DEAD BODIES IN THE FIELDS.

Abdul and His Harem Alike at His Prison House.

Madir Pasha Hanged This Morning on Galata Bridge.

Report That Mrs. Lamber to Has Been Murdered.

Adana, April 28.—The conditions in the country surrounding Adana as a result of the recent fanatical attacks by Moslems upon the Christian population, are terrible. Dead bodies are lying out on the fields. Numberless Armenian farmhouses have been burned. Conditions are most unsanitary, and dysentery is beginning to make its appearance.

BODIES IN THE RIVER. Merzina, Asiatic Turkey, April 27.—The river that empties into the sea here is carrying down a good many bodies of men, women and children. Several corpses are drifting in close proximity to the Italian warship in the harbor. They undoubtedly were thrown into the river in the country above the city. The men from the British warship in the harbor are doing splendid service.

PEOPLE FAMISHING. Teheran, April 29.—The international relief committee of Dabriz has issued an urgent appeal for subscriptions on behalf of the famishing population of the city. The people of Dabriz during the siege of ten months have suffered indescribably.

HOW INDIA FEELS. Calcutta, April 29.—The recent events in Turkey have caused a stir among the Moslems in India, whose organ to-day says that the deposition of Abdul Hamid was brought about by the resentment of an overweening majority of the Turk outside of Turkey. On the other hand, a number of telegrams of congratulation have been sent to the new Sultan.

ABDUL AT SALONIKI. Saloniki, April 29.—The deposed Sultan of Turkey, Abdul Hamid, arrived here late last night from Constantinople. He was accompanied by two of his sons and a suite of seventeen persons, including women of his harem. The party was escorted quietly to the villa in the suburbs set aside for their use.

BAD MAN HANGED. Constantinople, April 29.—Nadir Pasha, the second viceroy of the palace under the regime of Abdul Hamid, was hanged at dawn to-day on the Galata bridge, the great thoroughfare that connects Stamboul with the quarters of Galata and Pera. The body was allowed to swing until 8 o'clock in the morning, and thousands of people came to look at the great Nubian, whose name was a terror under Abdul Hamid. The dead man's face showed an undershot jaw and thick, heavy lips. In life he had been fully six feet four inches tall. Nadir was executed after a trial by court martial on the charge that he instigated the mutiny of the troops on April 13. He was reputed to be intensely ambitious, subtle minded and insensitive to the sufferings of others. He was one of the men that formed Abdul Hamid's private cabinet under the old regime. The other members of this cabinet were Izzet Pasha and Fehim Pasha. The former, the Sultan's secretary, is now in hiding in London, and the latter, who was head of the Sultan's spy system, was assassinated in Russia. Nadir Pasha came to the imperial throne on April 13.

TURNED OUT. Father, Mother and Five Children in the Cold. Unable to pay their rent, without a scrap of food in the house, almost starving, and with but few clothes to keep out the cold, a family by the name of Vancouver, consisting of a mother, father and five small children, were turned out of their house at Crown Point last night and made to shift as best they could. The night was cold, and the destitute family walked from shed to shed looking for a place of shelter. The little ones in their thin wraps became blue with the cold. After spending half the night in the open air, refused admission at several houses, the almost exhausted family applied at the Driving Park Hotel, and not in vain. The proprietor, George A. Truman, took compassion on their misery, and after sitting them in front of a roaring fire, got some food for them. He placed a couple of rooms at their disposal, and this morning took up a collection for them. Nearly \$14 was realized. He also secured a job for the father, who began work this morning. Mr. Truman telephoned Reeve Gage, and the county will likely look after the family until the father can do so.

RAN INTO SWITCH. Rutland Express Smashed Locomotive and Box Car. (Special Despatch to the Times.) Montreal, Que., April 29.—A serious wreck occurred at 6:45 this morning on the Quebec, Montreal & Southern Railway, at Wheriville Junction, 31 miles south of Montreal. The Rutland express from New York to Montreal, fifteen minutes late, coming along at high speed, ran into an open switch and smashed into the round house, wrecking three locomotives and a box car.

FIRST SNOW. A Little California Lad's Experience in Hamilton. While the youths of Hamilton were bemoaning the return of winter this morning because it interfered with their ball games, there was one lad who was having the time of his life. That little chap was Alvin Eager, son of Mr. and Mrs. Frank O. Eager, who is here from his California home, with his mother, visiting her parents, Mr. and Mrs. Clark Yuker, Erie avenue. Alvin had never seen snow before. He insisted that his mother and grandmother should go out and build a snow house and snow sled, and was fairly carried away with the sight. Alvin is six years old.

THE MAN IN OVERALLS. What will we all get to talk about when the Kinrade inquest is over? Mr. Stewart made a speech in Parliament the other night, but he did not call the Premier a thief or say things had to be nailed down to prevent him from carrying them away. That kind of talk only goes up at the Twentieth Century Club.

DOUBLE TRAGEDY. Northampton, Mass., April 29.—Porter Smith, of Chicago, a Dartmouth College student, shot and probably fatally wounded Miss Helen A. Marden, of Somerville, a student in Smith College, of this city, on the Smith campus to-day, and then shot and killed himself. The young woman was taken to the college hospital, where it was stated that she could not recover.

LOOKS MORE LIKE STRIKE. Carpenters Demand Better Wages Than Bosses Are Offering. Indications to-day are that Saturday may see trouble between the master builders and the carpenters. The employers and employees in this branch of the building trade have had no agreement for a year, but the men have been receiving 57-2 cents an hour. The bosses want to make a reduction, beginning May 1. They propose to divide the men, paying first-class carpenters 35 cents an hour and others 33.

GREAT STORM IN CHICAGO; FATAL MILLION DOLLAR FIRE. Illinois Central Railroad Elevator Burned in Midst of Storm—One Fireman Killed and Eight Injured—One Loses His Arm. Tornado Sweeps Kansas and Iowa—Town of Douglas Partially Wrecked—Storm in New York Also.

CHICAGO, April 29.—A violent storm, accompanied by thunder, lightning and rain, struck this city shortly after midnight. The first intimation of it came when persons in the loop district, and those riding on surface cars and elevated trains were startled by a flash of lightning, followed by a rattling sound that seemed to shake the skyscrapers. Lightning struck two buildings but no damage resulted. In the residence sections householders were awakened and lit the gas alarms. The barometer fell rapidly, and as the night wore on the storm increased in intensity, reports of damage in the suburbs and from near-by towns came in.

DISASTROUS FIRE IN CHICAGO. Chicago, April 29.—One fireman was killed, another is missing and eight were seriously injured in a fire which destroyed elevator B, of the Illinois Central Railroad, here early to-day. The conflagration, which was discovered in the height of a violent electric storm, completely consumed the elevator and its contents. The loss is estimated at \$1,000,000. The blaze was fanned by a gale, which swept in from the lake, spread to the Illinois Central docks, to the train sheds and freight cars, and it was with great difficulty that the firemen checked the fire from a general spread over the lake front yards.

STORM IN NEW YORK. New York, April 29.—After nearly a month of extremely cold and unseasonable weather, New York experienced a late April snow storm this morning. Snow began falling about 6 a. m., but after a slight flurry it ceased for a while. At 8 o'clock the snow flakes were falling as thick as the snow flakes were falling. A cold northeast wind was blowing; the snow melted as fast as it fell in this city, but in the suburbs the ground was covered with a white blanket. This is the latest snow fall recorded in New York City since that of May 6, 1891, which was regarded as a freak of the temperature. Though the snow gives a wintry appearance, the temperature is no lower than it has been for some days past.

INQUEST NOT LIKELY TO PROCEED TO-NIGHT

Divisional Court Sustains Coroner Anderson and Rules That Florence Kinrade Must Appear For Examination on New Points. If Other Means Fail Attorney General May Himself Issue Subpoena --Warrant Not Likely to be Issued Until Point is Settled.

(Special Despatch to the Times.) Toronto, April 29.—While the Divisional Court has upheld the rights of Coroner Anderson to issue a warrant for Florence Kinrade, there seems yet to be a technicality that may prevent the execution of the warrant. Immediately after the judgment of the court, Yvonne Stantton, counsel for Florence Kinrade, asked Mr. Justice Latchford, one of the judges, if the warrant was now executable. His Lordship said it was not, without the backing of local magistrates. Meanwhile the warrant has not been taken out of the court.

(Special Despatch to the Times.) Toronto, April 29.—Deputy Attorney General stated this afternoon that there would not likely be a session of the Kinrade inquest to-night, the reasons being the short time intervening and the uncertainty as to the proper procedure. In case it is finally decided not to proceed to-night the warrant for Miss Kinrade's arrest will not be executed to-day.

MONDAY NIGHT. This afternoon it was decided that the inquest should stand adjourned until Monday night. The Kinrade murder investigation, which was temporarily halted on Friday night last when Florence Kinrade, acting on the advice of counsel, decided to refuse to appear and disobeys a subpoena to appear and give further evidence, followed by the legal proceedings to test the validity of the bench warrant issued for the girl's arrest as a material witness, will proceed without undue delay.

KILLED THE MOB LEADER.

Italian Sho. in Trouble Over Brick-yards' Strike.

Another Mob Drove Men Out of Other Yards.

Strike at Waterous Company's Yards, Fiskhill, N. Y.

Fiskhill, N. Y., April 29.—One unknown Italian was shot and killed in a clash between a rioting mob and the employees of the brickyards of the Waterous Co., on the outskirts of this village to-day. The brickyard workers in this neighborhood have been on a strike for higher wages for several days, and as usual, mobs armed with clubs have driven the workers out of other yards.

Two hundred men armed with clubs and stones left the yard of Obrien & Venghly, in Fiskhill, to-day, and marched to the yards of the Waterous Co., three miles up the river which had been reopened after the strike. Foreman Patrick Quinn, and three other men, employed at the Waterous yard, met them, the mob, throwing stones, advanced upon the four men, whereupon Foreman Quinn shot and killed the mob leader. The other rioters then dispersed.

Sheriff deputies were sent from this village to restore order and make arrests. While this attack was taking place, other mobs marched to two other yards near Fiskhill and drove the workmen out. At the yard of the Budd Co., two miles below Fiskhill, they stoned Edward Coffee, who was in charge of the yard, until he took refuge in the Engine room and telephoned for assistance. He was rescued by policemen who dispersed the mob.

NOT BAD HERE

Snow May Even Do Good to the Fruit Trees.

Hamilton seems to have once again escaped the worst of the storm which raged with great severity to-day, east, west, north and south of this favored center. While a blizzard was raging in Western Ontario and New York State, a little flurry of snow started here about 7 a. m. The wind increased during the day and the city was in the grip of a winterite before noon, with the wind blowing in clouds before it, but there was not enough of either wind or snow to cause much inconvenience. The street and suburban railways had no difficulty in keeping traffic going.

THE GREATER HAMILTON.

H. L. Frost Chairman of Finance 300 Members Already.

Mr. H. L. Frost is chairman of Finance Committee of the Greater Hamilton Business Men's Association. Such was the decision reached by the members of the committee yesterday afternoon at a meeting in the Board of Trade rooms Mr. Frost's election was unanimous, and the applause given by the large turnout amply justified the confidence that rests in him. Mr. Stanley Mills moved and Mr. William Malcolm seconded the nomination.

Mr. Frost in accepting the position said that he would devote all his energies to the development of such an important committee, and he thanked the members heartily for the honor they had conferred upon him. As far as the natural advantages of Hamilton were concerned, Mr. Frost said he was satisfied that this city would not have to take a back seat to any of them, particularly Welland and Brantford, which have been very active in securing industries for their respective cities during the past few months.

President John Hoodless had an optimistic word to say about the success of the association, and announced that there was practically complete agreement on the part of the members of the Civic Improvement Committee. Mr. Hoodless said that the committee would find out if they were going to contest their lot with the Association, whether they were going to do so, and matter up as a separate venture. The Legislation Committee is also without chairman.

Mr. C. D. Blachford was appointed secretary of the Finance Committee, and it is the feeling of the Association that they have secured a good man for the place. The Association now has a membership of over 300, and is forging ahead daily.

ACTION DISMISSED.

Mr. M. J. O'Reilly, K.C., before Judge Monck, this morning, asked that the motion to continue the action of Antonio Wyhlawek against the Hamilton Radial Railway and the Dominion Power & Transmission Company, for the death of the plaintiff's wife, be dismissed. After hearing Mr. O'Reilly's objections, his Honor dismissed the action on the grounds of want of prosecution.

A Fair Invalid

CHAPTER X. "Mrs. Neville, said the shrill, clear voice of Lady Wynnton, "it is hardly needful for me to remain here any longer. The house is very dull and quiet, and there is not a novel in the place fit to read—in very truth, I am bored to death, and should like to go."

"I may never see him again," I returned, warmly, "and I know but little of him, yet I would stake much that he has never committed a crime; he may have made a mistake."

FIGHT IN COURT.

License Inspector Knocks Midland Barber Out.

Joseph Peake Called the Inspector a Bad Name.

Midland, April 28.—A demonstration of pugilistic ability took place in the police court here this morning between Messrs. Wellington O. Fisher, of Orillia, license inspector for East Simcoe, and Jos. Peake, barber, of this town. On Saturday, April 10, the inspector, with Chief of Police Bell, searched Peake's barber shop and, it is alleged, discovered one bottle of whiskey in a cheese box in a hallway back of the shop, and in the cellar found twenty empty bottles.

According to the Mayor's secretary, Mrs. Wright called upon him, accompanied by another well-known socialist, and demanded that he furnish aid or work to unemployed. The Mayor did not see it that way, and the lady's replies were such that she was removed from his office.

Horseshoe Competition. In a thickly populated district of Burlington the clanging of the anvil late at night caused the policeman on the beat to call at a blacksmith's shop. He found a competition in progress between two smiths as to which could make seven pairs of horseshoes in the shortest time. Each man was allowed an assistant as striker.

Many Wolves Captured. Wolves in northern Iowa and southern Minnesota are more numerous this year than in any previous years. In most of the counties large bounties are being paid, and this has put regular wolf hunters at work with their hounds.

The unusual number being captured is due to the fact that the animals were driven out of the forests of Minnesota and Wisconsin last season by the fires which played havoc in those communities. J. B. Sanders, of Chapin, presented himself at Hampton, the county seat of Franklin county, with what would have been a wagonload of wolves had they been grown, thirteen in number. These were found in two litters.—Mason City correspondence St. Paul Pioneer Press.

WOMEN OF DIOCESE DOING GOOD WORK.

Excellent Reports Presented at the Annual Meeting of the Auxiliary, Held Yesterday.

Address by the President, Mrs. Leather--Laymen's Work Dealt With Last Night.

The afternoon session of the twenty-third annual meeting of the Women's Auxiliary of the Diocese of Niagara in the Cathedral school room was largely attended, every available chair being occupied. The reading of the reports of the different organizations, by the secretaries, was continued and proved interesting, showing remarkable progress. The Diocesan Treasurer's report submitted by F. Hobson, Diocesan Treasurer, N.-W.-A., showed the following: Total receipts from branches, \$3,748 47

The Holy Spirit; third, the hearty cooperation of Anglicans in the general movement. The archdeacon closed by saying that his impression was that the Women's Auxiliary, started a quarter of a century ago, had much to do with the starting of the great laymen's missionary movement, by creating an atmosphere and giving an inspiration.

ON THE JEWS. Rev. F. E. Howitt gave an illustrated address on "The Jews." The views of the different towns and cities and other places of Bible fame were shown, and Mr. Howitt, in a very interesting way, told of the incidents connected with them. Among the scenes of Jerusalem was one showing the place where the Jews pray by hours. The churches of Bethlehem are magnificent structures, and the spot where Christ is supposed to have been laid was also shown. Rev. Mr. Freeman's picture was shown, and Mr. Howitt explained that the organization to help the Jews was started as a result of Mr. Freeman's efforts about a hundred years ago. The hospital in Jerusalem was also dealt with, showing the attendants and the wards they work in. Numerous famous men were spoken of, and their pictures shown on the canvas. He said the Jews are getting everywhere and are controlling everything they come in contact with, at present controlling about one-half of the wealth of the world. He dealt at length with the persecution of the Jews, and gave an outline of the terrible massacres which occurred under the eyes of the authorities who should have protected them. In closing he said he hoped all would think of the two texts, "Ye are the Lord's remembrancers; take ye no rest and give him no rest till he establish and till he make Jerusalem a praise in the earth," and "If I forget thee, O Jerusalem, let my right hand forget her cunning. If I do not remember thee, let my tongue cleave to my mouth, if I prefer not Jerusalem above my chief joy."

THIS MORNING'S SESSION. This morning's session was largely attended. Considerable correspondence was read. Miss Halson, General Dorcas Secretary, in addressing the gathering, said it was wonderful how the Auxiliary had grown during the past few years. She spoke of the missionary work in the Northwest, dealing in a thorough way with the difficulties the clergymen have to contend with. There are 70,000 Indians in Algoma and the Northwest Territories and one can't expect that these Indians can be self-supporting, having been so recently heathens. The work of the Indians should be carried on partly by native missionaries. At least three native missionaries could be supported for the same price as one white man, and she expressed the wish that more natives would be trained for the work. The need of contributions for the work of keeping the schools in the Northwest was expressed. By correspondence recently received by Miss Halson, it is thought the Government is about to increase the grants to the schools that they may continue their work in a satisfactory way. In the coming year, considerable work must be given over to the Presbyterian Church. The church in Canada is asking the missionaries to do the work, but is not supplying them with enough money to prosecute the work properly. Last year an extra grant was given one Diocese, but this year it was not given and the Diocese is at a loss to know how to proceed. She spoke of the energetic way in which the bishops and clergy of the Northwest are endeavoring to carry on the work in a systematic manner. The large inflow of immigrants to the Northwest during the past few years must also receive consideration. A number of the new mining districts cannot receive a missionary as soon as they should on account of the present arrangements.

DEACONESSE WORK. Miss Connell, Deaconess' House, Toronto, spoke of "Women's Work in the World." She said women should be more earnest in their efforts to work among the women, as they are more able to do this work than men. She spoke of the necessary instruction for a qualified missionary. The intellectual training consists of listening to lectures on Bible topics and learning the spoke of the useful ways in which a knowledge of medical work may be utilized. The women who wish to win souls should be diligent students of Biblical topics and earnest Christians. If people of whole-heartedness in their work for the Master there will be no lack of offers for the Master's service. The prayers of all are necessary for the advancement of Christ's kingdom. Miss Connell hoped the students would be so inspired that they would be willing to consecrate themselves to the preaching of the gospel.

AMONG THE ESQUIMAUX. Rev. E. J. Peck gave a very instructive descriptive address of his work among the Esquimaux of Hudson Bay, and spoke of the yearning with which the people of that region seek the gospel. To be a successful missionary, he said, it was necessary to go, depending on individual strength, but the strength of the Lord.

THE LAYMEN'S WORK. The evening session was in the form of a missionary meeting, the Lord Bishop of Niagara presiding. Two important addresses were heard. Venerable Archdeacon Forrester gave one on the Laymen's Missionary Congress, and said he had spent two days in Toronto attending the recent great convention, and the Anglican convention in connection with the same. Delegates of the various Christian bodies met in their respective conventions at hours that did not overlap those of the great congress, which was attended by 1,500 ministers and 2,500 laymen. The archdeacon gave a sketch of the Anglican convention in St. James' Sunday school, Toronto, and also his impressions of the national congress in Massey Hall. He gave an account of the splendid testimony to the efficacy of foreign missions by the Hon. Joshua Levering, of Baltimore; by the Hon. D. F. Wilber, United States consul of Halifax, who had been in Singapore, and by Sir Andrew Fraser, who for thirty-seven years was a Government official in India, all of whom gave wonderful testimony of the work the missionaries have been and are accomplishing. The archdeacon's impressions chiefly were: First, absolute loyalty to Christ as the Son of God; second, evidence of the presence of

Mrs. Bridget Nolan, wife of James Nolan, 47 1/2 Spring street, died last evening at 9 o'clock, aged 73 years, at the City Hospital, after an illness of two months. MISS CRERAR'S WORK.

The Montreal Herald, in its report of the Governor-General's competitors, speaks very highly of the work of Miss Carrie Crerar, of this city. It says: The Garrison Dramatic Club, of Toronto, are handicapped by an utterly impossible piece. The most brilliant acting will never revive the "Robertson's 'Caste'" and make it a living thing on the modern stage; and the amazing thing is that it could ever have been considered a great play. Of a truth the British drama has marched some in the last fifty years. The lady who played Esther Eccles failed to get the melodramatic possibilities of the role, and the admirable work of Miss Caroline Crerar—a Hamiltonian whose talents are known from one end of Canada to the other—in the comedy-dramatic part of Polly was robbed of much of its proper effectiveness. The anti-climax following Miss Crerar's splendid declamation on the ballet speech was particularly annoying. The stage management was good and there were some neat if exaggerated character studies.
