CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages) \$1.00 PER YEAR (The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V.

TORONTO, ONT., SEPTEMBER 13, 1899

No. 34.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co.
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions for one year, \$1.00.

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber of all kinds is moving very actively, without regard to grades. If one grade is more inquired for than another, it is mill culls in pine, for which there has been an almost unprecedented demand this year. To such an extent has this been the case that the yards are actually cleared of dry stock. Where the supply for the late fall and winter trade is to come from is a question which is giving dealers and consumers some concern, particularly as buying for the United States market is now being done very freely. Even Michigan dealers have visited Georgian Bay points in search of stock. The hardwood trade occupies a position quite as strong as that of pine. There has been no slackening in the demand during the past week and no material change in prices.

That commodity to which dealers are giving most attention at the present time is lath. Almost instantly it has been discovered that there is a great shortage in the pine lath supply of the United States, and buyers have endeavored to augment their stock from Canadian mills. In this they have in some measure been successful. Within the past two weeks several car loads of lath have been purchased in Ontario and shipped to Missouri and Kansas, costing laid down there about \$5 per thousand. This instance alone illustrates the strength of the lath market.

QUEBEC AND NEW BRUNSWICK.

Prices for Quebec timber remain unchanged, excepting birch of 18 inch average, which is now quoted at 27 to 30

cents per cubic foot. There has arrived at Quebec so far this year, in comparison with last year, about the same quantity of waxy pine, but only about one-half the quantity of square pine. The deal market is strengthening, and manufacturers who have stock for sale are asking advanced prices, but the high freight rates are retarding business both in Quebec and New Brunswick. Lumber orders to the River Platte are quite freely offered, but tonnage is scarce at the figures submitted by shippers. The latter offer \$10.50 from out-ports in the provinces to Buenos Ayres, \$9.50 from Portland, and \$9 from Buxton.

UNITED STATES.

About the only change in the United States lumber market is a disposition on the part of dealers to postpone buying more than for immediate requirements. There is a feeling that prices have reached the top notch, and that nothing can be lost by waiting, while there is a chance that some grades of lumber will weaken during the winter months, to advance to the present basis again in the spring. The only danger in adopting this course is that dealers may be unable to locate the stock when they are ready to buy. From present indications there will be a lumber famine on a small scale before the spring of 1900 is reached. Dealers in the Eastern States are much interested in the freight rate situation. Vessels are very scarce, and rates have advanced so that the lowest figure from Lake Superior points to Lake Erie ports is \$3.25, with quotations being made as high as \$4. This condition is likely to reduce the quantity of white pine which will find its way to the eastern trade,

LUMBERMAN'S VEST-POCKET INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the
Canada Lumberman.

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

and as a result dealers are turning their attention to Canada in the hope of augmenting their stock from this quarter. Low grade stock continues to show the greatest degree of strength, and it is almost impossible to name a market price for box stuff. A correspondent in Michigan explains the situation in these words: "High prices for logs, high freights, and good old Republican times make our business the best we have had for the past seven years." Prices at Michigan producing points have now reached almost the highest mark ever known, as will be observed by reference to our quotations on page 4. Even \$15 is being paid for box lumber, which is an advance of \$5 per thousand since last spring.

The hardwood market has not changed, there being no visible falling off in the demand. White and brown ash is quoted at Boston at \$42 to \$45, quartered white oak at \$70 to \$72, and thick oak at \$72.50 to \$76. Elm and maple meet with ready sale at advanced quotations.

FOREIGN.

The difficulty in securing tonnage is strengthening the British timber market. Prices of lumber generally are improving, although Canadian pine does not seem to participate in the improvement to the extent it should. The Timber Trades Journal believes that this is due to inferior shipments, coupled with the inordinate quantities of oddments in pine specifications, which has disorganized values.

From what can be learned, however, pine deals are likely to advance considerably in the near future. At London Quebec pine deals of first quality are selling at £20 to £24 per standard, second quality at £15 10s to £16 10s, and third quality at £9 to £9 10s. There continues to be a steady improvement in spruce deals and planks. The railway contractors have now entered the market and are purchasing large quantities of first, second and third quality. Sales are reported at £12 for 2 inch first quality deals, £8 10s for second quality, and £7 15s for third quality. These prices are for the Quebec production, New Brunswick deals being quoted at slightly lower figures.

There is a good demand for square and waney pine timber of first-class quality, but the stock of second quality is sufficient to meet immediate requirements. Elm and birch timber are strong, the former selling at 25 ad to 25 6d for first class of 40 to 45 feet average. Ash timber is firm and the stock light. Red pine deals are low in stock and wanted.

THE SHINGLE AND LATH MARKET.

There is a scarcity of shingles and lath throughout the Eastern States. Buffalo dealers have recently issued a new price list, making a 30 cent advance upon the former price, quotations now being as follows:

WHITE PINE.—18 inch XXXX, \$4; 18 inch clear butts, \$3.75; 18 inch sound butts, \$1.80; 16 inch XXXX, \$3.55; 16 inch extra "A"s, \$2.75; 16 inch "A"s, \$2.70; 16 inch XX, \$2.65; 16 inch 6 inch sappy clear butts, \$2.30; 16 inch sound butts, \$1.80; 16 inch culls, \$1.55.

CEDAR.—18 inch XXXX, \$3.70; 18 inch clear butts, \$2.85; 16 inch XXX, \$3.10; 16 inch extra "A"s, \$2.70; 16 inch "A"s, \$2.45; 16 inch clear butts, \$2.20; 16 inch culls, \$1.55.

At Saginaw there has been a remarkable advance in lath, No. 1 white pine being now held at \$3.50 and No. 2 at \$3, against \$2 and \$1.50 as the prevailing price six months ago. At Buffalo lath is now quoted at \$3.25 for No. 1 white pine, both 1 and 1 1/2 inch. Cedar shingles are not as much inquired for as one month ago, the price at Boston being \$3.10 for extra quality.

STOCKS AND PRICES.

The vessel Johnson sailed last week from Little Current, Ont., for Chicago, with 600,000 feet of lumber.

The barque Reform sailed last week from Yarmouth, N.S., for Buenos Ayres, with about 700,000 feet of lumber.

The barque Walter G. sailed last week from St. John, N.B., for Buenos Ayres, with a cargo of lumber, shipped by A. Cushing & Co.

The Turner Lumber Co. are engaging a large number of men to go to the lumber woods. Their limits are in the Parry Sound district.

David Sword, of Christie, has been given a contract by the Parry Sound Lumber Co. to get out 3,000,000 feet of logs during the coming winter.

R. Connolly, of Eau Claire, Nipissing district, has put in a logging camp on the Little Sturgeon river. He expects to make a larger cut than last year.

The schooner C. J. Woods is now loading props at Ganges Harbor, B.C., for Santa Rosalia, on account of a Mexican firm. The schooner is capable of carrying 900,000 superficial feet of lumber.

The Gilmour Co., of Trenton, Ont., are taking a considerable quantity of timber from their limits in Harvey and Galwey townships. It is reported that the company will cut the logs at Pigeon lake, but the report is not confirmed.

In the Saginaw valley common log run pine is held at \$16 to \$18, and good log run at \$20 to \$24. Norway piece stuff is scarce and sells at \$12 to \$14 for short lengths and up to \$13 for long stuff. Mill culls are quoted at \$12.

J. Dewar & Son, of St. George, N.B., are reported to have purchased 25,000 acres of timber lands, with a wharf privilege, from Daniel Gilmore. The limits have not been cut over for many years, and are said to contain some excellent timber. Messrs. Dewar expect to cut about 5,000,000 feet-of-logs on the property this winter.

Hardwood, of Chicago, reports that the Litcher & Moore Lumber Co., of Orange, Texas, is about to close a contract with the British government for 500,000,000 feet of yellow pine lumber. The contract calls for the delivery of the lumber at gulf ports, and the impression is that part of it is intended for South Africa and part for the British West Indies. Should the report prove correct, it will take all the mills of Texas a year to cut the lumber for this contract.

Following is a comparative statement of timber, &c., measured and culled at Quebec to September 12th, 1899:

Table with 4 columns: Species, 1897, 1898, 1899. Rows include Waney white pine, Square white pine, Red pine, Oak, Elm, Ash, Basswood, Butternut, Tamarac, Birch and Maple.

WESTERN CANADA EDITION.

The publishers of the CANADA LUMBERMAN are completing arrangements for the publication, about the 1st of October next, of a special number, to be known as the Western Canada Edition, and to be devoted particularly to the lumber interests of Manitoba, the Northwest Territories and British Columbia, and to the export lumber trade of this part of Canada. It is the purpose to place a copy of this number in the hands of every saw mill owner, retail dealer and wood-worker in Western Canada, and also to distribute a large number of copies amongst the timber importers and others interested in Great Britain, South America, China, Japan, South Africa and Australia, to which countries British Columbia timber products are exported. By this means it is sought to better acquaint foreign consumers with the timber resources of our western provinces, and with the possibilities of obtaining supplies in Canada. There are many manufacturers in the Dominion who are interested in supplying the lumber requirement of the countries named. To these the opportunity is given of being represented in this number. Information regarding prices for

advertisements will be gladly furnished upon application.

SALE OF TIMBER LIMITS.

OVER \$130,000 REALIZED FOR FOUR PARCELS.

As announced in the CANADA LUMBERMAN, the sale of timber limits belonging to the late firm of Hale & Booth took place at the Russell House, Ottawa, on Wednesday, September 6th. Mr. Peter Ryan, of Toronto, officiated as auctioneer. There was a large attendance of lumbermen, including Thos. Pitts, Bay City, Mich.; John Charlton, M. P., Lym-doch; A. E. Dymont, M. P., Thessalon; J. B. Klock, M. P. Klock's Mills; James Play-fair and D. L. White, Midland; E. Sparrow, Houghton, Mich.; C. McCool, Thos. Mackie and Alex. Barnett, Renfrew; C. McLachlin, Arnprior; M. Quinn and Hon Peter White, Pembroke, and many other Ottawa Valley lumbermen.

The bidding for the limits was quite keen, the result being that for 137 1/2 square miles there were realized over \$430,000.

Parcel No. 1 proved the greatest attraction. It comprised berth No. 32 on the north shore of Lake Huron, an area of 36 square miles. The buyer was Mr. Thos. Pitts, of Bay City, Mich., at the price of \$315,000.

Parcel No. 2, being berths 2, 3 and 4 in the township of Butt, contiguous to the line of the Ottawa, Arnprior and Parry Sound railway, containing 13 1/2, 12 and 11 1/2 miles respectively, was sold to Mr. John R. Booth for \$75,000.

Parcel No. 3, berths 136 and 137 on the Serpent river, area 36 miles each, was sold to Mr. John Charlton, M. P., for \$30,000. Considerable timber has been cut on these limits, but there is still a considerable quantity standing.

Parcel 4, berth No. 1, township of Hanmer, Vermillion river, area 7 1/2 miles, was sold by private sale previously to Booth & Shannon, of Pembroke.

Parcel 5 was a 28 mile limit in the township of Sprague, which was sold to R. Brewder, of Ottawa, for \$10,300.

WANTED

Rock Elm, cut to order. Soft Elm, all thicknesses. Black Ash, all thicknesses. State quantity you can supply, with lowest prices. JAS. G. CANE & CO., 35 Adelaide St. E., Toronto, Ont.

LAWRENCE & WIGGIN

Wholesale Lumber Dealers - 55 Kilby Street, BOSTON, MASS.

SHIPPING MATTERS.

Following charters are reported: Str. Bentala, 1,793 tons, Richibucto, N.B., to Liverpool, deals, 55s, September loading; bark Antilla, Bridgewater, N.S., to Buenos Ayres, lumber, \$10.50, if Rosario, \$11.50; str. Rose-nath, Miramichi, N.B., to w.c. England, deals, 60s; bark W. W. McLaughan, Anna-polis, N.S., to South American port, private terms.

Mr. Arthur White, divisional freight agent of the C.P.R., has sent out the following official circular announcing an advance in lumber freight rates: "I beg to advise you that, commencing on November 15th, an advance will be made in lumber, forest products and cordwood local tariffs of one-half cent per 100 lbs. I thought it better to give you this early information, although, after the consultation I had with the lumbermen generally last spring, it will, no doubt, be borne in mind that after we compromised on the advance of one-half cent. per 100 lbs., I very clearly led everyone to feel that an increase of one cent per 100 lbs. should have been made in May, but acting under the advice of the gentlemen who composed the lumbermen's committee, we only advanced the rates one-half cent in order not to hamper the then expanding trade, until it had become clearly established that the improvement in the lumber business was likely to be of a permanent nature for some time to come, and this is certainly now the case. We shall drop the hardwood column from our tariff G.N. 14 altogether."

THE GLASGOW MARKET.

The following particulars of the Glasgow timber trade are given in the monthly market report of Allison, Cousland & Co., dated September 2nd:

There has been a marked improvement in business during the past month. Imports have been very moderate. Buyers are now practically convinced that the market is steadily rising; good sales have been made ex quay, and yarded stocks are now being rapidly reduced. Prices are very firm, and there is no inclination on the part of sellers to force any class of goods. Provided trade continues in the satisfactory condition it is at present, the prospects of higher prices are very bright, as there will be a decided scarcity in some items.

WANKY WHITE PINE—There has been a better inquiry, and prices for 1st class wood are firm. 2nd class wood is gradually being worked off, although prices are still low. Quotations—1st class, 19 to 20 inches average, 25 6d to 25 9d. 2nd class, 15d to 25 per cu. ft.

SQUARE PINE—Very little business is reported, the demand being limited, and the stock consisting mostly of wood of small average.

RED PINE—There is little enquiry except for wood of large average girth.

ELM—The demand has been exceptionally brisk, and prices are very firm. 1st class wood, 45 to 50 ft. average, is quoted at 25 4d to 25 6d; 2nd class at 25 per c. ft.

OAK—The import has been considerable, and very little business has been done outside of railway requirements.

ASH—Stocks are light, and prices for fair sized wood are very firm at 23d to 25 per c. ft.

BIRCH—The stock is normal, and for the most part in consumers' hands.

QUEBEC DEALS, BATTENS AND BOARDS—Imports, with the exception of spruce, are considerably lighter than last year, and prices are advancing all round.

PINE—Firsts.—There has been a good demand for 1st deals of all sizes, and prices are firmer. Broad are quoted at £24 15s to £25 8s 9d. Undersized, £17 3s 9d to £19 5s per St. Pet. std. Seconds are seldom enquired for. Broad deals are quoted at £17 17s 6d to £19 5s. Undersized, £13 15s to £14 8s 9d per St. Pet. std. Thirds.—Regulars continue in good demand, but undersized are seemingly not wanted. Quotations Regulars, £9 12s 6d to £10 6s 3d. Undersized, £7 11s 3d to £8 5s per St. Pet. std. Fourths.—Prices have improved, and are now firmly held at £7 7s 9d to £7 11s 3d for regulars. Undersized, £6 10s 7d to £6 17s 6d per St. Pet. std.

RED PINE—Stocks are very low, and shipments are readily disposed of at good prices.

QUEBEC SPRUCE—Business continues in a satisfactory condition, and prices have an upward tendency. Quotations—£6 10s 7d to £7 11s 3d per St. Pet. std.

N. B. BIRCH—Prices are firm. 15 to 16 inch wood is quoted at 17d to 18d. Planks, 10d to 15 per c. ft.

N. B. DEALS, BATTENS AND BOARDS—There is a fair demand, and prices have im-

proved considerably. Quotations—£6 10s 7d to £8 11s 10d per St. Pet. std.

N. B. SPRUCE—Business is active, and prices firm. Long lengths of 9 and 11 inch are scarce, and would fetch good prices. Quotations—£6 10s 7d to £8 18s 9d per St. Pet. std. for 2nd quality average.

The following figures show the imports to the Clyde from America from 1st January to 31st August, for four years:

Year.	White Pine Logg.	Red Pine Logg.	Quebec Oak Logg.	Elm Logg.	Birch Logg.	Ash Logg.	Deals, Battens & Boards. Pi. etc.
1895	13,000	1,705	1,390	2,514	6,354	3,300	2,221,490
1897	6,662	551	1,343	1,590	7,198	1,165	2,096,117
1898	4,765	653	1,251	1,565	2,479	1,759	3,027,789
1899	8,743	1,347	2,392	1,555	7,282	1,463	3,516,842

FIRES.

A shingle mill at Merrickville, Ont., owned by Mills Bros., was burned recently.

The planing mill of John Monkhouse at Markham, Ont., together with a quantity of lumber, was destroyed by fire on the 6th inst. Loss is about \$3,000 and insurance \$1,000.

Two pulp mills at Riviere au Pierre, on the line of the Quebec and Lake St. John Railway, controlled by the International Paper Co., of New York, are reported to have been destroyed by fire a few days ago.

The assignment is announced of Wm. Allen, saw mill owner, Farewell, Ont.
