Flannelettes
A big range of patterns, twilled and plain, suitable for Wrappers, Children's Dresses, etc. Special at 40c per yd.

A. H. MACKAY

FOUR PROVINCES VOTED DRY

In the plebiscite held yesterday in Alberta, Saskatchewan, Manitoba and Nova Scotia, all four provinces went dry. In Nova Scotia the dry majority was 40,000. Halifax went wet, which was expected, and Cape Breton which was conceded to the wets, went dry. The western provinces each had large majorities in favor of prohibition. Winnipeg gave a wet majority, while Regina and a number of the other large centres went strongly for prohibition.

B. C. LEGISLATIVE DISSOLVED
The British Columbia legislature was dissolved Saturday Oct. 23rd. Nomination Day has been set for Wednesday Nov. 10th, with the elections on Wednesday Dec. 1st.

ARE YOU HELPING THE NURSES HOME?

Small Efforts on the Part of Individuals Collectively will Accomplish big Results. This is Your Opportunity

A Nurse's Home in connection with the Miramichi Hospital is a most necessary institution. For some time past a movement has been on foot to secure funds for the building of such a home. On Election Day the I. O. D. E. held a Tag Day for this purpose and were successful in obtaining about \$500.00, which has been set aside as a nucleus for a fund to help build a Nurses' Home. The public has manifested a deep interest in all matters appertaining to the Hospital, and will no doubt, show the same deep interest in the matter of assisting for the building of a Nurses' Home.

A considerable amount of money will be required to build the proposed institution and various ways and means are being thought of to secure the required amount. The Miramichi Hospital is a Public Institution, and was donated to our town by one of our most public-spirited citizens, and in this way we became possessors of an institution, second to none, without any expense whatever to the community. The Board of Managers of the Hospital take a keen interest in its welfare, and the ladies of the town are to be highly congratulated on the work which they have been performing. But it is not a matter to be left alone in the hands of the Board of Managers or of the different Ladies' Societies to further the work of the hospital, but it is a matter for the public at large to consider it a duty for each and every one to do their bit, and help this most worthy institution.

We have been given to understand that the firm of Messrs A. D. Farrah & Co., who always take a deep interest in our town's progress, have realized the necessity of assisting the Hospital, and this firm has been kind enough to offer the Ladies' Hospital Aid, a **MARKED DOWN SALE** at their store for ten days beginning November 1st.

Fifteen per cent of the total gross sales during the period will be given to the Ladies Hospital Aid for the purpose of assisting in the securing of funds for the new proposed Nurses' Home.

This action on the part of Mess. A. D. Farrah & Co. is one which the general public must appreciate, and we feel confident that the community at large will show their appreciation of the kindness of this firm during the days of the sale, and will in this way substantially assist the Ladies Hospital Aid, who will superintend the sale.

North'd Ticket to Remain Independent

Chatham, Oct. 21—The news sent out today from Fredericton to the effect that at least two of the members elected on the Independent ticket for Northumberland on October 9th would line up with the Foster Government, caused a smile among Independents when the paper reached here tonight and the item was read. Someone had been "kidding" when that story was told.

Certain members of the ticket have been sounded by an agent of the Government, and a dazzling portfolio proposition was held out as an inducement to link up with the Government forces.

Will Remain Free

The Northumberland members-elect will remain independent. One of them said tonight: "There is not one of our number that will accept a portfolio from the Government. We fought our campaign in opposition to the Government in its conduct of provincial affairs, believing them to be tied up body and soul with big interests, knowing that their administration has been one of extravagance for the benefit of a small clique and not for the good of the public. Yes, sir, we are against the Government."

Rev. A. F. Bate Nominated As Parish Curate

Rev. Alban F. Bate was nominated as curate of Christchurch Parish at a meeting of the congregation of Christchurch Parish Church held Wednesday night. His nomination will be forwarded to His Lordship the Bishop

REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council of the Town of Newcastle was held in the Police Court Room on Thursday, Oct. 21st 1920 at 8 o'clock p. m. Present, Mayor Doyle, Ald. Atkinson, Crocker, Dalton, Durick, Jeffrey, Mackay, Russell and Witzell. The Public Works Committee recommended payment of E. E. Benson's account for \$35.00 which was passed and ordered paid.

The Park and Fire Committee submitted the following report. A meeting of the Park and Fire Committee at which Chief Maltby was present was held to discuss the reorganization of the Fire Company. At that meeting it was decided to advertise for applications to form an entire new company. From the applications so received the committee has selected the following and recommend their appointment to form the Newcastle Fire Company from November 1st next.

Leo Mitchell, Walter J. Murphy, Wm. Stables, Ernest Treadwell, Harold J. Dalton, Lyman Vickers, R. A. N. Jarvis, Wm. Landry, John H. Sargeant, Finley Copp, Harvey Young, W. F. Harris, Angus McIvor, Chas. Delano, Wm. A. McMaster.

(Signed) EDWARD DALTON
Chairman

It was moved by Ald. Dalton, seconded by Ald. Durick and carried that this report be received and the recommendation adopted. The Petition Committee reported that they had considered the petition of Chas. Larsen for exemption from Taxes, and submitted a medical certificate from Dr. Nicholson showing that he is incapable of earning a living. The Committee therefore recommended that the prayer of the petition be granted while his physical condition remains as it is.

This report was received and adopted. The Light and Water Committee recommended payment of the following bills which were passed and ordered paid.

B. T. Baird	\$793.53
Imperial Oil Co. Ltd.	51.05
Maritime Foundry	\$8.99
John Morrissey	18.59
Canadian General Electric Co. Ltd.	185.45

On motion of Ald. Mackay, seconded by Ald. Russell the Special Committee having the matter in charge, was given an extension of time until next meeting to report on the advisability of establishing an Employment Office here.

Ald. Crocker spoke of the necessity of revising certain water rates, and it was moved by Ald. Durick, seconded by Ald. Russell, and carried that the matter be taken up by the Light and Water Committee with the object of persuading the printing offices to use some other power, or if they are unable to do so to recommend to the Council an adequate rate to be charged each office. Adjourned.

Cabinet Suspends Sugar Order

Ottawa, Oct. 20—Following this morning's hearing of the sugar case, the Cabinet Council at a special meeting passed an order-in-council declaring permanent suspension of the Board of Commerce sugar order. The question of other assistance to the industry was discussed, but there will be further consideration before a final decision is reached.

of Fredericton, and in the regular course of events his induction to the rectorship will take place later.

Other names placed before the congregation were those of Rev. Canon Smithers and Major the Rev. E. B. Hooper, who has been chaplain to the military and D. S. C. R. Hospitals in New Brunswick, formerly rector of St. Paul's (Valley) Church, St. John.

Popular Clergyman

Rev. Mr. Bate received a decisive majority of the votes cast. He has been curate of the Parish Church for about a year and a half and previous to that was curate of Christchurch Cathedral in Fredericton. During his occupancy of both curacies, Rev. Mr. Bate has made a host of friends and is very popular with people of all denominations. He is a graduate of King's College, Windsor, N. S. His father is Rev. Mr. Bate of Newcastle.

The nominated rector succeeds Rev. Canon J. R. DeWolfe Cowie, who recently resigned to reside in Carleton county near Woodstock.

Without newspaper and magazine subscriptions the modern professional man is not a complete man.

Announcing A Stupendous Saving Sale

—IN—

Men's, Women's and Children's Ready-to-Wear Garments and Footwear

—FOR THE—

Benefit of the Miramichi Hospital Nurse's Home

Our Retail Store for ten days beginning Monday, Nov. 1st, and ending Thursday, Nov. 11th will be under the management of the Miramichi Hospital Ladies Aid.

15 per cent. of the gross amount of the sale will be given to the Hospital as a foundation fund for the NURSES' HOME.

This useful institution is in great need of this home and we feel it is our duty as well as the duty of everyone in this county to assist in keeping up the good work. Therefore it is with all sincerity that this sale is made, and every effort has been made to make it a success. Stocks that are put on sale are all seasonable merchandise, very well assorted, of the best qualities, and prices have been cut to a very low margin which has been made possible by the large volume of business.

We have shown the Committee appointed by the Ladies' Aid the invoice price and the small margin placed on several articles. We believe in doing square fair things to all. It is the principle that is interwoven through every thread of our business fabric. It's the principle that wins! We'll take our chances for reward on our fidelity to this rule. Make your dollar do its double duty, first by getting value for yourself secondly by assisting the Miramichi Hospital Nurses' Home.

A. D. Farrah & Company

Newcastle

HIS SON IS LIKE A DIFFERENT BOY

Farmer Says Way Tanlac Has Brought His Child Out is Simply Wonderful

"My son is like a different boy since he began taking Tanlac and I feel like I ought to let everybody know how the medicine has brought him out," said William Perrin, well-known farmer at Clarendon, Queens County, N. B.

"My boy had been in a badly run-down condition for some time. There was no color in his face and he looked so unhealthy that we feared he was going into consumption. He had so little appetite that nothing would tempt him to eat and he used to sit down to the table and just nibble at his food. His nerves were in such a terrible state he would toss about for hours at night, unable to sleep.

"When we saw by the people how Tanlac was helping others we decided to let him try it and after the first bottle we could see a big difference in him. He began to eat much better and to take an interest in things. The color came back into his cheeks and he now has a good healthy appearance. He must have gained a good many pounds in weight, for he looks much stouter and is so strong that he can do a man's work without getting tired. He sleeps well at night and gets up in the mornings as happy as a lark. Honestly, you wouldn't know him for the same boy that he was three months ago, and his wonderful improvement is entirely due to Tanlac."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Sullivan and in Doaktown by O. Hildebrand.

NO FAITH

As rain was badly needed in the district, the followers of a darkey evangelist approached him with the request that he would hold a special service to pray for rain. The evangelist arrived and the church was packed.

Ascending the pulpit, the evangelist thus addressed his flock: "You people will all get mighty wet today 'cause you hab no faith. We hab all assembled here to pray for rain and not one of you hab brought an umbrella."

GUARD AGAINST CHILLS

Simple Precaution Against Dangers of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, or soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.

Applied After Shaving

Keeps the Skin Soft and Smooth

MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured.

OIL SHALE DEPOSITS OF N. B. ARE BIGGEST IN THE WORLD

Mr. Matthew Lodge, of Moncton, Has Interested British Government in Great Fields Here

The Montreal Gazette of October 16th prints the following interesting article written by Alexander Gray:

In a recent article discussing the need of new sources of motive power, George Otis Smith, director of the United States Geological Survey, writes as follows:

"The oil shale resources of the country must not be overlooked, nor must their value be underestimated as a rear line of economic defence. As their oil content is fairly comparable with the petroleum reserves of the world, the shales furnish an effective guarantee against the United States going bone dry as to oil; but the oil won from the oil shales will not be labor cheap, like the petroleum now flowing from our wells. As long as industry is short handed, it cannot expect any return from oil shale, nor can it expect any return to low prices by utilizing this resource, however vast its extent."

Having stated the positive and negative factors affecting oil shales—although he ignores what has been accomplished in the actual results realized from oil shales—Mr. Smith lends the weight of his official judgment to the fact that Canada's great shale resources only now are receiving the attention they merit.

CLAMOR OF OIL BOOMS

In a recent review of the oil fields of the world, more particularly of the United States, Mexico and Central America, their production to date and their possible reserves upon which all countries are dependent, Mr. Mark Requa, of California, acknowledged to be an international authority, declared that had it not been for the discovery of fluid oils in Pennsylvania, Ohio and elsewhere the oil containing shales known to exist would have been requisitioned. Scotland, Mr. Requa asserted, had pointed the way to utilize its oil shales. The "Scotch process" of distillation had made oil shales economically profitable, but the broader application of that method of extracting oils, gasoline and kindred by products was nipped in the bud when the contemporaries of the Rocketeers, Flagler, the Paynes and others gave the United States its first oil "boom."

There is a glamor about "booms" and "rushes" to precious metal fields. "Stampede" have signalized discoveries of precious stones. All such exciting adventures, however are dwarfed by oil "booms," where "the gamble" proceeds without "limp" and the element of chance, combined with enough capital to "start something," makes millionaires overnight, or convinces the embryonic magnate that a "duster" may develop alongside of a "gusher." The latter represents wealth without continuous effort, unless the "flush" production peters out. With oil shales, while their potential wealth awaits adequate capital, the business of mastering their economic contents was monopolized by the Scottish corporation until Mr. Matthew Lodge, of Moncton, N. B., celebrated the termination of a quarter of a century or so of unremitting investigation and effort by interesting the Imperial Government and British capital in the Canadian shales with which his name will remain indelibly associated. In the work of establishing these New Brunswick oil shales as the greatest of their kind, and the richest, Mr. Lodge has travelled all over the world, and has expended many years and considerable money on personal account and in behalf of intimate friends who have confidence in him. Whenever there is an oil field or an oil shale occurrence, he has compressed his lips and squared his shoulders in the presence of the experts and statisticians. His general fund of information is unsurpassed by geologists and "sharps" of international repute, and it is because of these that his constructive optimism has recently borne fruit both in the southwestern states and in New Brunswick. Mr. Lodge is encyclopedic. Familiar with the outstanding features of the oil shales of Utah, Colorado, Wyoming, and other states; conversant with "structures" of every locality where oil is being found or where geologists expect to find it during the past year he has directed drilling operations in Oklahoma and Kansas, and his record is that out of eight wells drilled he has only so far "struck" one duster. This is exceptional, and fortunate Montreal, Nova Scotia and New Brunswick associates freely attest this.

"What these shales represent in dollars and cents I will leave to the statisticians. For the information of Canadians, I might say that Dr. C. S. Lomax, of New York, discussing a plant with a daily capacity of 1,500 long tons (3,240 lbs.), equal to 442,500 tons per annum, offered a possible production of 32.7 imperial gallons per ton of shale, or 15,000,000 imperial gallons per annum; also a production of 65 pounds of sulphate of ammonia per ton of shale, equal to 13,657 tons of 2,000 pounds per annum. The 15,000,000 imperial gallons of gasoline, 7,981,500 imperial gallons of illuminating oil, 2,856,000 imperial gallons of lubricating oil; 1,710,000 imperial gallons of fuel oil, 6,120,000 pounds of paraffin wax, 1,330 tons of coke, and 13,587 tons of sulphate of ammonia.

SCRUBBING THE GAS

"Moreover, the quantity of crude oil and sulphate of ammonia in these estimates is based upon the lowest results obtained from Sir Beverton Redwood's analysis of the same for the Imperial Government. In addition to those recoveries, a further gasoline content is extractable from the gas which is carried over in the distillation of the shales. This latter extraction is done by scrubbing the gas with heavy oil, by what is known as the absorption process. The resultant extra production of gasoline is about 3 gallons per ton of shale, which, on the tonnage estimated by Dr. Lomax for a 1,500-ton plant, would be about 1,600,000 gallons per annum. These are the figures of disinterested experts."

"It has taken tedious years to enlist capital in these deposits. They were discouraging years. I never weakened in my belief that our shales would be recognized for their pre-eminence. In 1914 the Imperial Government finally directed Sir Beverton Redwood to report upon the shale deposits owned by the New Brunswick Shales, Limited, situated in Westmorland and Albert counties. Preliminary work was done by Dr. Marshall Hall, and a further large commercial shipment was made to England. This was retorted and distilled under the direction and supervision of Sir Beverton Redwood, with the result that we had thirty-three gallons of oil and sixty pounds of sulphate of ammonia. This commercial sample was taken from what is known as Steeve's Mountain, and the mountain side was stripped for twenty-five hundred feet, good and bad shale being taken to ascertain an average and to definitely determine the possibility of mining the whole by steam shovel. It was in this way that the average of one section of the property owned by New Brunswick Shales, Ltd., was approximately proved.

150,000,000 TONS OF SHALE

"How all important are these New Brunswick oil shales may be approximately estimated when it is understood that Dr. Marshall Hall placed the tonnage of this one section of the shales at 150,000,000 tons. The company owning these shales owns one hundred and ninety-two square miles and in recent years has proved its property in Westmorland and Albert counties by core drilling to a depth of 1,500 feet. Some fifty drillings were made at different sections, and they disclosed millions of tons that obviously could not be estimated from surface workings. These New Brunswick shales are the only ones tested for quantity and quality on the American continent. Without a doubt this has the largest and richest deposit in the world.

A PERSISTENT CHAMPION

Of the New Brunswick oil shales, Mr. Lodge is a consistent and persistent champion. Speaking of these, he is assured that they will attain to their long-deferred destiny as an important source of gasoline, illuminating oil, lubricating oil, fuel oil, paraffin wax and ammonia.

"Occasionally," he said, "there is a brief reference to our New Brunswick shales, whereas the American periodicals and newspapers devote much space to the shales of the state. It is not understood that some years ago Professor N. S. Shaler, of Harvard University, made the statement that the bituminous shale deposits of New Brunswick are the largest in the known world. Since that time we have demonstrated that his statement was correct not only regarding the quantity, but as to the quality. Distillation of full samples of these New Brunswick shales, made in Scotland under the direction of Dr. R. M. Ellis, of the Canadian Geological Survey, and Dr. Charles Baskerville, of the College of the City of New York, proved conclusively that the value of the shales in oil was forty-five gallons to the ton, and that the sulphate of ammonia content was seventy-seven pounds. These results were obtained from an average fifty-ton sample taken from the outcroppings at Rosevale, Baltimore, Albert County, New Brunswick.

It has been a long drawn-out campaign, whose end Mr. Lodge hopes is in sight. Very few Canadians are aware that New Brunswick has been producing natural gas commercially for the last twelve years through the initiative of Mr. Lodge. The City of Moncton has been lighted, heated and powered by natural gas from the Albert county wells. This gas has the greatest calorific power of any gas on the American Continent, and the paying quality of New Brunswick's gas sands is incomparable. To this fact is attributable the growth in the last few years of the city of Moncton. Besides, the quantity is keeping pace with the requirements of that city. The New Brunswick gas and oil fields are also producing considerable high grade oil. At present the Anglo-Peruvian Oil Company, in which the Imperial Government is interested, is working under an option from the parent company, the New Brunswick Gas & Oil Fields, Ltd., and is testing a large area to the north of Moncton for oil and gas. Mr. Lodge, therefore, has no doubts as to the verification of predictions made by Dr. Oliphant and Steery Hunt, that New Brunswick easily will become one of the most lucrative fields on the American Continent, notwithstanding the deposits are so close to the front door that speculators and Canadian capitalists did not have the romantic perspective pertaining to remote areas "at the end of the rainbow."

USE
BEAVER FLOUR
and Improve Your Bakings

BEAVER FLOUR contains all the richness and goodness of Ontario Winter Wheat combined with enough Western Hard Wheat to give it strength.

It is the only scientifically blended flour on the market—and can be relied on to give the best baking results every time. Ask for it at your grocer's.

A Series of Talks On Music

By Pro. C. C. Laugher, Mus. Bac. Sarnia, Ont.

MUSICAL IMPRESSIONS

A vocalist writes to a music editor wanting to know how long it is possible for a man to hold a note. The editor replies, we have one that we have held for six years and rather expect to hold it six years longer. It would be quite difficult to hold a musical note that long, particularly if playing on a bass instrument.

We are told that an English physician advises the playing of wind instrument, as a recent investigation has brought this summing up: That cornetist's life is 64 years, and because fustists do not require the full exercise of their lungs in the full career that to play some wind instruments lengthens life, for the steady and moderate use of the lungs somewhat in excess of breathing is the cause.

We sometimes pause in considering the drum as a musical instrument and we step up to the drummer and say to him (after the band had stopped playing), you don't make very good music with that instrument. No, admitted the founder of the drum, I know I don't, but I drown a heap of bad music.

The Scotch have a proverb: "Where McGregor sits, there is the

No Politics Mixed Up With C. N. Ry's

Toronto, Oct. 19.—There is no politics mixed up with the Canadian National Railways in any shape or form, and we have had no interference from any minister of the crown at any time," said R. C. Vaughan, assistant to the president of the C. N. R. today, in answer to reported allegations of Wm. Varley, general organizer of the American Federation of Labor, that men had been hired in New Brunswick for election purposes. "There is absolutely nothing in it," Mr. Vaughan asserted.

Many Lose Jobs 'In Moncton City

Moncton, Oct. 19.—Many who have been in the employ of the T. Eaton Company are seeking new jobs. This large establishment has been dropping many of its employees of late because of a falling off in general business, and in keeping with the line of retrenchment being followed by many large business houses, employees are being let go each week, a total of 300 reported as having been cast adrift one week recently.

F. B. McCurdy Co's Business Has Changed Hands

Montreal, Oct. 19.—It was announced today that Johnston and Ward have acquired the business of F. B. McCurdy and Company, which was founded by Mr. McCurdy in 1901 and was subsequently extended until it became one of the leading firms of houses of Canada, with branches at Montreal, Halifax, Sydney, Moncton, St. John, Sherbrooke and St. John's Nfld. The purchasers of the business are Johnston and Ward. Captain Stanley Johnston, M. C., late of the Canadian Machine Gun Corps, has associated with him in the new firm, R. H. Metzler, Fred. Bowser and K. R. Schofield, all of whom have been actively connected with the firm of F. B. McCurdy and Company for many years.

Johnston and Ward will continue business along the lines of the firm of F. B. McCurdy and Company, as a commission house.

SINCE 1870

SHILOH

30 YEARS OF COUGHS

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

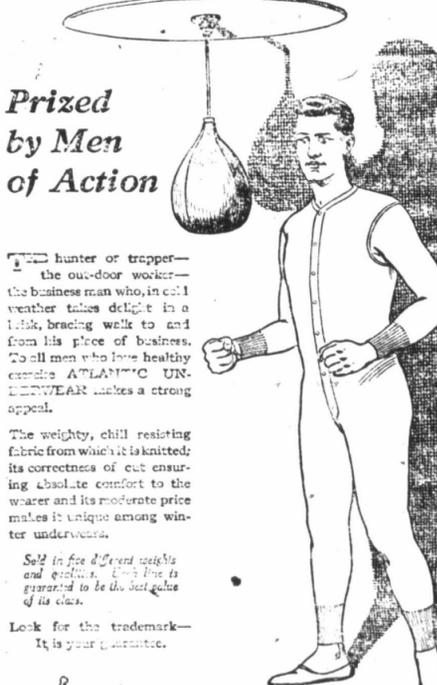

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapors, which are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

Professor C. C. Laugher Mus. Bac.

head of the table." This brings us to an incident in Sarah Bernhardt's career when touring the U. S. A. Her manager failed to secure a proper theatre for her in a certain Texas city in which she had promised to appear. With great reluctance and expecting a contemptuous refusal, he suggested that he might secure a circus tent, but supposed that she would only act in a first-class theatre. "Go ahead," said she, "wherever Sarah Bernhardt acts it is a first-class theatre."

Speaking of singing, we realize that the singer's essentials are voice, ear and musical intellect. The voice must pre-exist, it cannot be created, but its errors can be corrected. Mere bigness of voice makes no musical appeal. History gives us that the record for a big voice belongs to Stentor a herald of the Greeks in the Trojan war, whose voice is said to be as loud as that of fifty men shouting together. A bass singer, whose name is Cheron, of the Paris opera, who lived toward the end of the eighteenth century, who in early life had been a blacksmith, is said that by his blowing into a drinking glass could crack it, and by singing into it in his mighty upper "D" could burst it. The biggest and noblest voice that this twentieth century has listened to was Edouard de Reszke's.

The musician of today is usually exceedingly versatile in their activities, but in former times it was only too common for them to be confined to an absurdly narrow and one-sided outlook on life, and to take little interest in anything outside of their own particular specialty.

An amusing example of this was with Poppo, an eccentric violinist at one time a fashionable teacher in Paris and London. Living in Paris at the time of the revolution, although perfectly inoffensive, he was denounced as a suspect and brought before the tribunal for trial. The following dialogue took place between him and the president of the tribunal: "What is your name? Poppo, he answered. What do you do? I play violin. What were your activities during the reign of the tyrant? I played the violin. And if the republic have need of you what will you do? I will play the violin. Poppo was acquitted.

The impression or influence that musicians leave behind them is little realized by themselves and we certainly do not know to what extent of trouble, difficulty or short comings some of these musicians worked under. Think of the beautiful music of Greg, much of it written while he had the use of one lung only. Schubert, whose artistic career lasted but seven years, and the most admirably good of all musicians, yet he is regarded as the greatest song writer producing the most beautiful melodic passages.

Considers Oil Strike of Great Value in Time

Toronto, Oct. 13.—We consider this an important strike, and essentially of much value says President C. O. Stillman, of the Imperial Oil Company, Limited, in a statement made public tonight referring to the oil strike near Fort Norman on the Mackenzie River.

"From a commercial point of view, however, it is not of immediate value and it will probably be years before it can be made available in quantities for the use of the Canadian market."

It will be necessary to demonstrate by actual drilling, and production, says President Stillman, "that there is sufficient quantity of oil to justify laying a pipe line, which in itself, would probably cost fifty million dollars."

The point where oil has been struck President Stillman points out is nine hundred miles from the nearest calling point of a river boat; 1,200 miles from the nearest railroad and 1,500 miles north of Edmonton the nearest city. The only means of access to the location at the present time is down the north rivers, which will only float boats of four or five foot draught and several rapids necessitate the unloading and transporting of cargoes overland and re-loading on barges. This precludes bringing oil up the river in any quantities until adequate transportation facilities are provided.

Brandram's Genuine B-B White Lead

IT POSSESSED UNUSUAL QUALITY —THAT'S WHY IT HAS SURVIVED

As far back as 1729 this was the standard white lead in England—and when Canada was colonized by Englishmen, they brought with them this favorite brand. And so, their descendants, have been using it, in preference to all other kinds, ever since. It is made today by that same paint house which obtained the formula from the descendants of that Brandram who first discovered the process. The process is the same as that used in the 18th century—and it is interesting to note that this is the only patented process of white lead manufacture that dates back to so early a period.

It is unrivalled for covering capacity and durability—the finest, whitest pigment you can use, either for white paint or as a white base for tinted paints. This is the white lead used in B-H "English" Paint and other B-H products.

CONDITIONS IN EUROPE

Peace seems as far off as ever in the Russo-Polish fighting area. The Poles are still advancing along the whole line north of the Pripiet. They have taken the important city of Gradno and are pursuing the fleeing Lithuanians east of that point.

Rich, Red Blood The Greatest Need

Nearly all Ills are Due to Poor, Watery Blood--How to Improve Its Conditions

To be in a healthy condition the human body requires a constant supply of new, rich blood. Nearly all the ill from which people suffer arise from one cause--poverty of the blood.

Headaches and backaches, loss of appetite, poor digestion, nervousness, pimples and unsightly blotches on the skin, all indicate that the blood has become impure--that it is not doing its appointed work.

Fraser Pulp Co To Issue Stocks For Ten Million

Fredericton, Oct. 21--Consummation of the transfer of the New Brunswick Railway Company's extensive timber limits, amounting to approximately 1,500,000 acres, to the Fraser Companies, Limited, is now in course of completion at Montreal, it is reported here.

About \$10,000,000 The amount involved in the transaction is said to be between \$11,000,000 and \$12,000,000, and it is learned that there is soon to be a flotation of \$10,000,000.

A gift of \$40,000 has been made to the Redpath Library of McGill University by R. Blackner, Pasadena, Calif. The sum will be used for the purchase and endowment of a research library of zoology.

MacSwiney Died Monday Morning

London, Oct. 25--Terence MacSwiney, Lord Mayor of Cork, died at Brixton prison, this city, at five forty o'clock this morning.

His death followed a hunger strike of more than 73 days, eclipsing any in the annals of the medical world. MacSwiney, who had been unconscious for several days, did not recover his faculties.

John MacSwiney and the chaplain, who had been waiting down stairs in the prison, were told by prison officials at four thirty five o'clock that they should go to the mayor's bedside as they thought death was approaching.

After the prisoner's death his brother and the chaplain say they were not permitted to leave Brixton prison until six fifteen o'clock. John MacSwiney immediately conveyed word to the widow of the Lord Mayor, who was staying at a west end hotel with Mr. and Mrs. O'Brien.

CRISPS

There is no tyranny of the heart. There is a strain of latent ferocity in every emotionalist. When Liberty rests on reason all is safe; when on emotion there is endless turmoil.

Democracy is secure so long as its members recognize the right of its intelligent members to govern and control.

It is easy to reform the world; but hard to begin with oneself. Idealism without a breakfast may be absurd; but materialism without a soul is tragic.

The aristocrat is of Nature's own creation; caste is the work of man's hands. Epictetus was a slave; Marcus Aurelius was born in a palace; yet both were true aristocrats.

When the classics are studied once more, not because they are old, but because they are superlatively beautiful and full of the wisdom born of experience, the reign of the crank in education will cease.

We have standardized education now for a decade, and the net result is bad English, bad manners, and bad sense.

During periods of cloud-burst, when rivers are engorged with silt and overflow their banks, chips, straws, and debris of all kinds float on the surface. It is the same with the human as with the natural river.

When the roily waters of anarchy subside, these mad theories that now float on the surface will pass out to sea, and we shall be able to go ahead in safety and avoid the shoals, because the waters will be clear, as of old.

HIS IDEA

"You can't get an intoxicating drink except with a doctor's prescription," remarked Mrs. Corn tassel.

"Yes," replied her husband. "I was jes thinkin' of writin' to our boy Josh, tellin' him to drop law an' study medicine."

IRONY OF FATE

"Speakin' of the irony of fate," began Uncle Bill Bottletop.

"What do you know about it?" "Quite some. This is the first Spring that my little mint patch has looked like it was really goin' to amount to something."

IN THE OLD DAYS

"How did you come to be lying there in the gutter?" demanded the policeman severely.

"It's all right," replied the inebriated one. "I jus' happened to walk between two lamp-posts and leaned against the wrong one."

ONE ATTRACTION

An irritable dyspeptic was advised by his physician to take up golf to improve his health, and went to purchase an outfit.

"I suppose I've got to play the game because it's doctor's orders."

A FRIEND IN NEED

"Hear about Bill Bottletop? He's got a case of lumbago at his house."

"I guess I'd better run over and help him drink it up."

CAREFUL

"Do you care for Browning?" asked the poetical dandy of his conspicuously dressed companion.

"Not beyond please," whispered the woman. "My husband has an awfully jealous disposition."

SUGAR FOR A SUPERANNATED SYLPH

"Miss Miss, when I think that I have a sugar just lovely."

"Sweet-Why so?" "Maude, He wrote opposite her name on the hotel register, 'Sugar'."

BLANKETS A first complete showing of Heavy Blankets in both white and grey. The prices are lower than you paid for some time. 1 0-4 White & Grey Cotton Blankets 2.98 pair 1 1-4 White & Grey Cotton Blankets 3.49 "

British Columbia Goes Wet by Large Majority

Vancouver, B. C., Oct. 20--British Columbia today voted overwhelmingly in favor of Government control of the sale of liquor. At this hour (11 o'clock) with returns from many parts of the province indicating that the present prohibition act has been defeated in cities, towns and villages the majority in favor of Government control totals approximately 15,000.

The heaviest vote in the history of the province was recorded and more women than men were numbered in the voters list. Victory of the moderate party will mean a generous system of Government sale. The exact details of the scheme under Government control have not yet been worked out.

Teacher Killed In Auto Accident

Miss Alice McLeod, aged eighteen, school teacher on Fredericton Road, parish of Salisbury, is dead. Dalbert Wilson and his sister, Miss Annie Wilson, are seriously injured as the result of an automobile accident which occurred between 9 and 10 o'clock Saturday night on the Fredericton Road, near Salisbury village.

The accident was caused by the Ford motor, which was driven by Dalbert Wilson, striking a stone while traveling at a moderate rate of speed and turning turtle. As the car struck a stone it swerved and the driver attempted to right it at the same time applying the brakes with the result that the automobile turned completely over and landed right side up on its wheels straddle of the ditch.

PROHIBITION MATTERS

On Saturday evening Oct. 16th, Inspectors James and Adam Dickson drove to Eel ground and destroyed a large quantity of strong beer, which when analyzed was found to have 9.90 Prof. Spirits.

On Thursday, Oct. 14th, Inspector H. Saunders seized six cases of liquor. The party to whom the liquor was addressed sent an order for it but it was refused. He afterwards came for it himself, but when questioned by the Inspectors said that he had not sent for it, but that his brother had ordered it.

In consequence the Inspectors took charge of it. On Monday, Oct. 18th, Inspector Gammon, of Bathurst, went to Petit Roche and seized six cases of gin which had arrived there at

Beaverbrook On Conditions In America

London, Oct. 22--Lord Beaverbrook, who has just returned from an extensive tour in Canada and America, discussed some of his impressions with the "All Mall Gazette" representative. Canada, he declared, is abounding in prosperity and has had the biggest crop in history--a bumper crop. It was described on all hands, and as a consequence, wheat prices are falling. The outlook is most promising in every way.

As to the United States, the stabilization of prices, he says, is coming rapidly. There is a tremendous drop in sugar prices and a marked decline in the great American cereal crop, in Indian corn. The bottom is out of the motor-car market, and there is a slump that must have important results.

Lord Beaverbrook's investigations into the supply and prospects of newsprint, that all-important essential to the production of newspapers, show that the Canadian manufacturing capacity has considerably increased, and further extensions are being carried out to the already greatly developed mills.

As to prices, Lord Beaverbrook is convinced that they are bound to be reduced in the near future.

Decrease In Lumber Cut

The lumber business of the Miramichi and other shipping ports in New Brunswick is still suffering from the effects of the war, and is a long way from getting back into its old groove. Practically all the lumber wharves (with the exception of the one devastated by fire are piled to their full capacity with lumber, and the manufacturers have to haul their cut long distances to get piling room.

The outlook for 1921 is not at all bright. There are large quantities of British Government stock (bought for war purposes) still here, and this is having a paralyzing effect on the British market. This, combined with the low rate of exchange, is making United Kingdom business deadly dull, and the increased rail freight to the United States is having a corresponding effect on the American market.

Several of the millmen have not sold their product for the last two years, whilst others have not sold their 1919 cut, and those who did say count themselves lucky. Ocean freights have eased a little, but the low rate of exchange makes business impossible.

It looks as if the high prices ruling the past few years have caused a heavy overproduction, and the only thing that will help to adjust matters will be a greatly curtailed output in 1921. This and this alone will put the lumber business on firmer ground.

Several of the millmen have not sold their product for the last two years, whilst others have not sold their 1919 cut, and those who did say count themselves lucky. Ocean freights have eased a little, but the low rate of exchange makes business impossible.

It looks as if the high prices ruling the past few years have caused a heavy overproduction, and the only thing that will help to adjust matters will be a greatly curtailed output in 1921.

NEW RAIL SERVICE TO PACIFIC COAST

Canadian National Railways Inaugurate New Fast Daily Service Between Montreal and Vancouver—Luxurious Trains in Operation.

From all points in the Maritime Provinces there is the finest through rail service to the Pacific Coast, via Canadian National Railways.

All that travel comfort can suggest, convey, or devise, is here for the traveller. The most modern of steel equipment—first class coaches, standard sleepers, tourist cars and luxurious compartment cars, are on the through trains between Montreal and Vancouver. The excellence of the connecting train from Eastern points, the "Ocean Limited," is known to all travellers. The new service from coast to coast is the best that any railway offers anywhere.

The Ocean Limited leaving Newcastle at 4.45 p. m. daily, arrives in Montreal at 9.20 a. m. the day following. Connection is made with the splendid train operating under Canadian National and Grand Trunk management, leaving Bonaventure station at 5.00 p. m. This train, with its equipment of compartment cars, standard sleepers, standard diner, tourist and colonist cars, arrives at Ottawa at 8.00 p. m. and leaving at 8.20 p. m., is at North Bay early the following morning. Port Arthur and Fort William are reached the morning of the day following and Winnipeg that evening. Leaving Winnipeg at 9.40 p. m., the journey to the coast is continued via Saskatoon, Edmonton, Jasper, Mount Robson and New Westminster and the train arrives at Vancouver at 9.00 a. m. the third day after leaving.

Leaving Halifax on Monday morning for instance the traveller arrives in Vancouver on Sunday morning, just six days and a night of travelling under the finest of travelling conditions. Particulars of this new through service can be now supplied by all Canadian National Railway ticket agents. Rates can be quoted and reservations made. It is a new era in Transcontinental travel that is but the beginning of a greater railway development under the Canadian National system.

43-4

Big Merger Is in Sight

Montreal, Oct. 26.—Rumors have been current in financial circles for some time that there is in sight one of the biggest combinations of lumber, pulp and paper interests that has yet been effected in Canada. It is now said that the amalgamation is near and that it will link up several of the largest existing maritime pulp concerns with the most extensive tract of timber lands in the country. This would mean a development of the first magnitude in the industry, as the combination would be one of the largest in Canada in lumber and

pulp production and in its control of vast resources of raw materials. It is said in financial circles that a definite announcement may be expected shortly. If the amalgamation goes through along the lines of street report, the project will result in the creation of a combination that will be rivaled only by Price Brothers, Booth and Ricdon in lumber and pulp production and control of vast resources of raw materials.

Hon. E. A. Smith Chairman Water Power Commission

Fredericton, Oct. 26.—Hon. W. E. Foster, Premier of New Brunswick, announced here this evening at the close of the afternoon session of the Provincial Government, that an appointment to the chairmanship of the Water Power Commission of New Brunswick made vacant by the retirement of Hon. C. W. Robinson upon his appointment as Minister of Lands and Mines, had been made the appointee being Hon. E. A. Smith, of Shediac. The appointment of the member of the commission necessary to fill the vacancy caused by the resignation of Reid McManus, M. P., remains in abeyance for the present according to the statement of the premier.

The Water Power Commission is proceeding with development on the Musquash River in the County of St. John. Premier Foster also announced that Hon. L. A. Dugal, of Edmundston, had severed his connection with the Government on his retirement from politics. Hon. Mr. Dugal had been a member of the Government without portfolio since the formation of the Foster Government. He bade farewell to executive duties as far as the province is concerned this afternoon and left tonight for his home in Edmundston.

Baby's Own Tablets Always in the Home

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given me the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

OLD LITERATURE
"You seem very well pleased on the subject, don't you?"
"Yes, been going to the doctor lately. To kill time I read the magazine he had piled up."

PERSONALS.

Mr. William Richards, the popular Opera House Manager, who spent the past three months at his old home in England, returned Saturday on the Ocean Limited. His health is much improved and his many friends are glad to again see him.

WEDDINGS

GAY—DONOVAN
A pretty wedding took place in St. Mary's Church, at 8 o'clock Wednesday morning, when Miss May eldest daughter of Charles and the late Mrs. Mary Donovan and Harvey Elmer Gay only son of Mr. B. H. Gay and the Mrs. Gay, of Moncton, were united in marriage with nuptial vows celebrated by Rev. P. W. Dixon. The bride was attired in a navy blue suit of silvertone with hat to match and opium fur. She was attended by Mrs. Louis Cormier and the groom was supported by Mr. Charles Donovan, Jr., brother of the bride. The groom's gift to the bride was a sunburst of pearls, to the bridesmaid a gold pendant set with pearls and to the groomsmen, a cameo stick pin. Many presents were received among which was a cabinet of silver from the employees of Dent, 52, T. Eaton Co., where the bride was employed as bookkeeper for the past eight months. Owing to a recent death in the bride's family, the wedding was very quiet. The bridal pair left on Thursday's Maritime for a honeymoon trip to P. E. I. and American cities.

McLEAN—DAY
A quiet wedding was solemnized at St. Paul's manse, Fredericton, Wednesday evening, when Rev. J. S. Sutherland united in marriage Miss Flossie Day, daughter of John Day, of Fredericton, and James F. McLean, son of Frank McLean, of Bartibogue Bridge. The bride was dressed in a becoming suit of navy blue with hat to match. She was attended by Mrs. Mullen, of Fredericton; the groom was supported by Wilbert McDonald. The happy pair left on a honeymoon trip to points in the maritime provinces and on their return will reside in Bathurst, where the groom holds a position with the Bathurst Lumber Company.

OBITUARY

MISS SOPHIA ANDERSON PRICE.
Miss Sophia Anderson Price passed away on Thursday, Oct. 21st, after a long illness. She was the daughter of Mr. and Mrs. Jacob Price, of Millerton, and leaves besides her parents, four brothers and two sisters to mourn her loss. The sisters are Misses Martha and Annie, the brothers Henry, John, Edward and Jacob. Miss Price was only twenty-one years of age, of a sweet and quiet disposition, and her early death is regretted by all who knew her. The funeral took place on Saturday afternoon at half past two. Interment in the Methodist Cemetery at Millerton.

MRS. SARAH TOUCHIE
The death of Mrs. Sarah Touchie occurred at the home of her daughter Mrs. A. Hunt in Rumford Maine on October 3rd. Deceased was 86 years of age and was the widow of the late D. W. Touchie. She leaves to mourn three sons and three daughters. The sons are William of Newcastle, Watson, of Loggieville and Melvin of Boston. Deceased has lived in Maine for the past 28 years, and was formerly Miss Sarah McKinnon of Richibucto. A large circle of friends mourn her death.

MRS. S. L. T. HARRISON
The death of Mrs. S. L. T. Harrison, of Moncton, occurred on Saturday Oct. 16th at St. John. She deceased had been ill for several months past, during which time she had been gradually growing weaker and for the past two weeks sank rapidly. Mrs. Harrison was pre-deceased by her husband, Mr. Samuel Leonard Tilley Harrison by about three years it will be remembered Mr. Harrison lost his life overseas. Mrs. Harrison was a native of Digby, N. S. and leaves to mourn one son, Mr. Paul Bragg, and one daughter, Miss Elizabeth. The funeral took place in Digby on Tuesday.

DIED
At the residence of Mr. J. E. Phinney, Pentecost, B. C. Oct. 21st 1920, Annie Betts, widow of the late Harvey Phinney, formerly of Sackville, N. B. Aged 81 years.

"The Official Taster"

A Main deputy sheriff a few years ago was the extremely innocent victim of a little practical joke. A well known mill man, with whom he was acquainted, came up to him one day reading a letter he purported to have received from the sheriff of the county, stating that the deputy sheriff should thereafter turn over to him: the mill man, as "official taster" all the intoxicating liquors the deputy might succeed in capturing. Faithful to the contents of this supposed letter, the deputy sheriff for some months did actually turn over all the confiscated strong drink to the mill man, who presumably made good use of it. Some time afterwards, however, the sheriff of the county happened to ask the deputy what he was doing with the liquor which he had been capturing if any. "Why," said the innocent deputy, "I have been turning all those captured over to

OF INTEREST TO WOMEN

This is a Short Letter, But It Proves the Reliability of Lydia E. Pinkham's Vegetable Compound.

Bothwell, Ont.—"I was weak and run down, had no appetite and was nervous. The nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I recommend your medicine to my friends, and you may use my testimonial."—Mrs. W. J. Brady, R. R. 2, Bothwell, Ont.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and as it contains no narcotics or harmful drugs it is a safe medicine for women.

If you want special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

Man O' War to Race No More

Philadelphia, Oct. 19.—The great Man o' War will race no more. Samuel D. Riddle so announced yesterday and said that not even his closest friends would be allowed to see the horse until the animal has had a chance to pull himself together and rest after his victory over Sir Barton and the long ride from Canada. Furthermore, Mr. Riddle wired to J. O. Keene, Kentucky sportsman, refusing another race for a 50,000 purse. "You may state positively that the horse will remain in strict seclusion," said Mr. Riddle. "This is flat and final and even my dearest friends will not be allowed to see him, so any persons who may go to the trouble or inconvenience to try to see the horse are wasting their time. This was positively his last race. He will not race again."

CURRENCY DEPRECIATION

What is needed is to put value behind the dollar. At present fifty cents is masquerading as a dollar, and we are all being fooled—the working-man and the farmer most of all. To hang back and sulk will not help. Thrift will help; cutting out luxuries will help; but hard work will help most of all. If the farmers and working-men would put their backs into their work as never before (and they ought, not only on patriotic but on humanitarian grounds) the value of their dollars would immediately rise, and, having regard to the world shortage in everything, in a much greater ratio than wages and prices would fall. Their wages and cash returns would not be as great as they are now, but they would purchase more of the things they desire and need. When commodities increase, the dollar automatically rises in purchasing power. The boot, in fact, is on the other foot when this takes place. The holders now bid for the purchaser's custom.

Abnormally high wages and an actual shortage of commodities means that those on fixed salaries or with fixed incomes virtually starve. A new proletariat is created—the so-called poor-rich; and, we may add, the cultured-poor. And, at best, those who receive the high wages but break even, for as wages rise prices rise. The farmer, because of his light taxes and frugal way of living, comes out at the big end of the horn. But he is mistaken if he thinks that to loaf and let his fields lie fallow will in the end help him; and that by doing so he will maintain high prices in produce. Nothing deteriorates so rapidly as an untilled farm. A farm is capital, and to neglect it is fatal. Capital is not capital unless it works. The farmer is driven by the very nature of things to get out of the land all the land will yield. He would be a fool not to do so. More than once potatoes have been shipped from Ireland and Denmark to New York, attracted by

MAGIC BAKING POWDER
Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

fancy prices. Let him go out of wheat in Ontario and the wheat of the North-West will come to Ontario, and be sold just as cheaply, because the price of wheat is fixed in Mark Lane. No one in Ontario will be any the worse off; but he will lose his profit on the wheat. Let him go exclusively into cattle or hogs, and the Argentine, with its vast estancia, will quickly enough show him that it can beat him at the game of export. Those farmers who talk of slackening production with the idea that by doing so they will boost prices, talk like mad-men. No class that is up against the competition of the entire world can afford to slacken its efforts. Surely a farm is precisely like any other business. A neglected business, or a business run at half capacity, speedily lands its owner in bankruptcy. And precisely in the same way, and for the same reason, a farm that is only half-cultivated rapidly loses in value.

The truth is that what is needed is a revival of the sense of moral obligation among all classes. There is a divine curse on selfishness. The man who does not profoundly feel a sense of obligation to the whole human family at this dread pass of affairs has the heart of a devil. Here is a chance for our universities and our churches to demonstrate their usefulness. The cardinal sin to-day is the most disgusting class selfishness. If persisted in it will destroy trade-unionism throughout the world, and may destroy all ordered government. Shorter hours have not led to increased output per unit-hour. Less is being produced per hour of labor with shorter hours, and, in some cases, threefold the wages, than under the old dispensation, and the working-man's sense of obligation towards society has practically vanished. There must be a revival of the great truth that the whole race is in each one of us, and that the central loyalty must be, not the prosperity and power of a group, but the well-being of the human family. We are all in it together. Let us act together for the good of all which is the good of each.

What Every Automoblist Knows

That the people with him on the trip are going to let him pay for the meals.
That if he acquires a punctured tire nobody but himself is going to fix it.
That the people with him will tell of perfectly lovely trips they have had in expensive cars and how easy they ride.
That the most nervous lady in the party will insist upon sitting in the front seat with him to call his attention to obstacles in the road.
That the squeals and rattles in the car will be mentioned first by the guests, and somebody will say, "That's always the way it is with these cheap cars."
That he will be allowed to carry the baskets to the picnicking place and go two miles for the water.
That nobody will make a motion toward the pocketbook when he has to stop at a filling station for gasoline.

REPUTATION
First Gossip—Don't tell a soul, but I saw a whole barrel of whiskey delivered to the Topleys this afternoon in broad daylight.
Second Gossip—How'd you know it was whiskey?
First Gossip—Why, Topley himself helped the delivery man handle it with care.

PROMPT RELIEF

after meals, dissolved in the tongue, by your stomach, by Ki-Moids—the new aid to digestion.

MADE BY SCOTT & BOWNE
HARRIS OF SCOTT'S EMULSION

A RED CROSS BRIDGE

Food Plentiful in Canada. Scarce in Europe—Needs of the Children.

The development of the dairy industry of Canada during the past two decades has been surprisingly rapid. Quick to realize the profits to be derived from milk production and the great value of dairying in conserving the fertility of the soil, the Canadian farmer has not hesitated to increase his investments in dairy cattle. The industry expanded during the five years of world war. Canada, being distant from the theatres of war, although handicapped by the drafting into military service of half a million of her most vigorous manhood, was able to continue the development of many of her important industries, particularly agriculture. It was not so in Europe. There the fiery blast of war, which left profits in some parts of the world, almost extinguished not only industry but national life itself in other. The drain upon man and food was so great that now in hundreds of thousands of families no adult males remain. Europe moreover is filled with orphan children whose prospect of life is marred by the lack of all that is necessary to bodily and mental growth. In most cases the earning power and consequently the purchasing power of their families is utterly destroyed.

Turning again to Canada we find there a surplus production of the commodities that are so badly needed in Europe. Condensed milk for instance is a commodity that is a prime necessity for the children of the poor communities of Europe but the nations to which they belong have no means of purchasing it for them. The Canadian Red Cross is going to endeavor to supply part of their needs by means of a general appeal for contributions to be made during Armistice week on behalf of the British Empire Fund, which is to be used in the humane task of relieving the sufferings of millions who are stricken by famine and disease. Part of the fund will be used for purchasing in Canada suitable supplies and thus the Red Cross will furnish the bridge across which some of our surplus milk will reach the enfeebled children in war-stricken areas. Those who assist will not only have the satisfaction of having contributed to relieve the sufferings of others less fortunate but by helping others will thereby indirectly help themselves.

FROM GENEVA.

Organizer for League of Red Cross Societies Tells of Need of Europe's Orphans.

"While we at home are intent on industrial expansion and a place in the sun, Europe in its war-weakened condition is fighting for its very existence," said Donald W. Brown, director of the department of organization in the League of Red Cross Societies of the World, which has its headquarters in Geneva, Switzerland. He visited Toronto to learn the needs of the Canadian Red Cross Society and to establish closer contact between it and the league.

Millions of War Orphans. Having just arrived from Europe, Mr. Brown was able to give the Canadian Red Cross some first hand information concerning the people of Europe. He called attention particularly to the condition of the children, so many of whom are now orphans. While the exact number who have lost one or both parents during the war cannot be determined, the most conservative estimate places the number at over ten millions. This number seems quite consistent with the heavy war casualties among so many nations.

Dependent Upon Charity.

The condition of these children is in most cases very pitiable. Many of them have no homes and they are dependent upon whoever may be charitable and kind enough to help them. But there are few who are able to give such help for the mass of the people of Russia, Poland, parts of Roumania, Czecho-Slovakia and other countries are so poor that they have not necessities for themselves. Consequently in the great area between the Baltic, the Black and the Adriatic Seas, there are millions of children who face the next few years, and particularly the coming winter, without hope of proper care unless outside assistance is given them.

Disease Prevalent.

In addition to the unhappy condition of the children the adult populations are in the direst of misery on account of disease. Suffering has been accentuated by lack of food and clothing, nursing and medical attention, and tuberculosis, smallpox, typhus and dysentery are continuing unchecked. Typhus which has so often proved a scourge and menace to the human race is again prevalent, and unless checked will most likely extend its ravages to an alarming degree.

British Empire Appeal.

For these urgent reasons, Mr. Brown said, the League of Red Cross Societies has made an earnest appeal to the people of the British Empire and he was glad to hear that the cause of the suffering children was being taken up in Canada. He had learned that an appeal on behalf of the British Empire Fund would be made in Canada by the Canadian Red Cross during Armistice week and wished for it every success.

Typhus in Canada.

In its earlier days Canada suffered from the ravages of a disease then known as "spotted fever" but now known generally by the name of typhus. It is a disease that spreads rapidly and is very destructive of human life. In the years 1916-17 it was brought to Canada by immigrants from the east coast of Asia. It is only by taking urgent measures to stamp it out in the country where it is now raging that it can be prevented from extending.

GOVT. IN SESSION WEDNESDAY

FREDERICTON, Oct. 26—The provincial government spent most of the first session of their initial meeting since the general elections this morning conferring with Chief Inspector Wilson.
 All the members of the cabinet, including Hon. J. F. Tweeddale and Hon. Robert Murray, the defeated members, and Hon. L. A. Dugal, who did not offer for re-election, were present. At the conclusion of the meeting Premier Foster was reticent about discussing the subject of their conversation with Mr. Wilson.
 "I would not deny that the government discussed with Mr. Wilson the subject of his resignation as chief inspector," the premier finally admitted. Afterwards it was learned from an authoritative source that what happened was that the subject of Mr. Wilson's resignation, which has been discussed before the New Brunswick Temperance Alliance and in the news papers, but which has never officially come before the government.
 So far as could be learned no definite action was taken by the government and Premier Foster said that Mr. Wilson still remained chief inspector. Before the government meeting opened Premier Foster and enaid Fraser, president of the New Brunswick Temperance Alliance, were closeted for some time.
 Premier Foster said this afternoon that appointments to the portfolios of ministers defeated at the recent elections would not be made at this meeting of the provincial government.
 "There may be some surprises," was Premier Foster's only comment when asked at noon to forecast appointments to the vacancies of the N. B. Hydro-Electric Commission.

Stealing From Cars in Transit

Moncton, Oct. 19—A record of theft from the Canadian National Railways almost parallel to that at Napadogan (N. B.), last winter, stirred railway circles for many months, is contained in the recent developments unearthed at Truro where railway officers have been at work for several weeks.
 It appears that for some time past more or less suspicion has been aroused on account of the mysterious disappearance of goods in transit. Included in the list was a quantity of liquor consigned to parties in Nova Scotia. Immediately H. J. Paige, of Toronto, chief of the railway police, got busy and after some investigation found that numerous railway employees were implicated. Some sixteen employees, including eight operators were suspended from the service. Only one arrest has been made.
PROFESSIONAL PRIDE
 Counsel—After all, my client is only charged with simple theft. Prisoner—Simple! I'd like to see you do it.

THE LABOR SITUATION

This is not to promulgate novel changes, but to sit tight. Government, after all, is nine-tenths administration and one-tenth discussion. There is the ideal and there is the possible. We would all like to gain our end per saltum, but it is simple wisdom to remember the Emersonian axiom that "There is no escape in all the world save by performance." Of infinitely more importance than seeking cheap shortcuts out of our difficulties by hazardous experiments in legislation is the simple recognition of the fact that, if we do not produce to the limit we are all headed for bankruptcy and starvation. High wages have not increased production. The quality also has fallen off. This is the almost universal testimony of business men. It is not impossible in our highly complex civilization for any one group to enjoy prosperity at the expense of all the other groups. Prosperity must be general, or it is a sham. The working man, e. g., can only enrich himself by enriching everybody else. When he strikes, and, in striking, retards production, the available capital of society is reduced by the exact sum which the lost production represents. There is less money in the world than there would have been had he not struck. His wages may be apparently increased, but in the end, he loses and must lose. The increase is entirely fictitious, and in the end it represents a loss.
 Reduce the capital of the world by any means whatever, and, since labor depends on capital, there will be fewer hands employed, because there will be less capital to employ them. What is wanted is a clear comprehension of the fact that our dollar, measured in the terms of the things we desire and need, is at present only worth fifty cents. If, through continued labor disturbances, malingering and strikes, output be still further reduced, it will sink steadily in purchasing power. It is an inexorable and terrible law, well summed up in the words of the Apostle, "If a man will not work neither shall he eat."

During the late war the whole country was placarded with appeals to practice thrift. Thrift is an excellent thing when not carried too far. Carried too far—and it easily may be—it degenerates into the detestable, unocial vice of avarice. We all desire to be nobly generous, according to our means. What is needed is discrimination in our purchases. To practise economy in food and necessary warm clothes is madness. Thrift carried too far will halt industry and produce suffering. Men must "live and let live." What we want is our daily bread, and a little margin for contingencies. We may have both, provided we all bend our backs and increase the supply of things we desire and need. If, however, we keep on bidding against each other for an ever-lessening supply of commodities, then the law of competition comes into play, and the man who is prepared to go highest gets whatever is being offered for sale. The price the highest bidders are prepared to pay fixes the market price for all. The rest must either pay the price or go without. As commodities grow less and less the price mounts ever higher and higher, until at length, the value of the dollar or the pound sterling or mark sinks so low in purchasing power that panic ensues and barter takes the place of normal exchange. Only substantial things now will buy substantial things. Paper is refused, and gold and silver disappear. At one bound, we are back to the days when the savage exchanged a slain animal for a supply of fints. This is precisely what has occurred in Russia. The Mujik refuses all paper; but is perfectly willing to exchange wheat for shoes or cloth. In no other way can trade with Russia and Germany be done at the present time. Exchange, as we say, has "broken down."
 If the Government had placarded the country with exhortations to produce ever more and more, and left thrift to take care of itself, as it would, we should have been in a better case. Let the Government address its counsels of thrift to the men who are stinking for one dollar an hour, and accompany it with the information that if they do not speed up production the world, including themselves, will starve. The farmers should have been urged to go into sheep and more sheep. A glorious opportunity was lost, and is being lost. For the working man, and, alas! the farmer, have got it into their heads that lessened production means continued high wages and prices. But limitation of output, viewed from any angle, is an unmitigated curse. The more there is produced the more there is to share. The lamentable fallacy, that limitation of output brings prosperity, is the pet obsession of British trade-unionism, and is spreading like a virus into the healthy blood of Canadian and American working-men. It can only end in disaster.

 Burglar—Because I heard there was sickness in the family.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?
 Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Reaching Perfection

Fit-Reform Suits and Overcoats are as close to perfection as human endeavor can produce.
 The finest fabrics; the choicest patterns; the richest effects; the finest hand tailoring; the most exclusive styles; these are the qualities which have won the favor of well dressed men all over Canada.
 These are the qualities which distinguish the Fit-Reform Suits and Overcoats of today. May we show you some of the new models?

Fit-Reform
Russell & Morrison
 Newcastle.

Local and General News.

HALLOWEEN
Next Sunday, 31st inst, is Halloween. The small boy will probably celebrate on Saturday evening.

BORN
At the Miramichi Hospital, Saturday, Oct. 23rd to Mr. and Mrs. D. S. Creaghan, a son.

MANY OYSTERS
Large shipments of oysters are being made from Buctouche and Bay du Vin this fall. Hundreds of barrels have already been shipped to the Montreal market.

THE BIGGEST YET
The largest moose head seen in Fredericton this season arrived on Thursday consigned to George A. Davis, taxidermist. It has an antler spread of 63 1/2 inches and was secured by Dr. Ross of Buffalo, on the Northwest Miramichi River.

GOOD WEATHER FOR WORK
The beautiful weather which we have experienced this month has given all an opportunity to prepare for the winter months. A large amount of outdoor work has been completed, and stores for the coming winter are being rapidly hauled to their destination.

THE EDMUNDSTON CASE
There have been no developments in the case against William St. Pierre, charged with the murder of Miss Minnie Stevens, of Aylesford, N. S., at Edmundston, on October 11, within the last few days, so far as known outside of the official connected with the investigation. Robert Crawford, of St. John, provincial constable, is again at work on the case.

IMPROVEMENTS
The buildings on Henry Street owned by Miss K. Quigley and occupied by John Harris, Brightman's Bakery and Chinese Laundry have been given a coat of paint which improves the appearance of that locality immensely. The fine new building being erected for Mr. John Harris by Mr. Bert Somers, is progressing rapidly and when completed will further improve the appearance of Henry Street.

NAVY LEAGUE CAMPAIGN
The Campaign for the Navy League was conducted last week throughout New Brunswick, and reports state that the efforts were most successful. Arrangements for the carrying on of the campaign in Newcastle failed to consummate, and consequently no action in the matter was taken here. This does not speak very well for a town, the size of Newcastle, while her sister town Chatham, went into the project with energy.

VOCATIONAL EDUCATION
Mr. Fletcher Peacock, Provincial Director of Vocational Education was successful last week in establishing night classes in vocational subjects at Campbellton, Bathurst and Douglastown. Last year, classes were held in Newcastle, which were well attended and proved instructive and successful. It is to be hoped that classes this year will again be opened and to be successful they should begin in the new future.

CAPTAIN CENSURED
The stranding of the steamship Care Hsgho Stinnes, bound from Chatham for Manchester, via Picton, on Amet shoals, River John, September 30, was raised by the vessel having been towed to the southward of her course by the flood tide which was very strong in the vicinity of Cape Tormentine, according to the finding of the marine court of enquiry. The court holds Captain R. H. Nesbitt showed a lack of judgement in not stopping his vessel off Cape Jourmain and making certain of his position. He is severely censured. The court says that captains going through the Northumberland Strait should use the latest information furnished by the admiralty as to tides, currents, etc.

TRAFALGAR DAY
Thursday, Oct. 21st, was the anniversary of Trafalgar Day and the death of Lord Nelson.

PARTRIDGE PLENTIFUL
Reports from the woods say that partridge are very plentiful this season. Shooting them this season is forbidden.

SIGN OF WINTER
The water in the fountain in the Public Square has been turned off. This is generally a sign that winter is approaching.

LOST
A sum of money on Sunday afternoon between Newcastle and Chatham. Finder will be suitably rewarded by leaving same at 43-0pd

ADVOCATE OFFICE

HURT IN MILL
James Gukie fell on a lath machine last week while at work in Ritchies' mill and had his hand so badly cut that the index finger had to be removed.

CARD OF THANKS
The Congregation of the Methodist Church at English Settlement wish to express their sincere thanks to Mr. and Mrs. Arthur Copp for their kind donation of blinds for the new church.

NOT YET DECIDED
It has not yet been decided whether an Employment Office will be opened in Newcastle. The committee of the Town Council have been given an extension of time to report on the matter.

MOVED INTO NEW HOME
Mr. G. G. Stothart and family have moved into their new brick residence on King's Highway. The building is modern in every respect and presents a beautiful appearance, adding immensely to this residential section of the town.

MILLS AND LUMBER LANDS SOLD
The mills and the lumber lands, owned by the late B. J. Thibodeau, of Boiestown, have been sold by his sons to Daniel Lynch, of Boiestown. The mill is located near Astle's Crossing on the Clearwater Stream and the lands are in what is known as the Portage district. So far as could be learned the price paid was \$20,000.

RE-ORGANIZATION MEETING
At a reorganization meeting of the Newcastle Fire Company which was held last week with Ald. Edward Dalton, chairman of the Fire Committee in the chair, the following officers were elected:
Pres.—John H. Sargeant
Vice.—Wm. P. Stabies
Sec'y.—R. A. N. Jarvis

SELL BATHURST BRANCH
A Chipman Smith & Co., druggists, Charlotte street, St. John, N. B. have disposed of their branch store in Bathurst, which was opened for business in 1888. The new proprietor is Wm. F. Pepper, who has been manager of the establishment since the business was begun, thirty-two years ago. Before going to the North Shore Mr. Pepper who is a Londoner by birth, spent several years in the St. John store, which opened its doors in 1791, a few years after the Loyalists landed here. Struan Robertson became a partner in the business in 1882.

MOON ECLIPSE NOT VISIBLE HERE
A total eclipse of the moon will take place during the night of October 28-27, but, unlike the last eclipse, will not be visible in this part of the globe. The beginning of the eclipse will be observed in the western portion of North America, on the Pacific Ocean, in Australia and in Asia, with the exception of the western portion. The ending of the eclipse will be visible in the western part of the Pacific Ocean, in Asia, Australia, the Indian Ocean, Eastern Africa and Europe, with the exception of the western portion.

OPERA HOUSE
Madge Kennedy in "Dollar Sense" will be shown tonight at the Opera House.

JAMOKA ORCHESTRA
The Jamoka Orchestra is scheduled to play in the Town Hall for dancing tonight. The I. O. O. E. will supply supper.

DOUGLASTOWN DANCE
The Dance held last Wednesday evening in Douglastown was a grand success in every way. A large number from Newcastle attended.

BIBLE SUNDAY
Last Sabbath, was Bible Sunday in the Protestant churches throughout Canada, and the furtherance of Bible Work was strongly presented by the local clergy of the different congregations.

HOSPITAL AID MEETING
A meeting of the Miramichi Hospital Aid will be held at the Hospital on Thursday afternoon at 3 o'clock. Matters of importance are to come before the meeting and all members are requested to attend.

EPIDEMIC OF MEASLES
An epidemic of measles is prevalent among the school children, and a large number of them are detained from their studies on account of such. The type is a mild one and necessitates about a week's confinement.

PAINFULLY INJURED
While playing on Wednesday afternoon, Gordon, the little son of Mr. and Mrs. Charles Delano was kicked in the face by a horse and painfully injured. Dr. R. Nicholson was called and put a number of stitches in the wound.

UNVEILING OF TABLET
On Sunday Nov. 7th a Memorial Tablet, in honor of the victorious dead and the valiant living, will be unveiled and dedicated in St. James' Presbyterian Church. The tablet is donated by the Junior Girl's Club of St. James' Church.

A CARELESS HABIT
Complaints are heard, and are well founded, that auto drivers in many cases are careless about sounding their horns when approaching corners. Recently there have been several narrow escapes from collisions as a result of this neglect on the part of auto drivers.

NEW FIRE COMPANY ORGANIZED
At the regular monthly meeting of the Town Council held last Thursday evening the applications of fifteen men to comprise the new Fire Company were accepted by the Council. The names of the men constituting the new company will be found in the report of the Town Council meeting contained elsewhere in this issue.

NO DECISION REACHED
No decision has been reached by the Government on the question of aiding the sugar refiners. It was thought some conclusion might be reached before Premier Meighen went west, but the Prime Minister left on Friday for the western provinces and the question has been left open.

CHATHAM YOUTH RETURNED TO HIS HOME
Little Joe Larry, of Chatham, N. B. who "beat his way" on the Maritime express to Moncton a few mornings ago, and interposed there in his wild flight to anywhere, was returned to his home yesterday afternoon by the police, who placed him in charge of the C. N. R. police, who in turn, placed him in charge of trainmen.

THE DRY REFERENDUM
Yesterday the electors of Alberta, Saskatchewan, Manitoba and Nova Scotia voted in a referendum under the Canada Temperance Act on the question of prohibiting the importation, manufacture, or transport of intoxicating liquor into or within the limits of their provinces. Each of the provinces has been under prohibition so far as their Legislatures had power or inclination to establish it. The results, however, were not satisfactory to the drys hence the present effort.

Knows Where to Find It
Crimson—I understand that prohibition worker is going away for a change.
Yeast—Really? Where is he going?
"To Havana."

HOW'S THIS?
