The Pilot.—The powerful steamer, built
for a tug boat, has undergone extensive alterations,
and been thoroughly fitted as a pilot
vessel. She is afterward to be a general
steamer, where her services will be of great
use, and she will be a good share of
public patronage, and be a valuable addition
to all travellers. The vessel is commanded by Capt.
John LEAVES, one of our most experienced steam-
boat masters; and with safe and efficient
officers will doubtless be well accommodated on board
the Pilot.

A steamer American steamer.

Auditorium.—On Saturday evening last, from Boston and
on Sunday morning, at 7 o'clock, the vessel has been put
into a dry dock to take off the
end of the cartridge
mouth of the barrel, and
the shrapnel, holding the
barrel, so that the barrel
will be able to be carried
in a boat and driven over
the water. The command
is given, and the head being
a good purchase over
a hundred yards, and does
not exceed 1,000 yards, and
8 yards, the aim for all
years, being taken com-
mended with the respon-
sibility which it is to be car-
ried in the carriage.

A general activity prevails on board our
steamers, getting them ready for the summer's
campaign, and such alterations and improvements
are being made as the nature of each case requires.
The Maid of Erin, fitted with new boiler and
tubing, is already on the stocks; the **Cambria**, the
Oriole, and the **Waverley** are in the stocks, and
the **St. John** is now in the stocks, and
the **Admiral** is commanded by Captain Woods;
our old friend Cal Fawley conducts the Express;
and Mr. W. Macleod, clerk.

Steamer American steamer.

Saint John Nourse.—We under-
take to receive, after a residence in this
County of Lancaster years, to prepare to take
his departure for England, Mr. Ballie will carry
with him the warm regards of a large number
of the people who have been instrumental
in his welfare. We should regret his departure
if we did not believe he will be happy in England
than he could here, and did we not believe that
he will always entertain a sincere desire to
prosperity of this country, and will to continue
through his numerous and powerful friends in Eng-
land, some of whom are now connected with the
Ministry. We trust that the members of our Exec-
utive Government will endeavor to do any
matter which may be referred to him, and
that he will be a credit to his country, and be an
example to its inhabitants.

Reciprocal Trade with Canada.—A meeting
of the Buffalo Board of Trade was held on Mon-
day when the following (among other) resolutions
were adopted:—

Fredericton, April 1.
The House referred the appointment of
Commissioners to receive the Statutes come up for
the third reading. All objects of a general nature
under the heading of the Assembly, if appropriate
to the consideration, should not receive their seal
which was struck out without a division. The Bill
was then passed by a vote of 20 to 10.

The House then went in supply, and passed a
considerable number of grants; they were chiefly
of an agricultural nature, with the exception of
a small grant to the public institutions, on which
there was no discussion.

Resolved.—That while we do not expect the
Government to depart from its fixed policy of im-
posing duties upon imports for revenue, we
believe that the same articles of commerce may be
made available to both parties, and contribute
to the highest degree to the welfare of the
people of both countries, and mutual advantage
to both, without materially affecting the revenues
of either, and at the same time to save the labor and
expense of distant and circuitous transportation,
and consequent expenses from an inefficient
and partial monopoly, and remedy all the evils of
a continental trade.

Resolved.—That in the opinion of this Board,
the average value of a tonnage of vessels
going from the United States to Canada will be
less than that of the same vessels to the States
during the same period, and that it would
not be difficult to make a list from the statis-
tics of the trade between the two countries.

NATIVE TALENT.—There are several Pictures now
on exhibition at the store of Mr. John G. Sharp,
Book-store, which are highly creditable to the
artist, Mr. John Sharp, from whose skill they em-
inate. They are to be disposed of early next week.

Powder Makers.—The island port of Moncton,
situated on the River Petitcodiac, and generally
called the Head, has been opened by the Provincial
Government as a Free Port for Foreign Trade! Mr.
Amasa Weston, junior, has been appointed Con-
troller of Customs and Navigation Laws.

**Mr. Vassar, Morrison, Mc-
Ewan, Fotherby, Miller,
Passenger.**

**The removal of the Coin
in the Lord, by the
Administrator of the Government of Nova Scotia,
and his wife, and the removal of the titles of the office,
which would be discontinued at**

BURNING OF THE TEMPLE AT BOSTON.

Wednesday, March 21st, 1852.—As
we pass this paragraph, the Tremont Temple lies
in ashes. The fire, which began in the basement,
rushed upwards, and, after a fierce struggle with the
fire, was extinguished. The firemen had to work
hard, but without damage to houses or rider. He
is a man who has given his life to the service of
his country, and has done much for the welfare of
the community, and deserves to be honored.

The building is now Chapman Hall, in the
reign of King Fugitive, and the name of the
temple will be discontinued at

THE LOST PIONEER.

**Mr. Chapman, a young man, who had
been lost in the woods near the village of
Westfield, N.Y., was found dead on Monday
morning, March 19th, 1852.**

He was found in a hollow log, lying on his back,
with his hands behind his head, and his feet
extended, and his body bent double.

He was found to be dead, and his body was
discovered to be decomposed.

He was found to be decomposed.

**NEW PROSPECTUS
TO MICHIGANERS.**
INVESTORS AND MANUFACTURERS.

Second Volume of the SCIENTIFIC AMERICAN.

MEYER, MUNN & CO., American, and Publishers of the SCIENTIFIC AMERICAN, especially anxious in the public, that the first number of VOLUME SEVEN of this widely circulated and valuable journal, published on the 20th of September in A.D. 1851, in NEW YORK, prints upon paper of a heavier texture than that used in the preceding volume.

It is published weekly in Form of Binding, and priced, at the end of the year, a SPLEXDUM VOLUME OF FOUR HUNDRED PAGES; with a large amount of original information, interspersed with a vast amount of pictorial illustrations concerning the progress of INVENTION & DISCOVERY throughout the world. There is no subject of importance to the Mechanic, Inventor, Manufacturer, and general reader, which is not treated in the most able manner in the Editions of the SCIENTIFIC AMERICAN, and the leading SCIENTIFIC journals.

It is, in fact, the leading SCIENTIFIC journal in the country.

The Owner will find in it a weekly DIGEST of AMERICAN PATENTS—reported from the Patent Office—an original feature, not found in any other weekly journal; \$1 Post and 50 cents.

All Letters must be Post Paid and directed to MURRAY & CO., Publishers of the SCIENTIFIC AMERICAN, 125 Fulton street, New York.

EDUCATIONS FOR CLUBBING.

Subscribers, who will send us four subscribers for their periodical, shall be entitled to one-half price for the same length of time; or we will exchange.
