**BEAVER FLOUR**  
All this talk about Western wheat flour being "pastry" flour, is just plain talk. Anyone who knows anything about wheat, knows that Western wheat flour cannot and does not, make as good Pastry as "Beaver" Flour. Western wheat has what the bakers call strength. It makes a big loaf of bread—but the bread is spongy and lacks flavor. Ontario wheat, blended with spring wheat, makes the ideal bread and pastry flour. The bakers of Toronto and London—the experts at the agricultural colleges—and thousands of homes in Ontario, Quebec and the Maritime Provinces—have proved that "Beaver" Flour is superior to any Western wheat flour, and is equally good for Bread and Pastry. Try it. DEALERS—Write us for prices on Feed, Coarse Grains and Cereals.

CHAPTER XXXI.

"I shall be delighted, Lady Glynn. Shall I call for you?"  
"Will it be on the way? Yes, then do, dear. Please, Mrs. Grey, you will spare her to me as often as you can, will you not, while we are here?"  
The girls walked down with their little wicket-gate which opened on to the road, Shirley and Lucie in front, Captain Layton and Ada lingering a little behind; and at the wicket-gate they parted, the young officer bestowing an unconsciously long and lingering pressure on Ada's hand ere he relinquished it.  
"The rain is just beginning," Lucie said quickly. "You must have a cloak and umbrella, Lady Glynn."  
"We shall get home before it comes on," Shirley told her gayly. "Good-bye until to-morrow."  
"Lady Glynn," Captain Layton said in a hesitating manner, as they walked on rapidly, for the rain had already begun to fall in slow but heavy drops. "may I accompany you to-morrow?"  
"Ah!" she said, smiling. "Was I right when I said that they were nice girls?"  
"Right? I should think so!" exclaimed the captain. "They are the nicest girls I have ever seen."  
"Warm praise," Shirley said dryly. "Are you serious?"  
"I never was more so in my life," he answered warmly.

"Captain Layton"—Shirley turned to him earnestly—"I should never forgive myself if through me any shadow was to fall upon that happy home."  
The young man's face flushed slightly, but his eyes met hers earnestly and frankly.  
"I understand," he said quietly. "You need not be afraid, Lady Glynn. I think any man, whatever his rank, would be fortunate to win such a

**GIN PILLS Brought Relief**  
Larder Lake, Ont., March 26th.  
"I had been suffering for some time with my Kidneys and Urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the pain was something awful, and no rest at night.  
I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum 60 miles to get them and I am pleased to inform you that in less than six hours, I felt relief.  
In two days, the pain had left me entirely. I took about half a box and today I feel as well as ever and my kidneys are acting quite natural again."

cliff paths, rendered so slippery with rain, and his want of familiarity with the neighborhood all adding considerably to the perils of the storm. She could not drive the visions quite away; she tried, however, to dismiss her fears as groundless, as she placed Mrs. Beadesert gently back upon her cushions and went to summon her maid. But the pretty Frenchwoman had followed her mistress's example, and was "going from one faint to another," one of the servants said, and Shirley, rather impatient at such want of self-control, went back to her patient and asked her to undress and get into bed. The poor widow was too exhausted by her hysterical emotion to resist, and Lady Glynn was almost alarmed at her faintness and prostration, which made the disrobing process a long and difficult one. But at last it was accomplished, and the poor little trembling figure laid back upon the pillows, looking very unlike the brilliant little coquette of a few hours before.

"There—perhaps you will sleep now," Lady Glynn said soothingly. "But you seem so faint that I think I must get you some wine."  
"No, no, don't leave me; I shall die of terror!" moaned Mrs. Beadesert. "Oh, how terrible, how terrible!"  
It was indeed terrible. Shirley trembled from head to foot as peal after peal of thunder and vivid, awful flashes of lightning succeeded each other almost without intermission. Mrs. Beadesert clung to her in an agony of alarm, too frightened even to scream, until suddenly a shriek, so wild and piercing that it was heard above the din of the storm, rang through the house; and Shirley started to her feet, startled and awed, and trembling.

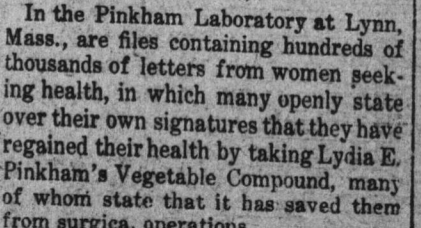

"Let me go; I must see what has happened," she said hastily, trying to disengage herself from the clinging hands.  
"No, no," Mrs. Beadesert tried to say; but her terror mastered her and she sank back in a dead faint upon her pillows, as Shirley went, as fast as her trembling limbs could carry her, out of the room, along the passage, and down the stairs.  
A group of men, gentlemen, servants, and a couple of fishermen, were standing together in the entrance hall, forming a circle around something which Shirley could not see, and on the faces of every one present was an expression of awe and shocked distress. As the sound of her light footfall broke the stillness, one of the servants looked up and the horror deepened on his face as he saw her.

"No, no, my lady," he said hurriedly, "do not come. For Heaven's sake let me go!" he added to Captain Layton "do not let her come."  
Captain Layton detached himself

**WOMAN'S MOST SUCCESSFUL MEDICINE**

**Known All Over The World—Known Only For The Good It Has Done.**

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.  
In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.  
Fox Creek, N. B.—"I have always had pains in the abdomen and a weakness there and often after meals a soreness in my stomach. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better and I can work with ambition. I have encouraged many mothers of families to take it as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM S. BOURQUE, Fox Creek, N. B.  
In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of whom state that it has saved them from surgical operations.

**The Quickest, Simplest Cough Cure**  
Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes 16 ounces of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.  
Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc.  
Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2 1/2 ounces of Pinex (50¢ cents worth) in a 16-ounce bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.  
Pinex is one of the oldest and best-known remedial agents for the throat-membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in galeate and all the other natural healing elements. Other preparations will not work in this formula.  
The prompt results from this remedy have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.  
A guarantee of absolute satisfaction. Money promptly refunded, goes with the recipe. Your druggist has Pinex, or we get it for you. If not, send to The Pine Co., Toronto, Ont.

from the group and turned toward Shirley, going to her like a man in a dream.

"Let me take you to your room," he said mechanically. "This is no place for you, Lady Glynn."  
"What has happened?" Shirley asked faintly, looking up at him with startled questioning eyes; but, before he could answer, another gentleman detached himself from the group and came toward her, his hands held out, and an intense compassion on his face.  
"Oh, poor child!" he said very gently, thinking of the awful blow in store for the beautiful young creature of whom his daughters had spoken so enthusiastically; and Shirley put her hands in his, looking wistfully at the gentle compassionate face with eyes like Lucie's.

"What is it?" she inquired faintly; and, as she pressed forward the group parted a little amid a sudden awful hush, and Shirley saw, lying still and motionless, with its face covered, a recumbent figure—a figure with a red rose, faded now, in the breast of its light gray coat, and an emerald ring on one nerveless hand. She looked at it in silence for one brief moment; then, with a little gasping sob, she put both her hands to her bosom and Mr. Grey caught her as she fell.

**9804. — A SIMPLE BUT STYLISH GOWN.**

Ladies' Costume.

Gray woolen poplin with trimming of green satin and fancy buttons. Is here portrayed. The skirt is finished with a girle of the satin. The bloused waist is closed at the side and may be worn without the chemisette. The close fitting sleeve has a neat cuff. The new plaid or checked suitings would lend themselves nicely for this style, which is also desirable for velvet, corduroy, eponge, prunella, serge or broad cloth. The Pattern is cut in 6 sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 6 yards of 36 inch material for a 36 inch size. A pattern of this illustration mailed to an address on receipt of 10c. in silver or stamps.

**9810. — A BECOMING YOUTHFUL DESIGN.**

Costume for Misses and Small Women, with or without Chemisette.

This model was used for a simple party frock of blue crepe de chine. Brocaded silk in Persian tones forms the girle, while shadow lace and net trills add a neat touch to neck and sleeve finish. The design is suitable for serge, albatross or cashmere. It will also lend itself equally well to velvet, charmeuse or satin. The drop shoulder and yoke effect are good style features. The pattern is cut in 4 sizes: 14, 16, 17 and 18 years. It requires 5 yards of 44 inch material for a 16 year size.

## THE EASTERN TRUST COMPANY.

The business of the The Eastern Trust Company is to administer trusts. In this work it specializes, and it does no other. But no trust is foreign to its scope or beyond its power to administer.

The Eastern Trust Company never speculates. It invests. It demands for its property upon the efficiency of its management of its business and upon the security of its investments.

The Eastern Trust Company executes the office of executor or administrator with unexampled efficiency, and its usefulness in this regard is becoming rapidly more availed of.

For instance—in St. John, New Brunswick, where it has quite recently established a branch, the estate of James Ready, of Fairville, which has been sworn to under \$651,300.00, is being administered by the Eastern Trust Company as one of the joint executors of Mr. Ready's will.

In Halifax, Nova Scotia, again, The Eastern Trust Company has been chosen to administer the estate of Captain William Fleming, which is valued at more than half a million dollars.

The Company now administers many estates which in value amount to several millions of dollars. Particulars will appear in later advertisements.

The Eastern Trust Company can execute this function of executor or administrator as efficiently in Newfoundland as it can in Nova Scotia, Quebec, or New Brunswick.

## A Marathon Race Through Eden.

By RUTH CAMERON.

has finished.

The goal toward which most men struggle is enough money to live comfortably and to enjoy life. It seems to me that such a chase is like a Marathon race through Eden. In which every constant drop of sweat before he

of miles to Boston, and spend days viewing them. Living in Boston you prefer to ignore them, and wish you might go to Los Angeles.

We speak of the world as a world merely of human beings. The things that we want to travel and see are man made things, which while they differ in degree, do not in kind. I know of one rich man who, having exhausted the pleasures of travel—much more quickly than you will suppose—has returned to his home and found a new interest in life in his own backyard. He is exploring a new world—the world of birds.

With all that wealth can command at his call, he has found within himself the one thing that contents him and holds his interest—the study of the feathered architects and songsters that call upon him during different parts of the year. Something that all his millions could not buy him; something that if all his millions were swept away, he would still have.

You remember Stevenson's bugle call to happiness:

"This world is so full of a number of things,  
I am sure we should all be as happy as kings."

Now, Stevenson did not refer merely to automobiles, yachts, horses, jewels, houses and fine clothes—all man created things, but to those myriads of other interests, some man created, such as books, others God created, such as sunsets and dawns, sparkling seas, fields, flowers and forests and the hundreds of little creature worlds study of any one of which will open up new vistas of interest and happiness.

## Fashions and Fads.

Tango is the name of the new fave color.

Artificial silk will be much used with white voile.

White buckskin shoes are already in the shops.

Nightgowns of pink and blue batiste are in favor.

Satins, it is promised, will retain their vogue for spring.

One of the great spring novelties is plaids in pastel shades.

Soft, sheer organzies are being taken up for embroidering.

Cashmere shawl designs are coming back with printed taffetas.

One popular new blouse has the back, sleeves and front yoke all cut in one.

Baroque pearls ornamented with jeweled wreaths make charming hat-pins.

Checked skirts with solid colored coats will be much seen among spring suits.

The best tailored shirts for sports wear are those with an extra large armhole.

Filter bands with jet are among the newest trimmings and are a French idea.

With some of the new coats a four-in-hand tie of thick white chevot, is worn as a muffler.

There is no diminution in the liking for rathine; if anything, it increases in popularity.

The styles and materials which "trim themselves" are best to choose for children's dresses.

For negligees, the favorite colors are canary yellow, green, blue, pink, coral and poppy pink.

Figured designs appear in the new moultre silks, either with or without the watered effect.

The boudoir caps are now worn with any type of negligee dress, from bed jacket to tea gown.

## Twice Proven Cure for Nerves

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health.

There is a message in this letter for thousands of women who are suffering from broken-down nervous systems. Sleepless nights, much irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms.

You may not realize the nature of your ailment until nervous prostration comes upon you. But in whatever stage you find yourself, Dr. Chase's Nerve Food is ready to help you.

Mrs. W. J. May, 88 Annetto street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I began to use the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well."

Dr. Chase's Nerve Food, 40 cents a box, 4 for \$2.50, all dealers.

ton waists are of plain white voile with tiny self-pleatings.

Washable tulle blouses, prettily embroidered and lined with some faint color, are quite enchanting.

Emerald green velour with blurry black checks is being used for the new pleated skirts for sports wear.

It is said that we shall see a great many novelty caps worn over light gowns as the spring advances.

Lamp and candle shades, hand-painted in vivid colors on silk or paper, are one of the newest fads.

Some of the new tulie and baiste lingerie gowns have foundation skirts which suggest Turkish trousers.

Tuscan is a favorite color for the new one-button kidskin gloves. With black embroidery it is very effective.

The best choice for a really elegant tea gown is black or dull velvet, with metal embroidery or silver lace.

## Mr. Grace Notes.

A number of brethren of the Masonic fraternity was in town during the week taking part in the installation of the officers of Lodge "Harbor Grace," for the present year.

Mr. M. Tobin caught a silver-hair fox in one of his traps early this week. The animal had apparently been trapped before as a wire was tightly fastened around its body, and it could not have lived much longer, had it escaped this trap. It perished shortly after the lucky huntsman brought it home.

Mr. Arch Munn and Mr. Alex. Bryden were here during the week and received as usual a great many hearty handshakes from their friends who are numerous.

The outdoor skating rink was opened to the public yesterday afternoon and night. The admission to the fine sheet of ice is free, and in one respect at least are a step ahead of St. John's. For this opportunity of enjoying this very healthy pastime the skating public are indebted to a few young gentlemen in town, who seeing it was too late this season to build a rink thought out this next best plan for this year. We hope the public will show their appreciation by attending whenever convenient, as well as by protecting the ice, and in every way assisting the children to enjoy this pleasure placed within their reach by the thoughtful young men mentioned above. You are deserving of the thanks of the whole town, gentlemen.

A pretty wedding took place at the home of Mrs. Nicholas Fitzgerald, on Sunday evening, January 18th, when her daughter Miss Clara Fitzgerald, was united in holy matrimony to Mr. Frank T. Bateman, of Leeds, England, now one of the Cable Staff at Bay Roberts. The ceremony was performed by Rev. Father Walker, of the Cathedral. The bride was attended by her sister, Miss Margaret Fitzgerald, and the groom was supported by Mr. S. J. Thomey. The groom's present to the bride was a gold watch and to the bridesmaid a

Healthy and Un-

healthy Lighting.

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not viliate, nor does it purify. Hear what three eminent men have said:

Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this, amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson B. Barry.

He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Duffield, before the Society of Medical Officers of Health.

I have in my mind's eye, at the moment, a hall which in the old days, was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the advent of civilization, had its illumination changed from gas to electricity. The latter had been employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Walter D. Lewis, Professor of Chemistry at the Royal Naval College, Greenwich.—Nov. 14.

**REVENUE FALLS  
A QUARTER MILLION.**

**Expenditure Increases Two  
Hundred Thousand Dollars**

It will be remembered that the most striking feature of the Governor's Speech was the statement that the revenue for the six months ending December 31st, last, did not come up to the expectation of the Government and that steps would have to be taken to bring the revenue up to the expenditure, in other words, that more taxes would have to be put on.

In answer to a question of Mr. Kent, the Minister of Finance tabled a statement showing the revenues and expenditures for the first six months of the fiscal years 1910, 1911, 1912 and 1913, and by that means let the House into the secret of the shortage. How the revenue has dropped may be seen from a comparison of the revenues for the six months ending 1912 and 1913:

1912	\$1,920,323.36
1913	1,667,034.72

This shows that there is a shortage of \$253,288.64 in the six months revenue of last year as compared with

that of the year before, or reckoned at the same rate for the whole year would be about half a million dollars. One would have imagined that with a short revenue coming in during those six months, the Government would have been as economical as possible with the expenditure. But the spending in six months of more than the whole twelve months grant of \$40,000 for agricultural purposes, shows that this shortage did not make the Government halt, and the general expenditure for the last six months was considerably greater than in the corresponding periods of 1910, 1911, 1912 and 1913. We will give two years for comparison:—

1912	\$1,426,783.64
1913	1,624,039.27

In other words, while the shortage in revenue for the corresponding periods shows a disadvantage of over \$250,000, the amount spent is nearly \$200,000 more. Such is the Morris Government financing.

**Hon. James S. Pitts, C.M.G.,  
Died This Morning.**

We chronicle with regret the death of the Hon. James Stewart Pitts, C. M. G., who passed away early this morning after a long illness from a disease under which he had been suffering for a considerable time. Mr. Pitts passed his 66th birthday on November 14th, being born in 1847, and was educated in the city. He commenced his business life as a commission agent and has interested himself largely in many local industries, such as tobacco, soap, nails, and boot and shoe manufacture. He also was largely interested in banking, shipping, sealing and whaling, coal importation and many other commercial and industrial enterprises. His success in business and in his investment placed him prominent in the front ranks of our well-to-do business men. He interested himself largely in educational and church work, and was probably the most munificent supporter of the Methodist College, of which he was Chairman, and the Methodist Churches of the city. But his benefactions were by no means confined to his own denomination. Mr. Pitts also took a keen interest in the public affairs of his native country. For over thirty years he was

a member of the Legislative Council, being appointed a member in 1883 and his death creates another vacancy there. For many years at different periods he has also been a member of the Executive Council. He first entered the Executive in 1888 during the Thorburn Administration. In 1894 he was again in the Executive under Mr. Goodridge. In 1897 he joined the Executive as a colleague of Sir James Winter, and when Sir Robert Bond became Premier in 1900 he was invited to join that administration and remained a member of it, until the resignation of Sir Robert in 1909. His knowledge of the trade of the country and his financial experience and acumen made him a most valuable member of any administration. Since his retirement from Executive responsibility in 1909, the pressure of business and increasing ailment diverted his attention somewhat from public affairs. His passing removes a figure who has played a large part in promoting the general business prosperity of the country, one who has been munificent in fostering the church and educational life of the community, and who has been liberal in devoting his time and talent to the public weal.

**ANNUAL MEETING OF  
THE BOARD OF TRADE.**

**Mr. John Munn Elected by Acclamation.**

The annual meeting of the Board of Trade held yesterday afternoon was largely attended. The chair was taken by President Gosling who called upon Messrs. Findlater and A. Munn, afterwards assisted by Mr. G. B. Williams, to act as scrutineers. He then made a brief reference to the annual report.

The adoption of the report was moved by Mr. Edwin Murray, who deplored the long delays caused by the present system of handling freight at the coastal wharves. The motion was seconded by Mr. Joseph Moore.

Hon. John Anderson referred to the good work done by the Board, and emphasized the further good work that would accrue from an increase of membership, which was an imperative necessity.

Hon. John Harvey made special reference to the Lobster statistics and considered the matter called for prompt and vigorous action.

Mr. W. A. Munn, though praising the report, and fully appreciating the work of the Board, was of the opinion that a closer concentration of effort in a few general directions was desirable. He also expressed his pleasure at the endorsement of the Daylight Bill.

President Gosling replied briefly to some of the speakers, and made reference to matters that were omitted from the report. He stated that he was an advocate of the exportation of pulpwood from Labrador, despite the opinions expressed by political parties and the press.

The various committees at work upon Municipal matters were faced with serious difficulties and needed the co-operation of the public for the success of their efforts.

Mr. J. J. McKay hoped that before adopting the report, the Council would survey the remarks made by Mr. Murray about the handling of freight at the coastal wharves and

hoped that a commission be appointed on similar lines to the Canadian Railway Commission. In this way matters relating to the transportation of goods by land and sea, could be satisfactorily arranged and, grievances arising therefrom promptly remedied.

Mr. G. C. Fearn dwelt particularly on the standardization of fish cull, and contended that beneficial results, to the fishermen and the colony in general, would arise from compulsory inspection. He showed that the correction of many of the irregularities now existing would increase the value of our fish in the foreign markets. The report was then passed, after which the Chairman announced the result of the election as follows:—

President.—J. S. Munn  
1st Vice-President.—C. P. Ayre.  
2nd Vice-President.—W. S. Monroe.  
Councillors.—W. G. Gosling, F. McLamara, Gordon Winter, J. V. O'Dea, H. E. Cowan, G. C. Fearn, A. McDougall, John Browning and R. B. Job, the four latter entering upon their second year as councillors.

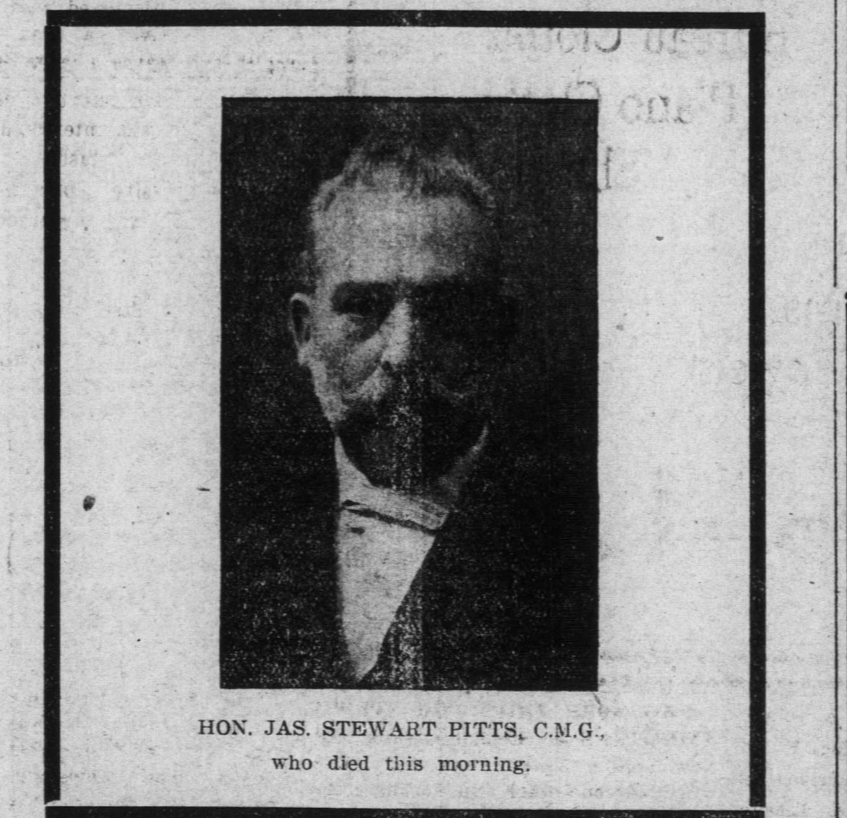

A selection of three others to complete the Board will be made at the first meeting.

Hon. W. C. Job made reference to the information on matters of local and foreign interest to be had daily at the Rooms and regretted that many of the members failed to take advantage of the opportunities offered.

The retiring President paid a tribute of praise to the newly elected President, to which Mr. Munn replied in appropriate terms.

Hon. John Anderson spoke of the usefulness of the Rooms as a meeting place for outpost members, and proposed a vote of thanks to the retiring President.

Mr. W. G. Gosling thanked all present for their appreciation of his efforts.

### Nickel's Fine Bill

Attracts Large Audience.  
The programme presented at the Nickel Theatre last evening was a very attractive one and gave general pleasure. There were six different subjects and all found favour with the audience. "Williamson's Anamsted News" was one of the best ever seen here. The other pictures were "Roderick's Ride," "How they got the

Vote," "And Old Fashioned Elopement," "Yosemite National Park, California" and "The Spendthrift's Reform." Mr. Rudolph L. Koch sang the beautiful love song, "Ah, So Pure" from Martha, which proved popular. His rendition was most artistic, and his admirers warmly applauded him. The programme will be repeated this evening.  
Young girls are wearing white velvet hats, the edges bordered with a fluted ruffle of moire ribbon.

**PATIENT FOR ASYLUM**—A woman named Hickey, from Paradise, P. B., who was married recently, arrived by last night's train to enter the Insane Asylum. Much sympathy is felt for her friends, and it is hoped that her stay at the institution will be short.  
**MORWENNA RETURNING**—The S. S. Morwenna which took a cargo of codfish to Pernambuco from here is now returning, and is set down to sail for New York on February 17th.

**TWO MORE TRIPS FOR STEPHANO**—The S. S. Stephano sails for New York to-morrow morning. She will make one other trip, sailing from here again on February 11th, and on her return will be put in readiness for the sealing voyage.

**FREE BOX**

To enable you to test Zam-Buk at our expense we will send free trial box if you will cut out this ad., and mail it with stamp and name of the ZAM-BUK CO. Toronto

Mrs. F. Gervais, of 126 Bleury Street, Montreal, writes—"My baby girl developed a bad rash on her body and it made her very fretful and ill. She would not take food, and seemed very sick indeed. From fifteen pounds, her weight fell away to nine and a half pounds.  
"I took her to a doctor who gave me a kind of lotion to use and I used it regularly, but the baby got no relief. The skin disease seemed to get worse and worse all the time we were doctoring for it, so we took the child to a second doctor. He told me to stop nursing the baby, and gave me other advice which I followed, but the skin disease got worse and worse.  
"At this time a friend of mine visited us and, having seen the sad plight the baby was in, she said I did not know how to go about things. She took my baby to her home and applied Zam-Buk to its little body. This seemed to give the baby ease right from the first. It cured the sores and began to reduce the inflammation. I went on with the Zam-Buk treatment, and to my delight, within one week from first starting with Zam-Buk the child looked like a different baby altogether! Within a month the skin disease was cured completely, the baby's appetite had returned, and she was almost back at her normal weight. She now looks like the very picture of health.  
"There is another feature of the case. One of the doctors has just sent me in a bill for \$39! The treatment I got for that money left the child no better than before it was started. The cost of Zam-Buk treatment, which restored my child to health, was \$28!"

**WHY ZAM-BUK IS SUPERIOR**  
Zam-Buk is now recognized as the leading ointment, because in general practice it has been found to do more and give greater relief than any other ointment. There are many reasons for this. It contains certain rare natural oils. Zam-Buk is purely herbal. Most ointments contain a mineral cooling mixture. Zam-Buk does not. It has no ordinary base, but is a natural cream. It is not greasy and you will find it more effective. Zam-Buk is a skin, soothing, and it cures all at the same time. Try it. Mothers especially, should have it on hand for their babies, sores, etc. Zam-Buk is short of supply in all parts of the world. The only place in Canada and America, where it is sold, is at 111 St. John's Street, St. John's, Nfld. It is sold by mail, or by express, and for Price. All orders to be sent to the ZAM-BUK CO., Toronto, or to the ZAM-BUK CO., St. John's, Nfld.

### Judge Prowse

**DIES SUDDENLY.**  
The city had scarcely recovered from the shock of the death of the Hon. J. S. Pitts, C. M. G., when the news was spread through the city that another prominent public man had passed away. This was the veteran ex-Judge of the Central District Court, Daniel Woodley Prowse, C. M. G., who was found dead in his chair shortly before noon. The Judge had been ailing for some time, and fell down-stairs a few days ago, and was very ill yesterday. It is somewhat of a coincidence that our only two native C. M. G.'s should have died on the same morning. The Judge was born in 1834 in Port de Grave and was the son of Mr. R. Prowse, merchant and German Consul. He was educated at the Church of England Academy and at the Collegiate School, Liverpool. He was called to the bar in 1858, and represented Burgo and LaPelle in the Legislature from 1861-69. In the latter year he was appointed Judge of the Central District Court of the city and occupied that office until 1898 when he was pensioned. He completed a useful guide for Magistrates in Newfoundland, but his great work which obtained for him fame and brought Newfoundland into proper perspective in British annals was his History of Newfoundland, of which he was justly proud. In addition to this he wrote a Newfoundland Guide Book. He was indeed a most indefatigable writer and contributed largely to the outside and local press. He did good work in instituting the Bait Service in 1888 and as Chairman of Public Health from 1893-96. He was a strong virile character and rejoiced in a robust frame and was endowed with a pertinacity that recognized neither rebuff nor failure. In many public capacities, but especially as her historian he deserved well of his native land.

### Death of Mr. Pitts

The Hon. J. S. Pitts, C.M.G., had been suffering from an attack of diabetes for a considerable while, was only six weeks ago that his ailment reached a critical stage causing him to be confined to his room. Drs. Fraser and Macpherson were constantly in attendance. He passed away this morning at 4.30, despite the medical skill of his attending physicians. Deceased was 66 years of age. He was a man of great wealth and leaves a large estate. He is said to have left two and a half million. He was interested in every manufacturing industry, in fact, every progressive concern in this country. He was a Director of the Nova Scotia Steel & Coal Company and a large shareholder in the Dominion Iron & Steel Company at Bell Island and Dominion Coal Company at Sydney. He was a Director of the Bank of Nova Scotia, a shareholder in most of the sealing ships, in all the steel ships and was prominently identified with educational and church matters. The members of the Legislative Council, of which deceased was a member for many years, will meet to-morrow morning to pass an expression of condolence and make arrangements for attending the funeral. The late Mr. Pitts is survived by a widow, one sister, Mrs. Chesley Ayre, a number of nephews in St. John's and London, besides a large circle of other relatives and friends. The Telegram associates itself in the universal sympathy extended.

### Obituary.

**MRS. ELIZABETH CASEY.**  
A venerable and highly respected lady of the West End of the city, in the person of Mrs. Elizabeth Casey, relict of the late Patrick Casey, died at 9.30 a.m. to-day. The deceased had attained the age of 70 years, and had been ailing for some weeks past and the end was not altogether unexpected. She is survived by three sons and one daughter, Mrs. Campbell, now residing in the United States, to all of whom the Telegram extends sincere sympathy.

A coalition between Servia and Roumania to break up the Austro-Hungarian Empire in the event of its intervention in favour of Bulgaria during recent Balkan war was made by a secret treaty signed on June 10, 1913, according to the La Petite Republique which published the announcement without reserve. The newspaper says the arrangement was known to Germany and Russia who were to have shares in the spoils.

**LONDON, To-day.**  
The United Kingdom is again threatened with serious labor unrest. The Building Trades Federation, in addition to calling upon Plumbers, Painters and allied trades to strike, has also decided to favor the bringing about of a National Building strike. Should the recommendations of the Executive Council be ratified London's building industry will be brought to a standstill. There is no sign of a settlement of the coal carriers' strike. Trouble is also coming in the shipping world on the eight hour question and higher wages. Tom Mann formerly President of the International Transport Workers' Federation in a speech at Dublin, last night, predicted a general strike in England, in March involving Engineers, Boiler Makers, and Shipwrights.

### School Changes at Holyrood.

Mr. E. J. Morrissey, a successful teacher of First Grade, who taught at the North Arm for the past two years, has resigned his school to enter the business of Mr. Joseph Curran, Gambo, at a salary of \$55 per month. Mr. Morrissey is a teacher of nine years standing and has always given satisfaction to the Educational Board and Superintendent. This is one of the great drawbacks to our educational progress—the resignation of successful male teachers after nine years experience and all for the want of better pay. However we congratulate Mr. Morrissey on his appointment and wish him the same measure of success in his new profession as he had achieved in the old.  
Miss Bertha Kennedy, a bright young teacher of First Grade, who has taught at Newtown for two years, has been transferred to North Arm to succeed Mr. Morrissey.  
Miss Besale Mullenwey, a promising teacher of Second Grade, succeeds Miss Kennedy at Newtown. Miss Katie Hicks, the recently resigned teacher of South Side, who was married on Thursday morning last to Mr. Thomas Walsh, a miner from Montana, will be succeeded temporarily by Miss Bertha Bennett, a teacher of Third Grade standing.

### Burns' Anniversary.

**AT ROSSLEY'S.**  
The most beautiful sight and one to make the Scotch heart rejoice was seen at Rossley's last night when a crowded audience enjoyed a show such as they seldom get a chance of seeing, for it was simply perfection and did honor to the memory of Scotland's sweetest bard, Robbie Burns. The whole company, composed of 55 persons, were all dressed in Scotch kilts of different clans, and the songs and dances were fine. The plot itself is something entirely different to anything ever performed by the Rossleys before. Jack Rossley danced as he never danced before. The eight sword dancers came in for a big share of applause, while the two tiny mites when they walked on the stage with their swords brought down the house. Jack and Marie Rossley were cheered and applauded, and they deserve it for producing such an evening's entertainment. On Wednesday there will be a special matinee.

### At the House

Petitions were presented by Mr. Leggat, from Middle Cove, for a wharf at Conroy; by Mr. Coaker, for Cannin Cove, B.B., to be made a port of call for telephone connection and other matters; and by Mr. Targett, from Heart's Ease, for various purposes.

#### MR. KENT'S AMENDMENT.

Mr. Woodford continued his speech and occupied a large part of the afternoon. Mostly in a happy state of mind he got off a good deal of banter, except at intervals, when he was indignant at the remembrance of the petition against him and at the vision of Harbor Main, by the F.P.

He complimented Mr. Hickman on his speech and he was especially sympathetic at the idea that the question of fish prices had been settled for all time, because Mr. Hickman explained the effect of demand and supply on market prices. He noted also in seeming amazement the fact that the Agricultural Report to the effect that the distribution of seed and stock had effected improvements at places cited. At one time when Mr. Woodford was being affectionately at the Opposition a Prime Minister directed a look of indignation towards the Speaker, who stolidly taking it all in. But Mr. Woodford quietly sidled up to Mr. Woodford, apparently suggesting he should down Mr. Woodford, however, he after took his seat, to the intense satisfaction of his colleagues.

#### THE INDIAN MEAL YARN.

Mr. Jennings followed in a stirring and pointed address. Mr. Woodford argued them with being innocents, being led by one man. He took good place to no man who occupied a seat in the House for independence of opinion. He would like to see right prevail and although a poor man, there was not money enough in Newfoundland to buy his opinion. He was open to conviction and was anxious to learn, but wanted to hear arguments and facts and not statements. The previous speaker had indulged in personalities and of keeping to the questions before the House. In referring to the agricultural policy of the present government, Mr. Jennings said that the people of Twillingate were dependent upon the vegetables raised that section, they would be all long ago. For the past three years he had been in touch with the people of Twillingate more than any other man and he never heard any approval of the Agricultural policy. If the policy was a good one there was unequal distribution. Twillingate was not receiving its share. In referring to the revenue, Mr. Jennings asked why were not duties taken off the articles used by the fishermen. They were under the impression that every man in the country used flour, sugar and tea. The duties taken off sugar and tea were not alone a benefit to the fishermen but to the country at large. The Minister of Finance had no justification for throwing it on the fishermen. The Minister of Finance, in defence of what had done, said that thirty years greater duty was collected on Indian meal brought into the country than flour. Mr. Jennings stated that statement. In his

45 years experience he never saw a single family using Indian meal as an article of food, and considered the statement of the Finance Minister an insult to the people of the entire country. A little cross-firing then took place between Mr. Woodford and Mr. Jennings. The latter came out on top, and continued his remarks on the raising of the price of fish and in a practical way showed how the F.P.I. overcame the merchants and their combines and got a better price for the products of the fishery. He believed that the expenditures of the public monies on branch railways were more than the country could afford. If the building of railways means increased taxation, the country will be up against a stiff proposition. He (Mr. J.) had learned from Sir Robert Bond that in the not distant future this country will be in a bad state of financial embarrassment when the loans are called in and the money borrowed to build the branch railways will have to be paid.

Mr. Woodford. That won't be in your time. Mr. Jennings. Even if my time is limited, do I want to see my children overburdened any more than myself. The undeserved and degrading words spoken in this House of the people of Bonavista and Twillingate, will ever be remembered and live in the minds of the toilers for a long time.

#### A DOLLAR FIFTY A DAY.

Mr. Kennedy, colleague of the Prime Minister, was the next speaker. He referred with deep regret to the retirement of Sir Robert Bond, congratulated the Speaker, and told how the policy of the present government was being carried out, particularly the building of the branch railways, at which men were paid \$1.50 a day. He then began to tell of the price of fish and covered exactly the same ground as previous speakers.

#### BRIGUS BENEFITTED LITTLE.

Mr. Grimes followed. Working on the railway is not as pleasant as people imagine. As for the \$1.50 the laborers get, he pointed out that to make up for this wage the workmen are charged very high prices for food stuffs and other articles. He dealt with the Old Age Pension scheme next and suggested that in

view of the revenue being the largest in the history of the country that men 70 years old should get a pension; also provision in the same direction should be made for widows. It had been said by Mr. Kennedy that since the Morris Government assumed control of affairs every man in the country had a gold coin in his pocket. Mr. Grimes flattened this by showing that only a month ago three thousand people in this city were given relief by the Salvation Army, St. Vincent de Paul Society and other charitable organizations.

Mr. Bennett—These were the people who attended the Christmas dinner.

Mr. Kennedy. Some of them have bank books.

Mr. Grimes. That's insulting to the people of this country. Continuing he dwelt on the utterance of Finance Minister Caslin who termed the laborers of the north hillierges and village and that they never saw the school master. He stated that the law of supply and demand as referred to by Mr. Hickman, only affected the foreign market, but had little bearing on the local market. In reply to Mr. Moore, the junior member of the Southern Shore, who said that Coaker's picture was turned to the wall there, Mr. Grimes said you will always find a certain portion of the electorate who cannot look an honest man in the face. Concerning the Labrador strike he pointed out that Union operations did not extend as far as that, but it will be only a question of time when we will take in the Labrador coast as well as every other portion of the Island. He showed how the Union had reduced the price of flour and other necessities of life by the keen competition of the Fishermen's Trading Company. Regarding the Agricultural policy of the Government, he did not see in his district any results, no matter how insignificant, from it. The Government have not carried out any policy because if they had they would get employment for some of our industrious poor and thereby provide them with the comforts and necessities of life.

POLITICAL JOBBING.

Mr. Clapp followed, emphasizing the way he was being treated by the heads of the different departments concerning the district he represented. For the past five years he had been seeking such information but could not get it and because of being on the Opposition side of the House, he was practically helpless in the discharge of his duty to his constituents. He gave notice of question for the Hon. Colonial Secretary to lay upon the table of the House the tenders furnished for the carriage of mails in the winter from Cow Head to Daniel's Harbor. The reply he got was that the contract was awarded to Norman Payne, a supporter of the present Government. For 12 years Samuel Payne carried the mail. On enquiry from an official at the General Post Office, he (Mr. C.) learned that they had no fault whatever with Samuel Payne, but presumed for political purposes Norman Payne was given the job. The same applied to the carrying of the mails from St. Anthony to Quirpon, including St. Anthony Bigg, Big Braba, St. Leonard, Griquet, Noddy Bay and Quirpon. Mr. Henry Weir received instructions from the Postmaster General on Nov. 18th last, but because by Mr. Weir exercised his right in voting against the defeated Government member, he was dismissed and a man named John Peyton substituted. Dealing with the Agricultural policy, Mr. Clapp showed figures that only \$89.33 was allocated for the district of St. Barbe with its 10,000 people, while \$200 of the grant was given to Hr. Grace, with a population of 12,000 people. He had been accused of voting against the Bonne Bay Branch Railway Line, but said that the reasons he had already given cleared up this matter. He voted against the building of five railways as it meant such an enormous outlay. The Prime Minister had said to equip these railways would be done for \$4,000,000, whereas they cost \$6,000,000 already, and not one of them was finished up to the present. He would like to know whether it is the intention of the Government to construct the branch to Bonne Bay this summer or whether the Premier will go hat in hand to the Rieds to ask them to wait for a convenient season when he can go abroad to borrow sufficient money. Mr. Clapp said that the charge of the car ferry service from Bonne Bay to Bay of Island was a great set back to the people of his district. He showed how the lobster industry, one of our most important industries, was being neglected and pointed out how protected by stopping the present system of barring female lobsters in shallow coves where the sea washed up the fry which were eaten by the crows, and most of all by the abolition of the single lobster pots, which were placed inshore under ledges and were engines of destruction to the female lobsters.

#### COST TOO MUCH.

Mr. Targett spoke next intimating that he was in favour of railway building but that the contract cost of the government scheme came too high. He could not see why every member of the Government benches were getting up and regretting the absence of Sir Robert Bond when in the same breath they had in their campaigns accused Sir Robert of accomplishing nothing during nine years of office. The House then adjourned till to-day.

For the past five years he had been seeking such information but could not get it and because of being on the Opposition side of the House, he was practically helpless in the discharge of his duty to his constituents. He gave notice of question for the Hon. Colonial Secretary to lay upon the table of the House the tenders furnished for the carriage of mails in the winter from Cow Head to Daniel's Harbor. The reply he got was that the contract was awarded to Norman Payne, a supporter of the present Government. For 12 years Samuel Payne carried the mail. On enquiry from an official at the General Post Office, he (Mr. C.) learned that they had no fault whatever with Samuel Payne, but presumed for political purposes Norman Payne was given the job. The same applied to the carrying of the mails from St. Anthony to Quirpon, including St. Anthony Bigg, Big Braba, St. Leonard, Griquet, Noddy Bay and Quirpon. Mr. Henry Weir received instructions from the Postmaster General on Nov. 18th last, but because by Mr. Weir exercised his right in voting against the defeated Government member, he was dismissed and a man named John Peyton substituted. Dealing with the Agricultural policy, Mr. Clapp showed figures that only \$89.33 was allocated for the district of St. Barbe with its 10,000 people, while \$200 of the grant was given to Hr. Grace, with a population of 12,000 people. He had been accused of voting against the Bonne Bay Branch Railway Line, but said that the reasons he had already given cleared up this matter. He voted against the building of five railways as it meant such an enormous outlay. The Prime Minister had said to equip these railways would be done for \$4,000,000, whereas they cost \$6,000,000 already, and not one of them was finished up to the present. He would like to know whether it is the intention of the Government to construct the branch to Bonne Bay this summer or whether the Premier will go hat in hand to the Rieds to ask them to wait for a convenient season when he can go abroad to borrow sufficient money. Mr. Clapp said that the charge of the car ferry service from Bonne Bay to Bay of Island was a great set back to the people of his district. He showed how the lobster industry, one of our most important industries, was being neglected and pointed out how protected by stopping the present system of barring female lobsters in shallow coves where the sea washed up the fry which were eaten by the crows, and most of all by the abolition of the single lobster pots, which were placed inshore under ledges and were engines of destruction to the female lobsters.

Mr. Clapp followed, emphasizing the way he was being treated by the heads of the different departments concerning the district he represented. ## "Volunteer" Throws More Light On the Firemen.

Editor Evening Telegram.

Dear Sir.—Since starting out to make public the difficulties under which the firemen exist, I am pleased to find that some little interest is manifesting itself amongst the citizens in the cause that I espouse, for I have met many persons who seem surprised to find that the firemen receive such scanty salaries. Some there are who have had the idea previous to my writing that the firemen had their house rent, coal and light supplied, in addition to their salaries, but now that they have learned that such is not the case they are convinced that in asking for an increase of salary I am voicing the sentiments of the people in general. Thirty-eight dollars per month for men who work eight or ten hours a day, may be thought to be fair wages by a certain section of the community, but when we realize the fact that the firemen actually do 168 hours duty out of 192, the pay they receive appears almost ridiculous. The firemen are on duty all the time day and night, except for one day, which they get off in their turn. As for instance in one of the stations there are eight men who do duty, in each case every fireman does seven days and seven nights continuous duty and is relieved one day out of eight as his turn comes round, and as I said in a previous letter, he is supposed to answer an alarm and attend a fire even on his "day off." When we take this fact into consideration, it must be apparent that the firemen's life is indeed nothing short of drudgery. To alleviate this hardship surely these men should receive decent wages, and why the matter has not been ventilated.

Passes my Comprehension.

But now that the facts have been made clear, I hope that public sentiment will make itself felt so as the Government will realize that better treatment is due these men. Our papers are loud in their praise of the fire brigade when they cope with some big fire that threatens to wipe out the town, but as soon as the fire is out and danger is passed a complete silence sets in, and we hear nothing more of the firemen until another big fire occurs. The editors of our papers can do a great service to the firemen if they will open their editorial columns on their behalf, for I firmly believe that the gentlemen who occupy these important positions feel as I feel, that thirty-eight dollars is not a sufficient salary per month for the arduous and risky du-

ties that the firemen are called upon to perform. It is a lamentable fact that matters such as this receive but little attention from the public press whereas much less important matters receive unlimited notoriety. If the Government cannot see its way clear to increase the salaries, owing to the deficit in the revenue, then some steps should be taken to raise the funds necessary to do so from some other source, and here it may be asked it is advisable to make the Insurance Companies come forward and pay larger licenses. Councillor Ryan has said that the Council is prepared to pay a larger share than is now paid towards the upkeep of the Fire Department, and his suggestion that the Council approach the Government with a view to improving

**The Financial Condition of the Men** seems the correct one under present conditions. Anyway Councillor Ryan has set the ball rolling; it is now up to us to help him in the movement Mr. Kent did his best for the firemen at the last session of the House, and I now ask our newly-elected member, Mr. Higgins, who claims to be fearless in championing the rights of the people, to come forward and do his best for these underpaid men. My reason for asking Mr. Higgins to do this is, because he is a supporter of the Government and a member of the city. I also ask the editors of the papers to assist me in this matter, and I feel sure when we procure fifty dollars a month for these men, we will all feel that we have done our duty in a noble cause.

Yours sincerely,  
VOLUNTEER.

St. John's, Jan. 21, 1914.  
P.S.—Since writing the above, I find that Councillor Ryan's proposition has been turned down by the Mayor, on the ground that it does not come within the jurisdiction of the Council. This appears strange, when we realize the fact that the Council pays \$12,000 annually towards the upkeep of the Fire Department. I will deal with the Council's action in another letter later.—V.

**YOUNG MAN, DO YOU WANT ONE?**—We refer to the fact that we have a few choice patterns of our up-to-date warmth-without-weight Overcoats left, and we got to clear them out. Come and select one, as you need it, and we will talk about the price privately. Made in our famous up-to-date, double-breasted effects. Don't lose the chance. SPURRELL BROS., 365 Water Street, next door to Parker & Moore's.—Jan 27, 1914.

### Formal Opening

Of New Club Rooms.

The St. Andrew's Society Club Rooms were formally opened last night, a large gathering of members and prospective members together with their lady friends being in attendance.

The celebration consisted of a concert and dance which were thoroughly enjoyed by all present.

In his opening remarks the Chairman, Mr. J. Browning, dealt with the life and works of Burns, the Scotch Bard, in an eloquent and interesting manner, after which the following programme was rendered:—

Pianoforte Solo—Mr. Nichol.  
Song—Miss Irving.  
Song—Mr. Herschel.  
Violin Solo—Miss Johnson.  
Song—Miss Herder.  
Song—Miss Strang.  
Recitation—Mr. W. D. Watson.  
Remarks by Rev. J. S. Sutherland.  
Several congratulatory messages on the opening of the rooms, received from sister societies in Vancouver, Montreal and elsewhere, were read to those present and were received with much applause. A poem on "Burns' Night" by Mr. James Murphy was also read and was greatly appreciated.

After the concert dancing was begun, the music being supplied by Mesdames Melville, Cleary and Mr. Nichol. During the interval refreshments were served by the lady friends of the society, and dancing was kept up until an early hour this morning.

### Comic Singers.

Could anything my friends, be sadder, than is the modern comic song? Of sense or taste it has no shadder in sound a n c fury it is strong its humor is a thing distorted its chorus treat of "spoons" and "moons," it's time the authors were escorted to some stone hatch designed for loons. Al eve I wind my phono-grammer, and then a "comic record" start, the music gives me Katzenjammer, the words just read and break my heart. It always has the same old burden: "Come out and spoon beneath the moon," the sicker rot the fer was heard on this one, she since Adam hummed a tune. Oh, Ada Jones and Billy Murray, and all who sing for graphophones, suppress this nuisance, in a hurry, and sing good songs in dulcet tones! So many songs with truth are gleaming, so many touch the heart and please, there's simply no excuse for screaming such idiotic things as these. Kill off the "spooning" and the "mooning," of which the loud voiced warbler tells; one song you heard you: mothers crooning was worth ten million modern yells.

Opposite 1911, by Mrs. Katherine Jones

### At His Old Work

Seth Ormandy, chef of the Stephano, arrived by that ship yesterday. Seth has taken up his duties once more. He had resigned about six months ago and was intended to give up going to sea, but evidently the attractions of Neptune has proven too strong for him and so we see him at his old post once more. He still looks hale and hearty and feels good for many years to come.

### Cured Eczema Like Magic

Suffered for Years—Tried All Kinds of Treatment—Surprised at Results From Dr. Chase's Ointment.

You can soon tell when people are enthusiastic about medical treatment by the language they use. After experimenting with all sorts of ointments in a vain effort to obtain relief and cure, the writer of this letter was astonished at the quick and satisfactory results obtained by the use of Dr. Chase's Ointment.

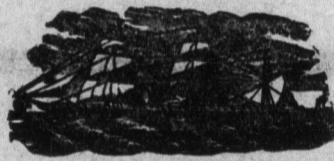

"It worked like magic," she writes. Indeed, it is surprising the healing that is often effected in a single night by this great ointment. The stinging and itching are relieved, at once, and cure is only a matter of time and patient treatment.

### Do You Know How A Suit of Clothes is Made

Do you know how a pair of shoes is made? Are you a judge of fabric and leather? Are you a judge of workmanship?

Did you know that there are 152 parts in the average suit of clothes, and that the workmanship on any one of these parts can be skimmed and cheapened? Did you know, for example, that in some factories they give you a hand kneaded collar which takes a tailor fifteen minutes to make and that in other factories they have a machine that does the work in three-fifths of a second?

Did you know that there are sixty-two parts to the average pair of shoes, and that every one of those parts can be cheapened to make a price?

Did you know that your shirt can be made in twenty different ways with twenty different qualities, so that, while you can tell them apart, one shirt will last many times longer than another?

Now, what are we getting at? Simply this: If you know merchandise, you can buy your clothes, your shoes, and your shirts, any place. But if you don't know merchandise, then there is only one thing left for you to do, and that is to buy it from the man who does know merchandise and whom you can trust.

Now what men are the best experts on merchandise and how are you going to be able to know them? The answer is very simple. The leaders in every business line are the best merchandise men, because they have to be the best in order to become leaders.

Next, in order to find these leaders, all you have to do is read the advertising in your daily paper. In every line the men who advertise are the leaders in their line. You know as well as anybody else.

And last, these men are safest to deal with, because the man who advertises, while he has most to win, also has most to lose.

Therefore the natural conclusion is that in buying your overcoat and suit, and your shoes, and shirts to-day, all you have to do is to look through this paper and buy these things from the men who advertise.

This is all so clear and logical that the next thing now for you to do is simply to open your paper and begin looking.

The man behind his merchandise is the man you want to know.

### The Execution of Lady Jane Gray.

The Crescent Picture Palace was crowded to the doors last night as an excellent bill was prepared for the beginning of the week and the same will be repeated to-night. On to-morrow and Thursday afternoon and evening sessions the great historical picture "The Execution of Lady Jane Gray" will be presented. Some of the world's famous actors are in the principal roles. The Crescent management were very fortunate in securing this wonderful production. The usual prices and sessions.

### Miss Galway Better.

Miss Alee Galway, who was severely injured at the Prince's Rink, as mentioned in yesterday's Telegram, is recovering from the effects of the injury. The deep wound inflicted in the face, caused by coming in violent contact with the skate of her companion was very promptly and skillfully treated by Dr. Cowperthwaite. The danger from concussion of the brain, which it was feared the force of the blow had effected, has passed over and it is likely that in another week or so she will have completely recovered.

CLEARED FOR MALAGA.—The schr. Lena cleared from Carbonear yesterday for Malaga taking 2,072 qts. of Labrador codfish from J. Rorke & Sons.

## HOCKEY.

### Exciting Game --- Another Play Off--Crescents Defeat Feildians.

Another play-off was necessary last night to decide the winners of the Crescent-Feildian hockey match which took place in the Prince's Rink last night, resulting in the Feildians going down to defeat.

The attendance of spectators was the largest for the season, as a stiff battle was anticipated between these two teams.

The game was fast and lively and excitement and enthusiasm prevailed throughout. Onlookers seemed to be disappointed over the absence of combination, forgetting of course that the ice was cut up badly and it was difficult to control the puck. The players lined up in this order:—

Feildians.	Crescents.
N Hunt .....	goal .....
Rendell .....	point .....
Strong .....	cover .....
Pinsent .....	rover .....
White .....	right .....
Winter .....	centre .....
Parnell .....	left .....
	.....Joy

Play opened with the Crescents aggressive; they kept worrying their opponents who became hostile and Strong made a run; he lost to Herder who had a look at Hunt but failed to score. Fast and exciting play followed. Individual work was very much in evidence but had no effect. The Feildians pressed hard and their efforts were rewarded by White drawing first blood.

Feildians, 1.  
The Crescents became warmed and

opened the ball at a fast pace. Their opponents were equally determined to gain supremacy as Winter captured the disc, gave a splendid display and only missed from landing the second goal by a narrow margin. Len Stick then broke loose but could not succeed in beating Hunt. The Crescents worked with renewed energy and succeeded in getting the equalizer through Hutchings.

Crescents, 1.

### SECOND HALF.

On resumption play assumed a harder and rougher aspect. Crescents had matters in their favour and kept pouring shots at Hunt who was impregnable. Both sides appeared to be worn out and a small bit of give and take play was witnessed. Winter and White combined and it was only Thomas's face which was made love to by the puck, that saved another goal from being registered. For the balance of time nothing brilliant occurred. As the score stood one goal each the teams again faced each other and after eight minutes the Crescents scored the winning goal.

Mr. J. C. Parsons was referee.

### NOTES ON THE GAME.

The most exciting game yet, but not the best hockey.

Nix Hunt, for the Feildians, gave a marvellous exhibition of goal tending. Strong was certainly a strong man on the ice.

Winter, Pinsent and White were also good.

For the winners the Stick brothers and Herder played well.

The players request the onlookers not to spit tobacco juice on the ice.

The Vics. and St. Bon's. will meet to-morrow night.

### The Skate Thief. The House Next Door.

Some "practical" joker or skate thief went into the Prince's Rink a few evenings ago and "lifted" a new pair of skates and boots belonging to a college hockey player. The footwear that the party left after him was of a nondescript kind, apparently are survivors of the '92 fire, while the skates are of an unknown brand and evidently have seen the rays of a good many winter's suns. Such a mean theft merits severe punishment. If the culprit does not return the stolen articles the police will get after him.

## Municipal Offerings of the Moment

Numerous enquiries for municipal debentures have been received during the past few weeks from that class of investors whose primal investment need is SECURITY.

Nova Scotia municipals with their unblemished record conform as no other security does to this consideration. And circumstances now fortunately permit of a comparatively high yield as well.

But the supply is limited—although at present we can offer a fair amount of Amherst, New Glasgow, and Bridgewater debentures on a 5 per cent. basis, and Glace Bay on a 5 1/2 per cent. basis. There is also a small lot of Province of Nova Scotia 4 1/2 per cent. debentures and City of Halifax 4 per cent. and 4 1/2 per cent. debenture stock.

A complete list with particulars will be sent anywhere on request.

## Sagona Back.

The s.s. Sagona arrived from the northward at 7.30 p.m. yesterday after experiencing one of the stormiest trips since the service was established. Considerable ice was met on the coast and according to reports received from the officers, the winter is one of the severest for many years. The ship came direct from Greenspond to this port and brought only one passenger, Mr. Blackler. The service is now closed for the season, and the ship will likely lie up for some time before being put in readiness for the sealfishery.

## The Greatest Invention Of The Age

NOW IN USE BY LEADING MERCHANTS IN ST. JOHN'S.

By the use of this latest invention you can have, in one second, speech with any or all of your staff, located anywhere on your premises, without leaving your desk, without wasting the time your employees use in going from their station to the private office, without any bell to ring or other attachment to handle. You may give callers attention without admitting them to your room and all the time your hands are disengaged and you may speak from three to ten feet from your instruments and be perfectly heard at the other end of the line. If you are interested in this service Mr. Percie Johnson will furnish detailed information on request. This service has been tested by six months perfect working in St. John's.

## Sloan-Duployan Shorthand Competition

In the Semi-Annual International Shorthand Competitions held last December in connection with the Sloan-Duployan Shorthand Society (headquarters, Ramsgate, England), two Newfoundland competitors have been successful. In Class II, Miss Ada Barnes, of Allandale Road, St. John's, gains one of the four silver medals awarded for the best specimens in reporting style, accuracy. In Class III, Miss Bella Buckley, of 89 Military Road, St. John's, gains the only gold centre medal for the best note and transcript at 150 words per minute.

Both of these successful candidates are pupils in the Commercial Department of the Convent of Mercy, Military Road. Quite a large number of medals have been gained by the pupils of this academy, although on this occasion the highest award of all, the gold medal in Class IV, does not come to Newfoundland. The Federated Malay States have secured this trophy, the successful candidate being Mr. John Chellappah, of Kuala Lumpur.

## Badly in Love at Fourteen.

by Tellegen, Who Has Made Such a  
Sensation in "The Picture of Dorian  
Gray," at the Vandeville Theatre,  
Tells P. W. of His Early Struggles  
to Live.

I was but fourteen years old when  
my first great adventure of my life  
began. I tell you what that was. I fell  
in love. Yes, for the blind god does  
not always choose his victims accord-  
ing to their age. Madly I loved a girl,  
who seemed to me then to be the most  
beautiful creature in all the world.  
But alas! my parents would not be-  
lieve in the reality of this grand pas-  
sion of mine, and so I grew desperate.  
Late one night, when all the house-  
hold was in bed and asleep, I crept  
from my home in Holland and disap-  
peared into the darkness, fully deter-  
mined never to return to the roof of  
my home. I managed to get clear away  
from the old home, and some days  
later I obtained an odd job with a  
carpenter.

My wandering over Europe, which  
lasted for the next three years, taught  
me, as you may imagine, a great deal  
about life. During those eventful  
years I did whatever work I could get.  
Besides the carpenter, my masters in-  
cluded a baker and a tailor at differ-  
ent times.

Then I got a job as stoker on a  
transatlantic liner, and on the return  
voyage from America I remember that  
one night I gave an entertainment all  
in my own name.

I entertained a Ship's Passengers.  
The passengers were hard up for  
amusement, and one of them, with

whom I had struck up a slight ac-  
quaintance, asked me to try my hand  
at a dramatic entertainment. I did so,  
and, curiously enough, it was quite a  
success. That was my first theatrical  
appearance.

At the end of three years I returned  
home, thoroughly cured of my first  
love by now, but soon afterwards my  
poor father died, and my mother and I  
were left practically penniless. Then  
it was that we left the old home for  
good and all went to Paris; and it  
was here that I became for a time an  
artist's model.

I remember some amusing studio  
incidents at this time. On one occa-  
sion a girl with beautiful coils of hair  
wound about her head was preparing  
to sit for an artist when the painter  
remarked that he would like to sketch  
her with her hair down over her  
shoulders, as it seemed so luxuriant.  
Without a word the girl retired to the  
dressing room and presently returned,  
having let her hair down. But, in-  
stead of the long tresses, it scarcely  
reached to the nape of her neck, while  
in her left hand she bore the beau-  
tiful plaits of false hair which the artist  
had so greatly admired.

I did not remain a model long, but  
had the good fortune to be taken up  
by Rodin, under whom I studied  
sculpture, and then my real theatrical  
career began. I met in Paris one day  
a friend of mine, who was producing  
a piece by Ibsen, called Gipsy, and  
it was to be produced in two days'  
time, and his leading man had fallen  
ill at the last moment. My friend was  
in despair, but I told him to cheer up,  
as I happened to be acquainted with  
the play, and, if he liked to trust me,  
I would try to play the part in ques-  
tion.

Badly Bitten by a Snake.

He gratefully accepted my offer,  
and the remarkable thing was that  
my interpretation of the part was an  
extraordinary success, so much so that  
I was deluged with theatrical offers  
from all quarters.

It was after this that I again fell  
madly in love, and, in order to es-  
cape from my passion, I went off to  
Brazil, where I rode daily through the  
wildest parts of the country on horse-  
back. One day while resting under a

tree, I was bitten by a snake, and in  
trying to remove the poison I pro-  
ceeded with such energy that I hacked  
a great piece out of my arm, which  
will bear the scar as long as I live.

Returning to Paris, I was engaged  
by Madame Sarah Bernhardt as her  
leading man for the American tour  
which she was then about to under-  
take, and once more success smiled  
upon me.

As you may guess, I like to play  
parts where there is plenty of scope  
for the emotions, and for that reason I  
have chosen Dorian Gray for my first  
English venture. But I am also a  
great admirer of your Shakespeare,  
and when my English is more perfect  
I hope to play in some of his works.  
My favourite part of all others is that  
of Romeo.

## Ponderous Personages.

GOLIATH.

By GEORGE FITCH.

Goliath, the most famous giant in  
history up to the time of Christy Mat-  
thewson, was born a poor boy in Gath,  
and soon rose to a height of over  
eleven feet, unless the press agents of  
those days were even more reckless  
than our.

Goliath became very famous on ac-  
count of his height and secured a  
very lucrative position in the army of  
the Philistines, who fought with  
swords instead of ink in those days.  
It was at that time the custom for  
every army to carry along a trained  
giant, if he could be secured, and let  
him do most of the fighting. Goliath  
proved a very willing scrapper and  
used to delight in parading before his  
army and daring any man of the  
opposing hosts to come out and fence  
with him. Some rash young cham-  
pions did so at various times, but, as  
Goliath had a sword nine feet long  
and a spear with a shaft like a walk-  
ing beam, they usually died before  
they had gotten near enough to him  
to begin their side of the battle.

Because of this fact, the Philistines  
waxed more powerful each year and  
used to bully the rest of the then  
world unmercifully. They owed the  
Hebrews several long scores, and  
when they finally declared war and  
marched down upon Saul's army, with  
Goliath striding in front like the  
Goddess of Liberty on a suffragette  
raid, the whole Hebrew nation was  
seized with panic and stocks came  
down on the run.

Day after day Goliath walked in  
front of his army, begging any little  
thing on the other side to come out  
and discuss the issues of the day  
with him. But Saul's warriors re-  
fused with remarkable self-control.  
Finally, David, a young shepherd, who  
had never met up with giants and  
couldn't be expected to appreciate the  
danger, accepted the challenge. He  
walked out in front of the army with  
his sling shot and when Goliath  
charged down like a runaway motor  
truck, David plunked him in the fore-  
head with a stone. To the great  
amazement of everybody concerned,  
Goliath fell down with great haste and  
David cut off his head with his own  
sword.

This story teaches us that most  
giants are only bluffs after all. If  
the people of Massachusetts and New  
York had heeded this lesson, they  
would not have shuddered so long and  
unprofitably before the New Haven  
Railroad and Mr. Chas. Murphy.

## Wedding Bells.

HICKS-WALSIL.

A quiet but tony wedding took  
place at the Presbytery, Holyrood, on  
Thursday morning last, when Mr.  
Thomas Walsh, now of Holyrood, but  
recently returned from Montana, was  
united in hymen's silken bonds to  
Miss Katie Hicks, the recently re-  
signed talented and successful teach-  
er of ten years standing of the South  
Side. The ceremony was performed  
by the Rev. W. P. Finn, P.P., before  
only the immediate friends of the  
bride and groom. The bride was  
neatly and handsomely dressed in a  
suit of blue amazon with hat to match  
with ermine furs. She was attended  
by Miss May Joy, who was also cost-  
ly attired. The groom was supported  
by Mr. J. J. Hicks, brother of the  
bride. After the ceremony the party  
were entertained by Father Finn,  
who in a brief speech proposed the  
health of the bride, extolling her  
amiable characteristics and wishing  
her endless happiness in her new  
life. Mr. J. J. Hicks, on behalf of  
the bride and groom, made a happy  
and hearty response. A reception  
was held at the home of the bride,  
when the health of the newly wedded  
couple was duly honored by the

guests. The bride received quite a  
number of presents and congratula-  
tions from friends all round. 'Twas  
intended to spend the honeymoon at  
Hicks' Salmonier, but the weather  
conditions forbade this and the hap-  
py couple are now spending their  
honeymoon here in the city. We con-  
gratulate Mr. and Mrs. Walsh, and  
wish them bon voyage in their jour-  
ney through life and may it be laden  
with bliss and success.—Com.

NEW YORK, Jan. 26.  
Exceptionally heavy weather is re-  
ported by four liners. The Cedric  
from Liverpool was 26 hours late;  
La Savole from Havre, due on Satur-  
day, arrived to-day. Capt. Favy,  
of the Santa Anna from Maracaibo,  
said he had made 111 trips, but had  
never before experienced such high  
gales and heavy seas. The Campanha  
from Liverpool, brought three of her  
crew suffering painful injuries sus-  
tained in the rough and bitterly cold  
weather.

NEW YORK, Jan. 26.  
Disagreements between republi-  
cans and monarchists among 35 Chi-  
nese seamen aboard the British  
freighter Madawaska, which caused  
frequent bloodshed during the voy-  
age from England, brought about the  
detention of 16 Chinese at Ellis Is-  
land for mutiny. The sailors under  
arrest are republicans, and will be  
set back to England for trial. The  
monarchists stayed aboard the Mad-  
awaska and sailed with her last night  
for Brazil.

LONDON, Jan. 26.  
Sir Max Leonard Waechter, apostle  
of the federation of the States of  
Europe, and a noted man in com-  
merce, announces the foundation of a  
European Unity League. His aim  
is to organize anti-armament forces,  
in the States of Europe, which are  
expending five hundred million  
pounds a year for warlike purposes,  
and this amount is rapidly increas-  
ing. As the men serving in standing  
armies might earn another £500,000,  
000, the loss in times of peace is a  
billion sterling each year, and civil-  
ization threatens to collapse under  
the military burden.

LOS ANGELES, Jan. 26.  
Santa Barbara, Ventura, and Ox-  
ford have been cut off from the rest  
of the world for more than fourteen  
hours. At daylight this morning the  
Southern Pacific had lost its coast  
line and valley branch to South  
Mojava, and suburban electric traf-  
fic around Los Angeles has been en-  
tirely crippled. This morning began  
the third day of the worst storm in  
Southern California for many years.  
Santa Barbara was last heard from  
at 5 p.m. on Sunday, when water two  
feet deep was reported in the South-  
ern Pacific Station. The bridge  
across the Sepe River at Fillmore,  
a \$4,000,000 structure, went out yester-  
day afternoon. The storm brought  
the seasonal total rains up to 13.76  
inches, which is 6.35 inches above  
normal.

## Laxative for Old People—Cascarets.

Salts, Calomel and Pills set on Liver  
and Bowels like pepper acts in  
Nostrils—Danger!

Get a 10-cent box now.  
Most old people must give to the  
bowels some regular help, else they  
suffer from constipation. The condi-  
tion is perfectly natural. It is just as  
natural as it is for old people to walk  
slowly. For age is never so active as  
youth. The muscles are less elastic.  
And the bowels are muscles.  
So all old people need Cascarets.  
One might as well refuse to aid weak  
eyes with glasses as to neglect this  
gentle aid to weak bowels. The bow-  
els must be kept active. This is im-  
portant at all ages, but never so much  
as at fifty.  
Age is not a time for harsh phys-  
ics. Youth may occasionally whip  
the bowels into activity. But a lash  
can't be used every day. What the  
bowels of the old need is a gentle and  
natural tonic. One that can be con-  
stantly used without harm. The only  
such tonic is Cascarets, and they  
cost only 10 cents per box at any  
drug store. They work while you  
sleep.

testants, and a lively game is antici-  
pated.

## TO FORD OWNERS

and prospective owners, what a full line of parts right here in the city means to you—prompt service and every satisfaction. It is useless to ignore the fact that you don't require parts. It is all the same if the car costs eight hundred or eight thousand the parts must be renewed sooner or later. The piece of machinery has not been made yet that won't wear. Unfortunately we are such a great distance from the factory and to get parts it takes considerable time, not to mention them having quite a rest at St. John, N.B. for a month or so; and then when you do get them at last, nine times out of ten they are not as ordered. Personally I have known cars to be tied up all the summer from the above cause.

I have a full line of parts always in stock and invite inspection. In fact I carry the only complete line of parts and accessories in the city. I shall be leaving for the "Ford" Factory about the fourth of February and any orders placed before I leave will be attended to personally.
