### BRISK DEMAND FOR HAY TODAY

#### LOCAL MARKET.

London, Wednesday, Jan. 8. There were 25 loads of hay on the stand

today; sales were fairly brisk, at \$14 50 to \$16 per ton. Straw sold at \$8 per ton.

Oats were a shade higher, at \$1 46 to 81 48 per cwt, mostly at the higher price.

Messrs. Ellis & Fannigan shipped a carload of live hogs at \$5 50 per cwt.

#### WEEKLY REVIEW.

The number of farmers who attended the markets the past week was smaller large supply of produce purchased during October, 9.93c offered. the holiday season. Prices in all lines were as a rule steady. Live and dressed hogs are a little higher. Potatoes and butter are firmer, and also some classes of poultry.

Grain-There have been quite a number of car loads of oats received here from Manitoba and points in Ontario, and this refined, 7d; spirits, 7½d. fact has curtailed the demand for oats in this market; sales are made at \$1 44 to \$1 48 per cwt, most of the sales being made at \$1 45. Wheat is selling at 90c per bu; there is very little offering at present. Barley is selling at \$1 30 to \$1 40 per cwt; the supply is exceedingly small. Dealers are offering \$10 per bu for cloverseed. Hay and Straw-A local paper stated in

a recent issue that a firm from Montreal was endeavoring to purchase a large quantity of baled hay in this locality, and while there was no foundation for the story circulated, it served the purpose of ascertaining who had any great quantity of hay to sell, as several who came to the city to make inquiries stated that they had about 1,200 tons of baled hay to sell; of course, there was no one here who was doing any buying, and consequently no sales were made. The price of hay took a jump shortly after harvest, and has remained high since then, which has been a factor in the farmer feeding less hay than The weather was favorable in the fall, and so far this winter, which has been a big help, as the stock required less hay than in an ordinary season. Sales are

muad, at \$8 per ton; the supply is about equal to the demand. Butter and Eggs-Butter is firm, especially for the best quality, which sells at 26c for crocks and 27c for choice pound rolls; there is too much rough stuff offer ed at present. Fresh-laid eggs sell at 300

### Selection of But Three Jurors.

New York, Jan. 7. - Three jurors sworn to serve on the trial panel for Harry K. Thaw represented tonight the net result of the two days and six sessions, of trial before Judge Dowling in the criminal branch of the supreme court.

In addition to the trio, who are oathbound well and truly to try the case, there was in the jury box at the close of the night sitting four tentative jurors, who still are subject to peremptory challenges by either side. The task of filling the five vacant chairs will be resumed tomorrow morning, when the last installment of 100 talesmen summoned on - the original omnibus panel of 300 names will report for examination. In all 95 proposed jurors were called and questioned today, as against 57 on yester-

## THREE JURORS SO FAR

New York, Jan. 8.-Predictions were freely made at the beginning of this, the third day of the trial of Harry K. Thaw, for the killing of Stanford White, that a jury will not be secured 69% before the middle or latter part of next week. There were but three sworn jurors in the box when court convened at 10:45 a.m., and they represented the net proceeds of the first two panels of 100 talesmen each. The third and last panel of the 300 originally summoned reported this morning and there was no thought it would furnish all of the material needed to complete the trial twelve.

As a result, the court ordered that 200 additional talesmen be summoned, to report tomorrow and Friday. At the first trial, some 730 talesmen were ex-. 15% 15% 15% 15% 15% 43¼ 43¾ 42½ amined before a satisfactory jury was
