

We learn with regret, that nothing was done at the late meeting of the County Council, to assist in extending our Railway to the Ottawa, so as to secure the extensive traffic which flows up and down the valley of that river. There still remains, we believe, at the disposal of the Council, a balance of the Municipal Loan Fund, amounting to about \$10,000, which would have gone very far towards completing the Road to Pakenham or Annapolis, because it is graded nearly to the whole distance, the ties are on the ground, and the iron on hand. To lay the track, and finish the bridges at Almonte and Pakenham, both of which are pretty well advanced, would not have cost a very large sum; and the Ottawa once tapped at Annapolis or Roddy's Bay, there is not the least doubt, that the Road would not only be self-sustaining, but would furnish a surplus to pay interest, and other charges. We cannot but admire the caution of our Council in reserving the \$10,000 to meet the interest; but at the same time, we are inclined to think that their policy will turn out to be shortsighted. The money will soon be done, and the Road, in an unfinished state, cannot be expected to do more than pay running expenses; but if it could be pushed through to the Ottawa, this reserve would be unnecessary, for if we can judge from what it has done, so far as completed, it would be one of the best paying Roads in Canada.

While on this subject we may explain the position of the Municipal Loan Fund, so far as these Counties are concerned, for there seems to be a good deal of misapprehension with respect to it. The amount borrowed by the United Counties of Lennox and Renfrew was \$200,000, on which six per cent interest, and two per cent, as a sinking fund, was to be paid, making an annual payment of \$16,000. Up to December 1858, about \$2 thousand dollars had been paid back to the government on account of interest and sinking fund; but there was, of course, a considerable balance still due; our Counties in common with some seventy-two other municipalities in Canada, being in default. Seeing the utter impossibility of ever collecting the large amounts falling due, the Legislature, at its late session, wisely determined to provide for a considerable part of the interest from other sources, and consequently an act was passed limiting the amount to be paid by the municipalities, to one shilling in the pound, on six per cent of the assessments. This a person assessed for one hundred pounds, the interest of which is six pounds, will pay only six shillings. Now taking the assessed value of property in Lennox and Renfrew, in 1858, as the basis of our calculation, we will pay, instead of \$16,000 a year, but \$2,100, or about one and a half per cent for the money, a very small amount indeed, as compared with the advantage of the Road to every individual in the Counties. This reduced amount being all that we are now, by law, required to pay for our loan to the Railway Company; if it could be secured to us in some way or other, we should be inclined to recommend that the mortgage which we hold on the Road should be cancelled, and then the Company would be in a position to raise funds to complete the work to Pembroke.

The anniversary of St. John the Baptist was duly celebrated by the Masonic fraternity on Friday last. Our village during the whole day bore the semblance of a regular holiday. About nine o'clock Mr. Lavallee had his place prepared for the reception of the craft, by placing an arch of evergreen over his gateway, and the yard decorated with a row of balloons, leading to the Masonic Hall. At ten o'clock the members of St. John's Lodge, of this place, assembled at their lodges rooms and opened the lodge. Bro. McNeilly, Esq. (Pastmaster) in the absence of our Worshipful Master, presided. Between eleven and twelve o'clock a procession was formed, and about 17 members from True Briton Lodge, Perth, and several members from other lodges. The procession in martial order, headed by the Almonte Brass Band, and marshaled by Dr. Mouton and Mathew Anderson, of Almonte, walked through all the principal streets of the village. And at one o'clock the large procession with a crowd of persons of both sexes, proceeded to the Methodist Chapel, where a discourse was delivered by the Rev. W. C. Clarke, chaplain of True Briton Lodge, Perth. The subject which was for the benefit of the craft, was handled in a masterly manner. Precisely at three o'clock the fraternity, about fifty, set down to a sumptuous dinner, provided by our kind and hospitable host, Mr. Lavallee. After the cloth was removed the following toasts were given:—

1. "The Day we celebrate." 2. "The Queen and the Craft," which were drunk with all honors.

At this stage of the proceedings, the whistle and snort of the train horse announced that the cars were waiting to convey back again the visiting brothers from Perth. A procession was formed to escort them to the Depot. After escorting the Perth brothers to the depot, the members of St. John's Lodge, and other visitors, marched back to the Masonic Hall to close up the business of the day. And thus terminated one of those Masonic gatherings, the tendency of which is to cement in closer bonds those mystic ties of Masonic Brotherhood.

Our columns, to-day, contain the news of the fall of the Derby government, which have found it necessary to give way to its opponents. We hope the colonial policy of their successors will be as liberal as that of the Derby administration.

PARL.—The old frame building in this village, known as the "Factory," was burned down, about two o'clock on the morning of Saturday last. It was through the strenuous exertions of our citizens that the adjoining houses were saved and the fire confined to the building in which it broke out. It contained no machinery, and as it was not inhabited by any person, the cause of the fire is not known. Some appear to think that it was the work of an incendiary; but we cannot believe there is any person in this place so evil disposed and full of malice, as to set a destructive element in motion, which might have consumed the greater part of our village. Others attribute the fire to accident, and state that a back or side door was open at all hours, both by day and by night, and that the building was used, for several months past as a place of common resort for the lower class of people, and that ignition might have taken place by a coal from some drunken fellow's pipe, or from the dropping of a burning match. It is also said that ashes had been stored in the building, and that smoke was issuing from one of the chimneys on the day previous to the burning. We understand that the house belonged to Mr. Muirhead of Beckwith, and we have been told that it was insured for five hundred dollars—a pretty large sum, and much more, we think, than its real value.

We think, for the credit of the place, as well as its safety in future, that it is the imperative duty of the authorities here to hold an inquiry, and investigate the matter thoroughly.

The trial of John McLaughlin now going on at Chicago, for throwing a train of cars on the Galena and Chicago Railroad, off the track, has disclosed a most daring and diabolical gang of villains both male and female. The members of the gang are located at Buffalo, Cleveland and Chicago, and it seems they are engaged in murders by all sorts of devices, such as poisoning, arson, and railroad obstruction. Several criminal letters between two female friends in Buffalo, and an accomplice in Chicago, disclose the whole matter, and the entire plan of operations. From these it appears that a number of persons have fallen victims to their nefarious schemes, and how many have suffered by others' hands can hardly be conjectured. The discovery may account in some measure for many of the secret murders by poison and other means, accidents of railroad trains &c., that have been so numerous of late.

It is expected that the trial trip of the monster steamer Great Eastern, which has been dragging along slowly for several years towards completion will take place in July, sailing from Weymouth, England, to the middle of the ocean and back again, to test her qualities under all possible conditions of sail and steam. Hundreds of workmen are now engaged on this vessel, and should England engage in the war, it is intended to employ her for running down the war-ships, one after another, of the opposing fleets!

A disease termed Diphtheria, or core throat, is rapidly spreading in some of the counties in England. In some of the Eastern and North-western counties from one-third to one-half of the deaths have been caused by this disease; and for several weeks past the deaths, from this cause in London have averaged about twenty. Her Majesty's Privy Council have applied to the guardians of various parishes for information as to the localities in which the disease exists, and its extent. The London Lancet says:— "Diphtheria is still seen, sometimes coincident with croupal affections, sometimes following in the wake of scarlatina; unquestionably a type of disease wholly distinct from scarlatina, since it constantly infests districts where scarlatina does not exist; and again, is found a dangerous enemy during convalescence from scarlatina; chiefly fatal to children less than six years of age, clearly aggravated by those incidents of miasm and putridity which feed all zymotic disease, but still existing, independently of them, in well drained and otherwise healthy districts; with more than common energy, in the marshes of Essex and Lincolnshire; and visiting those miserable huts on every moor and lowland, and wholly destitute of all necessary sanitary arrangements."

LARGE STRAWBERRIES.—We have received a dish of Strawberries, grown in the garden of William Peden, Esq., of this place, which are the largest in size we have yet seen. On an average, they measure three and one-half inches in circumference; and some of the larger ones measure four inches! Who can beat that?

A notice has been issued from the Post Office Department, Toronto, announcing that from and after the 1st July letters posted in Canada, for any place within the Province, if prepaid may be sent for 5 cents, or 3d currency per half ounce, but if posted unpaid the charge on delivery, will be 7 cents, or 4½d per half ounce.

The next sitting of the Third Division Court for these United Counties, will be held in the School House, in Carleton Place, on the eleventh of July next.

The Upper Canada Provincial Exhibition will take place on the 26th of September next at Kingston.

DECREASE IN POPULATION.—Some journals are raising a great outcry about an alleged decrease in the population of our cities, and our Gazette Advertiser says there are 800 tenements vacant in Hamilton. "There is little doubt that, in times of pecuniary pressure, multitudes leave the cities and seek a maintenance by working in the country, where, if there is not much cash, there is at least plenty of eat. But the story about the empty tenements here is not correct. There are many houses vacant, no doubt, but there are many new ones which have been built within the last twelve months, and not a few being put up now. Work can be done much more cheaply now than usual, and those who can afford to move from an old frame house into a new brick dwelling are doing so.—Spectator."

ARRIVAL OF THE KANGAROO. New York, June 21. The steamship Kangaroo, from Liverpool on the 8th inst., etc. Queenstown on the 20th, has arrived. Her arrival is one day later. It was reported that General Canrobert had died of his wounds. General D'Angely, commander of the Imperial Guards had been promoted. General Cerrier was killed in the battle of Magenta. He was not far from the Emperor at the time. Napoleon is said to have been in the midst of the Imperial guard during the stand of two hours made against the Austrians, who, it appears, were aware of the fact. The total loss of the Austrians are estimated at 13,000 to 14,000. Napoleon's King Victor Emmanuel came to Milan and were enthusiastically received. A Turin despatch of June 7th says, that the first private letter from the battle field of Magenta had arrived there. The Imperial and Sardinian guards were against the Austrian Maines; the guards were attacked, and were unable to advance, but nevertheless resisted the enemy. The Zouaves and Gurkha lost and retook their position. At a General Noll's army assumed the offensive movement, which is irresistible. The enemy endeavored to surprise the right wing of our army, but was repulsed. General McMahon rendered the attempt ineffective, so that the efforts of the enemy were reflected somewhat for a moment, and the conflict then began with renewed fury. General McMahon was triumphant and the battle was won.

OFFICIAL BULLETIN. Turin, Wednesday. That part of Upper Lombardy which has been freed from the Austrians has proclaimed Victor Emmanuel King. Volunteers are rapidly arriving to join Garibaldi's corps, which is pursuing the enemy beyond the Mincio. M. D'Urban's army after a retreat from Vercas has been dispersed and is scattered. Soldiers have been taken prisoners and dispersed. There are still 5,000 Austrians at Livorno. A detachment of Garibaldi's corps have sailed along the shore of the Magenta district, among the Austrian Custom House Guards; and everywhere carrying off the public treasure. NAPLES. France has appointed an ambassador to Naples. The Neapolitan Ministry has been modified. An official declaration of neutrality has been made. A levy of 2,500 men for the navy has been ordered. Further details of the battle has been received in London by Telegraph. A Vienna despatch says that among the wounded at the battle of Magenta were Baron Rieisschek, three Generals and three Staff Officers. Two Staff Officers are missing; and a Turin despatch of June 7th, says there were 120,000 Austrians in the battle, of whom 20,000 were placed hors de combat, and 7,000 made prisoners.

THE LATEST TELEGRAM. ADDRESS TO THE MUNICIPALITY OF MILAN. The Municipality of Milan delivered, in the presence of the Emperor, at the head quarters to-day the following address to the King:— "The Municipality of Milan is proud of being able to make use of its most precious privilege, in being the interpreters of their fellow citizens at this grave crisis. They are willing to renew the peace of 1844, and to proclaim again before the Italian nation, the great faith, which has required eleven armies, its full development in the intelligence and acts of the people."

The annexation of Lombardy to Piedmont has been this morning proclaimed by us, at the very time when the artillery of the enemy could have thundered against us, and while her battalions were even in our public places. The annexation of Lombardy to Piedmont is the first step in the new way of public right, the new way of their own destinies. The heroic Sardinian army, and our brave allies, who in fact upon Italy being free, as far as the Adriatic will soon achieve the magnificent enterprise. Receive, Sire, the homage of our hearts belong entirely to you. Our cry is—the King and Italy for ever. Signed by seven Assessors of the Municipality.

THE KILLED AND WOUNDED AT MAGENTA. Vienna, Tuesday, June 7.—Among the wounded at the battle of Magenta are Baron Rieisschek, three Generals, three officers, and two Staff Officers. The heroism of our brave army, and our brave allies, who in fact upon Italy being free, as far as the Adriatic will soon achieve the magnificent enterprise. Receive, Sire, the homage of our hearts belong entirely to you. Our cry is—the King and Italy for ever. Signed by seven Assessors of the Municipality.

FRENCH FUNDS. Paris, 12 32 p.m.—The Bourse opened firm. Rentes 43.10, ex coupon. 2.25 p.m.—Bourses closed very firm; 63.30 for money, and 63.15 for account, or coupon, being a rise of 1 per cent, since yesterday. RAISING SUNKEN VESSELS BY THE AUSTRILIANS. BERNE, Tuesday, June 7.—At Livorno, a part of war on the Lora Maggiore, the Austrians have raised from the bottom of the lake some barges which had been scuttled and sunk, and have laden them with various articles, to be towed by steam to Switzerland.

THE BATTLE OF MAGENTA. PARIS, Tuesday, June 7.—An immense effect has been produced here and throughout France by the news of the victory of Magenta. It is positive that the French have taken 26 guns, a Great Eppus and Clerc are killed. The French corps which suffered most are the Zouaves and the Grenadiers of the Imperial Guard.

THE WAR FEELING IN GERMANY. DARMSTADT, June 5.—At the opening of the Chambers, the Presidents of both branches of the Legislature declared in favor of war against Louis Napoleon. The Post says that General McMahon was raised on the battle field to the rank of a Marshal of France. The Post says that the position of the Austrians has now become critically critical. They will doubtless attempt to reach Lodi, on their way to Verona and Mantua, on which it is also very certain they must fall back. But the French, already masters of Milan, will probably endeavor to intercept their retreat. Another more eventful, and if possible, even more decisive combat may, therefore, take place in the neighborhood of Lodi.

The Monitor also publishes General McMahon's report of the passage of the Ticino at Turbigo by the allies on the 3rd June, and of the surprise of the enemy at Robecchetto, by which considerable loss was inflicted on the Austrians. He says:—"We have lost one Captain and seven privates killed, and four officers, among whom is one Colonel, and thirty-eight privates wounded. The Emperor has ordered the arms of the killed and wounded, officers and privates, to be sent by the Minister of War, to those persons who may be interested in their recovery."

ARRIVAL OF THE OVERLAND MAIL.—NEWS FROM FRASER RIVER. St. Louis, June 22. The Overland Mail arrived here last evening, bringing dates from California, as late as the 29th ult. The papers are almost entirely barren of news. Business done. No prospect of a very speedy revival, owing to the large stock of merchandise on hand.

TRISTE, June 6.—Near Bincho, yesterday, the Austrian war steamer Brig captured the French steamer Ravel, of Nantes, bound from Cuba for Trieste, with a cargo of coffee. There is nothing to confirm the news from Frankfurt, which alleged that in a second engagement but the French had been driven across the Ticino.

THE QUEEN'S SPEECH. The real business in Parliament commenced on the 7th inst., when the Queen in person delivered the following speech:— "My Lords and Gentlemen:—I avail myself with satisfaction of the present opportunity to lay before you the state of my Kingdom, which I have summoned to my parliament with the least possible delay. I have directed that papers shall be laid before you which you will learn how earnest and unceasing has been my endeavors to preserve the peace of Europe. These endeavors, have, unappreciated, and war has been declared against France and Sardinia on the one side and Austria on the other. Receiving assurances of friendship from both the contending parties, I need to maintain between them a strict and impartial neutrality, and I hope with God's assistance, to preserve to my people the blessing of continued peace. Considering, however, the present state of Europe, I have deemed it necessary to the security of my dominions and to my crown, to increase my naval forces to an amount exceeding that which has been sanctioned by Parliament. I rely with confidence on your cordial concurrence in this precautionary measure of defence."

THE AUSTRIANS DRIVEN FROM MARGANO. The Royal Mail Steamship Service, June 21. The Austrians are retreating across the River Adige. The British General Galt's official report of the battle of Magenta. The Austrians have been killed and wounded from four to five thousand men. The loss of the enemy is at least half as much again. Every line of this report proves the heroic and gallant efforts of the Austrians to withstand the attacks of the enemy.

LIVERPOOL COTTON MARKET. Sales of the week 28,000 bales, of which 10,000 went to speculators, and 5,500 to exporters, with a decline of one-sixteenth of a penny mostly on the middle qualities, while the lower qualities were difficult to sell at one-eighth of a decline. The market closed dull. Sales on Friday 6,000 bales, closing with a declining tendency. The following are the authorized quotations:—Fair Orleans 84; Fair Mobile 77; middling do 63 to 65. Stock in port 619,000 bales of which 577,000 were American. The Manchester market was quiet—but prices were steady and rather firm. New Orleans Tri-Ordinary at Havre, was 106½, do Bas 101. All qualities slightly higher, but the market closes dull. Sales of the week 800 bales. The stock was 100,000 bales.

SMITH'S LATEST IMPROVED COMBINED MOWING AND REAPING MACHINE. THE Subscriber has the pleasure to inform Agriculturists and Farmers, that he has now on hand a new assortment of the above celebrated MACHINES, which he offers for sale at the LOWEST possible price, and on the most favorable Terms of payment. These Machines are of the latest and most improved construction, and are so arranged and Workmanship, easy to manage and extremely light and durable. They are recommended to parties in want of Machinery with full confidence of their giving every satisfaction. The attention of Farmers and interested purchasers is respectfully invited to the manufacturer to the late improvements in this machine which are now combined in these Machines great advantages over all others. Lightness of the Machine and easier of Draft. The facility for raising and lowering in passing over obstructions or through lodged grass without stopping. The way the wheel is placed under the tongue to carry the machine steadily through furrows avoiding the trouble of one joint in the tongue and bringing the team so much nearer the work. As the above machines have many improvements added since last year I will now warrant it as a COMBINED MACHINE, to be altogether superior to anything now manufactured in Canada, and fully equal to the celebrated "Mansy's," which has taken more premiums than all the other Machines in the United States. And in Paris in 1855, the above machine carried off the first Prize amidst the applause of Representatives of all countries in the world. This Machine also took the prize at the two last Provincial Exhibitions for Canada, held in Montreal. One of the improved Machines can be seen on the premises of the Agent, near Arnprior, and one at Bell's Corners, Nepean. All letters (post paid) for information or purchase promptly attended to. Farmers, before buying, come and examine for yourselves. JOHN SMITH, St. Gabriel Locky, Moulton, Esq., Arnprior. FRANK SARGENT, Agent, Ottawa, Montreal, June 4, 1859. 39
