WALKED ACROSS AMERICA... WESTON THE WONDERFUL... As he appears when tramping on the road.

Edward Payson Weston, Veteran Pedestrian, Completes Journey From Los Angeles to New York in 77 Days—Welcomed by Mayor.

I eat only one meal a day, and for the rest take liquid refreshments on the way—milk with eggs shaken into it, light cereal preparations and an orange or cake of chocolate. Thus my stomach is not overloaded and I feel light on my feet. I bathe my feet in salt and water once or twice a week, when I come in from walking or in the morning, and I am very careful to wipe them thoroughly dry. Also once or twice a week I bathe them with a common extract to take out the fever or inflammation.

My shoes are of stout leather and made to fit the foot perfectly, and are not the light, holiday footwear of the giddy youths. They are not heavy, tho, possibly being two and a half pounds each.

My own feet after a thirty-five hundred mile walk are as perfect as when I started.

NEW YORK, May 2.—Cutting his way through a living mass of 20,000 cheering people, his white locks barred to the breeze, and his shuffling feet keeping time to the strains of the "Star Spangled Banner," Edward Payson Weston to-day brought to a triumphant end his ocean to ocean walk.

He ascended the steps of the city hall at 2:10 p.m., completing the transcontinental journey of 3485 miles, in 77 walking days, a feat without parallel in the annals of pedestrianism.

He greeted the throngs with a hearty "Hello" and a wave of his hand. He was met by a number of admirers who have followed his tramp since the day of its inception at Los Angeles, on Feb. 1 last.

Mr. Davis, who is a wealthy contractor, living at Ottawa, Canada, proudly related the story of how he had held his bride on his knees. "And she was the sweetest baby I ever saw," said he.

Miss Magrath is a trained nurse. The couple will go to Ottawa for the wedding.

It is up to the union painters to stand by their colors to-morrow morning. War has been declared on the boss painters of this city by the different unions of painters, decorators and paperhangers.

At present, the painters are getting 37 cents an hour, but they are holding out for an increase to 35 cents. There are between 500 and 600 painters, paperhangers and decorators in Toronto who are union men, and with the exception of probably 100, who are at present getting the higher wage, all will go out on strike.

WILL COMPARE BILL OPRESS FARMERS?

Some Senators Are Inclined to Exempt the Rural Dealer in Butter and Eggs From its Provisions—Can Manufacturers Limit Production?

OTTAWA, May 2.—(Special.)—The senate spent most of the day considering Hon. Mackenzie King's combiner bill.

In committee, Sir Mackenzie Bowell stated that every day in the markets the farmers opened the business of the day by arguing on the price they would charge for butter, eggs, and other produce. Would this bill enable their operations being looked into by a commission?

Sir Richard Cartwright said that there might be combinations, but he doubted if the six persons would be found to complain to a judge, or that a judge would be found who would order an investigation into such a combination.

Senator Loughheed said that as the bill was directed at the individual rather than at the company, it would be possible to avoid it by selling the personnel of the combination.

ONTARIO'S PROBLEMS.

The rain is more than raising, and again we come back to the question of drainage; the starting point of which we said yesterday in regard to Ontario's problems. The country is water-soaked, and especially in the kind of traction we described. Traction which is cheap, certain, easy, and late in the day, and every day in the year and what is more, over one single line as against two or three.

There will be no getting back to the land, from Toronto for instance, if the back-to-the-land man must pay a street railway fare, a suburban fare, and a radial fare. The radial lines ought to all come into the city over the city lines at a very small passenger tax, and this ought to be controlled by the city and not by the radial line, as is the desire of those who own the latter.

But not only must the city have control but the city of Toronto to-day ought to have control of the whole Township of York so as to make the traction schemes of the township fit in with those of the city and provide for diagonal roads which are a great necessity not only for the city but for the township; and it is an easy matter at this moment to provide diagonal roads for the township provided we had some uniform and business-like municipal government.

The time has more than come when Toronto and the Township of York ought to be administered by one municipal commission of wise, well-paid, business men, continuously on the job, and not by transient municipal councils without expert experience and with a diversity of jurisdiction. Three or five men at \$10,000 a year apiece would give Toronto and the Township of York progressive government, tube road, diagonal streets, cheap public utilities, controlled by the board, and a policy of expansion with a freedom to act at all times which only free freedom of franchise controlled by private corporations allows.

We are making a rather swift program for the people of Toronto and Ontario, but it is time somebody made it swift. Our program, therefore, is: Overcome the struggle with nature as much as possible by securing (1) drainage; (2) continuous traction on rails and in cars with good wagon-traffic roadways on diagonal streets, as well as other streets; (3) cheap electric energy all over the province for heat, light and power; (4) government of cities by commission, especially of Toronto and York Township; and (5) devote the main energies of all public organizations and all public to the general public, and not to propositions for the benefit of the few like that of asking the Ontario Legislature to burden itself with "two more universities."

Just think of it; we are spending from \$300,000 to \$1,000,000 now on the provincial university and there are men in London and Kingston who want the province to undertake the maintenance of universities there; or, as they call it, grant some little assistance (to start with). But a little assistance means inevitably complete responsibility for these universities. Our idea is to bring the people to the one university by cheap railway fares and not by taking the universities to the people. Somebody has said, "Look what the little university has done." Perhaps it has; but the little university that has made good is the little university that

Table with columns for category (e.g., Captains, G. H. Wood, R. W. Eaton, J. M. Godfrey, etc.), amount, and sub-total.

At the Y.M.C.A. luncheon yesterday the hands of the clock took another big jump—from \$360,000 to \$390,017, and before the day closed, as predicted in yesterday's World, went still further, to \$404,017, a \$5000 subscription from Byron E. Walker swinging the grand total over \$400,000 mark.

Two-thirds of the amount in one-quarter of the time allotted! No wonder Mr. Ward said, "Toronto has made a world's record."

EVERYBODY WELCOME... "We want 10,000 subscribers to this fund, and we want the public to get the impression that a subscription of \$1 from a newboy or poor working man who has boys to educate, is just as sacred to us as a subscription of \$1000 or \$5000."

TORNADO IN KANSAS... Reported That Village of Plymouth Had Been Destroyed.

TOPEKA, Kan., May 2.—The Village of Plymouth, six miles southwest of Emporia, is reported to have been destroyed by a tornado. Plymouth has 400 population and is on the Santa Fe Railway. All wires are down.

HAMILTON HAPPENINGS

A BENEFIT FUND FOR HAMILTON FIREMEN

Fire Committee Make Recommendation for Annual Contribution of \$500.

HAMILTON, May 2.—(Special.)—The fire, police and jail committee to-night decided to recommend to the city council the establishment of a benefit fund for the firemen and a contribution towards it of \$500 annually. Chief Ten Eyck brought up the question with reference to street cars stopping for passengers before crossing the intersecting streets, so as to minimize the danger from collisions, and a sub-committee was appointed to wait on the Street Railway Company and secure their views on the matter. The committee also recommended that a grant of \$500 be made to the police benefit fund from the salaries appropriation. Aid. Birrell said he thought they were establishing a bad precedent by doing so. The plans for the new police and patrol station in the east end were approved. They call for a \$18,000 building. The board of control decided at a private session this afternoon to instruct the assessors to be very careful in making their assessments. The board made a grant of \$800 to the Playgrounds Association, and \$100 to the Ontario Rifle Association. It also granted Fred Howe of the city engineer's department an increase of 25 cents a day so as to make his salary \$15 a week. The board will take time to consider Reiner Officer McMenemy's report re children's shelter.

Will Issue Debentures. The separate school board to-night instructed its solicitor, M. J. O'Reilly, K.C., to issue \$20,000 debentures to cover a loan it borrowed 20 years ago.

HAMILTON HOTELS.

HOTEL ROYAL
Every room completely renovated and newly carpeted during 1907. \$2.50 and up per day. American Plan.

A sub-committee was appointed to purchase eight relief maps at \$200. The death occurred this afternoon of Mrs. Margaret Nixon at the residence of her son, Robert, 274 East Cannon-street.

Millen to Testify.
Reeve Millen, who gave important evidence at the Finton inquest last Thursday night, stated that he would be on the stand again next Thursday night, but refused to divulge the nature of the nature of the evidence he would give. I have been asked to call Mrs. St. John, who was raised by the murdered man, and who it was stated in evidence had some trouble with Mrs. Tom Finton.

Fire broke out in the school at Stony Creek this morning, and despite the lack of fire escapes, the 200 children got out safely. The fire was quickly subdued by the volunteer firemen.

It has been learned that Mayor Morison was the buyer a few weeks ago of several stores near the corner of King and James-streets for \$80,000. He bought them merely as an investment.

Thomas Finton, who is held as a material witness in connection with the murder of his father, the wealthy old Saltfleet farmer, will not be asked to go on the witness stand next Thursday night when Coroner Thompson's jury resumes its investigation.

The particulars of the will of Elijah S. Finton, the murdered man, have been given out. The brother, George, gets the farm and implements for use during his life, after which the west half of the farm goes to John Wilbert, oldest son, and the east half to Thomas, the second son, now under arrest. A legacy of \$1000, to be paid by the sons, was made to Annie Spera, a daughter. The property is valued at about \$15,000.

Trouble in the Hospital.
Miss Ruth Clark, appointed lady superintendent of the City Hospital a month ago, resigned Saturday. It is said she introduced a number of up-to-date ideas that did not meet the approval of the board.

Stabbed With a Jack-knife.
Hamilton came within an ace of having another murder on its hands last night, when Maurice Munday, 16 years old, in a fit of passion, stabbed Fred Ambo, a moulder, 20 years of age, with a jack-knife. The thrust just missed Ambo's heart and punctured his lung. He has also a deep wound in his arm.

Munday admitted the stabbing, but explained that it was not intentional. C. S. Wilcox has presented the Playgrounds Association with a piece of land, 90 x 120 feet, near the corner of Cannon and Caroline-streets.

There were no May Day strikes today. The journeymen tailors have given the merchant tailors until tomorrow noon to accede to their demands for an increase. The Princess Underwear, Limited, has been organized and has taken

over the business of the Perry Knitting Company on Park-street. Magistrate Pells issued a warrant to-day for the arrest of Jacob Alter, who is wanted to answer a charge of perjury.

The local bank clearings for April show an increase of nearly \$2,000,000. The local branch of the Commercial Travellers Association will donate a cottage to the mountain sanatorium.

R. & O. Service.
The steamer "Belleville" will leave Toronto at 7.30 p.m. commencing Tuesday, May 3, and thereafter every Tuesday during the season for Bay of Quinte ports, 1000 Islands, Brockville, Cornwall and Montreal. Connecting with steamer at Montreal for Quebec and Saguenay River ports.

The R. & O. steamers this season will leave from the new city wharf, not of Yonge-street, where freight is now being received for steamer "Belleville."

DREW JACK-KNIFE
Alleged Horse Thief Stood Off Pursuers and Stabbed Himself.

WINDSOR, May 2.—After leading an excited posse of farmers a three-mile chase, standing them off for almost an hour with a jack knife, and finally making a desperate attempt to kill himself, Joseph Gallagher, 23 years of age, was arrested by Patrolman Giles, last night.

Gallagher is alleged to have made an attempt to steal two horses from Arthur Dumouchelle, beyond the city limits. Dumouchelle and his family were away at the time, but Gallagher was seen by a servant girl, who called chase. Gallagher jumped on one horse and Trent on the other. Trent secured the assistance of three farmers, and the four followed back to Dumouchelle's farm, where he was cornered. He drew a pocket knife.

Meantime the Windsor police had been telephoned. When Officer Giles arrived and started to arrest Gallagher, the latter stabbed himself in the heart. The second time just above his heart. He fell into Giles' arms. He was removed to headquarters here and attended to. It is believed he will recover. Gallagher gives his home address as Syracuse, N. Y.

Celestials Organize.
QUEBEC, May 2.—Some sixty members of the Chinese colony in Quebec will form an association for the protection of the interests of celestials in this city. Delegates from Montreal and Lewis were in attendance. Another meeting is to be held shortly.

568 Round Fireman Dies.
LOCUST VALLEY, L.I., May 2.—William H. Burrett, who is supposed to have been one of the heaviest men in the world, died here yesterday. He weighed 568 pounds, around the waist, and eight inches around the neck. He had a neck twenty-one inches in circumference and wore a twenty-two and a half collar. He was an active fireman.

Artist Suicides.
ST. JOHN, N.B., May 2.—The fifth suicide of St. John within two weeks occurred early yesterday morning, when Sylvanus R. Penderton shot himself in his home, and was found by his wife with his rifle beside him, and a ghastly wound in his temple. Penderton had been suffering from an acute nervous affection. He was well known as an artist, and had painted some very creditable works, some of which are now on exhibition in Toronto.

DRAINAGE PROJECTS RUN OVER ESTIMATE

Premier Receives Deputation From His Own County—Refuses Aid To Complete Drainage System.

Sir James Whitney had the pleasure yesterday of welcoming a deputation from his own county, seeking provincial aid to complete a drainage scheme in the Townships of Winchester and Mountain, which was projected under an estimated cost of \$80,000. The whole scheme, however, will run up to \$150,000. The province is already pledged to bear 10 per cent. of the original cost, and the deputation asked the premier to raise this to 20 per cent.

Sir James was reminiscent. He could remember a time when he drove forty miles thru South Mountain, and one of the horses fell into a well. He admitted there was much low-lying land in that district, but thought that those whose property was benefited should bear the cost. It was a safe bet, he thought, that there never was a drainage system projected in the province which was completed within the original estimate.

It is suspected that there is no county in the province that has received as much government aid as has Dundas, declared the premier. "While the people of my own county perhaps think I might do something for them and I do because I think it is right."

There was a growing sentiment in the province against taking public money for local schemes. What answer would they give to hundreds of other municipalities? If they made schemes there would be a rebellion of the people.

The premier in conclusion promised to approach the subject continuously from time to time with his colleagues to see if there was any chance of assisting.

MINY SAYS RAILWAY CO. OWNS THE MONEY

Proceeds of Bond Sale in Dispute—Tells of President Clarke's Mysterious Disappearance.

WINNIPEG, May 2.—The mysterious disappearance of W. R. Clarke, president of the Great Waterways Railway Co., has been the subject of much discussion before the royal commission of Alberta to-day during the investigation.

That money procured by the sale of the bonds is not the property of the Province of Alberta, but belongs to the railway company, was the contention advanced by G. D. Minty during his evidence before the railway commission. This money, \$7,400,000, is now in the hands of the provincial treasurer as trustee, and its exact legal status is matter of considerable importance.

Mr. Minty was examined as to his last trip to Edmonton just before the commission sat. Clarke was on the train with him. About Swift Current he disappeared.

"Did you not raise a hue and cry when you found he was gone?" asked Bennett.

"Did you inform the conductor of his mysterious disappearance?" Mr. Minty did not think it was necessary. He presumed he had changed his mind under the circumstances. Mr. Bennett then led up to Mr. Minty's leaving Edmonton the night before the session opened.

"You decided to disappear also?" asked Mr. Bennett.

Mr. Minty hotly resented this question. "I didn't decide to disappear." Emphatically he explained that as his client was, gone there was no good to be done by his remaining.

After three days' grilling Minty's evidence concluded.

UNIQUE ENTERPRISE

Brookton Shoe Co. of "Comet" Fame Breaks All Records Saturday.

"Toronto is no 'built over night city.' It has been on the map some time and yet, unlike other large places, it has never boasted to our knowledge, of a one-price shoe store. An enterprising firm, the Brookton Shoe Company, decided that Toronto required just such a place, and with its usual enterprise undertook the job. It is a fact that within one month it had located and established a splendid shoe store, stocked with a complete line of the great Brookton shoe in all lasts and sizes for sale at one price, three dollars and fifty cents. So far the patronage received here has been away above the company's expectations, but, as the sale of the goods was watched from day to day with no little interest. EATON'S DAILY STORE NEWS

Value of a Curtain Suggestion

There's more than big savings in these specials we bring to your notice, although they are strikingly low-priced.

We are in touch with all that is best in the way of draperies and upholsteries.

We make a business of knowing what is correct and fitting.

New ideas are brought over by us and given their first try-out with our customers.

OUR ANNOUNCEMENTS IN THE PAPERS are intended to keep you informed of the whims of style, as well as to give you the advantage of any special opportunities in the more staple lines. A little of both in the Wednesday items:

Nottingham Sash Net, 30 inches wide, is a strong and durable curtain material for windows, vestibule doors and sash curtains; these have borders on each side, and are finished with colored edges; the patterns are stripes, medallion and floral motifs. Per yard, .12 1/2.

English Art Cretonnes, 30 inches wide, include floral and conventional designs, in a good assortment of color combinations, useful for curtains, valances and upholstery purposes. Specially priced at, per yard, .19.

Our Drapery Section is clearing all remnants of silks, moires, florentines, velours, tapestries, linens, etc., left by a month's busy selling; there are plenty of handsome materials that will answer a dozen needs about your home. On this basis prices range from, per yard, .25 to 1.50.

Variety of the Feature of Elastic Belting

At once the most noticeable and most decorative article of your summer outfit. The elastic belt has, this year, been carefully and successfully treated in many different ways.

There's a Belting at .25 that has everything to recommend it as good value at the price. It's made for us on our specifications of a material that is very durable and will not crack.

Another at .50 is Made From Silk, with a cotton back. The width is good too, and the wearing qualities excellent.

The same in colors, .65. Many beautiful new effects just in, plain and flowered effects, 1.00 to 2.50 per yard.

The "Stewart" Self Filling Ink Pencil

This does away with all unscrewing and screwing of cap, the pen being filled by inserting the point in the ink well and a single pull of the syphon at end leaves it ready for use. The flow of ink is even and smooth. The barrel is of fine vulcanite, chased design. Price, each, .75.

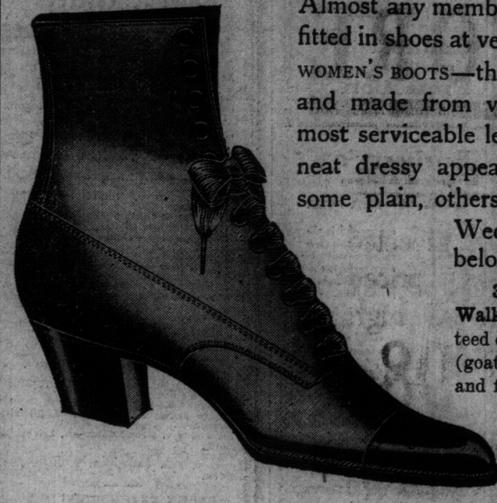

Favorite Novels at 25c Each

Here are some of the biggest sellers, well bound in cloth and printed from the original plates of the copyright edition:

"The Scarlet Pimpernel," by the Baroness Orczy; "I Will Repay," by the Baroness Orczy; "The Elusive Pimpernel," by the Baroness Orczy; "Concerning Isabel Carnaby," Ellen Thornycroft Fowler; "The Man Who Rose Again," Joseph Hocking; "David Baring," Joseph Hocking; "A Window in Thrums," J. M. Barrie; "The Land of the Leal," David Lyall; "Barbe of Grand Bayou," by John Oxenham. Each, .25.

An Immensity of Styles Unprecedented in Women's Wash Dresses

Wednesday we place on exhibit the biggest variety of wash dresses that we've ever shown. Great cases and boxes are being emptied, and reveal an immensity of styles. They rank from the plain house dress to the elaborate lingerie dress that may do duty as a party or bridal gown.

Some were bought from outside makers at EATON prices, others are products of our own factories, and all emphasize economy to the woman with wash dress needs. Don't miss this special display Wednesday, the entire section will be given over to it.

In the medium-priced Dresses you may choose gingham, percales, pretty foulard prints, chambrays and mulls, in a large assortment of styles, colorings and sizes, ranging in prices from 1.85, 1.98, 2.50, 2.75, 2.98, 3.50, 4.50 and 5.00.

Also other lines in Lingerie Dresses from 2.75, 2.90, up to 7.50. In the Lingerie Dress line are hundreds of charming models of lovely sheer fabrics, some hand-embroidered, others set with real bebe Irish, while others are trimmed in the most elaborate styles, with designs of wee tucks, rows and rows of splendid insertions; all are in the semi-princess styles, some low neck, others high, with short and long sleeves. Your Meals Are Not One Wild Scramble when you own an EATON watch.

A Few Extra Minutes of Leisurely Eating, instead of the needless wait in the station or on the street corner, will make a difference in your digestion.

The EATON Watch contributes to your health and happiness, both directly and indirectly.

The Care Given the Construction and Finish of the EATON is almost infinite. The designers are constantly on the lookout for any improvement in materials or pattern and all the refinements of patent regulator, Breguet hair-spring, compensating balance, etc., have been added from time to time.

The Case can be selected to suit your preference and the limit you set on the price. It can be furnished in nickel for .50, and in rolled or solid gold at almost any price.

Nickel Cases Are Handy When You're Off on Summer Cruises or Vacation Trips. The movement can be transferred in a few moments by our repair section. It's just as important to have an accurate timekeeper then as at home; though there's no need of an expensive case.

The EATON is a watch for every occasion.

Men's Suspenders Wednesday Mostly Half Usual Price .25

Makers haven't time to bother with small quantities that accumulate, it's quicker and more satisfactory to get them away at any price—that's what happened in this case—the lots were offered to us—we didn't need them, but a price like this is sure to cause some hustling business, so we took them gladly. 100 dozen very fine elastic web suspenders; cross back style with white kid cast off ends; some double stitched; all made of new, fresh webs in neat patterns and plain colors. Wednesday, per pair .25

Leather Belts for the Boy Scouts

A regular "Baden-Powell" belt—smart military style—a belt that not only adds to the good appearance of the boy's outfit, but stands the hard usage that a scout's belt is sure to get. All sizes, in tan shades with adjustable military buckle. Price, each, .30.

Horses Work Out In Early Sunshine At Woodbine Track

Monday was a busy morning at the Woodbine, with the track somewhat slow. The trainers took advantage of the early sunshine and the horses were out from 8 a.m. until the heavy rain chased them off.

John Nixon bred his string as follows: Camilla and Glimmer were sent 3-mile in 1:08.4 very handily.

Noble Waup, Lord Egan, Last Post and Palmer bred 3-mile in 1:07.2.

Wm. Pitt and English bred the best of the string, including Charlie Gilbert and Denham, were given slow work.

Mr. Nixon's horses are all in good condition and will be hard to beat.

Mr. Boyle's horses bred along half-mile in 1:05.

Al. Bester sent Rook Castle and Jessie Owen a half in .51 very handily.

The Shaughnessy and Nick O'Time got away with a lucky march at the Hunt Club before the wet drops came down, and the rest of the string were just bred along.

Nat Ray had his string of five down in the spring. Buzard, King Holiday and Student King were sent along 3-mile in 1:22.

Mr. Holt's chief bred five-eighths-mile in 1:08.

Lamb's Bedminster and Pills were sent 3-mile in 1:22. Lady Bass, the King's Plover from the same stable, worked 3-mile in 1:28, all out.

Macleod's "Valley worked" three-quarters in 1:22. Good weather, and well in hand all the way. The rest were given slow gallops.

Jack Charles' players Omping and Mandip were sent 3-mile in 1:19.2. The Alex up were well in hand, with Knight and Maclean's three-quarters, slow work, Bill Deen, Run Up and O. Kittle, were given slow work. Simons' trainer, Hoory and Spithound were given slow work. Stevenson's trainer.

Mr. Calkins' Maid and Puritan were sent 3-mile in 1:09. Lad worked 3-mile in 1:09.

From the same stable, worked three-quarters in 1:19, first hand in .51, with lots of spare. The rest were given slow work. P. Maher's Parnell was sent a slow 3-mile in 1:09.

C. Brown sent Monrocker and Cocoon at an open gallop.

Mr. Gave's string bring the usual work. Graver's Steve Lane, Markman and Thomond got slow work.

McKenzie's Buzard was bred through the stretch. The rest took slow work. Brazil's King of the Mist and Green-dale were also given slow work.

Canadian Rugby Inoculated Into U.S. College Game

NEW YORK, May 2.—That the demonstration of Canadian Rugby football last autumn has borne some fruit may be seen already in the first changes that have been agreed upon by the football rules committee. Whether or not the American gridiron solons were influenced by what they saw in the exhibition at Van Cortland Park, it remains that one of the salient features of the game across the border has been adopted for the Yankee collegians. This is the division of the game into four periods of fifteen minutes each. While there was much argument as to many of the other propositions for reform, there was little dissent on the incorporation of this change.

At the time of the Canadian exhibition the four period game was one of the features of Rugby that met with practically universal commendation, not only from coaches, rules makers and players, but also from the press.

Four Periods Correct.

The reason for dividing the game thus is that it does away largely with a man's suffering too great fatigue, it is pretty generally agreed upon by those who follow the football game, and it was more likely to occur when a player had been going at top speed for thirty or thirty-five minutes. The shorter periods with the intervening breathing spells will do a lot to enable a player to recuperate and make him better able to resist injury.

Another feature that may have been influenced by the observation of the Canadian game is the rule to abolish the flying tackle. The chief objection in an American college game where a flying tackle occurs is after a kick has been caught. The ends have been pushed down the field at top speed and dive into the catcher hardy before he has the ball in his arms.

Protecting the Man.

In the Canadian game there is a provision to catch the ball until he has it safely within his grasp. The rules committee has said that the flying tackle must be abolished, but they have not had on just the thing to do to it. Men who have been in close touch with football for a long time are well-nigh unanimous in the opinion that the only way to stop the flying tackle is to adopt the Canadian rule. It is more than likely that when the committee does its final work this three-pointed rule will furnish the solution of the problem.

The rule to prevent pulling and pushing of the man with the ball is a feature which was shown in the Canadian game at Van Cortland Park. There was a conflict of ideas in the rules committee, and the adoption of the rule against it will eliminate the roughest characteristics of the American game.

Conflict is Apparent.

The two important changes made at last Saturday, show an apparent conflict of ideas in the rules committee. The retention of the forward pass with the restriction behind the line of scrimmage, furnishes the idea that some of the rule makers are eager for the open game with all its frills, but have been checked somewhat. On the other hand, the change to an eight yard advance instead of ten, would argue that there are in a mood to go back somewhat to the old close formation style of play. That the rules committee finds it hard to make a final adjustment of the code also seems to show that there is a strong conflict of opinions.

Civil Service Superannuation.

OTTAWA, May 2.—(Special.)—It is very probable that the government at next session will bring in a bill for the superannuation of civil servants of both the outside and inside service. The plan, which the senate committee has prepared and which has been endorsed by the upper house, is more liberal than the old act, which was repealed, inasmuch as it permits outside civil servants as well as widows and orphans of government employees to participate.

Victoria Quelling Club Opening.

The Victoria Quelling Club at 305 Parliament-street took place on Saturday afternoon. The ceremony was performed by Ald. O'Neill, and after speeches by him and Mr. John Campbell, president of the club, a game of ten points was played between the two, in which the alderman, as usual, came out victorious.

Mr. Campbell's Davy Goshawk acting as official referee. It has transpired since that the popular representative of the Victoria Quelling Club at 305 St. George's street, was back for the past month. No wonder he has developed such a muscle. Great praise is due President Campbell and a number of the members for the excellent condition of the grounds in such a short time. Representatives from the Maple Leaf, Dominion Heather and Davy-Quelling Clubs were present and took part in a handicap game, which resulted as follows:

DOES GRAFT ENTER INTO MEDICAL COUNCIL WORK? To Test Public Opinion on Naval Bill—Choquette and Dandurand Talk About It, Anyway.

OTTAWA, May 2.—(Special.)—Just before the senate adjourned to-night, Senator Dandurand drew attention to an interview in Montreal La Patrie in which Senator Choquette is reported to have stated that, while he was not willing to resign his seat in the senate, and contest Montgomery on the naval issue with Mr. Roy, M.P., or Belcher with Mr. Talbot, M.P., he would be ready to meet Senator Dandurand or Senator Beique and contest any county with either of them...

Senator Choquette said that in Quebec, on Saturday morning, he was told by telephone by the editor of Le Soleil that the members for Belcher and Montgomery were willing to open the hustings. MATCH TO FIND GAS LEAK EXPLOSION SINGS HAIL Martin Foy Has an Unpleasant Experience at His New Home—House Windows Shattered.

Martin Foy had a warm welcome when he and his family were moving into a new home at 30 Bellair-avenue last night. Entering the house, the family noticed a heavy smell of gas. Mr. Foy went upstairs to discover the cause, after having lit the gas in the dining room, downstairs, and ascended to the front room he noticed that the odor was particularly strong. He felt it was a match, but there was a flash and a loud report.

Dr. Coates of East Queen-street was summoned to attend Mr. Foy, while the fire department was called, but no fire had resulted, owing to the absence of curtains or other highly inflammable material. It was found that the cap of the gas pipe had been taken off in the front room, but no fissure had been attached.

CITY NOT TO BLAME FOR DISEASED MEAT EVIL

Dr. Sheard Replies to Grand Jury's Charge—Pure Milk Campaign.

A presentation of the grand jury declaring that the city inspection of cattle arriving at the markets is inadequate and allows many diseased animals to be slaughtered and sold as meat, gave the local board of health some material for reflection yesterday.

Chairman Ald. McMurrich asked Dr. Sheard whether the city should inspect all cattle passing thru to other points, and was told that it was out of the question for the city authorities to attempt such a thing, but that a veterinary inspector looked over the cattle on market days, and that Robert Aude, the city inspector, devoted his attention daily to the slaughter houses and butcher shops, while there was also a government inspector in every abattoir.

Ald. Graham raised the question of the purity of the milk supply, pointing out that returned to the city, by giving directions to milk producers as to the proper care of cows and handling of milk, had reduced the quantity of bacteria from 3,000,000 to 3000 per cubic centimetre. Ald. McMurrich stated that it was for the provincial board of health to attend to the matter, and that under the new legislation, the city could inspect dairies outside its limits, but that such action could not be taken now, as the cow sheds are all in pasture. The government inspector and seven veterinarians inspecting the cows to discover traces of tuberculosis. He promised to outline a plan for the city to follow respecting dairy inspection.

Dr. Sheard, in presenting his monthly report, commented on the reduction in the number of typhoid fever cases from 115 during March to 40 in April. As there were but few cases in the latter part of April, he considered that conditions had returned to the normal. The city will, however, probably continue the use of the bleaching powder until the filtration plant is ready. Already three and a half tons have been consumed, and 30 tons more will probably be obtained. Montreal has also acquired the habit.

Signs on the Island. Park Commissioners Wilson will in future decide what advertising signs should be allowed on the island. Signs have been steadily making their appearance without the permission of the city being sought, and the erection of a conspicuous one on Manifold drew attention to the matter. When the sign was thru with filling in a portion of the lagoon at the Hanlan's Point lagoon as far south as the bridge leading to the baths, its action will be shifted to the west side, where stagnant pools will be filled up.

Births, marriages and deaths in Toronto during April all show a decrease, both in comparison with the preceding month and with April, 1909. The figures are: April, March, April 1910. Births 671 764 667. Marriages 478 501 412. Deaths 283 294 256. Contagious diseases were: Smallpox 0, scarlet fever, 3, diphtheria 7, measles 1, whooping cough 1, typhoid fever 3, tuberculosis 29. Cases of contagious diseases reported were: April, March, April 1910. Diphtheria 63 63 190. Scarlet fever 153 155 115. Typhoid fever 40 115 19. Erysipelas 188 294 256.

Dr. Sheard leaves to-day for a month's sojourn at Atlantic City. He told the local board of health yesterday that he hoped his successor as medical health officer would be appointed before his return, and that three months was the limit of time he could consent to remain.

GREY'S HORSE CAVALRY Headquarters of 24th Removed From Preston to Berlin.

GALT, May 2.—(Special).—The headquarters of the 24th Grey's Horse Cavalry, organized in the County of Waterloo a year ago, has been removed to Berlin from Preston. Major Ross resigned the command and Lieut. Cram succeeded him. The "Infantry list" has been abolished with the advent of local option and all interdicted persons may now indulge without fear of the law, which has made a revenue of several hundred dollars for the town within the year. Rev. R. E. Knowles, preacher and author, urged laymen to respect citizens to good by urging respect for the law and infractious duly punished. He adds that any temperance house un-dermined merits the assistance of the town council. Mr. Knowles also de-livered a sermon against municipal exemptions, saying that it was unfair and unjust to the small property owner that he be taxed to the limit while big factories pay only medium rates. Special refer-ence was made to school taxes and wa-ter rates. The big bazaar in aid of the Klitche band will probably clear \$3000.

Realty and Building

Another big deal in downtown real estate was put thru yesterday when the firm of L. J. Sheppard & Sons, batters, completed the purchase of the property (land only) at No. 143 Yonge-street, immediately adjoining their present premises. The site purchased has a frontage of 22 feet on Yonge-street, and a depth of 143 feet, and the price paid was \$12,000, or \$500 per foot. Interest in relation to the recent attempt to buy up property in the vicinity of Murray and Caser Howells streets has died down considerably during the past few weeks, the parties having ceased their efforts for the time being. It is now understood, however, that agents are again working in this district, and it is reported that several house-owners have been approached during the last few days with a view to securing options on their property.

Report of General Secretary Shows Substantial Increase in Givings. The report of the general secretary, Herbert K. Caskey, of the Canadian Council Laymen's Missionary Movement, shows a decided increase from all parts of the country in missionary givings. Meetings have been held at 125 centres since the National Congress of April last year.

WAR ROAD, Minn., May 2.—Canadian authorities are guarding the big dam at Kenora, Ont., which settlers in the Lake of the Woods district have threatened to blow out. About two hundred settlers on the lake shores and along Rainy River, the lake's inlet, have deserted their clearings. Two have been drowned, one a settler, at the mouth of the Rainy River, and the other a pilot on a wood boat. Three other settlers are reported missing.

Conservation of Resources. A public meeting will be held in Convocation Hall, University of Toronto, on May 18, at 8:15 p.m., under the auspices of the Ontario Forest, Fish and Game Protective Association. The topics will be "The Conservation of Natural Resources," and "Fish and Game in Relation to the Tourist Traffic."

Liberal Retain Seat. LONDON, May 2.—In the by-election in the Creve de Ciel division, Mr. Lazenby, M.P., polled 7639 and Wellford (Unionist) 341.

Stomach Troubles OFTEN COME FROM WEAK, EXHAUSTED NERVES—GREAT RESULTS FROM USING Dr. Chase's Nerve Food

When the nerves become exhausted the first sign of trouble often comes from the stomach. The nerves which control the flow of digestive fluids fail and the result is loss of appetite, indigestion, nervous headache and sleeplessness. Opiates and narcotics cannot possibly do more than afford temporary relief, and aids to digestion are merely makeshifts. To get well you must get the nervous system back into condition by such treatment as Dr. A. W. Chase's Nerve Food. Here is a letter which illustrates the point. Mr. John McLean, 215 Hunter-street W., Hamilton, states: "My trouble was principally with my stomach. As a result of weak nerves my appetite was poor and I had severe attacks of indigestion. I found that Dr. Chase's Nerve Food relieved me and since using it regularly for some time my digestion is excellent, my appetite is good, my nerves strong and vigorous and I feel an altogether different person. I feel very grateful for the benefit I have derived from this medicine. If you are in earnest about a cure why not make it thorough by using Dr. A. W. Chase's Nerve Food regularly and persistently until the whole nervous system is restored, and you can know again the joys of living."

At Winnipeg and Edmonton. WINNIPEG, May 2.—The painters in Winnipeg are out to-day. In Regina the carpenters and contractors have failed to come to terms and to-day commenced what may be a long-drawn-out struggle. In which possibly the plumbers and electricians will be-

Plumbers Go Out. HALIFAX, N. S., May 2.—Journey-men plumbers who have struck for an increase from 25 cents to 35 cents per hour, were offered \$15 per week but declined, and with few exceptions, are on strike to-day. The carpenters' demand for an increase was granted.

Kingston Carpenters Strike. KINGSTON, May 2.—About 100 carpen-ters, in a body, here yesterday. They are-kinged for \$3.69 per day of eight hours, but later reduced this to \$3. The contractors declined, holding that increased wages meant increased cost of build-ing, and men might abandon their pro-ject, and it is said that the wages will likely be paid, as several of the con-tractors have already signed the agree-ment, and a few say they expect it is expected all will comply and work will be re-sumed.

Bank Robbery. QUEBEC, May 2.—A daring bank robbery was effected last night at the Bank of Montreal, 111 rue de la Montreuil, where six French-speaking men looted the safe of the Banque Nationale, escaping with \$3000.

Could Not Sleep. DOCTOR SAID HEART AND NERVES WERE RESPONSIBLE. There is many a man and woman tossing night after night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted and causes nightmares, bad dreams, starting in the sleep, twitching of the muscles, restlessness, etc. Milburn's Heart and Nerve Pills are a specific for all people troubled in this way. They have a soothing and calming effect on the nervous system. Mrs. Calvin Stark, Rosemont, Ont., writes:—"About two years ago I began to be troubled with a smothering sensa-tion at night when I would lie down. I got so bad I could not sleep in the dark and would have to sit up and rub my limbs, they would become so numb. My doctor said my heart and nerves were the trouble. I saw Milburn's Heart and Nerve Pills advertised and got a box to try them. I took three boxes and can now lie down and sleep without the light burning and can rest well. I can recom-mend them highly to all nervous and run-down women."

Regers a Strong Imperialist. LONDON, May 2.—Hon "Bob" Rogers of Manitoba, in an interview at a hotel, declared he came here as a strong, uncompromising tariff reformer, and if possible he is returning home a still stronger one.

Peaceful Montreal. MONTREAL, May 2.—Montreal is having a peaceful May Day so far as labor troubles are concerned. There was some talk of the painters demand-ing higher pay, but nothing has materialized. There is also talk of the ma-sons seeking better wages, but their con-tracts do not expire for another month.

At Winnipeg and Edmonton. WINNIPEG, May 2.—The painters in Winnipeg are out to-day. In Regina the carpenters and contractors have failed to come to terms and to-day commenced what may be a long-drawn-out struggle. In which possibly the plumbers and electricians will be-

COBALT--- Crown Reserve Heavy, Other Mining Issues Steady ---COBALT

Buying and Selling Light And Price Changes Are Narrow

Crown Reserve the One Heavy Stock on the Mining Exchange-- Other Issues Dull and Steady.

World Office, Monday Evening, May 2. Brokers on the local mining exchange to-day reported business exceedingly dull. They had few selling orders, but buying orders were numerous, consequently the market remained comparatively unchanged.

Price changes during the day were insignificant, but if anything slightly lower than they were at the close of last week. The one heavy stock in the market was Crown Reserve, which sold down eight points lower than it did on Saturday, but was offered at the close with no local buyers in sight. The pool in this stock is supporting the market at special occasions, but is certainly not a serious support of the stock, which they have put out back on their hands.

The heaviness of the larger exchange contributed to the apathy which was felt in the mining issues, but it was somewhat of a tribute that the lower-priced shares of their own to the extent that they did. Shipments from the Cobalt camp last week were exceedingly good, and this with the continued strength of the silver is regarded as a bullish factor, which might exert a favorable influence when the market gets out of its present rut.

NAVIGATION NOW OPEN

Porcupine Will Now Be Able to Be Reached From Railway in a Day.

Parties who have recently returned from the Timiskaming mining district report that navigation is now open on the rivers and lakes into the Porcupine gold field and that from now on a big rush of prospectors and mining men is expected.

Commencing next Monday it is stated that a gasoline launch service will be in operation, by means of which it will be possible to get into Porcupine from mileage 23 in one day.

PORCUPINE'S ORE ASSAY RESULTS.

It is stated that the results of the assay of the first shipment of ore from the Timiskaming, McMartin syndicate prospect in Porcupine show 10.7 per cent gold per ton.

To obtain these results, it was necessary to uncover a vein ten to sixty feet wide for 1700 feet and trace it further on for 4000 feet. Three shafts were sunk, one of which went to a depth of sixty feet; the ore being taken from the surface at different points on the vein, and at different depths down to the sixty foot level in the shaft. A little over twenty-seven tons were shipped to the Leclerc Sampling works at Bayonne, N.J., who reported as stated. The shipment was made to satisfy the owners of the property. The ore proved to be free milling, but can be milled to good advantage on the property, and it is estimated that the cost of mining and hauling will be well under three dollars per ton.

The above is going the rounds of the Montreal papers, and the state of affairs will be true and of great confidence would be placed in the assays if the statement from the smelting company was published, and if it was announced that the samples sent were not of the selected variety.

CAR OF HIGH GRADE ORE

Give Beaver Power and It Will Demonstrate Its Ore Reserves.

COBALT, May 2.—(Special).—A car of high-grade ore running from 25 to 30 tons will be shipped to the Beaver Mine to-morrow. The men at the mine are now busy filling the car with ore, which has been taken out during the last eighteen days. This is a record in the Cobalt camp, and is a comment on the ability of Superintendent Hewitt. The power which the company has been receiving has helped some, although the current is not yet working entirely satisfactorily, but with a full supply of power enabling more drills to be operated it is expected that the Beaver will demonstrate that it is working in one of the very big veins.

Gifford Cobalt Stock Issue.

At a special general meeting of the shareholders of the Gifford Cobalt Mines yesterday, it was decided to issue 300,000 shares of stock at 10 cents a share (par value 25 cents) to shareholders until May 15, when any not taken up will be available to the public at 12 1/2 cents. This will leave 130,000 shares in the treasury. A mining captain will be engaged to superintend work on the property.

CEREAL ISSUE WELL RECEIVED

While the issue was oversubscribed, all applications for 400 shares or less will be allotted in full.

The Investment Trust Co. announced yesterday afternoon that the issue of \$1,200,000 seven per cent. cumulative preferred stock of the Canadian Cereal and Milling Co. had been well oversubscribed, and the success of this issue was very gratifying. A particularly gratifying feature was the large number of subscriptions for small amounts, showing that small investors were putting their money into the company. Subscribers for 100 shares and under will receive the full amount of their subscriptions. The subscriptions covered a very wide extent of territory, applications being received from all portions of the Dominion. Mr. A. J. Nesbitt of the Investment Trust Co. was in charge of all the financial arrangements connected with the cereal merger, and its success had been due to his exertions.

Turkish Government Can't Collect

BERLIN, May 2.—The provincial court of Berlin to-day frustrated the efforts of the Turkish Government to secure possession of the \$2,000,000 deposited with the Imperial Bank of Germany by Abdul Hamid, the deposed Sultan. The bank took the ground that the former Sultan, being practically a prisoner, was not in a position to give a voluntary order for the disposition of his money. This latter view was sustained by the court.

General Elections in Spain

MADRID, May 2.—The general elections will be held on May 8. One hundred and fourteen deputies, whose candidacies are uncontested, have been officially declared elected and will not figure in the voting. They comprise 59 Liberals, 34 Conservatives, 2 Republicans, 3 Carlists, and 5 of other parties.

ACTS WELL FOR A BEAR MARKET.

World Office.
Monday Evening, May 2.
For a bear market, Canadian securities are acting admirably, and in the regular methodical manner for a downward movement. In a rising market prices never go up all at once, and conversely in a falling market prices have to be stepped down gradually. If all holders of stocks decided to stand pat it would be hard to depress prices further, but it should be remembered that if speculative holders do not sell themselves there are always others who are willing to put them out for them. It is certain that the Toronto market is in a depressed condition. Prices here have yet scarcely responded to the break in New York, and there are numerous issues which have been bolstered up by pools, both here and at Montreal, which have far less merit than some of the highly inflated Wall-street specialties.

New York Securities Heavy All Day, But Close Above the Low Quotations—Locals Saved by Light Liquidation.

World Office.
Monday Evening, May 2.
In conformity with the break in New York securities to-day the local speculative situation was further impaired and the same difficulty of disposing of stocks was experienced as towards the close of last week.

Prices practically thruout the list of all the speculative issues were further shaded, but the liquidation was not extensive and prices were therefore held on the moderate reaction.

The biggest downfall was in Quebec Light and Power, which last week sold over 47, and today was to be had readily three points lower. Mackay, Twin City, the Steel, Coal, and, in fact, all the other active issues were offered in concessions with attracting buyers, except those who were inclined to cover outstanding short accounts.

The investment securities were somewhat influenced by the weakness in the rest of the market, and Canada Permanent and some of the bank shares were disposed of at lower prices. Liquidation from actual holders of local securities continues light, and unless the volume of this class of operations is increased it is expected that prices will be able to be maintained for a while.

Joseph says: James J. Hill iterates that this year's crops will be worth \$2,000,000,000 or more. Buy Atchafalaya and New York Central, Chesapeake and Ohio will make a good recovery.

In the absence of further liquidation rallying tendencies should be witnessed in the stock market, which we think meets better support toward the low levels of Saturday. Expectation of a bad copper producers' report is influencing the selling of Anaconda.

Professionals also active on railways, on the talk of poorer business, which is exaggerated. Inside buying of Car Foundry is noted at 56. Smelting support at 76. B. R. T. is taken for insiders at 75. St. Paul continues with Cons. Gas, to show a reactionary trend, but may rally. Supporting orders are reported in Reading at 158. Rock Island should be bought on a scale down. The same may be said of Southern Pacific, which is taken by important people. There are, say specialists, some large orders under Union Pacific toward 177.

We would continue to go short of Amalgamated, Anaconda, Smelting, which has labor trouble prospects, and Lead, for big profits. Colorado Fuel and Westinghouse seem far from bottom, and Steel also, which bears will try to get to 75, where, if it finds no substantial buying it may get ready for a drop to 70. General Electric is likely to suffer with other high class industrials. Union Pacific and St. Paul are likely to go much lower as bears will attack aggressively, and other high priced rails will probably suffer also.—Town Topics.

Further one goes from this city, the brighter the outlook becomes. Erickson Perkins & Co. had the following: The larger shorts have not begun to cover yet. Unless something important develops tonight we look for a feverish market again tomorrow, but we may get a good rally before the close. We think there has been some good absorption of stocks to-day. The best support was in U. S. Steel, St. Paul, Reading and the Harriman issues, after the first sharp break. It would not be surprising if London prices came weak to-morrow morning. The party often attacks American stocks in London for effect here later. Call money rather easy near the close with offerings at 3 to 3 1/2 per cent., after 6 per cent. earlier in the day. This helped sentiment. It will require some days before sentiment quiets down. Meanwhile we look for a very irregular stock market. Stocks have discounted much bad news. We are due to have some better news soon. J. P. Bickell & Co. say at the close: Another selling movement carried stocks down to-day to the lowest

prices of the year, and in many cases the lowest in two years. We are of opinion that liquidation has been drastic, that on technical grounds alone the market is due for a rally.

Chas. Head & Co. to R. R. Bongard: There was no London market this morning to serve as a guide to operators who went home Saturday surrounded by the blue haze of pessimism, and the opening market was very nervous and feverish. Closing prices were firmer at a fair rally. It is thought that the rally should extend a few points further at least, but there are few bulls willing to say more than this.

HEAD OFFICE . . . TORONTO, CANADA
Mills situated at KENORA, THOROLD, ST. CATHARINES, WELLAND and PORT COLBORNE, the last named in course of construction, in the Province of Ontario, and BRANDON, in the Province of Manitoba.

This Company a Going Concern

Right from its inception Maple Leaf Milling Company, Limited, is a going concern, and the dividend on the preferred stock accrues from April 5th, 1910. This means that the subscribers to the preferred stock will receive dividends from that date.

It is a going concern because it has taken over the whole undertaking as a going concern of the Maple Leaf Flour Mills Company, Limited, including therein that of the Hedley Shaw Milling Company, Limited.

Five of the six mills of the Company are in operation, and it is expected that the seventh, a 6000-barrel mill, now in course of erection at Port Colborne, will be completed by January, 1911, and that a portion of the wheat crop of 1910 will be handled by it.

Security and Earning Power

The position of the preferred stock now being offered is specially secured, there not being any bonds ahead of it, and the Company has no bonds either issued or authorized.

The old Companies taken over stand in excess of all liabilities and without any allowance for good-will, trade marks, etc., at \$2,770,524.11, this amount being ascertained on the basis of an appraisal by the Canadian-American Appraisal Company, Limited, as of March 17th, 1910, of the capital assets taken over, and the certificate of Messrs. Price, Waterhouse & Company, as of February 28th, 1910, as to current assets and liabilities. There has besides permitting of the completion of a 6000-barrel mill and a million-bushel elevator and storage warehouse at Port Colborne, and of fifteen additional elevators in the West, will provide the new Company with further working capital.

As per certificate of Messrs. Price, Waterhouse & Company of London, the earnings of the old Company on the present plant amounted from September 25th, 1908, to August 20th, 1909, to . . . \$218,848.88
And from August 21st, 1909, to February 28th, 1910, to . . . \$160,798.20
being for the latter period at a rate equal to over 18 per cent. on the preferred stock of the Company.

Market for Output

The tremendous increase in the wheat crop of Western Canada makes additional elevator capacity particularly urgent. In the past a great proportion of the total wheat crop has almost necessarily found its way into Canadian Mills, and the conditions in this respect should be very much the same as they are at present, when the total output of the Western Wheat Belt has increased, as experts expect it will, from 125,000,000 bushels in 1909 to fully 500,000,000 bushels by the end of 1910.

The points at which the Company's mills are situated will place it in a very advantageous position and will enable it to lay down its flour at almost all points in Canada, at all Atlantic-Sea Ports, in Great Britain, and in Foreign Markets cheaper than can be done by any other Canadian Milling Concern.

Management

Mr. Hedley Shaw, the Vice-President and Managing Director of the Maple Leaf Flour Mills Company, Limited, will be Managing Director of the new Company, and brings with him his entire staff of tried and experienced officials.

Full details regarding the terms of subscription and complete facts, as set forth in the prospectus, will be found in the large display advertisement published in the issue of The World on April the 23rd and 29th.

Sample \$14.50 to \$40.00 Dresses for \$7.69

Remarkable Opportunities in the Cloak Dept. Occur To-morrow

WE have accepted two sets of costume manufacturers' spring samples, and will put them on sale in the Cloak Department to-morrow. The occasion is one of the most remarkable we have announced this present season.

\$14.50, \$22.50, \$25.00, \$30.00, \$35.00, \$40.00 Dresses at \$7.69

\$17.50, \$20.00, \$25.00, \$32.00 and \$40.00 Lace Coats at \$9.95

\$15.00 and \$16.50 Traveling Coats \$5.95

We will just run over each of these groups with brief note of what they are like. (Of course we will not in fairness to 8 o'clock shoppers be able to accept phone or mail orders for these goods.)

169 Dresses, lace, silk, net, messaline, satin, Persian lawns and French Mull dresses. Sizes 34, 36 and 38, in colors of black, cream, pink, sky, navy, brown and greens. Regular prices were \$40.00, \$35.00, \$30.00, \$25.00, \$22.50 and \$14.50. Wednesday 7.69

A collection of Stylish Lace Coats, of Battenberg, guipure, Cluny laces, and of crochet, in some of the newest designs, showing the dainty effect of the laces; these are made in a very large variety of styles, and trimmed to match laces. Only 32 coats in this lot. These sold regularly at \$17.50, \$20.00, \$25.00, \$32.00 and \$40.00. Will clear Wednesday 9.95

68 only Ladies' Traveling Coats, in a number of smart styles, long lengths, with semi or close fitting backs; trimmings are of self strappings or buttons; some plain tailored styles; materials are fine tweeds, in check or stripe effects of grey and lawn tones, also in all-wool serges, in navy. Sold regularly at \$15.00 and \$16.50. Wednesday's price \$5.95

A \$20.00 Proposition For Men

WE ADDRESS these remarks to the Man-About-Town.

Our proposition is a Suit at \$20, ready to wear.

We are not deceiving our \$10 Suits or our \$15 Suits—they will give you the maximum of wear and style at those prices. But to the man who wants a distinguishable suit, a suit such as tailors don't forget to charge for when ordered Custom made—to him we recommend our \$20 Suits.

With one of these suits on he has saved an expensive tailor bill, and a lot of time besides.

At \$20.00 we offer the approved American branded clothing as well, the pinnacle of the Canadian production. If your figure is fair to middling we can fit you just as well as ever you saw yourself fitted yet!

As to quality of cloth and of finish, it is absolutely A1.

A handsome grey Scotch tweed effect, including hairline and broken stripes, with self and fancy colored overstripes, cut from the new 1910 spring models, in three-button single breasted sack style, long lapels; pants are cut in the most up-to-date style, and hang perfectly. Sizes 36 to 44. \$20.00.

Or a fine English worsted, with a slightly unfinished surface, a rich dark brown ground, with neat fancy colored stripes; cut in the latest three-button single breasted sack style; tailored and finished with first-class workmanship. Sizes 36 to 44, \$20.00.

Men's \$4 and \$5 Boots for \$2.50

WERE we to tell you the name, we would probably embarrass the manufacturer concerned, for his boots are sold at the regular prices every day in the year. So we will only say that we recommend them and that \$2.50 is not enough for boots like he makes.

700 pairs Men's Boots and Oxfords; every pair made with solid oak bark tanned Goodyear welted soles; patent colt, vici kid, tan calf and box calf leathers; some are leather lined; some have triple thick soles, with heavy solid leather shanks; mostly Blucher cut; all sizes in the lot, 5 to 11. Regular values \$4.00, \$4.50 and \$5.00. On sale Wednesday 2.50

BIG GIRLS' TAN BOOTS. SIZES 2 1/4 TO 6. \$3.50 VALUE, FOR \$2.49. 60 pairs Russia Tan Calf Button Boots, Goodyear welt sole, low heel, creased vamp; a style we are discontinuing; all sizes from 2 1/4 to 6. Regular price \$3.50. On sale Wednesday \$2.49.

Waist Department, 3rd Floor

A Millinery Dept. Message

AFTER all is seen, said and thought about, you don't know of any nicer Millinery at sensible, moderate prices than Simpson Millinery. You know of showier hats than we sell, you know of cheaper hats, and you can quite easily perhaps, discover more expensive hats. But Simpson Millinery is the kind that gentlemen like. Good taste distinguishes it. Mere costliness or showiness without quality have no appeal for us nor for our customers. Our Offering for Wednesday:—

We have prepared for Wednesday selling, about 75 Ladies' Trimmed Hats, of exceptional merit, made after the latest Paris and New York ideas; beautiful shapes in finechip leghorn, tucan and hair effects, together with many made hats of novelty braids. The trimmings are charming flowers of exquisite shadings, rich velvet ribbons, ornaments, etc., no duplicates. Special price \$7.50.

Dress Goods for Summer Time

THERE can be great differences in dress goods cloths which are apparently much alike. Looks do not count for everything. Some cloths have the approved appearance, but do not prove their durability in actual wear. Experience teaches how to know and where to go. Our Dress Goods Department has proved itself as a dress goods expert of thirty years' experience.

These remarks apply to everything in our dress goods stock, including these summer cloths we particularize for Wednesday.

1,000 yards Silk Stripe Voiles, nice soft clinging make, and drapes well, in all the leading shades, reseda, biscuit, saxe, rose, pompadour, amethyst, champagne, cream, sky blue, pearl grey and cream, also black, guaranteed fast dyes, excellent quality. 42 inches wide, 50c.

No. 24 "Fate's A Fiddler"

By Edwin George Pinkham

A delightful story in a delightful literary style. There is a Dickens-like flavor to the character-sketching of the second-hand book dealer in the basement shop in Boston, and of the admiring group who used to drop in there of an evening to hear the book dealer talk.

And when he finds that the second-hand book business—which had come his way originally in the form of a library bequeathed to his wife—is an over-crowded way to fortune, he sells out for a promissory note bearing interest payable half yearly, and \$30 in cash.

The unsophistication of Mr. Bibbus is delightful. The scene shifts to Missouri, where Mr. Bibbus becomes the proprietor of the "Clarion" by the simple means of contributing 50 many ponderous articles to that paper that in despair of payment the first owner runs away.

Published in 1908, at \$1.25. Sale price, Wednesday, 25c.

We Sell Christy's Celebrated Hats

TALKING about hats and names attached to hats can you beat the old name of Christy? We speak of a hard hat as a Christy-stiff just as naturally as we call the south-west corner of Queen and Yonge streets Simpson's corner.

We sell Christy's hats and we don't know of any better advice than "buy them."

Christy's Famous English Make Derby Hats, correct styles for season 1910, fine quality fur felt; all the leading colors. Wednesday \$2.00.

We Have Orders to Make Room

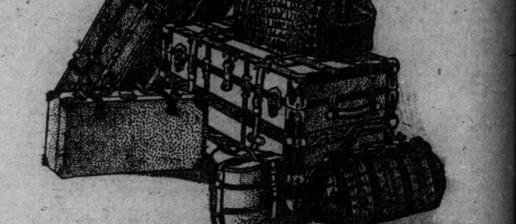

Wall Paper Department Must Clear Its Surplus Stocks IF you have been up on the fourth floor lately you will have noticed that the Wall Paper Department has been shifted. New arrangements have reduced its available space. A rigorous hand has been laid upon the stock and the surplus is doomed.

Suit Cases and Bags 1-2 Price

THIS means that one of those spasms of housecleaning has seized upon the traveling goods department. The goods referred to have been used as our floor samples to show customers the fine points about our stock. Frequent dustings, shiftings, bumpings, haulings, liftings, rollings, turnings and fallings haven't damaged them a bit. But they have taken the fresh new factory look from them.

That's why:— 90 Selected Paris Grain and Smooth Cowhide Leather Club Bags, brass lock and trimmings, leather covered English frame, leather lined and including an odd lot of best cowhide leather suit cases, gentlemen's silk hat boxes, ladies' hat trunks, Gladstone bags, doctors' bags, etc. Simpson's regular prices from \$4.95 to \$19.50. Wednesday 50 per cent. off every article. Note conditions: No phone or mail orders—filled; only two articles to one customer.
