TABLES

OF THE

TRADE AND NAVIGATION

OF THE

DOMINION OF CANADA

FOR THE FISCAL YEAR ENDING 30TH JUNE,

1878.

COMPILED FROM OFFICIAL RETURNS.

*Presented to both Houses of Parliament by Command of His Excellency,
MACKENZIE BOWELL, Minister of Customs.*

OTTAWA:

PRINTED BY MACLEAN, ROGER & CO., WELLINGTON STREET.

1878.

*To His Excellency the Right Honorable Sir JOHN DOUGLAS SUTHERLAND CAMPBELL,
Marquis of LORNE, K.T., G.C.M.G., P.C., Governor General of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Tables of TRADE and NAVIGATION of the Dominion of Canada, for the Fiscal Year ending 30th June, 1878, as prepared from Official Returns, and laid before him by the Commissioner of Customs.

All of which is respectfully submitted.

MACKENZIE BOWELL,

Minister of Customs.

OTTAWA, 18th December, 1878.

CUSTOMS DEPARTMENT,

OTTAWA, 10th Dec., 1878.

To the Hon. MACKENZIE BOWELL,

Minister of Customs.

SIR,—I have the honor of laying before you the Annual Report and Returns of Trade and Navigation of this Dominion, for the fiscal year ended 30th June last.

In addition to the general statistics embraced in the ordinary tables, I have had the following comparative statement of the Imports of a large proportion of the commodities which constitute the basis of much of the Dominion trade, prepared for the years 1876, 1877 and 1878. This statement, when taken in connection with a similar table, published with the Trade Returns of 1875, for the years 1872 to 1875, inclusive, presents a valuable means of tracing the progress of the importing business, not only as to the aggregate value, but also as to the countries in which each article was purchased, with the attendant fluctuations for a period of seven consecutive fiscal years.

The table will be found further useful because the articles named are chiefly such as are now, or may be, produced or manufactured in Canada, and the importation of which has a direct bearing upon Canadian industry and manufacturing enterprise.

COMPARATIVE STATEMENT showing the Quantity and Value of the under-mentioned Articles entered for Consumption in the Dominion of Canada and the Countries from whence Imported during the Fiscal Years ending 30th June, 1876, 1877 and 1878, respectively

* Value included in "Woollens, all other."

An examination in detail of the foregoing statement furnishes some instructive and interesting results. The first item, viz :—Sulphuric acid, chiefly imported from the United States, was quadrupled in quantity in 1877, as compared with 1876, and again receded in 1878 to little more than half the import of the preceding year. The general increase is probably attributable to the enlarged production in Canada of certain powerful explosives, such as dynamite and giant powder, in the manufacture of which it is largely used.

Butter shows a continuous decline, and as nearly all imported is for British Columbia and Manitoba, the increased producing capacity of those distant Provinces may be assigned as the cause.

Cigars.—The quantity imported from the United States was largely increased in 1878 over 1877, but the former year was little more than equal to 1876. The value, however, shows a very serious decline, the price per pound in 1876 being about \$2.67 and in 1878, \$2.14. This accords with the general downward tendency of all, or nearly all, articles of commerce. Cigars from Germany, always of the commonest description, shew a great decrease in quantity in 1877 and 1878, as compared with 1876, and in prices a still greater difference, ranging from over \$1 in 1876, to 50 cents per pound in 1878. The addition of the *ad valorem* and the reduction of the specific duty on this article in 1877 has had the tendency to lessen the average valuation from all countries.

Meats.—The importation has steadily increased in quantity, but there has been a great shrinkage in value.

Petroleum, Refined Coal Oil.—The importation in 1878 is greatly in excess of 1876 and 1877, probably owing to two causes, viz :—The reduction in duty from 15 to 6 cents per gallon, and an immense shrinkage in the price of the United States' productions.

Tea, Green.—The total quantity of Green Tea entered for consumption in 1876 was 8,942,507 lbs.; in 1877, 7,539,502 lbs., and in 1878, 6,035,140 lbs., the price steadily declining; ranging at 30½c., 26¾c., and 23½c. per lb., each year.

Tea, Black.—Entered in 1876, 5,615,344 lbs.; in 1877, 5,943,155, and in 1878, 4,984,091 lbs.; the cost of this article was nearly uniform during 1876 and 1877, averaging a shade under 27c. per lb., but in 1878 there appears a shrinkage of 3c., the price being a small fraction under 24c. per lb.

The duties on all Teas were increased in February, 1877, from 4 and 3 cents to 6 and 5 cents per lb.

Japan tea being classed as Green, has the effect of bringing the average values of Green and Black to nearly an equality.

Sugars.—The quantity of Sugar, grading over No. 13, consumed in 1878, exceeded the consumption of 1876 to the extent of 18,000,000 lbs., and of 1877 nearly 8,000,000 lbs. The grades, ranging from No. 9 to 13 inclusive, show a large decrease in 1877 as compared with 1876 of about 11,500,000 lbs., and in 1878 of over 9,000,000. The most marked feature, however, in the general results is the fact that the low grades, under No. 9 Dutch standard, have almost ceased to be used, the quantities consumed being in 1876, 14,146,798 lbs.; in 1877, 493,530 lbs., and 1878, 1,108,065 lbs.

The imports of the higher grades, chiefly refined Sugars, have increased from Great Britain and the United States in about equal ratio. The medium qualities, between No. 9 and No. 13, have largely increased from Great Britain and still more largely decreased from the United States, while the imports of Sugar of all grades from the West Indies, both British and foreign, have uniformly declined.

In the general valuation of Sugars, during the three years in question, there has been no very marked variation; later, however, there has been a very considerable shrinkage.

Molasses.—The consumption of Molasses imported from the United States was greatly reduced in 1877, as compared with 1876, and again somewhat increased in 1878, with marked fluctuations in market values. The price in the latter year was much higher than in either of the two former, probably owing to the superiority of the quality imported.

The consumption of the British West Indies Molasses has varied very little, with almost an equal uniformity in value.

From Spanish West Indies, the quantity has declined nearly one-half, with a large increase from British Guiana, but the variations in market value have not been very remarkable. As in the case of sugars, however, a subsequent shrinkage in prices has become very observable.

In the large classes of the goods upon which the *ad valorem* duty of 17½ per cent. is collected, there appears but little to be specially noted. The item of Cotton Warp, as shown in the table, does not, owing to an obscurity in the classification furnished to the ports of entry, present any proper idea of the quantity taken into consumption, the bulk of what was entered being included in the item of "Cotton—all other not elsewhere specified." Measures have been taken to prevent the recurrence of this error in the present and future years.

The following tables, No. 1 to No. 16, are reproduced, with only such changes as are necessary to adapt them to the fiscal year 1878. In some cases one year has been dropped, and in each the figures for the latter term have been added. As will be seen, they deal with general results, all drawn from the details contained in the returns, and will be found deeply interesting and instructive to all persons interested in the progress of Canadian commerce.

XXXXVII

The result of the year's transactions, as it respects revenue, is so far satisfactory that the Customs duties collected were slightly in advance of the preceding year; but in comparison with the years 1872 to 1875 inclusive, the decline is very marked. This may be largely accounted for by the continuous shrinkage in the market values of the large classes of imports subject, under the present tariff, to *ad valorem* duties. There has, without doubt, been a falling off in quantities imported, but that alone would not be sufficient to account for the whole revenue deficiency. The largest revenue realized from Customs was in 1875, viz., \$15,361,382. This result is attributable chiefly to the fact that the increase of 2½ per cent. on non-enumerated goods, which came into operation in May, 1874, had its effect upon the whole home consumption of the fiscal year 1875, before the general depression in trade had reached its full development.

This shrinkage in values has largely occupied the attention of financiers and others in the United States, and probably the opinion of the editor of the *New York Public*, as expressed in a recent issue, may be accepted as, at least, approximately correct, when he says:—"The shrinkage in the average gold value of commodities (exclusive of all stocks or bonds, and of all real estate) from January 1st, 1873, to November 1st, 1878, appears to have been about 34.1 per cent." It is scarcely possible to conceive of any further shrinkage, and the opinion appears to gain currency, that the fearful commercial depression has at length reached bottom on this continent.

Annexed will be found the statement of Revenue collected and Expenses of collection at the several ports and outports of the Dominion.

I have the honor to be, Sir,

Your obedient servant,

J. JOHNSON,

Commissioner of Customs.

STATEMENT (by Provinces) showing the Amount of Customs Duties and other Revenues collected at the several Ports and Outports in the Dominion of Canada, during the Fiscal Year ending 30th June, 1878.

PROVINCE OF ONTARIO.

J. JOHNSON,
Commissioner of Customs.

No. 19.

SHIPPING STATEMENTS

(BY PROVINCES)

OF THE

DOMINION OF CANADA.

Shewing the Number and Tonnage of British, Canadian and Foreign Vessels Entered Inwards and Cleared Outwards, *Seaward*, at each Port,—with Cargo or in Ballast, the Countries whence they came, or for which they Cleared, and the Flag under which they Sailed. Shewing, also, the Shipping engaged in the Inland Trade between the Dominion and the United States. Also, the Number and Tonnage of Vessels employed in the Coasting Trade of the Dominion, with Tables of Ships Built and Registered, &c., during the Fiscal Year ending 30th June, 1878.

No. 19.—STATEMENT (by Provinces) of Vessels, British, Canadian and following Ports in the Dominion of Canada,
