BOOTH FORCES TO CONSOLIDATE?

York Report on Arrival of Salvation Army Leader

GENERAL IS WELCOMED

Members to Meet After Seventeen Years—Said Matter of Joining Army and Volunteers Will Depend Much on Ballington

(Canadian Press)

York, Nov. 20.—General Bram-Brogie, leader of the Salvation Army, arrived here last night from Chicago, accompanied by his wife, Mrs. Brogie, his private secretary, Colonel John H. Kitching, and Commissioner Thomas Holton, in charge of the department of the west. Several thousand persons, a majority men, met at the Grand Central station to greet the general. The general and his wife were met at the station by a large number of persons, including members of the Salvation Army, and a large number of the general public. Heroic P. E. I. Mother

Lowers Herself Into Well and Rescues Her Little Child

(Special to Times) Charlottetown, P. E. I., Nov. 20.—Yesterday the three year old child of W. A. MacDonald, of Grand Tracadie, fell down a forty foot well. The mother, locating the child by its cries, lowered herself down by the well rope and rescued the little one. Both were drawn safely to the surface by Mr. MacDonald. The water was eight feet deep.

MR. MCNICOLL AND MAYOR WERE IN CONFERENCE TODAY

OVER LOCAL HARBOR MATTERS

Why C. P. R. General Manager Opposes Extending Wharves Into Harbor or Using Part of the Neutral Strip—Company's Plans Ready

The attitude of the C. P. R. towards the proposal to make the next government berth at West St. John's harbor long and their reasons for opposing the change in the plans were explained today in a conference with Mr. McNicoll, general manager of the road, who had a long conference with His Worship this morning. In addition to this phase of the subject other matters relating to harbor development were discussed. Regarding the extension of the proposed wharves Mr. McNicoll said that he was opposed to the change because it was impossible to extend the docks further into the harbor and it would be necessary to encroach upon the 400 feet neutral strip which has been preserved to give other roads access to the government wharves. Mr. McNicoll regarded this provision as a wise one but he also emphasized the necessity of preserving the strip intact in order to provide room for access to the wharves. The C. P. R. has already completed plans for the railway facilities required in connection with the docks and Mr. McNicoll said that if the plans were carried further he would not leave enough room to curve the rails from the direct line to reach the wharves. In order that there might be no doubt on this matter Mr. McNicoll promised to forward to the mayor these plans for the terminal facilities at this place. (Continued on page 7, fifth column)

ANOTHER IRISH ARMY

This One to Uphold Authority of The Government

NATIONAL VOLUNTEER FORCE

Start Recruiting Among Dublin Strikers—Leaders Plan on Same Lines as Captain's Force in Ulster

(Canadian Press)

Dublin, Nov. 20.—A movement has been started to organize an Irish National volunteer force to uphold the authority of the government in Ireland, on the same lines as the Ulster force which Sir Edward Carson is organizing. The two leaders in the movement are Sir Roger Casement, who is well known for his investigation into the Putnam atrocity, and Captain White, son of the late Field Marshal Sir George White. Captain White, who went through the South African war with distinction, has resigned his commission in the British army to organize this National force. He intends to start by recruiting men now on strike here.

START A PIGGERY

Manawagowan Farm Rented And 50 or 60 Animals Now There

A new business which promises good results has been established on the Manawagowan road by Harold Charles, son of the late Mr. Charles. He has leased the R. D. Hamilton farm, now the property of Harold Charles, and has established on it a modern piggery. The farm contains about twenty-five acres with farm houses, barns, etc. Buildings have been erected for the accommodation of the live stock, and already fifty or sixty animals have been placed on the farm. The land which is not required for the piggery will be used for growing crops. The increasing demand for pork in this province and the opportunities in the export trade make the venture a profitable one and it is the intention of the promoters to expand the business as the trade grows.

NOT MURKY BUT DRUNK

Trouble on British Steamer Was The Result

San Francisco, Nov. 20.—Officers of the British steamer Santa Rosalia, which cleared for England on Tuesday afternoon, had a very rough voyage and returned to port yesterday afternoon. The crew of forty-one were locked up and guarded by armed men from the United States revenue cutters, who were sent to sail again as soon as members of the crew sobered sufficiently. When the captain was asked why he believed that a mutiny was brooding among his crew, he answered that the men became unmanageable on account of having partaken of a large quantity of liquor which was served on board ship while in port here. It was said today the affair would not be repeated, but was the result of the consul owing to the desire of the Santa Rosalia's master to get under way for the United Kingdom.

LOOKS LIKE HOCKEY FOR ST. JOHN THIS WINTER

It is understood that negotiations are under way for the re-organization of the Provincial Amateur Hockey Association which was in active existence among the principal hockey centres of the province a few years ago. Several of those interested in hockey in this city have not yet received an reply to their proposals. The league was broken up last year as St. John did not have any rink, but this will not be the case this winter. NEW BRUNSWICK "ROAD DAY"

There is a Prospect For Such an Even in the Spring

Plans are being discussed for a provincial "road day" for New Brunswick next spring. The idea was suggested by the success which attended the experiment in some of the western states this year when almost every able bodied man in the state, from the governor down, turned out and gave one day's work to improve the roads. The work was undertaken in a holiday spirit, but the results accomplished showed that there was little of a holiday about it for those engaged. The New Brunswick Automobile Association and the Good Roads Association are interested in the project and it is believed that it would be possible to make the plan a success in this province. In addition to the actual work accomplished the movement would be of value on account of the publicity it would give to the good roads movement here and would help to attract tourists to New Brunswick.

THE FIRST FREIGHT

The first carload of freight over the Valley Railway between Fredericton and Upper Gasquet was a carload of oats from Sackville, N. B., which was shipped on the 19th inst. by the Valley Railway. The oats were bought from Rainsford Baker, who has a large farm near Sackville.

CONGRATULATIONS

DIR WILFRID LAURIE

Ottawa, Ont., Nov. 20.—Seventy-two years old today, Sir Wilfrid Laurier walked down to his office this morning with a spring in his step which gave away the fact of his birthday. The world and the empire are calling attention to the many years in which Sir Wilfrid's name stands out as a shining figure in the history of the Dominion. Early in the morning the messengers began to arrive with yellow envelopes containing wire-borne messages of congratulation. Among those who today remembered Sir Wilfrid and his birthday were His Majesty King George, His Royal Highness the Duke of Connaught, Lord Strathcona, Lord Dufferin, Lord Grey, Lord Law, Ex-Premier Fisher of Australia, the premiers of South Africa, Australia and New Zealand and many other distinguished men.

CHAMPLAIN IS TO BE TAKEN TO METEGHAN

River Steamer to be Repaired and Spend Winter in Nova Scotia

The steamer Champlain will leave for Meteghan, N. S., next week to undergo repairs to her hull and will probably be there all winter. Her last trip for the season up the Bellefleur will be made on Saturday, and she will return early on Sunday morning. She will be taken to Meteghan by Captain Watson, who is expected as well as a river captain. It is the intention of the owners to repair the steamer and give her a new boiler, besides making other repairs. Owing to the fact that this steamer will probably be in the water for some time, the owners have decided to have her freight and passengers very heavy, both going and coming. This morning she was more than ever late in leaving her wharf at Indiantown, owing to the rush of freight brought down at the last minute.

NEW CATHOLIC CHURCH FOR MONCTON NEEDED, SAYS BISHOP LEBLANC

St. Bernard's Too Small For Growing Congregation in The Railway Town

Moncton, Nov. 20.—His Lordship Bishop LeBlanc spent a busy day in Moncton and Lewisville yesterday morning. He was accompanied by the Rev. Louis LeBlanc and in the evening there were receptions in St. Bernard's and St. Louis congregations. He paid an official visit to St. Bernard's and St. Louis congregations. He inspected the buildings and property. Replying to addresses at the reception in the Knights of Columbus hall last evening, His Lordship spoke of the growth of the Catholic church in the province and the situation with today. He said, "Now they want a new church in the city and the old one was too small for the very large congregation and he only hoped it would be reserved for the English in agricultural matters German thoroughness is not appreciated. While the Germans only seek to make a home on the land other nationalities exploit it. Moreover, the German emigrant must compete with the Japanese and Chinese." With these complaints this German scribbler concludes his jeremiad, predicting the collapse of whatever prosperity now exists in the Dominion.

LAST WORDS OF GROUCH

German Writer in Home Paper Closes With Blue Rink Prophecy For Canada

(Special to Times) London, Nov. 20.—Germans are not mending much their attitude in Canadian public life. Germanism is dying out even in wholly German settlements throughout the country, and in the towns German names and character are anglicized. No German is spoken. These are parting shots of the final article in the Lokaleszeitung of Berlin dealing with Canadian immigration. "Canada," says the writer, "stretches wide its arms to all nations, but its hand is reserved for the English. In agricultural matters German thoroughness is not appreciated. While the Germans only seek to make a home on the land other nationalities exploit it. Moreover, the German emigrant must compete with the Japanese and Chinese." With these complaints this German scribbler concludes his jeremiad, predicting the collapse of whatever prosperity now exists in the Dominion.

FISH CATCH GREATER

Report for Six Months—Atlantic Lobster Pack Lighter But More Valuable

(Special to Times) Ottawa, Nov. 20.—The marine department reports an increase of about thirty per cent in the total value of the sea fish caught by Canadian fishermen during the last summer and autumn. For the first half of the fiscal year, April to September inclusive, the estimated value of the total catch of sea fish is nearly \$12,000,000 as compared with \$11,500,000 for the corresponding six months of last year. The lobster pack on the Atlantic coast for the corresponding six months of last year shows an increase.

Another Cut in Power Rates in Ontario

LEAN MONTHS GOOD ONES

Hydro-Electric Commission Shows Profit and Recommends to Municipalities a Further Cut in Rates to Consumers

(Canadian Press) Toronto, Nov. 20.—While coal for the people of Ontario is to be cheaper still, a remarkable record in economical efficiency has been established by the municipalities operating under the administration of the provincial hydro-electric commission during the last nine months. The report of the chief engineer, P. A. Galt, submitted to the commission yesterday, demonstrates a most prosperous condition in every part of the province. During the nine months ended September 30, the lean months of electrical use, each municipality in the system has met the full obligation for operation and maintenance charges, including interest and sinking fund and has a substantial balance available for depreciation and test account. Moreover every municipal system has a surplus, in some cases more than fifty per cent on the total cost of maintenance and operation. As a result of this condition the commission recommends to the municipalities a further reduction in rates to consumers all down the line. The surplus money on the last nine months will be used for depreciation, reserve fund and extension of system accounts.

HALF MILLION IN ISLAND PURCHASE

Fox Ranch, Farm and Oyster Shore Front Bought

BOSTON MONEY IN IT

James C. Tuplin is Seller—Eleven Pairs of Black Foxes Included—Contract Holders in Investment Company Hold Meeting

(Special to Times) Charlottetown, P. E. I., Nov. 20.—The second largest deal in the fox business on the island has just been put through. James C. Tuplin of Black Bank in the eastern part of the province has disposed of his farm property including a fox ranch also of large area of shore front for oyster cultivation to a syndicate composed mainly of Boston capitalists and a few island moneyed men. The ranch contains eleven pairs of black foxes of the highest quality. The deal involves an expenditure of half a million dollars. A meeting of contract holders of the Canadian Home Investment Co. recently acquired by the Alpha Mortgage & Investment Corporation was held here last night. They appointed a committee to ask the attorney-general to communicate with the British Columbia government and get all information respecting the standing of a new company. The meeting was held to discuss the situation after the attorney-general this week had instructed the local officers not to receive further payments until charges made by Toronto Saturday Night could be explained. The local agent charged headquarters of the company in Vancouver teaching a reply that contract holders were fully protected by the new company and that the old company's business was in good shape. There are 600 contract holders on the island.

IMPORTANT TO SCHOOL TEACHERS IN ENGLAND

New Register to Make Profession Real With Power to Exclude These Not Professionals

(Special to Times) London, Nov. 20.—An important step in the annals of the scholastic profession will be taken today when the teachers' registration council meets at Bloomsbury to approve the conditions of admission to the new register of teachers, the compilation of which forms the first step in making teaching a real profession with power to exclude those not professional. The register will include primary and secondary grades. It consists of forty-five members, representing specialist teachers and was formed by order-in-council in February 1910. It will tend to co-ordinate the various phases of education as well as giving the teachers a better status.

HARVARD FAVORITE BUT YALE MAY SPRING SURPRISE

New York, Nov. 20.—Although some of the New York football critics declare that Yale and Harvard have about even chances of winning Saturday's game, betting odds in the financial district and in collegiate circles here, are reported to be shifting even more heavily in favor of Harvard. The prevailing odds today were said to be 10 to 7 with Yale backers seeking 10 to 6. Among the critics who call the chance as even thing it is said that while Harvard has shown itself consistently in form all season, the system of play has become such a thing of habit among the crimson men that they might easily be surprised by Yale formations, many of which, it is said, have recently been dug out of the old style of play, and prove effective, as old plays have done against the new in several games this season.

ONE PASSENGER HURT AND LIKELY TO DIE

Washington, Nov. 20.—One passenger was probably fatally hurt, and five others slightly injured in a head-on collision early today, at Barton, S. C., on the Southern Railway. The passenger who is not expected to live is T. A. Lloyd. His home address is not known here. The engines and express cars of both trains were derailed.

HUNDRED AND SIX Y. M. C. A. BRANCHES NOW IN CANADA WITH 40,000 MEMBERS

Montreal, Nov. 20.—Thirty two members of the national council of the Y. M. C. A. of Canada representing the three divisions of the Dominion, who are attending the second annual meeting of the council in this city, were entertained at dinner by the local members of the council last night. The representatives were business men from Sydney in the east to Calgary in the west. G. W. Bishop, general secretary said that there were 106 branches of the Y. M. C. A. in Canada, with 40,000 members, and that the Association owns sixty-four buildings valued at \$5,735,000 in Canada and employs 250 secretaries. It is practically settled that either Toronto or Montreal will be selected for the next meeting.

Dollars With Sand on Them!

Don't we often wish they made them that way when we see how they slip through our fingers? It takes shrewd buying to make an income show a surplus in these days of our old friend, the High Cost of Living. Shrewd buying means purchasing the right things at the right time and at the right price. That's where advertising in live daily newspapers like The Telegram and Times serves you well. It keeps you posted on "what's what" and "when's when." Advertising rightly used helps you to put sand on your dollars so you can hold on to them better.

MARYVILLE FARMER FOUND DEAD IN YARD

Id Watch and Purse to Draw Donohoe—Orators Fail to Draw Audience

(Special to Times) Moncton, N. S., Nov. 20.—Samuel Donohoe, a prominent farmer of Marysville, was found dead in his yard yesterday. He was about 70 years of age. The cause of his death is not known. He was survived by his wife, four daughters, three sons, five grandsons and three granddaughters. The body of the late Canon Medley was a member of the general club of the Forest City Y. M. C. A. and was found dead in his yard after a hunting trip to New Brunswick. The coroner's jury returned a verdict of death by natural causes. BELIEVE TWO CURES ALREADY IN THE JORDAN SANITARIUM; PREMIER HERE FOR MEETING

It is our ambition to have, not necessarily the cheapest, but one of the best sanitariums for tubercular patients on the continent. Premier Fleming is here this morning while discussing the work of the Jordan Memorial Sanitarium at the Jordan Hotel. The equipment of the sanitarium is complete. The first night money can provide, the surroundings are ideal after a visit to the most scientific and after a visit to the institution one cannot help feeling that here, if anywhere, those afflicted with this disease may win back their health and strength and return to their homes as sound as they ever were. The sanitarium now includes the large main building and the three pavilions accommodate thirty patients. Each Province Practically Will Have Parcel Post System After January 1

(Special to Times) Montreal, Nov. 20.—The new parcel post to be inaugurated at New Year's will be on a system peculiar to Canada. On account of distance, uniformity in price is impossible, so, broadly speaking, each province will have its own parcel post system, handled by the central post office, and charging a uniform rate for parcels carried within the limits of the province. In this sense, each province will be a separate one, but instead of the limit being a geometrical it will be a geographical one. The rates from one province to the others will be on a graduated scale. Beside the rate applying to the province, it is likely that there will be a twenty or thirty mile circle struck around each provincial centre within which a cheaper rate will be in force. Whether or not there will be a still cheaper rate for parcels carried by the post office within city limits is an open question. It is likely that the city rate will be the same as that within the twenty or thirty mile zone.

FUTURE AS TO MEXICO STILL SPECULATION

(Canadian Press) Washington, Nov. 20.—The eyes of official Washington were turned today on the Mexican congress and Huerta's message on his recent assumption of power. The possibility that the new congress might act on concessions discredited in advance by the United States, was thought in many quarters to be a pivot on which the next move by the United States government might turn. Those who have been of the opinion that Huerta would retire after his acts had been ratified by the congress, still held confidence in their theory. So far, however, the United States government means to continue its plan of financial blockade with diplomatic pressure from without. (Continued on page 7, sixth column)

DIAMONDS AND SILVER FOR THE WHITE HOUSE BRIDE

Washington, Nov. 20.—Miss Jessie Wilson, the White House bride-elect, received a \$2,000 present from the group of representatives today. A sparkling diamond pendant resting in a satin lined jewel box, with a tiny key hanging from a heart-shaped lock, was taken to the White House by a member of a Washington jewelry firm which has been preparing the gift. A sentiment inscribed upon parchment paper accompanied the gift. The gift of women voters of Northern California to Miss Jessie Wilson, daughter of the president, on the occasion of her wedding next Tuesday, was sent to the bride-to-be by subscription. It is of old colonial design. The service was purchased by subscription. It is of old colonial design.

FRENCH WEDDING GUESTS POISONED BY NEW BACILLUS

Fifty Were Affected and Eight Died—Scientist Finds Another Menace to Human Life

Nantes, France, Nov. 19.—The recent poisoning of fifty of the guests at a wedding party at Chole, a town in the department of Maine Et Loire, was due to a bacillus, heretofore unknown to science, which Dr. Rappin, director of the Pasteur Institute at Nantes, announces he has succeeded in isolating.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such an injury is insured against blood poisoning. Not one species of microbe has been found that Zam-Buk does not kill!

Then again, as soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed.

Only the other day Mr. Marsh, of 101 Dehorim avenue, Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with it that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him.

REV. J. F. LLOYD FAREWELLS

(Charlottetown Patriot) The message of the Rev. J. F. Lloyd, pastor of the Central Christian church, to our people in his farewell sermon Sunday evening, was to uphold a primitive Christianity, his subject being "Christianity and its Results." Mr. Lloyd has been in our city for some five years, and during that period he has preached some stirring and powerful sermons from the pulpit of the Christian Church.

DEADLOCK AT PORTLAND

Portland, Me., Nov. 19.—The first active step to investigate the difference between the Portland Longshoremen and the steamship "Buz," which apparently have resulted in a deadlock, was taken today by the board of trade. Arrangements were made for a conference between the representatives of the steamship lines and the board of trade managers to be held tomorrow afternoon.

Montreal Star Wins. Montreal, Nov. 19.—Mr. Justice Charbonneau today quashed the injunction in the Toronto World vs. Montreal Star case. The effect of the judgment means that Chas. F. Crandall, managing editor of the Star, in his capacity as proprietor of the Dominion News Bureau, is permitted to distribute the service secured by his contract with the International News Service of New York, but the Toronto World and Montreal Herald may press their claims in an ordinary action for damages.

Often Ill Health

Can be traced directly to wrong food and drink. This cause, more than any other, creates personal discomfort—often disease. Your doctor can confirm that tea and coffee contain a drug, caffeine, which is the common cause of headache, biliousness, indigestion, nervousness, heart trouble, and a long train of aches and ills that bring misery to many who might otherwise be well and happy.

Anyone who values health enough to make an easy test can be free from tea and coffee ills by changing to

Escaped From County Jail

A mysterious escape from the county jail was effected on Sunday night or early Monday morning. During this time Hartley Howe, serving a sentence of two months for fighting and using profane language, managed to get out and away. It is thought that he may have escaped through the window of the washroom which is not barred. Howe escaped from the jail yard last July by climbing the fence with the aid of a ladder which he had been using while doing some painting. The previous escape from the jail was made thirty-five years ago when two prisoners took French leave.

Daily Hints For the Cook

Cocoanut Biscuits. Beat 2 eggs with 1/2 pound of confectioner's sugar, then stir in 1/2 pound of ground cocoanut. Mix together well, and drop from teaspoon on buttered pan. Bake ten minutes in a moderate oven. Currant Loaf. Two cups bread dough, 1 egg, 1/2 cup sugar, pinch of salt, 2 tablespoons preferred melted shortening. 1 teaspoon flavoring or spice, 1 cup soured currants, 1 rounding teaspoon baking powder. Beat the dough, egg, sugar, salt and shortening together in bread pan until you cannot see streaks of dough, with wooden spoon, then add currants and extract and sprinkle in baking powder. Do not forget that. Stir or beat well. Have two pans the same size, put the mixture in one and place it directly in the oven to bake. When commencing

**Brass Beds!**

Are you one of those who have always looked upon a first-class brass bed as a luxury, something obtainable only by the wealthy? If so, your views will surely be altered when you see the new lot which we have just opened up, and which includes beds at prices to suit every purse. The designs are all new, shown in St. John for the first time, and, furthermore, will not be shown at any other store.

By buying largely we get control of these designs, and, at the same time, are able to offer them at much lower prices than we have ever seen before for articles of equal merit. And, best of all, they are absolutely guaranteed, both as regards perfection of construction and durability of finish, so that you take no risk in making selection from our immense stock.

**LADY SCOTT REFUSES KING'S OFFER OF HOME**

Explorer's Widow Protests Memorial Fund Should Place Her Above Benevolence

London, Nov. 20.—Lady Scott, the widow of the Antarctic explorer, was offered recently a suite of rooms in the Hampton Court Palace by King George. These suites are given for life to the widows of eminent men who are unable to maintain their position with their private means.

To the surprise of the king, Lady Scott declined the offer on the ground that she could not pursue her art as a sculptress at Hampton Court. Her refusal is understood to be really a protest against the scale on which the fund

raised in memory of her husband and his fellow-heroes has been distributed as between them and the permanent memorial. She thinks the fund should have been divided as to place her above the necessity of being an object of royal benevolence.

**BLACK AUSTRIAN VELOUR HATS**

European Fashion's Choice. Styles do not develop rapidly, but in millinery, they are gradually but surely developing towards velours—particularly towards black velours.

When last in the European markets we felt this tendency and prepared accordingly. Our efforts result in the assembling of a complete stock of real Austrian Velours. They are of rich quality, with a beautiful silky finish. Only a very little trimming is needed to complete a very dressy and becoming hat. The shapes range from... \$5.95 to \$9.50

The above describes our Austrian Velour Hats but on account of buying 2,000 dozen hats, our prices, instead of being \$5.95 to \$9.50 each, are \$2.00 for colors and \$3.00 for black.

If you think you do not require one now at these prices, better buy it for next season. **Marrillinery Co.**

**RECENT STRIKE OF OIL AND GAS IN WESTERN ALBERTA**

The Geological Survey has received a sample of the oil recently struck in No. 1 well, of the Calgary Petroleum Products Company, situated at Black Diamond, sixteen miles west of Okotoks, Alta. This oil was struck at a depth of about 1,200 feet. It is what is technically known as a "white oil," being transparent and of an amber color. It is phenomenally light for a natural mineral oil having a specific gravity of about 62 Baume. Evidently it consists largely of gasoline. In fact it has been successfully used in its raw state in place of gasoline in an automobile.

**RECENT STRIKE OF OIL AND GAS IN WESTERN ALBERTA**

The amount of oil present has not yet been determined, so that the commercial value of the strike is still unproved. If the amount of gas encountered in the higher level is any criterion, this may prove to be the exceptional case and a considerable quantity of oil, for a "white oil" be obtained.

**RECENT STRIKE OF OIL AND GAS IN WESTERN ALBERTA**

Whether oil is present in large quantities or not, the strike is of importance as the "white oils" are usually found only in the vicinity of large bodies of the ordinary petroleum. Thus it is an excellent indicator.

**RECENT STRIKE OF OIL AND GAS IN WESTERN ALBERTA**

D. B. Dowling, of the Geological Survey, who visited the well a little before the strike was made, reports that the well is located on an anticline, in shales of the Pierre formation, and that the oil was encountered in underlying Belly River beds. On either side of the anticline overlying Edmonton beds are exposed. Going eastward, therefore, the covering will rapidly thicken. Westward toward Moose mountain, according to the work of D. C. Cairnes of the survey, the formation are folded into a number of anticlines bringing lower formations to the surface, and in Moose mountain faults are encountered. Between this faulted ground and the well are several anticlines where prospecting for oil might be undertaken. These anticlines probably run in the direction of the main structural lines, that is, roughly parallel to the mountain ranges.

**RECENT STRIKE OF OIL AND GAS IN WESTERN ALBERTA**

Dowling is now in the field, having been commissioned by the director to examine the well and make a study of the geology of the district.

The death of Thomas McCoy, aged 69 years, of Clark's Corner, Queens county, occurred Friday morning, 14th inst., at his home. He had suffered severely for a long time and had been confined to his bed for about a year. Interment was in the family plot at Lakeville Corner. Services were conducted at the residence and cemetery by Rev. Mr. Holmes, of the Sheffield M. E. circuit, of which church Mr. McCoy was an old member. Mr. McCoy was born and spent his life in the vicinity of Maquapit Lake, of which district his father was one of the original settlers. For many years he held the office of Justice of the peace at Clark's Corner and was respected and esteemed by all who knew him. He is survived by five sons, Seymour, William, Lee and Raymond, of Clark's Corner, and Everett, of St. John; and two daughters, Mrs. Alice Barker and Mrs. Arthur Denton, of Clark's Corner; his wife, and three sons and two daughters died before him.

The magistrate said that this would have to be entered as a separate charge against Smith.

**DON'T MISS THE MARY FEATURE TONIGHT**

With the weather clear again, another big crowd is sure to attend the Imperial tonight when the second chapter of the "Mary" sequel series will be presented for the last time. The feature is perhaps the most interesting of all the Mary pictures yet to hand; indeed each succeeding chapter seems to contain more gripping interest, and it is promised that the concluding instalment of this wonderful photo-serial will work interested watchers into a high pitch of excitement. Be early this evening in order to secure a good seat. Box chairs can be purchased at nearly any hour for parties of from two to twenty. The "Mary" picture will be shown at 7.15, 8.15, and 9.15.

When Tom Carrigan was in St. John just a few years ago, as leading man with the W. S. Harkins players, he was very popular in the shows presented, and his name is still fondly recalled. Well, he is now back again in St. John but not in the same form. That is to say, he is here in the "movies" He played the leading role of the detective in "The Jeweled Slippers," a fine two part Selig production at the Gem Theatre last night and showed that he is as much at home in the movies as on the regular stage. He was supported by a strong cast, and they gave a most capable rendition of a splendid story, a drama of aristocratic smuggling, with many exciting scenes. It will be shown again this evening. There were also two very funny Lubin comedies, singing by E. A. Altred, and operatic selections by the Gem orchestra led by H. W. Burnham.

The death of Miss Annie B. Evans formerly of this city, occurred in West-cely (R. I.), on the 9th inst., after a short illness. Miss Evans is survived by her father, Richard Evans, 85 St. Andrew's street, this city, her mother, six sisters, Mrs. J. A. Baxter, Mrs. G. N. Lawson, Mrs. A. O. Patrique, Mrs. D. M. Lawson, Miss Ruby and Miss Grace Evans, and two brothers, Roy Evans and Frank Evans, all of this city.

**RECENT DEATHS**

The death of Sarah LeClair, wife of the late Tranquil LeClair, occurred yesterday at the home of her daughter, Mrs. Paul White, 186 Rockland Road, at the age of sixty-three years. She had been ill for only two weeks with pneumonia. She is survived by four sons—John and Timothy of New York, and James and Peter of this city, and two daughters, Annie of Waterville (Me.), and Mrs. Paul White, of Rockland Road.

**RECENT DEATHS**

Mr. and Mrs. Frank Leslie, of No. 6 Union Alley, were called on yesterday to mourn the loss of their boy, Joseph, a verdict of coroner's death.

THE LESSON OF HISTORY

The New York Evening Post points out that the Conservatives who are now predicting disaster to the Empire, as a result of Home Rule for Ireland, could find in quite recent history cause for taking a much more cheerful view of the situation. It is not so very long since the English Conservatives were bitterly opposing the bestowal of self-government on the Transvaal and Orange Free State, and predicting dreadful results if this policy were carried out.

"History," says the New York Evening Post, "can show few transitions so rapid as this." And it adds that the same Conservatives who denounced Sir Henry Campbell-Bannerman are now denouncing Premier Asquith and Home Rule for Ireland. In the minds of reasonable people, who are not affected by religious prejudice, there is not a shadow of doubt but that Ireland under Home Rule will very quickly settle in an amicable way all its own difficulties and become one of the most loyal and useful of the most prosperous and contented portions of the United Kingdom.

THE PUBLIC HEALTH

The public health law of the state of New York has been amended by the introduction of a clause permitting the health officers of cities, towns and villages to employ public health nurses. Under this law about one hundred nurses have already been engaged, and the public health council urges that the work be rapidly and widely extended.

"Public health nurses are in no sense of the word charity workers. They are the advance agents of lowered death rate and higher race efficiency." District nursing has been found of great value in St. John and other cities, wherever it has been established, and if a larger number of nurses were employed and made available for service in the more congested portions of this city, the public health would be improved to that extent. Occasional visits from nurses, with their knowledge of hygiene, proper food and sanitation, would unquestionably be of great benefit in the homes of people whose income is so small that they dread the thought of employing a doctor or a nurse, or who perhaps are ignorant or altogether indifferent in relation to matters affecting the public health.

EARL GREY ON CO-OPERATION

The Canadian Co-operator for September deals with the International Co-operative Congress which was held in Glasgow the last week in August. The inaugural address of the honorary president, Earl Grey, formerly Governor-General of Canada, is printed as part of the record. It is a significant fact that there are one hundred and thirty thousand co-operative societies, in twenty-four nations, and that they represent over twenty million members. There were more than six hundred delegates at the congress, representing societies in Britain, France, Belgium, Switzerland, Austria, Russia, Holland, Scandinavia, Spain, Italy, the Balkan States, India, Japan, and the United States.

"Co-operation means the elimination of every unnecessary middleman. Every middleman not required by a wise and practicable system of co-operative organization cannot be regarded in any other light than that of a parasite. The vital interests of society call for his removal, and co-operation shows how he can be removed. I am only speaking of the unnecessary or superfluous middleman. The principle of co-operation re-

quires that the services of every necessary middleman shall be adequately and honorably remunerated, but it also requires that every unnecessary toll taken from an article on its way from the producer to the consumer shall be removed. The recent State Commission of New York has reported that the American farmer only receives 40 per cent. of the retail price of his produce, and that he ought to receive 70 per cent."

His Lordship expressed his belief that of all the international organizations, of which so many have sprung up during the last twenty years, the International Co-operative Alliance has the best organization and the most efficient working body. Touching the success of the movement, he said:—"The application of the co-operative principle to our industrial life has proved in Great Britain, the United States, France, Germany, Denmark, and Ireland, that by the substitution of organized distribution for unorganized distribution, by the substitution of co-operative buying for individual buying, by co-operative transportation and marketing for individual selling, and by co-operative use of power for the individual use of expensive machinery, the wants of both producer and consumer can be met more effectively and at less cost, thus securing to the consumer a reduction in the cost of living, and a greater command of not only the necessities but of the comforts and conveniences of life, a most material consideration in this age of rising prices, and to the producer a substantial increase in the amount of net profits available for distribution, or, in other words, an increase of that fund from which alone can be drawn those higher wages which we all desire to secure for the underpaid workers of the civilized world."

Up to last night no application had been made for berths for the Royal steamships at St. John, and from the reports there seems also a doubt whether the first sailing of that line, or its substitute, will be from St. John or Halifax. Tory partisans in this province who in 1911 were horrified at the mere suggestion of selling produce in the American market, and now boasting of the enormous sums of thousands of dollars worth of potatoes, hay and cattle that are being marketed at a good figure south of the boundary line.

The Montreal Telegraph says:—"When Premier Borden, wielded the spade on the site of the new dry dock at Lewis the other day he announced quite seriously 'I now turn the first sod for the most important and greatest dry dock in the world.' On Friday last Hon. Robert Rogers announced the government's intention to build the largest dry dock in the British Empire at Halifax. Was Mr. Rogers quite as serious as his chief? And what about the dry dock at St. John?"

Mr. D. McNeill is reported to have said that to make the new berths at West St. John 1,000 feet in length would make it difficult for vessels to move in the harbor outside. This could only happen if the berths were extended 200 feet farther into the harbor, which is not proposed. To extend them 200 feet farther in shore would certainly not make the harbor any narrower. The question to be decided is whether any of the 400 foot strip can be spared, and if so, how much.

Quite unobtrusively a new steamship service is being established between St. John and New York. The prospects for such a service are much improved since the reduction in the American tariff occurred, and it may be hoped they will soon be further improved by reductions in the tariff of Canada. We are also to have this week the beginning of an improved steamship service between Canada and the West Indies. The vessels of the Royal Mail Steam Packet Company are welcome in St. John, and while St. John does not expect to realize great benefits from a service that is not direct, it is certain that an improvement over former conditions will result from placing the excellent steamers of the R. M. S. P. line upon the route.

EX-GOVERNOR WHO WILL WORK FOR TEMPERANCE

EX-GOV. PATTERSON

Nashville, Tenn., Nov. 20.—Southern people are deeply interested in a campaign against the use of alcoholic drinks begun by ex-Governor Patterson. At a recent temperance convention in Columbus called by the anti-saloon league Mr. Patterson delivered a notable address favoring prohibition, in which he said that he would devote a large portion of his time in future to working for the cause.

SAYS HE IS LOBENGULA. Contention of Drink Mixer in England. Believed by Vicar, But Discredited in Africa.

London, Nov. 20.—The contention of a colored man living at Salford, that he is Prince Lobengula, eldest son of the late Matabele king, has been discredited by a letter from the secretary of the British South Africa Company. The case was brought to light by Vicar Rees of Pendleton, who found the man in poverty, dying of consumption. He had been working as a mixer. The vicar, who still believes the tale, received a promise of help for his charge from Miss Colson, champion of the Zulus in Natal.

ONE MORE SHOT WHILE HUNTING

Houlton, Nov. 20.—A hunting accident added the long list which will make the hunting season of 1913 in eastern Maine go down into history as a particularly bloody one. A. Houlton, through the accidental discharge of his shot gun, a portion of the shoulder of Amos Howard, aged twenty, was torn away by a charge of buckshot. His condition is somewhat serious. The lad started out with his shot gun after partridges. Just before he reached the edge of the woods a short distance from his home, he stopped and leaned upon his gun. The weapon was discharged and its contents tore a gaping hole in his shoulder, carrying away a portion of the shoulder blade. Amos' brother heard the shot and looked toward the woods just in time to see the boy fall.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Back-achy or Have Bladder Trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jai Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jai Salts is inexpensive; harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

BOOZE IN CHARLOTTETOWN

(Parist, Monday) There was something doing at the police court this morning when eight men a number of them mere youths, appeared charged with being drunk. The aggregate fines of the eight amounted to fifty-five dollars, or two hundred days in Queen's county jail. Eight drunks between Saturday night and Sunday night, arrested in Charlottetown, recalls memories of the good (?) old days before prohibition was introduced here. It would be interesting to know how many more were drunk, who were not so carefully taken care of. How edifying it is to see the guardians of the law parading through the streets escorting intoxicated men to the police station.

HAS NEEDLE IN BODY.

St. Andrews' Beacon.—While a little child of Mr. and Mrs. Arthur P. Senna was being undressed by her aunt on Saturday evening a needle was stuck in the woman's dress, penetrated the child's abdomen, and broke in two. Dr. O'Neill was summoned and with Doctor Wade tried to locate the needle point, but it had worked out of sight and could not be found. The search had finally to be abandoned.

THE BORDER SEAPORTS (St. Andrew's Beacon)

Two Doctors Said He Had Consumption DR. WOOD'S NORWAY PINE SYRUP CURED HIM.

THE BORDER SEAPORTS The people of St. Stephen, with that spirit of harmony and determination which has characterized all their public acts, are moving in the direction of a deep water port. They deserve to succeed. The point selected as a terminus is Oak Point, in the old Todd farm. Though several miles from the business centre of the town, it is not too far to permit of the establishment of ample terminals and of the development which would certainly follow the inauguration of such a forward enterprise.

DR. WOOD'S NORWAY PINE SYRUP CURED HIM. Mrs. John Eliff, St. John's West End, writes: "My little boy was very bad with whooping cough and severe cold. I went to two doctors with him, and they said he had Consumption. I could get no relief for him, he would cough all night long, with a dry hacking cough. I saw the first bottle of Dr. Wood's Norway Pine Syrup, and was surprised to see the first bottle did him good. I have had five bottles, and they cured him. He rests well at night now, and is well and hearty. If he gets a cold we always give him Pine Syrup and he is soon better. I did not think I could raise him, but I am thankful to say Dr. Wood's Norway Pine Syrup saved him from being a consumptive."

WHOLESALE SLANDERING OF DOMINION

Austrian and German Campaign Spreads and Will Affect Immigration—Some Wild Stories (Montreal Star Cable)

London, Nov. 19.—The Austrian and German campaign against Canada has spread all over northern Europe, and the press crusade has become so serious that immigration agents have asked the Canadian government to take steps to counteract the ill-effects on the dominion.

Dr. Heindl's latest Berlin letter deals with Canadian cities. He says: "The Eastern European ghettoes send their poorest, the 'misery people,' from the slums of the Thames are transported to Canada, to work to struggle for existence in the open country."

Dr. Heindl then describes the flight from the land in Canada. He declares that unsuccessful farmers are driven to the cities, and gives figures showing a decrease in the rural population of New Brunswick, Nova Scotia, Ontario, Prince Edward Island, and the Yukon.

Those who expected to find a land of milk and honey, he continues, "find that beef, mutton, poultry, butter and eggs have to be imported from Australia."

He says dwellings in Montreal are 20 per cent. dearer than in Detroit, Buffalo, and Cleveland, and that the slums of Montreal, Toronto and Winnipeg are worse than those of London.

In my night's wanderings I found melancholy Galicians in halpkin jackets, depressed Scandinavians, white-niggers, and sloshing Orientals making a sad tower of Babel, and an international "sanitary" installation are underdeveloped and in consequence no city in America contains so many cases of typhoid as Montreal.

MR. MCGILL AND MAYOR WERE IN CONFERENCE TODAY (Continued from page 1)

Regarding the need for 1,000 foot wharves the general manager said that the pier now under construction at the time of the dock of that size were needed the government would be building piers further down towards the entrance to the harbor where there will be sufficient room to make them as long as desired.

Mr. McNeill also urged the necessity for pushing forward the construction of the pier now under contract, saying that unless both were completed by next winter the port would be in a very bad way.

Mr. McNeill expressed his satisfaction with the fact that the new grain elevator would be ready for the pier now under construction.

FUTURE AS TO MEXICO STILL SPECULATION

(Continued from page 1)

London, Nov. 20.—The United States embassy in London, acting on the part of the United States government, called on Washington today making the American position on the Mexican situation.

The announcement of the Mexican situation was made, as his company depended upon it for their supply of coal and a large trade had been built up there since the coal pocket was built.

He seemed satisfied with the suggestion that one of the wharves to the north of Rodney wharf might be used for the purpose.

THE CHIEF JUSTICE IS CRITICIZED; STORMY TIME IN WESTERN LEGISLATURE

Regina, Sask., Nov. 20.—The opposition members in the legislature were roused to fury yesterday by an attack on the chief justice of Saskatchewan.

Mr. Cameron Lockwood, Liberal member for Gull Lake, charged Chief Justice Haultain with having violated the ethics of judicial practice by giving judgment in the Cumberland case. This case, he said, was one in which the chief justice might reasonably be presumed to have party interest, seeing that he had led the conservative forces in the general election out of which the case arose.

Repeating, Mr. Bradshaw said Lockwood had placed himself in the position of doing the dirty work for the Liberal party. In fifteen minutes he had uttered more abuse of Chief Justice Haultain than had been spoken against that gentleman during all the years of his distinguished political career.

In his speech Mr. Lockwood said he had acquainted the attorney-general with his intention to criticize the chief justice.

Hon. A. Turgeon acknowledged this, and to some extent supported the views of the member for Gull Lake. In his opinion, the minister said, the chief justice had rendered an absolutely fair and impartial decision in the Cumberland case. He was sure the judgment had been arrived at with as little bias as if the chief justice had not been connected with the Cumberland election.

Yet Chief Justice Haultain had acted unwisely in sitting on the Cumberland case.

HARD CASE IN CALAIS COURT

Calais, Nov. 20.—James Simpson was before Judge Pickard of the municipal court on Tuesday, charged with neglecting his minor child, Della, aged thirteen years, from attending school. He entered a plea of not guilty.

The case is a particularly hard one. Simpson's wife died two years ago leaving him with four children, the youngest four years. He has tried to keep his little family together, but has been unable to do so.

He said that if the authorities persist in their course he will be obliged to break up his home or else give up work himself and take care of his children.

He was fined £5 and costs, and was committed to prison for two weeks.

STILL ANOTHER

Elsworth, Nov. 20.—Earl Ralph, ten year old son of Mr. and Mrs. Ralph Burt, had a narrow escape from death when he shot himself through the side.

He went out to look at some traps accompanied by a younger brother. The boys had stopped and Earl, who had a .22 calibre rifle with him, was holding the piece with the muzzle on the ground.

The rifle was discharged and the bullet entered the boy's body at the lower ribs, coming out at the left side of the collar bone. Notwithstanding his wound, he succeeded in walking back to the house, supported by his brother.

CAN BUILD GREAT ICE BREAKER BUT NOT WAR VESSELS

Again, Borden Government inconsistency—A Place For The Niobe and Rainbow

(Ottawa Journal)

The department of marine and fisheries will call for tenders within a few days for the largest and most modern equipped ice-breaker that has ever been put in commission in this or any other country.

Works, Toronto, a fishery protective boat for Lake Manitoba at Sorel, and a larger hopper barge at Lewis.

The three mile limit, as well as ice breakers, etc., are contracted for by the marine and fisheries department. The increasing encroachments of the Japanese, Russian and American fishermen on the Canadian fishing limits on the Pacific coast has necessitated a rapid strengthening of the Canadian fishery cruiser fleet and a splendid new vessel will shortly be placed in commission.

It is reliably reported that the Niobe and the Rainbow will eventually be placed on the Pacific coast in this connection.

RES! CLEAN AND BEAUTIFY HAIR NO DANDRUFF--25 CENT DANDERINE

Washing Hair! Try This! Makes it Glossy, Soft and Abundant

Try a "Danderine Hair Cleanser" you wish to immediately double the quantity of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will cleanse the roots of dust, dirt or any excessive oil—a few minutes you will be amazed.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff, invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh vegetation is to the roots.

EMIER EMBARRASSED BY ELECTION PROMISES

Woodstock, N. B., Nov. 19.—During the last local election campaign the government candidates exhibited two sets of maps showing the location of the Valley diocesan at certain points. The people of Greenfield and Knowford were shown at the road would go that way. The people of Royallton were told it would go through their district.

"CASCARETS" IF COSTIVE, BILIOUS, HEADACHY AND UPSET--DIME A BOX

No odds how much your head aches; how miserable you are from constipation, indigestion, biliousness, a "Cascaret" to night straightens you out by morning.

Stomach, backache and all other distress; relieve your sluggish Liver and Bowels of all the sour bile, gases and clogged-up waste which is producing the misery.

HIGH OFFICIALS SHARED GRAFT OF WIRETAPPERS

New York, Nov. 19.—A former police captain and two high officials of the police department were named in a statement made in the district attorney's office today by Al Cohen, a former city detective, regarding the wire-tapping game. Cohen said he collected money for the police captain from the wire-tapping swindlers, and that the captain told him the money was "going higher up."

At the district attorney's office, it was said that Cohen had given details of the scheme by which Simon Jones, of Pittsburgh, was lured to this city and swindled out of \$20,000. Cohen said he was the man who arranged so that things would be all right "downtown."

District Attorney Whitman ranks Cohen's confession in importance with the disclosures of Patrolman Fox, who gave him the lever by which he pried open the police graft scandal first brought to public attention by the murder of Herman Rosenthal, the gambler, Divided Loot With Police.

Cohen's statement, it is said, corroborates the confessions of several principals in the wire-tapping swindle, who said they had divided their winnings with police officers to gain protection. He gave the names of the men who acted as agents for the swindlers, as he was the go-between for the police.

In October, a year ago, Cohen said, the wire-tappers planned to inveigle Simon M. Jones into their scheme. They feared police interference, however, and got Cohen to arrange for protection. The police captain, Cohen said, told him to "go ahead."

Jones came to New York and fell into the trap. The police captain got \$1,000 as his share of the proceeds, and Cohen said that he himself kept a similar amount.

Cohen proposed to repeat his story before the grand jury, and that body is expected to act in a few days.

FIRST WOMAN POLICE OFFICER WILL LECTURE IN ST. JOHN The first quarterly meeting of the Women's Council was held yesterday in the King's Daughters' Guild, and committee reports were read as follows: On Pure Milk, by Mrs. Thomas Bullock; on Citizenship, by Mrs. H. A. Powell; on Women's Suffrage, by Miss Murphy. During the meeting a resolution was read on the National Council which is being held in Toronto, and an announcement was made that a lecture would be given here by Mrs. Alice Stebbins Wells, pioneer policewoman of the United States. The president and officers of the local council will meet on Friday morning to make final arrangements for Mrs. Wells' lecture. Mrs. Powell reported that there were eighteen by-laws in St. John regarding pure milk and the speaker sketched briefly the laws in force in foreign cities. Other speakers were Miss Skinner, Miss Peters, Mrs. Fisher, Mrs. Carrie and Mrs. Christie. Mrs. Reynolds of the Regina Women's Council was present and gave a short address on the work in the West.

The new facial treatment

Try it tonight

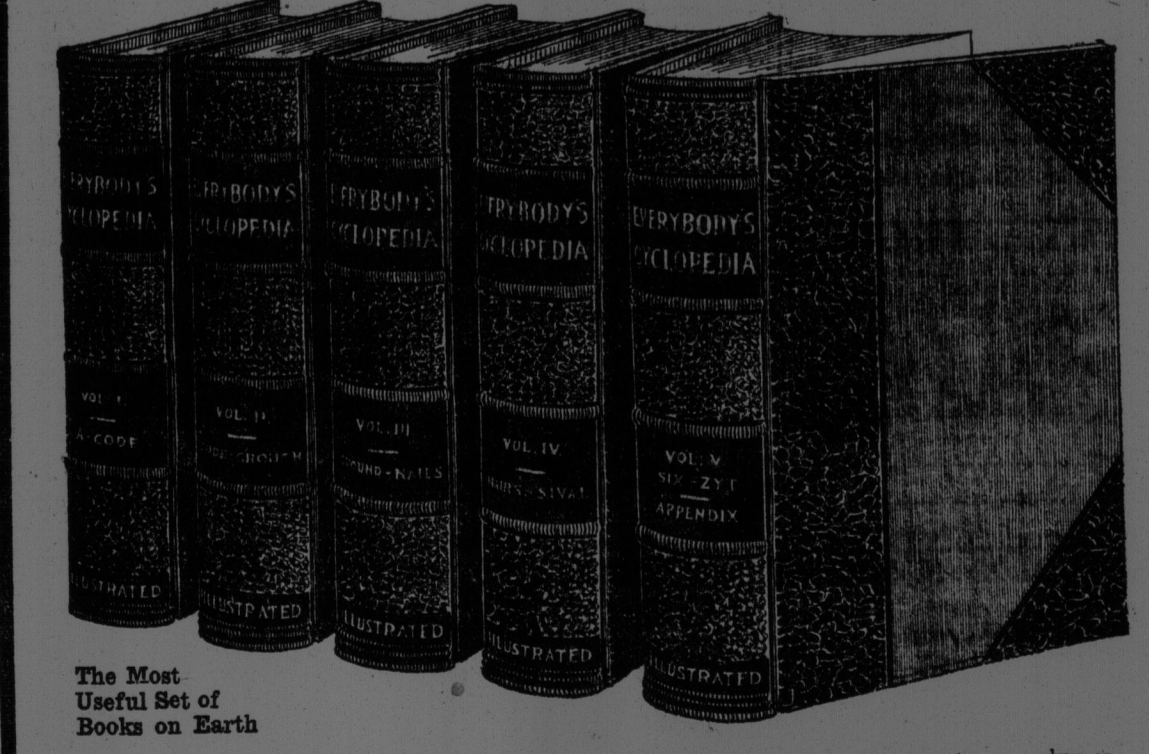

To keep your skin so that you can always be proud of it, the following treatment is the most effective you could use—better even than massage.

Just before retiring, wash your face with plenty of Woodbury's Facial Soap and hot water. Wash it later in the morning in cold water. Then rub for five minutes with a lump of ice.

Woodbury's Facial Soap cleanses the pores and acts as a tonic to the skin. This treatment will clear the skin to become more active, so that it clears, colors and nourishes itself. Continue it every night for a week or two and you can see the difference. Start tonight.

Woodbury's Facial Soap costs 25c a cake. No one hesitates at the price after their first cake. For sale by Canadian druggists from coast to coast. For to we will send you a sample cake. Write today to the Andrew Jergens Co., Ltd., 914 Broadview St., Toronto.

ALONG THE MEXICAN BORDER WITH A CAMERA

HERE IS THE HUMAN THUNDERBOLT OF THE HARVARD VARSITY TEAM

Pennock of Harvard made the All American team last year, and his work this season will again win him that honor. He is equally effective as either guard or tackle. Pennock is a very strong man and weighs more than 200 pounds. He goes into opposing plays like a thunderbolt.

Action is the order of the day with the great number of United States troops who are mobilized along the Mexican border and who wait momentarily for the call to arms. Each day the infantry engages in heavy mock skirmishes and battles; the upper picture showing a company "leading the attack" on the "enemy." The lower picture shows a sharpshooter engaged in target practice and the soldier with the eyeglass is searching the Mexican landscape for signs of hostility. Lookouts are constantly stationed on the patrol line.

VITALITY REGAINED KIDNEYS

Health Restored by "Fruit-a-Lives"

Hagersville, Ont., Aug. 26th. "About two years ago, I felt my health in a very bad state. My liver and kidneys were not doing their work. I became all run-down. I felt that of some good remedy and have 'Fruit-a-Lives' advertised, I do try them.

Their effect, I found more than satisfactory. Their action was mild results all that could have been had. My liver and kidneys resumed their normal action after I had taken up a dozen boxes, and I regained my vitality. Today, I am as ever, the best health I have ever had, and I unhesitatingly give my testimonial for publication if you wish.

The trade of these houses has grown enormously in these cities where these dailies circulate, but in the other cities and smaller places where there are good local newspapers, they have not made the same gains, because the local newspapers are well edited and are loyal to their local merchants and refuse to carry the advertising of the big city store.

The only way in which the big dailies can make headway is by cutting their prices. They get \$3 to \$5, a year in Montreal, Toronto and Winnipeg, but sell at \$2.50 to \$3 a year. This does not pay for the white paper on which these

CURLING.

North Shore Bonspiel. Newcastle, Nov. 18.—The Newcastle Curling Club met in annual session last night to make plans for the coming season. Mayor Morray presided and there was a large attendance of the members.

The treasurer's report showed that the club was in good financial standing, having a balance of \$212.17 to their credit. The president reported that a North Shore league had been formed, with F. J. Burns, of Bathurst, president, and an annual bonspiel will be held to play for a trophy which had been purchased by the different clubs in the league.

The first bonspiel will be held this year in Chatham and thereafter at the home rink of the winning club.

The annual fee for 1913-14 was fixed at \$5. Officers were then elected as follows: President, Mayor C. J. Morray; vice-president, Alan A. Davidson; chaplain, Rev. S. J. MacCarthy; secretary, J. E. T. Lindon; treasurer, G. G. Stohart; managing committee, Z. T. Laidlaw, Chas. Sargeant, John Russell, Forley Russell, and C. M. Dickson.

Mr. Lawler gave notice that he would move at the next meeting an amendment to the by-laws regarding the election of foreign skippers, whereby in future the skippers were to be appointed by the managing committee instead of being elected by the members of the club, as at present.

FOOTBALL. Scotland against England will be the big soccer attraction on the Marathons grounds on Dec. 18, and at a meeting of the St. John and District Soccer League Tuesday evening, in Fairview, arrangements were completed for the match.

The protest entered by the Cape team against St. John was dealt with and the game was ordered replayed.

RING. Willard and Rodol. Jess Willard and George Rodol boxed a 10-round draw in Milwaukee on Tuesday night. Willard's advantage in weight and height could not offset the vicious aggressiveness and fighting spirit of the Boer battler.

From the opening bell in the first round Rodol kept close to Willard, Rodol fought under instructions and they were "don't let him get set."

Only in one round did the famous right uppercut of the "bean pole" show, and that was in the seventh, when he almost sent the Boer to the ropes into Jimmy Johnson's outstretched and waving arms.

Boots "Gumboast." Says the Boston Globe—"Gumboast" Smith won his right to serious consideration in the ranks of the heavyweight boxers by decisively outpointing Sam Langford in a hard 12-round contest at the Atlas A. A. last night. When Dick Fleming, the referee, raised Smith's glove after the final round there was not a dissenting voice in the house. The white man had the better of at least nine out of the twelve rounds, and went to his corner comparatively fresh, while Langford once rated mightiest of the mighty, was badly used up.

Smith's boxing was a revelation to all. He showed that wild right hand swings, which would certainly have made him

an open target for the sledge hammer of Langford, and, standing off at long range, worked a left hand jab and hook to the head which popped him to break ground.

Langford was not on the receiving end at all times, however. At intervals he fought fiercely and well. His right hand thudded home to the body and head, but Smith, perfectly conditioned for the fray, took the blows without wincing.

In the fifth round Langford closed Smith's eye with a hard right swing, but he paid dearly for the privilege, as Smith cut loose.

In the closing rounds Langford rallied but he was never able to cut down the lead Smith had piled up in the early rounds.

Parsons and O'Neill Draw. Halifax, N. S., Nov. 19.—The fifteen-round boxing bout at the Arena tonight between Billy Parsons, of Glouce Bay, and Kid O'Neill, resulted in a draw. The bout went the full number of rounds, and while the decision was well received, many thought the Glouce Bay boy had the better of the battle. Both men are pretty evenly matched.

Parsons showed marked improvement over his previous appearance here. He was well trained and in excellent condition.

was like putting a duck into water. He became the Athletics' first catcher. Still, many doubted whether Mack would trust the youngster in the world's series. "Connie won't take a chance on the kid," said the wise ones. "He'll work Thomas."

Most of us Giants thought the same, but "Connie" knew his man, for he has made a study of character. Schang went behind the bat and was one of the stars of the series. It was part of our plan of battle to run ourselves to death as the bases if Schang caught. We expected him to be nervous and not able to throw. On the contrary, he watched the bases like a veteran.

## ST. JOHN SPEAKERS THERE

Annual Meeting of Upham and Simonds Branch Bible Society

The annual meeting of the Upham and Simonds Branch Bible Society was held in the Reformed Presbyterian Church in Harnesville on Tuesday evening the 19th inst. Messrs. J. Key, occupying the chair. Reports from the secretary and collectors were of a very encouraging nature and showed that the people of this community were loyal to the aims of the Bible Society.

Rev. Dr. R. H. Hays gave a very interesting account of his work during the summer and told of the way in which the Bible is received by the foreigners coming in to settle in the province. Addresses were also delivered by Rev. Wm. Lawson and Rev. J. P. Pinkerton, R. N. Stockford of St. John, Rev. Wm. Brown of Upham and Rev. W. G. Seelie of St. Martins. A. F. Bentley, M. P. of St. Martins in the course of a good address conveyed the greetings of the St. Martins branch.

The president in closing gave a very forcible address calling for increased effort and a wider vision. Refreshments were served by the ladies of the society at the close of the meeting. The St. John party returned to the city in Herbert Key's automobile.

**WHAT ST. JOHN NEEDS.**

The following is an advertisement published by the school board of New London, Conn., in the press of that city: "The free evening school will begin its sessions Monday evening, November 18, at seven o'clock, in the Jennings Schoolhouse, next to the armory. The school will be held every week during the evening except on Saturday. The sessions will begin promptly at seven o'clock and will close at nine o'clock. Any person desirous of attending the school who cannot be present at seven o'clock may make a special arrangement with the principal to come later. All earnest men and women, boys and girls over fourteen years of age, desirous of improving their education, are cordially invited to come. A competent body of teachers has been engaged and good courses will be offered. Classes in reading, writing, spelling, arithmetic, grammar and geography will be formed. Classes in mechanical drawing, book-keeping, German, stenography, typewriting, and other high school subjects will be formed if a sufficient number enroll in those subjects. Help will be given to those wishing to qualify for civil service examinations. All text books will be furnished free."

**CONCERT ENJOYED**

A very largely attended concert was held in the vestry of the Charlotte street Baptist church, West End, last evening under the auspices of the choir. The programme consisted largely of musical numbers, vocal and instrumental. Among the noteworthy features were: piano solo by Miss Kierstead, a vocal duet by Mrs. Weldon and Mrs. Kierstead, solo by A. C. Smith and U. Osborne; stringed instrument selections by Bond, Bagnall and Co., piano duet by Messrs. Lanyon and Belyea, duet by Messrs. Lanyon and Belyea, and three very fine choruses by the choir. Perhaps the most amusing thing of the evening was a base ball dialogue, arranged by local writers and given by twelve boys. It was comic music with an "All Star Team." Each of the boys represented some world known player and told of his great prowess. The boys were in uniform and carried the regulation base ball equipment.

**Aroostook Potato Prices**  
At Presque Isle, Me., on Tuesday, potatoes were bringing from \$1.30 to \$1.40, but were not coming in very freely.

## HIS TROUBLES HEAVY

Edward King, Reported For By-Law Violation, Finds His Home Deserted

Troubles came thick upon Edward King of 31 Brooks street yesterday. First of all he was reported by the police for violating the traffic law, and then when he returned home after his day's work, he found that his wife and family were gone. Of their whereabouts he knew nothing this morning. Today he was in the police court and told he was unable to find a line of \$8 or two months in jail for allowing his team of horses to wander along Main street unguided. Policeman Hump said that he had noticed the two horses heavily laden, turning into Douglas avenue yesterday morning. A child was just crossing the street, and was pulled from beneath their hoofs. He learned they were King's horses and he accordingly reported him. The man said he had gotten off the team, which was carrying a load of more than two tons, to ease the strain on the animals. Just what is the cause of his wife's sudden departure with their little family and several articles of household furniture is not definitely known. She belonged to Parrish's, N. S., and it is believed by the police that she has gone there with her two small children, aged two and four years. King belongs to Shelburne, N. S., but they have been living here for more than a year, he being the employer of John H. Lavery, livery proprietor, in North End. He said this morning that he had heard of a few pieces of furniture having been checked from his home by his wife to a place not far from St. Martins. Whether the woman has gone there or not is not known, but King was in a sorry plight this morning.

## JAMES McDONALD DEAD

Former St. John Man Passes Away in the Western United States

News has been received here by his cousin, J. J. McDonald, of Harrison street, telling of the death of a former St. John resident, James McDonald in Toppens, Washington territory, where he had resided for the last two years. He was a native of St. John and lived here for much of his earlier life, being at one time engaged as cutter in the tanning establishment of the late Thomas Youngblood. Mr. McDonald conducted a tailoring business in Houston for about fifteen years after leaving this city, but removed with his wife, formerly of Carleton, to the west about two years ago. He was very well known about St. John and will be remembered by many of the older citizens.

## THE RED CROSS LINE SERVICE IS OPENED

The service on the Red Cross Line, the new steamship line between St. John and New York, was opened yesterday afternoon by the arrival of the steamer Clothilde Cuno from New York. This steamer which is in charge of Captain Tolland, is practically a new vessel having been built six years ago for the service between New York and Bermuda. Her average speed is about twelve knots an hour and she made the trip from New York in forty-six hours. She brought a good general cargo. The Clothilde Cuno will make weekly trips between here and New York and will leave here again tomorrow. Among other things her cargo will consist of 1000 barrels of potatoes which are being shipped to the United States. J. T. Knight & Co. are the local agents.

## AGAIN ESCAPED

A sharp lookout is being kept for Hartley Howe who made his escape from the county jail on Sunday night or early Monday morning, first prisoner to do so in thirty years or more. He was serving a sentence for fighting, peevishness and drunkenness but tired of the weary days of prison life and succeeded in making his escape. It is thought that he made his way to the wash-room and from there to the freedom of the street in making his escape. It is thought that he has thus far eluded the vigilance of the police. This is his second escape from the jail confines. Last July he scaled the fence about the yard while engaged in painting, and managed to get to Sussex where he was recaptured.

Mr. Hard-to-Please: What Kind of Overcoat or Suit Do You Want for This Winter?

Don't you think it pretty safe to come to Oak Hall for it? Don't you know that it was by keeping things and doing things at least a little better than anybody else that Oak Hall is now doing the largest clothing business in Eastern Canada?

Will not common sense tell you that today we are bound to be in a better way to do this than we have ever been? Even if you are not quite sure of this, don't you think it would be pretty poor business on your part not to at least see what you can get in the clothing store that has done more than any other store for the betterment of men's clothing?

Is it not reasonable to suppose that the store which has been responsible for the improvement of men's clothing in general is bound to be a pretty safe place to come to for your new overcoat or new suit?

And, being manufacturers selling to you direct, we save you the middleman's profit, which is from 25 to 30 per cent. less than other stores must charge. Put all these facts well before your mind and then come in and let us prove them with the goods.

**MEN'S SUITS** \$6.00 to \$30.00  
**MEN'S OVERCOATS** 10.00 to 40.00
