FALL ANOUNCEMENT.

We have been very busy during the last few weeks, clearing out everything that we considered undesirable to carry over until next season and at the same time opening up case after case of bright, new merchandise for fall. These latter goods have been carefully gone over and marked conscientiously.

We are striving to build up a business on broad, clean principals that the public appreciate and have confidence in us is assured by the best of all proofs, namely, our ever increasing trade. No risk is taken in buying here as money is promptly and cheerfully refunded if any transaction is unsatisfactory, and further our goods are marked in plain figures, leaving customers at ease to judge of their values.

This corner always contains a true statement of our offerings and we "deliver the goods" just as advertised.

There was a slight error in this page last week, 10 yds. flannelette for 25c appearing, and customers inquiring for same found us delivering the goods, although it cost considerable to do so. When we advertise an article at half price, we cut the price in two. Others duplicate our methods, but none our prices.

Note this:—Pleasant salespeople always at your service.

WALTER GRATTON'S DEATH

Owing to some conflicting stories with regard to his son's death, Mr. James Gratton has requested us to publish the following letter:—

Victoria, B. C. July 5th, 1902. Mr. James Gratton, Miramichi, Upper Nelson, New Brunswick, Doyle's Brook, P. O.

Dear Sir, Though I am an entire stranger to you, yet hope that as I am a Catholic Priest, I may consider myself better qualified than others might be to be the bearer of the sad news concerning your son Walter Gratton.

Some time ago when visiting the Provincial hospital of this city, I was given to understand that Mr. Gratton had been brought in very seriously ill. I went at once to his bedside and found him suffering of "Yellow Jaundice". At first I thought that his strength and years might carry him through. I spoke to him however in the way to prepare him for the worst and requested that in any event he would do well to prepare for confession and Holy Communion, he agreed with me and took a few days to make his preparations.

On Wednesday of this week, I went over to hear his confession and on Tuesday morning as the doctor told me that a very serious operation might close his lips I gave him Holy Communion. Wednesday the operation was performed, your poor boy had given me your address previous to this, in order that I might write to you in case he should not recover after the operation. It became apparent that nothing could save your poor boy's life. Yesterday morning I gave him extreme unction. Last night I went over to the hospital again and remained with the poor boy to the end. He died at about half past nine while I was saying prayers for those that were in agony. The funeral will probably take place on Monday or Tuesday. May God give you and his poor mother consolation in your affliction. I am sure that the fact of your son having died after receiving the sacrament will certainly console you in your loss. I may add that while in the hospital he had every comfort and all the assistance you might have given him. May God bless you and inspire you the thought to remember the poor boy's soul in your prayers.

Yours very sincerely, Rev. J. Althoff, Catholic Priest, Victoria, B. C.

Price, 50c.

New Waistings. Silk and wool mixtures, some plain, some with pretty satin stripes, in many handsome colorings.

Price, 50 and 75c.

Curtains. We have about 10 pairs which were a little damaged during the wear and tear of the summer showing. These are on the counter at a marked down price, and the first customer gets the choice.

Biennial Convention Now in Session in Woodstock.

After service they re-formed and walked back to the Opera House, where the sessions are being held, then came the addresses of welcome by his worship Mayor Delyea, the chair being filled by John C. Ferguson of St. John, president of the association. After the mayor's appropriate and fitting remarks, a similar courtesy was paid the visitors by Warden Saunders on behalf of the county. Then the president made a brief and happy speech and some well chosen words were spoken by the secretary, J. Hamilton. Rev. Fathers Chapman and Ryan of St. Mary's responded to respective calls. This concluded this morning's session.

In the afternoon the chair was taken by the president. A grateful act was done by the association in sending a delegation to attend the funeral of Fred Moore, the well-known lumberman, who died last Sunday, and whose obsequies were held this afternoon. When the association met for business, J. P. Maloney of Woodstock was appointed assistant secretary. J. C. Ferguson addressed the order on important matters. By motion the various county officers were appointed: Robert Hughes of Woodstock was appointed door-keeper. The treasurer were appointed by the audit committee.

Woodstock, N. B., Aug. 26.—Woodstock extended a welcome by the mouth of the mayor to the visiting delegates of the Ancient Order of Hibernians who are attending the biennial convention in this town. Carleton county did likewise by the mouth of its warden. There is a very good representation of delegates, and their presence makes the town animated.

The first thing on the programme after the brethren had assembled was the procession to St. Gertrude's Church, where high mass was celebrated by the Rev. W. F. Chapman. The Hibernians to a number of not more than a hundred made a striking appearance, as in frock coats and silk hats, with their badges attached to their lapels. They marched two and two through the town. Father Chapman briefly addressed the members of the order on the virtues and uses of the organization.

The secretary's report was looked for with interest and it contained interest. He reported 19 divisions, 10 of which had been organized since the last convention. Eight divisions were organized in Northumberland county.

M. Purcell, the treasurer, submitted his report, which showed the affairs in excellent shape.

The following were the committees named:

Grievance—S. J. Murphy, Michael Welsh, T. Connolly, John Boye, Alex. Beaton, Bernard Gallagher. Provincial laws—John Brown, J. G. Haley, I. E. Shevgreen, Wm. L. Williams, D. McManus, Jerry Murray. President's address—W. H. Coates, J. P. Maloney, Thos. Dann, James Flanagan, Jas. P. Farrell. Finance—J. D. Hanlon, Wm. Terry, McManus (Halifax), R. F. Waddleton, Charles O'Neil.

C. M. B. A. Picnic at Bathurst, Monday, Sept. 1st.

The popular attraction on the picnic grounds was the baseball match between Campbellton and the C. M. B. A. team of Bathurst. Both teams lined up in the morning during a heavy rain, and consequent to the article of ball put up was not up to the standard, the grounds being muddy and the ball too wet to handle. Only four and a half innings were played and the game was called off till the afternoon with score eight to six in favor of Bathurst. In the afternoon the clouds disappeared and under a blazing sun the game went on. Great excitement prevailed throughout the rest of the game and it was a nip and tuck struggle to the end, the final score being 13 to 10 in favor of Campbellton. Mr. A. O'Keefe umpired and gave satisfaction on to both sides. The players and batting order was as follows:

Bathurst: 1st Base, Clay Adams; 2nd " T. Hains; 3rd " Art White; Pitcher J. Bertane; Catcher J. Melanson; R. Field; B. Field; C. " B. Arsenault; S. " A. Landry; S. S. P. Anderson. Campbellton: J. Gallant; B. Curry; E. Gallant; H. O'Keefe; J. Murphy; J. Walking; C. Nelson; J. Stout; R. Coes.

Dr. Cox of Chatham was shooting at the meadows Monday. He bagged a few ducks.

Mr. Geo. B. Williams, the abolitionist and entertainer, will be here for Friday evening, Sept. 12th. Mr. Williams was here last spring and entertained the Masons' friends at an "At Home" and all will be pleased to hear him again.

Clarke & Co. were too busy this week to write an ad, but bargains still prevail in the summer goods. New goods being added to the stock almost daily.

OVER THE WRIES.

Serious R. R. Accident.

GLASGOW, Aug. 30.—Twenty-three persons were seriously injured this morning by a collision between two passenger trains. One of the trains was standing at the station and the other crashed into it, telescoping two carriages. Most of the injured persons sustained fractures of limbs.

Dr. Jameson's Admission.

CAPE TOWN, Aug. 30.—Dr. Jameson made his first speech in two years to the Cape House of Assembly yesterday. He said the raid was a bad blunder, but penance had been done and he thought the affair might now be forgotten by fair-minded men.

Great Loss of Life.

CAPE TOWN, Sept. 1.—Eighteen vessels, mostly sailing craft, have been driven ashore in Port Elizabeth. Five of them were dashed to pieces and all the members of their crews were lost. Two tugs are also reported to have foundered, and a score of lighters are ashore. It is feared that there has been a great loss of life.

A St. John Man.

WINNIPEG, Aug. 21.—Fred Smith, who came from St. John, N. B., was drowned together with Owen Mardin, while sailing a canoe at Keewatin today.

Pictou.

PICTOU, N. S., Aug. 31.—Robert Bryant was found dead on the railway track early this morning. He was seen about midnight and used the track as a short cut home. His body was badly mutilated. Two trains passed over the track between midnight and the time he was found. Mr. Bryant was a middle aged man. He came here from Kent Co., N. B., about eight years ago.

JUDGE GREGORY.

Presented with an Address at Dalhousie.

At the sitting of the Supreme Court at Dalhousie on the Bastionelle Circuit on Tuesday, the 26th ult., Judge Gregory presided. As it was his first official visit to the county since his appointment as Judge, the Grand Jury presented the following address to His Honor, the same being prepared and read by their foreman, John S. Bennett, Esq.

His Honor appreciated the address and made a reply to which all the members of the Grand Jury listened attentively and with much interest.

Dalhousie, Aug. 26th 1902. To the Honorable Judge Gregory. May it please your Honor.

We, the Grand Jurors at this sitting of the Supreme Court at Dalhousie, respectfully solicit your Honor's attention to the following address which we have resolved to present to your Honor on this occasion.

We beg to assure your Honor that the announcement of your appointment to the high and responsible position of a judge of the Supreme Court of our Province afforded the people of this county the greatest satisfaction, as they knew it to be a well deserved recognition of the ability, the diligence and fairness which you always displayed during your practice as a barrister, and we are confident that the high character for which the Supreme Court of New Brunswick has always been noted, will not be lessened by the appointment of your Honor as a Judge of the same.

We are glad to be able to assure your Honor that the people of this county are law abiding citizens. They recognize the law as being entitled to obedience, always endeavoring to bring it into harmony with those principles of truth and justice of which law should be the expression. They know that without law, there can be no real freedom, as without law, justice would quickly disappear from the earth and society be disorganized and ruined.

We rejoice to know that the result of the War in South Africa where Great Britain made so many sacrifices for equal rights for all will be a larger measure of freedom for British subjects residing there in future.

We desire to say that although it was not our privilege to be present on the 9th instant in Westminster Abbey on the Coronation of King Edward the Seventh, yet we were there in spirit and rejoiced in common with His Majesty's loyal subjects throughout the Empire. We sincerely hope His Majesty may be happy and glorious.

The fact that there is no criminal matter for us to consider has been favorably commented on by your Honor. This absence of crime is very gratifying, but it is not exceptional as on former occasions it has often happened that grand jurors had no criminal cases to consider.

We hope that in the dispensation of Providence, your Honor may be granted long life and good health to enable you to discharge your new duties which as a judge of our Supreme Court now devolve upon you.

With this expressions of our sentiments and kind regards we welcome your Honor to our county, and trust that it may be your Honor's privilege as judge, to meet many Grand Jurors in this court room for many years to come.

J. S. BENNETT, Foreman

SAW TWO CORONATIONS.

Mrs. W. G. Smith, 92 Years Old, Was Present When William IV. and Victoria Were Crowned.

To have witnessed the coronation celebrations of William IV. and Queen Victoria, and to be a hale old person of keen memory and active body at the time fixed for the crowning of Edward VII. is the privilege of a very few. Yet such is the lot of Mrs. W. G. Smith of 18 Morris street, Toronto, who on Saturday, June 28, 1902, completed her 92nd year.

An interesting and eventful career has been that of Mrs. Smith, and her friends tell her she should embody her personal recollections in some permanent form. The suggestion might seem unreasonable for one so advanced in years, but the impression created upon a casual visitor was that Mrs. Smith has mental and physical capacity for a good deal of work yet. She was just taking a mid-afternoon cup of tea, the selection of young and old alike, when a reporter called upon her. The idea of telling her life story to the world is not a Canadian one. Her daughter, however, urged her to speak for her friends' sake, and she consented. The most active person of the three apparently, Mrs. Smith talked for a few minutes, then with the quickness of a girl in her teens she would turn to another part of the room to bring some memento of her life in England in connection with the royal personages she had seen.

"Yes, I was at the coronation of William IV. and Victoria," she said. "Of course I was too young to remember much of what happened when George IV. came to the throne. I was only ten years old. I remember when George III. died in 1820. I heard the Bow Bells ringing at midnight. We lived in the suburbs of London, and I remember my father kept the house closed for two or three days. When William IV. was crowned I sat in front of the door of Westminster Abbey and watched the great procession enter. I went into the Abbey immediately after, and sat in the King's chair and had a glass of wine from his glass." Mrs. Smith added with a hearty laugh, expressing the view of a nonagenarian of the act of a young girl. "The illuminations at night were grand," she continued, "though there was neither gas nor electric light then. They were of oil lamps with fancy globes."

"When Queen Victoria was crowned seven years later I again sat in front of the Abbey, where I was the other time. I remember the Queen as she walked up, surrounded by the tall guards and yeomen, the Ambassadors and foreign Princes. She looked so little, just like a child, as she passed through the aisle made by the officers and guards. "This is just what she looked like," and Mrs. Smith, her eyes lighted with enthusiasm, bounced from her chair and pointed to a picture on the wall, showing the then young Queen, of plump, girlish figure, her curls hanging over her bare shoulders. "The crowds looked like a fairy tale. You can't describe the crowd; you could walk on the people's heads," declared Mrs. Smith. "The illuminations at night were grand, and gas was used instead of oil. Thousands of people were out all night."

But the incidents in her life to which Mrs. Smith refers with the greatest pleasure are her visits to Windsor Castle. Her aunt, Mrs. William Randall, was for forty years in the royal household, attached to the service of George III., George IV. and William IV., and was a warlike woman to Queen Adelaide.

The late Queen Victoria, Mrs. Smith says, never lost an opportunity of graciously noticing this old and faithful servant of her royal predecessors. Mrs. Randall nursed George IV. in his last illness, and was present when he died. "My cousin, Mrs. Randall's son, was one of the pages to Queen Victoria. My older sister used to visit Princess Sophia of Gloucester. Once when she was a little girl she lost her way in the castle, and came down the wrong stairs. On the way she met a man who didn't know her, but on learning she was a niece of Mrs. Randall he patted her cheek and kissed her. She afterwards found it was George IV."

Among the mementoes which Mrs. Smith shows is a china water bottle which belonged to Charles I.; a copper teapot and a china plate, formerly owned by George IV.; a pin-cushion made by Princess Elizabeth, and a book presented to Mrs. Randall by Queen Adelaide, containing the Queen's autograph, the title being:

A Sluggish, Inactive Liver

When the liver is clogged by the inactivity of the kidneys and bowels, it becomes torpid and fails to filter the bile from the blood, thus producing biliousness and a general impairment of the digestive system. The tongue is coated, the head aches, digestion is imperfect; there is aching of the limbs and back, feelings of fullness, weight and soreness over the stomach and liver; the eye becomes yellow and jaundiced, and the complexion muddy; the urine is scanty and highly colored, and the bowels irregular, constipation and looseness alternating. There is little use of treating the liver separately, as it can never be set right until the kidneys and bowels are made active in removing the waste matter from the body. It is for this very reason that Dr. Chase's Kidney-Liver Pills have always proved so wonderfully successful in curing the most chronic cases of liver complaint, biliousness and complicated ailments of the kidneys, liver and bowels. One pill a dose, 25 cents a box. All dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Kidney-Liver Pills

The Unhappy Burden-Bearer Must Make Choice.

Paine's Celery Compound Takes Away The Load of Disease and Leads to New Life, Health and Happiness.

The unhappy victim of disease who has just dragged through the summer, and who is now racked with suffering and almost a physical wreck, must make immediate choice of two paths. One leads to increased misery and certain death; the other to new life, health and happiness. The use of Paine's Celery Compound is a necessity for all who seek the path of health and long years. Victims of rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, nervousness and blood diseases, quickly and surely find new life, vigor and strength in Dr. Paine's medical prescription, Paine's Celery Compound. It builds up the system, purifies the blood, braces the nerves and regulates digestion as no other medicine can do. Mrs. Clara Christie, Chagaby, P. Q., wonderfully rescued by Paine's Celery Compound writes as follows: "I can honestly say that I would not be living to-day if it had not been for your wonderful medicine. For a long time I suffered terribly from nervousness, sleeplessness, head and stomach troubles, and never received much benefit from ordinary medical treatment. I heard of your Paine's Celery Compound, and I have good reason to thank God that I used it. I can now eat well and sleep soundly, and my nervousness is a thing of the past. I now feel perfectly rested after a night's sleep, which was never the case before using the Compound. My neighbors are pleased at the great cure made by your medicine, and some are using it now. I thank you sincerely for the honest results given by Paine's Celery Compound."

John is so domestic in his tastes; said the Billville matron.

Yes, He's been all day in the hot sun trying to kill a rattlesnake to get a rattle for the baby.

LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEMING'S SPAVIN LINIMENT.

For curing lameness from whatever cause, sprains, cuts, splints, ringbone and for removing obstinate lumps and all other ailments of the horse, Leming's Spavin Liniment is the best remedy. It cures everything the fails. Do not confound this preparation with spavin cures and other preparations. Leming's Spavin Liniment is different from any of them, and the effects produced by the application of Leming's Spavin Liniment are certain and comparatively mild. Prepared by the Baird Company Limited.

Isabel—I think that editor man is simply horrid. Judith—Why? Isabel—He placed the engagement announcement of myself to young Sloppington under the head of "Business Opportunities."

NATURE'S REMEDY FOR ALL SUMMER COMPLAINTS.

It only costs Twenty-five cents to have on hand a safe and sure remedy for all Summer Complaints, Diarrhoea, Cholera, and pain. Buy a bottle of Fuller's Blackberry Cordial to-day there is no remedy "just as good," tried and tested for over twenty-five years; it regulates the bowels and relieves promptly. Useful alike to both children and adults; prepared by the Baird Company Limited.

Isabel—I think that editor man is simply horrid. Judith—Why?

Isabel—He placed the engagement announcement of myself to young Sloppington under the head of "Business Opportunities."

"Some recollections of the last days of his late Majesty King Edward the Fourth," the Queen herself being the author.

Mrs. Smith says she was not at Windsor Castle after Queen Victoria came to the throne, but she remembers having seen the present King and the late Emperor Frederick play ping-pong about when they were children.

"My people wanted me to go to see this coronation, but I did not care to. I have seen enough of the world," said Mrs. Smith, relapsing into a contemplative mood. "I had all right, but I suffer a good deal. The Almighty has been good enough to allow me to live so long. People are not as they used to be. The rising generation need more content from their parents than they are getting. I never knew what it was to go out without an invitation when I was a child."

Mrs. Smith said she was born at Woolwich, Kent, near the arsenal in 1810. She came to Canada 48 years ago, and has lived most of that time and all of the last 25 years in Toronto. Her husband, who died five years ago, was for years chief clerk and keeper for the Queen's Printer at Ottawa.

Mrs. Smith's eyes, it is set good and her daughter showed some vigor, words in which she had been long engaged writing button-holes.

It is alleged that an Irishman asked for a job yesterday at a fourteenth street carpenter's, when the following dialogue occurred.

Boss—Do you know anything about horses.

Pat—Sure, and wasn't I born in a stable?

Boss—Do you know anything about cattle?

Pat—Sure, and I'd loike to know what I don't know.

Boss—And carpentry. Do you know anything about that?

Pat—Begorra, an I'd loike to see the man as would beat me at it.

Boss—Do you know how to make a Venetian blind?

Pat—Sure, and I'm in my element at that job.

Boss—Just tell me, then, how you would make a Venetian blind.

Pat—Sure, and wouldn't Oi just poke me finger in his eye.

THE ANAEMIC YOUNG GIRL Easily Noticed by her Bleached Cheeks, Bloodless Lips, and Dull Eyes.

Perhaps she is sixteen. Suddenly she seems to lose strength. Her beauty fades because her vitality is steadily decreasing. Dark circles appear under the eyes which become listless and dull. Her spirit droops, for no girl can be contented and happy in such a condition. This may be quickly corrected by taking Ferrozone. It supplies what is lacking in the blood, purifies and strengthens it and keeps it in perfect order. Ferrozone makes plenty of red blood corpuscles that manifest themselves in a healthy, ruddy complexion. It aids the stomach to do its work, and creates a natural healthy relish for food.

Every organ of the body is benefited by Ferrozone. It rebuilds the entire system, makes new tissue, strengthens weak flabby muscles, makes this mind sharp and clear. No case of Anaemic is too chronic for Ferrozone. It may take time, but if persistently used will cure in the end. It will give you a well developed form, clear complexion, pure breath and will restore the bloom to faded cheeks and color to the lips more quickly than any other remedy.

Every woman who desires a vigorous constitution, and the good looks that come with good health, should take Ferrozone after each meal regularly. It is a wonderful tonic for the brain, the nerves and the liver injured by overwork, and it restores the harmonious regulator of the menstrual flow. In fact for all diseases peculiar to women and growing girls, Ferrozone has no equal as your druggist can tell you.

Three weeks treatment costs 50c., or three boxes for \$1.25. Sold by druggists and dealers in medicine everywhere, or sent by mail if price is forwarded to N. C. Pollock & Co., Kingston Ont.

Black walnut is less than half the weight of a corresponding quantity of ebony.

WHY SNIFFLE AND SNEEZE?

Don't suffer any more with a cold in the head, just carry a Catarrhzone Inhaler in your vest pocket, use it now and again and you won't have colds. Catarrhzone sneezes out a cold in ten minutes, kills a headache in five minutes, and had racking coughs in half an hour. Inhale the pleasant Catarrhzone vapor five minutes four times daily and it will cure Bronchitis, Lung Trouble, Deafness, Asthma and Catarrh in any part of the system. Catarrhzone is the most direct, modern, and scientific method, and is guaranteed to give satisfaction. Complete two months' treatment costs \$1.00, trial size 25c. Druggists or N. C. Pollock & Co., Kingston, Ont. Sold by A. E. Shaw.

Reg pardon, said the man who had been writing in the hotel reading room, but how do you spell innocuous?

His neighbor gave the desired information. Thanks, said the writer, and—er—er—by the way—

The other word, interrupted the bright informant, is d-e-s-u-e-t-u-d-e.

Nature's Remedy for Diarrhoea and all Summer Complaints in Children and Adults. FULLER'S BLACKBERRY CORDIAL. Price, 25 cents. THE BAIRD COY., Limited PROPRIETORS WOODSTOCK, N.B.

WEARY BRAIN WORKERS

All fagged out, ideas flow slowly as molasses, snap and energy gone! The buoyancy that made work a pleasure, that goes also. A doctor would say you are run down, enervated, neither eating or digesting enough. It's Ferrozone you need to brace up that flabby appetite and improve assimilation and digestion so that lots of pure strong blood will be formed to nourish the broken down system. Ferrozone will drive away the tired feeling, restore your spirits and energy, revive your ambition and strength for work. No tonic or re-builder like Ferrozone—try it. Price 50c. per box, or six boxes for \$2.50 at Druggists, or Polson & Co., Kingston, Ont.

Pa—Excuse me for saying it my child, but I question the pretensions of this foreigner who is seeking your hand in marriage. I believe he is a false count.

Daughter—I don't see, pa, why you should object to him on that account. In the attainment of your political aspirations you have always been particularly partial to that sort of thing.

Pa—Excuse me for saying it my child, but I question the pretensions of this foreigner who is seeking your hand in marriage. I believe he is a false count.

Daughter—I don't see, pa, why you should object to him on that account. In the attainment of your political aspirations you have always been particularly partial to that sort of thing.

Minard's Liniment Cures Burns, etc.

Dear, dear, sighed Mrs. Nulived, I suppose I'll have to take this receipted bill down to the milliner's myself. You can mail it can't you? asked her husband.

No, indeed. I've seen those large signs stuck up all over the city which read: "Post no bills."

Minard's Liniment relieves Neuralgia.

He—I love you, darling. I swear it by those lofty elms in yonder park.

She—Don't swear by those, Reginald.

He—Why not?

She—Because those trees are slippery elms.

Minard's Liniment Cures Dandruff.

And above all things, said the earnest friend, you must learn patience.

Yes, answered the graduate. We take lessons in that too. Observe the oratory we are obliged to listen to during the graduate exercises.

Minard's Liniment for sale everywhere.

Mollie—You're fond of fruit? Chollie—Oh, yes, and I'm looking for a peach with a lot of money.

I wouldn't call a girl with a lot of money a peach.

What would you call her? A plum.

GOOD HEALTH FOR CAPITAL

Maintaining good health is to the majority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it focuses new, red corpuscles in the blood, creates new, healthy nerve cells and puts into the system the snap, energy and vitality that defies disease.

Have you seen poor Annette?

Neigh. Te-he! Her master is making her wear her last summer's hat again this season.

FAMILY QUARRELS

"How many serious family quarrels, marriages out of spite and altercations of wills might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish, and to-pid digestion is impaired and temper ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensure good digestion and sound health. One pill a dose, 25 cents a box.

Yes, said the girl thoughtfully, when speaking of the dressmaker, she can fit a gown all right, but I'd hardly dare trust her with a bathing suit.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

In this new book of mine I am writing practically everything I know.

I suppose it will be very short won't it?

GOT LAME BACK OR LUMBAGO?

No need of that now. That sort of pain can be knocked out in short order, for Polson's Nervine, which is five times stronger than any other, penetrates at once through the tissues, reaches the source of suffering, drives it out and thus gives relief almost instantly. Not magic, but strength that gives Polson's Nervine this power. You will think it magic however if you try it, for you see so quickly Sold by all dealers everywhere, in 14c. 25c. bottles.

On hand and to arrive

650 tons, best screened house and steam coal, viz: Acadia and Drummond egg, Pictou, Old Mine Sydney and Reserve, Cape Breton, Albion Mines, (Blacksmith) Pictou. Delivered from vessels at reduced rates. New weight scales in working order.

SWINE RAISING IN THE MARITIME PROVINCES.

For some years the farmers of the Maritime provinces have been complaining that they could not sell their pigs at profitable prices although at the same time large quantities of pork and pork products were being brought into these provinces from outside sources to meet the needs, not only of the lumbermen, but of the city dealers in high class groceries. A few packing houses have been started, but owing to a variety of causes, they have not met with the prosperity that they should, considering the suitability of the country for the production of swine. It evidently requires the combined efforts of the farmers and the packers to remedy the anomalous state of affairs at present existing. On the part of the farmers it will be necessary to agree to furnish a certain number of pigs monthly, or better still, weekly, so that the packers will be kept busy the entire season, not rushed with business two or three months and then forced to remain idle the rest of the year. The packers should guarantee to take so many pigs per week, should buy them on foot, grade them according to quality, and pay prices to correspond with the grade. The pigs should be properly killed, dressed, and cured, so as to make the class of meats demand by the best markets. Only first class bacon that can compete with the best Irish and Danish goods should be exported to England; the remainder should be marketed in America.

To turn out the best class of goods particular attention must be given to the sort of pig grown, and the method of feeding the same. To produce the highest grade of Wiltshire bacon for export, the packers require a long, deep, smooth pig, possessing a light head and shoulder and even back, not too broad, but well covered with flesh not too fat; at the same time he must not be a razor back. The sides from ham to back of shoulder must be long and deep, the underline straight and free from flabbiness, the ham smooth and tapering with the greatest amount of flesh on the outside. The pig should be healthy, vigorous and a good feeder weighing when ready for market from 175 to 200 lbs. It is generally conceded that Yorkshires produce the greatest proportion of pigs of this type, with the Tanworths next. The thick fat American or lard breeds are not wanted by packers. Pigs should be fed wholesome and carefully selected food:—skimmed milk, barley, pease cooked potatoes, roots, green food &c. in a properly balanced ration.

I have recently received from Mr. Wm. Lilley, Sr. of St. John, N. B., a letter which summarizes the situation in the lower provinces so accurately that it is worthy of widespread publicity. Mr. Lilley says:—'My reasons for writing you are:—I am interested in the pork packing business, have learned the trade in all its details in England, and am thoroughly acquainted with the way pork is handled in that country, and what is required for the English markets, so as to successfully compete with the Danish and Irish products. I am also convinced from acquaintance with the trade in the Maritime provinces, and the ideas prevailing among the farmers about the raising of hogs, feeding &c; that they will have to be gradually educated to it. My idea is that instead of making the capital \$100,000 to \$125,000 that the pork packing business should be commenced on a small scale, as far as the Maritime provinces are concerned; this would give a chance to get clear of the bye-products in the local markets. As an instance, I would mention one that was started in Middleton, N. S., the promoters put up a big ice house and filled it with ice at a cost that would half build a small factory, and the result was that while the concern could probably handle the hogs, the farmers were unable to, or unwilling to furnish them and the company went into liquidation. While no doubt you are correct in saying that a large concern will minimize the expenses, yet there is the farmer and his education to be considered, especially in the Maritime provinces where the matter of pork raising is in its infancy and will have to be carefully nursed. Nearly all the English concerns commenced on a small scale with a small factory. All kinds of hogs could be used at first, only the choice and sizable products sent to England and the others disposed of in the local market. Then gradually impress upon the farmers the necessity and importance of attending more to the better culture and feeding of the pig, so as to come up to the Danish and Irish hog. I see some difficulty too in getting farmers in the Maritime provinces to put a large amount of money into co-operative pork packing companies. While no doubt some have money, yet it will be difficult to get them to invest it. The better way in my opinion is for some parties who are acquainted with the business to form a small company with a capital of say \$10,000, and guarantee a ready market to the farmers. This would suit the farmers of the Maritime provinces and give them a chance to go into pork raising. As it is now, some years pork is very low and others very high, like the present one. When low and no market the farmer lets his stock die out but if he was certain of a sure market at remunerative prices he would keep up and improve his stock. A few years ago a man named Pakingham came here from Ireland and tried to induce capitalists to invest in the starting of a pork packing concern, but the amount of capital was too large, hence the failure. In connection with the officers of the Maritime Stock Breeder's

The Only Liniment JOHNSON'S Anodyne Liniment advertisement with image of a man and text: 'The Only Liniment JOHNSON'S Anodyne Liniment'.

Association, I am endeavoring to improve the condition of the swine industry in the lower provinces and there is a prospect of better things in the near future. Messrs. F. E. Williams and Co., of St. John, tell me they are willing to give a guarantee that they will be willing to take, beginning next September, at least two carloads of pigs per week, buy them on foot and pay market prices. Messrs. Williams will be prepared next year to run their factory at full blast during the whole summer if the pigs are promised. Other firms are likely to take similar action and if the matter is properly pushed a good trade in bacon and other pork products should be gradually established.

THE MANAGEMENT OF FARM LABOR.— Unquestionably there is nothing connected with the business of farming which gives us as much annoyance, or which is as difficult to get on a satisfactory basis as farm labor. There are various causes which tend to bring about this state of things, and perhaps none more so than the unreasonableness of employers. Socialists tell us that the world could produce enough for its needs if every man worked but half the number of hours that is now considered a working day; but unfortunately on our Canadian farms it seems necessary for the farmer and his men to put in each day a solid day's work all the year around, and even then it is difficult to hold one's own among the keep competition. In these days when the competition between capital and labor have become so tense that a little extra strain at any time may bring about the most serious results, it is a matter of no small importance for the labor question, as it affects the farm, on a better basis. In an ideal condition of affairs, the employer would never ask or expect his men to do more work than was right or reasonable, and when hiring would in all cases be ready and willing to give a fair and just remuneration for services to be performed, and would endeavor to carry out a system of farming that would give employment to his men in the slack part of the year. The employed also would not take undue advantage of the employer because of a temporary scarcity of labor; would never shirk his work, but would be faithful in doing his duty, whether his employer were with him or not, and would in all cases be ready to put forth an extra effort at a busy time. It is scarcely to be expected however that such an Utopian state of affairs will ever exist, while frail human nature remains as it is, but by the exercise of a little thoughtfulness and mutual forbearance, the relations between employer and employed may be much improved. In considering the question of farm labor as it affects the operations and profits of the farm, and the home life of the dwellers there, morally and socially, it will generally be found on large and moderately large farms, that the employment of married men hoarding themselves, is altogether preferable to boarding men in the house. Outside the question of profits, there is the all-important consideration of home life,—the home life cannot by any possibility be what home life, ought to be, when the farm house is nothing better than a boarding house. It is not too much to say that the future life of many a bright boy and girl in this country has been a failure through to little attention having been paid to their yearning for home comforts. One of the first things to be aimed at in operating a farm in this way is

to employ none but good men, and then to do everything in reason to make their lives comfortable. Farmers have no right, even if they have the power, to make their men work from early morning until after dark at night, and looked at from no standpoint than that of personal gain, it is a very decided mistake. Incidental it may not be amiss to say that the farmer ought not to ask his sons to do what no reasonable man would expect his hired man to do. Many a good boy has been driven from home by that sort of treatment. Then again it is a matter of the first importance that the men serving shall be well treated. Their houses if not large should at least be made comfortable. The gardens attached should be large enough to enable them to grow vegetables for their own use, but not so large as to take up too much of their time, and if a few apples and small fruits can be grown on the ground, they would be more appreciated than by those who can afford to buy them. A cow is almost a necessity to a family on the farm, and an arrangement should be made to have it pastured, but on no account wintered by the farmer. It is too severe a trial of human nature to allow a hired man to feed his cow from his employer's meal box, and is almost sure to cause trouble.

The faculty of getting on well with hired men on the farm is well worth cultivating. My own experience leads me to know that if you engage good men, there is little trouble in keeping them, if we as employers, do our part. It is our duty to try to make them comfortable as circumstances will permit. If we do so we may expect faithful service and from good men we will get it. Let the rules be strictly laid down and adhered to, and on no consideration keep a man after his time is out, if he has at any time given a word of impertinence. However owing to the conditions in which most farmers are placed, the larger number of farm hands are unmarried men who are boarded in the house, and this is most likely the state of affairs that will continue for some time to come. It is difficult question to deal with, and as far as both employer and employed are concerned, it is a most unsatisfactory state, largely arising from the fact that in many sections there is comparatively little employment for one half the year; and just so long as the farmer has to look out for new men every spring, and good men find themselves discharged at the first sign of winter or before, it will remain so, and no amount of philosophizing will put it right. The rapid extension of winter dairying during the past few years has done a good deal to ensure steady employment the year round, but conditions are still unsatisfactory in many districts. In conclusion it may be said that as a general thing the best men are the cheapest. Try to get good men and where conditions will admit of it, have profitable employment the year round, and use them as you would like to be used if you were in their circumstance.

TOWARD DEATH CHAIR.

Best Removed to the State Prison—He is to die During Week Beginning September 7th.

John C. Best, of Sackville, N. B., who is to die in the electric chair during the week beginning Sept. 7th for the murder of Geo. E. Bailey, of Saugus, was secretly brought to the state prison at Charlottown early on Thursday from Salem.

A large crowd had gathered at the Salem railway station to see the murderer, but Best was taken to the North street crossing by Sheriff Johnson and Deputy Sheriff Kearney and put aboard the train before the crowd was aware that the party had left the jail.

The train left Salem at 7:32 over the western division, and arrived in Boston at 8:25 o'clock.

Best was not told until Thursday morning that he was to be taken from Salem. When the officers awakened him they told him he was to go to Charlottown immediately after breakfast. He ate a good breakfast and had all the jail people good-bye.

He was smoking a cigar given him by the sheriff when he left the jail, and seemed in good spirits.

While Best has been in the Salem jail, almost two years, he has been one of the best prisoners ever confined in the institution. He has never given any trouble. Since his appeal to the Governor he has been very restless, and at times has swung a little.

The officers arrived at the state prison with Best about 8:30 o'clock in a carriage. Best was taken inside the prison walls through the little gate reserved expressly for persons under sentence of death, and was not seen by any of the inmates of the prison, and by only such attendants as necessity compelled.

Best was received for by the warden, and the sheriff took his departure immediately, being, as he explained, in a hurry. His deputy went with him.

Best was as calm and self-possessed as he has been at any time since his arrest, and did not act in the least as if his time on earth was now to be counted by days.

He was at once placed in a cell in murderer's row, close to the room where the electric chair is located, and probably will not leave it until he is conducted to the chair on the morning of his execution. No record of him is taken, as that is not done with prisoners under sentence of death, as it is with all others who are sent to the prison.

Y. M. C. A.

Notwithstanding the fact that Sunday was a very warm day and most of people would naturally prefer to be out of doors, there was a good attendance in the Y. M. C. A. Rooms on Sunday evening, Rev. A. F. Brown was the speaker for the evening, and gave a very excellent address, closing with a strong personal appeal to those who were not already Christians to decide this important question at once.

At the business meeting last week, a number of bills were passed and ordered to be paid. A committee was appointed to procure information, as to the probable cost of fitting up another room to be connected with those already in use. The Secretary was instructed to procure a box and envelopes to be placed in the room, so that members wishing to pay their dues, could do so in this manner, when the secretary was not present.

Particular attention is called to the fact that a Public meeting will be held in the rooms of the Association on Tuesday evening, Sept. 9th. A prepared programme will be used. Subject the Cigarette. Special music will be rendered and a short address given by one of our clergymen. The entertainment will be of an interesting character, and young men are especially invited. A collection will be taken up for the purpose of procuring literature to help on this grand work.

Wants \$10,000 Damages For Alienation of Wife's Affections.

FREDERICTON, Aug. 28.—James Walker, a farmer of Peterborough, Queen's County, has entered suit in the Supreme Court, against John A. Jackson, another farmer of the same place, for seduction and alienation of his wife's affections. He claims \$10,000 damages. Mr. and Mrs. Walker have been married about eight years and the true intimacy between Mrs. Walker and defendant, which is complained of, has existed, it is alleged, for more than two years past.

The Editor's Mail

To the Editor, Sir,

The murder of young Doherty in St. John a few days ago has been the means of forcing upon the attention of the clergy of that city the moral depravity of the youths there. How to get at the root of the evil is a perplexing question. To lop off a branch here and there will not eradicate the evil. Severe treatment has sometimes to be resorted to by the surgeon in treating a disease. It is so in morals.

A meeting was held last week to discuss the matter. Many suggestions were made looking to a remedy for the evil. The one which seemed to find most favor was the ringing of the Curfew Bell. There is no doubt but that young children being allowed by their parents to run the streets until late hours of the night is largely responsible for the present state of things.

And does not this apply in a less, but proportionate degree to Newcastle? It is one of the saddest and most deplorable sights to see young children of five and six years running the streets until 10 o'clock at night, and even later. Is it any wonder that when they become older, they, in many cases become menaces to society? Is it any wonder as one passes along the streets to hear boys and girls talking the most disgusting language? Is it any wonder that so many girls are morally ruined when their parents are so foolish as to allow them to be parading the streets with boys before they have discarded their short dresses? Is it any wonder that they are the feeders of our jails and penitentiaries and brothels. And who is to blame, primarily? The parents. At the same time there is a responsibility resting upon those who have the moral welfare of the community at heart.

Would it not be well, in the interest of the rising generation (if the parents are unwilling or incapable of caring for them) if the Town Council introduced the ringing of the Curfew Bell in Newcastle? If parents feel so little interested in the moral environment of their children, the public sentiment should be such that it is able to protect itself from the immoral influences of the debased.

There are places in Canada and in the U. S., where the Curfew is rung at 8 o'clock every night when children under a prescribed age must be at home unless accompanied by their parents.

Would it not be advisable for the Council to ascertain the feeling of the community as to the ringing of the Curfew?

Yours, CITIZEN.

The old windows in St. Andrew's church, Chatham, are being removed and replaced by stained glass windows, fine in design and soft in color. They add much to the general appearance of the church, upon which nearly \$4000 were spent only two years ago. The windows are in harmony with the beautiful environment, and make St. Andrew's one of the most beautiful churches in this province. They are all presented to the church by its various organizations, Kirk Session, Trustees, Sunday School, Choir, Young People's Societies, Ladies Aid, Woman's Foreign Missionary Society, etc. The church in Chatham is in grand working order and fully equipped to do the work.

The St. John Globe of Wednesday afternoon prints the following local from our columns and gives credit thereto to the Chatham Commercial. This has not yet appeared in the Commercial's columns.

Chatham Commercial: Plans are being made for the erection of a large and up-to-date lumber mill at Campbellton by the Kilgour Shives Lumber Co., Ltd. It is expected that it will be one of the finest mills in the Maritime Provinces. Another large mill is being built at Mission Point. This mill was formerly owned and operated by the Merit, Peip and Lumber Co., but was never a success at its former locality. It has been purchased by an American company and moved to Mission Point. It will be ready for operation next season.

Young Plants

Every farmer knows that some plants grow better than others. Soil may be the same and seed may seem the same but some plants are weak and others strong.

And that's the way with children. They are like young plants. Same food, same home, same care but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an easy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food does not feed.

Scott's Emulsion really feeds and gives the child growing strength.

Whatever the cause of weakness and failure to grow—Scott's Emulsion seems to find it and set the matter right.

Send for free sample. Scott & Borne, Chemists, Toronto, Ontario. 50c and \$1.00 all druggists.

Half-Sick

"I first used Ayer's Sarsaparilla in the fall of 1848. Since then I have taken it every spring as a blood-purifying and nerve-strengthening medicine." S. T. Jones, Wichita, Kans.

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine, Ayer's Sarsaparilla. It's a regular nerve lifter, a perfect blood builder. \$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine. Follow his advice and we will be satisfied. S. C. Ayer Co., Lowell, Mass.

DOUGLASTOWN.

The Rev. Geo. Anderson of Highland Church, Boston, preached on Sabbath last in St. Mark's Church, Douglastown, morning and evening. Mr. Anderson is a native of the village and has done much for the church in his early years. Large congregations were present and the discourses were marked great earnestness and power.

On Thursday afternoon last, Mrs. D. Mackintosh, the Manse, Douglastown, assisted by young ladies of the congregation gave her annual reception to the children of St. Mark's Church Sabbath School. The weather was fine; and for three or four hours the manse overflowed with young life, ninety six children being present and sitting down to tea. With songs by the little folk and selections on the piano by the ladies, a pleasant afternoon was spent, and at twilight the children separated delighted with their visit.

W. C. T. U. DOINGS.

At the regular meeting held on Tuesday Aug. 26th, delegates were appointed to attend the Annual Provincial Convention, which will be held at St. Martins on Sept. 16th to 18th.

Lumber Camp department work was considered and decisions made to commence the work earlier than last year. All friends who are interested in this branch of work are asked to send in late Standard magazines and papers. Good Sunday reading matter is much appreciated by the men. We hope that a good variety will be supplied.

The superintendent of the department of Anti-Narcotics, assisted by a committee, is preparing to bring the subject of cigarette smoking and its dangers before the public. Copies of the law regulating the sale of cigarettes to minors has been placed in the hands of those who sell them. Parents, teachers and friends of the youths of our town will do much good by carefully guarding this law.

The Country. An Epitome of Events Gathered by ADVOCATE Reporters

CHATHAM.
 CHATHAM, Aug. 29.—We have had three days of perfect weather for haying, and a large quantity has been saved in good condition. There is still a great deal to be cut and housed as the unfavorable weather which prevailed for ten days rendered the haymakers' work impossible. The grain crop is presenting a fine appearance, some very heavy crops being observable near town, whilst down country in the Glenelg and Hardwicke districts the prospect for both grain and root crops is most encouraging.

Not very many young men left this district for the Manitoba grain fields on the late excursion. By letters received from some of those who did go, it is learned that the usual proportion of a rough element made itself felt on the trip out to Winnipeg, and by reason of looting of the wayside stores it was necessary for resident storekeepers and others to guard their premises with revolvers and shot guns until the excursion train had come and gone.

The lobster fishing season just closed has been a very successful one and the salmon fishing fair, but the mackerel fishing, except for a short season in the spring, has been almost a total failure, many boats engaged in drifting for mackerel spending whole nights in fruitless toil.

The many friends of the genial "Jack" McLaren of the Customs, were much surprised to hear of his recent accident while on an official trip on the North Shore, near Caraquet. The accident occurred by reason of the breaking of the bridle on a horse by which he was being conveyed along the coast; the carriage was upset and the occupants thrown out. Mr. McLaren had a very narrow escape from death and was rather severely injured, but according to latest accounts was making a good recovery.

The final tests of the waterworks system is to be made this week, the stand-pipe being now completed and the large pump at the station being finally in order. It is to be hoped that insurance rates will be materially reduced, as Chatham can now confidently claim to be in possession of an adequate fire-lighting plant.

Young McFairley, who was seriously injured out west some months ago, died at his residence in Blackville last week and was buried on Friday last. He received such a smashing that his body was paralysed from the breast down. He was conveyed from the state of Minnesota to Miramichi in a sort of a hammock cot and received every attention from the railroad authorities and others during the route, retiring at Montreal for a day or two.

Stewart Loggie, son of W. S. Loggie is living at his father's residence ill with appendicitis. He is in a precarious state and has suffered a good deal, but was somewhat easier last night. Mr. Loggie is home from McGill College on vacation, where he has been for some time taking a course in medicine. This is his second attack of appendicitis and it is to be hoped that he will successfully pull through it.—Sun.

JANEVILLE

We are having a terrible rainy season for the hay, but a great many of the farmers are through. The hay crop is very good.

A great many people from here have attended the picnic held at Grand Anse on the 25th and 26th.

A. E. Chapman is here again after spending a few weeks at his home in Amherst.

J. P. Côté, commercial traveller of St. John called here last week.

Mr. Thomas J. Smith spent a part of last week with friends and relatives in Black Rock.

Miss Maggie McLean of Bathurst has returned home after spending a week with friends and relatives here.

"OUR COMPOUND SYRUP OF HYPOPHOSPHITES"

gives health and strength, builds up the system and creates an appetite.

PRICE 75CTS. A BOTTLE.
 Beet, Iron and Wine, a new supply just received.

50 AND 75 CTS. A BOTTLE.
A. E. SHAW,
 Druggist, Newcastle

Dizzy?

Then your liver isn't acting well. You suffer from biliousness, constipation. Ayer's Pills act directly on the liver. For 60 years they have been the Standard Family Pill. Small doses cure. All druggists.

Want your mustache or beard a beautiful brown or rich black? Then use BUCKINGHAM'S DYE for the Whiskers. It is the only dye that does not irritate the skin. It is sold by all druggists.

O'Brien from Bathurst is Principal of the Superior School this term, with Mr. Hubert Arsenau as assistant.

Miss Mary Murphy of Tybustintac was down here last week visiting.

Mr. George Arsenau is putting up a boarding house down in the village; also Hubert Arsenau a dwelling.

Mr. Peter Archer was down here last week.—World.

TROUT BROOK.

Miss Annie Cain has lately returned home from visiting friends in Nelson. Owing to the wet weather the haying is slow this season.

The Cain Bros. are done haying now. Mr. Robert Lumsden and son are working at haying.

Mr. Karl Bering has lately purchased the John Osburn bay.

A large number of the young folks were up on a blue haying excursion. Mr. Joseph Hosford has lately erected a blacksmith shop, and prepared to do all kinds of iron and wood work.

Owing to the heavy rains the roads are in a very bad condition for driving.

Mrs. and Mr. Amos Mullin are receiving congratulations on the arrival of a baby boy.

Mr. James Street is away haying with John Allison.

BATHURST.

BATHURST, N. B., Aug. 27.—This morning about 9 o'clock Mr. William J. Melanson, living at the head of the basin one of our most respected and successful farmers, while attending to his stock was dangerously injured by a bull, which attacked him in his yard. Mr. Duncan was quickly in attendance, when it was found that one of the horns had entered Mr. Melanson's left breast, penetrated the lung. There were other injuries also, and his recovery is doubtful.

Bathurst, N. B., Sept. 1.—Labor Day is being generally kept. The grand feature is the C. M. E. A. picnic, which promises to be a great success. Many strangers arrived from Chatham and Newcastle on Saturday night's maritime express. A special train with excursionists brought the Newcastle C. M. E. A. band, and the Chatham orchestra arrived at 9.30 this morning. The town is full of strangers. Though the weather is dull everything points to an enjoyable day.

The Epworth League in connection with the Methodist church are holding their annual picnic at the Palisade Falls today.

DOAKTOWN.

Doaktown, Sept. 1.—Farmers have got all their hay gathered in which proved to be the largest crop for many years.

Mrs. Sturgeon who has been in Boiestown for the last five weeks under the care of Dr. Ervin returned home on Friday, but she has not been seen out around yet.

Mr. Hannan was over to see Dr. Wirys' on Friday and we are glad to see her attending to her household work to day.

The erection of the Baptist Parsonage is well under way here.

Elw. London of Newcastle is here housing Mr. Manny's spool wood till that gentleman is prepared to take it.

H. & F. D. Swim are building a very handsome house for Mr. Hilderbrand. Although the contract price was somewhat less than two thousand dollars, but with extra figures it will cost fully that amount when finished.

The wedding bells which have been silent for the last two years are ringing freely this summer. The last couple were married here on last Wednesday evening at the residence of the bride's mother. The Rev. Mr. King united in marriage Alexander Amos of Ludlow and Dora Mitchell of this place. The bride looked charming in a rich suit of western material. The following list of rich presents will show the high esteem the young couple were held in. A handsome parlor chair, two large parlor lamps, a glass fruit basket, four rugs, two sets of tea dishes, one glass water set, one silver pickle dish, four sets of glasses, one set of china, six vases, two glass preserves dishes and plates, one silver butter knife, two silver tea spoons, a silver butter dish, a silver berry spoon, silver pie knife, a clock, lemonade set, silver pudding dish, silver ladel, two pepper, vinegar, and salt sets, two hel spread, two sets of table linen, a set of silver rat picks, 1/2 doz. of silver knives and forks, and a great number of other handsome and costly presents.

WHY you should buy "Pay Roll" Chewing Tobacco.
 Because it is the best quality.
 Because it is the most lasting chew.
 Because it is the largest, high grade 10c. plug.
 Because the tags are valuable for premiums **UNTIL JANUARY 1st, 1904.**
 Because we guarantee every plug, and because your dealer is authorized to refund your money if you are not satisfied.
THE EMPIRE TOBACCO CO., LTD.

JUST RECEIVED.

Two cases Mrs. Pott's nickel plated cold handle Sad irons two cases wringers, warranted solid rubber rolls, five dozen cross cut saws, including the fast cutting lance tooth tin saw, 1 cask (600) sheet zinc to arrive this week. One carload of shaves.
J. H. PHINNEY.

Rev. Mr. Pickles has returned from his visit to Nova Scotia. The Wesleyan reports his presence at camp-meeting in Berwick and says that many rejoiced to see the face of Rev. F. H. W. Pickles again. He preached with old-time vigor and power. The Rev. gentleman has gone to Bathurst to supply for September.

The Supreme Court, Judge Landry presiding, meets here next Tuesday, September 9th. As there are no Civil or Criminal cases to be tried, no petit jury will be required. There will therefore only be a grand jury summoned.

FREE.

CANADA'S GREAT FAMILY PAPER ABSOLUTELY FREE.

We have made arrangements with the Publishers of the Family Herald and weekly Star of Montreal by which we can offer a subscription to that greatest and best of all Family Weeklies for the balance of 1902

ABSOLUTELY FREE.

To every person paying 40c. for a subscription to the Union Advocate for the balance of 1902, we will have the Family Herald and Weekly Star mailed direct from that office for the same period without charge.

This will also entitle you to a copy of our Illustrated Souvenir Edition, containing the celebrated poems, "In the days of Duffy Gillis", "Dungarvon's Contingent is Ready", and "The Man Behind the Boathook."

75c Worth for 40c

This is without doubt the greatest offer ever made to the public of Canada, and the sooner it is accepted the more you get.

TO OUR PRESENT READERS.

Any present subscriber whose subscription to the Union Advocate is in arrears can have the Family Herald and Weekly Star Free for the balance of the year by paying up arrears, and 15 cents, and those not in arrears can have the Family Herald and Weekly Star for the balance of the year by paying next year's subscription during September, with 15 cents additional.

We are making a big effort to run the subscription list of the Advocate up to 2000 copies before Jan. 1st, and this offer has been made especially for that purpose.

The Advocate is acknowledged to be the newest weekly in Northern New Brunswick and with some improvements which will be added this fall will make it second to none in this province.

Do not put off sending in your subscription but do it at once.

ADDRESS:--
Anslow Bros.,
 Publishers,
 Newcastle, N. B.

Messrs. C. C. RICHARDS & Co. Gentlemen.—In June '98 I had my hand and wrist bitten and mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT, which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly, A. E. ROY. Carriage maker, St. Antoine, P. Q.

A man was summoned the other day in Liverpool for refusing to renew his dog license. He tried several times to interrupt the policeman who gave evidence but was pulled up sharply. At last the magistrate's clerk turned to him and said:—"Do you wish the Court to understand that you refuse to renew your license? Yes, but—" "We don't want any but's, if you refuse to renew the license you will be fined. You know that it had expired. Yes; but so has the dog. Must I renew him too?"

Piles Dr. Chase's Ointment

This observes my companion at the quick lunch counter, is the latest concoit of the purveyors to hungry man.

Here he showed me two thin slices of bread.

And what is it? I inquired, arranging my deviled crab and lemon pie artistically before me.

This is the faith cure roast beef sandwich. You know you have the bread, but you have to turn on the faith when you wish to find the beef.

I wonder if she regrets her marriage?

Why should she? Well, you know they're both literary, and now her husband thinks she's entitled to every bright idea she has.

Jerry said Flaherty, why is it you're gittin' so proud since you're again a bit of money ahead?

Me by, 'tis like that with all the rich, said Jerry. 'Tis a measure of protection ag'in the poor relations.

He—Yes, he was a great aeronaut. They say he made nearly a hundred ascension, and the only accident he ever had was the one that proved fatal.

She—Really? And on which of the ascensions did that occur?

Slopy—The idea! I promised to pay that tailor on the 15th of this month. Here he's sent me a bill, and it's only the 1st.

Newitt—Probably he wants to get in early to avoid the rush.

As the patient returned to consciousness he saw that during a paroxysm he had kicked the covers off. Proceeding to replace them, he remarked:

Ha, ha! Despite the doctor's doubts I will recover.

First Hobo—What did you mean by telling the lady you couldn't get work at your trade? You haven't any trade.

Second hobo—Then I can't get work at it, can I?

Layers of newspapers folded evenly and placed under the stair carpet at each thread may cheaply be made to take the place of felt.

Jim Webster was being tried for bribing a colored witness, Sam Johnson, to testify falsely.

"You say the defendant, offered you \$50 to testify in his behalf?" asked the lawyer of Sam.

"Yes, sah."

"Now repeat what he said, using his exact words."

"He said he would give me \$50 if I—"

"He didn't speak in the third person, did he?"

"No, sah, he tuck good care dat dar were no third pusson round; dar was only two—us two."

"I know that, but he spoke to you in the first person, didn't he?"

"I was the first pusson myself, sah."

"You don't understand me. When he was talking to you did he say, 'I will pay you \$50?'"

"No, sah; he didn't say nothin' about you payin' me \$50. Your name wasn't mentioned, 'cepting he told me of eber I got into a scrape you was the best lawyer in San Antonio to fool de judge and de jury—in fac', you was de best in town to cover up reskilty."

For a brief, breathless moment the trial was suspended.

ONE'S POINT OF VIEW. Continued from page six.

A good sort, is the doctor, and has brought me and my children through more than one tight place. This time I was talking away at a great rate to him about my little girl, who was ill at the time, but not very ill, and I noticed that he looked as though he were a bit wearied, and I took the huff, and said that I guessed he hadn't much interest in my little girl. He's not a profane man, the doctor, and I never heard him use strong language before, but this time he broke out, "Good God, Jones, I have been in a dozen houses this afternoon and have heard nothing but stories about aches and pains until I am sick of the whole family humanity. My sympathy is exhausted, and I'll have to get a taste of something else before I get back to a normal condition."

I thought a good deal about it after he had gone away, and when I remembered all the sick people that doctors and parsons have to meet with, sometimes not very bad, and again, very, and I don't know which is the worse, and all of these grunting and groaning, it's little wonder that they get tired out. It wouldn't be a bad idea if some doctor and parson would just follow my example and tell us something of what they have to go through. Perhaps it would teach some of us a little sense.

There's another character I want to tell about and then I'll have to quit, I guess, or I'll use up all the space the editor will give me. This chap was a farmer, and his father, who was one of the pioneers in our section, left him a good deal of land, and as any man could desire. Pretty well cleared, with a nice bit of bush on the back lot, a neat house, and fences all in good condition and well stocked. Well, for a while everything went well. Bill had married a nice wife, and had three little folks growing about him, when the devil got into the Garden of Eden by telling Bill that he was a smart fellow, and that he ought to run for Township Councillor. He did run, and got in, and as he was a pretty glib talker, he didn't stop there, but was next Reeve and then Warden, and at last I'm blest if he didn't go down to Ottawa. But the farm had been going to the dogs, and Bill, who was a jovial fellow and fond of his glass, wasn't far behind the farm. I'm not going to make a long story, for it's too sad for that, but the last I heard of Bill he was driving a team for wood yard, and living in a little bit of a house that he wouldn't have put his hired man in the days when he was on the farm.

I've often wondered what use I'd make of that story if I were a preacher, for preachers are always working in things in their sermons that they have seen and known. Bill was ambitious and wanted to serve his country, and there were lots of people to tell him that he was too good a fellow to stay in a quiet life; so I am not sure that the Almighty is going to blame Bill very much. It's a queer business, though, when the drink gets hold of a man. I'm not a total abstainer, and I think that some of the women's organizations go too far; but there's no question about the mischief that's done by liquor. Even when a man sees what a fool it makes him he'll keep on.

There was a man in our town, an old bachelor and a well-educated man. He has retired from business and could live comfortably on his income, but he was drunk most of the time. He went regularly to church, and I've seen him sitting behind the pillar in the church swearing at the minister under his breath and fairly baptizing in whiskey. Well, one day he was sitting outside his house quite in view of my store when a big baker came the way came out on the street, shouting and ranting and drunk as a fool. The old gentleman I tell of was quite sober at the time, and he sat watching the baker, who was shouting, being a Scotchman. "See! said forever." By-and-by he came across the street and held out his hand in a friendly way to Macdon-

ald, but the latter got up with a look of utter contempt on his face, and saying, "Ye damned idiot," went away into the house. And that very afternoon he was out on the street drunk as ever, so that seeing ourselves as others see us doesn't cure a drunkard.—C. Karl, Corner Grocer, in The Globe.

NORTHWEST FRUIT. May Rival Crop in Ontario—Interesting Paper by Dr. Saunders.

The Geological and Biological section met immediately on the adjournment of the main body of the Royal Society of Canada in Toronto recently, and during its session Dr. Saunders read his paper describing experiments in plant breeding at the experimental farms. He described the work that was being done by the farms in endeavoring to stock Manitoba with a hardy variety of fruit. They had introduced the Siberian apple, which bears a fruit little larger than an Ontario apple, and crossed it with the Ontario apple. The result was an apple about an inch in diameter. About four hundred of these had been crossed, and last year they had thirty trees bearing fruit. This year about seventy would be producing fruit. Seedlings were being raised from the crosses, and there were being again crossed with the Ontario fruit. They retained the hardiness of the Siberian apple, but the crosses they were nearer to the Ontario fruit.

It had been found impossible to raise gooseberries because of rust, but here they were secured, and two at least are now doing well in the west. A cross between the black currant and the gooseberry had also been crossed, but the blossoming profusely, bore fruit. The fruit that was produced was of the size of a large black currant and the color of a gooseberry.

An attempt had been made to cross the sand cherry, which is found edible in some parts of the west and in others not edible, with the Ontario cherry, but had been unsuccessful. A cross between the sand cherry and two varieties of plums had been tried; both were successful. The fruit produced from this cross was smaller but possessed the characteristics of the ordinary plum.

According to Dr. Saunders' opinion it will yet be possible to produce hardy varieties of peaches, common Ontario fruits, which will thrive in the Canadian North West. Then, in addition to being the greatest wheat-producing region in the world, it will also rival the older provinces as a fruit producer. This time is believed to be not far distant either, as grafts from the present apple trees are being forwarded to farmers throughout the province.

Chemical Value of the Beaver. An ingenious chemist has made the claim that the average human being is worth about \$18,300 from the chemical standpoint. His calculations are based on the fact that the human body contains three pounds and thirteen ounces of calcium, and calcium just now is worth \$500 an ounce.

DOOM OF THE BEAVER. The Emblem of the Dominion Likely to Become as Extinct as the Great Auk or the Dodo.

Naturalists are watching with interest the extermination of the beaver by the Government to check the slaughter of the beaver. It was hoped that the law forbidding the killing of the animal or the putting of their pelts would put a stop to the slaughter, but those who are nearest the ground believe that it has resulted in very little good.

To understand how the woods have been stripped of their native animals one must know that the wild regions of Canada are parcelled out among the Indians, each having his trapping grounds which pass from father to son generation after generation. A trapper's holding will cover a river and a chain of lakes with their connecting streams, and over that region he passes back and forth from fall till spring, setting and examining his traps. Cover the whole of the north in this way, and it is easy to see how animal life would soon be diminished.

The Canadian law for the protection of the beaver does not seem able to reach the Indians. The latter remain for so long a time in the woods and are then so far from civilization that no official can keep watch over their movements. So the officials who trouble themselves about the matter at all watch the dealers and attempt to prosecute them for buying the skins.

The effectiveness of law enforcement varies inversely as one goes toward the northern wilderness. The writer once asked a Canadian sheriff if any attempt was made to prosecute the slayers of the beaver.

"We don't mind that sort of thing," said he. "In this country nothing much counts but murder. If a man commits murder he is arrested. Little things don't count for much up here."

"Enforcing game laws here is not what it is in the south. The law says no one shall kill grouse or caribou or beaver at this time of the year. But if you go into the woods you are out of reach of supplies and your food, except what you carry with you, has to come from the forest."

"There is no power under the sun to keep a man from killing what he needs to eat. If you should go to the woods now and kill grouse some quiet complaint. But if you argued that you shot them to eat because you were hungry, the law would not apply. It was a matter of self-preservation."

This is one of the difficulties of prosecuting the beaver killers. Beaver-

WE'RE IT THEY CAN'T HELP IT.

When your wheel is in need of repairs or cleaning bring it to us. We can and do give better results than you can get elsewhere.

WANTED. Junior for the Adams' School, town of Newcastle, N. B. applications, stating salary, will be received up to 25th September. P. F. MORRISSEY, Sec.

The WHIRL of the TOWN

One step won't take you very far— You've got to keep on walking: One word won't tell folks who you are— You've got to keep on talking.

The season for ducks, brant, geese, snipe, and woodcock opened Monday.

A very large crowd went down river on the Alexandra on Saturday. It was a perfect picnic day. Nearly 300 were on board.

The officers and soldiers of the Newcastle Corps, accompanied by Staff Capt. Howell, of St. John and Capt. Miller and Lieut. Girvan of Chatham spent a pleasant day at Beaubear Island, Labor Day.

Mr. John Keppeler, of Lower Newcastle, had his leg broken on Tuesday. He was stowing deals inside a steamer at Flett's mill, Nelson, and was struck by a deal. He was brought down to the Hotel Dieu, Chatham—World.

The Rev. J. R. deWolfe Cowie, M. A. Diocesan Secretary, will preach in St. Andrew's Church on Sunday at 11 and 7 o'clock, also in St. Mary's Church, Nelson, at 3 o'clock. Mr. Cowie is a pleasing and instructive preacher and no doubt the attendance at each service will be large.

Hiram Copp met with a severe accident last week. He was wheeling along the Nelson road with a companion, when a horse, driven furiously, ran into him. His face was severely injured and wheel badly smashed and Copp was unconscious for nearly three hours. The party who ran into him never stopped to see what damage they had done.

About half past seven, Thursday evening, the cylinder head blew out in the Dominion Engine Mill. The watchman, Mr. Walter McKennie of Douglass, who was standing by very near it at the time, was lifted off his feet and carried some distance by the flying cylinder head. He is now under treatment at the Hotel Dieu. His face was slightly scalded by escaping steam, and the steam wound over the left eye. He was in a semi-conscious condition yesterday, and shows no sign of improvement yet.—World.

Mr. John W. Vanderbock was in town Monday making arrangements for a grand dance at Millerton Friday night. Some of the young ladies and gentlemen are leaving Millerton and this is to be a demonstration of their departure. Everyone knows that with Jack in charge a good time may be expected and good order will prevail. Good music will be furnished and supper and refreshments served. The band will leave here at 8 o'clock returning about 2.

We have recently received a book entitled "Home Nursing," published by the Davis & Lawrence Co., Ltd., Montreal. This publication contains practical information for the performance of all offices pertaining to the sick. It tells what to do in case of accidents, treats of nearly all the diseases of which human flesh is heir, as well as containing many receipts for preparing solid and liquid food for the sick. No home should be without a copy of it. It is a very attractive book of about 50 pages, and can be obtained upon application to the publishers, Davis & Lawrence Co., Ltd., Montreal, enclosing to them 5 cents in stamps to cover the expense of mailing, etc.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce their new premiums for this season, and the public will get a pleasant surprise. Read the announcement in this issue.

Dr. R. F. Quigley, after spending a year in Paris and a month in Rome, returned on Saturday, in excellent health and spirits and very enthusiastic over his extended visit to Europe. During his stay in Rome, he already mentioned, Dr. Quigley had the very unusual privilege of a private audience with Pope Leo XIII., and on three other occasions met his Holiness. Dr. Quigley says the Pope is in excellent health notwithstanding his great age. When making a reply to an address from a party of pilgrims from England, His Holiness spoke with animation, in a clear voice, which was audible in every part of a large room. The Pope is particularly cordial to visitors from Canada, of which country he has had most favorable reports. It is Dr. Quigley's intention to remain here a couple of weeks in order to complete his arrangements for removal to Montreal, in which city he intends to make his home and practice his profession. His departure from St. John will be deeply regretted.—Globe.

Town Council meets to-night. The S. S. Bangor is loading deal at Snowball's mill, Chatham.

Labor Day was very quietly spent here. All the stores were closed. Many people went to Bathurst and a few down river.

An alarm of fire was rung in on Friday. It proved to be only a quantity of tar which boiled over in Mr. McCabe's yard.

A party of American Sportsmen went to the Tobesintac beaches on Saturday to be there for the opening season. It is a little early for big bags of game.

A little Chatham girl in saying her prayers the other night, put up a petition for her father's safe arrival at Boston, for which he had started that day, when another small member of the family expostulated with her as follows: 'Nellie, you needn't bother Jesus about that. Pa's got a through ticket.'—World.

Rogersville's annual picnic will take place on the church grounds on Sept. 8th and 9th. An entertainment will be given on Monday evening, the 8th. This picnic will be the last of the season, but not the least. Staff fare to Rogersville on the I. C. R. and branches.

As the season advances the excursions down river seem to grow more popular. The unusual mild weather has been against the success of these excursions but last week they were very popular. On Thursday and Saturday the Alexandra carried large crowds. A great improvement is noticed in respect to cleanliness, etc., which we hope will be continued. Water has been turned on in the toilet rooms, and we suppose, soap and towels, also will be supplied.

Why is it that Newcastle merchants cannot learn to patronize local industries that can supply their needs. This is something we are lacking in and ought to cultivate. The other day we were shown a piece of printing which was turned out for a business man in one of the city offices which could have been done here at this office just as neatly and cheaply, but we were never consulted and the work was sent out. This is not fair to the town. Every dollar should be kept in it and thus stimulate business. This is not only true in our own line but also in many others.

The Eastern S. S. Co. is preparing plans and specifications for three new steel propeller steamers. One of them will be the largest and most magnificent craft of her type ever constructed. She will be 325 feet long or 25 feet longer than the palatial Gov. Digby of the Portland division, will have 250 staterooms and a guaranteed speed of 20 knots. The vessels will be ready for service next season. She will embody several new features and will go on the Boston-Portland division. The other vessels, also of steel, are smaller, being but 140 ft. long. One of them is for the Bath-Boothbay division and the other for the Bangor-Rockland division service. Though small, they will be the fastest of their type afloat, with a guaranteed speed of 19 knots. Each of these craft will have plenty of hard work—hence the speed demanded.

Another report says one of the new boats will be placed on the St. John Route.

Mr. F. C. Hare, chief of the Dominion poultry division, experimental farm, Ottawa has organized a fattening chicken station at Rogersville, and has appointed Mr. Fidelle Richard, F. M. of that place operator and agent. The Department will pay 60 cents per pound live weight for chickens weighing from 3 lbs to 4 lbs and will furnish them at government expense to be shipped to the English market. The first lot will be taken Sept. 15th, second lot Oct. 13th, and third lot Nov. 10th. Lean chickens provided they are pure bred or well graded Plymouth rock or Whyandotta, and of proper weight are preferred. No black legs
