The meritorious qualities of this vital topical subject are so apparent, and were so much appreciated by the people who witnessed its projection on the canvas, that the manager has been nduced to again present it as an add the ded attraction on next Monday. Very thrilling are shown the chase of Ethel LeNeve and Dr. Crippen across the Atlantic, their discovery through the medium of wireless telegraphy, and heir ultimate apprehension by Scotland Yard. It is a gripping film, and in one should fail to see this pictorial recital of one of the greatest crimes that has occupied the attention of

British justice during the past year.

# BEAVER FLOUR

is equal to the occasion

### SOLVE THE BAKING PROBLEM

by using the flour that you can always depend upon. You've noticed how your bread or pies or cakes turn out with varying degrees of success, and you have blamed the heat of the stove,

the quantities of your ingredients and anything but the right thing. The difference between constant success and uncertainty is the difference between Beaver Flour and flours that cannot be depended upon in all baking operations. Unfailing results demand the use of "BEAVER" FLOUR.

The reason is simple. Here is a flour that is blended from the rich, nutritious Manitoba Spring wheat and the more delicate Ontario Fall wheat. One has an abundance of gluten, that goes to build up the human frame with nourishing food, while the other ensures lightness and whiteness.

The blended wheat properties in Beaver Flour provide a perfect combination for making wholesome bread, biscuits, cakes and pastry that are as pleasing to the eye as they are sweet to the palate.

Put it to the severest tests you can devise, and we are willing to abide by your judgment.

In addition to the suffering and analoyance caused by eczema and salt there is always danger of the trouble spreading and becoming chronic. For this reason the use of Dr. Chase's Ointment should be regular and persistent until the cure is horough and complete.

Mrs. John J. Delory, Linwood,

"The first thing I did begin vorry about, when I was on the way o recovery, was my debts, and paricularly my debt to the landlady. She was a good woman, and wouldn't let me be moved to a hospital, but took care of me herself through all my Hness. She furnished my food during that time, and paid for my medicines, and, furthermore, I owed her for several weeks' previous rent. So I bemoaned my indebtedness, and the hopelessness of ever getting out of it. a thousand times, day and night, till became an old song in the ears of Bagley. One day he came in with his face full of news, and told me he had got some money from the sale of a arm, in which he had inherited a ninth interest. He said he intended to risk his portion in the theatrical business-he had had some experince as an advance agent-and offered to buy my play outright for fine hundred dollars.

"Well, it was like an oar held out to a drowning man. I had never before had as much money at the same time. It was enough to pay all my debts, and keep me on my feet for a while to come. Of course I knew that if my play were a fair success. the author's percentage would be many times five hundred dollars. But it might never be accepted-no play of mine had been, and I had nawked two or three around among the managers and in that case I should get of friendship. The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bedies, weak lungs, and obstimate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound viggrous health.

If your dealer offers something " just as good," it is probably better FOR HIM-oft pays better.

But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

After a general discussion it was decided that the members of the different societies turn out on the occasion and meet His Excellency on arrival at the pier and accompany him to the Archbishop's Palace. The officers will also attend the ceremony of the Consecration of Bishop Power, and will illuminate the halls of the different societies on the nights of the 22nd and 25th.

The meeting recommended that the Catholic citizens also illuminate their houses. Sir Edward Shea will be asked to read the address to His Excellency from the citizens.

A committee of two from each society will arrange the other details connected with the reception.

Harvey, President of the with 44 killed and 3,346 injured in meeting, dilated on the necessity of cultivating those habits that are conducive to good health and to restoring health that has been impaired. Physical culture is the best means for achieving this and should be taught in every school in Newfoundland in the Hygiene curriculum. Mr. Harvey's address was well received. Mr. W. W. Blackall then followed with a lecture on Health, and treated the subject from the view point of the teacher. He suggested what should be done by every teacher, whose duty it was to give strict attention to the fundamental principles of hygiene in the minds of their pupils. Dr. J. S. Tait gave an address on Consumption. He spoke for over an hour and gave some very valuable and practical suggestions for the preservation of health. After this Young Olson with his juvenile class gave an exhibition of physical drill that could be easily introduced in all the schools. Dr. Wakefield, of the Grenfell Mission, also spoke, on being introduced by Hon, Jno. Harvey. He spoke of consumption and what he believed teachers could do in order to lessen its ravages. At the close a vote of thanks proposed by Mr. Colley and seconded by Mr. Baggs was carried unanimously. The meeting closed at 9.30.

The message follows:-"To My People:- "Now that the Coronation and its attendant ceremonies are over I desire to assure the people of the British Empire of my grateful sense that their hearts have been with me through it all. I feel this in the beautiful and impressive service in the Abbey, the most solemn experience of my life, and scarcely less in the stirring scenes of the succeeding days, when my people have signified their recognition and their heartfelt welcome of me as their Sovereign, for this has been apparent not only in the loval enthusiasm shown in our passage to and from Westminster, and in the progresses which we have made in the different districts of London, but also in the thousands of messages of good-

will which have come to me across the seas from every part of the Empire. "Such affectionate demonstra tions have profoundly touched me and have filled me afresh with faith and confidence. son renewed vigour and activity manifested themselves on the part of the labouring class in the way of making preparations for harvesting from the bountiful summer season a good store of all her treasures. The land is got in readiness for the recep ion of the seed-crops, and the bes efforts of all are put forth in the agricultural line, to secure by the production of a good crop of vegatales a worthy augmentation to the vage-earner's efforts. With a fishing opulation too, as the season adances, active energies, are on the alert, and the hum of preparations for the prosecution of our staple in dustry awakes once more from re pose. This in a sense, is the storm and a quiet calm surely follows in places where the fields of employ ment in the summer season are to be sought outside the resident locality This calm, or tranquil period is now with us; and though a certain loneliness is an accompaniment still it is nore than offset by the beauties of nature to be met with on all sides. but especially within the woodland bowers, where the flowers dwell and

on thus far is Mr. Thomas Hanrahan, S.C.S., on inspection duties. His work at Avondale consisted of an examination of three schools, and in each case he reported very favourably on the results attained. The status of efficiency at the Superior School so far merited his encomiums in comparison with the other schools of the diocese as to gain for the teacher a reward of five dollars. Rev. Fr. Kavanagh, P.P., Little

Bay, is also a visitor during the past week, and the guest of his uncle, Rev.

The examinations conducted by the H.E. began on Thursday, June 15th, and terminated after six days dilligent and assiduous efforts on the satisfaction of the examiners their efficiency in the subjects under test. Eight candidates—six Intermediates and two Preliminaries all from the Superior School, comprised the centre here, and the duties of supervision

were admirably performed by Mr. P. Griffin, headmaster, Superior School, Conception Harbor. The electrical storm of Saturday night, June 17th, which destroyed the best to complete the lost church best to complete the lost church were now, His Lordship felt sure. here, was by far the most severe of enjoying a crown in heaven as a reits kind ever witnessed even by the ward of their labors, and it remains ward of their labors, and it remains the contraction of the present conoldest inhabitant. It began about nine o'clock, and for the space of almost two hours the angry peals of thunder owing to their apparent proximity left the nervous and weak on the borders of collapse and the braver ones filled with terror and awe. But the consecutive explosions of electrical gas, which lit the firmament in immeasurable extent of space, with a transparency only equalled by the brilliant light of day ly recorded against both teams. Each far exceeded any atmospheric electrical disturbance known to take place within the memory of our oldest resiting in on their opponents' goal, Murdent, and we can call on active octogenarians-Mr. James Ezechiel for instance, for an expression of

This then must have been the explosion that wrought the destruction of the church, as at the same time Dr. Jones, who happened to be standing in the rear entrance to his dwelling, about to wish a visitor good night, saw the tower which, from its prominence and during the illumination, was wholly exposed to his view, receive a tremendous zig-zag shivering shock, and rewinning the medal at the Littledale marked so to his friend, who thought Sports for the best "break" in bil- it better to remain quartered with liards. Over 300 handled the cue, but the medico till the heavens became his score of 34 without a pause could more reconciled. No thought occurred to the doctor that any serious damage would result from what he had seen, and with just a casual reof the late Miss Catherine Gibbs took | mark anent the matter to the inmates he dismissed it, and in due course betook himself to "the quiet chamber far apart," in harmony with us all, to regain with restful sleep the nervous normal tension which perhaps the day's duties and the fierceness of the storm had effected. Thus the community lay in quiet slumbers till about a quarter to the midnight hour, when Mr. John Flannigan, to whom is due the credit of discovering the blaze and arousing those within the radius of danger, gave the alarm. Mrs. Flannigan having hat occasion at that hour to respond to a call from her son, who was ill, and happening to look out at the appearance of the night, thought she discerned a halo emanating from the ventilator in the tower, and informed her husband, who quickly repair

part of the interior of the tower in ping to the basement. This evidence proves conclusively that only the lightning could be instrumental in setting the building on fire, and it is the prevailing opinion that it entered the tower in the vicinity of the bell, and there where so much iron and wood came in contact, the destruction of the church had its origin. Anyway, within the space of two hours the entire building-the outcome of the strenuous efforts of the whole congregation for yearswas entirely, by the rapid consuming

element of fire, demolished. To sympathise with the rev. pastor, Fr. Sheehan, and his parishioners in the loss of their beautiful place of worship, Bishop March visited us part of the candidates to prove to the last Sunday and celebrated Mass in the commodious schoolroom, which was tastefully put in readiness fo His Lordship spoke in very consoling terms to the congregation, reminding them of the indefatigable energies of pleting and decorating the church, whose loss we had now to deplor Many of those who had done their gregation to earn for themselves a similar crown by adorning the same ful, if possible, than the former. ### Harbor Grace Notes.

The S. O. E. excursion yesterday was a source of much pleasure to our citizens as it no doubt was to the visitors. The train arrived here at 11.30 a.m. yesterday, and left on the

return at 3 a.m. to-day. The brothers and sisters of Master Ronald Goff whose sudden death occurred at St. John's, on Monday mornwere brought by Monday night's train, and the funeral took place on Tuesday evening from the residence of

is sister, Mrs. F. Sullivan. The young lady who found herself in the presence of a scamp near the railway station last night, should have handed him over to the police at once, or called for a sistance, as a person was near at hand ready to give the fellow his deserts.

Trouters in different directions yesterday found flies very plentiful and vicious. Many are suffering from swelled heads to-day as a result of little pests. Fairly good catches of trout are reported from all quarters.

The different sufferers from scarlet fever are doing well, and it is hoped that no further outbreaks will oc-A case of measles was reported in a Water Street home. The newsboys of the Standard were

given a pleasant day in the country yesterday for having boomed the town sales of the paper during the past three months. The kind proprietor had made the arrangements so complete that it would be just impossible to have anything but a good time. Leaving by the early morning express, the return was made by the night train. They are very grateful for the day's sport, each having secured a nice catch of "beauties." JUVENILE DEPARTMENT. During the recent session of the

Grand Lodge the Juvenile work of the Order was not overlooked, but received special mention from the G. C. T. and other officers, and the committee the past year by the Grand Supt. and ing, have the sympathy of our citi-zens in their sorrow. The remains ers emphasized the fact that the Juvenile work was a most important in August.

The meetings of the St. John's Temple have been well attended, and deep and lively interest manifested y the boys and girls.

Sister Mrs. Thistle, of Onward Lodge, Sister Effie Parsons, of Terra Nova Lodge, and Sister Phoebe Sellars, of George Boyd Lodge, are the Supts. for the present year; and we feel confident that with such an effion the state of the Order in their recent staff, assisted by Mrs. Andrews, port referred to the satisfactory and Miss A. Edgecombe, and the other encouraging work performed during adult members of the Temple, a successful year will be recorded.

### **Another Man's Cheque**

A seaman of London who came out here in the Solway, and was paid off a few days ago, picked up a cheque for \$20.70 owned and endorsed by another seaman of the ship. The finder instead of returning it to his shipmate started in to have a good time on the cheque, and going to Mr. R. Byrne's saloon it was cashed there for him, Mr. B. believing that he was the owner of the paper. The other reported to the police and they on investigating found the cheque in Mr. Byrne's possession. He gave particulars and the seaman was arrested. The man had \$7 on him, and had gone through \$13.70 of the amount. It is not unlikely that the dishonest mariner will

of the drowning of the lad Brushett, of Mortier Bay. He with his father was coming in from their trap in a dory. There was a stern strap in the dory with a "thimble" sized in it for the purpose of reeving the sheet through. Instead of reeving the sheet through the thimble, the man rove it underneath the seizing, so that when a squall struck the boat and the man went to let go the sheet to get her up in the wind, a knot in the sheet brought up against the seizing and the dory capsized. Father and son managed to get up on the bottom of the dory when a heavy see swept the boy off after they had been fifteen minutes on it, and the boy was drowned before his parent's eyes. When rescued the father was very much exhausted and overwhelmed with grief.
