### Four Days Later from Europe!

New York, March 4th.  
The Baltic has arrived with Liverpool dates to the 20th ult.  
No tidings of the "Pacific."  
Peace conference opens on 23d. All the Emvoys had arrived at Paris. Confidence in re-establishment of peace continues.  
Excitement in England regarding difficulties with America decreasing.  
It is said a large force of British ships of war is to be concentrated in Canadian waters.  
Money more stringent. Consols, 90 1/2.  
New loan has been fixed—£5,000,000.  
White Wheat declined 1s; other Breadstuffs slightly advanced. Western Canal 34s. to 36s; Ohio, 39s.  
Other markets generally unchanged.  
The London Times says, the 50th Regiment and a Battalion of Rifles are under orders for Canada. It is also rumored that nearly every Regiment attached for home service has received intimation that their services may be shortly required in that quarter.  
Mr. Brassey.—By a decree dated "January 12," Mr. Brassey, the eminent engineer, has been appointed a Knight of the Legion of Honour. Since 1839, Mr. Brassey has been connected with the construction of the principal French railways. The firm to which Mr. Brassey belongs, it will be remembered, constructed the Balaklava Railway in the Crimea, and at the present moment they are employing an army of workmen in the cause of progress and civilization in their undertakings in England, Holland, Germany, Switzerland, Savoy, Italy and Canada.

Accounts from the Crimea to the 21st ult represent Lieut Denham Massey, 19th Regiment, the young hero of the Redan, as sitting up, and likely to be able soon to move about on crutches. This young officer, it is said to be about resigning his commission in the British service, and to enter that of the Emperor of the French as a private in a regiment of Zouaves, a rank which we venture to prophesy will not be long held by the young hero, if he gets an opportunity of active service. His relative, Capt. Godfrey Massey, of the same regiment, is also about to quit the service.—*Limerick Chronicle*.

### THE RECORD OF A TRIUMPH! CONSOLATION FOR THE SUFFERING.

There is no little consolation in the thought that, however the impostor may flourish for the season, he cannot long continue to delude mankind. How many men contrive to acquire a brief and flashy reputation, and then sink into disrepute and oblivion! This is especially true of the pretenders to medical skill, who, in an age, when diseases abound, seek to inveigle themselves into the confidence of the public, and to impose upon it with their noxious nostrums. We confess that years ago, when we first heard of the universal celebrity of Professor Holloway, we distrusted his lofty claims, and arrogated to ourselves a superiority of discernment which would not allow him to entrap our judgment. Most heartily do we beg his pardon for the unjust imputation. A careful study of his system convinced us that we were indeed mistaken, and that the world, to do him justice, should immediately, as it undoubtedly will hereafter, rank him foremost among its benefactors. He has solved the mystery of human diseases, and proved that all medical treatment, from the time of Hunter, has been based upon false premises. Jenner did not effect a greater revolution in the method of dealing with the small-pox, than Holloway has done in the ordinary medical routine of the present day.

The human blood is not a mere fluid, coursing through the veins and arteries, and partaking of the mere qualities of other fluids. It is—startling as the statement may appear—ALIVE. It is, in plain words, *the life of man*. All physiological diseases, such as indigestion, deranged kidneys, liver, heart, lungs, stomach, all impure secretions in the body, and a large majority of epidemic and endemic diseases have their origin, or, at least their exciting cause in the impure state of the blood. Cleanse that and keep it clean, and no sickness can prostrate, or even assail the system. This splendid discovery has given a lustre to Professor Holloway's name, transcending the renown of heroes and statesmen. We do not wonder at the great fame he has acquired in Europe, Asia, Africa and Australia. We rejoice that he has visited our own country, and opened an establishment in New York, which will be a very temple of health to our own citizens. His Pills and Ointment are the most wonderful sanatives which science and skill have yet produced.—*New York Sunday Times*.

### LEGISLATIVE SUMMARY.

Tuesday, March 4.  
The House this morning passed a Bill giving an extension of time to the Grand Falls Railway Company for completing the work as required by the terms of the contract.  
A Bill was also passed in committee to incorporate certain Congregational Churches in the Province.  
On motion of Mr. End, Friday next was set apart to go into consideration of Supplies to be granted for the public service.  
The committee appointed to take into consideration the proposition of the Telegraph Company for reporting the Debates, reported that it was inexpedient to entertain such proposition.  
Mr. Wilnot (in the absence of Mr. Gray) moved for the presentation of the Address respecting European and North American Railway Correspondence.  
A discussion followed, in which members of Government stated that such documents were intended to be laid before the House as usual. Mr. Wilnot withdrew his motion. Scarcely any business was transacted in the afternoon.  
Members evinced a disposition for an early adjournment, and the business of the day was brought to a close a few minutes before three o'clock.  
Messrs. Gray, Montgomery, Lunt, Waters, Sutton and Purdy have been absent since Saturday.

March 5.  
After the House disposed of routine business, several petitions for the repeal of the Prohibitory Law were presented.  
The Bill to annex a part of Long and Spoon Islands to the Parish of Wickham received a third reading.

A proposition was submitted to the House by Mr. Cutler having for its object the placing of all despatches between the Colonial Secretary and the Executive Government before the people of the Province.

Honble. Mr. Tilley laid before the House copies of Railway correspondence and Warrant returns.

Petitions having reference to the Act relating to Water supply for Carleton were presented, and referred to a Committee.

A long discussion occurred upon the Bill relating to the Grand Falls Railway. The consideration of the same was deferred until tomorrow morning.

Very little business doing. House adjourned at 4 o'clock.

March 6.  
There was no business of any consequence transacted in the House, until after twelve o'clock.

The bill to amend the Act to Incorporate the Town of Moncton received a third reading.

A committee was appointed to wait upon His Excellency with the address requesting copies of Government correspondence in relation to the Prohibitory Liqueur Law.

Several petitions for Legislative aid were rejected, in consequence of the time having elapsed for receiving them.

Another long discussion occurred upon the bill relating to the Grand Falls railway, which was ultimately rejected by a vote of 17 to 15.

The Attorney General in reply to a question put by Mr. Street, stated that the Railway papers would be laid before the House, in a few days.

Progress was reported on the bill relating to the destruction of Bears and Wolves introduced by Mr. Street; and the question of the initiation of Money grants stands as the order of the day for tomorrow.

**Food of the People of England.**—In the days of Queen Elizabeth substantial diet was confined chiefly to persons of rank and wealth. A plowman was often compelled to dine on "water gruel." The food of the laborers was coarse and deficient; their clothing was incomparably more so, and their lodgings were rude, dirty and uncomfortable. The houses even of the wealthy were destitute of glass windows and chimneys. The floors of the peasants' houses were of clay, and filled with the accumulated filth of many years. The luxury of linen was confined to the rich and high-born. Their woollen cloth was all of domestic manufacture. Tea and coffee, and to a great extent sugar, were unknown. The higher classes of society lived chiefly on salted meats. The common people seldom ate meat in any form. The ordinary fare of working men then, would produce a rot in a workhouse now. Potatoes and turnips appeared about this time. In earlier ages the people fed entirely on bread and meat. As late as 1750, out of a population of 6,000,000 in England and Wales, nearly one half were sustained by rye, barley and oats. Now, the same class of persons are consumers of wheat. The use of the po-

## Communications.

To the Editor of the St. Andrews Standard, SIR,

I beg leave again to call the attention of the Ratepayers of the Parish of St. Andrews to the facts and figures of my last letter, which "Another Ratepayer" did not dare to approach in his reply. He deals largely in a tirade of abuse, and bad names, and threats, &c.—and talks of "intermeddling"—"intermeddling!" This word smells strongly of Know-Nothingism, or rather it stinks in the nostrils of a free born citizen. He says I want to dictate. I am not in a position to dictate; and even if I were I am not a "Son of Temperance"—but I am in a position to warn the Ratepayers of the Parish of St. Andrews, of the manifest injustice about to be practised on them by the Commissioners of the Poor House; or I should say, a portion of them—for I am credibly informed that Messrs. D. Brady and John Lockhart were not consulted upon the notice in the "Provincialist" over the signature of Mr. Odell, in this dictation—or contempt—or impudence? Of course these Gentlemen must resign, after such indignity offered them. However, I am not going to trespass, beyond endurance, on your space.—The Ratepayers are, now, warned of the trick—and I trust they will not lose sight of it. I hope they will remember that the Poor Establishment is, now, the only public object left in St. Andrews upon which Gentlemen can exercise their talent,—which, if not timely prevented, "Another Ratepayer" may be the first to regret, but too late, his having undertaken the defence of its destruction. The next Grand Jury that sits in St. Andrews may "jump the cat out of the bag," and expose to public view, what, too carefully and too long, has been concealed from us.

A RATEPAYER.  
St. Andrews, 4th March, 1856.

To the Editor of the St. Andrews Standard, SIR,

I have read the letters of "A Ratepayer" and "Another Ratepayer" in your two last issues; the Commissioners of the Poor, have, certainly, placed themselves in a wrong position. To assume the right of not accepting the lowest tender to board the Paupers, is, to all intents and purposes, to arrogate the right of taxing this Parish for the difference between the lowest tender and the higher one, which they would choose to accept.—A right which the Law, nor even common sense, cannot concede to them.

JUSTICE.  
St. Andrews, March 4th, 1856.

**THE QUEEN'S PRESENT TO MISS NIGHTINGALE.**—The design—suggested by the Prince Consort—of the jewel presented by her Majesty to Miss Nightingale, consists of a white field, representing England. This is encircled by a black band, typifying the office of Charity, on which is inscribed a golden legend, "Blessed are the merciful." The Royal donor is expressed by letters—V. R.—surmounted by a crown in diamonds, impressed upon the centre of the St. George's Cross, from which also rays of gold emanating upon the field of which enamel are supposed to represent the glory of England. Wide-spreading branches of palm, in bright green enamel, tipped with gold, form a framework for the shield, their stems at the bottom being banded with a ribbon of blue enamel (the colour of the ribbon for the Crimean medal) on which, in golden letters, is inscribed "Crimea." At the top of the shield, between the palm branches, and connecting the whole, three brilliant stars of diamonds illustrate the ideas of light of Heaven shed upon the labors of Mercy, Peace and Charity, in connection with the glory of a nation. On the back of this Royal jewel is an inscription on a golden tablet, written by her Majesty, recording it to be a gift and testimonial in memory of services rendered to her brave army by Miss Nightingale. "The jewel is about three inches in depth by two-and-a-half in width. It is to be worn, not as a brooch or ornament, but rather as the badge of an order.

A railroad Law is up before the New Jersey Legislature similar in features to the law now being discussed by the Pennsylvania Legislature. It provides for the creation of an officer of railroad companies, to be called a Train Guard, charged with the special duty of watching over the safety of trains. It makes it unlawful for persons to cross railroads when an engine is near. It limits the amount of damages which may be recovered in cases of death by accident to \$6000 for each person killed. It makes railroad employees, causing death by negli-

## TOUCH MY SALARY! TAKE YOUR KUM!

During the recent long debate in the Assembly, allusion was made by Colonel Hayward in the course of his speech, to the night journey of the Hon. Mr. Tilley from Fredericton to St. John, in order to give his aid and influence to the election of Mr. Cudlipp, an extensive importer and wholesale dealer in liquors; and in doing so, Colonel Hayward said, that Mr. Tilley had acted in direct contradiction of his avowed principles. Mr. Tilley interrupted and explained, that he and his Temperance friends had supported Mr. Cudlipp at the late election, although a liquor dealer, on the ground that he would sustain Government that would carry out the Prohibitory Liqueur Law! "Then," said Colonel Hayward, "the Prohibitory Liqueur Law has become a Government measure—and the present Government mean to carry it out?" Mr. Tilley did not attempt to deny this—and Colonel Hayward went on to say, that Mr. Tilley's conduct in this matter reminded him of the Irishman who was charged with stealing the poker. Paddy denied the charge most lustily, until asked "upon his honour" whether he did not steal the poker?—Paddy immediately produced the missing article from under his coat, exclaiming, "touch my honour—take your poker!" Just as it was with the Hon. Mr. Tilley, who, as a dealer in liquor, and the continuance of the Government and the continuance of his salary were in danger, then like with their native earth, Mr. Ewbank says, it is the form and features, and not the body or substance of the dead, that should be preserved, and added:

**Loss of the Storeship Superb in the Black Sea, with all Hands.**—A wreck occurred in the Black Sea, with serious loss of life, during the 16th December—the storeship Superb, of Deptford, 380 tons, with stores for the army in the Crimea. The Superb was off the coast, at Macota Bay, when the storm came on. She broke away from her anchors, and was dashed on some sunken rocks, and although the cries and screams of the helpless crew could be distinctly heard, the continuance of the gale prevented any boat living in such a surf. The ship broke up, and every soul on board (twenty persons) perished.

**Approaching Marriages in High Life.**—We understand that a matrimonial alliance is arranged, and will shortly take place, between the lady Jane Hay, daughter of the Marquis and Marchioness of Tweedale, and sister of the Duchess of Wellington, & Sir Frederick Athar, Bart. We are also enabled to announce the approaching marriage of the lady Rachel Russell, youngest daughter of the late Duke of Bedford, and half sister of Lord John Russell, with the Lord James Wandesford Butler, son of the first Marquis of Ormonde. Sir Thomas Whitechoc, Bart. is also about to lead to the altar Miss Montgomery sister of Mr. Alfred Montgomery.

**DEATH OF THE BISHOP OF CARLISLE.**—We regret, says the Carlisle Journal, to record the death of the Bishop of Carlisle, which took place at Ross Castle, near this city, the seat of the Right Rev. Prelate, on Tuesday afternoon last, after a brief illness. The deceased Prelate, the Hon. and Right Rev. Hugh Percy, D. D., was the fifty-fifth Bishop of Carlisle. He was the third son of the first Earl of Beverley. Dr. Percy was born in London on the 29th January, 1784, and consequently he had just entered upon his seventy-third year. In 1816 he became Prebendary of St. Paul's and afterwards Dean of Canterbury; whilst there he was mainly instrumental in the restoration of Canterbury Cathedral. In June, 1827, he was consecrated Bishop of Rochester, and in November of the same year he was translated to the Bishopric of Carlisle. He was also Chancellor of Salisbury, and patron of forty-five livings. He was twice married. First, in 1806, to Mary Manners Sutton, eldest daughter of the Most Rev. Charles Manners Sutton, Archbishop of Canterbury; she died in September, 1831. By this marriage he had eleven children, of whom three sons and five daughters survive. Secondly, the Bishop of Carlisle married, in February 1840, Mary, second daughter of the late Vice Admiral Sir William Hope Johnston, by whom he had no family, and whom he survived; she died in 1851.

**SLAVE EMANCIPATION CASE.**—At New Orleans, last week, a lady who owns twenty slaves, says that she feels desirous of emancipating, applied to the First District Court for permission to set them free, and allow them to remain in the State. The jury in the case could not agree, thus virtually refusing to comply with the petition. The idea of the jurors was that there was too much of that sort of population now, and that they should be removed out of the State.

## A GOLDEN SARCOPHAGUS.

In a recent communication in the National Intelligencer Mr. Thomas Ewbank, late Commissioner of Patents, gives some important information in regard to the discoveries made in Peruvian tombs and mummies. The information is derived from W. W. Evans, Esq., a gentleman of strong antiquarian predilections, and now engineer of the Africa and Tanna Railroad in Peru. Mr. Evans states, that in making excavations for the railroad in Africa, hundreds of graves are demolished in all directions, in which are numerous Indian relics. The excavations are generally feet deep, and the soil is loose sand, as the work proceeds, everything from the top comes sliding down—dead Indians, pots, bottles, arrow heads, &c. Among other interesting mortuary Indian relics, an Indian was started out of his resting place, rolled up in a shroud of gold. Before Mr. Evans had knowledge of the incident, the workmen had cut up this magnificent winding sheet and divided it among themselves. With some difficulty Mr. Evans obtained a fragment, and despatched it to Mr. Ewbank. Mr. Evans notices a remarkable fact, that in hundreds of Indian skulls which he has examined, not one has contained a decayed tooth. Mr. Ewbank thinks the entire weight of the shroud must have been eight or nine pounds, and had it been preserved would have been the finest specimen of sheet gold that we have heard of since the time of the Spanish conquest. In some subsequent remarks upon the preservation of ancient remains, and the facility of attempting to secure the great dead from contact with their native earth, Mr. Ewbank says, it is the form and features, and not the body or substance of the dead, that should be preserved, and added:

**The mummies of Egypt** quarried for fuel, and whether their wives, their priests, or their slaves, they are split open and chopped up with the same indifference as so many pine logs. The gums and balsams used in embalming them have made them a good substitute for bituminous coal, and thus the very means employed to preserve them have become the active agents of their dissipation. So it is when the materials of coffins have a high market value; they are then seized as concealed treasure, and their contents cast out as rubbish. Like heroes in the Eastern hemisphere, the descendants of Marco and Capec were sometimes, if not always, entombed in such, and with considerable treasure besides in vessels of gold and silver; hence we learn how the Spanish conquerors sought for, often found, and often plundered rich sepulchres.

**WASHINGTON HONORED.**—Among the many demonstrations of Washington's birthday, one of the most complimentary was shown by Capt. Lang of the British mail steamer Canada, who had his ship very handsomely decorated with flags, and at noon fired a salute in honor of the occasion.—[Boston Bee.

**A good anecdote** is told of an old Methodist preacher, who rode a circuit a few days ago. While going to one of his appointments, he met an old acquaintance, who was one of the magistrates of the county. He asked the minister why he didn't do as the Saviour did, ride an ass. Because, said the divine, the people have taken them all to make magistrates of.

**A little boy** was munching a piece of gingerbread. His mother asked who gave it to him. Miss Johnson gave it to me. And did you thank her for it? inquired the mother. Yes—s. I did, but I didn't tell her so!

**LAST CASE OF COOLNESS.**—A FACT—Well, H—, I want that money when will you pay the bill? Oh! well, I'll pay it before—before you get through wanting it. It is reasonable to suppose that when a young lady offers to hem cambric handkerchiefs for a rich bachelor, she means to say in order that she may reap.

**A FEMALE RECRUIT.**—On Friday the 8th Feb., a young woman, about 17 years of age, enlisted into the 97th Regiment, a recruiting party of which corps is stationed at Windsor. Although she slept that evening in a room where there were several beds occupied by men, her sex was not discovered until next morning, when being taken before the medical officer for examination, and ordered to strip, as is usual on such occasions, she was obliged to confess that she was a woman. She was then taken before the magistrates, charged with obtaining the Queen's money under false pretences, and remanded. It is said that she enlisted in order to be enabled to join her sweetheart, who is in a cavalry regiment in the Crimea. A subscription has been commenced for her in Windsor.

**William Russel**, the Times' correspondent in the Crimea, has received the degree of LL.D. from his alma mater, Trinity College, Dublin.

FRIDAY. Another serious fire occurred on Friday morning, by which the block of women buildings on Union street, lately put up by Mr. Crosby, was almost entirely destroyed, and the adjoining house occupied by Mr. Henry Hanson, suffered much damage. The fire originated in the Bakery Shop, on the corner of Union and Cornhill streets, kept by a man named G. M. C. Another serious fire occurred on Friday morning, by which the block of women buildings on Union street, lately put up by Mr. Crosby, was almost entirely destroyed, and the adjoining house occupied by Mr. Henry Hanson, suffered much damage. The fire originated in the Bakery Shop, on the corner of Union and Cornhill streets, kept by a man named G. M. C. The boy who stands the shop, lit a pipe at 12 o'clock, and says that then all was right. Cans of kerosene oil were on the shelves, and Mr. Hanson's large stock of Calicut work was much injured. Mr. T. M. M. had a large quantity of work on the upper flat of the building, and that was also injured. The high buildings on the opposite side of the street were also much damaged, and with difficulty saved from being destroyed.

ice, extending under and beyond the snow, sent the engine off the track, down the embankment in front of Leason's Tan-yard. It fell, wheel up, in two or three feet of water. No man heard of it. The P. & M., a lad named Concoran, was badly scalded, and was nearly 20 minutes in the water before he was rescued by breaking up of the corrugated iron which formed the Engine House. There is no apprehension of serious consequences. Fortunately the rod which connected the platform car to the Engine broke, and the former was left on the road. But for this Providential disconnection, the laborers, (all of whom, with the exception of one who broke his leg in leaping off,) might have been killed or badly injured.

WEDNESDAY, MARCH 12, 1856.

THE LEGISLATURE.—Almost daily the telegraphic reports state that "little business" was done before 12 o'clock, and conclude with "the House adjourned at 5"—and sometimes earlier. We hope this state of things will not last long—as the Session is fast passing over and the people will expect something in return for the money paid to their Representatives. It is to be hoped the members will set themselves to work in good earnest this week.

Up to the present moment, after all the talk and assets respecting the successful mission of the Hon. Mr. Fisher, no Railway scheme has been brought forward—and does it appear that any plan has been agreed upon by the Executive? A part of the Railway Correspondence was laid before the House, but it was that part commencing with Mr. Ritchie's mission to England.

These papers contain the propositions of the Contractors—Messrs. Jackson & Co.; all of which were rejected by the European & North American Railway Company, who accuse the Contractors of certain breaches of faith.

That portion of the correspondence connected with the Hon. Mr. Fisher's late mission is not included in these papers, but will be laid before the House at an early day.

THE COLONIAL PROTESTANT AND PRESBYTERIAN JOURNAL.—We have received the first number of a weekly paper bearing the above title. It is a large sheet, well filled, and ably edited, by the Rev. James Bennett. We wish it the most successful success.

A question put to the Government a few days since in the House of Assembly, in relation to the Militia force of the Province, was answered yesterday by the Hon. Attorney General, who stated that the Government was at present in correspondence with the different military authorities throughout the Province, with the view of obtaining full statistical information on the subject. Nothing, he said, had yet transpired leading the Government to advise His Excellency to call out the Militia.—Reporter.

It appears from the above, that the Militia force of the Province, is likely again to be enrolled. We cannot conceive of any probable exigency requiring the Militia force of the Province, unless indeed it be the desire of some of the old officers and perhaps the young ones too, to exhibit their uniforms and feathers. Should the Militia be again called into existence, we hope some better system will be adopted for drilling the men, and requiring the officers to learn their duty. By the way, there will be an opening for a new office—such as General of Divisions.

THE EXCEPT.—It is with regret we record the departure this morning, of upwards of twelve young men, natives of this town for California; all of whom possess good characters, are industrious and respectable. To such an alarming extent has this necessity for emigration reached, that it behoves the Government and Legislature to adopt some means to induce the inhabitants to remain in the Province—by the promotion of public works and other beneficial measures—or in a very short time it will be depopulated.

A NEW KIND OF SLAVE TRADE.—A letter from Callao (Peru) says:—"The only business transacted at present is the selling of Chinese slaves, landing from American and English ships. Language is inadequate to express the horrible condition of these miserable wretches. Stolen from their homes and families, smuggled on shipboard without their consent, on the passage treated like brutes, they are brought to this coast and sold to men who have no mercy, for a nominal term of eight years, although in some instances no term of service is mentioned. An American ship sailed from China with 65 Chinese, and landed 404—leaving 201 who either died or drowned themselves on the passage. The average price realized for this cargo of human flesh was \$250 per head. The horrors of the African slave trade in the palmist days, were nothing to be compared to this.

job in other countries there are laws for the protection of the slaves; but here the master is clothed with absolute authority, and can govern his slaves as he sees fit."

MARCH 6.—Hon. Mr. Brown asked for leave to present a petition from A. T. Paul, on behalf of the Charlotte County Agricultural Society praying for a grant of money, to be enabled to publish a pamphlet on the diseases of horses. House, by a majority, refused to grant leave.

PREPARED.—The Washington correspondent of the Boston Journal, speaking of the diplomatic difficulties between the American and the British Governments, and the contingency of a hostile issue, gives us the following bit of information:

"It is well to know, however, that our Government is not unprepared, and that preparations have been steadily going on for years to meet all contingencies. Small as are our armories, foundries and arsenals, they can be easily multiplied, and there is no lack of skillful mechanics, capable of acting as foremen. Lieut. Whitmore has received an order from Col. Craig, directing Major Bell to give the 'Swampy rifle' a trial. The experiments with it are to be commenced at the Washington Arsenal tomorrow morning. Mr. Davis has presented in the House a memorial from Glover Broughton and others, of Maryland, praying that the privateer-raid engaged in the last war, be placed on an equality with those who served in the navy. It was referred to the committee on Naval Affairs, (of which Mr. Davis is an active member), and a bill will probably soon be reported. Memorials of a similar nature were sent to the last Congress, but never saw the light. If Mr. Davis acts as energetically in this matter as he did in securing the election of Mr. Banks, and will enlist his personal friends in the matter, the success of the bill may be set down as certain."

The same correspondent has the following (29th ult.): "Gen. Cushman has gone home to Bangor there to remain until the 'Fisheries Commission' resume their labors. At the mouths of the Buctouche and Miramichi rivers, the General and Mr. Perley, Her Majesty's Servants, differed widely."

We have seen in the office of the Board of Works in this City, a very ingenious model of a wharf, which has been furnished by Mr. Boyd, with the view of its adoption in the town of St. Andrews, where from the peculiarities of the shore and the extremely high tides, the common building of wharves has been found defective. It is so constructed that by an inclined plane from the surface, a second and lower landing may be obtained, at certain heights of the tide; while the upper level is suitable for landing at high water. We have no doubt that this contrivance might be made useful in many parts of the Province; and there are few who have ever disembarked at St. Andrews who will not own that there at least it is particularly necessary.—Irish Reporter.

We learn by telegraph that Mr. Needham, has been re-elected Mayor of Fredericton.

The Long Passage of the Steamship Atlantic.—The continued absence of tidings of the Steamship Pacific frequently calls forth the remark that we were forty nine days without intelligence of the steamship Atlantic, when she put back in the winter of 1855 and '51. A correspondent who was on board the Atlantic writes us that the time during which we were without intelligence from the Atlantic was understated by one day; he says "it was exactly fifty days before she was heard from in this country." Our correspondent adds that "after turning round, it was extraordinary good luck which enabled the Atlantic to reach the other side so soon. She proved herself an excellent seaboat and sailer, under all circumstances. Remembering that more than once she was 'whiffed over and righted' I still believe that the Pacific is afloat."—Boston Journal.

A vast Iron Lighthouse has been constructed for the island of St. Jacc, among the West India Islands. It is 21 feet in diameter at the base and will rise to the elevation of 150 feet to the top of the lantern. The entire work is formed of a series of cast iron plates, of about 1 1/2 inches in thickness upon the lower courses, with radiated joints, diminishing to a thickness of 3/4 of an inch in the upper courses. The lower portions of the lighthouse to the height of 25 feet, will be filled in with solid concrete.

YORK COUNTY ELECTION.—The Fredericton Reporter honestly admits that the people of York have declared themselves hostile to Prohibition. He says:—"It were a want of candour in us to deny—however humiliating the acknowledgment—that on the subject of the Prohibitory Liquor Law the County of York has, notwithstanding the sayings at so many of its public meetings, practically declared an adverse opinion. We have heard of other causes for the result of the Election; but we cannot—will not—attempt to lift the curtain. A constitutional test has been applied, and an Anti-Prohibitionist has been elected by an exceedingly large majority. The true friends of Temperance will therefore wait with an 'abiding faith' for better times and a better system."

FEMALE COMPLAINTS.—Miss Edwards, of Yarmouth, Nova Scotia, aged 18, was for a long time in a very delicate state, she was anxiously watched her daughter, and consulted many physicians in the hope of her being benefited, but she gradually grew worse and was finally thrown on a bed of sickness. At this time, finding medical assistance unavailing, the mother boldly determined to have recourse to Holloway's Pills, which she commenced using—at the first week, the improvement was so decided, that she determined to continue them, and by persevering for two months with the treatment laid down by Professor Holloway, the mother had the satisfaction of once more seeing her daughter restored to health, although her life had been previously despaired of. These celebrated Pills are a certain cure for dropsy, as well as stomach and liver complaints.

On the 25th Feb. aged 66 years, Margaret, wife of Mr. John Berrington, of St. Andrews, N. B. The deceased was a native of England, and emigrated to this country, along with her beloved husband, in the year 1831. She made a public profession of Christianity at an early age, and gave clear evidence of her unwavering attachment and devotion to the cause until the day of her death. She met the King of Terrors with Christian fortitude and resignation. She was much beloved by all who knew her, and has left an affectionate husband and many friends to mourn her loss.—Com.

At St. John, on Friday morning, after a short but severe illness, fully resigned to the Divine will Elizabeth Smith, the beloved wife of Mr. L. H. Waterhouse, in the 43d year of her age, leaving a husband and two children, with a large circle of relatives and friends, to deplore their loss.

Miss Waterhouse has eldest daughter of the late Mr. Samuel Watts of this place, and was dearly respected by a large circle of friends, who sympathize with her family in their bereavement.

At St. John, on the 1st Inst. Mary Ann, wife of Mr. John Adams, formerly of this town, aged 49 years, deeply regretted by her relatives and a large circle of friends.

**E. D. SPEAR,**

INDIAN DOCTOR,  
18 Kneeland Street, 20-1-13, Mass.  
Will give great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites envy in the hearts of many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day are prepared from recipes which are believed to have originally been received from the Indians, and handed down for several years ago. No other remedies deserve the name of Indian.  
DR. SPEAR'S  
GREAT INDIAN MEDICINE—  
(For names and description see his Family Physician)—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.  
Are certain cures for  
Asthma, Ague and Fever, Interic tick, Boil, Rheumatism, Cancer, Gout, Consumption, Cough, Constipation, Cramps, Debility, Diabetes, Derangement of the Bowels, all humors in the blood, Giddiness, Headache, Inflammation of the eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.  
Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weakness, Prolapsus Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.  
DR. SPEAR'S  
Is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.  
Dr. Spear is now being visited by one thousand patients every month, some of whom have hundreds of miles to consult him in to obtain his medicines.  
Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician who will effect a cure, his bill not exceeding \$100.  
Persons at a distance can transmit him by letter, enclosing a stamp to pay the answer.  
Dr. Spear consults with patients at his Office No 18 Kneeland Street, upon all conditions and diseases of the system, free of any charge.

**DR. BRONSON, AND C. C. BEERS,**

ARE happy in announcing that STAMMERING can be PERMANENTLY CURED by Medicine and Vocal Gymnastics. It is first treated as a Nervous Disease, (like St. Vitus' Dance, Epileptic Fits, &c.) and then the habit, incident to the disease, is corrected by exercises in Elocution. Mr. Beers has been an inveterate stammerer for thirty-five years; has attended many institutions for the cure of stammering, and expended hundreds of dollars without any permanent benefit, but cured himself, 18 months ago, and has ever since remained so. With the same means, we have cured others, to whom we would gladly refer any applicants—not having failed in a single instance. Being satisfied from reason, experience, and observation, that stammering is the effect of a Nervous Disorder, and can be perfectly cured by the above means in the course of two or three weeks, we assure all interested of these gratifying results, and guarantee a permanent cure, or refund the small fee paid in advance. Those desiring further information on these subjects, (including terms, guaranty, &c.) can obtain it from our New Work, just issued, on Stammering, its Effects, Causes and Remedies; Illustrated by One Hundred Engravings; Price, One Dollar; on the receipt of which the Book will be sent without expense, and the money thus paid will be credited to the bill for Treatment. Board, etc, furnished on reasonable terms.—Address Bronson & Beers, 189, Washington Street, Boston, Mass.

Ufford's Smoke Consuming Patent Lamp.

Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements. Price \$1 25, 83c. 67c.

We have one of the Lamps in use, and are able to confirm to the favorable testimony of the Traveller, having found it answering well to what it claimed for it. (Paritian Recorder.) No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. (New England Farmer.) Boston, 117 Court street, head of Sadbury.

### LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK? It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD. These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS. Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY: ILL HEALTH. Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS. No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

- |                    |                    |
|--------------------|--------------------|
| Ague               | Jaundice           |

### A MARVELLOUS REMEDY FOR A MARVELLOUS AGE!

Holloway's Ointment.

THE GRAND EXTERNAL REMEDY! By the aid of a microscope, we see millions of little openings on the surface of our bodies.—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every household knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS. No remedy has ever done so much for the cure of diseases of the Skin, which form they may assume, as this Ointment.—Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence.—The inventor has travelled over many parts of the globe, visiting the principal hospitals dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS. Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

PILES AND FISTULAS. These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot. Both the Ointment and Pills should be used in the following cases:

- |                    |                      |
|--------------------|----------------------|
| Bad Legs           | Chiefo-foot          |
