oration of the Former Monarchy Under Charles Would Imperil Peace, Declares Note Communicated to Budapest Government—Smaller Powers Bordering Hungary WIII Resort to Military Action At Once If the Former Monarch Makes Further Move To Regain Power — Blockade Against Hungary Would Be Established by the Entente Powers.

Paris, April 1.—Warning was given Hungary today by the that the restoration of the Hapsburg dynasty would entail rous consequences for the Hungarian nation.

This warning, issued through the council of ambassadors, tituted a virtual ultimatum from the chief Allied powers, inuding Great Britain, France, Italy and their leaser associates. was given additional point by the fact that it was communicated ficially to the Allied states by which Hungary is surroundedsecho-Slovaia, Jugo-Slavia, Rumania and Poland, at least the first three of which, comprising the "little entente," have declared tnemselves ready to take military action against the Hapsburg

Meanwhile advices reaching Paris through official and other reliable channels gave no confirmation of the rumors that exmperor Charles was marching upon Budapest at the head of a arge body of troops to replace himself upon the throne.

Official advices to the French foreign office emphasized that Charles was still at Steinamanger, near the Austrian frontier, that egotiations were in progress for his removal from Hungary, premably back to Switzerland, through Austria, and that quiet prevailed at Budapest, the Hungarian capital.

Direct Budapest advices carried official denial of the reports that Charles was moving on the capital with troops, and declared he was safely guarded at Steinamanger.

MRS. STILLMAN **ALLOWED \$7.500** MONTH ALIMONY

Alleged Letters From Fred Beauvais Not Permitted: As Evidence.

Poughkeepsie, N.Y., April 1.-Temporary alimony of \$7,500 a month. coun-sel fees of \$35,000, and \$12,500 for ex-penses, were fixed today for Mrs. Annie U. Stillman by Supreme Court Justice Morschauer in the suit for divorce in-stituted against her by James A. Still-man, president of the National City Bank of New York. of New York.

Stillman had asked alimony of a month and \$75,000 counsel

fees.

In his decision the justice ruled out of the divorce suit as confidential and privileged the so-called "confession" letter written to Mr. Stillman by his wife. He also ruled out letters alleged to have been written to Mrs. Stillman by Fred Beauvais, a Canadian Indian guide, who was named in the banker's complaint as co-respondent, and accused of being the father of Mrs. Stillman's infant son, Guy. and accused of being the lattice of all's.
Stillman's infant son, Guy.
The decision set forth that Mrs. Stillman had pleaded recriminations in her answer to the banker's complaint, and that both husband and wife made charges "founded upon an allegation or adultry."

To Pay Interest On Loan Made by Canada

Negotiations Reported To Be Proceeding Between the Two Governments, But No Money Is Forthcoming-Other Countries Extended Credits Have Met Their Obligations Promptly.

[Special to To v Advertiser.]

Ottawa, April 1.—"We have 12 dvices on the subject" is the laconic statement of the finance department this morning with regard to the interest payment on Canada's \$25,000,000 loan to Rumania which was defaulted on its first maturity, and which has again fallen due.

Rumors to the effect that the Rumanian Government was on this occasion prepared to meet its obligations are not borne out by information available here. It has been stated in the House that negotiations were proceeding between the two countries and that Rumania had simply asked that payment be deferred. The other beneficiaries of the credits extended during 1919 have met their interest payments promptly, but Rumania continues in default.

It is stated this morning that the balance of the Canadian external loan of \$25,000,000 which matures in New York, and on account of which \$10,000,000 in gold was recently shipped, is being retired out of Canadian

Seattle, Wash., April 1.-Seven passengers and three members of the crew of the steamship Governor, sunk off Point Wilson, are missing, according to a wireless message at 7:15 a.m. from the steamer West Hartland, which is bringing the survivors to Seattle.

Seattle, Wash., April 1.—The passenger steamer Governor of the Admiralty Line en route from San Pedro, California to Seattle, rammed the freighter fornia to Seattle, rammed the freighter West Hartland, bound from Seattle to Bombay and sank off Point Wilson, near Port Townsend, Washington, sbortly before midnight, last night, according to messages received by the Port Warden's wireless operator here.

A later report said all passengers were saved. The first S. O. S. received at midnight, said the Governor rammed the West Hartland, and was sinking, the West Hartland escaping serious damage. It was reported the Princess Adelaide was en route and would arrive at the scene of the collision within three hours. At 12:55 a.m. another message from

Volunteers Called For To Avert Possible Destruction of Valuable Properties—U. S. Coal Merchants Receiving Big Orders As Result of Walkout—Fears Are Entertained That Railwaymen and Transport Workers' Union May Join in Sympathy With Coal Diggers—The Government Prepares for Such an Emergency.

London, April 1 .- All work ceased in the coal mines of the United Kingdom at midnight with the exception of a very few districts, and approximately 1,200.0 miners were ide today as a result of the contro versy over the wage issue. In only two collieries in Yorkshire, one in have promised to continue at their posts without prejudice to any terms that may be agreed upon, but all other pit workers, including mechanics, pumpmen, ventilating men and pony men came out with the miners. Danger that the mines may be flooded threatens and many may be irretrievably ruined from the inrush of water. Strengous efforts are

being made everywhere to enroll volunteers. Yorkshire pumpmen have decided to remain at work, and hope was expressed today that others would follow their example.

ORDERS FOR U. S. COAL

The first effect of the strike has been the placing of orders with S. coal merchants. Advices from New York state that a flood of orese ket has been received there, and although the country's stock of coal estimated at 1,000,000 tons, the price of household fuel already has rise

London and other urban centres are believed to have several weeks supply on hand owing to the fact that export of coal has been completely stopped by the board of trade, except in cases where special permits have been issued.

Apprehension is felt that the National Union of Rallwaymen and the Transport Workers' Union, partners with the miners in the labor dispute may be tempted to strike in sympathy with the coal diggers. In such an event, the nation would be confronted by a cris's of unpracedenied gravity. One of the targest wards in London took pre sythaux steps yesterday and formed a company of special police to project property. Orders were issued last night to employees of various Government departments to "stand by" to report for transport duty, if necessary

of years as far as local improvements are concerned. It is time some attention was given to this industrial section of the city.

"The people are willing to pay for improvements. This is evidenced by the fact that petitions have been sent in and passed by the council, some as far back at 1918, for sewers, sidewalks and other improvements. King, York, Florence and Frances streets, between Egerton street and Highbury avenue, are today in a very deplorable condition. They are a disgrace to the city. Some parts of them have not had a load of gravel since they were surveyed some forty years ago. There is at the present time a factory on York street which is unable to get its products away on account of the condition of the road."

The Lambton County Daily Changes Hands Today.

Toronto, April 1-Two western newspapermen, H. M. Hueston and Allan Holmes, of Prince Albert, Sask., have purchased the Canadian Observer, a daily newspaper at Sarnia, the property having been taken over by the new owners today. Mr. Hueston will become resident manager of the paper at Sarnia, while Mr. Holmes will remain in charge of the Herald at Prince Albert. The new owners of the Sarnia Canadian Observer are well known in newspaper circles in Canada. Mr. Hueston began his newspaper career with the Ottawa Citizen in 1898 and went to Winnipeg in 1902, where he worked successively with the three dailies there, being night editor of the Manitoba Free Press in 1910, in which year Messrs. Hueston and Holmes purchased the Herald at Prince Albert as a weekly. This paper was converted a daily about a year later and has erty. Mr. Holmes had had experience on the Winnipeg Telegram and Win-nipeg Free Press before going to Prince Albert. The purchasers of the Sarnia Canadian Observer are very confident of the future of well managed newspapers in Ontario.

WANT WATERWAY

Detroit, March 30.-Arguments for and a hinst development of the St. Lawrence waterway were submitted here today at the opening of the final hearings of the international joint commission. Representatives of middle western states and of Canada made pleas for the waterway, while Henry W. Hill of Buffalo, former New York State senator, urged against it. Former Senator Hill obtained permission from the commission to file with it a written objection within eleven days after copies of today's proceedings had been given him. He filed with the commission to. day copies of resolutions adopted by various eastern organizations opposed

senting the Indiana State Chamber of Commerce, declared the waterway would aid in re-populating American farms by

providing cheaper transportation for farm products.

Former Governor W. L. Harding of Iowa declared the waterway would insure prosperity for the United States and Canada for years to come. L. G. Macomber, chief of the Toledo Chamber of Commerce traffic department, and U. S. Coney, congressman for Ohio, also spoke in favor of the project.

week had made an extensive business trip.

Mr. Glassford was well known in London and throughout the district, as well as in Chatham and the surrounding district. He was prominent in Masonic circles, and was a member of Mocha Patrol of the Shriners. He was a member of the I, O. F. as well. As elder of the Presbyterian Church, he took a prominent part in its activities. He was an enthusiastic horticulturist, and a member both of the local and the provincial societies. Largely through his efforts the flower stands with which Chatham streets are lined were erected. He was 59 years old. His wife and daughter survive him. The funeral will be held Saturday.

PARIS, March 31.—The Paris literary and social worlds have gone mad over Buddhism. There is hardly a Paris home which does not have its statues of the various Hindoo deities, but it is only fair to add that there are as yet no signs of a religious ritual being adopted.

The "Blake Millions," as they have been imagined by the many "heirs," actually amount to £250,000, or roughly money has been for upwards of a quar ter of a century in the hands of the British national debt commissioners.

Elopement Starts Story. Its story is a colorful romance of special interest to Americans. It begins with the elopement, away back in 1820, of one Captain Robert Dudley Blake, sor the tiny cochineal bug, which in former onet, with Helen Sheridan, a beautifu Irish girl, daughter of a Mayo peasant According to one account she was the manageress of the Tyrawley Hotel the purpose here in question; but there and returned with his wife to England

> Only Direct Heir Died. The Blakes' only child died in infancy and General Blake, dying in 1860, left all his property to his wife, who, in Sep-tember, 1876, died in London without leaving a will. Among her papers, how-ever, various documents were found inever, various documents were found in-dicating some of her intentions as to the Peculiar Duplex Matrimonial disposal of her property. Acting on these the lords of the treasury directed pay-ment of about \$95,000 in certain contemplated legacies, including \$5,000 to the Right Hon. W. E. Gladstone, Eng-land's Grand Old Man. Many Claimants Appear.

Since that time many claimants have appeared, all claiming descent from one or other of Helen Sheridan's sisters, or rom her cousins.

A pitiful story was that of the American claimant, Daniel Sheridan, who when he was 70, in 1885, came to England, saying he was Helen Sheridan's cousin and a playfellow in her childhood. He left behind him in Quincy, Ill., a farm of several hundred acres, some cattle and an oil well.

This old man lodged with a widow in Hillbank for four years, exhausting his money and running up a long bill. The authorities rejected his claim, and he finally was sent to

A CRITICAL ARTIST.

[Canadian Churchman.] When in London, Eng., some time ago, the following story was related by Rev. T. H. ———: "A certain young artist visited one of the famous old art galleries in Europe, and viewed the priceless pictures of Raphael, Mu-rillo, and others of the famous 'old masters.' He criticized these famous masterpieces freely, passing many con temptuous remarks concerning them. At last he went up to the aged curator and scornfully remarked: 'I don't think much of these old masters.' 'Young man,' replied the old curator, 'it is not these old masters who are on trial, but the artistic taste of the visitors." So we would say concerning the Word of God. It is not Moses and Paul and offer inspired writters who cient to operate the road, and appealed to the city for an increase.

In 1919 the company urged more insistently that an increase was necessary, and carried on an extensive advertising campaign to this end. It succeeded in having a bylaw submitted at the municipal election.

Tri-County League Again On Boards—Eight Teams

Expected.

TILBURY, March 31.—A meeting has been called for Tuesday, April 12, at o'clock in the afternoon to complete arrangements for the organization for the Tri-County Baseball League, taking in all the live baseball centres in Essex, Kent and Lambton Counties. Mayor Odette of Tilbury, who is a baseball enthusiast of the thirty-third degree, and who was last year secretary of the Essex County semi-pro. league, has received many letters from baseball managers in the three counties since the new organization was first proposed, and in consequence of the encouragement he has received, he has called the meeting for April 12, which will be held in Tilbury, as the outside towns agree that this is the most central point, and easily reached by railroad, should the roads not be fit for autos by that date. There is every prospect that at least an eight-team league will be formed, and it is quite probable that twelve will be in the organization. Every town in the three counties that desires fast baseball is invited to send delegates to the meeting. Sarnia reports that they have already appointed their delegates. OPPOSITION CRITICIZES

Declare Govt. Encouraged the Farmers To Grow Flax Extensively.

OTTAWA, March 31 .- (By Canadian ress.)-Bounties on linen yarn and crude petroleum occupied the House today. For the greater part the House was in supply on trade and commerce timates, and discussion followed a placid course. A. R. McMaster (Brome) charged that the petroleum business was profitable and there was no need to assist it with bounties. "It's rank, aving lunacy," Mr. McMaster declared.
"But," retorted Sir George Foster,
ninister of trade and commerce, "the olicy of paying bounties to producers of crude petroleum was inaugurated by

Liberal Government. "Then," rejoined Mr. McMaster,
"conditions were no doubt different
when the policy was inaugurated."

Keen Criticism.

Sir George held that he would be esponsibility of giving advice in such case. The producer must decide for imself. There had been no direct inhimself. There had been no direct intention on the part, of the Government to encourage farmers to grow flax. The bounty had been given to encourage production of linen thread during the war. He thought farmers had grown flax rather because of high prices than cause of the bounty.

Asking Confirmation.

When the House opened this afternoon P. Michaud (Restigouche) on the orders of the day, quoted a newspaper dispatch from Portland, Me., alleging roposed construction work by the G. Ah! There's a theme to inspire poet or peasant. Each of us have an idealized milkmaid in the back of our minds. She's young, you know, and pretty, and alluringly round, and dewy of lip and foright of eye—

But the Liman milkmaid is a drygleaner's sovimate. She always comes to town a-straddle of a mule, except when she is getting the last ounce of strength out of a pony before he is sent to the bull-ring. She's an Indian. She swarthes out of an indeterminate mass of dirty garments and puts the big toe of either foot in the stirrup, Clanking of either foot in the stirrup count of the visiting American fleet. "In early times they were stolen. Later they were bartered or sold. Even yet, in some religious circles, they have to be given away."

But in all directions Dr. Ward insists he sees indications of a growing independence and irritation on the part of women who have proved their own ability to achieve success wearing a tag that means nothing, or less than their own name.

Madame for Woman Over 21.

In addition to fixing a definite place for the mother's name with her sons and daughters, Dr. Ward advocated the use of the word "madam" by all women over 21.

"Both 'Miss' and 'Mrs.' have come to be traditional, artificial formalities and without sufficient reason or clearness," he declared.

It was Dr. Ward's contention that males have no right to go untagged either by ring or prefix to explain their status while women are required to stand for both to designate their position in the social scheme.

A majority of the women present at the meeting approved Dr. Ward's plan.

This time, however, surgeons were called in and they removed a bone an inch wide and three inches long from his head. After three months in a hospital he was pronounced mentally sound. But meanwhile a jury had sentenced him to five years in the penitentiary. The judge, the prosecuting attorney and the pardon board decided to release him. He thanked them and walked out of the prison gates at Stillwater, Minn, right into the arms of a burly detective from Chicago, where he is wanted for robbing a house.

U. F. O. IDEAL

Repopulate Country by Making Agriculture Pay Better, Says Morrison.

ECONOMICS THE ISSUE

Lower Operating Costs, Cheaper Transportation, Is One Big Problem.

[By Staff Reporter.] ST. THOMAS, March 31 .- "Rural Deopulation and Its Remedy" was the subject on which J. J. Morrison, secretary of the U.F.O., addressed a largelyattended meeting of the Canadian Club tonight In introducing Secretary Morrison, President E. R. Webb said that Mr. Morrison was a man with a puroose, and that he had accomplished great things.

"The current idea." said Mr. Mo rison at the outset of his remarks, "is that I dominate a government: but I have an objection to that and a strong objection. What I stand for is the democratic form of government, and the struggle has only commenced Democracy is at present only an ideal. but we wish to fill in the niche and accomplish the ideals of the people. The Farmer's Viewpoint.

"I have come here to put before you the farmer's viewpoint, and he who does not stand true to his ideals is not a patriot. There are many things the U. F. O. has done, and there are many things it has not done. The U. F. O. is undoubtedly a class organization, but I make no apology for this, because every organization is a class organization. Every class has its organization; even the clergymen have their ministerial association. even the clergymen have their min-isterial association. Then why should not the farmers have theirs too? I ask those here tonight to put their finger on any act of the U. F. O. that has not been for the benefit of the nation. Their motto is 'Equal opportunity to all and special privileges to none.' Our organ-ization attends to social uplifting, the increase of educational facilities, in-dustrial progress and political progress. "But there is a fundamental prin-ciple which has brought into conflict the views of the urban and rural people. The farmer's viewpoint is that when he

the views of the urban and rural people. The farmer's viewpoint is that when he wishes to better his conditions in life it is necessary to increase his production. On the other hand, there are certain people who try to increase their resources by lessening production.

Difference of ideals.

"I am sorry to say appthing exempts." "I am sorry to say anything against our Labor friends, but they are progressing along other lines. They have their reasons for lessening the hours of labor and seeking an increase of wages. Then the businessman seeks to improve matters by artificially making

things dearer. He decreases production and increases the price. This is diametrically opposed to the farmers' idea this is where we disagree.

"Once the Government established binder twine factory at Kingston and said that they would put out this pro-duct to the farmers at cost, but owing

to the opposition of the binder twine manufacturers this was stopped. Then there came along a man named J. W. Hanna. He had a new idea. He said that it was not good for men to be on the stone pile, and so he put them on the jail farm, and every cabbage grown on these jail farms makes one less for the farmer to sell." Mr. Morrison went on to say that the same thing happened during the war, when the people were encouraged to grow cabbages in their backyards, but the farmers did not complain.

. A National Tragedy.

Dealing with the matter of rural depopulation, the speaker said that this had been a great curse in the land. "It is a national tragedy," he declared, "that the people are vanishing from the land." Taking for an example the population of Elgin County, Mr. Mor-rison said that it had decreased 5,754 in 30 years. In this period all the villages and towns in the county showed a loss except St. Thomas and Port Stanley. St. Thomas had gained 7,430

in its population in 30 years, and Port "I want to ask you businessmen." continued the speaker, "what are you going to do to stop this? We all agree that we must get the people on the land, but how is it going to be done? There are 150,000 less farmers in the Province of Ontario today than there were 30 years ago. Some say that this is owing to labor-saving machinery, but I cannot accept this. What about labor-saving machinery in the cities? Did this depopulate your cities? No; it

"Is the county of Elgin producing half of what it should produce? I say no. This is an economic question, and you have to make agriculture so profitable that people will go to it. We want to make farming so remunerative that the back concessions will be teeming with life. When the population of the townships went down, that of the villages went down with them, because these villages were semi-agricultural.

these villages were semi-agricultural.

Solution of Problem.

"I would lessen the cost of production and lessen the cost of distribution. If you follow these principles you will solve the problem. I would decrease the cost of production by removing the obstacles that make it costly. I would go in for co-operation and squeeze out all the water of the stock of the transportation companies. If this were portation companies. If this were eliminated the cost of transportation would be lowered. You businessmen must lessen the cost of your overhead charges, and there is no use in saying "Back to the land" unless you make it worth while?

'Back to the land' unless you make it worth while."
In conclusion, Mr. Morrison dealt with the system of two-party politics, which, he declared, was altogether obsolete and unsound, and said that he favored the group system because it afforded a much better opportunity for the people to bring forward their needs, but above all things he himself was a democrat.

democrat.
On the motion of the chairman, Mr.
Morrison was accorded a cordial vote
of thanks.

Three Important Measures for Kenora is opposed to the bill?"

Are Forced Rock On asked Charles McCrea. Are Forced Back On Shelves by Opposition.

[Special to The Advertiser.] TORONTO, March 31 .- Three Governent bills, one after another, were forced back on the legislative shelves without progress during this afternoon's ingle item of business, advanced any bill a single stage, nor had members even rid themselves of a single question of privilege which usually precedes the

Lastly, the premier's new bill to amend the public inquiries act, was tripped up on a technicality by Charles McCrea, Sudbury, and after discussion which lasted until the hour of adjournment, laid over until tomorrow, when Mr. Speaker will give a ruling as to its admissability.

May Be Blocked. Of outstanding importance during the afternoon proceedings was the possibility, created by Mr. McCrea's appeal to the speaker, that the Government may not be able to introduce at this session of the House its bill to overide the Spanish River Pulp and Paper mpany's injunction halting the tim-

Mr. McCrea, the Conservative memper for Sudbury, has challenged the right of the Drury Government to inoduce another bill amending the public inquiries act to take care of sit-lations similar to that which has arisen out of the Spanish River Pulp and Paper Mills, Limited, in applying for an injunction restraining the Riddell-Latchford commission from investigat-ing certain matters in connection with he company's business. The ground taken by the member for Sudbury in the Legislature this afternoon was that Bill 193 for which the premier sought a second reading, was in substance the same in principle as Bill 55, which had already been discharged.

Stifle Proceedings.
The principle in both bills was "to stifle proceedings already in the court," said Mr. McCrea, who quoted various authorities, and contended that in the absence of any rule dealing with the ish House of Commons must be follow-ed. Therefore, he contended, the House, having "expressed judgment," and ordered that the bill we "with-drawn and discharged," the Governent was not in order in introducing a which was identical in principle at the same session of the Legislature. Hon, Nelson Parliament, speaker of the Legislature, said that he was "not disposed to give a ruling today, but will give one when the House meets tomor-

Premier Explains. Premier Drury contended that the principle in Bill 193 was "absolutely foreign" to that in Bill 55, which had been withdrawn. "The very heart of Bill 55 was that the attorney-general should have the say," he said. "It was left arbitrarily in the hands of the attor-ney-general to decide whether or not proceedings should be commenced against the commissioners."

The new bill, he said, was less arbi-Hon. G. Howard Ferguson, Conservathe bill was not whether the attorney eneral or any other person should have the say as to whether or not proceed-ings might go on, but "whether the citizen shall have the right to litigate." It was a question of "interference with the right of the citizens to submit his views, or what he thinks are his rights to a court," Mr. Ferguson said, and he added that this principle was common to both bills.

Not the Same.
This was not the only cause for complaint, Mr. Ferguson said. The copies of the new bill, which the premier had given to the Opposition leaders were not the same as the printed bill. The copples handed out by Hon. Mr. Drury to Hon. G. Howard Ferguson and H. H. Dewart, K.C., Liberal leader, indicated that it was the intention of the Government to drop from the bill a clause which was in the previous bill, barring all proceedings against commissioners.

Premier Drury said this was merely a clerical error, and the attorney-general lost no time in asserting that it was the intention to carry on with this

MacBride's Protest.
M. M. MacBride of South Brant took occasion once more to protest against the many commissions appointed by the present Government. He said that the people of the province were tired of commissions. He asked if, in the bill before the House, there was any indication of the continuance of com-

Premier Drury replied that there was not, and added that "when the comnissions we have appointed have found out what the people want to knew we will be through with commissions." Peter Heenan, M.L.A., Kenora, said Drury had introduced dealing with the establishment of the Lake of the Woods control board. He characterized it as hasty legislation, and he asked the premier to delay the progress of the bill "for a few days or a few months" until such time as he was able to bring down his delegation of protestants from Kenora and district. Premier Drury said that the west end of the northern part of the province would be very badly off without some such legislation as he was attempting to put through the House. The member for Kenora said it was a matter of vital importance to the town of Kenora. vital importance to the town of Kenora, and he thought that a deputation from

Only young parsnips in which the tough, woody fibre has not formed should be used for human food. To prepare them, wash and scrape, and cook forty-five minutes in salted boiling water. Pour off the water, plunge the parsnips into cold water and clip off the loosened skins. Wash, season with butter, salt and pepper and serve hot.

Parsnips are also very good, served with drawn butter sauce; prepare them as above but shape the mashed parsnips into small croquettes and pour the sauce over them. For the sauce, melt two falled to deright, to obey because obeding the transpoonful of pepper have been mixed and pour on a cupful and a half of hot water, stirring constantly. omel if it has no effect on the liver? A Hospital Gift. (P. O.)
ANSWER-Neither has salts any ANSWER—Neither has salts any particular effect on the liver. Calomel is a purgative by reason of irritating the bowel. Salts is a purgative for the same reason, and salts further has an affinity for water which it extracts from the bowel lining. Any brisk purgative is likely to praduce evacuation.

gative is likely to produce evacuation of bile (if the liver is functioning and there is no obstruction of the bile ducts). That may have accounted for the notion that calomel does something in particular to the liver. Total Revenue For the Fiscal Year Was \$291,586,229. Year Was \$291,586,229.

Ottawa, March 31.—(By Canadian ment of customs and inland revenue, ment of customs and inland revenue, covering the fiscal year 1920-21, which terday at his residence, 157 St. Denis closed today, show an increase in the revenue from custom duties, excise, luxury, sales and manufacturers' taxes, amounting to approximately fifty million dollars, as compared with the preceding year. The total revenue from all these sources during the fiscal year ending today was \$291,586,229, as com-pared with \$242,339,249 in 1919-20, mak-

ing an increase of \$49,246,980.

The increase in the total revenue is from luxury, sales and manufacturers' taxes, which advanced from \$15,362,287 taxes, which advanced from \$15,362,287 in 1919-20 to \$77,161,559 in the year taxes, which advanced from \$15,362,287
in 1919-20 to \$77,161,559 in the year
just closed. Customs duties and excise taxes both yielded reduced revenue, the former dropping from \$184,-805,079 last year to \$177,986,239 and the latter decreasing from \$42,171,883 in 1919-20 to \$36,438,430 during the year just closed.

The figures for March alone showed

a decline of \$5,733,856 in the revenue from the various sources mentioned.
The total revenue for March this year The total revenue for March this year was \$21,127,184, as compared with \$26,-861,040 in March, 1920. Customs duties last month yielded \$11,864,737, as compared with \$21,277,978 in March, 1920.

USED CARS FOR SALE USED CARS FOR SALE SAYS MOST ADULTS HAVE CHILD MINDS

> Six Persons Out of Ten in That Category, According to Dr. Henry Viets.

New York, March 31.-Six persons in every ten, happily unconscious of the fact, are meandering through life with the mental equipment of childhood— and many of them are placed in posi-tions of comparative prominence. They are morons, these members of the majority, with intellects—beneath the normal standard for 18 years of age-but their deficiencies do not prevent them from useful service as citizens and home builders. This somewhat disconcerting state-ment made by Dr. Harry Viets of New

Viets," is to assist everywhere in the care and treatment of mental disease. It is well known that the care of men-tal cases has been much neglected. Each city boasts its splendid hospitals, many of them literally marble palaces; but in almost every instance these hos-pitals have the forbidding sign displayed: 'No mental cases received.'
'We are fighting against this condition, and for a common sense view of mental diseases. There is a growing tendency to consider the insane as sick persons and to break down the aftificial distinction between mental diesase and general disease. The theory of prevention is a sound one, and will replace to a great degree the old ruling that all who suffer a mental lapse must be hurried to the asylum."

As for morons, they do not worry the psychiatrist in the least, possibly

because there are too many of them and also for the reason that the subnormal individual is not in the least insane, and is ordinarily a worthy unit of community life. "Yes," said Dr. Viets, "approximate-

UNIQUE APARTMENT

ry, who celebrated a birthday anniver sary recently, is to make her home in a small flat in the heart of London, But this is no ordinary flat. In the first place it is a gift to the great actress from a group of artists who have long been her friends and admirers. And these artists have put their best talent to work in decorating and furnishing this little apartment, doing it all with the idea of providing the maximum amount of color and brightness, so that there might be no shadows in the twiight of this remarkable woman's life Because daffodil is Miss Terry's favrite color they have used this shade as a basis for making the apartment a study in yellow. The first impression one gets in entering the little hall where visitors are received is one of bright and vivid daylight, the walls being painted in a brilliant orange, which in places approaches a flame color. An archway and the outline of the doors Then there is a living room and also a bedroom, both done in a cheerful deep daffodil yellow, while the woodwork is

in grey verging on green. Even the maid's room has a touch of sunshine with its primrose tinted walls, while the little kitchen is a spotless white with woodwork of the shade known as French vermilion. Care has been taken to have no broken lights in the corners, so as to do away with shadows as much as pos-sible. In the passage, for instance, the orange is broken with yellow. Nor were the walls allowed to remain flat. The high light throughout and the brilliant surface is produced by the sort of lac that is used for motor cars. Even the fireplaces, with their usual mantels and tiles, are brought into harmony by the generous use of enamel. To obviate the possibility of monotony decorative de-

Another striking effect is gained by having the floors painted black, and the furniture also will be of black oak and plack lacquer. While most of the doors are of the same color as the walls, exept that they are outlined in black, the front door has been made entirely black so as to be easily distinguished. The bathroom has been done in green. The practical side of the highly-polished surfaces of the walls is that not only will they be just as good in ten years hence, but they are easily kept clean, requiring only to be wiped with a moist rag to keep them looking as fresh as ever. Certainly these artists have succeeded in making an unusual home for unusual woman and one which hope will bring back to her at least part of the cheer which she has poured into the hearts of the countless thousands who in years past have been thrilled by

Ment made by Dr. Harry Viets of New York, representing the national committee of mental hygiene, in Portiand, Ore., was said by him to be thoughtfully conservative and in no wise to be construed as a symptom of general decadence. In the practical philosophy of Dr. Viets, if one is a moron he has plenty of company and need not grieve, for suitable work and abundant happiness are his to command, and the community couldn't very well get along without him.

For some time Dr. Viets was attached to the British army, supervising the treatment of mental cases, and later served in similar capacity with the American expeditionary forces as a major.
