

BAD BLAZE IN WAREHOUSES CAUSED A LOSS OF \$70,000 A YORK ST. CONFLAGRATION

Costly Fire on Saturday Afternoon in Which Three Well-Known Firms Suffered Severely—Thought to Have Been Caused by a Stove.

TWO FIREMEN WERE INJURED

Captain Mitchell's Ankle Sprained—Fireman Bryan's Fingers Crushed—All the Loss Is Fully Covered by Insurance—Firemen Did Good Work at the Blaze.

THE FIRE IN BRIEF.

FIRE DISCOVERED—5:35 o'clock Saturday evening.
DURATION—Until 12:15 o'clock.
LOSS—Forsythe, Fraser & Weir, \$35,000 to \$40,000.
H. T. REASON & CO.—\$20,000.
W. C. ANDRUS—Building, \$9,000.
McMAHEN & GRANGER—About \$500.
INSURANCE—All fully covered.
CAUSE OF FIRE—Presumably a stove in Forsyths, Fraser & Weir's.

FIREMEN INJURED—Capt. Jack Mitchell, ankle sprained by fall; Fireman Bryan, fingers crushed by ladder.

A very stubborn fire did nearly \$70,000 damage on Saturday evening to the warehouse of Forsythe, Fraser & Weir; to the plant of H. T. Reason & Co., and to the warehouse of McMahen & Granger. The whole block was threatened at one time, and it looked as if a very serious fire would result.

After nearly 7 hours' hard work in zero weather, the brigade finally got the best of the flames.

Two firemen were injured. Captain John Mitchell of No. 5 company had his ankle sprained, and Fireman Bryan of the central station had one hand crushed under a ladder. Neither accident is serious, but it will lay both men up for a few days.

DISCOVERY OF THE FIRE.

The fire was discovered by Mr. Archie McMahen. He was in the warehouse of McMahen & Granger, and noticed a light at the rear. He went back to investigate. At that moment the flames burst out of the rear of Forsythe, Fraser & Weir's establishment. He instantly turned in an alarm. Fire chief Aitken had noticed a bright light at the rear of the block, and was about to investigate when the alarm was turned in. All the departments in the city responded, and it was not long before the whole brigade was at work.

When the firemen started work, the whole rear of the building was ablaze. Fire was present on every floor. Six streams were thrown in from the rear, and many were thrown in from the front.

STUBBORN FIGHT.

The fight looked to be a stubborn one, and the brigade settled down for a long, hard battle. The steam engine, was placed in commission, and soon threw two large streams in the front.

The flames did not yield readily, and it was some time before any impression was made. After an hour's work there was no evidence of fire, save immense volumes of smoke.

It is rarely that so much smoke is seen at such a fire, and it made fire-fighting very difficult.

Tons of water were poured into the structure.

THE ROOF FALLS IN.

Shortly after 6:30 o'clock, the roof fell in. This carried with it part of the east wall, and the building was in danger of falling. The firemen directed their attention to putting the fire out there. At one time it looked as if the plant was doomed, but the firemen succeeded in keeping the flames under. As it was a great deal of damage was done to stock and machinery.

THE FORSYTHE BUILDING.

When the fire had been brought under control the whole brigade turned their attention to the Forsythe building. The smoke was intense still, and the firemen set doggedly to their task. At 8 o'clock the fire was under control absolutely, and the firemen took turns at turning over the burning debris, and preventing further spread. At midnight the departments were sent back to the stations. Two lines of hose played on the stock all night, and on Sunday a couple of brigades were sent to the warehouse and played on incipient fires.

LOSS IS VERY HEAVY.

The loss will be heavy, especially on Forsythe, Fraser & Weir. Their stock of hats, caps and furs was completely destroyed. The interior of the building was also gutted, and there is little worth salvaging in the building.

The only injuries received by the firemen were painful, but not serious. Capt. Mitchell slipped from the staging at the rear of the building turning his ankle. Fireman Bryan had his hand caught while assisting in lifting a ladder. The fingers were painfully cut.

When the roof fell in a sensational rumor was afloat that Capt. Case and many firemen were buried in the ruins. Some busybody told Mrs. Case and she hurried to the scene in a very nervous state. Of course her husband was safe and well, but the shock to Mrs. Case was considerable.

FIREMEN'S BRAVE FIGURE.

The firemen fought well but kept at a safe distance from the building. There had been fire there some years ago, and it was considered very dangerous.

CAPT. JOHN MITCHELL, OF NO. 5 COMPANY. HE WAS INJURED IN SATURDAY'S FIRE.

REMAINS WERE LAID AT REST

Funeral of Late Gordon Clark Held Sunday to Mt. Pleasant Cemetery.

A MOTHER'S BRAVERY

Rev. Mr. Vining's Touching References at the Funeral—Floral Offerings Were Very Beautiful.

The funeral of the late Gordon Clark was held Sunday afternoon from the residence of his mother, 365 Princess avenue.

The services were most impressive. Rev. A. J. Vining, pastor of the Talbot Street Baptist Church, was in charge. He spoke briefly, drawing lessons from the brevity of human life and alluded touchingly of the pathetic circumstances of the young man's death. He referred to the tragic death of the late Chief Clark, less than 18 months ago.

Seldom has any woman been called upon to bear such sorrow as Mrs. Clark, and Mr. Vining spoke of her as one of the bravest women he had ever met.

Floral Tributes.

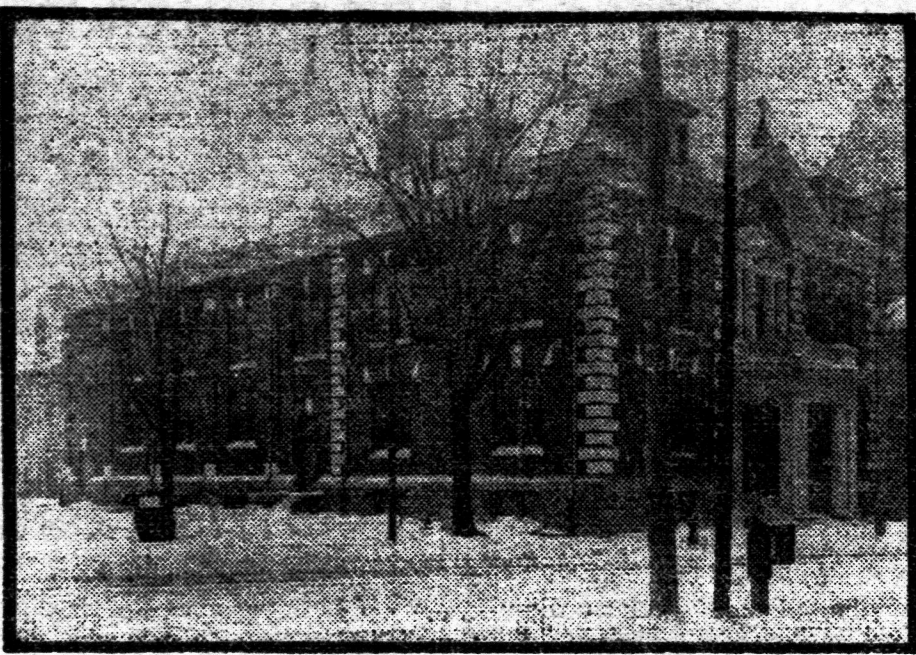

The floral offerings were very beautiful. A handsome shaft was sent by his companions on the hydro-electric survey; wreaths were sent by the hydro-electric commission, the city hall employees, his relatives, Mr. and Mrs. T. C. Binkley, and scores of others.

The pallbearers were Dell Wood, London; F. Beatt, Toronto; M. Weir, Toronto, and R. Sayre, Brantford, companions on the survey, and R. Pierce, Brantford, a cousin, and Milton Scott, Kipp, of Hamilton; Milton Scott, of Oshkosh, Wis., a chum of Gordon's.

The interment was made at Mount Pleasant Cemetery. Among the relatives and friends from a distance attending the funeral were Mr. and Mrs. S. G. Powell, Battle Creek, Mich.; Mr. and Mrs. H. Pierce, Russell Pierce and Harold Pierce, Brantford; Mr. and Mrs. J. Temple, Brantford; Mr. and Mrs. T. C. Binkley, Hamilton; Assessment Commissioner McLeod, Sgt. Alex. Campbell, Fire Chief Ten Eyck, and Miss Kipp, of Hamilton; Milton Scott, of Oshkosh, Wis.; Mr. J. Ainley, of the hydro-electric survey, and many others.

BELL REMANDED.

Toronto, Feb. 7.—William Bell, charged with attempting to murder his wife, Emily, in the Traders Bank apartments on Gerrard street east, appeared in court this morning. Mr. T. C. Robinson, who appeared in his behalf, pleaded not guilty for his client. Bell was remanded till Thursday. Bell cut his wife's throat and then tried to cut his own.

By Staff Photographer. ST. PETER'S PARISH HALL. The latest addition to the handsome group of Roman Catholic buildings in London. The hall is situated on the southeast corner of Richmond street and Princess avenue.

MAD DOG SCARE GRIPS PEOPLE MANY CASES IN THIS DISTRICT

Toronto Passes a Law to Compel the Muzzling or Locking Up of All Canines—Warning to People Is Sound by a Gentlemen in Close Touch With the Situation.

People all through this district are keenly interested in the bill which was passed in Toronto on Saturday ordering that all dogs be locked up or muzzled under a penalty of a fine of \$200. An epidemic of rabies such as has never been known has been sweeping all through Southwestern Ontario, and a gentleman in close touch with the situation remarked to The Advertiser recently that if some measures were not taken at once to confine the large number of dogs running at large, all through the country, next summer will see such an outbreak of rabies as will prove disastrous to cattle and endanger many human lives.

A Case in Point. At Merlin recently an innocent-looking pup strayed into the town and went to sleep on a veranda. The children in the house came out to go to school, and seeing the strange dog, tried to coax it to school with them. It followed willingly and went into the schoolroom, and when the boys began to tease it, it bit four of them. The dog was driven out, and ran back to the village, where it became famous in a short time by the manner in which it snapped at every dog that came in sight. No less than 25 dogs were bitten before it was discovered that the animal was mad. Nineteen of the dogs that were bitten were destroyed. Some of the others were tied up.

G. T. R. CLOSING SECOND DEAL FOR PROPERTY ALONG MAIN LINE

Site of Canada Chemical Company on Rectory Street Has Been Acquired From Mr. Thos. H. Smallman—Some Facts About the Southern Deal—Company Prepares for Track Elevation.

The Grand Trunk Railway completed arrangements this morning for the purchase of the Canada Chemical Company's property on Rectory street, from Mr. T. H. Smallman. For some time the deal has been on, but today it was completed, and the Grand Trunk will take over the property at once.

This is the second piece of property purchased during the past few weeks, and shows that track elevation is not dead by any means, so far as the company is concerned.

The Southern property on Richmond street was taken over some weeks ago, and the chemical company's property practically completes the property necessary for the work.

Six Months' Lease. The railway company have not taken over the Southern property. They gave a lease to the company for three years, with a six months' cancellation clause—practically a six months' lease.

If a decision is arrived at by the Dominion railway commission, it is more than probable that work will be commenced by the next year.

Nothing has been received at the city hall as to when the railway commission would hold a session in London.

The Railway Commission. It was expected that they would be here some time in February.

The city would receive ten days' notice of such a meeting, and word should be sent very soon to the commission to meet here this month.

"We have heard nothing," said Mayor Beattie. "We will hear from the commission in good time. The session is on, and will be somewhat difficult for them to get away as soon as anticipated."

It is understood that the G. T. R. are negotiating for other property, but this could not be verified.

SOVEREIGN GREAT PRIORY MEETS IN LONDON IN AUGUST NEXT

Preparations Are Already Being Made and Many Important Committees Have Been Named—Will Be Largest Knights Templar Gathering Ever Held in Canada.

Preparations are being made for the Sovereign Great Priory meeting, which will be held in London during the first week in August.

Preceptors from all over Canada will be present, and it is expected that the largest gathering of Knights Templar ever held in Canada will be here.

Preceptors from Detroit, Buffalo, Port Huron, and other places will be present to give an international flavor to the affair.

Richard Cœur de Lion Preceptor have made arrangements for the entertainment of the visitors, and have already struck their committees. They will immediately get to work, and prepare for the reception of the visiting knights.

The Committees. The general committee will be as follows: R. E. Sir Knight, C. W. McGuire (chairman), V. E. Sir Knight, Thomas Rowe, Sir Knights Wilson, Winterbottom, D. Ferguson, J. W. Metherall, T. G. Davis, H. Ashton, S. Southcott, J. R. Chinn, A. L. Simmie, R. D. McDonald, Sir Knight S. Baker (secretary), and Sir Knight P. D. Miller (assistant secretary).

Reception Committee—Sir Knight D. Ferguson (chairman), Sir Knights John Aitken, D. W. Blackwell, A. E. Cooper, J. Callard, C. B. Edwards, S. Grant, V. E. Sir Knight T. Rowe, Sir Knights W. Wyatt and F. Andrews.

Entertainment Committee—Sir Knight J. W. Metherall (chairman), Sir Knights H. E. Buttrey, George H. Dettlor, W. J. Darch, J. J. Dyer, T. Pawkes, J. Garrett, T. Jenkins, R. D. McDonald, J. M. McVoy, B. Noble, Dr. A. R. Routledge, Dr. G. A. Routledge, and C. H. Wil.

Finance Committee—Sir Knight T. G. Davis (chairman), Sir Knights J. R. Chinn, A. L. Simmie, R. D. McDonald, Sir Knight S. Baker (secretary), and Sir Knight P. D. Miller (assistant secretary).

Decorations Committee—Sir Knight A. L. Simmie (chairman), Sir Knights H. M. Douglas, W. S. Davidson, J. Ferguson, O. S. W. Fuller, E. Gossley, W. G. Logan, F. A. Miner, D. A. McCou (Continued on Page Nine.)

FINLAY McNAUGHTON DEAD. Cornwall, Feb. 7.—Finlay D. McNaughton, J.P., ex-warden of the United Counties, ex-receiver of Finch Township, ex-master of Stormont County Orange Lodge, was dead at his home in Cornwall. He was 61 years old. Mr. McNaughton was a veteran of the Fenian raid, being a captain in the Fifty-ninth Regiment.

CHARGE OF THEFT FAILED IN COURT

Peculiar Case of How Money in Envelope Got Into Wrong Pocket.

EVIDENTLY A MISTAKE

Police Magistrate Could Not See How a Conviction Could Be Made—A Queer Affair.

A most peculiar case was heard before Magistrate Love at the police court this morning, when Alfred Baxter, a young man, residing at 53 Cavendish street, West London, was charged with stealing \$9 from James Gedge. He was acquitted after the evidence had been heard.

Gedge, in the box, stated that both he and Baxter went up to change his clothes, and Gedge worked on until 2 o'clock in the morning. About 1:30, when he came up to get 25 cents out of his pocket he found that his money envelope in an inside pocket.

Money Was Gone. Baxter's clothes were there at the time, but Baxter was then downstairs at work. About 10 o'clock witness stated Baxter went up to change his clothes, and Gedge worked on until 2 o'clock in the morning.

When he came up to get 25 cents out of his pocket he found that his money envelope in an inside pocket. The money was where he had left it, but the money was gone. He reported the matter to the foreman.

Detective's Story.

Detective Down stated that the case had been reported and he and Detective Egleston went out to find Baxter. They found him near his home, and asked him if he knew anything about the money, and he said he didn't, and asked the detectives to come with him into his house while he went back and looked through the clothes he had been wearing. They followed him outside and in a few minutes Baxter came out, and gave them the money which he had found in his pocket.

A Mistake. He did not know how it came there. Baxter, in the box, told a similar story, and could in no way account for how the money got into his pocket.

The magistrate thought there was a mistake some place, and that Mr. Baxter had acted in a honest way throughout, and did not know anything about the matter. The police magistrate dismissed the case.

CHAMBERLAIN CALLS ASQUITH TREACHEROUS

Declares That He Will Not Carry Out Promises Made to the Irish.

London, Feb. 6.—The Morning Post gave the gist of a conversation held last week with Joseph Chamberlain on the results of the election. Mr. Chamberlain attributed the Unionist gains to the bold advocacy of tariff reform, and said the Unionists feared worst where the leaders were vacillating and timid.

"Mr. Asquith," he continued, "will find his taskmasters, but he will not give them home rule. He will get out of it somehow."

Mr. Chamberlain declined to say what his own policy would be in regard to the Lords, but thought that the Unionists ought to aim at the strengthening of the House of Lords by the reform of its constitution. He was strongly against the Unionist party making any effort to obtain the support of either the Labor or Irish parties.

In conclusion, he emphatically asserted the necessity of having either a full imperial policy of tariff reform or nothing.

ORTHODOXY QUESTIONED

Toronto, Feb. 7.—Rev. L. S. Hugheson, who preached at the candidate for the pastorate of Ossington Avenue Baptist Church, and who it was believed would be the choice of the congregation, has withdrawn his application. The supposed reason is the interference of Rev. Dr. Stewart of the Bible Training School, who is said to have made remarks to several members of the congregation relative to the soundness of the candidate's doctrine. Mr. Hugheson was one of those appointed to hear the charges of heavy brought against Prof. Stewart by Dr. Elmore Harris, who is also of the Bible Training School. Dr. Stewart has admitted that he called the candidate's orthodoxy into question, but does not attribute that as his reason for his resignation.

SUNDAY'S WEATHER.

Toronto, Feb. 6—8 p.m.—The cold wave which came in from north of Manitoba and Lake Superior on Friday night spread over Ontario and Quebec on Saturday, with temperatures much below zero. The weather continued fine and comparatively mild in the Western Provinces.

The area of high pressure and cold wave which came in from the northward of Manitoba and Lake Superior, is now centred in the Middle States, and the barometer is falling in Manitoba and Ontario. Temperatures below zero were quite general yesterday in Ontario, and also in Western Quebec.

TROLLEY CRASHED INTO CUTTER A COUPLE'S NARROW ESCAPE

BRUCE JAMES HURT FELL FROM A LOFT

Accident on Saturday to the Son of an Ex-Reeve of Komoka.

Bruce James, son of ex-Reeve Burley James, of Komoka, was seriously injured at his father's barn on Saturday, by falling through the door of a loft. When picked up it was found that the boy's leg had been fractured, and that he was very badly shaken up. He was attended by Dr. Stevenson and will be confined to the house for some time.

MANY DELEGATES NOW IN THE CITY

Hardware Convention Opens Tonight With a Meeting of the Executive.

CITY HALL A BUSY PLACE

Visitors Are a Jolly Crowd of Businessmen, Who Are Combining Business With Pleasure.

The hardware convention will open tonight with a meeting of the executive committee at the Tecumseh House, the convention headquarters.

The larger number of the members have already arrived, and the remainder will come in on the afternoon and evening trains.

The programme will open really tomorrow, when the city hall exhibits and the session will be opened.

The local arrangements are practically perfect, and if the visitors do not have a good time the fault will be theirs, not the local committee's.

The city hall was a regular hive of industry this morning. Large gangs of workmen were preparing for the exhibits, which are arriving on every train.

In the City Hall.

The auditorium of the city hall is practically filled now, and this evening will see the work completed. The arcade is not quite ready, but will be finished in time for the opening of the big show tomorrow.

Mr. Weston Wrigley, secretary of the association, and Mr. A. M. Hunt, secretary of the city hall, are superintending matters, and everything is moving along smoothly.

The delegates are being met and escorted to the hotels, and the entertainment provided for them will be the best possible.

"We have been busy this morning getting the exhibits in order," said Mr. Hunt. "They will be a fine lot, and will prove of great interest to all parties concerned and to the citizens generally."

Executive Meeting.

The executive will meet tonight, and the convention proper will meet on Tuesday. There will be a fine lot of men here, and everything should be pleasant.

Banners and streamers are up announcing that the hardware men have taken over the town for the rest of the week, and judging from the men in charge, this fair city will be well looked after.

HOUSE AFIRE FOR SECOND TIME

St. Thomas, Feb. 7.—The residence of Mr. E. A. Snoddy, a well-known real estate man, was badly gutted by fire this morning, \$1,200 damage being done. The fire started in the basement. The house was on fire on Dec. 13 last, the occupants at that time being obliged to make a hasty escape in their nightclothes.

CEMENT MEN COMING TO LONDON BIG CONVENTION IN MARCH

City's Offer of Local Rink and a Free Convention Hall Resulted in the Association Deciding to Come Here—In All About Fifteen Hundred People Will Be Brought to the Forest City.

The annual convention of the Canadian Concrete and Cement Association will be held in London on March 29, 30, 31 and April 1.

On Saturday, Mr. Pulfer, of the Ideal Concrete Machinery Company, and Mr. A. M. Hunt, secretary of the Western Fair, visited Toronto and addressed a meeting of the executive.

They were welcomed by a telegram from Mayor Beattie, who offered the convention the free use of the Princess Rink and a hall for their meetings if the convention would come to London.

Representatives were present also from Montreal, Belleville and Hamilton, making offers for the convention. However, London's offer, and other advantages made a strong appeal to the members of the executive, and it was decided to come to London on the dates mentioned.

Convention Is a Big One.

The convention is a large one, and it is expected that over 1,000 delegates will be present.

Mr. and Mrs. Wilson, of Missouri, in a Bad Smash-Up.

HORSE KILLED IN COLLISION

Were Dragged Sixty Feet and Lady Is Suffering Greatly From the Shock.

A head-on collision between a Dundas car, running west, and a horse and cutter, driven by Mr. and Mrs. Frank Wilson, of Missouri, Saturday night, resulted rather seriously for the occupants of the rig, while the horse was so badly injured that it died shortly afterward.

Mr. and Mrs. Wilson were driving home from the city, and as the snow is piled up very deeply on the sides of the road, they were compelled to keep to the centre.

Struck by Car.

A Dundas car, returning from Petersburg at a rapid rate, struck the outfit near the Asylum road, Mr. and Mrs. Wilson were dragged about 60 feet, the latter suffering greatly from shock.

It was thought at first that she had sustained a fracture of the skull, but her recovery is now looked for by the attending physician, Dr. Schief. She was reported to be resting easily at her home today.

The cutter was smashed to matchwood, and how the occupants escaped death is a mystery.

A HUGE PROGRAMME OF CANADIAN PACIFIC

Thirty Millions Will Be Spent in Developing System in the West.

Winnipeg, Feb. 7.—A programme of construction amounting to about \$30,000,000 has been announced by General Manager Bury, of the Canadian Pacific, in western lines, and an explanation is thereby given of the increase in the capital stock of the company, which was approved by the shareholders at the annual meeting in Montreal in October last. It will be remembered that this increase amounted to exactly \$20,000,000, and it is apparent that the company can find profitable ways of expending that sum west of the great lakes.

FORMER LONDON DOCTOR DIES IN QUEEN CITY

Death of Dr. J. M. Piper in Toronto—Funeral Will Be Held on Wednesday.

Word was received in this city this morning of the death of Dr. J. M. Piper, in Toronto. Dr. Piper was a well known former Londoner, and left this city for Toronto over three years ago.

Death was due to Bright's disease, and the doctor had been laid up for the past three months.

He was formerly sergeant-major in the Seventh Regiment in this city, and at the time of his death was a major in the Governor-General's Bodyguard.

He is survived by three brothers and two sisters, Samuel T., of Fleming, Sask.; R. M., of Lambeth; Drs. D. H. and W. A. Mrs. J. E. Sutton and Mrs. R. J. Davies, all of this city.

A military funeral will be held in Toronto Wednesday afternoon.

CEMENT MEN COMING TO LONDON BIG CONVENTION IN MARCH

City's Offer of Local Rink and a Free Convention Hall Resulted in the Association Deciding to Come Here—In All About Fifteen Hundred People Will Be Brought to the Forest City.

The annual convention of the Canadian Concrete and Cement Association will be held in London on March 29, 30, 31 and April 1.

On Saturday, Mr. Pulfer, of the Ideal Concrete Machinery Company, and Mr. A. M. Hunt, secretary of the Western Fair, visited Toronto and addressed a meeting of the executive.

They were welcomed by a telegram from Mayor Beattie, who offered the convention the free use of the Princess Rink and a hall for their meetings if the convention would come to London.

The convention is a large one, and it is expected that over 1,000 delegates will be present.

WATER COMMISSIONERS DECIDE TO TAKE UP THE MATTER OF INSURANCE.

Water Commissioners Decide to Take Up the Matter of Insurance.

HANDLING OF SURPLUS

Matter Has Not Yet Been Settled—An Amusing Case of Over-charging Brought to Light.

Steps will be taken at once to arrange a meeting between the water commissioners, the members of No. 1 committee, and the fire underwriters, with a view of learning what the underwriters require to effect a substantial reduction in the insurance rates in this city.

The proposal to hold the meeting was made by Commissioner Pocock at a session held on Saturday, and was seconded by Commissioner Darch. Commissioner Pocock pointed out that the firm of Robinson, Little & Co., and his own company, had secured substantial reductions from having complied with the underwriters' demands, and he thought the city could do the same thing if the matter is gone about the right way.

The Water Surplus. The questions as to whether the surplus of the waterworks department should be turned over to the city caused considerable discussion. Commissioner Darch moved that the policy that has been followed in the past be again ratified.

Commissioner Pocock declared he was in favor of consolidation. Commissioner Darch said that he thought that as the water consumers of London create the surplus they should have it.

Mayor Beattie favored Commissioner Pocock's plan, while Chairman McMahon sided with Commissioner Darch. It was finally decided to leave the matter over for further consideration.

Overcharging Case. An amusing case of overcharging was brought to the notice of the commission, when Mr. H. H. Young, of Dufferin avenue, wrote stating that he had been charged for water used by a horse, whereas he did not have a horse. It appears that he had been charged through a mistake by the inspector, and the matter will be looked into, and if Mr. Young's contention is correct he will not be charged.

Line to Springbank. Engineer Sifton brought in a partial report regarding the proposed transmission line for Niagara power to Springbank. The report is necessarily incomplete, as the matter has not yet been decided upon, it was laid over.

CITY WILL FIGHT CLAIMS FOR DAMAGES

Niagara Power Employees Are Said To Be Going in for Petty Damages.

Rather than be imposed upon by claims for alleged trivial accidents in connection with the work of building the Niagara power line, the water commissioners at their meeting on Saturday took a firm stand, and decided to fight them to the end.

The Claims. Engineer Sifton reported that an employee, Mr. Tine, who claimed to have had his hair pulled by a pole, had written him regarding the matter. The engineer stated that a certificate from Dr. Dardon was presented, but that he had been told that Tine had quit work early on the evening of the accident and stated that he was going to have his hair cut.

Another claim was that of Mr. Marsh, and a letter was read from Messrs. Campbell & Sons, insurance agents, recommending that half the amount claimed be paid. The commission decided to pay nothing.

CITY WILL FIGHT

What is the use of having them insured at all? said Commissioner Pocock. "Let's fight it," said Commissioner Darch.

The company is either liable or they are not liable," said Mr. Pocock. The applications for payment of the claims were filed.

CLOTHES AND STATUES.

A Londoner's request for a top-hatted statue has proved fruitless, but has revealed many unlovely specimens of the sculptor's art. The statue of George Peabody, opposite the Royal Exchange, is perhaps the most glaring example of the ugliness of modern statue when carved in stone. Many people, however, might feel disposed to award the palm of hideousness to a statue fortunately concealed in a secluded spot. This is the statue of George II., the mournful statue, the guardian genius of a little wilderness of shrubs, which faces Mr. Ralph Nickleby's office in Golden Square.

Usually suffers from backache, bladder trouble or out-of-order kidneys feel relieved after several doses of Pape's Diuretic.

CITY DESIRES TO REAP A BENEFIT

If Roller Coaster, Etc., Are Put Up at Springbank Park.

A NICE POINT IS RAISED

Commissioner Pocock Wants to Know the Law on the Matter—Other Business at Meeting on Saturday.

The question of a roller coaster for Springbank Park came up at a meeting of the water commissioners on Saturday afternoon, and after a lengthy discussion, it was decided to do nothing until the city solicitor is asked whether, according to the agreement now in force between the city and the railway, the railway have the power to initiate anything unless the city requests them to do so.

Mr. Pocock's Views. Commissioner Pocock, as soon as the matter of the roller-coaster came up, urged that nothing be done until a letter is received from the street railway company relinquishing the privileges they have under the agreement. Mr. Givens, who wishes to take the matter up with the commissioners, was pressed and he finally decided not to hear his proposal until after the city solicitor's opinion is obtained.

Commissioner Pocock pointed out that there is nothing in the present agreement which would allow the city to initiate anything unless the city requests them to do so. Commissioner Darch thought it was understood that they could.

Put It Up to Railway. Commissioner Pocock thought the city would be placed in a very unfair position if they were to initiate a roller coaster, and then let the street railway get all the benefit from it. He proposed to let the street railway retain all its claim they might have, and then deal directly with Mr. Givens, and let the city have any benefit there might be.

Communications. A letter from H. E. Gates, on behalf of the London & Hamilton Association, asking for terms for light and water, was referred to the engineer to look after.

Mr. E. Manigault wrote asking that the commission keep his name before them in case any position occurs.

The Labatt Manufacturing Company wrote offering some supplies that they had left over at a greatly reduced price, and the matter was left with the engineer to look after.

W. H. Heard, of the Spramotor Company, wrote stating that he had no means of collecting \$4 water rates on premises destroyed by fire last fall, and requested that the account be cancelled. The commission thought that Mr. Heard is liable for the account, and he will be requested to pay it.

A letter from the Colonial Engineering Company, of Montreal, offering to supply gas engines for lighting or other purposes, was filed.

A report of the boiler inspectors, showing that the boilers in the pump-house had been inspected, was filed.

The Beck Wells. Chairman McMahon was instructed to meet Hon. Adam Beck and Engineer (Clutchie) and take up the matter of two accounts, one for \$3,398 for piping, and one for \$4,000, for engineering in connection with the Beck wells system.

Engineer Moore's report showed that during the month of January, 1910, 977 gallons of water were pumped at Springbank, an average of 4,166,671 gallons per day.

Preparing for Flood. Commissioner Wyatt moved that the engineer be instructed to take out the stop logs at the dam if there were the slightest indication of any approaching flood.

Mr. Tine remembered seeing so much snow in the country," he said, "and it snowed in the middle of winter, and it was a period of mild weather and rain should come, there will be a big flood. It is just as well to be prepared for it." The suggestion was unanimously approved.

A Volt Meter. Engineer Moore suggested that a volt meter be procured at once, and that a survey of the pipes be made for electrolysis before the hydro-electric lines are in operation.

Engineer Sifton heartily approved of the scheme, as he pointed out that if the work is done now, and a record is kept in case of any trouble after the Niagara power line is running, the records will be very valuable. The volt meter will cost about \$100, and it was decided to get it at once.

Trimming Trees. Engineer Sifton submitted a requisition for supplies for work in connection with the trimming of trees, and it was passed. He was also instructed to call for tenders for 1,550 lamp braces for the new hydro-electric lights. He submitted three designs, and it was decided to get figures on each.

There were present at the meeting: (Chairman A. McMahon, Mayor Beattie, Commissioners Pocock, Wyatt and Darch, Engineer Sifton, Engineer Moore and Secretary Ellwood.

The public service commission of the State of New York has declined to compel the adoption of electricity by the railroads passing through the Adirondack country as a means of preventing the destruction of the forests by fire.

KIDNEYS AND BLADDER, DISTRIBUTING LIFE

Kidneys and Bladder, distributing life-giving, healing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it. The moment you suspect any Kidney or Urinary derangement, begin taking this harmless medicine with the knowledge that there is no other remedy, at any price, made anywhere in the world, which will effect so thorough and prompt a cure as a 50-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape's Diuretic, a 50-cent treatment, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Diuretic, and a few days' treatment will make anyone feel fine. Accept only Pape's Diuretic—50-cent treatment—from any drug store—anywhere in the world.

RADICAL CHANGES IN WATER RATES

Commissioners Pocock and Darch Say They Are Ridiculous.

CHARGES EXORBITANT

Putting in of Meters Also Appears To Be Worked to the Limit—Investigation Is To Be Made.

Some radical changes are to be made shortly in the rates charged citizens for water meters, as a result of the commission's report, and the information which shows that in London the charges are exorbitant as compared with those in other places. Engineer Moore at the meeting of the commissioners on Saturday stated that the average cost of the meters is \$12, and that they last ten years. The minimum charge made by the city now is \$4.

It was stated at the meeting that in Berlin meters are rented at \$1 per year.

Rates Are Absurd. "It is absurd for us to be charging such rates then," said Commissioner Pocock. "If Berlin can put in meters and maintain them at no loss at \$1 a year, we can certainly make a substantial reduction in our rates."

He moved that the engineer furnish the commission with data regarding the matter at once.

A letter was read from Mr. George Burroughs, of 140 Adelaide street, who recently built a new house, stating that he did not want a meter put in, as he had a cistern, and that it had been the custom to install a meter in each new house in which there is a cistern.

Commissioner Pocock asked what the total water rates on the place would be, and the secretary thought about \$7 or \$8 a year.

Ridiculous Again. "It seems ridiculous to be charging a man who pays that small amount \$4 for a meter," said Mr. Pocock.

There is no question about it, our rates are ridiculous," said Commissioner Darch. "We will have to make a little judgment until we arrive at a policy to pursue. I move that in small houses, the question of putting in a meter be left to the discretion of the engineer. Where the flat rate is less than the minimum meter rate, the meter should not be put in."

The Salvator Army Rescue Home wrote stating that since the putting in of a meter their rates have increased to such an extent that they did not care to pay them, as owing to the necessities of the home large quantities of water must be used. No action was taken.

LOCAL PASTORS CRITICIZE THE "GIFT OF TONGUES"

Recent Meeting Held in London Do Not Appeal to the Clergy.

"I am very sure that God would never make a man speak a jargon that could not be understood," said Rev. R. S. W. Howard, in speaking on the subject, "The Gift of Tongues," at Christ Church, last evening. "Christ to his disciples, the gift of the Holy Spirit, which they did not know what form it would take. On the day of Pentecost had come the comforter, and with it the gift of tongues. The apostles had come out from the room, and speaking all the then known tongues, and as a result of this wonderful gift they were enabled to speak to the assembled multitude in their own tongues, and had in one day brought three thousand souls into the kingdom. The gift of tongues was intended to be used, and was used to practical effect."

The speaker went on to refer to the apostle's rebuke of members of the early Christian church for claiming to have gifts that were not held by members of the church in other places. In concluding, Mr. Howard made an earnest plea to his hearers to pray for a greater outpouring of the Holy Spirit, which will be given in reply to earnest prayer.

Rev. Mr. Graham. "It is the disposition of human nature," said Rev. H. A. Graham, in speaking of the gift of tongues at the evening service at the Wellington Street Methodist Church, "to place his emphasis on the things which are true in the religious life as well as in other phases of life."

Mr. Graham stated that he had not been present at the meetings that had recently been held, but that he had received through the medium of the local press, whose accounts, he believed, to be fair and unbiased, a very interesting account of the meetings.

"So far as the Christian religion is concerned," continued the speaker, "you are always safe in rejecting anything that outrages the laws of your physical nature and contradicts reason. Human nature craves for both reasonable and religious, and the man who is not both is neither."

"Some may say that on the day of Pentecost the disciples were made to speak in unknown tongues. This is not the truth," continued the speaker. "They spoke in 'other' tongues. And all strangers, in Jerusalem heard of the wonderful works of God in their own tongues. Concerning the gift of the Spirit, we may know it as certainly as we know what gravitation is by its fruit in our lives."

FOLLY OF BANQUETS.

The Constitution of the United States prohibits the infliction of any punishment or penalty whatever without due process of law, and it also prohibits any cruel and unusual punishment even when given in accordance with the laws of the land. From both points of view it might be argued that the American system of banqueting public men should be regarded as a step downward, in the interests of the simple life and that maximum of longevity which is desired by all normally constructed human beings, even public men. An esteemed contemporary, quite independently, of the constitutional aspects of the matter, here suggested, argues for public dinners which shall be digestible rather than terrifying, which will make the honored guests of the evening feel rather than merely inflated, and from which he will lie down to pleasant dreams rather than to nightmares. It is much to the credit of human nature that the instinct of hospitality, as old as the first stranger and the first welcome, has survived without diminution. To our guest we give the best we have, whether it is a seventeen-course Tait dinner or the baked potato.

After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H.

The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles' Restorative Nervine should be taken for some time to thoroughly restore nerve strength.

Dr. Miles' Nervine is sold by all druggists. If the first bottle does not benefit, your druggist will return your money. MILES MEDICAL CO., Elkhart, Ind.

A NEAT CLEAN-UP BY HOLD-UP MEN

Take All Money and Valuables From Passengers on a Missouri Train.

Pittsburg, Kas., Feb. 6.—Three unidentified men held and robbed the passengers on an eastbound Missouri Pacific passenger train, five miles east of here Saturday night. They were unmasked. About \$400 and a small amount of jewelry was taken from the passengers.

The robbers boarded the train on the outskirts of Pittsburg, and rode until the train was near Corns, Kas. There they leaped from their seats, backed by a revolver, and ordered the passengers to get up and hand over their valuables. They were armed with a revolver, and warned him not to call assistance.

One of the robbers then covered the passengers with two large revolvers. "You will now prepare to give up your valuables," he said. "My partner here will pass among you. Please be quiet."

The "partner" thereupon produced a gunny sack, and started on his collecting tour. From each passenger he took everything of value. Money watches and diamonds and rings of all kinds, went into the sack. One woman screamed and fainting, the collector calmly lifted a ring from her finger, picked her purse from the floor and passed on to the next victim.

Throughout it all the train sped on. None of the crew, except the conductor, knew of the robbery. When the lights in the town of Corns loomed into view, several passengers at the rear of the coach, who had not been reached by the robbers, hoped they would escape with their valuables, and they began placing them back in their pockets. But they were disappointed. Just because the train stopped at the station, the robbers did not hurry away. The robber with the gunny sack stripped the last passenger in the car of his goods, then the three dropped off the train and disappeared down an alley into the town. No attempt was made to rob the express car.

Sheriff Merriweather believes the men to be hangers-on of the mining camps in the northern part of the country.

POINTED PARAGRAPHS.

This Is Umbrella Week

450 Ladies' Umbrellas at \$1.38 and \$1.75. Regular \$2, \$2.50, \$3 and \$3.50

Stock-taking having brought to our notice many odd lines and odds and ends in our Umbrella Department, we are determined to make a general clearance. Good Umbrellas, we have no better styles or values, but the ranges are incomplete.

We wish to state that these Umbrellas are not special sale lots, but regular stock reduced for this week's sale should they last the week out, and it seems not too much to expect that the 450 will be gone before Saturday at such remarkable reductions. All lines have been grouped into two lots and priced at \$1.38 and \$1.75, as follows:

Up to \$2.50 for \$1.38 Each

300 LADIES' UMBRELLAS, all have silk mixed coverings, close rolling, paragon frames and new and up-to-date handles. Worth up to \$2.50, none less than \$2.00 Umbrellas, your choice this week \$1.38

Up to \$3.50 for \$1.75 Each

150 LADIES' UMBRELLAS, fine taffeta silk and wool coverings, very close rolling, paragon frames, silk cased, with gold post handles, in mother-of-pearl. Worth up to \$3.50, none less than \$3.00; you will note the higher qualities are just half price; your choice this week \$1.75 THIS WEEK ONLY—EAST SIDE MAIN ENTRANCE.

Embroideries this Week

Special Sale Counter Opposite East Side Elevators

75c, 85c and \$1 Flouncings, Etc., 59c Yard

Dainty Swiss Corset Cover Embroideries, immense range of patterns for your selection. Special. 59c yard

Baby Sets

In Nainsook, Swiss and Madeira

Very fine dainty patterns, so desirable for infants' wear, one width insertion and two or three widths of edging. Prices ranging from 6 1/2c to 45c yard

Also a splendid assortment of Cambric and Nainsook Embroideries and Insertions, splendidly worked edges and beautiful quality material.

Special sale this week—Circle counter, opposite east side elevators—main floor.

IMAGINATION AND SCIENCE.

Men of science, your faculties are weakened by the very exactitude which is your pride. You measure and weigh, and you are surrounded and overwhelmed by the limitations imposed by the experiences of your senses. You seek causes upon observing effects, or determine the effects resulting from given causes; but such analyses do not lead you into the realm of imagination. You are too material. If you had been Newton, upon observing the apple fall, you would have thought, "The reason why it fell was because its stem became too weak to hold it." Newton, however, had an imagination, and thereby he discovered the law of gravitation. Columbus did not care to prove simply that the earth was round. His imagination fired him with a knowledge of benefits to mankind resulting from a possible (and, as it turned out, chimerical) northwest passage due to such roundness. His imagination inspired the discovery of a continent. And so it is with name after name in history, and so it will be with you and me. We may achieve some small success by doing what our fathers did before us, but our really big deeds will be offspring of our imaginations. Sometimes we see inventions accomplished by chance or a benefit opened to mankind by a stumbling footstep. Such are rare, and shiftless we should be if we count upon circumstances for success.—Cassier's Magazine.

LONDON, MONDAY, FEB. 7.

CONDEMNED BY THE RECORD.
Speaking in the House of Commons in March, Mr. Borden said:

"In so far as my right honorable friend, the Prime Minister, today outlined the lines of naval defence of this country, I AM ENTIRELY AT ONE WITH HIM. I am entirely of opinion, in the first place, that the proper line upon which we should proceed in that regard is the line of having a Canadian naval force of our own. I entirely believe that no other experiment has been tried as between Australia and the mother country, and it has not worked satisfactorily in any respect. So I am at one with the Prime Minister as far as this is concerned, I AM AT ONE WITH HIM in this respect also, that I think an expenditure of money designed for that purpose ought, in the main at least, to be under the control of our own Parliament, and that by making an appropriation of that kind and attending to the defence of our own coast by co-operation and co-ordination with the imperial forces of the empire, we would be doing our duty not only to Canada, but to the empire as a whole."

At the Dominion Day banquet in London, England, Mr. Borden said:

"Some feeling was created in the British Isles owing to the fact that Canada did not send a resolution or speech from the Prime Minister, vouchsafe the offer of one, two or three Dreadnoughts. He (Mr. Borden) thought the resolution in the form in which it was passed, while its terms might not upon their surface seem as significant at the moment as the offer of one or two Dreadnoughts would have been, I believe in the MAXIMUM POLICY FOR THE DOMINION OF CANADA UPON WHICH BOTH PARTIES UNITED, AND WHICH COULD SERVE AS A MORE PRACTICAL PURPOSE THAN ANY SUCH OFFER OF DREADNOUGHTS."

At Halifax, Oct. 14, Mr. Borden said:

"ONE GOVERNING PRINCIPLE AT LEAST SHOULD CONTROL, NAMELY, THAT OUT OF OUR OWN MATERIALS, BY OUR OWN LABOR, AND BY THE INSTRUCTED SKILL OF OUR OWN PEOPLE, ANY NECESSARY PROVISION FOR OUR NAVAL DEFENCE SHOULD BE MADE, so far as may be reasonably possible."

The Government submitted its naval plans on Jan. 12. Mr. Borden declared they were too little for effective aid, and "TOO MUCH FOR CARRYING ON AN EXPERIMENT IN THE ORGANIZATION OF A CANADIAN NAVAL SERVICE."

On Feb. 3 Mr. Borden demanded a gift of money to Great Britain sufficient to build two Dreadnoughts, and said the Government should not proceed with the construction of a Canadian fleet until the country had been consulted.

Mr. Borden stands condemned by the record and out of his own mouth.

SCOTTISH EMIGRANTS TO CANADA.

The Scottish agricultural commissioners who some time ago were sent to Canada to study this country and its possibilities for the benefit of Scotsmen who contemplate seeking homes here, have just issued a report in which they give their fellow-countrymen some words of warning and advice.

The commissioners' expressed desire is to direct and guide the stream of emigration from Scotland, and to indicate the classes of people which are not wanted here, and for which no provision is made. Among these is the "emigrant man" who is certain of periodical allowances from "home" sufficient, or partly sufficient to maintain him, and who is less likely on that account to make much effort to improve his condition, and also men following trades and professions which in Canada are already well supplied.

The men wanted in Canada, the commissioners declare, "are men with some knowledge of agriculture." While the commissioners are satisfied there are in Canada splendid opportunities for the right kind of immigrant, they are equally satisfied that no man should farm in this country until he knows the country and its climatic conditions, and has learned by experience as a hired hand, or otherwise, what Canadian farming means. In other words, the commissioners would have the Scottish emigrant make up his mind before leaving home that the first thing he should do on reaching Canada is to begin to learn.

The commissioners favor the formation of a company to establish colonies of Scottish farmers in the Canadian west as a means of making the pathway of the Scottish farm laborer to a homestead of his own in Canada a little easier. But what we have seen of the Scottish immigrant in Canada justifies the belief that he is quite able to make his way single-handed. No people "get along" better in this

country than do those from "the land of brown heath," or make better Canadians. Besides, Canada's experience with the Barr colony was anything but satisfactory.

The commissioners express the belief that Canada "is suffering from honest exaggeration," but add that it "is so good a country that exaggeration can but harm it," and that "we who have no land to sell are doing it the best service we can when we tell the truth about it." This exaggeration they attribute to "a superabundance of real estate agents and speculators in land," who are ever in evidence at a time like the present, when a new country is being opened up. Canada's advantages need no exaggeration, and what has been done in this respect may have been magnified innocently, perhaps, by the Scottish commissioners.

THE QUEEN'S AND THE WESTERN

The Kingston Standard unwittingly makes out a strong case for Provincial aid to the Western University when it says:

"We may say that Queen's University proper has received no recognition at the hands of the Ontario Government, but that the School of Mines, a separate corporation, though in a manner connected with Queen's, has received substantial recognition, as has also the medical faculty. The Ontario Government has really done all it consistently could do to foster university education at Kingston, since it would not be just or reasonable to expect any aid for a university that, as to its arts faculty, is in a manner denominational."

"As soon as Queen's has become undenominational, which is likely to be the case in the near future, we have every confidence that her needs will not be neglected by Premier Whitney's Government, which, since its taking over the affairs of this Province, has shown a deep interest in the education of all classes."

The School of Mines does a large portion of the work of the science department of Queen's, and the money given it by the Government is equivalent to a direct grant to the "university proper." Queen's is "in a manner" denominational, as the Standard admits, yet it receives Government bounty, and will expect more if it cuts the denominational tie.

When the Government was asked for financial assistance for the Western, the Premier replied that it was his policy to give no money to sectarian universities. The grant to Queen's he may doubt excuse on the ground that it was originated by the former Government, but his ground of objection to a grant to the Western has been removed. The latter is now on a purely undenominational basis.

The supporters of the Western make no protest against the aid given to Queen's, which is a great university doing a great work, but they claim a similar favor.

THE RACE CRY.

"Sir Wilfrid Laurier is a very clever statesman," Sir Wilfrid Laurier is also an accomplished orator. But it took Sir Wilfrid Laurier two hours to explain that two million French-Canadians are so superlatively loyal that they will not allow the other six million Canadians to render any effective naval assistance to Great Britain, in the face of the German menace."—Ottawa Citizen.

Here is an unabashed explanation of the policy of the Opposition by the senior Conservative paper at the capital. Mr. Borden's weakness has made him the protagonist of a race crusade. It is probably not a role that he has accepted cheerfully and willingly, but he cannot disclaim it now. The influences for which the Citizen speaks are in control of him and his party. Whether he fought them or not, he has surrendered.

Are you a mollusc?

"We must march on the enemy's guns," says Winston Churchill. This shows the right spirit, but it is Mr. Asquith who must give the marching orders.

The muzzling ordinance from Ottawa will create a storm of protest, but those who are not dog owners will bear it with fortitude and resignation.

The Liberals and Laborites polled an aggregate majority of 232,085 over the Unionists in Britain alone. If Ireland were included, the anti-loves' vote would be considerably greater.

Hon. Sidney Fisher says that farm products in Canada can be quadrupled, and quintupled without adding a single acre. The effect of cheap and plentiful land has been to make Canadian farming more extensive than intensive.

A Toronto correspondent of La Patrie professes to have unearthed a plot to blow up Lord Strathcona's house in Montreal, where the bishops will stay during the Eucharistic Congress. La Patrie is not doing itself justice in printing such a canard seriously. The politicians will make enough race and creed mischief.

The Toronto Mail and Empire has blossomed out as an advocate of free trade within the empire. At least it comments favorably upon an article by Professor Shield Nicholson advocating such a policy. Mr. Chamberlain once declared it was the only condition upon which Great Britain would impose tariff upon foreign imports, but he abandoned that position, as he abandoned all the opinions he ever held.

THE EFFECT OF HOME RULE ON IRELAND.
[Sydney Brooks in the North American Review.]

To grant home rule is not to make the Irish character instantaneously strong, but it is to furnish the fusing and essential element out of which strength may be slowly formed, an element which, with things as they are, is not merely wanting, but is all but unattainable. It is an old truism, but none the worse for being old, that responsibility in the long run is the

only thing that makes men responsible; and a people perpetually at strife with its rulers, its natural genius thwarted and its national aspirations throttled, is a people desperately handicapped in the pursuit of self-reliance and virility. Ireland, as I have tried to show, is making, on her own initiative, efforts that are little less than heroic to overcome this handicap. She is developing character, she is doing it; she has started, it might almost seem, on a path which, if it does not end in her being given what she wants, may end in her taking it. The function of England, at its widest, is confined to helping her to help herself. To attempt to supersede her own valiant endeavors after regeneration from within would be as senseless and as futile as to attempt to check them. All that England can usefully do is to second, foster and stimulate them, and to provide the opportunity for their further evocation. It is for that reason, if she is really desirous of Irish well-being, that she will ultimately grant home rule.

BUT IT HASN'T FAILED.

[New York Herald.]
American home-lovers will find food for thought and perhaps something for the "green-eyed monster" to feed on in the announcement in a special dispatch to the Herald from its Ottawa bureau of the failure of the effort to suppress betting at the race tracks.

Canada is willing to make all the necessary reforms, but it will not forbid betting. There, as elsewhere, it is recognized that its money makes the mare go.

THE ANSWER.
[Cleveland Leader.]

"Do you believe in destiny, or in effort?"
"Effort. I've been a successful man."

HIS OBJECT.
[Houston Post.]

"He says he would like to meet the woman that can beat his wife cooking."
"I suppose he would elope with her."

GENEROUS SOUL.
[Boston Transcript.]

Club waiter (dishing)—I dreamed last night, sir, that you gave me a five-dollar bill.
Stung Member—Indeed, James! That's a little high for a tip; but—er—you may keep it.

EVERY DOG HAS HIS DAY.
[Pick-Me-Up.]

M. P. (on the stump)—Gentlemen, in all my career I have never been approached with a bribe.
Voice from the Rear—Cheer up, old man. Your luck may change.

PENNY WISE.
[Illustrated News.]

A to B—Got a penny?
B produces the coin.

A—Put it down here. And here is another (producing a second from his pocket). Now, I am going to ask you a very simple question, easy for anyone to answer. If you answer it in the affirmative you take both coins. If you answer it in the negative I take both coins. But have you seen the trick before?
B—No.
A—Thanks. I take the pennies.

WHAT EVERY WOMAN KNOWS.
[Everybody's Magazine.]

There was company at dinner, and father was carving his prettiest on a fine roast. Suddenly, though, the knife struck a skewer, made a sliding upward motion, and came down upon the father's head. He looked at the skewer with a look of incredulity, and then, with a gasp, he turned to the mother and said: "Cook has burned her nose off!"
"Too bad," muttered father, still wrestling with the roast. "How did she do it?"
"Tryin' to pull them skewers out with her teeth!"

AS TO PISITS.
[M. A. P.]

"I hope those old boots of mine fit you."
"Thank you, miss—my soldier brother finds 'em very comfortable."

AN EYE TO BUSINESS.
[Scottish American.]

"A penny for your thoughts, Sandy," said a bonnie Scotch lassie as her ladie had remained silent for awhile.
"Weel," he replied, "t'at tell ye the truth, I was just thinking how fine it wad be if ye gae me a wee kiss the noo."
"I've nae objection, Sandy," replied the lassie, promptly, and gave him a smacking kiss right away. After a time she ventured another question: "An' what are ye thinkin' aboot the noo? Another kiss, maybe?"
"Nae, nae, lassie," he answered. "It's mair serious."

"She nestled nearer and softly asked: 'What might it be, Sandy?'"
"I was just thinking," said Sandy, slowly, "that it was aboot time ye were paying me that penny, lassie."

WISDOM IN UNIFORM.
[Sunday Mirror.]

To a guard at a gate in the Broad street station, Philadelphia, there recently rushed an excited individual with this query: "Have I time to say good-bye to my wife, who is leaving on this New York train?"
"That, sir," responded the guard, with a polite smile, "depends on how long you have been married."

NO SALE.
[Punch.]

Salesman (late promoted to curio department): This necklace, madame, was originally made for the Duke of Buckingham, who gave it to Anne of Austria. We're selling a lot of them.

EXPLAINED.
[The Circle.]

"Don't you want your nice bread and butter, Anne?" asked her father. Anne shook her head. "It's a shame to waste such nice bread and butter," continued her father. "I'll eat it myself!"
Anne watched the process with big eyes and a look of expectancy on her face. Finally, when the last mouthful had disappeared, Anne asked: "Papa, did it tickle?"
"Tickle," said her father. "Why, no. What do you mean?"
"I thought it would tickle," said Anne. "It had a long hair on it!"

EXPENSIVE LIVING.
[Philadelphia Public Ledger.]

"An operation will cost you \$500."
"And is it absolutely necessary?"
"You can't live without it."
"Say, Doc, the high cost of living can't all be blamed on the tariff, can it?"

DOING HER BEST.
[Success.]

William Pruette, the singer, tells of a servant girl who came to Mrs. Pruette in tears and asked permission to go home for a few days. She had a telegram saying her mother was sick.
"Certainly you may go," said Mrs. Pruette. "Only don't stay longer than is necessary, as we need you."
A week passed, and not a word from her. Then came a note which read: "Dear Miss Pruette: I will be back next week on a plane, but my place, for my mother is dying as fast as she can."

Tomorrow at Kingsmill's

We are in the middle of stock-taking, and many lines too small and too numerous to advertise are thrown onto the counters and repriced in such a way as to insure a quick clearance. Tomorrow the dress goods remnants should attract your attention.

Ladies' Knitted Dress Goods Remnants--Lengths to Six Yards--Half Price

These are ends of the best-selling goods in our stocks. There are about five hundred pieces in all. The color range includes almost every shade in every color, as well as many fancy effects.

The goods are Broadcloths, Cheviots, Tweeds, Armures, Satin Cloths, Cashmeres and many other plain and fancy weaves.

There are many blacks, whites and creams among the lot, but we advise early choosing. Come tomorrow. HALF PRICE.

EAST MIDDLESEX LIBERALS MEET

Mr. Peter Anderson, of White Oak, Was Chosen President.

SOME STRONG ADDRESSES

No Reason Why the Riding Cannot be Redeemed if All Will Put a Shoulder to the Wheel.

The East Middlesex Liberal Association held its annual meeting in Hyman Hall on Saturday afternoon, with the vice-president-elect, Mr. Alfred Bailey, of West Nisour, in the chair. There were some strong speeches. Mr. Jared Vining strongly championing the need of a vigorous campaign.

The officers for the ensuing year were elected as follows: President—Mr. Peter Anderson, of White Oak; Vice-President—Mr. Alfred Bailey, of West Nisour; Secretary—Mr. Jared Vining.

Chairman: London Township—Messrs. William Simbert, John Anderson and Robert S. Douglas. Vice-Master—Messrs. David Lawson, Ezra Hunt and William E. Grieve. West Nisour—Messrs. Frank Ashman and James Henderson. Chairman: Messrs. James Wilson and Duncan McEwen. London Junction—J. K. Little and James McLaren.

Dr. Routledge, ex-M.P.P., was the first speaker. There was not a chance of regaining the riding to the Liberal ranks, he thought, if everyone did his duty. It would be a hard proposition, he admitted. But that this was the case was largely due to the Liberals themselves, who in the past had not, perhaps, done all that they might have done. There should be no axes to grind, for whether this is the case there will inevitably be those who will be turned away from the party. Then, again, there are wanted men who believe in the principles of Liberalism, broad-minded, deep-thinking men, who can think for themselves. The Liberal party has done everything for the building up of the Dominion, and whatever has been done since in any of the provincial parliaments is due largely to the broad and solid basis laid by this party.

Something for Nothing. "The Liberal party has every reason to be proud of its record," said Mr. J. L. McDougall. "We are proud of the stand taken by this Province, and here again we have a right to give the greater part of the credit to the Liberal party."

"There is a certain individual," he continued, "going around London, telling people that they are going to get something for nothing. So far the city has made two payments on hydro-electric power, and all that we have so far are a few poles, hardly larger than good-sized fishing-poles, which will have to be renewed almost immediately."

"I agree with Dr. Routledge," Mr. McDougall concluded, "that it is quite possible to redeem East Middlesex if we stand together and work hard for that object."

Educational Campaign.
"I think what is most needed in East Middlesex is an educational campaign," said Mr. Duncan McKenzie. "Notice the changes that have taken place in Great Britain due to the campaign of education there, and if they can change thousands of votes by this means surely we can do the same with hundreds. There are a good many people in East Middlesex who are greatly in need of education in many of the political questions. I don't think East Middlesex has a member in either House that does it credit," he continued. "I have nothing against them, personally, but I think that you will agree with me that they are not the men to represent this constituency."

School Conditions.
Mr. J. K. Little criticised the school

conditions.

"I believe that the system is too expensive," he said, "and that in time it will come to be a luxury. When the people become oppressed in this way it is time to move, and I think that something should be said in this meeting that would set people thinking. The occupation of the school teacher is one of the easiest known to-day, and it is costing us too much."

Mr. Jared Vining had a very different opinion on the matter, and stated his beliefs in a very forcible manner. "The business of school teaching," he said, "is more trying and involves greater responsibility than any other profession. They have to do with the child in its formative period, and it is very important as to what stamp of teachers we have. It is not a question of costing us too much, but the question is, is it worth the money being expended? We can't spend too much, Germany is spending two dollars to our one, and it is this that is causing Germany to draw ahead."

"It isn't altogether a matter of learning to write or to add a column of figures. There are a number of men in East Middlesex who can't write in their own name, who are better than some college graduates. What we want is teachers of larger views, better morals, and with a higher conception of citizenship, for this is what the children of this country need the most to train them to be good citizens."

Redeeming East Middlesex.
"Regarding the redemption of East Middlesex," Mr. Vining continued, "I believe also that it can be accomplished, but only if every man who calls himself a Liberal believes that the whole responsibility for the success of the campaign rests upon his shoulders, and acts out his opinions. You can't carry the riding by the work of one or two men."

Mr. Vining asked for a more generous contribution to the legitimate expenses, such as bringing speakers to the riding. It was nonsense to talk of getting money from Toronto or Ottawa.

A motion of sympathy to Mr. Gillson, the former candidate, who is at present critically ill, was presented and adopted unanimously, concluding the meeting.

BANK TREASURER DEAD.

Southbridge, Mass., Feb. 5.—John A. Hall, the alleged defaulting treasurer of the suspended Southbridge Savings Bank, was re-arrested today on a warrant charging him with the larceny of \$100,000 from the institution. He was taken to Webster for his appearance in the district court. Hall was at liberty under bonds of \$50,000 on a prior charge of stealing \$25,000.

FIRE IN A COLLEGE.

Washington, Feb. 6.—A fire which did damage estimated at between \$50,000 and \$75,000, occurred at Galand College for the Deaf and Dumb, in a building on the campus. The fire was a good tussle. The fire was in the building occupied as men's dormitories.

CURED AT SEVENTY-FOUR

Little Digesters are a Great Help to Mr. John F. Becker
The weight of years very often brings with it a still heavier burden, that of indigestion or some form of Stomach Trouble.

Then "Little Digesters" come to the rescue—if you give them a chance, as did Mr. Becker. Here is his letter telling what they did for him:
"New Dundee, Nov. 10, 1909.
TO THE COLEMAN MEDICINE CO.
Dear Sirs—
I was for a long time troubled with bloating after meals, and my tongue was always coated. Seeing the 'Little Digesters' advertised I bought a box, and they took all the trouble away, but I thought one box would not be enough, so I sent you for more. They are a great help to my body.
Yours truly,
JOHN F. BECKER
Excuse my writing with pencil, being an old man of 74."

"Little Digesters" aid the feeble stomach to digest the food perfectly. This means that you can enjoy every meal, and get the strength out of what you eat, if you take a "Little Digester" afterwards.

Get at your druggists or by mail from Coleman Medicine Co., Toronto.

A Boon to Housekeepers

DUSTBANE

The Sanitary Sweeping Compound
The Practical Dust Killer

It is a green-colored powder packed in tins ready for use. Sprinkle one or two handfuls where you begin sweeping and keep the powder ahead of the broom. It absorbs the dust, kills the germs, cleanses the floor and brightens the carpet.

Commence Using It Today

and recitation rooms, and swept the two upper floors of the building. The students were in the dining-room at the time.

DEFENDS "DOC" COOK

Professor Brewer Believes That He Did Reach the Pole.

New Haven, Conn., Feb. 6.—Professor William H. Brewer, of the Sheffield Scientific School, in a statement made public today, declared that Dr. Cook did not have a fair deal and that his enemies were determined to hound him to death. He went on: "In my opinion people who are living on such a basis will believe that Dr. Cook really reached the North Pole. I believe that he thought he reached that point."

"Don't you believe that Cook is either crazy or that something has happened to him?"
"Very likely. Only a crazy man could have got out of sight so completely as did Dr. Cook. And the suffering from exposure to the Arctic regions is enough to drive many a man crazy. I know of two well-known explorers who went crazy from the effects of terrible exposure in the Arctic. Very likely Dr. Cook will be heard from again. It rather shows that he was crazy when he shouted out that they were after him. He evidently believed his enemies were pursuing him."

WEIRD STORY FROM MONTREAL

Toronto Hatching Plot to Assassinate Catholic Archbishop.

IN STRATHCONA'S HOUSE

Supposed to Dynamite the Prelates During the Eucharistic Congress.

Montreal, Feb. 6.—The Montreal La Patrie announced Saturday that, although the entente cordiale is accepted as a fait accompli, there is nevertheless powder in the air, and that party prints a letter signed "Occident," dated Toronto, Feb. 3, announcing that Lord Strathcona's residence in this city will be blown up next summer by dynamite, and for cause.

The Toronto correspondent for Mr. Tarte's paper says that he overheard in the east end of the Queen City several men discussing the fact of the Canadian high commissioner having placed his princely residence at the disposal of the Archbishop of Montreal for his guests at the Eucharistic Congress next fall.

One of the men stated that the work could be easily done, as the house could be got at from three sides. Archbishop Bruchesi returned today from Boston, Providence, Woonsocket, Baltimore and Washington, where he extended invitations to the congress to the American dignitaries of the church. For the first time since its institution 30 years ago, the congress will meet on this continent. Rome, Paris, London, Jerusalem, Lourdes, Cologne and Namur are among the cities which have been chosen for its activities. The congress this year will be the 21st.

The congress will last from Tuesday, Sept. 7, to Sunday, Sept. 11, and will be marked by special services and social meetings.

The primary object of the Montreal congress is the public profession of Catholic belief in the real presence in the blessed sacrament.

MRS. WINSLOW'S SOOTHING SYRUP
has been used for over THIRTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLEVIATES ALL PAIN, CURES WIND COLIC, and is the best remedy for diarrhoea, and all over the world.

MISS HICKS' SUDDEN DEATH.
Toronto, Feb. 5.—Dr. Winnick opened an inquest today at the morgue on the body of Miss Ada Hicks, daughter of Thomas Hicks, 26 Allen avenue, who died suddenly during the night. The young lady ate her dinner in apparent good health and went up to bed, where she died a few minutes later.

PATERSON'S COUGH DROPS
Quickest and most pleasant way to rid yourself of a cough. Surest way to keep your throat in good condition and your voice clear; delicious to taste, too. Five cents for a red-and-yellow box full. Doctors approve of it.

The Candy Cure
Made by Paterson of Brantford

GERMAN-AMERICAN TARIFF ARRANGEMENT

Indorsed by Reichstag—Vice-Chancellor Explains Its Provision.

Berlin, Feb. 5.—The Reichstag, without debate, today adopted unmodified the bill approving the Government's tariff arrangement with the United States.

Vice-Chancellor Delbrueck in introducing the bill, said that the United States had demanded a number of concessions, the granting of which would have been equivalent to a decided encroachment upon Germany's legislative and police autonomy. Particularly was this true in respect to the veterinary police regulations. He said: "It was our first duty to leave the United States in no doubt that we would interpose insuperable resistance to such attempts to attack our legislation and police measures in connection with the tariff negotiations."

Discussing the bill itself, the vice-chancellor pointed out that the German Government had given in this form that if the United States failed to adhere to the concessions made, Germany could shape her course accordingly, adding: "For the Bundesrat is authorized to admit American imports at conventional duties within reasonable limits and this authorization ceases immediately when the United States collects higher rates upon German imports than is provided in section 1 of the law of Aug. 5, 1909."

HAS A RIGHT TO HISS

Young Man in Montreal Charged With Creating Disturbance Acquitted.

Montreal, Que., Feb. 5.—John Bennett, a young man arrested a few days ago, charged with creating a disturbance in the Strand Moving Picture Show, was acquitted of the charge before Mr. Recorder Webb. Bennett is said to have disapproved of the acting of the stars in the show, and gave vent to his disapproval by several hisses.

Mr. Recorder Webb held that hissing did not constitute a disturbance, as it did not interfere with any of the other persons attending the show. Besides, the young man brought several witnesses to the court to prove he bore a good character.

RICH FIND IN LIBERIA

Reported Discovery of Gold and Diamonds, 30 Miles From Coast.

Washington, Feb. 5.—Gold and diamonds have been discovered in Liberia, about 30 miles from the coast, according to a report to the United States Government from Charge D'Affaires Ellis, of Monrovia.

SHOOTS ACTRESS AND KILLS SELF

W. T. Fisher, Former Detroit, Murderer Girl in New York City.

New York, Feb. 5.—William T. Fisher and a young woman, who had herself shot in New York, were found in a flat on the second floor of the apartment-house at 38 West Ninety-eighth street. He killed her and then shot himself yesterday afternoon.

Fisher was about 35 years old. He dressed well and seemed to live comfortably without work. The girl was only a year or two over 20 and was pretty. The other women of the house noticed it. The police picked up somewhere the fact that she had been on the stage at one time, so they described her as a Broadway actress. The man's home had been in Detroit, as an entry in his memorandum book indicated.

IN DREAD OF POISON

Residents of a Wisconsin Town Threatened With Extermination.

Oconto, Wis., Feb. 5.—That the village of Suning is destined to be wiped out by poison now is the fear of the 200 residents of that little lumbering town in the northwest part of this county. On Thursday the 3-year-old daughter of Nels Nelson died after eating poisoned candy left on the doorstep.

The poisoning follows the sending out last year to the best known people of the village of a series of letters, in which it was promised that the writer would poison every person in the place. The people are preparing to move if there is another case of poisoning.

The report of mining operations on the Penobscot River for the past season shows that nearly 129,000,000 feet of logs have come down the boom from the east and west branches of the river and its tributaries.

PRESIDENT TAFT HAS TRUST-TAMER

New U. S. Federal Corporation Bill of a Radical Nature.

Washington, Feb. 7.—The long-expected federal incorporation bill to embody the resolutions made in his special message by President Taft will be introduced in Congress today, probably by Senator Clarke, of Wyoming, and Representative Parker, of New Jersey, chairman respectively of the Senate and House committees on judiciary.

The final draft, an outline of which follows, differs materially from any earlier drafts, and represents several months of study by the President and his cabinet.

No corporation formed under the terms of the proposed act will be permitted to purchase, acquire or hold stock in any other corporation; nor can any corporation, organized under the act, or under any law of any state or foreign country for the purpose of or engaged in any like business, acquire or hold the stock of a corporation formed under this act, and no such corporation will be permitted to have banking powers.

Fortitude of charter may result if any corporation organized under the act enters into any contract or combination or engages in any conspiracy against interstate or foreign trade or commerce or shall monopolize or attempt to monopolize any part thereof, contrary to the provisions of the Sherman act, or shall otherwise violate the laws of the United States. The charters of all corporations are made, subject to Congressional suspension or repeal by Congress. The attorney-general is given power to bring forfeiture proceedings, and the court may appoint a receiver.

Annual Reports. Annual earnings must be filed with the bureau of corporations, and the commissioner of the bureau may call for special reports. Ten days after the declaration of any dividend, a financial statement, showing the amount of net earnings, must be filed with the commissioner of corporations.

At least a majority of the directors of the corporation are required at all times to be citizens of the United States and bona fide residents therein.

Stock may be presented for in property, or cash, but every certificate of stock issued in payment for property must contain a statement that it is so issued, and before any stock is so issued a full statement of the value of the property must be filed with the majority of the board of directors, and whether such shares are to have a par value or not; the names and addresses of vendors of property, the statement of their connection, if any, with the company; the terms of any agreement, verbal or written, with respect to the transfer of the property; full details as to the payment of the property, and to each vendor; and if the vendors are directors of the corporation or stockholders, a statement of the price paid or agreed to be paid for the property to be sold to the corporation; and where the stock to be issued for such payment has a par value, there must be filed in the bureau of corporations an appraisal of the value of the property by two directors interested, approved in writing by the commissioner, who may also appoint an appraiser.

No stock with a par value may be issued in payment of property purchased or acquired by the corporation to an amount in par value exceeding the value approved by the commissioner after such appraisal.

Provisions are made for the increase or decrease of the capital stock of a corporation, and for other amendments to the articles of association by vote of two-thirds of the stockholders of the corporation. On similar vote the corporation may borrow money, issue bonds and mortgage property, or confer upon the holder of any bond or obligation the right to convert the principal after a certain number of years from date of issue, or the bonds into stock of the corporation of a designated class.

The approval of the commissioner of corporations must be secured before the capital stock can be increased up to the amount necessary to provide for such conversion, and this right shall not be given unless the bonds are not less than par, then for not less than their reasonable market values as ascertained by the commissioner.

The bill also provides that no corporation shall fail to pay any written obligation at maturity, or if any execution against its property shall be returned unsatisfied, the commissioner of corporations shall appoint a special agent to examine it to its condition. If this agent reports that the corporation's condition is so unsound as to make its continuance a burden upon the public welfare, the commissioner may appoint a receiver with the usual powers of a receiver.

Within 30 days from the date of the report of the receiver, the corporation may apply to the nearest United States court to enjoin

DON'T TRY PRESSURE. Trust to Intelligence.

You cannot by process of law prevent anyone from drugging themselves to death. We must meet the evil by an appeal to the intelligence.

One of the drugs that does the most harm to Americans, because of its widespread use and apparent innocence, is coffee.

Ask any regular coffee drinker if he or she is perfectly well. At least one-half are not.

Only those with extra vigor can keep well against the daily attack of coffee. In the coffee, the heart and pulse gradually lose strength; dyspepsia, kidney troubles and nervous diseases of some sort set in and the clearly marked effects of coffee poisoning are shown.

These are facts and worth anyone's thought. The reasonable and sensible thing is to leave it off and shift to Postum. Postum is thus withdrawn and a powerful rebuilding agent put to work. The good effects generally begin to show inside of 10 days. If health and comfort are worth anything to you, try it.

SOME OF THE HORRORS OF THE UNEMPLOYED

A Hopeless Mother's Experience of Nights Spent in Streets of London.

London, Feb. 5.—To the annals of "The Workless Terror" must be added cases which the courts brought to light on Tuesday. One, that of a laborer named Frederick Jeffrey, was summarized in a few words at the instigation of his body at Brighton.

"I took him to the hospital," said a policeman, who had found the poor fellow dying; "I asked him what he had done." "Done?" he replied, "Enough to make a man do anything—can't get any work."

He had swallowed spirits of salts. But that had not killed him alone. The doctor at the hospital where he died said he was "practically starved to death." For four years he had not been able to find regular work, explained his wife.

A second case came on Tuesday before the Shoreditch coroner, Dr. Wynn Westcott. The inquest was being held on the body of a babe of 17 months. The mother, poorly dressed and weeping, spiritlessly answered the coroner, glancing with longing at the fire that burned in the hearth. She said she was Mrs. Harriet Bartlett and her babe did not know a home.

"No home," exclaimed the coroner. "Then where do you sleep?" "Last night I got into the Crispin street shelter, and another night in Dr. Barnardo's. For the rest I walk about the streets."

"And what does your husband do?" "When I get into a shelter he walks the streets all night. If I cannot get into a shelter he walks about with me." "But he must sleep at some time." "He sleeps on the seats in the park. My baby is not satisfied."

"When the baby was taken ill," the mother continued, "I got a room, but was turned out when the child died. I have two other children on the Cornhill and two in industrial schools. We were arrested one night when we were all walking about, and the magistrate sent the children away."

"It is a story we often hear," the coroner commented. "How is it your husband cannot get anything to do?" "He is a laborer," the woman explained. "He cannot get any work, try as he will. He has been twice in the workhouse, but he has never been able to get any work. He has been twice in the workhouse, but he has never been able to get any work."

After a verdict of "Death from natural causes" had been returned, the mother, with the same hopeless expression, walked slowly from the court. She was apparently loth to lose sight of the fire.

TOMMY O'TOOLE HAD SHADE ON B. ALLEN

Canadian Beaten in Match at Philadelphia by a Narrow Margin. (By Associated Press.)

Philadelphia, Feb. 5.—Tommy O'Toole, of Philadelphia, had a shade the better of a six-round bout tonight with Billy Allen, the Canadian feather-weight champion. The men met here three weeks ago when Allen showed superior ability. Tonight, however, O'Toole was quicker on his feet and equally as clever as Allen.

The Canadian was the victor by his good judgment of distance, but he was only beaten by a narrow margin.

ORANGEVILLE RECOUNT

Leaves the Vote in Favor of the Bylaw Unchanged.

Orangeville, Ont., Feb. 7.—The count of the votes on the local option bylaw took place here before Judge Macdonald, who presided over the proceedings of the court the entire day. The scrutiny of the ballots was completed before noon adjournment, and in the afternoon many witnesses were examined as to their qualifications. Several voters exercised the franchise who had no right to do so, and an executor's right of vote was challenged.

The petitioner was represented by James Hay, K. C. and W. J. L. McKay, while H. E. Irwin, K. C. and C. R. McKeown, K. C., supported the bylaw. Some 25 witnesses were subpoenaed, and the courthouse was crowded. The greatest interest being taken. The result of the recount left the vote unchanged, a majority of three and a fraction for the bylaw. The judge reserved his decision as to the contested votes, and each side is confident.

Murdered.

Put right out of business, a whole family of corns by Putnam's Corn Extractor, which cures corns and warts in one day. No pain or sore if "Putnam's" is used. Refuse substitutes.

PERILS OF THE SEA.

New York, Feb. 5.—Heavy storms at sea buffeted the steamer Crown of Granada, on her voyage from Trinidad. She reached here today, two days late, with accounts of some of the roughest weather of the winter in the Atlantic. The ship was traversed by many West Indian

DESSERTERS CAUGHT.

Niagara Falls, Feb. 7.—Herbert Lighthall and Albert Suddard, two deserters from the Royal Canadian Horse Artillery, Battery B, Kingston, were picked up by American police at Niagara Falls, N. Y., and handed over to Chief Kimming of the city police, and are awaiting military escort back to their barracks. They deserted a week ago, and had a terrific tramp across the ice to Cape C. Vincent, where they had a fight with them. They have disposed of their military clothes.

BEAUTIFUL WOMEN

BAD STOMACH CAUSES UNSIGHTLY COMPLEXIONS—W. T. STRONG HAS A REMEDY.

Bad stomach means bad blood; bad blood means sallow, unattractive skin.

Why? The stomach in a healthy condition separates the nutritious matter from the food and gives it to the blood to supply the entire body with nourishment.

If the stomach is not in a healthy condition it does not separate from the food the nutritious matter and it passes off with the waste for stomach.

Thus the blood is impoverished and has not sufficient nourishment to supply the muscles, skin and body generally.

If you have belching of gas, distress after eating, nausea, biliousness, nervousness or foul breath, then your stomach is wrong and you want the best prescription for stomach troubles the world has ever known.

You want Mi-o-na tablets, the great stomach remedy which W. T. Strong guarantees to cure indigestion, no matter of how long standing, or money back.

Relieves stomach distress at once. Mi-o-na is sold by leading druggists everywhere and in London by W. T. Strong, for 50 cents a box.

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some kind of kidney complaint, but do not suspect it. It may have been in the system for some time. There may have been backache, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposits in the urine, highly colored, scanty or cloudy urine, bladder pain, frequent or suppressed urination, burning sensation when urinating, etc.

Do not neglect any of these symptoms, for if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes.

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto.

In ordering specify "Doan's."

SIDE LIGHTS ON
MANY SPORTSALL THE NEWS
THAT IS NEWSRADICAL REVISION IN POOR SPORT AT
FOOTBALL PROMISED

Stagg, Dudley and Savage Ap-
pointed to Formulate Changes
in Rules.

TACKLING BANE OF GAME

National Committee Abolishes the
"High Dive"—Four Periods
Favored.

New York, Feb. 5.—A radical revision of football is under advisement by the intercollegiate rules committee in charge. Greater safety for the player and more variety for the spectator are felt to be essential if the game is to be permitted to live by public opinion.

The rules committee adjourned tonight until March 25, after appointing a sub-committee to consider three plans of reorganization. The sub-committee is composed of A. A. Stagg, University of Chicago, Dr. W. L. Dudley, Vanderbilt University, Nashville, Tenn., and O. W. Savage, Oberlin, Ohio. When the rules committee reconvenes it will pass finally on the recommendations decided upon in the meantime by the sub-committee.

In the main, the committee now feels that injuries to players are largely due to so much as to mass plays as to savage tackles.

Three Plans Suggested.

The three plans upon which the sub-committee will report provide in substance for the following changes of alignment and play:

- 1.—Seven men on the scrimmage line.
- 2.—No pushing or pulling of the ball with the ball.
- 3.—Prohibition of diving tackles.
- 4.—Ends going down the field not to be body checked.
- 5.—Players going down the field under a punt not to approach nearer than five yards to catcher or punter until he has touched the ball, and then not to tackle him or charge forward unless he starts to run with the ball.
- 6.—Eliminate on-side kicks.
- 7.—First man receiving the ball to be allowed to carry it anywhere.
- 8.—Forward pass allowed over any part of the line to men on ends of the line or behind the line when the ball is put in play.

Second Plan.

- 1.—Divide the halves as already specified, play to be resumed by the side in possession of the ball when the preceding period closed.
- 2.—Seven men on the line of offence and three of the backs to be at least four yards in the rear of the line. This would eliminate the tandem play perfected by Harvard.
- 3.—Forward pass to be made and caught only by players standing behind the line when the ball is put in play.

Further Advice Wanted.

- 4.—In offensive plays between the two 25-yard lines the team with the ball must advance it ten yards in consecutive downs or forfeit possession. On this article the committee states itself open to further advice.

Third Plan.

- 1.—Seven men on the line of scrimmage, with the back field limited to four men, centre rush always in the centre and no interchange of players permitted.
- 2.—Eliminate neutral zone and on-side kick.
- 3.—No runner with the ball to receive any help until he has reached the line of scrimmage. This would reduce the weight of the attack.
- 4.—Distance to be gained, seven yards in four downs.

SIX TEAMS ENTER NEW
COMMERCIAL LEAGUE

Y. M. C. A. Basketball Organization
Reorganized With Sixteen of Clubs.

The Commercial Basketball League, which has been reorganized, will be composed of 16 teams—Cook's (boot and shoe man), Diamond Hall, Gurd's, Graham Bros., The Businessmen and medical students are also putting in teams. The schedule is as follows:

FEB. 10—Gurd's vs. Diamond Hall; Graham Bros. vs. Cook's; Meds. vs. Businessmen.

FEB. 17—Graham Bros. vs. Businessmen; Gurd's vs. Gurd's; Meds. vs. Diamond Hall.

FEB. 24—Cook's vs. Meds.; Businessmen vs. Diamond Hall; Gurd's vs. Graham Bros.

MARCH 3—Diamond Hall vs. Graham Bros.; Businessmen vs. Cook's; Meds. vs. Gurd's.

COOKS—Martin, Shaw, Davidson, Eckert, Weir, Wood.

MEADS—Stephens, Maudsley, Brereton, McAllister, Duncan.

GURDS—Smith, Marsh, Munce, Crook, Watt, Gough, McQueen, Alford, Wortman, Logan, Swazie, Mulvin.

YOUNGS—Jones, Short, McCormick, Hamilton, Van Com, Swazie.

BUSINESSMEN—Harris, Sovereign, Clark, Winnet, Stevens.

The games will start promptly at 8:15. Any captain failing to have his full team on the floor at the sound of the referee's whistle will have to play with what men he has. The public are invited to attend these games, and there will be no admission charged.

GIVE PAYNE AND
"SULLY" A TUSSELE

Jimmy Block Anxious To Become a
White Sox Catcher.

Chicago, Feb. 5.—Jimmy Block, of Milwaukee, recruited from the Milwaukee team, sent in his signed contract yesterday to the Chicago American League club headquarters, with the information that he was going to fight hard for the catcher's berth.

Robert Barrows was another American League aspirant to send in a document bearing his signature. Barrows is a candidate for an outfield position, and hails from Fall River, Mass.

MORE GIANTS SIGN CONTRACTS.

[By Associated Press.]
New York, Feb. 6.—Albert H. Bridwell, shortstop; Arthur Fletcher, substitute infielder; and A. H. Buck, pitcher, signed contracts today to play with the New York National League club next season.

CORNELL LOSE ATHLETE.

[By Associated Press.]
Ithaca, N. Y., Feb. 5.—J. O'Connor, left guard of the 1910 Cornell football team, has failed to pass the midwinter examinations and will not re-enter the university. His loss to the team will be sorely felt.

New Orleans Track in Bad Con-
dition and Drivers Fail to
Break Records.

LYNCH THROUGH FENCE

Barney Oldfield Furnishes a Little
Excitement in the Ten-Mile
Event.

New Orleans, Feb. 5.—Less than 5,000 people were in attendance this afternoon when the New Orleans automobile speed carnival opened at the old fair grounds race track. The track was in bad condition and poor time was made. Such drivers as Ralph De Palma, Barney Oldfield and Ben Kirscher scored far below their records. The fifth race, a 10-mile event, attracted some interest when Oldfield, who was already leading, in the third race, a special trophy was given as a prize and a purse of \$200 was awarded the winner in the sixth. Tomorrow will be the last day of the meet.

In the fourth race, 25 miles, for stock cars of all classes, Leigh Lynch, driving a Jackson car, crashed through the fence which surrounded the fair grounds track. He escaped injury, however, but Oldfield, who was already leading, in a Knox car, won easily.

Purses of \$50 were the prizes in all races except the third and sixth. In the third, a special trophy was given as a prize and a purse of \$200 was awarded the winner in the sixth. Tomorrow will be the last day of the meet.

Summaries:
First race, 20 miles, stock cars, with piston displacement from 301 to 450 inches—Jackson (Leigh Lynch), 21 minutes 44 seconds; won; Packard (H. E. Fulton), second; Buick (J. W. J. Fritsch), third.

Oldfield Forced Out.

Second race, 5 miles, free-for-all—Flat (Ralph De Palma), 4 minutes 41 seconds; won; Darracq (Kirscher), second; Barney Oldfield was forced to retire at the end of the first half mile on account of tire trouble.

Third race, 10 miles, open to all amateurs driving stock cars—Flat (C. S. Briggs, New York), won, 10 minutes 36 seconds; Buick (J. W. J. Fritsch, Cincinnati), second; Buick (J. W. J. Fritsch, Cincinnati), third. Three entries, two finished.

Barney Wins.

Fourth race, 25 miles—Knox (Oldfield), 25 minutes 45 seconds; won; Buick (Fritsch), second; Buick (Fritsch), third. Three entries, two finished.

Fifth race, 10-mile handicap, free-for-all—Flat (De Palma), scratch, won, 9:25; Knox (Oldfield), 25 seconds handicap; Darracq (Kirscher), 10 seconds; third.

Sixth Race, 5 Miles, Special—Benz (Oldfield), won, time, 4:33 4-5; Darracq (Kirscher), second. No other entries.

Sunday's Programme.

Barney Oldfield, defeated De Palma in what was scheduled to be the chief event of the meet. The contest was to have been a 10-mile match. In the fourth mile, De Palma burst a tire and was forced up. Up to that time he and Oldfield had been running neck-and-neck, and the race promised to be close. De Palma used a Fiat, and Oldfield a Benz car.

Five miles, Klaw & Elanger trophy for amateurs—Fred Shaw (Knox), first; 9:25; Knox (Oldfield), 25 seconds handicap; Darracq (Kirscher), 10 seconds; third.

De Palma Withdraws.

Ten miles, special world's championship match—Oldfield (Benz), first; 19:25; Knox (Oldfield), 25 seconds handicap; Darracq (Kirscher), 10 seconds; third.

Five miles, Gentilly Automobile Company trophy, for New Orleans championship—Win by Oldfield. Second, Thomas car, on a forfeit for lack of starters.

Ten miles, free-for-all—Kirscher (Darracq), first; Oldfield (Knox), second; De Palma (Flat), third; time, 9:32. Handicap—Kirscher, 15 seconds; Oldfield, 32 seconds; De Palma, scratch.

Ten miles, special handicap event—Oldfield (Knox), first; De Palma (Flat), second, time, 9:47. Handicap—Oldfield, 25 seconds.

SEVENTY ENTRIES FOR
GRAND NATIONAL

Fifteen Less Than Total Nominations
Received Last Year.

[By Associated Press Cable.]
London, Feb. 6.—The Grand National Steeplechase, to be decided atintree on March 18, has closed with 70 entries. This is fifteen less than the total nominations received last year, but almost every animal in training with any chance of staying and jumping this testing 4 miles 500 yards has been entered, and a contest worthy of the best traditions of the historic race is promised.

The Grand National is unique in that there is no other race like it in the world. Among those that have entered are the French horse, Luteur III, Judas and Caubert, who last year filled the three leading berths, Hercules II, Tom West, Carsey, Leinster, Shady Girl, and Phaeton, all of whom completed the course twelve months ago.

HOPPE COMES TO TERMS

Will Meet Sutton at Chicago in One-
Night Match.

[By Associated Press.]
Chicago, Feb. 6.—Word was received from Willie Hoppe yesterday to the effect that he had decided to abide by George Sutton's terms in their controversy over the proposed match in this city for the world's 18.1 ball billiard championship, and that the "boy wonder" will meet Sutton in Orchestra Hall here on the night of March 16.

NELSON INSISTS ON SIDE BET.

[By Associated Press.]
Los Angeles, Cal., Feb. 7.—Batting Nelson, who arrived here yesterday with his manager, insists that Ad. Wolgast post a \$5,000 side bet before he will consent to sign for a fight with the Milwaukee lad here. As a consequence no match has yet been made. Nelson will remain here for another day before proceeding to San Francisco.

RECEIVE BASEBALL PLAYING

Chicago, Feb. 5.—Changes made in the playing code of baseball at the recent meetings of the rules committee in Pittsburgh arrived at American League headquarters yesterday, but no hint was dropped as to what is the nature of the changes. Accompanying the few modifications which were made for the purpose of clearing up the game on a few points was a note from Secretary Heyler, of the National League, requesting that they be withheld from publication, pending their approval by members of the rules committee of both leagues.

AMERICAN WON OUT.

[By Associated Press.]
Baltimore, Md., Feb. 5.—American (Gus Schoenlin) last night defeated the Cuban wonder in a wrestling match announced for the light-heavyweight wrestling championship of the world, in two straight falls. The first was gained in 22 minutes and the second in 15 minutes.

ANOTHER CRIGER DUE
TO SHOOT AT FAME

ELMER CRIGER.

The name of Criger appears about due to be perpetuated in baseball. Although Low, the great backstop, is a southerner, who was tried out by the Boston Americans two years ago, at that time although Criger, full of promise, Criger did not show enough to warrant keeping him on a big league pay roll. He did splendid work by that time maybe another generation of Crigers will take up the job.

HAL B. TAKES 2-20 TROT
AND PACE ON OTTAWA ICE

Sebringville Horse Has Three Straight
Heats—Tom Dillard, Blenheim,
Third—Perfection Second in
Classified Race.

[G. N. W. Service.]
Ottawa, Feb. 6.—The concluding day of the Central Canada ice races was a good one. The summary was as follows:

2:20 trot and pace: purse \$500:
Hal B. Jun., P. L. Kastner, Sebringville 1 1 1
Joe Swine, E. H. Hodge, Syracuse 2 2 2
Tom Dillard, Ed. Peters, Blenheim 3 3 3
Puriosa, E. B. Cowan, Lindsay 4 4 4
Wawa, H. Leadley, Cookstown 5 5 5
Black Bill, Phonograph Stables 6 6 6
Hazel Belle, C. Quinn, Ylmer, Que. 7 7 7
Classified race, purse \$400:
Dan K. R. Kennedy, Ottawa 10 10 1
St. Anthony, E. Burnham, Kingston 11 11 1
Direct Adair, S. G. Camp, Oneonta, N. Y. 12 12 1
Black Bill, Phonograph Stables 13 13 1
Ottawa 14 14 1
Lulu Mac, J. Frumty, South River 15 15 1
Time—2:20 1/2, 2:21, 2:22, 2:23.
Five-mile race, stake \$1,000:
John McEwen, Nat Ray, Toronto 1
Prince Greendancer, N. L. Kavalier, Montreal 2
McAdams, J. Wood, Woodville, Oshawa 3
Peter Millar, P. Tracey, York 4
Time—12:45, 12:46, 12:47, 12:48, 12:49, 12:50, 12:51, 12:52, 12:53, 12:54, 12:55, 12:56, 12:57, 12:58, 12:59, 13:00.

RESULTS OF PLAY
IN OLD COUNTRY

Cup Tie Matches Were Contested—
Regular League Games.

London, Feb. 7.—The result of the play in the cup tie was as follows:
Chelsea 0, Tottenham Hotspurs 1.
Newcastle United 0, Leyton 2.
Stockport County 0, Leyton 2.
Everton 5, Woolwich 0.
Preston North End 1, Manchester United 0.
Wolverhampton 1, West Ham 5.
Bristol City 1, West Bromwich 1.
Swindon 2, Burnley 0.
Bradford City 1, Blackburn Rovers 2.
Norton 0, Braxley 0.
Sunderland 3, Bradford 1.
Southend 0, Queen's Park Rangers 0.
Soyeampton 0, Manchester City 1.
Northampton 0, Notts Forest 0.
Barnsley 4, Bristol Rovers 0.

League—First Division.

The following were regular matches:
Bolton Wanderers 1, Middleborough 1.
Preston North End 1, Manchester United 0.

League—Second Division.

Glossop 2, Leeds City 1.
Southern League.
Croydon Common 1, Brentford 2.
Millwall 1, New Brighton 1.
Reading 1, Brighton 2.

WATERLOO WINS

Defeats Brantford in Pro. League by 8
to 2 Score.

[Special to The Advertiser.]
Brantford, Feb. 6.—The Ontario defeated Brantford in the Ontario Pro. League here this evening by a score of 8 to 2.

Brantford (2)—Tyner, goal; Sandford, point; McGregor, cover; Rowden, rover; Smith, centre; Mercer, forward; Duncy, Waterloo (8)—Cros, goal; Baird, point; Powers, cover; Malone, rover; Baird, centre; Oatman, right; McDonald, left. Referee—Jack Kelly.

FOUGHT TO A DRAW.

[By Associated Press.]
Milwaukee, Wis., Feb. 5.—Mike (Twin) Sullivan, of Boston, and Jimmy Clabby, of Milwaukee, fought a ten-round no decision bout before the National A. C. at Milwaukee last night. Both men finished strong and the newspaper men declared the contest a draw.

'PUT BET ON FRISCO'
ADVICE OF COFFROTH

Fight Promoter on Dash From
Liverpool Aims Ideas of
Coming Mill.

UTAH HAS NO CHANCE

Californian Booms Home State as the
Only Place for a "Real Battle."

[Special to The Advertiser.]
Chicago, Feb. 6.—"Put a bet on Frisco" as the real scene-to-be of the Jeffries-Johnson battle for the heavyweight championship. The big boys will meet either within the city limits or in one of the nearby towns; that's a certainty. Whether I have any interest in the match will be made public within a few days. But Salt Lake City, or any part of Utah never had a look-in as a possible battleground.

Foxy Jimmy Is Wise.

Foxy Jimmy Coffroth, dean of American fight promoters, yesterday summed up the present controversy between Moskos, Gleason and Rickard in the foregoing vein of chatter between heads in his record-seeking dash from Liverpool to the Golden State. The boss of Colma, who has been the mentor behind practically every titular battle staged in recent years on this side of the Atlantic, talked freely of the coming fight in Frisco, displaying a cunning in blocking all queries as regards his personal interest in the combat.

California Must Have It.

"California is the only state in the Union where the big men can get together in a fight without fear of interference from the outside," said Coffroth. "Some of the hardest and most important championship fights in the history of pugilism have been conducted in Frisco or Los Angeles, and on all sides the sentiment is in favor of boxing. A vastly different condition exists in Utah. That's my chief reason for thinking the bout never would come off in the Mormon state."

JOHNSON SAYS SALT LAKE.

[Special to The Advertiser.]
Detroit, Feb. 7.—Johnson declares he is positive the fight will be held in Salt Lake City. He says that Rickard has the inside track and he knows the promoter of the famous Nelson-Gans battle will win.

There will be the fight he held if it goes to Utah City," Jack was asked. "Why, no, because the bicycle building which, in my estimation, is the best place in the country for an affair of the kind," said Johnson.

The champion is now on the bill at a local theatre.

PRICE DOES NOT STOP
WINDY CITY INVESTORS

Looking for Best That Manufacturers
Can Show—Big Exhibit Is on in
Chicago.

[Special to The Advertiser.]
Chicago, Feb. 5.—Bigger, better and brighter than ever, the ninth annual automobile show, under the auspices of the National Association of Automobile Manufacturers, was thrown open at the Coliseum and First Regiment Armory this evening to 10,000 enthusiasts. Society was there in full force to inspect the latest creations in gasoline pleasure and utility vehicles.

Torpedo Type Is Prominent.

In one style or another nearly every exhibit in the show is portraying a car of the torpedo type, designed to afford equal protection in the front and rear seats, and do away as far as possible, with the dust devil. It is displayed in all shapes, with straight or rounded backs, rounded sides, and with doors in all places and of all shapes. The modified torpedo has also made its appearance, the most possible effort to insure the height of the torso.

The "Cheaper" Grades.

Special attention has been given the display of closed type of car. With very few exceptions, limousines or landaulets are shown, their prices varying from \$2,500 to \$7,500. In all comfort has been made, but the highest-priced creations are marvellous of luxurious fitting, in which the question of expense has been entirely subordinated to desire for the richest possible effect in material and the metal trimmings of cut glass.

KONETCHY SIGNS HIS NAME.

[By Associated Press.]
St. Louis, Feb. 6.—Edward Konetchy first baseman of the St. Louis National League, signed a contract for the coming season today.

RANDALL TO BRANTFORD.

Brantford, Feb. 7.—Manager Tyrer has secured Ken Randall, of Port Hope, and he will finish the season with Brantford.

GOSSIP OF THE MOTOR CAR

A nut that resists every attempt at getting it loose usually becomes more docile after it has been heated for several minutes. This can be done with a torch by holding a hot piece of iron against it for a while. This will cause the nut to expand slightly, and make it easier to remove.

Don't try to make a light oil by mixing a heavy oil with kerosene. Now that the winter has set in, if the oil that you are using does not flow freely, use a lighter grade. Heavy oil thinned with kerosene is a common cause for cylinders carbonizing.

A very useful plan for carrying spare gasoline is to take an ordinary two-gallon can of the car and make a cover to just take the can, with the end of the cover to hook over, and this can be used at any time they are always handy to be put in the tank.

Generally speaking, horse traffic gives the precedence to automobiles as a matter of safety, but the man in the car should not consider that he has the absolute right of way over all other road users for this or any other reason, but remember that every user has equal rights on the road.

FRED MEADOWS OF
GUELPH WINS DERBY

Defeats Swede in Great Fifteen
Mile Race at Toronto
Saturday.

SHRUBB AND LONGBOAT

Will Go Eighteen Miles on Clay in
Queen City, Feb. 18.

[Special to The Advertiser.]
Toronto, Feb. 5.—Fred Meadows, of Guelph, the famous middle distance runner, tonight defeated L. Jungstrom in the fifteen-mile Canadian Derby at Aura Lee, his time being 1:21:15.

Shrubb and Longboat have been matched for eighteen miles on a clay track here on Feb. 18.

The order of finish was: Meadows, 1:21:15; L. Jungstrom, 1:21:15; Schell, 1:22:30; Wood, 1:23:50; Crowley, 1:28:00; Butler, 1:24:40.

1. Meadows 1:21:15
2. Jungstrom 1:21:15
3. Schell 1:22:30
4. Wood 1:23:50
5. Crowley 1:28:00
6. Butler 1:24:40

7. Meadows 1:21:15
8. Jungstrom 1:21:15
9. Schell 1:22:30
10. Wood 1:23:50
11. Crowley 1:28:00
12. Butler 1:24:40

13. Meadows 1:21:15
14. Jungstrom 1:21:15
15. Schell 1:22:30
16. Wood 1:23:50
17. Crowley 1:28:00
18. Butler 1:24:40

19. Meadows 1:21:15
20. Jungstrom 1:21:15
21. Schell 1:22:30
22. Wood 1:23:50

SHOOT HIS LANDLORD IN ROW OVER RENT

A Montreal French-Canadian Attacks Man Whom He Alleges Abused His Mother.

Montreal, Feb. 7.—Alphonse Martel, a French-Canadian, probably fatally shot his landlord, James McGovern, on Saturday, shot one of his daughters in the wrist, and felled another with a bottle as the result of a row over rent. An argument occurred between McGovern and Mrs. Martel (Martel's mother), in the midst of which the young man whipped out a revolver and started firing indiscriminately. The first bullet hit McGovern under the eye, entering the brain. Martel then fired the older McGovern girl as she ran, hitting her in the wrist. The younger girl also ran away and Martel chased her with a tin Lottie, hitting her over the head. Martel and his mother were arrested, and the young man said he did the shooting because he could not stand the way McGovern was abusing his mother. It is not expected that McGovern will live.

FOOD-PRICE FIGHT AN ENDURANCE TEST

New York and New Jersey Continue to Look Into the Combines.

New York, Feb. 7.—With extreme cold weather tending to drive quotations up, and the first wave of enthusiasm in the crusade against the combine, the campaign in metropolitan territory settled down today to something like an endurance test. The week opened, however, with prospects of trouble for the combines alleged to be illegally keeping up rates for necessities of life through misuse of cold storage and other means. New York and New Jersey renewed activities in the campaign. Attorney-General O'Malley, of New York State, is credited with the intention to invoke an old injunction against the packing companies, granted in the supreme court in 1902, and forbidding them from fixing meat prices and preventing competition by agreement as to rates and supply. This is said to be still in force. Relatively unimportant introduced in the New York board of aldermen, and aimed particularly at altered cold storage evils, are to be pressed for passage. In New Jersey the Hudson County grand jury continued its inquiry into the business of the great storage warehouses of Jersey City.

SARNIA "SPORTS" FINED IN COURT

Sarnia, Feb. 7.—The six "sports" who were arrested Saturday night by P. C. S. Christie, Forbes and Johnston, when about to pull off a cocking match, appeared in the magistrate's court this morning. Five of them were fined \$10 and costs and the sixth \$5 and costs. The alternative was thirty days. They paid.

FLYING IN EGYPT.
Cairo, Egypt, Feb. 7.—Egypt's aviation week has opened at Heliopolis. The Khedive was present at the opening and took great interest in the flights. A feature of the meeting will

IMPOSING DELEGATION TO INTERVIEW THE PREMIER

Names of Those Who Will Jointly Ask for a Grant for the Western University.

The deputation to interview Sir James Whitney, with a view to securing a grant for the Western University, will be a large one. At a meeting of the board of governors on Saturday, Capt. T. J. Murphy outlined the plans for the trip on Feb. 16, and from reports received the deputation will be a most imposing one. The delegation from the board of governors will comprise the whole board, as follows: Mr. Justice R. M. Meredith, T. H. Purdom, K. C., T. H. Smallman, J. H. Chapman, Capt. T. J. Murphy, C. R. Somerville, Col. J. W. Little, Dr. John D. Wilson, George C. Gibbons, J. O. Dromgoole and Principal James. The city council will send Mayor Beattie, Ald. Eckert, Ald. Stevenson, and Ald. Jeffery. The county of Elgin will send Dr. Ling, of Dutton, Reeve W. Jackson, ex-M. P., of Port Stanley, and Judge J. C. Thompson. It is expected that Mayor George of St. Thomas, will also be a delegate. The Middlesex county council will appoint Warden Campbell, County Councillors James A. McGregor and S. Frank Glass. It is expected that Lambton County will name Warden Auld and Reeve D. McEwen. The board of education have decided on Chairman W. W. Gammage, and the senate, Inspector Edwards, Dr. Moorhouse, Dr. Eccles, and perhaps one or two others. The separate school board will also have a representative, and the Trades and Labor Council will probably endorse Mr. H. B. Archer as a representative from that body. The board of trade have endorsed Mr. A. T. McMahon, Dr. H. T. Reason, U. A. Buchner and Mr. Arthur W. White as their representatives. Rev. Father Tobin may be the representative from the Sacred Heart Academy. Other Probable Delegates. Among others who are being corresponded with are: Judge Holt, of Goderich; Matthew Wilson, K. C., of Chatham; Mr. McHugh, of Chatham; Chas. Jenkins, Petrolia; Dr. Fairbank, Petrolia; Judge Barron, of Stratford, and many other leading citizens in the district. "We hope to have a fine deputation when we go to Toronto on Feb. 16," said Capt. T. J. Murphy. "We have had a large number of acceptances already, and are writing for more. It should impress the Government." A number of private citizens will also go. Many are taking a deep interest in the Western, and they feel that they would like to impress the Government with the necessity of doing something for this institution. Those present at the meeting Saturday were Mr. Justice R. M. Meredith, chairman; Mr. T. H. Smallman, J. H. Chapman, J. O. Dromgoole, T. J. Murphy, Dr. John D. Wilson, President James, Mayor Beattie, and Secretary Baker.

BIG BLAZE IN WAREHOUSES

Continued from Page One.

hardly to take unnecessary risks with it. The origin of the fire is a mystery. Mr. George Forsythe stated that there was a stove at the rear of the ground floor, and that the blaze may have started from that point. The elevator shaft is situated near there, and would account for the flames rushing to the top of the building, as was the case. The rear door of the first floor was open when the brigade arrived. Fire Chief Aitken was the first there. FIRE CHIEF'S STATEMENT. "I ran over from the hall," said the chief. "When I got there the whole floor of the building was in flames. They were pouring out of the three upper stories in great shape. The back door of the warehouse was open a foot, furnishing plenty of draught for the fire. "As soon as I saw it, I knew the place was doomed, and our care was to prevent it spreading to Reason's and McMahon's. I went to the fire, and remained there until it was evident that the fire was completely under control, and would not endanger his premises. He is busily engaged this morning in discovering what loss he suffered. The smoke poured through his building in large quantities. It will be some time before an approximation of the loss can be made. LARGE CROWDS. Large crowds witnessed the fire. It was not pleasant by any means. The cold was intense, and the water was blown back into the spectators' faces in cutting snow. The firemen looked like snowmen. Water ran down the street in miniature rivers, and caused not a little inconvenience.

MINISTER APPEALS TO YOUNG PEOPLE

Rev. Mr. Inkster Says the Evils of Gambling and Drinking Should be Banished.

Prominent Public Men's Statements in This Regard Are Alluded to in Strong Language. Rev. J. Gibson Inkster, at the First Presbyterian Church: "There are prominent public men today who by their stand are actually saying: 'Gambling is necessary to horse racing; Sabbath desecration is necessary to success in business, and drinking is necessary for revenue.' If these statements are true, we are in a very bad way. We read the signs of the times and we see how disastrous the issue will be to the youth of our Dominion. I tremble for our destiny when I hear and see such statements made, and I ask you young men and women to rise and declare that they are not true, and drive out these evils by a life of loyalty to God and service to Jesus Christ." Rev. Dr. Manning, at Dundas Centre Methodist Church: "Jesus Christ was complained against greatly over matters in which there was no wrong whatever. They said he broke the Sabbath, while he was the friend of sinners, while he was at the same time doing the best things. There are tendencies in our nature to certain errors, and we must guard against them. One of them is finding fault with people better than ourselves. The end of religion is to make men better, if it does not, it is only fanaticism. If a man is not good, he will be good." Rev. A. J. Vining at Tabbot Street Baptist Church: "A troubled conscience takes all the comfort out of us and makes other people seem as nothing." Misfortune often shows up a supposed friend in his true light, as in the case of Shimei and David. There was a time when Shimei would have grovelled in the dust to obtain the king's favor, but in David's misfortune he abused him.

NEGRO SUFFRAGETTES

New York, Feb. 6.—Mrs. O. E. P. Belmont has invited the Negro women of the state to join the Political Equity Club, of which she is president. Ultimately they may form suffrage associations of their own. For the present as many as wish will be admitted to the Political Equity Club. Mrs. Belmont called this afternoon at a meeting addressed by Mrs. Belmont in an upstairs west side negro church. Mrs. Belmont came quickly to her feet and said: "The Negro woman is a 'that unless this cause means freedom and equal rights to all women, of every race, of every creed, rich or poor, it decreases its effect and worthiness, and it must fail.'"

GROGGY WITH GAS

Hamilton, Feb. 7.—Mrs. Mary Bunker, 73 Oak avenue, and her family had a narrow escape from asphyxiation as the result of a faulty furnace. They inhaled coal gas most of the night, and were very groggy when they awoke this morning. No ill-effects are expected.

MAD DOG SCARE

Continued From Page One. And have since gone mad, and had to be killed. The children are at present in the Pasteur Institute in New York. In Tilbury East a boy who was skating on a pond last week was snapped at by a dog, which bit his hand. The dog bit eight other dogs in the district.

Off to Pasteur Institute. A public meeting was held, and money was given by the township council to send the boy to New York, where he is being treated. Parties have been out hunting all over the district trying to locate the dogs that were bitten, and the greatest excitement prevails. For the eight have been killed, but the others have disappeared, and it is not known how many other dogs have been bitten. The situation is, according to those who are investigating, of a most alarming nature, and the Government order has come none too soon.

Must Muzzle the Dogs. At Mitchell recently the town council, after a mad dog scare, held a meeting, and ordered every dog in the district to be either muzzled or tied up, and gave the constables full authority to shoot all dogs found running loose which were unmuzzled.

An added danger is the fact that many of the dogs that have been bitten and are running loose have probably bitten cattle, and farmers are warned to keep the closest watch upon their animals and notify the inspectors at once if they notice any animals acting peculiarly.

Ottawa, Feb. 6.—With probably between two and three hundred mad dogs roaming around all parts of Western Ontario, and new cases of rabies being reported to the veterinary director-general's department almost daily, the Minister of Agriculture and Dr. Rutherford, acting in co-operation with the health department of the Ontario Government, has determined on drastic action to stamp out the deadly disease. It has been steadily growing more prevalent ever since it was first introduced into the province by a dog which crossed the Suspension bridge over the Niagara River at Queenston in May, 1907, and bit several Canadian dogs.

Under authority of an order in respect to rabies, an order was issued Saturday by the department of agriculture on the report of Dr. Rutherford, veterinary director-general, to the effect that rabies is known to exist in many widely separated parts of the western peninsula of Ontario, directing that all dogs in that part of the province living west of the eastern boundaries of York and Simcoe counties, must be securely chained in an outdoor or other building, or kept under lock and key, or else kept constantly muzzled with effective metallic muzzles in a manner satisfactory to the veterinary inspectors of the department. The order further states that in any municipality where rabies is known actually to exist, the muzzling privilege may be withdrawn. These cases all dogs must be detained or isolated by being chained or kept under lock and key.

Forty-Two Bitten. This order, affecting as it does every dog in the province, is being issued from a little east of Toronto, and requiring the muzzling or chaining of many thousands of dogs is being met with a storm of protest, but both the provincial and federal authorities have agreed that the only way to effectively stop the spread of the disease is by the above drastic method. For infringement of the regulation a maximum fine of \$200 may be imposed under the federal act, and under the provincial health act a fine of \$100 for each infraction of any regulation of the provincial health board may be exacted. The provincial secretary has been asked to co-operate with the federal authorities, and will use the machinery of the provincial constables and inspectors to assist the Dominion veterinary inspectors in enforcing the order. The dual jurisdiction in the case is because the act which deals with rabies both human lives and live stock. Since the first outbreak of the disease at Queenston the west of a stray canine from the United States in May, 1907, forty-two persons, of whom half were children, have been bitten by mad dogs; sixty-three cattle, one horse, six sheep, and thirty swine have died from which the rabies was contracted. There have been quarantined owing to the presence of the disease. No deaths among human beings are on record. Most of the persons bitten went to the Pasteur Institute in New York for treatment.

How It Spread. A history of the spread of rabies from Queenston after the visit of a dog which did the mischief, nearly three years ago, shows the rapid way in which the disease has extended from one county to another. A peculiarity of the disease is that as soon as rabies develops the dog starts out to roam the country, biting and infecting other dogs or cattle, and frequently carrying the disease 30 or 40 miles away before it dies. From Queenston the disease spread to Welland, Lincoln, Haldimand and Brant counties by June, 1908. In the following months outbreaks were reported in Norfolk and Oxford counties. Early last year cases were reported from Waterloo, Westworth and Perth counties, and by July infected dogs had gone as far west as Clinton, in Huron county. During the past two weeks cases have been reported from Simcoe and York counties, and from nearly every county in the whole of the western peninsula. New cases, often from widely separated districts, are now being reported with alarming frequency. In Galt and Paris over 60 dogs have been killed, and a few days ago a case of rabies was reported from Toronto.

Dr. Rutherford stated that there must now be scores of mad dogs scattered throughout the infected districts, and every dog running loose is exposed to the disease. To stamp out the only remedy is the one adopted, and though the remedy is a severe one, the authorities believe it is amply justified by the present conditions and by the danger to which the public is subjected. How long the order will have to be in force depends to some extent on the manner in which it can be enforced, and upon the co-operation of dog owners and municipal authorities generally.

The Toronto Humane Society have issued a statement in reference to the many reported cases of "rabies," as follows: "As the Toronto Humane Society has been appealed to by many people in reference to the many reported cases of 'rabies,' it is thought advisable to make the following statement: 'That there is an outbreak of this disease in different portions of the country is apparent, whether it is of a violent type or not does not prove that it is not rabies. A number of people have been bitten, but we believe, that no person so bitten has developed the rabid symptoms. Many, if not all, of these people are under treatment. We have every confidence that the departments of both the Provincial and Dominion Governments are

FORECAST OF BRITISH POLITICS

O'Connor Says Asquith Must Continue Attack on the House of Lords.

London, Feb. 7.—T. P. O'Connor, M. P., whose organization of the Irish vote in the English, Welsh and Scotch elections practically won the Liberal majority, when asked for views on the proposals of the present enormously interesting political situation, said: "There is fortunately but one policy possible for the Government when Parliament meets. The line of safety and prudence is also the line of courage and straightforwardness. Any Liberal minister who now makes the mistake of dallying or wavering with the question of the Lords would be doomed to immediate extinction. All the talk in Unionist newspapers about compromises, conferences and national agreements is so much nonsense. One point is eagerly debated, whether Asquith has or has not obtained already a majority in the House of Commons. It is necessary to do away with the present veto of the peers. My impression is there is fairly clear understanding between the King and the Premier, and if the King really desires a guarantee to create enough new peers to swamp the present Unionist majority in the House of Lords, the Government must proceed."

Then the one thing that the Liberal party would be to halt now in its campaign against the Lords. Much nonsense is being talked about the composite character of the anti-peers majority. I take a cheerful view of the prospects. I see no sign of wavering in Asquith. He is not a man who wavers. He has something of the bluntness, brevity and business, if you please, of the typical Yorkshire man. On the other hand, he has Yorkshire doggedness and a high sense of the sacredness of the given word. He has Yorkshire thoroughness in doing what he has set out to do. If he wavers everybody knows he would lose George and Churchill, and no Liberal cabinet could exist a day without these two powerful popular figures, but there is no necessity for any such heroic partings.

"Finally, as to the small parliamentarian group brought into being by Ireland, William O'Brien's return to public life, it will doubtless be a Liberal in spirit and mischievous in purpose, but it will be irritating rather than formidable. It will give trouble, but not in the elements of durability or effectiveness even for mischief."

William O'Brien, who has nine followers, including "Pam" Healy, in the new Parliament, says: "Asquith must reconstruct the Irish part of the budget from top to bottom or the obsequies will be long."

WOMAN BADLY BEATEN
Indian Under Arrest for Alleged Outrage Near Wiaton.

Owen Sound, Feb. 7.—Henry John, an Indian, is under arrest on a charge of a brutal assault on Mrs. Martin, at Little Port Elgin, about 15 miles north of Wiaton. On Thursday evening Mrs. Martin, who is a widow, returned home before the party had up and it is alleged, was followed into a house, proceeded to Mrs. Martin's room, where he beat and kicked her, throwing her downstairs. The woman was in a precarious condition when found. She is still in a serious condition, but her recovery is likely.

AT MONTREAL
Montreal, Feb. 7.—The coldest snap of the winter passed here today. That morning at 8 a.m. the official record showed the temperature at 15 degrees below zero. Since then the thermometer has shown a few degrees more. Fortunately for people whose windows kept them outside much there was a little wind stirring. The cold snap ended in Saturday afternoon.

DETERMINED TO DIE.
San Francisco, Feb. 7.—After firing eleven bullets into his head from a .44 calibre revolver, reloading the weapon, accomplishing the feat, Roman Prins, hanged himself at his home in Alameda Saturday night to make the suicidal deed thorough. Six of the bullets entered his brain, and the fact that he was able to fasten a clothesline about his neck and strangle himself puzzled the coroner's physicians who examined the body.

and will do all in their power to stamp out the disease, and we call upon all people everywhere to refrain from making any exaggerated statements concerning the cases reported, and to keep from getting scared. It cannot be helped, perhaps, that some dogs may be destroyed, while being suspected, that have not the disease. Under the circumstances, whether in the city or in any other portion of the Dominion, the disease must be stamped out, and we must exercise confidence in the authorities that the very best will be done for the general good."

quous followers of the Pithulian devil party will only have the choice of following my independent party into the lobby for the expulsion of the Government from office or scaling their own fate as the next general election which will soon take place."

Forecast by Keir Hardie. Keir Hardie, Labor member of Parliament, discussing the outlook, said: "Taking all party circumstances into account, it is not easy to forecast the future with any certainty. Much depends upon the composition of the Liberal party into the House of Commons. The election has, I fear, robbed it of a considerable portion of its advanced radical element, which leaves the timid, semi-reactionary Whig section relatively stronger."

"That the budget will go through intact, I think, is assured. The question of the likelihood of the King giving his assent to any plan for getting rid of the veto power of the Lords Asquith has announced that will deal with the veto in two measures, one taking away the power of the Lords to meddle in finance, another amending their power to veto ordinary legislation. The first measure affirms the status quo in the event of a deadlock, and I don't anticipate it will come law without another appeal to the country, say two years hence."

"The second measure, which would take away the veto power of the Lords, is a more radical measure, and I think it will be taken. Already there are indications of a change in the attitude of the Irish party by the Liberals, who may offer them home rule in return for supporting tariff reform. This seems far-fetched, but strong indications have been given in the past that the other more likely forecast is that in the next election a coalition of the government may be formed. Since this happens a counter-move would be made by the Conservatives, and the Liberal party, John Robert may yet be Prime Minister of the British."

WOMAN BADLY BEATEN
Indian Under Arrest for Alleged Outrage Near Wiaton.

Owen Sound, Feb. 7.—Henry John, an Indian, is under arrest on a charge of a brutal assault on Mrs. Martin, at Little Port Elgin, about 15 miles north of Wiaton. On Thursday evening Mrs. Martin, who is a widow, returned home before the party had up and it is alleged, was followed into a house, proceeded to Mrs. Martin's room, where he beat and kicked her, throwing her downstairs. The woman was in a precarious condition when found. She is still in a serious condition, but her recovery is likely.

AT MONTREAL
Montreal, Feb. 7.—The coldest snap of the winter passed here today. That morning at 8 a.m. the official record showed the temperature at 15 degrees below zero. Since then the thermometer has shown a few degrees more. Fortunately for people whose windows kept them outside much there was a little wind stirring. The cold snap ended in Saturday afternoon.

DETERMINED TO DIE.
San Francisco, Feb. 7.—After firing eleven bullets into his head from a .44 calibre revolver, reloading the weapon, accomplishing the feat, Roman Prins, hanged himself at his home in Alameda Saturday night to make the suicidal deed thorough. Six of the bullets entered his brain, and the fact that he was able to fasten a clothesline about his neck and strangle himself puzzled the coroner's physicians who examined the body.

Mr. John Gillson III.

The many friends of Mr. John Gil-
son will regret to learn that he is still
very low at his home in London Town-
ship. Mr. Gillson has been critically
ill for some days.

Bought Land in West.

Messrs. Charles E. and John Glover,
of Byron, are moving to Alberta in
March. They have bought a section
of land at Trees, Alberta, from Mr. Jo-
seph Lawrence, of South London. The
price paid was \$10,000.

St. Mary's Dramatic Club.

The St. Mary's Dramatic Club, which
is giving a performance at St. Mary's
Hall Tuesday evening, has been formed
for four years. They have been giving
the most refined and up-to-date plays
written, and it will be worth while to
see them Tuesday evening next.

Why Waste Postage Stamps?

Brantford Courier: The sanitary in-
spector of late has received several
letters with regard to complaints, but
epidemics are not signed by anyone.
Today he received one of this kind
where a party complained about a
resident keeping chickens in the house.
No attempt is paid to such letters
unless signed by the person writing.

"Ideal Manhood."

Professor Barton gave a very strong
address at the men's meeting Sunday
afternoon in the Auditorium on the
subject of "Ideal Manhood," making a
strong appeal for men to develop their
threefold nature, physical, mental and
spiritual, rounding out a full and com-
plete man. He said in part that so
many of our young men of the present
day would sooner spend their time
in places they ought not to be, than
in fitting themselves for valuable ser-
vice; that they would sooner be seen
reading a dime novel than studying
hard.

For Flood Sufferers.

The officers of the McAll Mission
will be glad to receive donations to-
ward the fund for aiding the suffer-
ers in France by the recent deluge. As
the habits of the halls are many of
them stripped of their meagre belong-
ings the workers will have an ardu-
ous task in supplying immediate needs.
Subscriptions may be sent to Mrs. J.
H. McMechan, 264 King street, presi-
dent; Mrs. F. E. Leonard, 602 Queen's
avenue, treasurer; Miss H. Little, 518
William street, secretary.

Deathly Cramps,

Stomach Was Bloated

A BAD CASE THAT PROVES
CRAMPS AND STOMACH DIS-
ORDERS ARE CURED FAST BY
NERVILINE.

"The distress I suffered from cramps
last summer was so severe I thought
it meant death," writes P. R. Emerson,
of Guy's Hill, E. O. "I was doubled
up with pain and such bad shape I
couldn't walk a hundred feet. I re-
membered having Nerviline on hand
and took half a teaspoonful in sweet-
ened water. In five minutes I was
well and my stomach derangements
disappeared entirely."

For cramps, flatulence, diarrhoea and
disorders of the stomach and bowels,
Nerviline knows no equal—one million
bottles used every year—fifty years on
the market, that's proof enough of its
merit. Large bottles, 50 cents; trial
size, 25 cents. All dealers, or the
Cattaraugus Company, Kingston, Ont.

BELTZ'S
SPECIAL
REDUCTIONS
IN FURS
THIS WEEK
PRACTICAL FURRIER.

In their lodge room at the Southern
Congregational Church, Horton street,
Very encouraging reports were read
by the retiring officers, and the fol-
lowing were elected for the ensuing
term: Chief templar, Bro. Geo. Noble;
past chief templar, Bro. A. Paterson;
vice-templar, Sister M. L. Robins;
chaplain, Sister Mrs. Swindell; treas-
urer, Sister M. Bell; financial sec-
retary, Bro. E. Dix; marshal, Bro. H.
Johnson; deputy marshal, Sister Mrs.
Johnson; guard, Sister G. Bell; sentin-
el, Bro. W. H. Phillips; organist,
Sister Mrs. Phillips; secretary, Bro. F.
W. Robins; assistant secretary, Sister
Mrs. Robins. These officers were duly
installed by the lodge deputy.

Juvenile Templars Elect.

Juvenile Temple, No. 8, the local
branch of the I. O. G. T., held their
quarterly election of officers. Follow-
ing were elected after a spirited con-
test among the candidates: Chief
Templar, Phoebe Bailey; past chief
templar, Arthur Robins; vice tem-
plar, Ethel Spring; secretary, Jessie Rob-
erts; assistant secretary, Pearl Rob-
erts; financial secretary, Pearl Rob-
erts; treasurer, Maggie Robins; chaplain,
Annie Cleaver; marshal, Ed. Spring;
deputy marshal, John Paterson;
guard, Evelyn Roberts; sentinel, Ethel
Millet. These officers were duly in-
stalled by the superintendent, Fred W.
Robins, and the assistant, superin-
tendent, Mrs. H. Johnson.

APPLY A SURCHARGE TO
CONSUMERS OUTSIDE CITY

Water Commissioners Will Tack-
on 25 Per Cent in Certain
Instances.

At a meeting of the water commis-
sioners on Saturday afternoon a mo-
tion by Commissioner Pooec, that all
persons outside the city limits using
city water, who receive less than
\$15 per quarter, be charged 25 per cent
more than citizens pay, carried unani-
mously, and it was further decided to
add to the motion a clause that the
commissioners now have the power to
cut off the supply at any time there is
a shortage.

The motion offered a simple solu-
tion to letters of complaint received
regarding present charges. The Evening
Manufacturing Company wrote stating
that they were being charged a double
rate at present, and did not think it
was fair, as nearly all their employees
live in the city, and all the money paid
out by the firm is spent here.

W. W. Gammage also wrote regard-
ing his rates.

Commissioner Pooec's motion will
cover all the cases in question.

ENGINEER MOORE WILL

ACCOMMODATE THE CITY

Waterworks Superintendent Will

Retain Office Until Successor

Is Appointed.

At the water commissioners meeting
on Saturday afternoon Engineer Moore,
notified the commissioners that his
term expired on Jan. 31, but stated
that at their request he had consented
to continue on until some arrange-
ments were made on condition that
his salary ceases on Feb. 1. The com-
missioners decided to accept this pro-
position, and a meeting will be ar-
ranged shortly with the members of
No. 1 committee to arrange for the
appointment of an engineer to look
after all the engineering work of the
city.

Mayor Beattie brought up the ques-
tion of placing the waterworks account
with the Molsons Bank, and securing
the rate and privileges which the city
at present enjoy there. The account
is now at the Bank of Toronto. It
was suggested that the chairman in-
terview some other banks and find
out what rates they will offer, and
report at the next meeting.

"A FETE IN FLOWERLAND"

Splendid Affair Carried Out by the Pu-

pile of St. George's School.

A crowded house greeted the pupils
of St. George's school on the occasion
of the first rendition of "A Fete in
Flowerland," given at the St. John's
Athletic Club rooms on Saturday af-
ternoon. Among those who enjoyed
the occasion were the children of the
Protestant Orphans' Home, who were
admitted free.

The fete was very unique and pret-
ty, and the costumes very attractive,
representing snowdrops, violets,
daisies, lilies, roses, forget-me-nots,
and poppies.

During the afternoon Chairman Gam-

mage of the school board presented the
Boyle medals to Misses Martha Weir
and Naomi Blanch, and Ald. Richter
presented the Wyatt medal to Nelson
Minhinnick.

The second part of the programme
consisted of concert numbers, and all
were greatly appreciated. The pro-
gramme consisted of violin selection,
Mr. Maurice Paure; solo, Mr. Percy
Spence; recitation, Miss Edna Smith;
duet, Mrs. Wyatt and Mr. Quantz. The
catasta will be repeated this even-
ing.

WOOD IN THE OVEN
GAVE FIREMEN A RUN

Blaze at the Residence of Harry
Kibbler, 811 Central
Avenue.

While the firemen were engaged on
the fire at the residence of Harry Kib-
bler, 811 Central avenue, on Saturday
evening, an alarm was sent in from
the residence of Mr. Harry Kibbler,
811 Central avenue. Fortunately the
firemen had the big blazes under
control when the alarm came. A
chemical and a hose sleigh were sent
to the fire. It proved to be some wood
left in an oven. The house was filled
with smoke, but there was no damage.
The brigade had another run to the
London House at 3:40 yesterday. While
opening a jar of preserves by the hot
water method the pot boiled over and
it looked like a fire. The firemen were
summoned, but there was no need of
them.

The Mollusc.

Brilliantly acted, was the unanimous
verdict of the audience at the Grand
Opera House on Saturday night after
witnessing Sir Charles Wyndham and
Miss Vine give a performance
of "The Mollusc." Opinion of the play
was somewhat divided. The central
idea was ingeniously worked out, and
the fact that only four characters
were required was further testimony
to the skill of the playwright.

There are two barrels to Sir Charles'
dramatic gun, so to speak. One is his
undoubted ability as an actor, which
won him his knighthood. The other is
the greatest of his old age, it is won-
derful that a man past the allotted
three score years and ten, should be
so youthful, so sprightly, and so en-
thusiastic in his work.

The story is a preachment by Hubert
Henry Davies on "Mollusc," a species of
human parasites, who are eternally
busy trying to keep from doing some-
thing—and making other people dance
attendance on them. It deals with the
family life of the Baxters. Mrs. Bax-
ter is a highly organized mollusc. In
getting others to do her work she has
become a genius. A very pretty gov-
erness is a member of the household,
and she finds the duty of doing
everything for her.

After the house is done properly, Tom
Kemp, Mrs. Baxter's brother, played
by Sir Charles, returns from Colorado,
and finding the condition of affairs,
attempts to cure his sister of her
trouble. He is completely routed at
first. The woman's husband has be-
gun to rely on her, and she has gradu-
ally fallen in love with her charms.
He shows the seeds of jealousy in Mrs.
Baxter, and eventually cured of
her "molluscousness."

Miss Vine as the Mollusc was
beyond criticism. As a piece of char-
acter acting it was a gem. Miss Dor-
othy Thomas played the governess in
a most charming manner. Sam Sothen,
as the long-suffering husband, there was
an artistic restraint in his work;
there was not an exaggerated note.
The audience was the largest and
most stylish of the season.

CANDLEMAS DAY

Feast Was Observed in the Catholic
Churches on Sunday.

Candlemas Day or the Feast of the
Purification was celebrated in the
Catholic churches yesterday, candles
being blessed before the high mass in
the morning and distributed in the
evening after vespers.

A number of young ladies were re-
ceived into the sodality of the Blessed
Virgin after vespers in the evening at
St. Paul.

The Lenten regulations were read,
and it was announced that on Wed-
nesday and Friday evenings during
the season special services will be held.

TROUBLE WITH
THE STOMACH

That Can Only Be Cured When Liver

and Kidneys Are Set Right by Dr.

A. W. CHASE'S KIDNEY and

LIVER PILLS.

It is customary to put all the re-
sponsibility on the stomach for indig-
estion and its accompanying discom-
forts.

This is all wrong, for almost always
the liver and kidneys are to blame, and
you find among the symptoms consti-
pation, backache, biliousness, and head-
ache.

You will be surprised how quickly
Dr. A. W. Chase's Kidney and Liver
Pills will regulate the liver, kidneys
and bowels and get the digestive sys-
tem into good working order.

If you are in earnest about a cure,
don't bother any more with mere aids
to digestion, but rid the whole system
of poisonous impurities by using Dr.
A. W. Chase's Kidney and Liver Pills,
and you will know once again the
pleasure of living.

This medicine gets at the cause of
trouble and makes the cure complete.
One pill a dose, 25 cents a box, all
dealers, or Edmondson, Bates & Co.,
Toronto. Write for free copy of Dr.
Chase's Recipes.

Long Values at Short Prices In Carpets and Rugs

In nearly every home there is sure to be a room that could be improved by the
addition of a new Rug or Carpet.

If you feel you will need a new floor covering in the near future, take advantage
of these prices, for you'll find more solid bargains to the square inch here than in any
other carpet department in the land.
