TARIFF BILL
IS DENOUNCED

Democrats Charge Conspiracy to Enrich Favorites.

A Minority Report Declares This is No Time for U. S. Tariff Changes—“Savage Commercial War on Whole Human Family.”

Washington, July 7.—Democratic members of the ways and means committee in a minority report, filed today in the house of representatives, denounce the administration tariff bill as a “conspiracy to benefit a few favorites at the expense of all humanity.”

“Like every conspiracy, it has been hatched in secrecy,” the report says, adding: “We record our solemn judgment that this measure is a plan to plunder the people of our own country and to oppress the people of every country for the benefit of a few men who have succeeded in usurping for all practical purposes the taxing power of this government, using it primarily to enrich themselves, and, secondarily, to finance the political party which interests, encourages and facilitates the usurpation.”

The report declares the tariff was not an issue in the last campaign and that this is not the time to write a tariff law. It asserts that the measure which “confronts our people with a new and unmanageable administration having nothing to do with the tariff.”

The democratic members do not undertake any detailed discussion of the individual schedules in the bill, confining their lengthy report to a general indictment of the whole measure and the manner of its preparation.

In a criticism of the proposed plan for the United States valuation of imports, the report declares one effect of this is that the same duty will be imposed upon “the intelligent high cost production of Canada that is imposed upon the coolie labor of India, China and Japan.”

“As declaring a savage commercial war upon the whole human family,” the democratic minority says in a double entendre, “if in the history of political affairs a measure so irredeemably and universally vicious has ever been devised against the civilized world.”

“In adoption,” the report goes on to say, “will be established a policy of economic boycott against the civilized world.”

EXECUTIVE OF
G. V. V. A. MAKES
POLICY DECISION

Re-establishment of the Soldier in Civil Life Regarded as Un satisfactory.

Port Arthur, Ont., July 7.—The chief problem under discussion at a prolonged meeting of the G. V. V. A. conference last night was soldier re-establishment. It was concluded that the ex-service men have not been satisfactorily re-established and are, in consequence, suffering acutely as a class under the present economic condition.

Believing that fundamentally the work involves the greatest possible effort on the part of the country to re-establish the ex-service man that status which he would otherwise have gained but for service, something must be done. The conference, therefore, decided on the following plan: subject to approval and discussion by the various branches, and final submission to the executive, which will be continued until such a time as, so far as possible, all ex-service men receive adequate re-establishment.

Ottawa, July 7.—(Canadian Press)—A movement is now under way to change the Great War Veterans Association into a fraternal organization, according to information received here. It has been decided to offer a prize of \$500 for the best ritual and to submit the proposal, together with the selected ritual to the fall convention.

“DIAMOND JIM”
TIMILTY DEAD

He was a Noted Man in the Political Life of Boston.

Boston, July 7.—“Diamond Jim” Timilty, a political boss, beloved of his people, is dead and the Roxbury district where he rose from a bricklayer to state senator, mourned his passing today. Death came yesterday at his place in Sharon where he had gone to make his fight against tuberculosis.

The ward boss, endeavoring himself to his constituents by charities that were countless, had stayed close to home during their recent district notwithstanding his own greatly improved fortunes until illness forced him to seek better air. Timilty was known alike for his political power, his display of diamonds, which gained him his name, and for his benefactions.

TARIFF BILL FINAL
VOTE AT WASHINGTON
IS SET FOR JULY 21.

Washington, July 7.—House Republicans, at a conference last night, fixed July 21 as the date for a final vote on the general tariff bill, consideration of which will begin today.

“LOOK HERE, JOHN, WHAT DO YOU SERVE AT THESE BANQUETS?”

Thomas in the Detroit News.

As Hiram Sees It

“Look-a-her,” said Mr. Hiram Hornbeam to the Times reporter, “Bill Snooks and Al Hicks had a lawsuit week ago last over a line fence, and I have seen a word about it in the paper. What’s your guess running now—papers? Bill told me he sent in the story and you didn’t print a word. They looked for it in the papers an’ it wasn’t there. I guess you’ll lose some subscribers—yes, sir.”

“Hiram,” said the Times reporter, “there are over a billion and a half of people in this world.”

“That’s got to do with it?” demanded Hiram.

“Among them,” went on the reporter, “are millions of Bill Snooks and Al Hicks—every one of them doing something every day. Do you get my point?”

“No, sir, I don’t,” said Hiram.

“Then I must explain,” said the reporter. “Much as it may hurt your feelings, the news-editor of a paper has a certain number of columns to fill, and he has enough matter to fill thousands. Most of his readers never heard of Bill Snooks or Al Hicks, but they know the Lord, and what would naturally be expected of it. Now if it could be arranged that these two had made up their minds not to have a lawsuit—that would be news. Do you see, Hiram, you got me. Yes, you got—By Hen!”

CARPENTIER AND
GIBBONS OCT. 12

Rickard Plans Bout for Columbus Day.

French Boxer to Take Trip Home in Interim—Only One Home Run in the Big League Games Yesterday.

New York, July 7.—Hope of getting Georges Carpentier’s signature today to articles of agreement for a bout with Tom Gibbons on Columbus Day, October 12, was expressed by Rickard, who is expected to visit him in France to arrange the details.

Terms for the match were understood to include a percentage basis of about 50 or 55 per cent. of the gross gate receipts for Carpentier. It was expected that the bout would be arranged before the French fighter left for France to visit his wife and baby daughter on July 14. No trouble is expected from the Gibbons side of the contract, which Rickard had hoped to complete before the fight for Labor Day, but Carpentier’s broken hand will prevent him from being in the ring before the early part of October.

One Homer Yesterday.

New York, July 7.—Tight pitching and perfect fielding marked the American League games yesterday while the National League contests. Grimes of the Brooklyn Nationals poked out the solitary home run.

In an errorless double-header between Washington and Boston, Red Sox and Grizzlies of the Senators battled twelve innings before Boston won. Erickson of Washington struck out Jones and scored on a home run.

Chicago, July 7.—The second round in the Davis Cup contest will be played between India and France, it was announced today by officials of the U. S. Lawn Tennis Association. The matches will be played in Paris on July 16, 17 and 18.

Philadelphia, July 7.—The Scotch soccer players who are now touring Canada will play an all-Philadelphia team here on next Saturday.

North Randall, Cleveland, July 7.—Peter Beller, a four-year-old colt by Peter the Great, brought the top price when the stable of J. L. Stadler of Cleveland was disposed of at auction yesterday. Surprisingly low prices were in evidence. The colt went to Will Roseman, a Cleveland trainer who developed him, for \$8,000. Peter the Great, a three-year-old colt by Peter the Great, a much-tooted Futurity candidate, went to E. Stout of Pontiac, Mich., for \$6,000. Walter T. Candier of Atlanta, Ga., purchased Peter Stadler, a two-year-old star, for \$1,500.

New York, July 7.—The Jockey Club has withdrawn from Frederick Johnson, wealthy turfman, the privilege of entering his horse in the case in which the filly, which had wintered at Johnson’s Belmont Park barn, was started in a race without being listed in the official entries the day before and lost because of a bad start after being backed heavily.

Chicago, July 7.—Chick Evans, Jr., western and national amateur golf champion, announced today that he would defend his title in the western amateur golf tournament here next week. Evans, who has just returned from Europe, also announced that he would play in the national amateur tournament at St. Louis. He participated in the matches at Hoylake, England, for the British amateur title and stadium next fall.

PRESENTATION
TO PASTOR WHO
COMES HERE

Purse for Rev. H. E. Thomas and Wife from Methodists of South Devon.

(Special to the Times.)
Fredericton, N. B., July 7.—Rev. H. E. Thomas who leaves the pastorate of the St. John’s Methodist church at South Devon to take that at the Exmouth Street church, St. John, left this morning on his duties on Wednesday.

Rev. Mr. Thomas and Mrs. Thomas were made recipients of a purse. Rev. Mr. Wightman, who has been in charge of the church since the departure of Mr. Thomas, will succeed Rev. Mr. Thomas.

Lorne Earle Ryan and Miss Cordie Emma Delong both of Fredericton were united in marriage on Wednesday night by Rev. G. C. Warren of the Brunswick Street Baptist church. They were attended by Joseph Higgins and Miss Clara Ryan, both of St. John’s, and a daughter of Mr. and Mrs. Delong of Fredericton.

Ontario Premier Subject of
Attack by Leader of the
Liberal-Conservatives.

Boston, Ont., July 7.—Hon. G. H. Ferguson, leader of the Liberal-Conservative in Ontario, addressing a large audience here, devoted his chief attention to Premier Drury. The premier, he said, had talked much of economy, but in the front page of the capital expenditure he had jumped from \$47,000,000 to \$83,000,000.

An innovation of the Drury regime, he said, was the increasing of the civil service staff to a point out of all proportion to the requirements.

Mr. Ferguson said he was still waiting for an explanation from the premier as to why he had sent to England to look after eight million dollars of bonds of the province a Delco light agent who had had him \$100,000 a day from the time he left home until he returned.

ASK BUILDING TRADE
WORKERS TO ACCEPT
A CUT OF \$5 A DAY.

New York, July 7.—One hundred workers in the building trades here have been asked to accept a voluntary reduction of \$1 a day, so it became known here last night. Journeymen now receive \$9 a day and helpers \$7.

Patrick Crowley, president of the Building Trades’ Council, declared the workers were unalterably opposed to granting the request of the employers.

Five Hundred to Lose
Positions in Outside
Post Office Service

Not Decided Yet Just Where Blow is to Fall—Sixty-one in Inside Service Get Notice.

(Special to the Times.)
Ottawa, Ont., July 7.—Sixty-one members of the inside service of the post office department have to date received notice of dismissal as a result of the Griffiths civil service reorganization proposals. They will leave the service on July 15 next.

In the outside service 500 are to be decapitated all over Canada, but just where the lightning will strike has not been decided. In the meantime the members of the civil service are racked with anxiety for no one can be absolutely sure his job will be safe.

Final review of the names is made by a sub-committee of the cabinet headed by Sir George Foster. Matters are almost ready for making the contemplated reductions in the customs and excise department, following the recent amalgamation.

ONLY STARS AND
STRIPES IN MARCH

That’s Decision for Christian
Endeavor Parade in New
York on Saturday.

New York, July 7.—No flag other than the Stars and Stripes will be carried in the citizenship parade which is to be held on Saturday in New York City. The decision was made by the Christian Endeavor Society on Saturday in connection with the world conference here.

The question of the presence of the United flag in the parade arose when representatives of the Canadian branch, embracing the largest foreign delegation present, asked whether or not they would be permitted to carry the flag of Great Britain.

There was no real objection to the United flag, but some of the officials were afraid the nationalist question might arouse prejudice in this city, which has the largest foreign population.

The 15,000 delegates opened their sessions at an enthusiastic meeting last night. Delegates from each country and state have their own reserved sections and many of them are in force.

“There is no objection to the United flag, but some of the officials were afraid the nationalist question might arouse prejudice in this city, which has the largest foreign population.”

Shooting Begun
at Bisley Today

Bisley Camp, July 7.—(Canadian Press)—The fifty-eighth annual meeting of the National Rifle Association was held here today and continues until Thursday, July 21, when the last stage of the King’s prize will be shot.

As a consequence of long distance shooting was practically dropped from the Bisley programme until the present year. Now there is a reversal of policy and the last stage of the King’s prize is shot over the nine hundred and one thousand yard range.

The National Rifle Association was established in 1850. “For the encouragement of rifle shooting throughout Great Britain. As a national pastime to make the rifle what the bow was in the days of the Plantagenets, the familiar weapon of those who stand forth in the defense of their country.”

Looking back over sixty years, it was a very vital development. It was the rifle in the hands of the British Tommy that saved the day in the great retreat from Mons in August, 1914, when the accurate fusillade of our infantry was mistaken by the enemy for concentrated machine gun fire.

TIGHTENING THE
LAWS TO MAKE
ONTARIO DRY

Toronto, July 7.—When importation of liquor into Ontario ceases on the morning of July 19, as a result of federal action following the referendum on the question, the much advertised “Sandy Bill” will come into effect.

The Ontario Government yesterday passed the necessary order-in-council to bring the act into effect and a formal proclamation will be issued in the course of a few days.

Bringing the Sandy Bill into effect means that the Drury Government will supplement, so far as it is able to, the federal measure making Ontario “home dry.” The bill was framed to put an end to short-circuiting in the event of dry.

Rahway, N. J., July 7.—Alfred T. Crane has received word from C. B. Norton, a lawyer of Northampton, Mass., that he and his sister, Emma, are sole heirs to the estate of Stephen Sizer Crane, valued at \$116,500. Crane is seventy-eight and his sister eighty-one. He is a draw-bridge tender.

U. S. COLORING OF
BRITISH NEWS

Matter Discussed at Imperial Conference.

Hughes Makes Comparison of Wireless Service Unfavorable to Britain—Premier Meighen Says News Exchange With Motherland Unsatisfactory.

London, July 7.—Sharp criticism of the paucity and slowness of communications by steamship, airplane, telegraph and wireless between Great Britain and the dominions were voiced at Tuesday’s session of the imperial conference, at which a decision was reached to appoint a committee to consider the development of communications throughout the empire.

The official text of the speeches was issued today and in it there were expressions of disapproval of world distribution of news through the United States.

Premier Hughes of Australia made an unfavorable comparison between the British wireless and the German installations that were in operation before the war, as well as those present existing in the United States. He said the U. S. was conducting wireless services to Great Britain, France, Norway, Japan and Germany, and was arranging to cover other fields.

He declared the United States was daily radiating in every direction, not only United States news, but United States concepts of world events, as instanced the transmission of such news to China, which, he said, formed the opinion of the British Empire.

He contended that if Great Britain and the dominions failed to increase their wireless telegraph and wireless telephone services in the immediate future, they would be left behind other countries.

Premier Meighen of Canada said to complain that while Canada had less cause to complain than Australia and New Zealand her exchange of news with the motherland was unsatisfactory.

“There is no doubt,” he said, “that the United States press is able to collect news on a vast scale and having been laid the cost of this collection by international circulation, it can afford to dump news into other English speaking countries.”

And advertise itself,” interjected Premier Meighen of New Zealand.

Mr. Churchill declared that it was vital in the dissemination of news of the British Empire that a strong British Empire atmosphere be developed by increasing circulation, it can afford to dump news into other English speaking countries.

U. S. STEEL MAKES
CUT IN PRICES

Slash Announced as Made
“to Compare With Existing
Prices of Competitors.”

New York, July 7.—The U. S. Steel Corporation yesterday announced another cut, the second since April 12, in selling prices for the finished product to correspond with existing prices of competitors.

The new schedule reduces bars from \$2.10 to \$1.90; structural shapes from \$2.20 to \$2, and tin plate from \$6.25 to \$5.75.

Cuts, and possibly some other products, will be resumed relatively.

The action taken by the U. S. Steel Corporation is in line with that inaugurated in the last few days by the Bethlehem Steel Corporation, the Republic Iron and Steel Company, Lackawanna Steel Company and many of the smaller producers.

NEAR PANIC IN
VIENNA OVER
POLISH MARK

Vienna, July 7.—Banking and speculative circles in this city are alarmed over the continued fall of the Polish mark and something approximating a panic exists.

It is estimated that many millions of marks are held here, having been bought at a price averaging four times the present value of the mark.

Austrian bankers are reported to have drafted plans for the rehabilitation of Polish finance in order that they may protect themselves from gigantic losses and even final collapse of that currency, but all these plans have been rejected.

It is said that sixty per cent. of the adult population of Vienna have been speculating in Polish money, being inspired by the great fortunes made from the phenomenal rise of the Hungarian crown.

PRAYER AT TIMBER-LINE.

(From Poetry.) Oh, that I could fashion words As the wind bends the trees— Could shape my lines as shining-bars, As exquisite as these White branches of the written pine Standing alone at timber-line!

Winds of life, blow stinging-free Into my heart that's waiting still! Beat in words unceasingly, And shape them to your stern white will!

LIGHTER VEIN.

Not Much! Mrs. Morton (angrily)—"Tommy Horton, what made you hit my little Jimmy with a brick?" Tommy Horton—"He struck me with a brick."

RANGE COMBATS BOLSHEVISM

Circular Issued to Educational Institutions by Minister of Public Instruction.

Paris, June 19.—(Associated Press by Mail)—The French government has taken the offensive against Bolshevist propaganda in educational institutions. Leon Beaurard, Minister of Public Instruction, has issued a circular in which college professors and public school teachers are warned against the promulgation of extremist ideas in their work.

"Republism France," he says, "cannot look with indifference upon a propaganda that recommends violence and the suppression of universal suffrage, with the consequent annihilation of national representation and liberty."

"It has been noticeable since the extremist agitation became active throughout France that the Communist forces were recruited principally among youths and young men from 15 to 25 years of age. Some have inferred from this fact that boys did not come out of public school or college with healthy ideas of government.

Some of the most violent extremist agitators have been public school teachers.

RECENT WEDDINGS

Mavor-McKim.
In Centenary church yesterday afternoon at 4:45 o'clock Miss Jennie Katherine, daughter of Mrs. James H. McKim, of this city, and James Thompson Mavor, son of Mrs. John Mavor, of Fredericton, were united in marriage by Rev. Neil MacLellan. The bride entered the church with her brother. She wore a navy blue tailored suit with silver trimmings, with hat to match and ermine neckpiece, with corsage bouquet of Ophelia roses and sweet peas. As she walked to the altar the organist, Miss Alice Ho, played "The Voice That Breathed O'er Eden." During the ceremony she played "Peach Blossom." The church was artistically decorated with carnations and sweet peas. The bride is a graduate nurse of Victoria Hospital, Fredericton, having finished her training there in 1918. The groom is one of the best known of the young business men of Fredericton, being a partner in the jewelry firm of Mavor Bros. He had four years' service overseas with a divisional train and field ambulance. He was badly shell-shocked and spent five months in hospital. At present he is captain and quartermaster of the 7th Machine Gun Brigade. Mr. and Mrs. Mavor left last evening on the noon train to Montreal, Toronto and other upper Canadian cities. They will reside in Fredericton.

Regina, Sask., July 7.—Arrangements have been concluded with the British government for the admission of Saskatchewan barristers to the standing of solicitors in England on complying with the same requirements as exist in Saskatchewan, according to an announcement made by the Benchers' Association. In consequence the rules of the Law Society of Saskatchewan have been amended to correspond with the order-in-council which it is expected will be put through in the near future.

DIVORCE COURT.

In the divorce court yesterday at Fredericton Mr. Justice Crockett ordered a decree of divorce in the case of William A. Barnett against Ida Mae Barnett, which is a null and void marriage.

Evidence was taken in the case of Carrie Maddison vs. William Bruce Maddison with Austin Allen, executor. This case was from Moncton. The plaintiff and her niece, Mrs. Mabel Steves, gave evidence on a hearing on April 19, 1921, at the residence of the plaintiff in Moncton, both saw the defendant in a room with a woman known as Muriel Flowers. Mr. Allan gave evidence concerning Rev. John Prince, Methodist minister in Fredericton and now residing in Moncton, stands until a later date.

The defendant retained case of Melbourne Jones vs. Melissa Jones was begun this afternoon. Daniel Mullin, R.C., appeared for the plaintiff (husband) and J. H. Teed for the defendant (wife).

The libel of the plaintiff, who resides at Kars, Kings county, was read, also the reply of the defendant, who is living in Boston. Infidelity on the part of the defendant since she left her husband and removed to Boston, is alleged in the libel. The reply contains counter charges of infidelity on the part of the husband and the statement that the defendant left him because of cruelty and abusive treatment.

20,000 INTERNED IN HUNGARY NOW

National Assembly Attacks Government on Matter—Also Complains of Censorship of Newspapers.

Budapest, June 18.—(Associated Press by Mail).—The government has lately been attacked by members of the national assembly because of the fact that 20,000 persons are in internment camps in Hungary.

Internment is a powerful weapon in the hands of the government. Anybody can be interned by a simple decree of a police director or sheriff, without a previous judicial inquiry. There are cases where people have been interned upon anonymous information that they entertained Bolshevik sympathies.

Bishop Gieswein was loudly applauded in the assembly the other day when he declared that some of the 20,000 persons interned in the camps had been detained two years without having been once examined by a magistrate. He stated that former Communists are not released upon having served their sentences in prison but usually are transferred to one of the internment camps.

It is charged that these camps hold many who merely are disliked by government officials. The camps are isolated from the outside world, the prisoners pass their time in idleness and the deputies were informed are becoming hot-houses for the breeding of Communism.

Members of the assembly also complain against the censorship and charge that the local newspapers are subject to a minute and ignorant application of the law, resulting in the suppression of news and comment which are unpleasant to the government.

The telegrams of foreign newspaper correspondents are no more exempt from the vexations of censorship than are the local newspapers. Commercial dispatches are censored and the censor frequently prevents the delivery of messages using code words.

It is charged in the assembly that there is still a strong current of semi-official trend against the Jew. The chief of Budapest police recently undertook a revision of the moving picture licenses on the ground that a more just

Cheapness in the disguise of Economy

has often played havoc with an otherwise well appointed Tea Party.

distribution was desired. Lincuses were taken from 20 Jews and assigned to new petitioners.

These acts are no longer viewed with indifference but have been rebuked by deputies. There are indications that public opinion is veering democratic and liberal principles and that it has become out of sympathy with the ultra-national and ultra-Christian war-cries of street-corner politicians.

"The Hungarian nation yearns for the air of liberty," declares Count Apponyi.

RAILWAY CO. MUST FENCE THE TRACKS

Failure to Repair Gate Created Liability for Killing Two Cows.

(Montreal Gazette).

The Canadian Northern Railway Company is condemned by judgment of the Superior Court, rendered by Mr. Justice Mercier, to pay \$800 to compensate Hermaas Ricard, farmer, of Epiphany, for the loss of two cows which were killed on the company defendant's railway tracks on July 13 last.

The plaintiff owns land on either side of the railway tracks, and it was alleged that owing to the negligence of the company's employees, the fence was allowed to become defective so that plaintiff's cows were able to stray from their pasture on to the railway line. In this way two of the animals were killed.

The defendant company alleged that the accident resulted from plaintiff having neglected to close the gates in the fence bordering the railway tracks.

Judge Mercier said there was no proof of defendant's contention. On the other hand, it was established that the gate through which the cows strayed could not be closed owing to the company's failure to keep it in proper repair. His lordship found defendant liable under the common law as well as under the Railway Act. He gave judgment for plaintiff for \$800, as claimed, with costs.

QUAIL AS A SONG BIRD.

Game Associations Are Opposed to Proposed Law.

A concerted effort has been made in several states in the U. S. during the last year to place bob-white on the song bird list. Every sportsman not only opposes this, but naturally resents it, says a paper issued by the American Game Protective Association.

It says that the bob-white partridge is the gamiest of game birds and the sportsmen are the men who have always protected and cared for them. To place him on the song bird list is not to protect him, but to abandon him. Long closed seasons on quail have been shown to be laws on paper only—non-enforceable laws that never bring the results hoped for, says the association.

A letter has been received by the association from T. Gilbert Pearson, President of the National Association of Audubon Societies, in which he makes it clear that his society does not desire to see the quail put on the song bird list.

Mr. Pearson says:—

"A law placing the quail on the song bird list, or in other words giving it perpetual closed seasons, is likely to have a tendency to defeat the very object for which the bill was enacted. The class of people who have taken most interest in this bird in the United States is the organized sportsman. In many states these bodies, representing thousands of good, worth-while citizens, in order to perpetuate their opportunities to go afield with gun and dog, have expended much time and large sums of money in feeding quail during periods of heavy snows and have also been responsible for the introduction of tens of thousands of quail for the purpose of restocking depleted covens. Many of these organizations are also active in apprehending and reporting those who kill the quail by illegal methods or at unreasonable times.

"It is my opinion that especially in the northern and central states the quail today would be almost as rare as the passenger pigeon if it had not been for the efforts of the game protective organizations of sportsmen, who have long been the chief active force in securing and encouraging the enforcement of laws for its preservation. If in attempting to protect quail the bird is removed for all time from the list of birds that may ever be

hunted, you virtually take from it the sociolous protective influences of the one large class of our citizens who have done most for its protection in the past.

"My experience has been that in most instances the fortunes of the quail may with a fair degree of safety be left in the hands of the game protective associations which have an intense personal interest in the preservation of the species."

The sportsmen of America should appreciate the stand Mr. Pearson has taken on this subject, says the American Game Protective Association.

OFFICE BOY ARRIVES EARLY SAVES TRAIN SEAT FOR BOSS

"There's one man who never fails to get a seat every night on this train without coming early," said the conductor on a Long Island train as he nodded to an elderly passenger near the front of the car.

"How does he do it?" the conductor was asked.

"The old feller sends his office boy over every night to pick a seat for him," replied the trainman. "The kid sits in the seat until near the time when the train starts. Then the old man appears and takes the seat."—New York Sun.

DIVORCES AT RATE OF FORTY A DAY

Physical Capacity of London Bench Taxed—Many Retired Judges Employed to Handle Rush.

London, June 18.—(Associated Press by Mail).—Since Easter the divorce courts have been working at high pressure to clear off an unprecedented accumulation of arrears, which, added to a steady stream of new cases, threatened at one time to overwhelm the physical capacity of the bench.

It needed the assistance of a number of retired judges to make headway against the avalanche of suits, with the result that they have been disposed of at the average rate of two scores or more per day.

The Lord Chancellor, Lord Birkenhead, himself, lent assistance by acting as an ordinary judge in the courts. Reviewing the position, he said:

"The war has left a degree of unrest which has spread into almost every sphere of modern life, and the influence of which is likely to be felt for an indefinite period in domestic relationships. Nineteen out of twenty of the cases of which I am now dealing are matrimonial suits. The date when he joined the army was the early chronological landmark of petitioner after petitioner, from which date the familiar and melancholy story of weakness on the part of the wife."

It is Lord Birkenhead's opinion that matrimonial suits may not return at least for a generation, to the pre-war level. The anomaly of the present situation has revived controversies on the inadequacies of English divorce laws.

Mrs. Seaton-Tiedeman, secretary of the Divorce Law Reform Union, estimates that the number of wrecked marriages in the United Kingdom is higher in proportion to the population than in the United States.

Where do all the Old Mattresses go

ANADA threw away thousands of mattresses last year. Old mattresses—dirty mattresses—hospital mattresses infected by contagious disease. What became of them?

The average Canadian has no idea how many such mattresses are taken apart, the stuffing "renovated," put into fresh ticking and slipped back into the stores by irresponsible manufacturers.

A situation that worries the responsible manufacturer as much as it does you.

As the originators of Simmons Beds, Springs and Mattresses built for sleep—as the largest single factor in the bedding business—we are concerned to protect you against old materials, dirty materials, infected materials in your mattresses.

Simmons Limited makes this Unqualified Statement to every merchant who sells Simmons Mattresses

"Cut open any Simmons Mattress that comes into your store. If you do not find it up to specifications, or better—ship back every item of Simmons merchandise and never send us another order."

Resilient, luxurious. Built for sleep. Sealed in a carton roll in the work-rooms, and delivered to your dealer sealed, sweet and clean.

These fine, sanitary Simmons Mattresses are made in four styles, distinguished by Labels of different color

Built for Sleep

On To Calgary and The Women's Council

Friday morning the closing day, and on request of Mrs. Sanford the members were in session at 9.15 a. m. Think of it, and a glorious Alberta sunrise flooding the room with its radiance.

Nominations were carried on, and it was rather difficult at first to follow the instruction with regard to blue paper ballots, pink paper ballots, and white paper ballots, all of which had their importance of place and insistence of official authority, after the roll of names of National officers, conveners of standing committees and delegates had been laboriously accomplished.

The passing of a resolution that the National Council of Women protest against the inequality between the sexes in respect to the marriage and divorce laws brought forth the remark from one bright woman that she did not think she would want to marry any member of her husband's family, but if she did want to fulfill the Scriptural admonition of marrying her husband's brother, she felt that there should be the same equality of law which permitted the deceased wife's husband to marry her sister, and the law now did not sanction marrying a husband's brother—it was simply the right of equality of sexes, which women could not have as long as a law gave a man superiority.

Votes of thanks were passed to the Calgary Council for their kindness and hospitality; to the mayor and city council for greetings, and provision of headquarters for the National; to the citizens for the use of motor cars; to P. Burns for his delightful entertainment at his ranch; to Lady Loucheud for the use of her home for civic reception; to the press, the Canadian Club, Boy Scouts, who had acted as pages in the hours of the convention's business, and to all the women of Calgary for courtesies received. The latter vote of thanks was heartily seconded by Lady Gibson, and spoken to by a New Brunswick woman, who claimed the privilege as "an old-timer," and representing the province of New Brunswick, "to pay the tribute of appreciation on behalf of all the New Brunswickers present."

On the way to the last official luncheon a group was formed on the steps of the headquarters, and a photograph taken, which almost threatened obliteration as heads were turned and eyes anxiously watched the uneasy delegates enthroned on chairs which tottered and threatened an avalanche upon the group in the foreground, and the Boy Scouts could not just at first understand the eagerness of all the delegates to suggest that their place was in front of that woman who never suffers one boy to have a corner for his place, but wishes him there beside her in loving, forgotten memory of her own.

At luncheon \$25 were collected and handed to the Scout Fund through the efforts of Mrs. Murray of Halifax, who had voted the Council's appreciation of the Boy Scout service at the National. The luncheon speaker was Mrs. L. C. McKinney, M. L. A., who urged the importance of the continuance of temperance legislation. Then "God Save the King," and the last luncheon of happy converse and spirited conversation, of brilliant addresses, was sung.

Before proroguing, the last official resolution of the executive recorded was for all members to stand at attention whenever the National Anthem is sung.

Later in the afternoon Mrs. Maclean, who had given her first guest the privilege of invitational delegates to her charming

to meet Calgary women that afternoon from five to eight o'clock, held a most delightful informal reception, where guests came and went, came and stayed, heard the masterly execution of the little twelve-year-old daughter's pianoforte playing, and still lingered in the flower-adorned tea room unwilling to say good-bye; and then went their different ways, some to hear Mrs. Gordon Wright speak later in the evening under the auspices of the W. C. T. U., while after nine o'clock some of the delegates went in little groups to the private sitting room in Hallier to pay their tribute of love and admiration to Mrs. Sanford, before leaving in the morning for Vancouver via Edmonton. Sorrowfully one delegate saw her little party disbanded, for the journey so harmoniously and pleasantly spent on the auditor of our expense account—"We must all use our own headpieces now." However, I have heard in a letter received from Edmonton that they had been met at Calgary station and their comfort arranged officially for the journey to the Pacific coast.

On Saturday afternoon many of the still lingering delegates in the city attended the garden party on Upper Hill's spacious grounds, in aid of the junior hospital work, while the St. John women renewed old friendships with Calgary friends, while surprised to find that the passing years which had removed old landmarks in the city and one time outskirts of prairie had left many of the old timers who still remembered and eagerly welcomed the absentees back to the old circles.

Sunday afternoon we passed a few restful hours at the Country Club, enjoying tea on its cool, glass-enclosed verandah—more like a large sun parlor extending round three sides of the clubhouse—surely a delightful spot, with its attractive links, stretches of prairie, view of mountains, its little rolling hills on another side, and over all the intense blue sky, and the sensation of atmospheric sweetness, lightness and restfulness that even the buzzing motors could not destroy. It was omnipresent and omnia of nature's most beautiful art.

I asked the question the other day, "Where does the west begin?" To me it had always begun on the border of Manitoba and Saskatchewan, and my host brought me home these lines which I give to you—

Out where the handclasp's a little stranger,
Out where the smile dwells a little longer,
That's where the west begins;
Out where the sun is a little brighter,
Where the snows that fall are a trifle whiter,
Where the sounds of home are a wee bit lighter,
That's where the West begins.

Out where the skies are a trifle bluer,
Out where friendships are a little truer,
That's where the West begins;
Out where a fresher breeze is blowing,
Where there's laughter in every stream-let flowing,
Where there's more of reaping, and less of sowing,
That's where the West begins.

Out where the world is in the making,
Where few hearts in despair are aching,
That's where the West begins;
Where there's more of singing and less of sighing,
Where there's more of giving and less of buying,
And a man makes friends without half trying,
That's where the West begins.

AMERICANIZATION OF ENGLISH KIDDIES

Motion Pictures Responsible, Says Mr. Granger—Origin of Bobbed Hair in the Old Land.

London, June 20.—(Associated Press by Mail)—English children are rapidly becoming Americanized through seeing nothing but American moving pictures, is the contention of A. G. Granger, manager of an educational picture series

who holds that film education ought to be part of every school curriculum. "Millions of children go to the pictures regularly," he said to an interviewer. "In American films no opportunity is lost to introduce the American flag; American motors are shown and popularized; American ideas in dress, furniture, habits and customs are being continually put before the children, with the result that they know more about Lincoln and the North and South wars than about Oliver Cromwell and Nelson. "Where did the fashion for bobbed hair come from? From America, and by the film," he added.

All English teachers are now in favor of introducing the film into the schools, Mr. Granger says.

GERMANY SETS PACE FOR THE WORLD'S TRADE

Exports and Imports to America This Year are Put at \$450,000,000 Total—Only Shade Under Record.

A reflection of the powers of recuperation of Germany has been found in statistics of the imports and exports of the United States, as compiled by the Department of Commerce. They present an excellent picture of the manner in which the German Government, importers and exporters are thrusting themselves into the forefront of foreign trade.

The figures are for the trade of Germany with the United States, but it is known that German trade agents are abroad in all parts of the world and that the "Made in Germany" trade mark again is reappearing in competition with American and allied goods everywhere.

The head of a large manufacturing corporation recently arrived in this country from Japan. He was asked what was the most interesting thing he saw abroad. "The sight of a squad of sixty German trade agents arriving in the port at Japan from which I sailed," he said. "They were the advance guard, and they have been followed by more. They are part of a vast army of salesmen."

The biggest factor in Germany's foreign trade at the present time is cheap labor, and labor paid in the terms of the depreciated German monetary

PRACTICE OF KISSING IS UNKNOWN TO MILLIONS

It is always a surprise to people to learn that there are millions of human beings who do not know what it is to kiss—Japanese, Chinese, many Africans, Malays, Burmese, many Eskimos and the native races of North America. One reason given for this absence of kissing among the Japanese is that the women and girls have always used pigments to redden their lips, making kissing anything but attractive. A mother will bid good-bye to a young son who is going to Europe to be educated without an embrace of any kind. When children wish to greet a playmate they bend low, with their hands resting on their thighs and Groen people kneel and bump their heads in the ceremonial "low-tow."

The head of an electrical manufacturing corporation who returned to the United States this week from a close-up view of Germany said that her labor was busy, her factory wheels humming and that she was able and, in fact, making ready, to undersell the world on manufactured goods.

The total trade of the United States with Germany, says a statement of the National City Bank in 1921 will aggregate about \$450,000,000, compared with \$247,000,000 in 1920 and \$10,000,000 in 1919. Total exports to Germany will aggregate about \$370,000,000, compared with \$202,000,000 in 1920, \$90,000,000 in 1919 and nothing in 1918. The approximately \$50,000,000, compared with \$45,000,000 in 1920 and less than \$1,000,000 in 1919. This year's total will be but little below the high record of 1914, when imports and exports aggregated \$335,000,000.

The principal articles in our rapidly growing exports to Germany are food and manufacturing material. Wheat and flour exports will aggregate about \$85,000,000, wheat alone amounting to \$50,000,000 and flour \$15,000,000. Bacon will show a total of \$15,000,000 and lard \$40,000,000. Condensed milk, oleo oil and cottonseed oil present large totals. In manufacturing materials, cotton, copper and paraffin hold highest rank, cotton alone amounting to \$100,000,000, copper approximately \$20,000,000 and paraffin \$1,000,000.

On the import side the chief articles exported from Germany in the ten

BAND CONCERT MONDAY. Arrangements have been completed for a band concert in Victoria square on Monday night. Temporary electric lights have been arranged for by Commissioner Thornton for the season on that square.

MOTOR PARTY FROM U. S. Mr. and Mrs. Milton Ward, daughter Irene and party motored from Waltham, Mass., and are visiting friends at Boundary Creek and Moncton. They left the Massachusetts town on Friday morning, the trip occupying three days.

MEMORIAL OF SON. Mrs. Angelina Ferguson of 298 Gullford street, west side, has received the mother's cross, with scroll, in honor of her son, Paul S. Ferguson, who was killed in action on Sept. 16, 1916. Mrs. Ferguson has also received on Friday morning the 1914-15 star awarded to her gallant son.

PRICES NOT YET FIXED. The New Brunswick Board of Liquor Vendors, consisting of Hon. J. F. Tweeddale, Martin McGuire and A. F. Bentley, assembled this morning to confer with the government in session here. Hon. Mr. Tweeddale said that they had not as yet set prices on the various brands of liquor.

AUTO TRIP. Mr. and Mrs. E. S. Carter and daughter of Fair Vale, accompanied by Miss Margaret Cady and Miss Irene McQuade, left this morning on a motor trip to Quebec and Montreal. They expect to be away ten days and on Friday will be joined by Mr. Carter's son, George, and Harold James of the C. P. R. passenger staff, who will spend a short vacation period motoring home with the party.

THE TAXES. Duncan G. Lingley, city chamberlain, said this morning that according to law, taxes must be paid into his office on or before July 14, in order to receive the advantage of the discount. Checks mailed on that date and delivered the following day will not entitle taxpayers to a discount. The taxes have been coming in fairly well since the distribution of the notices of assessment.

CHARLES H. KETCHUM. Friends will be sorry to learn of the death of Charles H. Ketchum, which occurred on July 4 of this year, Lower Norton, in the fifty-ninth year of his age. He is survived by his wife, one son and one daughter, George L. and Edna B. at home; also two brothers, Geo. W. of this city and Frank F. of Beaver Dam, B. C., and four sisters, Mrs. Fannie H. Hoy of this city, Mrs. W. B. Trevan of Los Angeles, California, and the Misses Blanche and Edith of Roxbury, Mass.

TRADE INQUIRIES. The department of trade and commerce, Ottawa, has sent to the board of trade a long list of addresses of trade inquiries from almost all parts of the world. Among them is the address of a commission firm in Havana that desires to obtain the Cuban reputation of our Canadian dealers in and exporters of oats. Others include inquiries regarding leathers, agricultural machinery, tools, foodstuffs, hardware and metal goods, building materials, furniture, wearing apparel, boots and shoes, and many other articles.

THE LATE JOHN D. FRASER. News of the death of John D. Fraser will be received with sincere regret by a large circle of friends. Through an error it appeared in yesterday's Times that it was Charles Fraser who had died. Mr. Fraser was for eighteen years wine clerk at the Victoria hotel, and was a general favorite with all who knew him. Of a kindly and generous disposition, he employed a wide circle of friends, to whom word of his death caused much sorrow. His death was the result of an accident last Wednesday which he received injuries. He was employed as night watchman at the Nashwaak Pulp and Paper Company mill. He was a native of Richibucto, N. B., and married Miss Mary J. Kennedy of Harvey Station, who survives him. Four sons, William, John, Walter and Ronald are also left to mourn, as well as three brothers and sisters. The funeral will be held on Friday morning at eight o'clock from Holy Trinity church.

A GREAT TIME AT CAMP GALAHAD

F. A. McKay Brings Down Word - Sorry He Could Not be a Boy Again and Stay.

F. A. McKay who has returned after a trip to camp Galahad where he photographed campers and camp for Lugin Photo Studio, was much impressed by the orderly way in which the camp was being run under the joint management of Rev. J. A. McKeighan, Mr. Crookshanks and Mr. Panter, and the huge amount of enjoyment the boys were getting out of it.

A blast of a whistle at 7 a. m. announces reveille and in a few moments a long line of boys in pyjamas are standing in front of their tent. Then follows a few minutes of physical drill. Another blast of the whistle and in a flash the boys have dispersed within their tents to reappear almost immediately running down to the river for their morning plunge.

Presently after more whistle blasts the boys whose turn it is to serve the meals for that day have a most appetizing meal on the tables. After offering up thanks to the Lord they all turn to and with appetite whetted to a keen edge by fresh air and exercise keep the waiters of the day busy replenishing plates and refilling cups with coffee. The day is spent in boating, swimming, baseball and other sports. A present is given to the tent making the best showing for the day. Points are given for dish-washing, neatness of tents and general efficiency in work and sport.

THE WELCOME TO GARDSMAN IN THE HANDS OF MAYOR

Plan to Greet Hilton Belyea—One Tender for the North Wharf Work—Meeting of Commissioners.

The commissioners met this morning at City Hall.

A delegation representing some property owners of Douglas avenue appeared to ask that the sidewalk be continued the whole length of the avenue at eight feet width instead of only to Bentley street. Dr. J. J. Maher spoke for the delegation.

The road engineer said that for about 800 feet it had been planned to lay six foot seven inch sidewalk.

Commissioner Frink said if this request was complied with the people on the other side of the street might ask for the same. He suggested that all people interested be given a chance to express opinions.

The mayor said that the matter would be considered.

Commissioner Frink presented a plan of the proposed reconstruction of Murray street to eliminate the steps. The road engineer reported that the roadway would have to be continued about 350 feet into Murray street and double retaining walls built. He did not consider the scheme advisable, but recommended the erection of a concrete curb at an estimated cost of \$504.

Mr. Bullock seconded the motion.

Mr. Jones said a property owner in the street said that the elimination of the steps was possible. He suggested a visit by the council to the site.

It was decided to lay the matter over until Monday.

The tender for the paving of a portion of North wharf was referred to Commissioner Frink and the city engineer for report. It was from the Stephen Construction Co. The price was—Earth, \$1.70; filling with stone, \$2.50; stone surface, \$3.15; curbing, \$3.25.

Hilton Belyea.

Commissioner Thornton thought that the city should make some recognition of Hilton Belyea, who was to return on Saturday from Boston with a new record established in a rowing race there. He said that Mr. Belyea's feat had brought fame to the mayor.

No motion to this effect carried.

Commissioner Frink asked if the city had obtained permission from property owners for the erection of a concrete culvert on Newman brook.

Mr. Jones said that he had made arrangements.

It was decided that the council should go to the west side this afternoon at four o'clock to look into the matter of an oil site location.

MEDAL FOR BOY WHO SAVED LIFE

City to Recognize Bravery of Harry Finley, Who Rescued Lad from Leonard's Creek Four Years Ago.

Recognition by the city in the shape of a medal for life saving will be made in the case of Harry Finley, who four years ago jumped into Leonard's Creek, near the Marsh bridge, and saved from drowning a lad named Reicker. This announcement was made by Commissioner Bullock today. The medal has been ordered cast from the same die as the one presented to J. A. Gregory recently.

Young Finley, who was only fourteen years old when he performed the act of bravery, is a son of Mr. and Mrs. Charles Finley, of Thorne avenue. Mr. Finley is a pressman with The Daily Telegraph.

JULY BRIDES

McCully-Mill. Seymour McCully, son of Shepherd McCully of Petticoat, and Miss Ada T. Mill, daughter of Palmerston Mill of Clermont, P. E. I., were married last evening by Rev. J. H. Hunter at his residence, 272 Tower street, West Side.

The witnesses were Mr. and Mrs. George G. Scott. Mr. and Mrs. McCully will reside at 49 Duke street, West End.

Clark-Smiths.

On Wednesday morning at 16 Haymarket square, Rev. A. L. Tedford united in marriage Walter Clark of Cumberland Bay, Queens county, and Miss Pearl G. Smith of Smithtown. After the ceremony Mr. and Mrs. Clark left by automobile for a reception at Smithtown and after a short honeymoon will make their home there.

CONVENTION OF KING'S DAUGHTERS

Fredericton, N. B., July 7.—The convention of the Kings Daughters opened this morning at Farraline Home. C. D. Richards, solicitor of the order reported that the last release had been signed and Farraline Home was held in trust by the order. The home becomes the property of the Kings Daughters under the will of the late Mrs. J. J. Fraser. Owing to very good management of the Executors, T. C. Allen and J. J. Gregory, the endowment fund has almost doubled in amount.

Delegates are present from St. John to the number of twenty-five. Mrs. Rankin is the sole representative from Woodstock. Those two places and Fredericton are the only three towns in the province where branches of the Kings Daughters are in existence.

The president, Miss Ella L. Thorne gave an interesting address. Another meeting will be held this afternoon at the conclusion of which the local circle will entertain the visitors at tea at the residence of Mrs. W. J. Osborne.

GIVES HARDING LARGE POWERS TO HELP TRADE

Special Provisions in U. S. Tariff Bill to Aid in Stimulating Foreign Commerce—Canada will be Affected. (Special Despatch to The Toronto Globe) Washington, July 8.—Although protection of American industries was the prime consideration in drafting the Fordney Tariff Bill, its framers believe they have provided several features which will prove a stimulus to foreign trade.

STATE OF TRADE IN THE UNITED STATES

to ratification by Congress of agreements entered into by the president with other nations. Excessive of the authority, however, is limited to three years and agreements entered into by the president may be changed or terminated at any time.

It is the belief of Representative Fordney that Canada will take steps without delay toward the removal of duties on lumber, the proposed retaliatory duties would not be applied automatically as was intended at one time, but the president may in his discretion negotiate with Canada for the removal of the present duties and taking in that may by proclamation impose a similar duty.

Retaliation on Coal. In the case of coal, however, a retaliatory duty is applied automatically. While the coal industry in the United States generally is not concerned over whether there is a free list in the Fordney Bill, but it is provided that when any other country imposes a duty on coal, the president may by proclamation impose a similar duty.

On the other hand, midsummer and pre-inventory sales by jobbers and extensive sales of light seasonal wearing apparel at retail, a much better tone in the stock market with a practical cessation of share selling, another German reparations payment, not accompanied this time by marked unsettlement of exchange rates, though these are lower; rather more encouraging reports from the railway industry, those dealing with a really good report of May net earnings; increased buying of repair materials by railroads, and prospects of government payments of deferred obligations to the roads, are among the more favorable developments in a rather dull, not to say depressed, trade and industrial situation.

Spotty conditions are not confined to the crop outlook, different sections and lines of industry returning varying reports, ranging from fairly active to intensely dull. Textile traders seem to return relatively best reports, those pointing to a recovery of capacity at work in some lines, and woolen, cotton and silk send best reports, those pointing to the chief concerns of buyers. Retailers' stocks of summer goods are reported light. On the other hand, basic industries, like iron, steel, soft coal, coke, lumber and agricultural implements, are very generally down to

WHAT THE TREATY OF BRITAIN AND JAPAN REALLY IS

(Montreal Herald)

A great deal of the opposition to the renewal of the Anglo-Japanese treaty may be due to the lack of information of the average reader as to exactly what the treaty is, and why it was originally entered into. Great Britain and Japan first formed an alliance in 1902. The treaty of that year was the outcome of the joint action of Russia, France and Germany in depriving Japan of most of the legitimate fruits of her victory over China in 1894-95, and the following Russian exploitation in the Far East. The contracting powers were to maintain the status quo and general peace in the extreme East. They were to maintain the independence and territorial integrity of Korea. In case either should be involved in war with a third power, the other was to maintain strict neutrality and endeavor to prevent other powers joining in hostilities against its ally. Only in case of attack by other powers would the neutral ally be obliged to enter the war.

With this agreement Great Britain remained neutral in the Russo-Japanese War, 1904-05. Then in August 12, 1905, when Russia had been brought to her knees and the peace conference was in progress at Portsmouth, the alliance was renewed. This time it was broadened so as to apply to India, and the neutrality provision was eliminated. A new article was inserted stipulating that "if, by reason of unprovoked or aggressive action, wherever arising on the part of any other power of powers, either contracting party shall be involved in war in defense of its territorial rights or special interests mentioned in the preamble (i.e. in the regions of eastern Asia and India, the other contracting party will be once come to the assistance of its ally."

The treaty became a defensive one and left it open to the ally not first involved in a war to decide whether the treaty was or was not due to unprovoked and aggressive action on the part of an outside belligerent. Italy was a member of the Triple Alliance with Germany and Austria, but exercised a similar judgment in 1914, stayed out of the original war and eventually joined the Entente Allies. The new treaty with Japan also recognized Japan's paramount rights in Korea.

When the Anglo-British alliance was renewed for a term of ten years, the following modifying clause was inserted, with the United States especially in view:

"Should either high contracting party conclude a treaty of general arbitration with a third power, it is agreed that nothing in this agreement shall entail upon such contracting party an obligation to go to war with the power with whom such treaty of arbitration is in force."

Both Japan and Great Britain have arbitration treaties with the United States, and the Anglo-Japanese treaty was an agreement for ten years of the termination of any pending war. This now leaves it open for renewal or otherwise. The agreement was one of mutual defense, to communicate freely with each other as to matters affecting the interests of each; to assist each other if attacked; to make no separate agreement; and naval and military forces to consult one another. It may thus be seen that it would need to be a very extreme case which could bring Britain and Japan into Alliance against the United States even if the treaty were renewed, while it could be a great advantage to us in keeping Russian intrigue and aggression in check.

GIVES ST. CATHERINES COMMUNITY CENTRE Park Leased on Trial So Successful Col. Leonard Presents It

St. Catherines, July 7—Col. R. W. Leonard has fulfilled the promise made a few years ago, that, if the property leased for St. Thomas' parish "made good" as a community centre, he would present it, free of all encumbrances, to the parish forever. The gift consists of five acres, divided up into baseball fields and tennis courts, where teams of boys and men can be found every evening; flower and kitchen gardens, where the children of the Sunday school are learning to grow all sorts of things under expert tutelage.

Services and Sunday school are held in the house, which is hung with wisteria, and boasts chestnut wood for all its interior finishings, and clubs of all kinds for men, women and children are centered here.

The place is famous for its fine trees, notably its copper beeches and its evergreens. Rev. A. H. Walker, who is curate of St. Thomas', and in charge also of this chapel of ease, lives in the house, and is director-general of the flourishing community work.

Here's Good News for St. John Shoppers!

On Footwear Deeply Cut at Levine's

Never Better Bargains Even in the Halcyon Pre-War Days! Money Needed!

When manufacturers are in urgent need of funds the one implement to produce the needed sum is to dispose of their stock at attractive prices to the retail trade. Nothing supernatural in this. Only natural.

With its widespread connections in the shoe trade of Canada this shoe house is early acquainted with favorable opportunities to secure price concessions. For example:

One of the most prominent shoe manufacturers in the land was recently in such a financial position. By buying heavy and FOR CASH I was able to secure a cost price that makes possible this great sale—one of the most favorable I have ever heard.

No need of going into detail as to the advisability of the buying public of St. John taking advantage of this sale. Footwear is something in every day demand. It is not a luxury—not a mere appendage of ornament. All tastes may be indulged in this sale. All purses can be satisfied. All feet fitted. Man, woman or child—shoes for all here at prices that will not obtain WHEN THIS SALE CLOSES.

The close of the sale will automatically put into force the pre-sale prices. So buy now—buy for the future if necessary, but don't let this golden opportunity to save on footwear of quality go by default.
