The dwelling house, barn and out-buildings of Mr. A. E. Boston, East Point were destroyed by fire on Wednesday last. This season's crop which was stored in the barn was all destroyed. The dwelling house furniture was saved in a damaged condition. The buildings were insured for \$3,000.

The first session of the seventh Parliament of Quebec was opened on the 4th by Governor Angers. Hon. Felix Marchand was elected speaker. Improvement in education; railway extension; the construction or enlargement of needed public buildings; the abolition of lot sales and the construction of iron bridges, are the chief questions forehanded in the speech from the throne.

A. W. Ross, M. P. for Inver, arrived at Montreal on the 7th. He says the surplus crop of Manitoba and the territories will bring ten million dollars into the country. Americans from Chicago, St. Paul and other western American centers, who are investing heavily in real estate in Winnipeg, admit that the latter city has more good country behind it than any one city in the world, and that fifteen years from now the Canadian Northwest will be the only portion of the American continent exporting wheat to Europe.

A fire occurred on Wednesday night in a stable at the rear of Mr. Jasper Pickard, an Ottawa street, and occupied by Messrs. G. J. and S. Sanderson. Mr. Sanderson's two horses and carriage were removed from the building before they attained any damage; but, strange to say, Mr. J. J.'s horse was not removed until he himself arrived. These present no doubt thinking all had been taken out. When finally taken out it was found that the horse had been burned and the carriage was a mass of twisted iron. The fire is thought to have been the work of an incendiary. The wind was very high during the fire and at times the safety of the block was feared; but through the efforts of the firemen and a copious supply of water the stable only was destroyed.

The Minister of Justice has addressed a circular to the Attorney General of the provinces and Judges charged with judicial functions in criminal matters in which he says: "The question of the expediency of abolishing the functions of Grand Jurors in relation to the administration of criminal justice has on several occasions been brought to the attention of Parliament, and intimations have, from time to time, been made to the Government by municipal bodies, judges and other interested in criminal jurisprudence, that the abolition of the Grand Jurors is a measure which is in the public interest. It is my intention to lay before Parliament, in the near future, a bill, codifying the Criminal Law of Canada, both as regards substantive law and procedure. Before submitting it, however, I would be very glad to hold a public hearing on the subject above mentioned."

FRANK DAVIS and Thomas McDowell, young men of Moncton, went on the morning of the 6th to Ottawa, on the northern division of the I. C. R., on a shooting expedition. They remained in the woods for several weeks in the mountains, when they took the track to walk to Germain Station. McDowell for some purpose again entered the woods, leaving Dupuis sitting on the trunk. In McDowell's absence a train came along at the rate of 30 miles an hour and struck Dupuis, throwing him from the track and killing him instantly. The body and McDowell were brought to Moncton, Coroner Ross held an inquest, during which it transpired that the late had two flocks of wild geese, one of which had been spoiled by the other party, Dupuis desiring to drink any more, saying he was afraid of getting drunk. The jury concurred in the verdict that Dupuis was 19 years old, employed in the I. C. R. general office and graduated about 1887 from the Moncton college. Death was instantaneous, he shall be buried and his body laid to rest.

IRELAND'S ENVOYS IN AMERICA.

The envoys of the Irish parliament, who were appointed to visit America in 1888, have returned to Ireland before a great audience, which filled the Academy of Music at Philadelphia on the night of the 6th.

The Irish delegates were escorted from New York by the committee of prominent Philadelphia Irishmen; Patrick Dunleavy, Michael J. Ryan, Rev. Walter Gough, Benjamin D. J. Ryan, Francis J. Murphy, Joseph M. McKenna, Hugh J. Caffrey, Daniel H. Mahoney and Robert McWade.

The party reached the Broad street station at 5.15, and a great crowd was there to greet them.

So enthusiastic was the welcome that the party had difficulty in reaching the ladies of the delegates' party from the crowded carriage. The carriages were carried to Hotel Stratford.

After dinner they were escorted to the Academy of Music, where 5,000 people greeted them with boundless enthusiasm. Philadelphia is the only city in the country where the cause of Ireland is held in higher esteem than in Philadelphia.

The night's demonstration was the most significant opening of their American tour. Not only was the welcome a great one, but the final response to the first appeal was the most generous.

The figures are not yet available, for the statistics were not in the country that they have not yet been counted. Every seat in the Academy of Music was filled to-night and to-morrow night.

Every seat in the Academy of Music was filled to-night and to-morrow night. The total amount of the night's receipts was \$20,000 for the parliamentarian fund.

Michael J. Ryan, foreman of the committee on reception appointed by the Philadelphia municipal council of the Irish National League, led the big meeting to order. Col. A. K. McCreagh was named president, and the American dinner party were named and the names of those who had been requested to allow the use of their names as vice presidents of the meeting were read.

Col. McCreagh, in presenting Mr. Dillon, recalled the fact that ten years ago he presided at the first public meeting in Philadelphia at which Parnell and Dillon made their first appearance for Ireland on this side of the Atlantic.

Mr. Dillon was unable to speak for some moments as great was the ovation given him when he took the platform. He said in acknowledgment of the greeting: "I am glad to stand on this platform beside my leader, Mr. Parnell, and to appear in a Philadelphia audience in behalf of the cause of freedom in Ireland."

In those days we had few friends. We came to the people of America with nothing at our backs but the justice of our cause, and no hope except in the generosity and sympathy of a single people. Surely the progress which this movement has made is full justification of the support given us here.

Mr. Dillon then proceeded to discuss in detail the famine situation in Ireland, and explain the attitude of the Irish people towards the American movement for the relief of the sufferers. Upon this subject he said:

"I think, first of all, my first public utterance, to thank the people of America for their spontaneous and generous response to the crying need of the sufferers in Ireland. The cry of famine from Ireland has become so loud that it has reached the ears of every man who hears it. You hear it when you put your hands into your pockets for his relief. It is the cry of the bottom of our hearts, for your great and immediate sympathy."

"Let me say this before I speak, as I must do, about the condition of the distressed districts in Ireland. The action of the American committee which started the famine fund has already produced most excellent results in Ireland."

"How has it been done? By forcing the government under which our unhappy people are compelled to live to act as it would not have done if the attention of the world had not been drawn to the threatened famine by the action of the American committee."

"If it proves that no famine fund is necessary it will be principally because the prompt response compelled Mr. Parnell (God bless his name) to visit the west coast and discover what great was the emergency. When we alone urged the matter, halfhearted help in the north part of Scotland and in the north part of Ireland was all that we were able to get. But when the people of America began to send a famine fund, we thought it best to cross the Irish channel to find what it was all about."

"Dillon then discussed two questions: First, What is the actual situation? Second, Why is it that in Ireland alone, of all the civilized nations, the cry of famine is a perpetual institution of the country?"

Further on he said: "What would be the effect of a relief fund sent from America to the west of Ireland? Every dollar of it would go to the land rent. It would simply encourage the landlord to demand rent from the tenants."

Then, having taken all they possessed in rents they would turn them over to you and the other charitable people of the world to feed. Further on he said: "We have maintained this struggle against the tremendous resources of the English government with the slender means at our command, and have made mighty advances in these 10 years. The English and the Irishmen would dissipate their strength by quarrelling among themselves. It is now 10 years that we have been working together, and there has been no quarrel."

"We have been tempted with being a monetary man. We may be poor, but we are not avaricious. We are not a man among us has proven false."

"To-day we come to America to say that the Irish nationalist party, under the leadership of Parnell, is stronger and more compact than ever. We have nothing but the 'sister of our souls' has been a price of coin and a plank for us."

"We appeal to America because we are weak and you are strong. I speak with perfect confidence when I say that the English government is not the first to see in our campaign of the United States. It typifies the response which America will give us, and it will materially help us in that great election which must soon take place."

"Mr. O'Brien was received with an enthusiastic and less hearty than that which greeted Mr. Dillon. He was deeply affected by it, and responded: 'I would be most cold-hearted than the Irish race really are if it were not moved to my heart's core by this demonstration. You require no thanks of us, because the cause we represent here is a cause dear to your hearts as to ours.'"

"That is what makes us feel that we come to you, not as strangers or as mercenaries, but as brothers in a common cause. It is your sympathy and your money which have enabled this movement to grow and flourish during these 10 long years, and it will be to a profound extent your work when the day soon cometh that an Irish parliament will make laws for free Ireland. You have not the least conception of the terrible nature of the struggle in which we have been engaged. I venture to say that there is no chapter in the history of Ireland that does more credit to the character of the Irish race for steadfastness of purpose and courage of convictions than the history of the struggle against coercion."

"Nearly an hour was occupied in giving subscriptions, which poured in as fast as they could be announced. There were from the platform announced more than \$12,000."

Messrs. O'Connor, Sullivan, Gill and Harrington spoke briefly.

TAKES THE LEAD with sale in 1889 of 192,508 BOTTLES,

which is the largest quantity of medicine sold in the Maritime Provinces by any firm.

We earnestly mention this fact as a proof of its merit, as it has not been so successful, and our advertisements are principally stamped throughout the Maritime Provinces well known in the locality in which they reside.

We intend next quarter during 1890 to increase the quantity on hand 100 per cent.

1,000,000 including Ontario and British Columbia. THE FACT IS THAT
