40,000 Harvesters Needed to Garner the West's 200,000,000 Bushels Crop

Great Britain Must Supply the Help—The East Can't.
 22,000 MEN WERE USED LAST YEAR
 Size and Early Ripening of Crop Creates Big Problem.

Winnipeg, Man., June 28.—Last year 22,000 men were brought from Ontario, Quebec and the Maritime provinces to the West, and this number was sufficient to handle the comparatively small harvest, said J. Bruce Walker, the best authority today on crop conditions.

"This year," continued Mr. Walker, "two million acres of additional land has been sown to wheat, and given an average of twenty bushels to the acre, this is going to add 40 million bushels to the garnered and harvested. With this increased acreage, together with the highest yield per acre for many years, I do not think I'm over-estimating when I say 40,000 men will be required to harvest this two hundred million bushel crop that seems to be in sight this year.

"The increased wheat area in Saskatchewan alone represents in round numbers one million acres and the startling and interesting feature about this is that the infinitely greater proportion is in the north-eastern, north-western and west-central portions of the province. In addition, the province of Saskatchewan will show an increase in oats of about 200,000 acres. The increase in wheat and oats shows a slight decrease in wheat acreage, but a large increase in oats and flax. Another striking feature is that the per cent. of the increased acreage in these parts where the new settlers have gone in this year.

"The question is where are these forty thousand harvesters coming from? Eastern Canada has good crops of her own and cannot spare possibly not half that number of men. The west will be ten days earlier than usual checks the eastern supply, which will then be in full tide of the harvest. The Grand Trunk Pacific and Canadian Northern are known to be looking for men south of the international boundary, but it seems that Great Britain will have to supply many thousands of men if the wheat crop of two hundred million bushels is to be safely garnered."

ROBBERS HELD UP OREGON EXPRESS

Expected to Get \$400,000 in Gold Dust, But Were Mistaken.

Glendale, Ore., June 28.—Apparently mistaking the first section of the northbound passenger train, No. 16, on the Southern Pacific, for the southbound train, said to be carrying a shipment of \$400,000 in gold dust, two robbers held up the northbound train last night near West Fork, an isolated station in Scott's Creek canyon. The robbers riddled the mail car, blowing the safe and making away with the registered mail. They tried to secure entrance to the express car, but were foiled by Messenger Robb, who refused to open the door despite threats that they would use dynamite if he resisted. The robbers after fruitlessly prying with a crowbar at the side door of the car, finally dislodged and decamped with the loot secured from the mail car. The amount taken cannot be ascertained at this time.

TENSION IN THE TARIFF DEBATE

Keen Feeling Exists in United States Upper House Over Reciprocity

Washington, June 27.—The tension that exists in the Senate over the reciprocity measure was emphasized by incidents that occurred in the confused proceedings of today. The session began with an unsuccessful attempt by Chairman Penrose of the finance committee to secure an agreement for a vote on reciprocity on July 24th, on the wool bill July 26th, and on the free list bill July 28th.

After refusing to permit such an arrangement, the opponents of the reciprocity bill allowed the measure to advance one step through the parliamentary step before they realized what had happened. For a quarter of an hour the Senate was in executive session.

At first Senator Penrose objected to having the measure re-introduced in the committee of the whole. He said the Senate had shown no disposition to hurry in its consideration of the bill and had rejected his proposal for a definite time for a vote on the measure.

The feeling that developed over this incident was not so marked, however, as that which greeted Senator Penrose's attempt to bring a vote on the reciprocity bill. The insurgents objected to any definite date for the reciprocity vote, and the finance committee was criticized from the floor for its position of having the date fixed, determined by an objection from Senator Penrose.

The Penrose request will be renewed from time to time and when conditions seem favorable, ultimately the friends of reciprocity may present the change of order allowing a vote on the tariff bills to come first, but they will not do so.

A defense of the Canadian reciprocity agreement was made on the floor of the Senate today by Senator Thomas, of Michigan, insurgent Republican. Not only would he lend his support to the bill now under consideration, the senator declared, but he would have a treaty which would have included all of the products of Canada and the U.S. industries on a free list.

BORDEN'S ATTACK ON RECIPROCIITY FAILED TO FIND MUCH RESPONSE

Audience of Between Three and Four Thousand People at Thistle Rink Listened Attentively to Leader of Opposition, but there was Little Response to Wall of Big Interests to which He Gave Utterance—Civic Address was Presented by Mayor Armstrong on Windsor Hotel Balcony.

Francis Waving "the old flag" and pleading for "reciprocity within the Empire," R. L. Borden appeals to his audience at the Thistle Rink.

Three thousand people assembled in the Thistle Rink last night to hear the address of R. L. Borden, leader of the Opposition in the Dominion House of Commons, on the political question of the city could not be better illustrated than by the fact that on that occasion there were fewer people in the city than there were in attendance at the meeting which he was addressing.

REAL FIGHT OVER THE VETO BEGINS

The Lords Seem Determined to Press the Official Amendments

London, June 28.—The real struggle over the parliament bill dealing with the veto power of the House of Lords began this afternoon when the Lords entered upon committee stage with the Marquis of Lansdowne, leader of the opposition in the upper chamber, and his followers apparently determined to press the official amendments as announced by the Marquis at the assembling of parliament, June 26th.

The amendments provide for the exclusion from the operation of the measure, the bills that relate to Irish Home Rule for a joint sitting in case of disagreement between the two houses, and for a referendum in the country in other cases.

The House of Commons, on the other hand, are very anxious to support any measure which will do much to help the farmers.

The Hudson Bay Railway we believe will be of great benefit to the country, and we ask your support in getting this railway pushed forward with all possible speed.

An association is not a political organization, nor do we bind ourselves to support any party. A principle of direct legislation has been adopted by the farmers as the only logical way to direct the affairs of the government.

On behalf of the self unions, (Signed) C. BORNELL, Chairman. FRANCIS C. CLARE, Secretary.

THE BOY SCOUTS SEE GREAT FLEET

They Visit Portmouth and go Abroad Nelson's Flagship Victory

Canadian Associated Press. Portsmouth, England, June 28.—The Canadian Boy Scout contingent, accompanied by the Australian Cadets, visited the great naval station today, inspecting the magnificent fleet of the dockyard and viewing the fleet from the deck of H.M.S. Seahorse, an Admiralty yacht.

Nothing so impressive as the sight of the great armada, swinging on its hawsers at Spithead, practically intact since the great naval review of last Saturday.

The Seahorse steamed through the triple line, each ship dipping her ensign to the Admiralty flag as she went and the jolly jacks cheering the boys of the Empire.

Afterwards they were entertained to luncheon on the magnificent yacht, where Mayor Scott Foster presented each scout with a coronation cup.

The visiting party were accompanied by the Imperial Cadets, and the whole were quartered at the Royal Marine Light Infantry barracks, where they were inspected by Commandant Oldfield.

Later they visited the Isle of Wight, flying across the Solent, visiting the coast of the Isle of Wight, and the harbor, where they were met by the Royal Yacht Squadron at Cowes.

CORRESPONDENCE

THINK BAND CONCERTS SHOULD BE STOPPED

Editor Bulletin. Sir—With reference to the recent band concert at the Victoria Park and Sunday concert, it appears to me that there is need for a statement of some sound principles which will be a guide to us in the matter.

In the "Quiver" for January there is a symposium on the observance of the Sabbath, from which please allow me to make a few extracts:

One writer says: "Let us try to imagine for a few moments—could we hardly bear to imagine it—what the world would be like without a Sabbath. It would become a sort of slave plantation, with the vast majority of mankind working continuously, without hope of rest, except the divine institution of the Sabbath Day—the rest day, one in seven."

The inherent selfishness of mankind, a selfishness which has shown itself in the most heinous and terrible tyrannies of power and the utter helplessness of those who are under its heel, is the cause of all our troubles.

It is surely the duty of every good Christian to maintain it at a high level and not to allow it to be dragged down from its high place by carelessness and a slipshod observance of its sanctities.

Every Christian should regard the secularizing of the Sabbath with great jealousy, not only because it is the Lord's day, and therefore sacred day to every Christian, but also because it is the greatest safeguard in this world of the highest rights and the best interests of mankind.

SPANISH LETTER SWINDLE REVEIVED

Edmonton Man in Receipt of Letter from Madrid.

Once again the Spanish prison letter has come to light. This beguiling article, by means of which a score of years ago many wealthy Americans were sadly duped, ranks with the gold brick in classic swindles. It was thought antiquated but it is being used, as yesterday one of these letters was received by an Edmonton citizen.

The letter, shown to the Bulletin by Mr. Henderson, purports to be written by one Stanislaw Sadrowsky, a wealthy Russian banker, languishing in a prison in Madrid, where he was incarcerated for having shot and killed another Russian in a quarrel in Spain.

Police Sought in Va. The Russian police sought for him for a long time in Va., for it seemed he had not left the least track of his flight and the continued search over Europe and America.

Dear Sir, - Although I know you only from good references of your honesty, my sad situation compels me to reveal you an important affair in which you can procure a modest fortune, saving at the same time that of my darling daughter.

First of all answer by check or by letter, as follows: Enrique Romero, Calle del Peso, 8 Valladolid, Recluido - Henderson
