the Mexican Government that decisive measures would probably be taken if steps, if the claims of British creditors were not settled before the next packet sailed. The French and Spanish Ministers said their Governments must do likewise.

MONTREAL, July 30, 1851.

To the Editor of the MONTREAL COURIER:

SIR,—The Montreal *Gazette* appearing to be unwilling to afford me a last opportunity of rebutting its arguments against my defence, as purported in my Petition to Parliament, permit me, then, to apply to you for a brief reply.

The *Gazette* says:—

"Mr. Barthe seems yet to have to learn English respect for the dignity of Courts of Justice, and the implicit obedience which Englishmen are accustomed to pay to their decrees. His language concerning the members of the Bench, in his Petition to the Legislature, is such as no Englishman would have made use of, but for the purpose of an impeachment."

Verily, Mr. Editor, I could have been saved that lecture, had the Editor of the *Gazette* read my Petition, which is nothing more nor less than an *impeachment in due form*, which impeachment must be tried, too, in spite of all. And, notwithstanding, the *Gazette* tells me, as in earnest, that I should not have made use of the language I did, *but for the purpose of an impeachment!!!*

I confess I have not the good fortune of understanding what Mr. Editor means.

And again, as to what *I have yet to learn* touching the *respect due to Courts of Justice*, and the *sort of obedience which Englishmen are accustomed to pay to their decrees*, my answer is, that it is not by such *decrees* as those from which I have been forced to complain to Parliament and public opinion, that Courts of Justice in England have acquired that universal respect which they so well enjoy and merit there. Let the *Gazette* show me a parallel case in England, and I will at once pay that *implicit obedience* of which the *Gazette* speaks *to-day* so highly; whilst I could find in the files of the *Gazette* some expressions which would make rather a striking contrast with those it has now, were I only to go back to the time its Editor had to deal with their decrees here.

Sir, it is not in England, where the purity of the law is above all party spirit, that you would find Judges becoming the secret denunciators of their Clerks, for having done what they would have themselves recognized to be right during eleven out of twelve days composing a term. And it accounts, Sir, for the veneration with which they are deservedly regarded there. And, Sir, in England, *if* such a thing as the one of which I complain was, by possibility, to happen, I would, Sir, humble as I am, and elevated as my adversaries are, I would, I say, have had a hearing from the proper authority; and instead of the very light manner with which my case was dismissed by the Press here, public opinion would not have permitted that a British subject should have been treated in the way I have, both by the Judges and the Executive Government.

But, Sir, it is because I know and feel every day, and by my own proper experience, too, the state of insecurity in which I live under the British laws, as administered in this country, that I am forced to look somewhere else for protection. And the *Gazette*, however, is surprised that there should be Annexationists in Canada!

I have the honor to be,
Sir,
Your obedient servant,
J. G. BARTHE.

MONTREAL, July 31, 1851.

SIR,—Among the absurdities in the *Agricultural Journal*, and their name is "legion," the Editor has more than once attempted to palm off his twaddle upon the public as the production of another "party," to use his own favorite word. Two striking and unmistakeable instances of this kind of deception (there may have been twenty) have lately come under my notice. The first was a pretended letter from somebody praising the *Agricultural Journal* and its Editor up to the skies; but the writer was evidently so elated with the ingenuity of the trick as to lose sight, for a moment, of his assumed character, and to say "*this*" journal, when another "party" must have said "*your*" journal.

This letter appeared a few months ago, I think in April last.

There is another letter of a similar character, but written for a very different purpose, in the number for the present month, (July,) signed "A Paying Subscriber." The object of this is manifestly to have a slap at the publisher. Why or wherefore I will not stop to inquire, but proceed at once to expose the miserable attempt at deception which it contains.

The first sentence, in which the writer hopes the Editor will remedy *a few remarks*, is quite sufficient to enable any one to identify the author of this extraordinary production. But to make "certain" doubly "sure," he has designated "farming stock" or "cattle" by a term which no one but himself was ever known to use, to wit, "*animals*"—"*fat animals*," for instance, for "fat cattle."

In the first article in this number, consisting of something less than two columns, the same extraordinary substitution of the word "*animals*" (!!!) for stock occurs no less than *five* times. But it is useless to adduce further proofs. If the charge be unfounded, the Editor can easily refute it, and thereby throw contempt upon all I have said. But if he should not refute it, let the Society and the public see to it.

I remain,
Sir,
Your very ob't servant,
A DESIRER OF "HUMBUG"
AND A HATER OF "TWADDLE."

The Family Opposed to Newspapers.

The man that don't take his county paper must in town yesterday.

He bought the whole family a new bonnet.

He thought that Gen. Taylor was President, and wanted to know if the "Kamschatkians" had taken Cuba, and if so, where they had taken it. He had sold his corn for twenty-five cents—the price being thirty-one—but upon going to deposit the money, they told him it was mostly counterfeit. The only hard money he had was some three-cent pieces, and these some sharper had "run on him" for half dimes! His old lady smoked a cob pipe! She would not believe that anything could be said. One of the boys went to a blacksmith's shop to be measured for a pair of shoes, and another mistook the market house for a church. After hanging his hat on a meat hook, he piously took a seat on a butcher's stall, and listened to an auctioneer, whom he took to be the preacher. He left before "exercises" was out," and had an great opinion of the "sermon."

One of the girls took a lot of seed onions to the post office to trade them for a bonnet. She had a belly, which she carried in a "sugar trough," stopping at times to rub it on the clothes-pole. When she came out she handed the seed to the "*this*" journal, when another "party" must have said "your" journal.

The first sentence, in which the writer hopes the Editor will remedy *a few remarks*, is quite sufficient to enable any one to identify the author of this extraordinary production. But to make "certain" doubly "sure," he has designated "farming stock" or "cattle" by a term which no one but himself was ever known to use, to wit, "*animals*"—"*fat animals*," for instance, for "fat cattle."

In the first article in this number, consisting of something less than two columns, the same extraordinary substitution of the word "*animals*" (!!!) for stock occurs no less than *five* times. But it is useless to adduce further proofs. If the charge be unfounded, the Editor can easily refute it, and thereby throw contempt upon all I have said. But if he should not refute it, let the Society and the public see to it.

I remain,
Sir,
Your very ob't servant,
A DESIRER OF "HUMBUG"
AND A HATER OF "TWADDLE."

The Family Opposed to Newspapers.

The man that don't take his county paper must in town yesterday.

He bought the whole family a new bonnet.

He thought that Gen. Taylor was President, and wanted to know if the "Kamschatkians" had taken Cuba, and if so, where they had taken it. He had sold his corn for twenty-five cents—the price being thirty-one—but upon going to deposit the money, they told him it was mostly counterfeit. The only hard money he had was some three-cent pieces, and these some sharper had "run on him" for half dimes! His old lady smoked a cob pipe! She would not believe that anything could be said. One of the boys went to a blacksmith's shop to be measured for a pair of shoes, and another mistook the market house for a church. After hanging his hat on a meat hook, he piously took a seat on a butcher's stall, and listened to an auctioneer, whom he took to be the preacher. He left before "exercises" was out," and had an great opinion of the "sermon."

One of the girls took a lot of seed onions to the post office to trade them for a bonnet. She had a belly, which she carried in a "sugar trough," stopping at times to rub it on the clothes-pole. When she came out she handed the seed to the postmaster through the window, and sung "Barbara Allen." The oldest boy had sold two "open shins" and was on a "hunt." When last seen he had called for a glass of "soda and water," and stood smoking cigars and making wry faces. The shop keeper, mistaking his meaning, had given him a mixture of salts and water, and it tasted strongly of sarsaparilla. He'd been told of soda and water, and was bound to give it a fair trial. "Soda or no soda," he'd been "sold" once in a while, and he "wouldn't be sold" that time. "Soda or no soda," his friend turned his back and quietly wiped several flies into his drink.

We approached the old gentleman and tried to get him to "subscribe," but he would not listen to it. He was opposed to "internal improvements," and thought "larnin' was a wicked invention, and cultorwation nothin' but vanity and vexation." None of his family ever learned to read, but one boy, and he "teached school awhile, and then went a studying divinity."

Shipping Intelligence.

The steamer Rowland Hill left yesterday morning at the appointed time on her pleasure trip to the Saguenay and the Saguenay, with from 50 to 60 passengers, and had proceeded down as far as Patrick's Hole, against a strong head wind, when her passengers, who were chiefly ladies and their children, expressed a wish to return, dreading, no doubt, a severe fit of sea-sickness, Captain Jones, in deference to their wishes, put about and returned to port a little before noon. She, however, left again on the intended trip this morning at eight o'clock.

Captain Cotter, of the ship United Kingdom, at this port, reports having passed a number of outward bound ships in the Gulf. Off Cape Ste. Anne, on the 25th instant, saw a large new ship painted black, with full female figure-head.

BUTCHART'S RESTORATIVE BALSAM.

THIS invaluable Medicine has been sixteen years before the public, and has invariably been attended with unparalleled success,—indeed it may be justly considered INFALLIBLE in the cure of Bloody Flux or Dysentery, and all Looseness of the Bowels, in old or young. Its effects are palpable. Within a few minutes after a full dose has been taken complete relief is obtained. This Medicine is the invention of the late Doctor Butchart, Dundee, who, from long experience and extensive practice, has brought it to its present state of perfection in the cure of the above diseases. The ingredients of which this Medicine is composed are most salutary and beneficial to the human system. A single trial will satisfy any one as to the truth of this statement, and we can with the greatest confidence recommend it to the public as a sure and safe remedy.

To be had only of WM. LYMAN & Co., Montreal, and JOS. BOWLES, Quebec.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having obtained from the Government of the United States of America, letters patent for the sole exclusive right of manufacturing, selling and using the above celebrated machine in all parts of the United States of America, and Canada, offer for sale

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable and time saving Machines ever devised by human ingenuity, especially adapted for the use of Farmers, and all others requiring Power, as Woollen Mills, Foundries, Factories, &c. From Queen Street, which stood them more than double the accommodation they had in that shape, while the invention, they have it in their power to supply the whole country of the United Provinces with a machine that will thresh and clean more grain in a day, with less expense and with greater cleanliness, than any other known machine.

We beg leave to say in our opinion and from the fact we are quite prepared to guarantee more in the Thrashing Machine with our double separator given to those purchasing machines of us.

Our long experience in making, and the very liberal encouragement we have received in the sale of our Machines, has together with a constant determination to produce an article that will prove first to none in all others, enabled us to say, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleansed, fit for the Mill or any Market.

All orders addressed to us, or our Agents, Wm. Johnson, will be promptly attended to.

Machines shipped to any part in Canada, and every one guaranteed to be as good as recommended.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Witness—Letters Patent were obtained, bearing date March 5, 1850, on said Machine; the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. Paige, the owner of the right, giving the purchaser the right to use or transfer the same.

Caledonia Springs, 2nd June, 1851.

[Extract of a letter from P. J. Leavitt, Esq., of Montreal.]

I beg to state that in July, 1850, I went to the Springs for the purpose of seeking their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, and making free use of the Waters, my limbs were entirely relieved from all pain, and my health perfectly restored. Several of my friends, whom I have recommended to the Springs, assure me that they have experienced immediate relief from their ills. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 6th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experience, and tested as they have been by a great many patients of mine and others, labouring under Rheumatic affections and the different forms of disease to which the human frame is liable, I consider them invaluable. Few persons, except those who have suffered from this dreadful malady, can justly appreciate their wonderful salutary effects, have often seen persons martyrs to this disease, (myself for one during ten years,) who baffled all medical skill, both in England and on the Continent; resort to the Caledonia Springs walking on crutches, and returning in a short time, cured, and perfectly restored to health, and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (with unspeakable delight) the crutches, and with health, strength, appetite, and activity perfectly restored. Striking as such results are, the curative action of these Waters, when used in cases of Dyspeptic Complaints, Chronic affections of the Liver and Kidneys; and I am sure that a great number of those cases that leave the Springs greatly benefited, but not completely restored, would, by a second visit, find a more extended use of the same. That these Waters have acted in many diseases as a specific, seems to be generally admitted, and as much evidence and testimony to this effect has already been laid before the Public, that to my more would be superfluous.

H. T. MOUAT,
Member of Royal College of Surgeons, London.

To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December, 1849.

DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances unable me to grant you a favorable Certificate with more than usual propriety, many of my own Patients tested the efficacy, and derived great benefit from the use of the Waters. Of all diseases that have come under my notice, in which a persevering use of the Baths and Waters promises the most beneficial results, Chronic Rheumatism tends to the first. Many of the cures in this disease have been truly astonishing. I met with a case last summer, where the individual, a delicate female, had been suffering several years from this complaint; she had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the Springs, she returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspepsia and Hepatic Complaints, Chronic Dysentery, Syphilis, and some of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that, independently of the acknowledged virtues of the Waters, the great comfort you have been put to in the improvement of the Springs, and the unwearied attention which you bestow to the comfort and convenience of your Boarders, justly entitled you to a large share of public patronage and support.

I remain, dear Sir, yours truly,

GEORGE W. CAMPBELL, M.D.,
Lecturer on Surgery, McGill College.

To the Proprietor of the Caledonia Springs.

MONTREAL, December 9th, 1847.

SIR,—I beg to state that I consider the Caledonia Waters efficacious in cases of Dyspepsia, Chronic Rheumatism, or where the constitution has been impaired by the injudicious use of Mercury, and ill-treated Syphilis. I would also add, from a trial of them, that I have frequently recommended their use to the above complaints, and witnessed their good effects. I hope that the benefits that are derivable from them may not be lost to the afflicted, by the intermittance and almost universal use they have been lately put to, and like the date of many of our other excellent remedies, fall into unmerited disrepute.

I have never visited the Establishment, but I have often heard it most favorably spoken of.

I am, Sir, your obedient servant,

JAMES CRAWFORD, M.D.

To the Proprietor of the Caledonia Springs.

☞ A FRESH SUPPLY of the above WATERS has been received at the Depot, which can be had at the Counter, or sent to order to any address in town or country. Price of the Waters 2s. 6d. per gallon.

HALSET'S CURE-ALL.

THIS Article is a Compound Aromatic Life-Drop of Universal Application for the cure of Rheumatism and Diarrhœa.

Scott is the only Agent from Foreign Wounds, Accidents and Old Rheumatic Affections; and Sores and Ulcers have been permanently cured by its use in an incredibly short time.

The most everlasting, shifting, inward pains from Burns, Scalds, Bruises, and other accidents, are at once relieved by it, and entirely cured in a few days.

The most acute and painful Toothache is cured by it in a few minutes.

Sealded Feet and Sore Throat, pronounced by bad adepts, are quickly relieved by its use.

It is highly efficient in Sciatica and Tinderneck, requiring the assistance of the Complaints in which Cure-All is most recommended, for its great efficacy as an external application.

Rheumatism, Rheumatic Gout, Lame Back, Pains in the Side, Bones and Back, Headache, Cuts, Bruises, Stiffness, Tumors, Enlargement of the Glands, Glandular Tumors, Burns, Scalds, Chilblains, Sores, Ulcers, Scurvy, Scrofula, Chilblains, Piles, Stiffness and Enlargement of the Joints, Sore Throat, Quinsy, Asthma, Sore Throat, Ringworm, Barbers' Itch, Erysipelas, Salt Rheum, Old and Fresh Wounds, and Injuries of every description.

"THE BLOOD IS THE LIFE,"

THE LANGUAGE OF SCRIPTURE.

DR. HALSET'S FOREST WINE.

FROM its own merits and great works, this Wine is fast becoming the favorite in the most sickly years of the present Century. Those on the coast of Africa, and the Islands of the Pacific Ocean, as well as those in the most prosperous country of the world, are all in the habit of using it, and testify to its virtues in the most unequivocal manner.

Dr. I. A. STANLY, a celebrated Physician, in a letter from Princeton, New Jersey, dated November 10, 1848, declares that he has never found Sarsaparilla to at all approximate anything to compare with the Forest Wine, and doubts if the whole Materia Medica can produce a remedy for general Debility, Nervous Affections, Consumption, Diabetes, Complaints of the Kidneys, Heart, Lungs, and, above all, for diseases arising from impure Blood and habit of the System, sentiment members of the Medical Faculty have manifested and adopted the use of it.

Dr. I. A. STANLY, a celebrated Physician, in a letter from Princeton, New Jersey, dated November 10, 1848, declares that he has never found Sarsaparilla to at all approximate anything to compare with the Forest Wine, and doubts if the whole Materia Medica can produce a remedy for general Debility, Nervous Affections, Consumption, Diabetes, Complaints of the Kidneys, and general Debility. She found speedy relief, and regained her health, by the use of the Forest Wine.

From my own knowledge of the excellent medicine, I confidently recommend it for the good of others who may be suffering with similar complaints. It is the best remedy for Debility I am acquainted, and those who are afflicted with the above, or any similar diseases, may safely rely on its virtues.

Cohoes, March 6, 1850. E. U. MUSSEY.

More Testimony from Cohoes.

DR. G. W. HALSEY:—DEAR SIR,—My wife's last sickness was reduced to a low state of Debility. My family Physician advised her to take your Forest Wine. Accordingly I went to Terry's, your Agent for the town, and procured a bottle of it, which restored her in a very short time to perfect health.

HENRY DONALDSON.

Cohoes, April 13, 1850.

The testimony of upwards of three hundred individuals, some of whom were afflicted with chronic disorders, and considered incurable, can be seen at Dr. Halsey's principal Office. The following are some of them residing in this city:—

Mr. Asa S. Smith, 197, Fraser Street, Office—Wall Street, was long severely afflicted with a disease of the kidneys and bladder. The best medical skill answered no purpose. He tried the Forest Wine, and it met his case, and he was soon completely cured by the use of four bottles and a box of the Pills.

Mrs. Sarah B. Hayman, 15 Paul Street, was for four years a martyr to severe Rheumatic Pains, and could find no relief until he used the Forest Wine and Pills, and recovered by taking six bottles and less than a box of the Pills.

The remarkable efficacy of the Forest Wine is very striking in the case of Mrs. Bailey, of Virginia, who was cured in a few days of a severe attack of Bilious Diarrhœa and general prostration of bodily energy. On the arrival of the gentleman in New York in March, he was so weak and emaciated, from the effects of his disease, that he could not stir, and required assistance to enable him to walk to his apartment. The Wine was procured for, and he derived relief by the use of less than a bottle of the Wine and a single box of the Pills.

The Forest Wine and Pills are prepared and sold by Dr. Halsey, and carried here in all the following

Hospitals, National Customers, Fever Cisterns, Asylums, Asthma Pills, Chatterer Stone, Piles, Mineral Diseases, Pimples, Blotches and Scrofula, Cases of the Skin, Scrofula, Spine and Head, Diseases of the Mouth, Erysipelas, Complaints, Affections of the Head and Throat, Diseases of the Blood, Diseases of the Kidneys, and Complaints of the Bladder, Diseases of the Nervous System, Diseases of the Liver, Diseases of the Stomach, Diseases of the Bowels, Diseases of the Lungs, Diseases of the Heart, Diseases of the Urinary Organs, Diseases of the Generative Organs, Diseases of the Female Constitution.

CRAMP AND PAIN-KILLER.

THE MOST SUCCESSFUL REMEDY KNOWN

For the Cure of all Rheumatic Affections—Pain in the Stomach, Back, Side or Limbs—Cramp in the Bowels, Sick or Nervous Cramp in the Limbs, Cholic, Dysentery and Diarrhœa, Colds and Sore Throat, all cases of Local Inflammation—Cuts, Wounds, Bruises, Headache, Toothache, Burns, Scalds, Frozen Limbs, &c., &c.

THIS wonderful Medicine has effected many truly astonishing cures in cases of the most violent character. And we say no more than what is known to thousands who have used it, and to many Druggists who have sold it for years, whose sole study there is no Medicine equal to it, and that a case of sickness can be found in which a single bottle of the Pain-Killer, prepared by Messrs. Curtis & Perkins, will not relieve. In all cases of Cholic, Dysentery and Diarrhœa, Colds and Sore Throat, all cases of Local Inflammation—Cuts, Wounds, Bruises, Headache, Toothache, Burns, Scalds, Frozen Limbs, &c., &c.

It is a true, powerful, delightful article, and cannot, in any way, produce evil effects, when taken according to the directions.

Curtis & Perkins' Cramp and Pain Killer, may produce the following effects, when taken according to the directions, viz: Speedy relief, dry lips, powerful perspiration, the most wonderful effects on the nerves of the whole system, &c., &c.

It does not weaken the natural motion of the bowels, as many Cholic remedies do, but strengthens and invigorates the whole system, and gives healthy action to the organs of digestion.

IN ALL RHEUMATIC AFFECTIONS,

Curtis & Perkins' Pain Killer is the greatest and most successful remedy known to cure, even in the most desperate and long standing cases. [See Certificate.] In three hours the pain will be relieved in most cases, and in all cases in which the patient does not find relief, repeat the dose.

CRAMP IN THE STOMACH OR BILIOUS CHOLIC.

We believe it will never fail to speedily cure. It should be taken immediately at a time, on sugar or otherwise, or in any way the patient can take it best, and the stomach and bowels will soon be relieved. And if in fifteen or twenty minutes the patient does not find relief, repeat the dose.

DYSENTERY OR DIARRHŒA.

Are speedily and easily cured by it. It should be given a child of one year or more, one or two teaspoonfuls at a time, and bathe the stomach and bowels with the same.

EVEN THE CHOLERA.

Which during the past season has swept off such fearful numbers, has been cured by it, we believe in every case in which it has been early and faithfully applied. In Diarrhœa and Dysentery it proved almost infallible, and was found to yield to this remedy, and CURTIS & PERKINS' *CRAMP AND PAIN KILLER*, was the Medicine most demanded by the afflicted. And by the Press, as the first, the surest remedy to be used.

As a dressing for Cuts, Wounds, Bruises, &c., it is without a rival. As also in cases of Burns, Scalds, Frozen Limbs, &c.,—shaving the pain and healing without scar.

FOR TOOTHACHE

It is, nine times out of ten, a CURE. We believe it will never fail, unless the tooth is decayed. If the tooth is decayed, saturate a little flat and put it on as cavity. Hold some of it in the mouth. If the face is swollen bathe with it.

Bathing the head with it is generally a cure for the *Headache*.

We are continually receiving certificates from every section of the country, many of which may be seen in newspapers, and in pamphlets, which may be obtained of any of our agents.

Please read the following statement from John Buckham, Esq., of Belmont, St.,—

BELMONT, July 21, 1849.

Messrs. Curtis & Perkins,—For two years past I have been entirely prostrated, with the Rheumatism, both of my legs have swollen to twice their original size—a large tumor came out on my breast, also appearing like a part of the bone thrown out, and I suffered the most excruciating pains for nearly three years. I obtained the best medical attendance the country afforded, and tried a great number of medicines, but received no relief, without the least benefit or alleviation, when I was the good fortune to procure a bottle of Cramp and Pain Killer, prepared by Messrs. Curtis & Perkins, of Montreal, which, after using it, I found I could walk across the room two nights, and the pain became less violent. I have continued to take it and apply it externally, until I have completely regained my health, and can say with truth, that I am now a well man. The swelling has all gone down both in my limbs and breast, and I am entirely relieved from pain. I have been about to write you before, but was in hopes I should be able to call by the scientific and learned, being our only money similar case.

JOHN BUCKHAM.

Bowood, Feb. 14, 1847.

Mr. Wm. Boyle.—Sir,—The prescription invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compounds for the restoration of the hair, and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patent medicompounds.

WINSLOW LEWIS.

It is an indispensable article for the Toilet, as it keeps the hair in order and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet introduced for shaving. It is composed entirely of the Amole, or Soap Plant, of California. In a recent trial by the natives of that country for washing; and from the use of strong alkali, or harmful ingredients, it is peculiarly adapted to the most delicate skin. Its properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not run off in the least, but remains luxuriously on the shaved skin in the most delightful manner. It is done up in elegant style, calculated either for the dressing case of the "rough and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Messrs. Spencer, Barrett, Saratoga Street, East Boston:

Mr. William Bogle.—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference. After repeated failures of other remedies, I was induced to use your Hyperion, which, after using about one bottle, has caused the hair to grow, and is now in a healthy condition. She has also used it in other and more regular, I am convinced there is no other article of the kind that can be recommended. I am, Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAINA,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

The Health-giving Teas, Pills, and other preparations of the skin, and rendering it fair, delicate, and blooming. It is especially efficacious in protecting the skin from the effects of summer heat, and is the most delightful article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet introduced.

To Farmers, Housekeepers, and others, having Store-Houses, &c., infested with Vermin or Insects.

SMITH'S EXTERMINATOR

FOR THE ENTIRE EXTIRPATION OF

Rats, Mice, Cockroaches, Beetles, Crickets, Ants, &c.,

Without the use of Arsenic or other Mineral Poisons.

The Genuine Article has a Label, similar to the above, pasted on the top of each Box.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above suspicion:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.

Quebec, 7th March, 1850. C. F. BAILLARGEON, Pres.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the annoyance, without success. Having been strongly recommended Smith's EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.

BENJAMIN HART.

Montreal, November 28, 1849.

I hereby certify, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in ridding the College Premises of Cockroaches, Crickets, and such like disgusting insects, which were before very numerous.

S. VILLENEUVE,

Director of Montreal College.

Montreal, April 20, 1848.

From the Rev. B. Davis, D. D., Minister of the Baptist Church.

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found my present dwelling over-run with Beetles; the nuisance had defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the insects almost entirely from the house. Similar cases of success have occurred in my neighborhood.

BENJ. DAVIS.

R. R. R.

THE PROPHECY FULFILLED.

IN the month of August, 1850, we promised to the world that we would produce a medicine that would instantly stop the most severe pain, and speedily cure it.

We proposed in Montreal, and all other institutions for the relief of the sick; in Pittsburg, Saratoga, and all Medical Springs, and in the Hospitals of Europe, for the purpose of the most investigations, and to illustrate its powers over pain upon the patients.

We declared that it would stop, in a few minutes, the most excruciating pain, and that it would arrest the progress of the dread disease, and that it would cure in a few hours.

That it is of more value than gold, to relieve the most severe pain in the bowels, that in fifteen minutes it would stop all pain and distress in the stomach, that it would instantly relieve the most violent pain in the head, and that it would instantly relieve the most violent pain in the head, and that it would stop the most excruciating tooth-ache in a few minutes.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possessed a stimulation soothing and relieving influence over all pains and weaknesses of the system, that it would relieve pain, weakness, and that the most violent pain in the stomach, bowels, or nervous system, would be instantly influenced to give way to its power
