

## MEMBERS OF PARLIAMENT ARE WORRIED

### Rank and File of British Parliamentarians Fear Their Career May be Ended.

## VAGUE FOREBODINGS OF GENERAL ELECTION

### Political Interest Centres on Unionist Conference in Liverpool Next Week.

London, Nov. 11.—Among a certain number of the parliamentary rank and file who today returned to their constituencies, or at any rate left Westminster till the end of January, there is certainly some apprehension whether they will see the inside of Westminster again. Vague forebodings of a general election are revived in several quarters and will undoubtedly be settled one way or the other solely by the Irish developments. Nobody speaks boldly for an election. The Laborites have openly voiced an unwillingness at present to consult the country. The Free Liberals, despite Mr. Asquith's assertion this week that the 1918 election was "passing the now much regretted wave of temporary bewilderment and confusion," and his declaration that the coalition was breaking up, have been counselled by other individual advisers to be content yet a while to preach the "pure gospel of the old faith" which means going quietly for the time being.

## Unionist Conference.

The immediate political interest centres upon the National Unionist conference in Liverpool next week when Asquith Chamberlain will speak with Lord Dwyer as chairman. There is much fluttering among Unionists today concerning an article in the Yorkshire Post, one of the most influential papers outside of London which hitherto has given support, not however, without occasional hardly concealed misgivings to the coalition policy. The authorship of the article is ascribed to Lord Dwyer himself. Briefly, it urges that Unionists, by all their pledges in the past, are bound to support Ulster if she refuses to make any more concessions. The Bonar Law is undoubtedly the Unionist dark horse of the moment, but even the Unionists doubt, assuming a party split eventually, whether Law is politically and physically able to lead a Conservative secession against the whole influence of his former colleagues in the cabinet. Whether Bonar Law will attend next week's conference in Liverpool is unknown yet, but the meeting in any case is bound to be interesting. It is admitted in Unionist quarters that opinion concerning the resolution, then to be submitted concerning the Irish position, is sharply divided.

## Sir George Foster Stirs Audience At Halifax

### Said Existing Problems Would Have Been Same if Liberals Were in Power.

Halifax, N. S., Nov. 11.—Sir George Foster was the principal speaker at a Conservative rally here this evening in the interests of the local government candidates. Sir George was cordially received, and so were some of his references to Hon. Mackenzie King and Hon. W. S. Fielding, indicating the presence of a considerable number of Liberals in the audience. In his speech, Sir George said the problems of debt, taxes and the Merchant Marine would have been the same, even if a Conservative Government had not been in power. But he thought the railway problem was in another category. Laurier and Fielding were responsible for that though it was true, the people had voted for construction of the Transcontinental. Sir George averred that Mr. Mackenzie King had pocketed the platform adopted by the Liberal party in 1918, and was not allowing the people to see it. Glancing over Canada, he could not see a majority anywhere for the Liberals except in Quebec, where the solid bloc wanted the Premier defeated because of his attitude toward the Transcontinental.

## Robbers Loot Canadian Mail

### Two Bags Taken from Canadian National Station at Saskatoon.

Saskatoon, Sask., Nov. 11.—Information has just reached the provincial police here of a mail robbery which occurred at Tisdale, Sask., on Oct. 29. Two bags of mail, one containing registered letters and one a number of parcels, were taken from the Canadian National station. The police have made no arrests yet. The value of the booty is not stated.

## NATIONALIST LEADER URGES REMOVAL OF THE LAWRENCE STATUE

Lahore, British India, Nov. 11.—Mahatma K. Gandhi, the Indian Nationalist leader, today urged a large gathering here to remove the statue of Lord Lawrence which stands in the city. Gandhi exhorted his audience to undertake the task "even at the risk of imprisonment or death." Beneath the statue is the inscription: "Will you be governed by the pen or by the sword."

Lord Lawrence distinguished himself in putting down the Sepoy mutiny in India. He also served as Governor-General from 1855 to 1859.

## CANADA'S PART IN GREAT DRAMA NOT YET KNOWN

### Precise Character of Canada's Representation at Washington Will Shortly be Determined.

## NATIONAL IDENTITY MAY BE OBSCURED

### At the Outset Its Influence Submerged in Membership With British Empire.

Washington, Nov. 11.—(By Canadian Press Staff Correspondent)—While Washington today bowed over the view of America's unknown soldier, the chief actors in the great drama, upon which the curtain rises tomorrow, prepared their respective parts. The opening session of the Disarmament Conference, barred to press and public, will be more the character of a spectacle than of a parliamentary assembly to take up the problems of the Conference. There will be the customary intermission for Divine worship, a benediction from President Harding, a polite exchange of international civilities, a general profession of a desire to "beat swords into ploughshares, and then adjournment. The real work of Conference will come on Tuesday, when the delegates will decide upon procedure, upon the extent to which its deliberations, debates and decisions shall be made public, and what is of considerable moment, as to what questions upon the existing tentative agenda shall be dealt with first.

## Canadian Interest

To Canadian observers, and, indeed, to the Canadian public, these decisions will be of interest, they will be of large measure indicative, if not determinative, of the precise character of Canada's representation here, as well as the probable influence that representation is likely to exert upon the Conference's course and determinations. For those here who believe that Canada's status in the Conference, as well as her part in making it possible, entitled her to speak in its councils with weighty voice, the step taken in the striking of committees, if it may be taken as an intimation of what is to come, is not encouraging. These committees, announced this morning, are to determine the Conference's programme and procedure, the presence of a considerable number of Liberals in the audience. In his speech, Sir George said the problems of debt, taxes and the Merchant Marine would have been the same, even if a Conservative Government had not been in power. But he thought the railway problem was in another category. Laurier and Fielding were responsible for that though it was true, the people had voted for construction of the Transcontinental.

## Crerar's Name To Be Handed Down To Flower Lovers

### Experimental Farm at Ottawa Has Named New Species of Geranium After Him.

Ottawa, Nov. 11.—What is the height of fame? Some persons hold that when a man has had a cigar named after him there are no further words to conquer. But horticulturists would probably maintain that it was more lasting fame to have a flower named after one. Whether or not Hon. T. A. Crerar, leader of the National Progressive Party, will become prime minister of Canada and write his name large in history, remains to be seen, but in any event his name will be handed down through generations of flower lovers, for a new species of geranium, developed at the experimental farm in Ottawa, has been named after him. Other species of geraniums have been named after ministers of agriculture, including the John Carling, the Sydney Fisher, the Martin Burrell and the Dr. Tolmie.

## FORMER PRES. WILSON GIVEN AN OVATION

### Greeted With Fluttering of Handkerchiefs, Hand Clapping and Cheers in Washington.

## EXCHANGED SALUTES WITH HARDING

### After Ceremonies to Unknown Hero Crowds Flock to Residence of Ex-President.

Washington, Nov. 11.—Former President Wilson made his first public appearance today since he left the White House riding in the funeral procession for the unknown dead soldier, and later greeting a crowd gathered at his home. Everywhere Mr. Wilson was given a demonstration. When his carriage entered the funeral line at the foot of Capitol Hill, he was greeted with a fluttering of handkerchiefs and then with handclapping and cheering, which continued until he left the line after passing the White House where he exchanged salutes with President Harding.

## Demonstration At Home

The demonstration at his home was of greater proportions. It was arranged as a non-partisan affair by a committee of seven women for whom Hamilton Holt, of New York, was the spokesman. "We congratulate you, a wounded soldier of the world war, on your regaining your health," Mr. Holt said to the former President, who had come to the front porch of his home to receive the committee. "We pledge you our honor and respect. Your work shall not die."

When the cheering which greeted this statement had subsided, Mr. Wilson made his first public utterance since he was taken ill more than two years ago. "I wish I had voice enough to reply to you," he said. "I can only thank you from the bottom of my heart. God bless you."

The former President's words brought renewed applause. "Good bye and thank you," Mr. Wilson responded. Voices started up "My Country, 'Tis Thee" and at the end of the first stanza he kissed his hand to the crowd, while Mrs. Wilson at his side wept silently.

A minute more and Mr. Wilson had re-entered his home, but it was half an hour before the crowd dispersed, the former President appearing at a window on the second floor in response to repeated calls.

## World Expects Success From Arms Conference

### Gompers Says Public Will Not Take Excuse or Reason for Failure.

New York, Nov. 11.—The people of the world expect success from the Disarmament Conference at Washington, and they do not want an excuse or a reason for a failure, Samuel Gompers, President of the American Federation of Labor, told the disarmament meeting in Madison Square Garden here tonight. "The world war was the high climax of the contest between the old and the new," Mr. Gompers said. "The philosophy of rule by force, by tyranny, by autocracy and militarism has been swept out of the world. That is the paramount fact of our time. A system has been slain. Unless those who are to be engaged in these great labors shall comprehend this fact and shall build upon it, we may well have fears for the future. If statements do not understand the age into which we have entered, it may well be doubted whether the world can persist under the needless burden which their actions will impose."

It was brought out in evidence that she had stabbed the man with a pen-knife in the course of an altercation over a \$5 bill. Sentence will be pronounced next Monday.

L. Ormond presided and Colonel Bert also spoke briefly. In opening, Sir Hibbert said some people had asked what right he had to inject himself into the election contest in Nova Scotia, but he felt he had a right to do so on his side as he was a native of Nova Scotia and still qualified to vote here. In any case as a Canadian he knew no sectional divisions.

## King Silent On Manitoba Question

### Met Liberal Leaders of Province Yesterday But Had Nothing to Say.

Winnipeg, Nov. 11.—(By Canadian Press)—Following a series of conferences with Liberals from both the Hill and Knott groups this afternoon, Hon. W. L. Mackenzie King stated, shortly before taking the train for Melville, Sask., that he had nothing to say regarding the Manitoba situation. Meetings between Manitoba Liberals and the Federal leader continued during most of the afternoon and evening, and it is thought likely there may be further discussions on Mr. King's return from Alberta and Saskatchewan a next week.

Obscure, and even nameless, this soldier dead from France was honored today above any son of the republic of any generation. His tomb will remain a concrete reminder of the concept for which he and millions of others died—that liberty should not perish from the earth. C. N. DIRECTORS MEN OF ABILITY

Awarding of Contracts and Administration of Road Not Unduly Influenced.

(Continued from page 1) represented on the Canadian National directors, Mr. Stewart declares, "It will be seen," he continues, "that the Canadian Locomotive Company, which was represented, received loans business that the Montreal Locomotive Company, which was not represented, and the Eastern Car Company received business to the extent of only \$14,000,000, whereas the Canadian Car and Foundry Company, not represented on the directors, received business to the extent of \$61,900,000."

Business Conducts Properly

The statement emphasizes that the business of the Canadian National lines is conducted in the same manner as that of any modern business. The minutes of all directors meetings are inspected by the minister of railways. The operation of every department is subject to the same audit; the annual report by auditors; the minister of railways places these reports before the House of Commons, and the directors are known in the political field, it says.

HUGHES SENDS PEKIN NOTE ON ITS DEFAULT

Shows China's Failure to Meet Loan Seriously Impairs Her Credit.

Washington, D. C., Nov. 10.—China's default on both principal and interest of her \$5,000,000 loan advanced by a Chicago bank has precipitated the question of the acceptance by China of the international commission plan of advancing loans, which she has hitherto disapproved. It has called attention to the lack of central governmental control in China and the necessity that will place the approaching arms conference of dealing with the entire Chinese situation in a courageous way.

Secretary of State Hughes made it plain today that there has been no threat of withdrawing recognition from the Peking Government if the loan is not taken care of. It is admitted that a note has been sent to China in which it was made plain that the default seriously impaired the credit of the Chinese Government and that it made it difficult for the friends of China to be active in her behalf at the conference.

Urged to Reopen Matter.

The suggestion has been made that negotiations be reopened so the default should be technical and not actual.

The members of the Chinese delegation in Washington fully realize that the default has injured their standing in the arms conference and are anxiously awaiting the credit of the Chinese Government and that it made it difficult for the friends of China to be active in her behalf at the conference.

The explanation offered is that the Chinese Minister of Finance had resigned. Another minister has been named in his place but it is not known whether the Peking Government has taken steps to reopen negotiations so the default will not be continuing.

The default of the Chinese loan calls attention to the fact that two other outstanding loans in which Americans are interested are due at this time. They are the Hukuang loan, financed originally by Germany, France and Great Britain, amounting to six million pounds sterling, and the Pacific Development loan, advanced by the United States Government, amounting to \$5,500,000.

The Hukuang loan was for railway development and the first installment of the principal was to be paid in full by 1921, is due this year. The Pacific Development loan was made in 1919 and due 1921.

Germany Escape Loss.

The Chinese Government had paid the interest coupons on the Hukuang loan up to the time it declared war on Germany. It then decided it would make no further payments on the German coupons, awaiting an after the war settlement. It develops, however, that the bonds were made payable to bearer and the Germans promptly transferred their bonds to holders in Holland who in turn sold them again. Most of the German owned bonds are believed to be held now in New York. This refusal to pay the interest on the Hukuang bonds until the German bonds are identified has represented the value of the entire loan.

When Thomas W. Lamont, as the agent of the consortium, was in China he advised payment of this loan on the ground that failure to do so would injure China's credit and make further sale of Chinese bonds difficult if not impossible. The Peking Government refused to accept this advice and has only recently refused an offer of the consortium to reduce the Chicago bank loan, the Hukuang loan and the Pacific Development loan.

In addition to China's attitude on the German owned bonds of the Hukuang loan, there has been a continued objection to accepting the relationship of the consortium. This general objection has been based on the theory that the supervision desired by the consortium was an opening wedge for further international control of Chinese affairs.

The situation in China can easily be stated. The Peking Government is "broke" because the military government of the provinces refuse to turn over the taxes collected by them. It is as if the Washington Government found itself limited to the collection of taxes in the District of Columbia and the Federal taxes collected in the States were kept by their respective Governments.

It also develops that Japan has advanced a large sum of money to the Peking Government, complicating the independent functioning of that organization as an entity. These loans are variously estimated at from \$150,000,000 to \$200,000,000.

The Chinese spokesmen say this situation has awakened doubts in the minds of the Chinese as to the purpose of any foreign loan, a fact which renders it difficult for the Peking Government to accept the overtures of the consortium even if it so desired.

"They point out that this doubt does not extend to the United States because of the political attitude which the Peking Government has assumed toward China in the past. It is a clear warning, however, and one which cannot be ignored by the Peking Cabinet. If the Powers are to deal with the Peking Government it must be on a basis of established national credit."

"The motives which prompted Secretary Hughes to make representations to the Peking Government are easily discernible. There is no intention of withdrawing recognition from the Peking Government because this would further complicate an already complicated situation. It is a clear warning, however, and one which cannot be ignored by the Peking Cabinet. If the Powers are to deal with the Peking Government it must be on a basis of established national credit."

PRIVY COUNCIL DECISION ON COMBINE ACT

Holds Canadian Board of Commerce and Fair Prices Act as Ultra Vires.

FINDS ACT NOT FOR WAR CONDITIONS

Infringed Upon the Rights and Privileges of Provincial Legislatures.

London, Nov. 11.—(By Canadian Press Cable)—The Privy Council gave judgment today on the Canadian Board of Commerce Act and Fair Prices Act, finding that they were ultra vires of the Dominion Parliament. Six judges of the Supreme Court of Canada were equally divided as to the validity of these acts and did not render judgment thereon, but by consent referred them to the Privy Council.

The judgment given here today, which was read by Lord Haldane, observes that the law is not one composed of special laws for time conditions, but was passed in 1919, after peace had been declared, and was not confined to any temporary purpose but was to continue without any time limit and was to apply to the whole of Canada. It may be that the subjects of undue combination and hoarding are matters wherein the Dominion has great practical interest, but the judgment states that such a law in special circumstances might conceivably become paramount, overriding other interests in importance even in times of peace, but it is quite another matter to say, under normal circumstances, that a general Canadian policy can justify interference on such a scale as the statutes in controversy, which involve the property and civil rights of the inhabitants of the provinces. It is to the provincial legislatures that the regulation and restriction of their civil rights have, in general, been exclusively confined, and as to these provincial legislatures possess quasi-sovereign authority.

It can, therefore, be only under highly exceptional necessity, such as cannot be assumed to exist in the present case, the judgment of the Privy Council sustains the liberty of the inhabitants of the provinces may be restricted by the Canadian Parliament, and that the Dominion can intervene in the interests of Canada as a whole in questions such as the present one.

In the case before the Privy Council, however, important as it may seem, to the Canadian Parliament that some such policy as that adopted in the two acts in question should be made general, their Lordships do not find any evidence that the standard of necessity referred to had been reached, or that attainment of the end sought is practicable, in view of the distribution of legislative powers conferred by the constitution, without the co-operation of the provincial legislatures.

"It may be that it is within the power of the Dominion to collect such information for statistical and other information which may be valuable for guidance in questions affecting Canada as a whole. Such information may be required before any power to regulate trade and commerce can be properly exercised, even where such power is confined to a fashion much narrower than that in which it was sought to interpret it in the argument before the Canadian Attorney General. But such information affords no justification for interpreting the words of section 91 in a fashion which would make them confer a capacity to regulate particular trades and businesses."

"Their Lordships therefore are of the opinion, that the first question which the parliament can validly enact such a law must be answered in the negative. The second question, consequently does not arise.

"No costs are allowed, either here or in the Canadian Supreme Court."

"broke" because the military government of the provinces refuse to turn over the taxes collected by them. It is as if the Washington Government found itself limited to the collection of taxes in the District of Columbia and the Federal taxes collected in the States were kept by their respective Governments.

It also develops that Japan has advanced a large sum of money to the Peking Government, complicating the independent functioning of that organization as an entity. These loans are variously estimated at from \$150,000,000 to \$200,000,000.

The Chinese spokesmen say this situation has awakened doubts in the minds of the Chinese as to the purpose of any foreign loan, a fact which renders it difficult for the Peking Government to accept the overtures of the consortium even if it so desired.

"They point out that this doubt does not extend to the United States because of the political attitude which the Peking Government has assumed toward China in the past. It is a clear warning, however, and one which cannot be ignored by the Peking Cabinet. If the Powers are to deal with the Peking Government it must be on a basis of established national credit."

"The motives which prompted Secretary Hughes to make representations to the Peking Government are easily discernible. There is no intention of withdrawing recognition from the Peking Government because this would further complicate an already complicated situation. THIS MONTH AND CATARRH.

Many people find that during this month, catarrh is so aggravated by sudden changes of weather, indications in the matter of clothing, and other things, that it becomes constantly troublesome.

There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, also relieves catarrh and aids in the prevention of consumption.

It is not easy to see how any sufferer can put off taking this medicine, in view of the widely published record of its remarkable successes. It is called by its proprietors America's Greatest Medicine for America's Greatest Disease—Catarrh.

In some cases there is occasionally need for a thorough cathartic or gentle laxative, and in these cases Hood's Pills are taken with very satisfactory results.

This opinion, however, is not shared by all. There are others here who contend that a British Empire delegation, united in purpose and presenting a solid front, is much more impressive and much more potent for good than a British Empire representation split into separate entities and giving the impression of diplomatic disunion and of divided purpose.

### CONSIDERABLE BUSINESS AT THE PROVINCIAL RED CROSS MEETING

Lengthy Report by Secretary Showed Much Activity in Work Throughout the Province—Ten Thousand Members Enrolled—Other Matters of Interest.

Three weeks of activity was reported at the regular meeting of the Provincial Red Cross, held yesterday afternoon at the Depot. The hour was held at three o'clock to allow members to attend the Armistice Day service.

#### Secretary's Report.

The secretary, Miss Ethel Hazen Jarvis, gave a report which is in part as follows: From many branches come encouraging accounts of the manner in which the Peace policy is being understood and applied. At Bay du Vin an active branch is being formed to assist the public health nurses. Inquiries are being made concerning the regulations to the depot. From Lakesville, Carleton county, has also come an inquiry and to most these many questions an article has been prepared for the Bulletin. From Jacques River we have had a special request for the use of our lanterns and slides, that they may have a series of lectures on health matters in their community. Chatham are making arrangements to have the Junior Red Cross in operation. Middle Sackville branch are as ever to the fore and are undertaking the care of a crippled child, and are making inquiries as to the best specialist to consult. This is indeed truly the Peace time work of the Red Cross.

#### Letters Received.

The superintendent of the General Public Hospital wrote a letter of thanks for the loan to the hospital of an adjustable wheel chair. A letter from the Soldiers' Settlement Board wrote thanking the society for gifts, and asked if it would undertake to send Christmas parcels to fifteen families and to write letters to lonely English wives of the returned men.

It was decided to ask the Local Red Cross to prepare Christmas parcels, the Provincial to bear the expense. Information as to a specialist for a particular case was asked for from Middle Sackville.

The secretary of the Campbellton Soldiers' Memorial Hospital wrote stating that the hospital which has cost \$100,000 is nearly finished. Supplies and equipment, or a money grant were asked for.

Grateful thanks for assistance was received from a soldier's wife. The resignation of Mrs. J. V. Anglin as convener of the hospital committee was received and was dealt with at the annual meeting.

For the hospital committee Mrs. Anglin told of the faithfulness of that committee in caring for soldiers. There are 16 soldiers in East St. John hospital, and with 89 men in Lancaster it is crowded to capacity. Mrs. Anglin told of treats given at Halloween and Thanksgiving Day, and of plans for Christmas when it is hoped all branches will co-operate in giving a parcel to each one of the 100 soldiers in the hospital. Mrs. Anglin also told of needy cases of English soldiers. Hon. Dr. Roberts promised to bring these to the attention of the Federal authorities.

Very high praise was given to the work of the hospital committee, C. E. Allan and Dr. Roberts expressing warmest appreciation of the splendid way in which trying tasks were carried out. Dr. Roberts.

Dr. Roberts reported that he had appeared before the Victorian Order of Nurses' Central Board regarding the V. O. N. training school. He stated that assurance was received that the school should be maintained till the contract with the Red Cross expires, although the V. O. N. directors had decided to limit the training school centre to university cities.

Victorian Order. A memorial which Hon. J. S. Forbes had asked the N. B. Red Cross Division to present to the Red Cross Central Council asking for a grant of \$2,000 to meet the deficit which this local V. O. N. expect to have this year.

A definite statement of work of the V. O. N. was given. Mrs. George F. Smith told of work of the eight nurses and stated that an appeal for funds will soon have to be made. The memorial from the V. O. N. was then endorsed by the Provincial Division and Mr. Allan was authorized to present it before the Red Cross Central Council.

Mrs. Frank White praised the welfare work of the Victorian Order, and of Miss Cook's fine services. Miss Francis Allison, for the sewing committee, reported a good response from many branches and individuals.

Other Reports. Mrs. James F. Robertson for the Sackville committee said that this month's number is now in press. She

### Bottomley Takes Exception To Remarks of Magistrate

Demands Retraction from Judge Presiding at Trial for Criminal Libel

London, Nov. 11.—(By Canadian Press Cable)—Horatio Bottomley, publisher of John Bull, who is prosecuting Remben Bigland for alleged criminal libel in connection with subscriptions to Bottomley's victory bond club, has written to Lord Birkenhead, the lord chancellor, complaining that the statement of Sir Charles Biron, the magistrate at Bow street police court who has been hearing the case, that he, Sir Charles Biron, did not believe certain evidence given by Bottomley on oath, violated a well established rule against a magistrate expressing an opinion calculated to prejudice any proceedings arising out of his decision. Regarding Sir Charles Biron's declaration that he was unable to believe certain of Bottomley's statements which were made on oath, Bottomley requests the public withdrawal by the magistrate of his remark, or in the alternative that proceedings be instituted against Bottomley by the public prosecutor for perjury so as to enable him to clear his name from the stigma placed upon him by the magistrate.

### Hanna Contradicts Drury Statement On Ry. Earnings

Drury Speaks from Hearsay Evidence, While Hanna Speaks from Figures

Toronto, Nov. 11.—That the statement of August and September earnings issued by the Canadian Railways was "based on facts only and is correct," was the positive assertion of D. B. Hanna, president of the road, in a speech yesterday before the members of the Canadian National Newspaper and Periodicals Association in convention here.

Mr. Hanna's declaration was in the nature of a reply to remarks of Premier Drury at a political meeting in Nanawauke recently in the interests of Hon. T. A. Cresser, National Progressive leader. Mr. Drury is reported to have said: "The Canadian railways have a trick of piling up surpluses just prior to elections."

It was a pity, said Mr. Hanna, that the Premier of Ontario should be the first to challenge the honesty of the management in respect to the favorable showing made by the national system. To state or infer that the statements were manipulated to induce a false situation to assist the political fortunes of the Government prior to an election was grossly unfair and untrue.

### Fredericton Vets Had Observance of Armistice Day

Special to The Standard. Fredericton, N. B., Nov. 11.—Veterans of the great war in large numbers gathered at the Armory tonight to observe the third anniversary of the signing of the armistice. The gathering had a social aspect, refreshments being served, and also had its oratorical features. Those who spoke were the Earl of Ashburnham, Very Rev. Dean Neales and Rev. Geo. M. Tomp. The proceeding was opened by prayer by Dean Neales. The speaking was interspersed with music by the York Regiment Band.

Former service men to the number of more than 100 were in attendance. Major James Pringle, M. C., vice-president of the local G. W. V. A., occupied the chair. Col. W. J. Osborne, president, was prevented by private business, which took him out of the city, from being present. He sent regrets. The observation of the anniversary will be made a permanent affair.

## Just to Keep the Record Clear

Mr. King blusters and Mr. Fielding sends telegrams, but the official pronouncement of the Mackenzie King party regarding the tariff is found in the resolution adopted as the platform of the party at the convention of 1919 at which Mr. King was chosen leader through the support of a solid Quebec.

"I do not repudiate this platform" Mr. King said when cornered at his St. John meeting.

Here is the platform: "That the best interests of Canada demand that substantial reductions of the burdens of Customs taxation be made with a view to the accomplishing of two purposes of the highest importance.

"First—Diminishing the very high cost of living, which presses so severely on the masses of the people.

"Second—Reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion, the vigorous development of which is essential to the progress and prosperity of our country.

"That to these ends, wheat, wheat flour and all products of wheat; the principal articles of food; farm implements and machinery; farm tractors; mining, flour and saw mill machinery, and repair parts thereof; rough and dressed lumber; gasoline, illuminating and lubricating oils; nets, net twines and fishermen's equipments; cements and fertilizers, should be free from Customs duties, as well as the raw material entering into the same.

"That revision downwards of the tariff should be made whereby substantial reductions should be effected in the cost of wearing apparel, footwear and other articles of general consumption, other than luxuries; as well as on raw materials entering into the manufacture of the same.

"That the British preference be increased to 50 per cent. of the general tariff.

"And the Liberal Party hereby pledges itself to implement by legislation the provisions of this resolution when returned to power."

What will the putting in force of this platform mean to Canada? Take first the Agricultural Implement Industry. In 1919 the figures as to Canada's industrial plants of this kind were:

Total Capital Invested	\$83,276,450
Number of Employees	10,808
Annual Payroll	\$11,858,013
Total Value of Products	\$37,153,331

Can we afford to lose these industries, many of which have been founded in Canada by American capital and which would be quickly withdrawn to the parent plants if the tariff values were lowered.

Then there is the important canning industry:

Total Capital Invested	\$15,956,695
Number of Employees	5,984
Annual Payroll	\$ 3,184,663

The Canadian farmer would be the first to feel the crippling of this infant industry. In 1919 the farmers of Canada sold these canning plants \$7,330,982 worth of fruits and vegetables. The same is true of the Meat Packing Industry:

Total Capital Invested	\$93,363,791
Number of Employees	13,222
Total Annual Payroll	\$15,302,388
Value of Products Purchased from Farmer	\$175,133,821

Can the farmer afford to drive these plants out of business particularly when his live stock is shut out of the U. S. market by a duty of 30 per cent. ad valorem on cattle, \$2 a head on sheep, and 25 per cent. ad valorem on pork and bacon?

These are only instances of the many food-producing industries affected by the Liberal platform. St. John is interested in one of the minor industries, that of Baking Powder making. The figures:

Total Capital Invested in Canada	\$2,661,424
Total Annual Payroll	590,560

There are many other industries at which both Liberal and Progressive Platforms definitely strike. The list is a long one. Keep our Home Wheels Turning by

The principal symptom of bronchitis is a cough which is dry, harsh and hacking, accompanied with rapid wheezing, and a feeling of tightness throughout the chest.

There is a raising of phlegm, especially in the morning, or rising from bed. This phlegm is at first of a light color, but as the trouble progresses it becomes of a yellowish or greenish color and is sometimes streaked with blood.

Weddings A quiet wedding took place at the United Baptist Parsonage of Central Street on Nov. 9th, when Miss D. Bell united in marriage Miss Beatrice Paisley, daughter of Mr. and Mrs. James Paisley, of Inokly, Queens Co., to Mr. Herbert McConder, of St. John. Miss Gladys Paisley, sister of the bride, acted as bridesmaid, and Mr. Matthew Gilbrath, of Westford supported the happy couple. The bride was dressed in a navy blue travelling suit and tulle hat with ostrich trimmings and for her, immediately after the ceremony the happy couple left by the St. John Valley train for a short bridal tour.

Nixon-Gilman. On Wednesday morning at 11 o'clock a very quiet wedding took place at Christ Church Rectory, when Miss May Helen Gilman, of Gilman's Corner, St. Andrews, and James Archibald Nixon of Waweg, were united in marriage by Ven. Archbishop Nevins. Owing to a recent bereavement the family there were no guests. The bride looked winsome and attractive in a very pretty gown of burgundy satin with bead trimmings. She wore a burgundy hat trimmed with gray, gray shoes and gloves, and a handsome fur coat the gift of the groom. Mrs. Toal, sister of the bride, was matron of honor. She wore a handsome gown of green silk, with black and ostrich hat. Mr. Allan Armstrong, of Waweg, acted as groomsmen. After the ceremony a delicious wedding dinner was served at the home of Mrs. Toal. The dining room was very prettily decorated in pink and white. At the close of the dinner the bride changed her wedding gown for a handsome travelling suit of tulle broad cloth, with hat to match and the happy couple left by auto for a short wedding trip. On their return they will reside at the bride's home at Gilman's Corner. The bride received many useful and pretty gifts, and best wishes for their future happiness were expressed by their many friends.

Cook-McAllister. Newcastle, Nov. 10—A wedding of much local interest was solemnized at the home of Mr. and Mrs. George Stables, King Street, on Monday at high noon when their youngest daughter, Miss Helen McAllister, was united in marriage to Mr. Joseph Cyril Cook, son of Mr. and Mrs. William Cook, New Mills, but now manager of the Royal Bank of Canada, at Fredericton. The bride, who was attired in a travelling suit of midnight blue velour, with fitted choker and hat of silver tulle, carried on her arm a bouquet of bright roses and had as her attendant, her niece, Miss Katharine Stables. The ceremony was performed by Rev. L. H. Maclean, and the bridal couple stood beneath an arch of green and white flowers. Miss Isabel Ferguson played the wedding march. The house was prettily decorated for the occasion with chrysanthemums and roses. The color scheme in the parlor being yellow and white in the dining room where luncheon was served to about fifty invited guests, green and white were prevailing colors. After the ceremony Mr. and Mrs. Cook left for a short honeymoon trip through the province before going to Fredericton Junction to reside. Among the out of town guests were Mr. and Mrs. Thos. A. Belmont, Fredericton; Mrs. Cook, Masson; William and Leslie Cook, and Mrs. Beaton, New Mills; Eldon Millbank, and Miss Arbeau, Blackville.

It will be recalled that the jury disagreed at the time of the first trial, but the case will again be heard this month before Chief Justice McKeown. It was intimated by Mr. Vernon that the defence would stand by its alibi that Paris was in Truro on the day that the crime occurred. Additional evidence, however, will be produced to support this claim, and a member of the provincial police will

IN THE EDITOR'S MAIL

P. O. Box 778, St. John, N. B., Nov. 11th, 1921. To The Editor of The Standard, City. Dear Sir—You recently published a copy of the resolution forwarded to the Committee in charge of the Protestant Organ Fair by the Evangelical Alliance.

We have no desire or intention of entering into a controversy with this body on the matter but in justice to all concerned we submit herewith a copy of our reply to the Alliance for publication. We might also add that a similar reply was forwarded to the Association of Baptist Ministers from whom a like protest was received. This correspondence would have been submitted to the press previous to the opening of the fair but for the fact that the Secretary of the Evangelical Alliance requested it withheld and promised a later communication on the matter.

This promise has not been kept and in submitting their side of the question to the public in the way they have we consider they have been, and say the least, guilty of gross breach of faith. The wonderful results obtained by this fair is proof positive that the cause of the orphans has the sympathy of the public at large and if the Protestant churches, as represented by the Evangelical Alliance, would only do their duty in this respect, there would be no need for action along the lines so strongly objected to by the Alliance and the Baptist Ministers.

Yours truly, FRANK H. GARDNER, Chairman of Reply Committee. P. O. Box 778, St. John, N. B., October 28th, 1921. To Secretary of the Evangelical Alliance, St. John, N. B. Dear Sir—Your communication re wheels of fortune, door lotteries, etc. was duly read at a recent meeting of the executive in charge of the proposed fair on behalf of the Protestant Orphanages of the city. We regret that we do not see our way clear to comply with your request. Our aim is to obtain as much money as possible in order to relieve the present serious shortage of the various institutions' funds, which shortage is entirely due to the apparent indifference of such organizations as you represent. We fully realize that the methods you take objection to may not be all that is desired but we also notice that you offer no suggestions that would provide adequate substitutes as a means of raising money.

We would here point out that the various Protestant Churches of this Province would only follow the method adopted by the Roman Catholic Churches and devote their collections, on at least one Sunday in the year, to this worthy cause, the need for action along the lines we are now taking would cease to exist. We commend this suggestion to your worthy body and can assure you that its adoption would obviate the necessity for an organized effort such as we are making for all time. Trusting that this refusal will be accepted in the same friendly spirit as your communication was received and hoping to be favored with your undivided co-operation and support in our effort. We remain yours very truly, (Sgd.) FRANK H. GARDNER, A. D. SMITH, W. H. GOLDING, Committee on Reply. HORSE BADLY INJURED A valuable horse belonging to Lewis R. Ross, 320 Princess street, received serious injuries at about 4.30 yesterday afternoon when while being driven down Main street it caught one of its feet in a New Brunswick Telephone Co. manhole, so that its shoe and a portion of its hoof was torn off. Witnesses will also be put in the box for the purpose of proving that certain pecuniary payments were made for this in Truro on August 2 last, on the date the deed was committed.

Programme At St. George's Church The closing of the Commemoration Services in connection with the Centennial of the opening of St. George's Church took place last evening. A special programme has been held every evening this week and an entertainment for the Sunday School was held last night in the new hall with over 250 children and about 150 adults in attendance. The Rev. Dean W. H. Sampson, was the chairman. The entertainment opened with the singing of God Save the King and O Canada. "Three little girls in China" was a sketch by a trio of small girls. A recitation was given by Miss Margaret Rawlings. Five very small girls dressed in night robes and carrying candles made a playlet of "Bedtime." LANDRU LOSES SELF-CONTROL, SHOWING ANGER Alleged Bluebeard Declares His Hands Are Clean of Human Blood.

Versailles, Nov. 11—Henri Landru, alleged "bluebeard," dropped today for the first time the aloof attitude of the business man discussing commercial transactions which he had maintained since the opening of his trial on charges of having committed eleven murders, ten of them of women. In figurative language, he entered a stout denial of his guilt. "There is no blood on my hands; perhaps they are not absolutely clean, but they never shed a drop of human blood," he said. The trial judge today began examination of the prisoner concerning the disappearance of Desiree Gullin, born in Brazil in 1889, Landru's alleged third victim. The prisoner insisted upon referring to her as "one of the hundreds of missing women who disappear yearly in Paris." The so-called bluebeard contends that his relations with his alleged victims were entirely of a commercial nature—that as a furniture dealer, he purchased furniture and other valuables from them and had no knowledge of their subsequent fate. "I regret that I only have one bead to offer you, and you can have it," shouted Landru when he became exasperated at the trend of the cross-examination by Prosecutor Godofroy in which he warned the prisoner: "Remember Landru, your head is at stake." Landru again refused, as in the case of two alleged victims regarding whom he had previously been examined, to explain how he got hold of their securities. In the present case these securities were mostly from South America, from Rosario, Argentina, and Pernambuco, Brazil. He said the only acted as Desiree Gullin's agent and knew nothing of her disappearance.

"Go to bed, sir," cried the enraged father to his son, who had given him cause for offence. "Were it not that these gentlemen are present, I would give you a sound whipping, but you shall have it before breakfast tomorrow morning—that I promise you!"

Dressed in the latest and most approved motorcycling costume, with goggles, etc., complete, the motorcyclist galloped to the Zoo. Suddenly he slackened, dismounted, and said to a grubby archer:

A Short Cut.

Said the old philosopher: "You have placed before me a number of piles of pebbles, each pile of which, except the first, is greater than its neighbor on the left by one. Beginning with the first pile, having one pebble in it, the sum of any consecutive piles can be quickly found by multiplying the middle pile by the last pile. For example, the sum of the five equal piles three times five, the sum of the first fifteen equal piles fifteen times five, and so on. With this fact in mind, my son, which is greater, the sum of the piles from 33 to 199 inclusive, or the sum of the piles from 200 to 270, inclusive?"

What is the quickest way to find arithmetically the answer to the old philosopher's query?

Try to find this out. If you can't, here is the answer:

Teaser: The sum of piles 1 to 199 is 190 times 199 or 19,900; subtracting the sum of 1 to 28, which is 19 times 29 plus 28 or 741, the difference, 19,159 is the sum of piles 1 to 199, which is 19 times 199 or 19,900; subtracting the sum of 1 to 199, as already shown, is 19,900; the difference, 19,159 is the sum from 200 to 270. This second pile, therefore, is the greater by 1.

SUN CLOCK ALWAYS ON TIME.

The first thing we do upon striking camp is to drive a stake about five feet high firmly in the ground in an open place near camp. A scout is detailed to stick in a peg at the end of the shadow every hour during the day. There were only two watches in camp, one ran down and the other lost, but the sun clock never deceived.

MARGIE who lives in the country often roams about the fields and frequently stops at a little cabin occupied by Mammy Jenny, who does the washing for Margie's mother and some other people nearby. The cabin is full of curious old things made by Mammy's dad and granddad, and on the wall there's something that particularly interests Margie and Mammy always tells her about it and though part of it is missing (as you'll see) and it isn't of much account, Mammy still treasures it. The dots will show you what it is.

Lambert, Yoemans, Thomas and Fryers Run Today in Dunlop Five Mile Race. The Y.M.C.A. Track Team composed of Norval Lambert, Ed Yoemans, Colin Thomas, and Harold Fryers left last evening for Moncton where, under the management of the captain of the Y.M.C.A. track team, Capt. Arnold Kee, they will take part in the five mile road race today in the Dunlop trophy. They will be joined in Moncton by Homes Wetmore who is coming up from Acadia University at Wolfville for that purpose.

New Golf Record Set By British

Duncan's Average for 105 Rounds in America Was 72.16; Mitchell's 72.19. George Duncan and Abe Mitchell, the great English golfing pros, have gone home. Their footprints on the greens of America show what is meant by consistency. They played 105 rounds, nothing tricky, there was no holing out in one on a 400-yard fairway with the eyes shut, there was nothing but golf, they played 106 rounds, crowding it into 96 days, traveled many thousands of miles and in that short time exchanged puts with the greatest of our amateurs and professionals for fifty-two victories and seventeen defeats.

French Champion Has Already Started Light Training For Bout With Cook

Tex Rickard has received a letter from Georges Carpentier in which the French champion announced that he has started in to do some light training for his bout with George Cook of Australia which takes place in London on December 2. The handsome Frenchman declared that his right hand, which was injured in his bout with Jack Dempsey of Jersey City last July, is now fully recovered and that in the preliminary training which he is now undergoing in the ring for the Cook bout, he finds no traces of any pain.

Carpentier's Hand Is Better

Incidentally Georges informed Rickard that immediately following the bout with Cook he would repair to France and make all arrangements for returning to America late in December. He said that he would be ready to meet Tom Gibbons in New York any time in February, or on whatever date Rickard might decide upon.

Wilson, Traub And Newell Are Eligible

Athletes Have Not Lost Amateur Status and Can Play in Rugby Finals. The Calgary Albertan published an editorial Wednesday stating that according to the Amateur Athletic Union of Canada that Freddie Wilson and Percy Traub, of Regina, and Ab Newell, of Saskatoon, were not ineligible to take part in the play-off games of the Western Canada Rugby Football Union. The Calgary sport critic is wrong in his statements and it is likely that the three players in question will be permitted to take part in the final if their teams qualify. Last winter Newell played hockey for Moose Jaw, while Wilson and Traub played hockey for Regina. The Saskatchewan Hockey league has never lost its amateur status since that organization, although its champions have not taken part in Dominion championship competition for two years owing to its teams having reinstated professional players in their ranks. Neither Wilson nor Traub have ever been professionalized and are still eligible for Dominion championship play.

Wilson, Traub And Newell Are Eligible

It is true that Saskatoon will have a professional hockey team this year for it, but unless he has signed a professional contract, and if he has done so it is mighty hard to prove until he gets on the ice, he can continue to play as an amateur. The following is the Calgary report:

Hary Greb Won From Billy Shade

Pittsburgh, Pa., Nov. 11.—Harry Greb, of Pittsburgh, was given the newspaper decision over Billy Shade of San Francisco, in a ten round bout here tonight. Greb weighed in at 164 pounds and Shade at 172. Greb outpointed Shade throughout. Babe Moran, of New York, outpointed Ruben Battell, of Pittsburgh, in a six round go, according to the consensus of sport writers. Moran weighed 125 and Battell 120.

Second Threw Bottle In Ring

The other night in a boxing contest in a Southern city between two negro heavyweights, one of the seconds tossed the sponge in the ring and hit his fighter in the eye. This signal of defeat was to proclaim the other boxer the winner, but in some manner, ammonia was spilled on the sponge and as a result the boxer almost lost an eye. Many articles used at the ringside besides sponges have been thrown into the ring to signal a fight, but an incident out of the ordinary is reported from down in the Panama Canal Zone, where an excited second threw a bottle into the ring when he intended to call attention to the fact that he wished to give up for his man, who was being knocked around like a football. The token of defeat worked right as far as the fighter was concerned, but the referee was dragged from the ring with a fractured skull.

Rickard Is After The Lightweights

New York, Nov. 7.—Promoter Tex Rickard is seeking to popularize a new class of boxers—the 130 pounds. He is by present a diamond-belt for competition, the boxer winning title to it three times, to have possession of the trophy. In an effort to awaken interest in the junior lightweight class, Rickard is to stage a bout between Johnny Dundee and George Chaney for the title in the newly-created division. The move has brought forward the best tests from many quarters, and it is plain that junior lightweights are more numerous than was at first expected. Benny Valera, Ann Chaney, Hughie Hutchison, Bobby Michaels, Harvey Bright, Bookie Richard, Earl Harv and various others, say that they have much more to give than to compete for the title. In a heavyweight carnival at the Pioneer Sporting Club next Wednesday night, Al Roberts, the big Stateside, and Heavyweight, will meet Bert Rothersey, a young English coal miner, who comes well recommended by Jimmie Wolfe. Ten rounds is prescribed for that pair in the main event.

Obtained Newspaper Decision in Ten Round Bout at Pittsburgh Last Night.

Incidentally Georges informed Rickard that immediately following the bout with Cook he would repair to France and make all arrangements for returning to America late in December. He said that he would be ready to meet Tom Gibbons in New York any time in February, or on whatever date Rickard might decide upon.

## Sentence of Ali Brothers Deters Other Seditious

**Has Had Wholesome Effect on Other Trouble Makers in India.**  
London, Nov. 11.—(By Canadian Press).—The sentence of two years imprisonment imposed on Karam, India, recently, on the two Ali brothers, and Dr. Kichew, for attempting to cause disaffection among the troops, and sedition, removes, for the time being, three of the most active of the followers of Ghandi in his campaign of non-co-operation with the British in India.

The arrest of the Ali brothers and Dr. Kichew followed the decision of the government of India to institute proceedings against the Mahomed Ali, the younger of the brothers, and other speakers, for speeches made and resolutions passed at the All-India Congress Conference held at Harrow in July last. One of these resolutions declared that it was wholly "harsh" (unlawful) for any Moslem at this time to remain or enlist in the Indian army or to get others enlisted in it.

Decision to prosecute these offenders was made before the Moplah uprising, which occurred in the Malabar district on August 23rd, which resulted in the death of more than one thousand inhabitants, including many whites. Actual institution of the proceedings, however, was delayed by the necessity of obtaining evidence as to the exact language used by the accused. Accordingly the trial sentenced on Tuesday, the 10th, to Karam, September 15th, when they were charged with tampering with the loyalty of the troops.

The Ali brothers were not arrested until Thursday, September 15th, when they were charged with tampering with the loyalty of the troops. The Ali brothers have been a source of trouble to the Government in India for some years. In May, 1915, they were interned in the United Provinces and it was then officially stated that this action had been taken because the brothers "freely expressed and promoted sympathy with the King's enemies" in the war. They refused an offer of complete freedom of movement on the signature of an undertaking to refrain from doing, writing or saying anything which was or reasonably likely to assist the enemies of the king, unless they were permitted to add "without prejudice to our alliance to Islam."

In June, 1919, their restriction of movement to one particular area was for this was all that "interment" amounted to—was found insufficient and they were imprisoned on account of their disloyal attitude in respect to the A. F. M. or saying anything which was or reasonably likely to assist the enemies of the king, unless they were permitted to add "without prejudice to our alliance to Islam."

Their first action after being released was to attend the Muslim League meetings at Amritsar and to deliver impassioned speeches enjoining the Muslims of India to "die for their religion." Mr. Mohomed was elected leader of the Calcutta deputation which came to this country in the Spring of 1920 and was stated in the report of the Secretary of State of India and the principal minister. Returning to India, he was associated with his brother in encouraging that tragic side issue of the Calcutta agitation—the migration of pious Muslims from India to Afghanistan. Some 18,000 people left their homes in Hind and the frontier provinces of India, only to suffer severe hardships in Afghanistan and to return home after a short sojourn, sadly disillusioned and greatly reduced in numbers through the death of many old men, women and children.

## Rates For Sicilian To Boston Announced

The venture of the Canadian Pacific Steamships, Limited, into the West Indies trade with the liner Sicilian has now advanced another stage with the announcement today of the first rate schedule, which has been awaited for by rival shipping interests for some time.

The fares are listed as follows: from St. John, N. B., to Boston, \$20 and \$18; from St. John, N. B. to Havana, \$100, \$82 and \$90; from Boston to Havana, \$80, \$72 and \$64. Sailings starting December 5.

The Sicilian will thus be the second Canadian Pacific liner to carry the company's house flag into West Indian waters this winter, the Empress of Britain being scheduled to tour the West Indies and Caribbean Sea this winter on a holiday cruise of a month's duration. It will be the first time the big oil burner has gone to the sunny south.

From the Heart.  
Undoubtedly the best caddies in the world are the Scottish. You watch golf in their game, and they watch every stroke that the man they are carrying for makes; they thrill with pride when he makes a good one, and they are very outspoken when their lot is to caddy for a poor player.

A man, who was a very bad player, got into difficulties at Glenageary the other day.

After he had hammered away in vain for some time, he turned to his caddy and said:

"What club ought I to take now?"

"Mon," replied the caddy, "ye ought to take 'em all and sans awa' home; 't' ye!"

## Tugs Unsuccessfully Endeavored To Float Wreck

**Kennebunkport, Me., Nov. 11.**—An unsuccessful attempt was made on the high tide by the tug Cumberland and Scandinavia to pull off the after half of the hull of the former British steamer Wandly, which went ashore on the ledge off-Kennebunkport last week.

The stranded steamer was purchased by Howard and Horn and Levi Bernstein, of Portland, soon after she went ashore, and for several months they have had a crew of men engaged in brooding up the forward part of the craft and hundreds of tons of metal have been brought here and piled up at Turner's Island and elsewhere. The forward part of the craft is now all cleared away, and it was hoped that the after portion, the bottom being apparently uninjured, and with tight bulkheads, might be floated and beached at Turner's Island. It is believed that a sharp rock has pierced the steamer's bottom and is holding her fast, but her owners are not discouraged and will renew the attempt to float her on the next high run of tides.

## Crew of Jennie V. Merriam Now At Hillsboro

**Hopewell Cape, N. B., Nov. 11.**—The crew of the three-masted schooner Jennie V. Merriam, which was destroyed by fire while at anchor in the Pettaucoddie river on Tuesday, went to Hillsboro today, and tomorrow all will be shipped to Hillsboro, where they will be housed in the town. Captain Merriam is remaining here to meet the representative of the underwriters. The vessel was insured, but it is not known here today for what amount.

The cargo of plaster was valued at approximately \$3,000, and had been shipped by the Albert Manufacturing Company of Hillsboro. The cargo, however, was out of the firm's hands after it had been put over the rail of the schooner, and the consignees, New Haven men, are responsible for the loss. It is supposed that there was some insurance. Beyond a quantity of rope and small articles nothing of the schooner's rigging or valuable outfit was salvaged.

## Strike Is Forecast By Garment Vote

**New York, Nov. 10.**—More than 50,000 members of the New York locals of the International Ladies' Garment Workers Union began casting their ballots yesterday on the question of whether to strike the garment manufacturers that the piece work was re-established in the New York plants beginning November 14. The result of the balloting will be announced Thursday afternoon, but Benjamin Schlesinger, president, and other officials of the union, said they thought the vote would be practically unanimous for a rejection of the piece work system. Rejection, it generally is conceded in the trade, means a strike.

ARMISTICE DAY PROCEEDINGS PROVED MOST INTERESTING

Women's Canadian Club Placed Wreath on Memorial Tablet—One on Soldiers' Monument by Municipal Chapter I. O. D. E.—Over Two Thousand Dollars Obtained by Poppy Day Taggers.

Yesterday, the third anniversary of the signing of the most momentous document of all history, the armistice in the great war which for four years raged on the fields of France and Flanders and other parts of the earth on a scale never before known in history was suitably celebrated all over the civilized world, particularly by the peoples of the Allied Nations. Locally the event was marked by the observance of the silence period of two minutes at eleven o'clock in the morning, the placing of wreaths of poppies on the memorial tablet in the Post Office and the Soldiers' Monument in Fernhill and the holding of "Poppy Day" under the auspices of the G.W.V.A.

At The Post Office. The ceremony in the Post Office was under the auspices of the Women's Canadian Club. Mrs. W. Edmund Raymond, president of the club, was in charge of the arrangements and the wreath was placed by Mayor Schofield. Members of the club, the city council and many citizens attended the ceremony.

After placing the wreath His Worship delivered a short address. He paid a graceful tribute to the Women's Canadian Club, who had been instrumental in having the tablet erected to the memory of those from this city who gave their lives in the war. He reminded his hearers that the war could not be said to be over until all the boys now in hospital, suffering from its effects, were once more able to take their place in society. He also made a plea for support for the Memorial Workshop. It had been said this city had no memorial to the soldiers but he thought this workshop was a real memorial, in that it did some thing really worth while for them who were honoring the dead in the best possible way. At the present time they had ten men, all men who were more or less maimed, and these men were making many articles of furniture and finding employment in that way which they would not be able to find under ordinary circumstances. If the public would only supply a few more thousand dollars it would be possible to enlarge this work and give more employment. He also paid a tribute to the work of the local G.W.V.A. and bespoke hearty support from the public for them.

At the conclusion of his remarks the National Anthem was sung and the silence period observed.

At Fernhill. At Fernhill cemetery a wreath was placed on the soldiers' monument by

Mrs. W. I. Fenton, vice regent of the Municipal Chapter, I. O. D. E. Before placing the wreath Mrs. Fenton recited Lieut. Col. John McCrea's poem "In Flanders Fields." After the silence period had been observed Rev. R. M. Legate read the names of those buried in the plot, a portion of Scripture and closed the service with prayer.

Two Minutes Silence. At eleven o'clock, a gun boomed out from Fort McNicoll as its echoes died away all motion on the streets came to a stop. Street cars, automobiles and teams of all kinds halted and for the space of two minutes remained still. On the R.M.S.P. Chicago, now in port, at eleven o'clock two guns were fired and the flags at the mast head and stern were lowered to half mast while the crew and officers stood at attention for the two minutes. At the conclusion the bugle sounded "Last Post" and the flags were run up to the mast head again.

Successful Poppy Day. Poppy Day was a big success both from a financial standpoint and from a sentimental one as well, for the splendid response from the public demonstrated, in the most emphatic manner, that the people of this city have not forgotten the sacrifices made by the boys during the war.

Twelve thousand poppies had been allotted to the local G. W. V. A. and these were all gone before the morning was half over and a corps of young ladies was set to work to make additional flowers. These, too, were soon gone, and many who wished to secure and wear the memorial emblem were forced to go without.

Last evening the ladies' committee of the G. W. V. A. and the finance committee made a preliminary count of the money received and found that \$2,073.25 had been taken in by the taggers. Speaking last evening for the G. W. V. A. the secretary, A. L. MacInnes, said the organization was more than pleased with the financial returns but what delighted them more than all else was the fact that the public had so readily fallen in with the suggestion of wearing a poppy on Armistice Day as a memorial of the boys who had suffered and died on the fields of France and Flanders to preserve the freedom of the world. This, to their minds, disproved completely what the sceptics and pessimists had been saying for some time, that the public had grown indifferent and forgotten all about the soldiers. It proved there was still alive a sentimental regard for what had been done in the cause of right and liberty.

Another Session of Independent Labor

Talk of Running Labor and Farmer Candidates on Same Ticket—Negotiating With Albert County.

The New Brunswick branch of the Independent Labor Party held a further executive meeting yesterday evening in its hall on Church street. President F. S. McMullin presided as chairman, and the chief matter which occupied the attention of the members was the political situation in this constituency.

In the course of the discussion on this question it was brought out that a communication had been received by the executive from F. M. Thompson, of Hillsboro, who was one of the delegates to the first Liberal convention held here about three weeks ago, at which he presided as chairman. While the contents of his letter were not made public, it was declared by one of the members of the Independent Labor Party after the meeting, that it dealt with the possibility of running one Farmer and one Labor candidate on the same ticket.

It was stated also by a leading Laborite that the Liberals of Albert county had cut out from the support of the candidates of that party, and two meetings would be held on their own account in that county, one this evening and the other on Monday. In the meantime a reply, which was drafted last night by a committee of five, will be sent to Mr. Thompson in regard to the negotiations which are now taking place. This letter, it is understood, will be placed before the two meetings to be held in Albert county on Saturday and Monday. It is expected that the views of the Albert county meeting will be promptly forwarded to the executive of the local Labor party, who will hold another meeting on Wednesday evening.

In the event of the present negotiations not materializing it was stated by a prominent member of the executive that the Labor party would not support the Liberal candidates, especially the candidature of H. R. McLellan. It was pointed out that in view of the efforts extended by the party in successfully instituting proceedings for the recall of H. R. McLellan, that it strongly disfavored his candidature.

THREE AND ONE. Three drinks and one protectionist were obtained in the civic battle last evening.

J. M. Woodman, general superintendent of the G. P. R., New Brunswick district, arrived home on Thursday after an inspection trip over the lines to Edmundston, Fredericton and St. Stephen. He was accompanied by George Hodges, assistant to Vice-President C. MacTier.

Thomas Nagle returned yesterday afternoon from Montreal.

McCallum of Ottawa who is at present in the city. The deceased was of the firm of Emerson and Fisher and was widely known in the business world and as a citizen was beloved by all who knew him. He took ill about two weeks ago and on Thursday it was thought that he was improving, but yesterday he gradually grew worse, when all hopes were given up for his recovery. Death was due to heart trouble.

Robert B. Emerson was always greatly interested in the welfare of the city of St. John and is an ex-president of the Board of Trade, also chairman of the Board of School Trustees for this city. He was recently re-elected President of the Natural History Society, and is a vestryman of St. John's (Stone) Church.

The funeral arrangements will be made later.

VICTORIA WARD. Victoria Ward workers favorable to the National Liberal and Conservative party asked to meet in Victoria Hall Monday evening, Nov. 14 at 8 p. m., and thereafter for organization and ward work.

Craig And McShane Sent Up For Trial

Two Men Charged With Placing Obstructions on Street Car Tracks.

The preliminary hearing of John McShane and Leonard Craig, charged with placing obstructions on the tracks of the N. B. Power Co. in West St. John was concluded in the police court yesterday afternoon. Both prisoners pleaded not guilty, and were sent up for trial.

Magistrate Ritchie allowed the accused out on bail of a nominal amount provided by the accused themselves, their counsel, J. B. Dever and J. Wilfrid Tait, and Rev. Mr. Heaney. H. H. McLean appeared for the Power Company.

Harold C. Howe.

On the opening of the case in the afternoon, several witnesses were recalled. Harold C. Howe, a motorman, submitted two bolts which he had found on the rails at the corner of King and Ludlow streets, 4 1/2 miles near the Provincial Hospital, and three more at Fairville corner. He said he had found them all on the night of Nov. 3, and that he had run over the entire six miles near the hospital but had not been detected.

To counsel for the defence, he said he did not see either of the accused put any of the nuts on the track.

Motorman Rowley. Motorman Rowley produced three nuts which he had run over on the night of Nov. 3 between Fairville corner and the bridge. He also said he did not see either of the accused place them on the rails.

Sergeant O'Neill.

Sergeant O'Neill stated he had seen both the accused in a crowd when cars had been derailed on the West Side on different occasions, but attached no special significance to the fact.

Mr. McLean asked if McShane had a relative a former employee of the Power Co. The question was allowed by the magistrate, subject to the objection raised by Mr. Dever. The sergeant said he believed McShane's step-father had been in the employ of the company.

To Mr. Tait, the witness said from what he had seen of the accused they had always conducted themselves in an orderly manner, and had never given any trouble. This closed the case for the prosecution.

Rev. Jacob Heaney.

Rev. Jacob Heaney, pastor of the Carleton Methodist church, was then called by Mr. Dever. Mr. Heaney said he had known McShane since he was a lad of twelve years old. He had been a member of his Sunday school and church, and he believed him to be of good moral character and a good worker. He did not know Craig so well, but was of the opinion that he, too, was of good character.

Mr. Tait then moved that the case against his client, Craig, be dismissed, as no evidence had been produced to show that he was in any way connected with the case other than the very general statement of Mr. Brittain, that he had seen a short man.

Defendant Craig.

The magistrate said that if Craig were not the man he had only to take the stand and swear so. Craig was therefore called to the stand. He said that he had come to the city with McShane on the night of Nov. 3 and that they had taken a Union bus for West St. John at about 11:30. At 11:20 they were in the Victoria alleys. The two got off the bus at the corner of Ludlow and King, he said, and left for their respective homes.

To Mr. Tait he said he did not do that night, or on any other night previous, place bolts or nuts on the street car rails, nor had he been present when anyone else did so.

To Mr. McLean he said he might have told Sergeant-Detective Power that he was not with McShane on the night in question, but at the time he did not remember being with him, but did not.

Sergeant-Detective Power stated about the affair, and if he was with McShane, Craig replied that he knew nothing about it, and could not remember whether he was with McShane or not.

John McShane.

McShane took the stand in his own defence. He corroborated Craig's statement as to spending the evening of the 3rd in the city, and of their taking a bus back to the West Side some time after 11:20. He said Mr. Brittain must have been mistaken when he said he saw him in West St. John at that time. Both Craig and McShane stated they had not noticed any street cars off the track that night.

Were at Alleys.

Oscar Brantall, an employe of the Victoria Alleys, said he saw McShane in the alleys some time between 6 and 12 p. m. during the middle of the week, but could not swear as to the exact date. He said McShane usually came into the alleys some time after 10. He did not know Craig, and could not say whether he was present or not.

Magistrate Ritchie refused counsel's motion to dismiss the case, but said that in view of the nature of the evidence would allow the accused to bail pending their trial.
