SOUTH AFRICA STAYS IN THE EMPIRE, SMUTS PARTY IS SAFE

U.S. Senate Committee Votes for Navy Equal to Any in the World

DRURY GOVERNMENT HAS NAMED SCORE OF COMMISSIONS

But, Despite This, Business of
Province Hasn't Been
Delayed.

RANEY IS CRITICIZED

The proceedings in the legislature
yesterday were not of a particularly
interesting nature, but were neverthe-
less instructive.
Some of the questions answered add-
ed to public knowledge upon matters
dealt with by the government for the
past year, but most of them simply
put in concrete form information that
is already a matter of general know-
ledge. It was brought out, for in-
stance, that the total of commissions
appointed by the Drury government
since it took office numbers twenty.
A question that aroused some interest
was that of Col. Cooper of Toronto,
who sought information upon the ap-
pointment of a member of the house
against Rev. J. O. L. Spracklin for unlawfully
boarding a yacht and searching it.
The member wanted to know if the at-
torney-general had ordered an ap-
pointment, and was furnished with an
answer. Mr. Raney stated that he was, and
proceeded to give an explanation of that
action, pointing out that a question of
law had been raised which would in-
terfere with the enforcement of the
act.

Mr. Raney waived the protest
aside. Surely it was better that there
should be an explanation of why the
government had acted as it did. He
knew the members of the house pre-
ferred to have the matter explained
to them. The government members
applauded this excellent sentiment but
Mr. Ferguson only smiled.

Must Abide by Rules.
"The attorney-general doesn't get
away with that sort of thing," he said.
(Continued on Page 3, Column 4.)

STRIKE AS PROTEST AGAINST SHOOTING

British Railwaymen Incensed
at Death of Fellows in
Ireland.

London, Feb. 9.—A railway strike
as a protest against the shooting by
the police of railwaymen at Mal-
low, County Cork, on Jan. 31, seems a
possibility, as a result of a meeting
of the Locomotive Engineers and
Firemen's Union executive at Leeds
today.

J. Bromley, secretary of the union,
in an interview declared that there
was no bluff about the ultimatum;
they meant to see the thing thru. "We
are not going to have our members
murdered in cold blood without a
proper inquiry," he said, "and will
insist that when our men are on duty
in the curfew hours, they have safety
and shall not be dragged off and shot
like dogs, without charge or trial."

The shooting of the railwaymen
occurred about 10.30 tonight, after the
curfew hour. The district inspector
was wounded and his wife was shot
dead by some unknown persons. The
police, hearing the shots, rushed to
the Mallow railway station and opened
fire, after it, it alleged, they were fired
upon.

Shot by Armed Men.
Belfast, Feb. 9.—Thomas Halpin, a
member of the Drogheda Corporation,
and John Moran, a printer, were found
dead this morning in Drogheda. They
had been shot.

After midnight a party of armed
men, called at the homes of the victims
and escorted them half dressed to the
place where they were killed. The
bodies were found, one lying across
the other, at daylight near the River
Boyne. Shots were heard coming from
that direction at two o'clock this
morning.

GOVERNMENT SHIPS CUT FREIGHT RATES

Charges Between Canadian At-
lantic Ports and Britain
Materially Reduced.

The Canadian government mer-
chant marine announced yesterday a
general reduction in cargo rates be-
tween Canadian Atlantic ports and
Great Britain becoming effective im-
mediately. The former rate in effect
for general cargo to Britain from
Halifax and St. John was 50 cents
a cubic foot or \$1 per 100 pounds;
the new rate will be 40 cents a cubic
foot or 75 cents per 100.

General cargo covers, of course,
practically all goods handled from
this country to the old land.
Exports only are affected.

SOON START REVISING JAP-BRITISH ALLIANCE

Tokio, Feb. 9.—Negotiations between
Japan and Great Britain for revision
of the alliance binding the two coun-
tries are expected to commence in
London in the near future, says The
Nichi Nichi today.

HENRY FORD DENIES WALL STREET STORY OF RAISING LOANS

Says He Has No Need to Bor-
row—Will Establish Indus-
tries in Small Towns and
Villages—Foresees the End
of Big Cities, and the Pass-
ing of Cows and Horses in
Food Production.

New York, Feb. 9.—(Special to The
World)—An interview granted to
The New York Tribune yesterday,
Henry Ford flatly denied the truth
of all stories that he was now or had
been seeking a loan of \$75,000,000 in
Wall Street. Mr. Ford said he had
never sought a loan for any amount
in Wall Street nor had anyone done
so for him on his authority. He
characterized the report as a hoax
and added there was no reason for
the Ford Company to ask for a loan.
He said his employees were now get-
ting back to work and that his fac-
tory would steadily work back to
normal production.

Mr. Ford went on to say that he
believed cities would eventually dis-
appear as industrial centres. All
manufacture, agriculture and trans-
portation could work to greater ad-
vantage if grouped in small
communities.

For Suburban Industries.
part of its manufacture away from
great cities. He is already putting
into operation a plan to set up small
industries in connection with motor
car production in smaller towns and
even villages, where farmers, now un-
employed thru the winter months,
could use the time to their own profit.
Mr. Ford foresees the day when
both horses and cows are done away
with. Milk will be produced from
the same cereals the cow eats and
will be superior to the natural at-
ticle and much cleaner. A scientific
food will take the place of beef,
while small motor engines will re-
place horses on the farm. "The cow,"
he said, "is the crudest machine in
the world."

Mr. Ford has already built a fac-
tory to manufacture valves in a
town of 1,500 inhabitants and will
extend the scheme in other direc-
tions.

Cities Are Unnatural.
"Cities have to be unnatural,"
said Mr. Ford. "They cause unnat-
ural unrest in men's minds. They
have created a condition which is
robbing agriculture of its man power,
robbing the worker and manufacturer
of normal human conditions, and
have created the spectacle of the
farmer's production having to be
transported to these great centres
to be treated or killed or manipu-
lated before they are transported back
again to the smaller communities to
be sold back to the farmer. These
conditions are artificial."

"Our plan is not to be confined to
one portion of the United States
but to spread thru the country,"
said Mr. Ford. "We will probably
not limit it to the United States.
England offers many opportunities
of this kind."

Officials around Mr. Ford are con-
verts to his "get back from the city"
idea, they said here today. They
believe it will come about, like the
telephone, the automobile, wireless
the street car, and other two and
three decade-old wonders of the
world.

STRUCK BY MOTOR CAR, WOMAN BADLY INJURED

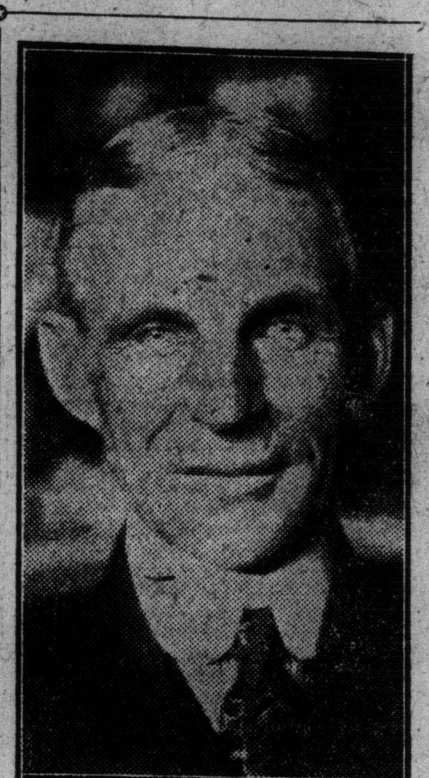

Mrs. Machichan of Humber Bay Is
Taken to Western Hospital.

Mrs. Madeline Machichan, Humber
Bay, aged 28, was struck by an auto-
mobile at Stop 15, Mimico, at ten
o'clock last night. She was brought
into the Western Hospital by Con-
stable Achery of Mimico at half-
past ten, suffering from serious in-
juries to head and shoulders.
The cause of the accident has not
been ascertained.

The injured woman's husband visited
the hospital and identified his wife
at 1.30 this morning. At 2 a.m. she
partially regained consciousness, and
it is thought she may recover.

Germany Aims to Boycott French and British Goods

Berlin, Feb. 9.—The president of
the Hansa League, comprising 300,
000 members, and including all the
principal importers and exporters,
said today in connection with the
announcement that the league was
urging a boycott of French and Brit-
ish goods unless the Paris repa-
rations demands were modified that
there was widespread sentiment
among the league's members to use
this method in protest against the
allied demands. He added that he
was supporting the movement.
The president added that the league
was arranging to proceed with an
intense propaganda campaign,
which was expected to culminate in
a boycott agreement, shortly after
the coming London conference if the
German counter-proposals on the
reparations demands are rejected.
The announcement also was made
that the Hansa League realizes that
German industry, particularly ship-
ping, would suffer from a boycott,
but that it hopes to offset the bad
effects of such a movement by an
increase of North and South Amer-
ican trade. Those in favor of the
boycott express the belief that the
chief advantage from such a move-
ment would accrue to the United
States, where they expect business
to give the necessary support.
The newspapers today receive the
proposal of a boycott favorably, in-
dicating the belief that Germany is
not defenceless while powerful com-
mercial weapons are available to her.

HENRY FORD.

WORKLESS WOMEN NOT GREAT BURDEN

Not Applying for Relief in Num-
bers That Might Be
Expected.

MANY DOMESTICS ARE IDLE

While the unemployment problem
may be making a good-sized hole in
the city treasury, the expense the city
is put to in giving relief to unem-
ployed women is surprisingly small.
This is not because women are not
affected by the unemployment situa-
tion, as registrations at the govern-
ment employment bureau on King
street average more than 300 a week.
In fact, so important has this branch
of the work become that when the
bureau moves down to the new quar-
ters at Front and Bay streets in a
few days' time the work is to be
divided. The men are to be handled
at the new quarters, and the present
premises are to be turned over en-
tirely to the women's department.

Many Domestic Idle.
Returns for the past month show
584 applications from experienced
domestics, with 1,500 applications
from inexperienced women for casual
work. There is also a large registra-
tion of factory and clerical workers,
but as there is very little demand for
this class at the present time, they
are advised to take up domestic work
and in many cases do.

Despite the fact that there are
many more women applying for work
than can obtain it, only an average
(Continued on Page 2, Column 2.)

DOWNTOWN DRIVE MAKES GOOD START

The grand total of memberships
obtained the first day of the Downtown
Association drive, as reported at the
meeting of teams in the Hotel Mossop
last evening, was 110. Lt.-Col. K.
R. Marshall, who is heading the drive,
expressed himself as well satisfied
with the first day's reports, and
said that indications were that re-
ports at today's meeting would be
equally encouraging.
L. M. Wood, major of the 4th divi-
sion, led in the day's report, his team
having rolled up a total of 33 mem-
berships in the new organization. The
high team for the day was that cap-
tained by Alex. McRae, with a total
of 14 for the day's work.
The drive will continue for the rest
of the week with the teams meeting
at five every afternoon at the Hotel
Mossop to make their reports.

MUST HAVE A NAVY EQUAL TO THAT OF ANY OTHER POWER

U. S. Senate Committee Urges
Completion of Construc-
tion Program.

CAPITAL SHIPS STAND

Washington, Feb. 9.—A United
States navy "at least equal to that
of any other power," is advocated in
a report of the senate naval commit-
tee, filed today in the senate.

The committee, replying to the
Borah resolution said: "It is not
practical and is not a sound policy
to suspend naval construction for a
period of six months or of all." It
urged completion of the great 1916
naval program, except that two huge
naval aircraft carriers be built in
place of twelve destroyers and six
submarines, which have been auth-
orized, but not yet contracted for.
Capital ships remain the principal
unit of sea power, the committee
said, adding that submarines and air-
craft were as yet only auxiliary
forces.

The committee report, to which
Senator King, Democrat, Utah, plans
to file a minority report tomorrow,
expressed a desire that an agreement
for limitation of naval armament
might be reached among the nations,
but said that until such arrangements
were made the United States should
continue its building program.

"In view of the importance of sea-
power to the United States," the
committee informed the senate, "and
the fact that without it we would be
at the mercy of other nations, it is the
opinion of your committee that this
country should maintain a navy at
least equal to that of any other
power. The lessons of history teach
us with indisputable truth that we
cannot afford to depend for the main-
tenance of our rights and the defense
of our lives and commerce of our citizens
upon the mercy of other nations."

"It is the opinion of this commit-
tee," the report continued, "that the
United States should have under its
control a sufficient force to protect
and preserve both its material pos-
sessions and its material principles, and
to eliminate old party machines which
have hitherto dominated all govern-
ments."

CHINA PROTESTS LAW DEBARRING WHITE GIRLS

Victoria, B.C., Feb. 9.—(By Canadian
Press).—Diplomatic protests have been
made by China against British Colum-
bia regulations prohibiting the em-
ployment of white girls in Chinese
establishments as a measure offensive
to the Chinese.

The complaint of the Chinese gov-
ernment was laid before the British
consul for foreign affairs in London
and by him transmitted to Ottawa.
The British Columbia government was
now being considered by Premier
Oliver and members of his cabinet.
The Chinese consul claims that clause
of the municipal act prohibiting the
employment of white girls by Chi-
nese is ultra vires of the province.

Brazilian Anarchists Bomb Buildings in Rio de Janeiro

Rio de Janeiro, Feb. 9.—The build-
ings of the ministry of foreign affairs
and the stock exchange were con-
siderably damaged by anarchist
bombs early this morning.

MORRISON FOLLOWS IN TREND OF DRURY

In Speech at Blyth, Represents
U.F.O. as Thin Wedge Cleav-
ing Old Line Parties

THE RESULT OF EVOLUTION

Blyth, Ont., Feb. 9.—J. J. Morrison,
provincial secretary of the United
Farmers of Ontario, in addressing a
meeting of the U.F.O. clubs here this
afternoon, did not avoid the "broad-
ening out" issue, but on the contrary,
gave some evidence of falling in line
with Premier Drury. He said it was
possible for professional men to be
representatives of the organization,
providing they subscribed to U.F.O.
principles.

Mr. Morrison was given a hearty
reception. He represented the U.F.O.
as a political factor, comparing it to
the thin edge of a wedge which
would cleave between the two old
parties, and whereby the opinion of
the masses might be crystallized into
one political democracy.

To Gradually Evolve.
The speaker laid stress on the edu-
cation of the rising generation in or-
der to evolve gradually the great de-
mocratic principles which were to re-
volutionize future governments and
eliminate old party machines which
have hitherto dominated all govern-
ments.

A large crowd of farmers and their
wives attended the meeting.

SUBSTITUTE BILL FOR RESTRICTION OF IMMIGRATION

U.S. Senate Committee Would
Leave Treaty Countries
in Status Quo.

PERCENTAGE QUESTION

Washington, Feb. 9.—A substitute
for the house immigration bill, de-
signed to restrict rigidly immigra-
tion from European countries, but
leaving in status quo the treaty and
agreements affecting admissibility
from Japan and China as well as the
existing regulations between the
countries of North and South Amer-
ica, was taken up today by the sen-
ate immigration committee.

Previously the committee had
voted 5 to 4 to reject the house bill,
under which European and Asiatic
immigrants would be excluded from any
year. The committee probably will
approve the substitute tomorrow af-
ter minor amendments and report it
to the senate.

Several sections of the measure,
however, were still in debate tonight.
One of these was that fixing the
number of admissible from any of
the affected countries at five per
cent. of their citizens already resid-
ing in the United States. Some com-
mittee members who voted in favor
of the house bill declared the per-
centage should be reduced to one
two or three per cent., and announ-
ced they would seek to amend it in
that manner when it was taken up
in the senate.

The section affecting Asiatics also
was opposed by several commit-
tee members, who contended that its
language was loose in construction. They
said the section should be more pre-
cisely stated, particularly that part
referring to exemptions allowing
aliens "coming from countries, immigra-
tion from which is now regulated
in accordance with treaties or agree-
ments, or to aliens coming from the
so-called Asiatic barred zone."

Another section which was in dis-
pute was that defining the word
"alien." Those who advocated the
strictest possible prohibition favored
substituting "naturalized citizens"
for "aliens" on the ground that the
five per cent. admission would be
less if based on the former rather
than on those who had not taken out
naturalization papers.

The substitute measure was con-
sidered by Senator Colt of Rhode Island,
chairman of the committee, and co-
author of the bill, as an emergency
instrument which would affect
the pending program for permanent
immigration legislation. Committee
members express the belief that life
of the proposed measure will be lim-
ited by the senate to one or two
years.

SEES ADVANTAGES OF HONEST PEACE

Hindenburg's Sincere Wish as
Old Soldier Who Knows
Horrors of

HEAR EVIDENCE ON G.T.R. EFFICIENCY

Two Engineering Experts Tell Arbitration Board of Constant Improvements.

Montreal, Feb. 9.—(By Canadian Press).—The board of arbitration which is to settle the value of the preferred and common stocks of the Grand Trunk Railway, prior to the taking over of the system by the Dominion government, today confined itself to hearing the evidence of two witnesses, Theo. Curtis, an expert from Chicago, and H. H. Vaughan, a local engineering expert.

Evidence of both was along parallel lines and was to the effect that the equipment of the Grand Trunk was in good order, kept up-to-date and amply sufficient for the work they had to do as a first class modern railway undertaking both thru and branch line traffic with passenger and freight.

Round-houses Vie With C.P.R.'s. Under close cross-examination by Pierce Butler, a United States railway expert lawyer, engaged by the Dominion government, Mr. Curtis reiterated his views with amplifying detail. The evidence of H. H. Vaughan in the afternoon was to show that there had been constant improvement in motive power and car equipment on the Grand Trunk which had been amply sufficient to keep it abreast of its traffic needs. He considered that outside a few points, one of which was Brockville, which was badly equipped, the system was, generally speaking, better fitted out with roundhouses than the Canadian Pacific Railway.

"DRYS" IN QUEBEC DISCUSS NEW BILL

J. H. Carson Critical—Barrier to Canada-Wide Prohibition.

Montreal, Feb. 9.—Discussing the proposed new liquor bill of the province of Quebec today, J. H. Carson, honorary president of the Anti-Liquor League, here, gave the opinion that it was not of a promising character. On the surface he thought that it did not appear to restrict to a great extent the evils of the liquor traffic. "In some ways it is providing greater facilities for those who wish to use intoxicating liquors as a beverage," he said.

Bar to Total Prohibition. In his judgment the taking over of the entire liquor traffic by the government was not commendable and the bill in general, he considered, would be an additional barrier to the conception of a prohibitory law throughout the whole of Canada.

S. J. Carter, president of the Quebec branch of the Dominion alliance, commended the bill as an improvement over existing regulations. On the other hand he believed that the sale of five per cent. beer would meet with general disapproval.

MR. H. O. PETERS, of Kansas City, Mo., whose experience with Tanlac has been nothing less than wonderful, declares her husband. After her improvement he takes it himself and his health is also restored.

"One day a friend persuaded my wife to take Tanlac and the results have been nothing less than wonderful. Her troubles have not only entirely disappeared, but she has actually gained twenty pounds in weight, and now seems to be in perfect health. She has suffered for eight years with headaches, nervousness and loss of appetite. She could not eat much, had pains all through her body and limbs and was so weak at times she could hardly stand on her feet. She was losing weight and gradually getting worse all the time in spite of all we could do.

"After seeing the splendid results my wife was getting, I began taking Tanlac myself, and before I had finished my second bottle, I was eating things I had not dared touch before in a long time. I am now eating just anything set before me and my appetite is fine. I suffered for five years with the worst kind of stomach trouble and nervous indigestion, but it has relieved me entirely. We both owe Tanlac a great debt of gratitude.

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

Tanlac is sold in Toronto by Tamblin Drug Stores, and by an established agency in every town.

FUNERAL SERVICE HELD FOR MURDERED CITIZEN

Brockville, Ont., Feb. 9.—The funeral service for Robert Wood, who was shot and killed on Monday, it is alleged, by Derrick Temple, now in the county jail here, was held today at the house in Caintown in which the murder occurred. The service was in charge of Mallorytown Lodge, I.O.O.F., and afterwards the remains were shipped to Gouverneur, N. Y., where the victim formerly lived, for burial.

LACK OF NEWSPRINT PROFITEERING MYTH

Newspaperman Tells New England Publishers It Was Propaganda.

Boston, Feb. 9.—The recent supposed shortage in newsprint did not exist, and publishers were led to purchase by misinformation as to the true condition of the supply circulated by manufacturers, said W. J. Page, editor of the Waterbury (Conn.) Republican, and president of the Publishers' Buying Corporation, in addressing representatives of several New England newspaper publishers here yesterday.

"An unprecedented boom in advertising," he said, "lowered newspaper stock to such an extent that a number of publishers were forced to go into the market all at the same time and bid for paper. This sent the price up. More paper was being manufactured than ever before, and the available supply was sufficient, with reasonable use to satisfy all needs, but by means of widespread misinformation circulated as propaganda by newsprint manufacturers' publishers were led to believe that there was a world-wide paper famine, and started hoarding.

"Speculation and hoarding created a condition of scarcity which, as a matter of fact, great warehouses filled with newsprint paper existed in every publishing centre. The net result was that newspaper publishers and newsprint brokers and speculators lost millions, because every change of a cent a pound in the cost of newsprint means a million dollars to the trade.

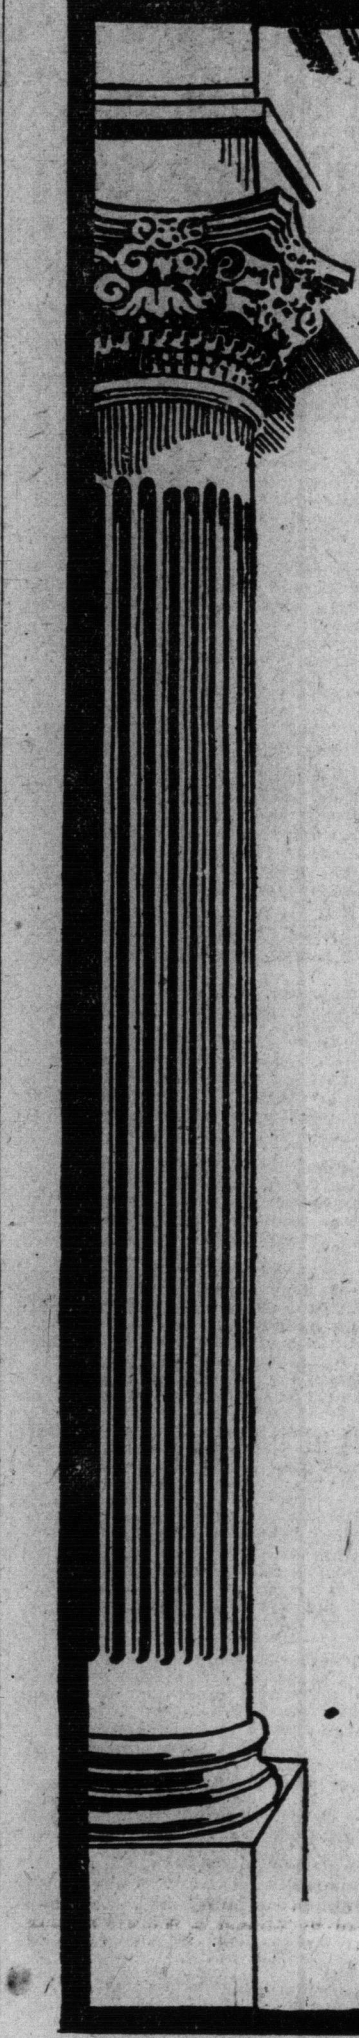

"The manufacturers who had disseminated the misinformation in the interests of themselves reaped a golden harvest at the expense of the rest of the trade."

APPOINT TWO NORTH MEN TO T. & N. O. COMMISSION

New Liskeard, Ont., Feb. 9.—The United Farmers' Ontario county board for Timiskaming has joined with other bodies in the north in forwarding a resolution to Premier Drury, asking that two northern men be appointed to the T. & N. O. commission. The U.F.O. has organized for political purposes, and to facilitate business has divided into two sections, their bounds lines conform to those of the provincial ridings of Timiskaming and Cochrane.

DISPUTE OVER LUMBER; POSTMASTER IN COURT

Halifax, N.S., Feb. 9.—(By Canadian Press).—George T. Hamilton, postmaster, member of the town council and lumberman, appeared before Magistrate Atkinson here yesterday charged with appropriating his own use lumber said to belong to the Eddy and Riordon Companies, and with defacing the marks on the logs. He pleaded not guilty and goes to a jury for hearing. Inspectors Guppy and Maxwell of the Upper Ottawa Immigration department, who gave evidence against the defendant, after which the case was adjourned until Tuesday next for reference to Ottawa for certain documents.

SUN LIFE ASSURANCE COMPANY OF CANADA

1871 HEAD OFFICE MONTREAL 1921

JUBILEE YEAR

HALF a century has elapsed since the Sun Life Assurance Company of Canada issued its first policy in 1871. The figures submitted herewith indicate the size, strength and outstanding position to which the company has attained among the life assurance institutions of the world, as a result of its operations during those first fifty years.

SYNOPSIS OF RESULTS FOR 1920

ASSETS
Assets as at 31st December, 1920 \$114,839,444.48
Increase over 1919 9,127,976.21

INCOME
Cash Income from Premiums, Interest, Rents, etc., in 1920 . . . \$28,751,578.43
Increase over 1919 3,047,877.33

Assurances issued and paid for in cash during 1920 \$106,891,266.23
Increase over 1919 20,342,416.79

BUSINESS IN FORCE
Life Assurances in force 31st December, 1920 \$486,641,235.17
Increase over 1919 70,282,773.12

THE COMPANY'S GROWTH

YEAR	INCOME	ASSETS	LIFE ASSURANCES IN FORCE
1872	\$ 43,210.32	\$ 96,461.85	\$ 1,064,350.00
1880	144,402.31	473,632.03	3,397,130.11
1890	869,078.37	2,472,514.19	16,759,355.02
1900	2,789,228.52	10,496,801.17	57,980,634.68
1910	9,575,433.94	38,164,790.37	143,549,276.00
1920	28,751,578.43	114,839,444.48	486,641,235.17

DRURY GOVERNMENT HAS MANY BOARDS

(Continued From Page 1.)

"He must abide by the rules of procedure. A member has a right to ask a question and to receive an answer, not an argument."

Mr. Ferguson appealed for a ruling and the speaker promptly pointed out that Mr. Raney had exceeded the limit permitted by the rules. He must confine himself to a definite, clear answer for the speaker's general bowed to the ruling, called back the document with the written answer and struck out with a pencil all his carefully prepared "explanation."

Mr. Raney had to answer the next question—one referring to the appointment of J. B. Clark, ex-U.F.O. member for East Kent, as registrar, an appointment that some suspicious people have maintained was a reward for his retirement in favor of Hon. Manning Doherty, then speaker. Mr. Raney stated that last year the post was worth \$4,446.87. He also admitted that Miss Carrie Barton, the deputy registrar of the county, who "carried on" while the office was vacant, had given satisfactory service.

"Then why didn't you let her carry on?" asked a member.

"My honorable friend is out of order," countered Mr. Raney. Other questions elicited the information that A. T. Wilgess, appointed chief librarian at \$3,100 a year, and Clarkson W. James, appointed King's printer at \$4,000, were recommended for appointment by the provincial treasurer, and that the latter would act in past as purchasing agent.

Hon. Beniah Bowman informed the house in reply to Mr. Stover that sums of \$12,600 and \$13,030 had been paid into the department of lands and forests up to December 2 last, as a result of probing by the timber commission.

Hon. C. C. Biggs stated to J. A. Pinard of East Ottawa that the extensions and alterations to the government garage at Surrey place had cost \$14,000. It will house 25 automobiles.

Hon. Mr. Raney told the house that from September 6 to November 18, prior to the appointment of W. J. Lunnin as divisional superintendent of provincial police, O.T.A. fines collected amounted to \$55,070. For a similar period since his appointment \$33,000 had been collected.

Many Attendants. "Hon. Mr. Henry was told that 137 municipalities had applied for assistance under the community halls act.

Hon. Mr. Biggs, as registrar, stated that M. and H. Jerome of Dundas had been awarded, on tender, the contract for motor cars for district nurses of the department of health. The cars cost \$1,217.25 each. Mr. Stover was informed that the members of the committee on proportional representation were paid \$15 a day without mileage for attending meetings of the committee.

Finally, Hon. Mr. Raney stated that O.T.A. officers, being ex-officio police

\$50 to \$5,000 A YEAR FOR LIFE

A CANADIAN GOVERNMENT ANNUITY PROVIDES IT

- No better life investment available
 - No better security obtainable
 - Cannot be seized or levied upon for any cause
 - Will be replaced if lost, stolen or destroyed
 - Not affected by trade depression
 - Free from Dominion Income Tax
 - No medical examination required
- Anyone over the age of 5 years resident or domiciled in Canada may purchase.
- Any two persons may purchase jointly.
- Employers may purchase for their employees—school boards for their teachers—congregations for their ministers.
- Apply to your postmaster; or write, postage free, to S. T. Bissette, Superintendent of Annuities, Ottawa, for new booklet and other information desired.

the sheriff had overlooked the execution on the date set, there was no reason why it should not take place at another time.

Eaton was convicted of the murder of Charles McQuillan, a white planter, in December, 1917.

Col. Frederick O. Hodgins
Is General Staff Officer

Kingsford, Ont., Feb. 9.—(By Canadian Press).—Col. Frederick O. Hodgins, D.S.O., of Toronto, has been appointed general staff officer in military district No. 3, and will arrive in the city on Thursday to assume his duties being conducted by Major W. J. McManus temporarily in the past few months. Col. Hodgins is a son of Major-Gen. W. E. Hodgins, former adjutant-general at militia headquarters, Ottawa.

THOS. JAMIESON, B.A., DEAD.

Ottawa, Feb. 9.—Educational circles of the province of Ontario suffered a distinct loss when Thomas Jamieson, B.A., aged 67, senior inspector of public schools for the Carleton county eastern district, died at his home, 115 Strathcona avenue, early this morning. Mr. Jamieson had been ill since the last week in December as a result of a nervous breakdown.

CALL MONEY EASIER; STOCKS ARE BUOYANT

Evidences of Pending Readjustment in Steel Industry Im-
prove Demand for Steel Shares, and Oils Are Strong
Despite Fresh Reduction in Price of Product.

New York, Feb. 9.—The stock market today fulfilled in moderate measure its promise of greater strength and activity, as indicated by the vigorous rebound which featured the final hour of the previous session.

Aside from relaxation of rates for call money, no visible change occurred in the factors which have held the market in check recently. There was a feeling in speculative quarters however, that technical conditions temporarily favored the bull account.

Adoption of the Windows bill by the House, together with the fact that the government, failed to stimulate more than an intermittent inquiry for protective legislation, led to the belief that the steel industry is on the verge of price readjustment. Compulsory issues of that character, including the various railway equipments,

HIGH STANDARD SET BY SUN LIFE CO.

Jubilee Record of This Company to Be Used for Higher Achievements.

Among the annual reports submitted so far this year one of the most interesting available is that of the Sun Life Assurance Company, which is now celebrating, with pardonable pride, its fiftieth anniversary. Apart from the fact that the company's record in insurance annals of Canada is one of the most brilliant, the actual figures as furnished by the company, show the remarkable effect of the various factors which have entered into its growth and development.

Not over the company intend to rest with its record today. With its annual reports, whether they be considered as percentages of growth or as straight totals, for in the annual report for the year 1920, which appears in this issue, the company shows a record of growth which is as impressive as any other company in the world. The company's record in insurance annals of Canada is one of the most brilliant, the actual figures as furnished by the company, show the remarkable effect of the various factors which have entered into its growth and development.

Not over the company intend to rest with its record today. The company's record in insurance annals of Canada is one of the most brilliant, the actual figures as furnished by the company, show the remarkable effect of the various factors which have entered into its growth and development.

STEAMERS BREAK AGAIN; OTHER STOCKS EASIER

The Toronto stock market made a modest response to an improvement in the New York market yesterday, but the volume of business witnessed no special increase. There was a prompt following here in the advance in Dominion and Canadian shares, and a little stock changed hands at an advance of 1/4 point from the previous day. The market was not means regular and another liquidation movement in steamships common during the afternoon had a demoralizing effect.

SANE OPTIMISM JUSTIFIED SAY ROYAL SECURITIES

Royal Securities Corporation, in Investment Items this month, says: Viewing the past and the future in proper perspective, the beginning of 1921 affords good grounds for optimism regarding the Canadian and world conditions, both in Canada and abroad.

It is our opinion, and, fortunately, one which we believe is shared by most others, that long before the close of this year, 1921, the entire commercial world, and particularly Canada, will have completed a widespread re-establishment of profitable commercial and industrial activities.

DOMESTIC FEATURES MARKET WITH SHARP ADVANCE

There was quite an evidence of a revival of interest in the gold stocks in New York yesterday and large dealings in the various shares developed on the New York exchange. The curb, however, was heavily traded in and rose from 13, the previous day's close, to 14 1/2. On the Standard exchange the shares changed hands close to a parity with the New York price, but the stock was not in very free supply here. Hollinger and McIntyre were firm, but not conspicuous.

NEW YORK CURB.

New York, Feb. 9.—The market on the curb was rather irregular, and price movements were of small importance. The recent sensational strikes in Florence and elsewhere seem to have caused a revival of interest in some of the old gold fields. Goldfield, Conn. advancing from 16 to 17. The market for the Canadian gold field, which was sold at 11. United Retail Candy sold at 8 1/2. It is understood that the company will make a statement shortly which may have a beneficial effect on the market for the stock. The oils were about steady. Allied Oil is drilling three of its shallow wells in Louisiana to a depth where it is expected the gusher sands will be struck. In this connection it will be remembered that a short time ago a Standard Oil subsidiary brought in a 100-barrel gusher from a deep sand on a lease adjoining Allied's acreage, in the same state.

JAMES J. WARREN, President.

We have audited the books for the year ending 31st December, and verified the cash, bank balances and securities of the corporation. We have also audited the books of the corporation after the completion of the year ending 31st December, and we have formed an independent opinion as to the position of the corporation, and with our independent opinion so formed, and according to the best of our information and the explanations given to us, we certify that in our opinion the statement sets forth fairly and truly the state of the affairs of the corporation, and that all transactions of the corporation that have come within our notice have been within the powers of the corporation.

GEORGE EDWARDS, F.C.A., Auditors.
of EDWARDS, MORGAN & COMPANY, Chartered Accountants.

Toronto, 25th January, 1921.

HERRICK REPORT QUITE FAVORABLE

Development Gives Good Results and Conditions Promise to Improve.

The first annual meeting of the Herrick Gold Mines, Limited, was held at the Dinnick Building yesterday, and was largely attended. The assets are placed at \$1,388,629.73, with cash on hand of \$3,880, and unissued capital of about 280,000 shares. Some two hundred thousand shares of stock have been contracted for, but as the payment for these has not yet been made the amount does not show in the statement.

F. C. Sutherland, the managing director, presented the report in part as follows:

The first efforts of your company were concentrated in an endeavor to find out whether or not the bodies discovered on the surface would be at depth and if, as has proven the case with the other diamond camps on Northern Ontario, a national wind would be secured as depth was attained. To this end, a contract was let for several thousands of feet of diamond drilling. Four drill holes were put down, the deepest one reaching a point little over 50 feet below the surface. At that depth it was found that the main body had widened out to approximately 25 feet, with considerable values over the whole width. In addition to this, the diamond bodies encountered at a depth of one hundred and sixty feet, a vein running parallel to the main body, which was not much wider than the surface. The importance of this vein cannot be overestimated. Its close proximity to the main body and the possibility of the central shaft, will allow for its development at a minimum of expense.

As a result of this work, your directors feel that they were justified in undertaking the development and that the arrangements were made to purchase a complete mining plant, and that the plant was finally assembled.

Before undertaking the sinking of the shaft to depth, it was decided to widen it to a two-compartment size, so that it would not be necessary to do this work as considerable inconvenience and expense. Consequently, work was commenced at the surface, and the shaft, already on the property widened and timbered to its depth of 100 feet, was then continued until the present depth of 125 feet was attained. The main vein, which was perpendicular to the surface down to about fifty feet, dipped out of the shaft to the west at a depth of between sixty and sixty-five feet. A cross-cut was run in from the shaft at a depth of approximately forty feet, and the vein picked up. About sixty feet of drifting has already been done on this vein, and the values obtained have been satisfactory.

As I state, before, the diamond drills had indicated the presence of another body running parallel to the main vein. It was estimated by one engineer that a cross-cut about forty feet in length of the opposite side of the shaft from where the main vein was located, should yield this additional body. A certain amount of work has already been done with this object in view, but it has not the point where the vein should be found. The diamond drill cores from this vein gave an average assay of \$12.85 to the ton over a width of ten feet.

In addition to the above veins, the diamond drills picked up a further vein, which is located about 400 feet to the west of the present workings. Over a width of nine feet on this vein, the drill cores gave an average assay of \$22.10 to the ton. It is planned to undertake actual work on this vein at a later date.

With labor becoming more plentiful, and with wages showing signs of coming down, you can look forward to much better working conditions in the near future than has been the case during the time we have been operating.

This Week's Market Despatch

Winnipeg Quotation Rises Five Cents, But Slumps Later in Day.

Winnipeg, Feb. 5.—Early in the session the local wheat market today showed further strength, advancing nearly five cents from the opening. This was not maintained, and during the last hour a heavy slump occurred. This was attributed to pre-taken orders in the advance of Tuesday and early in today

CARE OF CHILDREN AS CURE FOR CRIME

Parole Board Officer Would
Prohibit Showing Demoral-
izing Pictures.

NEED GOOD INFLUENCE

Discards Theory That Crime
Disappears According to
Severe Punishment.

Take care of the boys and girls and put down the open exhibition of demoralizing pictures in magazines and in theatres, were "cures" urged by Dr. Alfred E. Lavelle, chief executive officer of the Ontario board of parole, in addressing the Canadian Club at luncheon yesterday on "The Cure of the Criminal."

Dr. Lavelle is the son of a former warden of Kingston penitentiary, and has given much study to the question of criminology. He has an easy, conversational style of delivery and brightens his talk with stories and witty ribes. He was glad to say that his term at Kingston was behind him rather than in front of him, as in the case of certain parties he could mention.

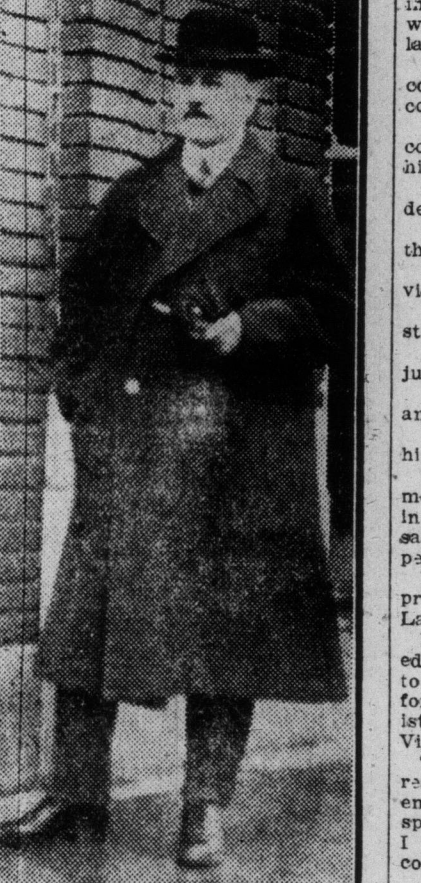

Paroled Men Do Well.
Speaking of the board of parole, Dr. Lavelle said it was made up of seven men, who served without salary. It met at least once a month and also visited periodically the prisons and prison farms of the province. Under the law a magistrate or judge could not sentence a man to a definite term over three months or under two years less one day, and, therefore, it fell to the parole board to decide the length of the terms between these two limits. In 1919 the board had dealt with 164 cases and last year 582 cases, and had paroled less than half the cases reviewed. Of the prisoners paroled 93 per cent. had made absolutely good, and the other seven per cent. were not entirely failures. The wages earned by the men paroled last year up till the end of 1920 totaled \$104,000. Of course, prisoners were obliged to work in prison, but it was a credit to the labor of a man in prison was not equal in value to the labor of the same man out of prison. A very valuable experiment in the treatment of criminals was being carried out at Burwash.

Criminology, said the doctor, did not always involve much depravity. Whether a man was a criminal or not depended upon the law. A crime in Canada might not be a crime in Italy or some other country. In parts of Africa, where there were no laws, there were also no crimes. The manner of dealing with law-breakers had changed with the ages. The early method was "to give it to them" in the neck either with the ax or the rope. Then when people became more human they adopted the prison method and criminals were put away into dungeons, a penalty, which, owing to the conditions of the prisons, was almost as severe as the death sentence. It was not until about one hundred years ago that the most severe forms of prison punishment were removed and steady progress had been made in prison reform. The theory that crime would disappear in proportion to the severity of the punishment was found to be scientifically untrue. Men who committed crime did not start out in the morning bent on crime; also in committing crime they invariably took no thought of the punishment.

MEN YOU HEAR OF

Seen as Their Friends
Know Them

NO. 107.

MR. F. I. FOX, manager of the Ford Motor Co., Limited. He was born in Delaware, Ont., near London, Ont., and was educated in the public schools and London Collegiate. Mr. Fox is a member of the Ontario, Victoria, Royal Canadian Yacht, Rosedale Golf and Old Col, and of the Masonic order. He is fond of hunting, fishing and playing golf.

which says that a man must not be sent to a reformatory except for an indeterminate term. When next at Burwash the parole board would look into this case, and if they decided that a parole would be warranted, it would be necessary to place the case before the remission branch at Ottawa. This branch, in the speaker's opinion, should have nothing to do with it; the matter should be decided by the Ontario board. Much time would be lost, and in the meantime, the man's family would suffer and his children would get many lessons in criminality.

His own idea was that in the case of criminals of this type, there should be short, severe sentences and long periods of parole. In a general way, he would cure the criminal by better laws and better enforcement of them. The number of criminals could be reduced by taking care of the boys and girls. Churches and schools were giving more attention to the welfare of children, and good healthy sports were a great help. Good books and pictures and good home influences were the greatest cure for criminals. There were more rotten pictures sold now in magazines and shown in theatres, than ever before, and these had their influence on crime. These shows might be all right for grown persons, who merely laughed at them, but they had a bad influence on the young. Pictures showing the criminal getting cleverly away from the policeman and the policeman failing to catch him, were the worst of all. The sympathy of the boy on the side of the law-breaker and fostered disrespect for the police officer.

In the treatment of adult criminals the speaker said he would classify them into mental defectives, the thoughtless wrongdoer and the persistent law-breaker. He would treat the first as a defective and not as a criminal. In the case of the second, he would give the court power to sentence him to a period of probation under observation, and would not send him to a prison. This procedure, he believed, would save 50 per cent. of the criminals of the province. But for the persistent criminal, the man who would give the court power to sentence him to a long period of parole, he would prescribe a term of short, drastic punishment, say, of solitary confinement with hard labor, followed by a long period of parole. He would give the court power to spank such men, but he did not believe in lashes. If that failed, he would give the court power to send him to a reformatory penitentiary to keep him all it was deemed safe to let him out.

OBSERVE ASH WEDNESDAY IN CATHOLIC CHURCHES

Ash Wednesday was observed in the Catholic churches yesterday, when large congregations assisted both morning and evening. Ashes—from the Easter palms—were blessed and distributed to the masses. In the evening the "way of the cross" was made, during which the stations representing fourteen outstanding events in the passion of our Saviour—were visited, prayers were said and the Stabat Mater sung. St. Michael's Cathedral was crowded in the evening. Benediction of the blessed sacrament was given by the rector, Rev. Father R. J. O'Connell. The distribution of the ashes to the faithful assisted the hundreds who approached the altar rails to receive them being admonished to remember, man, thou art dust and unto dust thou shalt return.

ASK FOR DISMISSAL OF PARK OFFICIALS

Niagara Falls Citizens Petition
Government for Their
Removal.

A petition signed by several hundred residents of Niagara Falls has been sent to the Ontario government, calling for the dismissal of P. W. Ellis, chairman of the park commission, and Superintendent Jackson, who is absolutely unfair and biased in his position as head of the commission.

"He entertains a great many persons, who may add to the expense of the commission, which means at the expense of the province. He supported the superintendent in unjust treatment of the staff, which resulted in several resignations last May. He sold supplies to the parks commission while a member of the commission. He influenced losses of the parks commission into buying supplies from his firm."

The charges against Superintendent Jackson are:
"He is not a graduate engineer, the posing as one.
"He engages experts to obtain advice on many unnecessary questions.
"He is incapable of directing the staff.
"He is narrow and biased in his judgment and decisions.
"He insults most persons entering his office."
"The commission could be run on more economical and effective lines in the interest of the general public," says the letter accompanying the petition.

Mr. Morden was introduced to the prime minister by C. F. Swayze, labor member for Niagara Falls. P. W. Ellis laughed at the question regarding the petition presented to Premier Drury yesterday, asking for an inquiry into Mr. Ellis' administration as chairman of the Queen Victoria parks commission.

"That may be the outcome of the resignation of four persons from the employ of the commission last spring," he commented. "So far as I am concerned, however, I have no comment to make."

ELECT CUSTOMS OFFICERS.

At the annual meeting of the Dominion Customs Officers' Association, the following officers were elected for the ensuing year: President, Herb. Ball; vice-president, W. Burns; recording secretary, A. Galloway; financial secretary, W. McGuire; treasurer, W. Woodson; executive committee, Mr. Ferguson, F. Somers, P. M. Kennedy, R. Holmes, J. McCartney and M. S. Morgan.

INSURANCE OF FAIRS AGAINST WEATHER

Ontario Association Hopeful
of Getting Increase From
the Government.

The deputation appointed yesterday morning by the Ontario Fair Association, in convention here, to wait upon the government with a view to obtaining an increase in wet weather insurance, reported that in all probability the proposal of the association would be accepted. An increase in the government grant of \$25,000 was refused by the premier, as Ontario is receiving a larger annual grant than any other province.

In his address on "Classification and Prize Lists," R. W. Wade, live stock director, urged the delegates to further the breeding of good animals and to increase the number of horses at the fairs by adding more money to the prize lists as far as the finances of the society would warrant such a procedure.

New Officers Elected.
Officers for the ensuing year were elected as follows: President, W. J. Connelly; vice-president, J. J. Farrell; second vice-president, W. J. Ault; Winchester; auditor, G. deW. Green, Toronto; representative to Central Canada Exhibition, J. C. Bulfinch, Hamilton; representative to Western Fair, W. Monteth, Stratford; to Royal Agricultural Winter Fair, W. J. Connelly; J. McLean and J. C. Bulfinch, directors were also elected as follows: Dr. A. T. Morrow, Maxwellville; W. E. Smallfield, Renfrew; Clem. Kethesoo, Frankford; J. C. Calder, Beaverton; W. N. Scott, Millville; G. C. Johnston, Ancaster; J. J. Craig, Fergus; Chas. W. Molland, Thorndale; W. A. Brock, Peterborough; H. C. Hunk, Midway; R. Hill, Huntsville; Jas. Tonkin, Port William; A. E. Stephenson, New Liskeard, and A. R. Woods, Soo.

SEQUEL TO SHOWING FLAG OF "REPUBLIC"

Hibernian Order Again Ask
Permission for Use of
Massey Hall.

The Ancient Order of Hibernians had a wordy round with the board of trustees yesterday over the resolution passed by the board a year ago calling the management of Massey Hall to time for permitting certain Hibernians to take place in the hall. The result of the resolution was that the board of trustees, which was composed of the Hibernian organization, would not again be permitted the use of the hall.

The Hibernians' deputation yesterday asked that the board's former resolution be withdrawn and that they be permitted to have the hall this year for their regular 17th of March concert. The board's reply was that the board was not prepared to stand in the way of our having the hall, said J. Sullivan of the deputation.

"I said nothing of the kind; I have nothing to do with it. The directors should not interfere, that is a matter for the management of the hall to settle," replied the mayor. "But he says he will not let us have the hall without the consent of the board of trustees," rejoined Mr. Sullivan.

Con. Maguire: "Any organization that is permitted to display the flag of the Irish 'republic' cannot be allowed to use the hall." The members of the deputation who, besides Mr. Sullivan, were James Doyle and W. D. Gavin, said they did not know the flag had been displayed in the hall; they were not responsible. The Mayor: "Your committee was responsible for what took place."

Con. Nesbitt: "Did you ever apologize for what took place?" "We were not asked to apologize," replied Mr. Doyle.

Con. Nesbitt: "Well, it was your duty to do so in any case, and so far as I am concerned you cannot again have the hall until an apology is given."

Mayor Church said that his attitude also.

Hon. Hiltz: "When you know the attitude of the people of Toronto regarding anything of a disloyal nature, don't you think you should have sent some explanation? By simply saying nothing you made it appear that you condoned the disloyal act."

Mr. Sullivan replied that he had heard only lately what the disloyal act was.

WAITRESSES' UNION ELECTS NEW OFFICERS

The Toronto Waitresses' Union local 43, announce the election of officers for 1921 as follows: President, P. Pardee; vice-president, D. Turner; business agent and financial secretary, P. Johns; recording secretary, M. Ward; treasurer, V. Shunk; chaplain, B. Caven; inspector, A. Brooker; inside guard, L. Turner; trustees, M. Hannigan, A. Claxton and H. Warner. The choice of president and vice-president proved to be very popular, both being elected by acclamation. The Monday night social, which was a dance and will be held in St. Mary's Hall in aid of the first benefit fund of the union, will be held on the 14th and will be in attendance and prizes will be distributed. Dancing will begin at 9 p.m.

T.S.R. WILL AGREE TO BOARD OF THREE

Proviso is Made If Sir Adam Beck
and the Company Can Settle
on the Third.

"E. R. Wood, representing the Toronto Railway Company, has notified Sir Adam Beck, the city's nominee for the arbitration board which will fix the amount to be paid by the city for the T.S.R., that his company will consent to the appointment of a board of three providing Sir Adam Beck and the company can agree on the third member. The company has not yet announced the name of its representative on the board.

HUSBAND AND WIFE FACE MANY CHARGES

Several Carloads of Property
Recovered, Alleged Stolen
by Edward Cooper.

Another stage was reached yesterday in the extraordinary case of Edward Cooper, in whose possession the police found several carloads of other people's property. The accused, who is charged with acts of theft and housebreaking, pleaded not guilty in the police court yesterday and elected to be tried by a jury.

The articles recovered from his household property, personal attire, jewelry and bonds. So far, 56 victims have claimed their stolen belongings. The police have recovered carloads of stolen property for which claimants have not appeared.

Mrs. Christie Ryrie of 1 Highland avenue identified a quantity of jewelry and war bonds recovered by the police and told the magistrate that on Saturday, September 11 last, an unknown person entered her room in her home. Nothing outside of her room had been disturbed, but the telephone wire had been cut. She detected the person at 4 a.m.

Detective Ward told the magistrate some of Mrs. Ryrie's jewelry in a writing desk at 382 West Queen, which was found in the possession of Cooper, it was his property. Cooper, it was stated, had made a statement that he and three others had planned the Ryrie robbery in a downtown hotel. Ward said a plan of the Ryrie home was found in Cooper's possession.

Lady Whitney a Victim.
Detective Carter told of finding at 41 D'Arny street, apparently a furniture belonging to Lady Whitney and alleged to have been stolen from her home at 12 St. George street. A number of other victims' names and identified articles which had been stolen from them, and which were in Cooper's possession.

Cooper was formally committed for trial, no bail being found.

CHARGE OF SHOPLIFTING.
Victoria Murray and May Foy were arrested last night by Detectives Leavitt and Mulvey on a charge of shoplifting. Blouses, shoes and underwear were among the goods recovered.

WANT TORONTO MEN WITH UNION WAGES

Labor Deputation Puts Case
of Dominion Shipyard
Before Controllers.

James Simpson headed a deputation to the Shipyard Union to ask the board of control yesterday to prevail upon the government to insist that the jobs at the Dominion shipyard be completed, should be filled by Toronto men at union wages. Members of the deputation said there was a shortage of men in the shipyard, and even Germans employed as ships. Mr. Simpson said he understood the minister of marine and fisheries was standing up against authorizing the Collingwood Shipbuilding Company, which has the contract, to pay the union scale.

It was decided to have the deputation meet the Toronto members of parliament today and seek their views as to a solution.

R. L. Starr, K.C., and others urged that immediate steps be taken to grade the Macleannan avenue bridge, to reduce the risk of railway crossing accidents.

Health Estimates Cut.
The board reviewed the estimates of the local board of health and cut only \$15,000, leaving the total at \$135,000 greater than last year's estimates.

AGREE TO SITE FOR LIVE STOCK ARENA

Exhibition Authorities Will
Lay Plans Before the
Board of Control.

At a meeting of the Exhibition board yesterday a decision was reached to locate the new million-dollar live stock arena on the site of the small live stock judging ring at the Exhibition grounds, with the opening towards the lake and the west wing adjoining the large brick horse arcade. The directors of the Exhibition will wait on the board of control this morning and ask for approval of the site and plans for authority to proceed at once with construction.

Given an early start, City Architect Price has advised the board that the arena can be completed by August 15, in time for this year's Exhibition. The plans have been modified to provide for a building costing one million dollars, which is the amount authorized for the purpose by the city council in January, 1920. While the city will put up the building, the live stock association, with the help of the federal and provincial governments, will enter into an agreement to pay \$40,000 a year for ten years as carrying charges, and also \$10,000 a year in rental, making \$50,000 a year in all. There will of course be considerable revenue from the building outside of this \$50,000.

Some time ago the board of control authorized a survey of the Exhibition grounds, and the laying out of a comprehensive scheme of buildings. This survey is now nearly completed and it is suggested that the arena be located almost in the line of Strachan avenue, and extending down to the lake front. The carrying out of the whole scheme proposed would involve an expenditure by the city of \$10,000,000. The World is informed.

Commissioner Favors.
The Exhibition board took the view that the Strachan avenue site was too far east for the arena at the present stage. The location decided upon has been in the Dryden collection, and generally speaking good all round prices prevailed, running for the most part from \$800 to \$1,000 each. Harry McNeil paid \$225 for "Butterfly Lane," imported, and George Rowntree of Toronto paid \$270 for "Butterfly 9th," a well balanced, roan cow. While not commanding the sensational prices which have marked some of the Holstein prices of late years, yesterday's sales and attendance indicate that the Short horns have little if any of their old-time popularity.

One thing the sale yesterday was to demonstrate the quality of the stock buildings at the Exhibition grounds to accommodate a big crowd. Not one-half of the people at yesterday's sale had a good chance to get within hailing distance of the sale ring, and the need of the proposed new arena was repeatedly emphasized by the crowd present.

WELL-KNOWN TORONTO DETECTIVE IS DEAD

Charlie Young, one of the most popular men on the Toronto police force, died yesterday at 2:30 a.m. from pleuro-pneumonia, after an illness of only a few days. He had been in failing health many weeks, but the attack of pleuro-pneumonia was very sudden. Detective Young was in comparatively good health on Sunday. He leaves his widow, 216 Page avenue, his mother and sisters, who reside at Mono road, and one brother, George, connected with the Toronto Hydro-Electric.

Detective Young was forty-seven years of age. Joining the Toronto police force in October, 1900, he was promoted acting detective in 1908, and became a detective sergeant in December, 1912. He was a member of the Lodge, A.F. and A.M., and of the L.O.O.F.

The funeral will be held from the late residence, 216 Page avenue, to-morrow, but the hour has not yet been arranged.

SHORTHORNS BRING EXCELLENT PRICES

Breeders From All Over Province at Sale on Exhibition Grounds.

Short horn breeders from all over the province were out in force yesterday when the annual Dryden-Miller sale was held at the Exhibition grounds, one hundred animals in all coming under the hammer. It was one of the best conducted and successful sales held in a long time, and the prices were good considering the prevailing quiet time in cattle generally prevailing. All the cattle were in excellent shape, but not in what might be termed show order.

The W. A. Dryden and John Miller herds were sold early in the sale and later in the afternoon Robert Miller's fine herd were put under the hammer. As high as \$800 was realized for one cow in the Dryden collection, and generally speaking good all round prices prevailed, running for the most part from \$800 to \$1,000 each. Harry McNeil paid \$225 for "Butterfly Lane," imported, and George Rowntree of Toronto paid \$270 for "Butterfly 9th," a well balanced, roan cow. While not commanding the sensational prices which have marked some of the Holstein prices of late years, yesterday's sales and attendance indicate that the Short horns have little if any of their old-time popularity.

FIND SOLUTION FOR T.S.R. PERCENTAGES

City Will Deduct Money Due
From Amount Paid Over
Clean-Up.

A solution satisfactory to the mayor of the difficulty arising out of the non-payment of the percentages of earnings of the T.S.R. has been proposed by Manager R. J. Fleming, and it is now unlikely that a writ will be issued. The proposal is that the city shall deduct the percentages from the amount to be paid by the city for the power and radial interests in the clean-up deal.

"That is satisfactory to me," said the mayor yesterday.

Mr. Fleming gives his undertaking in the following letter:

"In confirmation of my conversation with your board upon Monday, I write to say that should the board of control and the city council be of the opinion that the percentages shall remain in abeyance I will, as soon as the clean-up with the Hydro and the city takes place and we receive the city's bonds, make use of whatever money of them may be necessary to secure a temporary loan and pay off the city's percentage claim. This should materialize within the next few months. Failing our being successful in this, the worst that can happen to the city is that the percentages shall remain in abeyance until August next, when the city will be paying over to the company many millions of dollars; and the city's claim for these percentages is and will be the first charge against this money, and the same is in the city's hands to deduct whatever sum the company may be found owing to the city at that date, together with such interest as the city require to pay for the money or any other expense they are at in connection with the same."

KOLOVICH IMPROVING.

The condition of Leonti Kolovich, Saint Ste. Marie, who shot himself at one o'clock yesterday morning, outside the Burnside section of the General Hospital, was last night reported to be improving, and while he is not yet out of danger, the chances of his recovery are said to be good.
