## THE WALTHAM CONVERTIBLE BRACELET WATCH

IS easily the first favorite with the ladies. Why? Because of its dainty beauty and abiding accuracy. But that is not all. It appeals to the ladies also because of the many different ways it can be worn. On the case is a little "eye" that folds back snugly against the case when it is desired to wear the watch on chain, brooch or ribbon. You really ought to see this beautiful watch and we shall be pleased to show it to you at any time.

ouble to come in after years.  
d is a very simple proposition  
ould have simple food at reg-  
ervals. You cannot show your  
r children by shoving a con-  
ation of indigestible stuff at  
all the time; you are merely  
g your own thoughtlessness,  
the child's injury.  
ny nursing work I have seen  
youngsters who lived on milk  
he age of three. This, however,  
be a very difficult thing in most  
holds where the little ones insist  
ating at the table with "Daddy."  
t milk is the ideal food for them.  
ossible, milk should constitute al-  
the sole food the first year. Then  
e foods may be added to the diet,  
ly, and with the exercise of good  
ment as to combinations.  
i the second year boiled or poach-  
eggs may be given. Plain corn-  
ch puddings are good. Good bread  
butter is fine if the little one will  
w it well. Meat should not be fed,  
it does no harm to give the child  
piece of tough meat that can be  
wed but not swallowed. Meat  
ths are good. A raw apple, scrap-  
fine, is excellent. Baked apples are  
ed if not leaded with sugar. An ex-  
lent evening meal is well toasted  
ne-made bread softened in warm  
t boiled) milk.  
After the second year the child may  
a wider variety of food but indis-  
tible mixtures should be avoided.  
care is taken first to satisfy the  
nger with plain, nourishing food.  
n a little dissipation in the way of  
ce or candy may be indulged in  
asionally. But do not "stuff" the  
le ones. Let the motto be: "Plain,  
rishing food at regular times."

**Home.**

ave not seen them, but I know  
orchards cool the apples grow;  
d every Bartlet beauty bears  
burden rich of ripening pears.  
ould I were a vagrant bee  
some dear, well-remembered tree.  
ave not heard them but I ken  
w sound the songs of thrush and  
wren,  
d mocking birds their voices raise  
matin hymn and vesper praise.  
ould I could put my tasks away  
d list their songs again to-day.  
eld, forest, mountain side and  
stream,  
ere daisies nod and willows dream.  
shaded lane, a farmhouse oid,  
doorway bright with sunset gold.  
est am I still where'er I roam,  
eause I still can call them home.

**BUY "DIAMOND DYES"  
DON'T RISK MATERIAL**

Each package of "Diamond Dyes" con-  
tains directions so simple that any  
man can dye any material without  
bleaching, fading or running. Druggists  
and color card—Take no other dye!

**Take Care of Its Trees.**

The Hydro-Electric Commission and  
the Parks Department of the City of  
St. Thomas have placed the trimming  
of the trees on the streets where hy-  
drewires are strung under the superin-  
tendency of the Horticultural Society.  
The St. Thomas Horticultural Society  
have as their chief plantsman, Mr. R.  
Smith, formerly superintendent of  
parks of London, who is an expert  
on this line. The trimming is be-  
ing done in a sane manner. That part  
of the work on the tree that it is  
necessary to remove to protect the  
wires is paid for by the Hydro Com-  
mission, and the balance of the work  
to make the tree symmetrical is paid  
for by the City Council. The spirit

**RELIEVES PAIN**

**Remember This.**

There are many stories told against Irishmen of ripe and full age, but not so many about them when they are young. Still, here is a proof that they are Irishmen even before they are breeched.

It was a class-room in a village school in Ireland, and the teacher was giving a lesson on salt.

"Now," she said, at the conclusion of her rather long and inclusive lecture, "I want someone to give me a good definition of salt."

"Shure, teacher," said Micky, a bright, blue-eyed youngster. "It's the stuff which makes potatoes taste nasty when you boil them and don't put any in."

**Caterpillar Work.**

Just to show what a modest caterpillar's hard work can accomplish, it may be mentioned that the silkworm in 1919 produced 52,767,600 pounds of raw silk.

Nearly two-thirds of this total quantity was produced in Japan. China contributed about one-fourth of the whole. In Europe, Italy was the big producer, sending to market 4,078,600 pounds, or just about ten times as much as France.

We believe MINARD'S LINIMENT is the best:

### Be the Best of Whatever You Are.

"If you can't be a pine on the top of the hill,  
Be a scrub in the valley—but be  
The best little scrub at the side of the  
hill;  
Be a bush if you can't be a tree.  
"If you can't be a captain, be a bit of the  
cruiser.  
Some highway to happier make;  
If you can't be a musketeer, then just be  
a bass—  
But the liveliest bass in the lake.  
"We can't all be captains, we've got to  
be crew.  
There's something for all of us  
here;  
There's big work to do and there's  
lesser to do.  
And the task we must do is the  
near.

"If you can't be a highway, then just  
be a trail;  
If you can't be the sun, be a star.  
It isn't by size that you win or you  
fall—  
Be the best of whatever you are."

### THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**To the Loser.**

Never mind the losing.  
Think of how you ran;  
Smile, and shut your teeth, lad,  
Take it like a man!  
Not the winning counts, lad,  
But the winning fair;  
Not the losing shames, lad,  
But the weak despair;  
So, when failure stuns you,  
Don't forget your plan,  
Smile, and shut your teeth, lad,  
Take it like a man.

It is much easier to be critical than to be correct.—Disraeli.

### Washing by Fire.

The silky fibre derived from certain rocks which we call asbestos was familiar to the ancient Greeks and Romans, and was commonly used by them to make fireproof yarn, fireproof rope and fireproof cloth.

These are the uses to which asbestos is chiefly put at the present time. It is only in the production of thread from this material that we have much improved upon the ancients. It is now spun so fine that a pound of asbestos will yield two-thirds of a mile of thread.

To "wash" a piece of asbestos cloth one has only to put it into fire. That cleans it.

### DRAWING ON YOUR RESERVE STRENGTH

This is What Thousands of People Throughout the Country Are Doing.

Thousands of Canadian housewives are working from day to day on their nerve. They are dally drawing more and more on their reserve strength, knowing full well that they are using up that vital force which often means life or death in the crisis of disease. They are the victims of a feeling of hopeless exhaustion after the performance of even the small tasks which were once the simplest and easiest parts of the day's work. They find the appetite failing, sleep is disturbed and unrefreshing; they lose weight, and always feel tired and depressed. In this condition a blood-building tonic is needed to restore health and activity, and for this purpose Dr. Williams' Pink Pills are unsurpassed. Often the trouble will have progressed to a point which makes full recovery slow, but the treatment should be persisted in and renewed health and activity will be the result.

The case of Mrs. W. Schooley, R.R. No. 2, Tilsonburg, Ont., well illustrates the value of Dr. Williams' Pink Pills in cases of health breakdown. Mrs. Schooley says: "For upwards of five years I felt my strength declining, until at last I could not do light chores around the place. Then a doctor was called in, and after doctoring about a month he said that only an operation would help me. I did not feel like going through this, and decided that in any event I would wait a while. I had no appetite, often had headaches accompanied by dizzy spells; several times I had fainting spells, and my legs would swell, and I could not even sweep a floor without resting several times. Again a doctor was called in and he said the trouble was general debility and nervous breakdown. The treatment, however, did not help me, and then one evening as my husband was reading the paper, he came across a case in many respects similar to mine, cured through the use of Dr. Williams' Pink Pills. The next day he got me a supply of the Pills, and to their continued faithful use for several months, I owe my present splendid health. I may say that soon after beginning the use of the pills I felt a gradual improvement in my condition, my appetite improved, I began to feel rested after a night's sleep and I gained in weight. My friends were continually expressing surprise at my improved condition, as it was generally believed I had become a chronic invalid. I always take a delight in telling them that Dr. Williams' Pink Pills are responsible for my present good health, and as they have been a real blessing to me I shall always continue to praise them."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or they will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

### Surnames and Their Origin

**ROBERTS**  
VARIATIONS—Robertson, Robson, Robinson, Robison, Probert, Probyn, Robinett.

**RACIAL ORIGIN**—Medieval English; also Welsh.

**SOURCE**—A given name.

Robert was one of the most popular of Christian names in the middle ages in England, more so by far than today, and as an inevitable result the family name of Roberts to-day is most widespread, as are also the unusually large number of variations from it.

Probably no better illustration could be chosen of the manner in which family names of that class derived from given names developed.

The origins of all the variations mentioned in this article, which, by the way, fall far short of completing the full list of Robert names, have been along normal lines and obvious lines.

As a given name, Robert is of Teutonic origin, coming from two roots; "hruod" in the early Frankish tongue ("hruotha" in Scandinavian), meaning "fame," and the old word, common to all Teutonic tongues signifying "bright," which in German names has developed into "brecht" or "precha," and in English names into "bert."

Robin was a very common variation of the given name in old England, as was the contraction Rob. From the former has come Robinson, Robison, Robins and Robinet, the last named through the use of the Norman-French diminutive "et." Robertson, of course, is simply "Robert's son," and Robson is "Rob's son." Probert and Probyn are forms of the name developed in Wales from "Ap-Robert" and "Ap-Robyn," the "ap" being similar to the Gaelic "O" and "Mac" and the Norman-French "Fitz," and serving the same purpose of the Anglo-Saxon ending, "son."

### AUTO SPARE PARTS

For most makes and models of cars. Your old, broken or worn-out parts replaced. Write or wire us describing what you want. We carry the largest and most complete stock in Canada of slightly used or new parts and automobile equipment. We ship C.O.D. anywhere in Canada. Satisfaction or refund in full our motto. Shaw's Auto Salvage Part Supply, 923-921 Dufferin St., Toronto, Ont.

strand being cut clean away as if shaved by a razor. Yet the child felt no shock. A somewhat similar case was that of a woman who, after being struck, gradually lost all the hair on one side of her head.

### Boats That Push Themselves.

Boats that push themselves along, and that can be steered without rudders, will soon be seen on our rivers and canals, says an English writer.

The barges fitted with this new invention travel by means of water which they first pump up, and then force back again into the stream with sufficient power to drive the barge forward.

The manner in which the water propels the barges can be regulated; and by exerting a greater pressure on one side or the other the direction in which the barge is moving may be altered at will, and so the need for a rudder is done away with.

Another advantage of this method of propulsion is that weeds cannot get entangled in the machinery as when a screw is used. Also, very little depth of water is required for these barges.

Still another peculiarity is claimed for this invention. It is said that boats driven by this means will be able to travel sideways as well as forward, as the water power can be regulated to act in any direction.

### Live Stock Show.

It is said that the proof of the pudding is in the eating, and this very aptly applies and is proven in the price received for the best finished live stock at the Toronto Fat Stock Show. In the 1919 show as high as 75c. per lb. live weight, was paid by auction for cattle, 50c. per lb. for hogs, and 41c. per lb. for lambs. Quality always brings a premium. The attention of the readers is directed to the Eleventh Annual Toronto Fat Stock Show, to be held at the Union Stock Yards, December 9th and 10th, 1920.

### Random Remarks.

No one is a good judge of her own reputation.—Mrs. Asquith.

One often lightens troubles by telling them.—M. Millerand.

I am now a rich woman, but my greatest wealth is my imagination.—Mary Pickford.

Friendships cannot be kept in repair without some effort.—Right Hon. H. A. L. Fisher.

The chief thing to bear in mind in starting life is that everyone is entitled to an opinion.—Sir J. Colman.

It is not the prize that is the great thing; it is the effort which has deserved the prize.—Bisshop Welldon.

"Honor all men" is a thoroughly democratic sentiment, but it sometimes seems to be interpreted, "Be equally rude to all men."—Bishop of Lichfield.

When I was a bit younger I was told that one's boyhood was the best time in a man's life. At the time I did not think it was true, but I must say that I know it now.—The Duke of York.

### Minard's Liniment For Dandruff.

**Was Well Fixed.**

One of the churches in a western town is so fortunate as to have a young woman as its pastor. She was called to the door of the parsonage one day, and saw there a much embarrassed young farmer of the Swedish type.

"They said the minister lived in this house," he stammered.

"Yes," replied the fair pastor.

"Well—well—I'd—er—like to get married."

"To get married? Very well, I can marry you," said the minister encouragingly.

"Oh, but I've got a girl already," was the disconcerting reply.

### CASCARETS

"They Work while you Sleep"

Stop growling around like a cross bull pup. You are constipated, bilious, and what you need is Cascarets tonight sure for your liver and bowels. Then you will wake up wondering what became of your nervousness, dizziness, sick headache, bad cold, or upset, gassy stomach. No griping—no inconvenience. Children love Cascarets too. 10, 25, 50 cents.

America's Pioneer Dog Remedies Book on **DOG DISEASES** and How to Feed. Mailed Free to Any Address by the Author, H. Clay Glover Co., Inc., 113 West 51st Street, New York, U.S.A.

### BITS OF HUMOR FROM HERE & THERE

**Horticultural.**

A teacher in an Englewood school asked the other day: "How many kinds of flowers are there?"

Three pupils held up their hands. She chose one to reply.

"Well, Isidore, how many kinds of flowers are there?"

"Three, teacher."

"Indeed? And what are they?"

"Wild, tame, an' collie."

**The Only Way.**

Talk had veered round to the modern cynical view of love that prevails. "I remember once," said Smith, "hearing two very ordinary men, a bricklayer and a plumber, discuss love in a smoking car."

"I hold," said the bricklayer, "that if you are terribly in love the way to cure yourself is to run away."

"The plumber shook his head and sneered.

"That won't cure you," he replied, "unless you run away with the girl."

**Easier to Spell.**

A doctor received a note asking him to go at once to a case of small-pox, but to his surprise, on arriving at the patient's bedside he found that it was merely a case of rheumatism.

"But this is very plainly not small-pox," he said.

"Well, doctor," replied the man, as he shuffled one foot over the other, "to tell you the truth, we know it was rheumatism, but nobody in the house could spell the word, and we thought small-pox would do just as well until you came, and probably bring you quicker."

### MONEY ORDERS.

Remit by Dominion Express Money Order. If lost or stolen you get your money back.

### Citrus Powders.

Announcement is made of the discovery of a successful process for reducing orange juice and lemon juice to dry powders, the method adopted being much like that employed for the production of powdered milk.

Dry air, at not too high a temperature, evaporates the juices to dryness, thus preserving the fresh flavor. When wanted for use, it is necessary merely to add water.

### "DANDERINE"

**Stops Hair Coming Out; Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

### STORM WINDOWS & DOORS

SIZES to suit your openings. Fitted with glass. Safe delivery guaranteed. Write for Price List (C). Call down, full bills, insure winter comfort.

**THE HOLIDAY COMPANY, Limited**  
HAMILTON FACTORY DISTRIBUTORS CANADA

The name "Bayer" on Aspirin identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over ninety years and now made in Canada.

Always buy an unbroken package. There is only one Aspirin—Bayer—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### Classified Advertisements.

**FOR SALE**

GET YOUR SILVER FOXES FROM me. My stock all "Standard bred" and guaranteed. Prices right. E. M. MacDougall, West Gore, N.S.

As an aid to loveliness, Hindu women color their teeth black, while in Japan and China they paint their faces white, with red on their cheeks, and magnets on the lips.

**Minard's Liniment Relieves Distemper**

An engagement to marry is often announced as a kissing-feast in Hungary.

### MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

### CUTICURA HEALED ITCHING ECZEMA

On Little Boy's Face. In Blisters. Lost Sleep.

"My little boy had eczema on his face, and it caused itching and loss of sleep. The trouble began with red blotches, and his face got red, almost like raw beef, and then it broke out in blisters. The blisters broke and caused his face to become sore.

"Then I used Cuticura Soap and Ointment. In a short time all traces of the eczema were gone." (Signed) Mrs. Z. Alexander, Box 35, Trout Creek, Mont., January 21, 1919.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations. Soap 25c. Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyman, Limited, St. Paul St., Montreal. Cuticura Soap shaves without soap.

### USE SLOAN'S TO WARD OFF PAIN

You can just tell by its healthy, stimulating odor, that it is going to do you good.

"If I only had some Sloan's Liniment!" How often you've said that! And then when the rheumatic twinge subsided—after hours of suffering—you forgot it!

Don't do it again—get a bottle today and keep it handy for possible use tonight! A sudden attack may come on—sciatica, lumbago, sore muscles, backache, stiff joints, neuralgia, the pains and aches resulting from exposure. You'll soon find warmth and relief in Sloan's, the Liniment that penetrates without rubbing. Clean, economical. Three sizes—35c, 70c, \$1.40

### Sloan's Liniment

### ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over ninety years and now made in Canada.

Always buy an unbroken package. There is only one Aspirin—Bayer—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**The World's Greatest Phonograph VALUE!**

Every day the superiority of Edison's wonderful Amberola phonograph over much higher priced "talking-machines" and commercial phonographs is becoming more widely recognized.

We don't ask you to buy an Amberola without investigating other phonographs—we welcome comparison. But we do ask you not to buy any phonograph before you have listened to

**Edison's New Diamond AMBEROLA**

Compare the pure tone of the Amberola with the shrillness and metallic sound of commercial phonographs. Compare the Amberola's permanent Diamond Point Reproducer with the cost and bother of changing needles. Compare the long-lasting Amberol Records with fragile "talking machine" records. Then make your choice. That is all we ask.

Payments arranged to suit your convenience.

**Pert Paragraphs**

The wheat and other crops of Argentina, which have been threatened as a result of the drought, now promise favorable yields because of opportune general rains.

"Now, then, my hearties," said the gallant captain, "you have a tough battle before you. Fight like heroes till your powder is gone, then run. I'm a little lame and I'll start now."

A deficit of \$200,000 in the operation of the Manitoba Government telephone system for 1920 was announced by Premier T. C. Norris, who stated that increased rates will be necessary. The deficit is due mainly to increased wages and operating expenses.

A disconsolate widower engraved on his deceased wife's tombstone the words "The light of my life has clean gone out." In less than a year he married again, and on taking his new wife for a walk round the cemetery was greatly surprised to find that someone had inscribed the following words: "But I have struck another match."

One hundred and eighty miles north east of Calgary, Alberta, is a lake that contains 53 to 55 per cent of salt as compared with 10.7 per cent in Salt Lake, Utah. A solar plant has been established to obtain the salt and an evaporator plant is being erected. The present output is ten tons a day, but this will be largely increased. Five Alberta men own the lake, which is 187 acres in area.

Snakes stormed a house in Powhelt, Walca, driving out a traction engine driver and his family. One day his wife found two big snakes under the doormat and three others crawling under the dresser. She killed them all. When the family went to bed two big snakes were found under the baby's cradle. With considerable difficulty these also were killed, but the family thought it unsafe to remain any longer in the house.

It is related of the late Judge Morgan, of Toronto, that on the bench during many years he insisted constantly that every person owning property should make a will, so that there should be as little trouble as possible in disposing of the property after death. As a Probate Court Judge he set forth his duty in innumerable cases; but when he died recently his relatives found that he had left no will. Human nature illustrated once again.

# October Specials

This may be your last chance to get goods at these remarkably low prices. Don't wait. Come in to-day and save money.

**Fall House-cleaning Specials**

U-Need New Floor Oil  
Cloth and Curtaining

In all the leading shades at prices less than to-day's wholesale values.

Extra values at \$4, 4.50 and 5.00

## KNECHTEL & KNECHTEL

A term in Kingston penitentiary and 20 lashes was the sentence imposed on William Marsh of Wroctex by Judge Dickson, of Goderich, for the commission of an unnatural crime, his victim being his own nine-year-old daughter.

Small children piled dead leaves on the railway track at Lindsay and were playing "babes in the wood," when a train was bearing down on them as it was entering the town. Engineer Hutchinson was startled by seeing a three-year-old tot stick her head out of the pile of leaves when the pilot of the engine was almost upon her. He applied the breaks just in time to save the child from death. The train was moving slowly at the time.

Horses saved a girl when they stopped. A farmer's daughter in Kansas, while assisting her father in farm work was thrown beneath the blades of a disc she was riding. The team stopped and she was held prisoner in her perilous position for an hour. The father, who was working in another field, noticed the team standing and investigated. He found that had the horses moved the machine three inches his daughter would have been cut to pieces by the disc.

Rev. A. Gischler, of Tavistock, met with a severe and painful accident on Wednesday afternoon of last week. He was engaged in picking apples in Mr. Wagerster's orchard on the 7th line of East Zorra and had been using an extension ladder to reach some of the higher limbs when a limb broke and let him fall violently to the ground. When picked up he was found to be unconscious. His wrist was dislocated and he was otherwise badly bruised and shaken up.

### Trial Over Dog Fight

A dog fight was the sequel to a court trial held here on Tuesday. The dogs were owned by Messrs. George Morrow and Robert Patterson, who both reside in Arran. The parties quarrelled over the dogs, and Patterson took hold of Mr. Morrow's boy and shook him, after some words had been exchanged. Morrow entered an action for attempted assault, while Patterson entered a counter action for abusive and threatening language, and the case came up before Magistrates McDonald and Grant, who dismissed the case, each party paying his own costs.—Tara Leader.

### Just in Time To Save Lives

THE visitor was ushered into the little living-room. Through a back window one glimpsed three children busy over mud pies. The last time the visitor had seen the young mother and her husband had been at the Muskoka Free Hospital for Consumptives. Some months previous to that both had developed tuberculosis. Future health—life, indeed—depended on prompt measures. Yet, if the husband stopped earning, how could they live? Their despair had been tragic. In just such cases the "Muskoka Free" fulfils its mission. Husband and wife were sent there and given every care. Grandmother, with financial help from the Samaritan Club, kept the children. To-day, they are home again, cured.

"We went just in time," said the young wife, gratefully, a tender light in her eyes as she glanced at the little mud-pie cooks. Contributions may be sent to Sir William Gage, 84 Spadina Avenue, Toronto, or to Geo. A. Reid, Treasurer, 223 College Street, Toronto.

"Where is your father, little boy?" asked the insurance boy cading at the back door. "Father's down in the pigen," said the boy curtly, "You can go and find him." And he added, as an afterthought, "You'll know father, he's got a hat on."

A terrible experience for a partially paralyzed woman of Caine was reported. She was alone in the house when she fell into the fire with her left hand in the flames. She was unable to remove it, and lay there until her nephew arrived. The fingers of her hand were burned off, and the body was also badly ured.

### For Sale

Splendid residential property in the Village of Formosa, containing about six acres of land. On the premises is a roomy brick dwelling with large brick kitchen and wood-shed, a brick stable, all in good condition and well finished in every particular, an orchard of about an acre of young bearing fruit trees, small fruits and vegetable garden, fine lawn, good location. Offered for sale to settle estate. Inspection invited. For further particulars apply to F. X. Kieffer R. R. No. 2, Mildmay, or B. Beingsener, Formosa.

### Are you a Man or Woman

Brave enough to Face the Future?  
Big enough to Assume a Responsibility?  
Far-seeing enough to Prepare for Misfortune?  
Ambitious enough to Increase your Estate Immediately?  
Patriotic enough to Provide for your Own?

## Study this Map

It tells—but only partly tells—the Story of Misery in Central Europe.

Within the great territory between the black lines millions of destitute children are doomed to grow up weak and deformed through want of fats, milk and sugar, unless immediate help comes from without.

HERBERT HOOVER, invited to speak at a Canadian Red Cross meeting, said:

"Our problem over the forthcoming winter appears to be about 3,500,000 to 4,000,000 children.

"These children are the obligation of every man, woman and child in the Western Hemisphere, for we have suffered less; but, beyond this, they are a charge on the heart of the whole world."

## The Canadian Red Cross

appeals on behalf of

### The British Empire War Relief Fund (To Combat Distress and Disease in Europe)

\$10.00 will save a child; \$1.00 will give it "saving" food for a month. Help in this humane work by sending or bringing your subscription to the nearest local Red Cross Branch or to The Canadian Red Cross Society, 410 Sherbourne Street, Toronto.

## Farms For Sale

**THE MAYCOCK FARM**  
Lots 11 and 12, Con. 3, N.D.R., Bentinck 100 acres. Brick house 28 x 30 kitchen, 18x20, bank barn 55x75, straw shed 12x39. This is a good farm, first class building. 2 1/2 miles from Hanover.

**THE SAM TAYLOR FARM**  
Lot 48 and 49, Con. 3, Normanby, 150 acres, frame house 28x36, bank barn 86x70, bank barn 15x60. This is a good farm and will be sold cheap. Half way between Ayton and Mt. Forest.

**THE JACOB LANZ FARM**  
Lot West 4 31, Con. 4, Carrick, 1 1/2 miles west of Moltke, frame house 24x39 and 18x24, bank barn 50x36, and barn 18x30, 10 acres of good bush. This is a good farm.

**THE JAMES NICHOL FARM**  
Lots 3 of 28, 1 of 29 and 3 of 29, Con. 1, Bentinck, 130 acres, frame house 28x30, frame house 12x14, bank barn 40x80. One mile south of Durham. This is a good farm and will be sold cheap. Good reason for selling.

**THE GEORGE LIESEMER FARM**  
Lots 30 and 31, Con. 10, Normanby, 170 acres, brick house 28x30, frame kitchen 18x20, wood shed 14x12, bank barn 60x80, straw shed 35x50, driving barn 30x40. Buildings are No. 1. This is a good farm, 3 1/2 miles East of Ayton.

**THE OLIVER HENRY FARM**  
Lot 29, Con. 5, Normanby, 100 acres, good comfortable house, bank barn 40 x 40, driving barn 30x35. This is a good farm, 6 miles from Ayton, 8 miles from Mount Forest.

I have a number of good farms not advertised, but which will be sold privately.

For terms and conditions apply to  
**E. H. FORTUNE** Ontario  
Ayton

An old Scottish woman always had a good word to say for everybody. One day a friend said: "Janet, I believe you would find something good to say of the devil himself." "Weel!" remarked Janet "he's a very industrious body."

### Early Morning Fire

Early last Thursday morning fire broke out in Frank Antonio's living apartment back of his fruit store. Mr. Frank Antonio and little son, Jasper, were away on a business trip to Hamilton, and his man, Joe Oliver, who was sleeping on the premises had rather a close call. Joe was awakened by seeing a bright light under his door and by the smell of smoke. He could not get through to the store to send in a fire alarm call, so jumped out of a second storey window and the town being closed up tight he had some difficulty in getting to a phone but finally got an alarm sent in through the livery stable. It was then 4:40 and the flame from the building lit the sky. When the fire brigade under their new chief, Mr. John Erdman, got on the ground there seemed to be small chance of saving the building which is a frame structure and a regular fire trap. However a heavy dose of water in the right spot soon did the job. The fire is thought to have originated from the kitchen stove. The kitchen was partly destroyed and the part of the building above it was reduced to a charred mass. A large quantity of clothing in the bedroom above the kitchen was destroyed and also some furniture. The store stock escaped the blaze but was badly damaged by water. Mr. Antonio estimates his loss at upwards of a thousand dollars, which is pretty well covered by insurance carried with J. J. Schumacher & Son. The loss of the owner of the building, Mrs. T. Gibson, amounting to five hundred dollars or more, was covered by insurance.—Telescope.

A petition bearing the names of about 9,500 residents of Huron County, Ont., was filed with the sheriff at Goderich, calling upon the Dominion Government to suspend the Canada Temperance Act or "Scott Act," within Huron County.

In spite of (or partly because of) the immense crop of fruit this year, Niagara growers say it has been one of the worst years they have ever had. They have so much fruit they can hardly give it away, and with freight rates and prices of containers at a high level there is little or no profit in shipping it.

### How The Nations Sleep

What seems indispensable to one nation for a good sleep another considers the surest means of driving away repose. Europeans require, as a rule, a soft pillow, while the Japanese stretches himself on his mat and puts a square wooden block under his head, upon which he rests comfortably. To the Chinaman his bed is an important affair. It is low and often adorned with precious carvings, but it never occurs to him that anything could be more comfortable than plaitmate. While the people of northern countries cannot sleep unless they have sufficient space to stretch themselves at full length, the natives of the tropics are often satisfied with a hammock. The inhabitant of Russia Minor loves to sleep on his hot stove, from which an awakening half roasted in the morning, he will immediately plunge into cold water so as to re-establish his physical equilibrium. The Lapp crawls into a sack made of reindeer skins, while the Hindoo, who likewise uses a sack, though an airy and light one, does so to protect himself against the mosquito, not against the cold.

### Law Cruel to Illegitimates

A great effort to alleviate the lot of illegitimate children, those unfortunate little ones responsibility for whose fate rests with erring fathers and mothers, is being made by the National Council of Women. In this connection a deputation recently waited on the Government. Cruel Ontario laws passed years ago when a cruder public sentiment viewed illegitimacy as inevitable and the law sought to protect the father and gave scant consideration to mother and child are still in force. And they virtually make pariahs of children born out of wedlock. Under the harsh law of to-day no illegitimate child has any legal claim on the estate of a parent. And a child born out of wedlock cannot be legitimized by the subsequent marriage of its father and mother. By the statutes of Ontario the sins of the father are literally visited upon the poor child.

## When to Buy Flour

Now is the time to lay in a stock of Flour made from old wheat, and Flour that has been milled two months ago makes the Best Bread. Flour made from new wheat should be three months old before using.

I have a small quantity of old Flour on hand, and first come, first served.

Also Feed of all kinds at Right Prices.

Cash paid for Butter, Eggs, Dried Apples, etc.

## A Woman's Trouble

Stratford, Ont.—"I do think Dr. Pierce's Favorite Prescription one of the best medicines I have ever known for the ailments of women. I had for quite a long time been having woman's trouble which caused me to become all run-down, weak and nervous. I doctored but nothing seemed to give me relief until I began taking 'Favorite Prescription.' This medicine gave me such wonderful relief that I am glad to recommend it to others."—MRS. A. GODWIN, 60 Brant St.

### NERVOUS AND RUN-DOWN

Brampton, Ont.—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was being helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the 'Golden Medical Discovery' very highly and take pleasure in recommending it to all those who are at all nervous, weak or run-down."—MRS. ESTHER PEATSON.

Dr. Pierce's medicines are made of vegetable growths that nature surely intended for backache, headache, pains, irregularities, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root, Oregon grape root and Viburnum. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablets. It is without alcohol.

Don't be afraid to take time to do a thing well. There are a few people left who like quality. And quality buyers stick like leeches to quality products.

# Soils and Crops

Address communications to Agronomist, 73 Adelaide St. West, Toronto

## Storing Seed Corn.

As soon as the corn ripens, go through the field with seed-picking bags and husk the ears from the stalks that have produced the best corn without having had special advantages such as space, moisture, or fertility.

Avoid large ears on stalks standing singly, with an unusual amount of space around them. Late-maturing plants with ears which are heavy because of an excessive amount of sap should be ignored.

All other things being equal, choose ears from short, thick stalks. These are not so easily blown down, permit thicker planting and, in general, are more productive than slender ones.

Immediately after the seed-corn is gathered, the husked ears should be put in a dry place where there is free circulation of air. Do not let ears touch each other. Good seed is repeatedly ruined, because it is thought to be dry enough when gathered.

The best possible treatment immediately after gathering is to string the ears and hang them in an open shed or loft. Wire racks are more convenient and, in the end, cheaper than binder twine.

The best possible treatment immediately after gathering is to string the ears and hang them in an open shed or loft. Wire racks are more convenient and, in the end, cheaper than binder twine.

## Transferring of Bees.

Transferring of bees from one hive to another should be done any time from the beginning of fruit bloom to the end of the clover honey flow. It is not advisable to attempt to transfer bees during the late summer or fall.

By the direct method the combs are cut out from the box hive or gum and the bees brushed from these combs into a modern hive which is placed in the exact location of the old hive. After the bees have all been transferred a queen excluding zinc should be placed over the entrance so that the queen cannot get out. This precaution will often prevent colonies from leaving the new hive.

The slow method is very popular with many beekeepers because of its simplicity. First remove a portion

of the brood comb from the centre of the hive to be transferred, examine it carefully for disease and if any disease is found this colony cannot be transferred by this method. If free from disease, tip the old hive upside down and set the new hive on top, placing a good cover over it. Before placing the new hive on top remove as much of the wood from the sides of the old hive as possible so as to let the light slip in between the combs. Bees do not like to work where exposed to the light and they will therefore abandon the old hive much sooner and move up and take possession of the new one.

## Make Inventory of Farm Flock.

On some farms at this time of the year the poultry flocks consist of two hundred to five hundred birds of all ages. Some will be early hatched stock of good development and vigor. Others will be late hatched and of less value.

It pays to check up all the birds at night and know exactly how many of each sex and age are on the farm. This not only helps to control poultry stealing from thieves and other pests but gives the farmer a definite idea of his poultry business for the coming year.

Check over the cockerels and if none are to be saved to sell as breeders, save the best for home use and market the remainder as soon as they reach the broiler age. This will save feed and give the pullets a better opportunity to develop if both sexes are sporting the same range.

The custom of saving all of the pullets causes poultry losses. Young pullets are always in demand by breeders who have not raised enough for their own use.

The inventory tells the farmer just what he has for sale. On some farms raising large flocks of poultry the owners cannot guess within a hundred birds of the number on the range.

More profit will come from farm poultry raising when the flocks are culled early in the season. The birds to be saved can be banded and then the remainder can be sold as soon as they reach a marketable age, either for broiler meat or breeding stock.

## Poultry

Market poultry requiring fattening must be fattened in coops or pens where they will receive little exercise. Green food is not of value in a fattening ration. In fact, it will only take up room in their crops which is needed for fat-producing foods.

# THE SUNDAY SCHOOL

THE SUNDAY SCHOOL LESSON NOVEMBER 7TH

Principles of Christian Living—St. Matt. 6: 1-7; 12. Golden Text, Matthew 6: 33.

6: 1-18. Take Heed. Jesus would have His followers sincere and modest. He gives no approval or encouragement to loud profession of piety, or to ostentation or boasting in religion. It is the sincere and simple purpose and desire of the heart that God honors, the play-actors, the pretenses, the religion and morality, of whom there were not lacking examples among the Pharisees of His day.

The model prayer which Jesus gave His disciples (6: 9-13) is short, simple and reverent. It begins with petitions that due honor may be given to the name of God, and that His kingdom may come and His will be done among men, and continues then with the presentation of personal needs of daily food and forgiveness of sins and to be kept from temptation to evil.

6: 19-34. Treasures. There is a difference, surely, between laying up that which is necessary for the main-tenance of good life, for food and shelter and clothing for one's self and children, and the hoarding up of treasure upon which one's heart is set. The former seems an imperative duty and even necessity, too much neglected in these extravagant days.

The latter is and has been one of the chief causes of social injustice and discontent. We must distinguish also between the accumulation of wealth, whether by individuals or by corporations, which is at once invested in productive enterprises such as make for the common good, and that accumulation which either lies idle or is used merely for the gratification of idle desires and the pursuit of useless pleasures.

## OUT OF SETTING

"What is that square frame leaning against the wall there?" asked one of two boys as they walked down the street.

"That's a window," answered the other. "I saw Mr. George tearing down his workshop the other day. That must be one of the windows that he has brought home for some purpose. Let's go across the street and see."

So across the street the two boys went to examine the object of their conversation.

"Well, it is a window, as I thought." "A window!" exclaimed the other. "It is a funny looking window. I think. You cannot see anything through it. I thought a window was to look out of. It does not keep out the cold. It does not let in the light. I thought that was one of the main things windows were for. It does not give us any security. It is not a part of a house at all. It just stands there all by itself. I do not see how you could have a window without a house. A window cannot be a window standing all by itself. Maybe it was a window once, and it may be a window again; if Mr. George builds his garage in the back yard and puts this frame in one of the walls; but I do not see how you can call it a window now."

So the lad went on in his fun-making, and his companion could find no very satisfactory answers. That night when they were at their study, he remembered the conversation of the afternoon and, looking in his dictionary, found the definition of a window to be an opening in the wall of a building. Turning to his friend, he said, "I guess you were right this afternoon about the window that we saw; but it was something that could be made to be a window when Mr. George gets it built into his garage."

The question of the old window frame was settled. But, if the boys had only known it, they did more than settle the question of the window frame. They laid down a principle that will have an unmeasured influence in the lives of all human beings who will study and apply it.

There is a place and a great need for true men, and there is One who is able to construct true manhood; but it is not possible to be a true man outside of Jesus Christ. God has made us, every one. He has made us, not to stand by ourselves, but to live in Christ Jesus. That was the purpose, the plan, of God. He is con-

structing a building, fully framed together, and He has a place in that building for every one of us. We can be what He meant us to be, only by filling the place that He means for us to fill. Standing alone, you may be the frame of a man, but not until you have found your place in Christ are you a true man as God defines men, and do certain things, and we can neither be nor do these things outside of Christ any more than a window frame can be a window before it has been built into a house. But like the window frame, every one of us, by the wisdom and work of the Master, may have his life built into the house of God. So we shall be not just the frame of a man but a true man in Christ Jesus, complete in Him and He complete in us.

If Thine Eye Be Single. The Revised Version renders correctly, "The lamp of the body is the eye." The eye here represents the spiritual outlook, the way we look upon and regard the world in which we live. If the outlook be clean and sound, if it be free from unhealthy desire, and greed, and mere self-seeking, the whole life will indeed be bright. But if the eye be filled with covetousness and avarice and lust and selfish passion, the whole life will become dark indeed.

Two Masters. The origin and exact meaning of the word mammon is unknown. Augustine, an early Christian scholar, said that it was a Phoenician word meaning "gain." It may have been used as a title of the god of wealth. Service, Jesus declared, must be rendered to God divided allegiance. One or the other, God or gain, must be first and supreme.

Take No Thought. The Revised Version renders "Be not anxious." The word "thought" in the English of three or four hundred years ago often meant anxiety. Christ does not teach sowing and reaping and ingathering, but that with all this there should be simple trust in the goodness of the heavenly Father, who feeds the birds and clothes the lilies.

Here again the injunction is to put God first, to make Him supreme, to seek before all things to do His will. Seek first the kingdom of God. The best things in human life will come to him who puts the kingdom of God first. Not necessarily wealth, or worldly honor or success, or even long life, but the best will be his. Christ's law, as interpreted by Paul, is that we should be "diligent in business, fervent in spirit, serving the Lord." It is not revolution of material conditions, it is not a new social order, although that may come, that will make peace and redeem humanity, but obedience to this law, putting first things first. Any system, any order, any form of common life, becomes tolerable when men seek first to do the will of God, when they make the law of love supreme. "Love worketh no ill to his neighbor, therefore love is the fulfilling of the law." God's will and law for humanity is summed up in love. His kingdom is the sovereignty and dominion of love.

yet found your place in the plan and purpose of God? You cannot grow into a man outside of Christ any more than a window frame will become a window while leaning against the wall, but you will surely and truly become a man by finding your place in Him.

## Marketing Windfallen Apples

We always had more or less trouble getting rid of windfall apples. Quite often neighbors who had no fruit came along and we gave them many of these apples, and still do, but there is bound to be a surplus in bountiful years overcrowning our generosity.

We have at times turned the pigs into the orchard for a few hours each week, after gathering the best fruit, and let them clean up the surplus. It was a wasteful method, to our thinking, when people were hungry for apples.

It remained for a millhand from the city to solve the problem two years ago. He came out in an automobile to get some canning apples, and asked us what we did with our windfalls. We told him, and he said he would give us thirty cents a bushel for some of them, for he knew where a neighbor near him had a hand-press, and he would make them into cider for a gallon. We soon bargained, and to our surprise, when he came back the next day he brought four other millhands with him, and they took away in burlap bags all they could haul. They came back several times, and brought other workmen from the factory, and kept our orchard cleaned all fall of the objectionable windfalls, which we had not time to take care of in our labor in getting the good fruit cared for and marketed. This season we shall again depend upon these men, for we know they must be getting out of vinegar by this time.

## Every Man's Business.

The family is a man's first and most important business. It should be established and run as a business. It should be protected against bankruptcy.

The death of the head of a family should no more bring about its impairment or dissolution than does the death of the head of a bank, a store, or a railroad.

Why, then, should not the business called a family be protected against the earning capacity of the breadwinner? Why is it not fully as reasonable to protect the family as to back up every foreign bill of exchange with a marine insurance certificate?

The voyage in the first instance is certainly much longer, surrounded with much greater hazards, and in the case of shipwreck the consequences are definitely more serious.

Why should not the value of one's life be capitalized and protected when we are so careful about insuring our buildings and tangible goods. Certainly the value of the life is far the most important in the great majority of instances. Don't you think so? Is it not foolish for a man to put capital into himself and to build up his earning capacity, gradually from year to year, and then suddenly have all this value snuffed out?

Such values should be capitalized, and from the standpoint of the family such capitalization becomes a sacred duty. Dr. Talmage once said in referring to a person who had this matter explained to him, and who nevertheless refuses to adequately capitalize his earning capacity for the benefit of dependents: "He does not die, he absconds."

Don't be like the farmer who carelessly sows thistle seed and later complains because of a mixed harvest.

## KLINE FANNING MILL

The improved Fanning Mill of to-day separates wild oats, smut, and chaff—no grain too dirty for the Kline. Capacity 100 bushels per hour. Write for particulars. KLINE FANNING MILL CO., 480 Crawford St., Toronto.

## Save Your Cancelled Cheques

A number of years ago I had a settlement with a merchant with whom I had kept a running account for several years. Sometimes I paid the merchant by cheque; at other times I directed that my purchases be charged. Finally there came the time when I decided to close the account and start anew on a cash basis. The merchant gave me an itemized statement. This I compared with my cancelled cheques.

I found every item correct but one—a charge of \$10 that had clearly been paid by cheque. I showed the item to the merchant. He located the purchase easily and called my attention to the fact that it had been marked "Charged." However, my cheque bearing his indorsement was indisputable evidence that he had received the money. He credited me with an additional \$10.

I have found it a wise precaution to retain my cancelled cheques for several years. Nobody can tell in advance just when a cheque may be required as evidence. It is the safest means of guarding against paying an account the second time. My wife is as careful as I am in keeping her cheques. Recently she escaped the second paying of an interest charge because she had the cancelled cheque to show.

Always date your cheques accurately. Without the date the cheque as a receipt is only half good. It is a good plan to note somewhere upon the cheque the purpose for which it was given.

In these long autumn evenings read some good book on your job—farming or housekeeping. Or, if you have a hobby, get a book on that. Learn all there is to know about poultry, for instance, or violet raising, or rug-making, or textiles.

The most valuable printed work in the world is the copy of the Bible printed at Mainz in 1452-56, and commonly known as the Mazarin Bible.

STANFIELD'S LIMITED Truro, N.S.

# BRITISH MINERS' STRIKE SECURES INCREASE FOR WORKERS

## Agreement Arrived at Between Government and Labor Leaders — Men Pledge Themselves to Increase Output of Coal.

A despatch from London says:—A settlement of the coal strike was arrived at last week, but acceptance of the Government's terms by the miners' executive is subject to ratification by ballot of the men. This, however rapidly put through, will take some days, so that the resumption of work before the end of the week is unlikely. In that case, the strike will have lasted three weeks.

The provisional settlement of the strike was reached after a conference at Downing street which lasted for two and a half hours. On Thursday night the miners' Executive decided the ballot should be taken on Tuesday. The returns are to be at Federation headquarters on Wednesday morning, and in the afternoon a delegate conference will take place to consider the result. There is not likely, therefore, to be a resumption of work before Monday next.

Immediately the agreement had been reached Smillie and Hodges paid a visit to the All-Labor Conference at Central Hall to convey the result to the meeting there. Then conference adjourned to wait the result of the

ballot. If this is in favor of accepting the terms offered, the delegates will not be summoned again. The settlement upon which the miners' delegates, coal mine owners and the Government are agreed is a very complicated one. Briefly, the men get a sliding advance of two shillings to one shilling sixpence, according to age, as was originally demanded.

The miners and owners solemnly pledge themselves to co-operate to secure an increased output of coal. National and District Committees are to be established immediately to control the output, and a joint National Wage Board will be established at the earliest possible time before March 31 for regulation of wages for the whole industry, with regard to profits of the industry and the principles on which profits should be dealt with.

This clause is most important as establishing the principle that Labor has a right to have a say in the ratio of wages and profits.

A certificate from the Minister of Mines is to be accepted as evidence of conditions governing wage adjustment.

### A MESSAGE FROM GENEVA

#### Organizer of League of Red Cross Societies Tells of Need of Europe's Orphans.

"While we at home are intent on industrial expansion and a place in the sun, Europe in its war-weakened condition is fighting for its very existence," said Donald W. Brown, director of the department of organization in the League of Red Cross Societies of the World, which has its headquarters at Geneva, Switzerland. He visited Toronto to learn the peace program of the Canadian Red Cross Society and to establish closer contact between it and the League.

Millions of War Orphans.

Having just arrived from Europe, Mr. Brown was able to give the Canadian Red Cross some first hand information concerning the people of Europe. He called attention particularly to the condition of the children, so many of whom are now orphans. While the exact number during the war cannot be determined, the most conservative estimate places the number at over ten millions. This number seems quite consistent with the heavy war casualties among so many nations.

Dependent on Charity.

The condition of these children is in most cases very pitiable. Many of them have no homes and they are dependent upon whoever may be charitable and kind enough to help them. But there are few who are able to give such help, for the mass of the people of Poland, Galicia, parts of Roumania, Czechoslovakia, Jugoslavia and other countries are so poor that they have not necessities for themselves. Consequently, in the great area between the Baltic, the Black and the Adriatic Seas, there are millions of children who face the next few years, and particularly the coming winter without hope of decent food and care unless outside assistance is given them.

The vitality of the children is already very low on account of their having been deprived of fats, milk and sugar during the years when they most needed them, and they are therefore very susceptible to diseases, particularly typhus.

Disease Prevalent.

In addition to the unhappy condition of the children, the adult populations are in the direst of misery on account of disease. Suffering has been accentuated by lack of food and clothing, nursing and medical attention, and tuberculosis, small-pox, typhus and diphtheria are continuing unchecked.

British Empire Appeal.

For these urgent reasons, Mr.

Brown said, the League of Red Cross Societies has made an earnest appeal to the people of the British Empire, and he was glad to hear that the cause of the suffering children was being taken up in Canada. He had learned that an appeal on behalf of the British Empire Fund would be made in Canada by the Canadian Red Cross during Armistice Week and wished for its every success.

Raises Big Constitutional Question  
Viscountess Rhondda, famous business woman, who asks that she be allowed to take her seat in the House of Lords as "a peeress of the realm."

### Admiral Coundouriotis Chosen Regent

A despatch from London says:—The Greek Chamber of Deputies has elected Admiral P. Coundouriotis as Regent of Greece by a vote of 137 to 3, says a despatch to the London Times from Athens. Admiral Coundouriotis is Minister of Marine in the Venizelos Cabinet.

In September, 1916, Admiral Coundouriotis, the Minister in charge of the Greek navy, accompanied Premier Venizelos and his followers when they departed from Greece for the island of Crete and set up a provisional government for the purpose of forcing Greece into the war on the side of Serbia and the Entente allies. The Admiral was a co-signor with Venizelos of the proclamation of the present Government, the power of which later brought Greece into the war and caused the abdication of King Constantine.

### Royal Sheep Win Championship at Calgary

A despatch from Calgary says:—The Prince of Wales took the championship and two first with his Shropshire sheep from his ranch south of here at the annual Fall Cattle Show and Sale. The Earl of Minto took first with his Oxford animal. The Prince won first in all he showed.

BREAKING NEW TERRITORY IN THE WEST—Peace River Bridge, the Gateway to the New North.

### Canada From Coast to Coast

Chilliwack, B.C.—The Fraser Valley is producing as good bulbs as the far-famed gardens of Holland, according to an English gardener who has established a garden in the Bradner district. British Columbia, he states, can undersell Holland and yet produce as good or better bulbs. He is specializing on daffodils, narcissi, and tulip beds.

Victoria, B.C.—Employment of aeroplanes to transport salmon eggs to the upper reaches of the Fraser river, British Columbia, is the suggestion of the Superintendent of Fisheries. Hitherto it has been found impossible to restock the celebrated Fraser River fishing grounds from hatcheries situated away up the stream, as the fertile eggs will not stand the carriage by pack animals over rough mountain trails. The transportation by air would, it is believed, solve this problem, obviating the perils of the land journey and accomplishing the distance much more speedily.

Medicine Hat, Alta.—A successful experiment has demonstrated the possibility of growing broom corn here. Seed grown on June 10th and receiving no special attention produced plants nearly six feet high and well-developed ears. This corn yields excellent seed as well as its stalks making fine cattle fodder.

Saskatoon, Sask.—"Canada's achievement in its institutions of learning is one of the most striking features of Canadian life," said Lord Burnham, chairman of the visiting Imperial Press Conference when in the city. Many of the delegates connected with educational effort were gathering valuable data on Canada's progressive educational policies from which they hoped to profit on their return to the old country.

Winnipeg, Man.—Officials of the city of Winnipeg and the province of Manitoba have inaugurated a survey to determine the best plan for handling the young workers systematically. Letters have been mailed to more than 1,000 employers asking for information on the employment of juvenile workers. Upon receipt of the replies a conference will be held to determine the best manner of aiding the workers under 18 years of age and giving them the right kind of employment.

Toronto, Ont.—Two American engineers of New York have purchased the mica mine at Blue Mountain near the head of Stony Lake, and will start immediate operations, expecting to ship 100 pounds of mica a day before the end of the present season. Machinery and equipment have been purchased and labor engaged. Transportation will be by motor truck.

The provincial ordinary revenue for the first eight months of the present year is over \$1,000,000 more than for the same period last year. Succession duties up till the end of June brought in over \$500,000 more than for the same time last year, and the sum derived from the amusement tax is practically as much as for the whole of last year.

A number of parties interested in oil production, including the Standard Oil Company, an English syndicate, and syndicates of Dayton, Ohio, and Toronto capitalists are now at work on the island of Manitoulin, and some promising results have been secured. The Standard Oil Company has leased 30,000 acres, the English syndicate headed by Sir Stopford Branton 25,000 acres, and other companies large tracts.

A large steamer for service on the Toronto-Niagara line to carry 4,000 passengers, and to have a moving picture theatre aboard, will be built by the Canada Steamship Lines, according to announcement by the president. The new vessel will be 410 feet long and 70 feet wide.

Montreal, Que.—The port of Montreal this year handled 35,000,000 bushels of wheat up to the end of August, which is double the quantity for the same period in 1919.

A new company known as the Industrial Construction Company has been formed at St. Annes. They expect to build 160 houses in the town for rental.

Fredericton, N.B.—New Brunswick's moose are getting so plentiful that they are interfering with the automobile traffic, and cases have been reported of these animals leaping from the sides of roads upon the brilliant headlights of passing cars at night.

Kentville, N.S.—The statistical branch of the Dominion Atlantic Railway estimates the Nova Scotia apple crop as about 60 per cent. of last year's yield, or 1,200,000 barrels.

### Trial in Far-off North Ends in Acquittal

A despatch from Ottawa says:—Once more the Royal Canadian Mounted Police "got its man," but this time it released him, his name cleared. A verdict of not guilty has been received here from a small party of white men who early last August left for the northland to investigate the killing of Ketaushuk, one Eskimo, by Tukautauk, another member of his tribe.

Headed by Inspector J. W. Phillips and Sergeant A. H. Joy, the administrators of the white man's law journeyed to Belcher Island on the eastern coast of Hudson's Bay. On the way they picked up two prospectors, who were drafted for jury duty when Tukautauk was located and an inquest held.

The jury found that Ketaushuk started a row and that Tukautauk killed him in self-defence.

### Between Eight and Nine Millions in Canada

A despatch from Ottawa says:—With preparations under way for taking the census of Canada the Government Bureau of Statistics estimates the population of the nation at 8,750,000. It is believed the census will prove this estimate approximately correct, though some optimists place the population at 10,000,000.

### Airships Employed in Newfoundland Seal Hunt

A despatch from London says:—An aerial expedition to hunt seals off Newfoundland has sailed by the steamship Alconada, under the leadership of Frank J. Tippen, the Newfoundland Government's aircraft expert. The party is taking four scout airships as the gift of the British Air Ministry to Newfoundland. After the seal experiment the ships will be used for survey work by the forest patrol.

### Coal Strike Cost \$1,500,000,000

A despatch from London says:—One conservative computation of the cost of the coal strike by the end of the next week, including losses of production in the mines, wages, railway earnings, reduction of output in other trades, and general effect on business totals up to \$300,000,000. Other estimates go so far as to put the total to the country, directly and indirectly, of a three-weeks' strike at not far below \$500,000,000.

Zeppelins of the future will be capable of carrying a load of sixty tons, with 500 passengers, and they will be able to cover a distance equal to three times across the Atlantic without having to refuel.

### ABBEY TO RECEIVE UNKNOWN HERO

#### King George Unveils Cenotaph on Armistice Day.

A despatch from London says:—Lord Curzon, Minister of Foreign Affairs and Leader of the House of Lords, has set forth the arrangements which the Government proposes to follow in connection with the unveiling of the cenotaph commemorating the glorious dead in the war, together with the burial of an unknown British soldier in Westminster Abbey on Armistice Day.

The body of this soldier will arrive from France on Armistice Day and no attempt will be made to discover its identity. There will be a long processional route, the pall-bearers being Admirals, Field Marshals and Generals. The procession will halt at the cenotaph for the unveiling ceremony by his Majesty the King. Afterward the procession will proceed to Westminster Abbey with the King as chief mourner and the Princes immediately following the gun carriage on foot.

The burial will take place in the nave of the abbey, and it is proposed that the grave shall be filled with soil from France. Lord Curzon laid stress on the fact that troops from the Dominions will be given every opportunity to share in the ceremonies with the home forces. It is proposed that two minutes' silence during the armistice hour shall again be observed throughout the Empire.

### Prince Arthur Assumes New Duties

A despatch from London says:—Prince Arthur of Connaught has set sail for South Africa to take up his position as Governor-General of the Union of South Africa.

### FIGHT OVER OF CORK LORD MAYOR

#### Sinn Fein Guard Body and London Police Guard Sinn Fein.

A despatch from Holyhead, Wales, says:—Sisters and brothers of the late Lord Mayor MacSwiney of Cork were forcibly expelled, with other mourners, from their railway carriage by police here late Wednesday night as a result of a fight over the coffin of the dead hunger-striker.

Members of the family objected to the coffin being placed on board a special boat which would go direct from this port to Cork, and a violent scene ensued. The fight lasted for five minutes. The relatives wanted the body taken to Dublin, where arrangements have been made for another funeral service.

The coffin was placed on board the boat at last and the steamer left for Cork.

The relatives were officially notified on board their train before it reached Holyhead that the body of the dead Lord Mayor would not be taken to Dublin, but that a special steamer to Cork had been placed at their disposal. They refused to accept the arrangement, and did not accompany the body when it left Holyhead.

Instead they are declared to have crossed to Dublin on an ordinary mail boat.

A despatch from London says:—More than 10,000 persons followed Terence MacSwiney's body on the five-mile walk from St. George's Cathedral to Euston Station, while Londoners lined the route.

A police force of 10,000 men was turned out to keep order and a heavy guard vied with the "Republican army" men in uniform in escorting the hearse.

The procession took nearly two hours to pass a given point.

Twenty-nine "Irish Republican" flags, which it is a crime to carry in the Dublin streets, were in line, and practically every member of the procession wore a "Republican" armband, which would mean his arrest in Ireland.

Many banners were carried which bore mottoes denouncing British rule, and the whole display was guarded by British police and looked upon quietly by a British crowd.

### Weekly Market Report

Wholesale Grain.	
Toronto, Nov. 2.—Manitoba oats—No. 2 CW, 71½¢; No. 3 CW, 64½¢; extra No. 1 feed, 64½¢; No. 1 feed, 62½¢; No. 2 feed, 59½¢, in store Fort William.	50c; heavy, 40 to 42c; cooked, 64 to 68c; rolls, 34 to 36c; cottage rolls, 41 to 43c; breakfast bacon, 50 to 56c; fancy breakfast bacon, 56 to 62c; backs, plain, 52 to 54c; boneless, 60 to 64c.

**LIVE STOCK MARKETS  
TORONTO.**

With around 3300 cattle on sale Monday at the Union Yards the quality generally was medium to common. There was a fair demand for good and choice butcher cattle, but prices were generally unsatisfactory from a shipper's point of view.

Good butcher cows were also in demand at lower prices. Medium cows and cutters were rather slow of sale, carcasses selling generally around 4c a lb.

Quite a number of farmers were on hand to buy heedy steers for feeding purposes and the market for this class held about steady.

There is a very good inquiry for good milk cows and springers, while the bull market held about steady.

On the whole, considering the reports from other markets and the general quality of the cattle offering, the market must be regarded as satisfactory.

The prospects are about steady for the balance of the week.

The sheep and lambs held steady; the lamb trade, in fact, was about 50c up, one lot selling at that price and some extra choice lots at the 1c, the bulk of the sales going around the 14c mark. Sheep were about steady and the calf market a shade stronger.

For the hog market the packers are bidding 16c to the farmer, 16 1/2 c f o b, and 17 1/2 c fed and watered.

**CARLSRUHE.**

Solomon Schwardt, who sold his farm to Mr. Doerr, has re-purchased it again. We suppose Mr. Schwardt can not find a better place than the South line.

Mr. and Mrs. Frank Reinhart and Mr. John Coyle of near Ambelside, visited relatives here on Sunday.

Mr. Noah Grub, of Waterloo, spent a few days with his parents, Mr. and Mrs. John Grub, last week.

Mr. and Mrs. John Hundt of Formosa spent Monday with J. P. Hundt's on the South line.

Many from here attended the funeral of the late Catherine Oberle, youngest daughter of Mr. and Mrs. And. Oberle of Walkerton, on Tuesday.

Hallowe'en passed off quietly here with the exceptions of a few gates displaced, the work of some of the junior class.

**Silver Wedding**

Mr. and Mrs. Stephen Diemert, of Carrick, celebrated the twenty-fifth anniversary of their marriage last Saturday. After services at St. Ignace Church, Deerpont, when Father Haller officiated, their many friends and relatives repaired to their home on the 9th concession, where a sumptuous dinner was served. Among those present from a distant were their daughters, the Misses Hilda and Amesta, from Detroit, Me and Mrs. J. H. Lehman, of Toronto, Mrs. Diemert's mother, Mrs. C. W. Iler, of Detroit, also Mrs. Paul Rau of West Branch, Mr and Mrs Anthony Kuntz, of Vantage, Sask., as well as many relatives from different parts of Ontario. They were the recipient of many beautiful and useful articles of silver and their children presented them with a handsome phonograph in appreciation of the loving care bestowed on them in the past. After an afternoon and evening spent in the renewal of old acquaintances, games, etc., their many friends departed, wishing them continued success and expressing the hope that they would be spared to celebrate their golden wedding twenty-five years hence.

**Labor is the tonic of the world.**

There is a better market for smiles than frowns.

The Boston Transcript last week had a picture of a group of citizens, five in number, three men and two women, dressed in paper suits and dresses that came from Germany, the entire cost of which was under three dollars. And they do not look too badly either, though how they would wear and stand the weather is another matter.

Stealing sheep from farmer's fields by the aid of an automobile is the latest method of stealing. Sunnidale Tp., Simcoe County, reports a case of this nature when twelve or fifteen sheep were picked up from a field and carried off. The thieves have not yet been caught.
