BRITISH ATTACKING ON FIVE MILE FRONT

British Pressing Hard All Along the Line From Pozieres to Guillemont—Territorial and Australian Troops Carried Out Works of Pozieres, But Met Fierce Resistance in Village—Desperate Conflict for Possession of Longueval and Guillemont.

FRESH RUSSIAN SUCCESSES ON RIGHT AND LEFT WINGS

GERMANS MAKE DESPERATE EFFORT TO STEM TIDE OF BRITISH ADVANCE

"Anzac" Consolidating Positions Won After Hot Fighting at Pozieres—British Advanced Successfully West of the Village, But on Right of Pozieres Were Held Up By Wire Entanglements and Heavy Machine Gun Fire.

LONDON, July 23, 2:45 p.m.—The battle on the British front in north-east France was resumed today along the whole line from Pozieres to Guillemont (a length of about five miles), the war office report of the afternoon says. The British captured the German outer works near Pozieres by assault and carried the fighting into the village. Longueval was also the scene of a desperate struggle. Violent fighting is in progress.

ANZACS' SPLENDID WORK.

A Reuter despatch from the British front in France, filed at 3:30 p.m. today, says: "Following a heavy bombardment last night British troops and Anzacs attacked towards Pozieres and Guillemont. Despite desperate resistance the Anzacs succeeded in establishing themselves in Pozieres, where they are now consolidating their lines. It is reported that the casualties were comparatively light.

"West of Pozieres the British successfully advanced. On the right of Pozieres the wire entanglements were insufficiently destroyed and progress consequently was checked by heavy machine gun fire. Nevertheless we gained a footing in Guillemont, but owing to a determined counter-attack we were unable to maintain the advance.

Fateful Week Begins.

The fourth week of the Somme battle begins well for the allies and is expected to be fruitful of important developments. Before Saturday night the British began a new attack on the whole line from Pozieres to Guillemont, and the fact that Gen. Haig has been able to resume the offensive so soon after the unsuccessful German counter-attacks of last week, in which very strong German forces were brought forward, is regarded as a good omen.

The fighting has been of the fiercest character. The Germans working with their utmost strength to prevent the British from advancing to their third line positions, but when the Australians had firmly established themselves in Pozieres and the British had advanced to Longueval, while the French were attacking from the southwest and southeast respectively, carried the German outer works by assault. Violent fighting is now taking place in the village, where the Germans are offering a desperate resistance with large numbers of machine guns.

On other parts of the battle front the fighting is equally intense and here no definite progress is yet reported. At one time this morning we had recaptured the whole of Longueval, but the enemy now regained the northern end of the village. Similarly the outskirts of Guillemont already have twice changed hands.

Destroyed Six Aeroplanes.

The German counter-attacks recently delivered against the French front have proved equally unsuccessful, and the allies are now fighting slowly in the direction of Combles, which is only two miles distant from Guillemont.

According to a reliable estimate the British and French together have captured since July 1 more than 26,000 prisoners, 140 guns and hundreds of machine guns.

:WAR SUMMARY:

THE DAY'S EVENTS REVIEWED

FIERCE combats were being fought between Britons and Germans on the line between Pozieres and Guillemont at a late hour last night with the battle still undecided. The British were able to attack the Germans almost immediately after they had repelled counter-attacks launched with the object of driving them back and relieving pressure on the third system of the enemy's defence. The Australians secured a firm lodgment in Pozieres at the fence. The general attack, and other British troops secured possession of Longueval and Guillemont, and were later pressed somewhat back, but in the struggle these places changed hands several times. The combats are raging on a front of about five miles.

It is considered encouraging that the British were able to renew their offensive operations so soon after repelling the German counter-attacks, and considering the great number of men that the enemy has managed to attempt to stem the allied advance, it appears as if the German counter-blows were comparatively feeble. It is estimated that the British and the French have taken in three weeks of fighting since July 1, 26,000 prisoners, over 140 cannon and hundreds of machine guns.

The French found operations comparatively quiet. They repelled a German counter-attack against their new line south of soyecourt on the Somme front, and their batteries engaged in a heavy artillery exchange with the German batteries all day Sunday. In aerial operations French machines were conspicuous. Bombs

Kuropatkin Driving Wedge Deep Into the German Lines

Russians Reported to Have Penetrated Five Miles Into Territory Defended by Von Hindenburg—Nearing Hungarian Frontier.

LONDON, July 23.—From the eastern frontier comes further reports of continued Russian successes. Gen. Kuropatkin has cut Field Marshal Von Hindenburg's line at several points and, according to an unofficial report, has penetrated a distance of five miles. Russian official reports of the operations in this sector (Riga) are exceedingly reticent, but Von Hindenburg's line was considered the strongest on the whole eastern front, and that the Russians were able to break it is regarded as most significant here.

At the other extremity of the main ridge of the Carpathians, and moving toward Maramoros Sziget.

Except in the Danester region heavy fighting is proceeding along the whole front. There is no further official news of Gen. Sakharoff's operations, but, according to unofficial accounts, he is on the point of entering northeast Galicia. Gen. Boehm-Ermell and Gen. Bethaus are being outflanked by north and north-west. Gen. Sakharoff's forces are supposed to be working in the direction of Brody and Sokal.

ANZACS WON CHIEF GLORY METTLE WITHSTOOD TEST

Their Vim Carried All Before Them at Pozieres, and Their Losses Were Surprisingly Light—Great British Offensive Reaches End of Third Phase.

WITH THE BRITISH ARMIES.

IN THE FIELD, July 23, 5 p.m.—via London, July 24.—To the Australians is the glory of today's action, which takes the form of a surprise attack on the German front. Not once in the three weeks have the Germans been able to resume the offensive since July 1 more than 26,000 prisoners, 140 guns and hundreds of machine guns.

Mud-covered men from the trenches and rested battalions go in to express the same wonder at the persistence of the hammering of the British, which has become 24 hours a day, the army fighting night as well as day. "I Must Have That!"

While resisting many counter-attacks throughout the week, the British have been creeping forward. More German artillery and more troops have been ordered to meet the increasing numbers of the British, while the British guns kept moving nearer.

More important than ever to either side are those points of high ground on the front of the British pressure. Both straining combatants strive for the positions, saying "I must have that!"

Villages like La Boisselle have become so unrecognizable from shell fire that one does not know where the village begins or ends.

Driven From Pozieres. Pozieres was under the same British shelter as the other villages before the Germans were forced out. Not a human being was seen in the neighborhood except near a communication trench in front of which a few British were making a shell crater into a field fortress. Across the same business, both having sneaked out of their positions in the night, the British yet again seem to be driving the Germans for timber for their trenches, which were being made into British trenches.

By location of the shellbursts in the morning it could be seen how far the British had wormed their way up overnight. Thru all the army there is a sense of exultation, which seems to be no one to become tired. The death of comrades is accepted as something inevitable, and there is a strange absence on the part of the British of any grimaces. They go it as part of the day's work.

Tommy Atkins' Jest.

One of the humors of the week to the army is the German gas shells. At first, such numbers of them were astounding, especially those which do

not explode, but emit a volume of gas. One British soldier called out: "If you expect to kill us with gas, you had better come over and hold them out to our noses."

Another called to the Germans: "They aren't as sweet as our gas, but we like them better than your shrapnel and high explosives." "Pozieres will be a hard nut to crack," everybody has been saying in the last few days. That task was given to the Australians this morning.

Australians Full of Vim. There is no mistaking the Australian at the front. He wears a slouch hat, wears caps. Some say that the discipline of the Australian is poor.

Some of the military critics said the Australians were all right for Gallipoli but not for this kind of work against the Germans. Today they had their first big test in France. The first day of the southern cross, limbed sons of the southern cross, charging into their trenches against the venture in the darkness against the new German trenches around Pozieres, which had been dug at the first day, the army fighting night as well as day. "I Must Have That!"

It had been said that either the Australians would get there or be killed, and the surprising thing, the wounded say, is how few were killed.

The Australians met the 114th German Division, which had been rushed from Ypres, and prisoners taken including one hundred in a body, may frankly that the Australians came on too quickly for them. At other points over the four mile front the British attacked at the same hour, at some points for diversion and at some points in earnest. The hottest fighting was in that terrible region, the Devils Woods, the Froese Woods and Guillemont. In Guillemont the old second line trenches, which had been strengthened and supported with infantry and artillery reinforcements, was the vital point of the present German defenses. The British rushed the village fronting Thomas Wood bank got in, but the attackers on the front were repulsed and the successful battalion was forced back, but it gained a footing which it still holds.

RUSSIANS TAKE FIVE MILES OF FOE TRENCHES IN RIGA DRIVE

Czar's Forces Advance Five Miles in Northern Offensive.

INFLECT BIG LOSSES

Southern Column Captures Height Near Summit of Carpathians.

LONDON, July 23.—A despatch from the Russian front says: "A Russian advance of five miles is reported on the left wing of the Riga sector. Gen. Von Linningner's recent losses on the Stry and Lipa rivers are computed at least 50,000 men out of three corps engaged on the point of the Carpathians, the northeast corner of Galloia. Col. Gen. Boehm-Ermell and Gen. Count Von Bothmer being outflanked both on the north and south.

The heights captured by the Russians are only four miles from the summit of the Carpathians, and the Hungarian frontier, in the direction of Maramoros Sziget.

Make Gains Near Riga.

A Petrograd despatch says: "In heavy fighting in the district of Riga the Russians penetrated the German front at several points and they also took German positions northeast of Smorzon, 50 miles east of Vilna, and repulsed German counter-attacks by the fire of their batteries, so that the enemy was compelled to retire," it was announced in official communications today.

German troops in Volhynia tried last night to break the Russian line along the Stokhol River near Bereznits, 25 miles northeast of Kovol, but they failed and were compelled to retire.

took Many Prisoners.

The Russians announce that during July 20 and 21 they took prisoners 370 colonel, including a general and a major, and 13,700 men. They also captured ten guns. The total number of prisoners made by them in the recent fighting, including those given in Saturday morning's official communications, is 27,070. "The total number of guns taken is 40."

They have also won a success in the Carpathians on the road from Delayski to Maramoros Sziget in Hungary, and took prisoner five officers, including a colonel and two majors.

CAPTAIN KOENIG HAS A BIG CARGO OF CANADIAN NICKEL

Probably the most interesting topic of the moment to the great mass of American citizens is whether the German undersea boat Deutschland will be able to get away from Baltimore with her cargo of nickel and rubber for Germany, and get past or underneath the fleet of allied cruisers waiting for her to come out of American waters. But even more interesting to Canadians is the New York Herald of Saturday, which reports Capt. Koenig of the Deutschland saying: "That she now has enough nickel aboard to supply the German munition plants for two months." Whether this vessel runs the gauntlet or not is another matter to Canadians; but it is of the utmost moment to us to know that she has a supply of nickel enough to last the German munition plants for two months; and that the bulk of this nickel, notwithstanding all denials, is Canadian nickel from Canadian ore smelted in the United States by the International Nickel Trust, which seems to have an abounding influence with the governments of Ontario and Quebec, and which is represented so quietly and yet so industriously in this country by Hon. Wallace Nesbitt!

It is not generally recognized that the Crichton ore runs about \$50 a ton, or more than six times as much as the Hollinger grade, and two and a half times that of the Tough-Oak ore, regarded in high-grade mining. And if agitation is not translated into action now to force the refining of Canadian nickel here, there will be little chance for it when the war is over and its slightly dollar once more assumes its normal sway over the appeal of patriotism.

The International Nickel Co. is making millions and millions of dollars a year out of this nickel ore. It pays very little of its profits to Canada, and has a monopoly which, if properly handled, would pay our national debt, war debt included! There are decent Canadians who are so convinced of the character of the nickel monopoly that they would be prepared to see it confiscated and confiscated in the absolute interests of the safety of the empire!

And we have another northern paper, The Sault Star, very friendly to the governments at Ottawa and Toronto. It says: "We are doing everything from a patriotic point of view for Canadian industries. But it still believes that the nickel mines should be used for the foundation of a great Canadian industry. The Sault Star, compliments it on its sudden conversion in this direction and calls upon the Star to join in a national movement to establish a customs smelter and refinery for Canadian nickel ore as part of a national policy and thus smelt the nickel trust. Even papers like The Star have had to come down off their perch and to get their inspiration from other quarters than the friends of the nickel trust."

Again we repeat that Canada has been humbugged, or worse than humbugged, into taking care of the International Nickel Co., against the interests of the greatest monopoly that Canada possesses. How much longer is this to continue, and how much longer is Sir Robert Borden to allow Canadian ore to be refined and distributed in such a way as we now know that the Deutschland can get all the nickel she wants or any other undersea boat that may follow her into American ports?

The only thing that Canada can do at this moment is to absolutely prohibit the export of our nickel ore to the United States, except on the condition that the nickel refined from it be forthwith returned to this country for distribution. We have put this proposal up to the government day after day and have got no response; all we are told is that Great Britain is satisfied with what is being done! We are not satisfied, nor are the Canadian people satisfied; because we now know how the thing has been engineered and, indeed, we know enough to say that something very near to treason against the cause of the empire may be charged to some people in this country because of their service to the nickel trust!

We have put it up to The Globe newspaper day after day to say what it thinks as to our proposal to prohibit the export of the ore unless the refined nickel is returned to Canada, but it says nothing. It has said a great deal favorable to the International Nickel Co. within the last few months. And it has said a great deal against the armament trusts of Europe; but when it published a list of the names of the armament trusts of Europe, it contained the name of one of the chief officials of the International Nickel Co. as a member of that enterprising society—we pointed out in reply that the nickel trust was the key of the armor plate trust in America, and for that matter in Europe. The Globe did not have a word to say, although for months and months now it has been howling against the armament trusts as the real source of the war! If The Globe and Laurier and Howland had been busy on this nickel scandal they would have had the Borden and Howland governments out of office months ago.

We are rather tired of reading the news bobbing up here and there in the Canadian papers to the effect that the Canadian nickel is not getting to Germany; but what about The World's statement that Germany owns and controls the International Nickel Co.?

Northern Ontario papers are taking quite an interest in the situation. The Northern Miner, published in Cobalt, tries to let the nickel trust out by saying that it is a very shrewd concern and that it can sell enough of its product to let the allies without bothering about Germany. But what about The World's statement that Germany owns and controls the International Nickel Co.?

There are two important full-page advertisements of The Robert Simpson Co., Limited, in this paper—don't fail to have a look at them.

were dropped twice on the railway station at Arnville, causing a fire; they were also dropped on stations at Arnville, Laon and Stierme.

As a result of recent actions the Russians have considerably improved their positions at many points of the front and they have taken in the past few days 30,000 prisoners and 40 guns.

The success won by the Russians on the Styr and Lipa Rivers is being pressed to the point of invading the northeastern corner of Galicia, where, it is reported, General Boehm and General Count Von Bothmer have been outflanked, both in the north and south.

Continuing their pressure against the Austrian lines in the Trentino, the Italians have scored new advances along the Posina line and on the Sette Comuni Plateau.

Cairo, Egypt, has received authentic word of the fighting of a desperate engagement between Arab revolutionists and a Turkish garrison near Medina, with a result favorable to the Arabs.

An official statement issued in London yesterday reported that the Turkish forces in Sinai Peninsula had made a new advance to within 30 miles of the Suez Canal and that they are entreaching at a point some five miles east of Katia.

The weakening of the Turkish forces in the Caucasus after it was probably thought by General Von Mackensen that he had checked the Russian invasion has given the Russians their opportunity to push rapidly forward.

The Russians have also made a considerable advance along the shore of the Black Sea, west of Trebizond, taking a great many prisoners.

battalion commander, and 483 men. They captured three cannon and four machine guns. They report rains and snow in the Carpathians.

The Austrians admit that they have withdrawn towards the main ridge of the Carpathians in southern Bukovina, southeast of Tatarow, under the menace of a heavy Russian assault.

The breaking up of Russian attempts to advance southeast of Riga, and of efforts of Russian troops to cross the Styr in Volhynia are claimed in today's official statement by the German war office.

FIVE COLLAPSED IN HEAT OF SATURDAY

Saturday's heat was responsible for the collapse of five persons, Ernest Clarke, Ashfield avenue, who was removed from the foot of York street to St. Michael's Hospital; Walter Lott, 85 Bolton avenue, taken home from Yonge street while suffering from sunstroke; P. Williams, 25 Sycamore street, to the General Hospital, and Mrs. Strechtman of Lansdowne avenue, who collapsed at the corner of Lansdowne avenue and Bloor street in an unconscious condition.

AN AGREEMENT REACHED

LUCERNE, via Paris, July 22.—The Lucerne newspapers say that Germany and Switzerland have reached an agreement regarding the indemnities to be paid the families of Swiss victims of sinking of the Sussex. OFFICER GOES MAD KILLING OWN MEN

French Bombardment Reduces Tragedy Among Germans.

PARIS, July 23.—The destruction of a German fortified work on the Somme front was marked by 23 tragic episodes, says La Liberté. The order was given to destroy the fort at water level. In less than six hours more than 2500 great shells were fired at it, and the defenses gave way one by one in a cloud of dust and smoke. The infantry then went forward and the German positions were captured and awaited their fate.

Some of Our Extra Good Values for Tuesday

Positively the Most Surprising Value in Framed Pictures We Have Ever Offered at, Each, 59c.
A Big Picture in Sepa and a Frame of Beautiful Carved Wood

A picture frame maker had a large stock of framing moulding of various designs in widths from 1 1/2 to 3 inches, but not enough of a pattern to sell the ordinary way, so we cleared the lot, having these mouldings made up into splendid frames with ornamental corners, each frame containing a reproduction from a famous picture in warm sepia tones. We cannot cite a comparison of the bargain. Several times this price would be a fair estimate of the value and we don't expect to find the equal of the opportunity again. The picture size is 12 x 16 inches. They're richly executed, faithfully reproducing every detail of such famous old masters as "The Boy Christ," "Baby Stuart," "The Age of Innocence," "The Duchess of Devonshire," "Madam Le Brun and Daughter," "The Gleaners," "Christ in Gethsemane," and "The Mill." The frames are machine carved in patterns of leaves, flowers, etc., have ornamented corners of composition, and are finished in a rich dark brown to match the sepia tone of the picture. 100 only, Special Sale price, Tuesday, each, 59c.

Another Big Bargain is an Oval Framed Picture at \$1.00

Well colored fruit subjects, landscapes, seas, village scenes, camp fires, and forests, size 14 x 28 inches, framed in 1 1/2 to 3-inch mouldings, including plain walnut finish, ornamental gilt, and gilt burnished with gold leaf. An extra good value. They're in a class by themselves at this price, and we advise an early visit to secure one. Special Sale Price, Tuesday, each, \$1.00.

Hand Colored Pictures in Oval Frames, Each, 85c.

These are reproductions of 10 pretty head and bust subjects by well-known American artists, delicately tinted by hand. They convey a vivid impression of the modern American beauty of several types, and are framed in appropriate 1-inch antique gilt mouldings. The picture size is 8 x 18 inches, and they are an oval shape. Special Sale Price, Tuesday, each, 85c.

IS NO EXCUSE FOR NOT JOINING ARMY

Reached Such Stage That Men Can Enlist Without Having to Fight.

SAYS A. E. DONOVAN

Strong Line of Speakers Urge Men at Beach to Join Forestry Unit.

"There is not a single excuse left for men not joining the army," said the declaration of A. E. Donovan, M.P., at Scarborough Beach Park yesterday afternoon, while appearing in the interests of the 238th Forestry Battalion. "Why, now it has reached such a stage that you can enlist without ever having to fight. Just think of that, if you join the Forestry unit you get a fine trip over to England, you get a chance to visit the historic forests of Great Britain, perhaps of France, you don't take a chance of having to fight, and then when the war is all over and you have helped the allies to win, you will come back with all the decorations of heroes, just the same as the men who do the actual fighting." "Don't think by that remark that I mean the 238th Battalion will not do good work. They will do work which is absolutely essential if the war is to be a successful one. If you do not

PLAYS, PICTURES AND MUSIC

AT THE ALEXANDRA.

Tonight at the Alexandra Theatre the Robins Players inaugurate their thirteenth week in Henrietta Crossman's comedy triumph, "The Tongues of Men," by Edward Childs Carpenter. The story of the play points the lesson that the church should be more charitable to the profession of the stage. Miss Frances Neilson, who has won many friends and admirers thru her role in "The Tongues of Men" is that of a great opera singer, whose performance of a certain opera has been savagely criticized by a clergyman. She visits the rector inognito in the vestry, and altho persecution follows, wins her fight. On Wednesday and Saturday matinee souvenirs will be given away.

LOEW'S THEATRE.

Two features will be presented with the bill of seven acts at Loew's Yonge Street Theatre this week—the Little Caruso Company in a singing and instrumental novelty from Europe, and El Cleve, known in Toronto as Cleve Caswell, the local boy, whose wonderful xylophone playing has won him international recognition and fame. Cleve Caswell was born in Toronto, attended school here and has a host of friends in this city. This will be his third appearance here. "Paul Cunningham and Florence Bennett" will offer a dainty act. One long laugh is promised when

SENSATION AT HANLAN'S.

Perhaps the most sensational act ever seen in Toronto will be given at Hanlan's Point this week. A leap for life, as it is called, is staged by Doredevil Hurley and Mile. La Belle. The young lady rides down a scoop-shaped runway in an automobile at a terrific pace, is hurled into the air from the automobile and is caught by her partner, who is hanging by his knees on a trapeze forty feet above ground. The act is exceedingly thrilling as well as dangerous, for should Hurley move a few inches either way Mile. La Belle's life would be endangered. Hand concerts are given every evening.

HIPPODROME.

A splendid bill has been arranged for the management of the Hippodrome for the week, with the "Revue De Luxe" as the headline feature. Frank Knight and Billie Stewart head a cast of capable boys and girls in smart songs and dances. Kathryn Osterman, emotional star, will be featured in the five-part specialty, "The Bludgeon." Mile. Merle's Pets are clever feathered creatures, who perform some surprising feats. Lillian Carter sings classical and popular selections, while Eldridge and Barlow will present "The Law." Williams and Gordon, eccentric singers and dancers, and "Keystone" film comedies complete a well-balanced bill.

BUSHMAN AT STRAND.

Seldom has such a vivid program been presented as that which will form the bill at the Strand Theatre, for today, tomorrow and Wednesday. The bill will lead off with Francis Bushman in a delightful comedy, "A Film Fricotee." MADISON

"Silks and Satins," a delightful photoplay with the lovely Marguerite Clark in the stellar role, will be presented at the Madison Theatre today, tomorrow and Wednesday. In this unusual romance Miss Clark is a modish young dandy against her wishes. Thru the careless manoeuvring of a table-drawer is disclosed which had heretofore been unseen, revealing a diary with an avenue of escape from her predicament inscribed in it by an ancient relative of the eighteenth century, who had been in a like predicament. The plot is a combination of old love story with one of modern origin.

OWED THEIR LIVES TO "OLD-CUT-THE-TIME"

An officer of the 70th Overseas Battery told of an interesting story written by Boyd Cable, under the pen name of "Action Front."

It has often been said that the backbone of the British army is its N. C. O.'s.

The 70th Overseas Battery is particularly fortunate in this respect. Several of its N. C. O.'s, including Battery Sgt.-Major Young, are old service men, and also "Cut-the-Time" is the order, they are very popular, and the boys of the battery play the game.

There is still room for a few good men to join before the battery goes to camp at Niagara next week.

Choose Your Widow

The man who thinks only of himself—who doesn't care what happens after he's gone—forces his wife to assume too great a risk. His death is likely to mean a slavish, wage-earning career for his widow.

Of course, if subject poverty befall her, some charitable institution may appear to a kindly public, money with which to keep her and her children alive.

But how different is the prospect for a woman whose husband, by means of life insurance, has made provision for her support in the event of his death.

What prospect has your wife if you should die tomorrow? The choice rests with you. Let an Imperial Life policy be the answer. It will provide her with a regular monthly income to begin at your death and continue so long as she lives.

Our booklet "Safeguard your Legacy" tells about this feature of Imperial policies. Ask for a copy today. It's most interesting, and—it's free.

Not the Semblance of Hit in 11 Innings Off Shocker

SHOCKER MADE RECORD FOR INTERNATIONAL

Four Hustlers Reached First in Shut Out Game, One on a Pass.

Urban Shocker pitched his fifth shut-out game of the season at Rochester on Saturday, eleven innings without a hit or run, a record for the international League.

Shocker has to his credit forty-seven straight innings in which his opponents have failed to score. His record for the season is fourteen wins and two losses.

Four Hustlers reached first in the 11th inning, three on errors and one on Shocker's only pass of the game.

Toronto won in the 11th on Trout's Texas leaguer, which was the only hit. Trout took third when Shocker was caught napping and a runner was caught trying to pull him off third.

At Providence—the Grays and Rebels divided a double-header on Saturday, the locals winning the first game, 5 to 0, but dropping the second, 4 to 3.

At Buffalo—One little bump that just spoiled Herb's day, but he did not rob Yean Gregg of the joy and glory of a no-hit, no-run game on Saturday.

At New York—Rube Schaner, Giants' pitcher, was released to the Louisville Club of the American Association.

Carl Brown, a pitcher who had been with the New York Nationals, who had been with the Virginia League, has been returned to the Giants.

Connie Mack, manager of the Athletics, announced that he has released two of his young recruits, Mitterling, an outfielder, and Haselbacher, a pitcher.

Christy Mathewson signed a contract for the rest of this season and for 1917 and 1918. The terms of the contract were not made public, but it was said on good authority to be \$20,000 a year, a price none too high.

Fred Mollwitz, Cincinnati first baseman, was purchased by the Chicago Nationals. Mollwitz, a right-handed hitter, is to replace Saler in the first base position of the Cubs.

The complete collapse of what Charlie Weegman and Joe Tinker thought would prove a grand infield in the tragedies of the 1915 season, it is also the final proof of the general weakness of the Federal League, when compared to the older organizations.

The Toronto arrived home on Saturday night. They are all in the prime of Shocker's wonderful performance at Rochester. The eleven innings semblance of a hit in the eleven innings.

On calm waters and under a sweetening sun, Parkdale Canoe Club held their annual mid-summer regatta Saturday afternoon. Two events were paddled off over their course in front of their magnificent club house at Sunnydale and a number of enthusiasts turned out to cheer the boys.

Far back along the trail of years we see a college lad. Responding to a storm of cheers in that calm way you had. We see old batmen looking dazed. Young batmen aving in vain: We see old "rooters" stand amazed. Young "rooters" gone insane.

How many million boys have seen Rewards for work well done. Because they strived to be clean. And strong, like Mathewson? The pages of the world have shown Full many a brilliant name. But "Mathewson" will stand alone in Boyhood's Hall of Fame.

ROAMER BEAT SPUR YONKERS HANDICAP

Impressive Performance by Top Weight at Yonkers—Ed Crump Third.

YONKERS, July 23.—Andrew Miller's Roamer scored a complete comeback today when, with an impost of 127 pounds, he won the Yonkers Handicap at the Empire City track by three-quarters of a length in a driving finish. Roamer was third choice, while James Butler's Spur was held a favorite at 4 to 5. Ed Crump, the western champion, saved third money by a length from Daddy's Choice.

The last sixteenth of the mile and an eighth race saw Roamer and Spur racing stride for stride. The Miles proved the stoutest of heart and gave his worth by never faltering in the hard drive given by Butler.

The good colt Tom McGartgart, winning the Heatview Stakes for juveniles by two and a half lengths. He was a 3 to 5 favorite. Ticket, \$3 to 1, and the Cochran colt Phillippe, another 3 to 5 favorite, by Friends, with the consenders enabled Tom McGartgart to win by a wider margin than otherwise.

Jimmy Rice May Leave Columbia To Succeed Courtney at Cornell

Toronto Rowing Coach May Abandon His Long Contract He Holds With New York University.

NEW YORK, July 23.—Charles E. Courtney desires to have James C. Rice named as his successor as coach of the Cornell crew and it is upon Courtney's recommendation and urging that the athletic authorities at Ithaca are considering him as the only person capable of filling the old man's shoes.

The only thing that stands in the way of Rice's signing a contract with Cornell is his agreement with Columbia, which he will not discuss the possibility of an option on his services until 1918.

Officially Cornell has made no move to take Rice away from Columbia, and will not do so. Courtney, however, has made no secret that Rice is the man that Cornell should have now that he has retired. Charles E. Tieman, Cornell's representative on the board of stewards of the Intercollegiate Rowing Association, will not discuss the possibility of an option on his services until 1918.

That Rice would leave little time in coming to terms with Cornell if he were a free agent is certain. He will still be difficult in his efforts to turn out a crew on Morningside Heights but if Columbia should first of all, and it is known that the Ithaca men are waiting for such a situation to arise, he would have been at Columbia for ten years and has been the most successful coach in the history of the sport.

CHICAGO RUNNER WON FROM J. J. CORKERY

Successful Meet Held by Toronto Sportsmen's Patriotic Association at Chicago.

CHICAGO, July 23.—International complications in the world of sports were precipitated here today, when the Toronto sportsmen's patriotic association and the running teams of the Sportsmen's Patriotic Association of Toronto and Chicago met in strenuous combat at Conley Park.

The premier event of the season were the five-mile run with two Canadian track stars, James J. Corkery and George T. Black, pitted against forty of Chicago's best long-distance runners, chosen by the late Ray, holder of several local records.

It has been picked as the winner here in spite of the fact that his opponent Corkery holds the world's record of 23 miles 385 yards.

The opening event of the soccer football the relay teams of the Toronto and Chicago lacrosse teams, was won by the Chicago lacrosse team. The Toronto lacrosse team was a close second and the Toronto soccer team third.

The Canadian Sportsmen's League gave the Chicago lacrosse team a severe jolt when they scored 3 to 1 against the Toronto lacrosse team in a game played on the Toronto soccer field, the second event on the program.

GERMANS CLEARLY LACKING METALS

Deutschland's Necessity of Refitting is Evidence of the Situation. ANOTHER SUB IS DUE? Bremen May Try to Aid Her Sister Ship to Escape.

Special to The Toronto World. WASHINGTON, July 23.—The treasury department was informed this evening that the German submarine Deutschland did not take out clearance papers today.

Reports reaching officials here would seem to indicate a shortage of proper metals in Germany used in ship construction. At least two need changes were made on this submarine.

From the same source whence emanated original reports of the approach to these shores of the Deutschland, it is learned today that a sister ship, the Bremen, would enter the Capes some time Monday.

Another source, who has been patrolling the waters off Cape Henry and Charles, the comparative success of the Deutschland in the estimation of shipping men, have been proved, temporarily, at least.

It was reported today that the Bremen is timed to arrive at the Capes at the precise moment of the departure of the Deutschland.

MONDAY MORNING

NEW YORK MARKET ACTIVE AND STRONG

U. S. Steel Was Leader and Munition Issues Developed Decided Firmness.

RAILS IN BACKGROUND Shipping Shares Also Lagged - Good Cash Gain by Banks.

NEW YORK, July 23.—For a mid-summer week and today's market was unusually active, broad and strong. Special shares again afforded the basis of a large proportion of the total volume. Munition stocks were strong and active. U. S. Steel was the real leader, trading in that stock representing about 20 per cent. of the whole at an extreme advance of 1-1/2.
