NORTHERN ONTARIO LAND OF PROMISE

Model Log Cabin at C. N. E. Shows Possibilities in Agriculture.

To the average unobservant citizen, Northern Ontario has always been known as a far removed country...

To these kind of people, the model log cabin erected by the colonization section of the department of lands, forests and mines at the Canadian National Exhibition has been somewhat of a revelation and great shock.

That Northern Ontario should become a leading wheat country has in the past always been a subject for derision. The attackers claimed that as it was so far north a good production of fall wheat could not be made possible.

Director Macdonell refuted this assertion at the exhibit yesterday, while showing a party of interested citizens thru the building. He showed them wheat graded as No. 1 which had been threshed barely three weeks ago.

Farmers Enchanted. Many of the visitors who viewed the exhibit yesterday were farmers, and they were completely enchanted by the agricultural section, especially with the exhibit of potatoes.

CHARGE OF FRAUD. Charles Hardie, Kenilworth avenue, was arrested by Plainclothesman McMahon, charged with fraud by his employees, the Canadian National Exhibition.

THIRSTY FOR CONES. Fred Williamson, Shaw street, and John Shafiq, Brock avenue, were arrested by Acting Detective Tongue and Detective Sergt. Wickett at the Exhibition grounds yesterday.

ONTARIO PREMIER TO VISIT BRAMPTON

Will Discuss Live Topics in Support of Peel Soldier Candidate.

Sir William Hearst will speak at Brampton tonight in support of Major T. L. Kennedy, the soldier-Conservative candidate for Peel at the forthcoming provincial elections.

Prediction Within Mark. The article in The World yesterday to the effect that the referendum and the provincial elections would be held on the same day caused some discussion at parliament buildings.

Question Regarding Day. As there was considerable difference of opinion in one or two large political centres regarding having the referendum and the elections on the same day, there has been some little clash of view with respect to the particular day of the week upon which the prohibition and political plume should be taken.

LOCAL LABOR NOTES. A meeting of all parties in the local labor movement who are to take part in the coming federal elections will take place at the Labor Temple tonight.

Members of the Bricklayers' Union in the city of Winnipeg are receiving \$1 an hour for an eight-hour day.

CAPITAL ACCORDS OVATION TO PRINCE

(Continued From Page 1).

Over Sir Robert L. Borden and Hon. Martin Burrell, secretary of state, it reads as follows: "May it please your royal highness: On behalf of the government and people of Canada, we tender to your royal highness our loyal and cordial welcome."

"The association of your royal highness with our forces in the great conflict from which the British Empire and her allies have victoriously emerged, is a matter of deepest satisfaction to our people."

"The notable development in the status of the great Dominion has tended to strengthen the influence of the crown in binding together all the nations of the empire thru the tie of a common allegiance in which the united purpose and endeavor of all the British peoples find effective expression."

"I am deeply grateful for the cordial terms of your address and for its warm expression of your loyalty to the crown and person of my father, the King. I have not yet been a fortnight in Canada, but the greetings already given me exceeds my highest anticipations, and I shall be proud to tell his majesty on my return how kindly I was welcomed as his representative in this great Dominion."

"You have spoken, Mr. Prime Minister, of allegiance to the crown as the expression of that common devotion to British institutions and British ideals which unites all the people of the empire. I am conscious that this lays upon me, as his majesty's heir, a very grave and a very inspiring responsibility."

"I am also much touched by your kind reference to my small service as a junior officer during the great war. I can assure you that I value that experience, chiefly for the close association into which it brought me with my brother officers and men from all parts of the empire."

"I am touched by the warmth of your reference to the King and Queen and I will not fail to tell their majesties on my return of this city's appreciation of their gallant and heroic service during the great war. You have also mentioned, too kindly, my own service at the front. I regard that service as small indeed, by comparison with the service and sacrifice of all ranks in his majesty's forces and I can never adequately express either my deep appreciation of the gallantry or my profound sympathy with those who have suffered loss and disablement."

"I thank you again Mr. Mayor, and I wish all happiness and prosperity to the city of Ottawa."

"Barricades and police reserves finally gave way before the insistent rush of the thousands gathered outside of the barriers, and just before the prince finished his reply to the address of the city of Ottawa the crowd swept forward with a rush, passed the police, and in a few seconds were cheering and surging around the foot of the stand."

"Following the inspection he again entered his coach at the foot of the walk and drove thru the cheering crowds to the east gate leading from the hill and thence to Government House. In order to acknowledge the cheers better as his carriage drove from the grounds, the prince stood up, waving his gloves in his right hand and continued to do so until he reached the streets again."

"The Ontario provincial command, G.W.V.A., will present an illuminated address to General Sir Arthur Currie on his arrival in Toronto."

"The executive committee of the Ontario provincial command has decided to send a fax by its request that one thousand dollars per annum be the minimum pension for the totally disabled man, and will maintain their attack for that objective without pause."

Scene at Garden Party. The spacious lawns of Government House were a blaze of color this afternoon on the occasion of the garden party given by Their Excellencies the Duke and Duchess of Devonshire in honor of His Royal Highness the Prince of Wales. Good weather prevailed, there being only a brief shower to check the festivities, and that came toward the close. More than 2000 people, representative of Ottawa and out-of-town society, paid their respects to the hair apparent, and following the reception his royal highness moved among the throngs of the gaily decorated lawn, shaking hands and chatting with one or another of the guests as he progressed. The band of the Governor-General's Footguards was in attendance during the ceremonies.

The government will tender the Prince of Wales a luncheon at Chateau Laurier at 12 p.m., and between 3 and 4 in the afternoon a popular reception will be held at the city hall, when his royal highness has expressed his intention of meeting as many of the citizens of Ottawa as care to attend. ### CAFES BOOSTING PRICES OF FOOD

Some Are Said to Be Taking Advantage of Exhibition Visitors.

Dr. Hastings' department is investigating a complaint that a number of restaurants in the city have increased their rates for the period of the Exhibition. It is said that some of the cheaper cafes are even charging double prices.

The city solicitor's department says there is nothing in their license to prevent the restaurants from raising their rates at any time, but if there are any complaints lodged, the guilty ones can be dealt with when they make application for a renewal of license.

Speaking to The World, Mayor Church said it was high time the board of commerce got busy and looked into the food prices charged by Toronto restaurants. He said he had asked the medical health department some months ago to report on menus and prices of Toronto eating houses and have the information sent on to Ottawa. He believed that many of the better class were giving

### BAIRNSFATHER'S PLAY DELIGHTS THOUSANDS

"The Romance of Old Bill," as related in the film of "The Better Ole," is a stirring story containing a strong vein of humor and a message to all who see it. Old Bill is admirably presented by Charles Rock. The characters reek—that is a sound word to use about the trenches—of truth. We see Old Bill, Alf and Bert, those life studies in khaki. Only a percentage of people have seen the legitimate version, which begins with a prolog in "Marsellaise" and the three musketeers of Dumas. These dissolve into the modern trio of warriors—Old Bill, Bert and Alf. We see them in their dugout, making merry in billets behind the lines, then off to Blythe and their welcome home. "The Better Ole," together with the Canadian National Weekly, Pictorial Life, Outing, Chester, British Weekly and "I Guarany" overture by the incomparable Allen Orchestra under the direction of Luigi Romanelli make a very enjoyable entertainment.

### SECOND STOREY FALL CAUSES NO INJURY

Falling from the second-storey window of Woolworth's store at Queen and Yonge streets yesterday afternoon Alice McMaster, aged 15, an employee, had a miraculous escape from death. The young girl fell on top of the awning, which gave way, precipitating her amongst persons walking on Yonge street. When picked up she complained of an injured back and was taken to St. Michael's Hospital, where examination showed no injuries. The pedestrians on the sidewalk got quite a shock when Miss McMaster fell among them.

### WASTE AND BISHOP GET HONORARIUM

Board of Education Give Small Grant to Retiring Officers.

### SHORT ON DIPLOMACY

Management Recommend the Dismissal of Principal Morrison of Pape School.

Over two hours animated debate marked the meeting of the board of education yesterday afternoon preparatory to the reopening of the schools next Tuesday.

C. H. Bishop, superintendent of the building department, was voted retiring grant of salary to the end of the year and his assistant, A. D. Waste, two months' salary.

Trustee Douglas protested against any honorarium being voted.

Trustee W. D. Dineen considered that many years of faithful service was inadequately recognized by the small grant made.

Sir Wm. Hearst sent a letter, read by Trustee C. A. B. Brown, expressing the thanks of the Ontario government for the presence of the school children's choir at the Queen's Park reception to H. R. H. the Prince of Wales.

Recommend Dismissal—Principal Morrison's tenure of office at Pape Avenue school was given a severe protest, maintaining his rights to due notice in case his services were to be dispensed with.

According to the trustees, the principal is short on diplomacy, although being a good teacher.

Trustee Douglas asserted that when he and Mrs. A. C. Courtice had interviewed him, Principal Morrison had characterized his resignation as being "a lie as black as hell." In addition to the heinous offence of concurring up so lurid a metaphor, the principal had also written letters during the election time, the trustees urging his dismissal refrained from making any other definite charges.

Shakespeare as Witness.—Trustee Noble, called Shakespeare to witness that it required a few faults to make a man a hero. By a vote of 8 to 6, the matter was referred back to the managerial committee.

Some flag-waving was indulged in over the proper maintenance of returned soldiers. The management committee recommended the reappointment of H. J. Valentyn as principal of Orde street school.

### VETERAN'S WIDOW DIES IN TORONTO

Province Will Care for Four Children Left to Face World.

Mrs. Annie Packman, widow of a Canadian soldier, was galled yesterday. Left with four children to support she resided in a flat in Victoria street. She contracted pneumonia and died in a hospital on Saturday last, where she died on Tuesday.

Only two of the orphan tots were able to have a last look at their mother, the others being down with scarlet fever. The funeral was attended by Hon. W. D. McPherson, provincial secretary, who has taken practical interest in the sad case. When the circumstances of the death of Mrs. Packman were brought to his knowledge he instructed Inspector Robert Martin of the department of neglected children, to see that the four bereaved children were properly cared for.

The little child placed in the care of our department will be found a good home, and the state will see that it is brought up as its father and dead mother would have desired.

Was Going to England.—Inspector Martin stated after the funeral that a few days before Mrs. Packman died all arrangements had been completed for sending the family back to relatives in England.

"The soldiers' aid commission," Mr. Martin said, "will now look after the three older children, who will be properly cared for and given a good education. The little child placed in the care of our department will be found a good home, and the state will see that it is brought up as its father and dead mother would have desired."

That interest of a practical nature is taken in these programs is shown not only by the crowds who watch the games, but by the equities, parents asking information as to the equipment for use in the home.

The program of yesterday included baseball, basket ball, volleyball and tennis; mignonette, pecka-back, Dutch dance, Daisy Dan relay race, sack race, pillow fight, barrel boxing, tugging, tug-of-war, three-legged race and active games.

Renewed interest in sailing has manifested itself this summer following the return home from military training of members of the various aquatic clubs. This will be well illustrated by the races that will be held at Exhibition Park on Saturday morning and Labor Day under the auspices of the L. S. A. Races for everything from 14-foot dinghies to 16-foot skiffs, in the line of small sailing craft are scheduled.

The opening race will be the third, running of the harbor-master's race, for which some 35 contestants have been entered. The contest is for 14-foot dinghies and will start at 3 p.m. Saturday afternoon.

On Monday morning, Labor Day, the Darrell shield race, a contest for 14-foot dinghies, will be held for the second year at 10 o'clock with some ten or twelve starters. At 10:05 the race of 16-foot skiffs for the championship of Toronto bay, which carries with it the Standard trophy, will start. Twelve boats have been entered. A new trophy to be contested for will be the John Leckie trophy for 14-foot dinghies, which will commence at 3 p.m. with a total of some 35 entrants.

On Sept. 6, the last day of the Exhibition, a new feature will be the seamanship race for 14-footers, for which some 35 boats have been entered.

The members of the fire marshals' convention from the United States and Canada were the guests of the Exhibition management at 6 o'clock dinner yesterday. The members of the W.C.T.U., a special section being closed off for the guests. Manager Kent welcomed the visitors, and Controller Cameron gave a short address advocating public ownership and the need for education along the lines of teaching that a man's duty is not done when he protects his own property alone. Thought for others should also be taken. Nearly every fire is caused by carelessness, said the speaker. He hoped the time would come when the fire would be regarded as a crime. The controller reminded his audience that Toronto was the great-

est convention city on the continent, and had been so fourteen thousand years ago, when the Indians, who gave the city, the name of "the place of meeting," used to foregather. The closing statement was received with great laughter.

President Flemming of Ohio thanked the management, the city and the province for all the kindness and hospitality the convention had received. In the evening the visitors viewed the grand stand performance as guests of the management.

The selections that will be played by the Grenadier Guards Band today are: 2:30 to 3:30 p.m.—March, "Giesdague," "Gheluvel" (A. Williams), a tribute to the memory of a great granddaddy; Grand Selection, "Romeo's Guiltless" (Gounod); Serenade, "Les Millions d'Arlequin" (Drigo); Lyric Suite, "Four Lyric Pieces" (Op. 84), (Grieg); 1 The Shepherd Boy, 2 Norwegian Rustic March, 3 Nocturne, 4 Many of the Dwarfs, Selection, "The Grand Duchess" (Offenbach); Overture, "Giovanna d'Arco" (Verdi); Cake Walk, "Whistling Butts"; Air and Variations, "The Harmonious Blacksmith" (Handel); Selection, "Sinfonia" (Leopold Strauss); 3:30 to 4:30 p.m.—March, "Over There" (Cohan); Selection, "Lohengrin" (Wagner); Country Waltz, "Op. 26" (Goldmark); Intermexzo (Braulted from the Symphony No. 1, (b) Scherzo (Serenade) "Country Waltz" (Op. 26) (Goldmark); Selection, "Los Clocas de Corneville" (Plaqueotte); Dramatic Overture, "Patric" (Biseli); Descriptive Fantasia, "A Hunting Scene" (Bucalossi); Grand Scene, "The Beneficence of Daggers" (Leopold Strauss); (Meyerbeer); Selection, "The Shamrock" (Myddleton); "O Canada," "God Save the King."

GET A BOO MUMBY. "Where are you dining?" asked one "Ex" visitor of another yesterday. "Me, why I'm going over to get a sixty-cent Mumby." This is an indication of the fame of this cafe at Canada's renowned Exposition. Comfort, efficient service, and hot meals characterize this restaurant, which for a busy sightseer cannot well be surpassed. Come over today and emulate the taste of our friend of yesterday afternoon.

FRIDAY MORNING, AUG. 29.

Welcome to Sir Arthur.

Toronto has a full heart these days, and her welcome to Sir Arthur Currie will be no less cordial, to a different order, than that given to the prince, whose empire he has fought so bravely to maintain. For the prince, too, we have anticipation. General Currie's work is done, and so we felt, we all hope, that he may never be called upon again to show his prowess. We are unlike the Germans in this, that, having the greatest fighting machine the world ever saw, as Sir Henry Wilson, the C.L.G.S., is reported to have said of the Canadian forces, we are not seeking to use that machine to the detriment of our neighbors or our own advancement. General Currie comes home to take his place in the ranks of peace, and he is welcome for what he has done and for the example he is about to set. In ancient Rome they would have given him a triumph, but it is no less a triumph to be able to take an honored and peaceful place among his own people.

The Theatrical Strike.

Little attention is being paid here by the public to the actors' strike in New York, although it has had a direct effect upon local engagements. Acting is distinctly an art, and those who follow it constitute as distinct a profession as any other of the cultured occupations. Musicians had already organized an effective union, and from the orchestra to the stage is but a step. It was inevitable when the labor party in England took the step of recognizing those who labored with the brain as well as with the hand as eligible to join the labor ranks, that all those who suffered by the modesty or gentleness of their demands or the exigencies of their conditions and circumstances, would be encouraged to band together as the members of one occupation have had to do. The very wealthy combination against the actors' union movement in New York, indicates much the same spirit as employers have shown in the inauguration of all previous movements. Admittedly theatrical management is a most risky business. It is all the more risky on account of the traditional conservatism of managers. But it is not more precarious than the occupation of the actor. That there should be some fairer apportionment of the spoils in the event of a big success naturally appeals to the actors as a good point, but the manager is also fully aware of the limitless demands made by the successful star in a piece whose production would have been impossible but for the manager's money. Organized labor has come into the fight in the shape of the Bill Posters' Union, which refuses to attack bills as a measure of assistance for the striking actors. This would not be as effective as the co-operation of the printers' trades which might refuse to permit non-union notices to appear in the press. The sympathy of the bill-posters with the striking actors is not to be laughed at. The organizer is not more important to the theatre manager, and now that the actors have appealed to Caesar anything may happen. Then there is the author. But nobody bothers about the author.

The Legacy to Mr. Taft.

Everyone will be glad that the generous Mr. Carnegie has provided for his will a suitable income for ex-President Taft. Possibly some such provision for an ex-president should be made by the nation. Several ex-presidents, less fortunate than Taft, have retired to private life almost penniless, and no provision has ever been made for them by the government. In the case of James Monroe, author of the Monroe doctrine, a substantial grant was proposed for his benefit by Emperor Nicholas of Russia. This Mr. Monroe did not accept, because he felt it would be a reflection upon his own country, but his own country did not take the hint. In recent years it has been the custom to vote a pension to the widow of the ex-president, but no such provision is made by statute, and we are glad to note that Mr. Carnegie has not only remembered the only living ex-president, but has also remembered two former mistresses of the White House, the widow of Theodore Roosevelt and the widow of Grover Cleveland. Mr. Taft has some private means, and his earning capacity is great. At one time, a man in his position has many calls upon his purse, and an annuity of \$10,000 is a grateful remembrance. However men may disagree as to Mr.

Political Notes

Most of our politicians, newspapers included, are finding themselves in the jungle, with no clear paths in, out or about. There's a great wild unmarked jungle at Ottawa; as uncertain a one as the Queen's Park at Toronto. No paths still worn, many a denizen seems not even to know what kind of a beast he is; whether a lionist or a Conservative; or what is still more troublesome, whether of the straight or insurgent brand. Where is Hon. N. W. Rowell, for instance? A Unionist or a Liberal-Unionist? Hardly the latter, for there is no road for him to any light in any Liberal window! Sir Harry Drayton? He has been taken into a Unionist government and must find a seat in the commons! But will he run as a straight Conservative or an all-out Unionist? Must he get a nomination from a Conservative caucus? If not, is there a Unionist party with an organization that will call a Unionist convention for him? Will he leave the creation of the Unionist convention? And what are the planks of the party? And where is Mr. W. F. Nickle, once he is out of the now-coveted chamber-socket and talk to anybody within the radius. Inventions of this kind may only serve to increase gossip and breed that familiarity which, in its turn, begets contempt. It is quite certain that we have not nearly assimilated all the wonderful discoveries of the last fifty years. Our intellectual development as a race, is not keeping up with that of the leading men, and much less is our moral or ethical code. It is a serious consideration that our power is increasing more rapidly than our wisdom, and our opportunities quite outrun our judgment. At the same time no one could desire to call a halt in scientific progress. The few will always cherish the advances made, and by-and-by the venturesome spirit will permeate the masses and carry them into the regions of knowledge and taste, as it now does into what are regarded as more practical lines. Barbarism of the German type is all that can await the nation that devotes itself to the outside of things, and forgets the inward development. The last thing to be desired is a nation of regis, but our science is outstripping our philosophy in the popular thought, and very little is being done for the masses to show them better. If we fall in this, our science will not save us any more than it saved the Germans. Fortunately the biggest men in science understand the vital necessity of having something to say when one talks, something to do while one lives, and that the chief end of man is certainly not money. But for millions of us these things still mean nothing at all. The struggle for existence has lost nothing of its bitterness by the advance of science. This is the weak point in our system, and the real source of all our social unrest.

Telephone Talk.

Dr. Lee de Forest has announced another advance in wireless telephony. Details are not forthcoming, but it is stated that with the new invention any person can connect a "pony wireless panel" with any ordinary lamp socket and talk to anybody within the radius. Inventions of this kind may only serve to increase gossip and breed that familiarity which, in its turn, begets contempt. It is quite certain that we have not nearly assimilated all the wonderful discoveries of the last fifty years. Our intellectual development as a race, is not keeping up with that of the leading men, and much less is our moral or ethical code. THINGS THE PRINCE DID NOT KNOW

There are many things in and around this wonderful city of ours that the Prince did not know of when he was here, but then, of course, every family has the old skeleton in the closet, and here is ours, or rather parts of it, as we see it. He did not know that the flag pole in front of the city hall had not been white for months previous to his coming. That Thomas Langton Church can get as mad as a March hare almost any time anyone cares to start anything. That the police chiefs do not always wear those gold-banded and tricky-looking helmets. That the city hall officials do not always trip the halls or the council chamber on their tip-toes. That "Charlie" Chambers seldom allows his flowers to stray into the city hall. That the aldermen and controllers only wear their silk kellys at funerals, weddings, and all ceremonials where persons with histories are gathered. That one of the city's cars was used as a method of conveyance by one of the worthy aldermen, that same person being all done in a shimmering silk hat with a white shirring and a glossy collar. That Jim McCaffery is sore at Tommy Church because he did not ring our Prince into a ball game. That we followed right behind him in his street parade, much to the detriment of our dinner, and domestic happiness. That if he was looking for a job tomorrow he would not be able to get one on any of the famous degrees he had bestowed upon him here. That the reporters, who were asked by the Law Society to "write" the luncheon given at Osgoode Hall, were not fed, but expected to eat in the gallery and watch the others eating or refusing to eat, as the case may have been. That Col. Fraser, secretary to Sir John Hendrie, made no provision for cars for the press of this city, those who were traveling with the party were well taken care of. That our jails and asylums are merely dropping off places for those in need of their care. That "booze" is limited to prescriptions, and prescriptions to two bucks. That he made a bigger hit than he knows. And that he can get an apartment here any time he likes, showing conclusively what a "drag" he has with the capitalists.

REFUSES TO MEET OPPONENT.

London, Aug. 28.—Arthur Henderson, secretary of the labor party, who is opposed by F. H. Fisher in the Widdie by-election, has refused to meet his old opponent on the same platform to discuss the former's alleged disloyalty in his statement that in 1911 he went to Russia empowered to dismiss Sir George Buchanan, then British ambassador. Henderson stated that Fisher has failed to prove his disloyalty to the labor party.

DR. CODY OUTLINES RURAL SCHOOL SYSTEM

In his address to the Ontario municipal convention at the city hall yesterday, Hon. Dr. H. J. Cody, minister of education, outlined the consolidated rural schools system, declaring that it was the best solution of the problem of the country school. The whole scheme was a voluntary one, although the government would encourage it by giving financial assistance, giving grants from \$800 to \$1,200, and also bearing 20 to 40 per cent. of the cost of conveying the pupils to school, according to the wealth of the locality. It would solve the old problem of attendance, and the specific subjects which bore a close relation to the district where the school was situated would be taught. "It would not mean an education which would wear the pupil away from the farm, but one to assist them on the farm," he said. "We want your co-operation," he said in conclusion, "and by our united effort I believe we will solve the rural school problem."

FILMS AND FLOUR INTEREST MARSHALS

At the second afternoon session of the fire marshals' convention, James J. Fitzgerald, assistant secretary of the Grain Dealers' National Mutual Insurance Company of Indianapolis, spoke to the delegates on proper inspection of flour mills and grain elevators. Booth, chief engineer of the National Board of Underwriters, New York. A general discussion on this subject, lasting ten minutes, was led by E. D. Beach, state fire marshal of Nebraska, and R. S. Mentrum, state fire marshal of Montana. Walter B. Bell, fire prevention commissioner of Tennessee, spoke on "Pep in Perpetual Progress," and a discussion on this subject was led by H. E. Butz, state fire marshal of Pennsylvania, and Geo. F. Lewis, deputy chief marshal of Ontario. The session adjourned at four o'clock when the delegates drove to the Exhibition grounds, where they were the guests of the officers and directors of the Exhibition Association.

RUMANIANS CONTINUE TO SEIZE PROPERTY

Paris, Aug. 28.—The Rumanians continue their wholesale seizure of private and government property in Hungary, according to advices reaching Paris. Reliable reports from Budapest say that the Rumanians have taken sixty per cent. of the Hungarian locomotives in good repair, ninety-five per cent. of the passenger equipment of the railways and 5,000 freight cars. On August 23, the advices assert, fifty per cent. of all the material of the Gars-Danubius Company, Limited, a large building concern, was seized and three hundred persons thrown out of the employment. The day previously mechanics removed the telephones from private houses and half the supplies of the ministry of posts, telegraph and telephones were seized, the other half having already been taken on August 10. The same day the Rumanians requisitioned all the valuable animals on three hundred Hungarian state farms, giving grants for private houses and a demand was made upon the ministry of agriculture for the topographical charts and instruments in his custody, under threat that they would be taken by force of arms if not given up. All the machinery of the Hungarian state shops was dismantled, resulting in 6,000 men being thrown out of work.

REFUSES TO MEET OPPONENT.

London, Aug. 28.—Arthur Henderson, secretary of the labor party, who is opposed by F. H. Fisher in the Widdie by-election, has refused to meet his old opponent on the same platform to discuss the former's alleged disloyalty in his statement that in 1911 he went to Russia empowered to dismiss Sir George Buchanan, then British ambassador. Henderson stated that Fisher has failed to prove his disloyalty to the labor party.

FILMS AND FLOUR INTEREST MARSHALS

At the second afternoon session of the fire marshals' convention, James J. Fitzgerald, assistant secretary of the Grain Dealers' National Mutual Insurance Company of Indianapolis, spoke to the delegates on proper inspection of flour mills and grain elevators. The fire hazard of nitro-cellulose moving picture films and ivoryoid products, and what should be the attitude of the fire marshals toward them, was the subject dealt with by Geo. W. Booth, chief engineer of the National Board of Underwriters, New York. A general discussion on this subject, lasting ten minutes, was led by E. D. Beach, state fire marshal of Nebraska, and R. S. Mentrum, state fire marshal of Montana. Walter B. Bell, fire prevention commissioner of Tennessee, spoke on "Pep in Perpetual Progress," and a discussion on this subject was led by H. E. Butz, state fire marshal of Pennsylvania, and Geo. F. Lewis, deputy chief marshal of Ontario. The session adjourned at four o'clock when the delegates drove to the Exhibition grounds, where they were the guests of the officers and directors of the Exhibition Association.

DR. CODY OUTLINES RURAL SCHOOL SYSTEM

In his address to the Ontario municipal convention at the city hall yesterday, Hon. Dr. H. J. Cody, minister of education, outlined the consolidated rural schools system, declaring that it was the best solution of the problem of the country school. The whole scheme was a voluntary one, although the government would encourage it by giving financial assistance, giving grants from \$800 to \$1,200, and also bearing 20 to 40 per cent. of the cost of conveying the pupils to school, according to the wealth of the locality. It would solve the old problem of attendance, and the specific subjects which bore a close relation to the district where the school was situated would be taught. "It would not mean an education which would wear the pupil away from the farm, but one to assist them on the farm," he said. "We want your co-operation," he said in conclusion, "and by our united effort I believe we will solve the rural school problem."

**General Currie's Program.**

General Sir Arthur Currie, K.C.M.G., will arrive in the city today and remain for two days. A large crowd of returned men and women will be at North Toronto station to greet him.

General Currie and his staff, with Major Gibson in charge of arrangements, will be at the station. Sir Henry Pellatt, who is to be the guest of honor during his Toronto visit, with Mayor Church, several aldermen and a host of returned officers, will be found on the platform when the train draws in at 8.30 this morning.

The general will be returned to his quarters at 10 a.m. and will be met by some of the days he put in at the front, but if rumor is true, he will find forty-five minutes allowed him at the city hall for a public reception. Long enough for hundreds of returned men are anxious to shake hands with him, to say nothing of the citizens who wish to express their appreciation of his work in France.

The meeting arranged by the Empire and Canadian Clubs in Massey Hall for 1 o'clock today for the purpose of hearing an address by the general is likely to be a brilliant affair. In order to permit as many citizens as possible to hear the speech the committee has decided to sell some tickets to the general public at 45 cents each. These can be obtained at the cigar stand, King Edward Hotel, up to 12 o'clock this morning. The balance, if any, will be on sale at Massey Hall.

The general will be lined up by school cadets. Will proceed to Sir Henry Pellatt's residence, 1050 Bay Street, West, Roxborough street, Avenue Road, St. Clair avenue, Spadina road, Austin Terrace to Sir Henry Pellatt's residence.

TRIPLE PLAY AND HOMER BEAT BEARS

Schulte Cleaned Bases With Drive Into the Right Field Bleachers.

Patsy Donovan's Newark Bears opened a four-game series at the island yesterday and only for two side issues...

Spencer gathered a double and two singles. Whiteman a double and a one-corner connection and Schulte drove one into the bleachers in the third...

The champions opened the afternoon right by pulling out a triple play in the first inning. It was well engineered and speaks well for the thinking boxes...

The Leafs' half produced a run. Spencer sprang and beat a hit past the pitcher. Gonzales sacrificed. Whiteman doubled to right...

The game was over in the third. Spencer got his second tom second. The Leafs laid down the bat. Bruggy's throw to second was a trifle late to pick off Spencer...

Tomnell was effective after this and the champions rested with the new runs. The Leafs fielded brilliantly behind Hubbell...

Whiteman pulled the prize one with a run to deep center in the sixth to get Tomnell's high arc.

PRINCE IS PATRON OF NAVY LEAGUE

Commodore Jarvis Dwells on National Importance of Boys' Brigade.

Announcement that His Royal Highness the Prince of Wales has become a patron of the Navy League of Canada was made yesterday by Commodore Amulius Jarvis, Dominion president, before a meeting of the campaign committee. Commodore Jarvis, in expressing the appreciation of the members of the league throughout Canada at the high honor which had been conferred upon the organization, read the letter of acceptance, which was as follows:

"I am pleased by the Prince of Wales to acknowledge the receipt of your letter of the 21st of August, in which you inform me that His Royal Highness has become a patron of the Navy League of Canada. I have to inform you in reply that His Royal Highness will be very pleased to comply with this request."

The Dominion council of the Navy League has decided that it has enough money abroad for relief work for the present at least, and every dollar secured during this campaign will be used to further our work in Canada. I might add that it is quite proper for the various fronts and the counter mark their money for specific purposes, such as the foundation of a boys' naval brigade, and we shall see that such money is put to that purpose only, said Commodore Jarvis.

In concluding, Commodore Jarvis spoke of the necessity of the boys' naval brigade movement and dwelt upon the fine work which it had already accomplished in giving the boys a fine physical and mental training. "We have brigades at present in Halifax, St. John, Victoria, Calgary and Toronto and I hope to see the time when a training ship will float upon every body of water in Canada. This can be done if the people only realize the significance of the movement and the great benefit which our boys derive from its training." Commodore Jarvis announced that John Eaton had accepted the position of chairman of the Ontario campaign committee and that A. M. Hoberlin had accepted the vice-chairmanship. He paid a high tribute to the fine work done by both Mr. Hoberlin and myself in expressing his appreciation of the honor paid to him. He stated that he considered it a privilege to be able to work to help the sailor and the advancement of the nation's maritime expansion.

CONTRACTS FOR NEW ONTARIO HIGHWAY

Forty Miles in Provincial Scheme to be Finished Next Year.

In pursuance of the Ontario government's provincial highway policy tenders were accepted by the department of public works yesterday for the construction of an additional forty miles of road. The section between London and Ingersoll, 16 miles, was awarded to the Fric Construction Company, Toronto; between Brantford and Ancaster, 15.4 miles, to D. O. Johnston, Brantford; Brockville and Trenton, 10 1/2 miles, to the Brockville Construction Company. It was stated by the department of highways that the composition of these sections will be a bituminous road construction with a top surface three inches thick of stone or asphalt, with tar used as a binder. Work on the roads will commence as soon as the contracts are drawn up, which will be within a week, and completion must be effected by the fall of next year.

United States Making Strides. Lieut.-Col. J. G. Williams, who accepted the position of assistant to Mr. Hoberlin, drew attention to the enormous strides which the United States has made in a mercantile expansion. Not only had it secured the inter-oceanic routes, but its shipping was being more and more important in the world's trade. He stated that the United States will have secured the great bulk of the world's trade. Germany will have succeeded in her efforts to impoverish the British Empire and take away its commercial priority, and the United States will be the beneficiary of the world's trade. "Business as usual" is wrong. It cannot be carried on as usual again, and it cannot be carried on with any degree of success unless we have sufficient ships to transport our goods across to the market. If we are going to keep our prosperity we must have ships and men to man them. The people of the province must not forget that."

A pleasing feature of the meeting was the announcement that the Veterans' Association would co-operate with the Navy League in its work where the naval veterans would obtain \$25,000 for their own work. This figure applies only to the Ontario campaign.

The meeting was attended by many of the most influential men in the province, and there was a general air of optimism, which indicates that a great success will be scored.

THE COW MARKET

with a light run of cattle, 458 head all told, the market yesterday on the local exchange held steady to strong, with few changes of note.

The sheep and lamb trade, with receipts of about 900 head, was also a feature of the market.

The run of calves was comparatively light, about 150, but the market here was steady to strong.

The September pork pack shot down \$2.75 a barrel and closed \$2.50 under yesterday's figures.

Oats finished 1c to 1 1/2c lower and provisions 3/4c to \$2.50 lower.

The lower-priced live hogs, which sagged \$1 to \$1.50, added to the bearish sentiment.

Oats showed weakness with corn. The declines were less sharp, and evidence of a fairly firm undertone was seen from time to time.

Provisions were extremely weak, with all products touching new low points.

WASAPKA SECTION OF CAMP WASSAQUA TONNAGE PROPOSITION

Impression That Dependence Must Be Placed on Working of Rich, Narrow Veins Is Mistaken One—General Survey of Conditions at West Shining Tree.

Special to The World: Westree, Aug. 28.—Your correspondent sees in the Wasapka section of the Shining Tree gold area a valuable tonnage proposition.

This opinion is not in line with the view generally taken, that all the properties here must depend on exploitation of rich, but narrow veins, for tonnage.

In this place there is what is developing into a very broad ore body of good tonnage value, and in other places the veins are so close together that they may be considered very promising deposits.

On the Wasapka is a big outcrop running up to twenty feet in width in places and 2,000 feet in length.

As the best results can be expected near the footwall of the deposit, the Wasapka has become one of the most important prospects in northern Ontario.

While it is not expected that this big body on Wasapka will carry considerable value, it is only a matter of time before it will be found to carry considerable value.

NEW AREA ATTRACTIVE TO TIMMINS INTERESTS Cochrane, Aug. 28.—A recent revival of interest has taken place in the Agotawekami area, taken place in the northwestern part of the province of Quebec.

According to reports just received from that district, Mr. Perry, representing the Timmins holding, Hollinger Consolidated, has concluded an examination of some of the surface outcrops in that district, and has been sufficiently encouraged to secure a large number of mining claims.

CANADIAN GOLD MAY SEEK OWN MARKETS Concession to South African and Australian Producers May Be Limited.

New York, Aug. 28.—One recent development in the action of the British authorities in the disposal of South African gold product from control, allowing the producers to dispose of it as they please, instead of being required to return it over to the Bank of England, says the National City Bank of New York.

LESS MENACE SEEN IN LABOR OUTLOOK

New York Market Presents More Cheerful Front—Crucible Steel Somersaults.

New York, Aug. 28.—Speculative interest seemed to derive much satisfaction today from the more pacific attitude of organized labor in connection with the railroads and steel industry.

Crucible Steel was the spectacular feature, jumping almost 12 points in the first hour, soon losing much of its advance.

Other speculative shares were two to four points higher at their best. Rails and shippings gave a better account of themselves.

As the days go by it becomes more and more evident that the leadership in the mining market is being quietly but effectively taken by stocks representing the leading producers of the Porcupine camp.
