Toronto, April 30.—The persistent refusal of Chairman Ferguson to permit the examination of Mr. George A. Taylor into the Was in Closed Rig and Apcircumstances surrounding the payment of the \$500 to the Conservative campaign fund, precipitated a sensational scene at 11:30 today in the privileges and elections committee, hearing charges against Premier Whitney and Hon. W. J. Hanna.

Mr. Dewart, addressing the chair, said the practice of the committee was such as to prevent him doing justice to his client, and he accordingly withdrew from the case.

READY TO PROVE CHARGES.

He was quickly followed by Mr. Proudfoot, who said as the author of the charges he desired an opportunity to prove what he had alleged, and for that purpose had retained counsel.

They had got to a certain stage in the proceedings where it was necessary that the motives of Mr. Taylor in paying the \$500 should be revealed.

GAG RULE STILL APPLIES.

He found, however, that they were in the same position today as they were before the public accounts committee last week, where he had attempted to inquire into certain matters, but was stubbornly and persistently refused by the committee. He charged that the chairman had deliberately stricken, out important evidence, and in other ways burked the investigation.

DECLINES TO CONTINUE.

"In view of that position and what has taken place," said the member for Centre Huron, "I have advisedly instructed my counsel that I do not see that there is any course left for me but to have him decline to go further into the prosecution of the charges

"While I am withdrawing from this investigation here, I am not abandoning the position I have taken in the House, and I do not purpose abandoning that position now, but will again bring the matter up in the House. While the House may deal with it possibly in the same way the committee is dealing with it, I am going to give the House that opportunity."

THE CHAIRMAN BLUSHES.

With some dignity Mr. Proudfoot and Mr. Dewart quietly gathered their papers together, anxious looks darted across the table among the members of the committee. The chairman blushed DETECTIVES

He waited to see if Mr. Proudfoot would carry out his intentions, and as the member for Centre Huron walked out of the room, proceeded to stop him with a question, but it was no use, the Woman Refused to Permit No Persecution Intended, Says

"I won't be interrogated by you at all," answered Mr. Proudfoot as he passed through the door and left the Conservative members to go on with the investigation according to their own light.

Caused a Sensation. Immediately on opening Mr. Nesbitt sprung a sensation by making an exparte statement with reference to the coal tenders mentioned yesterday. It it was on file at the time and has rewill be remembered that the commit-

Mr. Hanna Admits It. "Yesterday the chairman ruled," be gan Mr. Nesbitt, "I think properly, as a matter of law, that the committee had no jurisdiction to hear anything except the two charges which are before the committee, namely: that the flat was secured openly, and that the award was secured corruptly.

"My friend, Mr. Dewart, desired to offer evidence last night. He spoke of an irregularity which occurred in connection with a tender for coal and

The written directions of Mr. Christie, the inspector, were given, to allow the change to be made under the instructions of Mr. Hanna. Now, I desire to go into that fully with the The transactions spoken of by Mr. Thorne.

Mr. Hanna-Mr. Sword is here. Mr. Nesbitt-And whatever capital hey can make about their treating enders they are entitled to make. Now, as I say, I agree that we have no right, as a matter of law, to go into it, but do not desire on behalf of Mr. Hanna to sit frankly under an accu sation that there was any irregularity, which we must admit just as we frankly admitted to the whole country scene. He warned the detectives that with reference to the \$500."

An Unusual Position.

Mr. Dewart—That is an extraordin—and after considerable discussion the ary position for my learned friend to men left.

The woman was thrown into a highly nervous condition, and it is me to go into the matter and examine the documents yesterday. I don't know

This followed hurried visit of the duke to Buckingham Palace, where he reported the result of the operation to his nephew. Significance is also attached to the announcement that the band of the Grenadier Guards will not play outside Clarence House this morning. Today is the birthday of the duke, who is colonel of the Grenadiers, and it is Attorney-General Webbe, which was a custom of many years' standing fo the regimental band to serenade his royal highness at breakfast on this an-

niversary This bulletin was issued by the duchess' physicians following the second operation yesterday: "The operation performed on the Duchess Connaught was severe in character. It was carried out to relieve intestinal obstruction due to widespread adnesions of an inflammatory natura The duchess is doing as well as can be expected."

The official bulletin reads: "Considering the gravity of the operation the Duchess of Connaught's situation is so far satisfactory. Her pulse is 88 and her temperature normal."

TROUBLED WITH KIDNEYS COULD NOT SWEEP FLOOR.

It is hard for a woman to look after her household duties when she is suffering from a weak and aching back, for no woman can be strong and well when the kidneys are out of order.

The weak, lame and aching back comes from sick kidneys and should be attended to at once so as to avoid years of suffering from the kidney trouble which is sure to follow if the back is neglected.

On the first sign of a pain in the back. Doan's Kidney Pills should be taken. They go right to the seat of the trouble. Mrs. Joseph Throop, Upper Point De Butte, N.B., writes:—"I cannot speak too well of Doan's Kidney Pills. For two years I was so tired, life was a burden and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so and to-day I don't know what it is to be tired and my lame back is all gone. I can recommend them to any person suf-fering with lame back and that terrible tired feeling."

Price, 50 cents a box, 3 for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

KEEPING OUT THE LIGHT. The partisan majority of the Ontario

Privileges and Elections Committee is burking inquiry, as was feared.

The chairman, sustained by the mafority, declined to allow questions relating to the manipulation of contracts for coal and self-feeding stokers, on the ground of irrelevancy. Here is an extract from the charge laid by Mr.

"That he, the said Hanna, had accepted the said sum of \$500 from the Taylor to believe that his claim would be satisfied, and that the said sum was paid in consideration thereof, and that the same was given for alleged political and party purposes, as hereinbefore set forth; that the said Hanna manipulated the opening and granting of certain coal tenders; that there were grave irregularities in connection with the purchase of certain self-feeding stokers, and that the said Hanna had otherwise acted in an improper, corrupt and illegal manner, and against the good government of the province and

dustries for the Government:

1. Did you assist to manipulate a an attempt at concealment. 2. Did the Hon. Mr. Hanna know

3. Did you discuss the manipula-

The refusal of the chairman to per-Thorne relating to the coal contracts, capped the climax. If Messrs. Whitney and Hanna are innocent of the offences imputed to them, they will not be satisfied with the committee's conduct. Public opinion demands that the fullest light be turned on the case. Unless the committee consents to this, the Government will be condemned if it allows no other means of investigation.

Since the above was put into type, Mr. Proudfoot and his counsel have withdrawn from the case on the ground that the committee has tried to chloroform inquiry. They will carry the charges into the Legislature itself.

MR BRYAN AND HIS BEVERAGES.

In Great Britain and the United States there are several matters of considerable importance under discussion. In the latter country they have the tariff and the California-Japanese business. Across the Atlantic there is home rule and Lloyd George, besides the trouble in the Balkans. One would be disposed to think that such graze questions as these would give people enough to talk about. But if we are to judge by the amount of attention given to it, the really important matter is the character of the beverages provided at international banquets.

The United States Secretary, Mr.

Bryan gave his first dinner to the ambassadors and ministers of other countries a few days ago. Being himself a total abstainer from intoxicating liquors he provided "soft drinks" for his guests. And at once, social and diplomatic circles on both sides of the Atlantic are seriously disturbed by this innovation. On this side, opinions are divided, but in England a large proportion of the newspapers taking part in the discussion express either indignation, grief or contempt. There would seem to be a tendency towards a belief in the principle laid down by the Pall Mall Gazette, that "the longaccumulated experience of man demands wine to make glad the heart on festive occasions." The inference is that the rules of international courtesy are disregarded, and the comity of nations more or less seriously affected, when the representatives of different countries are not provided with the necessary promoter of festivity. It may be admitted that Mr. Bryan broke away from an old custom. But the merit of a custom should not be decided on the ground of its antiquity Customs change when people think a change advisable. There was a time when no man was considered a states. man unless he could drink heavily, and get drunk occasionally. Very few people hold that opinion now. There was a time when a man's pre-eminence in the community was measured largely by the number of wives he could support; see Solomon, for an example Today, if a man has more than one

wife we send him to jail. With regard to liquor at official dinners the question is not whether it

Notwithstanding the accumlated experience of the Pall Mall Gazette and others, it can be done. One can have a very jolly dinner with nothing stronger to drink than ginger eer or coffee. In fact, there are grave oubts as to the aid rendered by wine and whiskey to festivity. We would not claim to speak with authority, but ve are satisfied that a small dose of vine has little effect in increasing a man's good humor, while a large dose which may make him hilarious is very apt to make him play the fool.

ndorse this view of the question. If, therefore, wine or its equivale s not absolutely necessary as a pronoter of festivity, common sense would provide it for his guests. If he I his neighbor. If he does not use there is no obligation to give it to scruples against its use, as probably Mr. Bryan has, it would be very unreasonable to ask for it

experience of the average man will

It looks to us like much ado about nothing. Mr. Bryan, or any other man, might be allowed to provide what food and drink he likes for his visitors. The absence of wine will hart abody. One never heard of a case here any international quarrel arose over drinking grape juice, but it is said Taylor, thereby leading the said generally admitted that trouble does sometimes follow indulgence in whiskey. So, perhaps, on the whole Mr. Bryan's plan may be accepted as reasonably safe.

THE COLLEGIATE INSTITUTE INQUIRY.

The majority of the school trustees no doubt believe they are serving the interests of the Collegiate Institute, in deprecating further inquiry into Dr Shaw's charges. Probably they feel that administration of the public affairs the Institute will be injured by prolonging the controversy. The Insanity of Genius

[By Special Arrangement With the Winnipeg Telegrani.]

For centuries poets have bemoaned he fact that so many of the sons of he Muses have had to learn in suffer-'he time is coming when no more will ing what they voice in song. In innue built and those remaining will be merable instances the gift of genius has been accompanied by physical debility of one kind or another-partial insanity or even complete madness, being a common affliction. In fact, ome scientists. Lambroso, for instance. ransform New York in a decade so have gone so far as to say that all painful but interesting subject has recently been issued in a sixth edition rom one congested place to another, with an introductory essay by Bernard as commercial considerations would Hollander, M.D., a famous London indicate, but from congested places alienist. The title of the book is "The Insanity of Genius," by the late J. F. ers to build three or four buildings on Nisbet (Stanley, Paul & Co., London). Nisbet has collected a great amount of data to show that neuropathic and inpeople than the streets will hold or sane tendencies are handed down from he transportation facilities be able to sire to son. In discussing the relation of genius to insanity he says: "Both the genius and the madman owe their characteristics of thought and action to the excessive stimulation, the de-pression, or the excitability of certain regions of their brain. Genius, insanity, idiocy, scrofula, rickets, gout, consumption, and other members of the neuropathic family of disorders, are so many different expressions of a common evil-an instability or want of equilibrium in the nervous system."

As examples of men of letters lapsing into or approaching insanity, he gives the life history of the following wellknown writers: Swift, Johnson, Cower, Southey, Shelley, Byron, Campbell oldsmith, Lamb, Landor, and Edward Allan Poe. In all these cases insanity was congenital. Other authors who were on the border-line, or in whose families there were pronounced neur otic conditions, were Milton, Wordsworth, Coleridge, Keats, Burns, Sir Walter Scott, Bulwer Lytton, Charlotte Bronte, Dickens, Wilkie Collins Balzac, Dumas, Alfred de Musset Flambert and Victor Hugo,

Milton is an interesting example this class. As a boy he suffered with s eyes and had torturing headaches Soon after his thirtieth year his eye sight began to fail and at 44 he be ame totally blind. This weakness he had inherited from his mother, who must have handed down to her children other nervous disorders, jus as the poet transmitted bad eyes other bodily infirmitles to his chil Milton's nerve disorder re-itself most unmistakably dren. through his daughter Anne, who was who suffered from an impediment in His second daughter, Deborah, had weak eyes like her ather. Svanhor. Heaviest Earthquake In Over 300 Years

[Canadian Press.] Watertown, N. Y., April 30. — The earthquake shock felt throughout Northern New York and Lower Canada on Monday night was the severe in this region since the Champlain earthquake of 1663, accoring to George Halpert Chadwick, professor of geology at St. Lawrence University, who declares that the disturbance "may possibly be the forerunner of a much more serious and disastrous

Prof. Chadwick said that he believed Monday night's earthquake was due to "an actual slipping of the earth's crust along the great crack known as Logan's line, which extends from the St. Lawrence Valley to Alabama."

"There is no question," said the geo prist, "that we are entering upon period of great seismographic disturbances. As far as our records go, there have been no earthquakes her so severe as the one Monday night for nearly three centuries."

Variety

Good friends all!

Seems scarcely any end to the delightful variations you can offer in the bread you bake.

Bread, Pie, Currant-Bread. Popovers, Biscuit, Cake, Rolls, Ginger-Bread-these justly lead the army of foodstuffs.

But one thing you ought not to vary is your flour.

For result's sake use Rainbow Flour. No other flour you can get is milled with such scrupulous care. None other makes dough that bakes so evenly.

Rainbow Flour best makes all baked things ...

In using Rainbow Flour for pastry, more water (added slowly) is required and less flour.

Little Princess of Holland Is Four Years Old

Everybody in Holland is celebrating the fourth birthday of the sunnyfaced little Dutch girl you see in the picture today.

Because she is a princess and because every man, woman and child in the country loves her dearly Yes, she's a REAL, LIVE princess and some day she will probably be the

QUEEN of Holland! But now she is just an ordinary little girl with soft, curling hair, big eyes and a strong, little body—like you are.

She's not stuck-up and she's not spoiled, for her queen-mother believes

it is just as necessary for a princess to be GOOD and SENSIBLE as for the poorest child in the land. So Princess Juliana does not live richly and sit around for many servants to wait upon.

Instead, she plays and runs and walks and learns just as other children do-just as you do. As she grows older, it is almost certain Princess Juliana will be taught,

as her mother was before her, to keep house, to cook, to sew and to do all the other things a girl is taught in this country. She's not quite four years old yet, but she knows

TO ALTHEA FROM PRISON. When love, with unconfined wings,

Hovers within my gates, And my divine Althea brings To whisper at the grates;

When I lie tangled in her hair And fetter'd to her eye, The birds that wanton in the air Know no such liberty.

When flowing cups run swiftly round With no allaying Thames, Our careless heads with roses crown'd, Our hearts with loyal flames;

When thirsty grief in wine we steep, When healths and draughts go free-Fishes that tipple in the deep

Know no such liberty. When, linnet-like confined, I

With shriller throat shall sing The sweetness, mercy, majesty And glories of my King; When I shall voice aloud how good He is, how great should be, Enlarged winds, that curl the flood, Know no such liberty.

Stone walls do not a prison make, Nor iron bars a cage; Minds innocent and quiet take That for an hermitage: If I have freedom in my love, And in my soul am free, Angels alone, that soar above, Enjoy such liberty.

And Sick Headache. Mr. McCutcheon Replies to Charges of Dr. Shaw in Regard to Administration of Collegiate-Dr. Shaw Considers Resolution in the Nature of a Whitewash. Vote in Favor of Principal Was Five to Three.

> Having heard the statements made by Trustee Dr. Shaw re management of the London Collegiate Institute and Principal McCutcheon's reply, this board desires to place on record its continued confidence in Principal Mc-Cutcheon, and to bear testimony to the excellent work done by the Collegiate Institute staff of teachers, which has on many occasions received unstinted praise from the Government inspectors.

On a forced vote of year and nays, apology," said Dr. Shaw, "and I demand ollowing a discussion more than two it as a member of this board." hours in length, the board of education Tuesday afternoon passed a resolution expressing a continuance of confidence in Principal F. W. C. McCutcheon in his direction of the Collegiate Institute affairs, five members voting for my turn first. Surely he can't speak the resolution, and three, including Dr. R. W. Shaw, against it, the board hoping by carrying the resolution to terminate the extended controversy between Trustee Shaw and Principal charges of inefficiency in the principalship of the Collegiate and the state of affairs existing in that institution.

Calls Resolution Whitewash. Trustees J. M. Gunn and W. T. Strong asked to be excused from voting, but Dr. Teasdall and Dr. Mugan insisted upon all the members voting, and Trustees Gunn and Strong explained that under the circumstances they would be obliged to vote against the resolution. Mr. Gunn favored getting expert opinion on the Collegiate conditions. Mr. Strong said that some of the charges brought by Dr. Shaw

might be worth looking into, but that in some respects Dr. Shaw was in error. The resolution moved by Dr. Teasdall was a whitewash of Collegiate conditions, and he did not like calling It a whitewash. He proposed to have suggestions for the improvement of Collegiate conditions made at a meeting of No. 1 committee. Good might come of it if they were considered in the proper spirit. "Dr. Shaw is the only man on the board," said Trustee Strong, "in a long time who has had herve enough to tackle a problem of his sort. Explains His System. Referring to Dr. Shaw's criticism of a specialist in moderns teaching junior Latin, Mr. McCutcheon said that the teacher in question had been required to cover two years' university work in Latin, and the methods in teaching French and Latin in junior classes were not so different that the success of the class would be endangered.

Another teacher, acting as a substitute, and objected to by Dr. Shaw for teaching junior French, although a specialist in classics, had been so pro ficient in French that he secured both parts of the senior teachers' examina-tion, including French, in one year, first-class honors - a record with equalled by only three or four students in the Province.

An objection to a mathematical spe-cialist teaching science was answered by pointing out that the science in question was physics, which is grouped with mathematics in the department, in which this teacher is a spe-

Relative to Dr. Shaw's comparison of the size of the upper and lower schools, Mr. McCutcheon said that the Hamilton Collegiate draws on other high schools for a number of its upper school pupils; commercial classes are not taught in Hamilton Collegiate, but in the public schools, making the lower school in that city smaller; and Hamilton, although a larger city, has no university to draw on its pupils who pass out of the middle school, and when the opportunity is offered to at-Perhaps you haven't heard of the prefer to do so rather than enter the upper school.

Regrets Principal's Attitude.

"I regret intensely that the principal of our Collegiate Institute should assume such an attitude, and should use such language as he used on that occasion: nor was it seemly that a servant of this board should hurl insults at a member of the same, I might say at all the members, for if I know less than an infant in arms about a time-table, I very much fear, gentlemen, that you all come under the same category. As you all know, I had the time-tables here, and proved what I said to be true, but the truth seemed to be unpalatable to the principal. He said he would give me credit for try ing to do all the harm in my power to the school. If my charges were foolish, as he intimates, they could very eastly be proven false. There is, as you all know, strong feeling abroad in the city that the school is wrong, very wrong, somewhere. Now, an in vestigation, if the school were right would do a world of good, for it would demonstrate that fact. It is only an investigation of true charges that can do the school harm by showing up the sore spots. I very much fear that this of that opinion.

HYMAN TEAM AGAIN BEATEN BY DENEAU'S HIRED HELP

The Score Was 16 to 3 This Time, But Game Was Much Better Exhibition Than on Monday-Woodstock Battery Worked for Hymans.

Another one of those games, which might be aptly termed "Slaughter of the Innocents," was pulled off at Tecumseh Park yesterday afternoon before a small crowd. Mr. Deneau's gang mauled the Hyman team by the score of 16 to 3 this time in a game that was in spots much better than Monday's attempt.

The Hyman team only had one bad inning in this game, the eighth session being chosen by Mr. Deneau's help as a fitting one in which to start a marathon around the bases. Seven runs were the result. Previous to this, the Deneau at short field for the hide a little training "Toots" being chosen being chosen by Mr. Deneau's help as a fitting one in which to start a marathon around the bases. Seven runs were the result. Previous to this, the Deneau at short field for the hide a little training "Toots" velop into a pretty good.

The game was a snappier exhibition than the Monday afternoon game, and the Hyman team played much better ball. The infield pulled off some nice plays, Doherty, Phelan and Gibson working nicely. The outfield did not have as much to do as on Monday and so made a better showing also.

Chaput and Gillis started the game, but both these pitchers retired before the contest ended. Gillis held the Canadian Leaguers to five runs and five hits in two innings, and then gave way to Dingwall, the Woodstock pitcher, who has been secured by Manager Parker. "Hink" Russell was also taken out, and Harvey, a battery mate of Dingwall's, also from Woodstock, was substituted. Dingwall went along nicely for the first couple of innings. He was wild and walked three batters, but with the bases populated and one out, Deneau popped to Parkinson and Foye struck out.

A FLOCK OF RUNS.

A FLOCK OF RUNS.

He also got by in the fifth, the batters going out one, two, three. In the sixth and seventh, however, he was touched up for timely bingles, and four runs resulted. In the eighth, six julcy swats and an error, mingled with a base on the ball tossers who don't balls and a sacrifice hit, netted seven runs. It looked for a time as if that London need the money. Pleasant idea, is it parts to be a support of the port of t Hymans broke into the run column in the fourth imning. After Gibson had struck out, Johnny Farquhar, who by the way looks like a real ball player, binged the old pill out in Mr. Deneau's territory for a two-timer. He went to third on Parkinson's out, and scored on Doherty's nice bingle to right. Phelan also singled, but Terrance, the Indian pitcher secured by Manager Parker from New York, but used in left field yesterday, flied to Furssedonn, and the inning "Lock out for the water can" is the

In the sixth, Talbot relieved Chaput and finished the game. He did not extend himself a bit, and made no effort to put anything on the ball. At that the Hyman batters could only lift the ball into the fielders' hands, the side being retired in order in the sixth, seventh and eighth innings, and eight of the putretired in order in the sixth, seventh and eighth innings, and eight of the put-outs being on fly balls.

In the ninth, Hymans scored two more. Farquhar again started the doings by singling cleanly to centre. Parkinson got a life on his grounder to Kuhn, who threw wild to catch Farquhar at secon, both runners advancing a peg before the ball was recovered. Doherty's single to left scored Farquhar, but Doherty was nailed at second on Phelan's grounder to Myers. Terrance scored Parkinson on a single to right, but the next two batters were strike-out victims.

Looey Bierbauer was supposed to have been on the hospital list, but that did not keep him out of the game yesnatied at second on Phelan's grounder to Myers. Terrance scored Parkinson on a single to right, but the next two batters were strike-out victims.

"FITZ" WAS HE "UMPS."

Jack Fitzpatrick handled the indicator, and after the game the opinion was expressed that as an umpire Jack is a mighty fine pitcher. Outside of that, of course, he is all right.

The general was silent. North had compelled his respect and faith; for, after all, no guilty man could have faced death with so fine a courage. STEAM ROLLER TRIES TO CRUSH PROUBFOOT CHARGES GOVT. MAJORITY RULES OUT EVIDENCE AND LETTERS

Blockers Exclude Testimony as to Contracts for Coal and Underfeed Stokers, and Prevent Mr. Proudfoot's Counsel From Asking Questions.

Mr. Hanna Told Arbitrator Thorne That He man. (Hanna) Would Be Obliged to Resign if Taylor Subscription Became Known,

[Special to The Advertiser.]

Toronto, April 29.—The first day's sitting of the committee on privileges and elections to investigate the charges brought by Mr W. Proudfoot (Centre Huron) against Sir James Whitney and Hon. W. J. Hanna, was marked by a recurrence of the methods recently adopted by the public accounts committee in regard to the exclusion of evidence.

Time and time again, Mr. H. H. Dewart, who conducted the examination for Mr. Proudfoot, was refused the right to place evidence upon the record relating to the matters referred to by Mr. Proudfoot in the House.

The farce of having evidence "stricken off the record" was again resorted to, and invariably upheld by the committee.

LETTER REFUSED ADMISSION. A letter written by Mr. L. E. C. Thorne, who was arbitrator in the settlement with Taylor, Scott & Co., to Mr. H. Maisonville, former private secretary to Hon. J. O. Reaume, was used by Mr. Dewart in his examination, but he was not allowed to put it in as evidence, nor would Mr. Thorne or the chairman allow any mark

to be made by which it could be identified. A deluge of papers was brought down during the course of the ruling of the chairman was susthe day, and Mr. Dewart asked an adjournment to examine certain of the documents. He wanted an adjournment over night. This was curtly refused; also a recess for a few hours was denied him, and the utmost he could get was a bare hour in the middle of the afternoon.

QUESTIONS ANNIHILATED.

Questions asked by Mr. Dewart regarding the manipulation of coal tenders were annihilated by an overwhelming party majority, and Mr. McGarry, at one time had the temerity to suggest that counsel might be expelled for not adhering to the dictates of the committee.

Throughout it was a stubborn battle. The "steam roller" was effectively applied, and an adjournment was reached after 11 o'clock at night with both members and counsel tired and worn.

Mr. L. E. C. Thorne was the star witness, who was subjected to an exhaustive examination by Mr. Dewart, and late in the evening he was taken in hand by Mr. Wallace Nesbitt. At times during the day heated passages were exchanged by counsel. Legal that Taylor had contributed \$500 to the campaign fund, handing it to him personally, and was making a fuss severely strained.

Mr. Hanna was a quiet witness during the day. Other members of the Government came in and out, but the Prime Minister did not put in an appearance at any time. Wanted the Evidence. | took over the Central Prison indus-

Mr. Dewart forcibly contended that the letter was a proper part of the evidence in the investigation, that it referred to the settlement with Taylor, Scott & Co. The chairman continued that it was only an endeavor to get the letter read in order that it might be published. Mr. went on. He asked Mr. Thorne merely to place his initial on the letter for identification, and when this was not permitted he passed the same compliment to Mr. Ferguson, but with no better success.

During the course of the day's proceedings it was disclosed that the account firstput in by Taylor, Scott & Co., on Jan. 27, 1911, was for \$17,000, and it afterwards became \$19,463, which was the amount at the time the flat was granted, although in the application for the flat \$50,000 was named. One of the items of the claim was \$6,300 for shortage in respect of horsepower. This grew to \$8,000, and finally attained the large sum of \$27, Mr. Thorne in his award allowed \$17.656 for this item of the claim.

The reception room, where the sittings were held, was crowded all day. Sir James Whitney was not present all, although other members of the Government were in and out.

Mr. Thorne Called. Unable to secure a postponement until Wednesday morning in order that he could examine the documents, Mr. Dewart asked that Mr. L. E. C. Thorne be called. Mr. Thorne explained that he was at present a man ufacturer, a member of the firm of Taylor, Scott & Co., of Palmerston. Until 1905 he had lived at Port Huron, Michigan, when he met Mr. Hanna. By ruling of the chairman, all this discussion about the letter was stricken rom the evidence. Mr. Bowman appealed from his ruling, and asked to have Mr. Dewart's request noted, but the appeal was "lost on division."

Mr. Bowman moved, seconded by Mr. Elliott, "That whereas certain questions had been asked of the witness, L. E. C. Thorne, as to whether in the course of his investigations any improper suggestions had been made to him by any oficial or officials of the Government, hose questions should be recorded." The chairmen ruled this out of order as the questions already ruled on, and on appeal this ruling had been sustained. It vas out of order entirely. This concluded the examination of this

witness (Thorne) for the evening. In response to the chairman's question whether they would go on with the witnesses-Mr. Taylor being present-Mr Dewart said he would be prepared to go on in the morning. "Not tonight?" asked the chairman. "No," said he. On a resolution moved by Messrs, Bownan and Elliott the committee directed

subpoema to issue to Mr. W. K. Mc-Naught, requiring his attendance today. He and Mr. Taylor may both be called on in the morning session, which opens Mr. Dewart asked that a copy of The

Gazette of 1908, relating to tenders, be put in evidence, and this being an official record the chairman said there could not e any objection. The committee then adjourned.

100 FARMERS FOR GREY CO.

Band of Practical Scotchmen Brought Out by Mr. H. C. Duff.

ALL ARE MAKING GOOD

[Special to The Advertiser.]

Durham, April 30,-So acute is the farm labor problem in Grey County that Mr. H. C. Duff, district representative of agriculture, recently returned from Scotland with a band of 100 practical farmers, and distributed them throughout the county. Personal visitation enabled Mr. Duff to get in touch with a desirable class, and the farmers in this district who secured help say in this district who secured help say that the immigrants are making good. While replacing a belt on a machine in the furniture factory sawmill on Monday afternoon, John Noble, an employee, got his clothes caught in a revolving screw, which tore them to shreds from his body, while he himself was caught in the meshes of the belt and whirled ceilingward, drawn between the shafting and the ceiling, and thrown on a heap of sawdust. Noble was stunned and sustained severe injuries on his arm and head. He will be off work for a week or so.

For rifling the till of W. Firth, a butcher, on Saturday, and that of a Chinese laundry on Monday, James Hartford, a 10-year-old boy, will likely be sent to the reformatory.

Durham is no longer represented in military matters. Owing to lack of enthusiasm and the inability to raise anything near a full complement of men for several years past. "D" company of the Thirty-fifth Regiment has been transferred to Hanover, and a troop will be sent to Niagara camp from that town. The regimental band was lost last year, and given to Owen Sound. The armory built in Durham four years ago now stands idle. It is rumored that R. J. Ball, M.P., will secure a building for Hanover. that the immigrants are making good

KEEP THE CHILDREN'S **BOWELS CLEAN NOW**

of If Tongue Is Coated, Stomach Sour, Breath Feverish, Bowels Clogged Give "Syrup of Figs."

Children dearly love to take deliious "Syrup of Figs" and nothing else cleans and regulates their tender little stomachs, liver and 30 feet of bowels so promptly and thoroughly.
Children get bilious and constipated just like grown-ups. Then they get sick, the tongue is coated, stomach sour, breath bad; they don't eat or rest well; they become feverish, cross irritable and don't want to play. Listen Mothers-for your child's sake don't force the little one to swallow nauseating castor oil, violent calomel or harsh irritants like Cathartic pills. A teaspoonful of Syrup of Figs will have your child smiling and happy again in just a few hours. Syrup o Figs will gently clean, sweeten and regulate the stomach, make the liver active and move on and out of the bowels all the constipated matter, the sour bile, the foul, clogged-up waste and poisons, without causing cramps or griping.

With Syrup of Figs you are not lrugging or injuring your children. Being composed entirely of luscious figs, senna and aromatics it cannot be harmful. Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup anything else offered.

A Good Collector

A statement reaching a debtor on the first of the month is a good collector-five, or even two days later, the same statement won't pull as well.

That's just one of many advantages of Burroughs-made statements - to make out, they take less than half the time of pen-made statements.

Which means, they go out on the first of the month-not from the fifth to the tenth. And the old rule of "first come, first served" applies to state-

Result—less collection expense—less money on the books—less bad debts.

And it's being proved every month by many thousands of businessmen now using these machines.

Let us make out your statements next month-no cost nor obligation.

A hand-written letter inevitably has a repellant effect upon the business man who opens it. His first thought is that his correspondent who writes "longhand" isn't modern-isn't progressive-isn't up-to-date-in fact isn't a good business man.

Typewriter type, on the contrary, has a compactness, clarity and precision which begets confidence—and business.

HAY AND OATS ONLY OFFERINGS ON MARKET

Prices Were Considerably Lower Than the Quotations of Tuesday.

The price of hay and oats, the only offerings on the local market today, were considerably easier than the quotations for the same on Tuesday. Some twelve or 14 loads of hay were sold during the morning, and the prices ranged from \$10 to \$12.50 per ton, according to the quality of the hay. The average price was in the neighborhood

Only six loads of oats were sold, but the amount of oats offered during the last week had weakened the demand, and the highest selling price today was \$1.15 per cwt.

Parliament had a right to restrict

the loans of banks to persons and cororations in foreign countries. The Speaker objected to the clause and Mr. White declared that it would te merely scattering accounts to retrict loans at certain terms of the year would be disastrous to corpora-

tions. Packed the House. A vote was finally taken on the first principle of the amendment relating to foreign loans. The amendment was defeated by a vote of 23 to 10, the back seats being packed with members seldom seen in the committee, who obediently held up their hands to vote the amendment down. Those who voted in favor of it were: Messrs, Edwards, Sharpe, Steel, Alkins, Rainville, Emerson, Thompson (Qu'Appelle), Mc-Curdy, and one other. Among those who voted against the amendment was P. E. Blondin, deputy speaker of the House, who has never been in committee before.

Lower Than Normal Are the Cubists, Says Wyly Grier

In the opinion of S. Wyly Grier, R.C.A., who lectured on Modern Movements in Art," in St. Andrew's Hall on Tuesday night, the suffragettes ought to adopt as a banner Matisse's alleged portrait of his wife done in Matisse's very best post-impressionistic style. Mr. Grier divided his subject into egitimate impressionism and postimpressionism, with which latter he

coupled the contemporary movements of cubism and futurism. The French impressionists of sixties were a protestant body like the post-impressionists of today, said Mr. Grier. Related to the French im-pressionists were the Pre-Raphaelites in England, who protested against the Victorian moralitic schools. The

fluence of the Velasquez and the Spanpost-impressionists following, was pointed out. Mr. Grier explained the "tachist" or 'broken' and vibratory effects of the post-impressionistic school, which give

to their paintings the appearances of motion and sunlight. The work of Childe-Hassam, the American impressionist, was favorably commented upon On Suzanne and his influences, Mr. Grier blamed "the present unhallowed stuff" of the post-impressionists. He characterized the cubist work heterogeneous.

Pictures of Herbin, Henri, Bellows, uzanne, Meunier, Childe-Hassam, Suzanne, Manet and Millais were thrown on the canvas. LONDONERS ORGANIZE A WELCOME LEAGUE

The London Welcome League was Harvard Laurels organized on Tuesday at a meeting of the Charities Organization and representative manufacturers, social and philanthropic workers and others, in the city hall.

The league has as its object the welcoming of immigrants arriving in London, assisting in finding them employment, suitable houses, and enabling them to secure their first month's supplies of groceries, and to obtain furniture and other household necessities in cases where they have not the necessary cash. The league proposes to guarantee the payment of credit accounts contracted for these purposes during the first month of the immigrant's residence in the city.

Quarters for Newcomers. In addition to this, temporary quarters will be fitted up for incoming immigrants in one of the exhibition build ings in Queen's Park.

The league asks that persons having houses to rent and willing to sub-let parts of their houses, also persons having second-hand furniture to dispose of, will communicate with the league. Committee Named.

Mayor Graham presided at the organization meeting Tuesday. Mr. Richard Sanders was appointed the executive officer of the league, and a committee was appointed, including Lieut.-Col. Gartshore, John Hayman, Rev. J. G. Sturrt, T. A. Stevens, Sheriff D. M. Cameron, Mr. Somers, Mrs. iff D. M. Cameron, Mr. Somers, Mrs T. C. Duncan, Miss Boyd, Miss Mc-Kellar, Immigration Officer Riggs. The committee was empowered complete the organization as may be found necessary. Seventeen families are expected to

arrive on May 16, and a party of 35 families a little later.
