DOUBLE MURDER AT MONTREAL PROVES MYSTIFYING TO POLICE VICTIMS' CHILD ACCUSES UNCLE

Mrs. Francis Vautour Found Dead in Bed and Husband in Ante-Mortem Statement Told of Assault by a Stranger—Boy Says His Mother's Brother Was Perpetrator.

MONTREAL, Feb. 23.—(Can. Press.)—In the early hours of this morning in the home of Francis Vautour, 187 Grand Trunk street, Point St. Charles, Mrs. Vautour, 32 years of age, was found murdered in her bed and her husband, who died later in the day in the Notre Dame Hospital, was found with a gash in the side of his face, his jaw broken and teeth knocked out.

The bed on which the murdered woman lay was saturated with blood, as also were the pillows of a bed in another room, where six children of the couple, ranging in age from 3 to 9 years, had been sleeping.

Captain Coleman of the Grand Trunk street police station is holding Alfred Michael, 46 years of age, a brother of the woman, in connection with the tragedy. The husband of the dead woman was also under guard of a policeman until he died.

Early today Theodore Vautour, 9 years of age, entered the Grand Trunk street police station and informed Lieut. Bellefleur that his mother was dead and his father badly injured. The child said that his mother was lying dead in bed with three wounds in her throat. Vautour was standing in the kitchen with a bloodstained towel wrapped around his face.

Dying Man's Statement. He was rushed to the hospital, and although barely able to speak, contrived to say that sometime during the night he received a heavy blow. When he regained consciousness he found his wife dead in bed beside him and his own face smashed open. He could not say who had committed the crime. A bottle containing brandy was found in the house, and Vautour admitted he had been drinking.

Theodore Vautour, the 9 year old son, told Captain Coleman that he was awakened about 2 o'clock in the morning by a man with a lighted lamp in his hand, who walked into the room occupied by himself and his brothers and sister. He said the man placed the lamp on the kitchen table and turned the light down low. Then he came back into their room and caught him by the throat and threatened to kill him, and he also caught hold of his brother Victor, 7 years younger, threatening him in the same manner. Theodore said he recognized the man as his uncle, Fred Michael, his mother's brother.

The boy told the story in the presence of his father while waiting for the ambulance. Captain Coleman asked the father if he had seen Michael during the night. Vautour said that he would not tell. He thought he did, but was not sure.

Boy's Story Puzzles Police. When his father had been taken to the hospital, Theodore told the police that when he saw his uncle in the house he had an ax and had used the ax to break open the door at the head of the stairway leading from the street. An examination of the door disclosed no sign of having been tampered with. The boy, although questioned closely, maintained that his story was correct. The police regard the case as one of the most mysterious with which they have had to deal in years.

ALMOST RIOT AT BRANTFORD

Several Thousand People Threatened an Attack on Police Station Following Arrests.

BRANTFORD, Feb. 23.—(Special.)—Following the arrests of two disorderly men here Saturday night, there was another near riot in which several thousand people gathered around the police station. Trouble was threatened, but the police persuaded the assembly to break up peacefully.

Wilson was first taken into custody, charged with creating a disturbance in the Glen Theatre. The second arrest was that of Harry Wilson, charged with being disorderly in Brewer's store.

Friends of Wilson called on the crowd to prevent the police from arresting him and disgraceful scenes were enacted during which the patrol wagon was shunted around the block and the police given a rough time. Both arrests were finally effected.

Wilson is charged with being a participant in the riot here prior to Christmas and was out on bail of \$3000 when arrested.

MILLER MAY NOW ANSWER QUERIES

State Prisoner Willing to Talk if Questions Are Altered Somewhat—Before Bar Today.

OTTAWA, Feb. 23.—(Can. Press.)—The case of R. C. Miller, the state prisoner, will quite probably come before the house again this week. Conferences were held on Saturday before Miller, his Montreal counsel, A. E. Harvey, K. C., and F. B. Proctor of Ottawa, who has been retained.

It is intended to approach the authorities of the house tomorrow with the suggestion that if the question is somewhat altered Miller may answer. The stand he takes is that in his dealings in the matter the public interest was not involved, and any expenditure of money in connection with the matter was made to a private individual whose engineering experience was requisitioned.

It is alleged that the party was a former employe of the government, who, at the time the contracts were entered into, had left the government service and who has since died.

PEACE WILL BE CONCLUDED BY FIRST WEEK IN MARCH

Secret Negotiations Between Turkey and the Allies May Conclude in Termination of Balkan War Before the Surrender of Adrianople, Which Is Threatened.

LONDON, Feb. 24.—(Can. Press.)—The correspondent at Belgrade of The Daily Mail says he learns from a reliable source that Turkey and the allies are secretly negotiating, and that peace is likely to be concluded by the first week in March.

An uncensored despatch from Constantinople to The Daily Mail says that the correspondent hears that Shukri Pasha, the military commander at Adrianople, has informed Scheffer Pasha, the grand vizier, that he will be unable to prolong the defence of Adrianople beyond another week, and that the grand vizier replied urging Shukri to hold out for three weeks, by which time he said he hoped peace would be concluded.

REV. C. T. COCKING PASSED AWAY SATURDAY

Missionary Son of Methodist Missionary Had Been in Failing Health For Six Years—Spent Many Years in Japan and Was Well Known in Canada.

The death occurred at the Wellesley Hospital on Saturday of Rev. C. T. Cocking of Toronto, in his 52nd year. He had been compelled to retire from active ministry in the Methodist Church about six years ago owing to ill-health, but was able to be up and out of doors until the beginning of the year. Three weeks ago he took a turn for the worse. He was removed to the hospital last week.

The Rev. Mr. Cocking had become widely known through the Methodist Church as the missionary son of a missionary. He was born in India in 1861. His father was Rev. C. Cocking, a missionary sent to India by the Methodist Church. He received his education in England and came to Canada in 1880, taking the position of pastor in the Methodist Church at Markham.

Went to Japan. In 1884 Rev. Mr. Cocking followed the example set him by his father and became a missionary. In that year he was sent to Japan under the auspices of the foreign mission board of the Methodist Church in Canada. He remained in Japan until 1890. The two main stations to which he was attached were Tokyo and Yokohama.

On his return to Canada, he served under the Toronto Methodist Conference in several northern churches, among which were Penstangishene.

LIBERALS WILL CONTINUE TO FIGHT

Caucus Decided to Introduce Temperance Policy, to Demand More Protection in Factories, to Continue the Fight For Tax Reform and Check Combines' Growth.

It is just now beginning to be understood that the caucus of Liberal members of the legislature, held last Thursday, was an important meeting. It is said that four matters were definitely decided and the results of at least two of the decisions have already been apparent in the action of the opposition since Thursday. At the caucus, for example, it was decided to introduce immediately the temperance policy of last session.

Another more settled upon was to demand a modern up-to-date factory act for the protection of workers in shops and factories especially women and children. The opportunity came quickly, for on Friday afternoon the government asked for the second reading of its new Factories Act. Mr. Rowell objected that it was not sufficiently modern and tried to prevent the second reading.

For Tax Reform. In the third place the caucus decided to keep up a strenuous fight for tax reform all session. It is expected that a number of important proposals amending the Assessment Act will be submitted by the Liberals.

Finally it was determined to continue to fight against what the Liberals considered the government's protection of combines. In this connection it was pointed out quite clearly that the opposition of the Liberals is not so much a condemnation of the government's failure to go on with combining prosecution several years ago, as the fact that in their opinion the offence is continuous, going on year in and year out, and that the combines are still unchecked.

GRANT MADE TO POLAR EXPLORER

Stefansson Will Be Committed to Undertake Work Solely on Behalf of Canada.

OTTAWA, Feb. 23.—(Special.)—It was decided at the cabinet meeting yesterday to grant \$75,000 to Vilhjalmur Stefansson, the explorer, to assist his equipping an expedition to explore the north of Canada. This grant was made on condition that the American Geographical Society and the American Museum of Natural History released him, in order that any exploring he may do, will be done solely on behalf of Canada.

Stefansson expects to make a start early in the spring, and will be gone for about four years. If conditions are favorable he may attempt to make a dash to the pole, but his main object will be to compile geographical data of the far north. Stefansson, it will be remembered, was the man who discovered the blonde Eskimauk.

MADERO AND SUAREZ SHOT DEAD AT MIDNIGHT ON WAY TO PRISON PLOT OF GOVERNMENT SUSPECTED

EX-PRESIDENT MADERO

INTERVENTION IS LAST RESORT SAYS TAFT

Supporters of Popular Government Must Not Despair, Tho Outlook Is Discouraging One, President Declares at Peace Dinner—Gives Rebuff to Exploiters.

NEW YORK, Feb. 23.—(Can. Press.)—President Taft, guest of honor at a peace dinner tonight, at which a medal was presented to him in token of his services in the cause of universal peace, spoke frankly of conditions in Mexico as he viewed them and declared for the exercise of every possible effort in avoidance of intervention in the affairs of that republic.

The medal, given by the National Institute of Social Sciences at the dinner of the American Peace and Arbitration League, was presented by Joseph H. Choate, former ambassador to Great Britain.

"Mexico for two years," said Mr. Taft, in his address, "has presented a very sad picture to every lover of his kind; to every supporter of popular government, to every man hopeful of establishing peace under a stable government. But we must not despair. We must not, in a case like Mexico, for it differs from the Central American republics—take such action as we are moved by selfish purposes, or are urged to in opposition to us."

"We must avoid in every way that which is called intervention and use all the patience possible, with the prayers that some power may arise there to bring about peace through that great country. We have to take precautions, and these have been taken.

No Sympathy With Exploitation. "But I have no sympathy—none at all—and the charge of cowardice does not frighten me—with that which prompts us for purposes of exploitation and gain to invade another country and involve ourselves in a way, the extent of which we could not realize, and the sacrifice of thousands of lives and of millions of treasure—and then, when we have succeeded, what?"

While Official Version is That Escorts Were Surprised by Band of Unknown Assassins Public Largely Discredits it—New Administrators Profess to Be Greatly Disturbed and Declare Full Investigation Will Be Held and Perpetrators Punished—Mexico City Receives News Quietly—Details Are Shrouded in Mystery

MEXICO CITY, Feb. 23.—(Can. Press.)—Francisco I. Madero and Jose Pino Suarez are dead: In a midnight ride under guard from the national palace to the penitentiary they were killed.

The circumstances surrounding the death of the deposed president and vice-president of the republic are unknown, except as given in the official accounts, which do not conform in all cases. The only witnesses were those actually concerned in the killing.

The provisional president, Gen. Victoriano Huerta, says that the killing of the two men was incidental to a fight between their guard and a party attempting to liberate them. The minister of foreign relations, Francisco De La Barra, adds that the prisoners attempted to escape. Neither makes a definite statement as to which side fired the fatal shots. It is not impossible that neither knows.

An official investigation has been ordered to determine the responsibility and solemn promises have been made that the guilty will be punished.

DOUBT OFFICIAL VERSIONS. Not unnaturally a great part of the public regards the official versions with doubt, having in mind the use for centuries of the notorious "Ley Fuga," the unwritten law, which is invoked when the death of a prisoner is desired. After its application there is written on the records, "Prisoner shot trying to escape."

Senora Madero, the widow of the ex-president, received the first definite information of his death from the Spanish minister, Senor Cologan y Cologan. She already had heard reports that something unusual and serious had occurred, but friends had endeavored up to that time to prevent her from learning the whole truth.

Soon afterwards, accompanied by her brother, Jose Perez, and Mercedes Madero, a sister of Francisco, Senora Madero drove to the penitentiary, but was refused permission to see the body of her husband. Senora Suarez was also denied admittance to the mortuary, where physicians, in accordance with the law, were performing an autopsy.

SISTER HURTS ACCUSATIONS. In contrast to the widow, whose grief was of a pitifully silent character, expressed in sobs, Mercedes Madero, a beautiful young woman, educated in Paris, who has been a brilliant leader of society since the revolution of 1910, was fiery eyed and tigerish in her emotions. By the side of the two women whose husbands had been killed, the girl buried accusations at the officers who barred the entrance.

"Cowards," "assassins," she called them, her voice pitched high. The officers stared impassively.

"You, the man who fired on a defenceless man, you and your superior officers are traitors."

No effort was made to remove the women, nor did the officers attempt to silence them.

BODIES WERE GUARDED. Senora Madero continued weeping, and the girl did not cease her hysterical tirade until the arrival of the Spanish minister and the Japanese charge, who came to offer their services.

The minister spoke with the officers in charge, but was told that on account of the autopsy it would be impossible for anyone to see the bodies. Later in the day, they said, the request would be complied with. The diplomats then conducted the women away from the penitentiary. Senora Madero's father and Rafael Hernandez, former minister of the interior, and other friends made efforts early in the day to recover the bodies, and it was stated this afternoon that the American ambassador, Henry Lane Wilson, had interested himself and secured the promise of Minister De La Barra that the bodies should be delivered to their families for burial.

TRAGEDY DEEPLY DEPLORED SAYS DE LA BARRA IN NOTE HAD INTENDED FAIR TRIAL

HUERTA'S NAME DEEPLY STAINED

Statement Given to Foreign Diplomatic Representatives by Minister Lays Emphasis on New Administration's Wish to Comply Fully With Processes of Law.

MEXICO CITY, Feb. 23.—(Can. Press.)—Francisco De La Barra, the foreign minister, sent an official statement to the foreign diplomatic representatives, in which he said:

"The department of foreign relations desires to make known, as already announced to the ambassador of the United States, the British minister and other members of the diplomatic corps on various occasions, that the government decided at a council of the ministers that all acts relating to Madero and Pino Suarez should be adjudicated strictly according to law, as was due, and that in consequence the accusation process, if such had taken place, would not have departed one iota from the legal measures applicable to the case."

"That after taking the decision the government agreed to remove Madero and Suarez to the penitentiary, where they would have the necessary security, consideration and comforts."

Compliance With Law. "That yesterday morning the minister of foreign relations so informed Ambassador Wilson, saying that the Mexican Government would proceed always in accord with the law and that the removal of the ex-president and the ex-vice-president to the penitentiary would be for the reasons aforesaid."

"That it was further expected that in the passage of time political passions would be subdued, resulting in the establishment of greater calmness and judgment through the republic."

"I am certain to give all the facts of which I am cognizant connected with"

GAGE WINS FINAL IN HEAVIES BY DEFAULT

Thus Varsity Gets Championship, But Big Boxer's Eligibility Is Questioned.

KINGSTON, Ont., Feb. 23.—Providing C. Gage, heavyweight boxer of Varsity, is eligible for the amateur ranks, Varsity will be declared winner of the intercollegiate assault-at-arms. The finals were pulled off Saturday night before one of the largest crowds ever assembled in the college gymnasium and when the summing up was made it was found that each of the three universities had carried off two events. Varsity won in fencing, bantam and middleweight boxing and bantamweight wrestling. McGill captured the bantam and lightweight wrestling and bantam and welterweight boxing. Queens won the featherweight, welterweight and heavyweight wrestling and light heavyweight boxing. Gage for Varsity was the only man entered for the heavyweight boxing. Queens won the intercollegiate honors for three years in succession. Varsity put it all over Ewart, McGill, his opponent not being in his class at all. Gage, Varsity, had no trouble in knocking out Ewart in the middleweight boxing. He has considered the most finished sparrer in the intercollegiate ranks and knocked out the man on whom Queens rested their hopes. Robb only lasted one round. He was given time to come back, but Levy repeated the medicine. Queens easily missed Moxley, their celebrated boxer, for this contest. Highlanders Give the Greens a Hard Game—Cavalry Beat Q. O. R. by One Run.

Highlanders came to life Saturday night and gave the Grenadiers their hardest game of the season. Until the later stages of the game it looked like a victory for the Kitties, but the Greens finished strong and kept up their unbroken line of victories, not having lost a game this season. Godfrey had some difficulty in finding the plate and was replaced by Wright in the eighth. Duncanson was in good form, not passing a man. Cavalry caught the Queen's Own overconfidence and handed them a rude jolt in the form of a 10-17 victory. Cavalry were in good form, every man fielding his position beyond criticism. Barton, Hardy and Macdonald, batted magnificently, cutting off many a hit by their fast work. Biggs also made some nice catches of fly balls. Queen's Own outfit Cavalry, 2 to 1, but their carelessness on the bases and very loose fielding they just handed the game to Cavalry. Scouts was having trouble locating the plate, he passing nine men. When he did get them over, Cavalry could not do much with them, for he struck out nine men. This loss is a hard blow to the Queen's Own, as it gives Grenadiers a clear lead of two games. NURSERY

CONDUCTED BY
Elinor Murray

"Father, make that boy behave himself!"

The boy in question was seated tilted back in a chair, with his feet on the white, new wall of a house in which his family were guests.

Previous to this, the mother had implored the boy by look, gesture and voice to act like an ordinary well-mannered boy would act.

It wasn't the boy's fault altogether. His mother had overlooked such conduct time and time again at home; and then expected him to know how to behave on what she would call special occasions.

Now, as it happens, father left home very early in the morning. He returned just in time for a late supper at night. This, and some extra hours on Saturday and Sunday were the only times he saw his family. How could he be expected to take a hand in the disciplining of Willie, when he had no idea of the boy's character?

This is a point where many mothers fail. They should be supreme in the molding and training of the young. Much of the blame for the boy's behavior is beyond them and they must appeal to the great unknown quantity—father.

The average father knows nothing of the intimate association that exists between the mother and the children. Of course when the children grow up, father comes in for his share of jolly companionship; but during the first years it is upon the mother that the entire responsibility of training must rest. And when the mother considers that the reputation and future of the child rest very largely upon his training, she wakes up to the fact that if she is a tremendous responsibility indeed.

Whether we are at birth endowed with intellectual powers, or whether our mind is a blank upon which impressions are made, our thought and character, it remains that the impressions of the first seven years stay with us longest.

Whoever has been training a child receives the training of his mother. She gives him his earliest impressions of the things in this world, and she must see that the impressions are worth while. Of course the father must play a part in the training of his children; he is not to consider himself exempt from this important duty.

Yet it is inevitable that the home keeping must fall to the mother and the child-getting to the father; and the children, the greater portion of it must devolve upon the woman and she must prove herself equal to the task in every particular. She must be firm for the disciplinarian (?) who declares twenty times a day: "I'll tell your father!" She must be firm, for father, the children, and mother. Have I made it clear how entirely wrong it was for Willie's mother to think it necessary to appeal to Willie's father?

REBECCA IS HERE FOR WEEK'S STAY

Edith Taliaferro at the Princess With Her Quaint Characters.

MISS TEMPEST BACK

"Shepherd of the Hills," the Strong Play, at the Grand.

"Rebecca of Sunnybrook Farm" will return to the Princess Theatre this week beginning tonight and with matinees Wednesday and Saturday. Mrs. Wiggins and Charlotte Thompson have most happily presented such well-remembered incidents as Rebecca's ar-

Edith Taliaferro, in "Rebecca of Sunnybrook Farm," at the Princess.

Edith Taliaferro is so identified with the part of Rebecca that impersonation is forgotten in her naive and ingenious handling of the role, and she seems really only a child in years, and the assistance of Elsie, the long dresses of the final scene come as a complete surprise.

Willie again be seen as the jovial, whole-souled stage driver, comforting Rebecca in her troubles and playing the rustic diplomat for all Riverboro. Others of the original cast are Marie Day, Eliza Glassford, Ada Deaves, Viola Fortescue, Hayward Ginn, and Sam Coit. The matinee on Wednesday will be at popular prices.

The last and last week of the Montreal Opera Company's engagement at the Alexandra Theatre, which begins tonight, will assuredly be an even greater artistic and financial success than the two weeks just past.

No organization that has ever visited Toronto has aroused greater enthusiasm. If standing room only were permitted by the local authorities, many would be standing at tonight's production of "Carmen." It will, if the sale gives an indication of the audience that will appear to greet the local debut of the greatest "Carmen" since Calve retired from the stage. Many

choice locations are still available; but opera lovers would do well to book their seats early this morning. Madame Day is herself an intelligent grasp of perhaps a more intelligent grasp of how this famous operatic heroine should be played than any woman who has ever assayed the part. She is absolutely unconventional and throws new light on the role at every point.

Much interest also attaches to the appearance of Fernand de Potter as Don Jose. His splendid voice, fine appearance and acting ability should make him an ideal representative of the part.

"The Shepherd of the Hills," the dramatization of Harold Bell Wright's novel, which holds the record for the largest sales of any American work of fiction, which has been made by Mr. Wright, with the assistance of Elsie bery W. Reynolds, will be the offering at the Grand this week. The scenes of the play are laid among the Ozark Mountains of Missouri. It is a story of the hills and the simple life, yet it has plenty of excitement and an air of mystery that will hold the auditor from beginning to end.

"The Shepherd of the Hills" is this kind of a play. Mr. Wright had left within his soul the peace and beauty of the hills and he wishes to set down their meaning before him. He made a play that in plot is compelling, one that never fails in sincerity. The people who move in it are so human that the auditor will pick them out for like and dislike as if he really knew them.

Florence Tempest at Shea's Today.
For this week's bill at Shea's, the manager Shea has chosen for his headliner, Florence Tempest and company, in a tabloid Tempest and Company "College Life." There is plenty of bright comedy in the offering and many up-to-date and tuneful songs.

The special attraction for the week are Maude Lambert and Ernest Hall, the prima donna and the popular com-

CHOCOLATE LAYER CAKE

YOU must have cake ever so often and there are so many kinds that it is sometimes hard to decide which to make. A chocolate layer cake is like playing trumps, safe to do whatever in doubt.

Here's a recipe from so well-known a catering establishment that if I was to tell you the name, you just couldn't help giving me a questioning look.

It's perfect. Just try it and you will always use it. Follow these directions carefully, measure exactly and use the best materials, and you will have the best layer cake you ever saw for the cost.

The most difficult thing about cake making is the baking. The oven must be just right, or the cake will fail, no matter how carefully it may have been mixed.

An oven thermometer, or heat indicator, is of great assistance for the baking. Few ranges are furnished with them, but they can be had separately and may be attached at little cost.

The oven must be only moderately hot at first so the cake may heat thru and rise before a crust forms. Then the heat should increase so that when the cake has been in the oven one-half the time required for baking it will have a light crust formed. Now the heat may be slightly reduced if you are baking with gas.

A hotter oven is needed for a layer cake than for a loaf. Cake is done when it shrinks from the sides of the pan, but be sure it is done or it will fall as it comes from the oven into the cool air of the room.

The chocolate filling and icing may be made without cooking, by mixing confectioners' sugar with the white of egg and a little cream. When it is the right consistency add the dissolved chocolate and use immediately.

A more glossy, softer frosting is made by melting four tablespoons of unweetened chocolate with three tablespoons of milk. When smooth add a teaspoon of butter, and then a cup of sugar mixed with a well-beaten egg. Stir until smooth and glossy and use before it is quite cold.

A cream filling may be used between the layers and the cake finished with the chocolate frosting.

The cake should be almost cold before it is decorated.

poser, and Willard Simms and Company in the screaming farce "Fidlers Furnished Flat."

Other acts to be seen this week are: Hal Davis and Inez Macaulay, the Davies Family, European acrobats; Lew Hawkins, Chesterfield of Minnesota; Dolly Morrissey, singing comedienne; Ross and Ellis, comedy acrobats, and the Kinetograph.

The "Pacemakers," beginning the week's engagement at the Star Theatre this afternoon, will deserve its title among burlesque productions. The production is presented in three beautifully staged scenes, the first showing Miss Smith's seminary, the second the girls' dormitory, and the third a cafe and circus in New York City.

Mollie Williams' Company.
Confronting the public with a long felt want is sure to be a success, no matter how the article is served. An illustration is given by Mollie Williams and her company of burlesque stars, who are to appear at the Gayety this week, opening with a matinee today.

"The Bird of Paradise."
The sale of seats for the coming presentation of Oliver Morosco's production of Richard Walton Tully's picturesque Hawaiian romance, "The Bird of Paradise," opens at the Royal Alexandra Wednesday morning. The

Canadian Markets Adopt Steadier Tone---C.P.R. Up in London

QUIETEST MARKET IN A LONG TIME

Speculation Fell Off to Material Extent in Toronto Exchange at Week-End.

PRICES MERELY STEADY

Money Stringency the Leading Factor—No Relief Until May, Say Bankers.

The Toronto Stock Exchange proved a very tame affair on Saturday, the effect of the holiday across the border being apparent in greatly diminished trading and consequently narrow price swings. The only incentive for speculation was furnished by the London market, where an improved tone was in evidence. Even this failed to inspire any enthusiasm, however, brokers being inclined to await developments over the week-end before making commitments. The dealings were the smallest in a long time.

The decided tightness of money in Toronto is proving the biggest bugbear in our market. Brokers state that it is practically impossible to obtain loans on stocks, and are therefore compelled to demand large margins on purchases by their clients. In fact, some houses are still refusing to accept any orders for marginal trading, an altogether unprecedented feature for the month of February. In financial circles, meanwhile, conservative bankers report that there is little prospect of the stringency abating in any considerable extent until late in April or early in May. If peace were concluded in the Balkans, much hoarded money would be released in Europe, but even at that, funds would not be available to any extent for speculative purposes in Canada.

The general list maintained on an even keel on Saturday, with a few isolated indications of firmness. The strength in Spanish River, the leading feature, a rise of over a point carrying those shares up to 87 again, thus making up the loss of 20 points in Toronto Railway gained a fraction at 138 and closed bid there. Steel Corporation was also improved. Monarch preferred, Cannors and Pacific Burt were heavy, all three reaching new low records for the month. Monarch held at 84, and Cannors at 72, making a net loss of 5-8 points for the week in this issue. Pacific Burt at 89 stood at its lowest level since late in April of 1912.

RAILWAY EARNINGS MAKE SMALL GAINS

Traffic Considerably Under Record Volume of Last Month Here and Across the Line.

Railway earnings in Canada for the first two weeks of February, as reported to the commercial agencies, show a gain of 1.6 per cent. over the earnings of the same months last year. This is considerably under the improvement shown in the first part of January. In part, however, the difference may be accounted for by weather conditions, which were exceptionally favorable for railway traffic last month, whereas last year there was a severe and extreme cold prevailed in practically every part of the country. This month, so far, these conditions have been almost reversed.

FAILURE RECORD IS WORSE THAN YEAR AGO

The record of commercial mortality in the Dominion and across the border last week did not show up as favorably as during the similar period last year. In Canada there were 27 failures, as against 23 in the previous week, 34 the week before that, and 26 in the same week of last year. In the United States the insurance companies numbered 334, which compared with 329 the previous week, 309 the week before that, and 290 in the similar week of 1912. Liabilities of failures thus far reported for February are considerably greater than those for the same period last year.

TWIN CITY EARNINGS.

The earnings of the Twin City Rapid Transit Co. for the second week of February were \$158,977, an increase over the corresponding period last year of \$11,997, or 8.16 per cent.

STOCK MARKET HOLIDAY

Saturday being a holiday—Washington's birthday—across the border, there was no session of the New York Stock Exchange, the cotton market, or the Chicago Board of Trade.

MONEY MARKET

Bank of England discount rate, 5 per cent. Open market discount rate in London for short bills, 4.13-16 per cent. New York call loans, none reported. Call money in Toronto, 6 to 6 1/2 per cent.

FOREIGN EXCHANGE

SMALLER GAINS IN BANK CLEARINGS

Record Last Week Not Up to Usual Standard—Evidence of Quieter Trade.

The bank clearing record of the Dominion last week was not nearly as favorable as its immediate predecessors, the percentage of increase over the corresponding period of 1912 being only 10.8 per cent., compared with a gain of 22.4 per cent. in the previous week, and 17.1 per cent. in the week before that. It would appear from this that there has been a slowing up of trade through the country. An inference that is borne out by diminishing railway earnings and other statistics.

Table with columns: City, Last Wk., Last Yr., Inc. Rows include Montreal, Toronto, Winnipeg, Vancouver, Edmonton, Calgary, Ottawa, Quebec, Victoria, Hamilton, Kingston, London, Halifax, St. John, Saskatoon, Moose Jaw, Fort William, Brandon, Lethbridge, and Totals.

NOTHING WRONG IN TRADE ACROSS LINE

Big Increase in Week's Bank Clearings Evidences Uncle Sam's Prosperity.

Bank exchanges last week at all leading cities in the United States aggregated \$1,230,135,544, a gain of 39.2 per cent. over the same week of last year, and 23.3 per cent. as compared with the corresponding week in 1911. Every city included in the statement, except Louisville, which reported a small decrease from last year's figures, showed a very large increase.

A NEW INDUSTRY

Considerable Interest Taken in the Dalton Silver Black Fox Offering.

Considerable interest is being taken in the offering of stock in the Dalton Silver Black Fox Company, Limited, partly by reason of the fact that this is the first public flotation of the kind, and partly on account of the publicity given to recent sales of silver black foxes at remarkably high prices.

DIP HAS DISCOUNTED ALL THE DRAWBACKS

The outlook for the stock market is still pessimistic. It should not be forgotten, however, that prices have had a very considerable decline, amounting to 10 to 15 points since the beginning of November, which should discount all known drawbacks. Many securities are now selling upon a very satisfactory investment basis. There is no general uncertainty in either commercial or financial circles—There

DOMINION IRON MAKES ADVANCE

Trading in This Issue Is Chief Feature in Montreal Market.

MONTREAL, Feb. 22.—The holiday in New York brought the local stock market virtually to a standstill today. What features there were were provided by Dominion Iron, which displayed firmness, and C.P.R., which improved fractionally on the higher cables from London. There was little disposition here, however, to follow the P.R. advance, or make it a basis for bidding up prices at other points of the list.

ANOTHER COBALT CO. PUT OUT IN LONDON

Casey-Sutton-Cobalt Makes Its Introductory Bow to the English Public.

London has gotten over its rubber, oil and wireless craze, and is now turning its attention to Cobalt shares. During the last month several new companies have made their introductory bow to the English public, and the manner in which speculators have responded to the offerings of stock is plain evidence of the high regard in which they are held in this country.

MANY BARGAINS IN NEW YORK MARKET

The market is purely professional, with the bear side easiest under the circumstances. There are, however, apparently no great speculative concerns, and bears have little material to unearth in this direction. It is called the Casey-Sutton-Cobalt Proprietary, Limited, and is capitalized at \$100,000 in 100,000 shares of \$1 each. The property comprises five claims of 40 acres each, located in Casey and Harris Townships on the same elevation as the Casey Cobalt mine. Several veins have been uncovered on the surface, and the properties are claimed to have excellent showings.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Feb. 22.—There was a fairly good demand from foreign buyers for Manitoba wheat, but as cables were easier, with bids lower, only a few loads were worked. There was no improvement in the local demand for coarse grains, but the market is very quiet, with prices nominally unchanged. Flour is steady, with a fair amount of business doing in spring wheat grades for domestic account, but the export trade is dull. Mixed milling was in quiet demand for butter in the export trade. Receipts for week, 277 packages, against 274 a year ago.

MINING MARKET IS IN WAITING MOOD

Stock Exchanges Drift Into Comparative Dulness in Week-End Session.

OUTLOOK IS FAVORABLE

Public Interest Is Broadening Sustained Demand Is Again in Evidence.

The mining exchanges drifted into comparative dulness at the week-end, the majority of the listed issues, Cobalt and Porcupine, moving within an extremely narrow range, and undergoing no material change from the previous day. The trading volume was well sustained, however, the volume of sales being considerably above the average for a Saturday half-holiday.

Strength in Timiskaming, City of Cobalt and Porcupine Gold was, in effect, the only feature of the session. All of these issues maintained an appearance of definite firmness, Timiskaming rising over a point to 24, City of Cobalt and Porcupine Gold moving up a full point to 23. The most significant characteristic of the movement was the fact that this improvement was brought about by very few sales, thus evidencing the paucity of offerings in the market.

ST. LAWRENCE MARKET

Receipts of farm produce were light on Saturday, no grain or hay, and only a few farmers' loads of mixed produce in the north building. There was, however, a fair delivery of butter and eggs on the market, but poultry was scarce. Butter—Receipts were light and prices very firm; turkeys, 25 to 28c; geese, 18c to 20c; ducks, 20 to 25c; chickens, 20c to 25c; lamb, 15c per lb.

ANNOUNCEMENT of a NEW BOND COMPANY

Of interest to financial men and to the public generally is the formation of the Bankers Bond Company Limited, with a capital of One Million Dollars, headquarters at Toronto.

The President of the Company is Mr. F. W. Baillie, the Vice-President, Mr. F. P. Wood, and, in addition, a group of prominent Canadian banking men are interested both as investors and advisors.

The Bankers Bond Company will conduct the customary bond and preferred stock business, and aims to be of special service to the public in other ways.

It will assist worthy industries, business men and others who have not access to the customary channels for capital, to expand by financing the needed money. Canada has many industries only needing capital to become large and prosperous concerns.

Directed by men experienced in both investments and banking, the Bankers Bond Company should render valuable service to investors and business men. This should especially apply in a country such as Canada, so replete on one hand with opportunities for investment wherein judgment and foresight are needed, and, on the other, with opportunities for business expansion, provided financial assistance is forthcoming in either small or large amounts at crucial periods.

The Bankers Bond Company is the outcome of steady and important growth of the investment business done by the firm of Baillie, Wood and Croft, Bankers and Brokers, Toronto, during a period of ten years. The latter firm will hereafter confine themselves to Stock Exchange business.

The Bankers Bond Company Limited, have engaged as premises the ground floor of the Imperial Life Building, Victoria St., Toronto.
