PRIMARY AND LASTING

THE PRIMARY AND LASTING

FRIDAY MORNING, SEPTEMBER 14, 1888.

NOTES FROM THE CAPITAL,

r John Macdonald at Kin

hout waiting for the or-otification from China, case both parties were so eager to placate

st of war but there are cooler heads in the public who have, and the decision arrived at that a war with England would be a most er to the United States, The ort trade of this country would be utterly ralyzed in a war with a customer that con-mes and distributes more of their surplus pro-lets than all the world besides. Of the total half, or \$363,101,143, were sent to Great tain and Ireland, while of \$724,639,574 of imports, Great Britain and Ireland contributed \$165,067,443, or less than one-fourth of the total amount. The trade is evidently a good one for the United States, and sensible icans have no wish for war.

Mr. Michael Davitt Explains. ichael Davitt has apologized for his gainst Gladstone glorification. He says he did not make disparaging reference to the G.O.M. Having said this, Mr. Davitt says he did not make disparaging reference to the G.O.M. Having said this, Mr. Davitt proceeds to tell the Irishmen that he Liberals ought to do the shouting "Gloria Gladstone in Excelsis" as they will be the greater gainers by the paoification of Ireland; that if Mr. Gladstone showed as much enthusiasm over Ireland as he does over Bulgaria, Mr. Balfour would not "dare continue his present brutal policy"; that he believes the Gladstonians will give a left-handed acquiescence to the thirning out of the Irish population by evictions, just as they formerly advocated emigrasion as a nancea; and as a clincher to this apology, he says that while he bears the Liberals no ill-will, he has no cause to love them, and if he is not now in prison, it is pechaps because the Liberals are not in power.

Whew! When Mike acts out to explain he stops at nothing less than a full and clear statement of his feelings and beliefs. But of course he does not make any disparaging reference to the G.O.M.

"We hall with patriotic satisfaction the bold, aggressive and statesmanlike message of President Cleveland upon the fisheries question, vindleating the rights and proclaiming anew the dignity of American citizenship. We congraturate our country in that it has a President Who, knowing the right, dares maintain."

There is to be a senater appointed to the lace made vacant by the death of the late Hou. Mr. Ferguson of New Brunswick, and here are indications of a religious denominational struggle for the appointment. The St. John Telegraph supports the Baptists as gainst a Roman Catholic, and no doubt there ill be found advocates for every kind of a indicate but a Canadian.

The Toronto Water Supply.

Editor World:—May I have the pleasure of suggesting to my fellow citizens a means of water supply that would perhaps satisfactorily water supply that would perhaps satisfactorily solve the problem forever. Our aspiring city ought to have the best water obtainable, and enough of it to satisfy the thirstiest and most lavish, and let us, then, at once consider how this can be done, in a way for which posterity will thank us. Let it be granted that the cost is the last point to exercise curselves aboutlet posterity look out for a share of it. Glasgow, is it not, is supplied from a distance of 45 miles or so; why then should not the Queen City of the West draw 65 miles? Let thorough be our watchword—Let us tap the Georgian Bay.

knocked together by the New York State Democratic Convention that met at Buffalo shis week. What rights is Grover vindicating and maintaining? Surely not the "rights" that in recommending proposed fisheries treaty he acknowledged the United States could not rightfully claim. The aggresiveness referred to we suppose to mean the forcing of freight worth \$50,000,000 a year from United States railways to Canadian roads.

Matters do not seem to be running smoothly with Grover. Many of the Nationalists never willingly gave their adhesion to the Liberal method of conducting the Irish warfare for independence, and are still strong believers in the policy of returning blow for blow. To them Michael Davitt's words are welcome. It is unfortunate, however, that any break should come now, when to all appearances the home rule cause in England is growing stronger. Resort to violence again on the part of the Irish would alarm English electors and the Irish cause would be greatly retarded. Such is the opinion of the more Liberalized Nationalists. The Davitt supporters acques The Daily News of a political flabpiness which irritates even moderates. Of the latter he said: "He is 79 years of age, alert and with the physical and mental vigor of a man of fifty." Mr. Depew said that he noticed one thing that troubled him greatly. That was the decline of American orators and the increase of English orators. He was also impressed that Europs was but an armed camp. From The Cincinnati Enquirer.

It is now nearly two years since the first hint began to reach the public ear concerning the extensive movement of the wealthy leaders of the Mormon Church for the establishment of a new Zion in Old Mexico. The story has of the Mormon Church for the establishment of a new Zion in Old Mexico. The story has been both affirmed and denied several times within that interval, but in the mean time the purchase of land in Mexico has been going steadily forward, and reports have come from Salt Lake of the departure, one after another, of prominent Mormon families to take up settlement in the new region. A Philadelphia despatch says: An unusual wedding ceremony was performed here to-day. About it was an echo of the great civil war. The contracting parties were Dr. Frederick Ward Saunders, of York, Pa., and his bride of twenty-four years ago, the mother of his children. This couple had lived together for awenty-four years in the relation of man and wife and reared a family, but the evidence of their having been legally married was destroyed, and so after all these years they were again married to-day. On June 23rd, 1864, Dr. Saunders, was married in York, Pa., to Miss Ellen Belle Loy. Just after the ceremony the rebs raided the town and pillaged Dr. Saunders' house, among others, Among the things carried off was the Doctor's "marriage lines," and among the things destroyed in York by the "Rebs" were the geodrds of the church in which the doctor was married to Miss Loy. So every evidence of their being legally married was gone. For years they lived on together indifferent to this, but as their children grew up and their property increased, Dr. and Mrs. Saunders suddenly came to the conclusion that for the sake of their children and estate, and in view of questions arising regarding to their property, they had better have a perfect record of their marriage. They came to the cliy and got a license to marry from the license clerk and where to-day again joined in the bonds of holy wedlock,
