THE BELLE OF RUBYWOOD.

CHAPTER XII.

He buttoned his coat with trembling fingers, tucked his hat tightly on his head and sprang into the path, running as if for dear life. Panting, he reached the stile and leaped into the road.

"Where is it?" he asked, in a hoarse whisper.

"Farmer Holt's," replied the man, in like manner, never removing his eyes from the flames, which, as they turned the bend of the road, could be seen shooting above the trees.

Wynter Leigh groaned aloud: "Rubywood!" he cried, "and three weeks' drought. Not a stick will be saved!"

Then he outran them all, gained upon fresh groups farther on, and burst at last like a greyhound, wet with perspiration and panting, in front of Rubywood, which was wrapped in flames.

For a moment he was so stunned by the dreadful din and confusion as to be incapable of action, but the next he had reached a small group in the front of the house, from which came the most agonizing groans and exclamations.

The light of the flames, which were now completely surrounding the homestead, fell upon the faces of the farmer and Mr. Heatherbridge—the former crying and wringing his hands, the latter roaring to and fro with helpless painful anxiety.

As Leigh ran up, the farmer turned his face, which was contracted with anguish, and cried: "My child! Oh, save my lass! Let the house go, but save my lass!"

Muriel in there! "Where is she?" wondered Leigh in the old man's ear.

"There! Save her—save her!" cried the distracted father, pointing to Muriel's window and sinking on his knees.

Leigh slipped off his coat and sprang toward the flames.

A shout of warning and terror rose from the throng.

"Come back! It's madness! You'll be burned and suffocated, man! Come back!"

He plunged into the seething, hissing mass of flame.

They saw him as he sank in the

blaze and smoke, a cry of horror, echoed by a dull shriek from the father, mingled with the crackling of the flames.

Mr. Heatherbridge sank upon a bench and hid his face in his hands, miserably helpless.

Suddenly a shout, half of terror, half of encouragement, brought him to his feet, and he saw two figures—those of Muriel and the man who had gone to her rescue—in the middle of the doorway.

The next moment he ran up, a time to see the father clasp his rescued daughter to his breast, sobbing like a child.

"Where is he—where is he?" he gasped. "Let me see the man who has given me my lass's life!"

A dozen hands, pushed a blackened fire-singed figure before him.

The farmer held out his hand, but suddenly fell back, white and breathless.

"Wynter Leigh!" he exclaimed.

"Wynter Leigh!" gasped Mr. Heatherbridge, while the crowd caught the name and sent it round.

"Ay," said the scorched, blackened lips. "I am Wynter Leigh, Mr. Heatherbridge, and I am back in time to give you your wife."

The farmer clasped Muriel with a hand of steel, but remained speechless for a moment, then groaned.

"Miserable man!" he cried. "My poor lass, I've got thee. Heaven be praised, but I've lost thy dowry!"

He had forgotten in the stupor of the moment that such a being as Wynter Leigh existed. And, in the mists of avarice which seized him when he remembered that he had lost the ten thousand pounds, forgot ever to be grateful for his daughter's rescued life.

not open his lips for fear of uttering the groans which he stifled between his clenched teeth.

He had been carried there—to his old room—by the tender, careful hands of men who would have died for him, and who were now massed beneath his pillow, waiting to catch a glimpse of the doctor's face.

Before the day had gone he was happily unconscious of his agony, and was raving in delirium, calling on Heaven to save his Muriel, and fighting with his hands through walls of flame.

Then a white-clad figure with a tearful face hovered round his bed, with lips that murmured prayer for him and longed to kiss his face.

In the morning he awoke, weak and exhausted, but conquering, and the first object his eyes saw were Farmer Holt and beautiful Muriel leaning over him.

"Thank Heaven!" he said. "I dreamed you were lost, after all," and he shuddered. "Where is Mr. Heatherbridge—your husband?"

The old man, who had aged ten years in appearance during the excitement of those few fearful hours, answered him:

"Why, my lass has no husband yet, Maester Leigh, and she's come to ask your pardon and be one for her."

The sick man raised himself upon his arm and stared at him.

"Not married!" he breathed.

"No, nor won't be till you get better," said the old man. "And not then if we get our deserts."

"Do you mean," said Leigh, trembling, "that you will give her to me?"

"I mean that I hold her yours, seeing that you saved her life and her money, while the man who ought to have done it stood by like a ninny. She's yours, Maester Leigh—that is, if so be as you will explain one thing."

Wynter Leigh nodded, but he did not speak or remove his eyes from the loved head beside him, and to which his hand was wandering longingly.

"I want you to tell me who that fine lady was that came down here after you," and the old man's brow contracted.

Wynter Leigh shook his head, then smiled sullenly.

"Ah!" he said, with a world of meaning. "That was my cousin, who came from Australia to bring me news that would have been as precious as rain in droughts if it had not come too late. She brought me word that my uncle had died and left me thirty thousand pounds and an Australian farm."

"She did?" exclaimed the old man, his eyes sparkling.

"And now may I have her?" asked Leigh, with the eagerness of a boy; and, without waiting for an answer, he laid his hands upon the bowed head.

"Take her, and a wicked old man's blessing, too," muttered Farmer Holt, and he trudged from the room.

"Muriel," Wynter whispered.

She raised her face, all flushed with the light of joy, and her lips sought his hand.

"No, no!" he said hastily. "Not till it is well, Muriel."

But she took both hands tenderly and kissed them fervently.

down, dismayed and vanquished by no mightier a giant than simple Jaffer, who has returned to Goody, and who is always willing to explain how, while he took Mr. Leigh's letter to Muriel, he met Mr. Heatherbridge, who, with great dexterity, managed to change the letter for a tradesman's circular and so deceive Muriel, who received the flowery announcement as a meaningless kindness of poor Jaffer, and little guessed that it had been palmed off on him as the letter he had been sent to deliver.

Reduced in Flesh Sleepless Nights

Kidney Disease and Gravel Caused Keenest Suffering—Cured by Dr. Chase's Kidney-Liver Pills.

Mr. W. Smith.

That diseases of the kidneys cause the greatest suffering is well known, and when stone or gravel is formed in the bladder the torture is almost beyond human endurance.

The disease should never be allowed to reach this dangerous stage, pains in the small of the back, pain or smarting when passing water, frequent urination, loss of flesh and weight tell of the need of Dr. Chase's Kidney-Liver Pills to regulate and invigorate the kidneys and restore these organs to health.

Mr. W. Smith, Port Dalhousie, Ont., writes:—"For some years I was afflicted with kidney disease and gravel in its most severe form, having often a stoppage of water, accompanied by the most dreadful agony. As the disease wore on me I became reduced in flesh and passed sleepless nights. No doctor was able to do much for me, and I used many medicines without obtaining more than temporary relief. My attention was directed to Dr. Chase's Kidney-Liver Pills, and by using this treatment the disease was eradicated from my system. I have had six months. I have gained in weight, sleep well, and feel better than I have for many years."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmondson, Bates & Co., Limited, Toronto.

A Problem in Mathematics.

BY RUTH CAMERON.

Here is a problem in mathematics for every thoughtful American. If the present generation is in twice as much of a hurry as the past generation, at what pace will the next generation travel?

Now that the children have gone back to school, when I look out my study window, almost every morning I see at least two or three youngsters walking their little legs off, or actually running towards school.

Thus early is the American habit of hurrying for every appointment inaugurated. Thus early do I say? What am I thinking about? According to one letter friend our children are taught the hurrying habit as soon as they leave the cradle. "Please write something," she urges me, "about the way people try to make little children keep up with their own longer strides. It makes me feel very sad to see a little toddler not more than two or three years old dragged along at a dog trot to keep up with some older person. I feel sure that the seeds of heart disease are sown in that way."

I don't doubt it, my friend, and I also feel sure that these seeds are tended and watered by the hurrying to school habit, which careless parents permit.

In fact, I once came into contact with a tragic proof of that fact. For a little girl whom I used to know ran

all the way to school one hot afternoon after a hearty noon-day meal, dropped into her seat, laid her head on the desk for the opening prayer and never lifted it again.

Of course, such tragedies as that are mercifully rare, but even when it does not cause any immediate calamity, the hurrying habit is sooner or later a trouble breeder, and we ought to teach our children to fight it.

I suppose we hurry because we hope to accomplish more, to crowd more into our days, but if you will take notice you will find that the people who accomplish the most are those who never hurry.

At a house where I once boarded, the twelve-year-old daughter of the hostess did all the serving. Two grown women would undoubtedly have balked at her task, for there were sometimes 35 or 40 guests, but this wonderful little girl performed it gracefully and serenely. I used to watch her in wonder for she never carried more than two or three dishes at a time and she was not old enough to use the principles of scientific management. The secret of her success was simply that she never hurried and hence was never hurried, never lost time or poised.

The best thing this generation can do for the next is to refuse to pass on its own heritage of hurry. Let us do what we can to teach our children that the truest proverb ever written is "Haste makes waste" and waste not only of time but of happiness, health and efficiency.

Housework Drudgery!

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription, and as Mrs. Briggs and others testify:

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulceration. It tranquillizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let everyone know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any druggist persuade you that his unknown composition is "just as good" in order that he may make a bigger profit.

Mrs. BRAZILL BRIGGS, of 529 N. Washington St., Delphos, Ohio, writes: "Having taken your 'Favorite Prescription' for a bad case of intestinal disease and constipation with women's ill, for which I was almost unable to do anything, I think I am safe in saying that there are no remedies in the world like Dr. Pierce's Favorite Prescription and 'Purifying Lotion Tablets.' I am now enjoying the best of health, and thank Dr. Pierce for his wonderful medicines which have done me a world of good."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

Household Notes.

One excellent method of exterminating ants is to wring out a large sponge in a solution of sugar and water. Place it on a plate in the room, and it will shortly be covered with ants. Remove them by applying the sponge in water. Use it again in the same way until you have rid the place of them.

When choosing bacon, the lean should be firm and bright and the fat quite white. Bacon which looks dark has probably lain in the shop for some time. Do not purchase a very large piece, it is never so nice. If it is too lean it is apt to make rashers which are hard when fried.

When the curtains come just to the window sill or a little below, they are apt to blow against the screen or out the window and become soiled. To prevent this, slip a very light strip of wood a little longer than the width of the curtain into the lower hem. This will prevent the curtain from blowing when the window is open.

There should be three kinds of soap in every laundry, a neutral soap, a regular laundry soap and a strong soft soap. Besides these soaps, it is well to have borax and ammonia ready to use when necessary. All of these not only make the laundry work go more smoothly and save time, but the results will be more satisfactory if you have the proper supplies.

For the autumn dinner table let us make the most of the crimson and golden leaves and ruddy-cheeked berries, and let us use the ferns and other green stuffs which are growing wild. All these things will do wonders in beautifying the table at little cost. The economical flower method of the Japanese is worth following on our

tables: the use of a single flower or a spray of flowers amid a mass of green is very effective.

Cucumber pickles are made in the following way: Wash the cucumbers clean and lay them in a crock or jar. Dissolve fine cooking salt in boiling water, making it quite strong, and pour over the cucumbers while it is hot. Cover and let stand twenty-four hours, then pour off the brine and put the cucumbers in the pickle jar with layers of mixed spices between, and pour over them enough vinegar brought to the boiling point to cover. In a few days they will be ready to eat.

If moths have got into your house, give the house a thorough cleaning, dispose of any articles that have had moths in them, and anything that is likely to attract them should be sunned thoroughly. Then put them in heavy muslin bags. Be sure that nothing which is put into bags contains moths. Keep a sharp watch on all woolen articles in closets and chests; take them out frequently and hang them in the sun. In this way you will surely conquer the moths.

Ordinary wall paper can be cleaned in the following way: First sweep the walls thoroughly with a clean soft broom, then rub the dirty marks over with bread. A dough mixture is used for the large surface. Take half a pound of flour and two ounces of whitening and knead in a little cold water to make a stiff dough. On no account must be the dough be sticky, or it will mark the paper. Rub the wall evenly with the mixture, changing the position and turning the inside out as the parts become soiled. Do not rub hard, as this spoils the surface of the paper and makes it shabby.

A LUCKY FIND

Seattle, Wash., October 14.—A. C. Gould, an Alaska mining man, who arrived on the steamer Spokane, today told of the finding of a valuable piece of ambergris by Dr. Elliot and George Boves near Seward a few weeks ago.

Elliot and Boves were on a launch in Seward Harbor, when their way was barred by a large whale. They stopped the launch and watched the animal until it swam away leaving on the surface of the churned water a lump of ambergris weighing fifty-two pounds.

The find was taken to Seward where it was valued at \$40 a ounce, or \$32,000.

Furnaces.

BY H. L. RANN.

The furnace is a neat mechanical contrivance which enables people to bask in their stocking feet whenever they are in a basking mood. The liveliest form of basking, however, is done when the furnace goes out and throws a 30-be-

ow zero chill into the hardwood floors. The cheapest and most popular kind of furnace is the hot-air variety, which will heat every room in the house except the ones abutting on the north wind. When there is no wind at all, the hot-air furnace will back out of the pipes leading to the dining room and parlor and devote all of its energy to the hired girl's room. Every time this kind of a furnace is fed with soft coal it will allow several cubic feet of gas to escape into the apartments above, causing the inhabitants to wheeze en masse and en rapport.

Hot-air furnaces are sometimes constructed of decayed heating stoves, which breathe fiercely through an aromatic register and deposit thick layers of dust on the furniture. This style of furnace aims to go out unexpectedly about four times a week and freeze the members of the family to the counterpane.

A furnace rarely gives the owner any trouble in the summer time, but along about the middle of January it will break down, when apparently in perfect health, and have to have some new \$7 grates. While these are being ordered, shipped and put in by a deliberate plumber, the family will take turns inserting both feet in the kitchen oven. The only part of a furnace which works perfectly at all times is the cold air inlet.

Furnaces are regulated by a costly device known as a thermostat. This article is guaranteed to keep the house at 72 degrees above zero, if the right kind of fuel is used and the front hall is shut off. All you have to do with a thermostat is to wind it up and furnish the coal, after which it and expensive atmospheres to be will furnish some of the most pellucid found outside of a Turkish bath parlor.

A Tory Set Back.

There is a common saying that some people cannot open their mouths without putting their foot in it. The Chronicle controversialist shows a like ineptitude. The Government put their feet in it badly over the Sunday Express business, and their belated apology of being too late with repentance to prevent the publication of the ads. which Mr. Dooley declares he obtained from the Government departments. The defence of the Government and their organs has earned for them the contempt of the public. To-day they are covered with confusion. The Chronicle's crow was distinctly funeral, and was followed by the speedy demise of the Sunday newspaper under the Tory editor. This morning Mr. Dooley writes the obituary notice, telling all and sundry that the "Sunday Express has stopped." What a set-back for Tory Dooley and his supporters.

It is funny how the mind of the Chronicle runs on the American political maxim. "To the victor belongs the spoils." True it is that the Tories act up to the maxim. There's the grab of the Hon. P. T. himself. There's nothing mean about the size of them. There's the job for brother Tom and for father. As his mind is cast, so is the cast of the mind of the Tory crowd, jobs for brothers and relatives galore, contracts for firms of which they are members, big timber grants for brothers, partners, relatives. Nepotism must and does reign supreme, and as they think so they believe other people think. As they are doing, so they believe other people will do. As they hope so they believe other people hope. Hubert Herder desires to go into farming. His father determines that he shall have a good scientific training and sends him to Guelph, Ontario. Of course, to a Tory mind, this is susceptible of only one interpretation and that is that the boy is being trained for a Government job. As a matter of fact neither the boy nor the father ever gave the matter a thought, and nothing of the kind has ever been dreamt of. Indeed it is highly improbable that the young man will return to Newfoundland. But he will no doubt be much gratified at the forecast of the Tories that he is to be Superintendent of the Model Farm. It will be news to him. On his behalf, we thank the Chronicle for the suggestion.

Crushed to Death

Magistrate Fitzgerald, who returned here by yesterday's express, held an enquiry into the death of John Leach, who while working with the Heid Co. at Bishop's Falls, received fatal injuries while coupling up freight cars. The man who was a resident of Port au Port, was caught between the cars and terribly crushed about the stomach and chest. He died a few hours after being hurt and the sad affair was purely accidental. The same applied to the shooting of the man Seivour, and Langdown, who died the shooting was discharged.

Canon Smith Writes.

Dear Sir.—The couple whom in the issue of yesterday the Telegram declares to have been "married again" at Wellfleet, Mass. U. S. A., could not possibly, unless they were married by proxy which is altogether improbable, have been the Mr. and Mrs. William Harold Tucker whom I married at Portugal Cove on the 5th inst., since to my certain knowledge this bride and groom have not been outside of Newfoundland, and as far as I know even outside of the Peninsular of Avalon since their marriage. Immediately after their marriage they drove to St. John's where they spent the first week of their honeymoon returning to St. Philip's last Saturday. On Sunday morning last, October 13th, they were in Church at St. Philip's and both received then and there Holy Communion at my hands.

As late as three o'clock this afternoon, Friday, St. Luke's Day, the bride was in my study to say goodbye, she could only spare me five minutes for conversation as she had to catch the steamer for Bell Island where she will reside with her husband. About an hour after she left my house I received the copy of the Evening Telegram which contained the notice which has caused me to write this letter.

Yours faithfully,
WALTER R. SMITH,
Portugal Cove, 9 p.m., Oct. 18, 1912.

[The message to which Canon Smith refers was received from a News Agency at Meredith, N. H. U. S. A.—Ed.]

Badly Wounded.

Const. Cahill of the Western Station had a wire from Sydney Saturday stating that his brother John, who has been living there for several months past, had been accidentally shot and was in a dangerous condition. The man after his tea went to his room and taking a revolver which he had there began to clean it. He forgot that it was loaded and after raising the trigger pulled it with the revolver barrel towards him when it exploded and the bullet entered one of his lungs. He is not in hospital but is in such a dangerous condition that the bullet can't be removed.

SCHOONER SPRUNG A LEAK.

The schr. "S. M. Lake," Capt. Virvan, from Hare Bay, B. B., had to run into Catalina out of the storm Thursday last. She left at 12.30 a.m. to-day and when half way across Trinity Bay with a gale blowing from the west she sprang a leak, the water rushing into the hold fore and aft in great volume. As a result all the crew of men and two passengers had to take spells at the pumps to keep her afloat. For hours it was feared she would founder and had she done so none could have been saved as no boat could live in the heavy sea running.

FEVER REPORTED.—

The Police Court.

Four drunks were discharged. A vagrant was sent down for ten days. A drunk was sent down for ten days. Two lads were charged with larceny. One of the lads was so young, barely seven years, that he was released as being too young to have had criminal intent. The charge against the other was proceeded with, and he was convicted; he was released on suspended sentence.

A charge of cruelty to a horse was tried on the complaint of Sergeant Noseworthy. The case was dismissed. A man who has been held on remand, charged with stealing a watch, pleaded guilty and admitted having sold it. He was sentenced to two months imprisonment.

Death of Wm. Rankin.

News was received by Mr. Coughlan from the wife of William Rankin that he had died at Sydney on Saturday morning after a three days illness. Mr. Rankin was formerly a resident of the West End of the city, and for years was chief steward of the Bonavista. Six years ago he left for Sydney, where he leaves a wife and four children.

We would ask all who are thinking of purchasing Dutch Bulbs to send their orders along at once. At the present rate of going, this magnificent lot of bulbs will not be long in selling and it may save disappointment on the part of intending buyers if they let us know what they want at once so as soon as possible. This applies to all out of town as well as city customers. The former can be assured that their mail orders for bulbs will receive the same attention as if they had called personally to give their order and inspect our stock.

SHORT OF COAL.
The S. S. Rotterdam, Capt. Gresko, put in port seven o'clock this morning short of coal. She was bound to Amsterdam from Philadelphia, petroleum laden, and was five days out. Shortly after leaving Philadelphia the Rotterdam encountered heavy weather which was continuous, and the vessel made poor headway. Yesterday coal was reported by the engineers to be short and Captain Gresko decided to come to St. John's to have the bunkers filled. The Rotterdam is 2,620 tons net register, and over 4,000 tons gross. She was built in 1895 and was here five years ago on a similar mission to her present one. To-day the steamer berthed at A. Harvey & Co.'s pier to be coaled. Consul T. Cook is looking after her supplies.

Accidentally Shot Himself.

We learn by the Fogota that while out birding at Greensport on Saturday a young man named Gibbons was dangerously wounded by the accidental discharge of his gun. It lay in the taut with the muzzle pointing towards him, when on seeing a bird he hastily drew it by the muzzle, the trigger hitching in the taut and became cocked, falling when the man pulled it forward. The gun exploded and the whole charge of heavy shot went through his left arm, shattering it badly, while a number of the lead pellets, when they struck, hit in the region of the heart. The wounds bled copiously and his companion in the boat pulled him quickly shoreward. The arm was amputated above the elbow by Dr. Roberts, but the man was so weak from loss of blood that the shot could not be extracted. An effort was made to be made to do this, should he get stronger. Though in a critical state, the doctor hopes to save his life.

Here and There.

BOARD OF TRADE MEETING.
The quarterly meeting of the Board of Trade takes place in their rooms Thursday afternoon.

GOT TWO MONTHS.—The man who stole a watch from the schooner Minature, and who was remanded for a week, came up for trial to-day. He pleaded guilty and was sentenced to two months imprisonment.

DANGEROUSLY ILL.

Mr. John Appell, a well known and respected resident of Tessler Place, is dangerously ill of bright's disease and heart spasms and fears for his recovery are entertained.

Mr. Chas. Snow, the popular second steward of the Stiphano, will take a holiday at New York this trip and well deserves it. He will spend a time at Philadelphia where he will be married to a young lady resident there. All orders for bulbs which will be spent in another part of the U. S., he will reinjoin his ship.

Mrs. Maria Martin, of Elliston, who came by the Fogota suffering from cataract; Emanuel Murphy, of Bay of Islands, ill of venereal disease; and Mrs. Fitzpatrick, of Placentia, ill of appendicitis, were taken to Hospital to-day by Mr. Eli Whiteway. Mrs. Thomas Walsh, of Parade Street, very ill of hemorrhage, was taken to Hospital in the ambulance on Saturday.

A HEARTY WELCOME.—At Bell Island Friday night a hearty welcome was given Mr. J. J. McDougall, civil engineer, by the officials of the D. I. & S. Co. He recently arrived from abroad with his bride, and a dinner tendered both was held at Wabana House. Over fifty were present and a jolly time was spent. Mrs. McDougall were presented with two handsome chairs.

Saturday afternoon a lad named Cullen, of the West End, while playing around C. F. Bennett's premises tripped and fell overboard. His head struck a log floating in the dock and the blow stunned him. He sank repeatedly and made no outcry. No men were about the wharf but fortunately a man in a craft on coming to the deck saw the boy and quickly rescued him but for which he would have drowned in a few minutes.

The Deputy Minister of Customs had a message this morning from the Sub-Collector at Placentia acquainting him of the death of Martin Kelly, which sad event occurred suddenly this morning on board the S. S. Fiona, which is now at Placentia. Deceased was a Tidewater on board the cruiser and was in the best of health until he was suddenly stricken. Deceased belongs to the Southern Shore, was married and leaves a large family to survive. The remains of the unfortunate man has been consigned and will be brought home on the Fiona.

BOWRING BROTHERS, LTD.

Got 12 Months.

By the express yesterday there arrived here Const. Quinlan who brought over from Birchey Cove a young man named James Young, and conveyed him to the Penitentiary there to serve a term of 12 months imprisonment. The man who is a resident of Mathas Point, recently stole

a cheque for a sum of money drawn in favor of a man whom he knew. The cheque was drawn to order and the prisoner forged the payee's name in endorsing it. He changed the cheque which was for a small amount at the Bank of Montreal but was quickly caught. He pleaded guilty when bailed to court and was sentenced to 6 months for the theft and 6 months for the forged endorsement.

Complain About the Ssusu Missing Ports of Call.

Special to Evening Telegram.
HARBOR BRETON, Oct. 19. Public opinion is greatly enraged to-day over the movements of the bay steamer Ssusu. It seems that the contracting company pays little attention to the regularity of passenger and freight traffic and more for the benefit and accommodation of the Fortune Bay public, the boat being taken out of her schedule run and sent to Sydney for bunkers to return skipping a number of prominent Western ports, greatly to the detriment of coastal trade. The Ssusu on her way from Sydney passed by Harbor Breton yesterday where a large amount of freight and mail to say nothing of passengers, awaited her arrival. Surely this is an absurdity to think that the public of this Bay can swallow this sort of treatment. We would ask our member to insist upon the people having fair play and justice in this particular, and we shall agitate until this is done, as this state of affairs is not tolerated in any other civilized country, and we would further demand that the Government prevent a repetition of this outrage. Wake up, Fortune Bay, and insist upon your rights and prove in your actions that even you in this twentieth century expect progression and not stagnation.

A Land Scandal in Placentia Bay.

Editor Evening Telegram.
Dear Mr. Editor.—A great injustice has been done the people of Placentia Bay by Messrs. Devereaux, Howley and Morris in their giving away the bits of timber land left in this great fishing bay. Every fisherman in Placentia Bay knows that there is only two patches of timber in the whole Bay, one is situated in Great Sound and the other at Paradise Sound; every fisherman knows that in fact they are the only places where timber for a boat or timber can be cut. In the year 1900 Mr. William Coffin of Haystack petitioned the Governor in Council for the timber land on Great Sandy Hr. River. When the land in question, because of it being the fishermen's reserve. Now what has happened? A Mr. Bernard McGrath, a schoolmaster, from King's Cove, has secured from the Government not only all the land on the Great Sandy Hr. River but he has also secured a grant for all the timber areas of Paradise Sound. So that the fishermen's rights to the only two bits of timber land in this bay is granted to a King's Cove man for purely speculative purposes. Where was Mr. Howley when our rights over these lands were being bartered away? Where was Mr. Devereaux? Where was Sir Edward Morris and Mr. Frank Morris when this sacrifice took place? Both Sir Edward and Mr. Frank know the value of Sandy Hr. River and Paradise Sound woods to the fishermen of this Bay. Why did they not insist on protecting the fishermen's rights. These two strips of land were worth hundreds of thousands of dollars to the fishermen of this bay for firewood, masts, and scrub building material. This a cruel injustice to rob the poor of their rights. Although, Mr. Editor, we can never get back our lands, we can remember the men who gave them away. Child ren yet unborn will remember that Devereaux, Morris & Howley, de spoiled them of timber lands that was handed down to them from their forefathers.

Upset Stomach and Indigestion

Heartburn, Gas, Sourness or Dyspepsia ended in five minutes with "Pape's Diapepsin."

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know it is needless to have a bad stomach.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy, should one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night it is there to give the quickest, surest relief known.

A FIRE ALARM.—At 10:05 a.m. yesterday an alarm of fire was turned on from Box 32, for a fire at Jas. Forsyth's residence, Barter's Hill. Some of the children while playing with matches fired the curtains in one of the rooms. The western and central firemen were quickly on the scene, but the blaze was extinguished promptly and little damage was done.

Gas is Coal With the Trouble Taken Out.

Gas is really nothing more than coal, only with gas you have the coal less the dirt, ashes and smoke. These have been taken out by the Gas Company. The weight, too, has been taken out for when you use gas you don't have to carry it up from the cellar in buckets, straining your back in the attempt. All of the drudgery has been removed. The Gas Company has taken everything out of the coal but the heat—and that's the one thing you want. This they deliver to you right to the burner of your range. You only have to turn a tap and strike a match in order to have it.

If your mind is half made up to buy a GAS RANGE, remove the remaining doubt by thinking of last summer and the many days when your kitchen was like a burning furnace. The gas range never overheats the kitchen.

Phone the Gas Company, or call at their showrooms and get full particulars.

Fine Motor Vessel.

At 11.30 yesterday there arrived in the harbour a very pretty little ketch owned by the firm of Alan Goodridge & Sons, Ltd., and named the "A. F. Goodridge" after the principle of the firm. The arrival of the vessel, which is rigged as a ketch, brought hundreds of people to Goodridge's and contiguous wharves to view and indeed she is well worth seeing. The ketch was built at Exploits by Thomas Winsor & Sons, her lines are very pretty and she is a vessel of about 50 knots. She left Exploits Friday morning and will be measured and registered this week. She will be used in the general trade of the country but particularly for freighting fish from the Southern Shore to St. John's. The ketch carries a foresail, mainsail and jib and is fitted with a "Gleason" kerosene motor of 36 horse-power which gives her a speed of at least 7 knots. She left Exploits Friday morning and her motor was kept working all the way here. Though she had head winds all through and bad weather she made a good run up. She lay under the lee of Cape St. Francis all Saturday night it being too thick and stormy to run. There is a fine spacious deck house aft for the engine and the accommodation of her four men of a crew is forward, this is a nice spacious compartment with berths, is well ventilated and lit and is very comfortable for the captain and crew. She is straight stemmed and substantially built and is undoubtedly the finest craft of her kind ever turned out in Newfoundland. We congratulate the owners on their enterprise.

One Dose Relieves a Cold--No Quinine

Pape's Cold Compound cures cold and grippe in a few hours.

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, dullness, head and nose stuffed, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, without interference with your usual duties and with the knowledge that there is nothing else in the world, which will cure your cold or Grippe misery as promptly and without any other assistance or after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—accept no substitute—contains no quinine—belongs in every home. Tastes nice.

An Important Matter.

At the meeting of the Municipal Council Friday, Councillor Mullaly called the attention of the Board to the fact that the S. P. C. had appointed Mr. Bastow to look after cruelty cases. The Councillor hoped that the Council would help this official in every possible manner and enforce rigidly the regulation that every teamster should have the name of the owner on his cart for purposes of identification. Mayor Ellis remarked that this matter came within the province of police duty when the Councillor asked that the attention of Inspector General Sullivan be drawn to the circumstances, having not the slightest doubt that Mr. Sullivan will see to it that the regulation will be strictly enforced.

Boys Steal \$8.00

One of the porters on the Bruce express which arrived here Saturday asked two boys to bring his grip and valise to his boarding house directing them where to go. The man did not accompany them but on their way the boys—who had been up for larceny before—went to a secluded place, went through the luggage and found a panis with the sum of \$8 in the pockets and appropriated the money to themselves. When the owner arrived home he found the money missing, acquainted the police and they arrested one of the boys Saturday evening and were hot on the trail of the other yesterday.

FROM PHILADELPHIA.—The S.S. Hippolyte Dumé's, Capt. A. Hensen, arrived here at 5 p.m. Saturday after a run of 5 days, coal laden to Crosby & Co. She left there Monday last and had it very rough the first two days out but fine afterwards. After discharging she loads fish for Alicante and Naples.

SOFIA, Oct. 20. The Turkish town of Mustapha Pasha has been taken by a Bulgarian Army Corps, which is marching on the rest fortresses of Adrianople. The Turks were repulsed all along the line. The Bulgarian troops also crossed the frontier at other points, and captured the small towns of Garla, Dymna and Tesrevsalo. Other columns of Bulgarian troops penetrated the pass through the Rhodope mountains and marched across the frontier into Turkish territory. The advance of the Bulgarian Army on Mustapha Pasha was watched by King Ferdinand of Bulgaria, several princes and General Savoff, Commander-in-Chief of the Bulgarian Army, from the heights of Belitza, on the frontier. The Bulgarians occupied one after another of the fortified positions around Mustapha, which itself finally fell into their hands. After the battle, King Ferdinand congratulated the troops and decorated many of the wounded men.

MANILA, Oct. 20. A typhoon, which swept several islands in the Philippines group on Oct. 16th, caused many deaths and damage to property. A telegram received here by the military authorities estimates 400 killed by the storm in the island of Cebu. The typhoon was of hurricane force, and levelled thousands of houses. Vessels were swept ashore and sunk, and the crews drowned. Reports from the Island of Leyla are to the effect that two thousand houses were destroyed, as well as large quantities of hemp and sugar. The damage there is estimated at a million dollars. Warwick Barracks on the Island of Cebu is badly damaged. The total damage is placed at \$25,000,000. Five coastal steamers were driven ashore and wrecked, while a hundred small sailing vessels sunk. Army, Navy and Government are taking measures for relief. Apparently there were no casualties among foreign residents.

Under Farewell Orders.

We understand that Ensign and Mrs. Hargrove of the Salvation Army are under farewell orders. About one year and a half ago Ensign was appointed to the command of the No. 1 Corps, and since then all around improvement has taken place. The Ensign and his wife have shown themselves energetic workers and no branch has been neglected, with the result that the No. 1 band is now one of the finest musical combinations in the city. While the young people's work is perhaps second to none, a junior brass band has been organized, a songsters brigade formed, and about 30 new members enrolled. 100 adherents made, and the congregation has been increased until the Citadel which has a seating capacity of one thousand, has a regular service on Sunday nights standing room is at a premium.

Open air services, 390 have been conducted, while exclusively of meetings for young people, 640 indoor meetings have been held with a total attendance of 133,338. Over one thousand persons have professed conversion, including the worst drunkards in the city; over 1,500 hours have been spent in visiting by himself and cadets and 8,000 people have been visited by the Ensign and his wife. The Ensign is a Canadian by birth and is a member of St. John's Lodge, A. F. A. M., also of Leaning Lodge, L. O. A. and by his genial manner and upright character has made for himself many friends in both societies, who with the citizens generally will deeply regret his removal. The farewell meetings of the Ensign and his wife takes place at the Citadel on Sunday next.—Com.

IN THE YEAR 1932

how much will you have accumulated at your present rate of saving? Most men will have little or nothing saved if conditions are at all similar to those of to-day.

Every provident young man appreciates the wisdom of accumulating for his own benefit at least, and looks forward to an old age of comfort and enjoyment relieved from want and worry. And every thoughtful man endowed with manhood feels that a duty rests upon him to make some provision for others dependent upon him.

The safest, simplest and most profitable way to accomplish all this, and to be sure of a snug competency by the year 1932, is by investing in a Canada Life Endowment Policy for \$5,000 or \$10,000, according to your means and requirements. The policy can be bought on easy instalments and facilities are provided to assist in carrying and enjoying the insurance.

Send in your name and age and let us submit to you a good proposition.

ATHENS, Oct. 20. The Greek Army, under the command of Prince Constantine, after four hours fighting to-day, dislodged the Turkish troops from strong positions commanding Ellassona, on the Grecian frontier. They then occupied Ellassona. Two battalions and two batteries crossed the Arta river into Epirus and occupied the heights of Grimbeno. Detachments of Cretans have arrived at Athens.

VIENNA, Oct. 20. According to late advices from Podgoritz, two thousand Turkish irregulars, proceeding from Plava to Berana, to attempt the recapture of that city, were ambushed by a strong detachment of Montenegrins. After a desperate fight, in which many of the irregulars were killed and Sahil Bey, the Commander and 280 men were captured, the irregulars were routed.

CETTINJE, Oct. 20. It is officially announced here that the Montenegrin forces captured the town of Plava, yesterday. The battle lasted two days.

The C. L. B. mustered out in large numbers yesterday forenoon and paraded to the 9.30 a.m. Service at St. Mary's Church, South Street. The Battalion was in command of Lieut.-Col. Rendell, and the Service was taken by the Chaplain of the Brigade, Rev. H. Uphill, who also preached a very eloquent sermon. After Service with the band playing excellent marches and quicksteps the Brigade proceeded down Water Street, past the Church and by way of McBride's and Long's Hills. The lads presented a very smart appearance.

C. C. C.

Yesterday morning the C. C. C. under command of Lieut.-Col. Conroy and Major Donnelly, paraded to Last Mass at the Cathedral. The celebrant was Fr. O'Callaghan. After Mass ranks were re-formed and the Battalion returned to their Armory via Military Road, Cochrane Street, Water Street, McBride's Church and Long's Hills, the band discoursing delightful selections along the line of march.

St. Michael's Church.

Yesterday was observed as a day of special intercession on behalf of the Sunday schools of the diocese, the services as usual being chiefly Eucharistic. The "Holy Sacrament of the Altar" was celebrated at 8 o'clock, where a large and devout congregation made their communion. The chief service of the day was a High Eucharist at 11 o'clock, sung to Merbeckes Mass Music, the celebrant being the Rev. J. Brinton, priest in charge, assisted by the Revs. G. H. Maidment and T. E. Loder, as deacon and sub-deacon respectively. The sermon was preached by the Rev. Brinton, who spoke at length on the beneficial results which can be obtained through the Sunday School, and sowing seeds of faith which in later years will be developed and bring forth good fruit. A special service of intercession was held at 4 p.m., the Rev. Loder officiating, who also gave a masterly sermon on the "Worship of the Holy Spirit." Evening prayer was sung at 6.30 by the Rev. J. Brinton, the preacher being the Rev. G. H. Maidment, who delivered a powerful address on "The Church." The Premier's message was based on "This is none other than the House of God, this is the Gate of Heaven," from which he brought out some striking illustrations from the benefits obtained through a proper use of the Church, and whereby people can be nourished by Catholic Sacrament. Benediction was pronounced by the Rev. J. Brinton, which brought the day's proceedings to a close.

An Impressive Sermon.

Rev. Fr. O'Callaghan who celebrated 10 o'clock mass at the Cathedral yesterday preached an eloquent and effective sermon. The Rev. gentleman animatedly spoke on the scenes occurring on the streets daily and nightly when vice is rampant. Anyone passing our principal thoroughfare and contiguous streets could not but feel ashamed of the drunkenness which on all sides meets his gaze. The city, the Rev. preacher said, was seething with intemperance and the longes of those who indulged their propensity to inordinate drinking were refugees of misery and degradation. The innocent wives and children suffered for the want of the gully, husband and father and want and squalor were attendant upon his conduct. Hardly a step could be taken on the city streets but the most horrid blasphemies were heard and it would appear as if depravity was in the ascendant. The reverend gentleman closed his discourse with a touching exhortation to those who had been leading sinful lives to come to the sacraments and implore the mercy of an offended God and to beg of him the grace to overcome in future the temptations of the evil one.

What is the West End coming to? Is it to be a dumping ground for the whole city of St. John's? It is looking more and more that way, when car loads of debris of the flimsiest nature are deposited within two feet of the portion of the Long Bridge, where thousands of people have to pass to and fro from work and especially on Sundays, when about 450 children have to pass that way to school. Therefore if it has to be in the future as it has been in the past, a positive dumping ground, it will have to be covered with lime or carbolic acid or some such disinfectant before an epidemic starts in the West End that will cost the Government or Council a mint of money to try to wipe out. Prevention is better than cure. Do much duty Council or Government. See to it immediately, before it is too late. "Health means happiness."

Special Evening Telegram.

Dear Sir,—In the report of the proceedings of the Municipal Council published in Saturday's paper, I notice that our respected townsmen, Mr. Fred Fitzpatrick, made an offer to the Council of the right of way through his land running from Gear Street to Freshwater Road, and also offers five hundred dollars towards defraying the expense of grading the new thoroughfare.

This in my opinion is an offer of such great importance to the working classes that the Council should lose no time in accepting it. I understand that this land will be capable of providing sufficient space to erect about one hundred comfortable houses on, and being in the most healthy part of the city would certainly prove a veritable blessing to our working class who to-day cannot procure healthy houses in which to live. All Mr. Fitzpatrick asks is that the Council lay sewerage and pay the balance which the grading of the street may cost; and now that the housing of the working class is occupying the attention of our public men, I trust that the Council will not allow this offer to slip from their grasp, but on the contrary that they will get busy and show the working class that they are really in earnest and know a good thing when they see it. Mr. Fitzpatrick intends if the Council accepts his offer, to erect a couple of houses each year which will be sold to the tenants who occupy them on the easy payment system. A capital idea, for instead of a man paying house rent all his lifetime, as is now the case, in a few years under Mr. Fitzpatrick's idea the tenant will become the actual owner of the house he occupies.

Now, gentlemen of the Council, the workmen are deeply interested in this matter, and we look forward with eagerness to your accepting Mr. Fitzpatrick's generous offer. We are talking long enough about "Housing the poor," now let us act.

Yours sincerely,
PROGRESS.

Klark-Urban Co.

Though Saturday night is the busiest of the week the Casino Theatre was filled for the reproduction of "Raffles" and again the Klark-Urban Co. did justice to one of the best dramas in their repertoire. Each lady and gentleman of the combine were in excellent form and received unstinted applause. In the specialty line the Royalty trio in the "Lilliput" set brought down the house; the juggling and slight hand features were fine and Billy Webb's comic songs and dancing created hearty laughter and won much applause. To-night with a special scenery "Northern Lights" will be the bill and should pack the house.

Agricultural Society.

The Agricultural Society held their third quarterly meeting in the British Hall Saturday, Vice-President E. J. Snow presiding. There are 6,129 animals needing hay for the winter and it was decided to order hay from immediately. The purchasers can deal with the Bank the same as with the seed potatoes. The question of having better roads was discussed and the Board of Works Department will be conferred with. Machinery for planting and digging potatoes were imported. The meeting closed after some minor business was discussed.

Holy Name Society.

The monthly meeting of the Holy Name Society was held yesterday afternoon in their rooms, fifteen new members being added to the roll. Preceding the meeting Benediction of the Blessed Sacrament was imparted by Rev. Dr. O'Callaghan, who was elected Spiritual Director, replacing Rev. Father Sheehan, who has gone to Renova. Fr. O'Callaghan delivered a very eloquent sermon on the respect which is due and the veneration which should be observed for the Holy Name of the Redeemer. There are now over 400 members on the roll, and he hoped soon to see the day when many thousands would be members of the Society. A new billiard table will shortly be installed in the rooms.

**That Sensation on
The Lake Simcoe.**

No further particulars have been received concerning the alleged murder reported to have been committed on board the Lake Simcoe in which seaman Sears is the victim and seaman Duke the slayer. Friends of both are anxious about the affair but are in a quandary as to whether they can believe the story. It seems that little authentic is yet known, although it is true that the owners of the vessel did receive a cable from the captain acquainting them that the sensational happening did take place on board, but would not give it out for publication. All they did say was that the man had died on the passage, but nothing further.

**Daughters
of Empire.**

The Daughters of Empire held their annual meeting Saturday afternoon. The election of officers resulted thus: President, Mrs. A. Macpherson; 1st Vice-Pres., Mrs. K. R. Prowse; 2nd Vice-Pres., Mrs. V. P. Burke; Secretary, Miss Margaret Furlong; Treasurer, Mrs. H. Rendell; Camp Secy., Miss A. Hayward. The Treasurer's report showed a balance on hand of \$200. The Camp Secretaries report was read and proved to be interesting. Eight patients were treated the past summer, all showing good progress. The four patients sent by the A. P. C. are improving despite the unfavorable weather. Votes of thanks were passed the retiring officers, Miss Hubeley, the Nurse Superintendent; and to the visiting physicians, Drs. Rendell and Scully; also to Miss Annie Hayward, for the carrying on of the camp. At the suggestion of Dr. Grenfell, a committee was appointed to conduct the girls department. So far nothing has been arranged until the Mission Station is appointed. The results obtained in the camp were satisfactory. The camp will probably continue up to the Christmas season, as the funds are forthcoming to keep it going. This date last year the camp closed down. A most interesting address was delivered by Dr. Rendell who has just returned from a trip abroad. He had been particularly impressed with the work of the ladies of the charity organization association in the Old Country, explained its aims and objects and thought that the D. of E. should form a sub-committee to perform similar work in the tuberculosis movement. He thought that in connection with the charitable work of the various churches the sub-committee could be organized with a member from each and when a case of consumption was reported from any denomination the aid of the charitable societies could be enlisted for the family of the stricken person. He hoped the ladies would continue their good work. By attending to the homes of sufferers from consumption they could prevent the disease from attacking mothers and children by inculcating cleanliness and isolation of the sufferer. Next year when the sanatorium was in operation the camps will be put at the disposal of delicate mothers and children. With a hearty vote of thanks to the speaker the meeting closed.

Hospital Changes

Several changes in the General Hospital staff have been arranged and will come into effect shortly. They are as follows:—Miss Bowden to be Assistant Superintendent of Nursing Staff. Miss Cullinan to be X-Ray operator and Anesthetist. Miss Powell to be Matron, taking the post hitherto held by Miss Hannaford. Miss Redmond to be Night Superintendent. Miss Cashin to be Matron of the New Nurses' Home. Miss Southcott, who was indisposed, has resumed duty.

**Injuries
Prove Fatal.**

Saturday Hon. R. Watson, Colonial Secretary, had a message from the proprietor at Northern Bight, saying that Wm. Peddie of Little Heart's Ease, who met an accident by falling among the machinery in a saw mill there, had died from his injuries. He was taken across the Bay to Heart's Content after the accident and Dr. Anderson did all possible for him, but to no purpose. The man had been fatally hurt. Much sympathy is expressed for the poor fellow's relatives.

**Theory as
to Wreck.**

The theory which many fishermen hold as to how the schr. George May was lost, is that she tried to make the light at Baccalieu in order to run up into Trinity Bay, and that in getting abreast of the Island her spars were carried out of her in the storm and she was then helpless and swept to her doom on the Island. It is possible that the crew took to their boats but that she was quickly swamped in the high sea running.

AN APOLOGY.

Given by Mrs. Farrel, Operator, of Ferryland. I hereby apologise to Mrs. Josie Furlong, of Ferryland, for anything which I may have said that in any way reflected upon her character, and in particular concerning her conduct whilst she was in the employ of Mr. John Windsor. There is not the slightest foundation in fact for any such slanders, and I know absolutely nothing that in the least degree would warrant me making the charges complained of. I regret having caused any annoyance to Mrs. Furlong or the members of her family.

W. FARRELL, Ferryland, Sept. 26th, 1912.—ad.11

**Nomination
of Officers.**

The Star of the Sea Association held nomination of officers yesterday as follows:—Pres., E. M. Jackman; Vice-Pres., J. T. Martin; 1st Asst. V. P., John Holden; 2nd Asst. V. P., John J. Lacey; Treas., J. I. Vinnicombe; Asst. Treas., James Kelly; 1st Inst. Trustee, John Byrne; 2nd Inst. Trustee, John Murphy; Grand Marshal, R. Buckley; Secretary, W. F. Graham. The election will be held on Sunday next.
