"IROQUOIS HOUSE,"

ST. HILAIRE MOUNTAIN, (BELCEIL.)

The above new Hotel will be opened on the 3rd of June. The attractions of St. Hilaire Mountain, better known as Belceil, are considerable. The house, being situated on a high Table rock, commands an unparalleled view of the adjacent country, and being only a few yards from a magnificent lake, 3 miles in circumference, good

Fishing, Bathing and Boating

are secured, whilst its proximity to Montreal, and its easy access by Grand Trunk Railway, render it one of the most attractive Summer resorts in the neighborhood of the metropolis; it is above all celebrated for its pure and bracing air.

THE "IROQUOIS HOUSE"

Derives its name from the celebrated tribe of Iroquois Indians, who fought so many desperate battles with the French troops in the immediate neighborhood, and on the banks of the Iroquois River now called the Richelieu.

This beautiful spot, 1400 feet high, is on the way to Quebec, Rivière du Loup, Cacouna, White Mountains, and Portland, by the Grand Trunk Railway, and Tourists bound for these places would do well to stop at St. Hilaire Station and spend a few days at the "IROQUOIS HOUSE," and see one of the most picturesque spots in the Dominion.

The House is capable of accommodating over 200 guests.

The rooms are large and airy. In-door amusements have been provided for, in the shape of

Billiards and Bowling Alleys.

A LARGE BATH HOUSE

has been erected a few yards from the Hotel, where fresh and salt water baths can be had.

The "IROQUOIS HOUSE" is about 2½ miles from St. Hilaire Station, and 24 miles from Montreal. Grand Trunk Trains run in and out of town at convenient hours.

Hotel Buses and Carriages are in attendance at all trains. All luggage checks should be given to the Porters in attendance. Fare by Bus 25 cts., Carriage, 30 cts.

LONDON & LANCASHIRE LIFE ASSURANCE COMPANY.

HEAD OFFICE FOR CANADA:

Molsons Bank Chambers, St. James Street, Montreal.

DIRECTORS.

WILLIAM WORKMAN, Esq., *Chairman.* | C. A. LEBLANC, Esq., (*Sheriff of Montreal*)
ALEXANDER M. DELISLE, Esq. | Hon. DONALD A. SMITH, M.P.

MEDICAL OFFICERS.

GEO. E. FENWICK, Esq., M.D., *Professor of Clinical Surgery, McGill College.*

ARTHUR A. BROWNE, Esq., M.D.

Manager for Canada.

WILLIAM ROBERTSON,

The ONLY Company offering ALL the advantages of a HOME Institution,
with the Security of a British Office.

The Directors have made it their study to adopt the various improvements from time to time in connection with Life Assurance, and they would particularly direct attention to the following important arrangements in regard to their

CANADIAN BRANCH.

In addition to the sum of \$100,000 which has been deposited in Cash with the Canadian Government for the exclusive benefit of Canadian Policy-holders the Directors have decided to invest in first-class Canadian Securities the whole of the earnings of this Branch, which, from the fact of a higher rate of interest being obtainable in Canada, will enable the Company to reduce very materially its

RATES OF PREMIUM

for Canada, and a comparison of the Company's readjusted rates with those of other Offices is invited.

The Directors have also determined, in order that this Branch may in every respect be placed on a footing of equality with the local Offices, to empower the Canadian Board with full authority.

1st—To dispose finally of all Proposals submitted for Assurance.

2nd—To settle, without reference to the Head Office, all Claims arising in Canada.

3rd—To invest in first-class Securities in Canada.

Thus giving the Public all the advantages of a Local Institution, with the Security of a British Office.

The Statutes and Regulations of the University have been framed on the most liberal principles, with a view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. WHEELER & WILSON'S

NEW STRAIGHT NEEDLE ROTARY-HOOK LOCK-STITCH

SEWING MACHINES,

Nos. 6, 7 AND 8,

FOR MANUFACTURING AND FAMILY USE.

The *New system of the WHEELER & WILSON SEWING MACHINE* was first exhibited at the World's Fair, Vienna, 1873, and the Austrian Official Report pronounced it "*The Marvel of the Exposition.*"

The same year the judges of the American Institute, New York, reported "it is a decided improvement over all other machines in the market. This machine fully merits the *Grand Medal of Honor.*"

In 1874 the five judges of the American Institute unanimously recommended it for "*the highest award which it is in the power of the Institute to bestow.*"

In 1875 special and unusually accomplished experts were appointed by the American Institute of Sewing Machines, consisting of CHAS. W. EMERY, Consulting Engineer, U. S. Revenue Service; GEO. V. MAGEE, Passed Asst. Engineer, U. S. Navy; J. V. VAN DOREN, Chief of Drafting Department, U. S. Navy Yard, Brooklyn, N. Y. They "*unanimously recommended that the Great Gold of the American Institute be awarded to the Exhibitors, WHEELER & WILSON & CO.*"

The points of difference and superiority of this Machine over the Shuttle Machines are very numerous and important.

The Rotating motion of the hook is far easier, quieter and more rapid than the reciprocating motion of the shuttle.

A much higher speed is attainable with the rotating hook than with the reciprocating shuttle. It is very desirable when steam power is to be used, as the Rotating Hook can be made to do at least 50 per cent. more work than the Shuttle Machine. The ordinary speed at which the No. 6 Machine can be run, say 1,100 stitches a minute, would soon shake a Shuttle Machine to pieces.

The repairs required by the Rotating Hook Machine are very light compared with those of the Shuttle Machine.

The automatic tension or clamping of the lower thread enables the operator to regulate the tension of the two threads, as can be done with no Shuttle Machine.

The independent "take up" to draw up the thread when the needle is out of the material is not provided in no Shuttle Machine.

The steady movement of the Rotating Hook produces a more regular and even stitch than the reciprocating shuttle.

The under thread is much more easily wound and arranged than with the Shuttle Machine: the bobbin requires refilling far less often. The needle is set without trouble by simply placing it in its position.

LACHINE.

A town on the River St Lawrence and Island of Montreal, parish of St Michel, seigniory of Montreal Island, county of Jacques Cartier, district of Montreal. Incorporated in 1872. It is the summer residence of many Montrealers, and has become famous by its annual regattas. In the winter months it is greatly frequented by pleasure parties, and at all times of the year a drive from Montreal to Lachine by the upper and in by the lower road, is considered a rich treat to the stranger, and even to the citizen of Montreal. Lachine possesses a large brewery; has a good local business and extensive lumber trade. The Montreal, Lachine, and Province Line railway here connects with a steam ferry at all seasons of the year for Caughnawaga, an Indian village immediately opposite, and thence by the continuation of the same road to New York. A ship canal connects the navigable waters at Montreal with Lake St Louis at Lachine. Montreal Telegraph Co. has an office here. Distant from Montreal 9 miles, fare 37½c.; 25c.; and 12½c. Mail daily. Population about 2,000.

THE

GREATEST OPPORTUNITY

EVER OFFERED

TO PROCURE

IN A

BEAUTIFUL SUBURBS OF A GREAT CITY.

FIVE HUNDRED VILLA LOTS, forty feet front by a depth of one hundred and twenty feet each lot, and fronting on either of the following avenues, viz. :—
 in, Monkland, Molson and McLynn avenues, between Third and Seventh streets,
 Mount Royal, will be sold for four hundred and eighty dollars per lot, to be paid
 in instalments of one dollar, until the whole amount is paid, without interest,
 on arrears of payments, on which interest will be charged. Purchasers paying
 the amount off at any time will be made a liberal discount. The lots are free from all
 burance. The title deeds and registry searches can be seen at the office of R. A.
 G. G. Esq. When purchasers shall have paid up for one year, they shall then get a
 with all the privileges and conditions of the deed heretofore, given by the vendor
 of lots sold by him on the same property. A few hundred lots of equal area on the
 same streets and avenues north of Central Avenue, will be sold for three hundred
 dollars per lot, to be paid in weekly payments of fifty cents, in other respects subject to
 the same terms. Books for Subscribers are now open at the office of Thomas F.
 G. G., 832 St. Mary Street, or on the premises. The situation combines advan-
 tage beyond comparison. A handsome village is already established, with an
 excellent line of omnibuses to and from the city Post Office; brick, sand and
 gravel can be had at nearly one-half less than city prices; the principal avenue is
 paved, and footpaths laid the entire length, and extends to the city; water works
 are in course of construction, and a true system of drainage contemplated. Were such
 improvements to be made at the expense of the purchasers, they would cost more than
 the value of their lots, so that this property is, comparatively, given away. The pro-
 prietor hopes that the interest of a large number of purchasers in the development of
 this property will in some degree recompense him for such a sacrifice.

TOWN OF ST. HENRY.

ly incorporated town, adjoining the city
 limits of Montreal, and formed by the amal-
 gamation of the former villages of Coteau
 St. Augustin and Tannery West. The
 Town of St. Henry is situated in the seigni-
 ory of Montreal, county of Hochelaga, and
 district of Montreal. The Lachine canal
 intersects the town, and signal stations of
 the Grand Trunk Railway are situated here
 at the junctions where the roads branch off
 east and west, and to Montreal and Lachine.

The municipality of St. Henry is governed
 by a Mayor and Corporation, and a separ-
 ate Fire and Police force is maintained.
 The town contains several important in-
 dustries, amongst others an extensive roll-
 ing mill, tannery, boot and shoe factories,
 brick yards, &c., &c. Building is being
 prosecuted briskly, and the town bids fair
 to rise into some importance. Distance
 from Bonaventure depot, 2½ miles; from
 Lachine 5 miles. Population about 13,500.
